an abundance of lime and potash in the soil,

ed the sowing of more seeds per acre than is the present practice with farmers. The grass seeds are so sparingly used that weeds spring up and choke them. It has been supported by reasonable arguments from inteligent observers that weeds exhaust the than its production costs. A grass and hay

farm must be necessarily a profitable institu tion, it the amount of stock kept be well and wisely adjusted to the size and the capabili ties of the same.

We know of no more profitable investment than that of a well ordered and well managed dsiry farm near a good sized city. The butter, the milk, the honey and the extra vegetables, etc., besides the annually increasing productiveness and consequent increased value of the land would return a large interest on the investment.-Maryland Farmer.

Good and Poor Farmers.

Farmers are too apt to look outside for the cause of their failures. If the crops are poor and continue coming until the tree is exhaust they curse the weather if the prices are poor they curse the market and the middlemen. Sometimes they are right and sometimes they are wrong. Farming, like every persuit, reduced by the sometimes they are developed the circulation and you will get fruit, checking the reduced by the sometimes they are developed to the sometimes they are wrong. quires industry and intellect. Crops won't turning sap develops the embryo bud. If the raise themselves, or sell themselves. If your land is too wet you must drain it; if too dry you must somehow furnish moisture. You

We see farmers every day, working side by side, both of apparent industry, the one always having good crops, and the other poor ones. There is always a reason for the difference, though the parties most interested may not be able to see it. One may be too stingy of his seed, or too stingy to use good seed. of his seed, or too stingy to us? good seed.
One plants and sows just at the right time, and always has his soil in the right condition, while the other is always behind his work, and never half does it. The crops of the latter and never han doos as they ought to, and he gazes over the fence at his neighbor's fine fields, and wonders at the difference. He attributes the trouble either to his land or his cursed bad luck, and seldom sees his own care-

less, slip shod ways of doing his work. When they come to marketing, the difference is still more apparent. The farmer starts out with a big advantage. His crops are first class, well grown, and well marketed; and the same pains taking care that raised them is a careless harvester and shipper.

We are apt to think that any fool is smart enough for a farmer. If our boy isn't intelligent enough to practice law or medicine, or preach, or is too stupid or honest for a mer-chant, we give him a hoe and set him chant, we give him a hoe and set him to came off in time for the hogs to take the wind-scratching for a living; and if he don't succeed we blame the business and not his brains. The fact is, there is no good opening anywhere for fools, and the poorest openings for idiots are "oak openings."—New Jersey Grang-

an eye witness. Neither do I urge that the contest be continued or renewed. But while I grower would adapt this method, in a few have my "Faber" in hand, allow me to say igan Farmer. that the annual meeting of the Missouri State Horticultural Society will this year be held in St. Louis, and that I believe I speak the mind of every member when I say that we earnestly desire the presence of as many of the Kansas fruit growers as can possibly make it convenient to come, and let them bring the best products of their orchards along.

The time for the meeting is not definitely fixed, but our worthy secretary resides at Kansas City and he will no doubt give ample notice of the time, railroad inducements, etc.

Let us have a large delegation and a full exhibition of fruits. Fraternally,

C. W. MURTFELDT.

When is the Best Time to Trim Fruit Trees.

This subject was under discussion at a recent meeting of the Experimental Farm Club of Chester County, Pa, from which we condense the following from the Practical Farmer, be lieving it will prove of interest to our readers Milton E. Conrad said the best time to trim

was when the wounds would heal quickest and when the trees were growing most rapid.

ly, about the sixth or seventh month. Prof. Peck said when to trim was not an important question in orchard culture. He had seen trees trimmed at all seasons of the year. A prominent orchardist said not to do it v sap is flowing and the buds swelling. It does him from his winter and summer quarters. not make much difference as to the time of the This minute insect in one of the most detestyear only provided the tree is making wood rapidly and you don't cut large limbs. In olden times old limbs were cut off. A wound will heal more rapidly from the middle of May to the middle of July.—Mineral matter is what the tree depends upon for vicor. Eruit credually assuming a dincy look and respondent to the middle of the middle of the middle of May to the middle of July.—Mineral matter is leaves curl up, and their bright green hue is what the tree depends upon for vicor. After the oat crop I seeded the orchard to clover, the apples, meanwhile, keeping my hogs in a thriving condition without much additionsheep, every farmer must decide for himself. C. K. WARD.

DAIRY MAXIMS.

For the last two or three years there has been a friendly rivalry between Kansas and been a friendly rivalry between Kansas and Perkins of Grand Rapids Town, our best ter making, but it is objectionable for cheese and Perkins of Grand Rapids Town, our best termsking, but it is objectionable for cheese the control of the Milk will sour quicker if the cows are fed sour milk. This is not objectionable for butmaking.

Cream from a farrow cow's milk will not al come if churned with cream from new milch

to 150 deg. I would drive away the taint, but the scalding would also drive away the aroma of the timothy, clover, or grass.

Cream can be raised by freezing, but this is not practiced in this country.

If milk is kept at a low temperature, the

cream rises slowly.

The effect of a sudden change in milk or cream is to injure the keeping quality of but

ably has a bad effect when fed to cows. It fed while fresh and sweet, it is not objection

Raising cream by freezing does not expel the animal odor, neither does it destroy germs in milk. The cream which rises first makes a better

The more aroma in butter, the less time it vill keep. So with cheese.

In the spring I would work all the cream in to cheese, to ripen it sooner and make it better, and work it off at spring prices. Later in the season I would skim more.

The cream from ordinary cows can nearly all be worked into cheese. It could not be done with milk from Jerseys or other cows whose cream rises slowly. To avoid greasy butter, churn with pressure nstead of friction. The dash churn brings

butter by pressure, and makes better butter than most other kinds of churns. Butter should across the butter but pressed down upon it. Milk, while being scalded for taint, should be stirred Results favor shallow setting instead of deep

setting. The amount of cream seems larger sometimes from deep setting, but it is owing to the fact that in deep setting the large glob ules carry with them considerable milk. The amount of butter from deep setting will be less than from shallow setting .- Prof. L. B. Arnold.

The Check-rein.

