

**MARS/NDRI/KSU Communications Workshop
Himalaya Hotel, Kathmandu, 2-3 June 2022**

**Part 6
Summary of Responses to Day 2 Nominal Group
Discussion Questions**

- A. Identify Communication Strategies for Important Mycotoxin Issues of Relevance to **Consumers** – Pages 1-4
- B. Identify Communication Strategies for Important Mycotoxin Issues of Relevance to **Producers, Traders & Distributors** – Pages 5-12
- C. Identify Communication Strategies for Important Mycotoxin Issues of Relevance to **Health Professionals** – Pages 13-15
- D. Identify Communication Strategies for Important Mycotoxin Issues of Relevance to **Policy Makers & Regulators** – Pages 16-21

Identify Communication Strategies for Important Mycotoxin Issues of Relevance to Consumers

Responses from Oak and Teak

No weighting

Issue 1: **Lack of knowledge of health implications of consuming mycotoxin contaminated food** (JFL note: Responses by this group to this issue seem to be independent activities, rather than part of something coordinated)

Trusted Source: Ministry of Health & Population (MoHP)

Information Channel: TV

Method/Tactic: Leaflets

Trusted Source: Ministry of Agriculture & Livestock Development (MoALD)

Information Channel: Radio

Method/Tactic: Brochure

Trusted Source: Ministry of Education, Science & Technology (MoEST)

Information Channel: Newspapers

Method/Tactic: Jingles

Trusted Source: Department of Food Technology & Quality Control (DFTQC)

Information Channel: Social media

Method/Tactic: Miking (??)

Trusted Source: Consumer Associations

Information Channel: Academic curriculum

Method/Tactic: Consumer awareness training

Issue 2:	Lack of knowledge of sources of mycotoxin exposure and contamination
<i>Trusted Source:</i>	DFTQC & MoALD
<i>Information Channel:</i>	Publications
<i>Method/Tactic:</i>	Poster and pamphlets
<i>Trusted Source:</i>	Consumer Associations
<i>Information Channel:</i>	Audio/Video materials for radio and TV
<i>Method/Tactic:</i>	Public Service Announcements (PSAs)
<i>Trusted Source:</i>	MoPH and MoALD
<i>Information Channel:</i>	Websites
<i>Method/Tactic:</i>	Notices
<i>Trusted Source:</i>	MoPH and research organizations
<i>Information Channel:</i>	Publications and media
<i>Method/Tactic:</i>	Indexed journals and social media
<i>Trusted Source:</i>	Academic authorities
<i>Information Channel:</i>	TV, cell phone, computer, and newspaper
<i>Method/Tactic:</i>	Training courses, published articles, animations, videos, and brochures
Issue 3:	Assurance of clean, mycotoxin-free products and services
<i>Trusted Source:</i>	DFTQC
<i>Information Channel:</i>	Extension and development agents
<i>Method/Tactic:</i>	Training with supply chain demonstrations
<i>Trusted Source:</i>	Government agencies
<i>Information Channel:</i>	Research findings
<i>Method/Tactic:</i>	Workshops and training sessions
<i>Trusted Source:</i>	Trade associations
<i>Information Channel:</i>	TV
<i>Method/Tactic:</i>	PSAs
<i>Trusted Source:</i>	MoHP
<i>Information Channel:</i>	Media
<i>Method/Tactic:</i>	TV, radio, ringback tone on call
<i>Trusted Source:</i>	Policy makers and regulators
<i>Information Channel:</i>	Regulations
<i>Method/Tactic:</i>	Periodic official reports, and black lists

Issue 4: Strengthen DFTQC capacity for regulating mycotoxins

Trusted Source: MoALD
Information Channel: Research journals
Method/Tactic: Publications

Trusted Source: National Planning Commission
Information Channel: Annual budget plan
Method/Tactic: Line ministry budgetary information system

Trusted Source: Development partners
Information Channel: Project Memorandum of Understanding (MoU)
Method/Tactic: Project document

Trusted Source: Research Institute
Information Channel: Research work
Method/Tactic: Published data

Trusted Source: Academia
Information Channel: Research work
Method/Tactic: Published data

Issue 5: Poor coordination between regulatory agencies and consumer activists

Trusted Source: MoALD
Information Channel: Coordination Committee (Is this an existing entity?)
Method/Tactic: Meetings

Trusted Source: MoPH
Information Channel: Coordination Committee
Method/Tactic: Meetings

Trusted Source: Provincial government
Information Channel: Planning and budgeting
Method/Tactic: Provincial line ministry budgetary information system

