Dear Sir & friend:

I learn by the associated press dispatches that the Pops
have persecuted you and a large
number of your associates, for
no cause except political.
Your long and excellent ser-
vice there must seem to have been
sufficient reason to have
stirred the handy injustice;
but if your Pops are like
ours, they know no justice but self.

MOSCOW.

Is the Professor of Chemistry out with the rest?

I desire to make a change here on account of my wife's health. The altitude at long, damp winters are more than she can bear up under much longer.

I have a good position, fairly good quarters (basement) though I begin to feel physically the effect of dampness. I seem to begin to get satisfaction and I think I can remain as long as I desire, but the health of my family and his little girls prompts

~~and~~ to look elsewhere.

Again, we have an entire new Board of Regents, at its annual meeting in June the members thereof may believe themselves called upon to reduce salaries. At present my salary is \$1800.00 per annum.

If your professor of chemistry is out, would you advise me to apply for the chair?

Dr. Horrington of the University of Washington, at Seattle has resigned gone east, and a new president is needed there.

Dear Mr. Fairchild:-

I have been reading with great surprise of the action of the populists in getting possession of The Kansas State Agricultural College. I regret this very much indeed - as well as hundreds of thousands of others will. I am very sorry to see you leave, but can not but respect you for the course you have taken in not remaining at the head of a college to be run by such an element. There will undoubtedly be a strong revulsion and change a little later. It is too bad to have politics get into educational matters in such a way.

With kind regards I remain,

Geo. T. Fairchild, Esq.,

Manhattan,

Kansas.

Very respectfully,

W. B.

I note that you took personally one of the bonds that was sent up because there was a lack of funds in the college to take them.

My Dear Friend:-

I have heard with very deep concern and sorrow something of what has been occurring there at the College the last few days. I first saw something about it in the daily paper here last evening and today I received a letter from Mother. I can hardly see how it is possible at all that such action as hazardous and, it seems to me, ruinous and in every way ^{so} bad should be taken.

The more I have been away from home and Kansas and have learned more definite knowledge of other institutions the more I have honored and ~~taken~~ pride in the K. A. C. which I know owes so very much to you as its President; your mis darf in managing it.

Personally I feel that I shall always feel myself greatly indebted to you for help in many ways. I could relate many incidents, most of which you have forgotten but which I never will, that did me great good.

I cherish a high regard for all the faculty as it was when I was there.

President - I do not write this because I have any idea you need it from me but because I feel it so deeply I want to write you.

If anything is done by the alumni or in any way that I might help I shall be very glad to know of it. I still hope however that it may not be as bad as reported by the papers.

Mrs. Phackrey joins me in all of this.

Very respectfully yours,
John E. Phackrey.

Mr. F. S. Ditto feels about as we do,

17

Oberlin, April 13th. 1897

My dear Brother George:-

Our paper brings startling news in regard to the political fanaticism that has struck your College. I have waited a day in the hope of hearing that the report was without foundation, but nothing comes. The movement is so unprecedented & preposterous that it is difficult to accept the report as an approximation to the truth. It is one of the wildest blows at state educational institutions & even at government by the people that could be thought of. Of course you cannot have time to write much, but tell me in a word what you think is coming of it, & what you who are thus dropped are proposing to do.

I need not write about our home affairs, you have heard so recently. You have doubtless heard of Mary Gerrish Francis having been in a sanatorium in North Adams, Mass. for several months past under treatment for cancer. Her brother went for her ^{at her} call last Friday evening, & reached home with her Sunday noon. She is still cheerful & hopeful, but the prospect is that she must follow Martha & her mother before many days. Her husband & daughter are in California, & there is no probability that they have come.

Love from us all to you & yours,

Faithfully,

Isaac H Fairchild

My dear Friend =

I notice in Monday's Chicago Record, a news item in reference to the late action of the Board of Regents of my Alma Mater that provoked my displeasure not a little. If it is true that you with fourteen others of the tried and true standard bearers of the K. S. A. C. have been dismissed from the faculty of the College, it is in my judgment, a fatal mistake, and cannot fail in working irreparable loss to the institution.

I regard the action of the grufflemen who compose that honorable body, as malicious, cowardly, and unbecoming gentlemen in so high a station, not to say that it is unprofessional in them as politicians, and un-American in them as citizens of the great Commonwealth, and I take the liberty here of condemning

the action of that honorable body as contemptible, malicious and unworthy of the respect and confidence of a liberty loving and patriotic people.