Why is it so many of our farmers, and near y all of our city carters, insist upon using a ight rein on working horses? When the horse, left to his natural inclination, has a heavy load to pull, he can best exert his back-bone in one continuous line, and this he will stall. One animal in particular, a thorough-Mr. Conrad asked how to supply ashes, &c., peculiar habits. The flowers are not produced, invariably do if not prevented by a tight check bred mare, renowned for her jumping qualities, rein. Some claim that it prevents the horse refused in a short time to cross the smallest obto the roots or digging down far enough to the same prevent the grass obtaining any benefit from the earth from falling out, and then immerse the ashes or potash.

By previous appointment we met with the stacle, and when forced to cross a foot wide to something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide to something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide the something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide the something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide the something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide the something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide the something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide to something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide to something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide to something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide to something over the top of the pot to keep from falling down, and when a man can raise stacle, and when forced to cross a foot wide to the ashes or potash.

George Bladerson said there were two general principles involved, over-bearing and barrenness. If the tree is Weakly cut off some branches, and after the fruit is set cut off some that is no matter."

the whole plant in soap suds or tobacco-liquid. We believe it. When a horse fails, a tight rein will most effectually prevent him from getting who find that their animals shy at objects on the ground, or at their side, would do well to not to his feet again. Try it without the rein, and see if we are not correct in our practice look to the windows of their stables for an agency, and quite a number of and theory both.—California Farmer.

Spavin-Is it Curable?

Is a question asked in the Western Farmer and answered by its veterinary editor, William

Horne, as follows:

No; spavin is not curable; never was, never will be—the many quack assertions contrary notwithstanding. At this advanced period of information and knowledge in all such and similar matters a man shows himself behind the times when the question of curability of spavin is not with him a settled fact, as an incurable disease. I have been so often asked if spavin or ring bone can be taken off, that I am impatient now the moment such a question is impatient now the moment such a question is asked. Neither can it be cured, but may be so mitigated that the horse may be just as useful as though the exostosis of spavin or ringbone

did not exist. The surest, and with me the best remedy is the actual cautery (hot iron) in the hands of a nuglified man; none other. Next remedy is qualified man; none other. Next remedy is active blistering with the common cantharides blister ointment or biniodide of mercury, or The following which we find in the Roches iodine ointment or binodice of mercury, or iodine ointment, or strong tincture of iodine, applied for several weeks, but fireing is the est by far, and most effective.

BRUTALITY TO COWS .- A correspondent BRUTALITY TO COWS.—A correspondent of the reports of both Secretary and Treasurer, some of the particulars of the loss of a value them addressed to to State Agent, which, after being my son, Frank D. Ward, I began with them the cause of the tumor—which was really opened, costs the agency for remailing. what is known as neutral hernia rupture of in a small way, some five years since. Our the abdominal sac—was a kick by a brutal geon, Jacksonville, Neosho county; and Treasurers, flock now consists of about 300. We have attendant. I have seen thoughtless persons twenty to twenty-five first-class imported Cotswolds and their descendants, with a few thor-ough-breds from some of the best flocks of Canada. The balance are high grades. We canada their descendants, with a few thor-ough-breds from some of the best flocks of blow, thus abuse the poor animal whose only fault was really bewilderment at the violent summer and winter, without any inconveni ence. They are very hardy, and as free from destroys his own valuable property. Repeat-disease as Merinos, and on some accounts edly I have applications for advice about more so, as they never have the foot disease. swellings, tumors, and inflammatory disorder DEAR SIR:—According to your request I will act as committee to investigate the best mode of exterminating the pest called the coding moth.

My theory is, in short, "Hog vs. Moth." This, my experience in the effort to lessen the ravages of that insect:

In the year 1871 I commenced pasturing my orchard with my hogs, turning them in early, as soon as the windfalls, began to drop, and letting them remain until I began to gather

more so, as they never have the foot disease.

The same amount of feed will foot disease.

The same amount of feed will produce more pounds of mutton and wool than in a Merino sheep. They feed and mature, weigh about 200 pounds. We have frequently had ewes, twenty months old, weigh this. We have letting them remain until I began to gather

more so, as they never have the foot disease.

They fatten much more readily than fine for commenced will from the more and oxen, which are, more than probable, in great part due to ill treatment of this character, or accidents from injuries by other cattle, which might have been avoided by cattle, which might have been avoided b twenty months old, weigh this. We have men and the comparative justice of the suggestion and potatoes.

now full-grown sheep that weigh 250 to 300 pounds. Their mutton is worth in market one pounds. Their mutton is worth in market one therefore indose the suggestion. The proper to hide or cover up the facts in the case, we do and the cow-house has no claim on her. With not want to misrepresent our condition to inequal justice might women be called upon to drive oxen and horses, because men are often times of plenty, and their failures. equally unkind to them. On the contrary I would enforce upon the men the extreme cru elty of beating or kicking a cow, and in addition its worse than uselessness; for the cowa naturally gentle animal—is rendered fearful, than one third of a corn crop, and it will be apprehensive, wild and rebellious by it, and er management is made infinitely more difficult. No animal is brought, by kind, consid-

ecommended to Simpson as a fit man to assist in our poverty. n taking care of horses and cows; so Mike him: "Mike, you may give the cows some oatmeal this morning; and be sure to give my best milker an extra quantity." "The best milker are extra quantity." "The best milker, is it, sir?" "Yes; you know the old cow that gives the most milk?" "I think I do, with the cow that gives the most milk?" "I think I do, with the cow that gives the most milk?" "I think I do, with the cow that gives the most milk?" "I think I do, with the cow that gives the most milk?" "I think I do, with the cow gives the course of the cow of sir." "Well, you give her four quarts of the mash." "All right, sir. I'll do the same." On the evening of that day Simpson had occasion o have had the best exhibition.

I will not decide nor offer an opinion, for ircumstances have prevented me from being new witness. Neither do I urge that the line of the control of the meself." "You stupid blockhead, why did you do all that?" "It was yerself that told me, sir." "I—I told you to put it in here?" "Indade ye did, sir." ',Why, you thick headed rascal, what do you mean?" "Don't be in a passion. master. Did ye not tell me to give yer best milker an extra quantity of mash? would urge upon the friends of this movement If two parties disagree we suppose they They all made a good stand, and yielded good Hoping the FARMER will be able to save a the necessity of a thorough and early organi-hundred page book.—Arkansas City Traceler.

tees success. For this purpose we advise the friends of Reform in every county where they are unorganized, to meet at their respective county seats on Saturday, 3d day of October, in Mass Convention, for the purpose of placing a full county ticket in the field, or appointing an early day for that purpose; as may seem best in their judgment. Also, to organize a thorough canvass of every School District, which local and other speakers that can be engaged, should attend. We regard this local organization and local canvass, as equal in importance to any work in the Campaign. If heartily and enthusiastically prosecuted, it will secure results that will redound to the honor and prosperity of the State.

