The C

College IN THE LIFE OF THE LAND

THE MORRILL ACT of 1862, establishing land grant colleges, swung wide the doors of higher education for the sons and daughters of mechanics, farmers and merchants—doors which had been closed to all but the children of wealth. Too long the exclusive province of the ministry, medicine and law, education at last made room for research and instruction in agriculture, industry, commerce and home economics.

Conditions could hardly have been less favorable in 1863 when Kansas State College was founded at Manhattan. The plow had broken the plains, and the settlers were striving to build a permanent agriculture on soil which yielded little to farming practices evolved in wetter climates. Kansas lacked moisture, and Kansans lacked knowledge. But there was no shortage of energy, initiative, and intelligence to apply to these problems.

Kansans saw the college as a service center to the state. It would provide resident instruction "in agriculture and the mechanic arts," and promote "the liberal and practical education of the industrial classes," as provided for in the Morrill Act. More important than teaching their children how to make a living, the college would teach them how to live.

Their vision has been realized. The role of the citizen in a free society is learned in the classroom, and through participation in student government and in campus organizations. The social graces necessary to good living are developed in campus organizations, activities, and associations. Through athletics and intramurals, students learn the give-and-take of competition, and develop poise and grace.

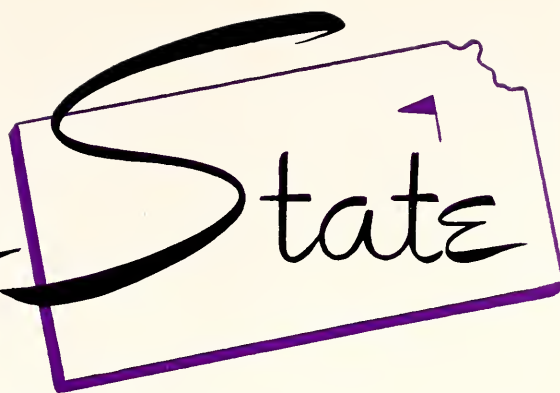

But more than this, the college carries its benefits directly to the people of the State through the extension service and through its speakers' bureau. Discoveries through research in the fields of agriculture, engineering, home economics, education, physics and chemistry are immediately available to State and federal agencies, to industry, to organized groups throughout the State, and to interested citizens.

Better farms, better roads, better industry, better schools, better homes, better citizenship—these are the tangibles Kansas State College has given Kansas.

From the top of Bluemont Hill can be seen the results of the growth of Kansas State from the one-building Bluemont College to its present size—holding more than 7,000 students during the post-war peak enrollment. →

← There is nothing static about life at Kansas State; but the high stone tower of Anderson Hall, nerve center of the campus, stands like a monument to collegiate tradition—silent, immobile, and unchanging.

Along the main campus walk stands Education Hall, home of the education, psychology and speech departments. Across the way is Dickens Hall, the botany building, with the greenhouse, alongside, still showing the results of the summer hail storm. →

← Probably best known as the shortest way to Aggieville, the winding walk past the Auditorium down shrub and tree-bordered slopes is a crowded campus path.

The only building on the campus with a seven day week, the Library leads a busy life. From the class reserves in the basement to the reference department on second, there is a quiet hum of activity from morning until closing hours at night. →

← With a shriek for 8 a.m. class-bound students the college steam whistle announces classtime for hurrying K-Staters. Within its finger-slim shadow squats the power plant—source of campus operations.

One of the most beautiful scenes of the campus in either summer or winter greets the student who enters the campus from the Southeast gate. At the top of the long rolling slope edged with evergreen trees can be seen the Auditorium, Fairchild and Anderson Halls. →

← Scenes of the discontented wings of East and West Waters Hall will be scarce after this year. Work is already well underway on the connecting link between the two. By next fall the Ag School will present a solid front to passerbys.

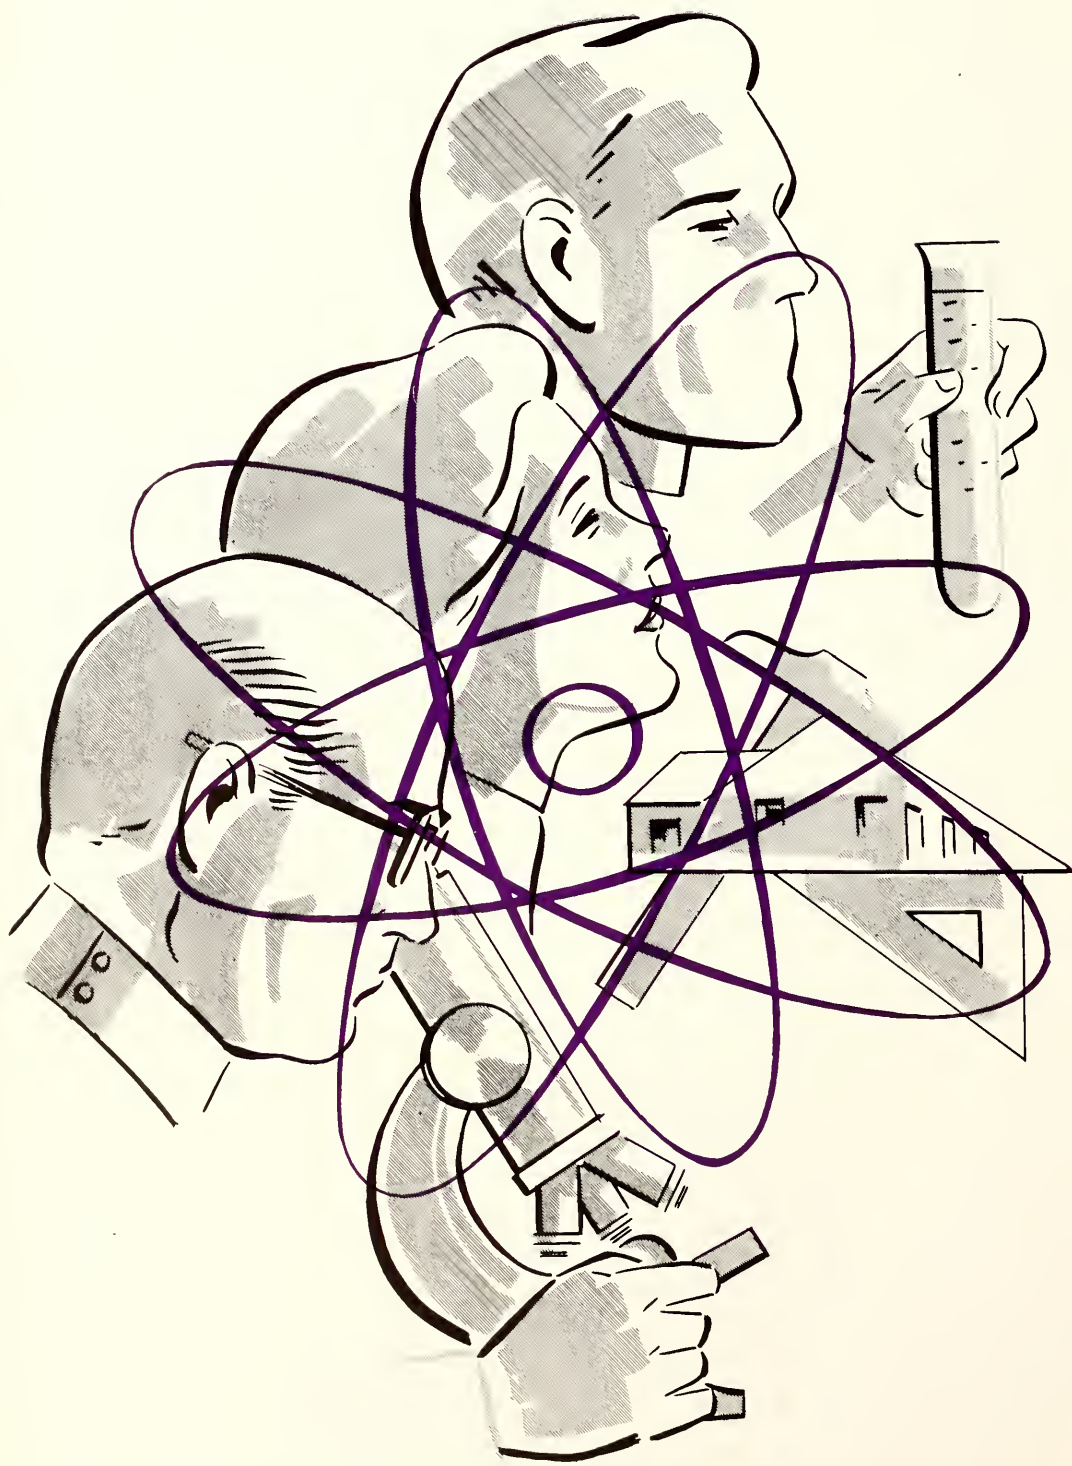

Newest addition to the Kansas State College campus is the \$2,000,000 Fieldhouse which opened for business December 9 for the first home basketball game of the season with Utah State. Located just above Ahearn Field, the new Fieldhouse is fifth largest in the nation—seating 13,000 people.

Research

MANY people believe that the College's greatest service to the State is its program of research which started at Kansas State as field work on the College farm, but has expanded rapidly in the last 50 years.

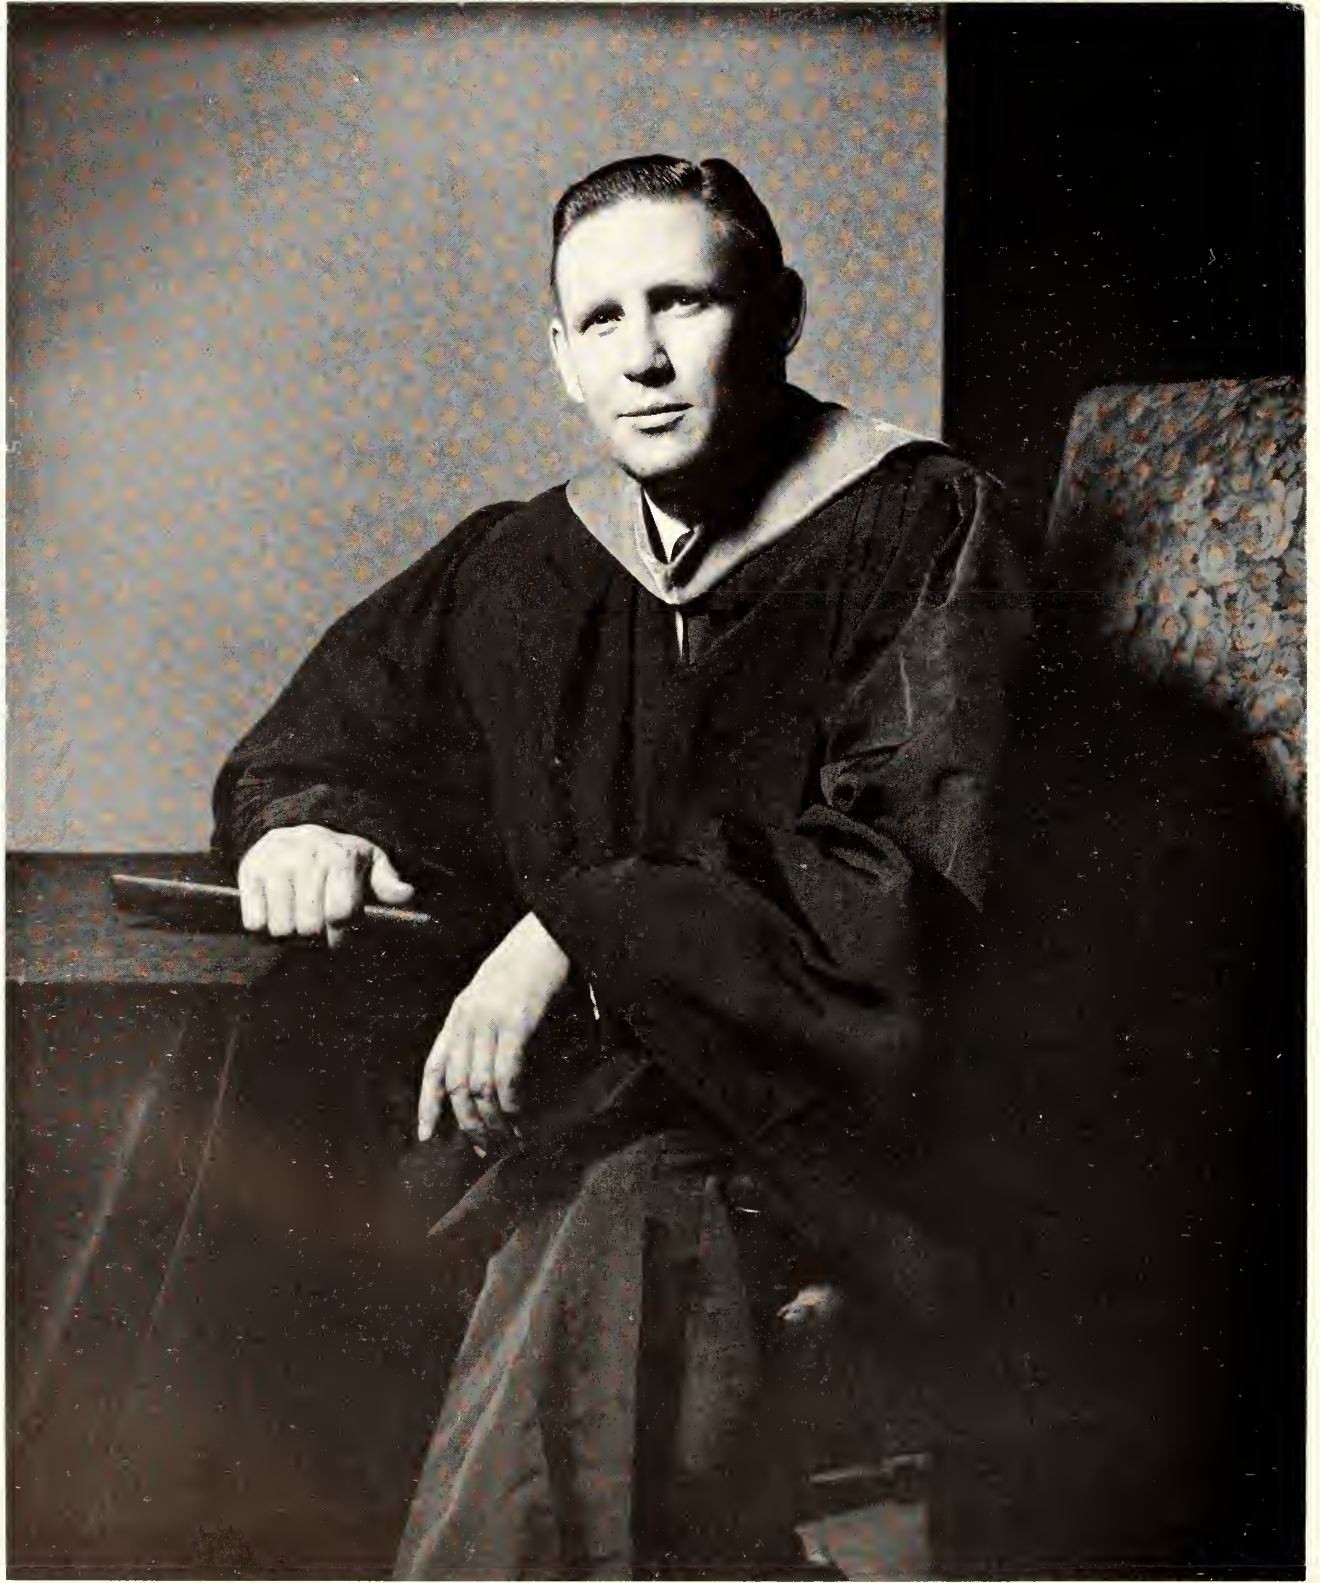

In 1950, for example, 85 per cent of the corn acreage in Kansas was in hybrid varieties developed largely by agricultural researchers at the College. These strains have increased income from corn by \$21 million annually. Victoria blight has been conquered by Cherokee and Nemaha oat varieties developed at K-State, a victory which adds \$5 million annually to farm income. Developed in the last decade, have been Pawnee, Wichita, and Comanche wheat varieties, whose resistance to disease and drouth have added \$60 million yearly to farm income.

Kansas cattlemen, for another example, have increased beef production by 26 million pounds a year through feeding methods developed at Kansas State. Blackleg, which once decimated Kansas herds, has been all but eliminated by a vaccine developed by College researchers.

Although the research is carried on through the Agricultural Experiment Station, it entails cooperation with the departments of physics, chemistry, chemical engineering, zoology, entomology, and the schools of home economics and veterinary medicine.

The Engineering Experiment Station has also contributed to the State by means of longer life for highways through testing and improving highway materials. New uses for Kansas agricultural waste products and natural resources have been developed. Time and motion studies conducted at the College have increased efficiency in institutions, in industrial processes, and in the homes of thousands of Kansas housewives.

Research at Kansas State College has meant a happier, healthier people in a better, more prosperous State.

Dr. J. A. McCain Succeeds Eisenhower

inaugurated as tenth KSC president

Dr. James A. McCain succeeded Milton S. Eisenhower as President of Kansas State on July 1, bringing to the task of presidency an abundance of energy and

years of experience as an educator and administrator.

The new president, a native of York, S. C., was graduated in 1926 from Wofford College, Spartanburg, N. C., with an AB. He earned his master's at Duke University, Durham, N. C., in

C. O. PRICE has completed 30 years as assistant to the President under four administrations, beginning with President W. Jardine.

1929, and his doctor's at Stanford in 1947.

Dr. McCain believes that two of the more important agencies in adult education are the newspaper and the land grant college. His convictions about the role of the newspaper were formed partly when he served as a reporter for the Daily Piedmont in Greenville, S. C., and as chief editorial writer for the Fort Collins, (Colo.) Express-Courier.

He also taught journalism and English at Colorado A & M, beginning in 1929. In 1934 he became assistant to the president there, and in 1939, Dean of Personnel. In 1942 he was made Dean of the Division of Vocational Education and Director of the Summer Session.

His career as an educator was interrupted in 1942 by the war, but his abilities were used by the Navy to streamline its selection and classification of enlisted personnel. He was cited by the late James Forrestal, then secretary of the Navy, and was later called to the

U. S. Naval Academy at Annapolis to lecture on military personnel administration. His naval experience included sea duty aboard a destroyer.

After release from active duty in 1945, he was named president of Montana State, remaining there until last summer when he became the tenth president of Kansas State. He was officially inaugurated as President in the Fieldhouse, February 16.

As a state institution, but a non-political one, the College must have a link with the government of the State. This link is provided by the nine-man State Board of Regents, which exercises general governing power over eight State institutions.

The Board holds regular meetings on the third Friday of each month in the State House at Topeka. It appoints the President of the College, and acts on his recommendations in appointing personnel and fixing salaries.

Membership of the Board changed during the school

year. Walter S. Fees of Iola was appointed to the vacancy left by the death of Chairman Fred Harris of Ottawa. Lester McCoy of Garden City was named chairman.

Other Board members are: Jerry E. Driscoll, Russell; Drew McLaughlin, Paola; Willis N. Kelley, Hutchinson; LaVerne B. Spake, Kansas City; Oscar S. Stauffer, Topeka; Mrs. Elizabeth Haughey, Concordia; and Grover Poole, Manhattan. Hubert Brighton of Topeka is secretary to the Board, and Ed Burge, Topeka, is business manager.

Dr. McCain's energy and experience stood him in good stead. His arrival coincided with the beginning of the crisis into which this nation was plunged when North Korean forces drove across the 38th parallel into South Korea. That crisis had a particular impact on educational institutions.

There were problems above and below that 38th parallel on this side of the globe, too, and President McCain dedicated the College to the task of finding solutions for them. He conceives the land grant college as a service center to the people of the state. He believes

that civilization is a race between education and catastrophe, and that the atom bomb has put catastrophe out in front. The Korean war threatened to be a complete catastrophe for many educational institutions. With the peak of veteran enrollment past, September saw enrollment dip to 6,000, and many of the men were either reservists subject to call or nonveterans liable to be drafted.

The uncertainty prevalent over the nation as to the extent of American involvement in war was reflected in a sense of bewilderment among the students who didn't know their service status and could find no answers in the welter of conflicting statements from public officials and service personnel. Dr. McCain allayed much of the unrest with a letter to the students urging them to remain in school, continue their educations, and thus improve their capacities for service if and when they were called. He predicted that government policy would permit deferment of students whose work showed they benefited from continuing their educations.

Much of the tension on the campus was relieved, and the situation improved even more when the government confirmed Dr. McCain's prediction with a liberal policy of deferments.

President Eisenhower had a variety of problems, but most of them stemmed from the need for hasty expansion of facilities and staff to provide for the thousands of veterans seeking to enroll. Even with prewar enrollments of 4,000 and under, the building program had been unable to meet fully all the requirements. Barracks and trailers went up on the campus to house veterans and their families, single men, and faculty families for whom there was no housing available in Manhattan.

Today's problems are similar—expansion of facilities never caught up with enrollment—but the housing difficulties are changing. For example, Splinterville, along Anderson Avenue, was torn down. Demand for the barracks apartments in Goodnow, Elliott, and Hilltop Courts dwindled, although all were full during the year.

Completion of a sister unit to Van Zile Hall will permit all freshman and transfer women students to spend their first year in residence halls, beginning in

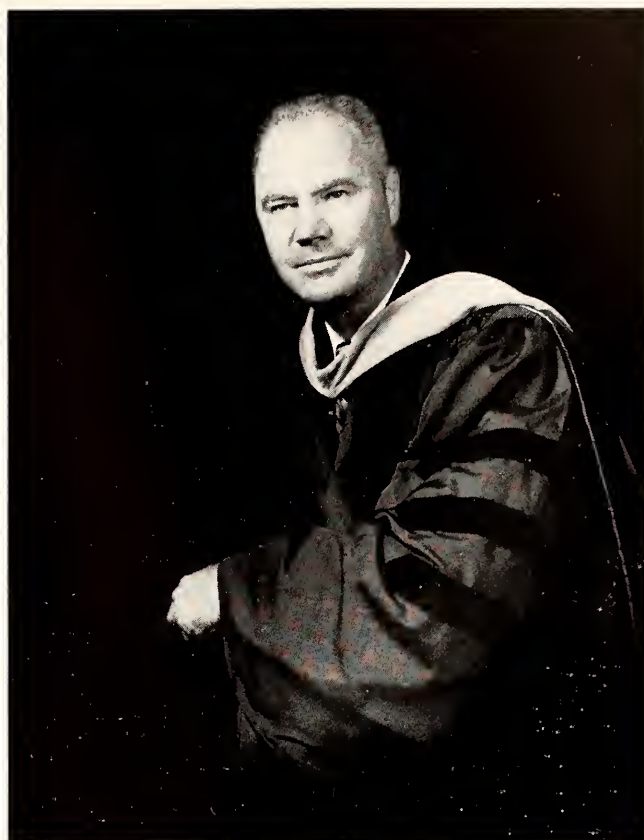

September. A third women's housing unit is also well underway. When it is completed the emphasis will shift to dormitory space for men.

