

BEYOND THE CLASSROOM

PRESENTATION ON **3D PRINTING**

Sept. 27 | 7 P.M.

Cornerstone Coffee &
Bakery at Wefald Hall

JAHVELLE RHONE, Information Technology Coordinator with Information Technology Assistance Center (iTAC)

Come learn about 3D printing! 3D printing is a technology that allows you to take an idea, transfer it into a digital file, and produce an actual physical product. 3D printing will allow students to produce models for prototyping, engineering, architecture, and various types of multimedia projects.
