Conflicts Over More Or Less Farm Trade

The biggest issue which may face American agriculture this year is the code under which this country exports and imports farm products.

At the present time, U.S. farmers are the world's largest suppliers of food and fiber in world markets. The production of one acre out of four moves abroad. Exports are running at an annual rate of nearly \$6.8 billion.

Agricultural imports are at

the annual level of about \$4.5 billion. The bulk of the imports is in the non-competitive category, including coffee, tea, cocoa and the like.

But all of American agriculture has not been sharing equally in the big overseas markets. The bulk of the benefits has been going to growers of wheat, livestock, feed grains, oilseeds such as soybeans and cottonseed, cotton, rice and tobacco.

But producers of some U.S. farm commodities have been encountering sharp competition from imports. In this category are meats, particularly beef, dairy products, and cotton textiles. These commodities do not enjoy export markets of any appreciable size.

Legislation Pressed

As a consequence, some congressional farm leaders and commodity organizations pressed for legislation last year which would have tightened restrictions on foreign supplies.

There is a distinct possibility that this year, these farm commodity groups may join with industrial producers being hit by imports, such as steel, some chemicals and the like. By working together, these groups might well be able to get through restrictive trade legislation.

In this matter, agriculture finds itself sharply divided. Major farm organizations, such as the American Farm Bureau Federation and the National

Grange, have voiced opposition to such legislation. They say it would bring retaliation against American farm exports and deprive farmers of vital markets.

The Johnson administration has made clear it opposes new legislation that would restrict trade.

Farmers Concerned

Charles V. Shuman, president of the Farm Bureau, recently told his organization's national convention that "farmers are very concerned with the present wave of protectionism that threatens to destroy the gains that have been made under trade agreements legislation."

Shuman argues that existing laws provide mechanisms for limiting hurtful imports.

He said these laws were properly used last summer when the administration, after a public hearing before the U.S. tariff commission, cut down on imports of dairy products.

One good thing about these laws is the fact, the farm leader said, that they can be adjusted administratively and do not have the rigidity of laws setting import quotas.

But the livestock industry contends its future—and consumer supplies and prices of meats—are at stake.

K-STATE TO REBUILD BEEF RESEARCH CENTER

MANHATTAN — Construction of a new beef research center to replace the one destroyed by tornado in 1966 will begin this summer at Kansas State University. The start is contingent upon the availability of state funds to match federal grants, Ed Smith, professor of animal husbandry, said.

Extra Hands

Foster Schurle, Clay Center, had help from his two sons, Phil and Niles. They were taking trees out of a waterway.

Southeast Kansas Still Dominates

Dip Back In Soybean Output

After the record soybean production in 1966, Kansas producers cut back a bit in 1967 but still produced the second largest bean crop in the state's history.

The total output, according to the Kansas Crop Reporting Service, was 18.562 million bushels, based on a yield of 22.5 bushels per acre. In 1966 the production was 20.632 million bushels on the same yield over 917,000 acres harvested. The acreage this year was 825,000.

The map accompanying this article indicates that soybeans are now grown on at least 200 acres in each county east of a line thru Mankato thru Lyons, Hutchinson and Harper. Production is still modest west of this line, with only nine counties harvesting on 200 or more ac-

res.

Production continues to be concentrated in a sweep of counties southeast of Emporia. Cherokee county (Columbus) continued to lead the state in gross output, as it has all but one year in the past decade, this time with 1.76 million bushels.

Coffey and Crawford counties were the other million bushel producers.

Ranking next was Brown, largest of the producers not in the southeast quadrant. Brown had 934,000 bushels. Allen, Anderson, and Labette ranked next, with Franklin, Osage, Neosho, Doniphan and Lyon rounding out the top dozen producers.

The southeastern section not only had the largest output, but yields generally were highest

in that section. Montgomery had the highest yield at 31 bushels, with Chautauqua and Greenwood about as high.

The state average yield of 22.5 bushels equaled the 1966 record. There were 846,000 acres planted to soybeans for all purposes and 825,000 of the acres were harvested for beans.

Unfavorably rainy weather during late spring and early summer generally hurt soybean plantings. The growing season was generally favorable except for hot, dry weather which hurt some late planted acreage.

Soybeans appear to have lost some favor in the past year after steady gains in Kansas since 1940, with rather spectacular increases in acreage thru the middle 1960s.

Mo. Livestock Assn. May Switch Cattle Name

Kansas City — A proposal to change the name of the Missouri Livestock Association to the Missouri Cattlemen's Association will be considered when the organization holds its annual convention here March 8, 9 and 10.

Joe Ewing, Joplin, Mo., who is the association president, explained that the change would give Missouri's beef cattle industry more representation. "Beef cattle is Missouri's No. 1 agricultural commodity, and needs stronger representation in the areas of marketing, promotion, legislation and taxation. Ewing said. "The primary function will be to represent all Missouri cattlemen in those areas."

If the change is approved, new bylaws will be adopted and new officers elected.

BANKRUPTCY FILED BY AREA TRAILER FIRM

Another G&G area town has had a disappointment with one of its industrial development projects. A trailer firm in Belleville, The Santa Fe Trailer Company, filed for bankruptcy.

Fence Building

Raymond Rosenow, Clay Center, worked on a new fence last week. Rosenow farms 400 acres east of Clay Center.

Bought At A Sale

Paul and Clayton Fischer of Adams, Nebr., hooked up a plow they bought at a sale in Marshall County last week.

Harold Jones, Head of Extension, Steps Down

MANHATTAN — Dr. Harold E. Jones, director of the Cooperative Extension Service at Kansas State University, Manhattan, since 1956, has asked to be relieved of administrative duties by June 30 or "at such early date as is convenient," Dr.

Glenn H. Beck, vice president for agriculture, announced today.

Beck said that Jones, at his own request, will be assigned as an extension specialist in agronomy on the K-State staff.

In requesting relief from administrative duties, Jones said his decision had been a "difficult" one. "My health, however, does not permit me to sustain the heavy load of activities necessary if Extension is to continue its development in the years to come," he said.

Beck expressed "deep regret" that Jones had asked to be assigned to less demanding duties.

"Director Jones has contributed greatly to the advancement of Kansas agriculture during his 12-year tenure," the vice president for agriculture said. "He has been responsible for numerous innovations in the Extension program, keeping them in tune with the frequent changes in agriculture."

Beck, who joined the K-State

staff the same year as Jones, said the Extension director has been "especially" effective in working with Extension personnel. "Harold Jones has gained the respect and strong support of all Extension workers and of the total agricultural community of Kansas," Beck said. "I am pleased that he has chosen to remain in the state and on our staff as an Extension specialist."

Jones' successor has not been named but steps are underway

to consider candidates for the position. Beck said he has named a committee to assist him on the selection of a successor. Chairman of the committee is Dr. Glenn H. Beck, state 4-H Club leader.

"We anticipate we will be able to find a new director by July 1 and, hopefully, have him on the job by then," Beck said.

Jones, a native of Colorado, became director of Cooperative Extension in 1956 after serving as an extension soils specialist at the University of Minnesota for seven years. While at Minnesota he was recognized as one of the outstanding and most productive workers and leaders in the country's Extension Service.

Prior to his work at the University of Minnesota, Jones taught courses in soils and conservation at K-State and conducted research in these areas.

BECK AGAIN HEADS LYONS CREEK ASSN.

WOODBINE — Hayes Woodbine has been reelected president of the Lyons Creek Watershed District. Other officers are: Al Smith, vice president; Staats, secretary; and Man Will, treasurer.

THERE ARE TIMES when the folks in Jack Daniel's Hollow can't do anything but sit and wait. That's why most of us took up whittling.

We don't make a thing when we whittle, just a mess. But it's a good way to pass the time while we're waiting on our whiskey. You see, every drop of Jack Daniel's trickles down through 10 feet of hard maple charcoal before it's aged. And that's a slow trip that can't be hurried. So, all the time and patience we put into Jack Daniel's has made us used to sitting by. And it's also turned up some pretty fair whittlers.

How Much For Cultural Arts?

TOPEKA — State financing of the Kansas Cultural Arts Commission was questioned in the Senate last week when its 1969 budget came up for approval.

Raising the questions was Sen. Robert Bennett, R-Prairie Village.

He noted that the commission's budget has risen from \$3,000 in 1965, when it was created, to the present level of

\$167,000. State funds represented in the total budget amount to \$57,332 with the rest coming from federal and private grants.

BENNETT QUESTIONED what was so essential about cultural arts in Kansas that could not be accomplished through private financing.

Sen. Glee Smith, R-Larned, carrying the bill during floor debate, said he thought everyone is aware of the value of the arts and added that the proposed budget represents only 60 per cent of what the commission requested.

The legislature is continually warned, Bennett said, that "unless we raise our taxes, we're on our way to bankruptcy." This is a time for the legislature to pick and choose where it will spend state money, he added.

When a question was raised about the commission's accomplishments, Sen. George Bell, D-Kansas City, spoke up.

"I'LL TELL you one of its accomplishments," said Bell. "Good," replied Smith.

"You may not think it's so

good when you hear it," Bell said.

A big banner used to hang in front of the Memorial Hall in Kansas City, he explained. The banner told of wrestling matches being held there every Thursday.

Wrestling, by the way, Bell added, pays about three-fourths of the operating expenses of the hall.

Bell said some members of the Cultural Arts Commission happened to drive by, thought the banner obstructed the view of the Grecian pillars and had it taken down.

Beattie Co-op Gross \$3 Million

BEATTIE — Gross volume of the Farmers Union Co-op of Beattie and Frankfort in the past year was \$3.15 million, with a net savings of \$128,864, it was reported at the 53rd annual meeting here.

Speaker for the meeting was Ernest Lindsey, president of Farmland Industries.

A cash patronage dividend of \$52,246 — the last half of the 1960 revolving fund and 20% of the past year — was available at the meeting.

Robert Jones, Kenneth Wanklyn and Winton Schwartz were elected directors to replace Art Neal, Ralph Miller, and Leonard Keller, whose terms expired.

New additional storage of 200,000 bushels capacity was built at Beattie and a new bulk fertilizer plant was built at Frankfort during the past year.

R. D. Easton is general manager and Hubert Gudenkauph is manager at Frankfort.

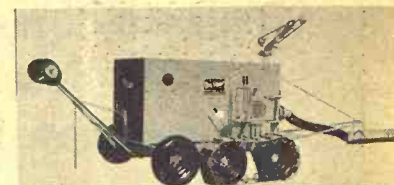

Land Banks Offer 6% Bonds

The Federal Land Banks last week offered \$241 million of 6% 28-month bonds, due July 20, 1970.

Funds generated by the sale will be used for refunding \$111 million of bonds that fall due March 20 and for the banks' lending operations. The 12 Federal Land Banks make long-term loans to farmers thru more than 700 Federal Land Bank Associations.

CIGARETTE TAX IN FLORIDA TO 15 CENTS

State lawmakers have made cigarettes a popular means of raising taxes this winter. In New Mexico, the rate per pack went up from 8 cents to 12 cents. Florida has gone farther than that, raising from 8 cents to 15 cents, highest rate in the U.S. The Kansas cigaret tax is eight cents per pack.

AUTOMATIC IRRIGATION AT LOWEST COST

With the Big Squirt Automatic Irrigator, the initial cost is one-half of the circular type. Yet, volume output is 10% greater, and only 5 ac. are lost in ditches on 160 ac., whereas up to 36 ac. are lost with circular type. This compact, powerful Big Squirt unit will irrigate up to 100 ac. per day. Spray is gentle and saturating. Machines are in operation on all crops from corn to delicate vegetables — and on all soil types. One man can handle up to ten machines, or 3200 ac., all by himself!

IRRIGATION MOTOR & PUMP CO.

A Case Man takes a bite 12 feet wide!

No, your eyes aren't fooling you, that's a made-for-hay, 12-foot pull-type windrower you're looking at. The new Case 575! Big acre-gobbling capacity that you previously could get only in a self-propelled.

The header of the 575 is identical to the biggest of the self-propelleds with a giant folding-finger auger feed. Don't confuse this one with a beefed-up grain windrower. The Case 575 is designed and built to handle toughest, densest forage crops. Easily sails through 50 acres a day. Extra-wide 81-inch conditioner. Fast adjusting shields lay the crop down in a wide, fast-curing swath or high, fluffy windrows made the way you like 'em.

