PRESIDENT BALL ISSUES CONVENTION CALL

The Twenty-third Annual State Convention of the Future Farmers of America will be held April 30 and May 1, 1951, at Kansas State College, Manhattan, Kansas. We will be happy to have with us at that time a representative of the National Organization of FFA, President Walter Cummins of the Freedom Chapter, Freedom, Oklahoma.

It was gratifying to see so many of you at the National FFA Convention in Kansas City last October. On April 30 and May 1 we will have an opportunity to see you again.

Chapters whose State and National dues are paid and whose Programs of Work were filed November 1, may each seat two delegates in the House of Delegates at the State Convention. We again have some vital business to transact, such as the election of new State Officers, State Farmers, etc.

We feel it is the duty of each chapter to choose well instructed delegates so that the State Convention can proceed efficiently and in an orderly fashion.

I'm looking forward to seeing as many of you as possible at Manhattan, April 30 and May 1.

Bob Ball, President
Kansas Association of FFA

FFA SPEECH MUST BE ON AGRICULTURAL SUBJECT

Your attention is again being called to the resolution approved by the National FFA Board of Trustees with the approval of the National FFA Advisory Council at their Kansas City, Missouri, meeting in October, 1950. The resolution which was later approved by the 1950 House of Delegates of the National Convention, was as follows: "All judges of FFA Public Speaking contests (local, district, area, State, Regional and National) will disqualify all contestants whose speeches are not of a strictly agricultural nature."

IMPORTANT: The judges are empowered to rule on whether or not the speech is on an agricultural subject. This plan will govern the Regional and National FFA Speech contests in 1951.

It is significant to note that neither the National FFA Board of Trustees nor the National FFA Advisory Council has set up any criteria for determining whether or not a speech is on an agricultural subject. As the matter stands the authority of determining whether or not a speech is acceptable rests in the hands of the official judges.

The 1951 FFA Speech Contest conducted by the Kansas Association of FFA will be governed by the rules and regulations set forth in the materials mailed chapters February 15, 1951. All subjects listed on pages 3 and 4 of the February 1, 1951, issue of the Kansas Future Farmer will be acceptable. However the Kansas Association of FFA will not guarantee that speeches addressed to all of the subjects listed in the February newsletter will be acceptable to the judges in the Regional and National FFA speech contests.

It is to be hoped that the National FFA Board of Trustees and the National Advisory Council will publish criteria for determining when a speech is on "an agricultural subject" together with procedures before the 1952 FFA speech contests are held.

STATE INITIATED PROJECT - 1951

The Board of Trustees of the Future Farmers of America Foundation, Inc., met and adopted the Foundation Budget for the fiscal year January 1 - December 31, 1951. The Kansas Association of FFA plan of dividing equally the Foundation award monies for the State Initiated Project between the Gold Emblem Chapters for 1951 has been approved. Kansas has been allotted the amount of \$368.58 for State Initiated Projects during the current fiscal year.

All Gold Emblem Chapters in Kansas in 1951 will be eligible to share in this award. In order to share in the award monies each chapter will be required to file a written statement of major accomplishments during the year. This report must be filed with the state office at Manhattan by December 1, 1951. The abstract of chapter achievements must be in the Washington, D. C. office by December 15, 1951.

THE MINATURE PLOW

"Building the FFA Emblem" skit is being presented by many Kansas FFA chapters this year. This skit requires the use of the symbolic plow. Several chapters have the plow permanently fastened to station equipment and not immediately available for use in the Emblem skit. The state office has had several requests from chapters for an additional miniature plow. We of course, were not in a position to comply with the request.

The Minature Plow continued

The minature steel plow which is almost universally used throughout the 9,700 chapters comprising the National Organization of Future Farmers of America is furnished by Deere & Company, Moline, Illinois. In order to procure a minature plow to be used in FFA work in Kansas, the request must clear through the state office. This practice assures Deere & Company that the vocational agricultural department requesting the minature plow has a chartered FFA chapter and is in good standing with the state and national FFA bodies.

Mr. H. F. Line, Educational Division, Deere & Company, is sending several minature plows to the Kansas Association's state office at KSC. These plows will be loaned upon request to chapters whose own minature plow is permanently affixed to station equipment and not immediately available for use in "Building the Emblem" skit.

IMPORTANT NOTICE: Any chapter desiring the loan of the minature plow for the purpose of using same in the Emblem skit may secure the loan of the plow by writing for same. Send request to A. P. Davidson, Department of Education, Kansas State College, Manhattan, Kansas. Three minature plows are available for loan purposes. It will be necessary to file requests considerably in advance of the date the plow is to be used in the ceremony.

