This is, and will be . . . the time of your life . . . this is the promise of education. A time to study, to learn, to determine what the years ahead can bring—years which, when finished and collected, you will look upon as your life.

College assemblies and plays and musicals and dances—the schedule you devised so that you might have time for everything; late study hours and the moments when you wondered if study was worth the time—yet knowledge brought a satisfying security. With football and basketball games when you found yourself standing in line for hours to see your team the winner, or maybe the loser

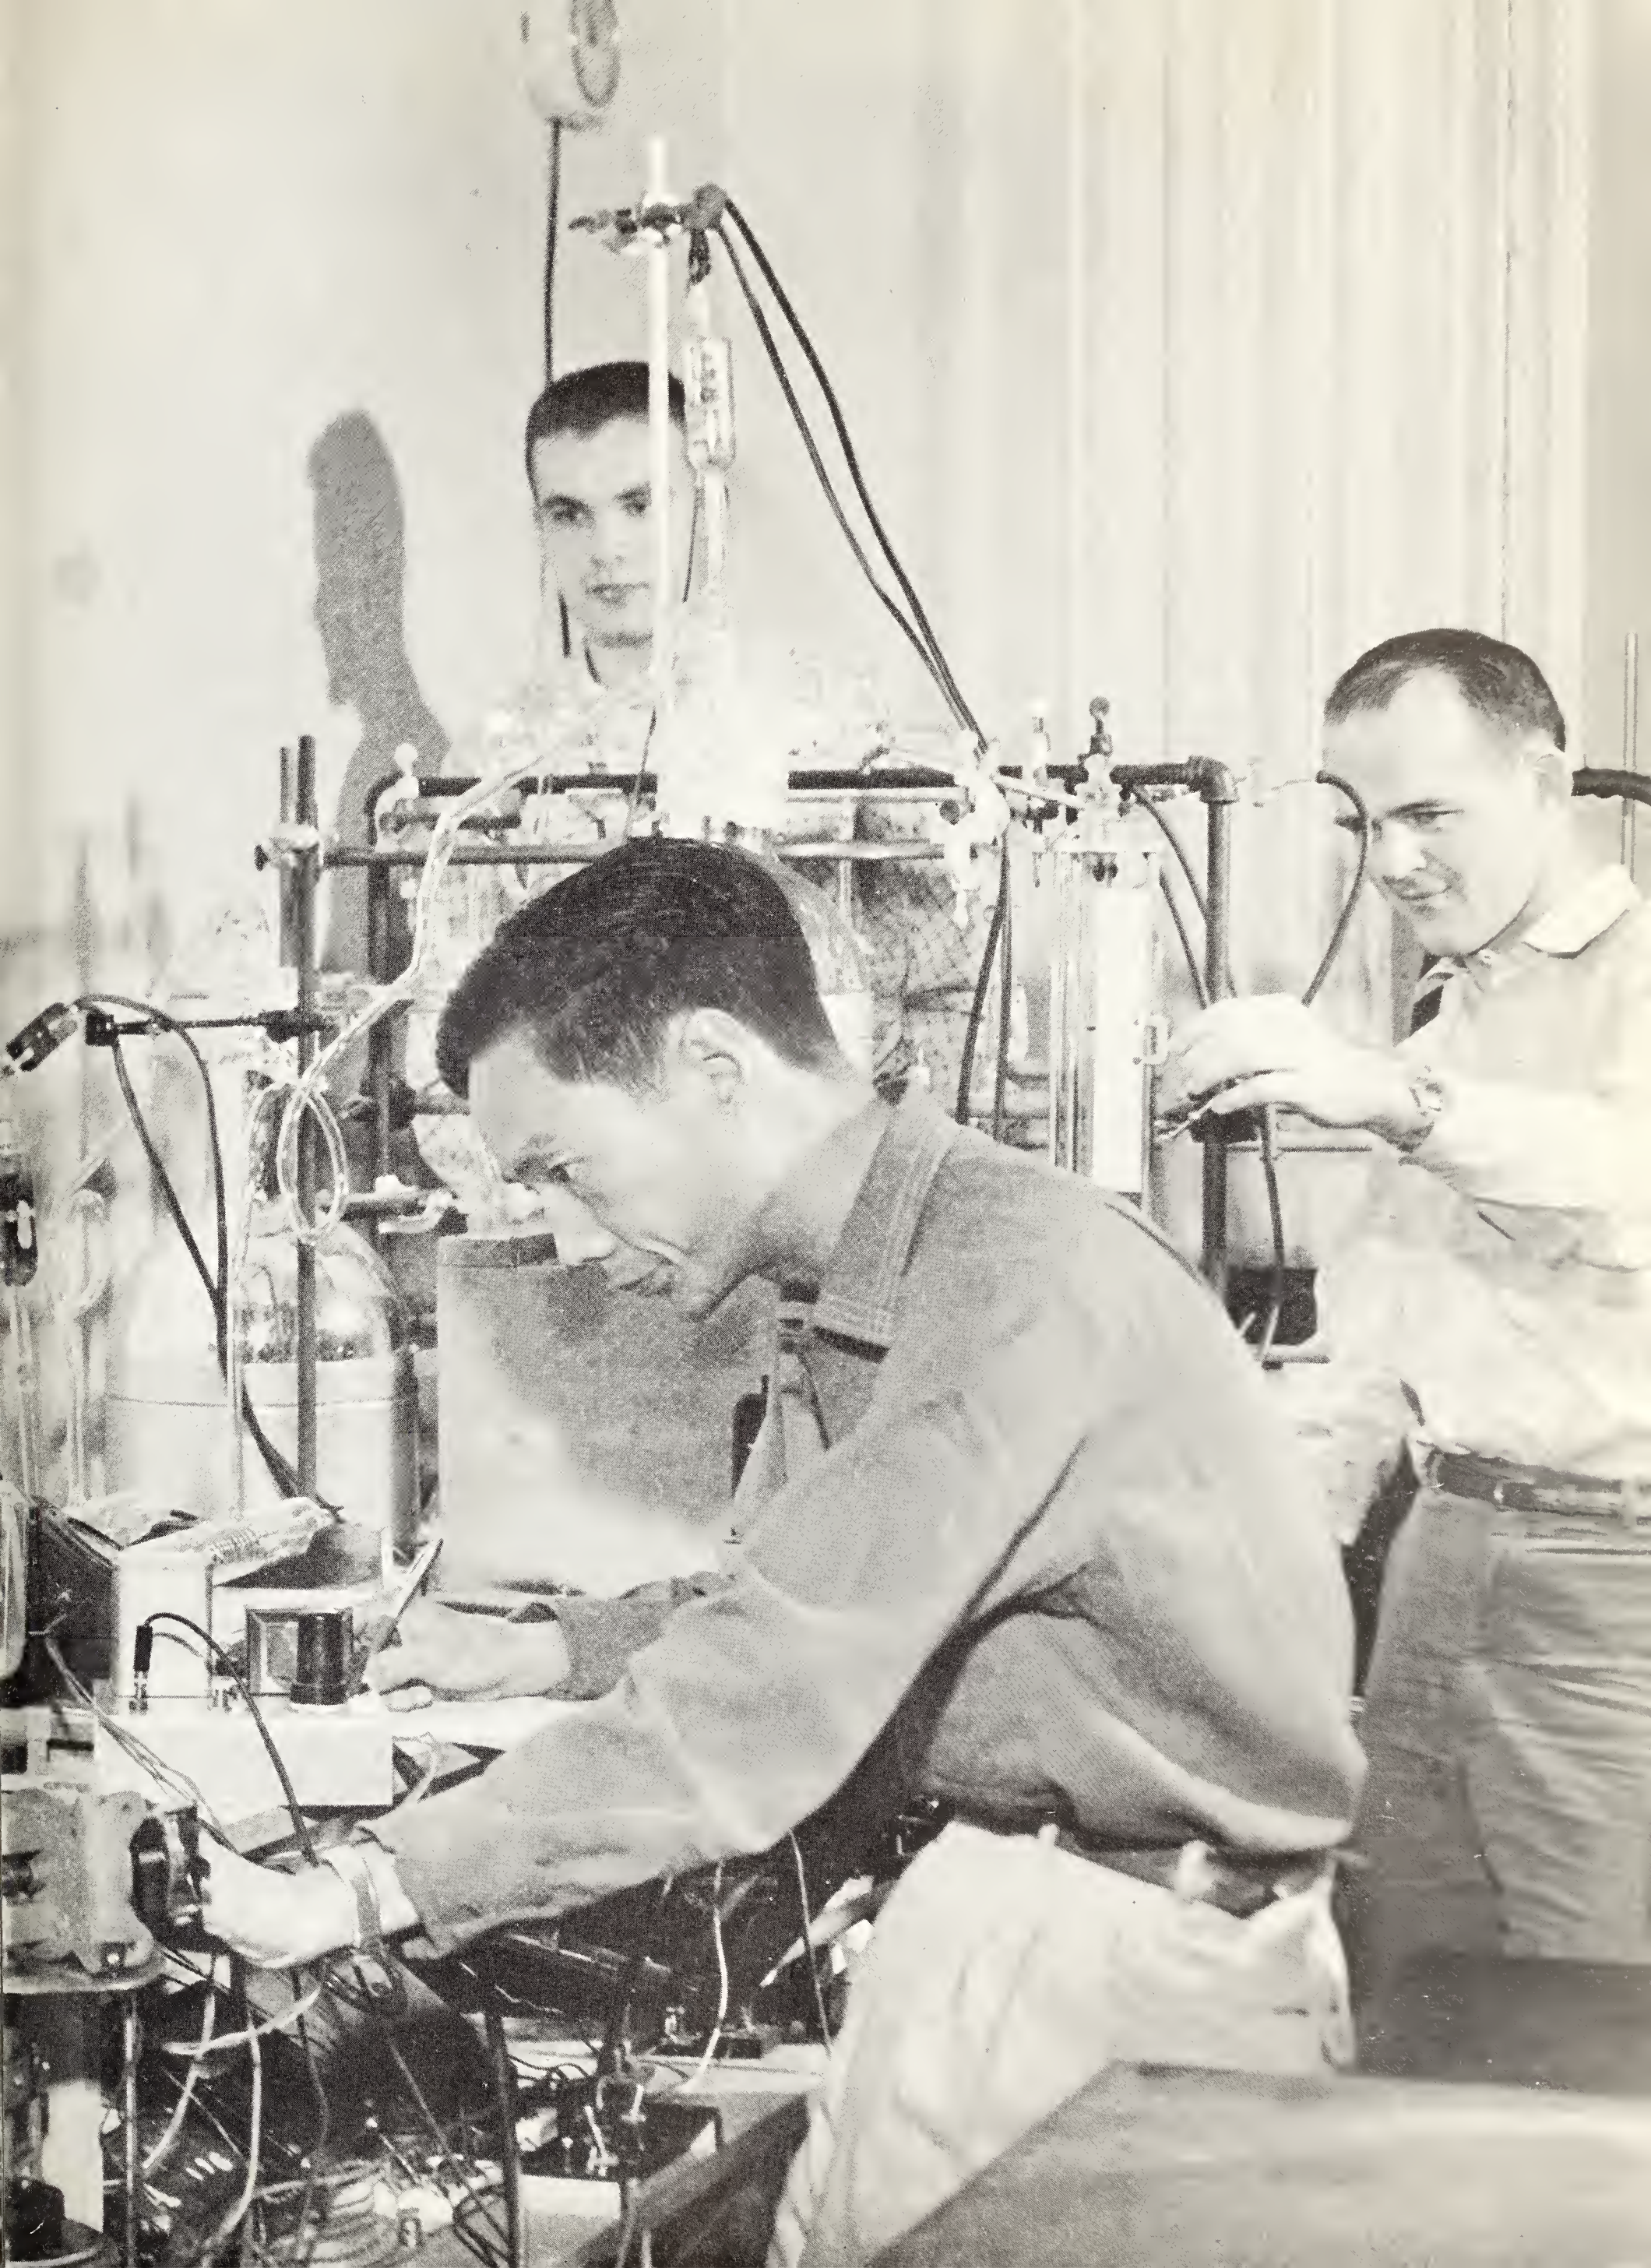

FOREWORD

—but win or lose, you were always there for the next game. Disappointments, you learned, were bound to come—successes, you learned, would come, too.

It was the Fall of 1957 and the Spring of 1958, remember? Almost everything you did was for Kansas State College or because of Kansas State College. Somehow the total of all those months produced a memory you will cherish always . . . We, the 1958 Royal Purple staff, hope we have captured this memory for you.

At the Student Union students spend leisure hours drinking coffee or discussing class assignments or reasons why Kansas

State College should become a university. After school, there are Union movies, dances, and more Union coffee.

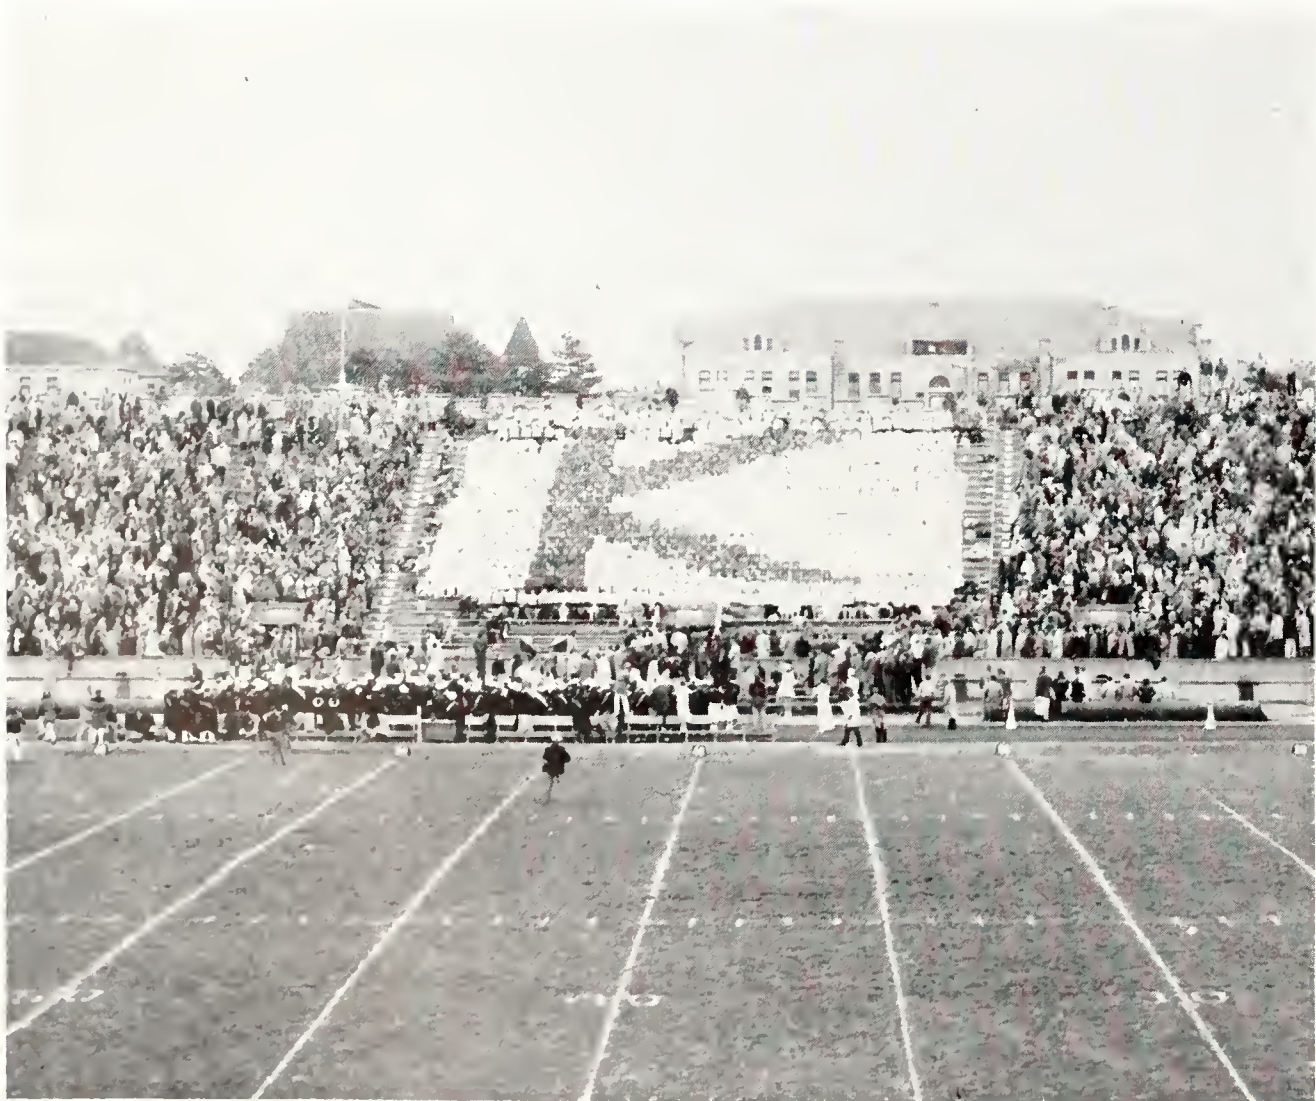

K-Staters interested in physical science find themselves spending a great deal of time at Willard Hall in chemistry

and physics classes. A five or ten minute break from long hours in lab is welcomed in the middle of the afternoon.

Just one side of student traffic, on Lover's Lane, is the home of President McCain, his wife and daughter Sheila.

Flash cards—something new at K-State — an idea that someone had that became a reality.

Especially in the spring, students find the experimental gardens, located just east of Dickens Hall, practically hidden by tall shrubs that surround it. They are products of K-State horticulture classes.

Married folks are students too, and many live in the new apartments at Jardine Terrace. Facilities provide for the

growing number of married students coming to Kansas State. This is one of K-State's ways of meeting increasing enrollment.

Between classes the sidewalks are likely to cross in front of Farrell Library, where students often meet and visit or take a "cigarette break."

At Danforth Chapel religious groups meet, morning vespers are held, and occasionally college students are married. The chapel received its new addition in 1956.

Ivy-covered halls are traditional at many colleges and universities, and Kansas State is no exception with its Chemical Engineering building. In spring and fall, the campus becomes alive with nature's colors.

Lights are dimmed as fans and competing teams pause to sing "The Star Spangled Banner" in Ahearn Fieldhouse.

Artistic students find sketching out-of-doors by the Auditorium much more pleasant than in a confining classroom.

A familiar path for K-State coeds leads across a small wooden bridge and divides—to Northwest Hall on the left and South-

east and Van Zile Halls on the right. Freshmen live at Southeast and Northwest, upperclassmen at Van Zile.

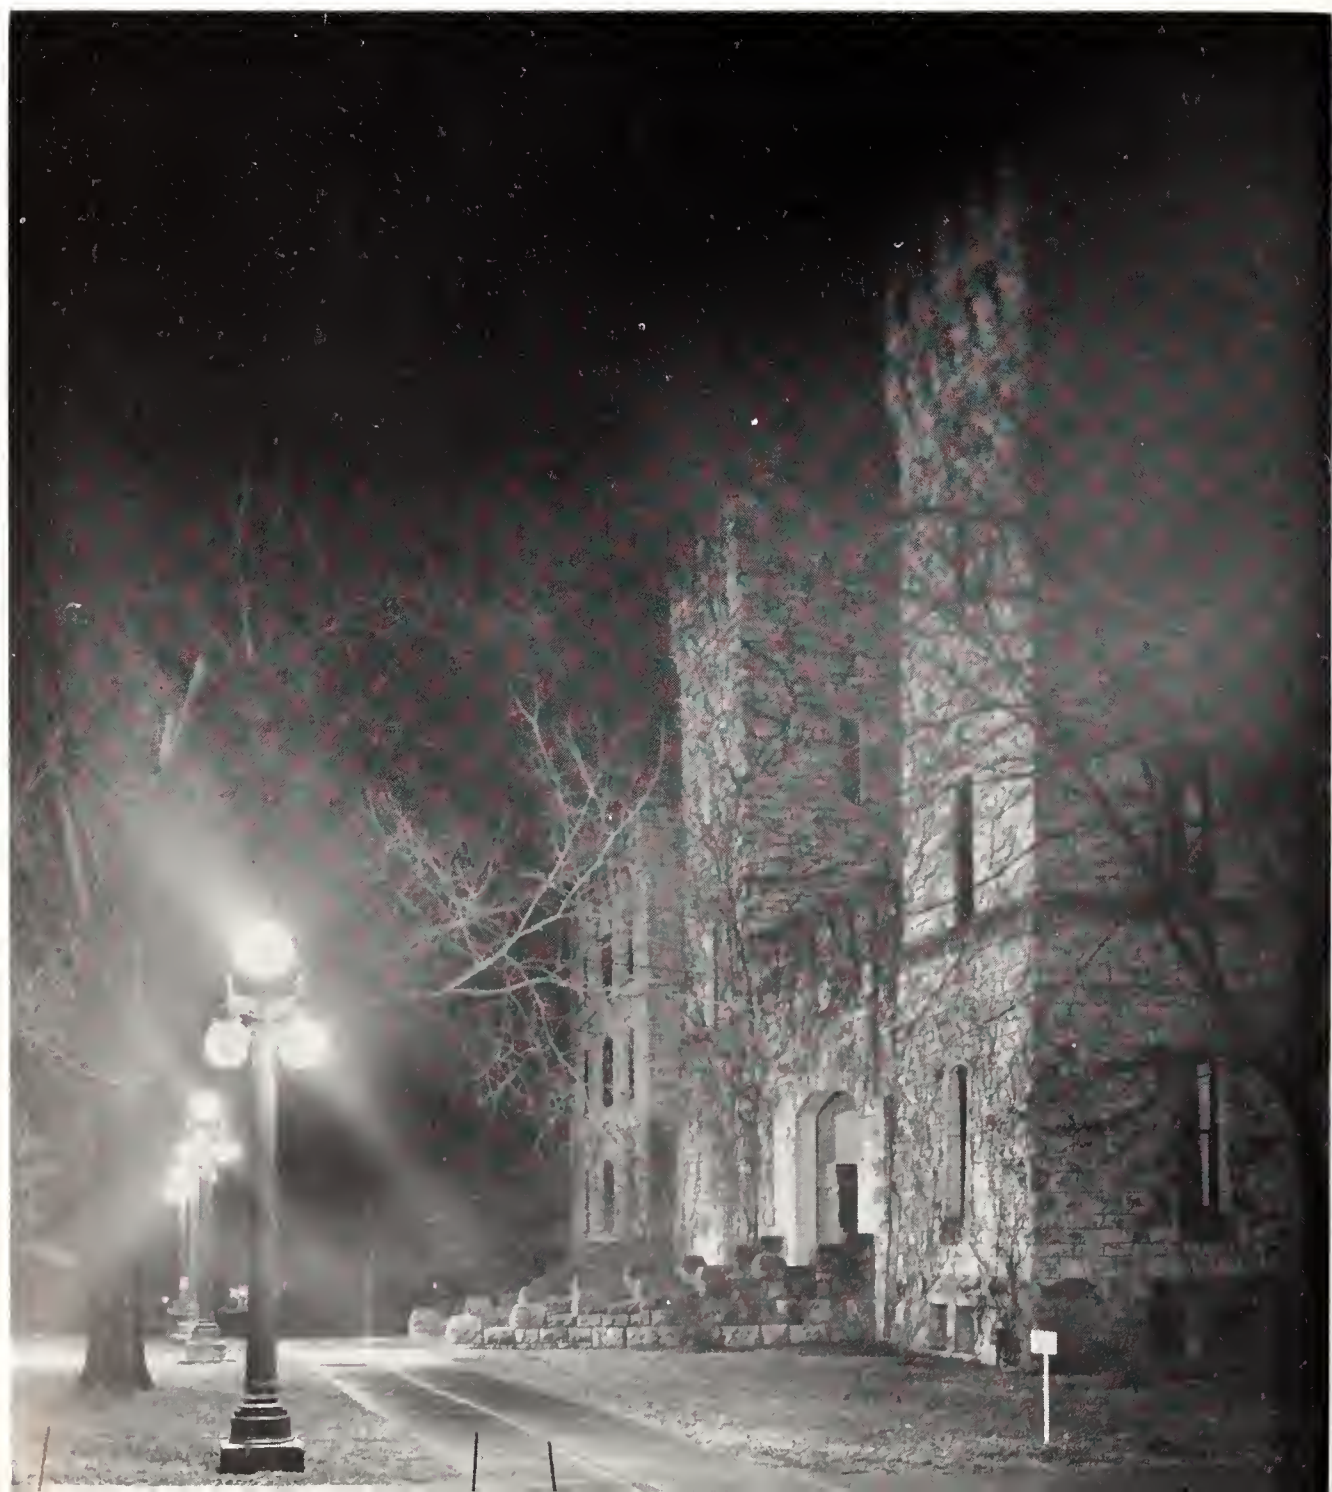

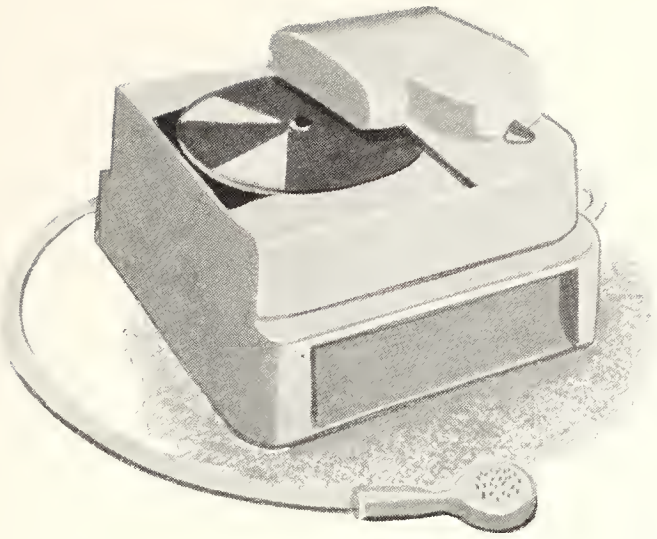

Morning after Manhattan's first snow, which left the campus trees frosted with ice, find K-Staters braving the cold—but

students who make the first tracks make it easier on those who follow, and as quickly as it comes, it's gone.

On a dark, foggy night, Nichols Gymnasium looks almost like an English castle. Women's phys ed, radio-television production and music are taught in Nichols.

ADMINISTRATION

A college does not just run itself. Unnoticed in the daily scene of campus operation, the Administration attends to the larger aspects of Kansas State's life. Top administrator President James A. McCain is faced with the problems created by an ever-increasing enrollment. His recommendations through the Board of Regents determine the range and scope of expansion programs. Directors and deans perform other duties for the students and college, and serve as a link between the classroom and activities. And this is just a part of the forces that govern student activities. A beginning in student leadership is found by aspiring K-Staters who use their individual initiative to obtain positions on the Student Council and its committees and boards. The Council is the foremost student representative body at K-State. Through it, student activities are co-ordinated in ways that function toward the common good. Time spent on student government is not lost . . . it prepares the student for intelligent and active citizenship.

Lawrence banker and native Kansan, Governor Docking is the first Democrat in 20 years to fill the governor's chair.

Regents Set School Policies

Democratic Governor George Docking broke a 20-year Republican monopoly on the office when he was inaugurated in 1957. Among his numerous duties is the responsibility of filling vacancies on the nine-member non-political Board of Regents. The quiet-working regents were the subject of extensive attention from K-Staters this year as students sought to change the name of Kansas State College to Kansas State University. The Board is the policy-making body for Kansas' five state-supported colleges and universities, the School for the Deaf, and the School for the Blind. The Board meets once a month to prepare school budgets, approve curriculum changes, and authorize leaves of absence, retirement programs, and construction of new buildings.

Members of the Board are Whitley Austin, Salina; Clement Hall, Coffeyville; George Collins, Wichita; Ray Evans, Kansas City; Harry Valentine, Clay Center; L. D. Morgan, Goodland; Russell Rust, Topeka; chairman McDill Boyd, Phillipsburg; Claude Bradney, Columbus; and secretary Hubert Brighton, Topeka.

Dr. James A. McCain is now completing his eighth year as president of an annually expanding Kansas State College.

McCain Tours European Schools

President James A. McCain is completing his eighth year at Kansas State this spring. With enrollment increasing annually, Dr. McCain is faced with an increasingly heavy load of responsibilities in guiding K-State to the fulfillment of its administrative and academic duties. More buildings have been added to the campus during his administration than under any other president. President McCain holds four degrees: Bachelor of Arts and Doctor of Laws from Wofford College, Spartansburg, S. C.; Master of Arts from Duke University, Durham, N. C.; and Doctor of Education from Stanford University, Palo Alto, Calif.

Last year, Dr. McCain was selected to travel and study abroad under the Eisenhower Exchange Fellowship. He was on leave of absence from April through October, during which time Dean A. D. Weber was Acting President. During the six-month tour, the McCain family visited 13 European countries using Switzerland as a base of operations. Dr. McCain studied European educational methods. He is presently working to incorporate the best features he observed during the tour into K-State's educational program.

An active president means a busy secretary. Mrs. Grace Lindquist handles Dr. McCain's correspondence and appointments.

President and Mrs. McCain and daughter Sheila view the sights of Venice from their hotel balcony while in Europe.

During his eight years at Kansas State, Dr. McCain has helped triple the quantity of research so vital to the improvement of any institution of higher learning. He helped organize the Faculty Senate in 1952, making it possible for faculty members to take a more democratic part in all phases of college policy-forming and organization. Before the formation of the Senate, the faculty met only three or four times a year.

Dr. McCain's primary function as President is to provide leadership for the college. Another function is to develop financial support for K-State by working with the legislature and other state representatives. Dr. McCain feels he has the duty of interpreting the college to the public. In meeting this responsibility, he makes over 100 speeches a year throughout the state. The President also meets frequently with faculty members and student groups and visits college activities off the campus. He is chairman of many charitable organizations and was selected to head the Kansas Mental Health drive this spring.

So much activity occasions much correspondence and many appointments. Keeping track of these presidential necessities is Mrs. Grace Lindquist, who has been Dr. McCain's secretary since he came to K-State.

Faculty Senate Determines Policy, Approves Candidates

Assistant to the President, Max Milbourn, heads Kansas State's public relations program and sees that K-State problems, as well as successes, are well known by the right people. Tagged the President's right hand man, Milbourn co-ordinates College matters with the State Legislature and the Board of Regents. His duties have been compounded with the opening of the 1958 budget session of the Legislature. He also works closely with the press and is the man responsible for much of the K-State publicity carried in Kansas newspapers. In addition to his public relations function, Milbourn is chairman of the General Scholarship Committee which awarded over \$65,000 to 257 Staters during the 1957-58 school year. He also heads the Radio and Television Policy Committee, the Public Relations Council of the Faculty Senate.

The primary job of the Faculty Senate is to facilitate faculty participation in the establishment of policies involving academic, faculty, student and certain all-College affairs. Candidates for degrees, both graduate and undergraduate, must be approved by the Senate. Two senators are elected from each of

the five schools and the Extension division, plus one additional senator for each 35 faculty members. The Senate approves and disapproves curriculum changes and new curriculums. It also sets and reviews professional standards required of faculty members. Glenn Beck, director of the Agricultural Experiment Station is chairman of the Senate.

Staff Guides College Operation

The President's administrative staff is responsible for many important decisions. A. L. Pugsley, dean of academic administration, heads the faculty and directs the fellowships and research grants.

More than 200,000 books and many publications keep head librarian William F. Baehr busy. Historian C. M. Correll keeps a complete history of the College. Living standards are upheld by A. Thornton Edwards, housing director, who must approve all student housing. F. D. Farrell is president emeritus of the College. Keeping in touch with K-State graduates is the job of Kenney Ford, alumni secretary. Records of each student's grades and credits are kept by E. M. Gerritz.

R. F. Gingrich superintends the maintenance of the College buildings. Wendell Kerr, veterans' administrator, answers ex-servicemen's questions. Students and their health are the concern of Dr. Benjamin Lafene. Government checks are issued by Ralph Perry, comptroller, while Chester Peters endeavors to fill job requests from students and employers. Sumner Morris helps students with personal and academic problems.

Research projects of the College are supervised by A. B. Cardwell, Director of the Bureau of General Research. Daniel D. Beatty handles the College financial matters and business problems.

Students Receive Assistance with Problems from Deans

Students are given guidance during their college careers by the staff in the Dean of Students' office. Plans and policies concerning student service agencies compose the main responsibilities of Herbert J. Wunderlich, dean of students for the third year. He also gives individual counseling to students and is an adviser to several student organizations.

Assistant Dean of Students Charles A. Jacot, also in his third year at K-State, spends his time working on financial aid for students, as adviser to international students and ex officio member of Tribunal. New Associate Dean of Students Margaret Lahey, former dean of women at Colorado State College, came to K-State this year from the University of Minnesota where she worked on her Ph.D. degree. Dean Lahey's largest responsibility is the welfare of women students. She works with organized house directors and is Panhellenic adviser.

Herbert J. Wunderlich, dean of students, is responsible for the general welfare of the students at K-State.

Assistant Dean of Students Charles A. Jacot serves as secretary of the general scholarship committee.

New Associate Dean of Students Margaret Lahey helps coeds with their many problems and advises Panhellenic.

Students cast their votes on the name change referendum during a record-breaking two day campus election.

Student Council Pushes KSU Name Change, Faculty Raise

Neil Scott, Student Governing Association president, is executive head of student government at K-State. As "trouble-shooter" for student welfare, he handles all student body correspondence and investigates areas of student concern. An important accomplishment of SGA during the year was the evaluation and revision of its constitution by Scott and a special committee.

Chairman Paul Hatfield presides over the weekly meetings of the Student Council. At these sessions the legislative branch of student government discusses campus improvements and sets general policies for the benefit of students.

About 70 per cent of the student body voted in the Student Council name change referendum for an all-time high-vote election. Students voted 4,692 to 369 to recommend that the name Kansas State College be changed to Kansas State University. Approximately 3,750 K-Staters also signed petitions backing the Student Council in their support of proposed faculty salary raises of five per cent or more.

Student Council members are elected by their respective schools along with the student body president in a spring election. Candidates for election are selected in earlier party primaries. Scott, also an ex officio member of the council, passes and interprets bills made by this group.

Student Body President Neil Scott passes all bills that affect the entire College enrollment.

AWS Organizes Judicial Board, Conference, All-Women's Day

Since the Kansas State Associated Women Students were made full-fledged members of Intercollegiate AWS last spring at a national conference, the group has literally spread its wings over the campus with its activities ranging from service and money-making projects to the printing of handbook guides.

Established on the campus for a year and a half before becoming a national organization, AWS is for all women students, every 50 of whom are represented through their organized house by a member of the AWS Council. This group works to fulfill the needs of women: unify their activities, and promote their welfare leadershipwise, scholarshipwise, culturally, and socially. AWS has jurisdiction over all areas in which Associate Dean of Students Margaret Lahey has authority. She is also AWS sponsor.

During the first part of the school year, the Judicial Board of AWS was officially organized and

established general policies concerning the kinds of cases to be referred to them. October found K-State hostessing an all-state AWS conference. An all-women's day which was greatly enlarged in scope from that of the previous year, included an all-college assembly, group discussions and a buffet supper.

Phones ring and pencils scratch on election night while the student council election committee tabulates votes.

For two years Keith Swenson, as Tribunal chancellor, has guided eight justices to student discipline decisions.

Tribunal Takes Action On Violations of College Rules

Judicial powers of the Student Governing Association lie with Tribunal, which is composed of six student justices, one from each school, and three faculty justices appointed by President McCain. Justices are nominated by their respective school councils, and the President approves them for membership. Maximum term of office for the justices is three years, and no justice may serve in any other student government office when he is yet a member of Tribunal.

Tribunal meets once every two weeks to consider instances where disregard for College rules, dishonesty, immorality, destructiveness, violation of the rights of others or deceit may be in evidence. It concerns itself mainly with upholding the K-State Honor Code established by the Student Council to promote good student citizenship. Violations of the Code are tried in secret behind closed doors unless a public trial is requested by the defendant. Decisions are submitted to the President for approval and then referred to the dean of students for action. Responsibility for interpreting the SGA constitution also falls under Tribunal jurisdiction.

Keith Swenson served his second year as chancellor, Barbara David was clerk, and Fran Meegan was attorney general.

Board of Student Publications members are Ray Lippe, Marcia Boyd, Fritz Moore, Ralph Lashbrook, Byron Ellis

and Janice Graham. The board is the policy-making body for *Collegian*, *Royal Purple* and *Student Directory*.

Apportionment Board Divides Student Activity Fund Melon

Among those to be elected in the all-school spring elections are three student members of the Board of Student Publications, who work together with faculty members appointed by President McCain. The Board meets monthly to approve policies for the *Royal Purple*, *Collegian*, and *Student Directory*; to let contracts for the printing and engraving of the yearbook; and to select the journalists to whom K-Keys will be

awarded for outstanding work done on student publications. This group also employs the graduate manager of Student Publications, Inc.

The Apportionment Board is set up and operates according to the dictates of the Student Governing Association of Kansas State College. The board is composed of members nominated by the Student Council, three faculty members appointed by President McCain, and the president of the student body. This Board apportions \$16.50 of the incidental fee paid by each student to certain student organizations requesting funds to which the Board deems worthy of receiving support of the allocations. A total of \$211,379 was allotted to 25 organizations for the year of 1957-1958.

Apportioning money from the students' incidental fees to various K-State student organizations are G. B. Marion, Jan-

ice Graham, Jim Shane, SGA President Neil Scott, Jim Smith, Dean Herbert J. Wunderlich and H. Henley Haymaker.

Union Wins Awards for Design and Food Service Operation

Competing with hotels, restaurants and other institutions across the nation this year, K-State's Union won awards for food service operation and outstanding interior design. Institutions Magazine made the awards.

Under director Loren V. Kottner the new cinema-scope screen was installed in the little theatre and an acoustical tile ceiling was provided for the bowling area. Two years old in April, K-State's Union is still the newest in the Big Eight. Though not the largest, it is well out in front in terms of having facilities suited to the needs of this particular campus. It has fast become the center of campus activities.

The Union Governing Board reviews Union finances, plans future use of the building and generally oversees Union operation. It is composed of 10 students appointed by Student Council, three faculty members, an alumni representative and ex-officio members Dean Herbert J. Wunderlich and Kottner. Financially, Kottner terms the Union a "break-even" operation. Of the \$400,000 budget, approximately \$56,000 comes from the student activity fee.

During the past year Ollie White replaced Bob Alexander as Union program director, and Merna Ziegler replaced Jack Lockett as director of food service. In December Jim Smith, former K-State basketball star, was hired as games manager. Employment of Sharon Kugler brought the full-time activities staff to three.

Dean of the School of Agriculture Arthur D. Weber was acting president of the College while Dr. McCain was in Europe.

K-State's Assistance Program in India Reviewed by Weber

The School of Agriculture provided the College with an acting president during Dr. McCain's absence, April through October of 1957. Dr. Arthur D. Weber, Dean of the School of Agriculture, filled in while the President was on sabbatical leave as an Eisenhower fellow in Europe. Glenn H. Beck, director of the Agricultural Experiment Station, acted as dean of the school.

In December Dean Weber went to India to review the program of work being done there by K-State staff members and to determine College policy on continuing the program beyond this summer. The work in India is on a contract basis with the International Cooperation Administration. Under the contract, K-State furnishes technical advice and assistance to India's agricultural, animal husbandry, home economics and veterinary science programs. C. Peairs Wilson, Director of Agriculture, spent most of July visiting areas in India where K-State staff members are stationed. There are eight faculty members living in India and six Indian exchange participants

here at the College. Agricultural Experiment Station research projects numbered 416. Emphasis in research was placed on problems confronting Kansas agriculture.

At the beginning of the 1957-58 school year, 847 students were enrolled in agriculture, compared to 918 the year before. Some say the slight decline is an indication that more and better job opportunities will be offered future ag graduates.

Following in the footsteps of Dean Weber, world famous cattle judge, K-State's student judging teams made an exceptionally good showing this year. They took part in 17 intercollegiate contests, won three of them, placed second in three and third in four.

Fire Guts East Waters

The million-and-a-half-dollar fire which gutted East Waters Hall August 25 sent staff members into a flurry of last-minute preparations to organize classroom and laboratory space for students returning to the campus for the fall semester. The fire was the worst in the history of the College.

Apparently started by an explosion in the milling section of the building, the fire destroyed the flour mill and all offices and research equipment in that portion of the building. The wooden roof burned quickly, and when the blaze stopped after two hours,

transferred to the new Animal Industries Building. The Agronomy and Milling Departments doubled up in the remaining part of Waters Hall. Agricultural extension specialists moved to Umberger Hall to make room for them. In all, 68 office personnel were relocated.

Before the January meeting of the State Legislature, approximately \$253,869 had been allocated by the State Finance Council for knocking down the walls of the flour milling area, replacing the roof over the remaining portion of the building, and providing equipment needed to start classes and continue research.

Ag Council Improves Ag Week

This year Ag Council took additional steps toward making Ag Week a more valuable educational experience. The Ag Week theme, "Make Your Career in Modern Agriculture," was carried out in departmental exhibits. Each of the nine ag organizations are represented on the council. The ag organizations are Plow and Pen Club, Ag Education Club, Block and Bridle, Ag Economics Club, Poultry Science Club, Horticulture Club, Dairy Club, Alpha Mu and Alpha Zeta. First Bachelor of Arts Degrees Presented to January Grads

Bachelor of Arts degrees were conferred for the first time at Kansas State, by the School of Arts and Sciences at the January commencement exercises. The granting of these new degrees was made possible by curricular revision in the Arts and Sciences School. The new degrees are granted in only a few curriculums, and a student must fulfill the requirements of his revised curriculum in order to receive the Bachelor of Arts degree.

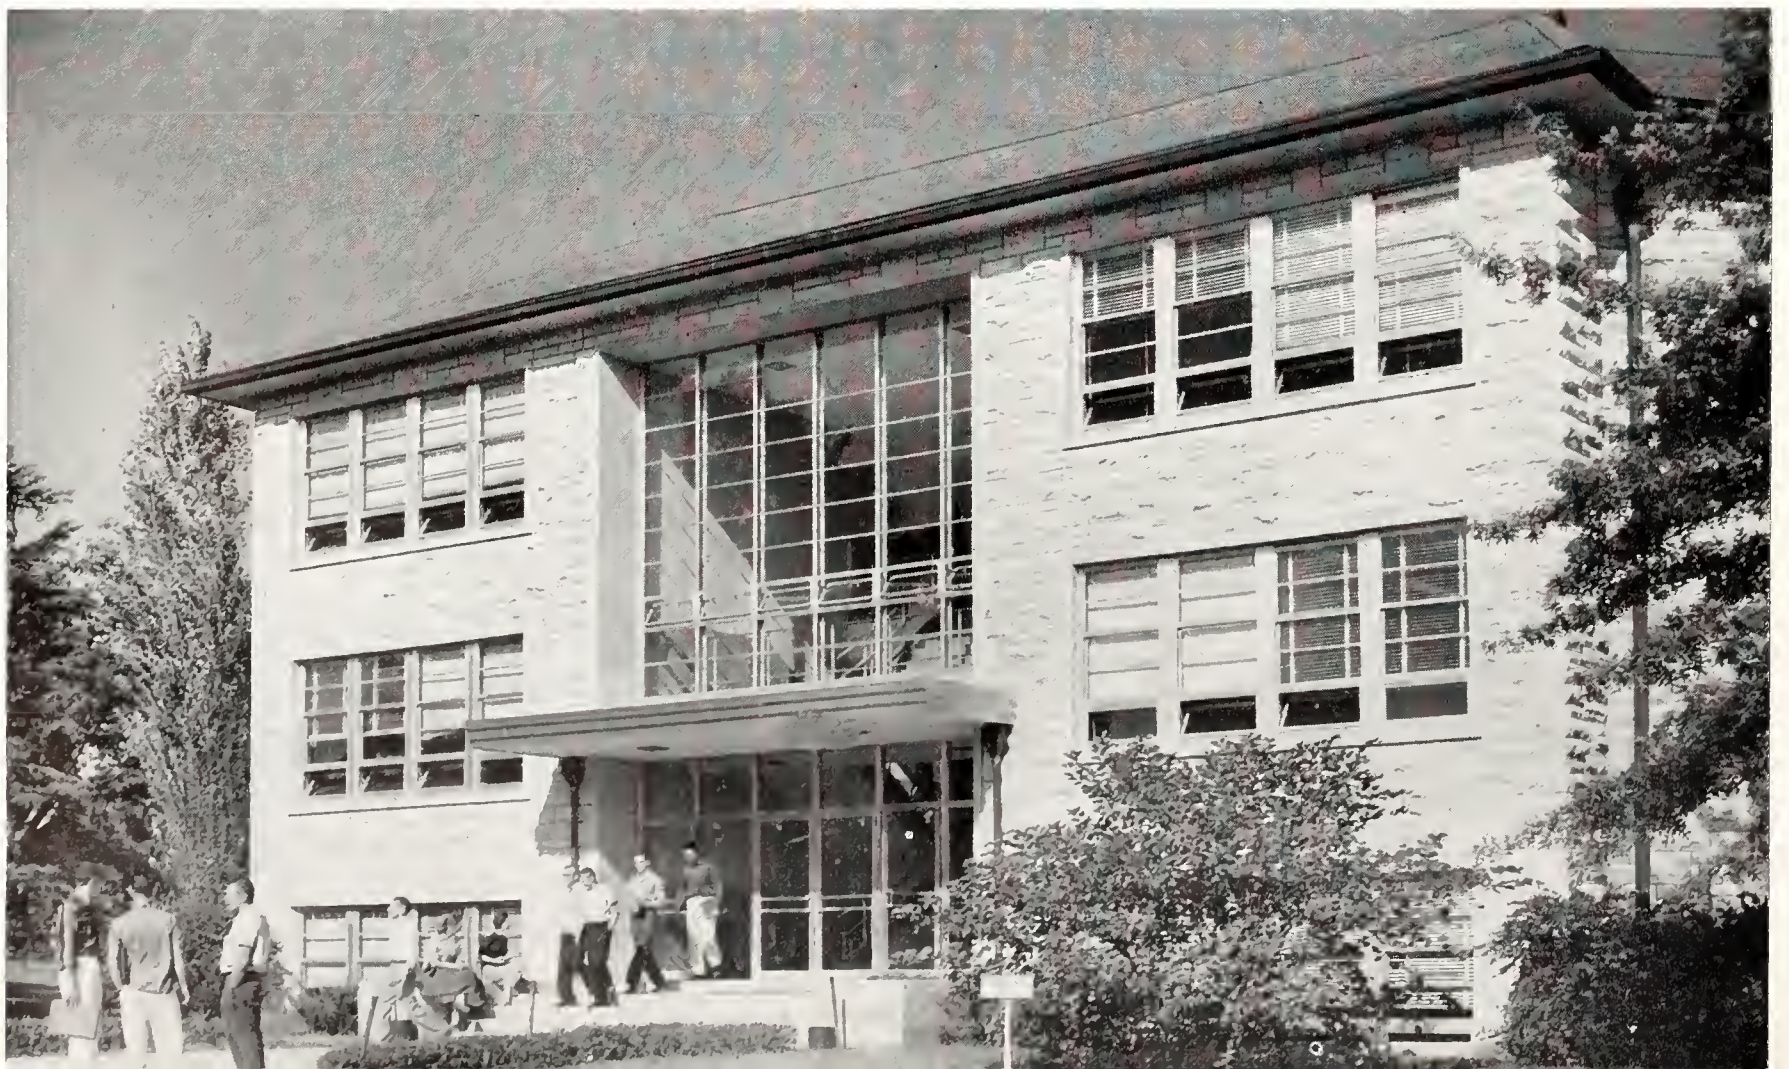

Additions to two buildings highlight the 1958 program of the School of Arts and Sciences. Plans for a \$525,000 addition to Eisenhower Hall and a \$375,000 addition to Kedzie Hall are being completed. Actual construction of the Kedzie addition is scheduled to begin during the summer, while construction of the Eisenhower addition is slated to begin in the fall. Both additions will provide needed space for classrooms and offices. The Kedzie addition also will provide more space for the College Press.

Working closely with Dean Young are G. Orval Ebberts, assistant dean, and John P. Murry, academic adviser. These two men divide responsibilities dealing with student problems and requirements. Arts and Sciences is still the largest school on campus with the fall enrollment totaling 2,457 students, an increase of 47 over last year's fall enrollment. The Arts and Sciences School is made up of 22 departments, each with its own department head. The school has approximately 350 regular faculty members and

Planning and supervising the second annual Arts and Sciences Day was the major project of the Arts and Sciences Council. Many high school students attended the Arts and Sciences Day in February. The students viewed displays and programs presented by the various departments and toured the campus and buildings. Other major business taken up by the

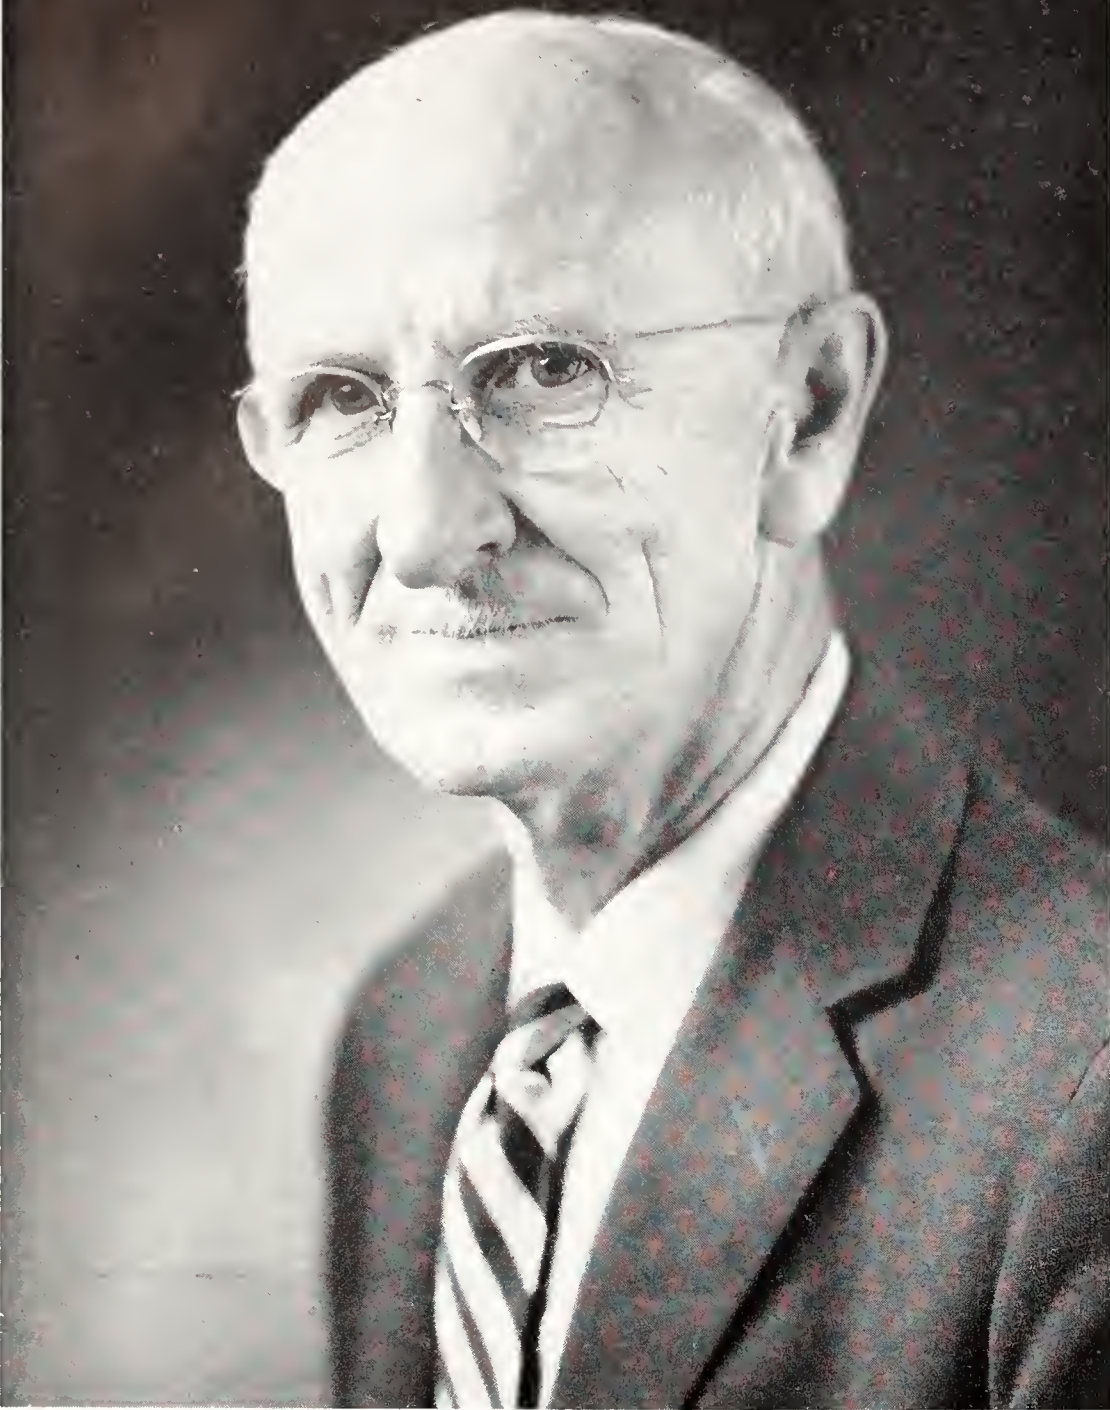

Council included revising the Arts and Sciences Constitution.

Each of the 20 members on the Council represented approximately 300 students in the Arts and Sciences School. The Council members are elected in an all-school general election each spring. Bill Schicktanz was this year's Council president. Deans Young and Ebberts were faculty advisers.

M. A. Durland, Dean of Engineering and Architecture, is also director of the Engineering Experiment Station.

Masters Degree is Offered Now in Nuclear Engineering

A new program for a master of science degree in nuclear engineering was approved by the faculty senate and graduate school. Master's degrees are offered in all of the eight departments of the Engineering school, and a Ph.D. degree is granted in Mechanical Engineering.

Thirteen new teachers were added to the School of Engineering and Architecture staff this year bringing the total to 137. These new positions were created because of the increased enrollment in the school. Engineering students totaled 2,090 the fall semester, 111 more than in 1956. There has also been a big increase in graduates the past two years. An estimated 330 are graduating this spring compared to 247 in 1957 and 164 in 1956.

Dean of Engineering and Architecture M. A. Durland not only heads the engineering academic program but is also director of the Engineering Experiment Station along with being a member of various college committees. Richard C. Potter, associate dean

Seaton Hall, engineering building, will soon have a new three-story addition at the north end of the west wing for

agricultural engineering. This also will allow the ag engineering extension department to be located in Seaton.

for the fourth year, assists Dean Durland with all the business of the school and is chairman of the Engineering School Scholarship Committee.

Eight new engineering scholarships were added this year bringing the total amount available to about \$30,000. Seventy-one engineering and architecture students hold the awards made possible by national companies, Kansas firms, and through funds set up by individual persons.

Ralph Nevins, a member of the K-State staff since 1948, was named new head of the Mechanical Engineering Department.

Research is Essential

The Engineering Experiment Station, in its 47th year, carries on research that is fundamental for the purpose of obtaining new scientific information of use to engineering and carries on applied research directed toward helping with special problems in engineering. This research is essential to permit the staff to keep in contact with the new things that are going on in Engineering.

Among the 29 current research projects is a study of radiant heating and cooling in the Mechanical En-

The second phase of the project dealing with the effect of floor surface temperatures on comfort for subjects seated and standing for periods of two to three hours was undertaken last fall.

Council Governs School

Jim Moore heads the Engineering Association Council, governing body of the Engineering School. Dean Durland is faculty adviser. Members of the council are elected by the Engineering Association, composed of all engineering students. Official publication of the association is the Kansas State Engineer. Each issue of the monthly publication features two outstanding students of the School of Engineering and Architecture as "Engineers of the Month." Editor and business manager of the magazine are members of the Engineering Council.

"The Science of Engineering" was the theme of the 34th Engineers' Open House March 14 and 15. The eight engineering departments and the Military Science department entered exhibits. The Engineering Council, which keeps the official files and records for the open house, presented a bronze plaque for the winning departmental exhibit to be kept in permanent possession of the department.

Future buildings are designed and models are built by students as a part of their training in architecture.