If you're interested in enjoying the saving ways of windrowing, but aren't quite ready for the big producer 575, then the new Case 555 (right) is the one for you. The 555 has a 9-foot header with a gentle, leaf-saving folding-finger reel. King-size 110-inch conditioner. Fully adjustable shields.

CASE

Stop in at your Case dealer and see the 575 and 555 plus 3 new self-propelled hay windrowers. That's 5 in all—one of them is sure to fit your need to a "T"! Purchase and Lease Plans available

10-year feeding records on 1,379 hogs prove:

PURINA FED WITH GRAIN PRODUCES LOW-COST PORK!

Here's what 10-year records kept by Lester Van Raden, Allison, Iowa, showed: Average cost per lb. of gain was 9.95¢ (including total feed cost; grinding, mixing and delivery charges; sanitation costs). Total feed cost averaged 8.95¢ per lb. of gain over the period.

Mighty few hogmen have kept such detailed records of every bunch of hogs they've fed over the last 10 years! But Purina dealer Van Raden built a demonstration Pig Parlor near his store, Farmer's Feed and Grain, and did just that. Careful cost records were kept on each bunch of hogs fed to prove how little it costs to produce pork on Purina and grain. Hogs fed out were owned by neighboring feeders or by Van Raden himself.

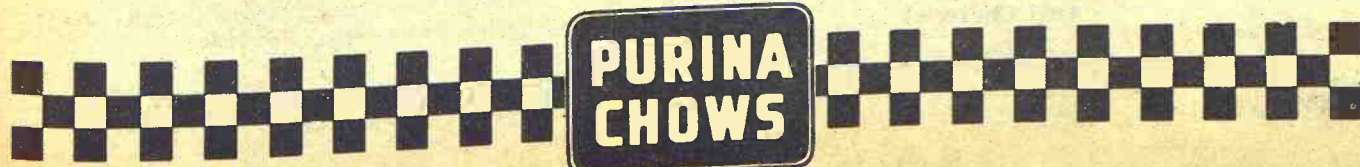

One group lost money but average return on investment was 22% for the 10-year period. Conversion averaged 3.5 lbs. of feed per lb. of gain. Sanitation costs averaged .465¢ per lb. of gain. Grinding, mixing, and delivery charges averaged .53¢ per lb. of gain.

Van Raden says: "These records gave hogmen in my area facts about hog feeding costs and Purina results over the years. Many of the folks who watched 'em grow have since become satisfied Purina feeders."

Next time you're in town, drop in at your Purina dealer's store or mill. Find out how you may get more gain from your grain and produce low-cost pork by feeding your hogs the Purina way. Folks are finding out... products from Purina Research pay off for hogmen.

\$550 Top At Area Shorthorn Production Sale

SALINA — The top-selling bull at the Lauer-Nagely Shorthorn production sale here sold for \$550 to Robert Moritz of Ipton.

The bull, a March 1965 calf, was bred by Arnold Nagely and owned by Milton Nagely, both

of Abilene.

The second high seller was bought for \$535 by Hilbert Stunkel of Westmoreland. The January 1966 bull was sold by Kathleen Nagely, daughter of the Milton Nagelys.

Top selling female sold for \$390 to Turnbull Brothers of Vliets. The cow sold with a December bull calf and had been bred back.

The 80 lots in the auction grossed \$25,462, averaging \$318. The nine bulls averaged \$469

and the 71 females averaged almost \$300.

At the conclusion of the sale a May 1967 Colorado Silver Cord heifer from the Keith Lauer herd was awarded to Nick Meyeres of Chase.

Top buyer at the sale was Harold Brooks and sons of Clarendon, Iowa, with eight lots for which they paid \$2365.

Vic Roth Buys Colorado Herd

BURLINGTON, Colo. — The Polled Hereford herd of Russell Davis, Burlington, has been sold to Vic Roth and Sons, Russell, Kans. Included were 128 cows, bred heifers, herd bulls, yearling bulls, open heifers and two-year-old bulls.

The herd is strong in Advance Numode and Beau Rollo bloodlines. Advance Numode 45, a son of advanced Numode (a grandson of Trumode Domino 8) was used exclusively in the herd.

Most of the brood cows are either daughters or granddaughters of "The 45th." SRF Rollo Mischief 33, another former herd sire, left many top females in the herd; "The 33rd" was a double-bred ALF Beau Rollo, sired by S Rollo Domino 48 and

bred by N. F. Schilling, Memphis, Tenn.

Vic Roth, former cattle manager of Baughman Ranches, Russell, helped assemble the Baughman herd. He has maintained a Polled Hereford herd of Beau Mixer bloodlines at

March 12, 1968

Russell. In addition to this herd, Roth has a Regulator-bred herd of 100 Hereford brood cows in the Black Forest area near Elizabeth.

BIRCH SUPER TANDEM DISC

BUILT TO LAST
AND STAND HARD USE

The Birch Tandem is truly a superior tandem disc: • sealed ball bearings with grease fittings • gang bolts, 1 1/2-inch square • built like a heavy-duty disc should be.

We have one new disc. It's 15 feet, 4 inches wide, has 36 disc blades 24 inches by 1/4 inch thick. It weighs 4800 pounds. Birch is not stingy with iron.

We also have a used 13 ft. 8 inch heavy duty disc, the size for a 100 hp or less tractor. The 15 ft. 4-inch disc above should have a 100-hp. tractor or bigger. We are Birch dealers.

USED EQUIPMENT FOR SALE

4 and 6-row cultivators, 3 pt. • 4 and 6-row planters, tool bar, fertilizer distributors • 4-section extra heavy harrow; 2 section 3 pt. harrow; 2 1/2 inch tool bars, heavy 3-pt. attachments. • Heavy duty gauge wheels, make excellent ammonia applicators. • Used 406 JD planter; good used 4-row old pipe style Oliver cultivator • Used CharLynn hydraulic Power Pac, good condition • 15-ft. John Deere wheel tandem; 2-3-4, bottom used pull type plows; 8-ft. Noble blade with ammonia applicator attachment. • 60 hp. Cletrac bulldozer, needs repairs. • new 3-pt. 2-row cultivator; 10-ft. Oliver wheel disc. • Also new 20-inch heavy gauge disc blades. • Used Oliver drill, cheap. Priced to sell; consider any reasonable offer.

Why many call us the hydrostatic people

First to serve the farmer

Because no one gives you such a variety of Hydrostatic Drive equipment as International. Here is concrete evidence that International intends to *remain first* to serve the farmer.

But what is in Hydrostatic Drive for you?

One lever gives you infinitely variable speed control—and instant forward-reverse—on the go. No shift pause or lurching. No need to touch the throttle. Never a break in power.

You set the exact ground speed you want—and adjust your speed instantly to match varying ground and crop conditions. And no matter how much or how often you change ground speed—you always have full engine power and full hydraulic power.

Farming will never be the same. See for yourself. Get in touch with your dealer—and test-drive the International Hydrostatic Drive machine that can make the biggest productive difference on your place.

Sold Four Heifers

Robert Moore of Wemago sold four heifers at a G&G area sale last week. Moore lives 8½ miles north-east of Wamego and farms 250 acres.

Start Kanopolis Irrigation By '72

LINDSBORG — Construction work for the development of the Kanopolis Irrigation District No. 7, below the Kanopolis Reservoir through northern McPherson County and into southern Saline County, is expected to start in 1972.

Winston Hedges, project manager for the Kansas River project of the U.S. Bureau of Reclamation, told a meeting of members at Lindsborg that the Kanopolis district is scheduled for completion in 1976.

Hedges also said that the feasibility survey of the district,

which is now underway, is due for completion in October this year. He said the war situation in Vietnam will probably have its influence on the Kanopolis district development program.

At the election of board members the three incumbents were re-elected. George Timmons was re-elected to a three year term. There was a tie between Abner Lindquist and Wallace Nelson for the other two directors, one for a two-year term and the other a one-year term.

Dwight Won't Close School

DWIGHT — A proposal to

close Dwight High School at the end of the school year was defeated overwhelmingly in an election here.

Dwight produced the State Class BB basketball champions in 1966 and 1967. This year's team, rated number 1 in Kansas, is in the regional semifinals at Herington, Kans.

Officials of Unified District 417 said the vote was 151 against closing the high school and 35 in favor.

The school cannot be closed without approval of patrons.

The district called the election because of an anticipated decline in enrollment here. Nineteen students indicated they will attend Council Grove High School next year, leaving an enrollment of 39 at Dwight.

If patrons had approved closing the school, all students would have attended at Council Grove.

Soldier-Whiting Won't Disband, School District

HOLTON — Patrons of Unified School District No. 335 voted overwhelmingly Tuesday not to disband the district.

The vote was 820-180.

The special election was called after 102 patrons presented a petition voicing complaints against high taxes and the selection of a disbanded missile site north of Holton on US-75

as a new school location.

The district includes 231 square miles covering the northern third of Jackson County and small sections in Atchison and Nemaha Counties.

The district has 544 students this year in high schools in Soldier and Whiting and elementary schools in Circleville, Net-

March 12, 1968

awaka, Soldier and Whiting.

Voters approved a \$685,000 bond issue in 1966 to construct a high school on the former missile site three miles north of Holton.

enjoy
gentle
even
warmth
with
flameless
electric heat

If your present home suffers from cold floors, the solution is easy. Change now to flameless electric heat. Electric heat warms like the sun's rays. No noisy blasts of hot air, but instead a gentle, circulating warmth that reaches all parts of your home including the floors.

It's time your family enjoyed all the benefits provided by flameless electric heat. It doesn't matter if you're building a new home, remodeling your present home or just want to change your heating system. Any KPL office or electric heating contractor will be happy to furnish you free details.

COOP SWINE FEEDS

Balancing nutrition for maximum profit doesn't come naturally. It takes a lot of know-how. The kind of know-how earned from continuing research, development and testing.

With feeding costs running about 80% of total swine investment, it pays to follow a feeding program that has the know-how already built in. Like the feeding program you can get at your Co-op.

See your Co-op feed man soon.

"Quality backed by profit-minded research."

CO-OP Swine Feeds with growth-promoting Tylan:			
Name of Feed	Age/Wt. to Feed	Feed per Animal	How to Feed
*Pig Pre-Starter Complete (C)	0-4 weeks (5-15 lbs.)	5 lbs.	Complete feed for early-weaned pigs or supplement for pigs on sow.
*Pig Starter Complete (C)	5-7 weeks (15-30 lbs.)	25 lbs.	Complete feed. Feed free-choice to weaned or unweaned pigs.
*Pig Grower-16 Complete (C)	8-12 weeks (30-75 lbs.)	100 lbs.	Complete feed. Feed free-choice; keep before pigs at all times.
*Pig Grower-14 Complete (C)	11-12 weeks (50-75 lbs.)	60 lbs.	Complete feed. Feed Grower-16 or -14, according to preference.
Pig Concentrate (C)	Use for mixing (5-75 lbs.)	25 lbs.	Use for mixing only, with grains.
Hog Concentrate-35 (C)	Use for mixing (12 weeks to market)		For dry lot or pasture feeding.

*These feeds are now available with 100 grams Tylan plus 100 grams Sulfamethazine per ton for maintaining weight gains and feed efficiency in the presence of atrophic rhinitis, and further prevention of swine dysentery.

OUR DAILY BREAD

— by G&G Area Cooks

Melba Finke Of Lincoln

To Receive Recipe Prize

Winner, Melba Finke, R 1, Lincoln: "We sure enjoy this paper and is one we read from start to finish. I'm sending my recipe for Tuna Casserole which is simple to make and very good."

TUNA CASSEROLE

Cook enough rice so you'll have 2½ to 3 cups of cooked rice. Add:

- 2 small cans tuna
- 2 eggs
- 1 tablespoon chopped celery
- 1 teaspoon chopped onion
- 1 teaspoon chopped green pepper

(If a pepper can be found with some red on it, it gives a nice color.) Now pour in enough milk so it will make a full casserole and mix well. Add salt and pepper to taste. Cover with cracker crumbs and dot with oleo or butter and sprinkle with paprika. Bake at 350 degrees until done. Test with a knife as you would a custard. When knife comes out clean it is done. Takes about one to one and one-half hours.

Mrs. George A. Fillinger, 209 North Delaware, Manhattan: "These are nice hot rolls and take so little time to make."