"FUTURE FARMER LIVES HERE"

The following standards for making the "Future Farmer Lives Here" award are being used by the Haven, Kansas, FFA chapter. In working out the standards the chapter had in mind primarily the stiumlation of effort toward home improvement. Soil and water management and other features for which other awards are available were omitted from the standards adopted by the chapter.

Standards for making the "Future Farmer Lives Here" award adopted by the Haven, Kansas, FFA Chapter follow:

1. Farming Program
 - (a) Must have in operation a satisfactory Program of Supervised Farming.
 - (b) Must be following recommended production practices.
2. Home Improvement
 - (a) Fences along highway and about farmstead must be in good repair.
 - (b) Weeds and brush about farmstead must be kept down.
 - (c) Farmstead and lots must be kept free of trash of all kinds.
 - (d) Machinery must be housed or yarded in an orderly manner.
 - (e) All gates and doors about the farmstead must be on hinges and have suitable latches. (no bailing wire.)
 - (f) Suitable and safe storage must be provided for hand tools and equipment.
 - (g) Buildings must be in satisfactory repair.
 - (h) The over-all appearance of the farmstead shall be well kept.
3. Making The Award
 - (a) Members make application to chapter adviser
 - (b) Chapter President and Adviser visit farm to decide on worthiness of applicant.
 - (c) Award shall be returned to chapter if standards are not maintained or upon termination of membership.

RANK IN FFA MEMBERSHIP

Each year in the April issue of the Kansas Future Farmer Newsletter local FFA chapters are ranked on the basis of per cent of membership and enrollment in vocational agriculture. October 1st enrollment figures furnished by the State Department for Vocational Education are used, and FFA membership figures are taken from the records of the State Office at Manhattan.

On October 1st there were 6,274 students enrolled in 182 departments of vocational agriculture in Kansas. The total FFA membership as of April 1, was 6,520.

A careful study of FFA membership for the school year 1950-51 as of April 1, on the basis of enrollment in vocational agriculture shows a range in percentage of membership from 179% to 63%.

One hundred seventy five chapters have paid dues to date. Seven chapters are delinquent.

One hundred thirty two chapters reported a paid up membership of 100 per cent or more. Forty three chapters fell below the 100 per cent membership goal.

Altamont with a paid up membership of 110 leads all the chapters in the state in the number of dues paid. Effingham chapter with 84 members ranks second, while Merriam with 83 ranks third. Winfield ranks fourth with 80 and Emporia fifth with 75.

The percentage of membership on the basis of enrollment in vocational agriculture for the 175 chapters having paid their dues is 103%. Last year this figure stood at 109%.

The Kansas Association hopes to report 100 per cent active chapters at the time of the annual meeting on April 30 and May 1.

In case of error in percentage of membership listed below, we will be glad to have you notify us so that correction can be made in the May issue of the Kansas Future Farmer

16,000 FARM BOYS RECEIVE FFA FOUNDATION AWARDS

The Future Farmers of America Foundation, Inc., paid out cash awards to more than 1,200 farm boys in 1950 and an estimated 15,000 other Future Farmers of America and New Farmers of America members were recipients of local award medals presented to them by the Foundation, it was disclosed at the recent annual meeting in Washington of the Board of Trustees for the Foundation.

Dr. W. T. Spanton, Chairman of the Board of Trustees, said that 271 of the cash awards for outstanding achievement in farming and leadership were for \$100 or more. Largest of these was the \$1,000 check awarded Forrest Davis, Jr. of Quincy, Florida, as the 1950 Star Farmer of America. In addition to the individual awards, 244 local chapters received cash awards from Foundation funds during the year.

Contributions to the FFA Foundation in 1950 totalled \$111,977.10, assuring funds for a small expansion of the award program in 1951. Ninety-six companies and organizations were donors of \$110,250.00 to the Foundation last year; four individuals gave \$525.00, and State Associations of FFA and NFA contributed \$1,202.10.

The Board of Trustees, in budgeting \$110,446.38 for the 1951 Foundation award program, increased the amount of American Farmer degree awards from \$25 each to \$50. Last year 265 boys received the American Farmer awards and the budget was set in anticipation of 275 winners in 1951. All other award programs for the FFA remain substantially the same as last year.

Expenditures by the Foundation during 1950 amounted to \$95,170.90, of which \$80,685.41 represented awards and prizes to FFA members and \$7,792.03 to NFA members. The remaining \$6,693.46 paid administrative expenses for the year.

In the Future Farmers of America division the Foundation presented cash awards of \$100 or more to 46 boys for achievement in Dairy Farming, 33 in Farm Electrification, 41 in Farm Mechanics, 47 in Public Speaking, 39 in Soil and Water Management, and to 32 local FFA chapters for outstanding work in Farm Safety. The organization's 265 American Farmer degree winners were awarded \$25 each, and state awards of \$100 each were made to 44 Star State Farmers. In addition, \$18,829.18 was spent for State Initiated Projects (award programs devised by the various State FFA Associations to meet the needs of their particular state). Participants from 40 states shared in \$9,733.22 worth of prizes and awards given in connection with National FFA Judging Contests.