A new wing for Engineering Hall was started, just one month after work was begun on a connecting wing between East and West Ag. Work on the Arts and Science building was well underway, and of course the big news for Kansans as well as Manhattan was the completion of the new \$2,000,000 Fieldhouse, to be used in many campus activities as well as those of the athletic department.

More serious budgetary problems faced the College than in any of the wartime or postwar years. Loss of veterans reduced revenue from the Government under the G. I. Bill by an estimated \$400,000, a loss not reflected in decreased operating costs.

President McCain pointed out in his budget message to the Board of Regents that most of the overhead costs are fixed, not affected by enrollment. He anticipated a loss of about fifty faculty members before next September, but added that he expected this number to be lost through normal retirements, resignations, and release of temporary staff members. Increases in the budget were asked for the Extension Service and Experiment Station.

Enrollment second semester reached 5,400, much higher than had been expected. It indicated that enrollment would level off near the 5,000 mark, barring all-out war.

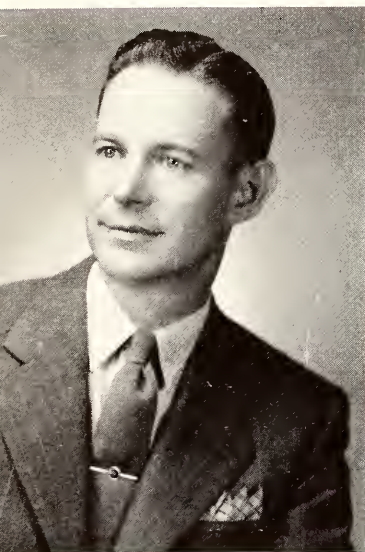

MAURICE D. WOOLF, Dean of Students, is responsible for coordinating extracurricular activities. Responsible to him are the Counseling Bureau, the Dean of Women, and the secretaries of the YMCA and YWCA.

THE FACULTY COUNCIL ON STUDENT AFFAIRS is the chief agency through which the College deals with the Student Governing Association. Members of the Council are: Dean H. Howe, Norma Awe, Dean M. Woolf, Prof. T. Avery, Prof. W. Tripp, Prof. S. Whitcomb, Prof. Leone Kell, Dean Helen Moore, Prof. Kathryn Geyer, Prof. V. Foltz, Prof. A. Edwards, Dean A. Pugsley.

PRESIDENT EMERITUS F. D. FARRELL retired in 1943, but remained at the College as a professor of Rural Institutions. He guided the growth of Kansas State during the 22 year period from 1921 to 1943.

A. THORNTON EDWARDS became director of housing in 1946. His problem is to find places to live for five thousand students plus wives and children of many of them.

KENNY L. FORD traveled thousands of miles this year in his job as Secretary of the Alumni Association. He is responsible for the procurement of endowment funds.

Kansas State Admi

assist students, College and State

It takes a lot of offices to run a college. The popular idea of a college consisting only of boring professors and sleepy students has had to make way for the concept of increasing college facilities and of college servitude. The administrative officers on these pages are in a large way responsible for many of these services. They are a few of the many people who help the students to take their place in the life of Kansas State College, and the College to take its place in the life of the land.

The newest of these offices is that of Director of Public Service. It was created in 1949 to coordinate the many College programs and increase the impact of these programs to the citizens of Kansas.

Operations were speeded up faster than ever before in the Registrar's office this year as the use of International Business Machines became integrated in the work of the department. Increased service to both individuals and organizations became possible. Individual grade reports from the office of the Registrar were sent to students for the first time during the spring semester.

Other offices playing a direct role in the life of the student include the Director of Admissions, who notifies high school students that they have been accepted for admission to the College.

ARNOLD R. JONES, *lower left*, keeps track of the eight million dollar College budget. He came to Kansas State as professor of accounting in 1929 and became comptroller in 1945. **Gerald C. Kolsky**, *center*, is completing his first year as registrar. Installation of IBM machines has made it possible for his office to give many added services to the students. **Dr. B. W. Lafene**, *right*, is head of the Student Health Clinic and the Student Hospital. This is his third year in that position.

nistrative Officers

Physical welfare of students is guarded by the Student Health Service which this year had to cope with several minor flu epidemics.

Student's social and moral welfare is under the supervision of the office of the Dean of Women. Dean Helen Moore is also in charge of the administration of women's residence halls.

Adjustment problems are handled by the Counseling Bureau, the office which is also responsible for Freshman Orientation Week. Aptitudes and preferences of each freshman are carefully analyzed by the Bureau.

The Housing office keeps track of the living facilities in Manhattan, and the number of students who will use these facilities. Its job has been made easier with the drop in enrollment. Moro courts, temporary men's housing area, was torn down this spring after five years of post-wartime service.

Offices directly serving the state are the Alumni office, which procures endowment funds and keeps close contact with former K-Staters primarily through the alumni paper, *The Industrialist*; the Comptroller who watches the College budget, and is responsible for the receipts and expenditures of all funds used by the College; and the Building Expediter who supervises the building of the Campus of Tomorrow. Dr. R. A. Seaton was appointed Building Expediter last year following his retirement as Dean of Engineering.

MAX W. MILBOURN is Director of Public Service. Working directly under the president, it is his job to increase the effectiveness of the College program.

HELEN MOORE has been Dean of Women at Kansas State for eleven years. She looks after the welfare of College women both on and off the campus. Campus social life is directed from her office.

R. A. SEATON, Dean Emeritus of the School of Engineering, is Expediter of the Building Program. He came to the College in 1904 and was appointed Dean in 1920.

PAUL E. TORRANCE, *lower left*, became Director of the Counseling Bureau when Dr. Maurice Woolf was named Dean of Students. One of his biggest jobs is the supervision of Freshman Orientation Week. **Eric T. Tebow**, *left*, has been Director of Admissions for three years. A leader in visual education, he was previously a member of the staff of the Institute of Citizenship.

Student Leaders

have voice in administration policy

Kansas State students have an active voice in the determination of administration policy through the efforts of various student government committees, which are composed mainly of elected or appointed representatives from the student body itself.

The Student Council provides the all-important link between students and faculty at Kansas State. Headed by Floyd Ricker and including on the council representatives from each school, the Student Council handles much of the responsibility in dealing with student problems.

The organization includes no faculty members, thereby differing from most of the governing committees. Whenever problems involving both students and faculty arise, the Student Council meets with the Faculty Council on Student Affairs, a group composed of members of the faculty which deals with many of the same problems faced by the Student Council.

Another important aspect of the Council's work is promoting better relations between college students

and townspeople. As a member of the Manhattan Chamber of Commerce, the Council is in an ideal position to do this important job, and has proved invaluable in settling questions involving the city and the college.

To students, however, one of

the most important parts of the Council's work is its function of approving all student holidays, two of which are allowed per academic year. The council allowed a holiday during the first semester following Kansas State's basketball victory over Utah State College, and in the spring semester a day was added to the Easter vacation to celebrate the winning of the Big-Seven basketball championship.

Another of the Student Council's more important

FLOYD RICKER, President of the Student Council, headed the only governing group which is composed entirely of students.

STUDENT COUNCIL MEMBERS ARE: (top) Garth Grissom, corresponding secretary; Paul Swan, Stanley Meinen, Harvey Arand, Gerald McMasters, (bottom), Charlotte Laing, Betty Fritzler, vice

president; Floyd Ricker, president; Dale Wilson, recording secretary; Mary Baertch.

duties is the selection of student members for college committees subject to the approval of the President for appointment.

Other projects of the Council have been to modernize the student constitution with the aid of the Student Planning Committee, and the study of the allocation of student-contributed funds.

With the Student Council performing the executive end of student government, the legislative functions are handled by the Student Planning Committee, composed of both student and faculty members in a 5-1 ratio. The SPC studies various aspects of college life, such as research on student attitudes on controversial questions and makes recommendations to the groups concerned.

The SPC is truly an all-College committee with representatives from almost every organization on the campus. Headed this year by Chairman Jane McKee and Vice Chairman Sue Eller, the committee discussed problems which concerned all members at its numerous meetings throughout the year.

Highlighting its program for the year was the fifth annual SPC conference held at Camp Wood during the summer where college issues were discussed between sessions of swimming, volleyball, and square dancing. Attendance hit an all-time high with 155 students and

and faculty members attending.

Leadership was provided by chairman Ted Volsky, vice-chairman Jane Colby, and secretary Helen Cortelyou.

The big job of the conference was the drafting of a new constitution for the student government.

The charter, however, received a temporary setback when students defeated it at the polls in December.

Other committees of the conference worked on old recommendations, student welfare, curricular and extra-curricular problems.

The recommendations were published in the Collegian, and presented to the students in an all-college assembly in the fall. Each recommendation was then referred to the proper authority for consideration.

TED VOLSKY, Chairman of the fifth annual Student Planning Conference, led the legislative branch of student government.

CHAIRMEN OF THE 1950 STUDENT PLANNING CONFERENCE AT CAMP WOOD WERE: (*back row*), Jane Colby, Helen Cortelyou, Ron Stinson, Don Hopkins, Don Jacobson, (*front row*), Jocelyn Butcher,

Ann McMillen, Jackie Christie, Ted Volsky, Lorraine Halbower Volsky, Monna Schaper, Sue Ann Eller, Bob Larson.

TEMPORARY STUDENT UNION COMMITTEE — Ron Stepanek, Marion Martin, Don Jacobson, A. R. Jones, Don Ford, Dean A. Pugsley, Dean M. Woolf.

All students are eligible to participate in this direct form of student government.

Other committees which also are important in control of student affairs are the Temporary Student Union Committee, the Academic Honesty Committee, the Social Recreational Committee, the Apportionment Board, and the New Student Union Committee.

The Temporary Student Union Committee selects help for the present Student Union, plans operational policy for the project, and determines how to make best use of the present inadequate facilities. The Union was completely redecorated this summer and a reading room was added to the building.

The Academic Honesty Committee has as its respon-

sibility the holding of hearings on cases of academic dishonesty among students, and the making of recommendations for their punishment. It, like most student government committees, includes both student and faculty members.

The planning of all-college functions is the duty of the Social Recreational Committee. This is one of the larger governmental committees, with representatives from all sections of the campus. The planning of all-college varsities and the engaging of name bands for College dances are important duties of this group. Among the highlights of the campus year, planned by the Recreational Committee, was the appearance of Gene Krupa and his band at the Eisenhower Day concert and dance last spring, and Les Brown and his band at a concert and all-college dance this fall.

Kansas State's new Student Union has been taking shape with guidance from the Student Union Planning Committee. With the help of Porter Butts, widely known expert on college student unions, this committee

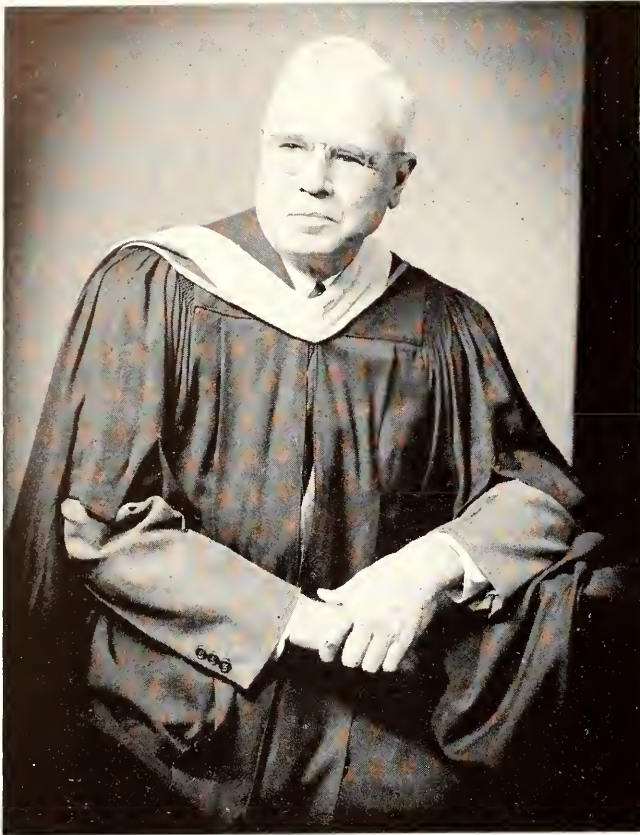

determines what facilities will be needed in the new building. The group has an added problem in that facilities provided in the building must come within funds allocated for the purpose.

The Apportionment Board, a subcommittee of the Student Council, concerns itself with the distribution of student funds. The Board, which handles the Student Activity Fee allocation, was faced with the problem this year of a smaller enrollment; hence, a smaller amount of money to apportion to the various groups on the campus such as the judging teams, student publications, music and drama, and other all-college events. The Apportionment Board this year allocated more than \$100,000 to various groups in comparison with \$129,000 last year.

These organizations, in addition to their worthwhile contributions to Kansas State administration, also provide an opportunity for the development of student leadership, and act in this sense as "laboratories for democracy."

R. I. THROCKMORTON, Dean of the School of Agriculture, was appointed to that post in 1946. In addition to heading the Ag School, he directs the Agricultural Experiment Stations located in the state.

Ag School Starts

with 1950-51 a year of expansion

Expansion characterizes the 1950-51 School of Agriculture better than any other word. Expansion in physical facilities, expansion of research projects, expansion in the scope of world agriculture covered by former K-Staters, expansion in valuable returns for Kansas agriculture, and expansion in the caliber of teaching.

Any Aggie will tell you the construction of the wing between East and West Waters Halls is the most important expansion of all. The four-story, native limestone structure is scheduled for completion in June, 1952. It will make one unit out of East Ag, built in 1913, and West Ag, built in 1923. The sprawling school once quartered in the tiny Education building, will have room to spare for all departments.

The new \$655,000 structure will enable the Ag school orphan, the Horticulture Department, to move back with the rest of the family. The wing faces the Library on the north quadrangle. The square is completed by Williard Hall and the School of Veterinary Medicine.

Some 50 offices will fill most of the new building, but it will include 12 laboratories, an Ag school library, a drafting room for landscape artists, and a cooler for horticulture storage. More classroom space will be available in rooms vacated by offices in East and West Waters.

THE MEN WHO HELP run the Ag School are Assistant Dean C. W. Mullin (*left*) and Associate Dean A. D. Weber (*right*). This is Dean Mullin's fourteenth year as assistant dean. Dr. Weber became the College's first associate dean in 1950. He is also Associate Director of Agricultural Experiment Stations.

Building Program

Teaching quality is improving, Ag School instructors say, with the decline in enrollment from the post war peak. Of 966 enrolled this year, about 275 will receive degrees. Peak year was 1949 when 1,350 Aggies were on the campus.

According to Assistant Dean Clyde W. Mullen, in spite of the smaller enrollment there are still just as many classes in the school's 12 curricula. With most of the classes carrying a decreased load for the instructor, instruction is more personalized.

The Agricultural Experiment Station is branching out into many new fields of research. The Mound Valley branch experiment station has completed a fencing and building program to begin work on the problem of nutritional deficiencies in Southeast Kansas. Five branch stations: Hays, Colby, Tribune, Garden City, and Mound Valley work with the main station here at Manhattan on statewide projects.

It is no small task to manage all these stations and the myriads of projects. They are one reason why Dean R. I. Throckmorton is such a scarce man around his office. He is assisted in this work by Associate Dean A. D. (Dad) Weber.

The grass utilization project of the Animal Husbandry Department is getting into full swing this year. The objective is to develop a better beef cattle system for blue stem pasture. About 300 calves and steers are on 1,134 acres divided into 14 experimental plots.

The Dairy Department celebrated its first successful

EAST WATERS HALL will soon be joined to West Waters by a connecting wing under construction this year. Most of the wing will be used for offices.

KEEPING THE MACHINERY clean is part of the every-day-job that Ag students in the Milling Industry Department (*left*) learn in their curriculum. Floriculture students and instructor (*right*) measure one of their test plants to see how its coming along.

year for KABSU, the artificial breeding service unit. Now it is experimenting with parathion, antibiotics on calves, and new milking techniques.

The Milling Department completed a \$50,000 modernization program on K-State's flour plant in East Ag. New studies are underway with the new grain flow system and new machinery.

The Poultry Department boasts a new mating house ready for additional work on improved breeds of layers. With two new greenhouses, the Horticulture Department is starting new work in floriculture. Agronomy is carrying on with plant variety studies and soils work.

Dr. F. D. Farrell, president emeritus, has completed the fourth of a series of research projects on Kansas rural institutions expected to be of great value to agricultural economists.

The newest department in the Ag School, Agricultural Journalism, is flourishing. Classrooms are crowded

for its one instructor, Elbert Macy, Assistant Professor. However, few of the ag students are majoring in Ag Journalism.

Dean Emeritus L. E. Call, teaching again after 15 months of studying world agriculture, confirmed reports by departmental heads that more K-Staters are teaching and working in agriculture in other parts of the world today than ever before in the history of Kansas State College.

Prof. A. D. (Dad) Weber again was top cattle judge at the International Livestock Exposition in Chicago. Honors for the College were won also by the livestock and poultry judging teams which took firsts in national and regional contests. Meats and Crops Judging teams placed fifth in the International.

Earlier, at the American Royal, K-State had been named Champion College on a basis of its judging teams and livestock shown.

Arts and Sciences

will move to new building next year

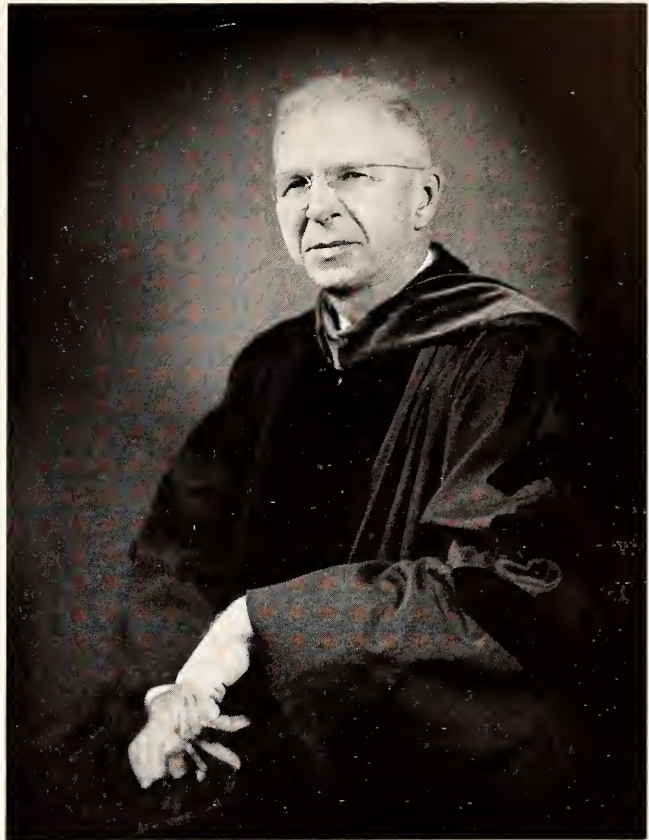

Plans for moving held the spotlight in the School of Arts and Sciences this year. The athletic department will move into the Fieldhouse during the summer and Dean Rodney W. Babcock with his two assistants, Chester E. Peters and Orval E. Ebberts, will change their headquarters to the new Arts and Sciences Classroom Building just before the start of school next fall.

The new classroom building will house most of the A & S departments that require no laboratory equipment.

No major changes were made in curriculum this year but athletics and men's physical education were split into two departments March 1. Micky Evans will head Physical Education while Larry "Moon" Mullins will direct athletics. After these departments are moved into the Fieldhouse, women's physical education quarters will be expanded in Nichols Gym.

The School of Arts and Sciences had the largest enrollment in the College this year. It not only has the largest number of students, it also has the most teachers. About 475 people serve this school as administrative officers, teachers and graduate researchers. Of these, 370 hold instructional positions.

On February 1 the School of Arts and Sciences also assumed responsibility for the Institute of Citizenship which was shifted from the President's office. No

changes were made in the personnel of the Institute.

The English department changed heads but the man's last name remained the same. Earl Davis succeeded H. W. Davis.

The names of three departments were changed this year. Industrial Journalism became Technical Journalism; History and Government changed to the Department of History, Government, and Philosophy; and Geology added Geography to its title.

College radio stations created many news headlines during the school year. KSAC was off the air for almost two months after an early morning fire destroyed the station's transmitter north of Manhattan, November 17. KSDB was switched to an FM station with the gift of radio equipment from Senator Arthur Capper when his station halted their FM broadcasting.

Scientific advancement came to the fore during the school year. Most important was the new laboratory equipment for the study of radio-activity. Jointly sponsored by the departments of chemistry and physics, the laboratory is used to study isotopes and radio-active materials with experiments being made by all of the schools of the College.

An important discovery by the department of physics was the use of the soft X-ray to determine weevil in stored grain. This discovery will enable better storage and fumigation of grains.

One of the big changes in the college this year was the new absence policy. After excessive absences, the student can now be dropped from a course with a grade of "failure." Formerly he was only suspended.

The College also reverted to the policy of giving blanket credit to those being called into military service due to the war crisis. The policy was first established during the Second World War. About 60 men were recalled from the school of Arts and Sciences.

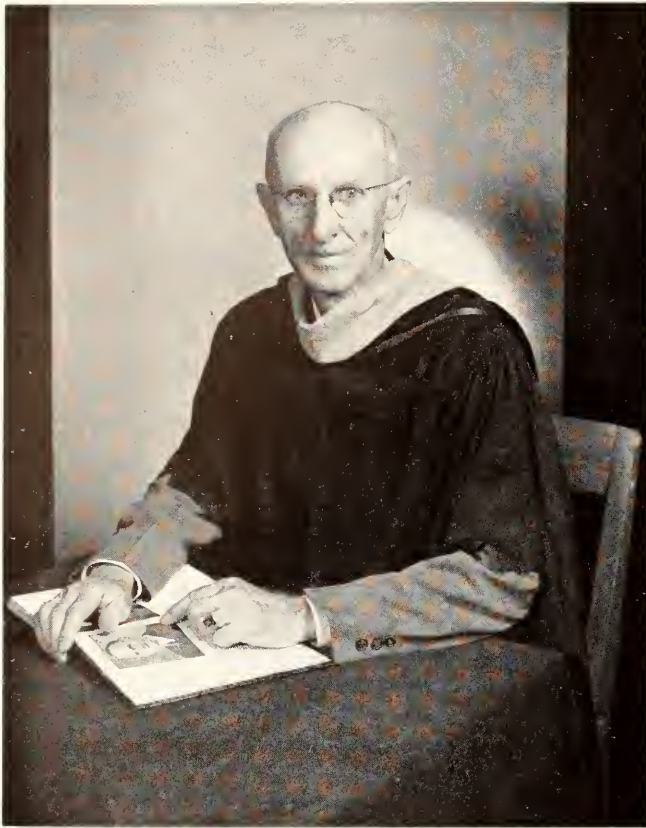

Officials and students of the College were pleased to learn that the Kansas State Legislature approved the expansion of the College Library for this biennium.