As a loyal member of the Class of '90 and a lover of my Alma Mater, I hope the sentiment I have uttered will be the sentiment of not only of every Alumnus of the college, but of every student and every friend of the institution, & I will gladly put myself upon record in this matter, and trust that the action of this Board will be branded as infamous by every loyal citizen of the Sun flower State.

I am profoundly sorry that in so great a State as Kansas, whose public institutions of education and charity have so long been her glory and her pride, should become so blinded by ignorance and prejudice as to sacrifice all her honor and her virtue on the altar of political corruption.

My dear sir

I have long known that the leaders of the populists were in most instances either intolerant bigot, or ignorant hypocrite, possibly both. But I could hardly believe my senses this morning when I read the special from Manhattan. Has it come to this; that the work of sincere devoted Kansan in building up our state institution, from nothing, until they are sources of pride at home and abroad, is to be counteracted and overthrown by a gang of ignorant, intolerant, intemperate boorish cowards cast out of their own household, "O shame when is thy blush" The new dispensation calls for victims.

And you and your associates suffer first this band of pirates that come as the harbingers of a new civilization in my judgment, are by no means satisfied with their ghoulish work at Manhattan. When they lose their nerve, and criminals usually have a good supply on hand, they will swamp all the educational institutions of the state. Populist's economics or Socialism will comprise the curriculum and Kansas boys & girls will be dwarfed mentally, morally and physically, or go outside the state to school until reason again resumes her sway in Kas. How unsatisfactory it must be for youth reflect that eighteen years of your active life has been spent in a state where such conditions are possible.

I pity the state, smears will fly thicker and faster than ever before, but you can console yourself in part by knowing that you have laid the ground

Dear President Fairchild:

The morning papers state that yourself and fourteen of your associates in the Faculty have been summarily removed from the State Agricultural College "for no other reason than that your views are not in harmony with those of the present state administration" If this means exactly what it says, or what it intimates--that is, that these removals have been made for political reasons only, and because as individuals you do not agree with the political views of the party now in power in Kansas--then this is the greatest educational infamy that has ever been known in the history of all education: and those guilty of such foolish, unjust and iniquitous practice deserve to be outcasts as to their own party and despised by all honest men and women in Kansas Any party, any party whatever, that will thus tamper with the welfare of education and of educational institutions, to say nothing of the rank injustice to individuals, deserves to be buried beyond the hope of resurrection.

I hope and trust that the report is untrue, or is at least exaggerated. I hope this for the sake of the institution, for the sake of the men and women who have labored so long and so faithfully in the interests of the people and of all the people, for the sake of the dominant party in your state which cannot afford to have this laid at its door, for the sake of the credit of the state that I love so well nad to which I gladly gave fourteen of the best years of my life.

With warmest regards, and with kindest expressions to all those whom I once knew and with whom I labored,

I have read this morning with shame and indignation of your displacement from the post that you have so long honored, for what are said to be purely political reasons. Hon. Geo. T. Fairchild,

Manhattan Kansas,

My Dear Sir:-

I have just been reading of the extraordinary proceedings of the Board of Regents, at their meeting last week, and want to give expression to my feeling of indignation, at the course they are pursuing.

My connection with the College as Regent, was rather brief, but it was long enough to impress me with the fact, that under your able management it had developed into an institution, which every citizen, of the State of Kansas might well be proud of, and I firmly believe that if the people of the State, regardless of party, could be heard, they would condemn this action of the Board as a peice of vandalism without any excuse.

It is said that "Whom the Gods would destroy, they first make mad" and it is possibly necessary that as a state, we have got to suffer outrages like this, at the hands of the Populist Party, before the people get their eyes open to the fact that all the best interests of the State are endangered by giving the reins of Government into their hands. I hope to live long enough to see the State redeemed from the curse which now rests upon it.

Dear Sir:-

Five minutes since I first heard of the report that you had been removed from your position as President. I much hope this is not true. I had supposed few men in the line had a stronger hold on the people of the state. I am sure you will not suffer in reputation if the report is true. My dear Pres. Fairchild,

Manhattan, Ks.