NO-KNEAD ROLLS

Dissolve 1 cake yeast in 1 cup warm water in electric mixer bowl. Add:

- 1 teaspoon salt
- 2 tablespoons sugar
- 1 egg

- 2 tablespoons shortening
- 2¼ cups sifted flour (may use part whole wheat flour)

Mix on electric mixer until smooth, about two minutes. Let rise until double. Stir down. Spoon into 12 muffin tins, greased. Let rise again. Bake 30 minutes in hot oven, about 400 degrees.

Janet Richner, Randolph: "Here are easy cookies to make. The children can make them with no trouble at all."

FRIED COOKIES

- 2 eggs
- ¾ cup milk
- 2 cups Bisquick
- 3½ tablespoons salad oil
- ¾ cup white sugar

Visit Our Retail Display Of Lighting Fixtures

Endacott Electric Co.
309 MORO — MANHATTAN

1 teaspoon vanilla
Beat the eggs and then add the sugar, Bisquick; keep beating. Then add the milk and salad oil. While still beating add the vanilla. For color you can add any color of food coloring that you want. You can color them to go with the color scheme of your party. Pre-heat the skillet to 350 degrees. Do not crowd the cookies; you can get about 4 in at a time. It takes the cookies about 4-5 minutes for one side to get done. Turn them when the one side gets done. To make them pretty you can frost them or add colored sugar to them or other kinds of decorations.

Tightens Knobs

Fasten loose knobs on drawers by cutting a small washer from sandpaper, threading it on the screw — rough side toward dresser — and tightening.

Cover Bottoms Of Ash Trays

Heavy ash trays often mar polished table surfaces. To avoid scratches, cut foam rubber sheeting to fit the bottom surface of the tray and glue it into place.

Protects Fingers

Protect your fingers by using a thimble when inserting thumbtacks.

Handy When Serving

The next time you break a rat-tail comb, save the tail part and keep it with your sewing supplies. It's handy to use when you're poking out corners in collars, belts and suspenders, after they have been turned.

Dry Back Of Damp Rug

A damp rug should be raised to let the back dry if possible. An electric fan or hair drier will help.

Use Braid To Decorate Bedroom

For a prettier bedroom at small cost, choose a colorful and washable braid trim that complements your decorating scheme and apply it to any plain window shade as a border. For coordination, repeat the trimming on your lamp shades, bedspread and even the top of the waste basket.

Starch Sheers

Organdy and other sheer curtains look their prettiest when they are starched by hand or in an automatic washer, using a hot, heavy starch solution. As you iron the damp-dry curtains, spray on more starch to give additional crispness.

Line Picture Frames

Line the backs of picture frames with strips of adhesive foam rubber to prevent rub marks on walls.

WHAT'S UNION PACIFIC DOING FOR FUTURE FARMERS?

PLENTY!

Just since 1921 — over 10,000 scholarships have been awarded to students in counties served by Union Pacific Railroad.

We're in this together — in 1967 alone almost 25% of all commodities shipped on Union Pacific were farm products.

For more information about the Railroad's dedication to agricultural improvement write to Supervisor of Agricultural Development, Union Pacific, Omaha, Nebr. 68102.

GATEWAY TO AND FROM THE AGRICULTURAL WEST

To SHIP or TRAVEL or for information about PLANT SITES Call your nearest U.P. representative

WAYNE DUNAFON, the Westmoreland, Kans., farmer as pictured this month in Gulf National Advertising.

Do you have these problems in corn production?

1. Does adverse weather conditions sometimes keep you from planting corn or other feed crops as early in the season as you'd like?
2. Does applying fertilizer in the spring slow you down at planting time?
3. Do you lose valuable time in the spring waiting for fertilizer, applicators or custom service?

If your answer to only one of the above questions is "Yes," here's how fertilizer application NOW can help solve your problem:

1. You get a headstart at planting time.
2. You eliminate rush season pre-planting fertilizing. You've already done it.
3. Equipment, supplies and other services are available NOW... no need to "wait in line."

These are just a few of the many benefits you get when you have CK provide you with genuine GULF fertilizers now. Come now or call us for the full story on "now fertilizing." We'll work with you in tailoring a fertilizer program to your SPECIFIC needs.

BULK OR SACKED — We'll apply Gulf or rent you an applicator — Just call us.

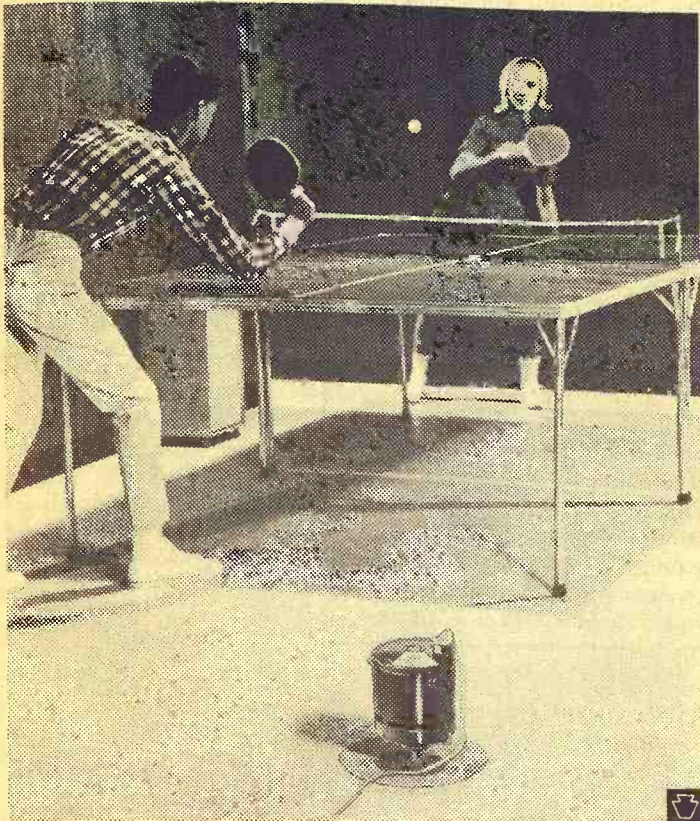

"Don't just fertilize... be Gulf wise!"

Sump Pump Will Eliminate Flooding Basement Troubles

A basement that floods with every severe storm or prolonged rainy spell needn't be a liability.

A damp, flood-prone basement can quickly be turned into a dry, attractive recreation room, work shop or spare bedroom following installation of an inexpensive sump pump.

A small motor-powered pump which sits in a shallow well below the basement floor, pumps out water collecting there as the water table rises due to heavy rains and spring thaws. It keeps ground water from ever reaching a level where it could seep through the floor or walls.

According to a leading manufacturer of pump motors, sump pumps have become standard equipment in much of today's new home construction. Owners of split-level and tri-level homes, with their furnished, lower level family rooms, no longer have the constant threat of water damage to valuable furnishings.

But sump pumps are a rarity in older homes where many builders treated them as a luxury. However, any homeowner who has ever cleaned up the mess created by a flooded basement can only consider a sump pump as a sound and necessary investment.

Today's sump pumps take little space, require no maintenance and operate on standard

housepower. Sump pump motors are quiet, permanently lubricated and are shielded and insulated against moisture, rust

Grass & Grain **11**
March 12, 1968

and corrosion. These motors have three-conductor cords for permanent grounding.

If you're one of the millions of families unable to make effective use of a basement which is susceptible to occasional flooding, a sump pump is the low-cost solution to gaining full use of all the space in your home.

Clean Stair Carpet With Damp Sponge

If the vacuum cleaner is out of commission and the stair carpeting needs cleaning, surface-clean it with a dampened sponge. The moist sponge will gather the dust, lint and wool most effectively.

GEHL MIX-ALL

- PLAIN FEEDER
- CRUSHER HEAD

Grinds! Mixes! Delivers!

The Gehl Mix-All, with economy plain feeder and exclusive crusher-feeder attachment, grinds, mixes and delivers the most uniform on-the-farm feed.

Here's proof: Samples of feed grains, ground by Gehl and competitive mills, were compared in a "sieve-shaker" analysis (a grinding uniformity test used also by commercial feed manufacturers). In test after test, Gehl samples were the most uniformly ground. And, the more uniform the grind, the better the mix!

In the Mix-All hammermill, 66 thin, alloy-steel hammers cut... not pound ingredients on a big grinding surface for faster feed flow with reduced "fines." Come on in for a close-up look at all the Mix-All features, including the swinging auger-feeder.

Make us Prove it with a Demonstration!

Serve Lemon Angel Pies

For Coffee & Dessert Parties

Today's working wives and busy mothers often haven't time to produce company dinners as frequently as they'd like. But everyone welcomes invitations to coffee and dessert parties — and they're especially good ways to entertain friends on week nights when you want to avoid a great deal of late evening cleanup.

One dessert that's always a hit is Lemon Angel Pies, which are meringue shells filled with a fluffy lemon pudding. Either buy the meringues at a bakery

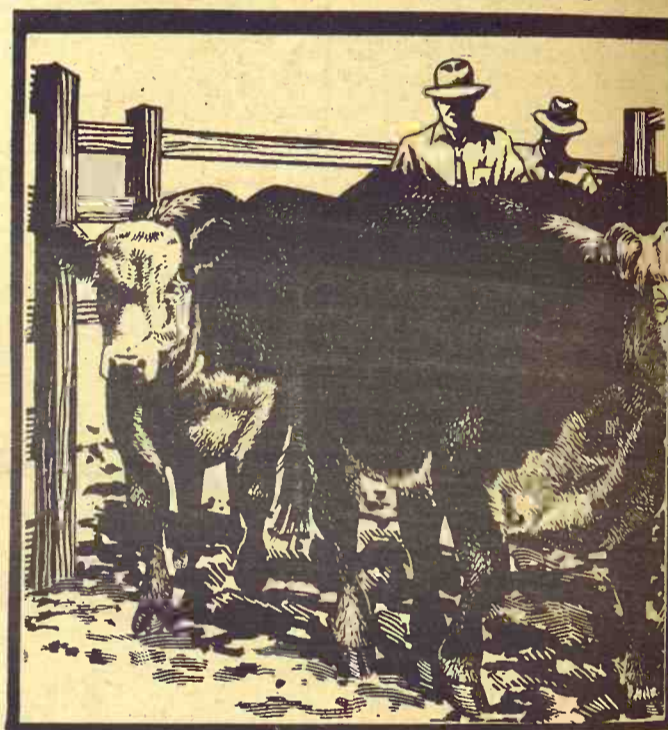

or make your own the night before, using the egg whites remaining from the two yolks that

go into the making of the aged lemon pudding and pie filling.

LEMON ANGEL PIES
 1 package (3½ ounce) lemon pudding and pie filling
 ½ cup sugar
 ¼ cup water
 2 egg yolks or 1 egg
 2 cups water
 1 cup prepared whipped topping or whipped cream
 6 baked meringues, cooled
 Combine pie filling, sugar and ¼ cup water in saucepan. Add yolks or egg and blend well. Then add 2 cups water. Cook and stir until mixture comes to a full boil and is thickened — about five minutes. Remove from heat. Pour into bowl and place wax paper directly on surface of pudding. Chill. Beat with rotary beater until smooth. Fold prepared whipped topping into filling. Spoon into meringues. Makes about 3½ cups filling or six servings.

WHAT THESE CATTLE NEED IS YEAR-ROUND FINANCING

PCA is a leading source of extended Credit in Central Kansas Ranges

Short term loans, with terminal re-payment notes, just won't do the job of financing, as so many feeders know. What you need to build a herd and feed a herd is a financing arrangement pointed to a marketing time. This is especially true in private feed lot operations. To compete successfully, you must compete also in the money market. We may have just what you've needed and wanted.

For Year-Round Cattle Financing In Central & North Kansas . . . See Us.

Big Beloit Co-op Changes Name

BELOIT — The largest co-op in the G&G area has a new name.

The Mitchell County Farmers Union Cooperative Association has been renamed Farmway Co-op, Inc.

The co-op, which headquarters in Beloit but has several locations outside Mitchell County, was renamed in a contest won by Rudy Titsworth of Beloit. Titsworth won a free week's vacation for him and his wife and their two children at a co-op camp in the Colorado Rocky mountains.

Rowe Meats, co-op public relations director, said it is hoped that action by the Kansas legislature will enable the association to assume its new name by the middle of March.

"Titsworth's suggestion was the first of the some 400 submitted, Meats said, "and it was selected without so much as changing a period or hyphen."

Clay Co-op Meeting Set

CLAY CENTER — The Farmers Union Cooperative Assn. of Clay Center has scheduled its annual meeting for March 22.

A free buffet will be served from 5 to 7 p.m. in Clay Center Community High School with the business session to follow.