Mrs. Wendell S. Hoffman has been dean of the School of Home Economics at Kansas State College for four years.

New Margaret Justin Hall To Be Completed Next Summer

Construction of the new Margaret M. Justin Home Economics building was the highlight of the year for the School of Home Economics. The ground-breaking ceremony September 19 was a special event for home economics students and faculty. Mrs. Wendell S. Hoffman, dean of the School of Home Economics, turned the first spadeful of dirt. The \$1,900,000 building is scheduled to be completed during the summer of 1959.

When it is completed, the new building will provide space for 8 classrooms, 28 teaching laboratories, 23 research laboratories, offices, conference rooms and a lecture hall seating 248 people. The completion of the building will mark the first time all six department heads in the School of Home Economics have been housed under one roof.

Dr. Margaret M. Justin, for whom the building is named, was dean of the K-State School of Home Economics for 31 years from 1923 to 1954. This year Dr. Justin has spent most of the time traveling and at her summer home near Boulder, Colo.

Three home economics students concentrate on putting the final touches on their projects for a crafts class.

Completing her fourth year as dean of the School of Home Economics, Dean Hoffman works with student, faculty and budget matters. She also is responsible for revision of curriculums and plans for the future. Working closely with Dean Hoffman is Assistant Dean Martha M. Kramer. Dr. Kramer's duties include working with students on academic problems and requirements for graduation, editing the annual Home Economics Christmas newsletter, and supervising publicity for the Home Economics School.

School Ranks Eighth in Nation

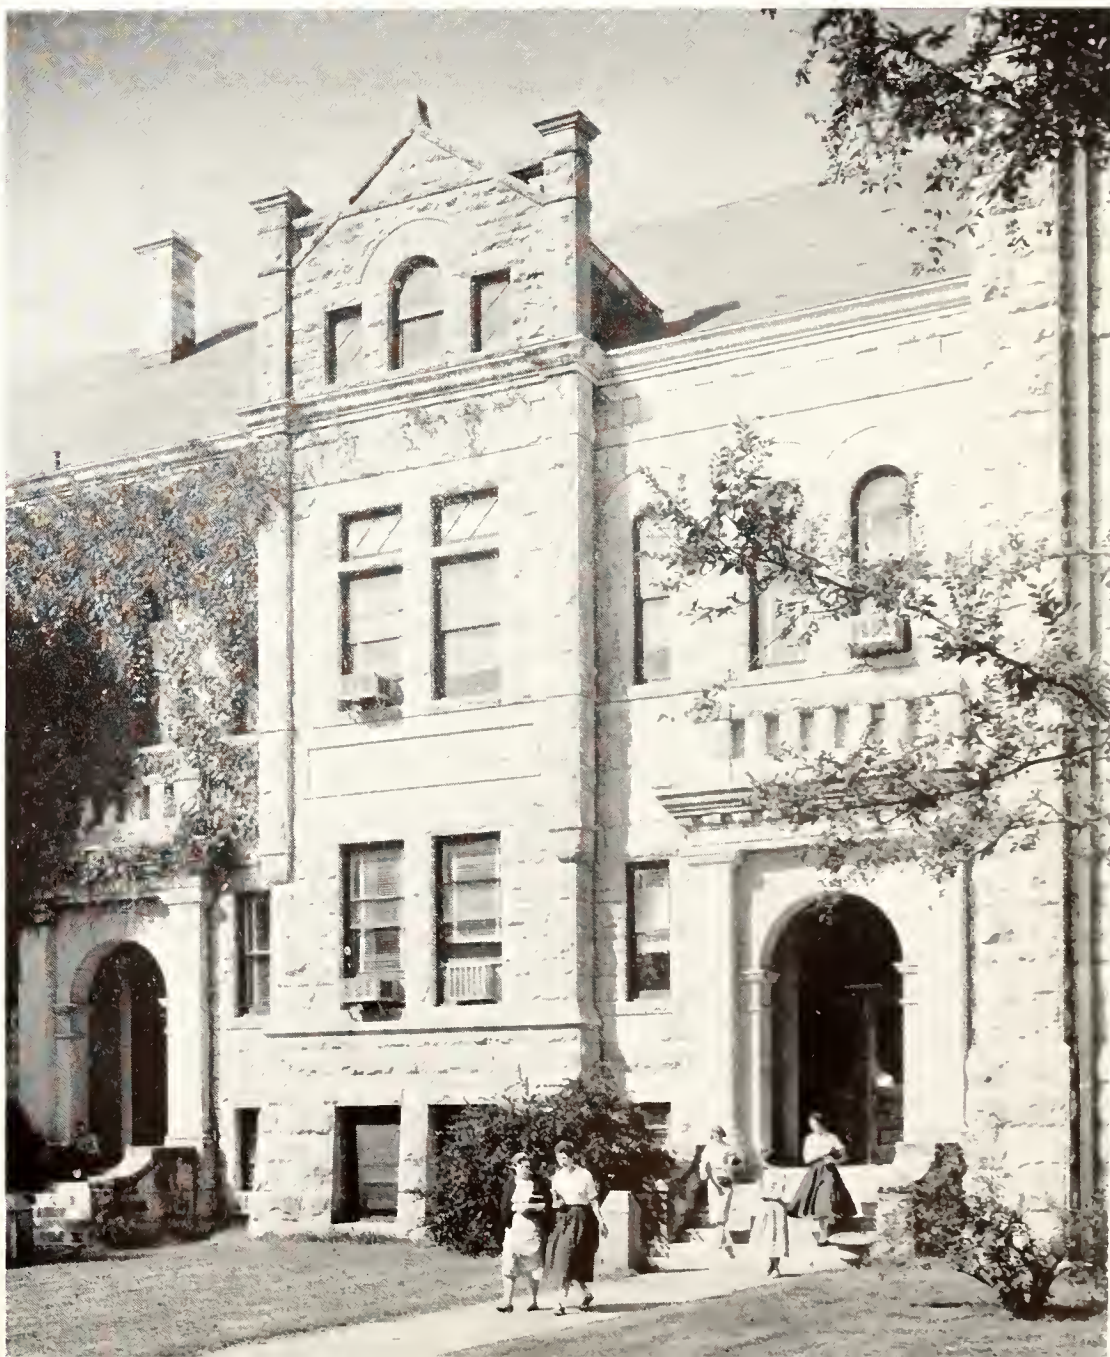

K-State's School of Home Economics ranks as the nation's eighth largest home economics school based on student enrollment. The fall enrollment totaled 506 undergraduate students and 32 graduate students. The school boasted a total of five male students—all undergraduates.

The six departments in the Home Economics School are art, clothing and textiles, family and child development, family economics, foods and nutrition and institutional management. The Home Economics School has 54 full-time faculty members and two part-time faculty members. Eighteen graduate assistants also are employed. Two new department heads named this year are Prof. Grace M. Shugart, head of the Department of Institutional Management, and Prof. Ruth M. Hoeflin, head of the department of Family and Child Development. The faculty also included eight new members this year.

Dr. Martha M. Kramer, assistant dean, works with home economics students in solving their academic problems.

Skillful draping techniques are studied in reflection by a home economics student enrolled in a draping class.

Good things to eat are prepared by a group of home economics students in one of the sunny foods laboratories.

Research projects are carried on constantly by various members of the Home Economics School faculty. One of the research projects this year was studying the nutritional status of teenage girls. Dr. Dorothy L. Harrison supervises the research program. A new course offered for the first time this year was "Methods of Research in Home Economics."

Other projects supervised by the Council this year included a giant Home Economics Club membership party on October 10, a Christmas tea for home economics students on December 19 and Hospitality Day for Kansas high school girls on April 26. The Council also was in charge of collecting Christmas gifts for patients in the Topeka State Hospital.

This year's Home Economics Council members were presidents of each of the eight individual Home Economics Interest Clubs: Art, Clothing, Extension, Family and Child Development, Institutional Management, Journalism, Nursing and Teaching; and the chairmen of the standing committees: Membership, Snowball Dance, Christmas Tea, Hospitality Day, Radio, Interest Award, and Historian. The Council was rounded out by a vice-president, secretary-treasurer, and two Student Council representatives from the Home Economics School. Sylvia Gaddie was this year's Council president. Miss Margaret E. Raffington was sponsor.

Cookies and cakes were prepared by home ec students to be served at the annual Home Economics Christmas tea.

students the opportunity to learn about youngsters' behavior at the child development laboratory.

The School of Veterinary Medicine's Dean E. E. Leasure carefully oversees the selection of each freshman class.

Veterinary Science Building Remodeled, Renamed Burt Hall

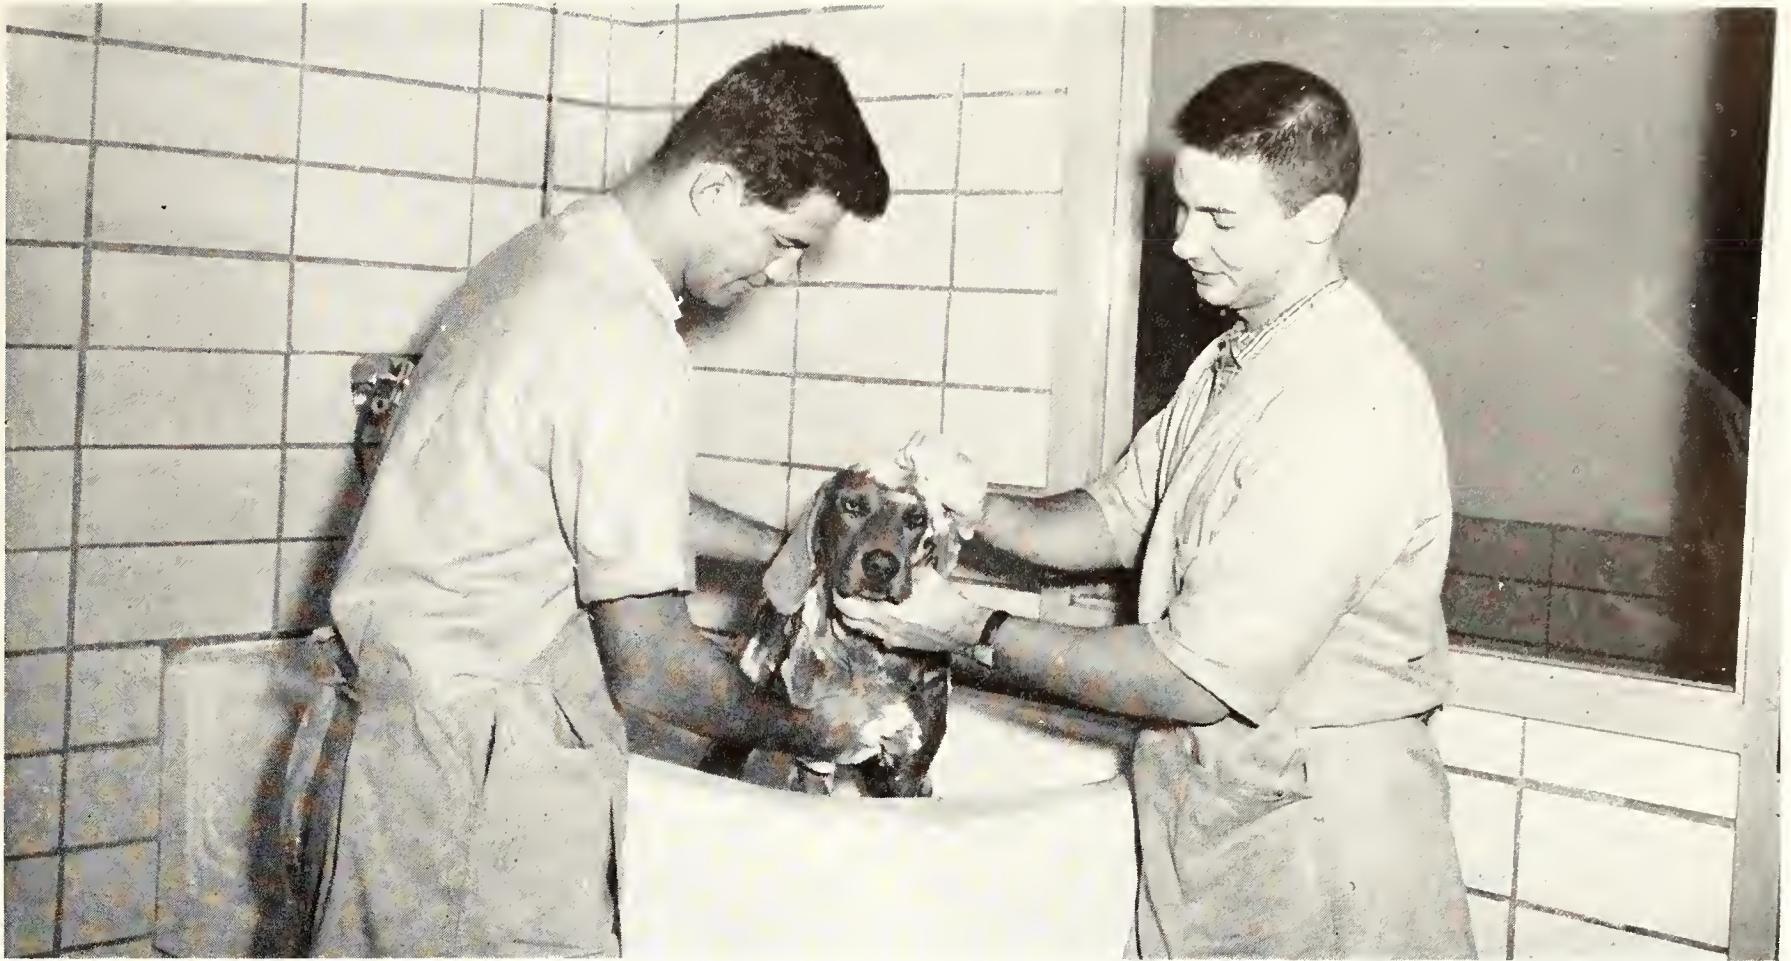

One of the notable improvements in the School of Veterinary Medicine occurring during the past year was the occupying of the recently remodeled Veterinary Science Hall by the Departments of Pathology and Physiology for instruction in the courses of pathology, parasitology, physiology and pharmacodynamics. When the building, renamed James H. Burt Hall, is completely remodeled, there will be a sizable portion of the building devoted to animal disease research.

While the School of Veterinary Medicine's main activity is to provide an adequate education for its students in the field of veterinary practice, it also provides training for students who are interested in employment in any one of the many fields of veterinary medicine including teaching, public health and research. The three-year-old Dykstra Veterinary Hospital offers many features for training in large and small animal clinics, medicine, surgery, X-ray equipment and facilities for caring for 115 small animals and 44 large animals at one time. The building has

an auditorium with a seating capacity of 327, a conference room, display cabinets, student lockers and intern quarters for 10 senior students. Service is extended to livestock and pet owners as 30,000 animal patients are treated every year, and a still greater number of animal disease research investigations is conducted.

Among the distinctions of the curriculum in Veterinary Medicine, as compared to others offered at Kansas State College, is that it is a six-year curriculum, the sixth year being added in 1948. The student receives Bachelor of Science and Doctor of Veterinary Medicine degrees. The 1957-58 enrollment in the School was 275, 70 of whom were incoming freshmen; sixty-five were seniors due for June graduation.

Seeing that all requirements for advanced degrees are met is the job of Harold Howe, Dean of the Graduate School.

Graduate School Enrollment Largest in College History

The 1957-58 enrollment in the Graduate School, headed by Dean Harold Howe, was the largest in the history of the College. Enrollment represented a 20 percent increase over that of a year ago. Provisions for graduate study at Kansas State College date back to 1886 when the first "standing committee on graduate work" was created. A few master's degrees had been granted as early as 1871, but these were mainly for honorary purposes.

Master of Science degrees are offered in 67 fields and doctorates in 16. Last fall the school added a program for advanced study in nuclear engineering. K-State is now the only school in the Midwest offering graduate study in the field.

The majority of K-State's graduate students receive their Bachelor of Science degrees right here at the college, according to an institutional background study conducted by Dean Howe. The survey, released in May of 1957, indicated that 38.2 percent came from other colleges and universities in Kansas and that 36.1 percent represented other institutions

in the United States. Foreign students made up 13.3 percent of graduate enrollment. About 20 percent of the grad students were working on doctorates.

A major function of the school is to assist its students in the task of obtaining new knowledge. Research training and teaching skill in the use of scientific knowledge are a vital part of the graduate program. In addition, the Graduate School is attempting to do something about one of America's most serious problems—the growing shortage of adequately trained college teachers.

In keeping with the trend in higher education everywhere, K-State's Graduate School is concerned with a program which will help students to obtain a well-rounded general education while pursuing professional training. Graduate students are encouraged to participate in extra-curricular activities and to aspire to self-development. All students enrolled in the Graduate School are members of the Graduate Students Association.

A Graduate Council, nine faculty members from various fields of study, assists Dean Howe with Graduate School policy. In the Council's Faculty Lectureship program, Dr. Arthur D. Weber and Howard T. Hill were honored this year as outstanding graduate faculty members.

part in a program on cultural traditions of India. Native jewelry, ivory carvings and fabrics were on display.

Mrs. Effie Jardine attended the dedication of Jardine Terrace November 12. Pres. James McCain was the speaker.

The housing development is named in honor of former K-State president W. M. Jardine, late husband of Mrs. Jardine.

Faculty Activities Are Many

The dedication of K-State's first housing for married students, the Fine Arts Festival and a string quartet were activities in which faculty members participated. The Union was a source of recreation for the faculty as they bowled at their week-night bowling league. Professors took advantage of the Union Snack Bar for the daily coffee, doughnuts and visiting. The cafeteria line was filled with staff members who found that eating their noon meal in the Union was convenient. The square dance club provided entertainment for some college professors. A separate section at all basketball and football games was reserved for faculty members and their wives.

Faculty String Quartet members are George Leedham, Luther Leavengood, Clyde Jussila and Warren Walker.

Art holds the interest of many as it was prepared by various faculty members as a part of the Fine Arts Festival. Movies,

chamber music, recitals, arts, talks and a concert filled the eight days of the festival given during May.

Book 2:

ORGANIZATIONS

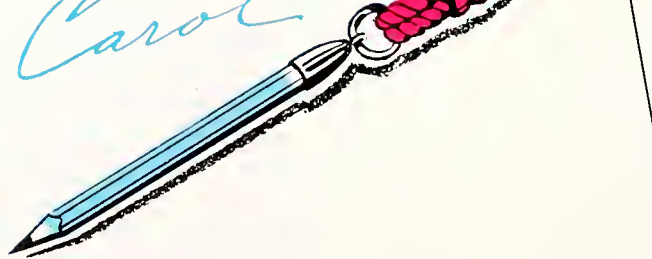

There is time to do everything . . . or almost everything. A student's life is filled with being a leader or supporter of departmental, organized house, or special interest group activities. With others, he has the chance to share and develop similar interests and ideas, and to gain further knowledge in his particular field. In the student's home-away-from-home, he learns to work with a group and share responsibilities. This becomes his own place for studying, writing letters, or talking over current campus controversies with his roommates. He becomes the past, the present, the future guide to education's promise . . . and has "the time of his life" doing it. He is the past . . . a never-to-be-forgotten memory. He is the present . . . the life and light of campus activity. He is the future . . . a determined assurance of continuing progress. For after being subjected to college ways, time and the opportunity come for curricular and class honoraries. He is grateful for the opportunity and takes advantage of the time . . .

Three All-Campus Honoraries Offer Services to Kansas State

Homecoming activities again headed the list of Blue Key accomplishments as members set up the election of the queen and handled festivities during the halftime of the game. Blue Key members escorted the five queen finalists to various Manhattan civic meetings during the week preceding Homecoming. Blue Key was also in charge of the dance which climaxed Homecoming festivities. Co-sponsorship with Mortar Board of a project to get more seniors to join

the Alumni Association plus awarding a \$200 scholarship kept the 14-member chapter busy. Members are selected on the basis of campus activities and scholarship. John Watt was president of the K-State chapter of the national men's honorary, and Dr. Chester Peters was faculty adviser.

A bevy of special services to the College kept an enlarged K-State chapter of Mortar Board busy this year. Showing an increase from 14 to 17 members, the senior women's honorary sponsored its annual scholarship dinner for College women. Another activity undertaken by the honorary was a campus beautification project which consisted of posting signs asking students to keep off the many cowpaths which mar the campus. Phi Kappa Phi Initiates Seven Per Cent of the Senior Class

Forty-nine seniors and graduate students were elected to membership in Phi Kappa Phi, national scholastic honorary, during the fall semester.

To be eligible undergraduates must rank in the up-

per seven per cent of their class. Graduate students must rank in the upper 10 per cent of their class. Each year Phi Kappa Phi awards certificates to the upper 10 per cent of the freshmen in each school.

Alpha Zeta, an honorary agricultural service fraternity, had 52 members during 1957-58. Members must be in the upper 2/5 scholastically of the Schools of Agriculture and Veterinary Medicine and must have shown outstanding personality, character and activities. Activities for the group included ushering at the Little American Royal, providing guides for FFA tours, recognizing the freshmen with highest grades and presenting certificates to outstanding agri-

Professional Advancement Aim of Business, Milling Honoraries

Alpha Omega chapter of Alpha Kappa Psi, professional business fraternity, had a busy schedule during the past year, completing five business tours. The group toured business offices of TWA, IBM, Westinghouse and the Federal Reserve Bank, all in Kansas City, and Fleming's in Topeka.

Membership requirement for the organization is a 1.5 grade average in business administration or accounting. The purpose of Alpha Kappa Psi is to advance, in institutions of college rank, courses leading

to degrees in business administration. Howard A. Roach was president of Alpha Kappa Psi. Gene Laughlin was faculty adviser.

Activities of Alpha Omega chapter of Alpha Mu, honorary milling fraternity, have increased and now include some seven different projects. One of the main projects of the milling group is a display for Ag Week. They also sponsor a plaque for the winner of the Ag Week displays.

To be eligible for Alpha Mu a student must have above a 1.9 average as a sophomore, 1.6 as a junior, and 1.3 as a senior. The purpose of the organization is to promote the profession of milling and to develop high standards of scholarship, character, leadership and fellowship. President of Alpha Mu was Reinhart Billiar. R. O. Pence and G. D. Miller acted as faculty advisers of the organization.

Honorary Promotes Forensics

Delta Sigma Rho, a national forensics honor society, had eight members during the year. The purpose of the organization is to promote intelligent speech in society. Members must be second semester sophomores, in the upper one-third of their class and actively participating in forensics. Monthly meetings found the group working to increase the value of debate. Organized nationally in 1905, the K-State chapter was founded in 1951. Projects of the group included sponsoring the Delta Sigma Rho speech contest and setting up displays for Arts and Sciences Day. A spring banquet was given with the debate team when awards were given to the outstanding first year debater and outstanding senior debater. President of the forensics honorary was Phil Reid and sponsor was Charles Goetzinger.

The honorary art fraternity on the campus is Delta Phi Delta. The aim of the organization is to promote art interests among students of colleges, universities, and art schools and to stimulate scholarship. To be eligible for membership students must have a 1.5 grade average in all subjects and a 2.0 in art subjects. Organized in 1909 at Kansas University as the Palette Club, the group took the Greek name of Delta Phi Delta in 1912 when it became a national organization. A big project of the group was the sponsoring of many types of art exhibits in the Union. During the year trips were taken to art galleries at Lindsborg and Chicago. Bi-monthly meetings were held in various instructors' homes. Delta Phi Delta president was Rosella Hiebert. J. Cranston Heintzelman sponsored the organization.

Eta Kappa Nu Conducts Classes in Operation of Slide Rule

Eta Kappa Nu, electrical engineering honorary fraternity, supported three projects for the past year. They were weekly slide-rule classes for beginning, intermediate, and advanced students; weekly Engineering Physics review classes to aid sophomore engineers; and introducing the visiting high school students to the engineering profession during Engineer's Open House.

Membership in Eta Kappa Nu, which totaled 65 during 1956-57, increased to 78 over the past year. Scholastic requirements for membership provide that a student be in the upper one-third of the senior electrical engineering class or in the upper one-fourth of his junior class.

The honorary fraternity was founded in 1904 at the University of Illinois. The organization has grown until it now has 71 college chapters and 12 alumni chapters. The national goal of the organization is to promote fellowship among electrical engineers and to improve the standards of the profession. Jay R. Bohning served as president of Eta Kappa Nu. Faculty sponsor for the organization was Russell M. Kerchner, head of the Electrical Engineering Department.

Music, Home Ec Honoraries Promote Women's Scholarship

Mu Phi Epsilon is an honorary professional music sorority for women majoring in music. The 17 members strived to recognize scholarship, musicianship and friendship. Election to Mu Phi Epsilon is based upon scholarship, musical ability, character and personality. The national organization which was founded in 1903 at the Metropolitan College of Music, now has 77 chapters and more than 17,000 members. The local group presented public recitals and ushered for the college recitals. A program of music was presented for the patients of a local old folks home and music was also given to the blind. National projects were supported by magazine subscription sales sold by the local chapter. Through this project, contribu-

tions were made to Gads Hill School in Chicago, music scholarships, McDowell College in New Hampshire, national contest awards, senior achievement awards, chapter scholarships, active service awards, original composition funds, music supplies in foreign countries and research. Music was sent to the Far East for the pledge project. President was Jane Thompson and sponsor was Miss Clarice Painter.

Omicron Nu honorary is for home economics majors. The purpose of the organization is to promote scholarship, leadership and research in the field of home economics. Members are selected from the upper scholastic percentages of junior and senior home economics classes. The local chapter, which was established at Kansas State in 1915, had 21 members this year. A tea was given early in the fall for freshmen and transfer home ec students. Sophomores were entertained by Omicron Nu at a dessert. Members also helped with plans for Hospitality Day. Kay Wadsworth was president of the organization, and sponsors were Mrs. Marjorie Hemphill, Dr. Grace Goertz and Miss Jennie Williams.

Honorary Fosters High Ideals of Engineering Profession

The annual presentation of an award and certificate to the outstanding freshman in mechanical engineering is one of the major projects of Pi Tau Sigma, national mechanical engineering honorary. Other projects of the group include publishing and distributing the "Indicator Card," which contains news of the School of Engineering. The purpose of the organization is to foster the high ideals of the engineering profession and to develop leadership among the mechanical engineering students. The local chapter, which was established in 1939, had a membership

of 50 this year. Membership is open to mechanical engineering juniors or seniors of high scholastic standing who show leadership ability. Bob Thomas was president, and Robert Crank was faculty sponsor.

Competing in drill and rifle team competition is one of the major projects each year of Pershing Rifles, Army and Air Force ROTC cadet drill team. The group acted as honor and color guards at various events during the year. The purpose of the organization is to develop leadership, character and military proficiency. Pershing Rifle members are chosen on drilling ability and general military knowledge. The K-State group is one of 145 Pershing Rifle companies located at colleges and universities with ROTC programs. Nathan Greene was Pershing Rifle captain, and Willard F. Frantz Jr. and John A. Moe were faculty sponsors.

Two New Honoraries Organized

Two new clubs were started on the campus in 1957 to provide organizations for students specializing in business and economics. Phi Chi Theta, a women's honorary, was organized for the purpose of promoting higher business education, training, ideals and cooperation in the field of business. Advanced sophomores majoring in business and having a grade average of 1.5 are eligible for membership. The 10 members visited IBM and TWA in Kansas City during the fall. Other activities included professional meetings with speakers and a fashion show given in connection with Arts and Sciences Day. Waldean Kretzmeier was president, and Mrs. Mildred Buzenberg was sponsor.

The economics honorary, Order of Artus, received its charter and was installed in December, 1957. Membership requirements are a 2.0 grade average and 12 semester hours of economics. "Strive for economic justice" is the motto of the organization which was headed by president Warren Keegan. Dr. Wallace Nelson sponsored the group.

"Saluting" and wearing "special uniforms" are a part of the activities required for Pershing Rifles initiation.

KS Theater, Athletic Groups Stress Professional Standards

Outstanding work in the drama field is recognized by Pi Epsilon Delta, national college dramatics honorary. Membership requirements are based on a point system for work in the fields of both theater work and study. Members also must have at least a one-point grade average. The local chapter, which had a membership of 13 this year, was founded in 1945. The group makes awards to outstanding drama students on campus each year. The group strives to raise the standards of college and university theater and to stand as a college organization in national

movements for the betterment and welfare of drama. This year's group was guided by Barbara B. Wilson as president. Earl G. Hoover was faculty sponsor.

Last year the K-State chapter of Phi Epsilon Kappa, national fraternity for men majoring in physical education, ranked second in the nation in efficiency ratings among forty other chapters. The local chapter received national recognition for this high achievement. "A Sound Mind in a Sound Body" is the motto of the organization. Major activities of the group during the year included donating blood to the Riley County Blood Bank, sponsoring a city-wide grade school free throw tournament, selling cow bells and attending the installation of the Kansas University chapter. The organization also had a Founders' Day banquet. This year's 36-member group was headed by Thomas Starns as president. Veryle E. Snyder was faculty sponsor of the group.

Freshmen Men and Chemists Recognized for Scholarship

The K-State chapter of Phi Eta Sigma, scholastic honorary for freshmen men, was installed in February, 1957. Since that time, the organization has sponsored such projects as supplying a pamphlet on good study habits to entering freshmen. The local chapter is the ninety-second to be established in the national organization. The group was established with 18 charter members and now has a membership of 38 active and 7 honorary members. John Erickson headed this year's group as president. Brewster Rogerson was faculty sponsor.

Phi Lambda Upsilon, national chemistry honorary, strives to promote scholarship and original research in all branches of pure and applied chemistry. The group also promotes scholarship among graduate and undergraduate students in the field of chemistry and chemical engineering. The organization presents certificates of merit each year to all outstanding students in these two fields. Other activities of the group included sponsoring various social events and several lectures throughout the year on various scientific topics. Alpha Epsilon chapter, which was established at K-State in 1931, had a membership of 58 this year. Membership is open to students of high scholastic standing who have had at least 20 hours of chemistry or chemical engineering. Hugh Hays was president this year, and Howard L. Mitchell was faculty sponsor.

Speech Therapy, Army ROTC Students Learn About Fields

Sigma Alpha Eta is a professional fraternity for students in the field of speech and hearing therapy. The K-State chapter was started a year ago by 12 students in speech therapy. The group received its charter at the American Speech and Hearing Association convention in Ohio last November. Members must rank in the upper 35 per cent of their class in general scholarship and must be majoring in speech and hearing.

The group sold refreshments during the intermissions of the college plays, and the money made was put into a fund to be used to make a film of speech

therapists' work. Members also helped screen students in speech and hearing during college enrollment and in the clinic systems in Topeka. The chapter sent a delegate and their sponsor to the national Sigma Alpha Eta convention last fall. Barbara Marshall was president and Dr. Albert Knox was sponsor.

Outstanding military science students may belong to Scabbard and Blade. Members must show good scholastic achievement in military science and superior leadership qualities. The organization endeavors to unite the military departments of American universities in a closer relationship and to increase knowledge of military practices. A special event was the trip which members took in the spring to visit West Point. They also sponsored the Military Ball which featured the orchestra of Ralph Flanagan. Captain of Scabbard and Blade was Craig Fischer and sponsor was Major Alfred Edwards.

ROTC students receive their commissions at commencement and will enter the service as second lieutenants.

Theta Sigs Sponsor Banquet

Theta Sigma Phi is an honorary fraternity for women in journalism. The 14 members sponsored the annual Matrix Table banquet at which a prominent woman journalist spoke. The Merry-Go-Round dessert for new journalism students, spring and fall picnics with Sigma Delta Chi and the sale of graduation announcements were other projects of the group.

They also sent a delegate to the national convention. President was Marilyn McKnight and sponsor, Miss Helen Hostetter.

The professional journalism fraternity for men is Sigma Delta Chi. Their purpose is to raise the standards of journalism and competence of its members and recognize outstanding achievements by journalists. Members published the special April Fool edition of the *Collegian*. Activities included sponsoring the journalism picnic with Theta Sigma Phi and Christmas party for journalism students. Roger Myers was president of the 15-member organization and C. J. Medlin was sponsor.

Sigma Tau Has Book Exchange

A book exchange at the Union sponsored by Sigma Tau and Student Council was a big project for the honorary engineering fraternity. The non-profit bookstore operated between semesters.

Sigma Tau plays a principal part in the Engineer's Open House. The fraternity sponsors the St. Pat's Prom and is in charge of getting each engineering department to elect a St. Pat and St. Patricia. After the candidates are selected, the fraternity also is in charge of the general election for the honor.

Each fall, Sigma Tau pledges whitewash the letters on K-Hill. This pledge project also calls for helping make minor repairs to the structure if they are needed. This year Sigma Tau was responsible for repairing the long-broken foot on the letter "K."

Outstanding scholarship awards are made to the three top freshmen engineers by Sigma Tau. The recognition is made at the beginning of the recipient's sophomore year.

A permanent bulletin board was installed by the members in the west end of the engineering building. The board is designed for posting announcements, scholarships and club news about the engineering honorary.

Two initiation banquets are held each year. Speakers are invited to the campus to address the fall and spring banquets. The speakers are leaders in the field of engineering and manufacturing. Also at the banquets, outstanding K-State engineering instructors and professors are recognized.

The Marathon race to K-Hill is sponsored by Sigma Tau. Runners are members of the freshman track team. A torch bearer starts from Seaton Hall and proceeds down Poyntz Avenue until the last runners reaches the top of K-Hill.

A Sigma Tau project, in addition to maintaining K-Hill, was repairing the long-broken foot of the letter "K."

The main social function sponsored by the fraternity is a fellowship dinner which includes wives and dates of members.

The purpose of the organization is to recognize scholarship and professional attainment of students in the school of engineering. The symbol of the fraternity is a railroad track driven through a pyramid.

Requirements for membership are to be of junior standing, be rated in the top third of the class and to have a grade average of 1.9 or above. An increase of 15 members in the fraternity over last year indicates that although the membership requirements are high, it still allows 160 engineers to be on the rolls. Dean Nehrig was president and Ed Lindly was faculty sponsor.

Gathered around and on top their organization's symbol, a stone pyramid, are members of Sigma Tau, engineering honorary.

Geology Fraternity Sponsors Field Trips, Williston Club

Sigma Gamma Epsilon, honorary geology fraternity, sponsored two field trips, the Williston Geology Club and a spring and fall banquet for geology majors, and maintained service projects for the geology department. One of the field trips was for the Boy Scouts and the other was a geology field trip for geologists.

The local Alpha Nu chapter of Sigma Gamma Epsilon was organized in 1947. The purpose of the organization is to advance the scholastic, scientific and social abilities of its members. There are presently 25 members in the local chapter. This is a gain of five members over the past year. Requirements for

membership are a 1.2 over-all grade average, with a 1.8 average in earth science courses. They also must be a student of some type of earth science or its branches. President of Sigma Gamma Epsilon was J. P. Metz. Henry Beck and Dean Pilkington were faculty advisers.

Omicron chapter of Tau Sigma Delta, honorary architecture fraternity, issued annual scholarships to beginning freshmen in architecture or architectural engineering. This was the group's major project.

The organization's present membership totals 21. Membership requirements for Tau Sigma Delta require that a student have completed at least 60 per cent of a curriculum in architecture or architectural engineering, be in good scholastic standing and be of good character. The purpose of the organization is to promote interest and good scholarship in architecture. President of the group was Don Anderson. Prof. John F. Helm Jr. and Asst. Prof. John Brenne- man were faculty advisers for the honorary.

Brass bells from India, Swiss music boxes, Japanese prints and gifts from all parts of the world were on sale during

the Christmas shopping season at the Y-Mart. An annual attraction, this is YWCA's major project of the year.

Service, Social, Religious Interests Developed by YWCA

The Young Women's Christian Association had 120 members this year, including honorary memberships for the foreign women students on campus. The association was established on campus in 1885 by a group of 20 students under the sponsorship of Mrs. Nellie Kedzie Jones, then head of the Domestic Science Department.

YWCA is a Christian organization seeking the development of religious, social, service and educational interests of its members. The club sponsors interest group discussions covering personal life, campus and community life, religious life, interracial interests and international and public affairs. Together with

the YMCA the group plans Faculty Firesides in faculty members' homes to provide an opportunity for informal fellowship and discussions.

One of the Y's annual major projects is the Y-Mart, the sale of internationally-made gift items, which is welcomed by many students as a help in their Christmas shopping. This year's Y-Mart was held in Calvin Lounge. The YW's service projects included a baby-sitting service, projects for the aged, entertainment for the sick and "big sisters" for new students. Jo Ann Lydick was president. Miss Helen Bocker was executive director and Mrs. Lucile Rust was advisory board president.

YMCA Co-Sponsors Y-Orpheum

The Young Men's Christian Association with 50 members this year co-sponsored Y-Orpheum with the Union Activities Board. The YM's "Meet Your Government" trip was a visit to the state legislature in the spring. Delegates attended the annual district YMCA conference held in Estes Park. One member of the K-State YMCA served on the district planning committee for the conference. Projects co-sponsored with the YWCA were a coffee bar as a service to fac-

ulty members during enrollment, a fall picnic to welcome foreign students, "Courtship and Marriage" counseling and discussion groups and Faculty Firesides. Kent Pridey was president, and Dr. Howard T. Hill was chairman of the advisory board.

The Religious Coordinating Council is a 42-member group of elected representatives from each campus religious organization to coordinate campus religious activities. Religious Emphasis Week was an RCC project, during which clergymen and laymen were speakers in campus living groups. A Spring Religious Festival was also sponsored. Keith Landis was president, and Dr. Verne Sweedlun was faculty sponsor.

Baptist Students Have Choice of Two Church Organizations

The Roger Williams Fellowship for American Baptist preference students had approximately 150 members this year, which is a ten per cent increase from a year ago. Originally started as a small local group in 1951, the Fellowship has grown to a size that can now hire a full-time student director, and Mrs. Alvin House now occupies this position. The Fellowship's purpose is to build Christ-centered lives and to provide opportunities for service.

Activities included a fall welcoming dinner for new students, a Thanksgiving banquet and program to acquaint international students with American cus-

toms, and work days to aid the local First Baptist Church. The group was host for the state convention of the Kansas Baptist Student Movement. The convention theme was "The Word for the World." Ron Butler, a member of the K-State group, was president of the Kansas Baptist Student Movement. Several delegates attended the National Baptist Student conference in Green Lake, Wisconsin.

"Courtship and Marriage" and "The School of Missions in Japan" were among the group discussion topics at the weekly meetings. Don Wester was president, and Dr. and Mrs. Paul M. Young were faculty sponsors.

The College Baptist Student Fellowship strives to bring Jesus Christ as Lord and Savior to all persons. This year's Fellowship had 35 members. A special group project was helping to support Arthur Weims, a missionary in Italy. Bruce Sanderson was president and Dr. Herbert Moser was faculty sponsor.

KS Clubs Emphasize Religion

Sponsoring the annual B'nai B'rith Brotherhood Award was a major project of the K-State B'nai B'rith Hillel Counselorship. The group also participates in the annual Passover Feast and rituals for non-Jewish persons interested in the history and practice of Jewish traditions. Activities included religious, inter-religious, social and cultural projects. The group is devoted to religious, cultural and communal activities among Jewish students. Leon Damsky was president, and Max Milner was faculty sponsor.

"For Christ Through the Church on the Campus" is the motto of the Canterbury Association, the Episcopal students' group. The membership, which numbers approximately 210, includes not only members

of the Episcopal church, but members of other Christian churches, and even some non-Christians. The Canterbury House, the organization's student center, is the scene of the group's worship, study and fellowship. Tom Johnston was president, and the Rev. Roy S. Turner was chaplain. J. Harvey Littrell and Charles Goetzinger were faculty sponsors.

The main project of the Evangelical United Brethren Student Fellowship is working with the church's Kansas Conference in establishing an EUB church in Manhattan. Since the local group was organized in 1955, the members have taken it upon themselves to provide religious services. The organization is assisted in its Sunday morning services by guest EUB ministers from surrounding towns. Lynn Anduss was president of the approximately 80 member group. Gerald Zachariah was faculty sponsor.

Two Religious Groups Provide Fellowship for Lutheran Students

The Lutheran Student Association added a number of hay rack rides and picnics to its list of activities which included a Christmas party, weekly chapel services, Sunday meetings and an annual cherry pie baking contest.

The purpose of the LSA is to strengthen and sustain Christian students in their faith through the use of the Bible and group meetings and activities. Membership in the Lutheran Student Association is now 177. Lutheran students of the National Lutheran Council of Churches enrolled at Kansas State are eli-

gible for membership. Howard Erickson was president of LSA. Dr. George Larson, Dr. Verne Sweedlund and Miss Inez Ekdahl were faculty sponsors.

Gamma Delta, a national organization of Lutheran students, raised scholarship funds for foreign students to highlight their year's activities. The local organization cooperated with International Gamma Delta in providing two \$1,000 scholarships for two students attending the Lutheran Seminary in India and Mexico and payment of a year's rent for the Lutheran Student Center in Manila.

Gamma Delta endeavors to develop Christian faith and encourage Christian movements among college students through a program based on Christian knowledge and service. Membership in the organization now totals 50. Nancy Baehr was president of Gamma Delta, and Dr. Arlin Feyerherm was faculty sponsor.

Church Clubs For Many Faiths

Kansas State coeds belonging to the Christian Church are eligible for membership in Kappa Beta. The 25 members have as their motto "Stir up the gift of God that is within us." Special projects of the group were making toys for a toy library in Kentucky and sending old nylon hose to Japan to be re-woven. Activities included a spring picnic, a dessert honoring senior members and a fall initiation banquet given with alums and sponsors. Leta Lawson was president of the national organization. President of the K-State chapter was Mary Lou Murray, and sponsors were Miss Gwendolyn Tinklin and Miss Lois Turner.

The Christian Science college organization was started on the campus in 1954 and had 20 members this past year. Faculty and students who are members of The Mother Church in Boston can become active members while those who are not members of

The Church, but are interested in the teachings of Christian Science, are given associate membership. Joanne Lilly, president, guided the group in their weekly meetings. Sponsors were Miss Dorothy Pettis and Dr. Katharine Lackey.

"To know Christ and to make Him known" is the purpose of the Kansas State Christian Fellowship. The local chapter of the Inter-Varsity Christian Fellowship had 40 members. Members attended a Triennial Missionary convention at the University of Illinois during Christmas vacation. Weekly fellowship meetings were headed by president David Mugler. Dr. Herbert Moser was sponsor.

The 50 members of the Disciple Student Fellowship worked together to strengthen their Christian witness. Sunday evening meetings, work camps, group recreation, gospel teams, intramurals and retreats were some of the activities of the organization. As a special project members redecorated their meeting and recreation rooms located in the student minister's home. Don Sumner was president; student minister Virgil Hinds was sponsor.

Three Clubs for Methodists

The aim of Kappa Phi, national Methodist organization for women, is that every Methodist woman in the university world today be a leader in the church of tomorrow. This year's 92-member group sponsored a party at the IOOF home and a work project at the Wesley Foundation nursery. Membership is open to Methodist and Methodist-preference women. Carolee Fox was president, and Mrs. B. A. Rogers was sponsor.

To participate in worthwhile service projects is one of the major goals of Sigma Theta Epsilon, na-

tional Methodist organization for men. The group also strives to provide religious training and encourage study of the Bible. The group's social activities this year included sponsoring a pancake feed, a skating party and a Sweetheart Banquet. John Alden was president of the group this year, and Homer Socolofsky was faculty sponsor.

Wesley Foundation is the "home away from home" for all Methodist-preference students on campus. The organization strives to fulfill the spiritual, recreational and counseling needs of every member. The group sponsors various church and service projects throughout the year. The Rev. B. A. Rogers and the Rev. Warren Rempel are organization directors. Gary Swenson was president this year.

Newman Largest Religious Club

The Newman Club for K-State Catholic students is the largest student religious organization on the campus. With "Heart Speaks to Heart" as the club's motto, the organization's purpose is to foster the spiritual, intellectual and social interests of its 450 members. Meetings were held twice monthly with social mixers held once a month. The members went on the annual spiritual retreat and held discussion groups on "Catholic Views on World Affairs."

Activities included participating in intramurals and entering a float in the Homecoming parade. This year the club was host school for the Central States Province Convention which was attended by delegates from 52 Newman Clubs in the five-state province.

Fred Suellentrop was president and Prof. J. P. Callahan was faculty sponsor. The director was the Rev. E. J. Weisenberg, S.J.

The Mennonite Fellowship of Kansas State began three years ago when a group of six students of Mennonite faith began meeting together. The group has now grown to about 30 members and was recognized as an official KSC organization in the spring of 1957. Its purpose is to provide the opportunity for fellowship for students and faculty members of Mennonite faith.

The group went Christmas caroling at the old folks' home and sponsored fall and spring picnics. Meetings were held twice monthly with the guest speaker occasionally being a student or faculty member doing voluntary service work. Two college library staff members spoke to the group. Janver Krehbiel was president and George Fadenrecht was faculty sponsor.

Westminster Group Has Retreat

Winter sports, fun and fellowship highlighted a between-semesters retreat for members of Westminster Fellowship at Camp Alta Vista near Woodland Park, Colo. The 10 students and their sponsor who made the trip also participated in fireside chats and personal meditation at the Presbyterian-owned camp.

Members worked hard this year to raise part of the \$200,000 needed to build a new Westminster Student Center. Tentative date set to begin construction is 1959. The purpose of the organization, established at K-State in 1921, is to unite Presbyterian and Presbyterian-preference students in Christian fellowship.

This year the organization had 275 active participants. The organization maintains Sunday school and Sunday evening fellowship programs for college students at the present Westminster Student Center. Noon-hour Bible study sessions are held twice a week in the Illustrations Building for all interested students. The group is one of four religious organizations maintaining an office in the building.

The organization also sponsors the Presbyterian Men's Organization for college men, the Presby-Weds for married students, and the Graduate Study Group for graduate and undergraduate students and interested faculty members. The Rev. Emerson Abendroth is the organization's director. Jack Kersting was president of the group this year, and Paul E. Sanford was faculty sponsor.

Getting the Christmas spirit, Westminster Fellowship members transformed a pine into a colorful Christmas spectacle.

USF Host to State Conference

This year the United Students' Fellowship was host to the state USF conference on April 18-19. Students from Kansas University, Washburn University, Wichita University and Emporia State attended the convention. College students of the Congregational, Evangelical and Reformed Church met each Sunday night. Donald Elson was president and Maurice Woolf was the adviser.

Sigma Eta Chi is the national Congregational Christian church sorority on campus. The members worked to advance spiritual development in harmony with education. A dinner which has become an annual affair was given for the women of the Manhattan Congregational Church. The group also contributed to missionary projects in Mexico and Kentucky. "Her candle goeth not out by night" is the organization's motto. President Rosemary Dague led the bi-monthly meetings. Faculty adviser was Helen Hostetter. Mrs. Don Wilbur and Mrs. Ray Weese were sponsors.

Tom Dana, and Larry Sheaffer, three members of Jerry Metz's (*second from left*) Historical Geology class.

Geology Gems Wash Cars, Sell Dusters to Buy Show Case

Project for the year of the Geology Gems Club, organized in 1956 by a group of wives of geology majors, is to buy a show case for the geology department. Money for the show case is being raised by car washes, a Christmas toy party, selling feather dusters and rummage sales.

The purpose of the Geology Gems is to increase the knowledge of its members about the profession of geology and to promote good social fellowship among the members and their husbands. There are currently 35 members listed in the organization, an increase of about 15 over last year.

GEOLOGY GEMS—TOP ROW: Ruth A. Hansen, Carol Bruton, Marlene Faulkender, Mary L. Vincent, Betty J. Smith, Eleanor Austin. SECOND ROW: Betty J. Kelley, Louise Barrett, Reva Tibbetts, Peggy J. Besides raising money for the show case, the geology group also labels rock specimens and any other thing the department needs done. They also attend seminars where they hear faculty speakers who inform them about the geology profession and related subjects.

Susan Muehlhauser was president of the Geology Gems Club. Faculty advisers for the group were Mrs. Henry Beck and Mrs. Dean Pilkington.

The Williston Geology Club's annual spring geology field trip for 1957 included the St. Francis Mountains and the Kentucky-Illinois fluorspar area. During the past, the group has visited the Bad Lands and Black Hills, the Rocky Mountains, Arkansas and

Oklahoma. The field trip committee was composed of Bill Bryson, Bill Crawford and Jim Steward. General seminar programs were also planned by the club to give its members a look at the various fields of their major.

Sigma Gamma Epsilon, honorary geology fraternity, sponsors the Williston Geology Club. There are presently some 180 members in the club, which marks no gain over the past year. The purpose of the organization is to better relationships and promote more interest in the field of geology.

President of Williston Geology Club was Jerry P. Metz. Henry Beck and Dean Pilkington were the faculty advisers for the geology organization.

Physics, Electrical Engineering Advanced by Club Members

The K-State student section of the American Institute of Physics was established in 1951 through petition to its parent organization, the American Institute of Physics. This year the group had 30 members, an increase of 10 over last year. To be a member, one must be a student enrolled in the professional physics curriculum. A.I.P.'s purpose is the advancement and diffusion of knowledge of the science of physics and its application to human welfare. Each

fall the A.I.P. helps present the high school science day. Members go on a field trip and publish the A.I.P. Newsletter during the second semester. James E. Swain was president. Prof. B. A. Curnutte is faculty sponsor.

The student branch of the American Institute of Electrical Engineers is a professional organization for electrical engineering students. Speakers from industries of interest to the engineers are invited to speak at the organization's monthly meetings. Theory and practice of different aspects of electrical engineering and allied fields are discussed at these meetings, and professional development is encouraged. The group also helps with the presentation of the annual Engineering Open House. There are approximately 80 members. A.I.E.E. chairman was Foster R. Needels. Associate Professor Joe E. Ward was faculty sponsor.

Agricultural Engineers Help Future Farmers with Contests

The American Society of Agricultural Engineers, a student branch of the national society, aided the Future Farmers of America in their contests. The society also awarded medals to the various FFA contest winners. The ag engineers participated in Engineer's Open House. Their social events centered around picnics in the fall and spring.

One of the more educational activities of the so-

ciety was presenting several assemblies featuring speakers from companies concerning the different ag engineering fields.

The purpose of the organization is to advance agricultural engineering and to give its members an opportunity to expand their knowledge about the field of ag engineering. Members are required to be in the ag engineering curriculum. Membership of the American Society of Agricultural Engineers presently totals 74. This marks only a small gain over the membership total from last year.

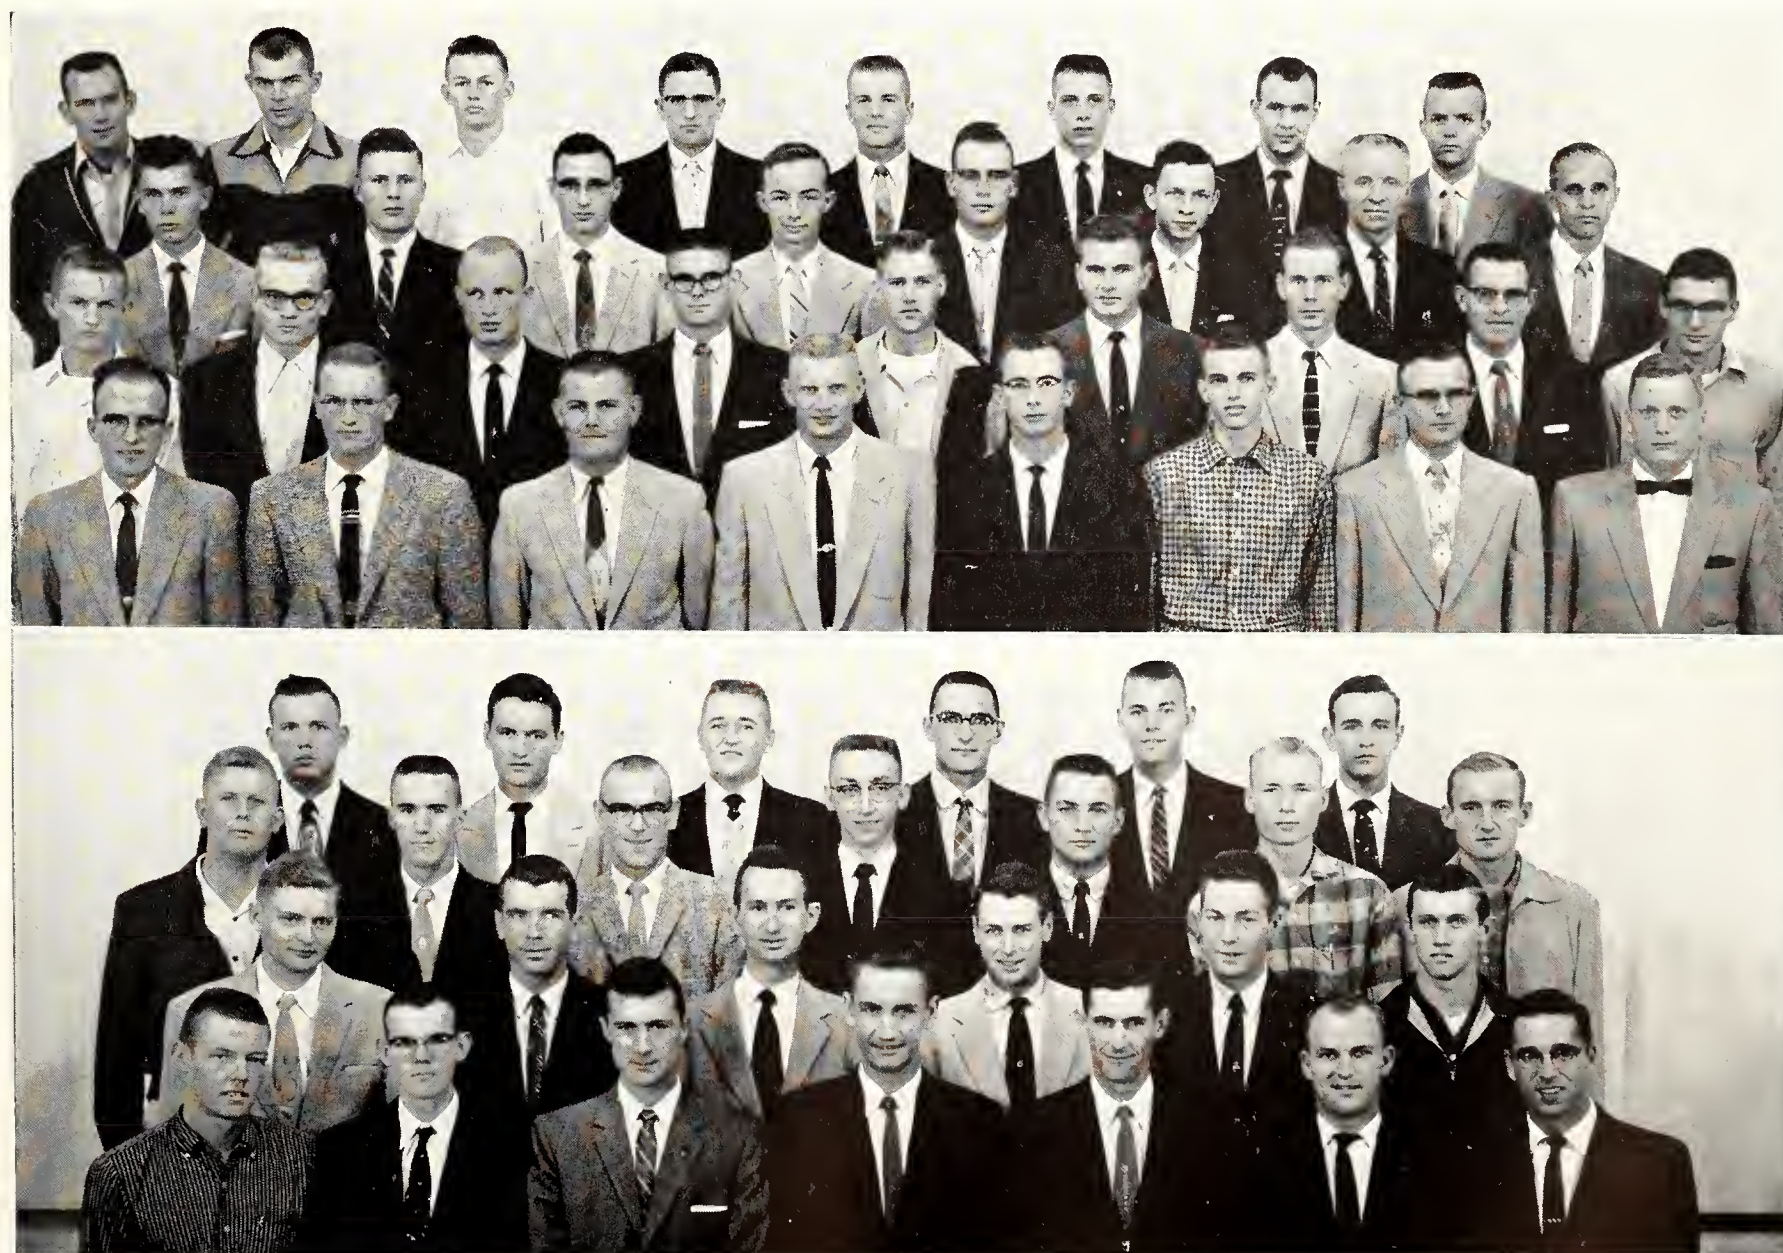

Bill Patterson was president of the ag engineering society and Kirby Lee, vice-president. Other officers included Ron Allen, secretary-treasurer; and Carl Poston, scribe. Prof. Ralph Lipper was the faculty sponsor for the organization.

