THE SECULAR VARIATIONS OF WILLIAM BYRD
IN THE FITZWILLIAM VIRGINAL BOOK

ABSTRACT

The lecture recital "The Secular Variations of William Byrd in the Fitzwilliam Virginal Book" begins with a discussion of the origins of the manuscript, and a general consideration of the forms and composers represented in it.

After an overall view of the secular variation form, a detailed investigation is made of the two categories of Byrd's secular variations. The first type, cantus firmus variation, is defined by its treatment of the melody, and by the stylized figuration patterns that accompany it. "John Come Kiss Me Now", an example of the cantus firmus type, is analyzed, and then compared with another composition, "The Mayden's Song".

The second category, the melo/bass variation, is defined, and the variations "Fortune" serve as an example of this type. As a conclusion to the discussion of the secular variation, "The Carman's Whistle", containing elements from both types of variation, is analyzed.

The lecture recital ends with remarks by Byrd's contemporaries regarding the esteem and veneration in which he was held. The observation is made that Byrd's music is disregarded today, despite aesthetically pleasing qualities and artistic merit worthy of scrutiny in the teaching studio, and certainly worthy of performance.