Speaker will be Hal Hellebust of Topeka, executive secretary of the Kansas Cooperative Council.

Two directors will be elected. Nominees are Glen Anderson, Leonardville, and Robert King, rural Clay Center.

The association here encompasses an area in Clay, Cloud and Riley Counties.

A Defense Of Social Security

Social Security gets a cheer from an unlikely source — a private actuary.

Since the system was established in 1935, it has met continuing and often harsh criticism that it is "actuarially unsound" — meaning its rates can't pay all benefits promised eventually and bankruptcy could occur at some undetermined point. David H. Roenish, a well-known Chicago actuary, disputes the view in a paper written for Financial Executive magazine.

Despite 20 years of rising Social Security rates and wage bases to which the rates apply, and despite the expansion of benefits, Mr. Roenish calculates that the Social Security trust is solvent and likely to remain so.

In fact, he argues, it is coming close to a point where benefits can be increased without increasing the proportion of earnings taken in taxes; in general, economic growth would finance the expanded benefits.

Mr. Roenish points out that some proposals for vast increases in benefits, however, could force financing from general tax revenues and effectively undermine much private pension coverage.

Profits Up For Iowa Beef Packers

Iowa Beef Packers — the glamour firm in the packing industry in the past few years — reports its pretax profit before employee bonuses in the first 16 weeks of fiscal 1968 climbed 30% from a year earlier.

The company, which doesn't officially report quarterly results, said the 1967 period included earnings from its Stock Quality Pork division, since sold to Armour Co.

Iowa Beef Packers are presently remodeling a former Ar-

mour plant at Emporia. "Since approximately total earnings received in 1967 from that pork division were obtained in the first quarter, the remaining months of 1968 should come more favorably with 1967," the company said.

Iowa Beef said earnings in its beef divisions were higher in the first period a year earlier on a sales basis of approximately 14%.

The company says it will apply for listing on the New York Stock Exchange.

The company has also had several management changes in the first two months of 1968.

The new **ONE-SEVENTY** features the finest

With all the talk about narrow row cropping and new crops in many areas comes the need to take a fresh look at tractor power to get the job done. The ONE-SEVENTY tractor, with its factory estimated 53 horsepower, could be the main work horse on your operation or the secondary tractor if your operation is king size. The ONE-SEVENTY is powered right. It's designed to help you put every ounce of power

to work at the most economical fuel cost, low tire expenses and minimum maintenance.

If you have driven an Allis-Chalmers ONE-NINETY XT or seen one clean up jobs across the fence, you'll recognize many, many XT ideas applied to the ONE-SEVENTY. Every one has been proved in thousands of tractors by operators, by owners, by everyone who knows Tractors from the Tractor People.

U. S. Hope In Aussie Wheat Sale

Australia's sale of a million tons of wheat to Red China could have significance in the international grain market, according to G. C. Fowler, administrator for the Kansas Wheat Commission.

The \$50 million to \$60 million sale was for fair average quality (FAQ), which means it is off-grade and could mean that Australia's supply of export wheat

is pretty low. This is turn could mean that United States exports may be welcome in some of Australia's former markets — if they are unable to supply them, Fowler said.

Australia has been on a six-grade system of export the past several years after going off the "FAQ" standard, Fowler said.

The Australian sale to China could mean that it has taken over part of the Canadian market in Red China. This would mean Canada—already a bit overstocked — would have more wheat available for the international markets.

In a bulletin from Canada, the government noted that carryover of 615 to 655 million bushels of wheat is expected in Canada at the end of the 1967-68 market year.

The Canadians said wheat exports to industrialized countries have leveled off and may be down from 1966-67. Exports to developing countries will be substantially lower, they said.

Depending on volume of shipments to mainland China, they said, total exports for 1967-68 may reach 400 million bushels.

Apparently, while the Australian deal was being consummated, representatives of both Australia and Canada were meeting with representatives from the United States in Washington, D. C., to work out ground rules for the new International Grains Agreement.

Both Australia and the Canadians have complained that the U.S. exporters have an unfair advantage in the international market because U.S. exporters

can register for subsidy payments before the sale is actually delivered.

U.S. sources have complained that the Canadians and Australians are taking unfair advantage of the market through lack of any production controls. They contend subsidized production without production controls tends to oversupply the market.

Indications in Washington are that the new Public Law 480 will have increased emphasis on the 'self-help' measures within the recipient countries. This "self-help" criteria would be used at a condition of eligibility for receiving the grain food aid from the United States.

The self-help measures include population control and efforts to improve domestic food production.

Since 1954, more than \$1.5 billion worth of U.S. expenses have been paid in foreign countries with their currency received from P.L. 480 shipments paid for in foreign exchange. The balance of payments has been assisted that much.

Dollar payments of principal and interest from the long term sales of food grain under Public Law 480 amounted to \$56.6 million in the 1963-66 period. Barter program operations resulted in a savings of \$479 million savings of the United States merchandise overseas.

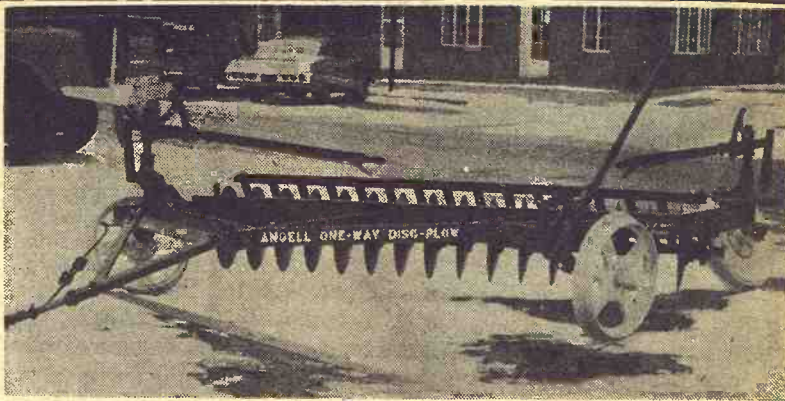

Emergence of cash markets from the former P.L. 480 markets has been one of the high points of the entire P.L. 480 program.

Countries now are buying for cash the same products they began to use under P.L. 480, he said. Among these are Japan, Taiwan, Brazil and Republic of Korea.

John Lesch of Bunker Hill was the female volume buyer, choosing the two tops at \$625 each. Vic Roth was the sale

March 12, 1968

manager and George Morse was the auctioneer.

Early Oneway To Smithsonian

The Smithsonian Museum in Washington, D.C., has received this Angell one-way plow from the son of the inventor, a Plains, Ks., farmer who constructed his one-way plow in 1923. The son, Francis Angell, restored the 8-foot plow which was probably built on the Angell farm in 1925 or 1926. Angell built his first plows on the farm, turning out as many as 300 in 1925. An Ohio cultivator company acquired the business in 1926, shortly before Angell's death. Modifications of Angell's original plow are still in use in the Midwest.

**A Regional
Better Business
Bureau Planned**

A multi-county Better Business Bureau is in the initial steps of creation in northeast Kansas. A recent meeting in Topeka made several moves toward the formation of the organization, which is designed to protect consumers from business fraud and deception. As planned, the organization would include all counties bordered by Marshall, Riley, Geary and Morris on the west; Lyon, Osage and Franklin Counties on the south; Douglas, Jefferson, Leavenworth and Doniphan on the east; and all counties inside the boundaries north to the Nebraska border.

**THESE EXTRA QUALITY FEATURES
ADD POWER, LIFE & ENDURANCE
NYLON CORD**

Pound for pound, Nylon cords are actually stronger than steel... with the added advantage of built-in resistance to "flex fatigue."

RESISTS BARNYARD ACIDS
Unaffected by eroding action of powerful acids. Special tire compounds protect against checking, cracking, chipping.

EXCELLENT ROADABILITY
Special tread design results in easy, free rolling, giving operator a more comfortable ride.

NEW OFFICERS FOR POTTAWATOMIE NFO

WAMEGO — The Pottawatomie County NFO has elected new officers: Don Tessendorf, chairman; Jerry Pinick, vice chairman; Anjata Steinberger, secretary; Mike Finan, treasurer; and Erhart Thiele, trustee.

Oat Planting

Francis Lasswell of Emmett planted 30 acres of oats last week. Lasswell farms 460 acres north of Emmett in Pottawatomie county.

Two Livestock Events Set By KSU

Two special spring events for stockmen are announced by Kansas State University. Sheep Day will be Monday, April 1, and Cattlemen's Day is set for Friday, May 3.

These events feature a round-up of research aimed at improving the livestock industry in Kansas and the United States. Dr. Ron L. Good, head of the animal husbandry department, said. Each event will include a ladies' program.

Included in the topics for sheepmen are accelerated lambing, lamb carcass research, feeder lamb research, and breeding and selection program. Sheepmen will hear about a special project aimed at developing the sheep industry and promoting lamb products, and several Kansans will receive awards for excellence in sheep production.

Assistant Secretary of Agriculture George Mehren will be the featured speaker at Cattlemen's Day, formerly known as Feeder's Day. He is expected to discuss possible impacts of international conditions on the beef cattle industry and the

future role of the United States in world beef trade, both dressed beef and breeding stock.

"Research information will be presented by the KSU staff relating to all phases of cattle production — nutrition, breeding, meats, reproductive physiology, and pasture management," Good said.

Other special events for Kansas stockmen include Sheep Day at K-State's Colby Branch Experiment Station, March 25; and Hays Round-Up at the Hays Branch Station, April 26. Swine Day as KSU is set for September 26.

Peckman-Morgan Average \$329

OTTAWA — The joint production sale of Peckman Brothers, Paola, and Morgan Brothers, Greeley, averaged \$329 on 24 bulls and \$258 on 45 females.

Peckman Brothers offered the top bull at \$500, bought by K. C. VanCleave, Galesburg. Warren Thoms of Paola took a Morgan Brothers bull at \$475.

Seven female lots brought \$350 each. Peckman Brothers offered two, and five were offered by Morgan Brothers. Jean Bond, Pleasanton, took several female lots in this price range.

Phil Ljungdahl was the sale manager and Ray Sims the auctioneer.

AREA WELL DRILLER GEORGE COX DIES

CLIFTON — George Cox, well-known area well driller, has died here at the age of 61.

ROBERT KENNEDY

Kennedy Date Set Again

The appearance of Senator Robert Kennedy of New York, three times postponed, has been set again for next Monday, March 18, for Kansas State University. His speech will be part of the Landon Lecture Series which has brought famous political persons to the K-State campus. The address will be given at the Ahearn Fieldhouse, starting at 10 a.m.

Parity Figure Lowest Since Depression

By Ruth E. Clifton
Kansas State University

One measure of the way things are going down on the farm — the parity ratio — shows that the nation's farmers are being squeezed even tighter by lower prices and higher production costs. Parity shows the relation between prices farmers pay for the things they buy and prices they receive for what they produce and sell. The higher the ratio, the more prosperous farmers are in relation to other sectors of the economy.

The annual average parity ratio was 74 in 1967 — the lowest since 1933. Parity reached a low of 58 in 1932, rose to 64 in 1933, and 75 in 1934. More recently,

it dipped to 76 in 1964, but rose to 80 in 1966.

The general idea behind parity is that 100 pounds of hogs or 100 bushels of wheat should bring enough money on the market to buy as much as it did during an earlier base period. Parity initially was thought

of as a fairly direct measure of income. It may have served that purpose in its early days. However, experience has shown that income and prices can go in opposite directions under certain circumstances.

USDA also computes an Adjusted Parity Ratio which reflects government payments. This measure was 79 in December 1967.

Weather Bureau Wants Its Balloons Back

ST. LOUIS — The Weather Bureau asks that you please return any balloon-borne package of weather instruments which you may find.

The instruments flash back information to weathermen around the world. The package they are in is called a radiosonde. Each day more than 300 of the balloons are launched from stations over the world.

The bureau in a news release

AUCTION

8½ miles northeast of Council Grove, Kans., then ¼ west.

Wedn., Mar. 20
Starts 1:00 p.m.

Machinery and tools including the following: 1954 IHC ½T pickup with only 10,075 miles; 4 speed, excellent condition.

1954 IHC Super H Farmall tractor, live PTO, used very little, always shedded. Looks like new.

PAUL H. KIRKEMINDE
Owner

Clerk, Farmers & Drivers Bank, Council Grove. Auct Jim Kirkeminde.
135 E. 29th, Topeka, AM 6-4590

from St. Louis says thoughtful citizens are saving the American taxpayers about \$180,000 a year by returning radiosondes. A small Weather Bureau reconditioning center in Joliet, Ill., repairs the equipment for re-use. It recently repaired its 400,000th radiosonde.