Trusted Source: Local government
Information Channel: Planning and budgeting
Method/Tactic: Annual plan and program

Trusted Source: Consumer Associations
Information Channel: Meetings with stakeholders
Method/Tactic: Social audit and public hearings

Issue 6: Lack of robust policy, rules and regulations regarding consumers' right to take action against suppliers

Trusted Source: Local government
Information Channel: Department assessments for regulators and policy makers
Method/Tactic: Government work reports and Departmental press conferences

Trusted Source: Government ministries
Information Channel: Web sites
Method/Tactic: Public policies and notifications

Trusted Source: Private and government sectors
Information Channel: Web sites
Method/Tactic: Agency notices and publications

Trusted Source: Policy makers
Information Channel: Consumer Associations
Method/Tactic: Notices and publications

Trusted Source: MoALD and MoPH
Information Channel: Media
Method/Tactic: Information boards, posters, and pamphlets

Identify Communication Strategies for Important Mycotoxin Issues of Relevance to Producers, Traders & Distributors

Responses from Cherry, Elm, Oak, Pine and Teak

No weighting

Issue 1: Knowledge about mycotoxins

Trusted Source: Media

Information Channel: Newspaper

Method/Tactic: Paper based/Digital

Trusted Source: Ministry of Agriculture and Livestock Development (MoALD)

Information Channel: Radio/TV

Method/Tactic: Audio/Visual

Trusted Source: Research Institute

Information Channel: Article

Method/Tactic: Paper based or digital

Trusted Source: Friends

Information Channel: Verbal

Method/Tactic: Discussion

Trusted Source: Farmers' Associations

Information Channel: Verbal and observation

Method/Tactic: Workshops and site visits

Issue 2:	Lack of awareness of mycotoxin health implications
<i>Trusted Source:</i>	Consumer forum
<i>Information Channel:</i>	Directives, policies, and strategies
<i>Method/Tactic:</i>	Litigation and advocacy
<i>Trusted Source:</i>	Ministry of Education, Science & Technology (MoEST)
<i>Information Channel:</i>	Curriculum development for educational material
<i>Method/Tactic:</i>	Documentaries, videos, radio programs, field demonstrations, role-playing exercises, and street plays
<i>Trusted Source:</i>	MoALD
<i>Information Channel:</i>	Guidelines, policies, and strategies
<i>Method/Tactic:</i>	Advocacy and social media pages
<i>Trusted Source:</i>	World Health Organization (WHO) and Food and Agriculture Organization (FAO)
<i>Information Channel:</i>	WHO and FAO web sites and white papers
<i>Method/Tactic:</i>	Education, training, pamphlets, television, and social media
Issue 3:	Increase basic knowledge of mycotoxins
<i>Trusted Source:</i>	MoALD and Ministry of Health & Population (MoHP) working together
<i>Information Channel:</i>	Training and workshops
<i>Method/Tactic:</i>	Training materials, videos and guidelines
<i>Trusted Source:</i>	National Farmers' Group Federation
<i>Information Channel:</i>	Federation extension network at federal, provincial & local levels
<i>Method/Tactic:</i>	Notice boards, posters, pamphlets, jingles, group discussions and training sessions
<i>Trusted Source:</i>	MoALD
<i>Information Channel:</i>	Agricultural development office
<i>Method/Tactic:</i>	Guidelines and notices
<i>Trusted Source:</i>	Agricultural research agencies
<i>Information Channel:</i>	Government agriculturalists on radio and TV
<i>Method/Tactic:</i>	Videos, demonstrations, and training sessions