All in all, it was a good year for the school of Arts and Sciences. It had the largest enrollment of any school in the College, in both students and teachers. Prospects were particularly bright since this will be the

last year the A & S offices will be in Anderson. Facilities are being expanded in many of the departments of the Arts and Sciences School with more in prospect.

Deaths of two former leaders in the School of Arts and Sciences the past year were deep losses to the College. Dr. Edwin L. Holton, Dean Emeritus of Summer School and also retired head of the education department died last July. Dr. Leland D. Bushnell, retired head of bacteriology, died in December.

As the year ended, the administrative and faculty members of the School of Arts and Sciences were striving toward their goal of a well-balanced education for students of the school—which was the basic scientific and cultural training necessary for the discharge of the individual's duties to the community and state.

M. A. DURLAND, Dean of the School of Engineering and Architecture and Director of the Engineering Station, will see more than 400 engineering students get their degrees by the end of the academic year.

Engineering and

contributes half its graduates to Kansas

Valuable to the State of Kansas in providing training for technical personnel and as guide and consultant in the industrial development program, the School of Engineering and Architecture is in a large part responsible for making the State as wealthy as it is today.

The school offers professional training in the fields of agricultural engineering, architectural engineering, architecture, chemical engineering, civil engineering, electrical engineering and electronics, industrial arts, and mechanical engineering with special options in aeronautics, petroleum, and industrial engineering.

Key organization in the program of study and research for industrial expansion is the Engineering Experiment Station, a department of the School of Engineering and Architecture. It has been assigned two specific jobs—to assist in the development of Kansas industries, and to improve the relationship between the College and the people of the State.

There is fourteen times as much manufacturing in Kansas now as there was in 1900. Kansas industry employs over 100,000—two and one-half times as many as were employed twelve years ago.

Although some of this expansion is due to the general

ELECTRICAL ENGINEERS, left, and Architects, right, learn by doing in laboratories of the Engineering School. decentralization of industry, the efforts of the School of Engineering and Architecture and the Engineering Experiment Station have been instrumental in making Kansas attractive to industry by providing technically trained men to manager and operate the factories and by convincing them that they need the men and skill and resources Kansas has to offer.

Further evidence of the success of the Engineering Experiment Station is in the number of engineers that take jobs in Kansas after they graduate from Kansas State. More than one-half of the 1950 graduating class is employed in Kansas industry today, while before World War II, over eighty per cent of the graduating engineers took jobs in the eastern industrial areas with little benefit to Kansas industry and taxpayers.

Kansas has a particular need for industrial development. The State has two principle sources of wealth—agriculture and industry. Agriculture provides twice as much income to the State as industry does now, but increased wealth from this source is not likely since food production today frequently exceeds the demand, and surpluses in some agricultural products actually exist.

So, the most logical way to increase wealth in the State is by industrial expansion. This requires techni-

cians and engineers. This year, the School of Engineering and Architecture will have graduated more than 400 students—32 agricultural engineers, 70 architects, 54 architectural engineers, 21 chemical engineers, 46 civil engineers, 93 electrical engineers, 80 mechanical engineers, and 28 in the industrial arts.

The other main on-campus activity of the School of Engineering and Architecture and the Engineering Experiment Station is research in industrial problems. Although these research projects are usually financed by the sponsoring industry, the Station itself may initiate and finance certain research for which it feels there is a definite need.

The Engineering Experiment Station cooperates fully with the Kansas Industrial Improvement Council and the State Chamber of Commerce. With these two organizations, the Station plans and conducts meetings and industrial clinics throughout the State, stressing the importance of locally owned and managed industries.

Frequent visits are made to individual plants where Station engineers become acquainted with plant managers, answer questions, make recommendations, and note newly-developed ideas.

Another important service is that of conducting Industrial Surveys for towns and cities of the State.

These surveys are engineering investigations of facts as they affect local industry. Experiment Station investigators do not recommend or promote any action for the community to take, but present only the facts as they appear to persons trained in industrial engineering and management, so the community will have an accurate basis for planning industrial development. These reports can also be used as a reference to answer questions of out-of-town or local industries. It is a factual analysis of the community's true industrial potential.

RICHARD C. POTTER is Assistant Dean of Engineering and Architecture. He is responsible for student problems and assignments in the "Engine House."

Home Economics

offers many job opportunities for grads

Nearly half of the girls enrolled at K-State are taking Home Economics—570 of the 1,334.

Even with this percentage, the same old cry resounds throughout Calvin Hall, the home of the school: not enough home economists are being trained to replace those leaving the field—to say nothing of grooming some to expand home economics work.

Dietitians are urgently needed in the armed forces, business and industry, teaching, hospitals, hotels and restaurants and tearooms. Teachers of home economics are desperately wanted for high schools.

Home demonstration agents are so badly needed that states are pirating from each other to try to get enough women for the jobs available. Business home economists are wanted by foods and equipment concerns to do promotion jobs, and home economics-journalists are wanted to prepare booklets, brochures, radio talks, news releases.

Youth department editors, with background in home economics—particularly in family relations, are wanted for magazines and newspapers. Finally, editorial assistants are needed for the women's departments of magazines—general, and farm publications particularly.

And not helping to meet this demand for career-minded coeds is the even greater number of weddings

DR. MARGARET M. JUSTIN, who became Dean of the School of Home Economics at Kansas State in 1923, is a nationally recognized leader in Home Ec education.

this year which has cut down on the supply of graduates in home economics, report staff members.

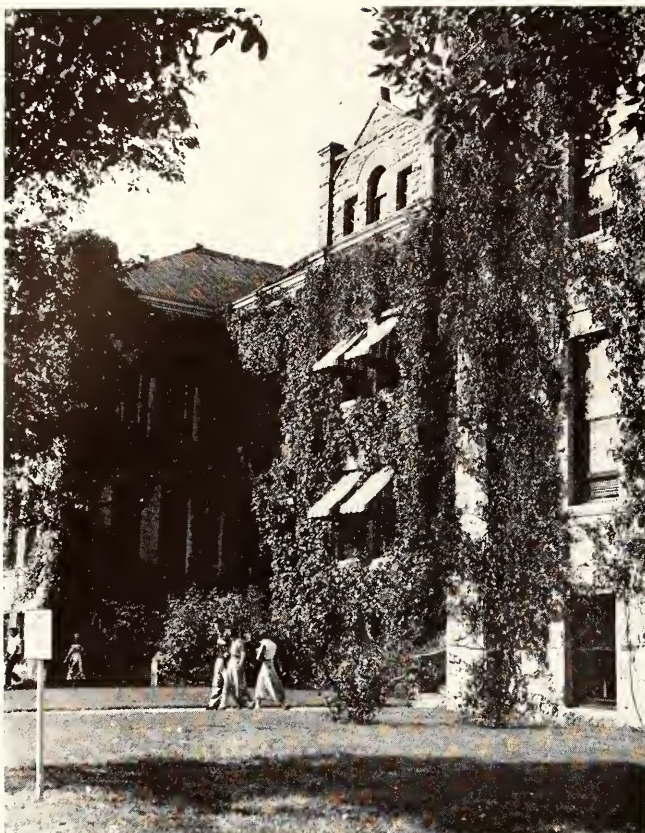

A staff of 77 members, headed by Dean Margaret M. Justin, train these sought-after home economists by teaching and directing research projects in five departments—Clothing and Textiles, Child Welfare and Euthenics, Foods and Nutrition, Art, Household Economics, and Institutional Management.

Several new research projects and studies are being conducted in the various departments. In Clothing and Textiles, a study of "Clothing Purchases of College Women" has been started to find how much the K-State coed spends for clothes and what clothes she buys, where she skimps, where she splurges and what years she spends the most.

A new research project in Clothing and Textiles has been started to learn what types cloth for street dresses and summer suits is most crease-resistant. In this project two types of cotton, two of rayon and two of rayon-cotton blend are being tested. Special equipment has been set up to measure the "comeback" of the creased cloth after pressure is off.

DR. MARTHA KRAMER gave up an outstanding career in the field of research in nutrition to become Assistant Dean of Home Economics at Kansas State.

CALVIN HALL is a home-away-from-home for students in the School of Home Economics. A well equipped lounge makes it a popular campus building.

STUDENTS IN CLOTHING AND TEXTILES examine nylon thread, *left*, and study the fading qualities of cloth, *right*. A survey of clothes buying habits of college women was conducted this year by students in this department. Research projects are carried on in each of the fine Home Ec departments.

The Department of Foods and Nutrition has started research in cooperation with the Department of Poultry Husbandry to determine how the diet of the turkey affects the flavor, tenderness, and juicy quality of the turkey meat.

A new federal research project started in the Department of Institutional Management is being done in cooperation with the bacteriology department. It's to determine the different ways of storing food and how those ways affect the bacterial count of different foods.

Mrs. Bessie West, as head of the Department of Institutional Management, has done the purchasing of the food service equipment in the new women's residence hall. The equipment includes all that which pertains to the kitchen and dining room.

Two departments report the addition of new courses. Child Welfare and Euthenics has "Human Relations" being taught to replace the old course, "Personal Health". The Art department has a new course, "Contemporary Homes" giving information on interior decoration.

Foods and Nutrition has acquired a new modernized lab equipped for the Experimental Cooking class. The modernizing was financed by proceeds from the sale of "P-C", the Practical Cookery textbook written by staff members.

Some of the curriculums offered in the School include such varied ones as Home Economics with Specialization, Home Economics and Journalism, and Home Economics and Nursing.

The curriculum in Home Economics and Journalism and Home Economics with Specialization were estab-

lished last year and are proving very popular, according to staff members.

More girls are in the Home Economics and Nursing curriculum than ever before. Eighteen were measured late in February for the \$75 worth of uniforms they will need next summer for hospital work in Kansas City for an 8-week course.

Still considered new, although they were completed last year, are the home management houses which represent the three general income brackets most commonly found in America. Home ec girls live in each of the houses for a training period and must prepare a budget and maintain the house within the income allowed.

Home Economics activities aren't all projects and studies. For instance, there's the annual Snow Ball—the one formal dance of the year when the girls ask the boys and then select and crown the Favorite Man On the Campus, better known as the FMOC.

An activity along the fashion line is the annual

March style show sponsored by various fashion magazines.

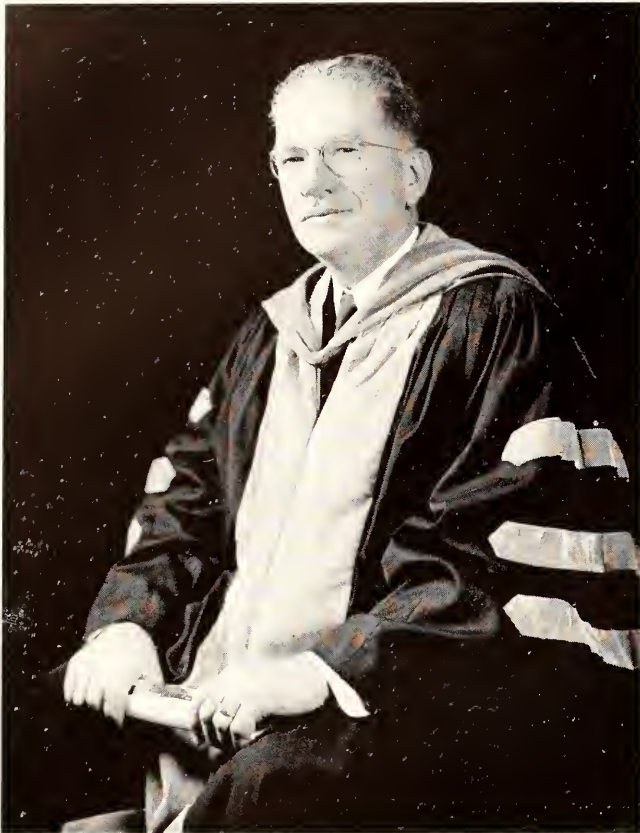

An activity which reflects the interest of home economics girls here for girls of other lands is a tea given each year to raise money which goes toward a home economics education for a foreign girl. Ever since 1931 there has always been some foreign student at K-State studying home ec.

The climax of the School of Home Economics year comes with the Hospitality Days the end of April. The dual purpose of this event is to display the talent and originalities of the home economics students and to attract prospective K-Staters.

During this time, each department has exhibits to show the scientific work in all the fields of home economics. The students also give demonstrations on such things as the correct way to make a cake, how to plan a family budget, and how to shop economically.

DR. ELDEN E. LEASURE is Dean of the only selective school on the campus. Enrollment in Veterinary Medicine is limited to 60 freshmen each year.

Vet Med School

will graduate seventy students in May

The School of Veterinary Medicine is distinguished in several respects. First, it is the only school on the campus where the students are selected. Second, the enrollment is limited to 60 freshmen students each fall. Another factor is that it is recognized as the outstanding professional school on the campus.

"Just like a dream come true," is Dr. Elden E. Leasure's comment on the new half million dollar appropriation bill signed in February for veterinary hospital additions. No construction date has been set.

This spring 70 students will be granted the degree Doctor of Veterinary Medicine after four year's professional work and one year pre-veterinary work. One student, the only senior girl, graduated in January. The six year requirement became effective in 1949 meaning the class of 1953 will be the first to complete two years pre-veterinary work plus the professional requirement.

When the students graduate they find they are professionally equipped to carry on the work of today's modern veterinarian. During the four years in school they do classroom, laboratory, and clinic work. During their junior and senior years they make calls—serving farms in the Manhattan vicinity. Here they have the guidance and assistance of instructors—all well-trained doctors. When the students leave the school they do so with a feeling of assurance and self-confidence.

THE SIZE OR KIND of animal to be treated provides no problem for students in Veterinary Medicine who are taught to care for all types. Vet students (*below left*) prepare to treat someone's pet dog in the Veterinary Clinic. Giving each other the "once-over" (*below right*) are these veterinary students and young calf. The calf promoted much interest at the clinic because it had its heart located in its throat.

HEADS OF THE FOUR main divisions of the school of Veterinary Medicine are: Dr. E. J. Frick, Surgery and Medicine; Dr. William M. McLeod, Anatomy; Dr. Lee M. Roderick, Pathology; and Dr. Gravers K. L. Underbjerg, Physiology.

Pre-veterinary students find the requirements hard to meet. Dr. Leasure is proud of his senior class this year. Three-fourths of them enjoyed a 2.2 grade average for seven semesters of work.

Thousands of out-of-state requests flood Dr. Leasure's office each year, but only a limited number are given applications. Consideration is given to grade average, character, background, and future possibilities as a veterinarian with preference given to Kansas residents.

Occasionally the clinic gets a medical phenomena to work on. The men and the instructors enjoy this. This year they had a calf with its heart in the neck anterior to the thorax cavity. Other unusual cases included a cyclops—a calf with one median eye.

The Borden Company stimulates the competition for high scholarship each year. The company gives the Borden Award of \$300 to the veterinary medicine senior having the highest grade average for six semesters work.

This year's outstanding discovery in the Research Department was Eperythrozoon suis and Eperythrozoon parvum, two new blood parasites of swine. Eperythrozoon suis was found associated with a disease of swine known as "ictero-anemia" or "anaplasmosis-like disease."

The veterinarian has revolutionized the animal world in the past fifty years. Research in the field has destroyed many common animal diseases, one of which is Texas fever. Other diseases brought under control include tuberculosis in cattle, and blackleg.

The science of Veterinary Medicine is relatively new, but the art is an old one. Since the beginning of man and animal association, man has provided for the care of his animals—often in a crude manner, but nevertheless some provision was made.

With the expansion of scientific development man soon realized that animal diseases were transferrable to

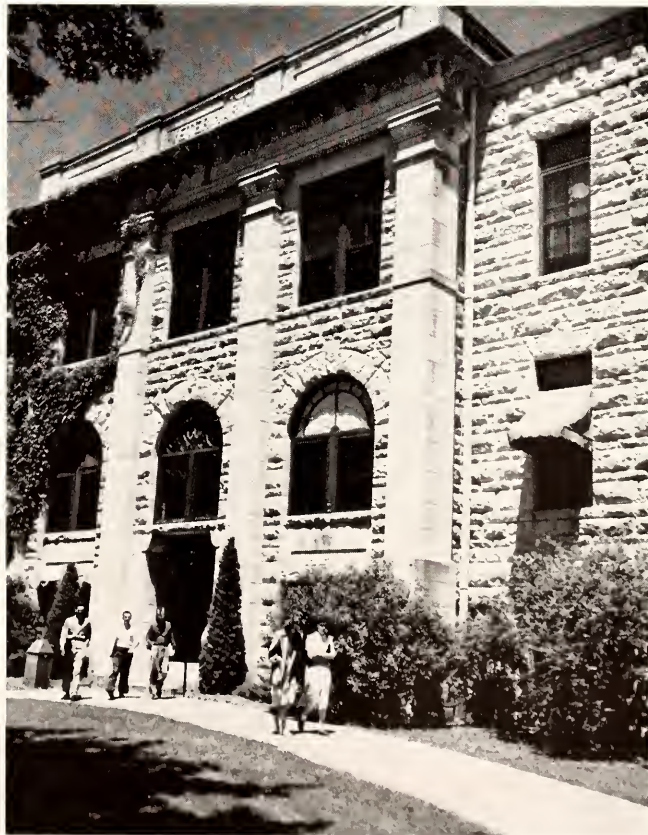

the human and often resulted in death. An example is brucellosis, causing brucellosis or undulant fever in man.

The first School of Veterinary Medicine, the New York College of Veterinary Surgeons, was established in this country in 1857.

In Kansas the science of the profession is even newer. The first class of Doctors was graduated in 1907. The School of Veterinary Medicine was established as a separate unit in 1919.

The veterinarian of today not only serves the farmer as a doctor of his livestock, but he serves all the people of the state as a public health officer, often controlling many infectious diseases transferrable to man.

VETERINARY HALL will soon be supplemented by additions to the vet hospital provided for in a new half-million dollar appropriation bill.

DR. HAROLD HOWE, Dean of the Graduate School, has the job of supervising and coordinating the studies of 450 graduate students—a record number. He came to Kansas State in 1925 and has been Dean since July 1, 1945.

Grad Students Study

ninety-eight try for advanced degrees

Trainer of teachers and research personnel, the Graduate School carries much responsibility for the advancement of knowledge. To the most advanced students on the campus, it represents the final level of higher education.

A Master's degree is offered in nearly every academic field at K-State. Consequently, graduate students can be found working on research projects on a wide variety of subjects—from veterinary medicine to child welfare and from applied mechanics to sociology.

The school has grown rapidly since it was first opened in 1931. In the academic year 1944-45 five seniors were taking graduate work. This year, there are 450 graduate students with 95 candidates for Master's degrees and three candidates for the degree of Doctor of Philosophy.

Graduate work began at Kansas State College 80 years ago when an honorary Master's degree was conferred. Actual graduate work, however, was first administered in a separate office in 1920. The Graduate School was created 11 years later with Dr. James E. Ackert as Dean. Dr. Harold Howe took over the reins in 1945 when Dean Ackert retired.

The Graduate School is probably the only school in the College without a housing problem. The office of the Dean is the only actual formal division—the facil-

In Many Fields

ities of all of the other schools on the campus being utilized also. Student problems and other administrative procedures are handled in the Dean's office.

Candidates for degrees are expected to have a broad knowledge of the subject and its related fields—obtained by a wide range of study.

All students enrolled in the Graduate School are members of the Graduate Students' Association. Its representatives have a voice in the administration of the school. The main administrative body for the school is the ten-member Graduate Council.

Because jobs in most institutions of higher learning, and in most research laboratories require at least a Master's degree, the primary objective of the school is to train students for these positions which demand extensive study beyond graduate work. Kansas State, for example, requires the degree of Doctor of Philosophy for appointment to a full professorship.

The degree of Master of Science is offered in 54 fields. Doctor's degrees are offered in Animal Nutrition, Bacteriology, Botany, Chemistry, Entomology, Foods and Nutrition, Genetics, Milling Industry, Parasitology, and Physics. The chemistry department, however, had the greatest number of graduate students this year.

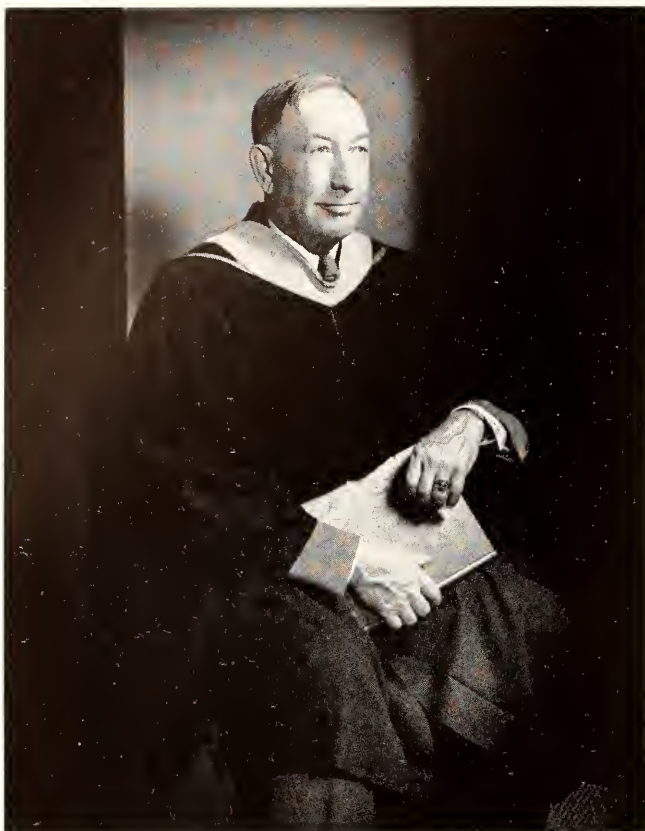

Much graduate work is done through graduate assistantships, which are available in most departments of the College. Assistantships facilitate research work, teaching and the acquisition of advanced degrees in certain fields.

FAIRCHILD HALL houses the office of the Graduate School plus some of the research laboratories used by grad students. The office of the Dean is the only actual formal division of the Graduate School on the campus.

RECOMMENDING POLICIES for the Graduate School are these members of the Graduate Council: Harold Howe, Fred L. Parrish, Roger C. Smith, Ralph E. Silker, Florence McKinney, H. Leigh Baker, G. K. L. Underbjerg, Earl E. Edgar, Harold E. Myers, Reed F. Morse.

L. C. WILLIAMS is Dean and Director of Extension Service, which serves thousands of Kansas farm families. This year is his thirty-sixth in the department and his fourth as department head. He is a Kansas State grad.

DIRECTORS OF THE nine divisions of the Extension Service are (top row) Prof. Harry C. Baird and Prof. Frank O. Blecha, District Agents; Prof. John M. Ferguson, Extension Engineering; Prof. Paul W. Griffith, Agricultural Specialist; Prof. J. Harold Johnson, State 4-H Club Leader; (bottom row) Prof. L. L. Longsdorf, Extension Information; Prof. Jesse M. Schall, Home Study Service; Prof. Georgiana H. Smurthwaite, Home Economics; and Prof. E. H. Teagarden, District Agent.