The instruments measure temperature, humidity and air pressure as they rise through the atmosphere. They radio this information back to the ground.

Grass & Grain 23

March 12, 1968

The bureau says most of the radiosondes are lost in remote areas or at sea, but about 25 percent of them are returned by finders who follow mailing instructions in the packages. In each balloon is a postage-paid mailing sack which can be given to the nearest post office or mailman.

Mealticket With Ewe Flock

Larry Epley, a senior at Kansas State University in ag education, has found that a ewe flock operation is helping his way thru school. Epley, from Kingman, has rented a couple of acres from Conrad Eriksen, southwest of Wamego and presently is keeping 118 head of purebred Hampshire. Epley got his animals from Danny Emig of Solomon last September and is selling wool and lambs for 4-H projects for cash crops.

Kansas Shorthorn Officers

Officers of the Kansas Shorthorn Association for 1968 (seated) Gary Cummings, Kingsdown, vice president; Bryce Lindson, Americus; Milton Nagely, Abilene, secretary-treasurer; Lester Love, Partridge, president; (standing) Bill Scott, Eriksen; Dorsey Elliott, Sublette; Wallace Lindberg, Galva; P. K. Hurley, Newton; Norman Roux, Moundridge; Carol Reynolds, Cuba.

Tiny Postoffice

There's probably not a smaller post office in the entire G&G area than this one at Louisville in Pottawatomie County. It's a full service office. Louisville once was considered a possible site as the capital of Kansas. Now, in a current controversy over the courthouse in Pottawatomie County, Louisville won't get many supporters to have the county seat located there.

Granny Enjoys A Smoke

Isabel Wilcox, 105 years of age, says she smokes two packs of cigarettes a day and enjoys a cigar every now and then. She says she started smoking a corncob pipe at the age of 10. Granny Wilcox lives at the Brook Hollow Manor Nursing Home in Dallas.

Shorthorn Lassies Officers

Officers of the Kansas Shorthorn Lassies Association for 1968: (seated) Mrs. William Sluss, Eldorado, secretary-treasurer; Mrs. Fayne Lawson, Penalosa, president; Mrs. Wallace Lindberg, Galva, vice president; Mrs. Norman Roux, Newton; (standing) Mrs. Waldo Poovey, Westphalia; Mrs. Keith Lane, Abilene; Mrs. P. K. Hurley, Newton; Mrs. Gary Cummings, Kingsdown. Not pictured are Mrs. Albin Kolarik, Caldwell, and Mrs. Howard Lilly, Melvern.

LONGFORD MAN WINS YOUNG FARMER AWARD

Fred Heigle Jr. of Longford was recently named winner of the farm electricification award by the Kansas Young Farmers. He received a check and plaque from the Kansas Electric Co-ops. Gary Sylvester of Riley County was runnerup.

WOODBINE CO-OP PHONE RE-ELECTS TWO

WOODBINE — Fred Feyerabend and Milton Ruhnke have been reelected directors of the Woodbine Co-op Telephone Co. Other directors are Arthur Timm, B. H. Oesterreich, Alvin Zeckser, Levine Janke, and Jack Staatz. Timm is president

Area Herefords Sold Into Mexico

ALTA VISTA — Two Hereford breeders here have sold 32 purebred bulls to a livestock man in Mexico.

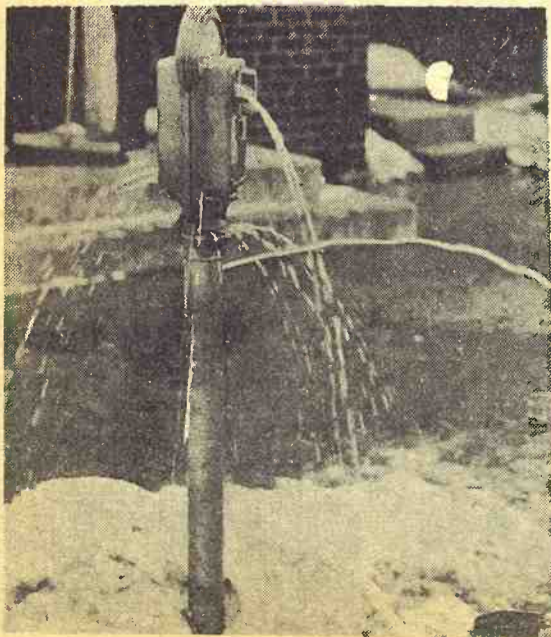

Albert Morgan and Leroy Fechner, both members of Kaw Valley Hereford Association, made the sale to Alberto Pesquera of Agria Prieta, Sahuila, Mexico. H. H. Estes of Abilene, New Mexico, made the purchase for Senor Pesquera.

The bulls will be moved to Manhattan trucker Mel Berg as soon as the bulls are checked for TB and brucellosis.

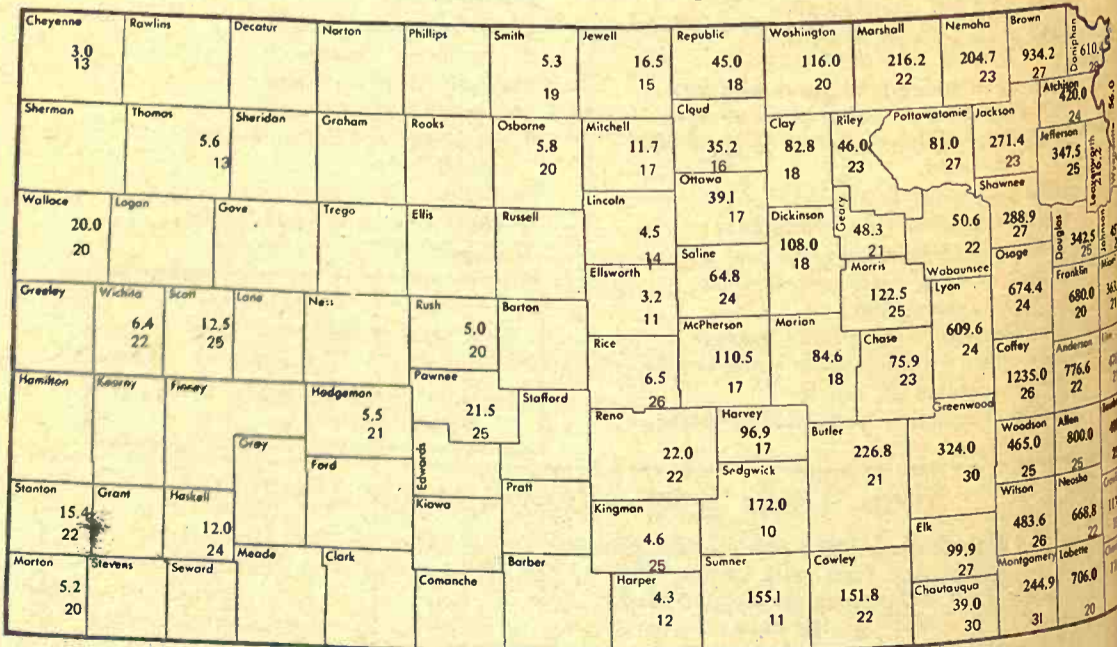

Quarter-Million Dollar Order

An order for a quarter-million dollars' worth of farm machinery is scheduled to be delivered this week to the 6000-acre Shinrone Farms near Odeboit, Iowa. The machines have been painted white and green especially for the farms, altho they are all standard Massey-Ferguson equipment. The Shinrone Farms also have a farm near Bloomfield Hills, Michigan.

No Coins In Fountain

A parking meter turned fountain gushes water in flowing tribute to unusual winter in Virginia, Minnesota. Lack of snow cover permitted frost to penetrate deeper than normal. Results have been a rash of broken water mains. Water found its way up hollow stem of parking meter.

Where The Soybeans Were Grown

The map shows gross production and yields of soybeans in Kansas in 1967. The top figure is in bushels in thousands. The bottom figure is in the yield in bushels per acre. For example, Cherokee county in the extreme southeast corner of the state produced 1,764,400 bushels of soybeans, a yield of 22 bushels per acre.

Soybean Contest Winners

Maurice "Jack" Gray of Highland, second from right, was the contest champion named at the third annual Kansas Soybean Yields Awards banquet at Manhattan last week.

Gray won \$200 and a plaque for getting a 68.19 bushel per acre yield from 5.31 acres. The contest was sponsored by Kansas Soya Products, Emporia; Archer-Daniels-Midland, Fredonia; and Cargill Inc., Wichita.

In the picture with Gray are Albert Kientz, Wamego; Howard Birkbeck, LeRoy; and Wayne Dicken, DeSoto.

Kientz was the leader on irrigated land with a 53.62 yield. Birkbeck was the overall runnerup, averaging 63.9 bushels. Dicken was another \$100 winner, with a 61.26 bushel average.

Other award winners were Leon Sinn, Fort Scott, and Milo Schroeder, Inman.

Gray, the winner from Doniphan county, has been raising soybeans for 10 years. This year he planted 230 of his 718 acres of total cropland to soybeans, but lost all but 70 to a Missouri River flood. On the full 70 acres, he averaged 50.3 bushels. The contest plot, which was planted to wheat the year before, was in a field of 28 acres which averaged 62.4 bushels.

Gray's operational procedure was to disc in one quart of Treflan per acre on April 20, and then plant 72 pounds to the acre of Clark 63 certified seed with 120 pounds of 7-21-7 fertilizer as a starter. He cultivated once, on June 20, and harvested on October 20. Gray is 46 and has farmed the same ground for 18 years.

first, second and third in business operations. The number of cooperatives operating was reported at 8,382, a decline of 2 per cent from the previous year. Much of this decline reflected consolidations and mergers.

Total membership in co-operatives was reported at 6,855,470, a decline of 11 per cent. The department said this reflected a decline in the number of farmers.

In the volume of products sold, dairy cooperatives led, followed by grains and grain products, soybeans, livestock and livestock products.

He Wants To Be Governor

Rick Harmon, the onetime Kansas State basketball player, now operator of the Myron Green cafeteria chain, says he will be a candidate for the Republican nomination for governor. Harmon, 39, lives in Shawnee Mission. Lt. Gov. John Crutcher of Hutchinson is already an announced Republican candidate as is Raymond Van Skiver of Wichita.

Concordia PCA Reelects Officers

CONCORDIA — At the reorganization meeting of the Board of Directors of the North Central Kansas Production Credit Association following the annual meeting George Fredrickson was reelected president, Leslie H. Stensaas vice president and James D. Ganson, secretary-treasurer.

Leslie H. Stensaas of Republic County and W. E. Kadel of Mitchell County were re-elected to three-year terms as members of the board. Holdover directors are George Fredrickson, Cloud County; Louis Bierbaum, Washington County, and Arnold Rose of Jewell County.

The 34th annual meeting of the North Central Kansas Production Credit Association was attended by 286 members and guests.

In giving the financial report, Manager James D. Ganson said \$13,389,261 had been loaned during 1967.

Little Meat Rejected By Federal Inspectors

An Agriculture Department report shows that less than one-sixth of 1 per cent of the meat animals it inspected for possible diseases were rejected for slaughter during the 1967 fiscal year.

The number of animals — mainly cattle, calves, hogs and sheep — inspected totaled 112,910,691. Of this number 112,731,912 were passed for slaughter for food. This meant that only 178,779 animals were condemned.

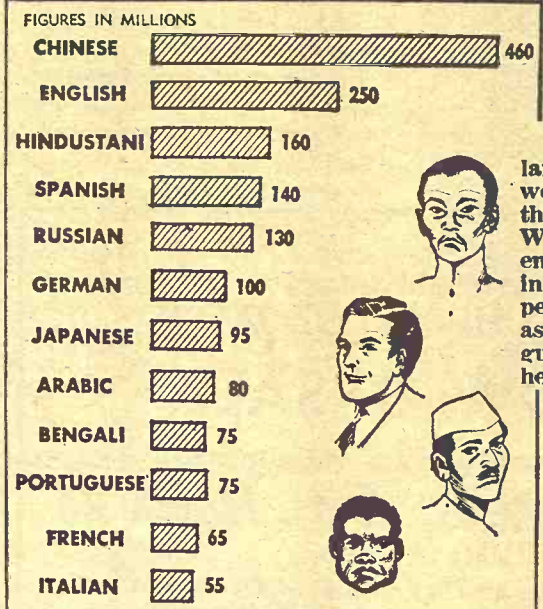

In addition, a total of 112,896,166 carcasses were inspected af-

ter slaughter, of which 112,639,391 were approved for food.