MEs are Hosts at Conference

The K-State student chapter of the American Society of Mechanical Engineers served as host at the annual ASME regional conference on the K-State campus this spring. Members also attended the K-State-KU exchange banquet. The local chapter, which was organized in 1934, now has a membership of approximately 145. This figure is an increase of over 40 from last year's membership. Gene Bennett headed this year's group, while Robert E. Crank was faculty sponsor.

Students studying for a degree in engineering or a physical science make up the membership of the

K-State student chapter of the Institute of Aeronautical Sciences. The purpose of the local chapter, which was organized in 1950, is to advance and to make known information on the theory and practice of the aeronautical sciences. The president of this year's 12-member group was Donald McCosh. Frank J. McCormick was faculty sponsor.

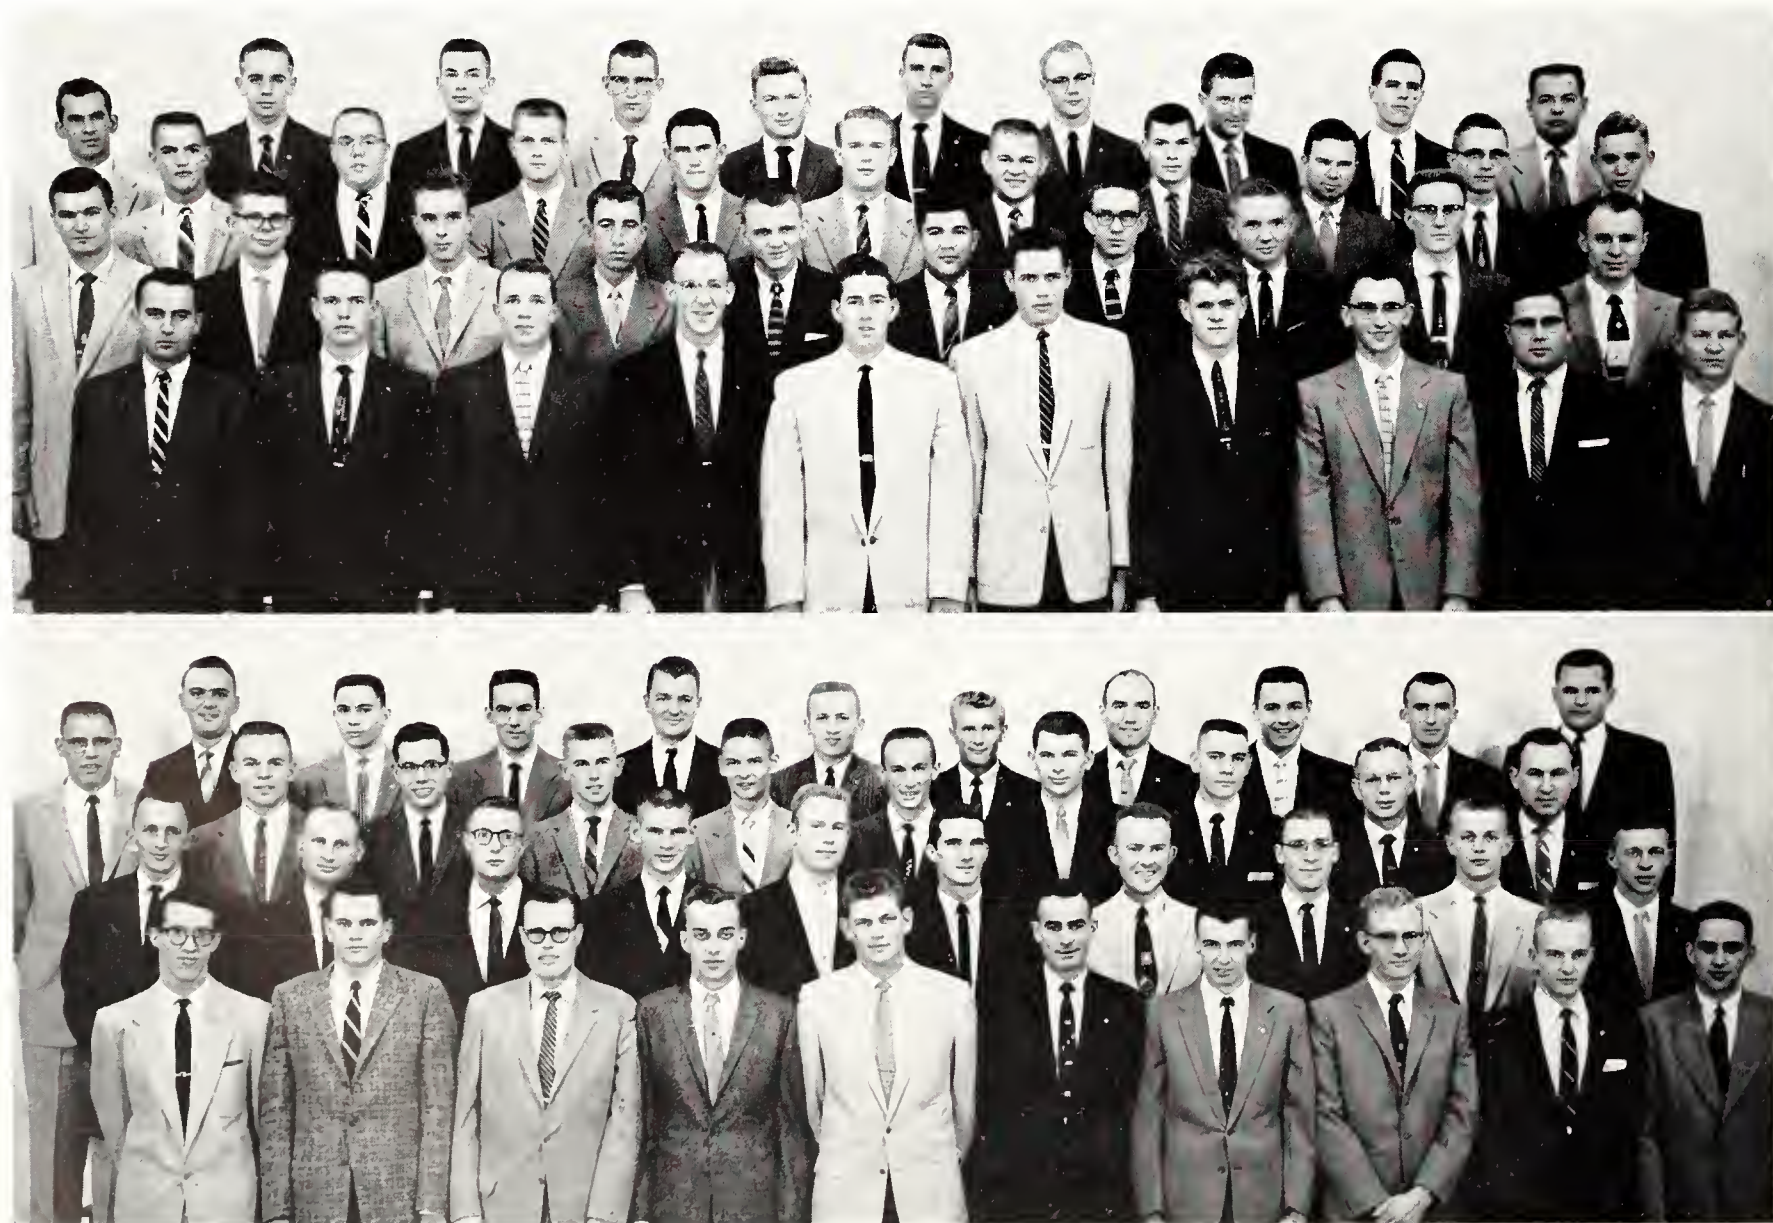

Sponsoring the annual Beaux Arts Ball, a dance for students in the Engineering and Architecture School, was the major project of the K-State student chapter of the American Institute of Architects. The group also sponsored departmental assemblies, lectures, coffee hours and an award dinner. The organization strives to enlarge the architecture student's understanding of his field. Sam Martinez was president, and Theodore A. Chadwick was faculty sponsor.

Civil Engineers Encourage Advancement of Profession

The Kansas State College student chapter of the American Society of Civil Engineers had 131 members who worked to encourage professional development. Juniors and seniors majoring in civil engineering are eligible for membership. Organized nationally to assure members of constant contact with technical progress in the branches of civil engineering and advancement in standing of the profession, the American Society of Civil Engineers now has 74 local sections and 132 student chapters. K-State's

chapter was organized in 1923 to replace the old organization, the Civil Engineering Society which was founded on campus in 1912 by the first senior class in civil engineering.

Activities for the group included talks given by outstanding engineers and professional men, sending reports to the parent chapter and participating in the Engineers Open House. A chapter paper, "The Civil Engineering Compass," was published each semester. For recreation, members had combined business and social meetings once a month and gave a picnic for members and faculty of the Civil Engineering Department. President was Rudolph Kramer and sponsors were Dr. John McEntyre and Prof. Vernon Rosebraugh.

K-State Chem Engineers Host Regional AIChE Conference

The Kansas State chapter of the American Institute of Chemical Engineers was host this year to the annual regional conference of AIChE members. The conference was held in October and featured speakers from industrial concerns which employ chemical engineering graduates. Organization members from Kansas University, University of Nebraska and K-

State attended. Speeches from Dow Chemical Company representatives and picnics were mixed to make the conference a success.

The purpose of the club is to develop the professional background of chemical engineering grads and to show them the kind of society they will be working in after they leave college. The AIChE met once a month to hear speakers from companies such as Standard Oil and General Electric. K-State AIChE members got a chance to broaden their backgrounds this year when the College received a \$91,000 grant to build a subcritical atomic reactor on campus. Tom Schicktanz was president of the 95-member professional organization this year and Dr. H. T. Ward was adviser.

Players Begin as Understudies

The Kansas State Players with 160 members have increased their membership by 30 over last year. To become a member an applicant must have at least a one-point grade average and will be classified first as an understudy. To receive active membership, an understudy must earn seven points in two of these areas: acting, ushering, serving on lighting, publicity, or stage crews.

"The Tender Trap" and "Tea and Sympathy" were three-act Player productions during November. "The Long Christmas Dinner," "The Flood" and "The Bachelor Party" were one-act plays directed by

speech students. "The Long Day's Journey into Night" was a staged reading presented by the Players.

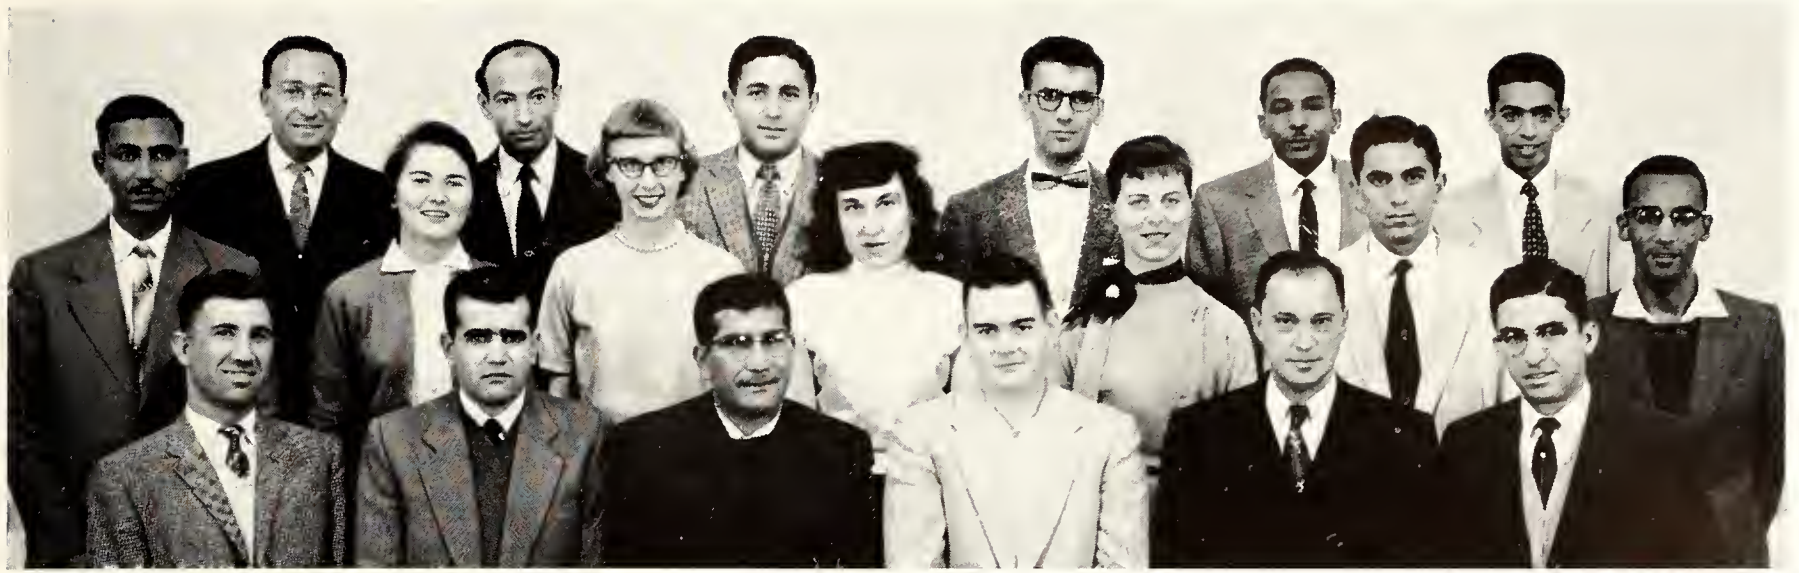

Oscar awards, voted upon by active members, were presented to LouAnn Oberhelman and Gordon Jump at the spring Oscar banquet. Prof. Earl Hoover was faculty sponsor, and LouAnn Oberhelman was president.

The K-State student affiliates of the American Chemical Society, national professional organization, numbered 40 in membership. Ron Butler was president, and Prof. A. C. Andrews was faculty sponsor. The club decorated a window in Willard Hall for Christmas, picnicked in a Willard laboratory and had a display of various chemical phenomena for Arts and Sciences Day.

Arab-American Club Promotes Class in Arabic Language

Plans were made this year by the members of the newly-formed Arab-American Club to sponsor a free class for teaching the Arabic language to all interested persons. The organization also made plans for a series of free films to be shown on campus dealing with recreational and cultural aspects of the Arab countries. The club's other activities included programs of Arabic music and singing and panel discussions on the Arab countries. Only Arab students are eligible for active membership in the club. American K-State students and faculty members interested in the club are eligible for associate membership. The aim of the organization is to promote better

understanding and stronger ties between Arab and American students on campus. Ghalib Shahab-Ed-Din was president and W. H. Barth, faculty sponsor.

To further interest and knowledge in the organ is the aim of the K-State student chapter of the American Guild of Organists. The K-State group was organized in 1946 with the help of Robert W. Hays, a former member of the Music Department faculty. This year's group has a membership of 10 students. The organization also strives to advance the cause of worthy religious music, to elevate the status of church musicians and to raise standards of efficiency for organists. The organization's meetings provide the members with an opportunity to discuss various topics concerning the organ. Membership in the group is open to students who are studying, or who previously have studied, the organ. The group was guided by Jane Thompson, who was this year's president. Marion Pelton was faculty sponsor.

Brotherhood, Service are Aims

“Above All is Humanity” is the motto of the 110-member Cosmopolitan Club. To promote a spirit of brotherhood among students from all nations, the group staged its annual “Feast of Nations.” Nelson Galle was president and Dr. Cecil Miller was faculty sponsor.

An increase from 27 to 47 members marked a successful year for Alpha Phi Omega, scouting fraternity. Special projects of the K-State chapter included caring for Touchdown IV, making money for campus beautification through the Ugly Man Contest and assisting with Manhattan’s Boy Scout activities. President of the organization was Ray Swearingen.

Cosmopolitan Club members exchange news from “home”—India, South America, Timbuktu—at a banquet in the Union.

Radio Club Relays Messages

The K-State Amateur Radio Club members have handled over 3,500 messages in the past few years, including over 1,500 messages during the 1951 flood. The members have received several certificates from the American Radio Relay League, Inc., for their work. The club strives to help students interested in amateur radio by increasing their operating efficiency and technical knowledge of radio. The organization also provides a means of efficient emergency communication. Any K-State student interested in radio and radio transmitting may become an associate member of the club. Operating membership is open only to students who hold licenses from the Federal Communications Commission. Clifford

Chamney was club president this year, and Charles M. Hughes and William G. Schrenk were faculty sponsors.

K-State's Chancery Club was the first chapter in the national organization of Chancery clubs and was primarily responsible for the establishment of the national organization in 1955. The K-State chapter, which was organized in 1950, has grown to a membership of approximately 35 members. The club members take field trips each year to the University of Kansas and Washburn University Law Schools. The primary purposes of the organization are to inform interested students about the profession of law and to better prepare pre-law students for their chosen profession. The organization has monthly meetings with guest speakers. Members also attend a Chancery Club convention each fall. The group was headed this year by Mike Stout as chief justice. The club was assisted by A. D. Miller, faculty sponsor.

Frog Club Presents Water Show

Frog club presents annually for the public a show of synchronized swimming. The theme for the water show this year was "Eras of Time." Organized in 1950, the club spent most of the weekly practice sessions preparing for the show and increasing swimming skills. The 38 members also had a picnic and swimming party at a nearby lake in the spring. Try-outs are open once a year for students interested in joining the club. Members are required to swim all strokes necessary to pass junior or senior lifesaving. Pam Bowman was president and Mrs. Mary VanMeter was sponsor.

Club Cervantes is an organization of students who fluently speak and have an interest in Spanish. The club increased their membership by 10 last year, bringing the total to 35. Members studied the Latin American culture to become familiar with the social and cultural advantages of frequent use of the Spanish language. Founded by a group of North and

Long hours of swimming practice went into preparation for the skillful Frog Club annual water show, "Eras of Time."

Spanish American students, Club Cervantes annually sponsors the Pan American Day dinner. The group attended a Cervantes Day celebration at Lawrence. Plans were also started for a high school Spanish declamation contest. President Juan Salazar guided the organization's meetings and special programs. Sponsors were Miss Thirza Mossman and Manuel Ramirez.

Dames Members Receive PHT Degrees for Aiding Husbands

Working on their PHT (Putting Hubby Through) degrees this year were 311 members of the K-State Dames Club. Membership in the club is open to wives of students and married women students. Near the close of the fall semester the club "graduated" 33 of its members whose husbands also were candidates for degrees. The ceremony is traditional and complete with "PHT Diplomas." When graduates step up to receive their diplomas, they tell what hubby's curriculum is and where his work will take them.

For those whose Graduation Day may still be far in the future, Dames Club offers a chance to become acquainted with other wives and to broaden cultural interests. The entire club meets once a month in the Union little theater. In addition, membership is broken down into individual interest groups which meet as often as once a week. Many of the smaller units, such as card groups, meet informally at homes of their members; larger groups meet in the Union.

There were seven major areas to Dames Club activities this year: knitting, bridge, mixed cards, swimming, sewing, crafts and bowling. Several of these groups are fortunate to have skilled instructors who help to make activities educational as well as fun.

Knitting was the largest single group with about 60

interested participants. Mrs. George Moore, who runs a yarn shop in Manhattan, was the instructor. One of Dames Club's five bowling teams finished second in the Women's League at the Union.

About 109 couples attended the annual Christmas dance for wives and husbands. A family night the following Wednesday kept members hopping as more than 80 children scrambled up to see Santa Claus and receive the candy he passed out. At Eastertime the Dames put on a style show with members modeling fashions supplied by Manhattan's style shops.

Carolyn Gilmore was president first semester and Charlotte Himes, second. Mrs. Byron Ellis and Mrs. Frances Robohn, wives of faculty members, were sponsors.

K-Frat Hosts Visiting Athletes

The "K" Fraternity, started in the 1920's by Mike Ahearn, former K-State athletic director, is the organization for K-State varsity lettermen. The group acts as host to visiting athletes and promotes high scholarship among K-State athletes. Gene O'Connor was president this year, and Fritz Knorr was faculty sponsor.

The construction of a Homecoming float was one of the major projects of the Independent Students' Association this year. The organization's other activities included a Christmas party and a spring picnic. The local association is a member of the state and national ISA. Frank Bell was this year's president, while Charles Jacot was faculty sponsor.

Many Schools Hear Debaters

The debate team had 50 students who participated in debate, oratory, extemporaneous and discussion activities. Those interested in working with the group must have the desire to spend the time on debate and be able to think intelligently. During the year team members presented debates before civic groups, high schools and colleges. They also sponsored the State W. A. A. tournament at K-State. A novice debate tournament with 30 schools from eight states participating was given on the campus.

The busy team entered competition at Central State College in Oklahoma, the State University of Iowa, Southwestern College, the Golden Spread tournament in Texas, Emporia College tournament, St.

Thomas College in Minnesota, Southeastern Oklahoma State tournament, Notre Dame, Missouri Valley tournament at Wichita, the Delta Sigma Rho Student Congress at Michigan State, the University of Montana and Marquette University. The debaters gave over 300 debates with 100 different colleges. A spring banquet was given with Delta Sigma Rho and awards presented to the outstanding first year debater and the outstanding senior. Charles Goetzinger was the debate coach.

The Kansas State Forensic Union promoted forensic activities on the campus during the year. Membership consisted of one representative from each organized house and dormitory. The group sponsored several audience debates before civic groups and high schools. A foreign debate was also presented. The organization helped sponsor the Delta Sigma Rho speech contest. Kay Eplee was president of the group which was organized in 1955. The faculty sponsor was Charles Goetzinger.

K-State Future Teachers Has Largest Chapter in the Nation

K-State's chapter of the Future Teachers of America is the largest of 679 chapters in the United States. Still growing, its membership reached 486, an increase of 50 over last year. The chapter was chartered on the K-State campus in 1949. FTA seeks to prepare those who plan to teach by supplying opportunities for exploratory and pre-vocational experiences.

Samples of programs presented during the year are a panel discussion by Manhattan elementary, junior high and high school teachers; talks by teachers comparing education in Holland and India with that in the United States; and music by the Manhattan High School dance band followed by a discussion by Matt Betton on the importance of music in schools. To help seniors who will practice-teach in Manhattan schools, FTA arranges a special meeting where co-operating teachers and the practice teachers assigned to them are introduced.

Recognizing its responsibilities to broader, state-wide activities, the K-State chapter sent 18 delegates to State Convention at Pittsburg. During the past

year, the chapter had two State officers, Jolene Prather, state vice-president, and Becky Culpepper, state treasurer. State convention is attended by representatives from 24 Kansas junior college, college and university chapters.

Each spring, FTA sponsors a recognition banquet. At the banquet two senior awards are made for outstanding scholarship, teaching promise and contribution to the Future Teachers of America. Accompanying cash awards come from membership dues and this year amounted to \$60 each. A faculty committee selects the two seniors deemed most deserving of the awards. Betty Childs served as president of FTA and Dr. J. W. DeMand was faculty adviser.

Future teachers are coached in education classes on problems encountered in teaching science courses.

Veterans Organization Increase Is Largest Among Campus Clubs

An increase from 20 to 250 members was the result of the Veterans Organization membership drive in the fall. New members were entertained at a bonfire and party at Sunset Park following the drive. Bill Rexroad sold the most memberships, 37. He and "his" new members were special guests at the party. Curt Adams was runner-up in the contest. Jim Hensley headed the membership drive.

The Veterans Organization seeks to answer the social needs of veterans. Members had a dinner-dance at Thanksgivingtime. A Mardi-Gras party was sponsored in the spring. There were also a number of stag parties. Although it almost ceased to function last year, the organization has promising plans for the future. The possibility of sponsoring a Christmas party for students' children and a fall "turkey shoot" have been discussed. The organization has veterans from four countries as members.

Richard Houston was president during the fall semester and Dale Steffes held the office in the spring. Wendell Kerr was faculty sponsor.

Phems, Flyers Offer Recreation

Phems, the club for women physical education majors, conducts a Playday for Kansas high school senior girls each year. The club also sponsors a banquet for graduating club members. The organization promotes interest and professional growth in physical education. Heading this year's club was LeRoyce Maddux, president, and Eva Lyman, faculty sponsor.

Since the formation of the K-State Flying Club in August, 1956, approximately 20 club members have obtained their licenses as private pilots. The club, which is incorporated, owns three planes. The organization enables its members to fly at a minimum of expense. Derald Nye was this year's student director, while Clyde Wassom was faculty sponsor.

WAA Sponsors Intramurals

The Women's Athletic Association sponsors intramurals for women. Its purpose is to foster ideals of good sportsmanship, to create an interest in a recreational program of sports and to promote physical efficiency and good fellowship among women students at Kansas State College. The association is open to all undergraduate women, and it has 15 members. Kay Aye was president. Miss Martha Aly was sponsor.

Membership in Orchesis, modern and creative dance group, increased from 23 to 33. The purpose of the group is to promote interest and understanding of dance. The club usually presents a concert but this year presented a workshop during the second semester instead. Carol Bliss was president and Judith Hodge was faculty adviser.

Industrial Education Students Study Developments in Field

Acquainting students with the latest developments in industrial education, professional opportunities and requirements for success in the field is the purpose of the K-State Industrial Education Association. A major change of concern to the association was the renaming of the industrial arts curriculum to the curriculum in industrial education. The course of study was revamped, and requirements changed from 140 to 130 hours.

The Industrial Education Association has 14 active members. They are currently at work on an informa-

tion booklet to be distributed to Kansas high school seniors. Marion Symington Jr. was president. Prof. Earl G. Darby served as faculty adviser.

Institute of Radio Engineers Student Branch activities revolve around theory and practice of electronics, communications and related fields. Professional development of students is encouraged through talks presented by men from leading industrial firms.

Any student enrolled in electrical engineering may become a member. Members are recognized by the National organization of the Institute of Radio Engineers. The organization is co-sponsor of the all-electrical engineers picnic. Membership showed an increase of 12 over last year and now totals 93. Alan J. Cervenka was chairman and Kermit Reister was faculty sponsor.

Rifle Team 2nd in Conference

Representing the college in all rifle competition was the Kansas State College Varsity Rifle Team. The 55 members placed second in the Big Seven competition in 1957. Shoulder-to-shoulder matches were shot during the year against Kansas University, Manhattan Rifle team, Wichita University, Creighton College, Pittsburg Teachers College, University of Nebraska and the University of Oklahoma. Other competition entered by the team was the National Intercollegiate match, a Three-Way match, the annual Intercollegiate Sectional match and the Big Eight contest which was at Kansas State. Captain of the K-State rifle team was Thurston Banks and sponsor was Captain James Anderson.

The Kansas State College Masonic Club was reorganized in 1954. During the year membership was increased from 32 to 68. Students must hold a membership in good standing with a lawfully con-

Sports Car Fans Form Club

The newly organized K-State Sports Car Club has over 30 members who are interested in or own sports or foreign cars. To promote better and more skillful driving the club has sponsored monthly competitive events open to any interested persons. Rallies to test ability to maintain prescribed average speeds, follow directions and observe road signs and gymkhanas (drives in obstacle courses) were among the competitive events. Don Wester was president, and Enrico P. Mercanti was faculty sponsor.

K-State's chapter of the Society for Advancement of Management had a membership of 47 this year, an increase of 12 over last year. The Society is the recognized national professional organization of management in industry. Through the chapter programs, the Society promotes management education to bring business executives and students preparing to go into industry closer together, and to serve as an effective medium for the exchange of information on the problems, policies and methods of industry and management. Jr. AVMA Members Further Development of Profession

The Kansas State College chapter of the American Veterinary Medical Association, the Jr. AVMA, strives to promote technical development along veterinary medical lines, together with such literary and social training as may accompany it. Any undergraduate pursuing the professional curriculum in Veterinary Medicine at Kansas State College may be an active member. An honorary member may be on the faculty or a graduate of K-State Veterinary

Medicine School. The school's curriculum includes two years of pre-veterinary training and four years of professional training.

During the veterinary medicine student's senior year he is required to live two weeks or more at the veterinary medicine hospital. This is one of the more important steps in his practical experience. This clinical work is designed to give the student a real practical look at his profession. It also gives the student

a chance to use many of the skills developed in the classrooms and laboratories.

The organization believes that information concerning actual experience of practicing veterinarians is very valuable. Two regular meetings are held each month at which outstanding men in the profession are guest speakers. These meetings provide students with opportunities to discuss problems with practicing veterinarians. Also, the students sponsor a joint luncheon with the Riley County Medical Society. This gives the students a chance to exchange ideas while becoming acquainted with people in similar professions.

Jr. AVMA Has 100 Per Cent of Vet Med School Enrollment

This is the only organization on campus which furnishes a common meeting ground for veterinary medicine students. From freshmen to seniors, all veterinary medicine students are members of the Kansas State student chapter. Three hundred and five or 100 per cent of the Veterinary Medicine School enrollment is active in Jr. AVMA.

The counterpart of the Jr. AVMA is the Jr. AVMA Auxiliary, which is composed of the wives of the veterinary medicine students. Combined meetings are

often held with the Auxiliary, and it gives the women an opportunity to become more familiar with their husbands' future profession.

The social activities for Jr. AVMA members start with a smoker each fall for the freshmen veterinary students to orient and acquaint them with the Jr. AVMA and its members. The members take an active part in campus intramurals. The annual basketball game with the K. U. Medical School was played before one of the varsity games at Ahearn Field House. K. U. won the game.

Parties, formals, a chicken barbecue and a picnic rounded out the social calendar for the Jr. AVMA members. Two formal dances were given, and a spring dance which included a banquet honored graduating seniors.

The student chapter of AVMA was established October 20, 1906, by a student in Veterinary Medicine. It became affiliated with the American Veterinary Medical Association in 1939 and was granted its charter. There are twenty-two charter members. Upon completion of four years as a member in good standing, all persons are given a "sheepskin" which serves as an aid to being recognized by other members of the profession.

One of the purposes of the School of Veterinary Medicine's Open House was to inform the public that veterinary medicine is a profession and is not referred to as a trade.

Veterinary Medicine Wives Study Husbands' Profession

The Jr. AVMA Auxiliary is a social and educational organization composed of wives of veterinary medicine students. Organized in 1939 at Kansas State College, it was the first student AVMA Auxiliary to be formed in the country. A rummage sale, a White Elephant sale and a square dance were given to raise funds. A family Christmas party and a talent show were social events of the year. In May, senior

wives held their own "commencement" which has become an annual event. Diplomas were presented to the wives of graduating veterinary medicine students for the assistance they had given their husbands.

The club had several special interest groups including the Practitioners' Wives, who learned the more technical aspects of their husbands' work. Doctors from the School of Veterinary Medicine, practicing veterinarians and professional speakers contributed to the members' education. Beginning and advanced bridge groups added to the social activities of the organization. The chapter is composed of 177 members, an increase of 17 over last year. Ann Sevy was president of the Jr. AVMA Auxiliary. Mrs. Dorothy Twiehaus and Mrs. Dottie Hay were advisers.

Ag Education Club Members Exchange Ideas at Conference

A trip to Kansas City and a farm mechanics contest highlighted the activities of the Kansas State College Agricultural Education Club. Seniors in the Agricultural Education curriculum attended an annual student-teachers conference at Kansas City, Mo., where ideas on student-teacher training and club activities were exchanged with students from other schools.

Each spring the club sponsors an annual farm mechanics contest. The contest is very similar to

the state high school FFA farm mechanics contest held at the College each spring. The purpose of the club is to strengthen the confidence of the members in both their work and themselves while preparing to be instructors of vocational agriculture. Membership is limited to students or graduate students enrolled in Agricultural Education or anyone who is planning to enter this field of teaching.

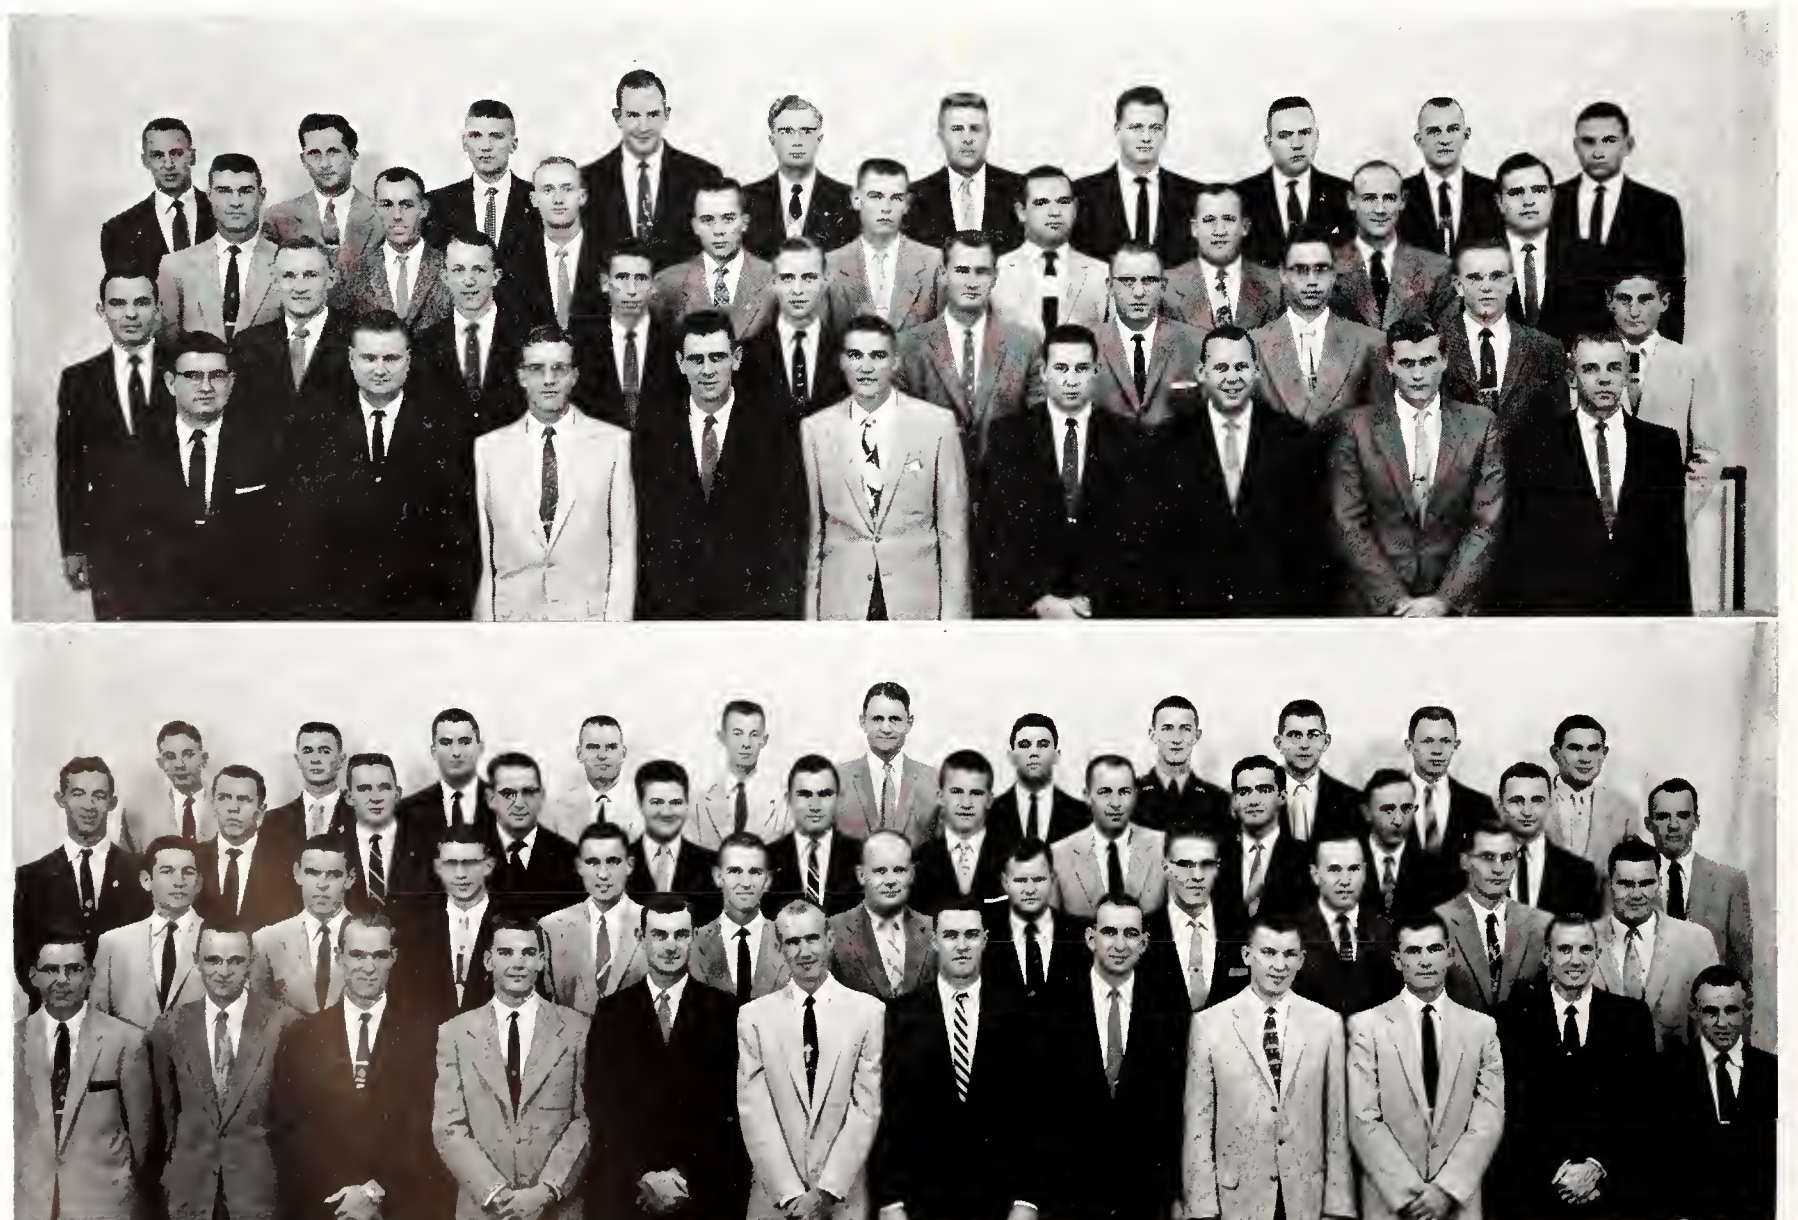

Social activities of the club included a watermelon feed, a coed banquet, a square dance, a box lunch and members helped serve at the annual Future Farmers of America banquet. Membership increased by 11 per cent over last year, bringing the number to 95. David Mugler was president, and Howard R. Bradley was faculty adviser.

Ag Clubs Increase Membership

A 25 percent increase in membership brought the total number of members of the Agricultural Economics Club up to 44, and they continued their motto of "The door to success is labeled push." The organization furthers the professional and social interest of its members and fosters a closer relationship between them and the faculty of the Department of Agricultural Economics.

Membership in the club is open to all agriculture students majoring or intending to major in agricultural economics. The club sponsored a fall smoker, an exhibit for Ag Week, a regional meeting with Ne-

braska University, Missouri University and Iowa State College and entertained members with a steak fry. Gerald Karr was president, and J. A. Hodges was faculty sponsor.

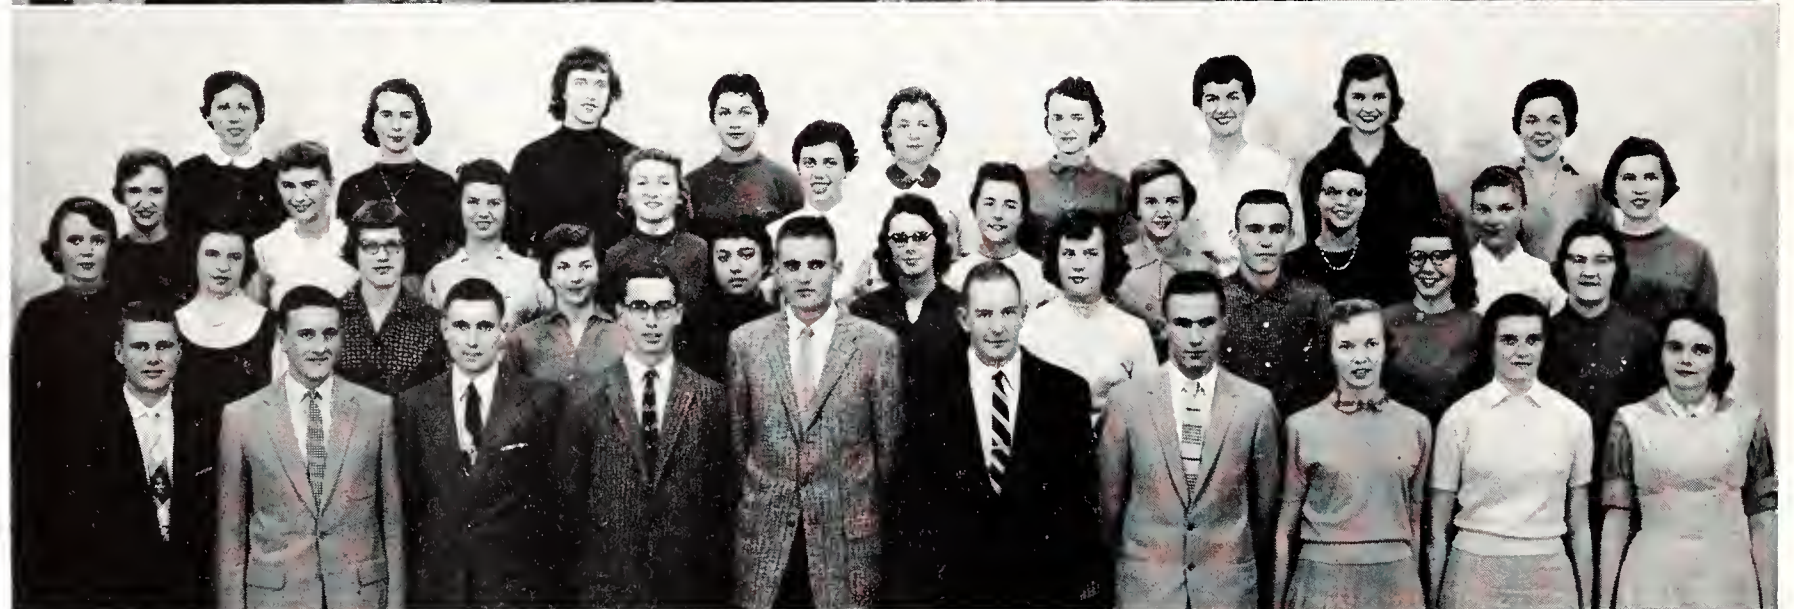

Co-sponsoring the Little American Royal was the special project of the Kansas State College Dairy Club. They also helped feed visitors attending the KABSU annual open house and the Formula Feed Conference. Fifty members answered the roll which was an increase of ten over last year.

The club's purpose is to be of service to KSC and the dairy department and to provide fellowship for its students and faculty. The club is a member of the American Dairy Science Association. Darrell Westervelt was president, and W. H. Martin was the faculty sponsor.

4-H Campus Activities Are Many

The Collegiate 4-H Club, whose membership is no longer limited to former 4-H members, is one of the largest organizations on campus with a membership of approximately 400. This is the 30th anniversary year of the Collegiate 4-H club on the Kansas State campus. The club was organized by a group of former 4-H club members and leaders attending college on December 12, 1927. As expressed in the club's motto, "To Make the Best Better," the purpose of the group is to develop leaders in the field of 4-H club work, to aid in any campus activities related to

4-H work, to further the best interests of K-State and to interest other club members in coming to college. Burke Rogers and Ben Handlin were presidents of the club this year. J. Harold Johnson, state 4-H Club leader, was faculty sponsor.

The club published a special issue of the monthly state 4-H Journal, replacing the 4-H yearbook, Who's Whoot. Collegiate members served as hosts and led recreation for the annual state 4-H Round-Up held on campus each spring and attended by delegates from clubs in each county. Each spring Collegiate 4-H members spend a day at the state 4-H camp, Rock Springs, near Junction City, helping get it prepared for the summer camping sessions.

About 100 couples attended the annual fall dinner-

dance, the Harvest Ball, held in the Student Union. Club members planned and presented a radio program over KMAN each Saturday of the school year to publicize the work of 4-H'ers throughout the state. About 25 members served as judges for competition in promotional talks, model club meetings, demonstrations and folk games at County 4-H Days. For the fall service project the club laid sidewalks to the formal gardens and planted rose bushes.

The club contributed to the International Farm Youth Exchange program. Several 4-H'ers who have been IFYE's presented talks and slides of their trips to Europe. A most popular feature of the semi-monthly meetings held in Nichols Gym is the recreation hour of square dancing, folk games and social dancing. Ten members participate in the ensemble which presents special numbers for meetings. Members also assisted with the Kansas State Fair at Hutchinson.

Interest in Profession Aided by Ag Writing, Poultry Clubs

The president of the Poultry Science Club, Loyd Vernon, was the first winner of the \$200 Loyal F. Payne Poultry scholarship. The newly established award is to be made annually to a junior or senior majoring in poultry husbandry.

Every other year the club sponsors a trip to view the broiler industry area of Northwest Arkansas, and on alternate years the club sponsors trips to view the poultry industry in Kansas. The club raises money by putting on chicken barbecues for other organizations.

The purpose of the organization is to gain a closer faculty-student relationship, to promote better knowledge of the poultry industry and to acquaint students with those in the poultry business. The club sponsors a junior and senior collegiate poultry judging contest for students of KSC. Amos Kahrs was faculty sponsor.

With only eight members in the club, the Plow and Pen Club was able to place second in booths during Ag Week. The objectives of the club are to promote a higher scholastic standard among students of agricultural journalism at KSC, to promote agricultural writing, and to bring about a closer relationship among the men and women pursuing some phase of agricultural writing.

Any student in Ag Journalism or in the School of Agriculture who has completed more than the basic course of journalism is eligible for membership. Gary Yeakley was president, and Elbert Macy was faculty sponsor.

Milling Club Hears Speakers Explain Developments in Field

The Milling Association continued to grow with an increase of 40 members this year. Last year, the association also gained 40 new members and the new additions bring the number of active members to 140 students and faculty. Each month the Milling Association sponsored a seminar with outside speakers from industry explaining new developments in the milling industry.

Members of the Milling Association helped with the Ag Week display. They were shy a building to use for the event because a fire on August 25, 1957, destroyed all of the flour mill. They confined most of their displays to the new feed technology wing.

The purpose of the organization is to bring members of the Flour and Feed Milling Department into closer contact and to provide discussion of current topics and new developments in the field. To be eligible for membership, one must be in either the Milling Technology or Feed Technology curriculum. Berdel Nolte was president and John Johnson was the faculty sponsor.

Riding Club Presents Rodeo

Chaparajos Club promoted interest in riding and rodeos by sponsoring a collegiate rodeo in the spring. In the Homecoming parade the 35-member group entered a Western float followed by the members on horseback. Dale Hodgson was president.

The Horticulture Club claimed the trophy for the best exhibit during the 1957 Ag Week. Martin Meyer was president of the 25-member group which has been active on campus since 1920. All faculty members and students interested in horticulture are eligible for membership. The club maintained the court north of Waters Hall and published a newsletter for horticulture graduates and other clubs promoting interest in horticulture. Prof. Charles V. Hall was faculty sponsor. With three girls among its members, the group claims the largest feminine percentage of any of the agriculture clubs.

Soil Conservation Principles Main Interest of Two KS Clubs

The Kansas State Conservation Club promotes the principles of conservation of soils, water and wildlife resources through its programs and practices. Open to faculty members, graduates and undergraduates, the 15-member group familiarizes students with opportunities in conservation work and strives for better understanding between wildlife conservationists and land owners. Virgil D. Luedders was president, and Dr. James Elder was faculty sponsor.

Klod and Kernel Club with 30 members is one of 39 chapters of the student section of the American

Society of Agronomy. The K-State club was organized in 1916 by Dean Emeritus R. I. Throckmorton, then professor of agronomy. There were 20 charter members. Klod and Kernel Club in 1924 was instrumental in the forming of a national agronomy club in connection with clubs in other colleges also interested in promoting agronomy.

Activities this year were a fall steak fry, a crops contest and picnic, and a spring student-faculty banquet. A newsletter telling of club activities and of recent agronomy research was sent to club alumni. In the spring the chapter sponsored the Regional Soils Judging contest at K-State. Four students and several faculty members participated in the national convention of the American Society of Agronomy in Atlanta, Ga. Russell Adams was the club's president. Faculty sponsors were Dr. Ernest L. Mader, Dr. Val W. Woodward and Wayne L. Fowler.

Eight Interest Clubs Provided for Students in Home Ec School

The Margaret Justin Home Economics Clubs with a combined membership of over 280 planned the annual Hospitality Day to inform high school students of the opportunities in home economics at Kansas State. Sylvia Gaddie was president, and Miss Margaret Raffington was faculty sponsor.

The Home Ec and Nursing Club with 31 members is a pre-professional organization. The group and their faculty sponsor, Miss Jennie Williams, toured Kansas University Medical Center. Claudia Apple-

baugh was president. The Teaching Club, largest of the clubs, had 90 members with Carol Cotner as president. They bought school books for junior high school girls and made tray favors for the aged. Mrs. Lucille Rust was faculty sponsor.

The newest of the clubs, Home Ec Journalism, had 22 members. The club, with Jane Franz as president, managed ticket sales for the Snowball, handled publicity for Hospitality Day and gave a Thanksgiving food basket to the needy. The Family and Child Development Club repaired and painted the nursery school equipment. The 21 members chose Juanita Clark as president and Mrs. Louise Langford as adviser. Cooperation, Fellowship is Aim of Organized House Councils

Cooperation between fraternities at K-State is the goal of Interfraternity Council. Composed of two members from each fraternity on campus, the Council also makes regulations and restrictions that will benefit college fraternities. Vernon D. Foltz is adviser.

A judicial board composed of all senior members in IFC is used in times when there is an infraction of the K-State honor code. Greek Week, held for the first time on the K-State campus last spring, was sponsored by IFC in conjunction with Panhellenic Council and took place again this May. IFC and Panhellenic also invited foreign students to a Christmas dinner at the Union in December.

IFC is in charge of Interfraternity Sing each spring and fraternity Rush Week in the fall. They assume responsibility with Panhellenic for rules and regulations concerning homecoming house decorations.

Panhellenic Council, set up to maintain standards of sorority life and intersorority relations with the College, works to "further fine intellectual accomplishments and sound scholarship." Prof. Mary Frances White is the faculty adviser.

Panhellenic arranges for an all-sorority picnic before Rush Week in the fall, and assumes responsibility for upperclass women's teas and Panhellenic Day in the spring. Panhellenic Day was given for the first time on K-State's campus this year, and high school seniors from over the state were invited to visit the College. A luncheon and open house at the sororities were on the program of the day.

The purpose of Interfraternity Pledge Council is to bring cooperation between fraternity and sorority pledges. The Council is composed of one representative from each fraternity and sorority pledge class. Charles Goetzinger is adviser.

IPC offers two scholarships of \$150 each year to a deserving man and woman student. The Endowment Association selects the persons for the scholarships. This year two members of IPC designed a crest which will be used for executive stationery and as IPC recognition tokens for members.

The Independent Organized House Council is the representative body for men in independent houses.

Just before the dance, members of Beta Theta Pi, Sigma Chi and Phi Delta Theta congregate with their dates to talk.

The event—the Miami Triad—is held every fall by the three fraternities. This year's dance was in the Student Union.

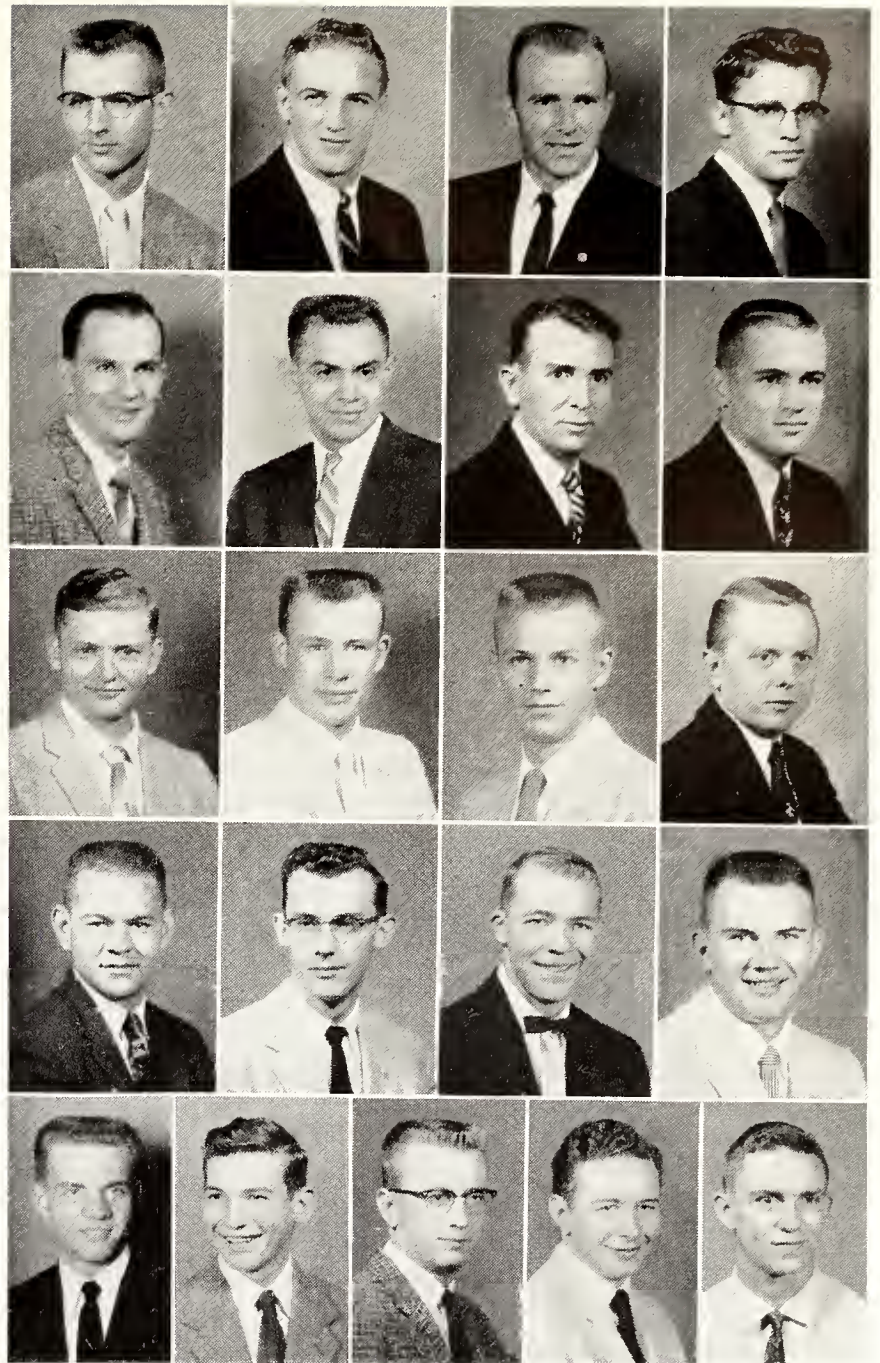

"Notorious gamblers" and their dates meet at the Sigma Alpha Epsilon house for the annual Bowery Ball.

