SALINA, KANSAS, THURSDAY, AUGUST 10, 1933

Applications, Contracts Soon in Farmers' Hands

Government Printing Presses Now Printing Million and Half Applications and Contracts for Wheat Adjustment Campaign

CONTRACT PROVISIONS

Amount or Percentage of Reduction to Be Asked Withheld until Result of World Wheat Conference is Definitely Known

Preparations for the Government's wheat campaign is nearing completion and the Government Printing Office began print- feet of loose formation filled with ing 1,500,000 applications on Saturday, August 5, for wheat adjustment contracts which will be distributed to farmers by the Agricultural Adjustment Administration before asking the farmers to sign up under the wheat plan, Chester C. Davis, director of the production division, announces.

Administration will mail 1,000,000 specimen wheat contracts must be approved before any adjustment payments can be made in that county. for inspection and study by farmers, M. L. Wilson, chief of the wheat section of the production division, said. The wheat campaign will affect approximately 1,200,000 farmers in 1,200 counties in 40 states. Applications should be in farmers hands within 10 days, Mr. Wilson says.

ments can be made in that county.

The contract sets forth in final form the details of the Government's offer to wheat farmers and the conditions to which the Government will ask farmers to agree. It specifies the allotment for the farmer, division of allotments between tenants and landlords, and use of land taken out of cultivation, and defines maximum and minimum acreages which the farmer agrees to sow to wheat, and limits use of commercial fertilizer to normal requirements. The intention

Preliminary educational and or-ganization work in the chief wheat for 1934 and 1935 as will tend to bring producing counties has been under the parity return to farmers on their way for several weeks, and applica- allotment is stated in the contrac. tions and specimen contracts will be distributed as the educational program

DEEP TEST WELL NEAR LINDSBORG WAS 'DRY HOLE'

nvestors in Oil Payments, However Still Have Shot at Possible Production from Shallow Formations in Same Field

ADD NEW EQUIPMENT

First Shallow Test Should be Completed within a Week; Deep Test Abandoned at 3,638 Feet Last Sunday-To Try Again

The first deep test well on the Nelson farm, near Lindsborg, in which the Farmers Union was deeply interested because of the fact that it is on acreage pooled in the Farmers Union Royalty Company has been abandoned at a depth of 3,638 feet, as a "dry hole." Decision to abandon the well was reached Sunday evening after the drill had punched on past the break in the Siliceous lime into the eight

This announcement coming from the operators comes as an anticlimax to developments which had pointed strongly to the discovery of a good producer. All the way down, forma-tions were found at increasingly high Shortly following the distri-bution of the applications, the Administration will mail 1 000.

> These "high" formations, however mean that somewhere near this well is a pool which has everything which the operators hoped to find in this first deep test well, say those in charge. According to these men, the Farmers Union Royalty Co is fortunate to have interests in the acreage surrounding this well. Operators are so confident of this fact that they are laying plans to proceed with another deep well, as soon as practicable, on another location in this pooled acnormal requirements. The intention

Attention will now be centered on the drilling of the shallow test, al-

WIBW RADIO SCHEDULE

The schedule for the regular Farmers Union broadcasts over WIBW, Capper Publication Radio Station at Topeka, includes the following: August 10, Farme: Union Coop.

These programs begin at 7:30 o'clock each Thursday evening.

tary tools for the entire depth of the hole at that time.

The same thing as happened in the Neva lime happened in an undeter-mined sand at a depth of 1940 feet, and again in the Kansas City lime at 2,465 feet. Incidentally, it is pointed out that production in the Augusta and Eldorado fields is in the Neva lime, and that the Kansas City lime produces throughout the Mid-continent field.

This shallow production will be deproceeds from production may then knowledge, and have a better under-be employed in putting down another standing of the newly enacted agribe employed in putting down another

deep test.

Relative to the oil payments bought by investors on the basis of oil at five given in Kansas last week by M. ten cents per barrel, "if, as and W. Thatcher, Washington representadollar's worth for 15 cents, also "i, with the abandonment of this first deep test well. The contracts under Agricultural Adjustment Act. which this speculative production was bought specify that they apply to any oil produced on this forty-acre lease. Therefore, oil which may be produced formation on this acreage will benefit those who invested, just as though the oil had come from the deep test.