Thus the number of live animals and carcasses rejected for food use represented only about one fifth of one per cent of the

total moving through plants operating under federal inspection.

SPEAKING OF THE WORLD

There are 130 basic languages in the world, according to the University of Washington. The dozen most important — in terms of total persons who use them as their native tongue — are charted here.

Co-op Volume Up 61% In 10 Years

The nation's farmer cooperatives did a record \$15,700,000,000 business in the year ended June 30, 1966 — 7 per cent over the previous year.

This was reported in a survey by the Agriculture department.

The department said the cooperatives have increased their

business volume 61 per cent in 10 years.

Sales of farm products totaled \$12,300,000,000. Purchases for members — mainly of production supplies — totaled \$3,100,000,000.

Cooperatives in California, Minnesota and Iowa ranked

Livestock Convention At Wichita This Week

The 55th annual convention of the Kansas Livestock Association will combine informative general sessions and committee meetings with numerous festivities for members and guests of this 74 year old state-wide livestock association. The meeting, at the Broadview Hotel, the headquarters hotel, will be March 14-15-16 in Wichita, Kansas.

Prominent speakers from Kansas, Colorado, Illinois, Nebraska, and Washington, D.C., will address members during the three-day meeting which will focus on state and national affairs in relation to the livestock business — the number 1 Kansas industry. A wide range of topics will

be discussed by the speakers who include Senator Roman Hruska of Omaha, Nebraska, a member of the United States Senate. Senator Hruska will discuss "The Road Ahead for Agriculture." Bill House, Cedar Vale, Kansas, president of the American National Cattlemen's Association with headquarters in Denver, Colorado, and Charles Jennings, president of the American Stock Yards Association, Washington, D.C., will both discuss the changing cattle and livestock industry.

Tax problems, especially relating to federal estate taxes and farm losses, will be discussed by Claude M. Maer, Jr., of the National Livestock Tax Committee, Denver, Colorado.

Other tax issues facing the livestock industry will be presented by a tax panel moderated by John Blythe, Council Grove, chairman of the Kansas Livestock Association Tax Committee. Panel members include Senator Frank S. Hodge, Hutchinson, representing District 34 in the Kansas Senate; Lawrence D. Slocombe, Peabody, representing the 90th district in the Kansas House of Representatives; William Settle, lawyer from Fredonia, and Glenn Wier, Kiowa, past president of the Kansas Association of School Boards.

Others presenting addresses are Miss Sandra Brookover with the Standardization Branch, Livestock Division, USDA, Washington, D.C.; W. M. Ostberg, vice president, National Bank of America, Salina; Arthur J. Holst, Peoria, Illinois, administrator of the Forest Park Foundation, Peoria, Ill., and Kenneth Heywood of the Kansas State University Endowment Association, Manhattan.

tan. Mr. Heywood will discuss "The Public Controversy and Its Private Support."

The convention will begin at 2:00 p.m. Thursday afternoon, March 14, when all Association standing committees meet to formulate plans and prepare resolutions.

The first general session will

be Friday morning, March 15, beginning at 9:30 a.m. Other general sessions will be Friday afternoon and Saturday morning, March 16, and will include committee reports, adoption of resolutions, and election of officers and directors.

All functions of the convention are open to members and their wives and others interested in the livestock industry are invited to attend and participate.

Prison Farms Cash In On Payments

The Dept. of Agriculture is paying subsidies to prison farms to keep part of their acreage idle, even though such farms are designed to keep inmates active.

Agriculture Dept. officials confirmed this when a reporter asked about the Cummins state prison farm, the Arkansas facility where convicts bodies were found in January.

Cummins, according to department records, has received \$255,000 in agriculture subsidies in the last two years, much of it for keeping 35 percent of its cotton acreage out of production.

Prison farms are "the same under the law as any other producer," an Agriculture Dept. spokesman said.

"We're just as interested in keeping their acreage out of production as anyone else's. It's cheaper to make payments than to take over the commodity after it's been produced."

He said the Agriculture Dept. has no power to require prison farms to grow crops not in surplus.

At least three or four other prison farms, mainly in the South, are receiving similar payments, the spokesman estimated.

The spokesman said thousands of recipients are recorded on a county-by-county basis, and he was unable to identify the prisons with such record keeping.

The Cummins payments were spotted only when a reporter suggested checking under Lincoln County, Arkansas.

Since cotton support legislation was approved late in 1965, Cummins has received \$114,294 in 1966 and \$141,443 in 1967 for acreage diversion and price supports.

To qualify, the prison has kept 35 per cent of its 1476 acres of cotton — the maximum allowable — idle.

Besides cotton, the government provides acreage diversion payments to some producers of wheat and feed grains.

In a telephone interview from

Grady, Ark., prison superintendent Thomas O. Murton agreed that prison farm subsidies "seem kind of odd in a way."

He said Cummins has long produced rice and cotton "as a business operation to make money for the state." He said other crops would be less profitable.

Murton said the agriculture payments go into the state treasury, and the state, in turn, appropriates funds for the prison.

He indicated that because of financial considerations, the cotton program would remain as is. He said Cummins would participate in agriculture subsidies again this year.

Federal Tear Over Farm Program Signup

The federal government is waiting to put \$750 million into the pockets of American wheat farmers but says most of those eligible aren't cashing in on the potential harvest.

The money would be paid under the federal wheat control program, aimed at avoiding overproduction and consequent lower prices. The government

said last week most of the wheat growers won't produce more than the program limit but are not signing up for it.

A signup drive for wheat, feed grains and cotton opened Feb. 5 and closes March 15. So far only about one-fourth of the wheat growers have signed up.

All the farmers have to do is certify during the signup period that they are abiding by, or will abide by their allotments.

Under the 1967 program, participating farmers get payments of about 48 cents per bushel on their wheat plus an average market price of \$1.41.

Thus a farmer with a wheat crop of 1000 bushels would lose nearly \$500 by failing to participate in the wheat control program.

Under the feed-grain program, less than half of the corn and sorghum growers had signed by Feb. 29 in a program designed to idle at least 30 million acres of the 153 million acres normally used for these crops. Full participation in this program could mean \$1.3 billion for the growers.

In the case of cotton, where the government seeks a larger planted acreage than last year's very small one, growers have signed up to idle a larger percentage of their planting allotments than the government recommends.

the new corporation. Incorporators are Harold Albin, Harold Richardson and George Wreath.

Abilene Protest On Vo Tech

Juco Payments

ABILENE — Payment of an \$8500 bill by the Dickinson County Commissioners to the vocational school at Salina has caught newspaper criticism from the Abilene Reflector-Chronicle.

Part of the payment has been due since September, said Ruth Love, Reflector news editor, but the county didn't have funds available and the commission didn't want to issue no-fund warrants.

The tuition covered the voca-

tional training of 19 students. The total bill for 71 pupils attending junior colleges and vocational schools was \$18,000.

Emporia Pays More To Save Packing Plant

EMPORIA — The City Commission has announced it has voted to issue \$4½ million in industrial revenue bonds for expansion of the Emporia plant owned by Iowa Beef Packers.

The action was taken in a closed secret meeting but City Manager V. A. Basgall said that Mayor Fred Fleming and Commissioner M. L. Henrikson voted in favor of the request by the packing company while Commissioner Ralph Daggett cast a dissenting vote.

Request for the bonds was made by Maurice McGill, an official of the firm based in Dakota City, Nebr.

McGill's request was for funds to pay Armour and Co. for its plant and to remodel it to specifications set forth by Iowa Beef Packers Inc.

McGill said the action was taken quickly so company officials could study the bond market in New York City.

It also was announced that Iowa Beef Packers has been given a \$4½ million industrial bond issue for its plant at West Point, Nebr.

Under terms of the letter of intent regarding the bond issue, Iowa Beef Packers will pay taxes on an evaluation of \$195,000 which is the same as Armour paid on. The bonds will be for 20 years.

Arizona Farms Average \$23,650 Net

Arizona led the states last year, as it has for many years, in the average net income of its farms. The figure was \$23,650, or 4 per cent more than in 1966.

The average net income per farm for the nation was \$4,573

last year compared with \$5,049 in 1966. Net income is the amount remaining after production costs.

An agriculture department report showed that West Virginia was at the bottom with a farm income average of \$885, down 12 per cent from the previous year.

The average income per farm for the other states last year and the percentage change from 1966, included:

Iowa, \$5,822, down 21 per cent; Missouri \$3,273, down 14 per cent; Nebraska \$6048, down 10 per cent; Kansas \$5259, down 13 per cent; Oklahoma \$3486, down 13 per cent.

State Farm Hereford Bulls Average \$1087

CHESTER, NEBR. — The State Line Farms, owned by Mr. and Mrs. E. G. Nesmith and Son, held seventh annual Polled Hereford Production sale, grossing \$38,190, with 26 bulls averaging \$1087 and 17 females \$585.

The top bull, a 2-year old son of Polled Mod Lamp 26, out of SLF Dolly Mesa 1, topped the offering at \$5000 from Rollins Ranch, Atlanta Ga. Mont Vue Farms, Niota, Tenn., paid \$4250 for another top bull.

A \$2200 sale was made to Clarence Chandler of Kanorado, Kans. A \$1550 sale went to McCann & Mahon, Edison and Ayr, Nebr.

A bred heifer topped the female list on an \$800 bid from Lawrence Darst of Oklahoma City. Another heifer, which sold open, went for \$75 to Mont Vue Farms.

Freddie Chandler was auctioneer.

Friday MARCH 15

Starts 10 a.m.

Lunch Served

A Study Of Driver Reactions By GM To Test Safety Devices

General Motors Corp. is developing a new type of driving simulator designed to find out more about how drivers behave in accidents.

GM said the simulator reproduces every detail of the driving experience — sights, sounds, even the feeling of the car's movements. When a volunteer went for a three-minute test "drive" in the device, he was thrust back into the seat as his "car" moved forward into a two-lane rural highway. He leaned to fight the pressure of rounding several sharp curves at what felt like 55 or 60 miles an hour.

Suddenly, rounding one of the curves, a slow-moving truck loomed up before him. Terrified, he sharply turned to the left to pass the truck, only to find that the left lane was blocked by a row of red barrels. Tires screeched as he swerved

sharply to the right to avoid them, but his car clipped the front of the truck and was violently spun around in a 180-degree turn. The experience was so realistic that this reporter emerged from the simulator with rubbery knees and a queasy stomach.

GM hopes the device — still in the first stage of a three-step development program — will aid it in learning how drivers react when presented with emergency driving situations.

"If we know more about this, then we can make a more intelligent decision on whether we should go ahead with such safety-related options as antilock braking systems," said Frank J. Winchell, GM's director of development engineering.

CORNING HIGH SCHOOL TO DISBAND DISTRICT

CORNING — The high school here will be disbanded and the section in which the school located will become a part of the Centralia district. The move to disband was made last week following a meeting with Seneca and Centralia boards of education. The move made moot an action by the Kansas State Teachers Association warning members against accepting teaching positions at the high school.