Issue 4:	Health hazards posed by mycotoxins
<i>Trusted Source:</i>	Department of Food Technology & Quality Control (DFTQC)
<i>Information Channel:</i>	Budget and planning
<i>Method/Tactic:</i>	Awareness and training programs
<i>Trusted Source:</i>	MoHp
<i>Information Channel:</i>	Budget and planning
<i>Method/Tactic:</i>	Awareness and training programs
<i>Trusted Source:</i>	MoALD
<i>Information Channel:</i>	Budget and planning
<i>Method/Tactic:</i>	Awareness and training programs
<i>Trusted Source:</i>	Nepal Health Research Council
<i>Information Channel:</i>	Research activities
<i>Method/Tactic:</i>	Dissemination and publications
<i>Trusted Source:</i>	MoEST
<i>Information Channel:</i>	Policy
<i>Method/Tactic:</i>	Academic curriculum
Issue 5:	Increase audience's basic knowledge of mycotoxins
<i>Trusted Source:</i>	MoALD
<i>Information Channel:</i>	Scientific publications
<i>Method/Tactic:</i>	Indexed journals
<i>Trusted Source:</i>	Development agencies
<i>Information Channel:</i>	Local government
<i>Method/Tactic:</i>	In-person training sessions
<i>Trusted Source:</i>	International and domestic Non-government Organizations (InGO/NGO)
<i>Information Channel:</i>	Short message in audio/visual formats
<i>Method/Tactic:</i>	Radio/TV
<i>Trusted Source:</i>	MoALP and MoHP
<i>Information Channel:</i>	Publication and education
<i>Method/Tactic:</i>	Pamphlets, training and curriculum development
<i>Trusted Source:</i>	Academic authorities, policy makers, and regulators
<i>Information Channel:</i>	TV, mobile phones, computers, and newspapers
<i>Method/Tactic:</i>	Articles, animation videos, brochures, and training courses

Issue 6: Knowledge of mycotoxin regulatory limits

Trusted Source: DFTQC
Information Channel: Technical regulation
Method/Tactic: Surveillance

Trusted Source: MoALD
Information Channel: Guidelines
Method/Tactic: Publication

Trusted Source: MoHP
Information Channel: Awareness program
Method/Tactic: Publications

Trusted Source: Research institutes
Information Channel: Research activities
Method/Tactic: Data dissemination

Trusted Source: Academia
Information Channel: Research, Classes and Workshops
Method/Tactic: Curriculum

Issue 7: Rules and regulations

Trusted Source: MoALD
Information Channel: Policies and strategies
Method/Tactic: Published policies

Trusted Source: Local government
Information Channel: Leaflet
Method/Tactic: Distribution

Trusted Source: Farmers' Associations
Information Channel: Meetings
Method/Tactic: Group discussions

Trusted Source: Media
Information Channel: Radio
Method/Tactic: Audio Public Service Announcements (PSAs)

Trusted Source: Agriculture Knowledge Centers
Information Channel: Brochures
Method/Tactic: Distribution

Issue 8: Government prioritization of mycotoxin problems
Trusted Source: National Agricultural Research Center (NARC) and National Health Research Center (NHRC)
Information Channel: Scientific publications
Method/Tactic: Policy briefs

Trusted Source: Farmer’s group federation of Nepal and MoALD (networks at three levels)
Information Channel: Media
Method/Tactic: Discussions of advocacy of issues

Trusted Source: United Nations (UN) agency research
Information Channel: Documentation and publications
Method/Tactic: Workshops

Trusted Source: NARC, NHRC, and private companies
Information Channel: Research journal articles
Method/Tactic: Policy results and advocacy

Issue 9: Good Agricultural Practices (GAP)
Trusted Source: FAO and peer reviewed publications
Information Channel: FAO and publishers’ web sites
Method/Tactic: Workshops, training sessions, and training of traitors

Trusted Source: MoALD
Information Channel: Extension bodies, local partners and local government
Method/Tactic: Videos, posters, pamphlets, infographics, and radio jingles

Trusted Source: Farmers’ Associations
Information Channel: Press releases, radio, television, newspapers, and social media
Method/Tactic: Social media, YouTube, and official websites

Trusted Source: UN agencies and civil society
Information Channel: Annual and survey reports submitted to government bodies
Method/Tactic: Seminars, meetings, group discussions, and communication and cooperation between multiple groups

Issue 10: GAP, Good Manufacturing Practices (GMP), and distribution practices

Trusted Source: MoALD guidelines
Information Channel: Extension agents
Method/Tactic: Videos, flyers, training materials, training sessions, workshops

Trusted Source: MoALD
Information Channel: Agriculture technicians
Method/Tactic: Practical, field and classroom-based training sessions

Trusted Source: NARC and MoALD
Information Channel: Radio
Method/Tactic: Jingles

Trusted Source: National Farmer's Group of Nepal
Information Channel: Federal, provincial and local extension networks
Method/Tactic: Focused group discussions paired with practical training sessions

Trusted Source: DFTQC
Information Channel: Food technologists
Method/Tactic: Training of trainers, and training sessions

Issue 11: GMPs

Trusted Source: DFTQC
Information Channel: Guidelines
Method/Tactic: Monitoring and surveillance

Trusted Source: Ministry of Industry, Commerce and Supplies (MoICS)
Information Channel: Regulations
Method/Tactic: Registration

Trusted Source: Local government
Information Channel: Regulations
Method/Tactic: Registration