The Committee urges that the county organizations assist in advertising these meetings, and that the County Executive Committees secure such places for holding meetings as t deem best, and make all necessary preliminary arrangements to secure successful meetings.

By order of the State Central Committee

THE KANSAS FARMER.

GRASSHOPPER CLUB OFFER.

While we understand that people must read and in times of trouble that a paper such suggestions, we propose to divide as nearly as possible the burtnens of the present season.

To accomodate the smaller post offices and place the FARMER within everybody's reach we have determined to receive clubs of 10 or more, to be sent at one time, for one or more WRITER'S CRAMP.—P. W. Sheafer, Esq., of Ottaville Pa writes uses follows: "Noticing This, it must be remembered, includes the

new subscription besides his own for the coming year we will in return give you a paper which will favorably compare with any or its kind published in the country.

PATRONS' HAND-BOOK.

gee, bound in cloth.—Wilson County Citizen.

WE are indebted to Hon. J. K. Hudson for a copy of the "Patrons' Hand-Book." It is a neatly gotten up book, and should be in the hands of every Patron.—Garnett Pkuindealer.

MR. J. K. Hudson, of the Kansas Farmer, sends us a handy little volume, the "Patrons' Hand-Book," containing Constitutions, By-Laws, Decisions, Directions, etc., of value to Patrons or those wishing to be informed on Grange subjects.—Western Rural.

FROM J. K. Hudson, Topeka, Kansas, the "Patrons Hand-Book," for the use and benefit of the Order of Patrons of Husbandry. It contains much useful matter to the members of the Order.—Maryland Farmer.

eases of the eye. I would strongly recom. From J. E. Barnes, Sec. Kentucky State Grange. I find in the Hand-Book much of value to the Grange. It will fill a void in our necessities long felt. Would like to see the Hand-Book in every Grange in the State.

From W. W. Armsworthy, Council Agent, Crawford County, Kansas. I find it covers a want long felt by every Patron of Hus-andry, and should be in the hands of every Patron.

From D. M. Stewart, Sec. Ohio State Grange. I think it is the best I have seen, and containing just such information as I daily need, and every Secretary should have one

Bro. J. K. Hudson, editor of the Kansas Farmer, Topeka, Kan., publishes a very useful little work for Patrons, entitled "The Fatrons Hand-Book," for instruction in the Constitution, By-Lawe, Manual and General Working of the Grange. It is recommended by the Working sof the State Grange of South Carolina, who desires to see it introduced into every Grange in the state. Price, \$5 cents. - Rural South Carolinian.

Mr. J. P. Davis, County Agent of Brown county, says; I think it a useful book for our Order, and should be in very Grange in the State."

We have just received from Bro. J. K. Hudson, editor of the Kansaa Farmer, a copy of the "Patrons' Hand-Book," a very valuable forty page volume compiled with great care by Bro. Hudson, and containing, besides the constitution and by-laws of the National Grange and of the Kansas State Grange, by-laws for county and subordinate granges rules of order, manual of practice, parliamentary law, etc. It is a very convenient and valuable hand-book, and would assist every Patron very materially in comprehending all the workings of the Order. The Hand-Book is soid at the very low price of 25 cents.—Michigan Northern Granger.

PATRONS' HAND-BOOK.—We have received from the publisher, J. K. Hudson, of the Kansas Furmer, Topeka, a copy of the above useful book. Its list of national and state Granges seems to be complete, besides containing the national and state constitutions, with decisions and much other interesting matter. It should be in the hands of every Patron.—Landmark.

The "Patrons' Hand-Book," published by Brother J. K. Hudson, of the Kansas Farmer, has been received, and is a complete and accurate work, though necessarily composed in a great measure of local information and advice.

—New York World.

Permit me to congratulate you on your success in com-positing so valuable a work. I rejoice too that we are get-sing a live farmers' paper in Kansas. E. A. HODGE, Deputy, Monroe co.

I received the "Patrons' Hand-Book" sent, and expect to send you orders for several soon. The contents are just what every Patron should know. I can see no reason why it should not be in every Patron's library in the land. It will be a success.

W. J. F. HARDEN.

Please accept my thanks for the "Hand-Book" just received. I think the book a perfect success, and do not see how Patrons, for the small sum of 25 cents, can afford to do without it.

J. BLAIR, Deputy, Doniphan co.

WE have received a copy of the "Patrons" Hand-Book," which contains the Constitutions, By-Laws of National State, County and Subordinate Granges, Declaration of Principles, Manual of Practice, Parliamentary Rules and Usages, History, Decisions, Directions, etc., of value to members or those whising to become informed upon the subject.—Kansas New Era.

It is a valuable compilation of information concerning the names and address of officers, constitutions and aims of the organization, and much other valuable information. It seems to be a work which all Patrons who desire to be posted in their Order should at once obtain. Much care her beat well of the posted in the control of the con

The Movement of Wheat.