2 4x16 Case
3x14 JD, on rubber
4x14 JD, trip control
3x16 IHC plow, on rubber

ELEVATORS, SPREADERS
2 Kelley-Ryan 33-ft. elevators
John Deere grain and bale hay elevator, 40-ft., PTO
Mayrath 6" auger, 30-ft., gas motor
6" tailgate auger, hydraulic driven
Moline spreader, on steel
New Idea spreader, on steel
Easy-Flow fertilizer spreader, A-1
Gandy fertilizer spreader, 10-ft.
16-ft. hay elevator, w/ gas motor
IHC spreader
21-ft. hay elevator

**FIELD CUTTERS
AND DRYERS**
John Deere No. 8, 1-row field cutter, A-1
Behlen 500-bu. grain dryer
1966 Gehl grinder-mixer, A-1

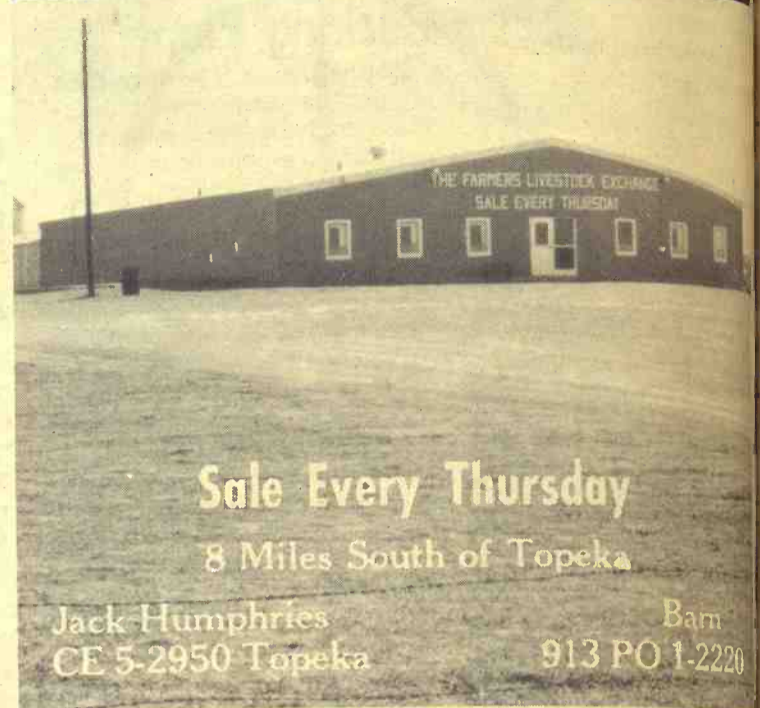

Trucks & Trailers
4-wheel flat-bed trailer
1949 Chev. 2-ton truck, w/ 13 1/2' bed racks, and hoist, 2-speed
1949 Chev. 1 1/2-ton truck, w/ 13 1/2' bed
1962 Chev. 1 1/2-ton, cab and chassis, 14,000 miles
1965 IHC 1890, 2 1/2-ton truck, w/ 2-speed and 5-speed, 345 engine, 9:00 rubber
100-bu. wood flare bed
1965 Blair 4-horse trailer, w/ brakes, factory built
1959 IHC 190 tractor, w/ full air, 5th wheel and new rubber
36-ft. covered van
2-wheel irrigation pipe trailer
2-wheel Baldwin header trailer

New Machinery
Big Ox, 7 knife subsoiler, 3-pt. hitch
1967 Glencoe 15 1/2' field cultivator
Forney 180 amp electric welder, like new
Harris gas welder, outstanding condition
Sioux valve face grinder machine, like new
180 amp. Marquette welder

NOTE: The new machinery parts and some other machinery is consigned by Mrs. Harold Humes, formerly Humes Sales Co., IHC dealer. This is only a partial listing and there will be many more items by sale day. Machinery is to be on ground day before sale. Commission: 5% Sales and 2% no Sales. Also selling dozens of miscellaneous items.

Sale Every Thursday

8 Miles South of Topeka

Monday AUCTION SALE MARCH 18

Starts 9:30 a.m.
Lunch Served

Due to health we are quitting farming and will sell at public auction on the farm located 7 south, 1 west and 1/2 north of Barnes, 1 north, 6 east and 1/2 north of Kimeo, or 16 north, 11 east and 1/4 north of Clay Center, Kans.

CATTLE

40 Hereford cows, 3 to 5 yrs., 4 calves at side, more by sale day, balance springers
Guernsey cow, 4 yrs., milking, been fresh 8 weeks
Holstein Guernsey calf, 8 wks. old
Registered Shorthorn bull, coming 2 yrs., gentle and a breeder
20 mixed yearling steers and heifers
12 Hereford steer and heifer calves, app. 400 lbs.
NOTE: Area tested, in good condition, good loading facilities. Your inspection invited prior to sale day. Cows bred to Hereford bull.

HOGS & EQPT.

66 Hampshire feeder shoats, 100 lbs., vacc. all 3 ways, good ones
6 metal 60-65 bu. round type self feeders
Hog troughs, pans; hog netting.

SHEEP & EQUIPMENT

50 native cross bred ewes, 2 to 4 yrs., some lambs at side
2 Suffolk bucks, solid mouths
Sheep bunks & feeders; sheep netting

POSTS, BUNKS, PANELS SHOP EQPT. & MISC.

200 hedge posts; steel electric fence posts; used lumber; gates; several new panels; used panels; 3 14-ft. grain bunks on steel runners, new.
Forney electric welder, 180 amp., with attachments, good; McCulloch No. 44 chain saw.
Air compressor; 2 6-volt fenders; bale twine; alfalfa seed; milo seed; 300-gal. diesel tank; hose and nozzle; 300 gal. gas tank; steel stand, hose and nozzle; garden hose; gas barrels; gas cans; buckets; anvil; vise; bolts; nuts; washers; forks.
Axes; shovels; saws and 1001 small misc. items used on the farm.

DeLaval No. 518 electric cream separator, like new

Farm Machinery

1960 IHC 460 diesel tractor, TA, L hyd., LPO, row crop, radio, fast hitch, good rubber, good
1951 John Deere Model B tractor, gas, roto-matic, power trol, good rubber, good shape
1958 John Deere No. 45 12' combine, fully equipped, good
1967 Krause 12' wheel disc,

end disc, ST in center, 20-in. disc, used on only 100A, like new

1966 Krause 11' chisel, 3 pt. or 2 pt., sweeps, very good
1956 John Deere FB 7x17 fertilizer grain drill, grass seeder, press, low rubber, power lift, good
1962 IHC 2-row lister, rotary moldboards, rubber press, fertilizer, very good
1956 New Holland Super 66 hay baler, PTO, good
1959 St. Joe pop up bale loader on rubber, good
John Deere No. 5 7-ft. mower, good
IHC No. 11 side rake, on steel
Oliver 3x14 radex plow on rubber, good
Oliver 2x18 radex plow on rubber, good
Massey Harris 2x14 plow on rubber, very good
2 Papec No. 151 field cutters, single row, good shape
Viking hammer mill, PTO on rubber, good
Easy PTO post hole digger, hook up for JD, good
Horn front end loader with bucket, fit 460 tractor, good
IHC subsoiler with 2 point
IHC 9 ft. tandem disc, pull type
IHC No. 10C hammer mill
IHC 12' spring tooth with steel evener
John Deere No. 200 mounted cultivator
4 ft. tumble bug
IHC 10 ft. PTO grain binder, good
IHC single row corn binder
Pickup reel for 12' combine
3-section drag harrow
Dump rake
16'6" grain auger with gas motor
12'4" grain auger with electric motor
Comfort tractor mounted weed sprayer, new pump, hand boom with 50 ft. hose; a lot old mchry. & junk iron items

TRUCK & TRAILERS
1959 IHC BC-160 truck, 14' bed fold down stock racks, hoist, 2-speed, heater, complete overhaul, good
4-wheel trailer with wagon bed
2-wheel trailer with metal bed

HOUSEHOLD GOODS
2 youth beds, complete; Kessler Bros. piano and bench. This is not a real large piano.
Maytag square tub washing machine and tubs.
Also a few other household items

Radials, Cords Complicate Tire Business

The tire business, which has never lacked for confusion, is getting more complicated all the time.

A variety of brands, materials, types, prices and sizes have often confused the wary buyer.

Now, even the tire makers share the perplexity.

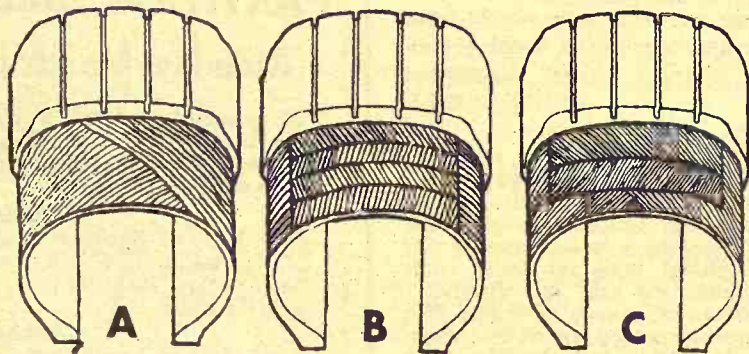

The confusion is not all bad. Most of it concerns technological changes which the manufacturers hope will mean more sales of profitable premium tires, but which also promise safety, strength and comfort for the motorist.

Basically, there are two broad fields of change. One concerns materials, with polyester, glass fiber and even steel in use. The other concerns a revolution in configuration — that is, the way the fabric cords relate to the tread.

For years tires have been made as in drawing A. Fabric impregnated with rubber is laid on a drum with "bead wires" that will form the tire lip to grip the wheel rim. More fabric is then laid on. For years the bias body ply has run at a 35-degree angle to the tire's travel

axis. The tread is laid over the fabric and both are forced into a mold under intense heat and pressure.

The radial ply tire has resulted from manufacturers' search for a stronger tire. As shown in drawing B, the fabric cords are laid over the body of the tire perpendicular to its travel axis.

A
Conventional
Tire

B
Radial Ply
Tire

C
Belted Bias
Tire

Over the fabric and beneath the tread is a "belt" of rubber layers strengthened with rayon or glass fiber.

The radial tire deforms more readily, putting more rubber on the road, and the belt's stabilizing effect reduces tread "squirring" on the pavement. This construction reduces friction and roll resistance, its proponents say, and may double tread life. It also makes it cost 40% more than a conventional tire, and critics say it produces a harsher ride at lower speeds.

The latest wrinkle among the tire makers is a hybrid, as in drawing C, which lays the fabric on a bias, as in the conventional tire, but retains the belt of the radial tire.

It costs more than a conventional tire by 15 to 20% but offers most of the toughness of the radial tire but doesn't give nearly as rough a ride, say the manufacturers.

The tire makers have another reason to favor the hybrid. It can be made on existing equipment, while the radial ply tire requires entirely new tire-building machinery as well as modifications in the vulcanizing process.

While the hybrid belted tire reduces the need for a major capital expenditure, it also means that small producers can get into production quickly,

which should lower prices to conventional tire levels.

Armstrong Rubber — supplier to Sears, Roebuck, the third largest tire retailer — scored first with the belted bias tire, and all the major companies — Goodyear, Firestone, Uniroyal, General and Goodrich — are ready for its production.

strength and nonstretch properties.

Thus far glass fiber for tire cords is made by only two producers, Owens-Corning and Pittsburgh Plate Glass. Owens-Corning, of Toledo, says it will double its capacity and aims to allow "conversion in 1968 of 15% to 20% of all passenger tires," says a company official.

Steel tire cord, while used for nearly a decade in truck and off-the-road tires, and in some European passenger tires, has yet to be used commercially in the U.S. But Uniroyal has announced

that it would begin making a premium tire with a rubber-impregnated mat of fine steel wire between the tread and tire body. The mat, claims the company, affords added protection from road hazards, disperses heat buildup and adds 20% to tread life.

Steel might also gain a share of the cord market in the belt of radial ply tires, say Goodrich engineers, especially if auto companies should revise auto suspension systems to compensate for steel cord's rougher ride.

Program Signup Deadline Is March 15

The deadline for signing up in the 1968 feed grain and wheat programs is this week. The signup started February 5 and ends this Friday, March 15.

The wheat and feed grain programs are voluntary.

Under the feed grain program farmers may earn diversion and price-support payments as well as qualify for price-support loans on their crops.

Diversion payments will be available to all program participants in 1968.

The wheat program provides price support and marketing certificates which bring returns to full parity for the part of the wheat crop allocated for domestic use. No diversion payment is made for wheat.

Veterinary Change

The veterinary practice of Dr. C. E. Zollinger in Junction City has been bought by Dr. Nedrick Price. Zollinger has been a veterinary doctor in Junction City has nearly 50 years, starting in 1919. Price has been in practice with Dr. John Deam.

LETTERS

Were Prices Quoted Correctly?

In Grass & Grain February 20 issue, I read about the gains in the grain markets for wheat, corn and soybeans since the NFO boycott. I wish you would read the market prices in our local paper and explain why these raises, if true, would have not also raised our local prices.

Unsigned
BELLEVILLE

G&G is uncertain if the reader questions the prices quoted at major trade centers as being inaccurate, or if he thinks there is too great a differential between local cash quotations and the quoted prices at boards of trade. The prices quoted in G&G were generalities, but accurate, and were about the same one week after the article appeared.

Quad Calves Born Near Mankato

I wish to report to Grass & Grain quadruplet calves born at Mankato, Ks. Two of each sex. The mother is a 4-year old Hereford cow which last year gave birth to twins. The cow was owned by Bill Lang.