New equipment has been rushed to the well will be drilled on down to the which was at Lawrence, was on Sat-Neva lime at 1065 feet probably within a week. Less than 400 feet remains Mr. Thatcher between the present bottom of the hole and the Neva lime.

Mr. Shirley Clum, of the Clum Drilling Co., was in Bartelsville, Oklahoma early this week making arrangements for further drilling develop-ments, looking to the thorough working of this acreage.

A few weeks ago the announcment was made as to the winners of the ready well under way, on a location wrist watches in the Junior departin the same 40 acre tract with the deep test, and a little distance to the southwest. This shallow test was start Juniors between the ages of 6 to 9 ed after the rotary drill of the deep years, inclusive, was Miss Nona Lee

THATCHER TELLS HOW LEGISLATION WILL AID KANSAS

Thousands of Kansas Farmers and Kansas Business Folks Heard Farm Leader During His Five-Day Meeting Series

Great Benefits to Farmers Could Not have been Secured, Says Mr. Thatcher

Thousands of Kansas farmers,

addition to great numbers of Kanveloped, it is announced, before another deep test well is attempted, and women, are richer in cooperative sas business and professional men cultural legislation, because of having listened to talks of a series of when" produced, or at the rate of a tive of the Farmers National Grain Corporation, and well known farm leader who had much to do with the development of the voluntary domes-

Mr. Thatcher's first talk was given at Colby, Kansas, where a large crowd from the western part of the state had gathered Tuesday evening from the development of the shallow to hear him. Cal Ward, president of the Kansas Farmers Union, accompanied him at all his Kansas speaking engagements, including Colby, Hays, McPherson, Topeka (WIBW) the scene of the shallow test well, and lawrence. His final appearance,

> Mr. Thatcher, an able speaker who knows his subject, in his various talks phy of the new farm legislation, told how it was developed, told of some take about 18 million dollars into colnville, in Marion county, he conof the outstanding farm leaders who had made it possible, went very little into detail as to the act itself, and emphasized what the great benefits will be, and above all, drove home the point that all the gigantic benefits and advantages to farmers coming from this legislation are the direct results of organization among farm-

He spoke highly of the efforts of Mr. Ward, L. E. Webb, president of test well had gone into the Neva lime Ames, Rydal, Kansas. A mistake was the Kansas Cooperative Grain Dealers at 1065 feet and had encountered an excellent showing of oil and gas at that death.

Ames, Rydal, Kansas. A mistake was at made in the announcement and the name read Nona Lee Adams, Rydal, much of the Salina Journal, and who spent much of his own time and money in Kansas.

The editor made the awards, and he is sincerely sorry that he made an error in the name. However, the

Grain Corporation. Without the help of these men, declares Mr. Thatcher, the present farm legislation with its certainty of bringing millions of dol-lars into Kansas, could never have been put over.

Mr. Thatcher presented his story in plain, simple and effective words in his various talks. He stated that the enactment of the Agricultural Adjustment Act was the first step that has been made to provide social justice to any group of society such as agriculture. He admits that the legis-KANSANS RESPONSIBLE. lation is not perfect, and that it necessarily is crude, but that it is sound, fair and wholesome. The provision for a payment of the allotment, which but establishes a parity price eliminating the necessity for a farmer to produce food and materials at less than cost of production, is a duty which the consumer owes the producer, and something which should have been done years ago, said the speaker. He continued:

> "Crude though the plan may be it gives benefits to farmers. It is the year 1933 in which we are chiefly concerned. There is no reason why, if weetings. The first meetings afterweefind the vehicle we use for relief noon, August 10. This is a joint country this year is not nerto the farmer in this year is not peryears after that. This is a beginning, a complicated and involved mechanfect, we should not improve and persm which in spite of its faults brings benefits to agriculture in the form of bonus checks from the govern-