Dear Sir:--

The news contained in your letter of yesterday comes to me as a shock. I had, during the winter, heard such a program outlined, and up to that time had allowed the consideration of my name in connection with the regency, but immediately forbid all further mention of it in that connection, being unwilling to be in any way identified with a movement so sweeping and to my mind illadvised. After the announcement of the name of Gen. Harrison Kelley, Mrs. St. John, and some others whom I believed to be reasonably conservative, I hoped that the Board might confine its actions to building up what is already at the College rather than beginning anew.

Thinking that you might feel some delicacy about presenting my letters to the Board, on account of the stand taken in favor of your retention, I had copies of them made and sent these with an explanatory letter to Gen. Kelley. It seems, however, that the radical program had been determined upon and there was probably no way to prevent its execution. A letter just received from ^{Prif.} Georges, informs me that all

of the College employes have been dismissed, but a dispatch in this morning's Capital states that Prof. Will is to supersede you. The situation leaves me entirely at sea and I can only hope that sufficient reconstructive ability will be brought to bear to rebuild with the least possible loss to the College and the State. I think I need not assure you that personally you have my sincere sympathy, and that I shall be glad to be of service to you should you need my assistance.

Dear President Fairchild:- I cannot express to you in this letter my extreme sorrow and deep regret at reading in the morning paper of your serious troubles at the Kansas Agricultural College. How your people could disgrace their whole state by such unwarranted action as this is beyond my comprehension. In striking at you they have hurt all Kansas in a way that will take years to get over. Nothing seems to be safe there.

If I can be of help in any way call upon me. You have done a grand and glorious work, and when the excitement is over you will take much comfort in feeling that these people, who are for a day only, cannot smirch your reputation or destroy what has been accomplished though they make check it and set it back years.

Believe me, with high regards, your earnest and sympathizing friend,

I have just read with real anguish of President Fairchild's deposition by the Populists of Kansas. I cannot express to you my disgust at the action of these people, who do not know how to treat the States' best friends decently.

My dear Sir:

I am very glad to have
your recent favor, and find that the
suggestions therein are valuable.

I will fully the statements in regard
to parties mentioned and shall be glad
to consider each case as it presents itself.

I find myself very much embarrassed
in my endeavor to get at the true situa-
tion. Matters at Manhattan are in
such a deplorable condition that one
is at a loss for reliable information.

I think I can assure you that the
present board is anxious to take
the school out of politics and restore
it, as nearly as possible, to its former
position of usefulness.

The other Regents, so far as I am able
to judge, are conservative and sensible

My Dear Friend,---

I find in Macmillan & Co's catalog of new books, the announcement
of your little volume on Rural Wealth and Welfare. The Kansas State
Historical Society would be very glad to preserve a copy of this volume
if you can spare one for that purpose.

My dear President,

Mr. Cowles and myself have conferred together concerning the possibility of inducing you to become a candidate for Governor, and decided that I should write a few of the alumni of the College for an expression of opinion regarding the matter. I hand you herewith a copy of the letter sent out, together with the replies received—one or two of the persons addressed not replying.

The Republican Party in Kansas needs such a governor as you would make to give it backbone; likewise the State, to administer its laws. If you could consent to be a candidate, I think you might be nominated, and when once nominated, an election would be certain.

I trust that you will consider the matter, and advise me of your conclusion at your convenience. I am,

Most respectfully, yours,

John H. Calvin

I am writing a half dozen or so of the alumni of the State Agricultural College in various parts of the State for an opinion as to the desirability and feasibility of bringing out President Fairchild for Governor. I do this without his knowledge, but if the replies indicate that the alumni generally are likely to be as enthusiastic as myself, I will at once broach the subject to him, and if he does not summarily stop the movement, then we will confer further concerning the matter.

I am aware that the students of the College can not alone nominate a governor, but the movement might well start with them. His conspicuous executive and administrative ability and high character are well known to all the prominent men of the State, and if his candidacy were once auspiciously launched, he would be instantly recognized as in many respects a singularly available candidate at the present juncture. Is there not here an opportunity to do the State a great service, and at the same time afford a fitting climax to President Fairchild's career in Kansas?

It is doubtless advisable that the matter do not get into the papers at present.

Very truly yours,

John H. Calvin

Friend Calvin;

Your letter

asking about the advisability
of bringing Pres. Fairchild
out in the race for governor
reached a few days ago, and
in reply I wish to state
that the idea meets with
my most hearty approval.