FUNGUS IN SUMNER COUNTY WHEAT GROWTH

WELLINGTON — Sumner County wheat producers are noticing small areas of brown or straw-colored wheat that probably has a fungus disease known as speckled leaf blotch, County Agent Sam Rowe says. The fungus disease multiplies

March 12, 1968

during warm days in winter, spring, causing leaves to turn straw-colored or brown and affected leaves die. Fungus causing the disease usually dies in warm weather and the amount of yield reduction is small in most cases, he added.

LAND AUCTION

PARTITION SALE OF REAL ESTATE

Monday, March 18, 1968, 10:00 a.m.

In order to effect a division of the real estate hereinafter described, it has been partitioned through the District Court, and I will sell at public auction to the highest bidder for cash the following tracts:

TRACT ONE:

East Half of Southwest Quarter (E 1/2 SW 1/4) of Section 31, Township 12 South, Range 3 East of 6th P.M., Dickinson County, Kansas.

APPRAISED AT \$ 9500.00

TRACT TWO:

West Half of Northwest Quarter (W 1/2 NW 1/4) of Section 6, Township 13 South, Range 3 East of the 6th P.M., Dickinson County, Kansas.

APPRAISED AT \$10,000.00

TRACT ONE has 64A of crop land on which there is presently growing approximately 45A of wheat. One-third of wheat will go to purchaser at time of harvest in summer of 1968. Purchaser gets possession of all other ground at time of sale. Balance of land in hay meadow.

TRACT TWO has 69.4A of crop land on which there is presently growing approximately 45A of wheat. Same terms for wheat and possession as for Tract One.

Land lies 3 miles east and 1 mile north of Abilene on good gravel roads. Known as G. W. Wilsey farm.

This property will be sold for cash to the highest bidder in separate tracts. A modern-abstract showing merchantable title will be furnished. Twenty-five per cent of cash payable day of sale and the balance when sale is confirmed by Court and title approved.

M. A. ANDERSON,
Sheriff of Dickinson County

AUCTION SALE

Monday
MARCH 18

Starts 10:00 a.m.

Lunch Served

In order to settle the estate of the late Joe Svara, I will sell the following personal property at public auction at the farm located 10 miles south on Highway 14 and 3 1/4 miles east of Ellsworth, Kansas.

Machinery

1959 Chevrolet pickup (1/2 ton long wheel base, 4-speed, extra wheels & tires)
 Slip-in stockrack for 1/2 ton pickup
 1966 IHC tractor (No. 606 3 pt. hitch, 130 hrs.)
 GB loader with dirt bucket & hay fork
 1950 IHC tractor, M, just painted & tuned up
 Horn loader with push-off stacker & dirt bucket
 1953 Ford tractor
 3 pt. machinery for Ford:
 Dearborn 2-14 plow
 Dearborn 2 row cultivator
 Dearborn lister, 2-row
 Dearborn 7' mower; dump rake
 Field sprayer complete with cattle spraying gun
 2 IHC plows, 3x16
 JD oneway, 6 ft.
 1959 IHC tandem disc, 9 ft.
 JD springtooth, 12'
 2 & 3 sec. drag harrow
 1960 Oliver Superior drill, 16-8 with press wheels
 IHC Power wheat binder, 10' complete
 IHC corn binder
 1955 JD mower; duckfoot, 12'
 Manure spreader; sulky rake
 Springtooth carrier trailer
 2 4-wheel tilt trailers
 2 4-wheel racks
 Whetmor hammer mill
 Grain auger (4 in.x18 ft. with electric motor)
 Grain auger on trailer, 8 in. with 7 hp engine
 Combine bin for pickup;
 Sampson windmill wheel & other parts; 300 gal. gas tank on stand; 50 gal. barrels.
 5 gal. cans; funnels; grease

guns & grease dispensers.
 3 stock tanks; gas engine with water pump, 6 hp; wheel barrow; steel feed bunks; lumber; DeLaval cream separator; stock saddle & bridle; small chicken coope; weed sled; iron (pipe & angle); junk iron.

MISCELLANEOUS

Garden tools; 6' steel posts; IHC Skeleton wheels; tractor umbrella; woven & barbed wire; electric fencer & posts & insulators; hand saws.
 IHC plow lathes, 16 in.; hydraulic jack, 8 ton; 100 ft. drop cord; 18 ft. ladder; wrenches; vise; electric drill; tire pump; fence tools.
 Chick brooder; feeders & waterers; meat saw; 2 tubs on stand; 2 wash boilers; scale; egg washer; electric corn popper; drum set.
 2 air rifles; 16 ga. double-barrel shotgun; 22 cal. bolt-action rifle.

POSSIBLE

COLLECTORS ITEMS

Model T running gears with rear end, 50 bu. grain bed & good tires.
 Number of other Model T parts; hand corn sheller; set of good harness; wagon wheels; kero. lanterns & lamps; 20 gal. crock jar & others; army sabers & swords.
 Old books; lard press; glass churn; kraut cutter; fruit jars; wood & kerosene heaters.

HORSE MACHINERY

Mower; 2 cultivators; 2 listers; 2 gang plows; planter; disc; 2 drills.

FEEDS: Approximately 300 bales of alfalfa in barn.
 Many other articles too numerous to mention.

TERMS: CASH

TWELFTH TRACT

Northwest Quarter (NW $\frac{1}{4}$) of Section Twenty-seven (27), Township Eleven (11) South, Range Three (3) West of the 6th P.M., in Ottawa County, Kansas, EXCEPT the U.P.R.R. right-of-way. 150 acres in tract. 143 acres cropland, 7 acres waste. 81 acres wheat allotment, 47 acres feed grain base, 15 acres barley base, no soil conserving acres. 108 acres wheat, 9 acres diverted, 26 acres can be planted to feed grain. 1/2 wheat to purchaser.

THIRTEENTH TRACT

Lots Seventeen (17), Eighteen (18), Nineteen (19), and Twenty (20) in Block Nine (9), Nelson's 3rd Addition to the City of Bennington, Ottawa County, Kansas. Large two-story frame house, close to school, 3 rooms downstairs, 3 rooms and bath upstairs, fuel-oil, forced air furnace, all modern, double garage. Immediate possession.

All tracts are in compliance with government program and purchaser gets landlord's share of wheat certificates. Most of wheat has been top-dressed with fertilizer.

Possession of land given to purchaser on day of sale, subject to land now in wheat, but must comply with government program on the property. Purchaser gets possession of land in wheat as soon as wheat is harvested and receives landlord's share of wheat delivered to market.

1967 taxes and all prior years paid by seller.

Twenty-five percent (25%) must be paid the day of the sale and the balance paid upon delivery of deeds conveying merchantable title. Abstracts certified to date will be furnished.

Maps of the locations of these tracts may be obtained, and directions to each property, at the Bennington State Bank, Bennington, Kansas.

Lunch will be served at the school auditorium.

AUCTION SALE

Saturday, Mar. 16—Starts 1 p.m.

I will sell the following equipment at public auction. The sale will be held at my farm located 1/2 mile north of Buckley, Kans.; or 7 north, 2 east and 1 1/2 miles north of Abilene. Or 2west and 1 1/2 miles north of the Quality Oil station located at the junction of highway 15 and 18 south of Clay Center. Lunch served.

COMBINE:

- 1957 Gleaner A: 14-ft., later series engine, Ausherman bars and concaves, large front tires and flotation rear. This combine always shedded and in excellent condition.
- 1965 New Holland swather. crimper: 14-ft. auger header. One swather trailer for above swather.

GENERAL MACHINERY & EQUIPMENT:

- 1962 IHC No. 512 plow: High speed 16-inch 4-bottom, semimounted, trip beams, fast hitch.
- 1961 New Holland No. 69 baler: wire tie, always shedded and in excellent shape.
- 1963 New Idea side delivery rake: Hyd. lift, rubber mounted teeth.
- 1962 IHC No. 10 mower: 9-ft., balanced head, belt drive, semimounted. Can be used on fast hitch, 3-pt. or regular draw bar.
- 1965 Wyatt Bazooka grain auger: Model C 600, 6-inch x 41-ft., 9-h.p. gas engine, 10-ft. drag auger, outlet spout and flex tube.
- 4-row lister: Dempster plantall rotary mouldboard units mounted on heavy duty tool bar with fast hitch, large gauge wheels, hyd. markers, excellent condition.
- Springtooth: John Deere, 4-section, hyd. evener.
- Springtooth: John Deere, 4-section, mounted on shop-built fast hitch hinged carrier. Complete with cable winch.
- Drag Levelers: 4 sections for John Deere springtooth.
- Rotary Hoe: John Deere, 4-section, pull evener.
- Manure Spreader: John Deere, Model R, 90 bu., like new condition.
- Sprayer: 6 roller nylon pump, 20-ft. aluminum booms, cattle spray nozzle with hose, 225-gal. tank mounted on high clear carrier with 20" truck tires. Complete with selector control valve, etc. Reconditioned recently and in excellent condition.
- Steel pickup stock rack for L.W.B. pickup.
- Pickup fuel tank: 150-gal., complete with pump, filter and hose.
- Folding tow hitch for pickup.
- Hyd. Dozer: 8-ft. shop built, fits most IHC tractors.
- Columbian grain aeration fan with 2 sets of air ducts. 16-inch fan, 3450 RPM single phase, 220 volts, 1 horse motor complete with control box and extra length lead-in cable.

CATTLE EQUIPMENT:

- 2 12-ft. feed bunks: Heavy angle iron frame, 2-inch wood sides, metal bottoms. Built to set on 24-ft. implement carrier for mobile or stationary use.
- Metal calf creep feeder: 12-bu. capacity.
- 2 cattle oilers.

CATTLE:

- 3 yr. old Registered Shorthorn bull. Springdale Constructor, sired by Northwood Pioneer Blanco. Grand sire, Bapton Pioneer. This was the top selling bull at the Salina Show & Sale a year ago last October.
- 5 registered Shorthorn heifers, sired by Ox Vally Keystone and bred to the above mentioned Springdale Constructor. All dark red heifers and uniform in size. Will calve late fall at 24 to 28 months of age.

TRACTORS:

- 1962 IHC 560 Diesel: Later series, fast hitch, 3 valve hyd., wide front end, 4 sets of weights, large front tires, excellent rubber, 3500 hrs. This tractor was recently completely overhauled and is in perfect condition.
- 1950 IHC M Gas: Wide front end, new rubber, weights, hyd. system, steering aid, oversize pistons. Rear end and transmission recently checked and bearings replaced as needed. Recent valve job and tune-up.

TRUCKS:

- 1965 Chevrolet 1/2 ton pickup: LWB, V8, automatic, H.D. springs and overloads, flat base rear wheels with excellent rubber. 30,000 miles & is fully equipped.
- 1956 Ford F600 2 ton: 13'8" grain bed and hoist, near new rubber on heavy duty military wheels, oak stock racks, extension grain boards, V8, 2-speed axle, 55,000 miles, complete overhaul at 52,000 miles.
- 1942 Dodge 6x6 1-ton truck.

TRAILERS:

- John Deere 5-ton trailer: with grain bed, hoist, 9.50x15, 8-ply tires.
- 4-wheel David Bradley hay and grain trailer: grain sides and pipe frame back for bales, 15" rubber.
- 4-wheel tractor supply hay trailer: Oak stringers and floor, pipe frame lack, 14" rubber.

The above is a complete listing and you will note that no small or miscellaneous items are consigned. Consequently the sale will start promptly at 1:00 p.m. and will move quite rapidly. Nearly all of the equipment has always been shedded and is in unusually good condition. You are welcome to inspect the machinery anytime prior to the sale. If you wish to bid on anything be sure to be on hand in plenty of time as this sale will begin with major items and progress quite rapidly.

DALE CORRELL, Owner

Organize Ottawa County NFO

MINNEAPOLIS — Ottawa County now has a chartered National Farmers Organization membership.

Sam Goodin, Clay County NFO chairman, said organization efforts in Ottawa County have attracted 35 members there, 10 more than is needed for a charter.

Goodin said efforts have begun to charter Saline County farmers.

Ottawa County NFO officers are Jack Shaffer, Ada, president; Gene Mullin, Ada, president; Jim Dugan, Niles, secretary, and George Gray, Miltonvale, treasurer.

Chairmen of the bargaining committees are Max Wolf, Bennington, grain; Stanley Quinn, Bennington, dairy, and Vernon Cherry, Niles, meat.