The speaker pointed out to his audiences in the different meetings that several thousands of dollars would be

that area the farmers did not raise enough wheat to sow their new crop. "We cannot hope to raise wheat for said Mr. Thatcher. "The export," United States has lost her world wheat market. Most of the countries owe us. They cannot pay gold for wheat and debts too. The result is that each of these countries has stopped buying wheat and has gone to producing its own. Some of them are

As Mr. Thatcher sees the farm adjustment program it is a social ques-The philosophy of the entire move, he said, is to enable the farmer to live as he did in the period of 1909-1914; to preserve the security of the nation by preserving the stability of agricul-

The road to the present farm adjustment program has been a long one. Mr. Thatcher outlined some of the stepping stones along that trail. He described the intricate and ardious processes by which leaders of organized agriculture got their program set up, after weary conferences and much thought, and how that program finally reached the president.
Time after time he hammered home to his audience that only by organizahope to get anything for agriculture, and that only in that way was the through the house and senate to receive the signature of the president a distance of 94 miles.

groups. The ability of the various groups to work together has already McCormick, A. The same meeting two McCormicks and Doving Case.

CHANCE TO SHOW APPRECIATION OF SIMPSON'S WORK

National Farmers Union President to Be In Kansas for Six Meetings Beginning on Thursday of this Week

AN OTTAWA MEETING

Extra Meeting Added to Original Schedule, Making Two Meetings for Simpson on Monday; Hoped Large Crowds Will Attend

By the time this issue of the Kansas Union Farmer gets into the homes of its readers, John A. Simpson, president of the National Farmers Union, will be in Kansas and will have started with his series of six good meetings. The first meeting is schedty picnic, sponsored by the Farmers Union and the Farm Bureau of Ne-P. Lambertson, of Fairview, and Ralph Snyder, Manhattan, president of the Kansas Farm Bureau. Representatives from the state office of the Kansas Farmers Union will also

be on hand. Since the schedule was originally printed, another meeting has been adpaid to those in the audience. In three ded to the series of Simpson meetings of the meetings, it was pointed out in Kansas. The good Farmers Union that the farmers in the three respective counties would receive over a Mr. Simpson to come to Ottawa, Kanhalf million dollars for the first year's sas, for an afternoon speech at their allotment, in each county. Mr. Thatcher reminded his hearers that in the August 14. Mr. Simpson had intended southwest area of Kansas, "where to hold to his original decision to hold homes are darkened and hearts are but one meeting each day, but since heavy", it will mean an inpouring of his Monday meeting originally sched-North Dakota, he explained, and in sented to hold this one extra meeting. On Friday afternoon, August 11, Mr. Simpson will hold his second meeting of the series. This will be

held near Beattie, Marshall county, in the Scholz grove. The third meeting featuring Mr. Simpson in this series will be on Saturday afternoon in Riley county, in the E. A. Williams Grove six miles

southwest of Manhattan. On Monday, Mr. Simpson will appear at Ottawa and Lincolnville, as previously mentioned.

His final meeting will be in the city park in Winfield, Cowley county, on Tuesday afternoon, beginning at 2:30

o'clock.
These meetings will afford a good olks in these various communities to show their appreciation of the good work which Mr. Simpson has been doing. Mr. Simpson deserves a large crowd at each meeting, and it is to be sincerely hoped that he is not to be disappointed. He will quite likely be accompanied in this series of meetings by C. A. Ward, president of the Kan-sas Farmers Union, or by Floyd Lynn, state secretary of the Farmers Union in Kansas, or by both.

FAR TO HEAR THATCHER

The wide interest in the series of meetings held in Kansas last week by M. W. Thatcher is indicated by the fact that farmers drove from a radtion can the farmers of this country ius of some one hundred miles to attend. At the McPherson meeting, for instance, two auto loads of Farmers present allotment act finally put Union members drove from the Cicero neighborhood in Sumner county,

and become a law.

He pleaded for a continuation of harmony among the various groups and among the leaders of those groups. The ability of the various been a great factor in making this great beneficial program possible, he were present from Alta ista in Wabansee county.