Probably the most important development in FFA Foundation's award program during 1950 was the provision of medals to be awarded outstanding FFA and NFA members on the local chapter basis. Dr. Spanton reported that 23,640 of the medals were sent to State Associations of FFA and NFA for distribution to award winners in local chapters. Not all of these were used in 1950, however. Based on States' requests for additional medals in 1951, it is estimated that about 15,000 of the medals were actually presented to farm boy winners, and the number may be doubled in 1951.

AN ANALYSIS OF A SELECTED LIST OF CHAPTER PROGRAMS

The following analysis of 27 FFA chapter activity programs includes the 1950 Gold Emblem and Silver Emblem classification winners in the Kansas Chapter Contest. A few additional chapters were added to the list of winners in order to obtain state wide distribution.

Deadline Mailing Date and Penalty. A ruling of the House of Delegates of the Kansas Association of FFA sets November 1 as the deadline date for filing local chapter activity programs with the state department. This ruling also makes local chapters and their members ineligible for FFA competition on the state level if the local program of work is not filed on time.

Helpful Suggestions for building a chapter activity program will be found in the Official FFA Manual, pages 33-37.

Committee Appointments for building the chapter activity program should include all members of the chapter. Every effort should be made to have a program built and endorsed by the chapter, and not merely a program set up by the officers and adviser.

Calendaring Activities for the year, by months, is important. Too many activities at a given time will likely result in a scattering of effort and a lowering of standards. Too few activities will cause loss of interest. Fit your program of activities in with the school and community programs. This will avoid conflicts and the possibility of demanding too much time and energy on the part of certain members of your chapter.

The following is a list of activities under the eight divisions of the chapter program of work carried to completion by 27 Kansas FFA chapters in 1950. The number to the left of each activity indicates the number of chapters participating.

PART II

EVALUATING FFA CHAPTER ACTIVITY PROGRAMS

Each year the state association has the task of evaluating local chapter activity programs and ranking them into broad classification groups. This is an interesting, but difficult task. It is difficult because of the many intangibles involved. However, the state association believes that there are enough factors common to all chapters to enable the evaluating committee to satisfactorily rank the chapter.

In evaluating chapters in Kansas, the local chapter program of work and the achievement report are carefully analyzed by an adult committee. Final rankings are made by a committee comprised of the state FFA officers and members of the state staff.

In 1941, the state association ruled that supplemental materials would not enter into the judging of chapter accomplishment. This rule will hold for the 1951 state FFA chapter contest. However, one will have to admit that supplementary material is of value in substantiating claims of chapters as well as in many cases aiding the judges in forming correct opinions as to achievement standards.

The question is often asked whether all the detail involved in filing a written chapter program and an achievement report is justified. The answer in both cases is yes. In preparing the written chapter program of work the local adviser and chapter members are forced to be definite in their objectives, and the written program avoids misunderstandings because it is always available for reference. The achievement report is a definite check up on failures as well as successes. Both the program of work and the achievement report should be of value in improving the work of the chapter from year to year. The chapter contest offers an excellent means of broadening the perspective of the local FFA adviser and chapter members, and of stimulating a wide range of experience on the part of both. In addition, the participants will develop a sense of community responsibility, will acquire a higher regard for scholarship, and will learn to cooperate by working and playing together.

How Chapter Programs Are Ranked

First, the chapter goals set up in the program of work submitted to the state office before November 1 are checked against the accomplishments listed in the achievement report submitted. Second, the scope of chapter goals and accomplishments are checked against the goals included in the state association program of work. Next in order the chapter entry is scored on each of the eight divisions around which chapter programs are built. The scoring committee checks on a list of fundamental activities that properly fall under the various divisions. After checking the eight divisions, the scoring committee turns its attention to items not included in the eight divisions, such as salvage campaigns, sale of bonds and stamps, whether chapter followed recommendations and rules in compiling reports, etc.

National Score Card Weightings

The National Organization of FFA gives the following weightings to the eight divisions around which the local chapter program is centered. The judging committee scores each division on the basis of A, B, C, D. The

Evaluating FFA Chapter Activity Programs - Part II - Continued

weightings are of value only in maintaining perspective. The National chapter score card follows:

	<u>Planned</u>	<u>Execution</u>	<u>Total</u>
1. Supervised Practice	50	150	200
2. Cooperation	40	120	160
3. Community Service	40	120	160
4. Leadership	30	90	120
5. Earnings and Savings	30	90	120
6. Conduct of Meetings	20	60	80
7. Scholarship	20	60	80
8. Recreation	20	60	80
			<u>1000</u>

The following is a listing of some of the points the scoring committee keeps in mind in checking and evaluating chapter achievement under the eight divisions around which the program of work is centered. The list is not complete, and is varied from year to year to comply with national and state FFA objectives.

