RELATION OF RURAL HIGH '

heavy with a big program. Neither have I a great burning message. I will mention things common to you. I am glad I was introduced as a superintenden of the common schools. I have been a county superintendent for many years. I went from that office to the state office. What I thought I could do when I went into the county superintendent's office was to study the school laws for two or three days and then I could tell them just how they should be amendthem just how they should be amended. After 13 years study, I am convinced nobody can tell what to do with the school laws. A recommendation I would make about our school.

I would make about our school laws would be the common schools. A school laws are commended to a way as to make it attractive by making it profitable. Hon. Henry C. Wallace, Secretary of Agriculture, has look a school laws would be the common school. With the teacher this to say shout the need for them to remain on the farm and manage it in such ly equipped schools. (The amount for the present year is \$90,000. In teaching Vocational Agriculture rural high school. With the teacher this to say shout the need for the need of vocational Agriculture in proper into. You have no idea how much take in 7th and 8th grades and organize and make community centers. I think I shall let the next speaker

Q. A person has to 18 years of age under the present law?

A. All have to 18 years of age now except those taking normal training in high school.

Q. Is there a great surplus of teach-

ers at this time? A. There is a surplus of 4 or thousand teachers at this There has been a tendency to make the qualifications higher in the high schools. There nobody can teach without a degree. In the common school we are needing the higher schooled people who we do not have.

Q. Is it not a fact that teachers,

Q. Would it not be better to let the county superintendent pick the teach-

are born and not made?

A. Perhaps. Why not encourage a people to become farmers instead of wanting them all to be teachers?

Q. If you have a large number to pick from, would it not be better? A. I am not arguing for a scarcity of teachers to raise the wages. It is a good thing if you have a number to pick from and can pick the best. My first term of school was 6 months and \$25.00 per month which was a good salary and high for the services ren-

I thank you for the opportunity of speaking to you and assure you I want to do what is best for the schools. I have no big program but I think I know some of your problems. I was on the farm and taught school out there. Went to school there and out in the central and western part of the state, where I have been some, I have discovered a more liberal attitude to education than we have in the eastern part. You have bigger and better buildings and more

ORGANIZATION AND COOPERATION Jacob Taylor, Editor Farmers'

National Magazine It is important and necessary that thirty-three per cent.

At Marysville, Marshall County, the farmer get thoroughly soundly and completely organized. Get lined up together. The time will come when with his boys developed a strain of smut resistant corn. Eight hundred bushels of the seed were grown and distributed to the community.

In a number of places throughout the state the boys in vocational agribution as part of the school work. are kelling records on the entered about getting rich over night. Politicians tell you you are acting the fool like everybody else does. They come with a new proposition. Twenty-one years old this month is

world today. Every once in a while somebody would come sweeping over the country to give relief to the farmer. He would organize this commodity or that commodity and he would handle it on a commodity basis. He would have the assistance of business known as the Mother and Daughter minds. They put over something like a \$300,000,000.00 cotton pool down In a number of places each boy has South not long ago. How long did brought in two or three hens from it last. It lasted just as long as the cotton men were satisfied and got a a building put up by the boys and high price. You must have something handled as one flock of poultry. This behind your commodity organization. furnishes practical experience and a Some general organization. You cannot get a contract strong enough to hold over a long period of years. When enough get dissatisfied they will quit and the organization will go over the board. If you will organize a Farmers Union and do not get them all in, get a few of the sensible ones in. Get them in and lay the foundation and you have the medium to talk and educate so they can do something. You get the lo-cal enterprises. Then you have your organization to go out and preach loy-alty. It is loyalty that makes these stick. The most important of the whole works is you people sitting on these hard benches and listening to these discussions. You are most powerful. You get some information. You get some experience. You go fice speak of illiteracy. I have heard the word so much I am tired of it. If we want to reach the illiteracy I first thing you know you are getting will tell you how we can do it, with enthused about it and some old hard head in the neighborhood gets interadminister the laws we have. If the children are not in school let us put them there. We have a night school ested and you have another dues paythem there. We have a night school law and why not send these people to night school. If the Board is petitioned by October 15th they have a night school for people over the have a night school law and why not send these people to night school. If the Board is people to night school law and why not send these people to night school. If the Board is people to night school law and why not send these people to night school. If the Board is people to night school law and why not send these people to night school. If the Board is people to night school law and why not send these people to night school. If the Board is people to night school law and la to have a night school for people over helps this organization and then your 16 years of age. If there is the great amount of illiteracy in Kansas that we are given credit for, I am unable vous business enterprises. I don't we are given credit for, I am unable to find it. By that, I mean people who are unable to read and write the English language. I think there is as English language. I think there is as save you. Big people all over the much illiteracy in Crawford county. save you. Big people you have to be organized. The New Wheat Pool Agreement