Announce Reduction Aug. 24

what the percentage would be early less than twenty per cent will in August. It is definitely known that needed in the United States. farmers will not be asked to reduce more than twenty per cent, and it is them to know exactly how much they will be asked to reduce. However, some farmers are going ahead on the theory that they will hold out the twenty per cent, and then if, after August 24, they learn that they may be able to reduce less than twenty per cent they can still prepare the extra cround for seeding.

bered that this is part of a great program, every part of which must work along together. The N. R. A. program, paving the way for more buying power on the part of those who will consume agricultural products, must be considered. The "checker game" with the other wheat producing nations is another angle to be considered.

ground for seeding. The reason for the delay in the definite announcement, according to Sec-

Official announcement has been made recently from Washington by Secretary of Agriculture Henry A. Wallace, to the effect that the Agricultural Adjustment Administration has postponed until August 24 the matter of determining the percentage of wheat acreage reduction to be asked of farmers in consideration of the of wheat acreage reduction to be ask-ed of farmers in consideration of the allotment benefit payments.

Originally, it is understood that the desire was to be able to announce just of the other countries join in the move-ment, then, perhaps, a reduction of ment, then, perhaps, a reduction of less than twenty per cent will be

HOW TO BECOME A MEMBER OF THIS DEPARTMENT Any boy or girl between the ages of six and sixteen, whose father is a Our school was out April 27. Our member in good standing of the Farmers' Union, who writes a letter for teacher took us on a picnic the day publication, can be a member of this department, and is entitled to a pin before school was out. I guess I had The address to which all Juniors should send their letters is: Aunt Patience, better close so the other Juniors will m care of the KANSAS UNION FARMER, Salina, Kansas.

I've promised to tell you all some-thing of my vacation this year, so I'm going to begin this week. Of stayed at another aunt's a week. Then course the most interesting things I stayed at my grandfather's three

Kinley was the third of our martyred grandfather's a week, and at two on your promotion—and I know that presidents, to meet death because of more aunts, but I do not know if I some of the Juniors will write. an assasin's bullet. The other two will get to or not. I am also planwere Abraham Lincoln and James ning on going on a picnic Sunday. For Garfield.

President McKinley was shot in September, 1901, while he was the guest of the Pan-American Exposition at Buffalo. He was a great public favorite and money for his monument was received from thousands of admirers. Inside of the tomb are the marble caskets of William McKinley and his wife, Ida McKinley. The tomb also contains their two little daughters, who died, one an infant of four months, and the other at three years of age. The monument is very impressive, situated on a high hill, overlooking Canton and the surrounding country. Six broad flights of President McKinley was shot in are Sugarpie, Tige and Niggery, but ing country. Six broad flights of to me, Will you please send me your a letter for about two months now. I steps lead to it, and the foreground is landscaped beautifully. Inside of the put my vote for the sunflower. My tomb are several personal relics of letter is getting long so I had better Mr. McKinley—the desk he used in close. his law office, and the secretary-desk which he used while in the White

I'll try to tell you about something else next week—but don't forget,

JUNIOR LETTERS

Greenleaf, Kans., July 29, 1933 Dear Aunt Patience:

How is it in Salina? I suppose it is hot like Kansas. The last two nights were nice sleeping. My vote is for the sunflower. I am ten years old and in the sixth grade. I bet that's your picture in the corner of page. I sing at school when we have a program. I play a ukelele but the strings are broken and I can't play it now. My brother plays a guitar. I like to go to school. My teacher's name is Alma Wichman. My birthday is December 21. I haven't found my twin yet, so will you please help me find

Your friend,

Ivan Koplir. Dear Ivan: It has been very much send me a pin. I was 9 years old December 9. I will be in the fifth grade this year. My sister Irene grade this year. My sister Irene asked me to join your club so she will made a note of your vote. The sunflower still has the most votes. So
you think that's my picture, too! We
have a great many different opinions
about that. We have quite a few December birthdays, so I'm sure we can

grade this year. My sister freil
get a star. I have a little sister. Her
weather in Salina? Our corn is nice
if it would rain. We didn't have any
her on the Cradle Roll.