The policy of the Western wheat-growers in holding back their crop for higher prices, however advantageous it may possibly prove some one or two years hence for them, is certainly a very unfortunate one for the immediate general prosperity of the country. The steadily declining price of wheat at London shipping points, the price is down as low and ments from here, evidences that this only foreign market is slipping away from us and being supplied from other sources—not unlikely

So that depression and prostration of all the interest depending on and connected with the wheat-growing section may as well be accepted as the rule of another twelve months. It is certainly a pleasant thing to be assured of cheap bread; but is not the 10-cent loaf cheaper to the man earning \$1 a day than is the 5-cent one to a man seeking in vain for promptly marketed until Great Britain would take no more, it would have infused new life into all the industries and trades of the country, needs, the whole crop might as well have been grass hoppered, so far as it is of any benefit to the country.

make statements exactly contrary to the facts in the State. set forth. The writer of the above first exhib. Rev. Richa its by undeniable figures that wheat has recentmantle of the great founder of the Tribune, rushed to market, and it has been sold at prices who can do so are holding their wheat for better prices. They are perfectly right in this. They have produced the wheat; it is their something to do. And if Kansas does not proproperty, and if they are able to hold it who vide it for them, after publishing to the world

e grain statistics of the past and it will be en that whenever a crop is so abundant as to rop a price below the cost of production, or to approximate so near the cost of production as to leave no profit to the grower, its production is largely abandoned, and the price is sure to rally again. The sowing of winter wheat in all y again. surplus for export even though the crop were the coming winter. ever so good a one. Last year corn was worth next to nothing upon Western farms, and wheat paid a fair profit. The cultivation of corn was largely abandoned, and the area of wheat planting increased. The result is that, this year, one acre of corn brings the farmer positions in the market reports.—New York

bune has got things a little mixed, but it seems to us also, that the Democrat takes a question. er in holding his wheat for high prices.

state or season, as it is this year in Kansas, try. how is the stagnation in business to be overcome except by putting the wheat crop in cir-How can our merchants pay their debts before ufacture it before we send it abroad. the farmers pay them?

We believe that for the true prosperity of from the time they are harvested, just as the productions of manufactories are from the time they are made.

The mistake of the west is not in selling grain as soon as it is harvested but in sending it east to be manufactured; in paying railroads a high rate for carrying the profit to campaign: Now York and Pennsylvania. It does not make much difference to Kansas how much wheat England wants from the United States, if we are going to send it out of the State for just what it cost to raise it and let the Eastern States grow rich in grinding and handling it. The facts, in regard to holding wheat in the pal wheat growing states, Minnesota, Iowa of national evils than now. Frauds, deand Michigan, are able to hold their wheat, and many farmers do hold it until they cannot hold it any longer, then they all rush to market to secure the high price which the have forced, and the result is, that by the time the poorest farmers, which are those living farthest from market always, have reached the

1,500,000 bushels.

They are forced to sell it or put it into meat
This state of affairs does not indicate any
They are forced to sell it or put it into meat permanent improvement in the price of wheat for the balance of this season, but rather tends toward even lower prices for such as will find its way to market at any price; this in turn, will only tighten the grip of the "holding on and employ a great many of those out of employs a great m ployment if we had facilities for manufacturing it.

Why don't we induce somebody to build mills, instead of granting a license to levy a longer afford to blindly follow the leadership tax on a destitute people with which to feed of old politicians, and pay heed to party slogan their starving children? If there are any and follow after the uplitted banner, employment? Had this crop of wheat been capitalists in Kansas who are able to make a and the rein of reveling marauding adherents corner on anything we would like to see them of an old and reckless party, who are fighting corner the wheat crop of this State and give only for place and power and plunder. and have contributed towards the liquidation our suffering people a chance to make it into ing out inducements for emigration, but when bordinate the best interests of the people to a pendent Reform party of the Third Congression, but when we get the people here we do not offer them and have contributed towards the inquitation and sund of our foreign debt; as it is, except for our own flour. Arctic Expedition.

The Public Ledger has the following. The most melancholy of all the expeditions to discover the open Polar sea, it seems to us, will be the one to get inside, if that is proved to be

"Arctic expeditions are said to be made up of three distinct stages, all of which are necessary to form a complete expedition. At first a vessel is sent to make explorations; after an indefinite interval of time a second ship is sent to find the first, and after another interval a third vessel is despatched to complete the exploration and bring back infornation of the survivors, if any, of the two preceding ships. the return of the third vessel usually completes an Arctic expedition, and after another interval of time a new expedition is sent out. The Russians have reached the second stage of the last expedition to the Arctic regions, having decided to send out an expedition in search of the Austrian ship Tegetthoff, which sailed for Nova Zembla In 1872, and has not since been heard from.

The working men's convention have nomi nated Charles A. Dana, of the Sun for mayor of New York.

The democrats have carried Ohio and Indiana by decided majority. They elected fourteen out of twenty congressmen. Iowa and Nebraska have gone largely republican. Dacota Territory has also elected the rebublican ticket.

The statue of President Lincoln was unveiled at Springfield, Ill., Thursday amidst the most imposing ceremonies. President Grant and Gen. Sherman participated in the exercises, as also the menbers of the society of the army of the Tennessee. The oration was delivered by Senator Oglesby.

For the Kansas Farmer.

original proceeding in mandamus.

Sover, and we may well ask what has been accomplished in furtherance of the great agricultural interests? If we read the leading daily papers—with very few exceptions—about all the reports we get are those of the races, the time made by the horses and the names of their owners. No doubt some of the local papers make fuller reports, but even these are quite unsatisfactory.

If we could get with the decisions, also the reasons of the committees for making certain awards, that would give us points upon which to base an opinion and possibly future action, and then if we could get the statement of how the premium wheat, corn, oats, butter, cheese, etc., were produced, and how many bushels of grain were raised per acre, or how many cows there were in the dairy that produced the best.

Original proceeding in mandamus.

Kingman, C. J.

In the 10th day of April 1872 the Governor having received the requisite preliminary papers preparation of the county of Harvey appers of the county of Harvey appers the equity to the organization of the county officers and the county officers and the county officers were elected and among them C. A.

The provisions of sec. 3, art. 9 of the constitution that "All county officers shall hold their offices for the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until their successors the term of two years, and until The season for Agricultural Fairs for 1874

there were in the dairy that produced the best butter or the best cheese, that would be profit able reading, and possibly study, for the progressive farmers.

Again, if more farmers attended the Fair with the view to purchasing improved stock if needed, they would enjoy a fine opportunity to compare the different breeds and the different By the Court animals on the Fair grounds, an advantage which every thorough farmer would prize

SUPREME COURT SYLLABI.

STATE OF KANSAS, | 88.

G. W. YNADLE vs. S. A. CRANE AND A. J. CRANE. Error from Labette County.

By the Court.

