

CAT Communities | Fall 2011

Connecting Across Topics (CAT) Communities are designed around student interests, and they offer mentoring from both a professor and an advanced undergraduate Learning Assistant who has been successful in the same classes. Students are enrolled together in two general education courses and one connections course. Once a week, students meet in the connections course to discuss links among the classes and to apply what they have been learning. Space is limited as each CAT community only has 22 seats available. Each student should only sign up for one CAT community. Students should not sign up if they already have college credit for one or both of the main classes in the CAT community. Questions? Greg Eiselein eiselei@k-state.edu or Emily Lehning lehning@k-state.edu.

Available To Students	CAT Community	Course Number	Courses	Section	Day/Time	Location	Instructor	K-State 8