K-State Extensio

serves many by far-reaching program

A direct part in the life of the land is taken by the Division of College Extension with its far reaching program to extend the educational facilities of K-State to every corner of Kansas.

The Agricultural Extension Service, conducted co-operatively by the College and the U. S. Department of Agriculture, is administered as an integral part of the Extension Division educational activities.

L. C. Williams, Dean of the Extension Division, is also director of the Agricultural Extension Service. As Director of Extension, he represents both the College and the Department of Agriculture.

Paul W. Griffith is Associate Dean of Extension and Associate Director of the Extension Service. H. J. C. Vinberger is dean and director emeritus and A. L. Hjort is administrative assistant.

All Kansas counties now have the services of county agents and nearly 100 counties have home demonstration agents. 4-H club agents are located in 32 counties and new positions in their field are being added each year.

Home Economics in Extension, headed by Georgiana Smurthwaite, provides many opportunities for

leadership training. More than 2,000 home demonstration units are now at work in Kansas communities. With the assistance of the home demonstration agents and extension specialists these units develop their own programs in the fields of adult

n Service School

and youth education. A major part of the home economics program is 4-H Club work.

Extension Information, under the direction of Lisle Longsdorf, works through communications to spread the word about the research findings of the College and its experiment stations. Scientific information is channeled through every practical means of communication. First among these is radio station KSAC with its potential audience of five million people.

A recent survey showed that 80 per cent of more than one thousand farm families in the northeastern section of the state are KSAC listeners.

Information is taken directly to the farmers by the agricultural specialists, headed by Paul W. Griffith, who is also associate dean. This department is in charge of the program and arrangements for farm and home week, statewide farm meetings, and scheduling of judges for county fairs.

Harold Johnson has the job of supervising the building of youth into leaders and social minded citizens. His department is in charge of boy's and girl's club work.

tension, headed by John Ferguson. When the department was started in 1910, it was concerned mainly with drainage and irrigation. Now, its subjects include farm electrification, water conservation, and other fields where engineering principles may be applied to agriculture.

The academic phase of college service goes to those who cannot come to it through the home study department, headed by Jesse M. Schall. Courses are offered in many subjects at both the high school and college level. The department has its own full time faculty.

R E S I D E N T

Instruction

WHEN the College was founded in 1863, resident instruction was to be its primary avenue of service to the State. Although its expressed purpose was "to promote the liberal and practical education of the industrial classes," no large amount of these classes ensued, partly because there was little agreement between educators and legislators on the subject matter to be offered.

The first graduating class, five in number, finished the four-year curriculum in 1867. Their studies had been largely classical—Greek, Latin, and philosophy.

But the enrollment and the curriculum grew with the College. In the 1870's, the practical studies in agriculture and mechanical arts were sufficiently developed to be offered as courses, and the swing from classical to practical education began. Conflict between specialized education and general education continued until it was resolved in curriculums which combined them.

Response to the College's combined program has been overwhelming. In 1948-49, a peak enrollment of 8,366 was recorded and 1,666 men and women were graduated, 178 of them with advanced degrees.

Resident instruction, however, is not entirely confined to gleaning knowledge from textbooks and lectures. By working in the laboratories and fields, helping to conduct surveys in social science work, and participating in community research, many hundreds of young men and women go forth every year equipped with the knowledge and the latest techniques to apply to the multiplicity of problems in a State rapidly achieving an excellent balance between agriculture and industry.

Kansas State Graduating Class of 1951

remembers many important college events

The fall election for senior class officers resulted in an even split between the Independent Political party and the All-College party. I.P.P. did not nominate candidates for underclass offices.

President Bob Sterling and treasurer Maxine Brown represented the All-College party and Bob Barnes, vice-president, and Helen Broberg, secretary, were I.P.P. candidates.

The class of 1951 has seen some important events in its four years at Kansas State. The spectacular opening of the long-awaited Fieldhouse might be the climatic event or perhaps the resignation of Dr. Eisenhower and the inauguration of President McCain take top memory honors.

To others, watching their high-flying classmates on the K-State basketball teams or seeing the long football losing streak broken, might be the most remembered.

The seniors have also witnessed the starting of many of the buildings on the "campus of tomorrow." They've seen the Arts and Sciences classroom building and the freshman girls' dorm grow and seen the completion

of the small animals lab, engineering lecture building, and the Fieldhouse.

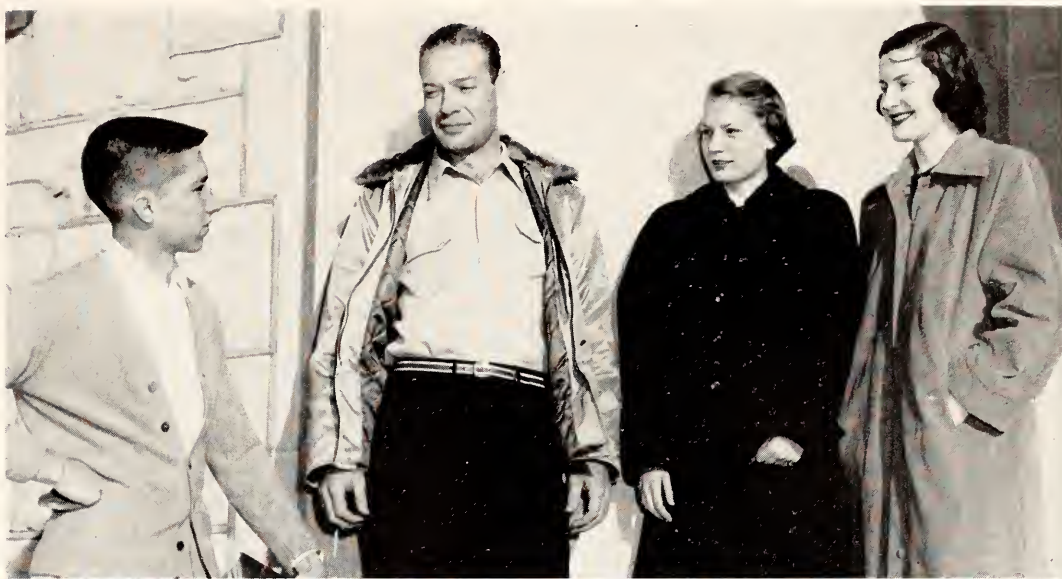

They've watched a procession of Ag Barnwarmer Queens and St. Patricia's and seen hundreds of coeds flock through Panhellenic rush week. They laughed at skits for FMOC candidates and pitied Purple Pepster initiates. They've mentally argued with the judges on Y-Orpheum decisions and physically struggled through the process of learning how to square dance.

They can remember Homecoming decorations and floats that varied from the grotesque to the beautiful. They particularly won't forget the special Homecoming celebration that occurred when they were freshmen. That was when General "Ike" Eisenhower visited the campus and reviewed the big Homecoming parade and crowned the queen during halftime.

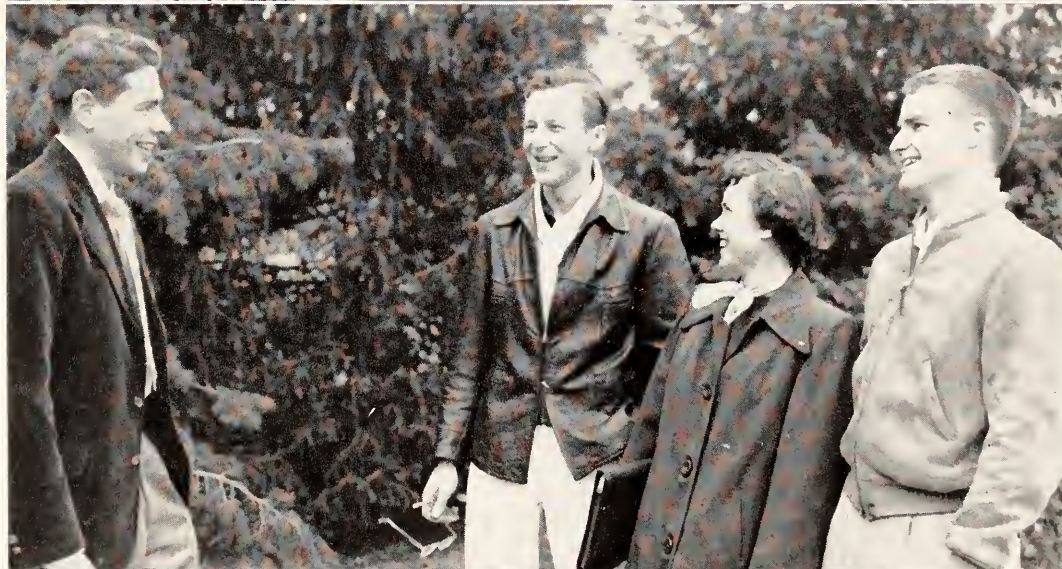

But memories of everyday incidents will probably be kept the longest by this class of '51. Long hours of studying in the library, last-minute cramming for that five weeks' quiz, discussions over coffee in the Canteen and Student Union, sleeping through Cultural World lectures and walking to the Hill on cold, snowy mornings. All these are woven into the pattern that makes college memories so unforgettable.

ANOTHER RUSH WEEK arrived late in August with approximately 170 girls registered as rushees. That first exciting meeting (*upper left*) found them trying to get used to wearing name cards and attempting to appear casual about it all.

Leaving Van Zile (*upper right and center left*) for the first rush date, a series of Panhellenic openhouses, the rushees viewed the coming events with emotions varying from quiet boredom to nervous anticipation.

All is not parties and conversation during Rush Week, however. Registering and filling out and receiving preferential date lists was done, too. (*Lower right*) rushees register with Panhellenic members.

A scene (*lower left*) matched all over sorority row as rushees and actives received the glad tidings and 152 rushees found themselves wearing shining new pledge ribbons on their sweaters.

Top row: Atteridg, George S., Jr.; Avery, Earl D.; Baade, Robert E.; Bachus, Doris J.; Backman, Howard D.; Baden, Harold H.; Baehr, William M.; Baetz, William J.; Bair, Mary L. Second row: Bair, Ross T., Jr.; Baird, Charles J.; Baker, Alice M.; Baker, Russell W.; Baldwin, James G.; Baldwin, Mark E.; Ball, Robert G.; Bamford, Barbara A.; Bannan, Alvin K., Jr. Bottom row: Banner, Elizabeth L.; Banting, Robert F.; Barger, Lloyd I.; Barham, Shirley L.; Barnes, Donald E.; Barnes, John H.; Barnes, Robert F.; Barrett, Ernie D.; Barrett, Fred F., Jr.

A GALA HOMECOMING week-end was climaxed by the crowning of Nancy Curtis, Chi Omega, as Homecoming Queen. President McCain offers his congratulations, (*upper left*) during halftime ceremonies at the game.

The Tri Delt train (*above right*) "chewed" its way to a first place trophy in the sorority division while the Sig Ep's Hadacol cat (*left center*) "climbed" to first in the fraternity competition.

One of the Mortar Board cars in the big Homecoming parade seems to have picked up a hitchhiker (*lower right*).

The Queen (*lower left*) and her attendants, Joan Brown, Tri Delt, left, and Wilma Hodgkinson, Van Zile.

HISTORICAL OPENING of Kansas State's Fieldhouse on December 9, 1950, was witnessed by the largest crowd ever to see a basketball game in Kansas. Although the building was incomplete, nearly 11,000 fans were wedged into the "palace". Even this record was soon shattered as 14,000 people filled the Fieldhouse for later games. President McCain (*upper left*) told the crowd that the early readiness of the fieldhouse was the result of the combined efforts of many people.

Members of Jack Gardner's first K-State team were honored guests, (*upper right*) and five members of the first official K-State basketball team were introduced. The Wildcats proved themselves worthy of their new home as, paced by Dick Knostman who made 17 points, they swamped Utah State 66-56 (*center*).

Part of the crowd is shown (*lower right*) standing in line waiting for the doors to open before the game. Congestion resulted because of unfinished doors but everybody agreed the wait was worthwhile.

Speakers at halftime included Charles Bennett, head of the construction company building the Fieldhouse; Brick Garrison, alumni president; Evan Griffith, Manhattan C. of C. president and (*lower left*) Governor Ed Arn.

SENIOR CLASS OF 1951

PRIDE AND JOY of Kansas State is its championship basketball team and the Fieldhouse that the Wildcats call home.

The Jayhawks (*above*) of K. U. face the Wildcats in ceremonies before their game at the Fieldhouse. The Staters proved to "Solo U", that something other than agriculture can be learned at "Silo Tech" as the Cats chewed the Jayhawks 65-51.

Ernie (*right*) is neither looking for loose change, bowing to the opposition nor getting ready to play leap frog with Peck. Actually a stunning blow had momentarily floored the All-American.

BASIC ELEMENTS of education, as outlined by Sir Richard Livingstone in his assembly address, are vocational, social and spiritual.

OPENHOUSE this year was officially launched as Dean Durland (left) handed a torch to one of the marathon runners. St. Patricia (right) cuts the green ribbon to open the exhibits as St. Pat watches over her shoulder.

MOVIES OF K-STATE were taken last spring by the Centron Corporation of Lawrence. "You oughta be in the movies" was realized by many students

as shots of classes and activities were taken for "The Kansas State College Story". This color movie is being shown to Kansas high schools and various state civic groups.

ARMY DAY means parades and speeches and flag-waving and the Kansas State ROTC does its share by parading through the streets of Manhattan to show the citizenry

some of the things that can be learned in college. The parade is shown heading west on Poyntz during last spring's Army Day observances.

HOSPITALITY DAYS the School of Home Economics open house for high school girls, has come to be a tradition of fun and welcome at K-State.

Some of the visitors (*upper left*) watch a draping exhibition as a home ec girl shows off her knowledge. An artist at work has helpers, as a class interested in art watches at the "Art for Pleasure" display (*upper right*.)

The style review (*lower left*) brings many onlookers as K-State girls have fun modeling styles for their guests.

More exhibits (*center and lower right*) attract girls and, incidentally, make good advertising for Kansas State.

THE CROWNING GLORY of the years spent in college is Commencement. The stadium (*top*) is changed from a football-scarred battlefield to a dignified arena as graduates-to-be and proud parents and friends listen to the commencement address.

Solemnity, boredom and glee are reflected in the faces of these graduating seniors, (*center left*) as they listen to the ceremonies in May, 1950. Maybe the seniors were thinking about those cold morning walks to the Hill when everybody had a seven o'clock or two. Or maybe they were remembering hours of studying for finals and the shock of getting back foreboding grade cards. All these things were forgotten, though, as Dr. Milton S. Eisenhower presented 1,296 degrees to largest graduating class in K-State history.

The procession of seniors and faculty line up on the South Quad, (*center right*) for the march to the stadium.

Chancellor Albert Jacobs of Denver University, speaker at the spring commencement exercises, (*lower left*) told the graduating class that the world in which they take their places "is not a happy one."

MAKING RESPONSES

Citizens

EDUCATION for citizenship in a free, democratic society is one of the prime aims of the College. On and off the campus, in and out of the classroom, the role of the individual in the group, and of the group in society as a whole, is studied and practiced.

In few institutions of higher learning do students play the large share in governing that they play at Kansas State. The Student Governing Association is granted extensive powers by the College. Students are appointed to all major campus committees concerned with student affairs. Through free and open discussion with faculty members they arrive at decisions in a truly democratic manner. The key to all student-faculty relations is guidance, not regulation—discussion, not dictation.

A daily student newspaper is published by and for the students, with no restraints or censorship imposed by either the administration, the faculty, or the student government. No serious attempt has ever been made to impose controls. The sense of obligation is enough.

Of the hundreds of campus organizations, many of these are local chapters of national professional organizations while others are local organizations. However, they both fill the same function of adding to student interest and knowledge.

At a time when two ways of life are contending for mastery of the world, it is more than ever essential that citizens of the free world know and understand the vast gulf between democracy and dictatorship. The College has the goal of developing through thorough knowledge of its right, privileges, duties and obligations.

Foremost among these obligations today is the "defense" of democracy. Here in the heart of America, is an integral part of the first line of defense—the Reserve Officers Training Corps. All men must take two years of training and may enter the advanced training if they so desire. This is the training which has furnished leadership in battle in two World Wars.

Phi Kappa Phi

elects fifty-nine to honorary society

Fifty-nine students were awarded the highest scholastic honor conferred by the college when they were elected to Phi Kappa Phi, national honorary society, during the fall semester.

Phi Kappa Phi seeks to emphasize scholarship in the thought of college students and to stimulate mental achievement. To be eligible for membership in Phi Kappa Phi, a student must have attained a senior standing and must rank in the upper ten per cent of his class scholastically.

Phi Kappa Phi was established at Kansas State in 1919. Dean Martha M. Kramer is president of the chapter.

BLUE KEY—*Top row:* Ernie Barrett, Richard Crow, Max Deets, Kenneth Harkness, Donald Hart, John Huddleson, Kenneth Johnston.

Bottom row: Russell Jones, Ronald Linscheid, Miles McKee, Richard Nichols, Floyd Ricker, Stanley Wood.

College men who have completed two years at Kansas State and are recognized as leaders in scholarship and college activities may be elected to Blue Key, national honor fraternity. The group conducts the selection of the Homecoming Queen and sponsors the Homecoming Ball. Dick Nichols is president and Dr. James A. McCain is the faculty sponsor.

leaders in scholarship and activities

"Service, Scholarship, Leadership" is the motto of Mortar Board, national honor society for outstanding senior women. Members sell mums at the Homecoming Game and sponsor the Scholarship Banquet. Jane Colby is president, and Mrs. James A. McCain, Miss Dorothy Pettis, and Miss Gertrude Leinkemper advise the group.

Who's Who Honors Thirty-one Seniors

members chosen for grades and activities

Outstanding seniors in all curriculums at Kansas State College are selected for Who's Who in American Colleges and Universities by a committee of students and faculty at Kansas State. Members of the committee this year were: Charles J. Glotzbach, chairman; Helen Elcock, Thomas Salyer, and Charlotte Laing.

Students selected for the honor will have their pictures, along with a short biography of their achievements, in the annual book, "Who's Who in American Colleges and Universities".

Each organization on the campus is asked to nominate at least two candidates for the honor on the basis of scholarship (the candidates must have at least a 1.5

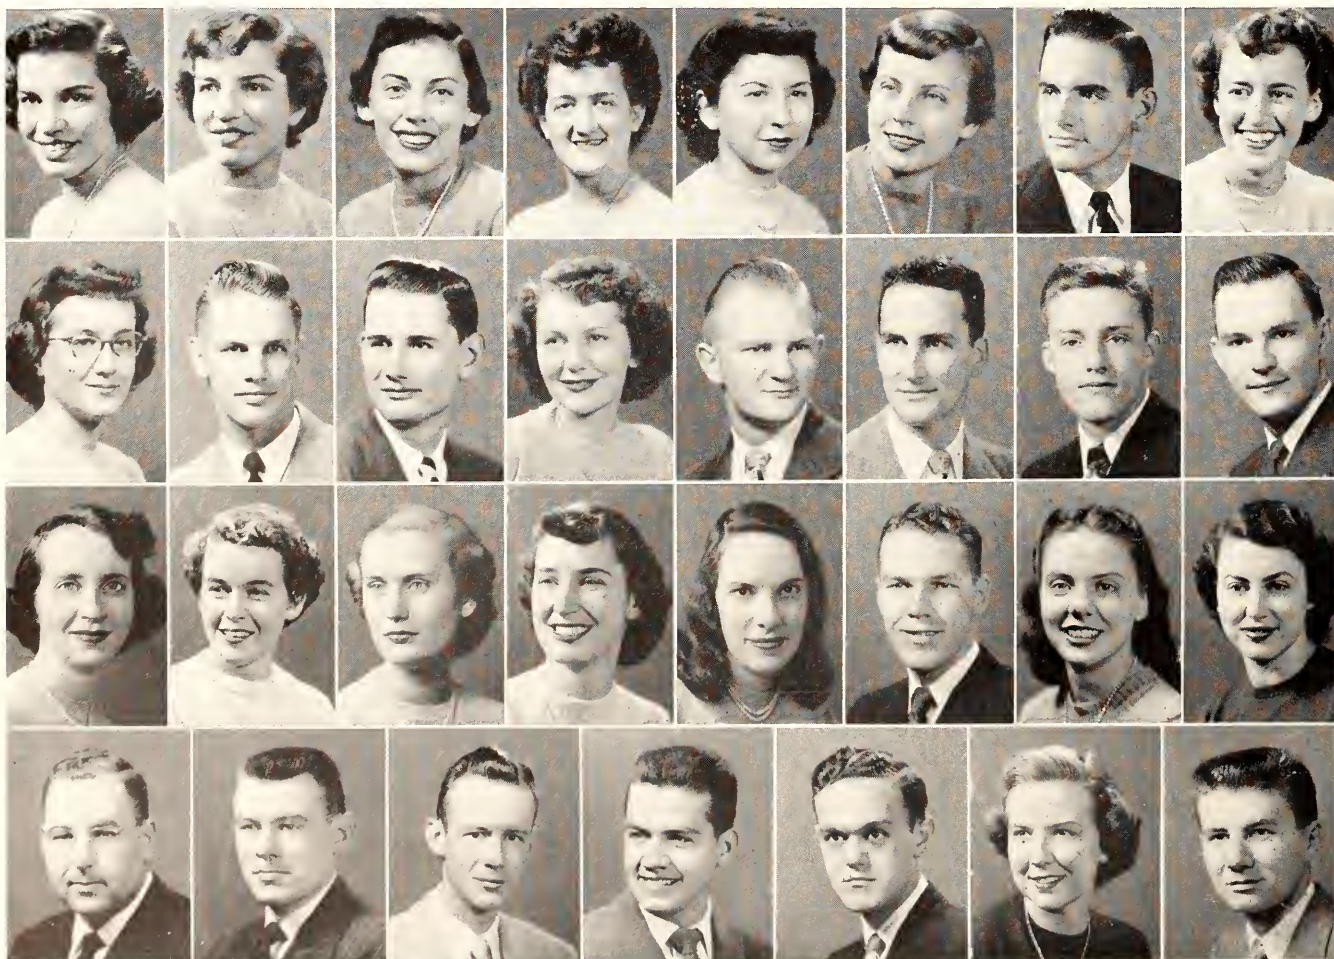

grade point), extracurricular activities, character, leadership in college activities, and possibility of future usefulness. Following these recommendations, a rating sheet is sent to five people—two students and three older persons—familiar with the qualifications of the student.

Thirty-one students were selected this year. Only one student for approximately each 20 enrolled at K-State was chosen for the honor.

In comparison with those selected for Who's Who last year, seventeen women and fourteen men were selected for the honor this year while six women and twenty-two men were chosen for Who's Who last year. Like last year, however, Arts and Sciences has the largest number of honored students represented.

promote leadership, research in Home Ec

High scholarship is the theme of Omicron Nu members. Junior and senior home ec'ers in the upper 10 and 20 per cent of their classes are eligible for membership. They play hostess at teas designed to promote interest in Omicron Nu and Home Economics. A tutoring service is maintained, and a \$10 award is given annually to the freshman in home ec with the highest average. Margaret Hammarlund is prexy and Assoc. Prof. Nina Browning is the faculty adviser.