Put my vote for the sunflower for cember birthdays, so I'm sure we can her on the Cradle Roll. find a twin for you soon.

Aunt Patience.

Broughton, Kans., July 31, 1933 Dear Aunt Patience: How are you? I'm fine. I would How are you? I'm fine. I would like to join your club. I got 11 April become a Junior. Why don't you and we're glad that you wish to become a Junior. Why don't you and Will you please send me a pin? Ivan Koplin of Greenleaf, I read in your department that you write to each other? There's only one are going on a vacation. I hope you year's difference in your ages, and will have a fine time. I wish you just 12 days difference in your birth-would tell all the Juniors about it. day dates. Tell Irene that I con-You said that we should write you and tell you what we are doing so I gratulate her on earning her "star" hope that you had your rain—did you what we are doing so I and I'm glad to have Lorraine's name guess I will. I went and stayed with for our Cradle Roll. I've listed your more than once a year, don't you? I one of my aunts two weeks and sold

six weeks old now. Mine are White Orphingtons and mother's are White eghorns. We are going to have fried hicken this Sunday. I am 11 years old and my next birthday is April 18. Have you found a twin? I passed this year and shall be in the sixth grade next year. We have formed a club and shirley, Doris, Strobel, Hays and I am in it. I am trying to get my brother Hays to join.

This summer if I have any money

from my chickens I am going to buy

have room for their letters. Tell all the Juniors hello for me, please.

I wish they would write to me.
Yours truly,
Dwight Cooling.

which I saw were at the Century of days, then I had to come home to late in answering your letter—but it cook for threshers. Then we went I'll tell you all about that, later.

The we went up to my uncle's and threshed for chickens and be so that the same and be so that the same and the same Progress Exposition in Chicago but cook for threshers. Then we was misplaced. I'm glad about your little lyou all about that, later.

This week I'm going to tell you about the beautiful monument and tomb of William McKinley, in Canton, Ohio. As most of you know, Mr. McVisles was the third of our martyred.

I am now. But I hope to stay at two grandfather's a week, and at two grandfather's a week, and at two are the third of our martyred. Aunt Patience.

Your niece,
Louise H. Van Howe.

Dear Louise: We're all glad that lost about 5 or 10 chickens in the you are to be a new member of our rain. Us kids have been having the else next week—but don't forget, now, that you are to write me about your vacations.

AUNT PATIENCE.

AUNT PATIENCE.

Out are to be a new member of our rain. Us kids have been having the summer flu. I had it first so I'm over at once. Yes, I'll tell you all amout it now. Well, as my letter is getting my vacation and I enjoyed very much long I'd better ring off and leave your description of the things you've room for the other Juniors to write. been doing. I once had a kitten that My birthday is November 20. I'm in liked to do the same thing you are to be a new member of our rain. Us kids have been having the summer flu. I had it first so I'm over at once. Yes, I'll tell you all amout it now. Well, as my letter is getting my vacation and I enjoyed very much long I'd better ring off and leave your description of the things you've room for the other Juniors to write. liked to do the same thing you say the 8th grade this coming year. I

'Niggery" does-and we had a very must close. Yours truly,
Mabel Forslund, P. S. I suppose you will be shocked

you hear from your twin soon—if you to receive a letter from me, don't, let me know and I'll find one Dear Mabel: I was more than glad not had one taken for about three years, now, but when I do, I'll put it in the paper. And you like the sunflower, too—it looks as if that is to hear from you once again—for I really thought that you had forgotten all about me—and about the Club. It's too bad about the essay contest he our club flower. for I printed the rules so many times that I hoped every Junior would see them. Did you have the flu bad-Tampa, Kans., July 20, 1933 ly? I'm glad that you are well now. I hope you won't wait so long between letters next time-and that you'll be pets. One is a dog named able to send in our next lesson. Jack. He is black. A pigeon, he flies on the house and barn. He is blue

Aunt Patience.

Ellis. Kans., July 15, 1933 I will write you a letter and tell Put my vote for the sunflower for ing now. I didn't find my twin yet. I had lots of fun July 4. My brother had firecrackers. I will be in the 5th grade this year. I think I'll close. With love,

Your friend, Agatha Gaschler. Route 3.