A Resolution proposing the amalgamation of the Kansas Wheat Growers Association and the Farmers Union Cooperative Wheat Marketing Association for the purpose of organizing a single Cooperative Wheat Marketing. Association based on a new Standard Marketing-Contract.

Whereas, The benefits and advantages of cooperative marketing must depend very largely upon the volume of any commodity under the control of a single agency which volume should never be less than sufficient to properly and economically direct the distribution of the crop

organized. and Whereas, After three years of continuous effort by the advocates of the wheat pooling plan in Kansas, contracts for less than ten per cent of the annual production of Kansas wheat have been obtained with no immediate prospect, under existing conditions, of securing a pool membership sufficiently large to properly direct Kansas Wheat Marketing, and

Whereas, The Kansas Wheat Growers Association and the Farmers Union Co-operative Wheat Marketing Association are both engaged in the work of organizing Kansas wheat farmers with pooling contracts which are substantially the same and in marketing the wheat so pooled on the co-operative plan through separate selling agencies, thus creating two distinct groups of producers with identical interests and purposes but with organization and operating agencies unavoidably in competition with each other, all of which create wholly unnecessary as well as costly rivalries, retards the progress of co-operative marketing and is detrimental to the welfare of the farmers and of the general public of the State of Kansas, and

Whereas, The true interests of the wheat producers of Kansas would be served best by the union of the two existing cooperative wheat marketing associations and the promotion and support of the pooling movement by united and harmonius forces to the end that a sufficient volume of the annual wheat production of Kansas may be organized to direct the marketing of such crops through a single agency and that all competition between groups working for identical results may be brought to an end, therefore be it,

Resolved, That the Executive Committees of the Kansas Wheat Growers Association and of the Farmers Union Co-operative Wheat Marketing Association in conference assembled at Kansas City this seventh day of November 1923 do hereby agree as follows:

First, That a joint committee be appointed by the conferring bodies to consist of representatives of the Kansas Wheat Growers Association, the Farmers Union Cooperative Wheat Marketing Association, the National Wheat Advisory Committee and the American Wheat Growers

Second, That this committee is hereby empowered, with the assistance of the general counsel of the National Wheat Advisory Committee, to draft a new one hundred per cent annual pooling contract which when drawn and approved

by the Boards of Directors of the respective Associations shall take the place of both the pooling contracts now used by these Kansas Associations shall take the place of both the pooling contracts now used by the Kansas Associations.

Third, That immediately on such approval an organization committee shall be created to consist of representatives of the two Kansas Wheat Marketing Associations and of other citizens of Kansas who are acceptable to the respective associations and to the National Wheat Advisory Committee, and who may be helpful in uniting the agricutural forces of Kansas behind a great state-wide marketing program for wheat.

Fourth, That after the approval of the new pooling contract by the respective Boards of Directors of the Kansas Wheat Growers Association and the Farmers Union Cooperative Wheat Marketing Association all organization work of both groups shall immediately cease, and the full resources of each organization shall be thrown behind the new organization committee and its work.

Fifth, That the new pooling contract shall contain a clause providing that it be not operative unless an amount of wheat equal to forty per cent of the five-year annual average production of Kansas shall have been signed by June 1, 1924, said amount to include all amounts now under pooling contracts in Kansas, and that the sworn statement of the secretary of the organization committee shall be accepted as conclusive evidence of fact in this regard at the end of the organization period.