Trusted Source: Third party certification agents
Information Channel: Standard
Method/Tactic: Certification

Trusted Source: Cooperatives
Information Channel: Committees
Method/Tactic: Awareness campaign

Issue 12: Management of bulk storage

Trusted Source: Local government

Information Channel: Local government and local community decisions

Method/Tactic: Reports, meetings, and fund allocations

Trusted Source: UN agencies – FAO, UN Food Program (UNFP), and UN Development Program (UNDP)

Information Channel: Reports disseminated to local bodies via coordination between local governments and UN Agencies

Method/Tactic: Meetings and pamphlets

Trusted Source: MoALD

Information Channel: Internal communication directives

Method/Tactic: Advocacy

Issue 13: Post-harvest distribution systems and facilities

Trusted Source: Academics, NGOs and government (level?)

Information Channel: Extension service, mobile devices, and web sites

Method/Tactic: Articles, animations, videos, brochures and training courses

Trusted Source: Local government

Information Channel: Media

Method/Tactic: Pamphlets and posters

Trusted Source: Producer's trade associations

Information Channel: Local government

Method/Tactic: Capacity building

Trusted Source: MoALD

Information Channel: Local extension agents

Method/Tactic: Training sessions and materials, and pamphlets

Issue 14: Proper storage practices

Trusted Source: DFTQC
Information Channel: Radio program
Method/Tactic: Audio PSA

Trusted Source: MoALD
Information Channel: Agriculture technicians
Method/Tactic: Training sessions

Trusted Source: Media
Information Channel: Radio
Method/Tactic: Audio PSAs

Trusted Source: Producers' Association
Information Channel: Meetings
Method/Tactic: Group discussions

Trusted Source: Research Institute
Information Channel: Exhibition workshop
Method/Tactic: Technology demonstrations

Issue 15: Cheap, easy and quick lab tests for mycotoxins

Trusted Source: MoALD
Information Channel: Traders' associations
Method/Tactic: Publications

Trusted Source: Policy makers and regulators
Information Channel: Workshops and web sites
Method/Tactic: Presentations, posters, animations, videos, brochures, and training

Trusted Source: MoALD and research organizations
Information Channel: Local stakeholders
Method/Tactic: Posters and pamphlets

Trusted Source: MoALD and universities
Information Channel: Extension workers
Method/Tactic: Camps and training sessions

Trusted Source: Research institutions and national laboratories
Information Channel: Media and publications
Method/Tactic: Web sites, training sessions, and workshops

Identify Communication Strategies for Important Mycotoxin Issues of Relevance to Health Professionals

Responses from Pine and Cherry

No weighting

Issue 1: Awareness of the effects of mycotoxins on health

Trusted Source: Health professionals

Information Channel: Training

Method/Tactic: Audio/visual

Trusted Source: Ministry of Health & Population (MoHP)

Information Channel: Radio/TV

Method/Tactic: Audio/video PSA

Trusted Source: School syllabus

Information Channel: Books

Method/Tactic: Pictorial information

Trusted Source: Local government

Information Channel: Workshop

Method/Tactic: Group discussion

Trusted Source: Ministry of Agriculture & Livestock Development (MoALD)

Information Channel: FM TV

Method/Tactic: Audio/visual

Issue 2: Limited understanding of impact of mycotoxins in a vulnerable population

Trusted Source: Journals and conference presentations

Information Channel: Conventional media

Method/Tactic: Training, conferences and education

Trusted Source: World Health Organization (WHO), World Food Program (WFP), Ministry of Health & Population, hospitals and local government