Alpha Delta Theta

plays hostess to national convention

Women in medical technology with a higher than 1.0 grade average may join Alpha Delta Theta. These hypo-totin' members greeted fourteen other chapters from seven states at the national convention held at Kansas State, November 10-11. Social and intellectual cooperation among med tech students is their aim. Muriel Frey heads the group under the sponsorship of Prof. C. A. Dorf and Prof. J. O. Harris.

Mu Phi Epsilon presents scholarship to freshman girl

Mu Phi Epsilon, national music sorority, recognizes scholarship and musical ability and promotes friendship within the group. Membership is based on scholarship, musical ability, character, and personality. The group presents at least two public recitals during the year. Mu Phi Epsilon also awards a music scholarship to an outstanding freshman girl in the Department of Music each year. Joan M. Mosier was president this year and Miss Clarice Painter was faculty sponsor.

Alpha Alpha Gamma is newly organized honorary for women

The Theta chapter of Alpha Alpha Gamma, organized in May 1950, is one of eight undergraduate chapters and is the only chapter in this section of the country. Outstanding women students in architecture, interior design, landscape design, and allied arts are eligible for membership. The group promotes interest in other women in these professional fields. They also try to acquaint themselves further with their profession. Sallie Peterson was president and Mrs. H. E. Cobb was sponsor.

Theta Sigma Phi sponsors annual Matrix Table dinner

An outstanding woman in the field of journalism is the guest speaker at the annual Matrix Table, sponsored by Theta Sigma Phi. This honorary fraternity for women in journalism includes the sale of graduation invitations in its list of yearly activities. "Women in search of truth" is the motto of the 13 members, chosen for journalistic attainment and scholarship. Jeanne Warren served as president for the first semester. Prof. Helen P. Hostetter is adviser.

Sigma Delta Chi edits Collegian's April Fool's edition

As an honorary professional journalism fraternity, Sigma Delta Chi serves to foster high ethical codes of truth, talent, and energy among journalists. The thirty members cater at the Royal Purple Beauty Ball, co-sponsor the Editor's Day luncheon and journalism picnic, and publish the annual April Fool's Day edition of the Kansas State Collegian. Morris Briggs heads Sigma Delta Chi as president. Prof. C. J. Medlin is faculty sponsor of the group.

Westminster Members publishes monthly paper

The Westminster Foundation of the Presbyterian Church welcomes all students and faculty members. An extensive study, social, and training program is carried on by its eighty members. The group publishes a monthly paper, "Bill's Beacon", and conducts student seminars. William U. Guerrant has served for 31 years as the Presbyterian college pastor. Robert Jansen is president and Prof. G. A. Filinger is adviser.

Phi Alpha Goal Christian strength for college men

Phi Alpha, a Presbyterian association, opens its ranks to all Protestant college men. The group seeks close Christian fellowship within campus circles. A fall hayrack ride and a spring picnic were high spots of the Phi Alpha social calendar. Yearly, the group supports a Presbyterian mission in Buckhorn, Ky., with a \$50 scholarship. President is Phil DePuy. Prof. Thomas Avery is faculty adviser.

Sociology Club

presents vocational opportunities

The Sociology Club of Kansas State College was newly organized on the hill this year. The purpose of the club is to give members an opportunity to learn of vocational possibilities in the field. Anyone who has taken or is taking a sociology course may become a member. The club has regular monthly meetings. Bob Rogers was president; Marjorie Howe, vice-president; Pauline Piersee, treasurer; Garland Lichty, treasurer; and Randall C. Hill, sponsor.

Criticorum Club

interests are national and international

Criticorum Club provides a discussion group for students interested in current events in the local, national, and international field. Originally only for Citizenship majors, the club this year started admitting all students who were interested. The only requirement for membership is that a person be interested in serious discussion. Jane McKee was president this year. E. E. Edgar was faculty sponsor.

Large Membership of Collegiate 4-H

provides service and social activities

The Collegiate 4-H Club with 475 members is one of the largest organizations on the campus. The club which was organized in 1927, began with 60 members and grew to 600 members in 1947.

Anyone who has done 4-H work previous to coming to Kansas State may become a full member of the Collegiate 4-H Club. Persons who are interested in 4-H work may become associate members.

The purpose of the club is to serve as a social and

service organization to former 4-H Club members attending Kansas State. With their twice-monthly meetings in Rec Center, the Collegiate 4-H is one of the most active organizations on the campus. Their large membership enables them to actually carry out their program of the promotion of 4-H work throughout the state.

Members of the Collegiate 4-H Club edit *Who's Who*, a yearbook of 4-H activities from the entire state. This yearbook is sold not only to students here on the campus but also goes out to 4-H club members over the state.

The club also had a weekly radio program and sponsored an information booth.

Collegiate 4-H had many social activities. The social year was started by a dinner-dance in the fall. During December a Christmas party was held. In the spring, there was a spring semi-formal dance, a picnic, and a box supper. The club also sponsored a recreation class.

Officers were elected for the organization each semester. First semester, Miles McKee was president. Other officers were Loren Goyen, vice-president; Mary Ann Miller, secretary-treasurer; Lois Ottaway, reporter; Glenn David, marshal; Bob Sterling, song leader; and Lauradelle Fearing, pianist. Corresponding secretaries were Joyce Schrader, Ellen Banman, Ann Schartz, Maurice McClure, and Duane Traylor.

Evelyn Haberman was elected president of the group the second semester. Also elected to serve second semester were J. B. Warren, vice-president; Christine Allen, recording secretary; Beverly Briles, reporter; Maurice McClure, marshal; Pauline Wood, song leader; Garman Brietenbach, pianist. Corresponding secretaries were Joan Engle, Aldean Knoche, Mary Alys Jean, Alice Handlin, Llano Thelin, Pat McCluskey, and George Wingert.

Glenn Busset served as faculty sponsor for the group this year along with J. Harold Johnson, State 4-H Club Leader, and the state 4-H staff who also assisted and helped sponsor one of the largest organizations on the Kansas State College campus.

College Veterinary Medical Association

promotes professional activities

All students who are enrolled in the school of veterinary medicine are eligible for membership in the Kansas State College Student Chapter of the American Veterinary Medical Association. Being a veterinary student, participating in activities of the organization, and attending meetings are the requirements for membership.

Smaller than last year's membership, the A.V.M.A. membership consists of all students enrolled in veterinary medicine.

The Junior American Veterinary Medical Association has two purposes. First, it aims to help the advancement of the science of veterinary medicine. The second purpose is to promote social and professional activity among students enrolled in veterinary medicine.

The veterinary medicine students organized at K-State in 1906 as the Veterinary Medical Association, Kansas State College chapter. It was not until 1939 that the organization received a charter making it the Kansas State Chapter of the American Veterinary Medical Association.

Besides the promotion of the advancement of science, the Junior A.V.M.A. has many social activities. To start these off in the fall, the organization holds a smoker to welcome new members. Also on the social calendar

for the veterinary medicine students is the annual fall dance.

Besides their heavy schedules on the hill, the members of A.V.M.A. also find time to participate in intramural sports. In the spring, they also have a traditional softball game with the Oklahoma A. and M. branch of the A.V.M.A.

Sports aren't the only activities which keep members of the group busy during the spring. Along the social line a spring dance and banquet is held honoring the graduating seniors.

Last fall the Junior A.V.M.A. added another distinction to their list of accomplishments by receiving second place for their float in the Homecoming parade.

Heading the veterinary medicine students the first semester was Raymond Swart as president. Other officers were: Jack Smith, vice-president; Herbert Schoonover, secretary; Dennis Goetch, treasurer; Frank Mertz, critic; and Harold Easterday, marshal. Howard Newkirk was selected president-elect for second semester.

Taking over as officers along with Newkirk at the beginning of second semester were: Jim Brown as vice-president; Joe Curry, secretary; John Thomas, marshal; and Lee Russell, critic. Jack Savage was chosen president-elect.

Acting as sponsors for the American Veterinary Medicine Association this year were Dr. Edward A. Rhode and Dr. Carl A. Rehfeld.

is new honorary for student architects

Architecture students who have completed five-eighths of their curriculum, and are in the upper 15 per cent of their classes may be elected to Tau Sigma Delta, national honorary fraternity. Omicron chapter was chartered in 1950, and boasts 35 active members. Outstanding men in the field of architecture have spoken at this group's meetings. Thomas Mortimer is president. Prof. John Helm and J. R. Brenneman are the faculty advisers.

Students enrolled in architectural courses with at least a sophomore standing may become members of the Student Chapter of the American Institute of Architects. The organization aims to insure the advancement of living standards through improved environment. Securing outside speakers and giving awards to outstanding students are activities of the group. President this year was Bob Weaverling. Sponsors were T. A. Chadwick and Alden Krider.

Student Architects

organize to promote better efficiency

The Student Industrial Arts Association promotes a better understanding of engineering. The organization furnishes a source of information on opportunities and developments in the field. It also furthers fellowship among students. Students in the Industrial Arts curriculum with at least a sophomore standing may become members. John Baker was president this year. Earl G. Darby was faculty sponsor.

Home Ecs Brought into Spotlight

by clubs, Snowball, and Hospitality Days

The Margaret M. Justin Home Economics Club is the back-bone of the activities of the School of Home Economics. The club, which is divided into eight vocational clubs, contributes to a building fund for the American Home Economics Association, contributes to a foreign scholarship fund, sponsors the annual F.M.O.C. contest and Snowball, and conducts a freshman counseling program.

Hospitality Days, presented each year by the School of Home Economics, is planned by the Steering Committee. Marcelyn Deets was chairman this year.

The Home Economics Executive Council is the governing body of the home economics clubs. This year Mary Baertch was president; Virginia Armstrong,

vice-president; Dolores Salmans, secretary-treasurer; and Beverly Briles, lecture chairman.

The Freshmen Counselors are appointed each spring from among the girls who will be juniors and seniors the following fall. These girls are in charge of a group of freshmen in the fall, giving them guidance in adjusting to college. Virginia Armstrong was head counselor this year.

The Dietetics and Foods Club offers an opportunity to girls in that field to become acquainted. They also learn professional opportunities. A picnic, a dinner, and a cookie sale were among the club's activities. Katherine Wingert was president and Mary Smull and Nina Browning were sponsors.

The Art Club promotes interest in the profession of art after undergraduate work. Members of the club

design and sell Christmas cards, decorate for the Snowball, and present an exhibit in the spring. Molly Weathers was president this year. Miss Dorothy Barfoot was sponsor.

The Clothing and Retailing Club was headed by Veau Dell Prochazka this year with Miss Ester Cormany as sponsor. The club discussed and worked out problems which arise in retail merchandising. The club had as a special project the presentation of a fashion revue for Hospitality Days.

The Extension Club has an annual tea to which the extension staff of the College is invited. This gives the members of the club an opportunity to meet the staff. The club helps to acquaint girls with the extension service. President this year was Roberta Keas. Mrs. Velma Houston was faculty sponsor.

The Nursing Club invites the Director of Nursing from Kansas City to speak each year. The purpose of the club is to bring the girls together before they go into training. The club presented the F.M.O.C. at the Snowball. Janice Alcorn was president and Miss Jennie Williams, sponsor.

The Freshman Club gives freshman girls in Home Economics a better opportunity for leadership and group work than they might find in one of the vocational groups. Patricia McCluskey was president. Twila Oltjen was senior adviser and Elsie Lee Miller was faculty sponsor.

President of the Home Economics Teaching Club this year was Iris Carswell. This club, which has one of the largest memberships of the many Home Economics clubs, aims to acquaint members with the teach-

ing profession. Members presented a radio program and helped with the Snowball. Mrs. Laura Baxter was faculty sponsor this year.

The purpose of the Journalism Club is to further interest in the profession of Home Economics and to furnish information about the field. The club sponsored a clothing drive for a school in Mississippi and publicized

Home Economics events. Olive Benne was president. Professor Helen Hostetter, of the Technical Journalism department, and Hazel Molzen, of the Household Economics department, were sponsors.

These Home Economics clubs, separately and as a group, help promote interest in the Kansas State College Home Economics School.

K-State Players

highlight season with "Macbeth"

No year at Kansas State would be complete without the activities of the Kansas State Players. This group is as much a part of college life as the Saturday afternoon football game or the coke date at the student union.

More than 75 K-Staters participated in the program of this working body of the drama department, which thrilled the thousands of college theater goers with four major productions during the summer, fall, and spring sessions.

Veteran player Marv Altman was president of the Players this year. Vice president was Cynthia Morrish. Sue Quinn was secretary and Sally Sanderson was treasurer.

Variety is noted in the activities of the Players business and social calendar. Between plays such programs as make-up demonstrations, reading of scenes, discussion of the annual road trip, picnics, hay-rides, and cast parties are typical.

Taking his place again as faculty adviser after a year's leave of absence was Prof. Earl G. Hoover, who once more demonstrated to K-State that nothing is too difficult for his Players to produce.

The climax of the Player's season is the annual banquet where "Oscars" are awarded the top performers of the year.

George Bernard Shaw's "Saint Joan" was the final

EARL G. HOOVER, faculty adviser of the Kansas State Players and director of most productions, says, "Nothing's too difficult for us to try."

KANSAS STATE PLAYERS—*Back row:* Earl Hoover, Donna Cronk, Lois Harb, Jan Grothusen, Pamela Decker, Shirley Smith, Patricia McGrath, Maxine Heinze, Sue Quinn, Colleen Shepherd, Betty Jo Pendergrass. *Fourth row:* Patricia Price, Patricia Adams, Mary Winkler, Lindell Grauer, Priscilla Engel, Joyce Nelson, Carol Jean Thomas, Virginia Fox, Sally Sanderson, Sandra Beifuss, Gloria Stafford, Connie Routh. *Third row:* Julia Henry, Catherine Merrill, Bill Feeter, Irwin Frank, Sam Reed, Dick Badenhop, Garth Grissom, James Lewis, David Weigel, Anne Dean, Dale Reneau, Joan Wiley. *Second row:* Raymond Sis, Gordon Hess, Marvin Altman, Gregg Borland, Simon Crites, Myron Hayes, Cynthia Morrish, Robert Hahn, Mary Heath, Dagmar McGill, John Goddard, David Kilgore. *Front row:* Anita Irwin, Priscilla Alden, Kay Leisenring, Carolyn Rogers, Sue Shirling, Patricia Kirk, Barbara Perkins, Aldean Knocke.

PLAY PRACTICE for the college dramatics group requires long hours of work and study before a production is ready for opening night. The curtain calls at the end of the performance are worth the effort, though.

"THE HASTY HEART" (left) was the summer production. Lachlen McLachlen (Roger Sherman), the friendless Scotchman, nearly mixes with Yank (Irwin Frank) as Sister Margaret has her hands full keeping peace in a British hospital ward somewhere in the Pacific war. All turned out well when McLachlen, who is about to die, learns true friendship. "Saint Joan," (right) was the final Kansas State Player Production of the 1950 spring season. Bob Redmond, Sally Sanderson (Saint Joan), and William Banks put the finishing touches on dress rehearsal before the production opened a two night stand in the auditorium.

Player production of the 1950 spring semester. Sally Sanderson portrayed Joan, a country girl of 17, who led the French army to victory against the English. Supporting roles were played by Dave Meier, the Bishop of Beauvois; Ted Farmer, the archbishop; Garth Grissom, the chaplain; and Tony Ceranich, as Charles, the Dauphin.

Other members of the cast were Dan Ward, William Banks, Bob Redmond, Joe Adams, Dan Hurley, Gene Bates, Colleen Shepherd, Frances Jewett, Shelley Baruch, Sue Quinn, Jeannine Welsh, Gene Alexis, Jackie Christie, Dick Butler, Sandra Beifuss, Bruce Wilson, Marvin Altman, Jack Hayward, Bruce Sturbenz, Fred Koster, Bob Wilcox, and Ross Miller.

A large number of the costumes for the production were the ones worn in the original New York Production. "Saint Joan" director was Tom Trenkle.

The 1945 Broadway hit, "The Hasty Heart," was presented as the summer production. In a setting of a British General hospital somewhere in the Pacific during the war, the play is the story of five soldiers and a nurse attempting to make a dying Scotchman's last days happy.

The cast included Sandra Beifuss as Sister Margaret, an English nurse; Roger Sherman, as Lachlen McLachlen; Irwin Frank, as Yank; and Arthur Frank, a Basuto Negro. Dick Butler played Kiwi, a New Zealander; Marvin Altman, Tommy, an English soldier; Charles Bascom, an Australian; Gene Alexis, an army orderly;

and Joe Beebe was the hospital surgeon. Director of the production was Don Hermes.

The Players fall production, and the play used on the second annual road show, was the comedy, "Two Blind Mice." The play was given before two campus audiences and at Fort Riley, Kansas University, and the Topeka Municiple Auditorium.

The briskly-paced farce by Samuel Spewack concerned two nice old ladies who continued to operate a governmental bureau in Washington years after it had been officially abolished, and the difficulties presented when they were discovered.

The old ladies were played by Sandra Beifuss and Barbara Meals. Gaylord Hunt was Tommy Thurston, the reporter. Sally Sanderson played the heroine niece of the ladies and the reporter's ex-wife. Roger Sherman was the heroine's somewhat stuffy husband-to-be.

Others in the cast were Marvin Altman, playing a fire-eating senator; Dave Meier, Si Crites, Sue Shirling, Gregg Borland, John Goddard, Frank Andrews, Oral Brown, Bill Feeter, Bob Parke, Joe Beebe, and Mowry Gilbert. Prof. Earl G. Hoover was the director.

Continuing in the tradition of presenting a Shakespearean tragedy each year, the Players produced "Macbeth" as the mid-winter performance.

Garth Grissom and Terrill Orr portrayed Macbeth and his sleep-walking wife through the series of endless crimes that finally destroyed them.

BARBARA MEALS WHITEHAIR, and Sandra Beifuss headed the cast of "Two Blind Mice," as the nice old ladies of a government bureau in Washington. The show was taken on the road to Fort Riley, Kansas University, and the Topeka Municipal Auditorium in the fall semester.

KANSAS STATE PLAYERS winter laboratory production was "Pride and Prejudice." Starring in the one act show were (*standing*) Joan Wiley, Jancy Hunter, and Bill Varney. (*Seated*) Billy Mader, Kay Leisenring, Pat Pendleton, and Mary Winzeler. Cast members were all freshmen, or first year members of the Players.

PLOTTING LADY MacBETH (Terrill Orr) watches from the throne in a scene from Macbeth's great hall, as Macbeth (Garth Grissom) plots one of the endless crimes that leads to his destruction in Shakespeare's immortal tragedy.

MacBETH CAST MEMBERS had more to learn than just the mastery of their lines. The use of real swords in the fighting scenes of the production required the various players to learn an exact routine for each movement. Here Gaylord Hunt (MacDuff) and Garth Grissom (Macbeth) go through the death scene of Macbeth on opening night. The play was given in February.

In the large cast of costumed Shakespearean characters were Allen Kipper, as Malcolm; Gaylord Hunt, as MacDuff; and Joe Beebe, a porter. Others in the production were Bill Varney, James Dawson, Gregg Borland, Tom Carpenter, Richard Thomas, Duane Stoskopf, Dick Badenhoop, Tom Machin, Frank Andrews, Del Close, Bruce Wilson, Jim Roberts, Bill Feeter, Jancy Hunter, Anne Dean, Sally Sams, Sue Shirling, John Neff, Gorden Hess, Raymond Sis, Frank Schmidlein, and Roger Sherman.

Learning to execute their lines was but one of the problems of the cast in the production of Shakespeare's "Macbeth". They also had to learn to use actual swords and shields.

Between performances of the major productions, the Players staged a number of minor laboratory plays and took part in various college assembly programs during the year.

"The Shepherd Who Was Left Behind" was presented at the annual Christmas assembly in the auditorium. Student director of the production was Priscilla Alden. Sue Quinn was stage manager.

The winter one-act laboratory play was "Pride and Prejudice" which was given in January. Featured in the cast were: Mary Winzeler, Bill Varney, Billy Mader, Jancy Hunter, Jo Wiley, Kay Liesenring, Pat Pendleton, Judy Henry, Diane Blackburn, Sonny Lewis, Pat Adams, Bruce Wilson, Marilyn Bumgarner, Pamela Decker, Tom Carpenter, and Duane Stoskopf.

Music Department

produces three operas in 1950-51 season

The Kansas State Music Department presented three comic operas during the year, "The Telephone," and "Amelia Goes to the Ball," by Gian-Carlo Menotti, and "The Music Master," by Giovanni Pergolesi.

"The Telephone" and "The Music Master" were presented in July to a summer school audience. "Amelia Goes to the Ball" and a second performance of "The Telephone" were given this spring.

In the summer production of "The Telephone" Patricia Hale sang Lucy and William Fischer was Ben. The cast of "The Music Master" included Paul Huddleston, as Lamberto; Bruce Wilson, as Colagianni; Ruth Thomas, as Lauretta; and Coralie Buckles as Dorina.

The spring production of "The Telephone" featured Patricia Hale Scoggins and William Charles as Lucy and Ben. "Amelia Goes to the Ball" cast members were Ruth Thomas and Patricia Glotzbach singing the part of Amelia; John Brennaman and Gregory Weber singing the part of Amelia's lover. Ivan Rundus was Amelia's husband; Joanne Frudden, a friend; Esther Green, first maid; Edith Schaid, second maid; and Earl Faulkner, chief of police. During the three performances the lead parts were alternated between singers.

"THE MUSIC MASTER" was one of two summer opera productions of the music department. Members of the cast were Coralie Buckles, Paul Huddleston, Ruth Thomas, and Bruce Wilson (not pictured).

"AMELIA GOES TO THE BALL" was the comic opera presented this spring. Cast members (*lower left*) were Joanne Frudden, Ivan Rundus, John Brennaman, and Ruth Thomas. Gregg Weber and Patricia Glotzbach (*lower right*) receive pointers from musical director William Charles. Gregg and Patricia sang the leads in the second performance. "The Telephone," another comic opera, was presented at both the summer and spring programs.

College Band

serves the college during entire year

The Kansas State College Band rates an "A" for service. Under the direction of Asst. Prof. Jean Hedlund, the band plays for football and basketball games, pep rallies, radio broadcasts and formal concerts. Spring commencement services will mark the 27th appearance of the band this year. The 90 uniformed members qualify by auditions.

A Cappella Choir

entertains Kansans on spring tour

Eighty-five be-robed songsters are members of the A Cappella Choir. Members, chosen by audition, must have sight reading ability, a good ear for music, and vocal quality. Led by Director Luther Leavengood, the choir sings for Christmas Vespers, campus concerts, and takes a three-day tour to share their talents with other Kansans. Robert Collins is president.