I. In an action of replevin where the defendant files an answer containing a "general denial," and six subsequent counts, in which subsequent counts the defendant admits that the plaintiff is the owner of the property replevied, and that the defendant detains the same from the plaintiff: Held, That on the trial of the action said "general denial" can be considered only as a denial that the plaintiff is entitled to the immediate possession of the property, and that the defendant urongfully detains the same from the plaintiff. (Wiley vs. Keokuk, 6 Kas. 94; Butler vs. Kaulback, 8 Kas. 688.)

(Wiley 28. Reduct, 6 Ras. 34, Butter 28. Ratioaux, 6 Ras. 683.

II. Hzld, Also, in said action that the defendant, under said "general denial" will be entitled to prove on the trial that he does not wrongfully detain said property, by introducing evidence tending to show that his detention of the same is rightful. (Town of Leroy 28. McConnell, 8 Kas. 273: Wilson 28. Fuller, 9 Kas. 177, 190 et seq. and cases there cited.

All the Justices concurring.

Moses M. EDWARDS vs. JAMES CRUME. Error from Cherokee County. AFFIRMED.

VALENTINE, J.

By the Court.

I. Where a minor son who lives with his father and is under his father's control commits certain wrongful acts; but where the said acts have not been authorized by the father, are not done in his presence, have no concection with the father's business, are not ratified by the father, and from which the father receives no benefit: Held, That the father is not liable in a civil action for damages for such wrongful acts.

II. Where a demurrer to the evidence is interposed by the defendant in a civil sction, under section 275 of the code as amended, (Laws of 1872, page 329.) and neither the petition nor the evidence shows a cause of action against the defendant: Held, That the court does not err in sustaining said demurrer.

Hald, That the court does not err in sustaining said demurrer.

iemurrer.

The Patrons' Hand-Book,

The most Valuable Work for the Grange yet Published.

Every Patron who wishes to be thoroughly informed egarding the history, character, laws, rulings, constitu-ion, decisions and work of the Order, should have one of here booken. igarding the history, that a court of the Order, should have one of on, decisions and work of the Order, should have one of less tooks.

It contains everything pertaining to the Grange, except its secret work.

There is no other work like it in extent and value to embers of the Grange, or to those who wish to become numbers. numbers.

The principles and character of the organization, its ilms and objects are fully set forth, and the objections made for the want of definite information are here fully and completely answered.

Parliamentary Rules and Usages From Cushing's Manual.

Nearly one-third of Cushing's Manual is inserted, which will be found of great value in all kinds of deliberative locates. It supplies a want long felt in our debating so-clettes, farmers' meetings, in the Grange and all kinds of public gatherings. This alone is worth the price of the look.

The Manual of Practice

as recommended by the Executive Committee is medeled from the lows Monitor and well known forms and usag-es of the Grange room. It is suthoritative, coming as it does from the highest and most trustworthy source.

How to Organize a Grange.

This alone, will be worth many times its cost to the new ranges of the State.

The careful preparation of this part of the Hand Book Tranges of the State.

The careful preparation of this part of the Hand-Book was given to Mr. W.P. Popence, a member of the Executive Committee, who is without doubt one of the best informed officers of our State Grange. In a clear and convise manner he has explained away many of the difficulties which have heretofore attended the organization of Granges. ranges.
The Patrons of the State will join us in thanking Mr.
openoe for his most excellent presentation of this sub-

Our Business Agencies.

Insurance.

On the subject of Insurance, Mr. S. H. Downs presents the claim of Mutual Insurance.

The subject of Live and Fire Insurance have, as yet, been but slightly un lerstood by the general public. That the immense insuran e corporations which have "lit gilded palaces, monun ents of their power and wealth, have taken extraordinarysums of money from the people for the slight benefits returned, no intelligent man can doubt. We express the hope that the near future will see this subject most thoroughly investigated and as far as the farmers are concerned, such a system of mutual insurance will be adopted a to protect them from the rapacious maws of these monopolies.

The Grange Directory.

This important feature of the book commences with the Officers of the National Grange, Masters and Secretaries of State Granges, State Business Agents, Officers of the Kansas State Grange, Deputies of the Kansas State Grange, Deputies of the Kansas State Grange, Deputies of the Kansas State Grange, County Business Agents, Number and Name of all Subordinate Granges in Kansas, reported up to April 15. (over 1,200) together with the name Secretary and post office address. The post office address is given of all the office address. The post office address is given of all the

J.K. HUDSON,

Editor KANSAS FARMER,

Topoka, Kansas.

From Wm. McCaig, Sec. and St. Agt. Nebraska

State Grange, I am much pleased with your Hand-Book From T. A. Thompson, Lecturer National Grange. It is certainly a very desirabe vade mecum for Patrons, and especially for Grange officers.

From R. W. Pratt, Sec. New Jersey State Gran I consider it a very valuable work, as a book offreference, and the low price at which you sell it brings it within the reach of all.

Literary and Domestic.

EDITED BY MRS. M. W. HUDSON.

THE FUCHSIA.

Within the mountain ledge we sat
At night and watched the slanted snow
Blown headlong over hill and moor,
And heard, from dell and tarn below,
The loosened torrents thundering slow.

Twas such a night as drowns the stars, And blots the moon from out the sky; We could not see our favorite larch, Yet heard it rave incessanily, As the white whirlwinds drifted by.

Sad thoughts were near; we might not bar Their stern intrusion from the door; Till you rose meekly, lamp in hand, And, from an inner chamber, bore A book renowned by sea and shore.

And, as you flung it open, lo!
Between the pictured leafets lay—
Embalmed by processes of Time—
A gift of mine, a fuchsia spray,
I gathered one glad holiday.

Then, suddenly the chamber changed, And we forgot the snow and wind; And we forgot the snow and wind; Once more we paced a garden path, With even feet and even mind— That red spray in your hair confined.

The cistus trembled by the porch,
The shawdow round the dial moved:
I knew this, though I marked them not,
For I had spoken, unreproved,
And, dreamlike, knew that I was loved. Sweet wife! when falls a darker night,

May some pure flower of memory,
Hid in the volume of the soul,
Bring back, o'er life's tormented sea,
As dear a peace to you and me.
Thambers' Journal.

Patrons' Hand-Book

From M. E. Hudson, Master Kansas State Grange Patrons of Husbandry.
APLETON KAN., May 4, 1874.