There is no man in
the state, in my estimation
more suitable for the position
than Pres. Fairchild.
His executive ability and
his ideal character as a
man makes him preeminently
the best man for the place.

Nothing in the world would afford me as much genuine pleasure as to see him in the race and come out successful. He certainly would have a great many loyal friends throughout the state who would be of excellent service after the campaign is once started.

Having been forced into political prominence by the political actions of the present administration, I don't believe it would be very difficult for him to make up his mind to enter a political race where there are so many things in his favor. I hope you will succeed in gaining his consent to allow his name to be used.

and you can rely on me to do my utmost to help the movement.

Please keep me informed on the progress you make. In the meantime I remain very truly yours

Minneapolis, Kansas, Oct 13, 1897.

John H. Calvin, Esq.,

Topeka, Kan.

Dear Sir:

I have your personal letter of the 12th asking my opinion as to the advisability of bringing out President Fairchild for Governor.

I had supposed that Fairchild had left the State as I understood that he was to accept a position in Virginia as President of a college there. Doubtless I was misinformed as that of course would preclude the possibility of his considering for a moment such a proposition as we are discussing.

No one has a higher or stronger regard for our President than I have, and if he feels as though he cares to enter the race I will make an effort to secure him enough support to secure some delegates to the convention.

I doubt very much whether President Fairchild would accept the nomination to any political office. He holds a higher position in the hearts of the people of this state than any governor ever had, and I do not believe that his aspirations run in that direction.

However I suggest that you approach him and ask him whether he would accept the nomination if tendered him. If he will consent to be a candidate under any circumstances, then I think it would be wise to commence quiet work among his stanchest friends by letting them know what they can do, but above all things keep the papers from getting on to our movements.

There are certain practical politicians in the ranks of our party who occupy a conspicuous position in our political pow wows who will make a vigorous fight against a clean man like Fairchild, unless we

so thoroughly intrench ourselves that they fear to enter the fight.

After you have had a talk with Fairchild I wish you would write me fully what he thinks about it so that I may be prepared to act.

Yours very truly,

Lawrence, Sept. 26, '97

My dear Sir!

Your letter I read with much surprise, but with the most cordial and hearty approval. The thought had not occurred to me and I fear many things are in the way for carrying out the project, the first one of which is the opposition that will be given by the professional politicians. That Fairchild would make a most excellent governor of this state is sure. Why should he not be? The whole matter of the disgraceful revolution at the College has won him many political supporters. He is as widely known as any man in the state, perhaps, is a man of good presence, dignified and courteous, known to be a man of rigid principles, conservative, a good executive and manager. He would win the support and assistance not only of the College alumni but of the alumni of ^{the} University and Normal Schools as well. Push the matter.

In what way can I be of assistance?

Very truly yours,

My dear Sir:

I am in receipt of yours of 23rd inst.
relative to the "desirability and feasibility of bringing out
President Fairchild for Governor."

Without delay permit me to say that the "desirability"
of the matter is unquestionable. The "feasibility" of it, Mr
Colvin, is unquestionably "remote." Indeed the "desirability"
and the "feasibility" are in inverse proportion to the
square of the distance between Pres. Fairchild as a
candidate and the "machine" as an opponent.

John E. Hessian no doubt is a candidate. Riley Co.
cannot hope to get anything with both her Fairchild &
Geary county adjoining it after two state offices
with three candidates. I am not writing as a politician,
but about the "politics" of the matter!

Geo. T. Fairchild would make an ideal governor

indeed. He would honor the position with rare character and usefulness. I would delight to honor him with my ballot. I would counsel however an abandonment of your laudable undertaking Mr Colvin because, & Messrs Fairchild would naturally "kill" each other; because Fairchild would never receive ^a ~~nomination~~ vote even commensurate with his dignity or ability; because Fairchild is much too good & worthy a man to put up for the slaughter pen, because Fairchild is not a "politician" and I apprehend caudily, the proposition you broach would be both unwelcome, and impracticable for him to consider.

I trust you understand my position.

I would highly commend the action which placed so able & clean a character in nomination for a position which he would honor; I seriously doubt its "feasibility" or possibility "at the present" juncture.

Very truly yours,