P. S. My colors are blue and yellow. Dear Agatha: I was glad to get your letter and to know that you're all right—I am, too, thank you. I hope that you had your rain-did for our Cradle Roll. I've listed your wore than once a year, don't you? I vote for the sunflower—it has the most votes, so far. Aunt Patience. for our club colors, if we choose the forget-me-not for our flower.

Aunt Patience.

Dear Aunt Patience: How are you? I am just fine. Ellis, Kans., July 15, 1933 have one brother, one sister. They are twins. They are 15 years old. Their birthday is December 16. Their brought I would we haven't written for so Thought I would write because names are Leonard and Lorene. My haven't written for so long. My colbirthday is February 23, 1933. I am ors are green and white. I will be in 9 years old. My birthday is the day after Washington's. I can't find any am 13 years old. My birthday is on of the lessons. When is the next one? I will try to answer it.

May 28. I haven't found my twin yet. Can you help me find my twin? When will try to answer it. did it rain last in Salina? I don't know anything else so I will close. Your member,

Yours truly,
Maxine Odette.
P. S. My father belongs to the Farmers Union. Dear Maxine: Our essay contest took the place of our last lesson—

we're going to have another lesson soon. Have you found your club very much-I hadn't heard from your glasses or jars. (Concord grapes best twin yet? How have you been spend-ing your vacation? RITEREST TO

WOMEN

RIPE TOMATO CHUTNEY

One pound tart apples One fourth pound small (hot) rec

peppers
Three-fourths cup small onions Two cups seedless raisins Three tablespoons powdered ginger One teaspoon salt Eight cups vinegar

Chop the tomatoes, apples, peppers, onions and raisins. Add all other ingredients. Simmer (do not boil) in back of stove seven or eight hours, coarse sieve and seal in setrilized bottles or jars.

CHILLI SAUCE

Four pounds ripe tomatoes One cup chopped onion Three-fourths cup chopped green pep-

One-half cup sugar Two tablespoons salt One tablespoon cinnamon

One-half tablespoon whole clove. Peel and chop tomatoes. Peel and chop onion very fine. Chop green pepper very fine. Put cloves in timy bag of cheesecloth. Add all other ingredients and simmer gently one and one half hours, stirring frequently with wooden spoon so sauce does not stick to bottom of kettle. (Also take precaution of using kettle with smooth, unbroken surface) Remove cloves. Seal in sterilized bottles or jars.

SPICED WATERMELON RIND

2 pounds watermelon rind 4 cups cold water 4 tablespoons salt

Remove green and pink portions from rind. Cut into pieces about one by two inches. Add water and salt, soak over night. Drain and cover by four inches with cold water, boil slowly twenty minutes, then drain.

4 cups sugar 2 cups vinegar 2 cups water, 1-4 cup stick cinnamon 2 teaspoons white cloves

Loosely tie spices in white cloth. Add to rest of ingredients, boil three ninutes. Add rind and boil gently unil rind is well glazed.

MIXED MUSTARD PICKLES

pint small cucumbers 1 pint large cucumbers, sliced pint pickling onions 1 cup spring beans, cut diagonally in 1-inch pieces.

3 red peppers, chopped

1 pint small, green tomatoes, cut in halves or quarters. Select cucumbers not longer than 2 inches. Soak all the vegetables in brine (1 cup salt to 1 gallon water) overnight. Drain and soak them in clear water three hours. Cover the vegetables with vinegar and water, using for the mixture equal amounts

one hour and then heat to simmering point. Make a dressing of the following ingredients: 1-4 cup white sugar 4 tablespoons flour 1-2 tablespoon tumeric 1 teaspoon celery salt

6 cups vinegar Mix dry ingredients and all hot rinegar slowly, stirring to make a mooth paste. Cook mixture in a double boiler until sauce thickens. Drain vegetables. Pour mustard dressing over them while they are hot, and simmer for five minutes. Pack pickles into hot, clean jars and seal immediate-