Sixth, That on such evidence being presented that not less than 40 per cent of the wheat is under contract for marketing, the new marketing association shall be incorporated to handle all wheat thus signed, and the respective Boards of Directors of the Kansas Wheat Growers Association and the Farmers Union Cooperative Wheat Marketing Association shall immediately take all necessary steps to liquidate the business of such associations and tranfer the assets, books and records of their respective organizations to the legally elected directors and officers of the new association.

Seventh, The oranization committee to be created hereunder shall have full power and authority to consider, determine and put into effect all steps necessary to the completion of the program outlined herein.

Signed this seventh day of November, 1923. For Kansas Wheat Growers Association. COX, President.

THURSDAY, NOVEMBER 15, 1923.

CAMPAIGN CLOSING DATE POSTPONED

The weather has been bad, the roads have been muddy and the farmers very busy at home during the time set for the state wide drive for the collection of dues and the drive for new members. Many counties where there is intense interest in the campaign to strengthen the organization report that it has been almost impossible to hold meetings either of locals or of county unions.

"Also it takes some time for the word to get around and to get folks interested even in their own business. There are a good many places where the members want to do their part in this matter but for one or another good reason have not yet started. To make this campaign really worth whilt there must be interest in it in every part of the state.

The Board of Directors of the State Union, taking all these conditions into consideration, decided, at its recent Kansas City meeting, to make the closing date for the campaign December 31st instead of November 16th as at first announced. This should enable all members and organizations interested to do their full part in the necessary work of strengthening the Union in Kan-

Bear in mind, brethren, that closing date of the membership campaign is December 31st, 1923.

THE MURRAY GARSSON PRIZES

The cash prizes offered by the State Union for increase in membership and collection of dues will be awarded to the five counties that do the most work before December 31st, 1923. The award will be based on new memberships, on the collection of current dues, advance dues for the year 1924 and on dues delinquent on January 1st. 1923.

The collection from new members includes the iniation fee of \$2.00, the dues for the remainderof this year at the rate of 19 cents a month -less half a month not counting the building fund assessment for 1923 of 50 cents and the regular dues for 1924 or \$2.25, a total of \$4.94 for all new members initiated after November 15.

The collections from members in arrears continue as announced before, that is all arrearages, including the dues for 1923, plus the building fund assessments for 1922 and 1923 if dues paid is for a part of either year or for both years and the advance dues for 1924.

LOOKING AFTER LAME DUCKS. Former Senator Kellogg of Minnesota is to succeed Colonel George Harvey, as United States Ambassador to England. Kellogg is the man who lost his seat in the Senate to Henrik Shipstead. . There are people who will say that inasmuch as the people of Minnesota are through with Kellogg it is hardly right for the federal government to hand him the best of all the diplomatic

appointments. Such critics are wrong. The fact that Kellogg is no longer wanted by the people of Minnesota is no argument against his fitness for the ambassadorship to Great Britain. The voters of Minnesota are perfectly willing that Kellogg shall be sent to London. The only possible objection they can urge against the appointment is that England is not so very far away from Minnesota.

THE WHEAT SITUATION.

The condition of the wheat farmers does not improve? The price has advanced slightly above the low marks of the summer but is still far below the cost of production. It may be that government can do something about wheat but it is doubtful. The wheat growers must help them-

It is easy to advise self help but how is the farmer to be persuaded to do the things necessary to advance the price of wheat and what are the things that should be done. To get a fair price for wheat the farmers of this country

must do several things for themselves. In the first place all America might as well recognize as a permanent condition that the days of American wheat exporting are about over.

New wheat lands are being opened up in Canada, Australia, South America and several other countries. Production of export wheat in Russia has been resumed and will increase rapidly. Not only will there be an increase in export wheat in Russia has been resumed and will increase in export wheat production in many countries during the next few years but the bulk of that wheat will be produced much more cheap-

ly than is possible in the United States. America will not export wheat in the future but the rapidly growing city populations of this country will soon absorb most of the surplus that was once exported. For all wheat consumed within the boundaries of the United States it is easily possible to get a good price.