A CAPPELLA CHOIR MEMBERS: Betty Homes, Joyce Prichard, Corrine Holm, Georgianne Dee, Myra Gulick, Maxine Brown, Sharisla Krumery, Jean Robinson, Patricia Glotzbach, Jeanne Hollaway, Ruth Thomas, Cora Lee Buckles, Gwendolyn Emel, Lu Ann Lawrence, Patricia Davies, Patricia Harrington, Shirley Taff, Margie Rorabaugh, Ester Green, Darlene Conrad, Martha Russell, Marlene Hunt, Carolyn Burton, Carol Thomas, Audine Willard, Kathleen Kysar, Eleanor Wright, Joyce Davies, Nora Lee Hodges, Jane Bentley, Joan Frudden, Doris Schwab, Marianne Stevenson, Ann McMillen, Patricia Kirk,

As the radio-training group for A Cappella Choir, the College Chorus takes extensive training and music study. Students who desire membership in the Chorus may audition for parts at scheduled times. Assoc. Prof. William Charles is director of the 35 members who offer concerts for college audiences during the school year.

College Chorus

entertains K-State College audiences

Under the baton of Asst. Prof. George Leedham, the College-Civic Orchestra presents several public concerts. The 50 members have earned their places in the orchestra through proficiency on orchestral instruments. Symphonic literature is another interest of the group. The instrumental music heard at college operas is performed by the College-Civic Orchestra.

cheer in unison; sponsor annual dance

Sixty-three cheering co-eds are members of Purple Pepsters, Kansas State chapter of the national Phi Sigma Chi. Uniformed pepsters enter into pep campaign activities, half-time performances, and sponsor the annual Goldiggers Ball. Joan Jennings is president. Faculty advisers are Miss Eva Lyman and Miss Freda Tuback.

Peppy Cheerleaders

lead "meows" at rallies and games

At the head of pep-boosting activities is the cheerleading squad, captained during the first semester by Don Cochran. In new white sweaters, the eight cheerleaders celebrated the opening of the basketball season and the new field house. Lively pep rally performances complete the activities of these spirited pep organizers.

A lively group of campus pepsters is the Wampus Cats. All college men, interested in team spirit and willing to devote time to pep rallies and athletic events, are eligible for membership. Judging Teams Capture Top Honors

at international exposition in Chicago

Kansas State topped every other college in the nation this year when its four judging teams returned from the Chicago International with two first and two fifth places. There were 5,400 possible points; K-State got 5,049.

Chicago International officials do not rank schools on the basis of annual wins, but considering past records

K-State teams have set an unofficial high with an outstanding record in judging competitions.

Top honors were won by the Livestock and Poultry Judging Teams. The Grain and Meat Judging Teams won fifth place against a large number of competitors.

The Livestock Judging Team cinched the trophy in this field. They ranked first in three classes of livestock judging to pile up a record that no other school has equalled. Thirty-two schools competed in this, the

biggest event of the exposition. Coach Don Good and the six-man team returned to Manhattan with a cluster of trophies that showed impressively the honors won by this record-breaking team.

In the poultry contest, an exhibition of market poultry and eggs, K-Staters led 18 other teams as they won first place for the third time. Kansas State's quartette won permanent possession of the trophy which has been making the rounds of competing schools since 1934. Tom Avery, this year's coach, was a member of the Wildcat poultry team that took the preceding group out of circulation in 1933.

First place in the classification and grading of beef went to the Kansas State Meat Judging Team, coached by Ed Margerum. In total contest points, Kansas State followed West Virginia, Iowa State, Wisconsin, and Massachusetts. However, the Aggie team racked up a score that differed from the winner's by only 29 points out of a possible 3,120.

K-State's Grain and Crop Judging Team placed fifth at both the International Collegiate meet in Chicago and the National Collegiate contest held earlier in Kansas City. The crops quartette was coached by Ernest Mader.

Ag Student Mag

given to ag students and high schools

Starting its second quarter-century of publication is "The Kansas Agricultural Student", official organ of the Agricultural Association.

Better known as the "Ag Mag" on the campus, the magazine is printed four times a year—October, December, March, and May.

This year's editors were Delmar Hatesohl, a January graduate, and Stan Creek. Assisting these ag journalists was Bob Wolfkuhle, business manager. Faculty adviser is Prof. E. B. Macy, agriculture experiment station editor.

Each issue of the Kansas "Agricultural Student" contains departmental news from the divisions represented in the K-State Ag School. Other articles tell of new developments in the field of agriculture, and include many features of K-State personalities.

"Something new" for the "Ag Student" was the March issue of the magazine which carried a bathing beauty picture of "Miss K-State" on the cover. Customarily, the cover usually is a picture of some outstanding agriculture student, faculty member, or project.

The "Ag Student" is distributed to all aggies, and to many Kansas high schools and other institutions.

GUIDING THE "Agricultural Student" during the fall semester were Bob Wolfkuhle, business manager, and Delmar Haesohl, managing ed.

"AGRICULTURAL STUDENT" magazine staffers were: (standing) Dick Fleming, Glenn Bengtson, John McBride, Pete Dorogokupetz, Silas Brandner, Irwin Frank, and Gordon Nelson. (Seated) Bob Wolfkuhl, Don Friesan, Jack Mings, Elbert Macy, Stanley Creek, and Delmar Hatesohl.

K-State Engineer

headed by Ken Harkness and Stan Wood

One of the more popular publications at Kansas State College is the "Kansas State Engineer", the Engineering Association magazine.

Its editor this year was Ken Harkness. Stanley Wood was business manager. The "Engineer" is edited by engineers for engineers.

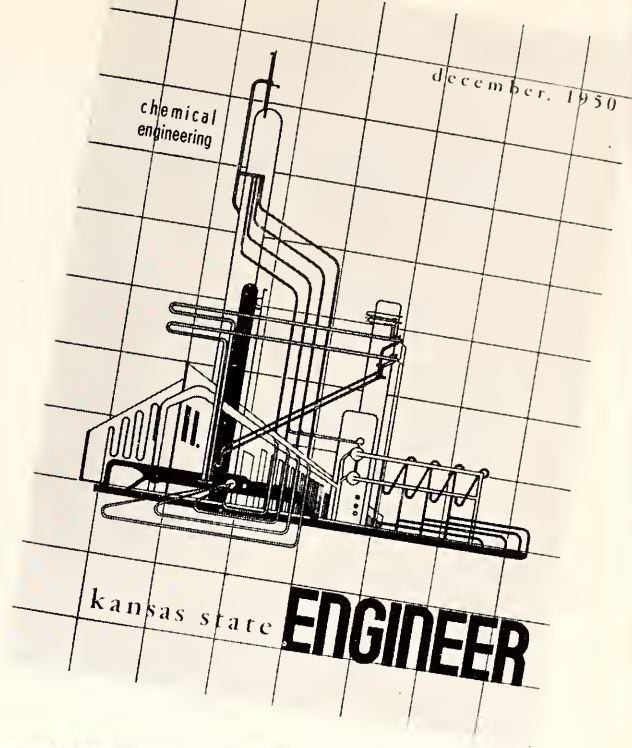

Distributed to all engineering students, the magazine is widely read by students in all schools. Its 32 pages contain information of various phases of engineering understandable to the engineer and layman alike.

The "Kansas State Engineer" is financed by advertisements and a portion of the engineering seminar fee. The magazine is a member of the National Association of Engineering College magazines. This organization makes suggestions, advertising and editorial criticism, and occasionally recognition.

Faculty advisers this year were: Asst. Dean Richard Potter, Prof. Leland S. Hobson, and Prof. Earl D. Layman.

KANSAS STATE Engineer editor, Ken Harkness, and business manager, Stanley Wood, kept the staffs working to meet eight monthly deadlines.

K-State Magazines

reach to the four corners of Kansas

Each year, the Kansas State Collegiate 4-H Club publishes news of county 4-H clubs and leaders in the annual "Who's Whoot." The booklet is sent to all county 4-H organizations in the state to provide state-wide exchange of ideas and information.

"Who's Whoot" features most counties by a page or more, explaining the various activities of the clubs with pictures and editorial comment. Editor of the 1950 "Who's Whoot" was Irwin Collinge, and Stanley Meinen was sales manager.

Another well known Kansas State publication is the "Kansas Magazine." Going to all corners of the state this publication is printed annually by the Kansas State College press.

The editor of this year's edition was Prof. Robert Conover of the English department. Other staff members were Prof. Ralph R. Lashbrook, chairman; Prof. C. J. Medlin, Prof. John Helm, Jr., and Eula Mae Kelly.

The "Kansas Magazine" contains articles, short stories, poetry, and displays art work by native Kansans or about Kansas. It was placed on newsstands and in bookstores the first week in December in 1950.

One of the features of this year's magazine was an article concerning the Schrove Tuesday pancake race between the women of Liberal and Olney, England.

"WHO'S WHOOT IN KANSAS 4-H CLUBS" is the project of the Kansas State Collegiate 4-H Club. The "Who's Whoot" staff this year were Harold Eversmeyer, Warren Prawl, Jeanne Warren, Lois Ottaway, Irwin Collinge, Joyce Schrader, Jane McKee, Stanley Meinen, and Mowry Gilbert.

KANSAS MAGAZINE staff members C. J. Medlin, R. R. Lashbrook, John Helm, Jr., Eula Mae Kelly, and Robert Conover look over the 1950 edition. The magazine about Kansas and by Kansans went to the newsstands and bookstores in December.

Kansas State News

reaches nation through the News Bureau

Informing the thousands of alumni, former students, and friends of Kansas State College is the work of the "Kansas Industrialist", official organ of the Alumni Association.

The staff of the alumni newspaper is made up of journalism faculty and alumni office representatives. Prof. R. R. Lashbrook heads the staff as editor.

The "big" news to old grads this year was the special magazine issue for the opening of Kansas State's new Fieldhouse. Displaying a new format, and a different name, "The K-Stater", it was presented to alumni for reaction and approval as a possible change from the old bi-monthly newspaper.

Important in its function to the College is the College News Bureau, now in its fourth year of operation. Acting as a clearing house for all college information, the news bureau files press releases with the various national wire press services, as well as to individual state and local newspapers and radio stations.

Asst. Prof. Lowell Brandner had the responsibility of handling the thousands of stories released this year.

OFFICIAL ORGAN of the Alumni Association, The Kansas Industrialist, is produced by staff members (left to right) Lowell Brandner, Rick Harman, Merrill Samuelson, Floyd Sageser, Helen Hostetter, Kenny Ford, and Ralph Lashbrook.

COLLEGE NEWS BUREAU, "clearing house" for all college press releases, is a busy place eight hours a day during the school year. Here Asst. Prof. Lowell Brandner guides activities with the assistance of Nancy Bruncher.

Assisting him in this task was Nancy Bruncher, who resigned in February. Lorraine Halbower Volsky completed the year as assistant.

High on the activities of the News Bureau is the publicity released about students, which is sent to home town papers. The bureau also arranges for national coverage of major college events, and sends photographs of these with the stories.

The News Bureau also plays a key role in public relations of the College. One of the services it performs in this capacity is giving information and guidance to visitors.

Publications Board

guides student-edited publications

One of the larger student-operated enterprises on the campus is that of Student Publications, Inc., administered by the Board of Student Publications which is a joint student and faculty committee. The business of editing and printing the three major publications, however, falls directly on the student body.

These publications include the daily "Kansas State Collegian", the "Student Directory", and the *Royal Purple*.

The editor and business manager of the "Collegian", *Royal Purple* and "Student Directory" are chosen by this board. The board also approves the budgets of the various publications, and approves all major contracts.

The student publication board includes three student members and three faculty members. This year's board was Kenneth Harkness, Stanley Creek, Bob Moore, Prof. Ralph R. Lashbrook, Prof. H. W. Davis, and Asst. Prof. Lowell Brandner. Professor Lashbrook, head of the technical journalism department, is chairman of the board as one of the many extra duties he holds on College publications.

Bob Moore, recalled to active duty with the navy in

PROF. RALPH R. LASHBROOK, head of the Department of Technical Journalism, is chairman of the Board of Directors of Student Publications, Inc.

January, was replaced by Jo Ann Alexander, who finished out the year as a board members.

The student representatives are elected by the student body each spring at the time of the annual all college elections. These members are responsible directly to the student body for their actions in administering the activities of the board.

Applications for editor and business manager of the "Collegian" and *Royal Purple* can be made by any student who meets the scholastic requirements. Experience, length of service on the publications, and personal qualifications are generally the basis for selection.

BOARD OF STUDENT PUBLICATIONS members (left) are Kenneth Harkness, Bob Moore, Lowell Brandner, Ralph Lashbrook, H. W. Davis, C. J. Medlin, and Stanley Creek.

COLLEGIAN POLICY BOARD (right) was made up of Dick Nichols, Stanley Creek, Jo Ann Alexander, Ralph R. Lashbrook, Jerry Leibman, and Kenneth Harkness.

PROF. C. J. MEDLIN, graduate manager of student publications, directed the production schedules of all student-operated publications.

Gold "K" keys are awarded each year by the Student Publication, Inc., to student staff members for outstanding service. Limited to a total of 40 keys for work on the "Collegian" and *Royal Purple* each year, the competition is always keen for this recognition.

A second group, the Collegian Policy Board, is directly concerned with the production of the campus newspaper. Its members were Stanley Creek, Kenneth Harkness, Jo Ann Alexander, Prof. Ralph R. Lashbrook, Asst. Prof. Lowell Brandner, and Jerry Leibman, Collegian graduate assistant. Fall and spring semester "Collegian" editors, Betty Omer and Dick Nichols, were also members of this board.

The Collegian Policy Board discusses such problems as editorial policy of the paper, production difficulties, and staff requirements.

The task of making the budget stretch to cover the expenses of the "Collegian" and *Royal Purple* falls on the graduate manager, Prof. C. J. Medlin. Through his office goes the planning, paper work, and the guidance of editorial and business staffs.

Assisting Professor Medlin in his task of seeing that production schedules are met on time is the publication secretary. The position was hand-

led this year by Frances Callahan and Mary Everson.

From the beginning of classes in the fall, the secretaries directed the listing of directory names, Collegian, advertising accounts, and the indexing of students appearing in the class section of the *Royal Purple*.

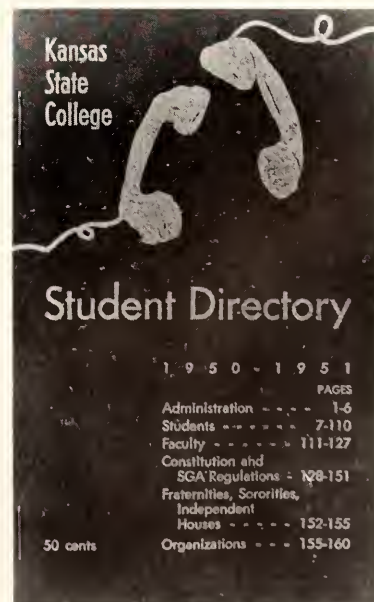

If you didn't know when school started last fall where to go for the name or phone number of a student or instructor, you probably did by the end of the spring semester. A quick glance through the "Student Directory" was one sure place.

Within the Directory's purple cover could be found the names of the more than 6,000 students and of nearly 1,000 faculty and administration personnel.

"Student Directory" editor Dave Weigel spent long hours in organizing the various sections of the booklet that went to each student. The 160 page publication was divided into six sections; administration, students, faculty, constitution and SGA regulations, housing, and organizations.

The Student Publication "Recognition Banquet" ends the year for retiring "Collegian" and *Royal Purple* staff members. This year's dinner was at the Cafeteria the second week in May. It featured stunts by, and on students and faculty, and the presentation of the 1950 "K" key awards.

BUSINESS SECRETARY FRANCES CALLAHAN (left) was kept busy with Collegian advertising accounts, Royal Purple indexing and photograph receipts. David Weigel (right) relaxes following the completion of the 1950-51 Student Directory. More than two months work went into the production of the 160 page booklet distributed to all students in October.

COLLEGIAN EDITORS were confronted with the task of training three staffs during the year. Delmar Hatesohl (*left*) guided activities of the weekly summer Collegian, while Betty Omer and Dick Nichols were in charge during the fall and spring semesters. Big news of the year included the inauguration of President James A. McCain, the assassination attempt on President Truman, the Fieldhouse opening, and the champion Kansas State Wildcat basketball team.

Kansas State

informs students and faculty

Bringing the news of the campus, the state, and the world to the students was the job of three "Collegian" staffs during the year. Printed once a week during the summer term and daily last fall and this spring, the "Collegian" completed its second year of production in the Kansas State College Press, after being produced downtown for more than 42 years.

Delmar Hatesohl, a journalism senior from Linn, was editor of the summer "Collegian". Other staff members were Betty Omer, assistant editor; Lyle Schwilling, editorial assistant; Olive Benne, feature editor; Dee Dee Merrill, copy desk editor; Sally Condit, society editor; Ernest Bleam, photographer; Johnny Long and Dale Johnson, copy desk assistants; and Kuang C. Ch'eng, Loen Kappel, Gordon Nelson, Chris Scherling, and Irwin Frank, reporters.

Bill O'Neal, a journalism senior from Kansas City, was chosen as business manager. Frances Callahan was assistant business manager.

Daily Collegian

than two million dollars damage on the campus, was another leading news story of the summer session.

Betty Omer, a senior in journalism from Wamego, was the third editor of the college's new daily "Collegian" which she edited during the fall semester. Five issues of the "Collegian" are printed a week during the fall and spring semesters. The editor is assisted by five daily editors, each responsible for one day's paper per week.

Issue editors last fall were Sigrid Schjerven, Lorraine Halbower Volsky, Elizabeth Banner, Janet Scoresby, and Morris Briggs. Sports editor for the semester was Jack Lay; society editor was Polly Pratt. Graduate assistant Jerry Leibman kept a watchful eye on workings of paper.

It was really big news during the fall semester, at least for the staff. The "Collegian" scored a scoop on other state papers by beating them to the streets with news of the attempted assassination of President Truman. Important news for thousands of K-Staters was the opening of the new Fieldhouse December 9. This climaxed the untiring efforts of more than 36 "Collegian" editors who helped convince the state of its need.

Fall business manager was Milton Eisenhower, Jr., a journalism senior from Manhattan. Bob Moore and

Sally Condit were assistant business managers.

Dick Nichols, Ottawa, an agriculture senior, was chosen to head the "Collegian" for the spring semester. As assistants and issue editors, Nichols selected Stanley Creek, Floyd Jack, Hardy Berry, Phil Meyer, and Lyle Schwilling.

He selected Marilyn Markham as his sports editor, and Carolyn Paulsen was society editor. Jerry Leibman continued on the staff as graduate assistant.

Marilyn Markham moved up as an issue editor at the nine weeks. Robert Jones was named to finish the semester as sports editor.

As in the summer and fall "Collegians", the spring paper highlighted important events for "Collegian" readers and reporters. Tops on the news list were the various basketball championships brought home by the Wildcats, including the Western NCAA crown, the Big Seven title, and second place in the NCAA finals.

Dick Ehler headed the business staff as manager for the spring "Collegian." The Great Bend journalism junior chose Marilyn Beason as his assistant.

So it was the "Collegian" ended another year. It wasn't all glory for the staffs, but hard work was rewarded with experience. From editor to reporter it was a job well done.

Royal Purple

is result of year-long work by many

The 1951 *Royal Purple* got on the press only after unending hours of work by the RP editorial and business staffs. Work on the book actually began before the 1950 *Royal Purple* was distributed in May as many spring events were too late to be included in the '50 book and they were covered so as to be included in the 1951 book.

With deadlines staring them in the face—some of which they beat and some which they did not—the staff wrote copy, pasted cuts, snapped pictures, and composed headlines from the middle of first semester to the first of April.

Heading the business side of the *Royal Purple* this year was Helen Cortelyou, business administration junior from Omaha, Nebraska. Helen spent countless hours selling ads, making up pages, and proofreading the class section and index. She was also in charge of the many *Royal Purple* office staffers who handled the numerous filing and numbering jobs to be done on the book. Aiding her on the business staff were Jim Grove, Diane Alexander, and Jean Antenen.

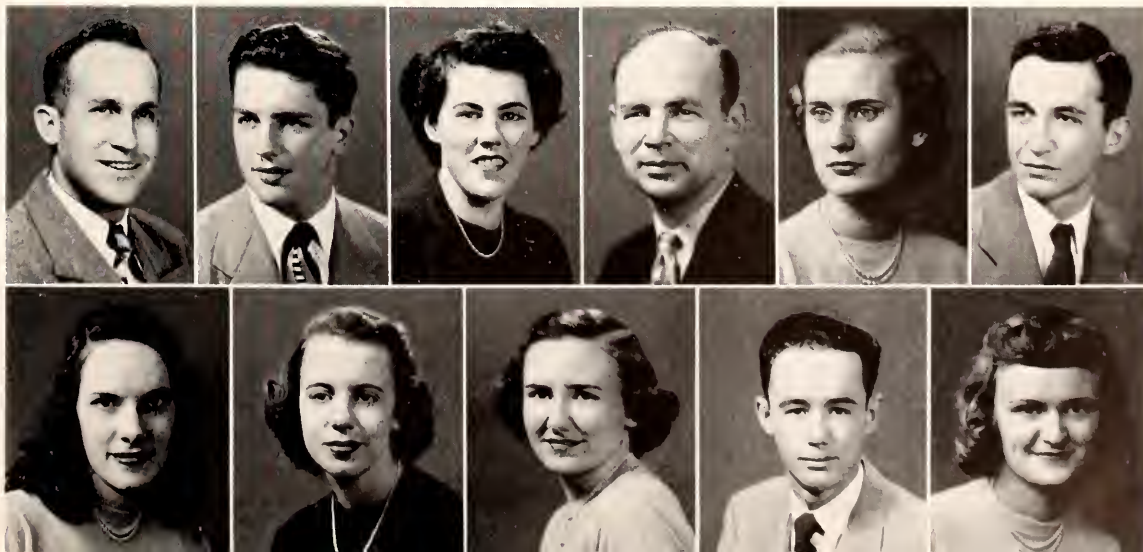

Editor of the 1951 *Royal Purple* was Catherine Merrill, better known as "Dee Dee", a journalism senior from Ellis, Kansas. Dee Dee literally worked her way up to the editorship by working on the *Royal Purple* office staff for two years and was assistant editor of the yearbook last year. Both the editor and business manager of the *Royal Purple* were selected by the Board of Student Publications late last spring.

Chapter editors for the 1951 *Royal Purple* were selected last spring, but their work did not begin until the fall semester got under way. Chapter editors were: Phil Meyer, Administration; Marilyn Weisbender, Classes; Alys Reeder and Carol Paulsen, Organizations; Iris Fegley and Joni Newcomer, Housing; Bud Eisenhower, Sports; and Jerry Leibman, Division Pages. Ernie Blean was chief photographer for the book and spent many hours in such a capacity at football games, dances, meetings, and banquets to get that "extra special" picture.

Helping ease the load for the harried chapter editors were various people to whom the entire staff would like to extend their thanks. Assisting Phil Meyer on the Administration section were: Nicki Orsborn, Betty Omer, Stan Creek, Glen Bengston, Al Balzer, Roland Burns, Sigrid Schjerven, and Jerry Leibman. Taking over the intramural section to lighten the load for

Sports editor, Bud Eisenhower, was Dick Nichols during first semester and Dwayne Moore, who took over second semester. Morris Briggs wrote the copy for the Dramatics and Publications sections.