HON. J. K. HUDSON: Dear Sir and Brother-Your valuable favor, the Parrons' Hand-Book. has been re-ceived. I consider it the most complete work of the kind I have seen. There is in it what every Patron should know, and all Patrons who would keep posted in Grange matters should have a copy as a book of reference; and especially should it be kept in every Grange in our state for the use of its officers and members.

The rapid increase of our Order requires additional fa cilities for supplying instruction to our membership. The demand comes from every quarter, "Give us instruction." The irregularities complained of in the work of so many Granges in our jurisdiction, is not an intentional viciation of our laws, but grows out of the want of a proper understanding of the laws, rules and regulations by which our Order is governed. The press must be relied upon in a great measure to supply this dcmand, as the financial condition of State Grange will not as yet permit us to send out Lecturers at the expense of the State Grange to impart the instruction which is so essentially necessary to the harmo-

nious working of our Subordinate Granges.

The very reasonable price at which your book is sold will enable all who desire the work to procure a copy.

My correspondence with Subordinate Granges and Dep uties throughout the state warrant me in saying that out of the fourteen hundred Granges now organized in Kansas, there are not five per cent. of the number that are not in good working order and rapidly increasing their mem-

in good working older bership by initiations.

Fraternally, M. E. HUDSON. Frem Thomas Taylor, Master of South Carolins

State Grange.

I am indebted to you for a very useful book and friendly attention. I read with satisfaction your explanation of the farmers movement. I shall recommend the Hand-Book to my Subordinate Granges.

From Dudley T. Chase, Master of New Hampshire State Grange.

I have examined the work with some care, and find much to commend.

From H. H. Angell, Treasurer Kan. State Grange. SHERMAN CITY, May 1, 1874. BRO. HUDSON: Allow me to congratulate you on the success you have attained in producing that much needed work, the "Patrons' Hand-Book." We have tried it, and would not be without it for five times its cost. Fraternally, H. H. ANGELL.

From Jos. T. Moore, the Master of the Maryland State Grange : Accept my thanks for your Hand-Book. It is a very valuable work and will be of immense value to Patroni generally.

From Henly James, Master of the Indiana State Grange:

It will prove to be of great value to the Patrons and will supply much needed information on many points.

From T. R. Allen, Master of the Missouri State Grange: It shall have a careful perusal.

From Geo. I. Parsons, Master of the Minnesota State Grange:
Something of the kind has long been needed, and I think your little book supplies the want.

From W. H. Chambers, Master of the Alabam

State Grange:

The book will be of great convenience in my administration as a summary of usefur information. I regard it as a valuable contribution to our Grange literature and feel assured that it will be thus considered by our entire Order.

We are indebted to J. K. Hudeon, of the Kansas Farmer for a copy of the "Patrons' Hand-Book." It is a problem ton designed for the use of the Grangers, and will probably prove to be useful and interesting to the Order. So far as we can judge it is well written, and adapted to its intended purpose.—Eureka Herald.

We have received from the publisher, J. K. Hudson, of the Kansas Farmer, Topeka, a copy of this book. Its list of National and State Granges seems to be complete, be-sides containing the National and State Constitutions, with Decisions and much other interesting matter. It should be in the hands of every Patron.—Landmark.

J. K. Hudson, of the Kansas Farmer, sends us the Patrons' Hand-Book for which we return thanks. It is a neatly printed book of forty pages, containing Constitutions, By-Laws of National Grange, State, County and Subordinate Granges, Declaration of Principles, Manual of Practice, Parliamentary Rules and Usages, History, Decisions, Directions, etc., of value to members or those wishing to become informed upon's bject.—Minneap elis Independent.

WE have received a copy of the "Patrons a neat little work containing a history of the "Dider, statement of its principles, constitutions and by-laws of National Grange, State, County and Subordinate Granges, manual of practice, parliamentary rules, directions, usages, etc. of interest to members and those who wish to be informed upon the subject.— Topeka Times.

We return our compliments to J. K. Hudson, proprietor of the Kansas Farmer, for a copy of the "Patrons' Hand-Book," received hast week. The price asked for the book places it within the reach of everybody.—Osborne Times. WE are under obligations to J. K. Hudson, editor of the Kansas Farmer, for a bound volume of the "Patrons" Hand-Book," a neat little book compiled by Mr. Hudson for the use of Patrons. The book contains a great deal of valuable information concerning the Order, and should be in the possession of every granger,—Baxter Springs Republican.

From the press of the Kansas Farmer we receive a work of much value—"The Patrons' Hand-Book, for the use and benefit of the Order of Patrons of Husbandry." The task of compilation—one requiring patience and head work of no mean order—has, as the book itself emphatically testices, been performed in a highly satisfactory manner by the able and accomplished editor and proprietor of the Farmer, Major J. K. Hudson. Of its contents a column could be written, as the different chapters embrace about everything there is of Grangerism that the Order could consent to have made public in print. The book opens with a well written editorial from the pen of Major Hudson, the subject—"Character of the Farmers' Movement."—Kansas City Times.

From the press of the Kansas Farmer we receive a work of much value—"The Patrons' Hand-Book, for the use and benefit of the Order of the Patrons of Husbandry."—Lawrence Standard. It is one of the largest, neatest and best papers of the kind in the state.—Minneapolis Independent.

The best agricultural paper in the west, and we commend it to the people of the county as well worthy of a kind reception and admission to their households.—Miami Republican.

It is a valuable paper to any farmer. - Washington Republican. DEVOTED to the interests of agriculture, containing much valuable and interesting reading, and is well worth the subscription price.—Olathe News Letter,

THE paper is a large eight page newspaper, the mecha ical execution of which is not surpassed in the state. It the old reliable farmers paper of the state, and we want see it well patronized,—Garnett Journal. From S. F. Brown, aster Michigan State Grange

J, K. Hubson, Esq.: Dear Sir and Bro.; I received your letter and also a copy of the "Patrons' Hand-Book." I have carefully examined the volume and have been much gratified with its perusal. It contains much valuable matter of interest to our Order, and is wortny of the commendation of all Patrons.

Yours fraternally, S. F. BROWN. From E. P. Colton, Master Vermont State Grange.

I have received a copy of the "Patrons' Haud Book, and am very mach pleased to find so much valuable knowledge complied in so small a book. I consider it a very important work, and it should be in the hands of the Masters of all Granges.