How? The farmers are from Missouri and want to know what they shall do to get more money for wheat. Well, sow less wheat for one thing. Big crops and high prices seldom go together. For another thing, wherever such farming is possible, sow wheat early enough so that it can be used for pasture and so bring in some return even if it is never harvested.

Another thing. In the spring there are thousands of acres of wheat that any good farmer knows will not produce grain to pay for harvesting. All the unpromising fields and parts of field should be plowed up in May and planted to feed crops.

After threshing and before marketing is begun all wheat should be tested both as to its weight and its protein content. Light and poor wheat should not be marketed but fed and the good milling wheat should be stored and marketed cooperatively.

So there you are. The wheat farmers must reduce their acreage, feed their cheap wheat and market their good grain cooperatively. None of these things can be done without organization. The wheat grower should belong to an educational association like the Farmers Union and to a Commodity Marketing Association like the Farmers Union and to a Commodity Marketing Association like the Farmers Union Wheat marketing Association.

Resolution of Respect.

Whereas death has removed from us our beloved brother and fellowworker, Victor C. Anderson, of Wellington, Kans., Who for many years has been enthusiastic and untiring in his efforts for the Farmers Union; and who in his nearly six years of service as a member of the State Board of the Farmers Union endeared himself to every member of the Board, giving always his best in behalf of the State organization; now, therefore, the Board of Directors of the Kansas Division of the Farmers Educational and Cooperative Union of America do hereby express our appreciation of his life and work, and our sympathy to his family.

W. P. LAMBERTSON, C. E. HUFF, Committee.

THE SERVICES OF SAPIRO.

Aaron Sapiro makes a lot of people angry Why not? He is engaged in a work that reduces the income of a considerable number of thousands of the shrewdest and ablest business men in this country. It is entirely natural that he should not be greatly beloved by the gentry who see their profits disappearing as the processes and programs of cooperative marketing are developed and perfected.

Many farmers and farm leaders do not like Sapiro. He has a scorn for pretense, for bunk, and for demogoguery that he hardly ever takes the trouble to conceal. It might be better if he would sometimes dissemble his contempt for mediocrity and his hatred of shams but if he were to do so it would not be Sapiro.

Sapiro belongs to that type of Jews that has been a force in every generation since the dispersion of the chosen people--men with a passion for service. Such a man was Joseph who taught the Egyptians how to conserve their resources and safeguard themselves from famine. From the days of Joseph men of the same blood have acted similar parts in the great play of human his-

America owes much to the Jews who have taken part in the constructive work of this country. Eugene Meyer as Chairman of the War Finance Corporation has long been the most useful public man in Washington. Julius Rosenwald amasses millions and devotes the bulk of his income to charity and education. Bernard Baruch places his great fortune at the disposal of those who would reconstruct American Agriculture. Sapiro devotes talents that would earn millions for him in the service of corporations to the hard and often thankless job of organizing cooperative mar-

Why criticize such men? Possibly because they are Jews, possibly because they have made fortunes, possibly because their motives are distrusted. Sapiro, notwithstanding reports to the contrary is still the real leader of the tobacco marketing associations. He is the attorney and adviser as well as the friend of scores of cooperative associations that are making and saving money for their members. He is ready to assist the wheat growers in completing and perfecting their organizations.. The only thing that interferes with his usefulness at this time is that he is reported to be in the employment of the thoroughly discredited American Farm Bureau Federation which was responsible for the collossal blunders, the monumental failure, and the measureless stupidity of the United States Grain Growers Incorporated.

SPREAD MUST BE READJUSTED.

A great many people are just now learning erence to the bed spread that must be properly adjusted at least once a day in the interest of good housekeeping, nor of the marmalade or butter that is spread on our daily broad. The result is spread on our daily broad. ter that is spread on our daily bread. The world just right now is thinking about the spread in value between the producers of raw materials and the consumers finished products.