The *Royal Purple* staff's thanks also goes to Laurence Blaker and his Studio Royal staff who toiled many hours to take each individual picture for the class panels in the book.

Taking pictures of the several hundred organizations on the Kansas State College campus is by no means an easy job, but Floyd Hanna, College Photographer, came through with flying colors. Mr. Hanna used a new-type dark background for the organization pictures this year as did Mr. Blaker for the panels.

The staff's special "thanks so much" goes to Mr. Byron Ellis of the Kansas State College Press, for giving many helpful suggestions on typography makeup for the book; also to Floyd Sageser, Sports Publicity man for K-State, for his many helpful suggestions and corrections on the RP sports copy. Prof. H. W. Davis also took time off from his work in the English Department

to check and make helpful criticisms on the division pages and general make-up.

The *Royal Purple* staff particularly appreciated the time President James A. McCain took from his many duties to give numerous suggestions for the theme and content in the yearbook.

The staff's special gratitude goes to Frances Callahan and Mary Everson for their continuous assistance throughout the year as Student Publication secretaries. Mary returned to take over her last year's job when Frances left at the end of first semester.

Thanks also go to Burger-Baird Engraving Company for handling over 550 cuts for the *Royal Purple* this year. Also to Capper Printing Company who very good-naturedly put up with our many errors in copy-reading.

The biggest bouquet goes to Graduate Manager C. J. Medlin, better known to the Kedzie gang as "Chief", for without his guidance, help and unending suggestions the *Royal Purple* this year or any year would never get beyond the "blue-print" stage. Professor Medlin has just recently published a text book on yearbook publications entitled, "*School Yearbook Editing and Management*."

Several parts of the 1951 *Royal Purple* appear in a new form this year. Particularly noticeable are the feature pictures which run through the class section of the book in the chronological sequence as they happened during the school year. Because of lowered appropriations for the book this year, the "queen section" was given a small amount of space, the class section was also reduced, and the feature section, as a section, was cut out together. Also cut out this year were the feature pictures of outstanding seniors which the staff felt were amply represented in the "Who's Who in American Colleges and Universities" panel.

Good, and also challenging, news for the staff of the 1951 *Royal Purple* was the announcement that the 1950 yearbook received the All-American rating which is the highest possible honor in the National Scholastic Press Association's yearbook judging program. The award makes the 15th consecutive top award for the Kansas State College publication, which is judged in competition with yearbooks from all over the nation. Ann Thackrey Berry and Frances Callahan were editor and business manager of the award-winning 1950 *Royal Purple*.

Martha Lash, 1951 Royal Purple Beauty Queen, is a sophomore in mathematics from Manhattan. She is a member of the Independent Students Association.

First attendant to the Queen, Kathryn Keene, represented Pi Beta Phi. From Kansas City, she is a freshman in architectural engineering.

Clovie's representative, Mary Jean, was second attendant to the Queen. She is a sophomore in home demonstration from Iola.

Magazine illustrator, Jon Whitcomb, was selected by the Royal Purple staff to choose the 1951 Royal Purple queen and her two attendants. Mr. Whitcomb, who was recently chosen one of the country's most eligible bachelors, is well-known for his illustrations in leading magazines, his column in *Cosmopolitan*, and his drawings, "Back Home For Keeps" and "This Is For Keeps", for a silver company's ads.

Royal Purple Ball

features 1951 Queen Martha Lash

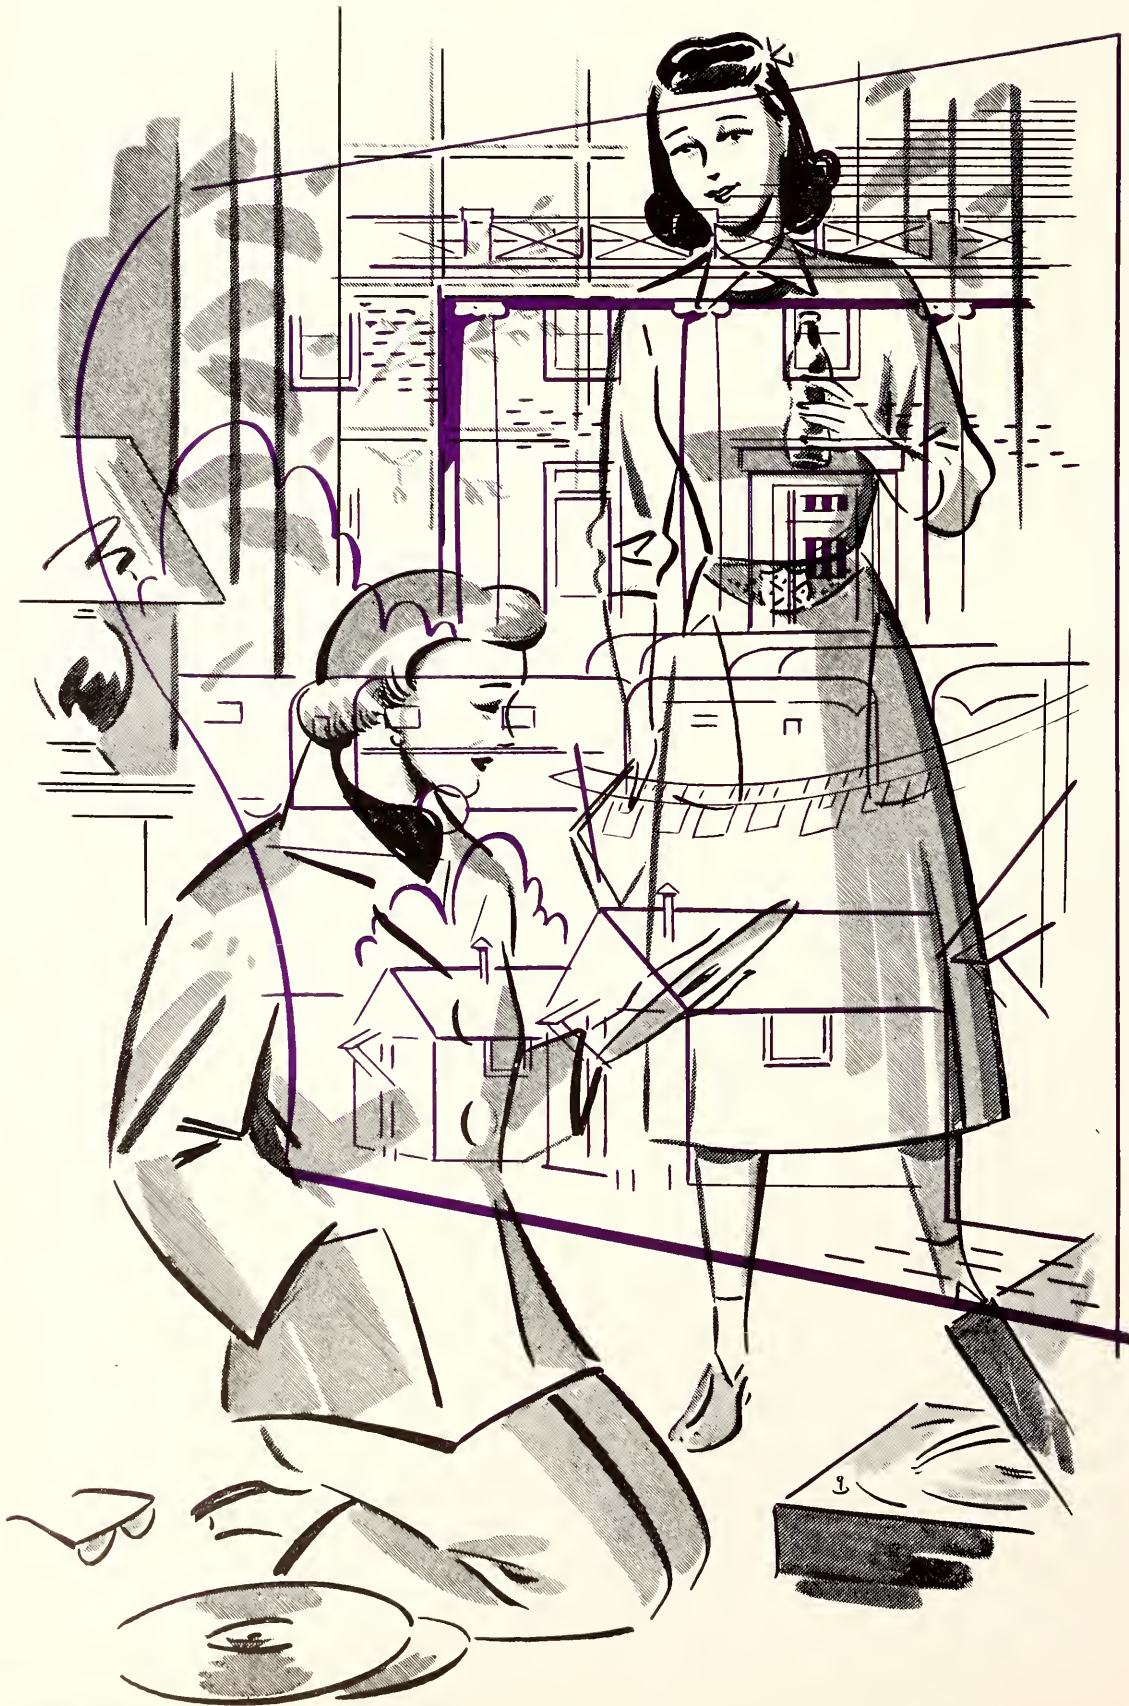

Highlight of the 1951 Royal Purple Beauty Ball was the presentation at intermission of Martha Lash, Kathryn Keene and Mary Jean as queen and attendants, respectfully, of the ball. Presentation of the queens was made by Professor C. J. Medlin, graduate manager of student publications, and Lawrence Blaker, manager of the Studio Royal.

Housing

CULTIVATION

Social Graces

MAN is a social being, and the fullness of his life depends upon the extent to which he can develop his whole personality. Students at Kansas State learn to live and work together, to grow and develop in the art of co-operative living during their four years of college. The poise and confidence born of knowledge and competence in the various fields of endeavor at the College are further developed through a program of extra-curricular activity which includes drama, writing, art, photography, music, dancing, and even rodeos.

There are 23 social fraternities and 9 social sororities, 7 independent houses for men and 10 for women, 4 women's residence halls and one for men, three apartment and two trailer developments for married students and their families, and 3 home management houses.

Within these units, students plan and organize recreational activities, have their own government, learn the give and take of community living, and the manners and courtesies that make living together a rich and rewarding experience.

Personality problems arise in any group, but they are few at K-State. Expert counselors, working directly with the students and through faculty advisers, by means of aptitude and personality tests guide the students into the selection of courses and careers best suited to their capabilities, and in which they will derive the most satisfaction.

An all-College social and recreation committee plans student parties and dances, and weekly movies. Excess energies find many methods of creative expression and release in all-school projects, such as Engineers' Open House, Home Economics Hospitality Days, and Ag Week. Student publications help to develop the writing skills of students who have the time and energy to contribute.

Kansas State graduates are thus equipped to play active roles in the social and political life of their communities and state.

ELLIOTT COURTS HAS BECOME A CAMPUS COMMUNITY IN ITSELF FOR VET STUDENTS, THEIR WIVES AND CHILDREN.

Housing Units still essential for student veterans

Moro Courts is being torn down after five years of service but the vet housing, Hilltop, Elliott, Goodnow

and Campus Courts trailer areas are still in active service to supply adequate housing for veterans. This fall, with sufficient boys' housing available, Moro Courts, at south-east end of the campus, was cleared. The college apartments, however, are still needed. The college housing areas are actually little communities with their

own governments. Although some vets have been graduated, many wives still raise their babies in the housing areas while their husbands complete their educations.

It may not taste exactly like mother's cooking, but Thompson Cafeteria provides food for over 1800 students each day. Here at the College Cafeteria students may choose all their favorite foods and have anything

from a snack to a full dinner. Friends meet and eat in the collegiate atmosphere of the campus cafeteria. A private dining room provides a place for college organizations to hold luncheons and banquets. Now that Splinterville Cafeteria is gone along with Moro Courts, the College Cafeteria has an even larger number of students to feed.

ISA, Amicossembly Provide Recreation

and service for independent students

The Independent Students Association, now in its third year, boasted a membership of over 250 this year. Donna Gies held the 1950-51 president's gavel. In the weekly business meetings, the group plans various social functions and projects. An hour dance follows each meeting.

Placing among the top seven at the national convention, the ISA sweetheart, Sharlene Cochran, brought

honor to the independents at K-State. She was chosen at the annual Sweetheart ball in March. The ISA sponsored Sadie Hawkins' day highlighted the fall season.

Amicossembly serves the girls' independent organized houses as a public relations organization. Marilyn Garrison led the group as president this year. Amicossembly is comprised of the presidents and social chairmen from every girls independent organized house at Kansas State.

This year's activities were culminated with a spring formal.

West Stadium

serves as K-State's boys dormitory

In 1948 when enrollment began to skyrocket at K-State it was crowded everywhere but there were no boys' dormitories and not enough private homes to facilitate them. The area under the west portion of the stadium was converted into living quarters for single veterans and men at K-State. Since then, it has continued to serve as the only dormitory for men on the hill. West Stadium is large enough to house 180 men but only 150 resided there this year. The housing project for single men at Moro Courts also served during the emergency. Now it has been abandoned since the situation is somewhat relieved from that of immediate post war conditions. West Stadium boys have accommodations which provide each resident with his own single bed, a locker for his clothes and a study table and chair. The dormitory is college operated. The boys at West Stadium are proud of their intramurals handball champion, Fred Kern. West Stadium boys actively participate in many of the intramural sports offered at the college. During the year, the group opened their dormitory to the faculty and the public at

an open house. This open house is the boys' annual opportunity to show their home away from home. The resident counselor for the group is G. W. Glover. Mr. Glover and his wife have an apartment in the Stadium. He is under the direction of Mr. Paul Torrence, head of the counseling Bureau, as he is in a counseling capacity to aid the boys as does the bureau. Wallace Armstrong presided at the meetings. Aiding him were Dale Wilson, vice-president, and Gerald Clarke, secretary-treasurer. Leading the social activities at West Stadium was Norman Brandeberry who was chairman of that committee. In the sports field, G. R. Reynolds acted as intramurals chairman.

East Stadium entertains with Crystal Cotillion Ball

For four years, as a temporary housing group, the 54 girls at East Stadium have been proud to call the stadium-dorm home. Outstanding member of East Stadium is Wilma Wilson who received the award for the highest grade point average among freshmen women. Reigning as a princess at the ISA Sweetheart Ball was Millie Ficken. Along the dramatics line, Sandra Beifuss starred in two K-State plays during the year—"The Hasty Heart" and "Two Blind Mice". The girls are active in YWCA, A Cappella choir, Collegiate 4-H, Purple Pepsters, ISA, and various church organizations. Along the social line for East Stadium, their Crystal Cotillion greeted the Christmas season. Faculty were

honored at a tea in April. Mrs. Beulah Tharp is house director and Wilma Wilson is president of the temporary dormitory. Assisting the president were Barbara Stiles, vice-president; Patsy Hatfield, secretary; and Irene Peters, treasurer.

Van Zile Hall

is largest independent women's dorm

Housing 170 Kansas State coeds, Van Zile Hall is by far the largest housing unit for women students. Named for the late Dean Van Zile, former Dean of Women at Kansas State, the Hall has been in operation since 1926. Among the outstanding campus leaders living at Van Zile are Jane McKee who is chairman of SPC; Betty Fritzler and Mary Baertch, members of Student Council; Jane Colby, Mortar Board president; Betty Omer, former Collegian editor; and Marge Moon, IPP Executive Council. Other members of Van Zile are active in Prix, Omicron Nu, Purple Pepsters, Phi Kappa

Phi, Phi Alpha Mu, Mu Phi Epsilon, Who's Who, Theta Sigma Phi, Alpha Delta Theta, and K-State Players. Beauty queens at Van Zile this year included Wilma Hodgkinson, who was attendant to the Homecoming queen, and Sharlene Cochran, who was crowned Independent Students Association Queen at the annual ISA Sweetheart Ball this spring. Sharlene was also picked by John Robert Powers as one of the seven finalists for the title of National ISA Queen. Jeanne Petrack was chosen St. Patricia at Engineers Open House last spring and later she and Colleen Shepherd were picked to represent Kansas State in the contest for the Drake and Kansas University Relay Queens. In the intramural division, Van Zile came up with the championship in volleyball. During the year, the Hall entertained with a Christmas formal, hour dances, buffet suppers, house

Panhellenic and IPC Representatives

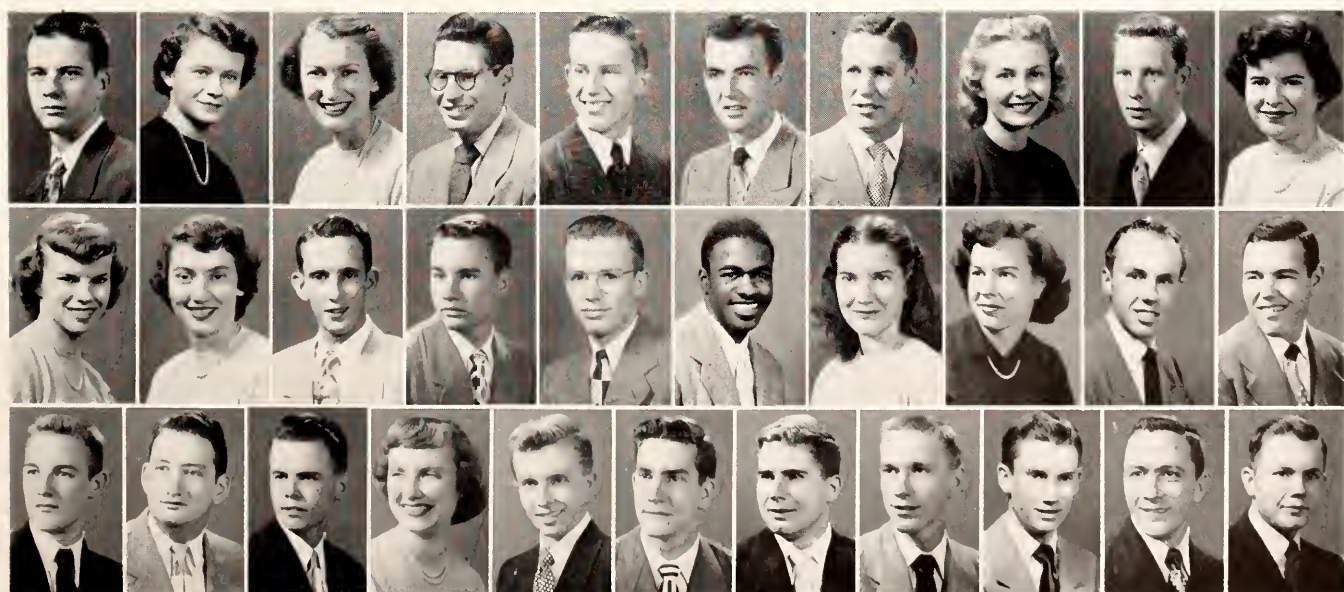

discuss common problems among Greeks

The big headache for Panhellenic Council this year was the problem of the new freshmen dormitory opening next fall with the resultant changes in rushing, pledge training, and the fact that freshmen pledges will not be allowed to live in the sorority houses. Headed by Alleta Ecord as president, Panhellenic sponsored a Penhellenic Workshop in April, had a joint

dinner-meeting with Interfraternity Council, and helped sponsor the annual Panhellenic Scholarship Tea. The Interfraternity Pledge Council, composed of delegates from each fraternity and sorority, coordinates all pledge activities and provides training in group cooperation. Sponsored by IPC, the big pledge affair this year was the annual all-pledge dance at which Bev Smith, Alpha Delta Pi, and Robert Reinke, Sigma Nu, were chosen Pledge Queen and King.

Alpha Chi Omega

wins 1950 Interfraternity Sing

The Alpha Chi's, dressed in black formals, carried away the vocal honors last spring at Interfraternity Sing and became the pride of the campus. They started off the fall semester with a bang, too, when Bonnie Frommer reigned as Phi Delt-Sig Alph Flush Bowl Queen in October. Bonnie had also been named Sigma Chi Sweetheart in the spring. Alpha Chis claimed three campus presidents: Carol Meyers, who lead the Orchesis dance group; Lou Jean Moyer, who headed the Women's Athletic Association; and Jo Anne Wolgast, who presided over YWCA. They were members of Mortar Board, Phi Alpha Mu, Alpha Delta Theta, Theta Sigma Phi, and Who's Who. December was a busy month for Alpha Chis, who traditionally went "Shovelin' Inn" on the eighth. Then they sent gifts to boys in the Ft. Riley hospital and went caroling there. They held a Christmas party for crippled children just before vacation. Their yearly Paradise Prom came along on April 13.

claims Bev Smith, 1950 Pledge Queen

Vivacious Bev Smith captured the pledge queen crown in the fall, and the A D Pi's began another busy year. Last spring, their "Mardi Gras" won a second-place Y-Orpheum trophy; and this year, they presented "Pipe Dream" for a participating award. Peppy Patsy Davies was a cheerleader and other Alpha Delta Pi's belonged to Purple Pepsters, Frog Club, Orchesis, SPC, YWCA and Prix. Lorraine Halbower Volsky was a Mortar Board member, and she also made Phi Kappa Phi and Who's Who. Susie Wiley was president of UNESCO, and Jo Alexander was an All-College Party officer. The Alpha Delta Pi formal highlighted the Christmas season; while their spring formal was held April 6.

The Alpha Xi's highlighted the 1950 spring season with their deep-sea skit, "Fathom Fantasy", which earned first place in Y-Orpheum. They also brought in another trophy for intramural honors in 1950. In the 1951 Y-Orpheum show, the Alpha Xi's "went North" to produce "Arctic Antics" which copped them a second-place award. Alpha Xi's were prominent in A Cappella choir, Alpha Delta Theta, Theta Sigma Phi, Mu Phi Epsilon, Mortar Board, Phi Alpha Mu, Who's Who, and Phi Kappa Phi. Socially, Alpha Xi's started off in the fall with a faculty tea, and on December 16 they held a Christmas house party. Their annual Pink Rose formal this spring was a great success.

Clovias won the Panhellenic trophy for the outstanding scholastic record for 1949-50 and then proved that beauty goes with brains when cute Mary Jean rated second attendant honors to the Royal Purple queen. Mary Lou Edwards went to Europe on a scholarship and returned to give many talks on her adventures. Mortar Board tapped Mary Lou Edwards, Virginia Armstrong and Vivian Armstrong last spring; and Prix claimed Mary Ann Miller. The Armstrong twins also were selected for Who's Who. Other Clovias belong to Omicron Nu, Phi Kappa Phi, Theta Sigma Phi, UNESCO, 4-H, A Cappella choir and YWCA. Jean Warren presided as Theta Sigma Phi president until her marriage early in April. In November, an Extension Tea was held in the Clovia house; and on December 4, Clovias and their guests went to a Crystal Ball.