It gives them social and educational ties with each other. The adviser is Assistant Dean of Students Charles Jacot. IOHC is composed of two representatives from each of the six organized houses and meets twice a month at one of the member houses.

Going into its fourth year, IOHC had a semi-formal dance in the fall and a costume dance with a "contemporary" theme in the spring. A plaque is awarded annually to the house with highest scholarship, and a trophy is given to the house placing highest in volleyball and basketball intramurals.

New pledges are greeted with open arms as they run to the Alpha Chi Omega house amid laughter and tears while many

fraternity men look on. Following pledging ceremonies they were guests for the night.

Rush Parties Increase with the Addition of Gamma Phis

With Southern Belles, Anchors Aweigh, Kountry Kapers and Heide, sororities entertained rushees at 33 functions during Rush Week, preceding the opening of the fall semester. Nine parties were added to the schedule this year with the addition of a new sorority, Gamma Phi Beta. Active members worked hard and fast to prepare colorful decorations and skits for the enjoyment of the rushees.

Monday and Tuesday the girls attended open houses and teas, and they were shown through each

house. Sororities narrowed the lists before sending invitations to parties the next two days, and rushees decided on their favorite sororities after receiving additional dates. The mood was serious with members and guests in fluffy formals for the final parties Thursday evening. Friday rushees filled out preference cards before receiving invitations to pledge. Everyone was tired but excited and happy as a record number of 250 women were pledged by the nine participating sororities Friday night.

"Chi O Candy Kitchen" was the theme carried out when Chi Omegas took rushees on a tour of their house.

Alpha Chi Omega

Alpha Chi Omega, next to the Alpha Xi's on Fairchild Terrace, was founded at DePauw and started at K-State in 1947.

Social events highlighted the year for Alpha Chi Omega members. The traditional Christmas Eggnog party was again given by Mother Jones for the girls and their dates. "Shoveling Inn" was the theme of their Christmas party. Members donned formals for their spring Paradise Prom. A faculty tea, exchange dinners and Friday night informal house parties rounded out the social calendar.

Alpha Chis were active on the campus as shown by the fact that they had a Barnwarmer princess, Derby Darling attendant, and presidents of Home Ec Nursing Club, Child Welfare Club and Omicron Nu. Other activities included Arts & Sciences Council, Home Ec Council, K-State Singers and A Cappella Choir. An IFYE delegate to France last fall was also an Alpha Chi. Marleen Barthuly was president.

Alpha Delta Pi

The Homecoming Queen of 1957 was an Alpha Delta Pi as were two cheerleaders. Other honors received by the sorority were first place in Parents Day decorations and Homecoming badge sales and the second place Derby Day float. Members were president of Mortar Board, Phi Alpha Mu and Phi Chi Theta. Chimes and K-State Singers also claimed ADPis.

Contributing to crippled children and Christmas caroling at Ft. Riley were special projects of the group. Socially, the girls entertained at a chili supper, Halloween party, pledge costume party, Christmas party, and spring formal. The local chapter had 82 members last year. President was Jeanine Williamson.

Alpha Delta Pi, around the corner from Alpha Chi Omega, was founded in 1851 and came to K-State September 30, 1915.

Alpha Xi Delta

Alpha Xi Delta members harmonized to win second place in the Interfraternity Sing last year. Individual honors such as Homecoming Queen attendant, Military Ball attendant, Miss K-State alternate, American Royal queen alternate, Delta Tau Delta Sweetheart and Lambda Chi Alpha Sweetheart were bestowed upon Alpha Xis. The group had officers in Young Republicans, Young Democrats, Integrity Party, Frog Club, FTA, YWCA, and members in Orchesis, Chimes, Purple Peppers, Delta Phi Delta, Sigma Alpha Eta and Angel Flight.

Alpha Xis were daily editor of the *Collegian* and recipient of the Borden award as outstanding senior in foods. The sorority, led by president Margaret McKnight, went Christmas caroling. Social highlights were hamburgers for dates on Saturday nights, the Pink Rose formal and Christmas party.

Alpha Xi Delta, another group in sorority row on Fairchild Terrace, was begun locally in 1922 when the house was built.

Chi Omega

Hours of work brought the Chi Omegas the first place Homecoming decoration trophy. They were also proud of one of their members who was named Miss Kansas. The Student Directory editor, Tribunal attorney-general, K-State Players president and a cheerleader were all Chi Omegas. Other members were active in Angel Flight, Chimes, Purple Pepsters, Theta Sigma Phi, Alpha Delta Theta, A Cappella Choir and Mu Phi Epsilon.

Three fraternities crowned Chi Os as sweethearts. Fall found the sorority entertaining at their annual Hay Hop and spring formal. Each year the group presents an award to the top women student in sociology. The 83 members were led by president Frances Meegan.

The local Chi Omega chapter, located next to the Pi Phis on the corner of Laramie and Denison, was started in 1915.

Clovia

A newly remodeled house greeted Clovia members when they returned to school last fall. Clovias were president of Omicron Nu, FTA and Miniwanca club, and officers in Collegiate 4-H. Other activities for members included Student Council, Home Ec Council, Purple Pepsters, home ec clubs and 4-H Journal staff. One girl was Sweetheart of Delta Sigma Phi while another was attendant to the TKE Sweetheart.

Clovia is a co-operative house for former 4-H girls who share cooking and cleaning duties. Extension personnel were entertained at teas during Farm and Home Week. Other outstanding events were the Crystal Ball, a parent's day dinner, pledge party, brother-cousin dinner and faculty tea. Alumnae honored the girls who made outstanding grades. Clovia president was Donna Knoche.

Clovia is a 4-H sorority, located south of the campus on North 16th Street. The first chapter was organized at K-State in 1931.

Delta Delta Delta

Six campus presidencies were claimed by the Delta Delta Deltas as they were active in many organizations. Members belonged to AWS, Chimes, Mortar Board, Arts and Sciences Council, Student Activities Board, YWCA Cabinet, Purple Pepsters, A Cappella Choir, K-State Singers, Union Governing Board and Orchesis.

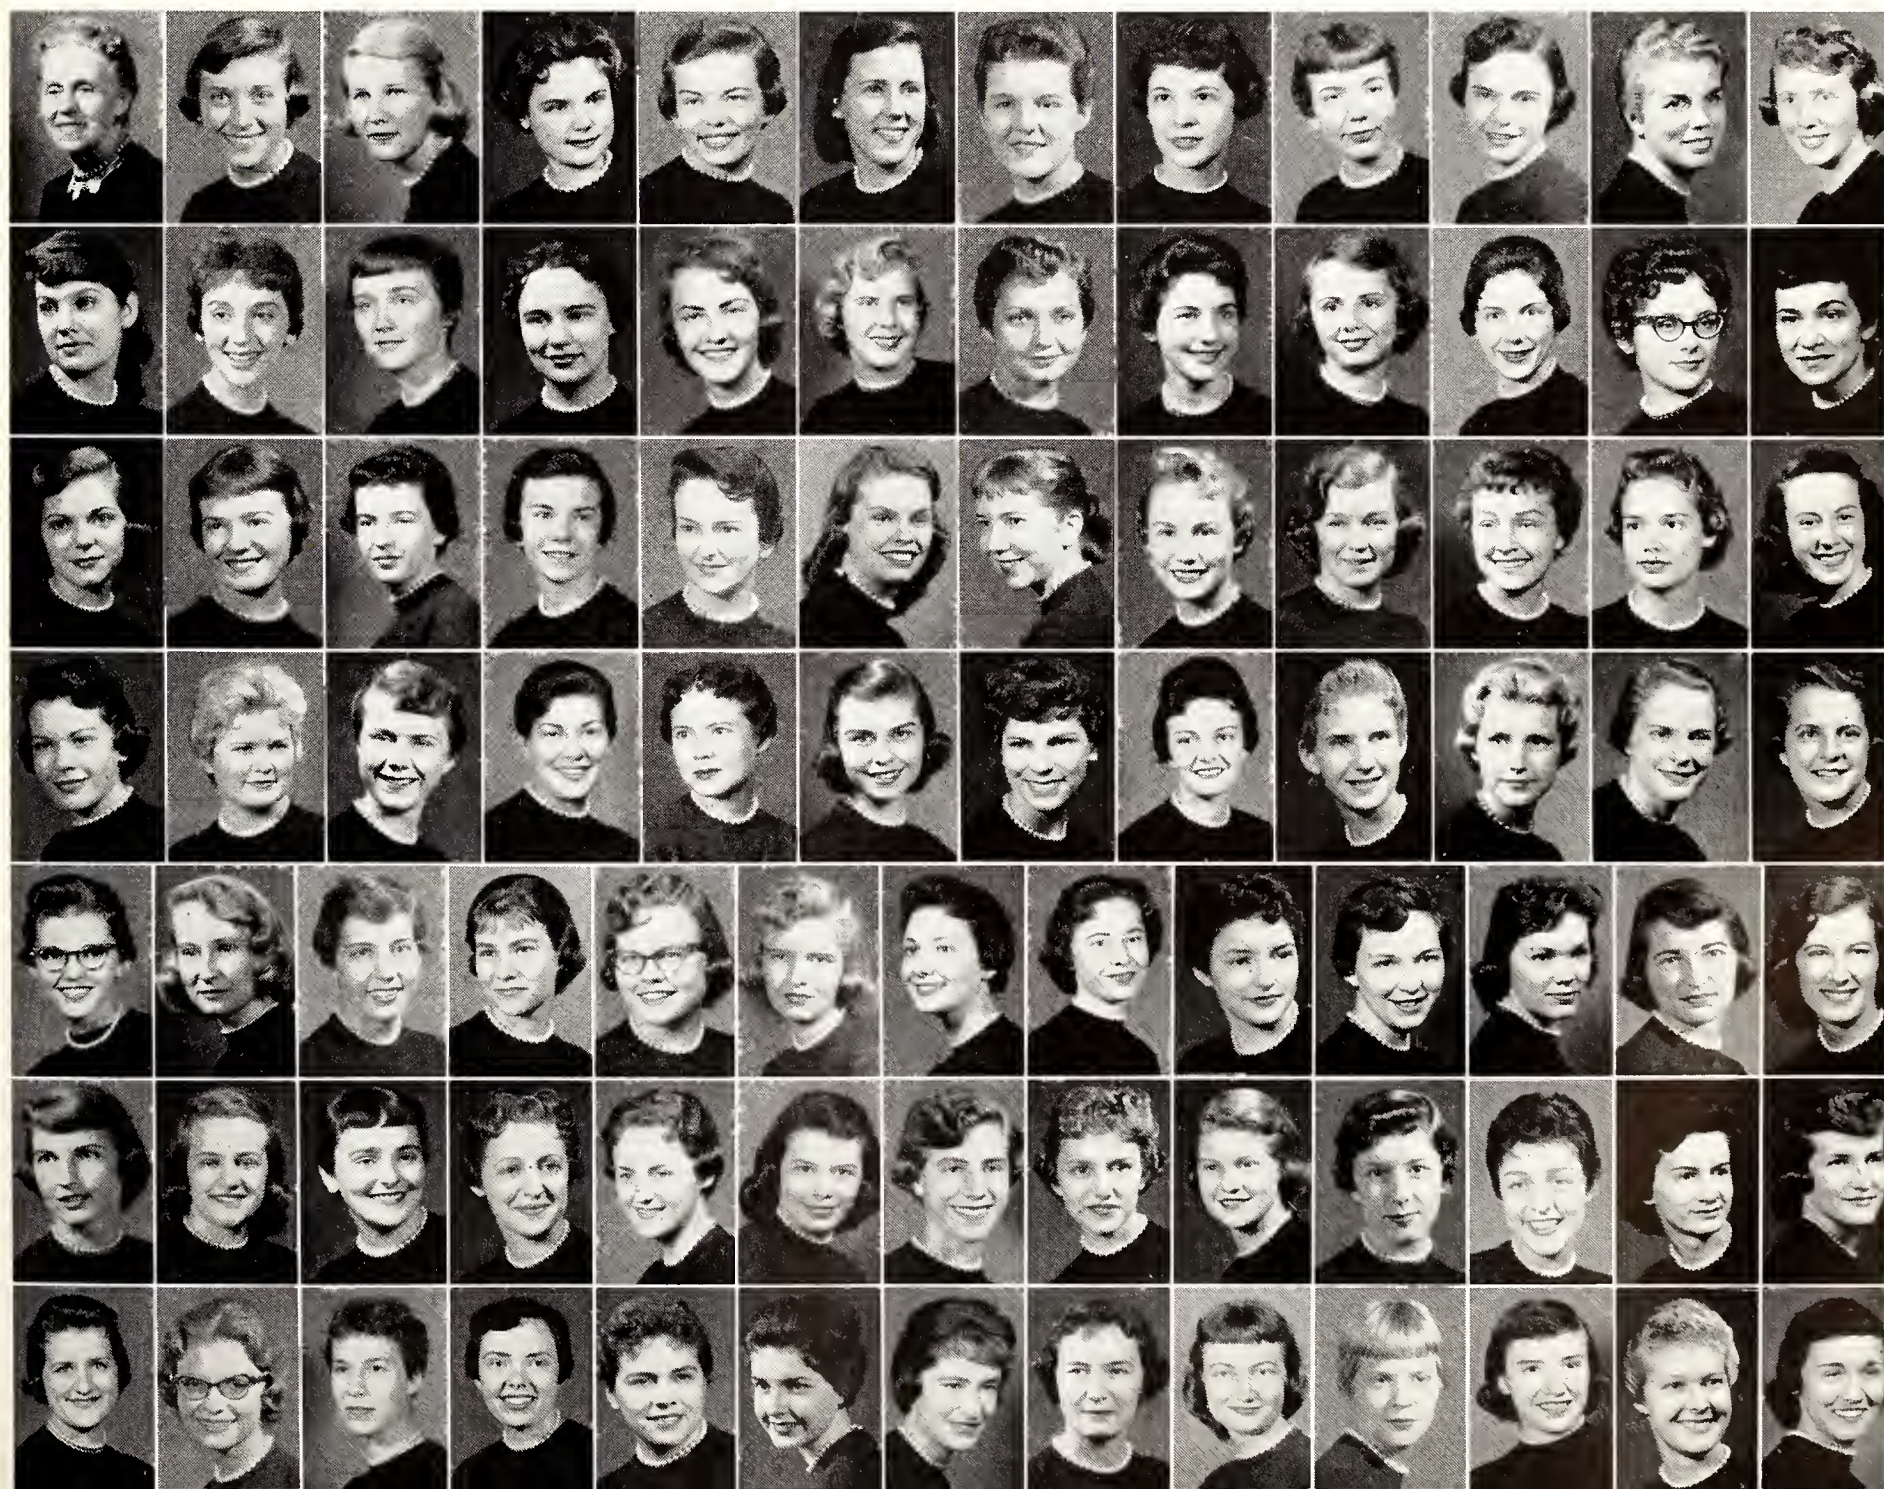

Tri Delts reigned as AFROTC queen, American Royal queen candidate, and Ag Barnwarmer attendant. A special event for the sorority was the Father's Weekend. Members and their dates dressed in red for the annual Firebug party. Other social events were the Christmas formal, Founder's Day and the Delta Heaven spring formal. Marcia Rinkel was president.

Delta Delta Delta faces a line of sororities on Fairchild Terrace. It was founded in 1888 and came here in 1915.

Gamma Phi Beta

Gamma Phi Beta, installed at Kansas State on March 23, 1957, moved into a new home northwest of the campus just in time for second semester. The modern house which was begun during the summer of 1957 will house 50 coeds. Gamma Phi Beta participated in the fall Rush Week for the first time and had 59 actives and pledges.

With Kathleen Shultis as president, the Gamma Phis entertained the alums' children at Christmas and were hostesses at breakfasts, hour dances, exchange dinners and desserts. The Sigma Chis chose Gamma Phi Sybil Foster as their Derby Darlin', and the ATOs and Sigma Nus crowned Pat Farrow as Blackfoot - Whitefoot Queen. Gamma Phis were in Mortar Board, Chimes and Angel Flight, and attended the Homecoming Queen. Mrs. Roena Bruns was housemother.

Gamma Phi Beta received its charter in March, 1957. The girls moved into a new home northwest of campus in January.

Kappa Delta

Kappa Delta claimed the crown for IPC Queen at the annual Interfraternity Pledge Council Dance in February. Two Kappa Delts were attendants to Miss K-State Co-ed. In intramurals volleyball the Kappa Deltas placed second. Under the leadership of president Nancy Hill, the 65 actives and pledges donated Christmas baskets for needy families and supported a crippled children's hospital in Richmond, Va., for their philanthropic project. Entering in the Homecoming house decorations contest, the Kappa Deltas received honorable mention. Social activities included the Emerald Ball and the Christmas party as well as exchange dinners and picnics. Outstanding Kappa Delts were president of Delta Phi Delta and members of Chimes, Angel Flight, Alpha Delta Theta and Phi Chi Theta. Mrs. James Naismith was housemother. Kappa Delta

Kappa Kappa Gamma

Kappa Kappa Gamma went all out for the "men behind the women" this year during Dad's Weekend. Kappa Dads were initiated into the "Poppa Poppa Gimme" Club as part of the festivities.

Representing Kappa on campus were four members of Mortar Board, three members of Chimes and members of Sigma Eta Alpha, Phi Alpha Theta, Tribunal and K-State Singers. The drum major and two twirlers were also Kappas. Kappa's key unlocked the door to two major queenships, Flush Bowl and Barnwarmer, and several "attendancies", RP, Homecoming and Military Ball. A Christmas party for underprivileged children was a special project of the 80-member group. Beck Culpepper was president and Mrs. Helen Jewett was housemother.

Kappa Kappa Gamma, first in the row of sororities on Fairchild Terrace, was chartered locally in the spring, 1916.

Pi Beta Phi was founded at K-State in 1904 as the first local sorority on campus. The chapter was chartered in 1915.

Pi Beta Phi

Under President Kaye Koon, Pi Beta Phi increased its membership from 77 to 90 members. The Pi Phi arrow continued to hit the scholarship bullseye—Pi Phi was first on campus for 1956-57—and brought down many an “elusive” honor during the year. Pi Phi had a Royal Purple editor, four Mortar Board members, three members of Chimes, a Student Council representative, cheerleader and presidents of four campus organizations. The 1958 RP Queen was a Pi Phi as were the Twin Queens of the Rocky Mountain Oil Show.

Pi Beta Phi awarded scholarships to two sophomore girls for tuition and fees as a special project this year. The Harvest Ball, Christmas House Party and Spring Formal were major social events. Mrs. J. I. Hollingsworth was housemother.

Men Rush, Pledge Over Ninety Per Cent of Rushees

Much excitement was in the air September 5 as 400 fraternity rushees arrived at Ahearn Fieldhouse, which was converted into a men's dormitory for the duration of Rush Week. For the second year over 90 per cent of those participating in fall rushing were pledged by 22 K-State social fraternities. Sorority rushees who had attended parties all week were on

campus, too, but rules would not allow them to speak to the new men until after their pledging.

Rushees were greeted with friendly smiles and hearty handshakes as they stepped through the doorways of the Greeks. Each fraternity had 11 scheduled rush functions consisting of smokers, dinners and late dates during the four days of rush. Entertainment provided ranged from skits and movies to card games and "bull" sessions. Using the preference rush system, men accepted invitations to functions at the houses of their choice. Each man could accept only three rush dates with any fraternity house, and under a new Interfraternity Council rule they couldn't change dates during the week.

Fraternity rush was climaxed with breakfasts for the new pledges Monday morning after they filled out their preference cards. At the close of the 1957 rush week 361 men replaced name tags with bright new pledge pins. With rush over, the pledges moved into their new "homes away from home". The opening of school a few days later meant the beginning of many hours in study hall, house duties, and chapter projects to keep both actives and pledges busy.

The Greeks have many trophies, their rewards for all the work and good times that went into Homecoming, Y-Orpheum, and Interfraternity Sing in their

A "bull" session at the Alpha Gamma Rho house found the Greeks giving a good AGR sales talk to rushees.

Rushees are greeted at the Phi Delta Theta house with initial handshakes and friendly smiles.

full schedule of activities. Happy memories still linger from all the events that helped make it another successful school year at K-State.

Frat men remember the many pledge duties and study hall hours that led to initiation and wearing the active pin, all the exchange dinners and hour dances, and picnics with sororities, the pinnings and serenades, Founders Day, the late song practices, chariot relays, the second K-State Greek Week, and the traditional spring formals. Grades were also very important with plaques going to the houses with the top grade averages each semester.

After a full schedule of smokers and dinners, rushees retired to the crowded quarters of the fieldhouse gym.

Ed Dunlap, a member of the K-State Sports Car Club, explains his newly-customized green Jaguar to an interested

group of prospective pledges who kept rush dates at the Alpha Tau Omega fraternity house.

The new home of Acacia is located on top of a hill west of the campus. K-State's chapter was founded in 1913.

Acacia

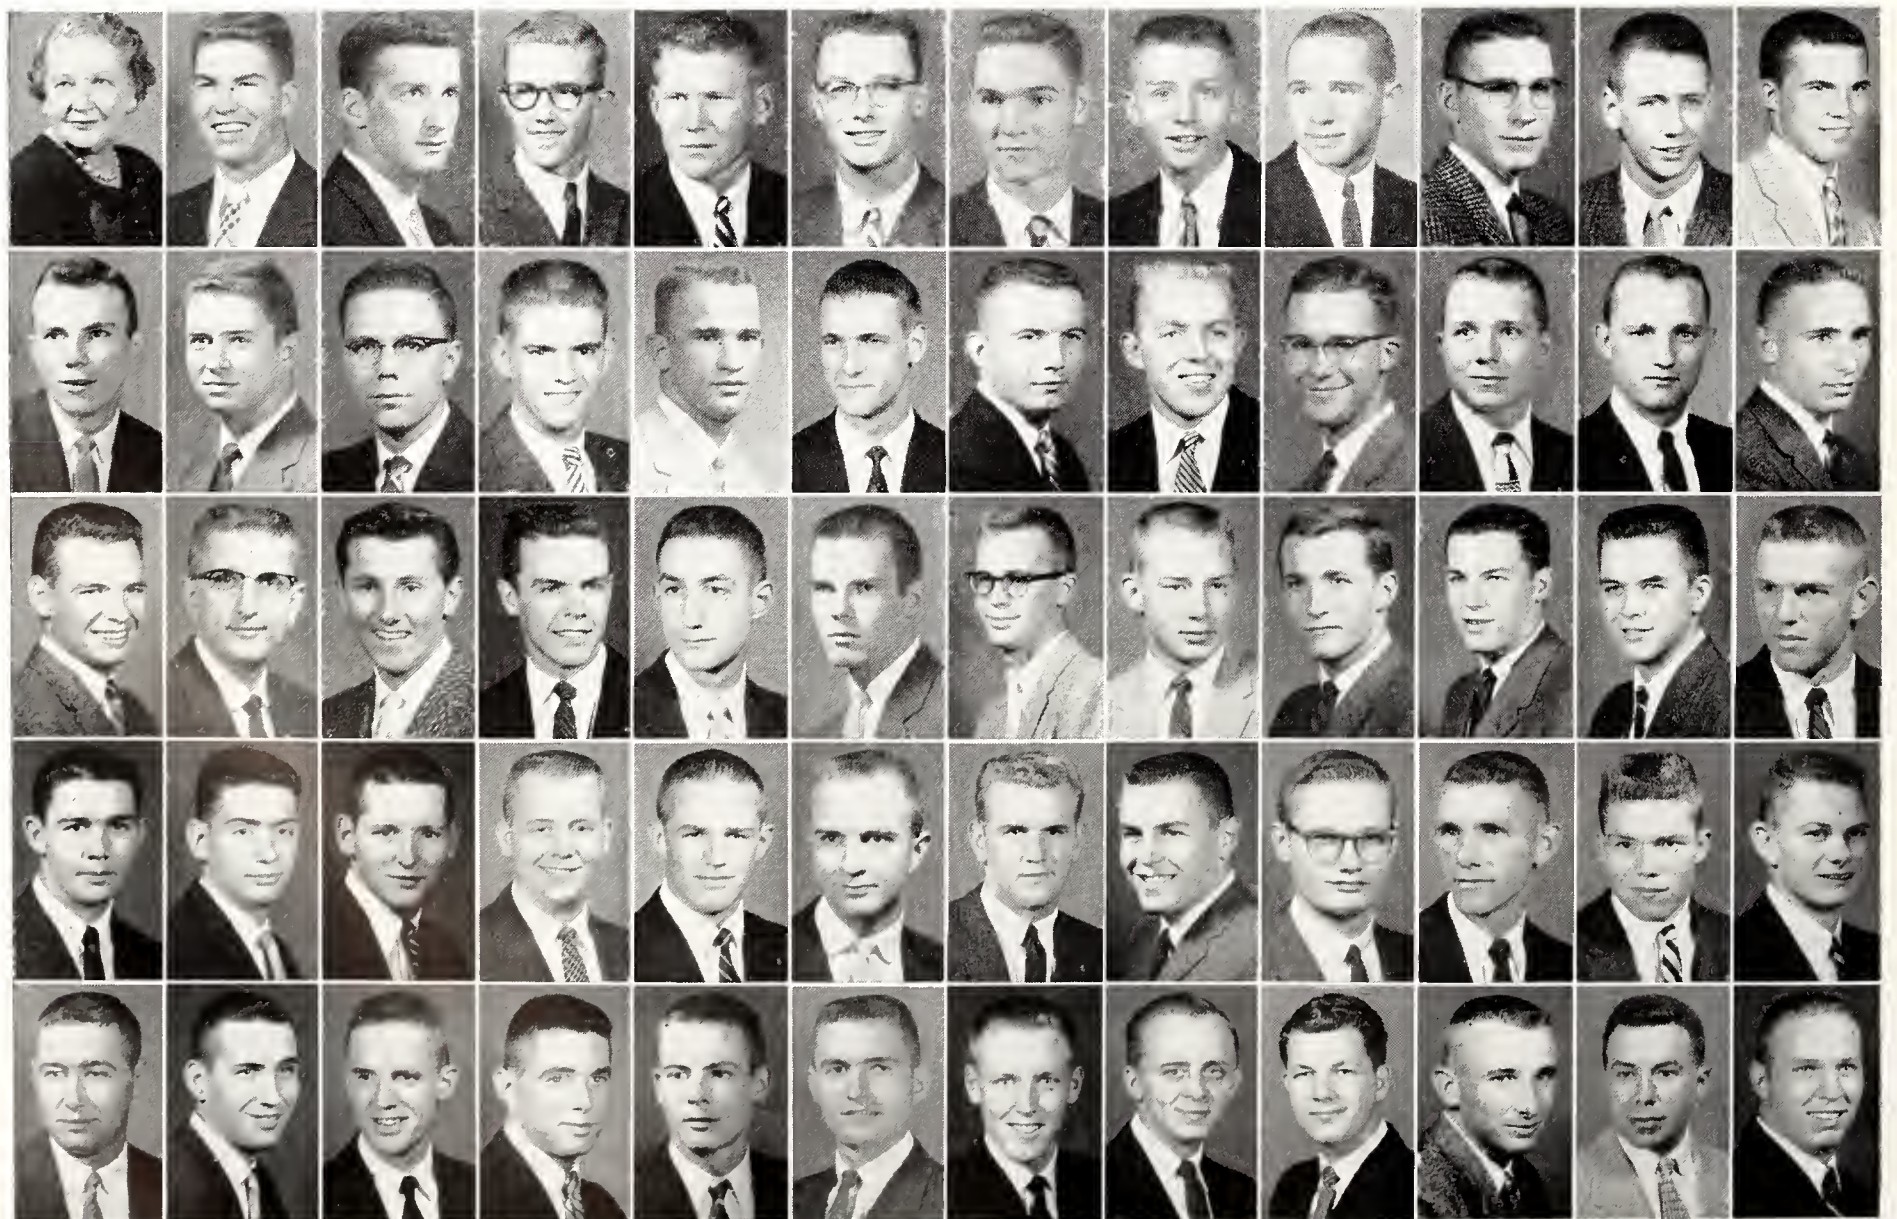

Putting some "finishing touches" on the beautiful new home they occupied in May of 1955 kept the men of Acacia busy this year. A newly decorated chapter room and paved parking lot were the result of their efforts. The chapter purchased high-fidelity equipment to lend the right atmosphere to their home which is modern in every way.

Though Acacias place strong emphasis on scholarship, they seem to recognize the danger in "all work and no play." Members have shown real talent for planning informal "fun" parties—such as the hay stomp and beach, hobo and around-the-world parties—at least once a month.

Acacias, 49 of them in all, were especially proud of members who were chosen cheerleader and assistant editor of the *Collegian* this year. The fraternity participated in all intramural sports.

Alpha Gamma Rho

Alpha Gamma Rho is the largest agricultural fraternity in the nation. K-State's chapter, which was chartered in 1927, had a membership of 59 this year. Jack Van Horn was president of the fraternity as well as of the Ag Association.

AGRs were president of Block and Bridle and representatives on Student Council and the Union Governing Board. Alpha Gamma Rho pushed Greek Week on campus and cleaned up the Top of the World as an initiation project. The fraternity participated in seven intramural sports: basketball, football, softball, tennis, horseshoes, ping-pong and bowling.

Social activities included the Roulette Party, Sister-Sweetheart Dinner, Pink Rose Formal and Christmas Party, as well as usual Saturday night house parties. Mrs. Olive Kipfer was housemother.

Alpha Gamma Rho members occupy a new home northwest of the campus. Kansas State's chapter was formed in 1927.

Alpha Kappa Lambda

Formal dedication of Alpha Kappa Lambda's new, split level home on Hunting Avenue highlighted the year for its 67 members. The quarter-million dollar structure was occupied last spring. K-State has had an AKL chapter since 1930.

AKL won the fraternity division of the Parents' Day Decorations Contest and was recipient of two National awards. Members took part in all intramural games and the bowling team took third place. AKLs were president of the Social Chairmen's Club and Phi Eta Sigma. Secretaries of the bowling league and Interfraternity Council were Alpha Kappa Lambdas.

Social events included the Christmas formal, Spring Pernet Rose Ball, Mardi Gras party and Crazy party. Founders' day was recognized with a celebration. Gene New was president and Mrs. W. B. Granger was house-mother.

Alpha Kappa Lambda was chartered at Kansas State in 1930. The AKLs moved into their new home in March, 1957.

Alpha Tau Omega

Men of Alpha Tau Omega entertained their dates at the Blackfoot-Whitefoot Formal in November. The celebration, a national affair, is sponsored jointly with Sigma Nu. ATOs are the "Blackfeet"; Sigma Nus, "Whitefeet." A picnic and football game preceded the dance.

Alpha Tau Omega's membership of 55 boasted a *Collegian* photographer, captain of the football team, president and secretary of the bowling league, and members of K-State players and Glee Club singers.

At the Hawaiian Party, ATOs had orchid leis flown in from the Islands for their dates and this year delivered leis to their dates' housemothers, also. The coeds became "little brown gals" for one evening and, dressed in traditional native attire, did a Kansas version of the "Hula." Robert H. Haas was president, and Mrs. L. E. Keefer was ATO housemother.

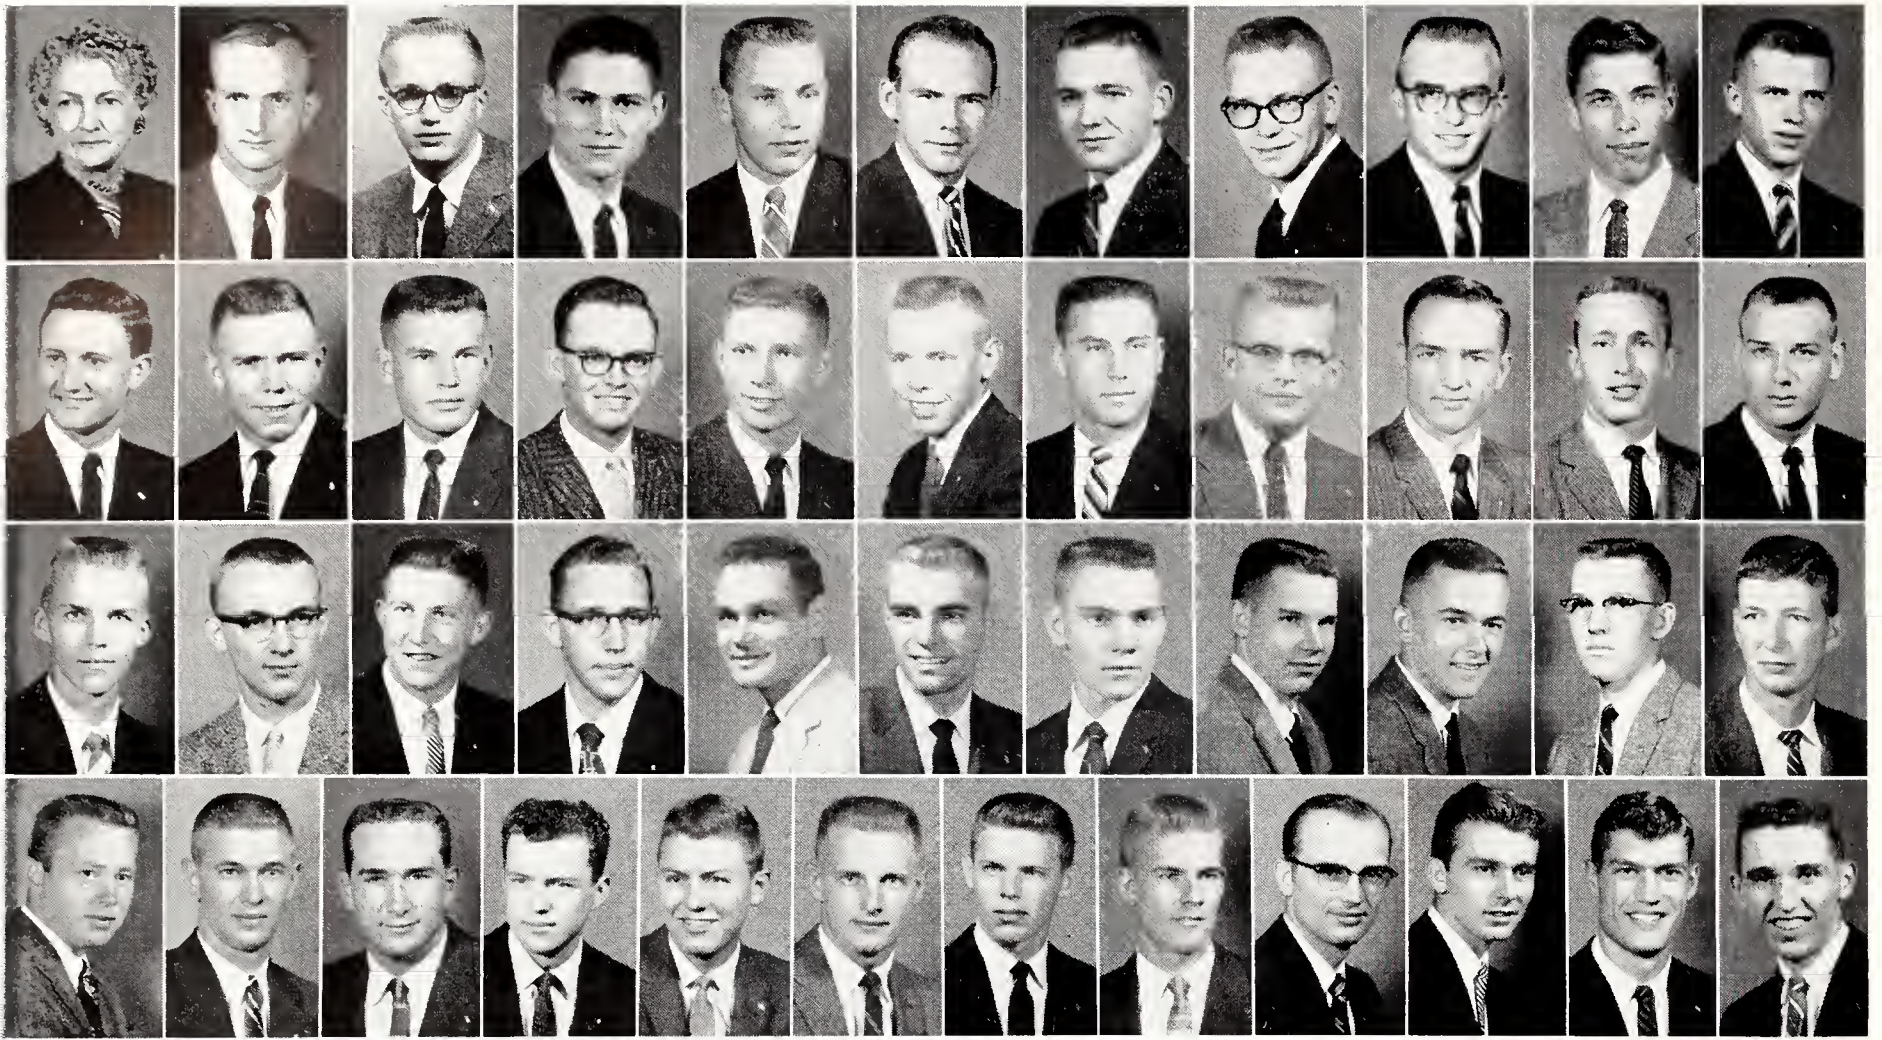

Alpha Tau Omega, located just off the northwest corner of campus, received its charter at K-State October 22, 1920.

Beta Sigma Psi

Beta Sigma Psi members took part in all phases of extracurricular activities, besides striving for high scholastic standards. Beta Sigs participated in religious activities, in athletics, in committee work, and were members of campus honoraries and professional societies.

Gerald Manchester was president during 1957-58. Outstanding members were president of Sigma Tau, on the Engineering Council, Nuclear Engineering Chairman for Open House, Chairman of the Y-Orpheum Program Committee, president of the Lutheran Students Association, vice-president of Gamma Delta, vice-president of LSA, and on the varsity baseball team. Other Beta Sigs were in Phi Kappa Phi, Alpha Zeta, Sigma Tau, Eta Kappa Nu, Pi Tau Sigma, Alpha Epsilon Rho, Tau Sigma Delta, AIA, ASCE, AIEE, IRE, AICbE, Jr. AVMA and ASAE. Members participated in Union committee work, in Young Republicans, Young Democrats and on Engineering Open House committees.

The 47 members of the fraternity found time from studies to entertain dates at four annual social events.

Highlight of the year was the Gold Rose Formal. Other major events were a Hobo Party, a Snowman's Hop and a Bermuda Shorts Party. Beta Sig intramural teams participated in all sports, with the softball team winning the fraternity championship, and touch football and volleyball teams second in their division.

The Beta Sigma Psi house has a hilltop view of the campus from the southwest. K-State's chapter began in 1951.

Beta Theta Pi

Beta Theta Pi stresses Christian ideals as the fundamental doctrines of fraternity living. Outstanding members led the way to Beta's goals of scholarship, activities, and intramurals. Betas were cadet colonels, Blue Key and Student Council members, presidents of K-Club and Young Democrats. They won volleyball and football divisions, and were champions in tennis, handball and swimming in intramural sports.

Socially, Betas entertained dates at the Miami Triad, Beta Pig, Spring Barbecue, Christmas Party and house parties. Dads and alums were honored at Fathers' Weekend and Alumni Night. Bob McDowell was president and Mrs. Ila H. Wells was housemother.

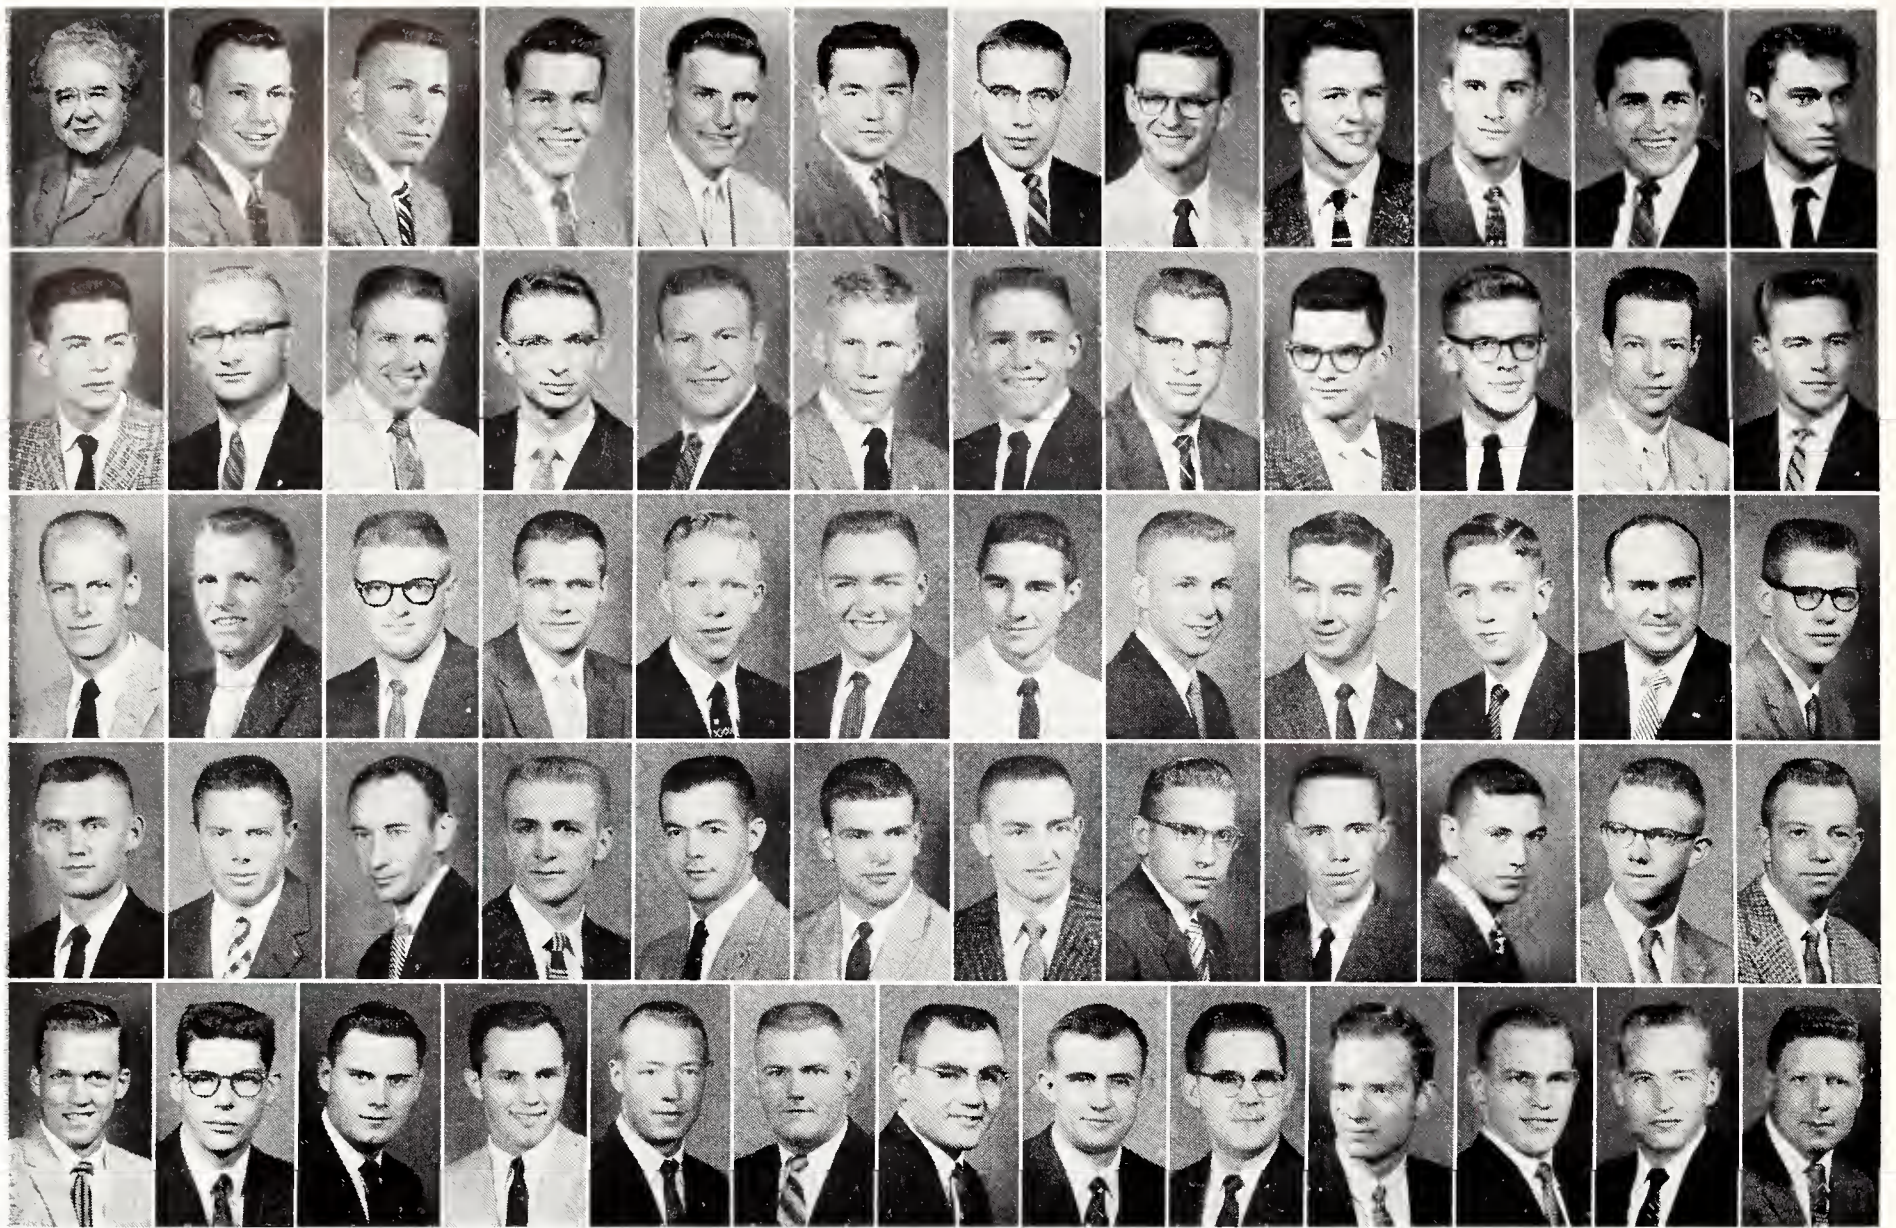

Beta Theta Pi, next door to the Phi Delts on Sunset Avenue, has been active at Kansas State College since 1914.

Delta Sigma Phi

Alpha Upsilon of Delta Sigma Phi worked this year toward finishing up its new living room, dining room, housemother's quarters and 20 additional study rooms. Remodeling should be completed by Rush Week.

Delta Sigs number 62, are chairman of Student Council, members of the Board of Student Publications, Blue Key, Sigma Tau, Scabbard and Blade, Alpha Mu, Alpha Zeta, Eta Kappa Nu, Pi Tau Sigma, Sigma Delta Chi and Wampus Cats. Last spring K-State's chapter initiated members of a new Delta Sigma Phi chapter at KU.

Delta Sigma Phi actives were guests of the pledges at an Apache Party. The Founders' Day Formal, Sailors' Ball, Bridie Murphy Party and Carnation Ball were all special dates on the fraternity's social calendar. Ray Lippe was president and Mrs. Paul F. Smith housemother.

Delta Sigma Phi chartered the local chapter in 1925 on the Kansas State campus. Their home is now being remodeled.

Delta Tau Delta

Delta Tau Delta sponsored a party for mentally retarded children as one of their special projects of the year. The Delts continued to be active on the campus by holding a number of important offices such as IPC president, IFC secretary, vice-president of Student Council and chairman of the Union program council.

The Delts also placed high in intramurals. They won volleyball and placed second in basketball. The Delt social activities included the Rainbow Ball, Paddle party and a barbecue. There are presently 66 members of Delta Tau Delta. The chapter received its charter on the K-State campus in 1919. The national chapter was founded in 1858.

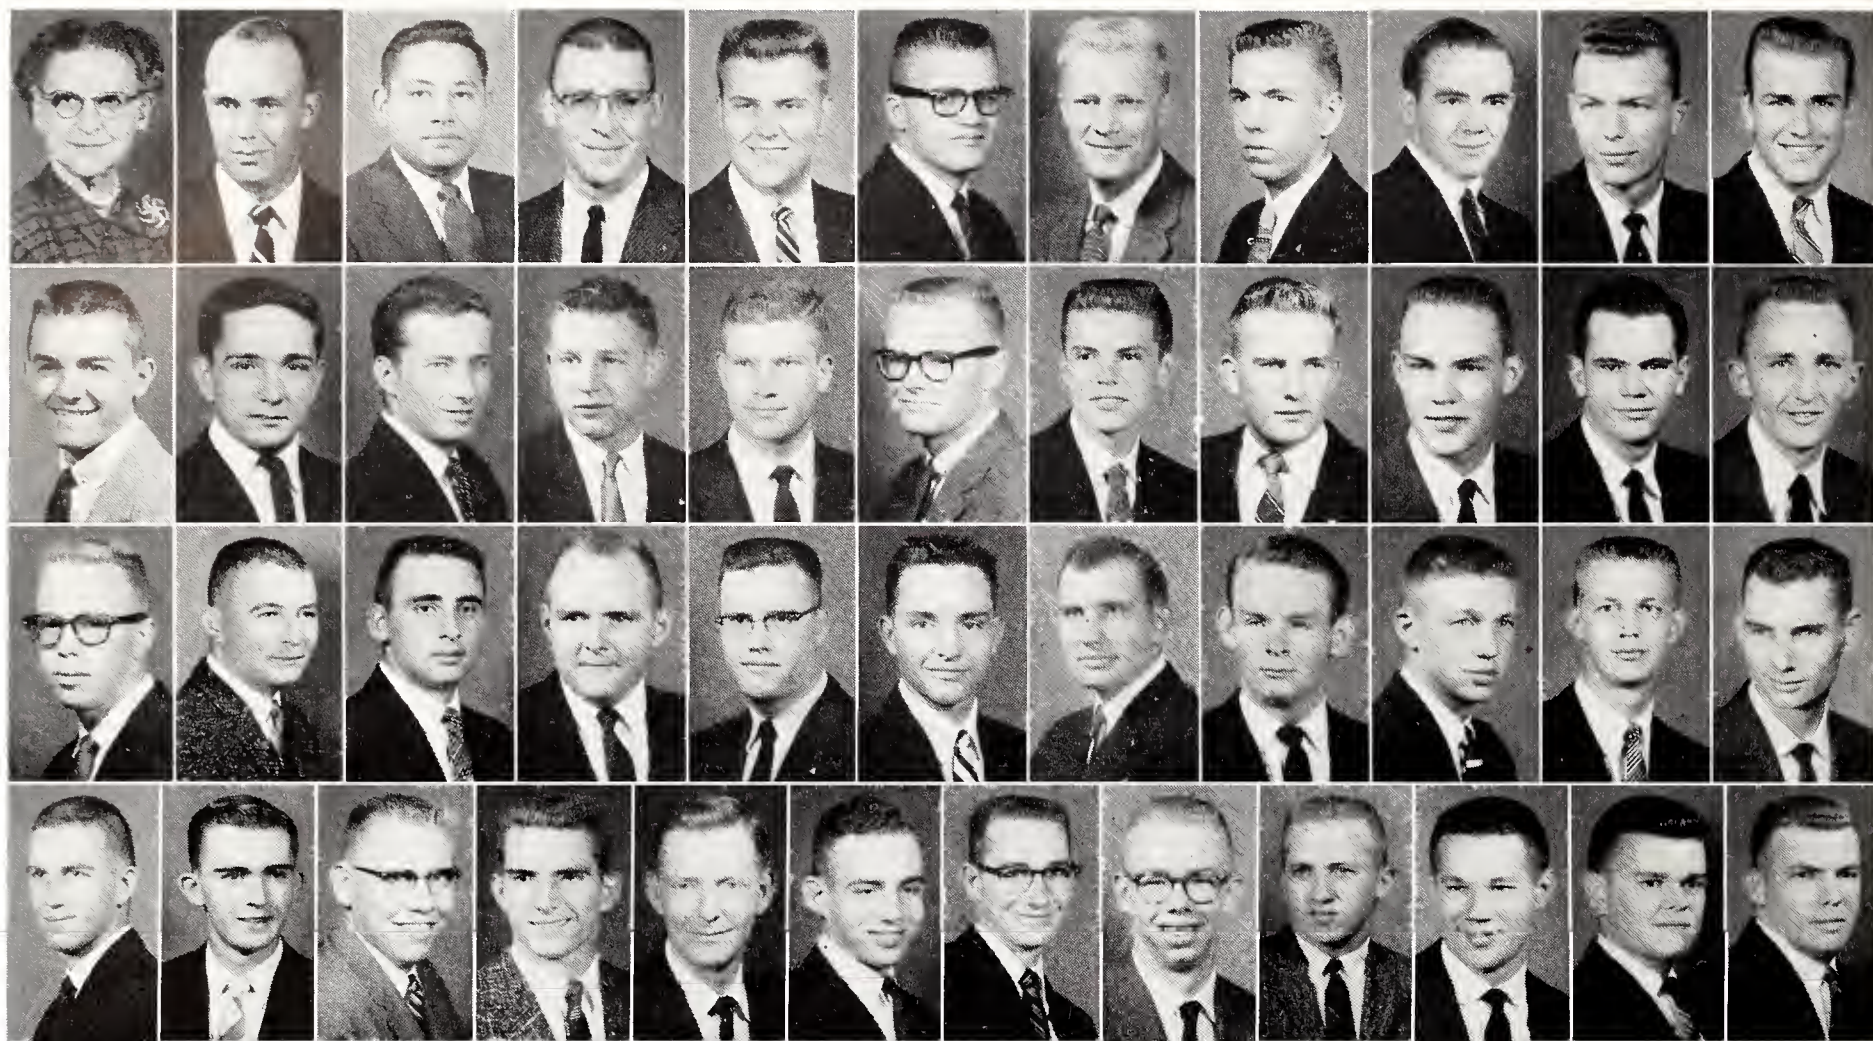

The local chapter of Delta Tau Delta was established at K-State in 1919. Their home is two blocks west of the campus.

Delta Upsilon

The oldest national fraternity and youngest fraternity represented on the campus, Delta Upsilon, has now completed two years at Kansas State. It was installed November 17, 1956. Delta Upsilon has expanded its activities and several of its members hold important offices on the campus. Calvin Adams is president of the Young Democrats, and Keith Landis is president of RCC, vice-president of band, and vice-president of Young Democrats. Jim Runberg is a Student Council member.

Delta Upsilon entertained with several social activities. Included were a house party, "Cosmic Capers," a Christmas party, a spring formal and a Founder's Day banquet.

The local chapter was originally colonized as the "1834 Club" because the national fraternity was founded in that year. The colony originated in the spring of 1955. The membership of Delta Upsilon has now grown to 43 with a slight increase over that of last year.

Ralph Willard was the 1957-58 president of Delta Upsilon replacing the first DU president, Ron Pettit. Mrs. Grace Ballweg has been housemother for the DU's during the past two years. Delta Upsilon also participated actively in the K-State intramural program by competing in all of the athletic events.

Delta Upsilon, the oldest national fraternity, received its local charter in 1956. It is the newest K-State fraternity.

Farm House

The K-State Farm House chapter continues to excel in its chief goal, scholarship. Since 1945 the chapter has won the scholarship award every year with the exception of two, among its 17 chapters. The Farm House's social activity list was also emphasized. They entertained with a fall barbecue, underprivileged children's party, sister's dinner, Western and Gay 90's party, along with two exchange dinners with other Farm House chapters.

Farm House members were active on the campus and in various organizations. Positions held by its members include president of the senior class, president of YMCA and innumerable officers in different agricultural organizations. Jimmie Beauchamp served as the Farm House president and Mrs. Hazel Hawbecken was housemother.

Farm House, located west of the Field House and one-half block off campus, received its K-State charter June 2, 1921.

Kappa Sigma

Ground-breaking ceremonies for the new Kappa Sigma house were held at the Pig Dinner this spring. The house is expected to be completed in the fall of 1958.

The Kappa Sigmas experienced a full social calendar for the year. Included in these were the Christmas formal, spring formal, Christmas eggnog party, "Red Dog," Paddle party, Pig Dinner and Mother's Day dinner. The Kappa Sigma house decoration for football homecoming rated a second place. The organization also provided a chorus for the Lions Club Minstrel show.