Information Channel: Study reports, health trend data and authorized websites

Method/Tactic: Publications, annual reports, workshops and conferences

Issue 3:	Lack of skilled health professionals
<i>Trusted Source:</i>	Universities, peer-reviewed publications, WHO, and Food & Agriculture Organization of the United Nations (FAO)
<i>Information Channel:</i>	Inclusion of issue in curriculum of health professionals, journal websites, FAO website, and WHO website
<i>Method/Tactic:</i>	Educate health professionals via routine training, group discussions, lectures, seminars and workshops
<i>Trusted Source:</i>	MoHP
<i>Information Channel:</i>	Strategies, guidelines, and training manuals
<i>Method/Tactic:</i>	Videos, posters, pamphlets, brochures and leaflets
<i>Trusted Source:</i>	National Health Education Information & Communication Center (NHEICC) and Nepal Health Resource Council (NHRC)
<i>Information Channel:</i>	Official websites
<i>Method/Tactic:</i>	Demonstrations, radio programs, website information, and workshops
Issue 4:	Training about mycotoxin impacts for health professionals
<i>Trusted Source:</i>	Scientific resources
<i>Information Channel:</i>	Meetings
<i>Method/Tactic:</i>	Knowledge sharing
<i>Trusted Source:</i>	Civil Society Organizations (CSOs)
<i>Information Channel:</i>	Microbiologists
<i>Method/Tactic:</i>	Training
<i>Trusted Source:</i>	Local government
<i>Information Channel:</i>	Workshops
<i>Method/Tactic:</i>	Demonstrations
<i>Trusted Source:</i>	Local government
<i>Information Channel:</i>	Health posts (officials?)
<i>Method/Tactic:</i>	Radio/TV (PSAs?)
<i>Trusted Source:</i>	MoALD
<i>Information Channel:</i>	Training
<i>Method/Tactic:</i>	Demonstrations

Issue 5: Mycotoxin mitigation policies

Trusted Source: MoALD
Information Channel: Media
Method/Tactic: Audia/visual

Trusted Source: National Planning Commission
Information Channel: Under secretary
Method/Tactic: Meetings and discussions

Trusted Source: MoHP
Information Channel: Leaflets
Method/Tactic: Distribution

Trusted Source: Local government
Information Channel: Radio (FM)
Method/Tactic: Audio

Trusted Source: MoALD
Information Channel: Meetings
Method/Tactic: Group discussions

Issue 6: Limited health testing facilities and capabilities

Trusted Source: National Public Health Laboratory
Information Channel: Testing package and websites
Method/Tactic: Campaigns, training, and testing camps

Trusted Source: Major hospitals in the area
Information Channel: Websites and mobile applications
Method/Tactic: Radio, newspapers, brochures and videos

Trusted Source: Local and provincial governments
Information Channel: Extension offices at local and provincial levels
Method/Tactic: Training and advocacy

Trusted Source: WHO and FAO
Information Channel: WHO and FAO websites
Method/Tactic: Training, raising awareness via professional magazines

Identify Communication Strategies for Important Mycotoxin Issues of Relevance to Policy Makers & Regulators

Responses from Cherry, Oak, Pine and Teak

No weighting

Issue 1: **Awareness training**
Trusted Source: Ministry of Agriculture & Livestock Development (MoALD)
Information Channel: Media
Method/Tactic: Audio/Visual

Trusted Source: Farmers' Associations
Information Channel: Training
Method/Tactic: Group work

Trusted Source: Local government
Information Channel: Meetings
Method/Tactic: Group discussions

Trusted Source: Civil Society Organizations (CSOs)
Information Channel: Technical officers
Method/Tactic: Training

Trusted Source: Agriculture Knowledge Center (JFL: 51 of these in country)
Information Channel: Radio
Method/Tactic: Audio

Issue 2: **Lack of awareness and competency on mycotoxin issues**
Trusted Source: Government training centers
Information Channel: Trainers and training materials
Method/Tactic: Training trainers and trainees

Trusted Source: Research institutes
Information Channel: Publications and other research materials
Method/Tactic: Reports, local language pamphlets, educational videos, and awareness campaign

Trusted Source: US Food & Drug Administration (FDA)
Information Channel: Website
Method/Tactic: Workshops, and international conferences and forums

Issue 3: Lack of mycotoxin regulations

Trusted Source: Food and Agriculture Organization of the United Nations (FAO), CODEX Alimentarius standards, Channel Television, and Nepal Law Commission

Information Channel: FAO website, NLC publications, and website of the Supreme Court of Nepal

Method/Tactic: Comparison to existing and/or missing standards and limits, internet exchanges, meetings, reports, and Nepal Gazette

Trusted Source: Department of Food Technology and Quality Control (DFTQC)

Information Channel: DFTQC web site and publications

Method/Tactic: Video and in-person meetings and fact sheets

Issue 4: Rules and regulations

Trusted Source: MoALD

Information Channel: Booklet

Method/Tactic: Distribution

Trusted Source: Local government

Information Channel: Media

Method/Tactic: Audio

Trusted Source: Farmers' Associations

Information Channel: Pamphlets

Method/Tactic: Distribution

Trusted Source: CSOs

Information Channel: Research papers

Method/Tactic: Workshops

Trusted Source: MoALD

Information Channel: Radio

Method/Tactic: Audio

Issue 5: Formulating laws, rules, regulations, policies and strategies to mitigate mycotoxin contamination