Two existing Ransas Associations in buckshot and keep them on duty day be charged back to the producers in buckshot and keep them on duty day and the consumers finished products.

judged and found guilty in advance Says Grain Futures Act Has Not Lowered Price Of Wheat

In a telegram to the Secretary of Agriculture, dated July 26, George S. Bridge, chairman of the International Grain and Hay Show, calls attention to a statement made before the National Hay Association Convention by Bert H. Lang, vice president of the First National Bank of St. Louis, to the effect that first-aid committee of the two Associations. to pay the wages of a chauffer for A committee made up of Judge the gubernatorial automobile as it is in restricting the volume of trading

* * and the American speculator who now believes that wheat is below a fair and equitable value will

immediately come into the market in a volume that will absorb these daily hedges that are now exercising American flour buyer and without some effect on the foreign buying mind. My critic may reply that there ing at the present time, and my reply is that he is technically correct, but there is a natural restraint that comes through fear of a definite ruling temporarily held in abeyance. What the trade wants is concrete assurance that it will not be interfered with in its investment in a trading

from ever being completed. Some one has to pioneer any movement.

One of these days the half hearted converts who say they believe in pooling if more than half the wheat is organized are going to have their bluff called. They are going to have an opportunity of signing a pooling contract to become effective only when 50,000,000 bushels of wheat have been signed up. Will they sign such an agreement?

Judge Brown, president of the same organized or the same organization: Aaron Sapiro, genteral counsel for many cooperative marketing associations and the greations of cooperative marketing associations and the greation of the American Cooperative work as quite a number of his brightwork as quite a numb their classes. Rheumatism

Remarkable Home Treatment Give 1 by One Who Had It

In the year of 1893 I was attacked by Muscular and Sub-Acute Rheumatism. I suffered as only those who are thus afflicted know for over three years. I tried remedy after remedy, but such relief as I obtained was only temporary. Finally I found a treatment that cured me completely and such a pitiful condition has never returned. I have given it to a number who were terribly afflicted, even bedridden, some of them seventy to eighty years old, and the results were the same as in my own cose.

I want every sufferer from any form of muscular and sub-acute (swelling at the joints) rheumatism, to try the great value of my improved "home Treatment" for its remarkable healing power. Don't send a cent; simply mail your name and address, and I will send it free to try. After you have used it, and it has proven itself to be that long-looked for means of getting rid of such forms of rheumatism, you may send the price of it, One Dollar, but understand I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer, when relief is thus offered you free. Don't delay. Write today.

Mark H. Jáckson, 100 J Durston Bldg., Syracuse, N. Y. Mr. Jackson is responsible. Above statement true.

ONE WEAK LINK WHICH HAS BARRED PRICE CONTROL BY FARMERS WELDED AT CONFERENCE IN KANSAS CITY

The one weak link in the chain of co-operative wheat marketing, which Buy your tickets to Omaha paying as a railroad is wicked as well has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented Kansas wheat farmers from exerting any formidable power has prevented kansas wheat farmers from exerting any formidable power has been formed by the contract of the of price control, was welded anew at a conference at the Coates House

Buy your tickets to Omaha paying the full one way fare and ask the agent for a CERTIFICATE, not a receipt. All stations do not have certificates. If your agent cannot supply you buy to the nearest point where one may be secured. Sign the certificate in ink. Upon arrival in Omaha turn your CERTIFICATE over to A. C. Davis, National Secretary who will be at the Castle Hotel. He will see that you are properly identified and your certificate validated. If a certificate cannot be secured take a receipt from the ticket agent, this can be made to answer as a last resort.

Buy your tickets to Omaha paying as absurd. If God wanted human beings to travel at the fearful rate of seven miles an hour, he would have clearly forefold it by His Phophets, but since nothing is said about it in His Holy Writ, it is plainly an invention of the devil, to lead immoral souls to hell Hegce, we must refuse that you are properly identified and your certificate validated. If a certificate cannot be secured take a receipt from the ticket agent, this can be made to answer as a last resort.

The move, which resulted in consolidation of the two major cooperative wheat marketing agencies of the state was termed "the most important help in cooperative marketing agencies of the state was termed "the most important help in cooperative marketing agencies of the state was termed "the most important help in cooperative marketing agencies of the state was termed "the most important help in cooperative marketing agencies of the state was termed "the most important help in cooperative marketing agencies of the state was termed "the most important help in cooperative marketing agencies of the state was termed "the most important help in cooperative marketing agencies of the state was termed "the most important help in cooperative wheat annals of well as cooperative wheat answering agencies of the state was termed "the most important help in cooperative wheat farmers from excellent help well as cooperative wheat farmers in the devil, to lead immoral souls made to answer as a last resort.