The fraternity intramural entries also placed high as they won their division in football and basketball. Norman Moore was president of Kappa Sigma, and Mrs. Verne W. Sibley was housemother.

Kappa Sigma, presently located just east of the campus, is building a new home. K-State's chapter was begun in 1919.

Lambda Chi Alpha

Lambda Chi Alpha members were key office holders during the past year. Neil Scott was student body president; Bob Lawrence, Arnold Air Society president; Bob Paschal, Air Force Association president; and Dick Streets, cheerleader.

The Lambda Chis were host to three major social functions, Desert Isle party, Crescent Ball, and a steak fry following the Chariot Relays. The Lambda Chi FMOc candidate, Dick Streets, was an attendant, which marked the sixth straight year that they have achieved this honor. The Great Plains conclave of Lambda Chi Alpha was held at the local chapter this spring.

The chapter, which was reactivated in 1948, was headed by Neil Scott, who acted as president during the past year. Mrs. Estes served as the Lambda Chi Alpha housemother.

K-State's chapter of Lambda Chi Alpha, several blocks south of campus, was reactivated in 1948 and now has 47 members.

Phi Delta Theta, next door to the ADPis, was begun locally in 1920. A new addition to their home was made last fall.

Phi Delta Theta

A record in intramural golf was set by Phi Delt Carlis Cassel. Other intramurals in which the fraternity participated were basketball, football, bowling, volleyball, track, handball, horseshoes and tennis.

The Phi Delts had outstanding members in the ROTC programs, as one was designated Air Force Cadet of the Year, one received the Distinguished Military Student award, and seven Phi Delts were members of Scabbard and Blade.

The annual Flush Bowl, held with Sigma Alpha Epsilon, started the social season which included the Triad, Tri Phi and the spring formal. Edward John, as president, guided many of the chapter activities. Mrs. Hardy Young was housemother.

Phi Kappa

Two first place trophies won by Phi Kappa were for Homecoming house decorations and the Homecoming Badge sales. Roger Day was organizer and president of the United States' political party. Phi Kappas were members of Eta Kappa Nu, Sigma Tau, Pi Tau Sigma, Phi Epsilon Kappa, Alpha Kappa Psi and the Veterans Organization.

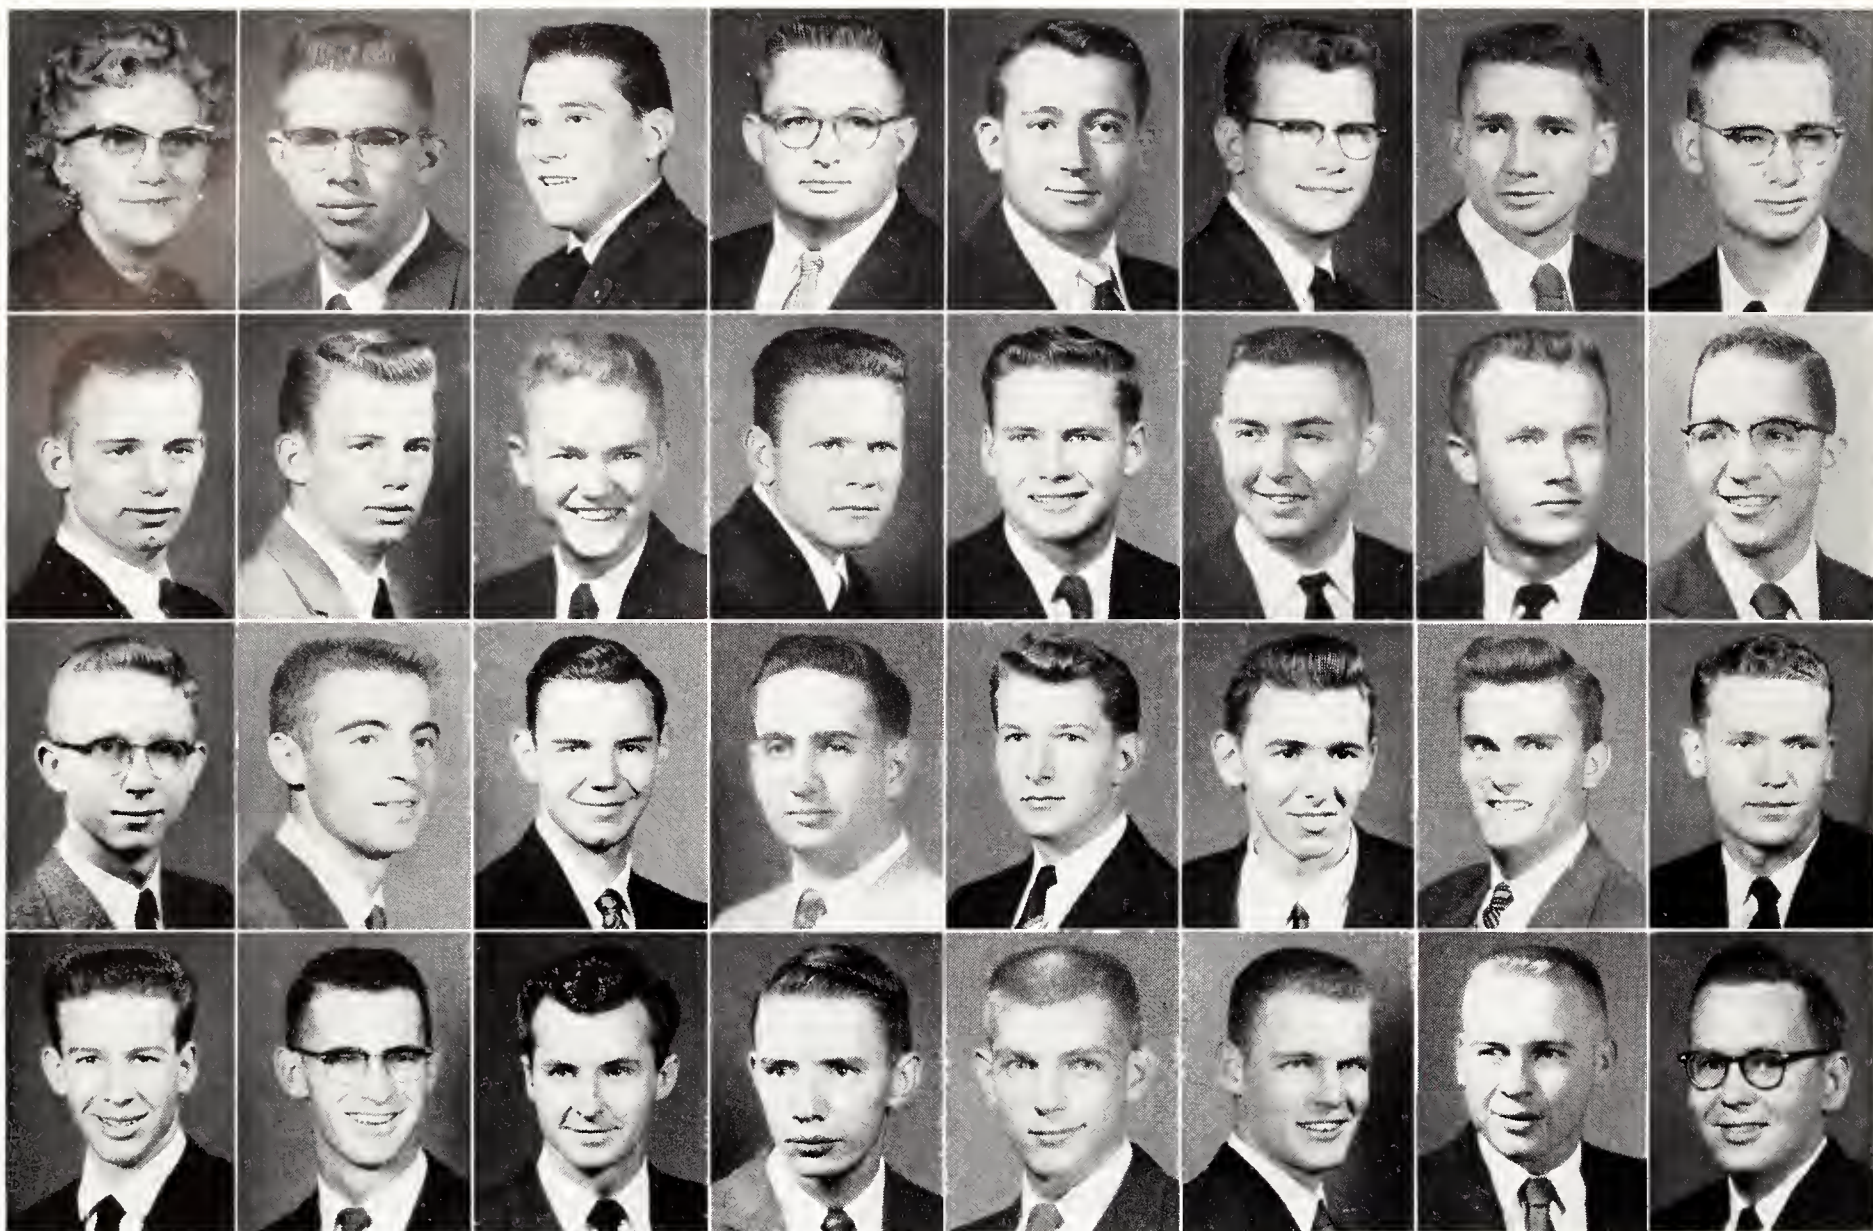

The big special project of the year was the dedication of the new house. Also they gave Christmas toys to underprivileged children and participated in a blood bank program.

The annual Fall Formal and Christmas party were the highlights of the winter social activities. The "Hard Times" costume party and the annual Fish Formal rounded out the spring calendar.

President was M. S. Klotzbach. Mrs. Eleanor Theisen was housemother. A well-rounded intramurals program found the Phi Kappas participating in all events.

Phi Kappa fraternity for Catholic men received its local charter in 1921. Members moved into a new home last fall.

Phi Kappa Tau

Formal pledging of the Alpha Epsilon chapter of Phi Kappa Tau was held at the home of State Supreme Court Chief Justice Fred Hall in Topeka. Former Governor Hall is an alumnus of the chapter.

The third place trophy for Homecoming house decorations was won by the Phi Kappa Taus. The Phi Kappa Tau chapter was chartered at K-State in 1925. It remained inactive during the years from 1940 until the spring of 1949, when it was rechartered. The present chapter house has been the Phi Kappa Taus' home since 1955.

The underprivileged children's Christmas was a big success for the chapter members and their dates. The highlight of the social whirl is the Red Carnation spring formal. The Phi Kappa Taus competed in the intramurals program to round out their activities for the year. Responsible for the chapter's activities for the year was President David Huebner. Mrs. Alice Imming was housemother.

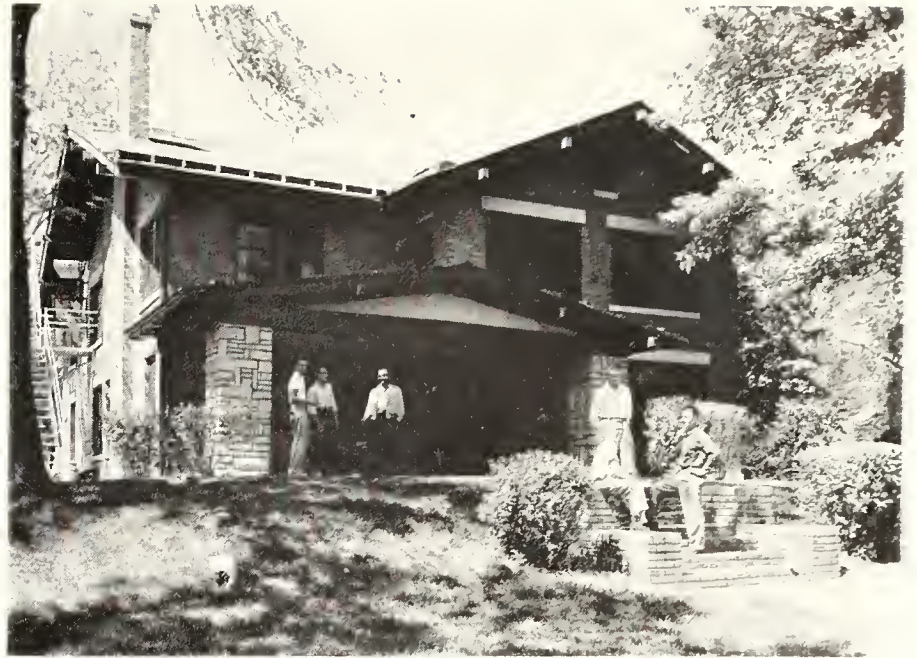

Phi Kappa Tau, across Fairchild Avenue from the Theta Xi house, received its charter at Kansas State College in 1925.

Pi Kappa Alpha

Planning for their new chapter house started the activities for Pi Kappa Alpha members. The house is now under construction west of the campus and will be completed next fall.

The Pi Kappa Alpha members joined the Sigma Phi Epsilon Chapter for the annual Duad. Informals of the year included the Corn Jigger and the Roaring Twenties parties. The highlight of the spring activities was the Dixie Ball. The heavy schedule of intramural contests found the Pi Kappa Alphas winning third in football. The Chariot Relays were also won by the Pikes last spring. President was Earl Beck, and Mrs. William Bensing was housemother.

Pi Kappa Alpha members move into their new house next September. They received their charter at K-State in 1913.

Sigma Alpha Epsilon, located on the corner opposite the Field House, was the first national fraternity on campus.

Sigma Alpha Epsilon

Sigma Alpha Epsilon claimed the intramurals championship trophy for the fifth consecutive year. Their "firsts" included golf, basketball, swimming, free throws and track. Entertaining at the Belle Ball, Spring formal, Island Party and Bowery Party kept the Sig Alphas busy on the social side of the calendar. A Christmas party was given for underprivileged children.

One SAE held the presidency of the National Chancery Club as well as of the K-State Chancery Club, and Sig Alphas were also active in Student Council, Arts and Sciences Council, Union program council, K-Club, Men's Glee Club, Arnold Air Society and Sigma Tau. Joe Downey was president of the 104 Sig Alphas. Mrs. Pauline Johnson was housemother.

Sigma Chi

Sigma Chi was gavel-conscious this year as Sigma Chis were presidents of Blue Key, Arts and Sciences Council, Engineering Council and Integrity Party. Jim Moore, also the Engineers' St. Pat of 1957, wielded the gavel for the chapter. Sigma Chis were active in Student Council and a number of honorary fraternities.

The second annual Derby Day sponsored by Sigma Chi was participated in by many of the organized houses on campus. Walking off with third in intramurals competition was another accomplishment, as was entertaining at a children's Christmas party. Sigma Chis social calendar included the Sweetheart Ball, Pajama Party and Miami Triad.

Kansas State Sigma Chis have lived in their home on Fremont since they received their local charter in 1949.

Sigma Nu

Activity is the word for sixty members of Sigma Nu, second national fraternity to be installed at K-State. They were members of Engineers' Open House committee, Jazz Club, AFROTC Association, Dairy Club, Milking Association, Alpha Phi Omega, AIEE, debate, band, Pi Tau Sigma, Student Council committees, Jr. AVMA and the Conservation Club.

Sigma Nus placed third in intramural football and entered all other sports. Highlighting social events was the Bridey Murphey "come-as-you-were" party. The annual Blackfoot-Whitefoot ball and the spring White Rose formal dinner-dance provided entertainment for members and their dates. The chapter also had two informal costume house parties, the Cro-Magnon Crawl and a Western party. Sigma Nu commander was Don Butel and adviser was Robert Buzenberg.

Beta Kappa chapter of Sigma Nu received its local charter in 1913. It is located across Sunset Avenue from the ADPis.

Sigma Phi Epsilon

Sigma Phi Epsilon has had a full schedule of social events during the year. In addition to a fall formal and the spring Golden Heart Ball, they also entertained with a Western party, pledge party, the Duad with Pi Kappa Alpha fraternity, and a Roman party.

The house, which was founded February 25, 1918, presently has 80 members. Burdell Nolte was president, and Mrs. Doris Erickson was housemother. The Sig Eps also finish high in intramural competition each year, and they have won intramural football for the past three seasons. Terry Turner, varsity distance runner, won the varsity athletic scholarship trophy last year.

Sigma Phi Epsilon, next door to the Delts, was called Epsilon Epsilon until they were chartered in 1918.

Tau Kappa Epsilon

K-State Tau Kappa Epsilon chapter received the award for being the top chapter in the nation. Members gave a Christmas party for orphans and helped with the organization of the Harbaugh Memorial Scholarship as their service projects.

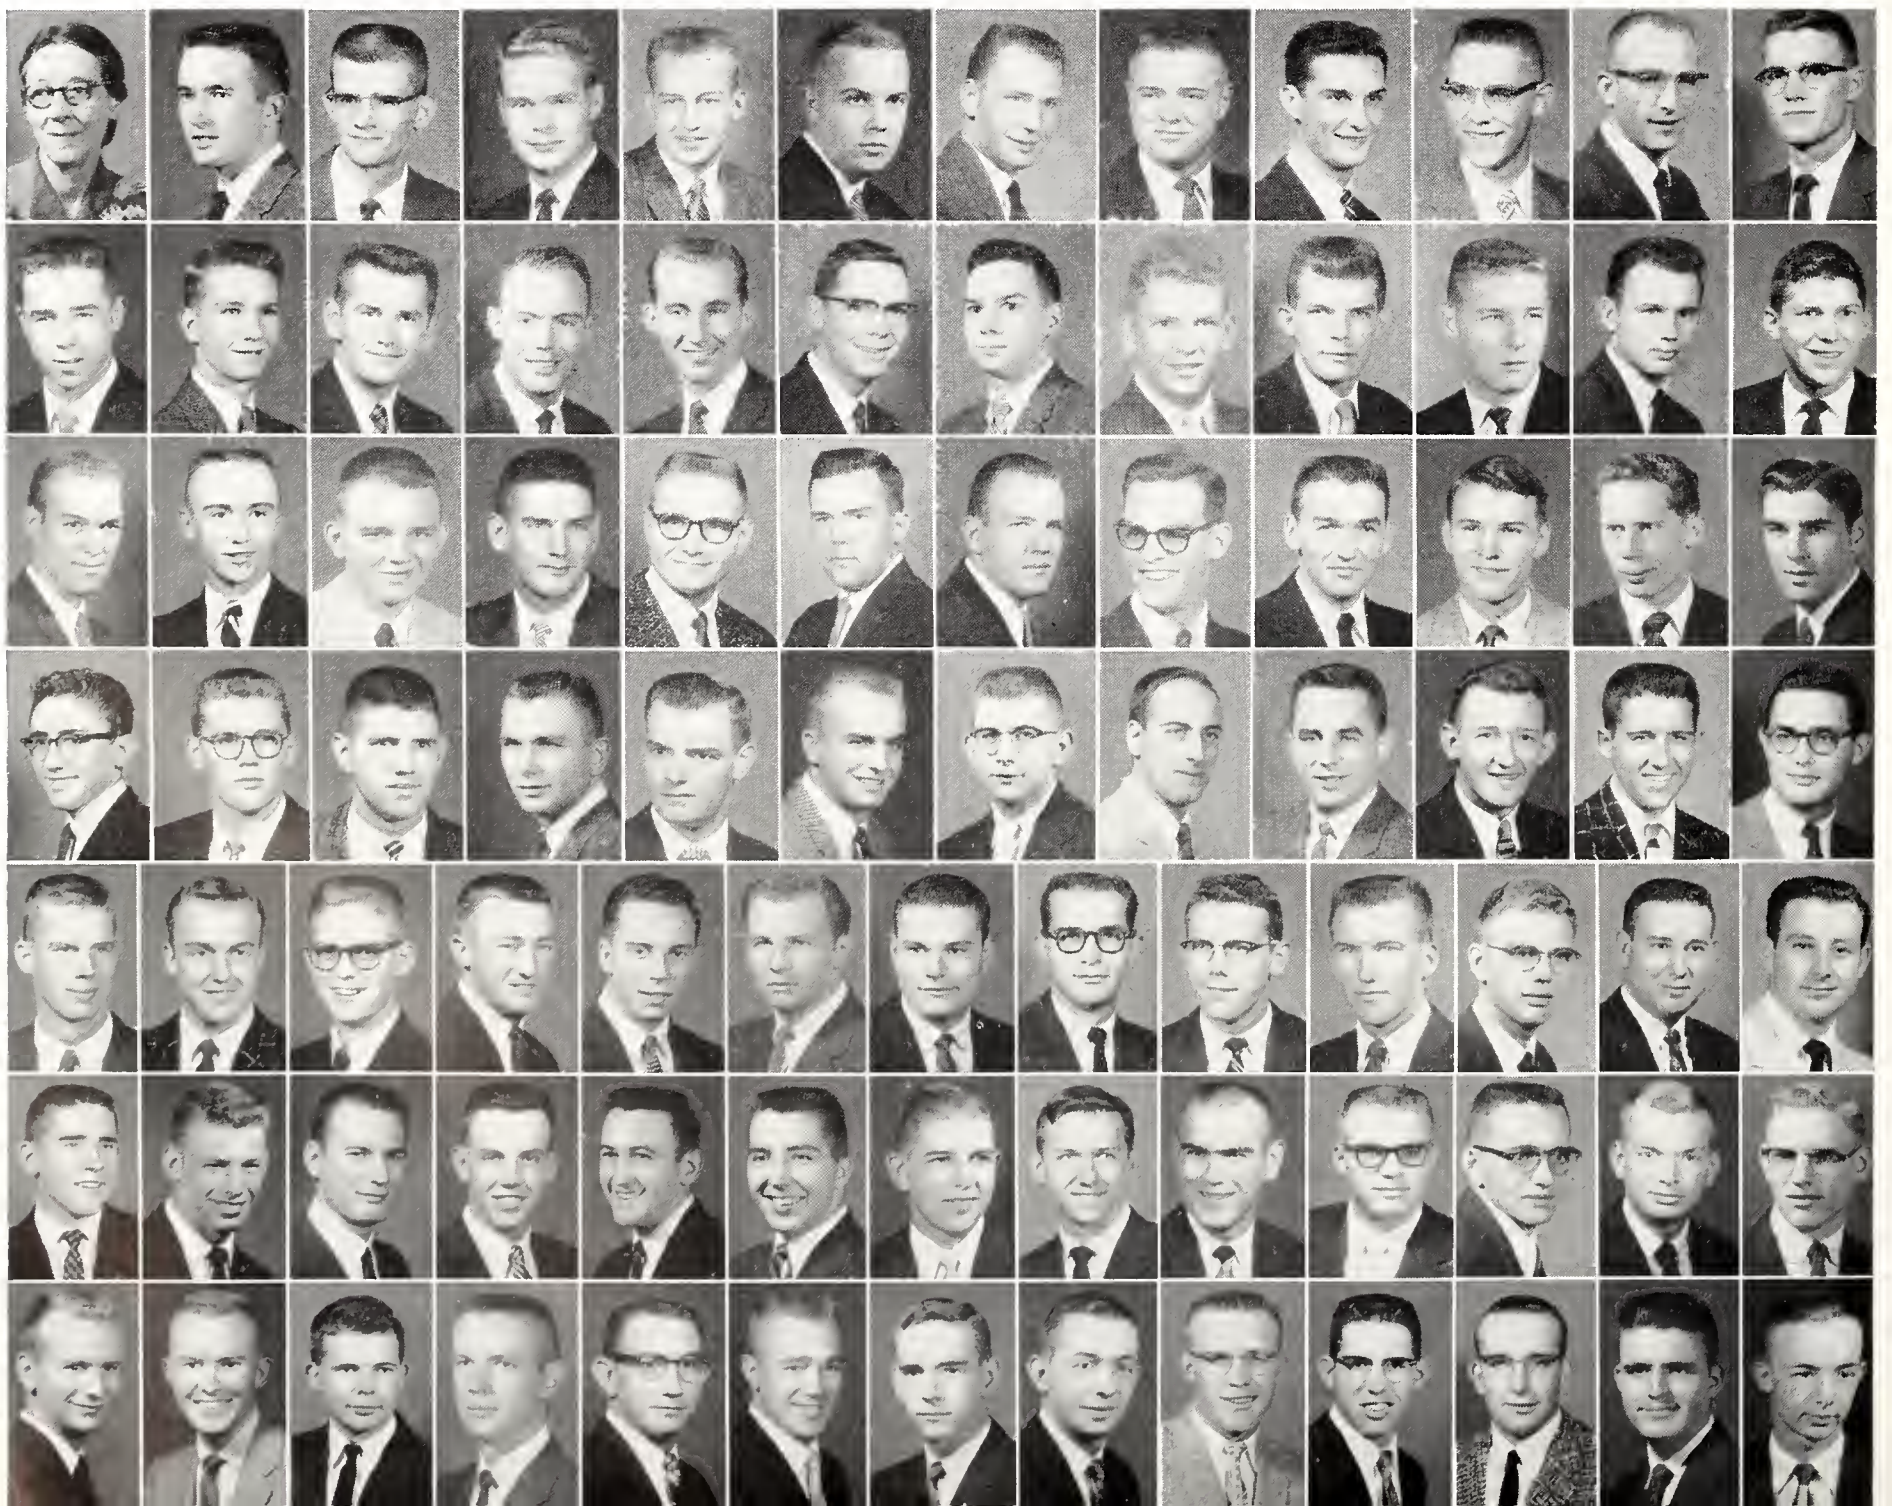

Individually, Tekes were members of Student Council, Blue Key, Apportionment Board, Student Activities Board, Tribunal, debate, Union Program Council, Arnold Air Society and various committees. One member was attorney general of Tribunal and another was named the outstanding senior geologist. Socially, the chapter entertained with a Corral party, Red Carnation Ball, Homecoming candidate dinner and exchange dinners. President was Alfred Niles.

Tau Kappa Epsilon, still in the process of remodeling its campus home, is prepared for the increasing enrollment.

Theta Xi

Theta Xi's claimed the first Greek Week trophy awarded to the house with the most active participation in the week's events. The social calendar for the Theta Xi's opened with a party for the new pledges and included the annual Unicorn Ball and the Tuffy Strut. Theta Xi's entertained at a buffet dinner for alums at Homecoming.

Outstanding members were active in Pershing Rifles, Sigma Tau, and varsity baseball, gymnastics, and track. Dick Rolph served as president of Interfraternity Council and Dick Houston was Veteran's Club president. Theta Xi participated in all intramural sports. At Christmas members exchanged gifts which were donated to the Nursery School of the First Methodist Church. Paul Spaulding was president and Mrs. Ben Barr was housemother.

Alpha Iota chapter of Theta Xi was established on campus in 1931. National Theta Xi was founded in 1864.

Sigma Nus and their dates "came as they were" to a Bridey Murphy party, an original on their fall social schedule.

Getting set for the "spacing racing" era, Delta Upsilon and their dates celebrate at an outer space party.

A "Tavern in the Green" party at the Tau Kappa Epsilon house was the setting for cokes, candlelight and dancing.

Parties Are Always in Style

It matters not what the occasion may be—parties in a "K-State society" are perfect pastimes, and especially when the weekend is free, when it's Christmas or Valentine's Day, when a big name dance band is coming to town, or when there's something like a Union birthday to celebrate.

The nature of the parties varies—fraternities, sororities, independent houses and dorms sponsor masquerades, hayrack rides, picnics and formals for every season. Dress ranges from rags to space uniforms, depending on the occasion. Whatever the instance, "everybody loves a party."

"Feelin' comfy" in their oldest clothes, Beta Sigs and their dates gather 'round the decorations and get in the mood of

their annual Hobo Party. The guys grew beards for the occasion, and some even left their shoes and socks at home.

Northwest Hall Provides Home for 220 Freshmen Women

Northwest Hall was home to 220 women in their first year at college. Built in 1951, it has spacious rooms and a large living room to accommodate the women and their guests. Conveniently located on each of the four floors are the laundry rooms, social room and a small kitchen. Friday and Saturday nights residents and their dates played ping pong or bridge in the basement recreation room. Week nights they relaxed from studies by watching TV and singing around the piano in the living room. Fraternity men were entertained at a fall open house and dance. The Christmas formal, Silver Bell Ball, was held in the recreation room. February found the coeds and their dates dancing amid cupids and hearts at the Queen of Hearts Ball. Special dinners marked Thanksgiving, Christmas and Easter

Northwest Hall, dormitory for freshman women, is at the northeast corner of the campus with Southeast and Van Zile.

holidays. Unusual foods were served at the Singapore Curry dinner and the Italian dinner to which special guests were invited. After football games refreshments were served to parents and other guests. Guests also toured the dorm at the annual freshman teas given in connection with Northwest's sister dorm, Southeast Hall. Rounding out the social program were the exchange dinners and hour dances with the fraternities.

Northwest residents entered in many activities their first year at college. One was an attendant to the Ag Barnwarmer queen while another was a finalist in the Delta Sigma Rho speech contest. The dorm claimed the president and treasurer of Whi-Purs along with many members. Debate squad, YWCA, Young Republicans, home ec clubs, Collegiate 4-H, glee club, college chorus, Orchesis, Frog Club, A Cappella choir, Union committees, Royal Purple staff, Student Governing Association committees, Union secretaries, orchestra, band and AWS committees kept them busy.

Proud of their winning bowling team, Northwest coeds also entered other intramural sports. They worked together on Homecoming decorations, floats and Parents Day decorations. Service minded, they set up a scholarship fund to be presented each year to an outstanding student.

Upperclass women serve as resident assistants, helping the freshmen with their problems and advising them on college life. Corridor meetings were held once a week to give them an opportunity to discuss studies, dating and dorm life. Two hour study quiet periods were observed each week night. One night out a week was allowed freshmen for a college activity.

This year, for the first time, dorm officers were elected for a one year term. President was Judy Tyler who appointed various committees to plan social functions and other activities. The Tribunal listened to all cases concerning lates and other infractions. Miss Virginia Smith, dormitory director, advised the girls in the many phases of college life.

At the desk in the dorm lobby, girls sign in and out for dates, concerts and parties. Mail also is distributed there.

Southeast Hall Organizes First Choir Among Women's Dorms

Southeast Hall for freshman girls was completed in 1952. It is the newest dormitory and houses over 200 women.

Organizing a dorm choir was the major project undertaken by residents of Southeast Hall this year. The dormitory's first choir, composed of 100 women, sang carols at the Christmas formal. Members made three caroling trips to the Fort Riley hospital before Christmas vacation. Under the direction of Carol Korinek, the choir took up Negro spirituals and popular songs second semester.

Southeast had representation from 13 states among its 222 residents first semester. In addition to Kansas, women came from Arkansas, California, Colorado, Illinois, Missouri, Nebraska, New York, Oklahoma, Texas, Utah, Virginia and Washington.

Of the 13 corridors at Southeast, only two are made up of upperclass women. These corridors are on the

first floor. Each freshman corridor has one upperclass woman, called a resident assistant, who takes her counseling job for College credit and attends a special class once a week. Southeast counselors help freshmen women with any problems they may have and sit in on corridor business meetings.

Dorm governing policies are handled by two groups which work together closely. One is the Executive Council, headed this year by Marilyn McCord, Southeast's president. This council is made up of the nine dormitory officers. The other group is called hall council and is composed of a representative from each corridor in addition to the general officers. Representatives from AWS and the Interdorm Council also attend Hall Council meetings which are every other week, alternating with Executive Council. First semester, there were either individual corridor meetings or a general meeting of all residents every Monday evening. During the second semester these meetings were called as needed.

Group singing in the living room is a popular pastime before and after dinner for freshman girls in the dorm.

Girls gather around one of the busy telephones on each dorm floor. Looks like they have a monopoly on this line.

As they are predominately dormitories for freshmen women, Southeast Hall and her sister dormitory, Northwest, fill a special need for Kansas State College women. Group activities at Southeast, under the direction of Miss Gladys Grace, are keyed to help freshmen adjust to college life as easily as possible.

Important social activities during the year included hour dances, faculty teas, exchange dinners, the Christmas formal and the Cotton Ball. Women of Southeast have "dress dinner" each Thursday evening. An Indian curry dinner and a smorgasbord were special dinners in the fall.

Working and playing together in true dorm spirit, the women entered "Patrick Henry" in the Homecoming Decorations Contest, got together for pajama breakfasts and enjoyed late snacks during final week. At Christmas they "adopted" a Manhattan family and each corridor contributed something to help make the season merrier for them. Southeast Hall had two major campus queens, Military Ball and Inter-Pledge Council.

Van Zile Residents Begin Year with Newly-Redecorated Hall

Beginning the year with a "new look", Van Zile Hall boasted of newly redecorated living rooms, dining room, offices, library, music room and recreation rooms. Van Zile women entertained at an Open House for other organized houses, faculty members and administrative personnel to celebrate the completion of the redecorating begun in January, 1957.

The scholarship cup, awarded to the women's residence hall with the highest over-all grade average, was again the goal of Van Zile residents, who have earned the honor for the last two years. Having nine women in six honorary organizations—Mortar Board, Omicron Nu, Delta Phi Delta, Epsilon Delta, Phi Alpha Theta and Phi Chi Theta—also acclaimed their high scholarship. Far from working for scholarship alone, they were presidents of Home Ec Journal-

ism Club, Home Ec Extension Club, Kappa Phi and Phems. They were also members of 46 campus organizations with 30 members serving as officers.

Marcia Sowers was business manager of the *Royal Purple*. Evie Warner was feature editor of the K-State Engineer magazine, Darlene Larkin was Mortar Board vice-president and secretary of AWS judicial board, and Jane Franz and Ann Eklund were on Home Ec Council.

High on the list of social activities planned by the house council and carried out by committees were the annual Christmas party and the spring formal. Special holiday dinners were enjoyed by Van Zile women on Thanksgiving, Christmas, Valentine's Day and Easter. To provide international taste treats, the Swedish Smorgasbord and Indian Curry Dinner were planned by the dieticians, one of whom is a graduate student from Australia. The spring formal dinner to honor the graduating senior women and present them with a "Van Zile Spoon" was another traditional event.

Winning first in Sigma Chi's Derby Day competi-

tion was among the varied achievements. Annually ranking high in intramurals, Van Zile teams won first in volleyball and second in basketball. They participated in all intramurals except swimming and table tennis singles.

Van Zile Hall, built in 1926, was "home" this year for 159 upperclass women, as well as a workshop for senior institutional management students. Mr. and Mrs. John Gibson were "house mother and father" of the hall for first semester, with Mrs. Robert Smith taking over the director's duties for second semester. The women were governed by their own corridor representatives and officers who made up the house council. Elected representatives also composed the hall tribunal. Anne Hilding and Doris Lauxman were presidents of the hall. Residents of the dorm included women with home towns in Hong Kong and the island of Oahu, and a Kansas girl who had transferred from the University of Beirut, Lebanon. Van Zile had two resident houseboys who lived and worked in the hall. One of the boys had worked in Van Zile for five years.

Students study at Waltheim Hall, upperclass women's dorm. Located south of the campus, it has apartment-style rooms.

Waltheim Hall

The sixty-eight residents of Waltheim Hall stressed group living with their many activities. The dorm participated in the freshman teas and open house last fall. Special dinners were prepared for the girls at Thanksgiving, Christmas and Easter. The big social event was the spring formal.

Many campus honors were received individually as Waltheim girls were president of Phi Chi Theta, vice-president of ISA, and secretary of AWS and the Union movies committee. Other activities included Chimes, Omicron Nu, Alpha Delta Theta, K-State Players, AIA, Orchesis, Engineers Magazine staff, Purple Pepsters and twenty-seven other organizations. The girls worked on Homecoming and Parent's Day decorations and entered intramurals. Dorm president was Bonnie Hafford.

West Stadium

The first active participation in Homecoming was the new project this year for West Stadium members. Also being started is a new hall library. Champions of intramural basketball, softball and track, West Stadium also has held the independent division basketball championship for three straight years.

Members of West Stadium have been active in Pershing Rifles, Athletic Council, K-State Marching Band, Collegiate 4-H, Men's Choir, ISA and honorary fraternities in business, agriculture, and physical education.

Leader of the West Stadium residents this year was Lawrence Brady. Mr. and Mrs. C. W. Thomas Jr. are directors of West Stadium.

Married students' housing now fills the once barren site northwest of the campus. Parking areas are located in front

of all units. The red brick buildings are modernly designed and furnished.

Jardine Terrace Is Dedicated

Jardine Terrace, the first permanent housing for married students at K-State, was officially dedicated November 2, 1957. Named in honor of W. M. Jardine, seventh president of the College, the units provide apartments for nearly 200 families. Residents organize their own governing body headed by a mayor who makes policies and regulations. The two-story brick buildings are arranged around large lawn areas in back while parking space is located at the front. Playground and laundry facilities are behind the units. Available with one or two bedrooms, the apartments are completely decorated and furnished. In addition to the bedrooms, each apartment has a living room, kitchen and bath.

Streamlined kitchens, complete with stove and refrigerator, make meal preparation a pleasant task for wives.

Windy days don't keep Jardine Terrace wives from doing the family wash. Laundry facilities are located in separate

buildings behind apartment units. Nearby is the playground which mothers can watch while working.

Entertaining children in the wintertime is no problem at Jardine Terrace with the playground facilities provided in

the spacious areas behind each unit. Mothers can keep a watchful eye on their little ones from their apartments.

For those combining education and marriage, play-time with their children is a part of many students' schedules.

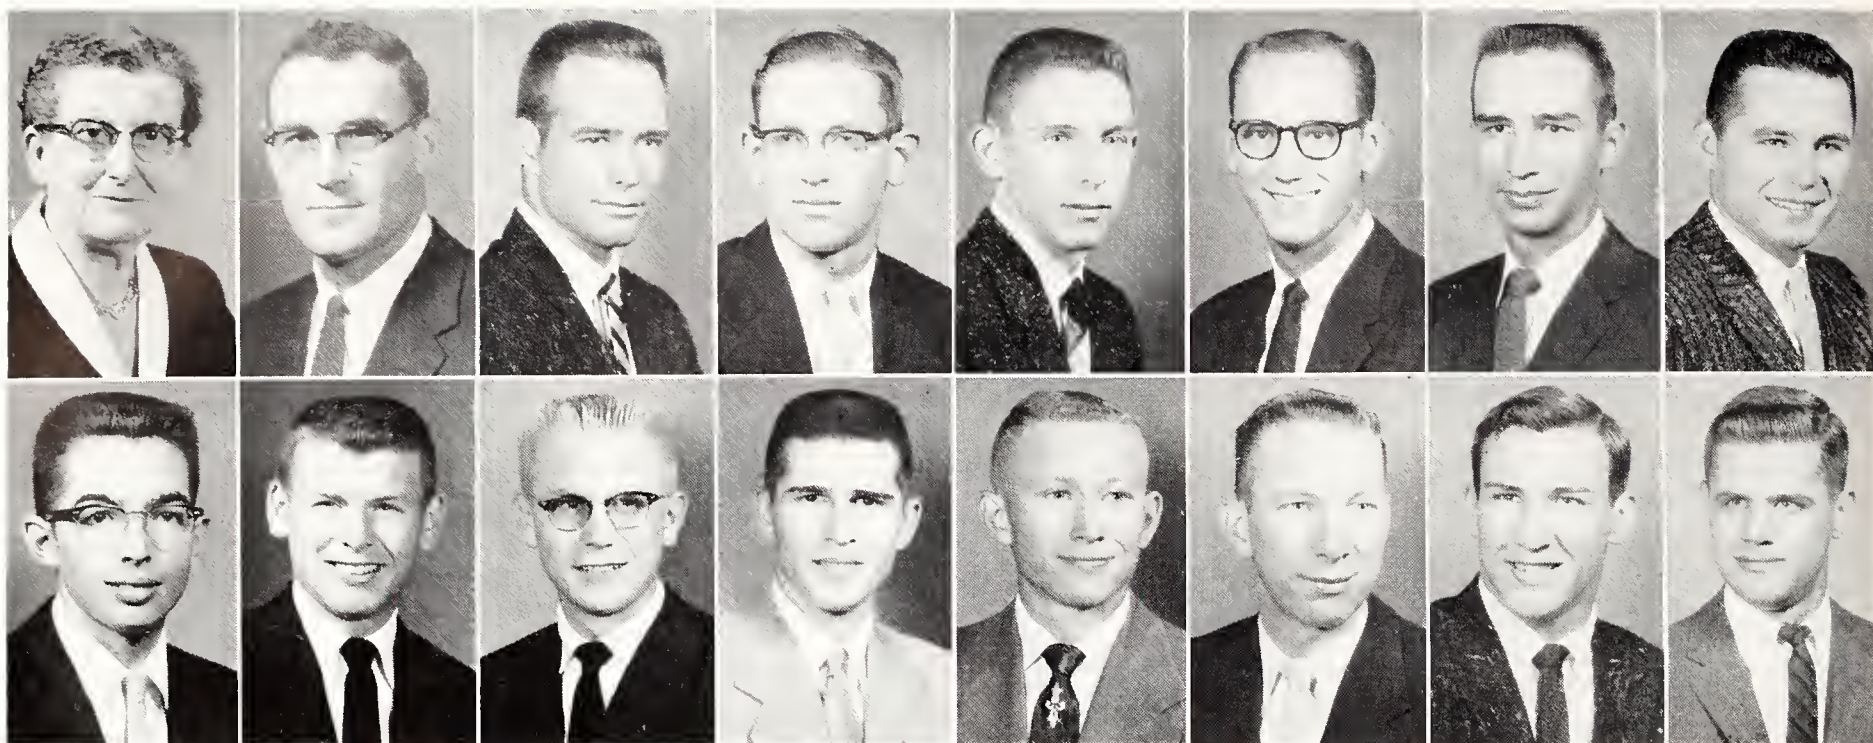

A book-and-aquarium-filled bedroom provides the setting for a discussion of tomorrow's lessons and tests.

Knitting and books are put aside to watch a favorite TV program in a Jardine Terrace living room. Families add

their own personal touches to the apartments which are decorated in harmonizing colors and with modern furniture.

Acropolis

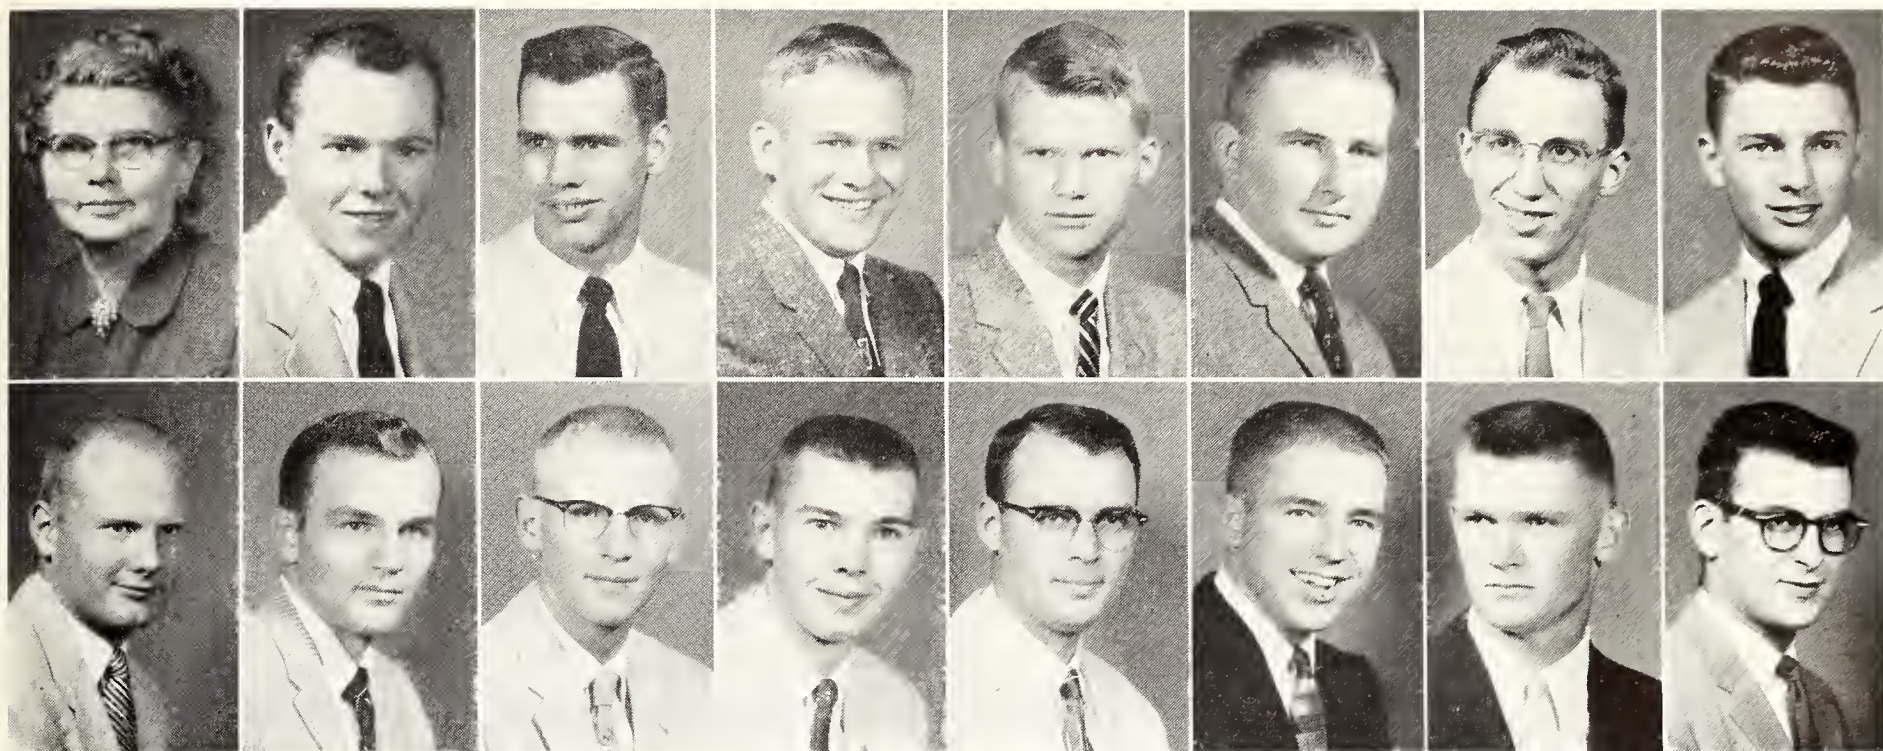

Members of the Acropolis independent organization are well represented in the various extracurricular activities. They participated in K-State Rifle Club, American Society of Civil Engineers, Masonic Club, Jazz Club, Society for the Advancement of Management, AFROTC Association, K-State Players and Ag Economic Club.

Acropolis was organized in 1950 with Mrs. Ethel Stockwell as housemother. She is still the acting housemother of Acropolis. There are now 16 members in Acropolis which marks only a small gain over last year's membership.

Basketball and volleyball are the favorite intramural sports of Acropolis. The social activities of the group included a Christmas party and a picnic on Mother's Day. The organization also constructed decorations for the Homecoming activities. Ralph Handlin headed the activities as president of Acropolis. Adviser for the house is Chester E. Peters.

Partying it up at Christmastime, Acropolis members danced beneath a crepe paper ceiling in a colorful setting.

Sigma Phi Nothing

The 16 members of Sigma Phi Nothing men's independent organized house elected Gene Allen as president to head their house for 1957-58. The housemother, Mrs. Julia Schimmels, has been with Sigma Phi Nothing since it was organized by a group of veterans in 1947.

Fall and spring are important times socially for Sigma Phi Nothing members. Members entertained with a picnic which combined a steak fry and hayrack ride. Another social function of the fall was a watermelon feed with members of Clovia. Active participants in the intramurals program, Sigma Phi Nothing captured second place in basketball in the men's independent house division. They also entered football, volleyball and softball competition.

it is the capacity of the house. President for 1957-58 was Robert Cervantez. Mrs. Nell Ingraham has been housemother at the House of Jerichos since the group organized. The house itself has four two-student bedrooms and a single bedroom plus a living and dining room for the members. The housemother's quarters include a kitchen.

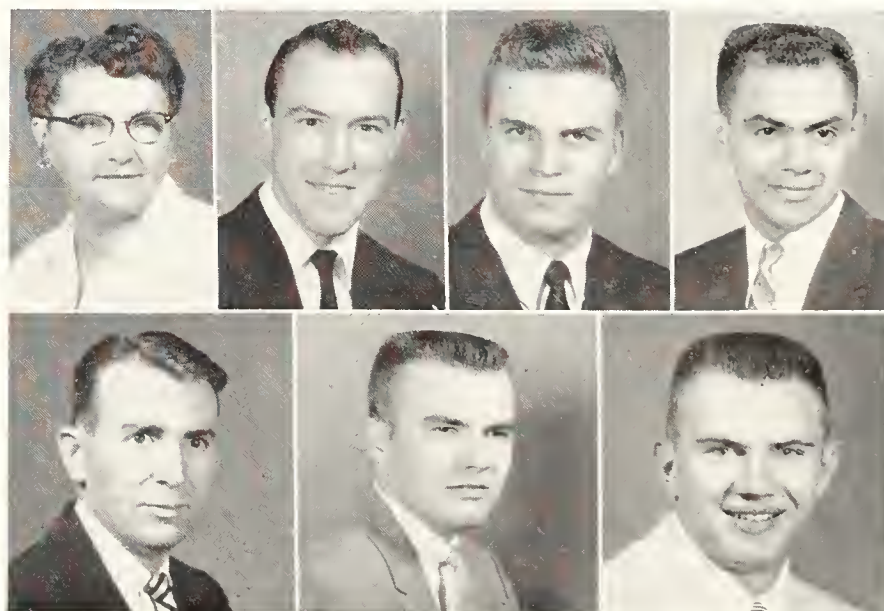

With three married members living outside the house, social activities and intramural participation were curtailed, although members often spent evenings bowling. The home of one member is Cuba. A majority of the men living in House of Jerichos are engineers. The members participated with other independent houses in making a float to represent IOHC in the Homecoming parade.

House of Jerichos

The House of Jerichos was one of the first two houses organized for independent men at Kansas State in 1939. The House of Williams also was organized that year and others soon followed.

Nine members lived in the house this year. This number has remained constant for several years because

Hills Heights

With the first year of organizing out of the way, K-State's newest organized house, Hills' Heights, has begun to participate in the various activities on campus. Hills' Heights was organized in the fall of 1956 when the need for housing for independent students again became acute. Membership in Hills' Heights has increased only three to their present total of 12.

Hills' Heights does not participate in all of the various activities due to their size and problems of organization. In intramurals they compete in badminton and other sports. Hills' Heights has representatives on the varsity wrestling and gymnastics team. They also have an entry in the independent bowling league. Hills' Heights have members belonging to the Newman Club and Collegiate 4-H Club.

The organization was active in the Engineers' Open House during the past year. Jerome J. Johnson was president for the first semester. Jim Skinner served as second semester president. Other officers were Roger Heller, vice-president; and Don Krasko, secretary-treasurer. Mrs. William Hills was housemother.

La Citadel

With 11 new members in 1957-58, La Citadel took an active part in independent house activities. The house, with a total membership of 14, participated in campus activities and intramural athletics, as well as social functions.

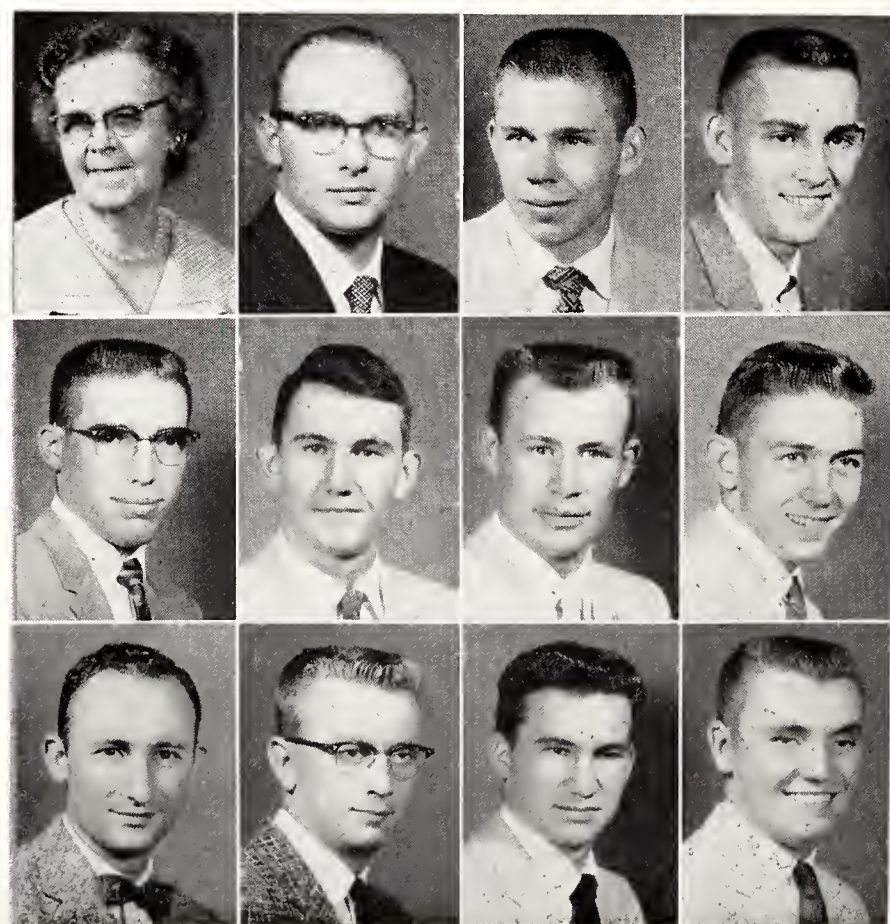

Melvin Schwartz served as president of the group during 1957-58, while Mrs. Ola G. Smith was housemother. Schwartz, in addition to leading his group, was business manager of the Student Directory.

Charles Stillwell was vice-president, Ron McCutcheon was secretary-treasurer, and Loyd Mesmer represented La Citadel on the Independent Organized House Council, to round out the officers of the group.

Members of La Citadel found time for hour dances, picnics, and exchange dinners with sororities and women's dormitories during 1957-58. The group also helped decorate the IOHC homecoming float, and participated in both intramural basketball and intramural football.

La Citadel did not come into being at Kansas State until 1954. Before that year, the house was called Hills' Heights. La Citadel serves its members, from the first year through graduate school, as a home during their college careers.

Kasbah

Six Kasbah members presently hold some type of academic scholarship. Kasbah members enjoyed a number of social events during the year with house parties and picnics heading the list. A Homecoming dance, hayrack rides, a Christmas gift exchange, and a Thanksgiving and Easter dinner were also included among the social activities. Kasbah also entered a float in the IOHC Homecoming contest.

Many of the members participated in various extracurricular activities. These included FTA, IOHC, Veterans Organization, ASME, ASAE, Pi Tau Sigma, Sigma Tau, Agricultural Association, men's glee club, Collegiate 4-H Club, K-State Players, Wesley Singers, Wesley Foundation, Sigma Theta Epsilon and Westminster Fellowship.

The organization has won the "Most Unique Chariot" title for the last three years in the Lambda Chi Alpha Chariot Relays. Kasbah now has permanent possession of the traveling trophy, having won it three years in a row. The group also participates in the various intramural athletic events.