GRAPE MARMALADE Seven cups strained grape pulp Two cups grape skins Three-fourth pound chopped raisins Three-fourths pound walnuts, cut up Four and one-half cups sugar. To get strained grape pulp, pop the grapes out of skins, cook grapes. then put them through sieve fine enough to hold back seeds. Cook skins in 1 cup water till tender. Combine all ingredients except nuts, and simmer till thick. Then add nuts and cook 30 minutes more. Store in sterilized

WATERMELON RIND PICKLE Four pounds watermelon rind Seven pounds brown sugar

One 4-inch piece stick cinnamon One tablespoon whole clove One tablespoon whole allspice.

kettle, let come to boil and cook rind until tender. Drain and let stand overnight. Then tie spices in small cheesecloth bag. Put this into kettle with vinegar and sugar. Cook this till it becomes heavy syrup. Then add watermelon rind and cook for 10 min-utes. Put into sterilized jars and stirring occasionally. Push through a seal. (You can save your watermelon rind in a brine—½ cup salt to 1 gallon water—till you're ready to pickle.)

CARROT PRESERVES

Two quarts carrots cut in small Two cups boiling water

Two cups sugar One-half cup lemon juice Grated rind of two lemons. Cook the cubed carrots in the boiling water till tender. Dissolve the sugar in the lemon juice. When the carrots are tender, add the sugar, lemon juice and rind. Cook until thick (about 30 minutes). Store in terilized glasses or jars.

SLICED GREEN TOMATO PICKLE Eight quarts solid green tomatoes

Twelve white onions (2 inches hrough) Six small (hot) red peppers, sliced About three quarts vinegar

About three-fourths cup salt. Wash and remove stem end of tomatoes. Cut them in one-fourth inch slices. Peel onions and cut in onefourth inch slices. Put these in large crock in layers, sprinkling salt be-tween each layer. Let stand overnight. Then drain off all brine and discard it. Put vegetables back in

crock and cover with vinegar (first brought to a boil with peppers and the whole spices tied in a bag). These will keep in the crock, but may also be sealed in sterilized glass jars. If you'd like this pickle sweet, you might add three cups dark brown sugar to vinegar before scalding it.

WINTER DILL PICKLES

Make a brine by adding 1/2 cup of salt to each 4 quarts of water in this soak 100 medium-sized cucumbers overnight. In the morning drain and wipe dry and pack tightly in layers in glass jars, between cherry leaves and dill. Add small piece of red pepper and a piece of alum the size of a bean to each jar. Fill the 3 green peppers, chopped iars with cool brine made as follows—Boil together 10 quarts water, quart vinegar and 2 cups salt. Let this brine stand overnight. A cup of mustard seed and cup of horseradish shaved fine may be added to the

PICKLED WALNUTS Pick young walnuts while they are soft enough to be pierced with a needle. Soak them in a strong brine of vinegar and water. Let stand for for three days, drain them, soak them, in cold water for six hours, drain them and place them in a stone crock. To a gallon of vinegar add a cup of sugar, 2 tablespoons each of whole peppers and cloves, a tablespoon of allspice, and 8 blades of mace; boil the mixture for ten minutes, pour it over the walnuts while it is scalding hot, and let them stand for three days. Then drain off the vinegar. put the nuts into jars, bring the vinegar to a boil, pour it over the nuts seal the jars, and store them in a cool

In the business codes now being signed by employers, the right of labor to organize and bargain collectively is fully, completely and forcibly recognized.

Labor leaders are now up on their toes organizing to take full advantage of the approximity for which leaders are now up on the storm alone; so forget the other toes organizing to take full advantage of the approximity for which leaders are now being eyes and seeks to make this a means to feech this fails.