The return ticket may be purchased over the same route as the going trip for one half the one way rate; provided the number attending the provided the number attending the convention by rail is 250 or more.

The return ticket may be purchased over the same route as the going trip for one half the one way rate; bear with identical interests and purposes, but with organization and operating agencies unavoidably in competition with each other, all of which creates wholly unnecessary as well as costly rivalries, retards the progress of cooperative marketing and is detrimental to the welfare of the farmers and of the general public of the state of Kansas.

BARRED FUNCTIONING GRAIN POOL.

For many years it has been realized by Kansas wheat growers that a ganized to the most minute perfectfunctioning grain pool could never be obtained as long as the Kansas Wheat Growers' Association and the Farmers' Union Wheat Association were

AT CLEMENTS

AT CLEMENTS

y Farmers Co-op
The American farmers are largely unorganized yet.

A good many of you have joined a farm Organization or two and then the control of a single agency." For several years the separation of the two big agencies has frustrated the very purposes of the organizations.

A difference of policy toward the member farmers had held the two are get you very far, for had the bank-

groups apart. While the Kansas Wheat Growers' Association insisted on compulsory pooling of grain, the Farmers' Union Wheat Marketing Asation like some farmers do theirs, sociation was content to give its members the option of united marketing ers Union Hall, Oct. 30, 1923.

The Hall was beautifully decorated with leaves and vines in the corners and over the windows, and with paper and over the windows, and with paper draperies artistically arranged. The huge bunch of grapes made of rubber hard time in the papers, more than the result has been very gratifying to them.

Sociation was content to give its members the option of united marketing sociation was content to give its members the option of united marketing through the organization. This difference was adjusted yesterday when it was stipulated in the draft of consolidation that the pool becomes inoperative unless an amount of wheat equal to 40 per cent of the 5-year average production of Kansas is signed by the new joint group by June 1, and the result has been very gratifying to them.

You don't read much about their in the papers, more than the organization. This difference was adjusted yesterday when through the organization and the result has been very gratifying to them.

You don't read much about their in the production of Kansas is signed by the new joint group by June 1, and the result has been very gratifying to them.

ASSOCIATION IS TO INCORPORATE When the new joint pool obtains control of 40 per cent of the Kansas crop the new marketing association will be incorporated to administer to liquidation of the grain. A great state-wide marketing program for wheat will be the motive of the larger association. These representatives of the two marketing agencies signed the con-

One dies served an elegant lunch for which they have the thanks of the ementary education should give the Local members. child a bias toward the 'farm, that he should be fitted as a producer of farm commodities. Another group of persons believe that rural elementary ting. They believe that the rural child should be given such training in the elemetary school as will insure his integration with American society as a whole. They believe that he should not be given a bias in any direction, that agriculture is a means of education, and not an end. Why, they ask, should the farmer's child be educated for farm life any more than the min-er's child should be educated for a

life in the mines? The first group, holding to the view point that rural education is to train for the farm, deliberately limit the occupational opportunity of the farm ously safeguarded.

states where freedom of choice is in varying degrees denied and where returns for occupational effort are

THE BRIGHT LIGHT OF CO-OP-ERATION Cooperation is the

a capitalist, there is looming ahead a vision of a new condition of things for all. In a spiritual sense the souls of men are infinitely greater than anything else in which the human body participates. Just now, the vis-ion—like a lone person standing on a great, barren plain, denuded of veg-etation, water and life itself—will materialize into a kingdom of supreme intelligence. Cooperation was here before us, and it will be here when we are gone. Other men perhaps, in ages past, have seen the vistunity is a precious heritage to the ion of Co-operation. But when we American citizen and should be zeal- realize that up to this day, civilizavanced from the meagre start in Bibpled the United States from older lical times, we know that a great states where freedom of choice is in future is ahead. There is wisdom in everything that God and Nature give us. There must be wisdom in Cooperation or else we are on the wrong U. Use every chance you have of Individual migration in response to humane and spiritual uplift point in only one direction. Everything that we may see, everything that we may feel and everything that we may do is in direct contrast with the natural order of the universe. From the tiny atom to the giant sun-all, everything moves and acts with precision. Watching for the sign may many, but if the straight road is kept the distance is the shortest. Coopera-tion in every way is present. Let the watchword guide us and in due time we will reach the end of the trail.