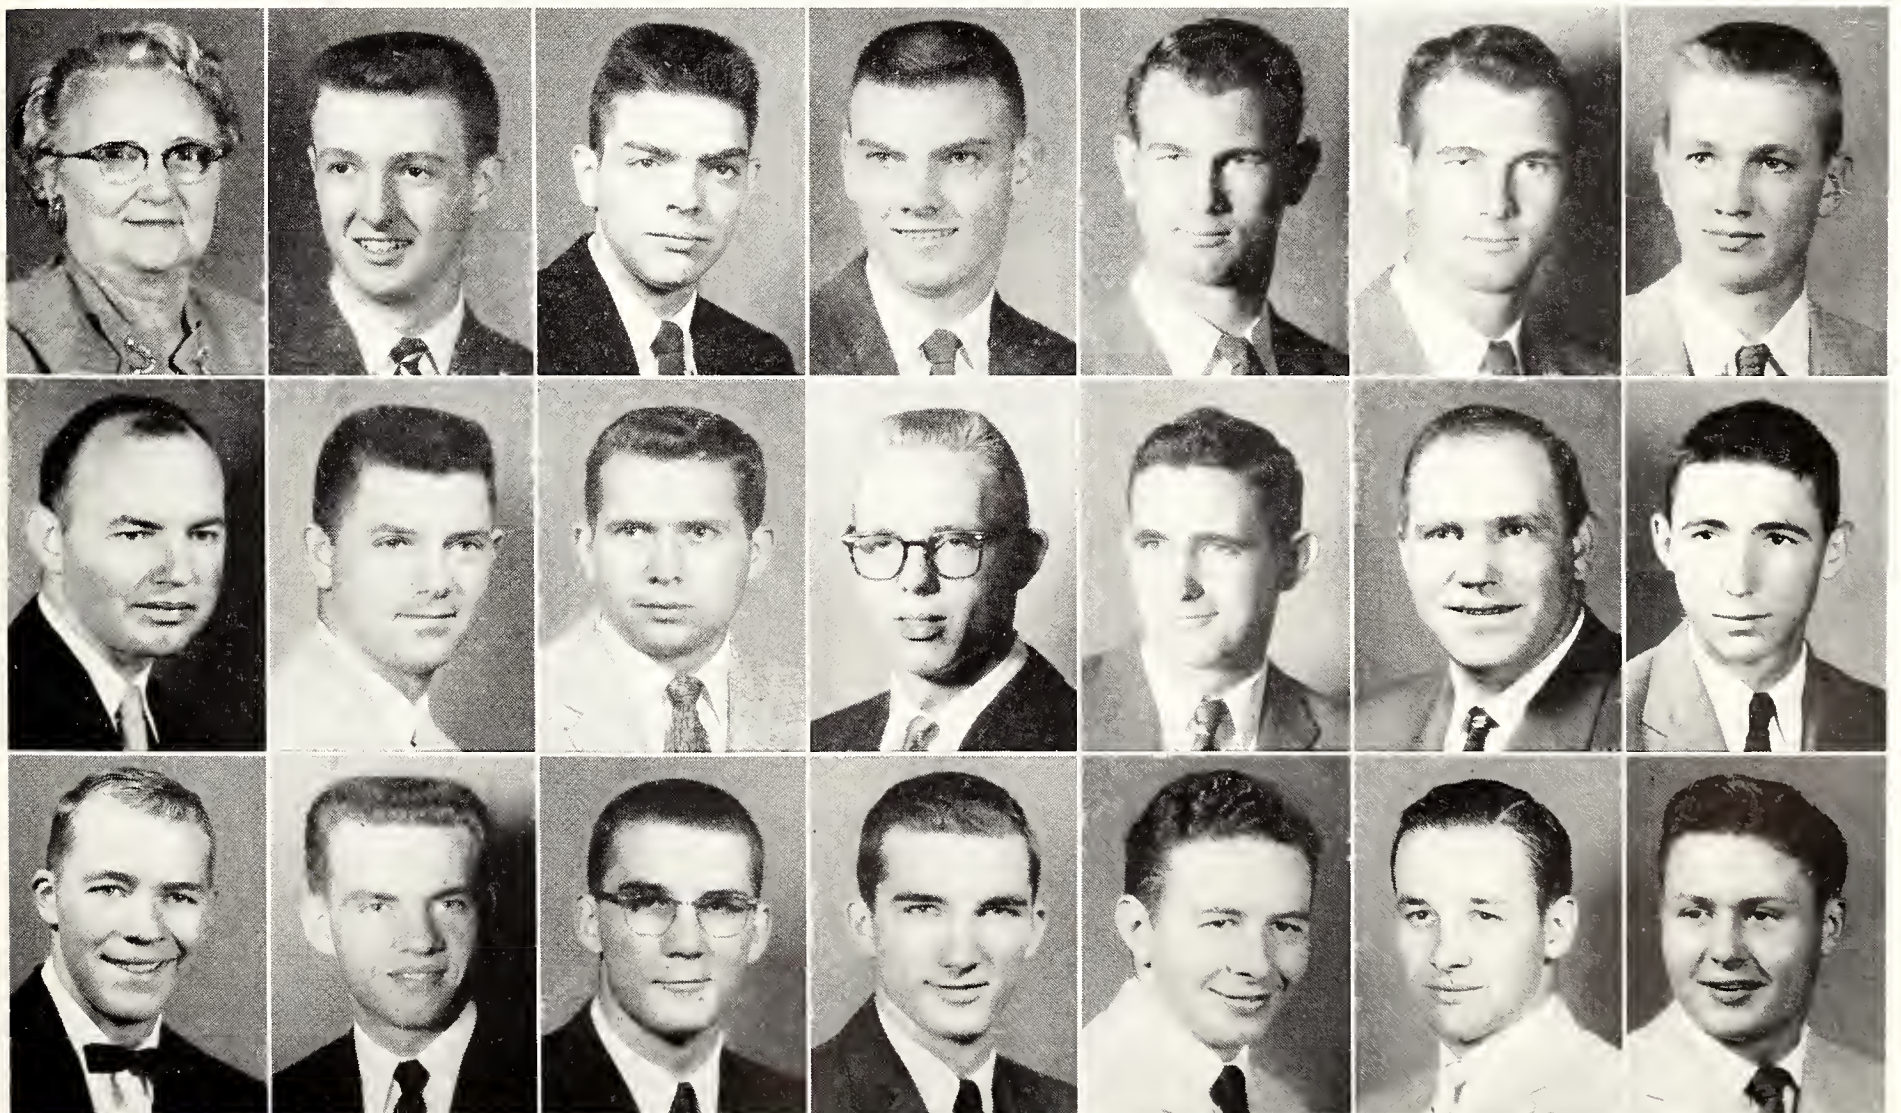

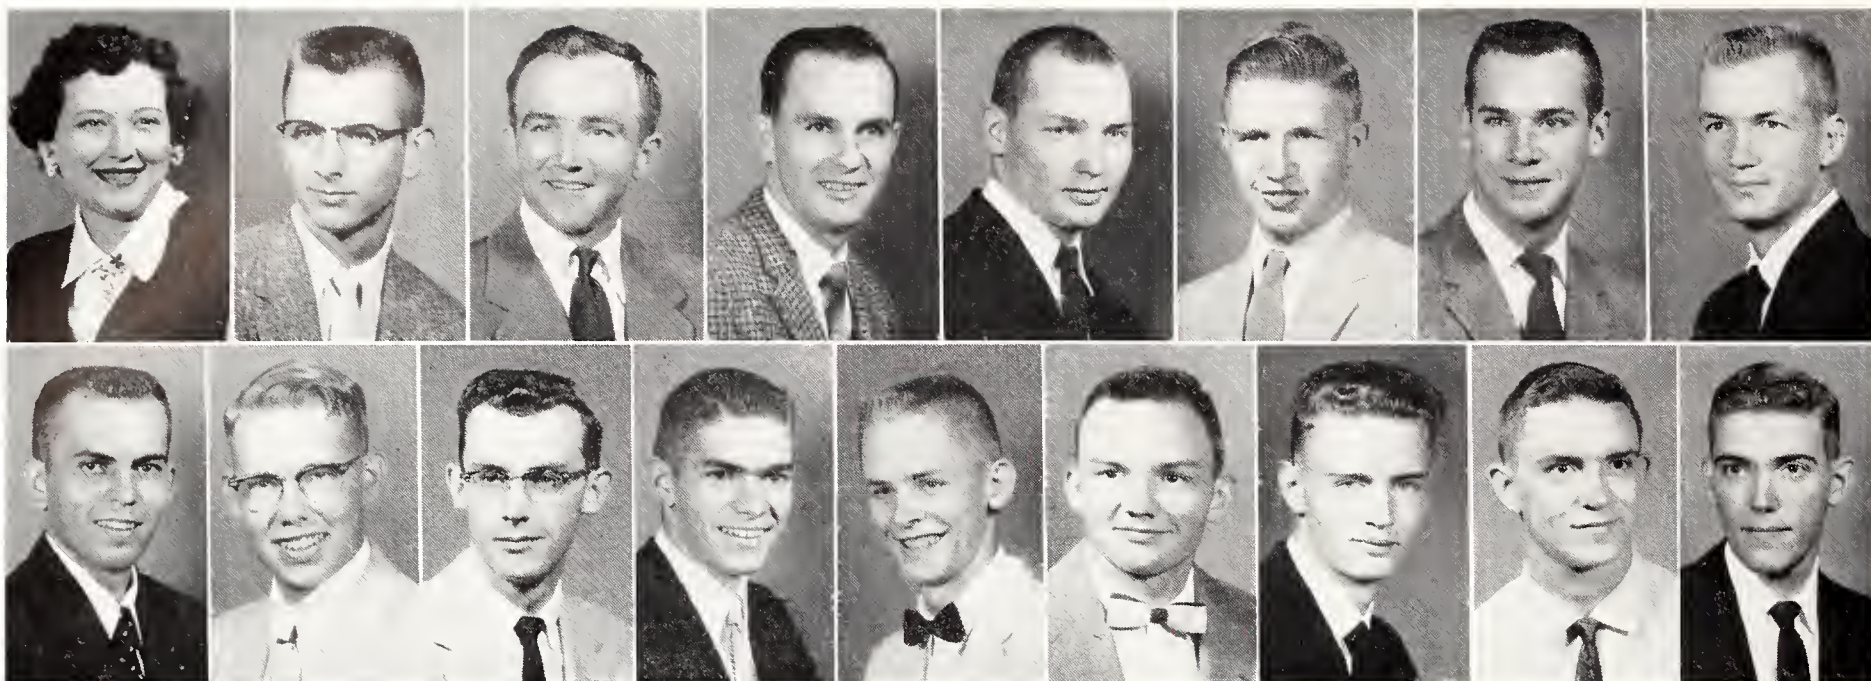

Card sharks at Kasbah. men's independent organized house. spend leisure hours during the day playing cards.

Kasbah was organized in 1954, and this year will mark the first graduation year for Kasbah. Three students will receive their degrees. Membership presently totals 20. Stanley C. Smith was president and Mrs. E. E. Rogers was housemother.

House of Brec

The House of Brec is home to 16 men on the K-State campus. It was organized in 1954 when the need for more housing for independent students became apparent. The house is located at 1414 Fairchild. President first semester was Donald Burrough. Other officers were Fred Quincey, vice president; Duane Hoover, secretary; Dean Steward, treasurer; and Larry Lytle, social and intramurals chairman.

Leon Swenson was president second semester. Other new officers were Charles Wilson, secretary; Raolf Osland, treasurer; and Duane Hoover, social chairman. Housemother for House of Bree is Mrs. Frances Brecheisen.

The group participated in the Independent Organized House Council program. They helped with the IOHC float for Homecoming, attended a dance for independent students at the end of first semester, and participated in the IOHC scholarship program where a scholarship award is presented to the house with the highest grade average. They also attended social events this spring and took part in other activities sponsored by IOHC.

Members entertained their dates at a Hawaiian party this spring. A painted background of palm trees and a ship provided the setting for the party. Pineapples, colorful flowers and Hawaiian travel posters added to the atmosphere. The boys also entertained guests with an informal house party at Christmas.

The group participated in the campus intramural program. House teams were organized for football, basketball, volleyball, tennis, and horseshoes. Members are active in Alpha Kappa Psi, business administration honorary fraternity, and the Jazz Club. One member is a photographer for the K-State Engineer magazine. Many friendships have been formed among members in the house and with members of other independent houses through various social events.

Santa Claus was comin' to the House of Brec and everyone pitched in to decorate the tree in preparing for his arrival.

A "rattling" typewriter doesn't seem to bother engineers as they hit the books in their room at House of Williams.

House of Williams

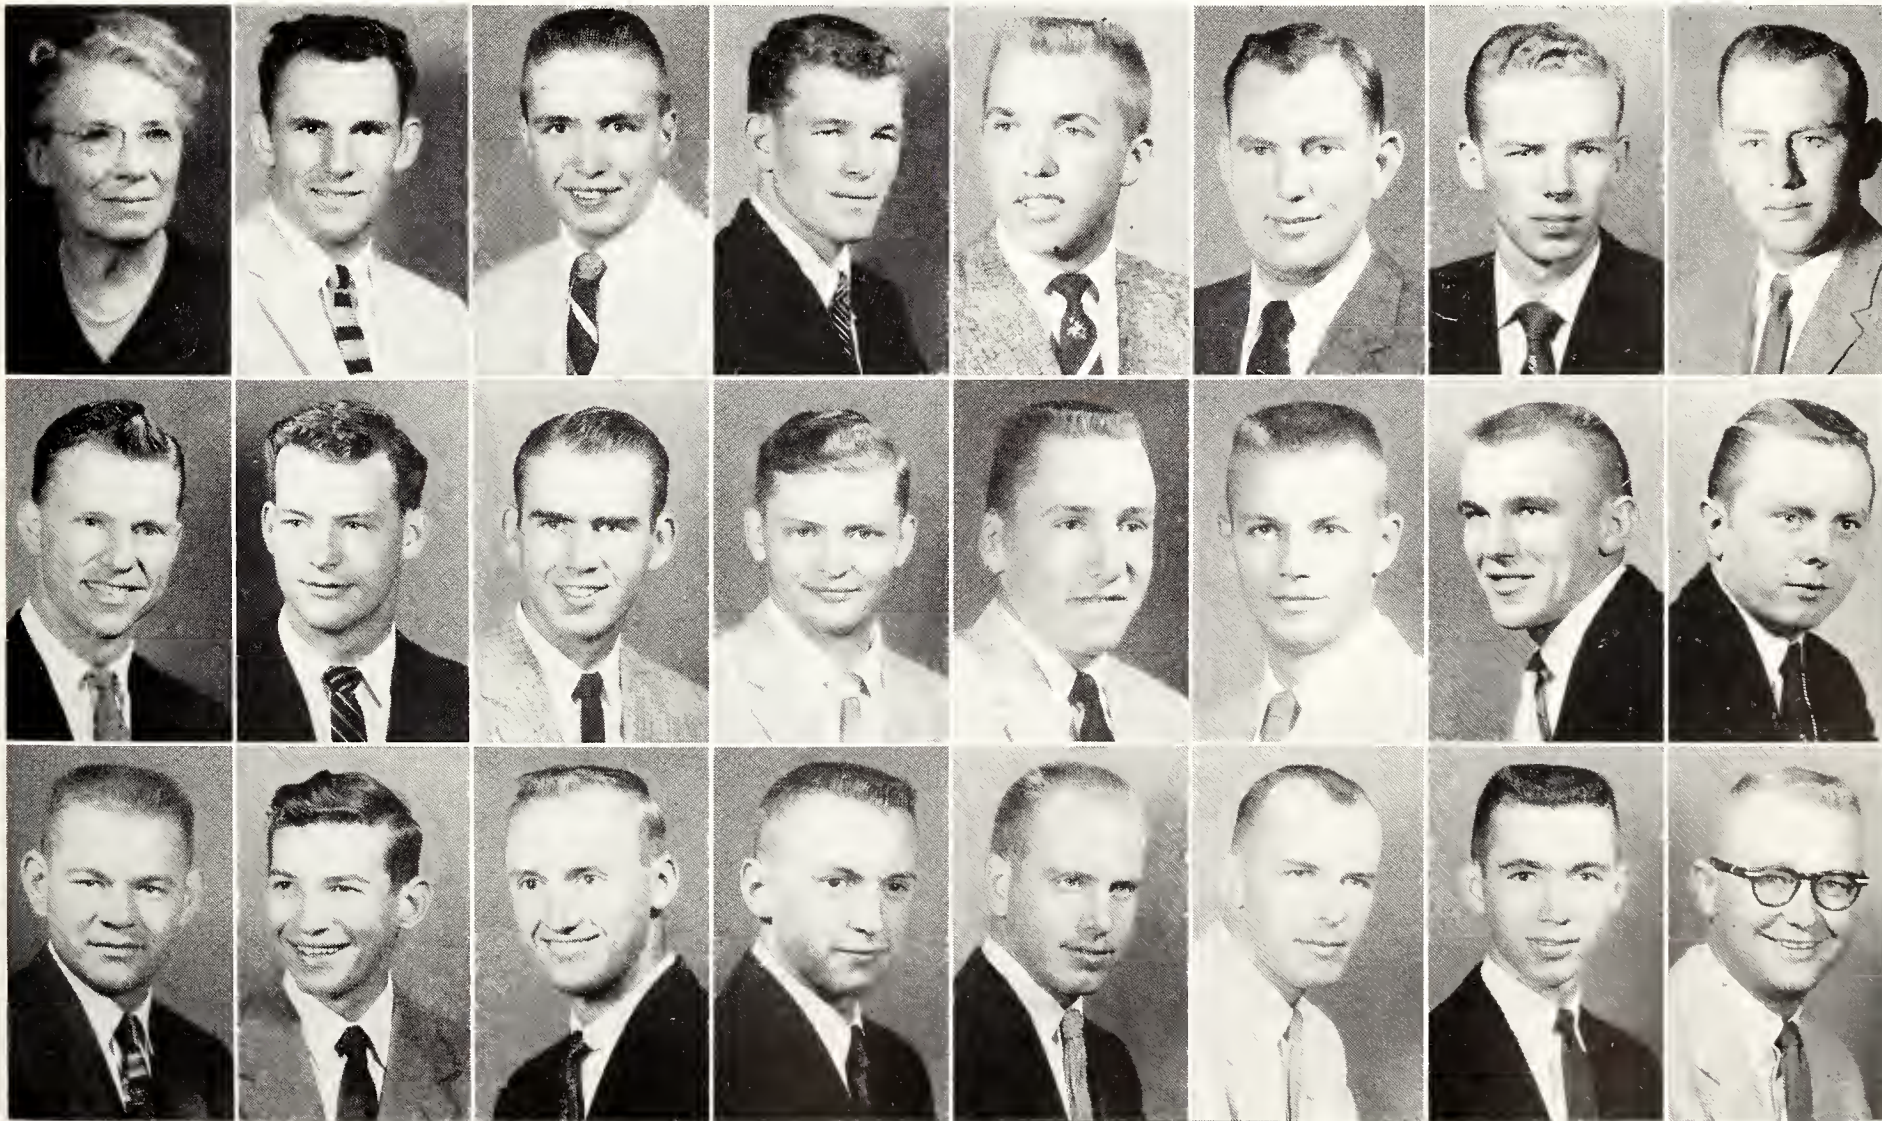

The House of Williams had a busy social schedule for the past year. The independent organization had a Christmas party, spring formal, a hayrack ride and an open house for the alums during Homecoming. House of Williams is the oldest independent organization at K-State, as it was founded in 1939.

The group was also active in various clubs on the campus. Its members participated in Alpha Mu, Engineer's Open House, Ag Week, Sigma Tau, Kansas State Engineer and Sigma Theta Epsilon. Gary Swenson was president of Wesley Foundation; Bob McFall was president of IOHC; and Dick Peterson was a member of Student Council and editor of the K-State Engineer. Peterson was the group's FMOC candidate. House of Williams also participated in all of the intramural sports and placed second in football.

Membership in the House of Williams presently totals 23. This marks a slight gain over last year's membership. Dick Peterson was president, and Mrs. Katherine N. Williams was housemother.

O. K. House

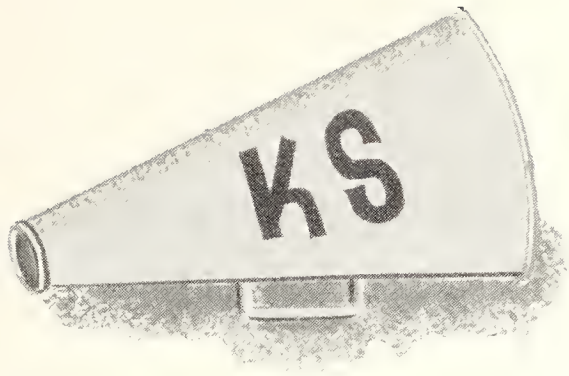

Already the largest independent organization on the campus, the O. K. House has increased its membership to 44. An annex was added last year to accommodate the additional number.

The O. K. House won the IOHC scholarship plaque for the 1957 spring semester. One of the members had the highest grade average of the Phi Kappa Phi initiates and was selected to give the response for the group. They also placed third in independent intramural competition.

Social events for O. K. House members included hour dances, IOHC special functions and picnics. The house also started the custom of holding a "toy exchange" each Christmas. These toys are sent to an orphanage. Nathan Bolls was president of the O. K. House, and Mrs. Oliver E. Kientz was housemother.

Relaxing O. K. House members take in the sights offered to them by the wonder of their living room television set.

Book 3:

ACTIVITIES

Students discover that knowledge can be found in places other than textbooks and classrooms. They become the leaders of school activities, the audience for college plays and assemblies, the crowd at Union dances, the supporters of football and basketball and baseball teams, the campus queens, the editors of student publications and the organizers of special campus events. And the best of them set out to prove that greatness may come from anywhere when it is free to come, and they frequently succeed in proving it. Meetings conflict with class schedules, and classes are sometimes cut . . . but these are the times when the student is gaining a knowledge not from his books, but from the world of practical experience, the world which he will enter on his ability to live with his fellow men as well as on his technical knowledge. There are afternoons when the work put into extracurricular activities seems endless, but by balancing and budgeting hours . . . there is somehow always enough . . . time.

ATHLETIC COUNCIL—TOP ROW: H. B. (Bebe) Lee, N. D. Harwood, Leon R. Quinlan, John G. McEntyre, Don P. Hoyt. BOTTOM ROW: Hubert Guest, Dick

Athletic Council Directs Policy

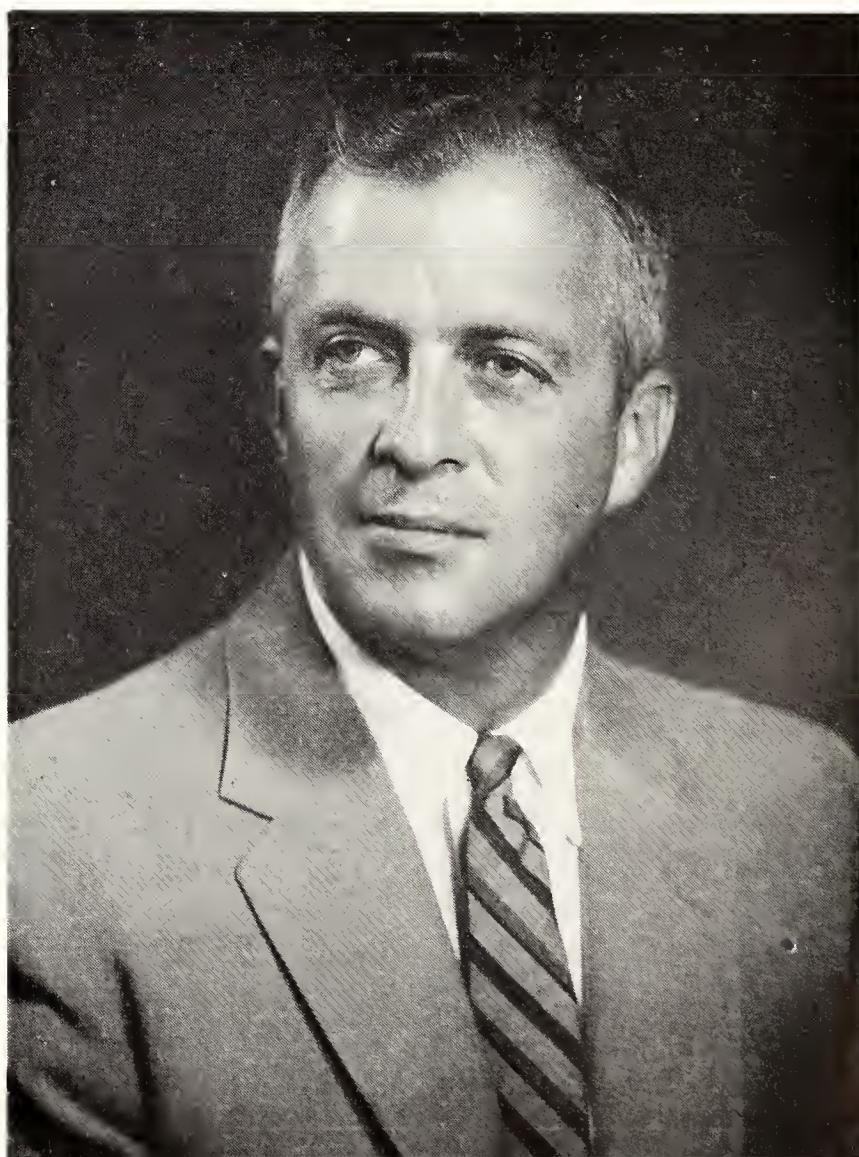

After two full years as Kansas State Athletic Director, H. B. (Bebe) Lee was firmly established both as a citizen of Manhattan and in his job in 1958. Lee took the head job in K-State athletics from Larry (Moon) Mullins during the spring of 1956 after spending six years as Colorado University basketball coach.

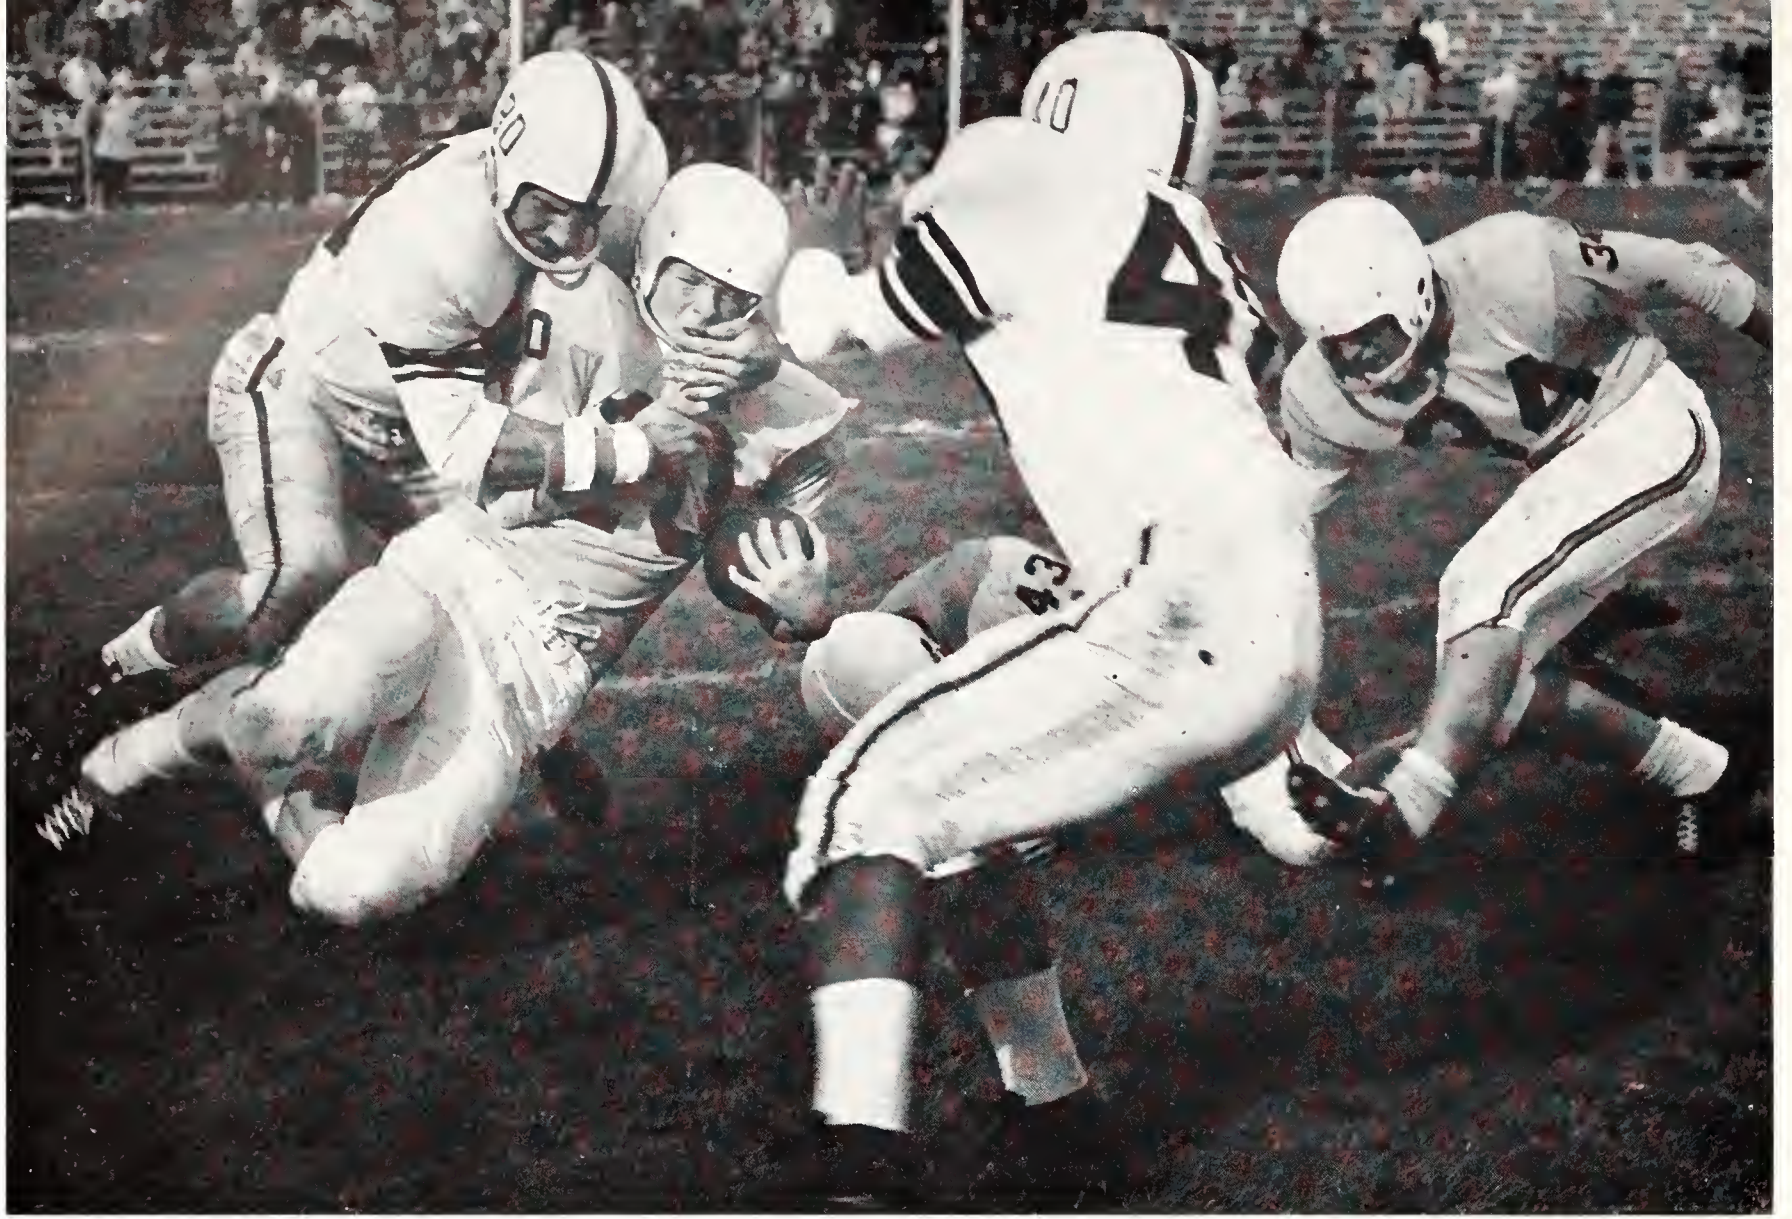

Fritz Knorr served Kansas State as assistant athletic director in addition to being wrestling coach during 1958. Frank Mosier was ticket manager for Wildcat athletic events, and Paul DeWeese was sports publicity director. Mosier processes upwards of 100,000 ticket requests during the course of a year—mostly for K-State football and basketball games. DeWeese covers all Wildcat athletic events as sports publicity man.

The Athletic Council, with student, faculty, and alumni representation, is the chief policy-making body for Kansas State intercollegiate sports.

Paul DeWeese, Fritz Knorr and Frank Mosier were key behind-the-scenes figures in K-State athletics.

Head man in Kansas State intercollegiate athletics is H. B. (Bebe) Lee, former Colorado University basketball coach.

Grid Wildcats are Long on Willingness, Desire—Mertes

Outracing Brigham Young defender Raynor Pearce, K-State end Jim Luzinski gathers in a pass in the 36-7 Cat win.

"Never have I seen a squad so willing and with such tremendous desire to come back week after week. This was one of the toughest squads Kansas State has ever had."

So said Coach Bus Mertes after the 1957 football season at Kansas State had run its course. Mertes paid that tribute to a numerically small band of Kansas State wildcats who finished their season with a 3-6-1 record (2-4 in Big Eight competition). However, that record does not tell the whole story. The Cats met two teams, Oklahoma and Michigan State, who were No. 1 in the nation at the time of their meeting. Against Oklahoma, K-State put forth a tremendous effort—and lost 13-0. Against the Spartans, K-State led, 9-6, going into the final quarter before MSU depth took charge, and the Spartans won, 27-9.

A pair of seniors, Don Zadnik and Jack Keelan, dominated individual grid honors at Kansas State in 1957. Zadnik, a 190-pound end, was named to All-Big Eight teams by Associated Press, United Press, and International News Service. He was named As-

sociated Press honorable mention All-American, and to all-opponent teams by Oklahoma and Michigan State. Keelan, a 224-pounder, was an all-conference tackle pick of Associated Press and the Omaha World-Herald. He was named to the second team on the U.P. squad and was given honorable mention All-American rating by A.P. A pair of seniors and a junior also earned honors. Ralph Pfeifer, senior halfback, and senior center Ellis Rainsberger were selected for the United Press second All-Big Eight team, Rainsberger was an all-opponent pick by Missouri, and junior guard Gene Meier was named to an all-opponent team by College of the Pacific.

Wyoming Edges K-State, 12-7

K-State opened its season at Laramie in a game with Wyoming University. Halfback Gene Keady started scoring in the contest with a 70-yard jaunt from scrimmage in the first quarter. Don Zadnik kicked the extra point, and the Wildcats were off to a 7-0 lead. However, Wyoming cracked for two touchdowns in the second period, going 95 yards for one and 72 yards for the other. K-State tried to get back in the ball game before the half ended, but time caught the Wildcats on the Wyoming two-yard line. Though Kansas State owned a distinct statistical advantage, the Cats could not score again, and the game ended, 12-7.

Brigham Young University was the next K-State foe in the Cats' home opener. Gene Keady opened scoring in the 36-7 rout with 9:10 left in the first quarter, and after that, it was all Kansas State. Ralph

Oklahoma finished first in the Big Eight, followed by Kansas, Missouri and Colorado (tie), Kansas State and Iowa State (tie), and Nebraska. Oklahoma State, officially a member, was not eligible to compete for the title.

Pfeifer scored twice during the contest, once on a 24-yard pass interception. The Cats led, 14-7, at halftime and powered to 345 rushing yards and 91 passing yards.

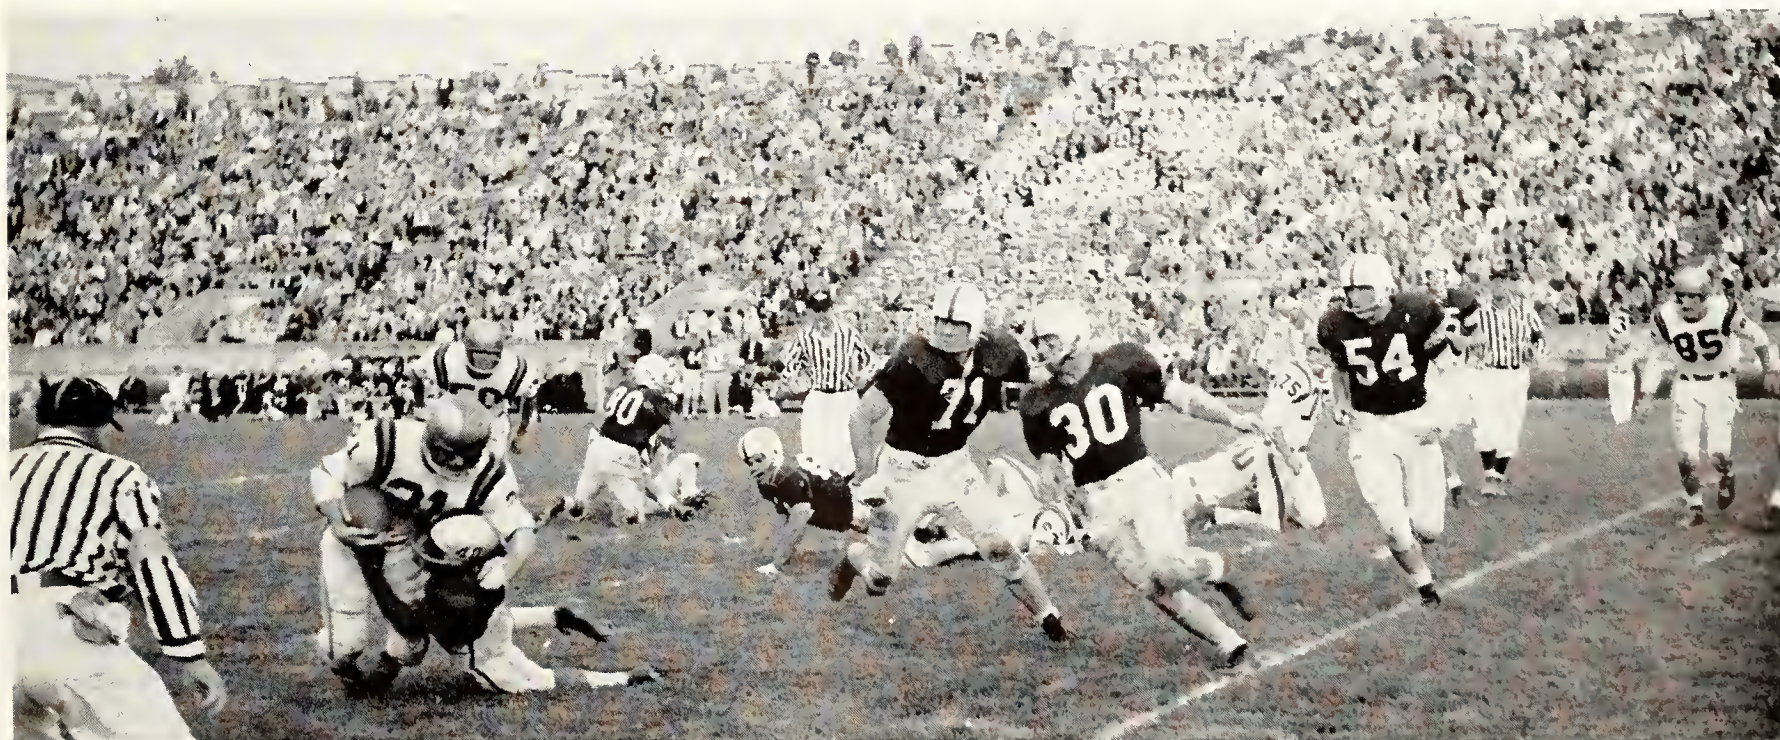

The following Saturday, K-State opened its conference competition with high hopes for a successful season and a high Big Eight finish. However, Nebraska won its only game of the season with an upset win, 14-7, over the Cats. The two teams battled through a scoreless first quarter, but the Huskers scored in the second period to lead 7-0 at halftime. Early in the third quarter, the Wildcats tied the score, 7-7, on a 33-yard pass play from Dick Corbin

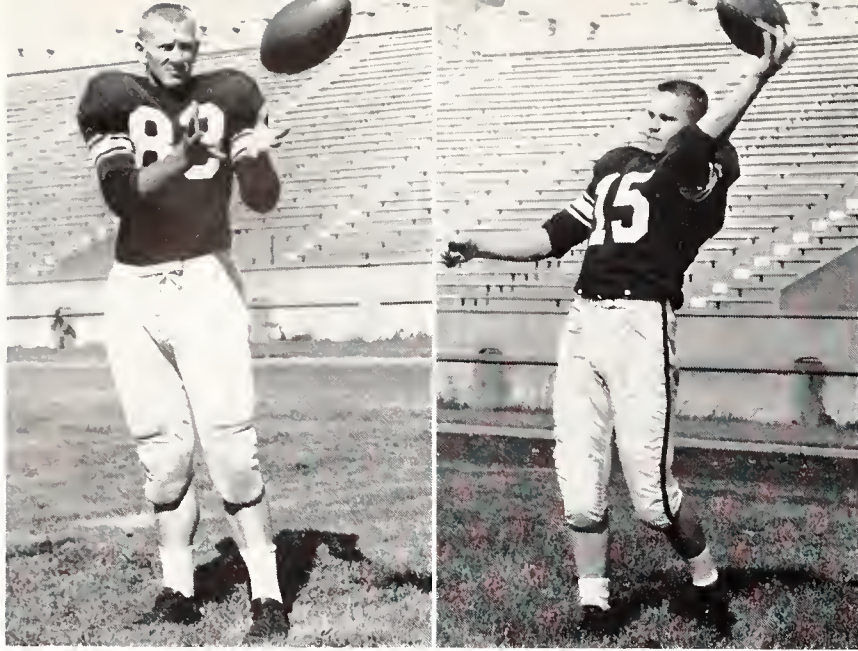

to Keith Wilson and a Don Zadnik conversion. But NU scored and converted with :30 left in the third period. During the fourth quarter, a late Cat bid was stopped short on the one yard line.

College of the Pacific was the next K-State foe, and the Cats battled the favored Tigers to a 7-7 tie on the Pacifics' home field. However, K-State dominated the statistics again, getting 215 total yardage to 183 for COP. Ralph Pfeifer, starting his first game of the season, led Kansas State backs with 54 yards rushing. He and Ray Glaze did most of the work in the Cats' scoring drive, with Glaze getting the touchdown. The series began after COP had

COP's ace passer Tom Flores was held to a meager 16 yards for the game, but one of those yards was good for the Pacific's touchdown in the third period. Flores passed for the touchdown after the COP running attack had bogged on the K-State one. In the fourth quarter, Kansas State moved to the COP one, but a fumble killed touchdown hopes, the game ending 7-7.

In the Cats' second Big Eight action of the season, Colorado came to Manhattan and ruined K-State's homecoming, 42-14. The game was doubly disappointing, however, when senior halfback Gene Keady injured a knee and was lost for the season. The Buffs jumped into a 7-0 first quarter lead and increased it to 21-0 by halftime. However, K-State fought to two

fourth-period touchdowns, one of them coming on a 62-yard pass interception by Ralph Pfeifer.

Already half through the season and with just one win and a tie to show for their efforts, the Wildcats had reason to be disheartened. But Coach Bus Mertes' team traveled to Iowa State and a contest with the Cyclones, surprise team of the conference at the time. The Cats scored early, with Tony Tiro going over, and Don Zadnik converting. Iowa State tied the game before halftime, but Kansas State took charge again as the second half opened and marched 80 yards to a touchdown with halfback George Whitney scoring. Zadnik again converted.

Iowa State fought back then, scoring a field goal in the third quarter. During a good part of that third quarter and all of the fourth, Iowa State put the pressure on the Cats. Playing a defensive game, K-State stopped repeated Cyclone attempts to score. K-State punters Tony Tiro, Ray Glaze and Keith Wilson, plus the unyielding play of the Cat line, staved off defeat.

Oklahoma was the next K-State foe. Rated No. 1 in the nation at the time, the Sooners came to Manhattan looking for an easy win. But the Wildcats made things extremely difficult.

Blocked Kick, Fumble Aid OU

Oklahoma scored with 7:18 remaining in the first half, though it took them 10 plays and a fumble recovery to do it. After a 7-0 halftime score, the Sooners turned a blocked Keith Wilson punt and a 20-yard pass play into a second touchdown. The Cats penetrated to the OU 27-yard line as the fourth quarter started, but could put together no better threat.

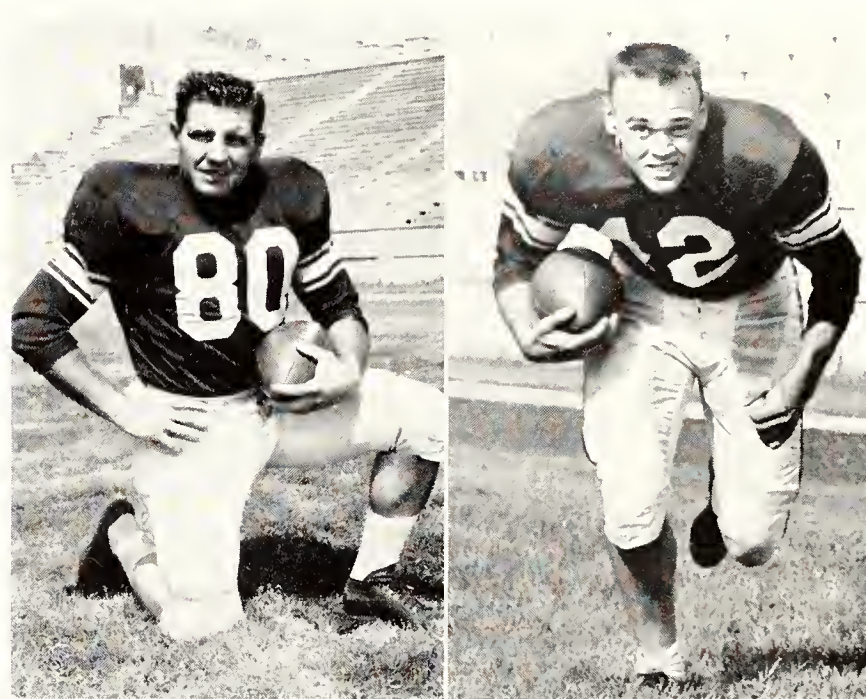

K-State looked eagerly toward its game with arch-rival Kansas, but the Cats were disappointed after dominating play most of the way. The Jayhawks won it on a freak play and a pass with :18 left in the

game. K-State led, 7-0, at halftime, getting the touchdown after a 34-yard punt return by Keith Wilson to the KU 11. Tony Tiro scored the touchdown, and Don Zadnik converted.

Kansas got into the game when Don Feller scored on a 73-yard pass. The play began as a running play, but crossed signals left KU quarterback Duane Morris with no ball carrier, and he shuffled the ball across the line of scrimmage to Feller. Two Kansas linemen were downfield to block, unseen by the officials. Later, as time ran out, Morris hit Homer Floyd from the Kansas State 40 for a touchdown, and a 13-7 loss for the Wildcats. K-State again dominated the statistics, rolling up 19 first downs and 221 rushing yards.

Cats Run Wild at Missouri

Again faced with a No. 1 team in the nation, Kansas State traveled to East Lansing and a game against the Michigan State Spartans. The Cats put forth a tremendous effort, leading, 9-6, until the Spartans scored with 5:37 left in the game. From that point, it was a story of superior MSU depth and tired—but still determined—Kansas State play. The Spartans tipped the Cats, scoring 21 points during that last 5:37, with the game ending 27-9. Mertes said of his Wildcats after the contest: "They gave it everything they could be expected to have, and then threw in a little extra."

Michigan State scored first, but Don Zadnik tackled MSU All-American Walt Kowalczyk in the end zone for two points before the first quarter ended. Keith Wilson swept left end for five yards and touchdown in the second quarter, with Zadnik kicking the extra point. The third period was played in Spartan territory, with the K-State defense holding MSU advances to a bare minimum. However, Keith Wilson went back to punt and took a bad pass from center in the fourth period, and Michigan State took over on the K-State 11. Three plays later, the Spartans had scored, and they ran through the tiring K-Staters for two more t.d.s as the clock ran out.

Wildcats Are Big Eight Champs

Kansas State's basketball team swept to a surprise Big Eight title in 1958, dethroning favored Kansas and seven-footer Wilt Chamberlain, and recording a fourth-place finish in the national NCAA playoffs.

The Wildcats won 10 straight Big Eight games, and reached a season's peak with a 20-1 mark before a late-season slump pulled them from a favored position at the NCAA finals in Louisville to the fourth-place finish. The Cats finished with a 22-5 season mark, but the 20-1 standing two games before the regular season closed was the best ever recorded by a K-State team at that point.

Coach Tex Winter's team, led by All-Americans Bob Boozer and Jack Parr, opened the season with nine straight wins. Kansas finally toppled the Wildcats in the finals of the Big Eight Christmas tourna-

Cats Reach High Point at KU

However, the Cats reached their high point early in February when they whipped KU at Lawrence, 79-75, in double overtime. The win gave K-State an edge in the conference race, and the Wildcats wrapped up the crown with a 68-51 win over Oklahoma in Manhattan that pushed their Big Eight mark to 9-0. After defeating Missouri, the Cats lost two straight—to Nebraska and KU—but the race was all over by then. Kansas was upset by Nebraska and Iowa State, and lost to Oklahoma early in the season when Wilt Chamberlain was ailing.

Following those two late-season losses, the Wildcats rallied to whip Cincinnati in the NCAA regionals at Lawrence, in what many considered the game that would decide the national playoffs. Then the Cats beat Oklahoma State to gain the finals at Louisville. However, the favored K-Staters slumped again, but finished fourth in the nation.

Things were a bit crowded at the Kansas-California. Kansas State-Washington doubleheader in Ahearn Fieldhouse in

December—but 14,000 fans were still able to enjoy watching the nation's top two teams at the time, KU and K-State.

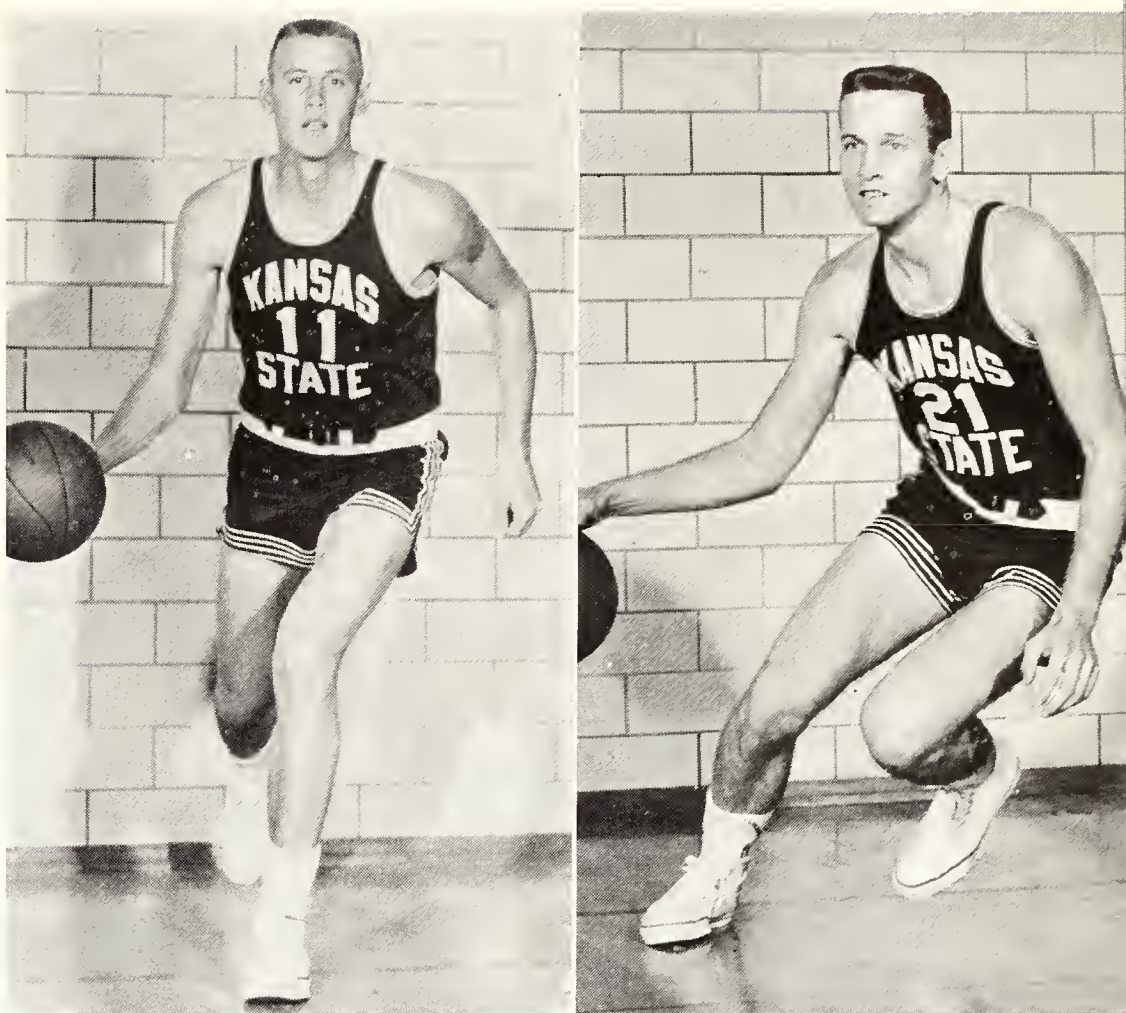

Two Cats, junior Bob Boozer and 6-9 senior Jack Parr, set all-time K-State records in 1958. Boozer hit 544 points to top Dick Knostman's single-season total of 476 in 1953. Parr finished the season with a career total of 1,184 points to top Knostman's record of 1,083.

Besides Boozer's All-American rating by all major wire services and several national magazines, other K-Staters were honored. DeWitz and Parr appeared in post-season all-star games, and Abbott was named an alternate to one. DeWitz, Parr and Boozer were named to first-team all-Big Eight squads. DeWitz, Parr, and Boozer were named to the all-tourney team at the NCAA regional at Lawrence, and both DeWitz and Parr made All-American honorable mention. Coach Tex Winter was named "Coach of the Year" by United Press.

The Hoosiers, eventual Big Ten champs, died hard, 66-61, on their home floor. Big Bob Boozer led the Wildcats to the win with 27 points and 19 rebounds. Before returning to Manhattan, Kansas State stopped by Lafayette, Ind., to whip Purdue, 79-73. Boozer scored 25, but sophomore Wally Frank stole the spotlight. He came off the bench to lead both teams in rebounding with 11, and scored 18 points.

Parr Hits 25 Against Hawkeyes

On their home floor again, the Wildcats met their third straight Big Ten opponent—and won their fourth straight game. Iowa was the victim, 86-69. Jack Parr had his best game of the season in scoring with 25, and led rebounders with 16. a doubleheader, with Kansas and Washington playing a second game. Both Kansas teams won, Kansas State by a 58-44 margin. Boozer hit 22 points and pulled down 14 rebounds, while Hayden Abbott got 18 points and 11 rebounds. The following night, the four teams shifted to Manhattan and switched opponents. Both Sunflower State teams again won, with K-State whipping Washington, 70-63, after leading, 41-27, at halftime.

K-State Wins 8th, 9th in Row

With seven straight wins, the Wildcats traveled to Kansas City for the conference pre-season Christmas tournament. First K-State opponent was Missouri, and the Wildcats took the Tigers, 50-41. Jack Parr hit 18 points and Bob Boozer 15, while each got 16 rebounds. Second-round foe Nebraska fell to a K-State onslaught, 88-57.

bitter rival—Kansas—for the tourney championship. Before gametime, starters Hayden Abbott and Bob Boozer came down with intestinal flu. Boozer played through part of the first half before retiring, and Abbott did not play at all. The Jayhawks won, 79-65. Wilt Chamberlain scored 38 points for the winners, while Wally Frank hit 18 and Roy DeWitz 16 for K-State.

Back on their home floor, the Wildcats edged hot-shooting Minnesota, 72-71, after the new year. Bob Boozer hit 27 points and got 18 rebounds in the contest, but was nudged out of the spotlight by Don Matuszak. The little guard hit 14 points for the game, most of them in the closing minutes, to insure a K-State win.

Five days later, the Wildcats opened conference

play in Ahearn Fieldhouse against Nebraska. Jack Parr led the Cats to a 74-59 win with 20 points and 20 rebounds. His rebound total was the best of the season for a K-Stater. Next outing, the Cats moved their season record to 12-1 and their Big Eight mark to 2-0 at the expense of Oklahoma, 64-60. The game, played at Norman, was in doubt all the way, and State had to resort to hot shooting at the free throw line to win.