From G. W. Lawrence, Sec. North Carolina State Grange.

I think the Patrons' Hand-Book a good thing for its size, containing much valuable and useful information for members of our Order.

From S. H. Ellis, Master of Ohio State Grange: It would have saved me scores of letters to have had such a book to place in the hands of each Deputy, besides the work would have been more uniform.

J. K. Hudson, proprietor of the Kansas Farmer, has our thanks for a copy of the Patroxs' Hand-Book, a well bound pamphlet of forty pages, which contains Constitutions, By-Laws of National, State, County and Subordinate Grange, Declaration of Principles, Manual of Practice, Parliamentary Rules and Usages, History, Decisions, Directions, etc.—Holton Express.

THE STRAY LIST.

BY AN ACT of the Legislature, approved Feb. 27, 1867 AN ACT of the Legislature, approved Feb. 27, 1867.

section 1, when the appraised value of a stray or trays exceedstendollars, the County Clerk is required, within ten days after receiving a certified description and appraisement, to "forward by mail, notice containing a complete description of said strays, the day at which hey were taken up, their appraised value, and the name and residence of the taker up, to The Kansas Farmer, ogether with the sum of fifty cents for each animal considered in said notice."

Stray List for the Week ending Oct. 14.

Atchison County—C. H. Krebs, Clerk,
MARE—Taken up by W Dougan, Walnut tp, a dark sorrel mare, 14 years old, 14 hands high, left hind foot white,
white stripe on face, P on right shoulder, right glass eye.
Valued \$15

Brown County—Henry Isely, Clerk. HORSE—Taken up by A M Hough, Powhattan tp. one ark bay horse, small slit in right ear, collar mark, 15% ands blgh, 12 years old. Valued \$25.

Cloud County-W. E. Reid, Clerk. Cloud County—W. E. Reis, Clera.
HEIFER—Taken up by C. Horn, Solomon tp, a white
roan heifer, 2 years old, medium size, feetred from knees
down, 0 on left hip, crop and slit in left ear, crop on right
ear. Valued \$11.
HEIFER—Also, a red heifer, 1½ years old, medium size,
branded and marke as the other. Valued \$9.

Butler County—V. Brown, Clerk.

MULE—Taken up by P. Watterstrom, Rosalia tp, one
brown mare mule, 13 hands high, 6 or 8 years old, saddle
marks, white spots under righteye, on neck and rump, W
on righthip. Valued \$60.

Jewell County—W. M. Allen, Clerk.
MULE—Taken up by GS Ayers, Grant tp, Sep 7, a gray
sare mule, 15 hands high, blemish on left fore leg at knee
oint. Valned \$12.

Douglas County—T. B. Smith, Clerk.

The advantage which this Mill holds over all other is in the ARRANGEMENT OF THE SEIVES.

The Mill delivers the Grain at the front, from two spouts marked "Seed Wheat" and "No, 1 Wheat." The Grain can be sacked directly from the spouts or run in half bushel measures, and the two kinds kept

run in half bushel measures, and the two kinds kept separate.

The Mill is strictly a "Knock-Down Mill," which gives it a great advantage over all others in respect to shipping, as one hundred and fifty can be packed in a car, and also in setting the Mill in difficult places, as only fifteen minutes are required to set up and put it in running order. The general appearance and style of the mill when completed is excelled by no other.

Extra Selves for Flax, Timothy, Clover and other Seeds furnished when wanted.

Retail Price, \$26.00, Reduction made when ordered in quantities. Patronize Home Manufactures. Any further information can be obtained by addressing T. H. LESCHER, Lawrence, Kansas.

THE KANSAS STATE

FARMERS and others know the value of a GBAIN AND SEED CLEANER that will do what we claim and no more. Agricultural College

NOW furnishes a THOROUGH and DIRECT EDU-CATION to those who intend to be FARMERS, MECHANICS, or to follow other Industrial Pursuits.

THE FOUR COURSES OF INSTRUCTION, FARMERS, MECHANICS, BUSINESS and WO-MENS, are prepared with express reference to these

things 1. What the student knows when received:

2. The time he will remain:

3. The use which is really made of a given science in his proposed occupation, the studies being so arranged that, at the close of each year, he will have gained that knowledge which is of most value in his business.

The FIRST OBJECT in each course is to make every student a Master of the English Language, and an Expert in its use; and also, skillful in Mathematics as employed in every day life, including Book Keeping, Business Law and Industrial Drawing. In addition the special object of the

FARMERS COURSE

s to give him a practical knowledge of the Structure, Growth and value of Plants; of Light, Heat and Moisture, and of Inorganic, Organic, Analytical and Agricultural Chemistry, as these are related to Plant and Animal Growth ; of Economic Zoology, and particularly of Practical

AGRICULTURE AND HORTICULTURE,

including such Instruction and Drill in the Field. in the Handling of Stock, in the Nursery, and in the Wood and Iron Shops as will enable the graduate to Perform Readily each of the varied operations of Actual Farm Life.

In the other courses, the special studies are equally determined by the requirements of the proposed voca-tion. To MECHANICS, applied mathematics and industrial drawing are given instead of botany, chemistry and zeology, as above; and Shop Practice in place of Practical Agriculture.

The instruction in CHEMISTRY and PHYSICS is fully equal to that of the best eastern institutions, including Practice in Laboratories, and

SUPERIOR ADVANTAGES are offered to students of Higher Chemistry, to Mine

ralogists, Druggists, Operators and Workers in Metals. Full collections of the Plants, Insects and Birds of Kansas are being made as rapidly as possible. THE MECHANICAL DEPARTMENT

The woman who writes the addresses of heletters "cattleornered" is the especial torment or of postoffice clerks.

"Woman," says an experienced Western editor, "are the best subscribers in the world to newspapers. We have been an editor for forty years, and never lost a dollar by female subscribers."

Said a Detroit lady to a small boy whom she found crying in the street, the other day: "Will you stop crying if I give you a penny?" "No," said he; "but if you'll make it two cents I'll stop if it kills me."

Loans made upon unincumbered real estate in Kansas and Missouri, in amounts of \$500 and upward, runsing from one to five yeas.

Parties applying should write full particulars, and be sure their title is unclouded.