> This is the time of the year when every local should make an earnest The road to and from the farm attempt to double the local membership. You and I both know it can be done. It will take some effort, it is true, but nothing worth while is accomplished without work, and this Summit Local 859, Farmers Union, labor is most certainly Worth While. held their regular meeting Tuesday If we will use the organization as evening, October 30. There was a the founders intended we will soon large attendance. Prof E. G. Kelly, know to our utmost satisfaction that bug and the Hessian fly. His re-marks were well received as the farm-ing can be accomplished until we eders are very much interested in this subject.

The Murray Garsson Membership Prize Contest

Mr. Murray Garsson of New York, the Motion Picture Producer, who is preparing the big Farmers Union Picture Play for presentation to the People of the United States, is an ardent convert to the Union Program of Organization, Education and Co-operation. While in Salina during the week of the Educational Assembly was very much surprised to learn that there has been a decline in the membership of our Kansas organization. He expressed amazement that there is even one farmer in this state who

does not belong to the union. Hearing that a state-wide Membership Campaign was being planned by the officers and Directors of the State Union Mr. Garsson offered to contribute \$500 to be used for prizes for securing additional members and for the collection of dues from those who have not paid up for this year. The Board of Directors accepted this generous donation and added \$125 to it from the State Treasury to be divided into five prizes to be offered to County Unions participating in the campaign as follows:

The First Prize, \$250 will be awarded to that County Union which makes the greatest gain in its paid up membership before November 16th, 1923. The County Unions finishing Second, Third, Fourth, and Fifth will each receive substantial money prizes the whole amount of Prize Money, \$625, to be divided as indicated below:

FIRST PRIZE	\$250.00
FIRST PRIZE	\$150.00
SECOND PRIZE	\$100.00
THIRD PRIZE	\$ 75.00
FIFTH PRIZE	\$ 50.00
FIFTH PRIZE	

Conditions of the Great Prize Contest FIRST-Paid up Members for the purposes of this Contest, shall mean all dues paying members whose dues and assessments are paid in full to December 31st, 1924. This definition includes four groups of members in good standing as follows:

(a) All members now in good standing, that is who have paid their dues and the Building Fund Assessment for the current year and now pay \$2.25 dues for the year ending December 31st, 1924, before November 16th, 1923. (b) New members who pay an initiation fee of \$2.00, current dues and building

fund assessment amounting to \$1.07 and \$2.25 dues in advance or a total of \$5.32 to put them themselves in good standing until December 31st, 1924.

SECOND-No competing County Union shall be awarded a cash prize amounting to more than ONE DOLLAR for each NEW member obtained.

The above prizes are maximum prizes, you must secure at least 250 new members in any one county in order to win the grand prize. Oother prizes distributed pro-rata. THIRD—All dues and fees collected in the Prize Contest be properly distributed to the Local, County and State Unions before any prizes are awarded and Local Secretaries shall be given to November 23, to make their settlements with County and

State Secretaries. FOURTH-All County Unions contesting for the Murray Garsson Prizes must mail their reports to the State Secretary before midnight of November 25th, 1923, and the

post mark on the enclosing envelope will determine the date of mailing. FIFTH-The award of Prizes will be made by a jury composed of the Officers and Directors of the Kansas State Union and shall be announced and the prizes paid not

later than December 8th, 1923. Every County Union in Kansas should take part in this contest. Officers and members throughout the state are urged to give their time and influence to this campaign. It is more important that the Organization shall have a large membership in this state. If in doubt about any of the terms of the Contest write to Secretary C. E. Brasted,

Salina, Kansas, for more information. Now is the Time to Build the Farmers Union. Let's Go.

C. E. BRASTED, Secretary.