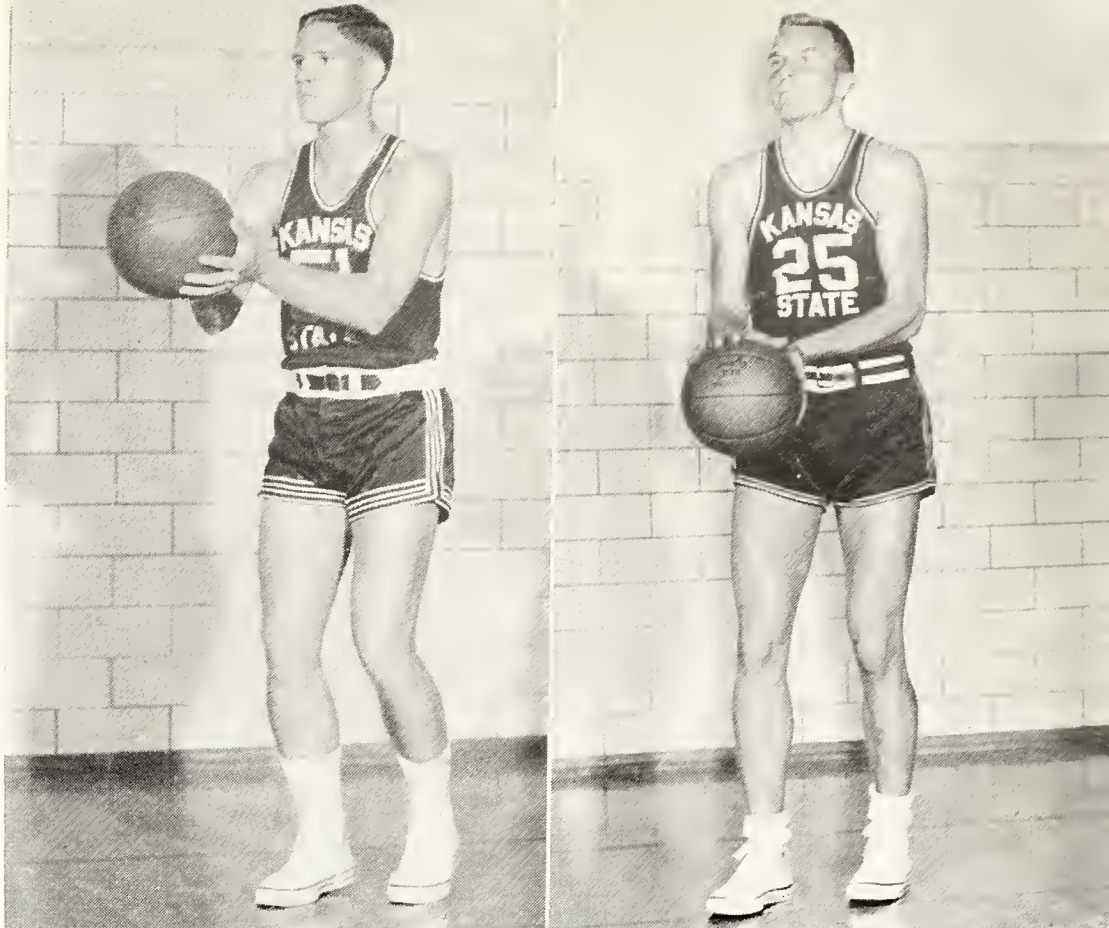

DeWitz Ramrods Win at Ames

Still looking at a rocky road to any title hopes, the Cats journeyed to Ames and to what figured to be one of the toughest road tests of the season. But Kansas State had little trouble handling Iowa State, 64-54. Roy DeWitz took command by scoring 18 points.

Next outing was in Ahearn Fieldhouse, and Colorado was the opponent. The Wildcats made short work of the Buffs, getting off to a 44-31 halftime lead and winning, 83-54. Bob Boozer and Jack Parr teamed for 47 points and 19 rebounds.

Two days later came the supreme test—Kansas' Jayhawks at Lawrence. But Coach Tex Winter's athletes were ready, and they ran to a 41-28 halftime lead. However, in the second half the Cats slowed their game to protect that big lead—and the Hawks caught them, then went ahead. But the Wildcats tied the game, then won it in two overtimes, 79-75. out-rebounded the fabulous Wilt Chamberlain, 15-14, and set a new record for K-State guards in the process; Bob Boozer turned in a 32-point performance to outscore Chamberlain, who got 25; Jack Parr hit 15 points, but shone even more on defense—the 6-9 Cat blocked several of Wilt's shots. The win lifted K-State to a 5-0 conference mark, and dropped the favored Jayhawks to 2-2. It also sent K-Staters in Manhattan on a victory celebration. Somewhere near 3,500 fans built a bonfire at the intersection of 12th and Moro in Aggieville, pulled down two utility poles, blocked traffic, and later met the returning heroes in Ahearn Fieldhouse.

Back on their home floor once more, the Cats met Iowa State before a capacity crowd of 12,500, and handled the Cyclones, 77-70. K-State opened a 40-30 halftime edge, but ran into trouble in the second period. However, Jim Holwerda came off the bench and hit three of three from the field to insure the win. K-State Season Mark Hits 20-1

Still on the road, the Wildcats ran their season mark to 18-1 and their conference record to 8-0 at the expense of Missouri, 82-61. Boozer hit 20, Parr 18, and Abbott and Don Matuszak 13 each.

At home, the Wildcats met two Big Eight teams and ran their conference record to 10-0. Oklahoma was the first victim, 68-51. Bob Boozer hit 23 points and Jack Parr 17. Missouri was the next victim, 86-75. In a rough game that saw two players ejected, Boozer hit a high of 35 points for the season. Wally Frank, starting in ailing Jack Parr's place, got 14 points and 12 rebounds.

With a 20-1 season mark, now, and a 10-0 Big Eight standing, the Wildcats journeyed to Lincoln to meet the Nebraska "giant killers." NU had knocked off Kansas, 43-41, in its last outing, and the Huskers were primed for K-State, the No. 1 team in the nation. They did it. Final score was 55-48, with Parr out again. ed Kansas. The Hawks, far out of the conference race with four losses, won, 61-44. KU opened an early 8-0 lead, and the Cats could never catch up. They closed the gap to five at 47-42 late in the second half—mostly on the efforts of Roy DeWitz—but it was too late by then, and the Hawks padded their lead on free throws and layups off the pressing K-State defense.

Coach Tex Winter promised Kansas State fans a revival of the kind of basketball his team was capable of playing for the up-coming NCAA playoffs, and when the Cats traveled to Lawrence to meet favored Cincinnati, they were ready. Many felt that this game carried with it the national championship, and the Cats won it, 83-80. The game was a see-saw affair with K-State getting leads as big as seven points in the second half. to win in regulation time. Robertson drew a foul off Bob Boozer under the Bearcat basket with one second showing on the clock and K-State in the lead, 74-73. The Cincy star tied the game, then missed his second free throw. Kansas State won in overtime with Boozer getting 24 points, Jack Parr, 17; Roy DeWitz, 15; and Wally Frank, 12. On the following evening, the Wildcats handily whipped Oklahoma State, 69-57, for the tourney title, and a berth in the NCAA finals at Louisville. Boozer hit 26, Don Matuszak, 14; Parr, 13; and Frank, 10.

Next up were the fateful NCAA finals. The Wildcats, favored to take the title, lost 73-51, to a hustling Seattle team the first night. Bob Boozer and Wally Frank hit 15 points each for the Cats, but Seattle All-American Elgin Baylor took the spotlight with 23 points and 22 rebounds. Playing for third place on the following evening, the Wildcats built a 39-28 halftime lead over Temple—then the roof fell in. Temple won, 67-57. Boozer got 19 points and Frank 14, but K-State was outscored by 21 in the second half.

Cat Wrestlers Place Fourth in Big Eight Conference Meet

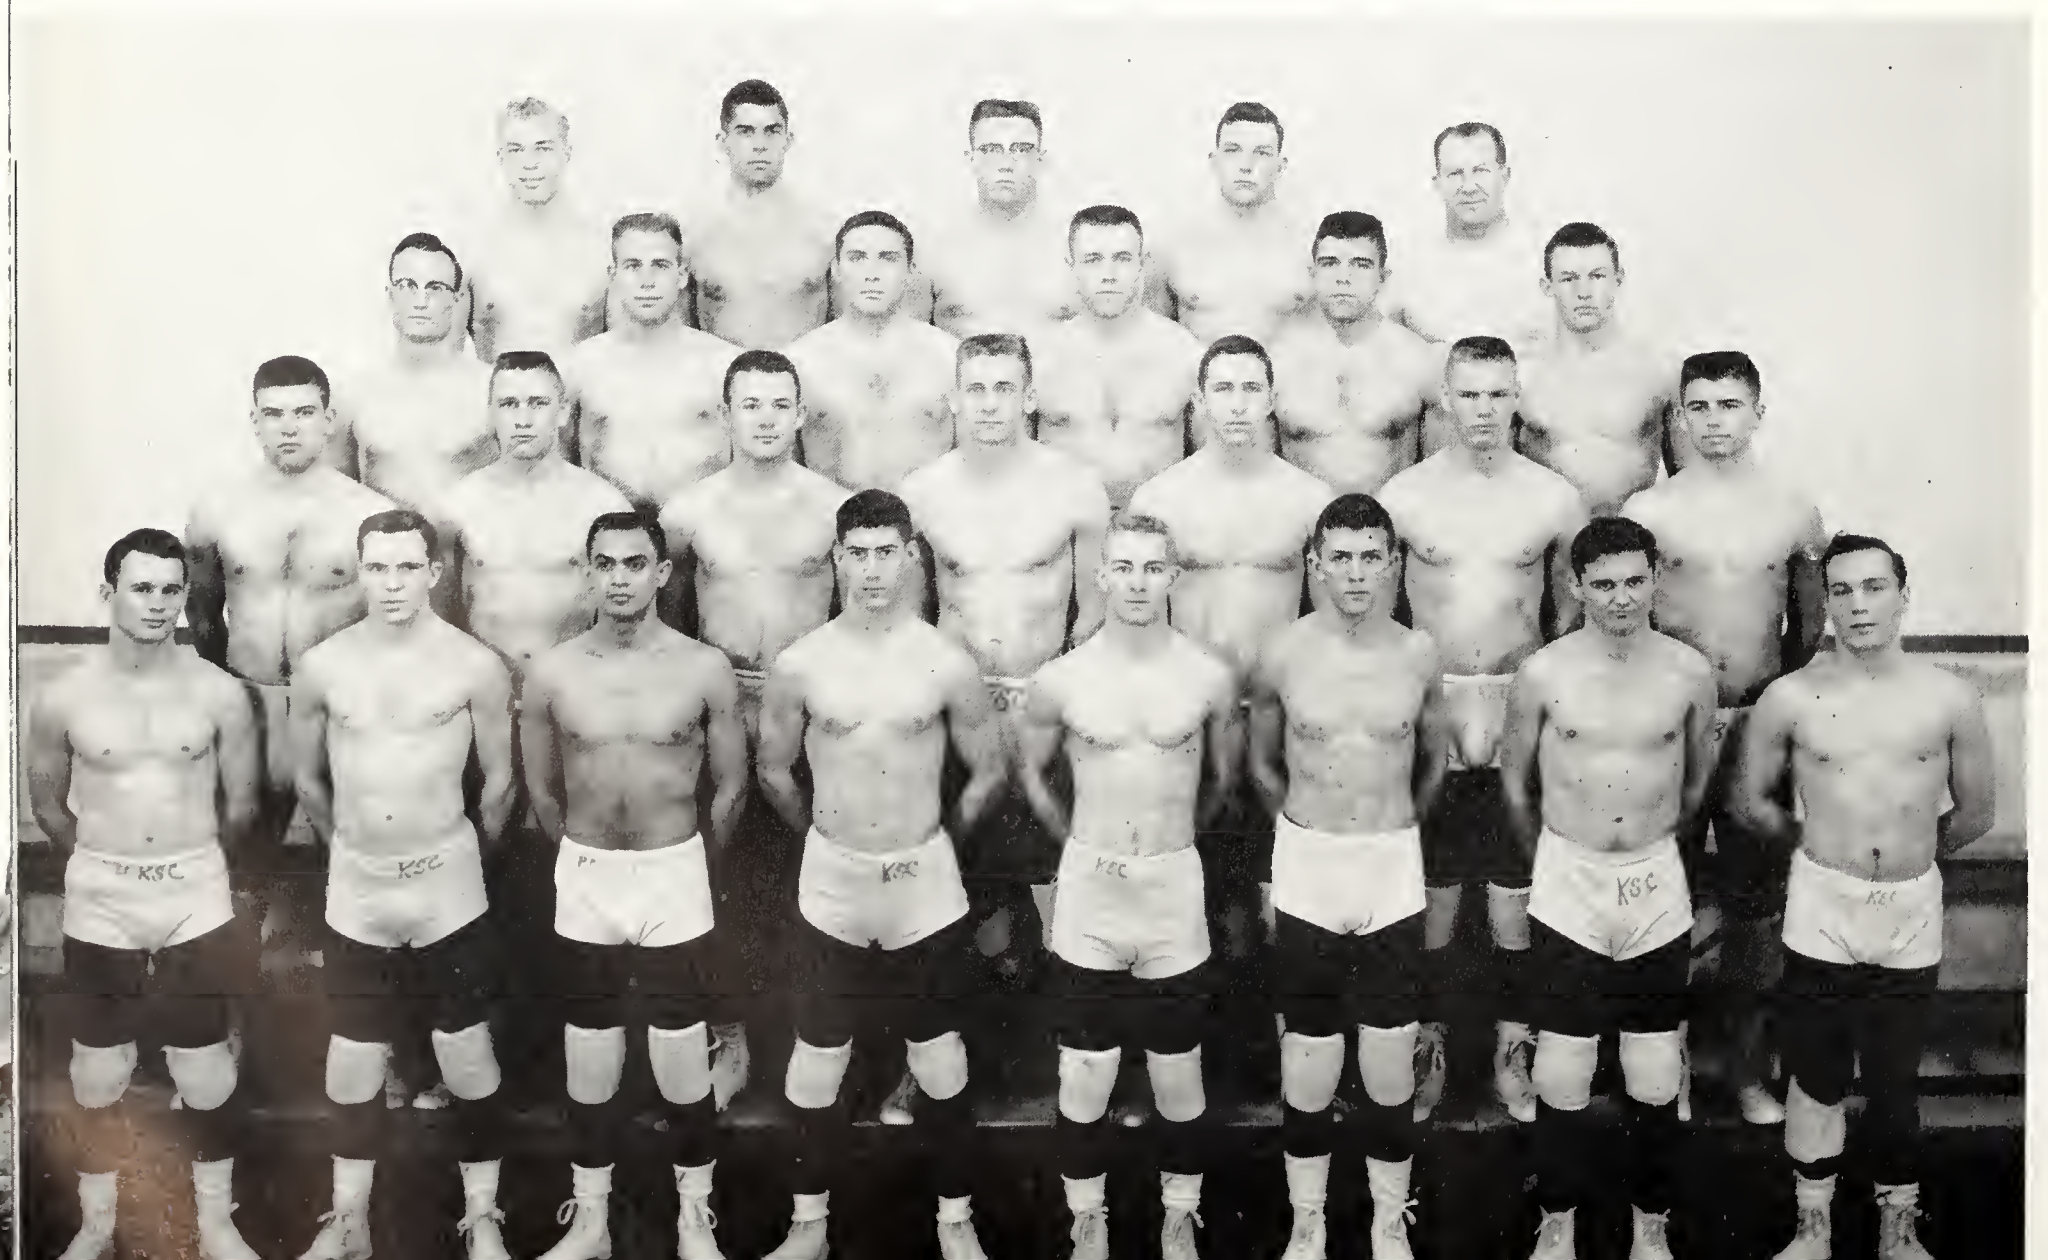

Wrestling some of the nation's toughest teams, Kansas State matmen turned in a creditable five-win, eight-loss season in 1958. The Wildcats moved to a fourth place finish in the Big Eight Conference meet at Ames, with 177-pound senior Gary Haller leading the way.

Coach Fritz Knorr began the '58 campaign with a crop of nine lettermen and some promising sophomores. His charges started the season in a heartening manner with a 22-7 whipping of Fort Hays State in Ahearn Fieldhouse. Included among wins by K-Staters was a pin by 130-pounder Riley Miller.

With that win under their belts, the Wildcats left Manhattan on a two-match road trip into Oklahoma territory against two of the nation's most consistently powerful mat teams. Oklahoma State, competing in its first season of Big Eight wrestling, shut out K-State, 26-0. At Oklahoma University, the Sooners took the Cats' measure, 29-3. Haller scored the only

Back in Manhattan, the Wildcats met another tough team in Minnesota U. The Gophers scored a 20-6 win in the dual match, with Gary Haller and Ray Glaze, the Cats' most consistent winners through the season, accounting for K-State's only points. With their dual record at 1-3, the Wildcats traveled to Fort Hays for a return match with the Tigers, and K-State prevailed again, 21-5. In a weekend home stand, the Wildcats dropped two matches to Colorado State and Mankato (Minn.) State on successive nights. Colorado State won, 19-8, and Mankato won, 17-12. First-line heavyweight Ken Ellis dropped out of school after the Mankato match, leaving the Cats with no experienced grapplers in that class. Cornell College lost to the Wildcats in Ahearn gymnasium, despite a forfeit in the heavyweight class. K-State led, 17-6, going into the heavyweight class, and the forfeit made it 17-11.

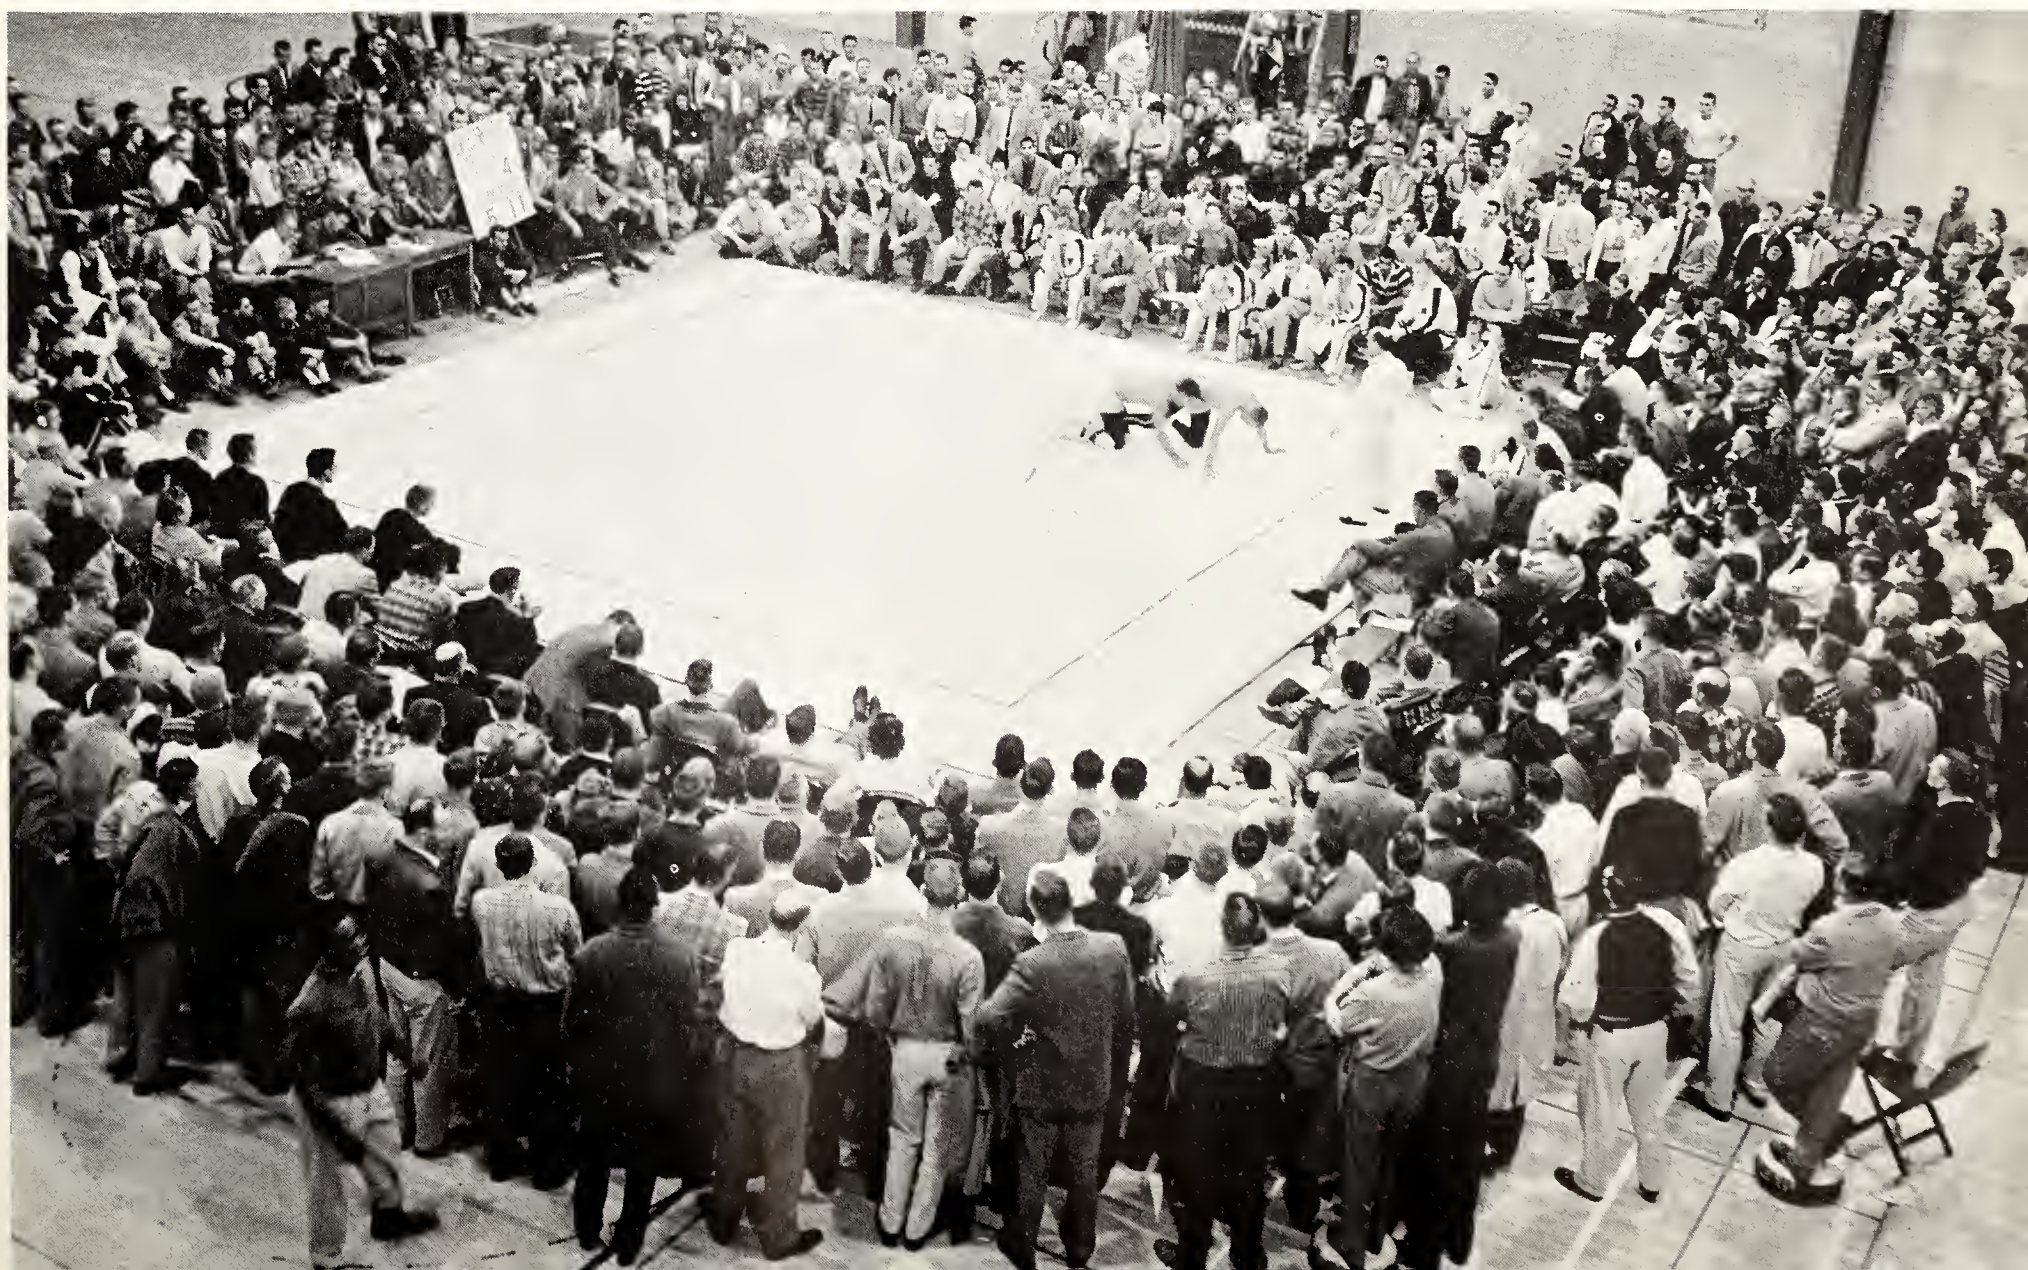

Nebraska was the next Cat opponent, and the Huskers fell, 24-10, in the biggest K-State point splurge of the season. Included among individual wins were pins by 177-pounder Gary Haller and 157-pounder Pat Doyle. In more Big Eight competition, the Wildcats met Colorado in Ahearn Fieldhouse in what proved to be one of the season's most interesting matches. The Buffaloes won, 16-12, but the match

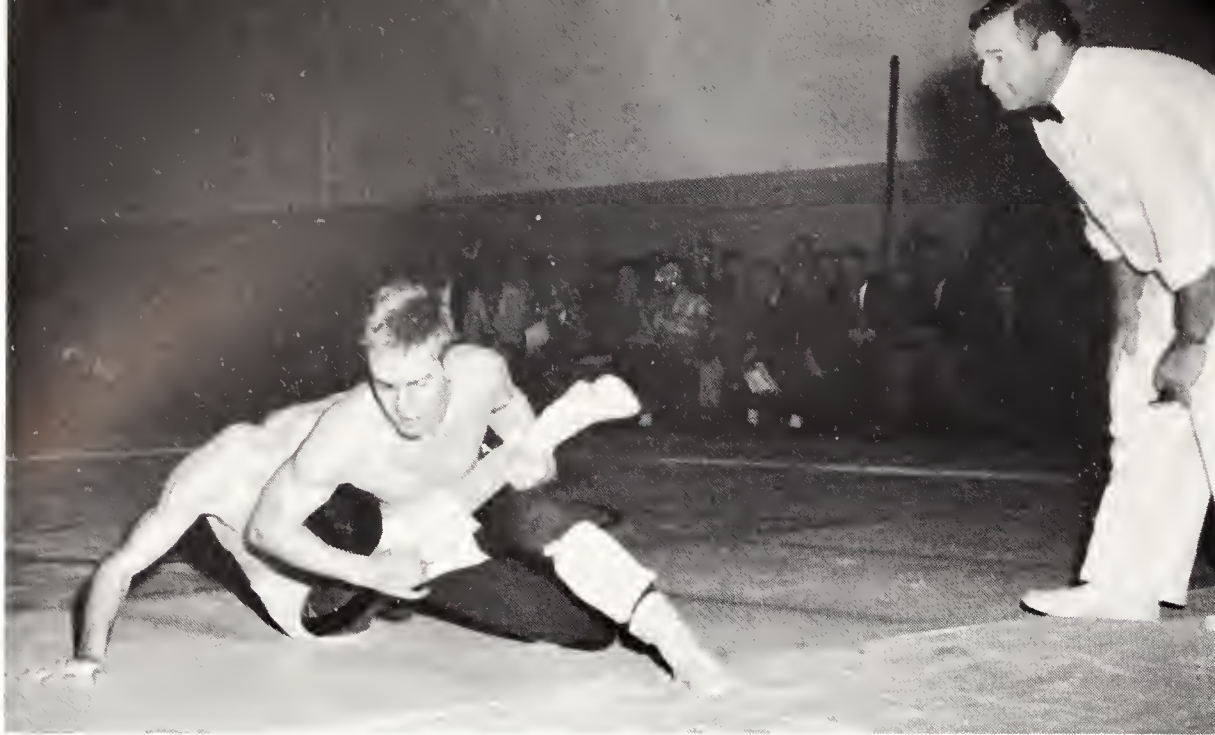

Pat Doyle, Gary Haller, Riley Miller and Bob Cervantez all saw considerable action. Haller posted an 11-2 dual record.

Wrestling in the season's first dual match, Kansas State's Pat Doyle works on a 4-0 lead late in the third period

against Fort Hays wrestler Claran Voss in the 157-pound class. Doyle won, 5-0, and K-State took the match, 22-7.

Putting the pressure on Colorado's Garth Rogers, Riley Miller, K-State 130-pounder, is on his way to a 6-3 decision in Ahearn Gymnasium. Referee Bryce Todd watches.

was not decided until the heavyweight class. With the score 13-12, Bob Schmidt, in one of three appearances during the season, dropped a decision to CU's George Adams, and the Buffaloes took the match, 16-12.

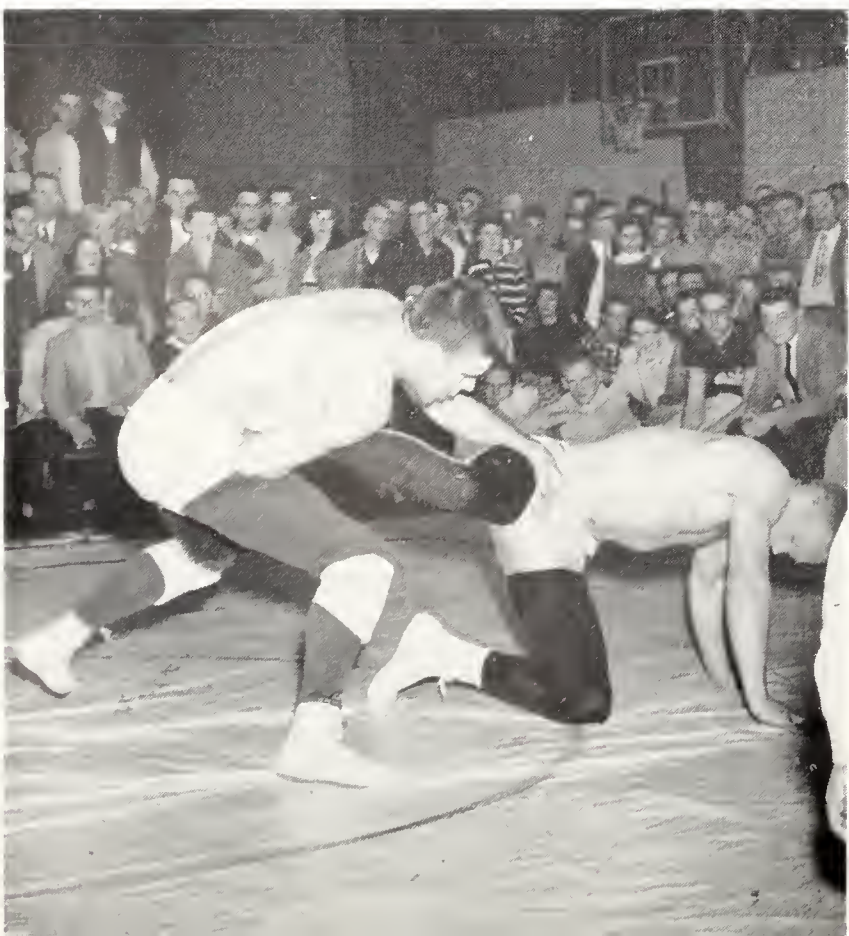

Kansas State met Iowa State's Big Eight champs at Ames in the next outing, and dropped a 28-0 match to the power-packed Cyclones. On the following evening, the Wildcats lost, 22-10, to Iowa Teachers at Cedar Falls. In the final dual match of the season, K-State manhandled Colorado School of Mines in Ahearn gymnasium, 20-10. Billy Youngers, Riley Miller, Pete Everist, Pat Doyle, Ray Glaze and Gary Haller all recorded wins. Everist's was by a pin in the 147-pound class.

With the dual season behind them, the K-State

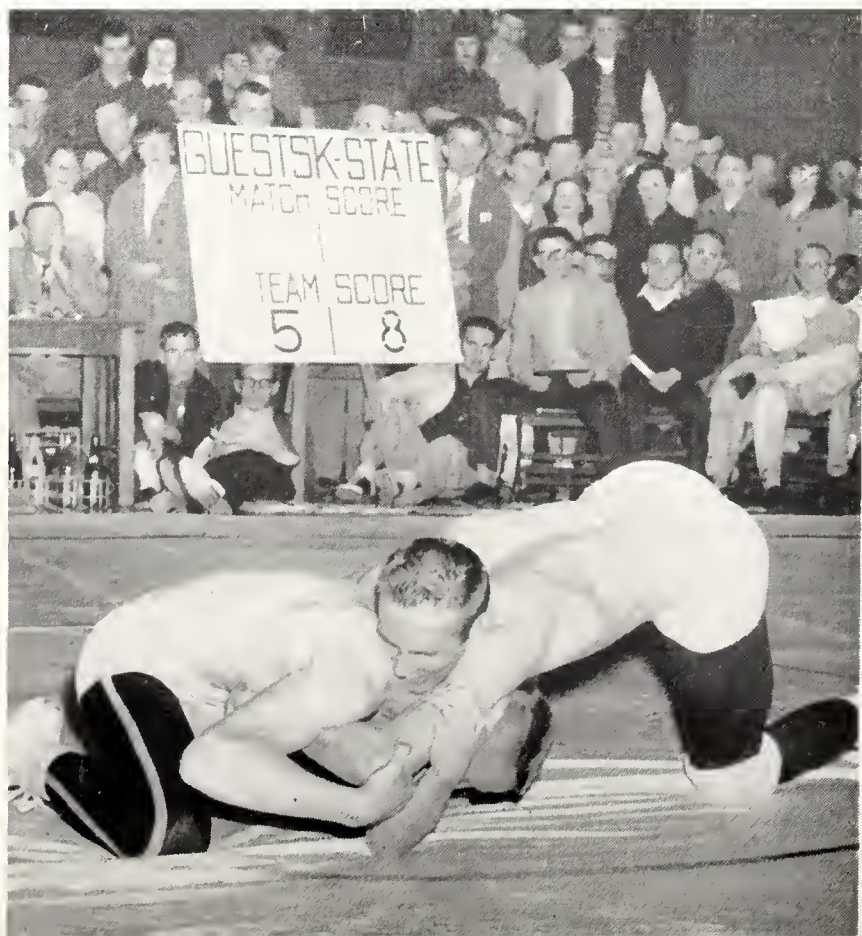

matmen looked toward the Big Eight Conference meet at Ames. The Cats came away with a fourth place finish in the meet, only teams to top them were nationally ranked Iowa State, Oklahoma, and Oklahoma State. Gary Haller, owner of an 11-2 dual record, advanced to the finals in the 177-pound class, however, a sprained ankle prevented him from wrestling for the championship. Ray Glaze in the 167-pound class and Bob Cervantez in the 123-pound class recorded fourth place finishes among conference wrestlers.

Over the season, Gary Haller scored more points than any other K-Stater with 35. Ray Glaze scored 24 and had an 8-3 dual record, Pat Doyle scored 23 with a 7-5 record, and Riley Miller scored 22 points and posted a 6-4-1 mark.

Gunning for a win, 157-pounder Pat Doyle makes things rough for Fort Hays' Claran Voss. The K-Stater won, 5-0.

Jim Roberts appears to have his man, Lee Wick of Fort Hays. Roberts decisioned Wick, 6-2, as the Wildcats won, 22-7.

Up in the air—but not for long—K-Staters Gordon Harper, in lane 1, and Tom Onuma, lane 2, are off in the 100-yard

freestyle in the Emporia State dual meet in Nichols Gymnasium pool. Kansas State won the meet by a 60-24 margin.

Swimmers Are Fifth in Big 8

The 1957-58 Kansas State swimming team finished the season with a dual meet record of 6-6 and a fifth place finish in the Big Eight conference meet. Considering that 1958 marked only the second season of varsity swimming competition at K-State since 1948 and considering the caliber of swimming competition in the Big Eight, the Wildcats turned in a creditable job.

Coach Bill Thrall's team, captained by Jim Nolen, built a 5-3 dual record midway through the season. But consecutive losses to Kansas and the Big Eight's most consistently powerful teams, Oklahoma and

Iowa State, pulled the mark down. At the Big Eight conference meet at Ames, Dave Dicken gave the best individual showing with a third-place in the 100-yard butterfly. A 400-yard medley relay team of Jim Mariner, Al Rader, Tom Onuma and John Nickel also got a third.

Kansas won the Big Seven conference track meet in Lincoln with a total of 160 points. Colorado was second, Nebraska was third, Missouri was fourth, Kansas State was fifth, Iowa State was sixth, and Oklahoma was seventh.

Kansas State individuals showed well in outdoor track in 1957, with the team recording a dual meet win over Iowa State and a fifth place standing in the Big Seven meet at Lincoln.

The Wildcats dropped a dual meet to Nebraska, 67-64, in the only home action of the season, then took the win from Iowa State, 66-56, at Ames. These were the only two-team actions of the year for Coach Ward Haylett's trackmen. They also saw action in the Kansas Relays, Texas Relays, Colorado Relays, Drake Relays, and Oklahoma A&M Relays.

Gene O'Connor, junior hurdler, was the Cats' most consistent scorer. He won the 120-yard high hurdles in the Oklahoma A&M Relays and in both K-State duals, but pressed the leaders for top honors in all other meets in which he was entered.

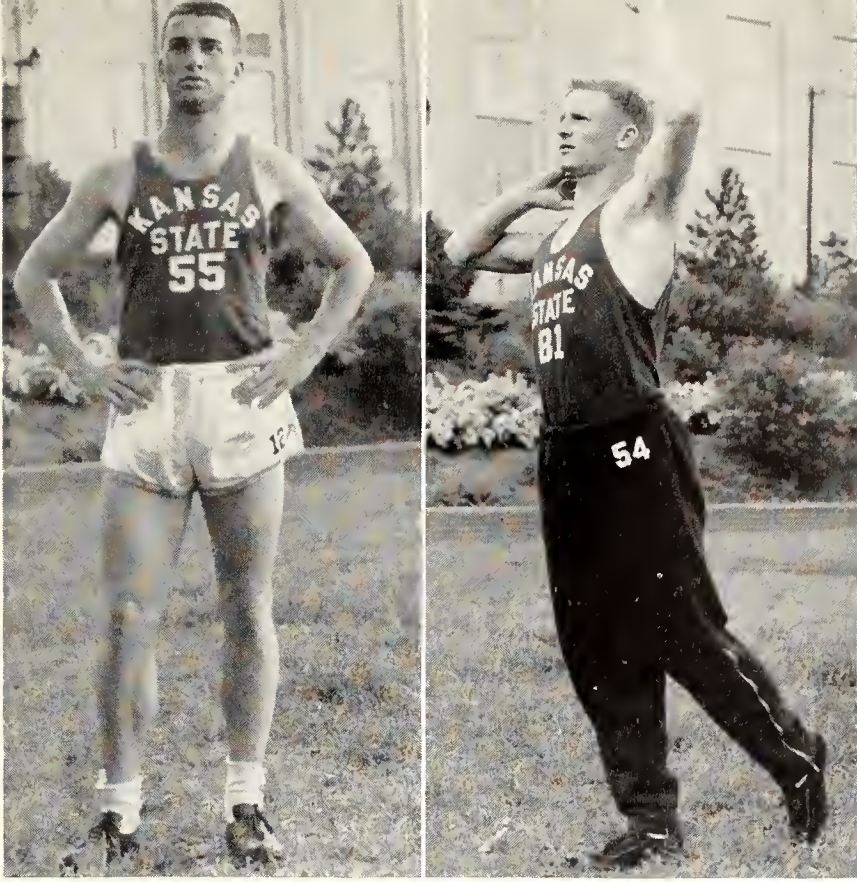

O'Connor, Willard Consistent

The K-State season opened at the A&M Relays in Stillwater. Besides O'Connor's first in the hurdles event, junior Ralph Willard took a second in the javelin, and the Cat mile relay team placed second. Next event on the Wildcat schedule was the Texas Relays. O'Connor ran Eddie Southern of Texas University a close race in the high hurdles, but placed second, though both men were clocked in 14.1 seconds. Willard was third in the javelin with a throw of 201 feet, 5 inches.

Sophomore talent Jim Vader, a quartermiler, and Ben Grosse, sophomore shot-putter, aided the Wildeat cause.

At the KU Relays, Gene O'Connor raced to the best preliminary time in the high hurdles at 14.5 but did not figure in the final placing when he knocked over a hurdle. However, O'Connor came back strong to register a second in the 400-meter hurdles behind Cliff Cushman, a Kansas University freshman running unattached. Cushman broke O'Connor's record of the year before with a time of 51.9. The K-State hurdler had stepped the distance in 52.2 for the record.

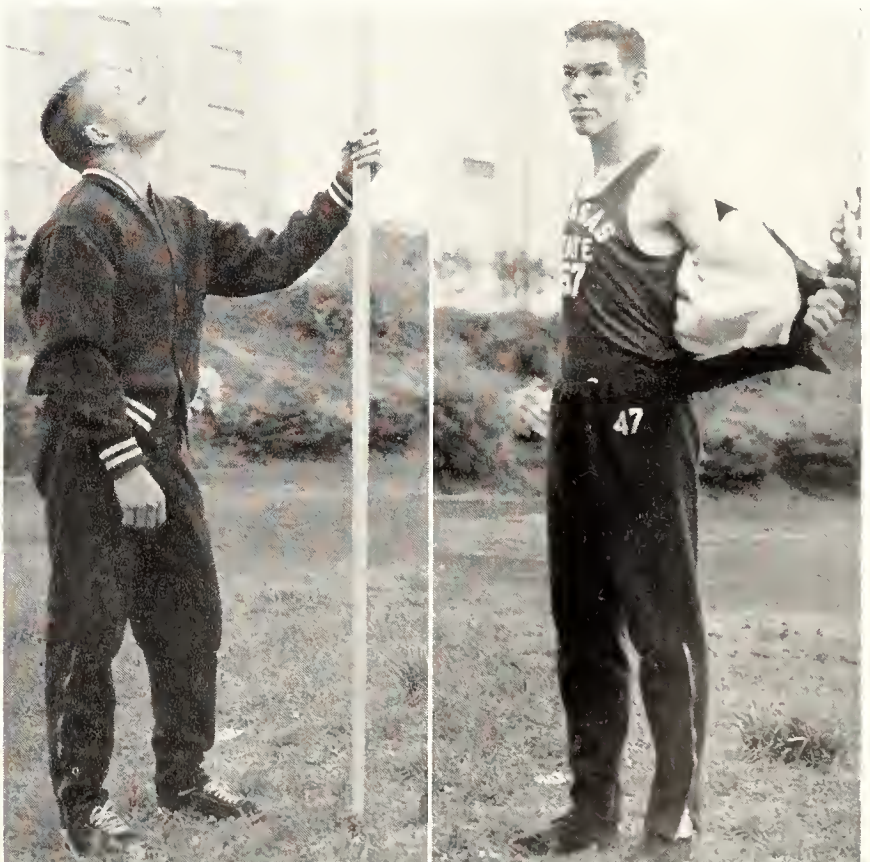

Sophomore miler Tom Rodda sets a new meet record for the mile, edging NU's Bob Elwood in 4:19.8 in Manhattan.

Trackman Gene O'Connor gets the 1957 "Outstanding Athlete" award from Athletic Director Bebe Lee.

Next time out, the Cats split forces for the Drake and Colorado relays. At the Drake event, O'Connor turned in a third in the 120-yard high hurdles and a second in the 440-yard hurdles. His time in the 440 hurdles was 53.7—identical with the time of winner Aubrey Lewis of Notre Dame. Ralph Willard recorded a 202-foot, 3-inch throw of the javelin for second place. At Colorado, K-State finished behind CU, then Southern Methodist, in team score. Karl Lindenmuth tied for second in the pole vault, clear-

ing 13 feet, 6 inches. K-State tied for first with Colorado in a team mile race.

Next outing was the season's first dual meet against Nebraska in Kansas State's Memorial Stadium. Superior Cornhusker depth edged the Wildcats, 67-64, though K-Staters took nine firsts. Ralph Willard recorded a first in the javelin with a throw of 194 feet, 7 inches; Karl Lindenmuth vaulted 13 feet, 2 inches for a first; Ben Grosse took first in the shot-put with a heave of 46 feet, 1 inch; Tom Rodda set a new meet record with a time of 4:19.8 in the mile run; Dolan McDaniel took first in the 100-yard dash with a time of 9.7 to tie another mark; DeLoss Dodds tied a record with a time of 49.1 in the 440-yard dash; Gene O'Connor skimmed the 120-yard high hurdles in 14.5 to tie a meet record, besides winning the 220-yard lows in 23.8; and the K-State mile relay team of Dolan McDaniel, Bobby Jones, Henry Renollet, and DeLoss Dodds won in a time of 3:20.6. Rodda's new mile record broke a mark of 4:22.8 established in 1940 by Harold Brooks of Nebraska.

K-State Grabs 10 Firsts at Ames

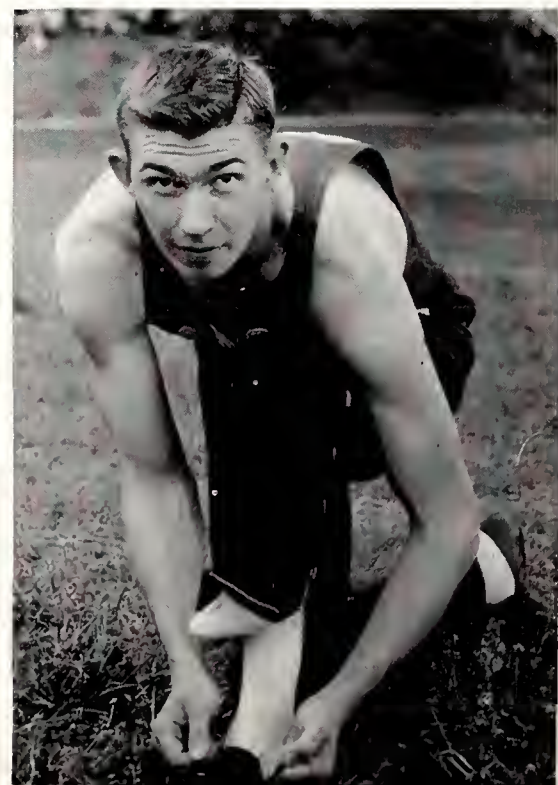

A week later, the Cats traveled to Ames for the season's other dual meet with Iowa State. The K-Staters came through with 10 firsts on the way to the 66-56 win. Tom Rodda eclipsed the meet mile record in this dual, too, as he edged Iowa State's Ron Sanson in 4:22.1. George Owen of Kansas State set the old mark in 1950 with a time of 4:24.8. K-State placed 1-2-3 in the 440-yard dash with Dave Burton in the lead, followed by Gene O'Connor and Jim Vader. Burton's time was 50.5.

Other K-State firsts in the meet went to Wes Wilkison in the high jump with a mark of 6 feet, $\frac{1}{2}$ inch; Karl Lindenmuth who cleared 12 feet, $6\frac{3}{4}$

Dolan McDaniel zips to a 9.7 100-yard dash first against NU to tie a record, although K-State lost the dual meet. Henry Renollet is at left.

On the next weekend, the Cats journeyed to Lincoln and the conference meet. Sparked by Gene

O'Connor's first in the 220 low hurdles, K-State was a solid fifth with 49 points. Besides his first, O'Connor also recorded a second in the 120 high hurdles, losing in a tight race to Nebraska's Cuba Olympian, Keith Gardner. Other K-Staters recording seconds in the meet were Ralph Willard with a toss of 203 feet, 2 inches in the javelin and Karl Lindenmuth, who tied for second in the pole vault, clearing 13 feet, 4 $\frac{3}{8}$ inches. Tom Rodda ran third in the mile, and Dolan McDaniel was fourth in the 220.

Mile Relay Team Sparks Season

The 1958 Wildcat indoor track season was highlighted by a mile relay team which won six of its eight starts. The team, made up of DeLoss Dodds, Dave Burton, Jim Vader and Larry French, notched a new meet record every other time it ran, setting four during the indoor season. The relay team was outrun only once—it finished second behind Nebraska at the Michigan State Relays. The other loss came in the K-State Invitational Relays as the result of a disqualification after the Cat quartet had finished first in the event.

Another bright spot for track coach Ward Haylett was the performance of dash man DeLoss Dodds. He finished first in the 440-yard dash at the Colorado In-

vitationals, besting CU's Chuck Carlson, winner of the event at the Big Eight indoor meet. Dodds' time was 49.6. He also tied the Ahearn Fieldhouse mark of 48.9 set by K-State's Thane Baker in 1953. This clocking gives him title to the current K-State varsity 440 record.

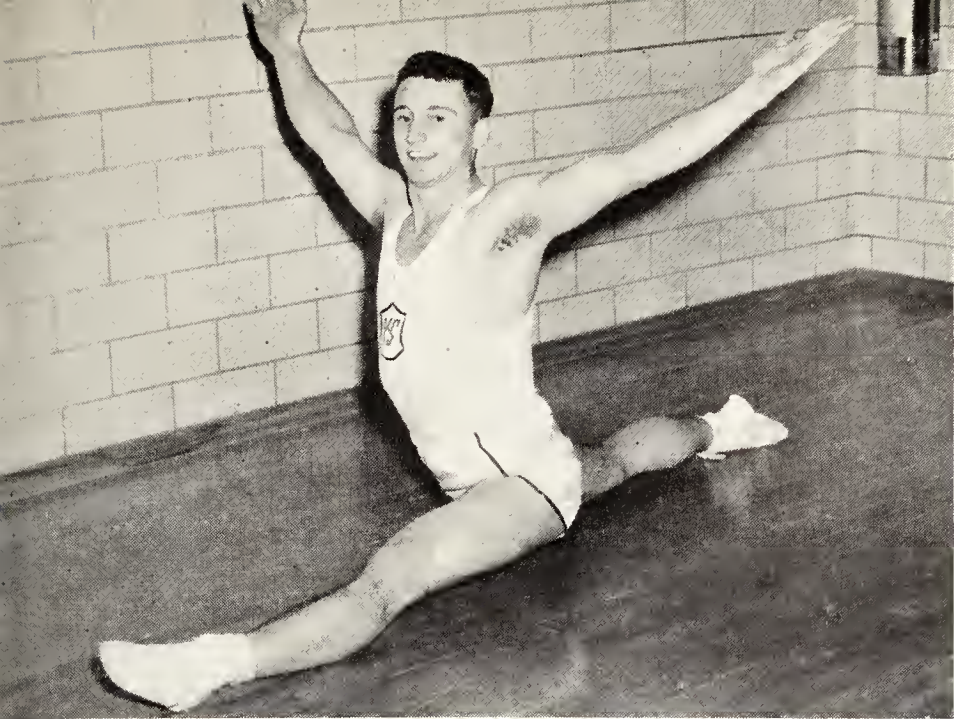

Indoor muscle men also got into the act as the Wildcat shotputters swept all three places in the event against Oklahoma State; captured the first three places in a triangular with Omaha University and Emporia State; and placed second at the Colorado Invitational. Current holder of the Wildcat iron ball mark is Jim Cain with a heave of 52-10³/₈ set in a Boulder triangular against CU and Iowa State.

In the field events, Wildcat highjumper Steve French boosted indoor team totals by setting meet records of 6-4¹/₈ in a triangular with Colorado and Iowa State and 6-2¹/₂ against Omaha University and Emporia State.

Gymnasts Record Best Season

Kansas State gymnasts posted the best season record in the eight-year varsity history of the sport during 1958. With a 6-1 dual meet mark, Coach Frank Thompson's team lost only to always-powerful Nebraska during the year.

Captain Robert Gramzow led the Wildcats during the season. He was never defeated in dual competition in his favorite event, free exercise. Included among his achievements were a gold medal in free exercise at the 10-team all-college meet at Nebraska and a trip to the NCAA finals at Michigan State.

Coach Thompson attributed "more depth than ever before" for the Wildcats' fine 1958 showing. He began the '58 season with four returning lettermen, sen-

iors Albert Bumpus, Robert Gramzow and Allen Olsen, and junior George Ouye. At season's end, Thompson named five letter-winners: senior Ted Bare, sophomore Harold Loomis, and Gramzow, Olsen and Ouye.

Wildcat Baseballers Post Best Season Since '48

K-State's 1957 baseball squad turned a fast season's start and a snappy finish into the best record in the diamond sport at the school since 1948.

Coach Ray Wauthier's squad won four of its first six games, and swept a season ending three-game series from Colorado — but an eight-game losing streak through the middle of the schedule pulled the Cats to a 7-10 record and a sixth-place finish in Big Seven action. That 7-10 record was the best at Kansas State in nine years, the 1948 team recording a 9-10 mark and a third-place standing in conference play. The 1957 edition posted a 5-10 conference ranking.

The Cats opened play on the road against Memphis, Tenn., Naval Air Station. Righthanders Warren Polak and Bill Sinderson teamed to pitch the Cats to a 6-1 win. A day later, Kansas State took on Hillsdale, Mich., College.

This time the K-Staters exploded for 18 hits and 19 runs in walloping their opponent, 19-3.

In waltzing to the win, two Cats, Roy DeWitz and Ken Weatherd, banged out three hits apiece. DeWitz homered in the contest, and Mike Lair pitched four of the six innings in the game for the win.

After those easy road wins, the Wildcats returned to the Midwest and Big Seven competition. At Lincoln, Coach Wauthier's charges received a rude awakening at the hands of Nebraska's Cornhuskers. The Huskers humbled K-State, 17-2, in the first game of a doubleheader. Bill Sinderson, starting Cat hurler, lasted just two-thirds of an inning as NU pushed six runs across in the first frame. Lefty Bill Blume, K-State's leading pitcher during the season with a 3-3 mark, allowed four hits in five innings as he pitched his first win of the year in the second game of the twinbill. Wildcat batters chalked up two five-run innings as they clubbed the Huskers, 11-4.

Win One from Jayhawks

The Cats returned to Manhattan for the first contests in Griffith stadium with a three win, one loss record. Mike Lair took the mound against Kansas' Jayhawks, and his mates provided him with a first-inning one-run lead, but the Hawks chipped away at Lair, finally scoring in the top of the sixth, and increasing the margin to 3-1 by the game's end.

Next day, Wildcat ace Bill Blume took the mound in the first game of a doubleheader against the Hawks and hurled a 3-1 win. Blume allowed five hits in going the distance. Gene Keady banded out three hits in three trips to the plate to lead K-State, one of his hits being a double. In the second game, KU tripped the Cats, 11-3. K-State could not score until the final inning when three runs left the Cats far short.

K-State traveled to Norman for a three-game series against Oklahoma the next time out. The first game was rained out, but the following day, the Sooners clubbed K-State hurlers for a doubleheader win. First game went 15-2, and the second game score was 9-0.

With three losses in a row and a 4-5 season's mark, Wildcat baseball players faced Missouri in another road series. Missouri scored decisive wins of 16-4 and 9-2, but the Cats played the Missourians down to the wire in one game before losing, 6-5. Mike Lair went the distance in the 6-5 loss, allowing just three earned runs. The Cats led, 2-0, in that contest in the top of the fourth inning before Missouri power tied, then won the game.

Big Seven Champs Ambush Cats

Finished with road action for the season, K-State returned home for series against Iowa State and Colorado. The first game against eventual Big Seven champion Iowa State was rained out, but the Cyclones made short work of Kansas State pitchers in a doubleheader that followed. Kansas State jumped to early leads in each game, but Iowa State won easily, 13-2 and 12-6.

Colorado came to Manhattan for K-State's final action of the year, and the Cats, with a 4-10 record, appeared to be headed for a poor season. But Kansas State swept the three-game set to dump the Buffaloes into the Big Seven cellar and boost the K-State record to 7-10. Wildcat left-hander Bill Blume pitched the opening win, 4-3, allowing five hits while striking out five Colorado batters. In second-game

action, K-State overcame a 2-0 deficit as Paul Bader doubled with the bases loaded in the fifth inning to knock in all the Wildcat runs. Warren Polak won the game in relief, 3-2.

The final game of the series and the season saw the Cats post a 10-5 win. K-State led at one time, 10-1, but a last-inning rally by Colorado netted four runs before Warren Polak "put out the fire" in relief of Jim Murray and Bill Sinderson. Gene Keady hit a home run and batted in two runs in the contest, and Bob Boyd and Hugh Nethercot each collected three hits in the 12-hit K-State attack. Meantime, the Buffaloes could nick Kansas State pitching for just two hits. Murray was the winning pitcher.