Supervised Practice:

1. Feed crop grown by Freshmen members.
2. Definite farming program financial goals.
3. High per cent purebred animals - or, quality specified.

The judges in the state chapter contest in Kansas do not claim to be infallible, and they welcome suggestions and counsel at all times. In addition to the written reports submitted by the local FFA chapters, the judges have first hand information dealing with chapter standards of performance obtained by means of personal visits by members of the state staff. While there is a spirit of friendly rivalry between the local chapters in the state, it is overshadowed by a spirit of cooperation on the part of local advisers and the state staff in an effort to make a chapter contest a means of stimulating individual members to greater all-round development.

WINFIELD: The main item of interest to the Winfield Future Farmers right now is the letting of the contract for the Agricultural section of the new Vocational building. Total bid on the building was \$530,000.00. The contract for the agriculture section was \$195,000.00. This includes a shop 48x128' equipped with traveling crane the entire distance; a hard surfaced parking lot containing 1000 square feet adjacent; two class rooms; a lecture room where large groups can assemble; two private offices; an FFA room (work room); two rooms for foods processing with all the accessories that go with that work such as adequate cold storage and boiler rooms. You can tell the world, Winfield is coming out of the basements....Our hybrid hog work in connection with Oklahoma A & M College has produced some interesting results. Out of some fifteen hybrid boars that we have sold from our first litters, we have a record of the litters from some 100 sows and gilts. The average litter size farrowed was 12 plus and the average saved was 8 plus. We have introduced another strain (Nebraska time No. 10) and this is giving us more even typed litters and seemingly larger litters. We think we are about to the end of our hybrid breeding. This three way cross is very difficult to carry out and the college tells us that we will need a four way cross to successfully carry on into the future. This we are sure would be too complicated for us to carry through. We will have good hybrid boars however for at least two more generations....Our annual banquet was held on the night of February 14. One hundred and twenty five plates were set. The program was put on by our own boys with the Tisdale rural church pastor, the Rev. Gilbert Peters as the main speaker.... The last night meeting of the year was held March 14. At this time nominations for the new officers were read. They were: for President, Amos Hann, Mark Drake and Ted Graham; for Secretary, Marvin Krepps, Leland Shoup; Treasurer, Albert Finley and Ralph Waite; Reporter, Jim Orand, Ralph Russell and Noel Scott; for Sentinel, Richard Dunbar, Jim Clark and Harlan Hittle.

Ted Graham, Reporter

HOWARD: Our annual project tour was held December 13, 1950. Twenty-four boys visited twenty-four programs. Each program was scored and rated. Virgil Wells was awarded the Star Chapter Farmer in the senior division and Roy Lister in the junior division. Jerry Hubbell received the Star Greenhand award....A subsidiary organization was initiated in our chapter. It is the Howard FFA Crop Improvement Association. Officers were elected, purposes, constitution and by-laws, patterned after a similar organization of the Rugby North Dakota Chapter, were adapted. The officers are: Don Forsyth, President; Roy Lister, Vice President; and Herb Hartley, Secretary-Treasurer. We hope the new Crop Association will grow and serve an important part in our community.... Several chapter members drove to the Ethyldale Farm at Emporia and bought three registered Hampshire Gilts to let to members under our Chapter Boy swine program. Three other members also bought gilts for themselves....We held our Annual Parent-Son Banquet March 20. The theme was Rural Electrification. Honorary members for this year are Allen Forsyth, farmer and father of a member; Russell McKinney, rancher, and also father of one of our members, and Arch Clark, KG&E repairman.

Jerry Hubbell, Reporter

NESS CITY: The Ness City and Bazine Chapters held the Southwest District Poultry school at the fair grounds in Ness City on Saturday, March 31, 1951. Prof. T. B. Avery of the Poultry Department of Kansas State College at Manhattan, Kansas judged....Representatives of the Ness City Chapter have attended the shop school at Lakin, Kansas and the crops school at Ashland, Kansas.

NATIONAL FFA BAND AND NATIONAL FFA CHORUS

Executive Secretary A. W. Tenney of the Washington office informs us that Dr. Henry S. Brunner, Head Teacher Trainer, Penn State College will again serve as director of our National FFA Band at Kansas City at our 1951 National FFA Convention. Dr. James W. Hatch, Assistant Supervisor of Agriculture Education, Albany, New York will serve again as Director of the National FFA Chorus.

Application forms for both the band and chorus are being prepared by the state office at Manhattan and will be mailed to local FFA advisers at an early date. The state office is especially anxious to have district music festival ratings and will set the date for mailing application to the state office accordingly.