Trusted Source: MoALD
Information Channel: Acts and regulations
Method/Tactic: Surveillance and monitoring

Trusted Source: Ministry of Health & Population (MoHP)
Information Channel: Policies
Method/Tactic: Surveillance and monitoring

Trusted Source: Ministry of Law, Justice & Parliamentary Affairs (MoLJPA)
Information Channel: Approval Committee
Method/Tactic: Memos

Trusted Source: Consumers' fora
Information Channel: Meetings and workshops
Method/Tactic: Minutes of meetings

Trusted Source: Policy Research Institute
Information Channel: Research
Method/Tactic: Dissemination

Issue 6: Agriculture practice and guidelines

Trusted Source: MoALD
Information Channel: Media
Method/Tactic: Internet and television

Trusted Source: FAO and MoALD
Information Channel: Extension units at local level
Method/Tactic: Training and workshops

Trusted Source: Development partners
Information Channel: Research findings, publications and articles
Method/Tactic: Training, workshops, and capacity building

Trusted Source: FAO and international research institutes
Information Channel: MoALD
Method/Tactic: In-person training and workshops

Trusted Source: GOChannel, Non-governmental organizations (NGOs), and Academia
Information Channel: Extension service, mobile devices and web sites
Method/Tactic: Training courses, articles, brochures, animations, and videos

Issue 7: Agricultural practices and guidelines

Trusted Source: MoALD
Information Channel: Directives for Good Agricultural Practices (GAP)
Method/Tactic: GAP

Trusted Source: DFTQC
Information Channel: Directives for GAP
Method/Tactic: Certification

Trusted Source: MoALD
Information Channel: Planning and budgeting
Method/Tactic: Training and technical support and backstopping

Trusted Source: Academia
Information Channel: Curriculum
Method/Tactic: Academic courses (Required? Optional?)

Trusted Source: Research Institutes
Information Channel: Research work
Method/Tactic: Publications

Issue 8: Data, evidence and research findings on mycotoxins

Trusted Source: Peer reviewed journal articles, and research findings of government bodies

Information Channel: Authorized web sites, technical journals, e-library, authorized research agencies, and international research-based agencies

Method/Tactic: Articles, papers, word of mouth, interviews, fact sheets, and campaigns for information dissemination

Trusted Source: MoALD, MoHP, and National Planning Commission
Information Channel: Respective government information management systems, survey data and reports, and government personnel

Method/Tactic: Extension offices, volunteers, campaigns, posters, radio, and video

Trusted Source: Government agencies
Information Channel: Recognized scientific experts (Domestic & international), Nepal Channel, and government manuals and guidelines

Method/Tactic: Pamphlets

Trusted Source: UN Agencies and CSOs
Information Channel: Annual reports and survey reports submitted to government bodies
Method/Tactic: Seminars, meetings and discussions

Issue 9: Surveillance & monitoring for mycotoxin contamination

Trusted Source: MoALD
Information Channel: Rules and regulations
Method/Tactic: Newspapers

Trusted Source: Non-governmental organizations (NGOs), government (federal and local levels), and International non-governmental organizations (InGOs)
Information Channel: Laws and media
Method/Tactic: Web sites

Trusted Source: Universities
Information Channel: Publications
Method/Tactic: Articles and seminars

Trusted Source: District health & agriculture offices
Information Channel: Local government
Method/Tactic: Field activities

Trusted Source: Officially certified test platform Channel
Information Channel: Websites, and databases
Method/Tactic: Reports issued

Issue 10: Collaborative local, provincial and federal mycotoxin management program

Trusted Source: MoALD
Information Channel: Publications
Method/Tactic: Information board

Trusted Source: UN Agencies and International Centers
Information Channel: Publications
Method/Tactic: websites and printed materials

Trusted Source: NGOs and development partners
Information Channel: Media
Method/Tactic: Internet and television

Trusted Source: Academia
Information Channel: Conferences and workshops
Method/Tactic: Articles, posters, and presentations

Trusted Source: Government organizations
Information Channel: MoALD
Method/Tactic: Programs

Issue 11: Post-harvest infrastructure support
Trusted Source: MoALD
Information Channel: Budget planning
Method/Tactic: Red book (LMBIS – Line Ministry Budget Information System)

Trusted Source: Provincial government
Information Channel: Budgeting
Method/Tactic: Programs and activities

Trusted Source: Local government
Information Channel: Budgeting
Method/Tactic: Programs and activities

Trusted Source: Development partners
Information Channel: MOU (with who?)