Mency on hand for Leans in sums of \$1,000 to \$5,000, upon Improved Farms in well settled Counties, provided the land is worth at least three times the amount of Loan desired.

A lady entered a drug store and saked for a bottle of 'Jane's experience.' The clerk inform-ed her that Jane had not bottled her experi-ence yet, but they could furnish 'Jayne's Ex-

An Indiana lawyer used the word 'disparagement' in his ples, and the judge told him that if he couldn't quit using Latin words he could sit down. The lawyer undertook to define his position and was fined \$20 for contempt of court.

A small boy, telling his "pals" how he came to be detected stealing apples in a grocery store, proceeding thus: "Well, I didn't care so durned much about bein' seen, but the clerk was cross eyed, an' I thought he was watchin' and such a days and the street but he man and the street but he st a dorg fight' cross the street, but he was look in square at me, an' he helped me clean into the gutter!"

A Burlington man and his wife visited a sods fountain. He said he would take "crusade" syrup in his. Much to his horror his wife said syrup in his. Much to his notor his with said ington, D. C.; she would also try "crusade." The husband smiled a sickly smile, but the druggist never lost his presence of mind, and while the man lost his presence of mind, and while the man lost his presence of mind, and while the man lost his presence of crusade his wife. indulged in the luxury of crusade, his wife made a very wry face over ginger.

Your bonnet is to be worn nearer your nose this winter, my dear.
So says the Leavenworth Times, who ever the shoe fits will please put it on accordingly.

"Pat, buy a trunk to put your clothes in," said the Yankee companion. "What, an go naked this cold weather?" asked the honest spalpeen of Killarney.

Our Interview

We thought everybody in the State knew we were deaf, but once in a while we find one who in not aware of the fact. A female book peddler came to the office the other day.

L ITHOGRAPHING, PRINTING, RULING, and all kinds of BOOK BINDING done on the short-book peddler came to the office the other day. She wished to dispose of a book. She was alone in this world, and had no one to whom she could turn for sympathy or assistance; hence we should buy her book. She had received a liberal education, and could talk French like a native; we could not, in consequence, pay her less than two dollars for a book. We had listened attentively, and here broke

in with, "What did you say? We're deaf."

She started in a loud voice, and went through her rigmarole. When she had finished, we went and got a role of paper, made it into a speaking trumpet, pu tone end to our ear, and told her to proceed. She nearly broke a blood vessel in her efforts to make herself heard. She commenced:

"He earliest known. Hardy and productive. First fruited 1872, and this year (1874), upon Fifty trees. The original is now a vigorous growing tree. My circular is endorsed by the Jasper County, Mo., Horticular is endorsed by the What did you say? We're deaf." 'I am alone in the world-"

"It doesn't make the slightest difference to us. We are a husband and a father. Bigamy is not allowed in this state. We are not elig-

ible to proposals." low tone; then at the top of her voice, "I don't want to mary you, I want to sell a b-c-o-k!" This last sentence was howled.

would not allow as good looking a woman as you to stay in the house five minutes."

She looked at us in despair, gathering her robes about her, giving a glance of contempt, she exclaimed: "I do believe that if a three-hundred pound-

er were let off alongside of that deaf fool's head he'd think somebody was knocking at the

You should have heard her slam the door when she went out. We heard that.—Live Stock Journal.

FROM J. K. Hudson, of the *Hansus Farmer*, we have re-ceived a copy of the "Patrons' Hand-Book." It is a com-nilation of all the gathered material pertaining to the Or-der, and should be in the hands of every member.—Bur-lengton Patriot.

It is valuable to Patrons, and to all interested in the Grange movement. The history of the Order and the raise are given in full. Get a copy.—Oskaloose Independ-

We have received a Grange Manual from the office of the Kanaas Farmes, but as we loaned it immediately on receipt to the Patrons who were just organizing a district Grange, we have not had opportunity to examine the work. The Patrons speak of it, however, in high terms, and it will no doubt be extensively used.—Bive Rapids Times.

The Patrons' Hand-Book, for the use and benefit of the Order of the Patrons of Husbandry, is received from J. K. Hudson, the author, and editor and proprietor of the Kandason, the author, and editor and proprietor of the Kandas Farmers. It is an excellent work and needed by every member of the Order.—Lincoln Co. Nesse.

The work isone that has long been needed, both by members of the order and others who desire to become acquainted with its principles. It is printed in small type so as to bring the price within the reach of all. It is sold at 25 cents per copy, in plain binding; and for 40 cents per copy, in full cloth binding.—Girard Press.

Attention, Grangers!

Do you intend purchasing a Sewing Machine?
Investigate thoroughly and Buy the Best

The New American Sewing Machine

Is the Best Finished and Cheapest; Has the Most Room Under the Arm; Never Breaks Thread or Slips Stitches; Does not Break Thread if RunBackward Regulates Stitch from Above the Table and while the Machine is in Motion;

Has Short, Deep Bobbin, which Winds Rapidly, and Delivers Evenly; Excludes Dust and Damp from its Workin Parts, does not soil thread by touching oiled parts Self-Threading and Light-Running.

Is Self-Threading and Light-Running.

By its simplicity the most inexperienced are enabled without any previous instruction to at once understand and operate it successfully.

There are No Holes to thread in the Shuttle—injurious alike to the eyes and patience of the operator—but the Shuttle is ready for use just as soon as the Bobbin is placed in it.

The Tensions both of the upper thread and in the Shuttle are Self-Regulating and can in a moment be easily and perfectly adjusted to work from the finest to the coarsest spool cotton.

All its wearing points are adjusted on steel centres, thereby avoiding friction and making it at once the most perfect and durable machine now before the

people.
The State Grange of Kansas has selected and adopted it as the STANDARD MACHINE and the one best adapted to the constant, every day use of their

best adapted to the constant, every day use of their Patrons.
When exhibited before the State Grange of Missouri while in session at Boonville it elicited remarks of admiration and praise from all who saw it operate.
We are in constant receipt of orders and communications from Grangers throughout all the western states and territories, and solicit correspondence with every member of the Order of Patrons of Husbandry who is desirous of purchasing the best, cheapest and most durable machine in the market. Send for circulars, samples and special terms to Grangers, to D. A. BUCK, Manager, No. 202 South Fourth Street, St. Louis, Mo.