The supply of farm labor dropped from 125.8 percent of normal on Approximation and the storm alone; so forget the other than the storm alone; so forget the other than the storm alone; so forget the other the storm alone; so forget the other than the storm alone that from 58.9 percent of normal on April only ½c better. All that has been only 1 to 65.5 percent on July 1. time, larmers, to organize. Total late the common tribute of the been, like labor, given the opportunity try a merry ride. A new driver now to organize in order to hold what you has hold of the lines and seems to be to organize in order to hold what you has hold of the lines and seems to be the lowest figure reported since Nother that all dairy farmers should see to

it that his production is cut at least 15 per cent, I want to repeat again that I do not advocate that our mixed farmers having only a moderate sized flock of laying hens should decrease at all. We have got to starve some of the specialists with their thousands of hens out of the business before there will be any real profit in egg production. It may take several years to do it but it must and will be

One thing is now very evident, and

and a challenge. Have we farmers wits enough to see it and like labor dig in and entrench ourselves, or will we be stupid enough to let the opportunity slip by and then howl about our misfortunes.

What about it, North Dakota, Montana, Wisconsin?

Your answer will be made when the roll is called at the state conventions soon to be convened. Long before that time comes every dead local should be revived, new members added, and many new locals organized. Certainly every farmer who gets a wheat bonus should join the Farmers Union leadership on the farmer Union leadership in the Stupidly selfshi if he does not because had there been no militant farm organizations and farm organizations and militant farm organizations and Kansas, no dried out or grasshopper eaten farmer would have received a cent of the bonus money. And these are not ide or boastful words. The record is there to prove it.

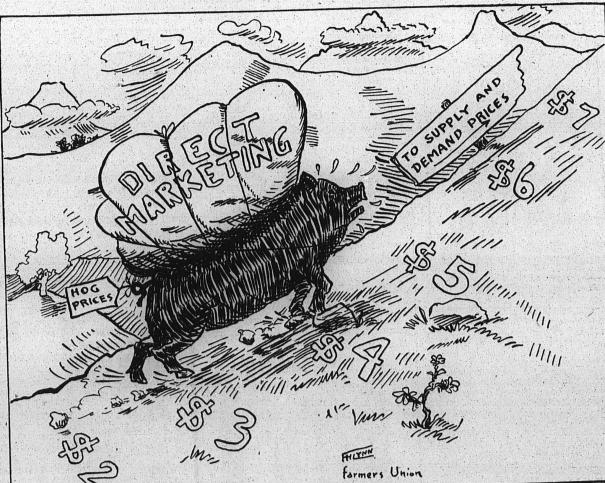

Among these forces stands the how and the poor alike how while words. The well-to-do and the poor alike how are free to say that nothing like it has ever the combined of the country of the course of the content of the state on the course finished on the bottom, quoted the market has declined further—extern make thas declined further—externs the content of the what to one it in the theore in the owall way. The wheat crop of the opulant is the terminal is reached. There will the term

period of three months.

compares with the net profit of \$323,-295 for the same period of 1932.

"We had the largest volume of bus- and information will receive prompt iness last month we have ever had since we started," says C. A. Moore, manager of Concordia Cooperative Union Oil, Concordia, Kansas . Mr. Moore continues, "We sold 24,000 gallons of gasoline; 2,000 gallons of oil, company is making our local company of twine, and 15 CO-OP tires." Then to show you what a splendid cooperative had we are participating in patroniness last month we have ever had

Of course, it's "not so bad," Mr.
Moore. It is certainly a splendid record and something for others to shoot at and especially the "every cent cash." (It should be gratifying for other Union Certified cooperators to know that Mr. Moore is always quite eager to give the high quality of Union Certified petroleum products and CO-OP tires a part of the credit for the splendid success they are making

And another thing, Mr. Moore, we might just whisper in your ear, we

President Union Oil Company Could this have something to do wouldn't be surprised if you don't rewith making the succeeding years ceive a stack of letters asking you for "lean" ones for those who furnished your methods for magic) for "getting" the volume? A profit for 1926 \$36, every cent cash. Well, if you do, we 518,966; in 1927 \$11,144,915; in 1928 know you will "as one good coopera-\$20,395,021; in 1929, \$17,573,249, is tor to another," busy as you are, tell the record of the Shell Union Oil Corthese inquirers just how you have poration. Certainly, when the profits done it at Concordia. We are quite of one "old line" concern total \$85,- eager to say, also, that if every Co-632,151 in four years this immense operative oil manager throughout the