Keady Top Batsman with .273

Gene Keady led Kansas State batters for the season with a .273 average and two home runs. He had 10 runs batted in and 12 hits, four of them for extra bases. Next in line among K-State hitters was Bob Boyd with a .271 mark and 13 hits, followed by Roy DeWitz's .269 average. DeWitz was second in the club in RBI's with 12. Top runs-batted-in man was Paul Bader with 15 on just 13 hits. Tying DeWitz for most hits on the club was Wally Carlson with 14, three of them doubles.

While Bill Blume was posting a 3-3 pitching mark to make himself the ace of the Wildcat staff and one of the Big Seven's leading hurlers, Warren Polak was close behind with a 2-2 mark. Other K-State wins went to Mike Lair and Jim Murray. Blume struck out 30 opponents during the season while walking just 17. Lair was not far behind in strikeouts with 24, while Polak had 17.

Kansas State's pitching corps in 1957 was (left to right) Bill Sinderson, Dick Disney, Bill Blume, Jim Murray, Mike Lair, Warren Polak and Don Carlson. Blume led the staff with a 3-3 record and 30 strikeouts. Polak had a 2-2 mark.

Sophomore Jim Holwerda goes after a hot one in practice. Holwerda led the 1957 team with 11 victories and 3 losses.

Kansas State's tennis team, under the tutelage of Coach Karl Finney, compiled a 10-4 mark, improving on its 1956 record of 8-3-1. Instrumental in the Wildcat success on the courts were Jim Holwerda with 11 dual-meet wins, Keith Andler with 10 dual wins, and Allen Chaplin with nine.

However, despite the improved K-State showing, the Cats finished no higher than fourth in the Big Seven conference meet at Lincoln. Wins during the season came at the expense of Southwestern, Wichita, Washburn, Kansas, Nebraska, Omaha, Iowa State and Missouri. The only Big Seven outfit on the Cats' schedule they could not defeat was Oklahoma, eventual winner of the Big Seven crown. The fourth-place conference finish jumped K-State two notches from sixth, where it finished in 1956.

Dick Circle, playing in the lead position for Coach Finney, compiled a 3-11 record in dual-meet play against tough competition. Holwerda was 11-3, Andler was 10-4, and Chaplin was 9-5. Eddie Wallace posted a 7-2 mark and Don Wainscott was 4-4 on the year, though seeing limited action.

Golf Team Wins Eight in '57

The 1957 Kansas State golf team turned in a winning 8-5-1 record, but could finish no higher than seventh in the Big Seven conference meet. Led by senior Ron Young and junior Jerry Smith, the Cats defeated Wichita, Tulsa, Washburn, Nebraska, Omaha, Drake and Missouri in dual competition.

Smith had the best dual-meet record of Coach Mickey Evans' golfers, posting a 9-4 record. Young was not far behind at 7-6, and Dave Pfuetze had a 6-5 mark. Other squad members figuring in the 1957 golf picture were Joe Downey with a 2-6 record, Jerry Hendricks with an 0-9 record, and Bruce Stover with 2-2. Only two of the squad members, Pfuetze and Young, were seniors.

This was Evans' ninth season as golf coach and head of the men's physical education department at Kansas State. However, he temporarily gave up the position at the end of the 1957 season in favor of graduate work toward a physical education director's degree at the University of Indiana. Colonel William Harvey of the ROTC department will handle the 1958 team, though Evans may be back in 1959.

Choice of Eight Events Offered In Women's Intramural Program

Eight intramural events were offered during the past year in the women's intramural program sponsored by Martha Aly, women's physical education instructor. The program included basketball, softball, swimming, volleyball, badminton, table tennis, singles and doubles, and tennis. Bowling followed the spring softball tournament.

With one intramural event remaining on the schedule, Chi Omega sorority was ahead in the team scoring, Pi Beta Phi sorority and Van Zile Hall were second and third respectively.

Northwest Hall captured the women's intramural basketball championship in the spring of 1957 for the second straight year. Northwest Hall defeated Van Zile Hall in the finals, ending the season with a 4 win, no loss record. This spring, Van Zile took the championship after defeating Chi Omega sorority in the finals and ended their season with five wins and no losses. Chi Omega placed second with a 4 win, 1 loss record.

Illene Rizek and Gayle Coppoc, Van Zile Hall, defeated Kappa Delts for the table tennis doubles championship.

Miss Martha Aly, women's phys ed instructor, replaced Miss Katherine Geyer this year as intramurals director.

Pi Beta Phi dominated the intramural swimming field by winning five first place honors. Chi Omega placed second. Pi Phi winners included Kay Aye, free style; Kathy Horridge, breast stroke and back stroke; Janet Newcomer, free style. Pat Myers, Aye, Horridge and Newcomer made up the winning Pi Beta Phi medley relay team.

Winning the badminton doubles title for Pi Beta Phi sorority were Kay Aye and Kathy Horridge.

Van Zile's volleyball team won over all others to take the title. Kappa Delts and Northwest placed second and third.

Other meet winners included Pam Bowman, back crawl, Chi Omega; Janice Wolverton, side stroke, Alpha Chi Omega; Mary Attwater, back crawl, and Marilyn McCord, diving, both of Southeast Hall.

Van Zile Hall won the intramural volleyball championship with Gamma Phi Beta and Northwest Hall finishing in second and third places. Van Zile had a 4 win, no loss record for the season.

Betty Crawford, Van Zile, won the table tennis singles with Chi Omega winning team honors in the table tennis singles event. Gayle Coppoc and Illene Rizek, Van Zile, defeated Joann Hotchkiss and Josette Maxwell, Kappa Delta, to win the table tennis doubles championship. Chi Omega also won team honors in doubles.

Kay Aye and Kathy Horridge, Pi Beta Phi, defeated Barbara Burns and Sonja Brown, Chi Omega, to win the intramural badminton doubles championship. Pi Beta Phi won the team honors for the badminton doubles. Singles in badminton were not played.

The climax arrived when Emily Mohri, representing Pi Beta Phi sorority, was crowned queen by Stan Kenton. The royal attendants were Kaydene Dashen, representing Chi Omega sorority; Carol Lala, representing Alpha Delta Pi sorority; and Deena Martin, representing Southeast Hall.

Queen Emily and her three attendants were selected by Kenton by photograph several weeks before his personal appearance. Other candidates were Ann Chapman, Marcia Eggers, Dorothy Fox, Harriet Harwick, Jackie Hubbard, Brenda Morgan, Patti Penrod, Joyce Rapp, Mary Rose, Mary Kay Taylor, Barbara Train, Pat Vopat and Jan White.

Approximately 550 couples danced to the Kenton orchestra, while a near-capacity crowd filled the College Auditorium for his concert.

Fieldhouse Scene of Enrollment

Enrollment took place for the first time in Ahearn Fieldhouse fall semester of 1957. At long last, the entire enrollment operation was concentrated in one building. Formerly, Anderson Hall, Fairchild Hall and Nichols Gym were used.

Faculty members found the atmosphere more relaxing. There was ample room for all card-signing and counseling tables. Many professors look forward

to enrollment as the one time when the entire faculty gets together to renew acquaintances.

Second semester enrollment was not in the Fieldhouse because the bleachers and basketball court were set up. However, since over half of the students had pre-enrolled, inconvenience was at a minimum.

The pre-enrollment program for returning students which was set up for the first time in the spring of 1957 is actually more expensive to administer. But it has done much to improve K-State's advisory system. Spreading enrollment over a longer period had helped make people conscious of advisement.

Campus Greets Freshmen

Dust was stirred up on all K-State walks as nearly 6,700 students began a daily tramp from class to class as the 1957-58 fall semester began. Freshmen were bewildered as they tried to decipher such abbreviations as "J" (for Eisenhower hall) and "E" (Seaton hall) on their class schedules.

Ends of the long enrollment lines found students signing away an added \$14 in fees. Upperclassmen also had to pay \$2 to park on campus while freshmen were banned from campus parking lots for the first time. Amid the confusion, though, students soon found their way to the Student Union for a refreshing coke between classes on those warm autumn days.

Petersons Represent Parents of Kansas State Students

Parents of K-State students were special guests on campus Saturday, October 5, Parents Day. Parents were taken on a tour of the Student Union and were honored at the K-State-Nebraska football game in the afternoon. The various organized houses also had coffees, open houses and buffet dinners for parents following the game.

Mr. and Mrs. Bernard Peterson of Newton, parents of Karen and Kirsten Peterson, were selected to be "Honorary K-State Parents" at a drawing from all parents nominated by students. They led a car tour to see the decorated houses and were guests at a luncheon in the Union before being presented at special halftime ceremonies of the football game. Queens Highlight Frat Frolics

Three weekends in October saw as many K-State coeds honored as queens of traditional fraternity celebrations. Brenda Morgan was crowned Duad Queen in connection with the PiKA-Sig Ep Olympiad; Sybil Foster reigned over Sigma Chi's Derby Day; and Lee Lutz was Sig Alph-Phi Delt Flush Bowl Queen.

Sig Eps, PiKAs and their dates attended the Nebraska football game clad in "Grecian" togas, then gathered at the "Olympic field" west of Quivera Acres for the Olympic games. Actives engaged in a tug of war over a pit of mud, and pledges showed their athletic prowess in a wheelbarrow relay.

Talent Show Tours Big Eight

A large and enthusiastic audience watched the Big 4 Plus 2 Talent Show. Originated last year by the Union Campus Entertainment committee as the Big 3, the show grew to include three more Big Eight schools. This year, for the first time, the talent show traveled to the University of Kansas and the University of Nebraska after performing at K-State. Master of ceremonies for the show was K.U.'s Roger Brown.

A variety of acts was presented by the various participating schools. Representing Missouri University was a Hawaiian hula dancer. A comedy team from Oklahoma University performed and the Iowa State College entrant was a ballad singer. Nebraska Uni-

versity sent three acts, the Coed Trio, a ballad singer, and a brother-sister instrumental and piano team. From K.U. came the Triads, a tap dancer, and the jazz quintet. K-State chose the Four Delts, the Nightcaps, and Jan White as their entries in the show. The entertainment committee drew up plans and a constitution which were presented and accepted by the other schools at the Regional Big Eight Conference at Iowa City last fall. The plans included a rotating sponsorship of the talent show, an annual production, with the sponsoring school acting as host the first night.

K-State's Jan White was applauded for her marimba solo. Two other K-State groups also presented acts.

Clever skits were presented by 32 sorority and fraternity pledge classes to introduce their candidates for pledge king

and queen. Campaign posters lined the walls in Williams Auditorium where the candidates were presented.

Pledges Choose King, Queen

"Sweetheart Ball" was the theme of the fifth annual Interfraternity Pledge dance given in February. Reigning over the event were queen de Ann Johnston, Kappa Delta, and king Jim Mentgen, Phi Kappa. The pair was elected from a field of 32 candidates representing K-State's sorority and fraternity pledge classes. All pledges attending the dance voted for their favorite candidates who were then revealed at the intermission.

The crowning took place in front of a large heart back of a grass covered platform with a heart-decorated trellis. Mel Eaton and Joe Gardner, last year's royal couple, crowned the new king and queen. Nearly three hundred couples attended the Valentine event in the Union ballroom at which Matt Betton's orchestra played.

A & S Day Attracts Students

Approximately 200 students from 30 high schools across the state attended the second annual Arts and Sciences Day on the K-State campus in February. Twenty-two departments in the School of Arts and Sciences took part in the event. Each of these departments had an exhibit in Eisenhower, Willard, Kedzie, or Fairchild Halls, or Nichols Gym to introduce the visiting high school students to its programs.

The day's activities began with a "buffeteria" in the Student Union for the high school students. Paul M. Young, dean of the School of Arts and Sciences, gave a short welcoming speech. The event also included a film of the 1956 Olympics and guided tours of the campus and several buildings. The high school students then returned to the Student Union for refreshments and a short program given by the K-State Singers. Purpose of the day is to acquaint high school students with K-State and the School of Arts and Sciences.

Union Celebrates 2nd Birthday

The second birthday of the \$1,650,000 K-State Student Union was celebrated with three days of festivities featuring a birthday party, Louis Armstrong concert and dance, and special television shows—the first live telecast from Manhattan—originating in the Union ballroom.

On display during the celebration was a 120-pound birthday cake, a scale model of the Union, along with various committee displays. Other featured events were Jackpot Bowling, the NCAA tournament send-off dance, and a special movie matinee.

Harwick Queen of AFROTC Ball

Harriet Harwick was the lucky girl chosen by the Air Force ROTC Association to reign over the second annual AFROTC Ball in November. The \$100 sterling silver crown lined with royal purple velvet will be on display at the Delta Delta Delta sorority house which Harriet represented, since the crown is a traveling trophy. It was made by the K-State Art Department to be used as the first AFROTC queen crown. This permanently breaks the tradition of combining the Air Force and Army ROTC formals. The crown, which has been under lock and key in the Chi

Omega house during the past year, has embossed on it the Air Force emblem of the eagle with spread wings perched on a cloud.

Jan White, representing Kappa Kappa Gamma sorority, and Pat Vopat, representing Alpha Xi Delta sorority, were Harriet's two attendants. Some 300 couples danced in the Student Union ballroom to the music of Hank Schooley's orchestra. They were entertained during the intermission with a floor show featuring a juggler, a magician and a baton twirler.

The Queen and her attendants marched into the Union grand ballroom under an arch of sabers held by members of Scabbard and Blade, Army ROTC honorary society, who sponsored the dance.

Attending Queen Judy Jackson were Sandra Tenorio, Lois Bones, Nancy Payne and Carolyn Banks. Commented Scab-

competition and received a bronze plaque to be kept in permanent possession of the department. Placing second was the Mechanical Engineering Department, winner for the past three years. The Architecture and Architectural Engineering exhibit placed third. First place in individual exhibits was awarded to the Mechanical Engineering department for its rocket and space station display. Assemblies Draw K-Staters

Students had an opportunity to hear various speakers and programs at the all-College assemblies during the year. Included on the programs were President McCain's traditional welcome speech; Robert Fabian, former Scotland Yard superintendent; Stewart Alsop, famed columnist; Reuben Hill, authority on marriage and family relations; Sister Mary Madeleva; and Bruce Catton and Arthur Schlesinger, Pulitzer prize winners.

The annual presentation of Handel's "Messiah" was given by the Music Department for the Christmas program. Special assemblies were planned for Engineers' Open House, Ag Week, and Home Economics Hospitality Day. The Student Governing Association departed from the annual "gripe session" and presented skits to explain the student governing body functions.

Comedy at its best was interpreted by the Lotte Goslar Pantomime Circus at an all-College assembly. Miss Goslar, famed

dance and pantomime artist, and her troupe of seven presented the world acclaimed dance production "For Humans Only."

Masterworks were played by the Paganini String Quartet for the Artist Series. The year's last performance was given by Mildred Miller, Metropolitan singer.

“Those Good Old College Days” Are Over for 1957 Grads

It took only a few short seconds for each one to walk across the stage last spring, but that short walk was the climax to years of study at Kansas State. Visions of last-minute cramming and numerous burnings of midnight oil still were vivid in each mind. Of course not many of the 798 assembled could forget the other numerous activities—parties, coke dates, formals, club meetings. Now all of these were to be part of the past—part of what would soon come to be known as “those good old college days.”

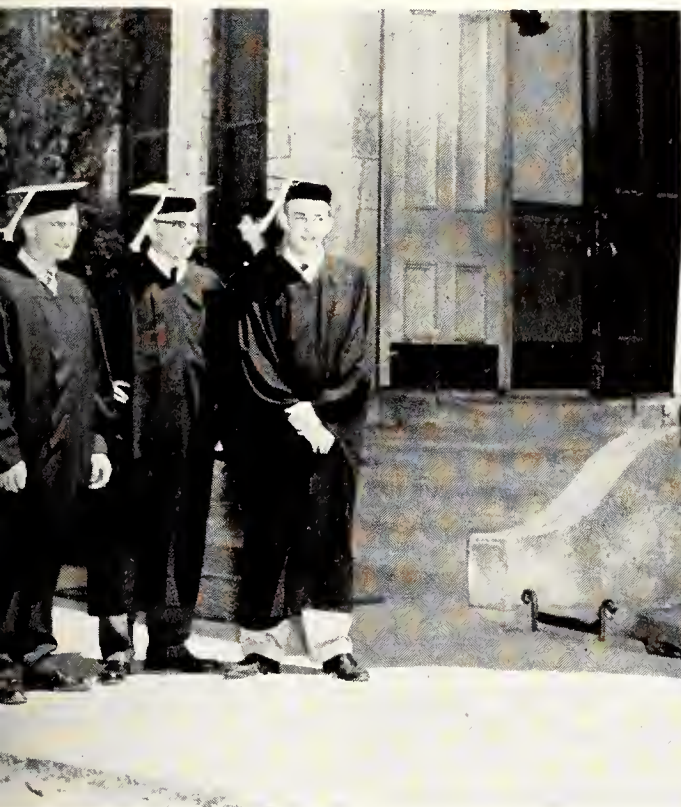

With that short walk, each one was on his own. For some, that walk was the last step on the ladder of higher education; for others, only one more step up the educational ladder. But now with that most familiar name being called—the short walk almost over—the reaching out of a nervous hand for that bit of paper—shaking the hand of a figure with a blurred, smiling face—each one of the 798 could think to himself with pleasure, “I’m a graduate—a Kansas State alumnus!”

With diploma still in hand, congratulations are in order—and warmly received.

Ags Promote Livestock Show

Students are given an opportunity to actually manage and supervise a livestock show each spring as they plan and present K-State's answer to the American Royal in Kansas City—the Little American Royal. The Little Royal is co-sponsored by the Block and Bridle Club and the Dairy Club. The 29th annual show, under the chairmanship of Bob Bozworth, was presented April 6, 1957. Grand champions were Dick Dunham, Dairy division, and Donald Mach, Block and Bridle division.

The Little Royal, with 121 showmen, seven of whom were women, competing for the two grand championship trophies, was staged in Ahearn Fieldhouse for the last time. The Aggies will move into the new Animal Industries pavilion for next year's big event.

was altered this year to produce a three dimensional effect. The centerpiece was built in the form of a pyramid with Ayrshire, Holstein and Guernsey cattle breeds represented on the three faces. The two sponsoring clubs alternate construction of the centerpiece from year to year and the Dairy Club was responsible for this year's innovation.

All animals shown in the Little Royal are college-owned. Seven weeks before the event, students draw for the animals which they will groom and prepare for showing. Judging is based on showmanship and the amount of improvement made on the animal during the allotted time.

Trophies are donated by the American Royal Livestock show, the Kansas City Stockyards Company and the Kansas City, Mo., Chamber of Commerce. Many Kansas 4-H and FFA members were on hand at the Royal to take part in the drawing at which three gilts were given to two members from each organization.

First Greek Week—Spring 1957

A first on the K-State campus in the latter part of April was characterized by a series of events which were combined into Greek Week. The purpose of this new initiation to campus life was to bring Greek houses closer together. In workshop meetings the main phases of sorority and fraternity life were discussed in attempting to improve the Greek system. On a Friday evening 500 Greeks attended open houses called "party hops" given by three sororities and four fraternities. Last-minute stage jitters prevailed as each of the 14 participating Greek houses took their place on stage for their musical presentation in the 1957 Interfraternity Sing on May 10. But the really tense moments followed the final musical number, as everyone waited for the judges' decision.

Finally the judges made their choice. Beta Theta Pis and Kappa Kappa Gammas were rewarded for their talents, as they won first place in the fraternity and sorority divisions. Alpha Xi Deltas were awarded second place in the sorority division. Delta Tau Deltas and Sigma Chis were second and third place winners in the fraternity division.

"Alice" Guides High School Guests Through Home Ec

"Alices" from all over the state of Kansas were special guests of "Alice in Home Economics Land" on the Kansas State campus last spring. Approximately 1,215 high school girls attended the annual School of Home Economics' Open House. During the day they saw 17 displays, illustrating various curriculums offered in home economics, which carried out the theme in some way. The "Alices" were taken on guided tours of the Child Development Laboratory and Home Management houses.

At noon they were guests at the "Queen's Tea Party" as they lunched from box lunches prepared by K-State home economics students. The high school girls also attended a style show featuring clothes made by home economics students. At a career program they were given a brief peek into the various job opportunities open to them after graduation in each of the various home economics curriculums. To climax the day the "Alices" were treated to a special tea at Northwest and Southeast Halls.

Climax Spring Activities

The Chaparajos all-college rodeo was attended by large crowds at both May Saturday night and Sunday afternoon performances when presented in the spring of 1957 by the riding club of K-State. Among the events in which any Kansas State College student was eligible to compete were goat-tying, barrel-racing, bareback bronc riding, saddle-bronc riding, calf roping, bulldogging and Brahma bullriding. In order to match the entrants, many of whom were Chaparajos members, 15 riders from Haskell Indian Institute were at the rodeo. Judy Horn, representing Kappa Kappa Gamma sorority, was announced queen, and Gwen Bourquin, Judy Horn, Nancy Irvine, Barbara Lewis and Pat Smith were attendants. Other titles awarded were all-round cowboy and top cowgirl which were won respectively by Dale Wilson and Alice Whitney.

Summer scholars swing their partners in the cool, cool, cool of the evening on the Union's "B" Deck.

Irish Players Dermot McNamara and Michael Conaree performed at one of all-College assemblies during the summer.

Summer Hot but Educational

July in Manhattan can be powerful hot—as anyone of 1,769 students who sweated it out in summer school might very well tell you. Staters waited in vain for the cool comfort of an air-conditioned Union—then learned '58 summer school students would be the first to take full advantage of the new air conditioning.

But summer school, like any regular semester, wasn't all sweat. Students retreated to the library and other air-cooled spots, and the Union more than made

up for inconvenience by sponsoring free movies, bridge classes, informal dances, jazz sessions and punch hours for hot weather relaxation. The Music Department presented "Kittiwake Island," a musical comedy starring, of all people, Miss Kansas, K-State's own Georgiana Rundle. And the K-State Players staged "The Glass Menagerie" to entertain summer scholars.

The Quelle religious lecture series, which was met with an average attendance of 200 each week, will be continued as a regular summer session feature, and a Manhattan high school sophomore enrolled in summer school, Charlene Cox, became Miss K-State Coed in a contest sponsored by the Collegian.

Four Major Stage Productions Presented by K-State Players

Grease paint, footlights and the thrill of opening night all combine to lure students into dramatics at K-State, and after they accumulate eight points through backstage and cast participation, they are asked to become active members of the K-State Players, campus drama group.

Any K-State student is eligible to try out for the major productions, the studio presentations, or the staged readings that the K-State Players sponsor each year.

Four major productions, two studio presentations, and one staged reading were given this year. Three one-act plays are given at each studio presentation. They are designed to give freshmen and transfer students an opportunity to take part in dramatics.

romantic comedy. The play, presented in the Student Union ballroom, was given in-the-round. This was the first time such a staging device had been used at K-State. An overflow crowd enjoyed the play during its three-night run. Dr. Earl Hoover, professor of speech, directed the play. Mary Lu Compton Mase, Glen Rhea, Ken Nakari, Louann Oberhelman and John Barry had the lead parts.

In the second play, "Tea and Sympathy," Nancy Lange, Doug Moore and Jim Johnson had the leads. This modern drama by Sherwood Anderson concerned a boy who was trying to live up to his father's outstanding record at a boys' school and was having a difficult time in doing so.

The third major production, "Juno and the Paycock," was presented in March. This tragi-comedy told the story of a Dublin tenement family during the Irish Revolution of the 1920's and their reactions to an inheritance they received. "Paycock" is the Irish equivalent of peacock, and it denoted a character played by Ken Nakari who was very proud and

Pat Myers, Carol Celik and Jim Johnson also had important roles in the play. It was directed by Miss Carolyn Hunt, speech instructor, and Virginia Whealy, student director.

The last major production of the year was "The Time of Your Life," presented in April in the Union Little Theater. This play, written by William Saroyan, was directed by Dr. John Robson, speech professor, and Wendy Helstrom, student director.

of the team. Coach Ray Morrison scheduled workouts at a commercial processing plant in Topeka.

Winning first over seven schools in the intercollegiate wool judging contest at the American Royal in Kansas City highlighted K-State wool judges' activities. Allan Henry was high individual, Walter Martin was second high individual and placed first in commercial fleeces, Dale Schilling was third high individual, and the alternate was Ben Handlin.

At the National Western Livestock Show in Denver, the team was fourth out of 11 in competition. Those traveling to Denver were Ben Handlin, Don Mach, Burke Rogers, Jim Wittum and Rae Luginsland. Coach was Carl Menzies.

The K-State crops judging team coached by E. L. Mader was third at Chicago and fourth at Kansas City. Jack Kersting took second in commercial grain grading at the national collegiate grain judging contest at Kansas City. Jim Beauchamp finished 13th in all divisions, Kersting, 14th and Max Urich, 15th.

At Chicago Max Urich was second in identification and finished as third high individual. In the two contests, the students judged several classes of seeds for planting value; graded samples of grain, hay and cotton according to commercial quality; and identified a large number of samples with other crops, weeds and diseased grains.

The senior livestock judging team coached by Don Good finished fourth at the American Royal. Ben Handlin topped judges from 20 other schools in the contest. He was high in swine and sheep but placed

Those traveling to Kansas City were John Balthrop, Lloyd Boone, Ben Handlin, Walter Martin, Dean Peter, Phillip Schmidt, Therean Towns and Harold Van Horn. Schmidt and Boone did not travel to Chicago where the team placed 14th.

The junior livestock judging team placed first at the National Western Livestock Show in Denver. Competition was based on judging carloads of Hereford bulls, feeder calves, fat steers, lambs and market hogs along with regular livestock judging of show animals. Those on the Denver team were Thurston Thiel, Frank Bell, Jimmy Beauchamp, David Dettke, Donald L. Schick, Rex Chambers and Bryan Barr.

The seven-man team at Fort Worth placed 10th out of 22 teams. Coach Don Good had the team work out at Oklahoma State University before the Fort Worth contest. William Mills, Loy Reinhardt, Charles Michaels, Coy Allen, Ronald Sweat, Harry Todd and Ronald Schultz were members of the Fort Worth team.

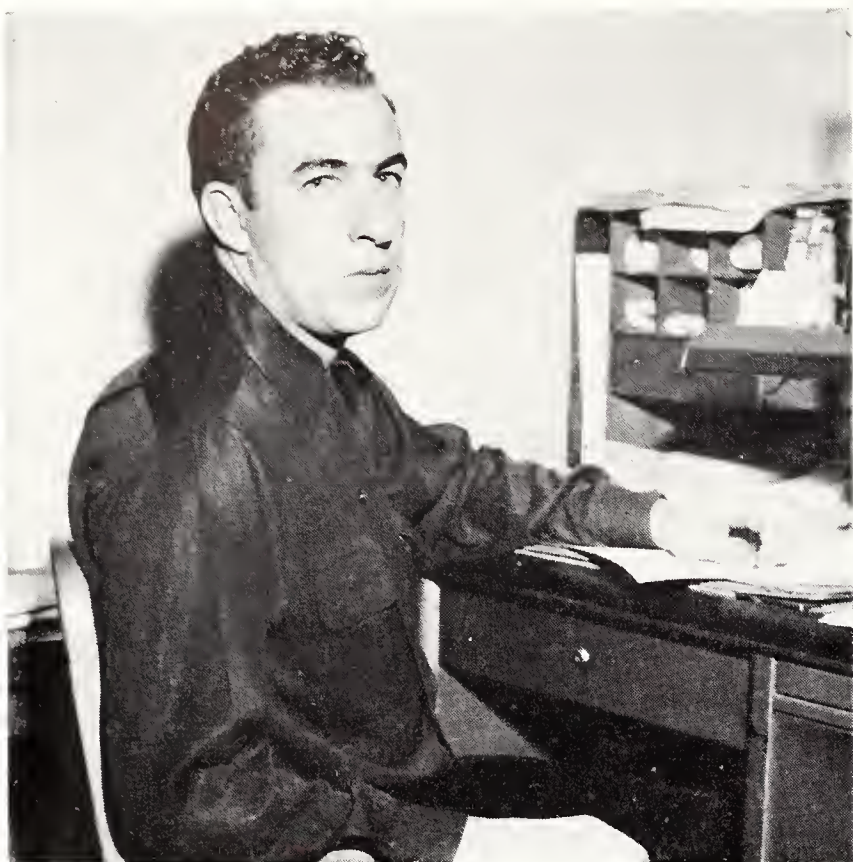

A clean sweep of national honors at Chicago was made by the K-State's junior dairy judging team, and they received the rotating Otto Schneering trophy as they topped 16 other teams at the contest. The team placed first in Shorthorns, second in Jerseys and Guernseys, fifth in Brown Swiss and Ayrshires

and sixth in Holsteins. Stan Smith, Chester Peterson, Dick Dunham and alternate Ray Schooley made the Chicago trip.

The senior judging team coached by G. B. Marion placed first at the National Dairy Cattle Congress at Waterloo, Iowa, and second at the Kansas State Fair in Hutchinson. Charles Michaels was high individual at Hutchinson. Members of the senior team were Darrell Westervelt, Gilmore Dahl, Charles Michaels and Jack Van Horn.

Ag Mag Rates High Nationally

The Kansas State Agricultural Student Magazine placed in all four divisions judged at the Agricultural College Magazine Association at Columbus, Ohio. The magazine received first in general excellence, third in articles of interest to women, third in presentation of technical material and the award for the best cover.

The magazine serves as a laboratory for training students in agricultural journalism. The entire magazine is planned, written and prepared for publication by students with little faculty help. The college press prints it. The Ag Student is published twice in the fall semester and four times in the spring. A big feature each spring is the Little American Royal issue which is in March or April, and it covers all events at the student judging and fitting show.

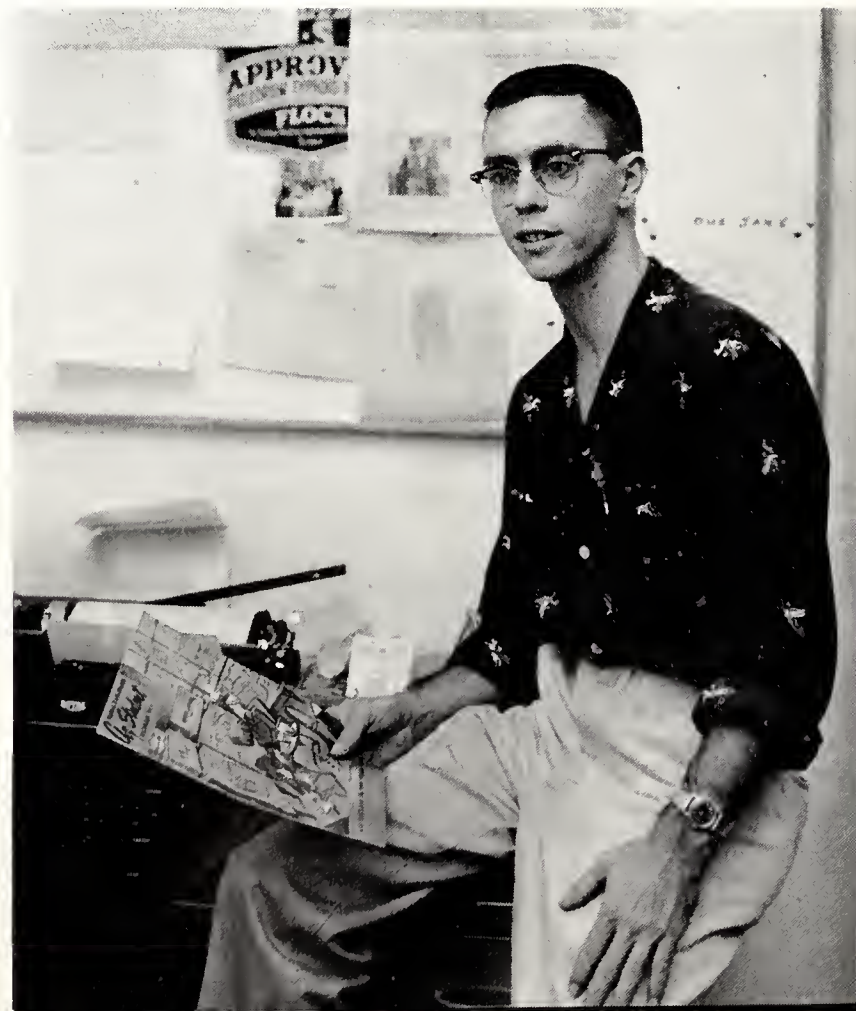

Ag Student staff members and the Plow and Pen Club prepared an exhibit for the annual fall Ag Week which featured the production of the magazine. The booth placed second in departmental club competition.

The Ag Magazine is distributed to students in agriculture, high school vocational groups and county agents in Kansas. The bulk of the articles deal with

technical and news stories of interest to students of agriculture. Also, an article of interest to women is published each month and it is usually written by a coed majoring in home economics and journalism.

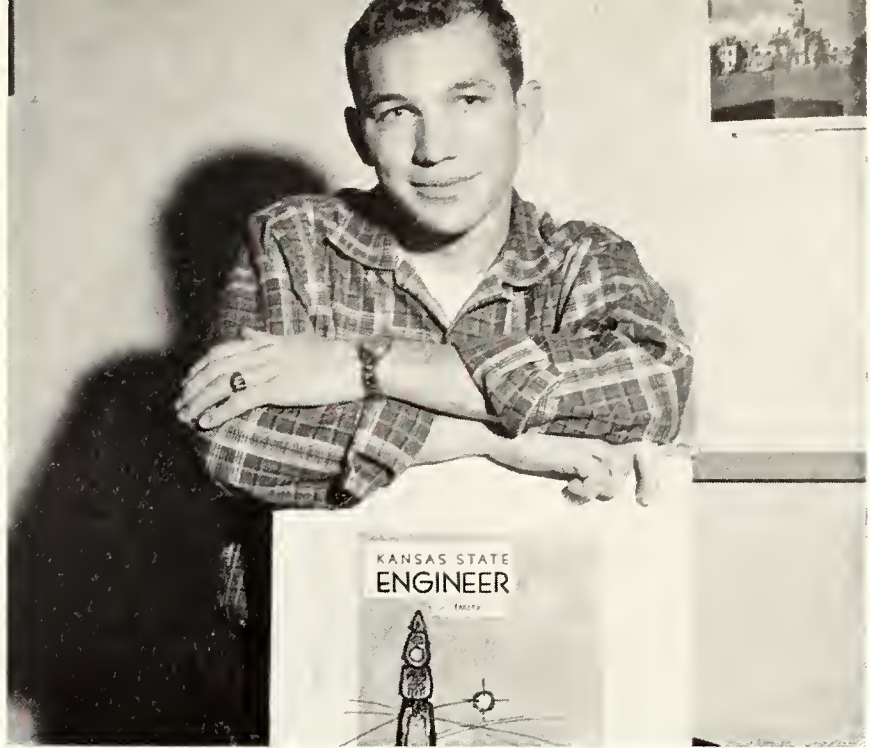

C. Peairs Wilson, director of the School of Agriculture, writes a column each month about subjects from the director's office. Robert Jones is the faculty adviser.

Agriculture 2000 A. D. was featured in one of the Ag Student magazine issues, which was edited by Gary Yeakley.

Sam Warren's job as business manager of the *K-State Engineer* was to handle advertising that supports the magazine.

Editor Jim Lewelling poses with cover design which helped the *K-State Engineer* win third at national convention.

Engineer Is Third in Nation

A highlight for the *K-State Engineer* was placing third in general excellence at the national convention of Engineering College Magazines Associated. The convention was on the campus of Northwestern University in Evanston, Ill., last November.

For the annual Engineer's Open House, over 5,000 copies of the March issue were printed and distributed. The expense of printing the extra copies was paid by the magazine.

Increase in circulation was due to the increase in enrollment in the Engineering School. Two hundred more copies were printed monthly. This year, over 2,300 copies were distributed to students with the remaining 700 copies of the magazine's 3,000 circulation going to advertisers and exchange. Support for the *Engineer* comes solely from advertising, and it is distributed without charge to its readers.

A feature of the magazine is "For Geniuses Only," in which the reader can test his ability on complex calculation problems. Seven issues are printed throughout the school year by a staff composed entirely of engineers. Advisers are Associate Dean Richard C. Potter and Prof. L. F. Hobson.

All College Printing Work Is Job of Kansas State Press

Over \$200,000 worth of printing is done annually by the Kansas State Press under the direction of George Eaton. Extension bulletins, agriculture and engineering experiment station bulletins, the *Collegian*, *Ag Student* magazine, the *Kansas State Engineer*, college catalogs and line schedules, and all types of forms from excuse slips to traffic tickets are printed by the press. State law now requires that all college printing be done by either the college press or the state printer. Most of the printing, with the exception of complicated forms and work during rush periods, is done by the college press.

The press is equipped to print by both letterpress and lithographic methods. The press, although not for profit making, does include costs of labor and materials in its charges so that it is almost entirely self-supporting. It hires 20 full-time employees and 20 part-time student employees.

More and more color printing has been introduced the last several years, as the various editors realize that no knowledge can be passed on if the material is not first attractive enough to be read. The press is producing at near capacity, as the hiring of more employees is not feasible with the present facilities.

Student and campus activities are made known to hometown newspapers by Carl Rochat, director of the News Bureau.

College Press manager George Eaton, at right, and Clyde Spring see that K-State's needs for printed material are met.

Prof. Helen Hostetter edits the *K-Stater*, which ranked third in alumni publications among ivy league schools in the presentation of the college through articles about college departments.

News and pictures of student activities and campus events are sent to newspapers throughout the state by Carl Rochat. Serving his fifth year as director of the News Bureau, he works with the Public Service Office.

For the seventh year, Prof. Helen Hostetter edits the *K-Stater*, alumni publication, also printed by the College Press.

Keeping track of all the business for the ROYAL PURPLE and the *Collegian* occupies secretary Charlene Glenn's time.

Available for advice to *Collegian* and ROYAL PURPLE staffs is Student Publications graduate manager C. J. Medlin.

Medlin Advises Publishers

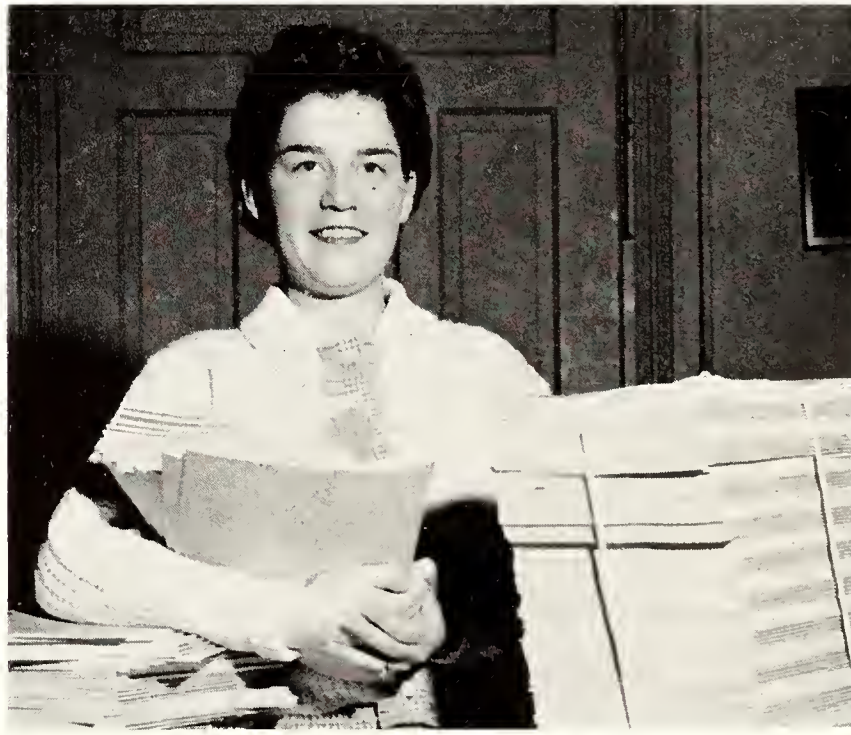

Known as "Chief" to all journalism students, C. J. Medlin advises staff members in his position as graduate manager of Student Publications. He works with the editors of the ROYAL PURPLE and *Collegian* and is yearbook adviser. He also handles finances for both publications. Chief's busy assistant is Student Publications' secretary Charlene Glenn. She

supervises the business office staff and keeps the ROYAL PURPLE and *Collegian* records.

The most used book on campus is the *Student Directory* which contains names, addresses, and telephone numbers of students, faculty members and College employees. College regulations, the SGA constitution, and names of organization presidents are also printed in the directory. Prospective students find information and advice about K-State in the *K-Book*.

New and transfer students have many questions about college life which editor Lance Gilmore answered in the *K-Book*.

Student Directory editor Jan Kraft spent many hours gathering names and addresses of all students and College staff.

1957 *Collegian* All-American rating. The novelty shot was taken over the "phone shelf" in Myers' office.

Daily Newspaper Informs K-Staters of Campus Activities

Putting out a newspaper oftentimes proves to be an around-the-clock job for *Collegian* staffers. Lights in Kedzie Hall, the journalism building, have been known to blaze from dusk to dawn as students worked to meet those all-important deadlines.

Using up a fair share of Kedzie's after-hours electricity first semester was Roger Myers, *Collegian* editor. Fifty-five of the 75 issues published in the

fall carried editorials. Myers' editorial campaigns included support for the move to change the name of Kansas State College to Kansas State University and for a faculty pay raise. A "serious" discussion of the ban placed on smooch lines also crept into his editorial page. Two special issues, Homecoming and Veterinary Medicine Open House, were published in the fall.

Selling and laying out ads for the fall *Collegian* were Hal Mitchell, Rod Ross, Sharon Totten and Gerald Peterson.

Spring *Collegian* daily news editors: Nancy Molter Jackson, Dixie Good, Sandy Wilson, Marilyn McKnight, Dick Haines.

In charge of assigning stories to reporters first semester was Carol Ward, assistant editor. The daily job of laying out the editorial page was in the hands of Jim Bell, who also wrote a humor column.

Next in the chain of command were daily news editors who edited copy, assigned pictures and wrote headlines one day a week for the front page and other news pages. News editors were Marilyn McKnight, Sandy Wilson, Nancy Molter Jackson, Dixie Good and Dick Haines.

Jay Workman was sports editor; Janice Graham, society; Sharon Totten, features; Jan Madsen, church; Pat Roberts, wire; and Joyce Rector, librarian. Photographers were Gary Settle, Darryl Heikes and Doug Tedrow. Business manager was Sue Goss; assistants, Hal Mitchell and Sharon Totten; and salesmen, Gerald Peterson and Rod Ross.

Sue Goss, editor of the spring *Collegian*, was the only woman ever to manage both the business and editorial sides of the paper in the same year. Sue's

papers were noted for good campus coverage and an increase of faculty news. Compulsory ROTC evaluation, Religious Emphasis Week and the College "whistle" all rated space on the editorial page. There were special issues for Engineers' Open House and Hospitality Day.

The editorial staff of the spring *Collegian* was predominantly female, with only three men participating in the operation. Assistant editors were Sharon Totten and Nancy Molter Jackson. News editors were

tor's office were Jim Bell and his assistant editors Dick Haines and Sandy Wilson. Jay Workman was sports editor. The weekly summer *Collegian* published a summer school directory in a special issue. The paper was also sponsor of a queen contest in connection with Manhattan's Municipal Water Show. Editor Bell introduced "Miss K-State Coed" at the show.

The *Collegian* relies on the Journalism department's Reporting I and II classes for its reporters. These students are assigned "beats" to insure complete daily campus coverage. Students working on the daily newspaper develop their skill as reporters and editors and also learn to work with the printers in the composing room. College credit is offered for work done on the publication.

Hal Mitchell, business manager, gained experience selling and laying out ads for both the summer and spring papers.

Jim Bell, summer *Collegian* editor, relaxes in the cool comfort of his air-conditioned office in Kedzie Hall.

Marcia Boyd, editor of the 1958 Royal Purple, sits amidst the 22 All-American awards the yearbook has received. She

began her duties as editor last spring and worked continuously throughout the entire year.

Royal Purple Wins 22nd Consecutive All-American Award

The *Royal Purple* is an all-year job, but the hours of hard work, the late sessions, the reams of copy which are all part of an annual, all seem worth the effort after the finished product comes off the press.

When the ratings came out last fall, the K-State *Royal Purple* was named winner of the All-American college yearbook award for the 22nd consecutive year. This is the highest rating possible given by the Associated Collegiate Press.

Students handled the editorial and business ends of the *Royal Purple* under the direction of Marcia Boyd, *Royal Purple* editor, and Marcia Sowers, business manager. Much of the yearbook's success is due to C. J. (Chief) Medlin, who has been graduate manager of Student Publications at Kansas State for 23 years. The yearbook has been rated All-American every year since he became manager with the exception of his first year. "Chief" is known as one of the

nation's leading yearbook authorities.

Work on the *Royal Purple* begins a year before its publication date. The new editor takes over duties in the spring and works through the summer and during the school year until the final deadline the following spring. Duties of the editor and her assistants include writing and editing pages of copy, assembling individual and group pictures, seeing that the staff meets its deadlines, and taking care of all the little details and business matters that go into making the final product.

The 1957-58 editorial staff consisted of nine students writing copy to fill 496 pages of the *Royal Purple*. Lynne Martin and Charlene Strah were assistant editors. Lynne made arrangements for the taking of pictures of the various campus events and activities, while Charlene was in charge of copy and layout.

Many other students have contributed time toward writing copy and picture cutlines and proofreading. Students may enroll in *Royal Purple* journalism and receive one hour of credit a semester for their work. Writing copy were Jim Bell, Janice Graham, Terry Knowles, Lynn Moxley, Roger Myers, Ruth O'Hara, Carol Sitz, Sandy Wilson and P. A. Young.

The business manager was assisted by Charlotte Chastain, Jane Taylor and Irene Mangelsdorf. In addition to selling advertising, these girls took care of

office details which included selling photo receipts, indexing students' names, typing and working with the students on the business staff. The 33 who worked in the business office received an hour of credit a semester for working three hours a week. They were supervised by Mrs. Calvin Glenn, secretary of Student Publications.

Money needed to finance the yearbook comes not only from part of each student's activity fee but also from the sale of advertising to Manhattan merchants. Some of the advertising is placed by firms outside the local area.

Headquarters for the yearbook are in Kedzie Hall, the journalism building, but the actual printing is done in Kansas City.

Gold K-Keys were awarded this spring at the annual Student Publications banquet to members of the business and editorial staffs who contributed toward the success of the *Royal Purple*. K-Keys were awarded to Marcia Sowers, Irene Mangelsdorf, Esther Edwards, Charlotte Chastain, Doris Miller and Laurel Johnson for their work on the business staff; and to Marcia Boyd, Jim Bell, Sandy Wilson, Charlene Strah, Carol Sitz and Lynne Martin for editorial work.

When another May rolls around, and it is again time to distribute the *Royal Purple* to the endless lines of K-Staters, then the staff forgets the long, late hours it has spent on the yearbook, and the whole job seems worthwhile.

Selling advertising for the *Royal Purple* were Charlotte Chastain, Jane Taylor and Irene Mangelsdorf.

KSDB-FM Gives Opportunities to Students for Radio Training

One of the five non-commercial radio stations in the state, KSDB-FM is used for student training purposes. The station is almost completely operated by students with a minimum of faculty supervision. Ted McCoy was KSDB-FM station manager for the first semester, and John Barry was in charge second semester. George Carroll, speech instructor, was the faculty supervisor.

The station operates at 88.1 megacycles with a power of ten watts. It can be heard on most television sets in Manhattan on channel six. In place of commercials, the station broadcasts public service spot announcements. They have joined the armed forces, March of Dimes, and safety campaigns.

All K-State games, dances at the Student Union, and record shows from the Dive are aired. Also, the mobile team broadcasts the Little American Royal and the Manhattan High School games.

The television workshop gives students a chance to gain experience in originating their own programs. Programs can be televised directly into the two TV classrooms in Nichols gym from the workshop. Students from many different fields have taken courses in the radio and TV as electives.

A round table, part of the station's schedule, is presented by Larry Faler, Jim Harrison, Ken Keefer and Leanne Olson.

Groups Provide Variety of Music

The K-State Marching Band greeted Kansas University by forming a "KU." They performed at all home football games.

The College-Civic Orchestra presented a spring concert featuring two student soloists, Judy Young, violin; and Robert De Cou, French horn. The Orchestra also performed at their fall concert and at the Music Week concert with the vocal groups. Mr. Luther Leavengood directed the 60-piece orchestra of K-State students and faculty, as well as Ft. Riley personnel and Manhattan residents.

Claiming nearly 100 members, the K-State Band made approximately 30 appearances including concerts, games and parades. Mr. Jean Hedlund was band director with Warren McCawley as assistant director. They were assisted by five section leaders and rehearsal assistants. The 68 members of the Concert Band gave three major concerts in January, April and May. The Football Band's annual trip,

The twirlers who performed and marched with the Band were Nancy Howard, Lynn Mechesney, Susan Mechesney, Connie Morgan and Mary Ann Simpson. The Varsity Band of about 32 members played at all home basketball games and appeared at the April band concert.

The Varsity Glee Club, which rapidly grew to include over 80 men, is the newest addition to K-State's musical organizations. Begun this fall by Mr. Morris Hayes, director, it is the first men's choral group on campus since 1948. Together with the Women's Glee Club, the Varsity group gave three major concerts. Soloists for the concerts were Clayton Buck, Robert Paulson, Paul Priefert, Jon Weigand, Alan Bell, Larry Scoville, Bob Sanders and Byron Shields. K-Staters also heard the Varsity voices performing during half time at basketball games and at pep rallies. The group made several sound movie films which were sent to TV stations in the state. Robert George was president of this new vocal group.

The 58-voice Women's Glee Club and the Varsity Glee Club held the first joint recognition banquet during Music Week in May. At this banquet awards were presented to the outstanding member of each group as elected by the students. Mr. Morris Hayes also directed this vocal group.

A Cappella Choir presented the traditional Handel's "Messiah." Soloists were Carol Korinek, Joan Taylor, Judy Stark, Elizabeth Hamilton, Judith Means, Carlyle Thompson and Don Wilbur. A highlight of the Choir's year was the five-day tour in March with performances over the state. The 60-voice choir presented religious numbers from Catholic, Jewish and Protestant faiths as well as light, novelty songs for their program in three parts. A "Friends of Music" concert was also presented in the spring. Many of the Choir's numbers were arranged by Mr. William Fischer, the Choir's director. Carlyle Thompson was Choir president. Yvonne Hodges was accompanist.

Appearing an average of twice a week for Manhattan organizations and groups throughout the state

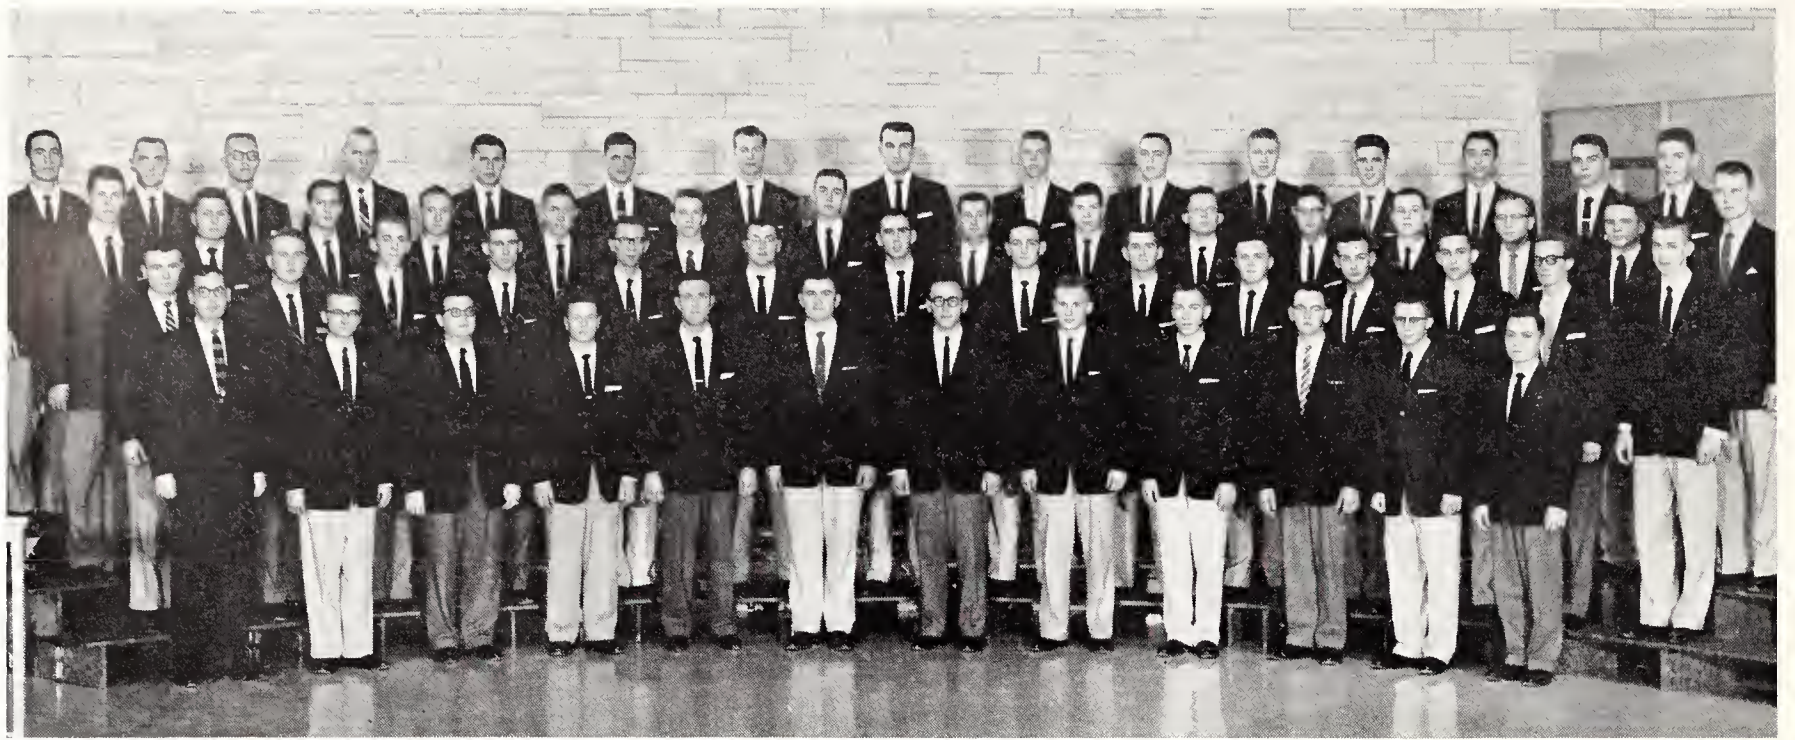

kept the popular K-State singers busy. With much of their arranging also done by Mr. Fischer, the Singers' programs were varied by "Mary Had a Little Lamb," a rhythmic jazz choral reading, and "Autumn Nocturne," a piano solo with the Singers accompanying vocally. This year the addition of choreography gave variety to many Singers' numbers. Outstanding among the group's performances were those at the Homecoming Ball, the Governors' Conference, the Newman Club Tri-State conference and the Jayhawk Teachers Banquet in Topeka. The Singers also appeared for four shows at Ft. Riley. This year's Singers were Janice Casey, Carol Korinek, Judy Horn, Judy Stark, Kay Henning, Elizabeth Hamilton, Charles Hastings, Dave Larson, Don Wilbur, Terry Bullock, Clayton Buck and Carlis Cassel.

The College Chorus, heard annually in the "Messiah" presentation, gives its 45 songsters an opportunity to hear good music and to learn to sight read. According to its director, Miss Hilda Grossman, "Chorus is more a service organization than a performing organization."

Book 4:

CLASSES

How fast the days go by, and the significance of the years spent at K-State is realized when one is at last a part of the graduating class. It is the achievement of a goal four, five, or more years old. Kansas State's students come from nowhere special. They are smart, and not so smart—but personal ambition balances out the intelligence they lack. They meet a cross section of the world in their classrooms and extracurricular activity associations. And to most, there seems to be no great distinction between the classes. This is because underclassmen and upperclassmen have been classmates and have studied together. This is because no one ever forgets what being a freshman can be like, or how they learned to darn their own socks and press their own clothes and set their own standards on time. . . Yet, everyone looks forward to being a senior. Everyone is glad to be a senior . . . until graduation day. Perhaps it's only then they realize that college truly has been . . . "the time of their life."