Kappa Delta

holds annual Emerald Ball on March 30

One of the most beautiful formal dances of the 1951 spring semester was the Kappa Delta Emerald Ball held on March 30 at the Country Club. White roses on trellises presented a garden setting, and a large replica of the Kappa Delta badge was mounted on green satin as the center theme. Sherry Krumery sang the traditional Kappa Delta Sweetheart Song to close the dance. Kappa Deltas were busy earlier in the year, too, with their Y-Orpheum skit, "Petti Nice", which won for them a participating award. Alleta Ecord was initiated into Phi Alpha Mu and Ann Dean was initiated into Phi Kappa Phi. Sue Quinn was active in K-State Players and Pi Epsilon Delta. Purple Pepsters were Ann Dean, Mary Ann Griebel, Barbara Miller, and Norma Lou Van Dorn. Alleta Ecord also presided over Panhellenic for 1950-51.

Kappa Kappa Gamma

wins 2nd in scholarship and Sing

The girls of the blue-and-blue took two big second places in sorority competition for 1950 scholarship honors as well as Interfraternity Sing in May of the same year. In the fall, they started the social ball rolling with a big chapter picnic and their winter formal dance took place in December. Pledge Dorothy Knapp was chosen as Lieutenant Colonel at the Military Ball. Darlene Conrad was "Flush Bowl" queen attendant in the fall. Outstanding Ann Thackery Berry held a "key" place on the campus as 1950 Royal Purple editor, Mortar Board, and Who's Who. Other Kappas were active in A Cappella choir, YWCA, Prix, Alpha Delta Theta, and Frog Club. Helen Cortelyou capably handled the publishing headaches this year as Royal Purple business manager.

Interfraternity Council Adds Member

Beta Sigma Psi is number twenty-four

Interfraternity Council's membership rose to twenty-four with the addition in March of the national fraternity, Beta Sigma Psi, which had been formerly a petitioning group known as Syconia. Zeta chapter was formally installed by Herman Siefkes, national vice-president, and D. A. Lienemann, national secretary-treasurer. Initiation was also held for 35 active, 14 alumni, and two honorary members. Members of Delta chapter at Lincoln, Nebraska, and Epsilon chapter at Ames, Iowa, were present. The charter of Beta Sigma Psi was presented to the new chapter president, Norman Wilms.

As a group, the Council sponsored the awarding of trophies to fraternities for winning Homecoming decorations and also sponsored the awarding of trophies for

the annual Interfraternity Sing in the fraternity division.

Not overlooking scholarship, Interfraternity Council annually presents a scholarship cup to the fraternity with the highest grade average. For the past few years this award has gone to Farm House fraternity.

To help explain their groups to prospective rushees, the Council sends out a rush booklet each year which is sent to high schools and to individuals explaining about fraternities, giving advice to rushees, and generally telling about Kansas State College.

Along the social line, the Council held a joint dinner-meeting with Panhellenic Council in January.

Officers of Interfraternity Council this year were: Dennis Goetsch, president; Marion Szatalowicz, secretary; and Joe Benson, treasurer. Professor Vernon Foltz was faculty sponsor.

rates first place in 1950 Y-Orpheum

Acacia-men received a first-place trophy in the 1950 Y-Orpheum competition for their riotous pantomime "From Revery to Reveille." This skit featured the trials and tribulations of a fraternity "call-boy" who had to awaken some of his sleepy, uncooperative brothers. Participating in the 1951 Y-Orpheum, their entry was entitled "Memories," and pictured an aged couple recalling their happy days at Kansas State. Members are active in Sigma Tau, Scabbard and Blade, Wampus Cats, Alpha Kappa Psi, Alpha Zeta, Pi Tau Sigma, and A Cappella choir. December 1 found Acacias and their dates at the annual Black and Gold dinner-dance; and on April 28, they held their spring formal at Pottorf Hall. Like most fraternities, Acacia keeps hoping to build a new house, but Uncle Sam has been interfering with most of their plans.

Turning their "pledge power" to a constructive and commendable use, the Alpha Epsilon Pi's sent men to do work in the local hospitals—scrubbing floors, washing dishes, and even donating blood. They were all active in the Hillel Foundation. Herbert Berger was vice-president, Howard Falick was treasurer, and Dave Abraham was secretary. Harold Oleck, Emmanuel Geller, and Howard Falick were Wampus Cats. Sid Sternick was a member of Sigma Tau and Pi Tau Sigma. Other A E Pi's belonged to Alpha Phi Omega, Conservation Club, and the Engineering Open House committees. Out of the entire group of boys, nine are from New York City; the rest come from Brooklyn, the Bronx, New Jersey, Milwaukee, and Washington, D. C. Seven of the A E Pi's are majoring in Pre-Veterinary Medicine, six are in Architecture, and two of them are graduate students. AGR ace trackman, Herb Hoskins, made the officials change many a Big Seven broad jumping record and then went on to Finland to compete in international track meets. Members of Alpha Gamma Rho served as presidents of Klod and Kernel Klub, Ag Club, Junior AVMA and Interfraternity Council. AGR's were also proud of their controversial pep band, their captain of the wrestling team, and their 1950 championship bowling team.

Beta Theta Pi again wins Interfraternity Sing

Betas sang their way to another Interfraternity Sing win last spring; and when fall fell, they won the intramural football championship for an all-campus title. The Betas are proud of Who's Who man, Dick Nichols, who was also spring semester Collegian editor. Dick was president of Blue Key, and Dean Nunn presided over Alpha Mu. Dave Weigel served as assistant Royal Purple editor and Student Directory editor for 1950. Beta members were also active in Phi Kappa Phi, K-Fraternity, Steel Ring, and Scabbard and Blade. Socially the Betas entertained at a "Club 500" houseparty and at their annual Beta Pig Dinner.

Delta Sigma Phi

holds province convention in September

Representatives of eight Delta Sigma Phi chapters attended a province convention at Kansas State on September 5 and 6. This started off a busy year for the Delta Sigs, as their Apache party came early in November. Then, ahoy, mates! The Delta Sigs give wonderful parties, especially enjoyed was the one when all jolly tars took their dates aboard ship in December for the annual Sailor's Ball. Bob Lawton was a shining light as president of Eta Kappa Nu and a member of Sigma Tau and Steel Ring. Bob Moore was on the Board of Student Publications, and belonged to Sigma Delta Chi. Other Delta Sigs belonged to K-Club, Alpha Zeta, Wampus Cats, Scabbard and Blade, Alpha Phi Omega, and Pi Tau Sigma.

THE DELT'S NEW ADDRESS IS 1414 FAIRCHILD.

Delta Tau Delta plans include building a new house

A new chapter house is still in the future plans for Delta Tau Delta, but in the meantime the Delt's are happy while living at the former Sigma Chi house. The DTD's are still looking very pleased about the 2nd place trophy they won at the 1950 Interfraternity Sing. Delt activity men were prominent on the hill in Sigma Tau, Pershing Rifles, Alpha Zeta, Alpha Kappa Psi, Wampus Cats, and A Cappella choir. The wearers of the golden square particularly like to yell for their man John "Hoot" Gibson when basketball season rolls around. But they've had their more formal moments, such as their Winter Formal dance in January and the annual Delt Barbecue which took place in May.

Farm House

wins fraternity scholarship cup again

Tops again in scholarship this year is the distinctive claim of Farm House. The fraternity has seemingly made it a habit to deserve this annual honor. Outstanding Farm House men were presidents of Block and Bridle, Dairy Club, Ag Association, Collegiate 4-H Club, and K-Club. Others belonged to Alpha Mu, Alpha Zeta, Apportionment Board, A.S.A.E., Engineering Student Council, Sigma Tau, Steel Ring, Blue Key, and Phi Kappa Phi. Stan Wood and Miles McKee were selected for Who's Who. Farm House is also proud of their member John Schlender who placed 4th in the national livestock judging contest in Chicago. A Christmas dance was one of the Farm House's first big parties of the year; and in February the boys took their dates square dancing at the Western party. Their spring formal took place in April.

wins 1950 intramural basketball title

For the second time in a row, Kappa Alpha Psi carried away the intramural basketball honors with the following men starring on the team: John Caldwell, Frank Levell, Vic Tolliver, Earl Woods, and twins, Donald and Ronald Harris. Beta Psi was one of the Midwest host chapters at the fraternity's "grand conclave" in Kansas City in December. Representatives from all ninety-one chapters attended this national convention. The Kansas State chapter played Santa Claus to the children at Douglas School around Christmas time, and it's hard to say who had the most fun—the kids or the Kappa Alpha Psi's. Their annual Black and White Ball in November and a spring party in May rounded out the social season.

Kappa Sigma

holds annual Black-and-White on March 9

Kappa Sigma's Black and White formal dinner-dance, held this year on March 9 at the Country Club, was a party to remember. In the fall, the Red Dog Inn was another social success with the Kappa Sigs and their dates "going native" in sarongs and beachcomber costumes. Kappa Sigs participated in the 1951 Y-Orpheum with "Salesmanship." They were proud of their K-State cheerleader, Jim Goodloe, who had plenty of Kappa Sigs to help him out in Wampus Cats: Gus Rosania, Vince Wells, Loren McMurray, and Ron Anderson. Other Kappa Sigs were members of Alpha Kappa Psi, K-Fraternity, Alpha Zeta, and Radio Guild.

Phi Delta Theta

wins 1950 SAE-Phi Delt Flush Bowl game

Phi Delt's still like to talk about their Flush Bowl game victory over the Sig Alph's last fall when they racked up a 13 to 7 final score. Three Phi Delt's ranked at the top on K-State's 1950 tennis team. These men were Jim Neumann, Roger Coad, and Chris "Kip" Williams. Phi Delt's were also active in Blue Key, Steel Ring, Sigma Tau, SPC, Alpha Zeta, Alpha Mu, Pershing Rifles, Eta Kappa Nu, YMCA Cabinet, Pre-Med Club, Block and Bridle, Wampus Cats, and K-Fraternity. They placed 2nd in the 1950 Y-Orpheum with a satire on Student Health. Socially, the Phi Delt's joined forces with the Beta's and the Sigma Chi's for the annual Triad in December. Dates had fun at the fall "Headlight" house party and the annual Spring Formal in April.

Phi Kappa

The Phi Kap's climaxed the spring social season on April 27 with their traditional Fish Formal Dinner-Dance. Reminiscent "Shades of 1952" was the Phi Kappa 1951 Y-Orpheum skit, and one realistic scene pictured the Blue Lounge on Friday afternoon. Danny Becker served as Scabbard and Blade president; Bud Niernburger was vice-president. Jr. AVMA members included Marion Szatolwitz, Art Beat, Elwyn Liebel, and Leo Whitehair. The Phi Kap's also have members in Newman Club, Alpha Zeta, K-Fraternity, Wampus Cats, Phi Epsilon Kappa, and ASCE. A new chapter house is still in the blueprint stage.

fraternity reactivated last year

Reactivated last year after being discontinued during the war, Phi Kappa Tau is making definite plans for a chapter house this fall. Phi Kappa Tau's combination YMCA president-Blue Key member, Don Hart, left school for a stretch in the Marine Corps first semester. Members in Alpha Kappa Psi include Max Van Doren and Lee Schwartz. Engineers Bob Ritter and Don Castle are Steel Ring members while Bob Fulmer is a Sigma Tau active. Militarily speaking, Nick Klein and Ray Peacock represent Phi Kappa Tau in Scabbard and Blade. Wally Brown served as Wampus Cats prexy last semester. Socially, the Phi Kappa Tau's spent an "Evening in Paris" at their spring formal. Pledge class officers for the spring semester were Paul Whitehair, president; Marion Tongish, vice-president; Jerry Sullivan, secretary; Ed Malnar, treasurer; and Gerald Moore, Interfraternity Pledge Council representative.

Phi Lambda Alpha represents eight Latin countries

This small but mighty group of Latin American boys founded their fraternity a few years ago on the Kansas State campus "to help new Latin American students and improve relations with American students." This year's chapter consists of fourteen members, four fewer than last year's, but as many as eight countries are represented. These are: Bolivia, Argentina, Colombia, Puerto Rico, Nicaragua, Guatemala, El Salvador, and the Canal Zone (Cristobal). They are enthusiastic members of Cosmopolitan Club and Cervantes Club, and lend their support annually to making the "Feast of Nations" a big success. Seven of the boys are majoring in engineering, five in agriculture, and the other two in pre-medical training and bacteriology. They are constantly called upon by other organizations to give speeches about their own countries. Some of them with musical talent, like Alberto Martinez and Luis Ibarguen, play South American music with true feeling. The Phi Lambda Alpha's favorite pastime is to drink coffee and discuss South American politics till all hours. The fraternity is still dreaming of a house of its own, because the members are scattered in homes all over Manhattan, and they feel that they could accomplish more if they could live together.

THIS LATIN-STYLE HACIENDA IS DREAM OF PHI LAMBDA ALPHA.

Pi Kappa Alpha

proud of K-State scoring ace, Jack Stone

The Pi K A's can always be found at basketball games cheering their boy Jack Stone—maybe that's why three members of the Pi Kappa Alpha fraternity are cheerleaders (Dan Hurley, Buddy Jass, Pete Sells), and nine others are Wampus Cats. Jack Miller is Wampus Cats president. Not always on the sidelines at athletic contests, the Pi K A's won third in intramural football last fall. They came out with a 3rd place trophy in the 1950 Y-Orpheum, too, and gave their skit by special request in K.U.'s "Rock-Chalk Revue." They're also mighty proud of their former president, Garth Grissom, who is a member of Student Council, Who's Who, and president of Pi Epsilon Delta. Dates and members had fun at the fall Corn Jigger party and the spring Dixie Ball.

The annual Tuffy Strut took place on November 15, and Theta Xi's held their Christmas semi-formal in the house in December. A come-as-you-are party in March and the spring formal in April were also social highlights of the year. Members were active in Alpha Zeta, Sigma Tau, Steel Ring, Eta Kappa Nu, A Cappella choir, and Wampus Cats. The Theta Xi's competed in the 1950 Y-Orpheum contest with a Turkish fantasy comedy entitled "Harem-Scarem."

Training

ALTHOUGH first emphasis at Kansas State is on scholarship, athletics play an important role in the life of the students and in the life of the State. There are few who cannot be stirred by the thrills of competitive sports, and college athletics present more than their share of exciting moments for both spectators and participants.

Varsity teams from the College have played on fields and courts all over the nation, and although the fortunes of intercollegiate athletics vary from year to year, the wearers of the Purple have always demonstrated the utmost in spirit and sportsmanship, the two prime objectives of an athletic program.

Varsity athletics bring to the State contests between the Wildcats and some of the finest teams in the nation. Many a Saturday afternoon the eyes of Kansans are on Manhattan as the Wildcats tackle a major conference foe. Many a long winter's evening, the ears of those not fortunate enough to be among the 13,000 fans in the College's great new fieldhouse are turned to broadcasts of the Purple's basketball games with the nation's top teams. In New York this past winter, the Wildcat's game with Long Island University in Madison Square Garden was chain-telecast to 5,000,000 fans in leading cities in the East and Midwest.

Varsity teams also compete in golf, tennis, track, baseball and wrestling. From the College diamond men have gone on to careers in professional baseball, and from the track have come athletes who have competed and won in international contests.

Increasing emphasis is placed on all-college athletics and physical training through a well integrated program of intramurals and gym classes. More than 1,700 men students compete in volleyball, tennis, swimming, basketball, softball, golf, horseshoes, touch football, and table tennis. About 400 women participate in tennis badminton, volleyball, tennis, swimming, basketball, softball, and tennikoite. In addition, more than 1,300 men and almost 500 women are enrolled each semester in gym classes which develop healthy, poised young citizens.

THURLO "MAC" McCRady resigned after four years at the helm of the Kansas State athletic department. He was replaced by Larry "Moon" Mullins.

KS Athletic Program

as basketball quintet gains top honors

The 1950-51 year was full of "ups and downs" for the Kansas State athletic program. It brought the new 13,500 capacity Fieldhouse to reality bringing fans from all over the state to the new Wildcat hardwoods; it saw a reshuffling of the athletic department and its personnel; and it traveled to foreign lands to gain high international recognition.

K-State got off to a bad start in the fall on the gridiron and the cinder tracks. The Cats won only one of their eleven football games in one of the worst seasons since the end of the war. Sickness plagued the two-milers throughout their fall season.

With the coming of the winter, "King Basketball" took over full reign in the sporting columns. In the regular season, the cagemen played twenty-five games, losing only three for one of the best records ever marshalled by the Cat school.

Thurlo McCrady headed the Wildcat athletic program for his fourth year, tackling the enormous job of tying loose ends together and keeping everybody happy. McCrady resigned at the end of the year.

The doormat of all the complaints and the angry tempers and the friend of all who were looking for a

favor was Fritz Knorr, athletic ticket director. Fritz did a Herculean job of taking care of thousands of tickets, not only for the scheduled season sports, particularly basketball, but for the extra Illinois game in the new Fieldhouse and the NCAA playoffs in Kansas City. The handling of the seating in the Fieldhouse required the technique of pincers and the tact of a salesman.

Ted Warren was sort of a "jack-of-all-trades" for the department, assisting McCrady and the coaches with their public relations and working as an athletic field representative.

Coach Ralph Graham tendered his resignation at the close of the disastrous gridiron season. He was greatly handicapped during the year by sickness. Graham was replaced by Bill Meek from the University of Maryland.

Helping to carry Kansas State athletics to the top via the newspaper columns was Floyd Sageser, sports publicity director. All the advance game stories and the individual write-ups came out of his office.

On the international scene, trackmen Virgil Severns and Herb Hoskins carried the Purple and White to Finland, England and South America, winning almost every high jump and broad jump event in which they were entered.

RALPH GRAHAM resigned as head football coach because of poor health that handicapped him during the season. He was replaced by Bill Meek.

FLOYD SAGESER, sports publicity director, sent out advance stories of all athletic contests and wrote many features on individuals.

THE MEN WHO FASHIONED the 1950-51 football fortunes for Kansas State were freshman coach Emmett Breen, head coach Ralph Graham, end coach Paul Walker, backfield coach Bob White, and line coach Tommy O'Boyle.

Wildcats drop all conference games

The 1950 Wildcat football team retained its stronghold on the Big Seven cellar position for the eighth consecutive year. The Kansas State 11 finished the season with one win, nine defeats and one tie. Six of the defeats were at the hands of conference foes. The lone victory came at the expense of Baker University at the beginning of the season. The Cats closed the year by tying Wichita University on December 2.

The 11 game slate was the largest for the Cats since 1942. They played such powerhouses as University of Washington at Seattle, Marquette University at Milwaukee, and the Oklahoma Aggies at Stillwater. The Big Seven also boasted three nationally recognized teams in Oklahoma, Kansas, and Nebraska.

The Oklahoma Sooners, rated number one in the nation at the close of the regular season, easily won the championship with a perfect rec-

ord. For the third consecutive year, the Sooners were invited to the Sugar Bowl for the annual post-season classic. They were upset by the Kentucky Wildcats in the 1951 game.

In the first game of the season, the Wildcats trounced Baker University, a small denominational school in eastern Kansas, 55-0. It was Kansas State all the way, as the Cats, playing the only night game on their home field, completely dominated the situation. Elmer Creviston was the leading scorer with two touchdowns. Ross Estes booted seven out of eight extra points for second place in the scoring.

At Seattle, 30,500 fans saw Washington University virtually score at will against the Wildcats as they racked up a 33-7 count. Ted Maupin got the only six pointer for the Cats as he plunged over the goal line from the three. Quarterback Frankie Hooper led the offensive with 106 yards, all through the air.

Traveling to Colorado University the next weekend for their first conference game, the

End Jim Linninger, *top left*, and guard John Schwerdt, *top right*, were on the gridiron quite a bit for the Cats. Gene Gill, *third row left*, was used mainly as a defensive halfback. Tackle Jack Wallace, *third row right*, scored the only K-State touchdown against Marquette. Starting quarterback was Frankie Hooper, *second row*, whose passing arm led the Wildcat attack. Tackle Walt Gehlback, *bottom left*, often played both offense and defense. Oscar Clabaugh, *bottom right*, was a junior tackle.

HALFBACK DICK TOWERS, *below*, sweeps around end for a touchdown against the Nebraska Cornhuskers at Lincoln. Kansas State was outscored 4-21. Hardhitting ends for the Cats were Ken Barr, *top left*, and Dick Bogue, *top right*. Bogue had won three previous letters. Pete Raemer, *third row*, got his second letter at tackle. Halfback Hoyt Givens, *second row left*, caused a sensation when he hammered his way right up to the Iowa goal for what might have been the winning touchdown. Reserve quarterback Lane Brown, *second row right*, saw a lot of action during the season. Starting guard John Goff, *bottom left*, doubled as kickoff man. John Knoll, *bottom right*, played mostly offense in the center slot.

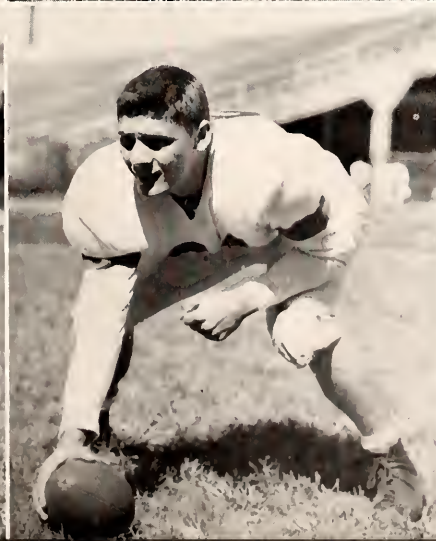

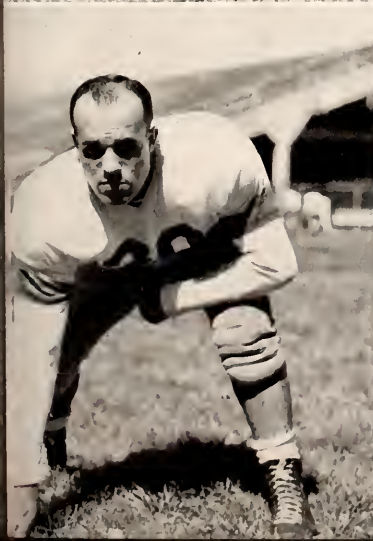

Wildcats unsuccessfully met the Buffalo's charge as they came out on the short end of a 34-7 count. Kansas State finished the first half with the score tied six all, but Colorado came back with two touchdowns in each of the remaining quarters to walk off with the victory. Hi Faubion scored the lone Wildcat touchdown.

Marquette University completely outclassed K-State at Milwaukee, beating the Cats, 46-6. Jack Wallace accounted for K-State's lone touchdown.

Back in Manhattan, the Tigers from Missouri scored seven points in each quarter to defeat the Wildcats, 28-7. Hooper led the K-State offense with 62 yards including a 38-yard touchdown pass to Bob Mayer. It was the second conference loss.

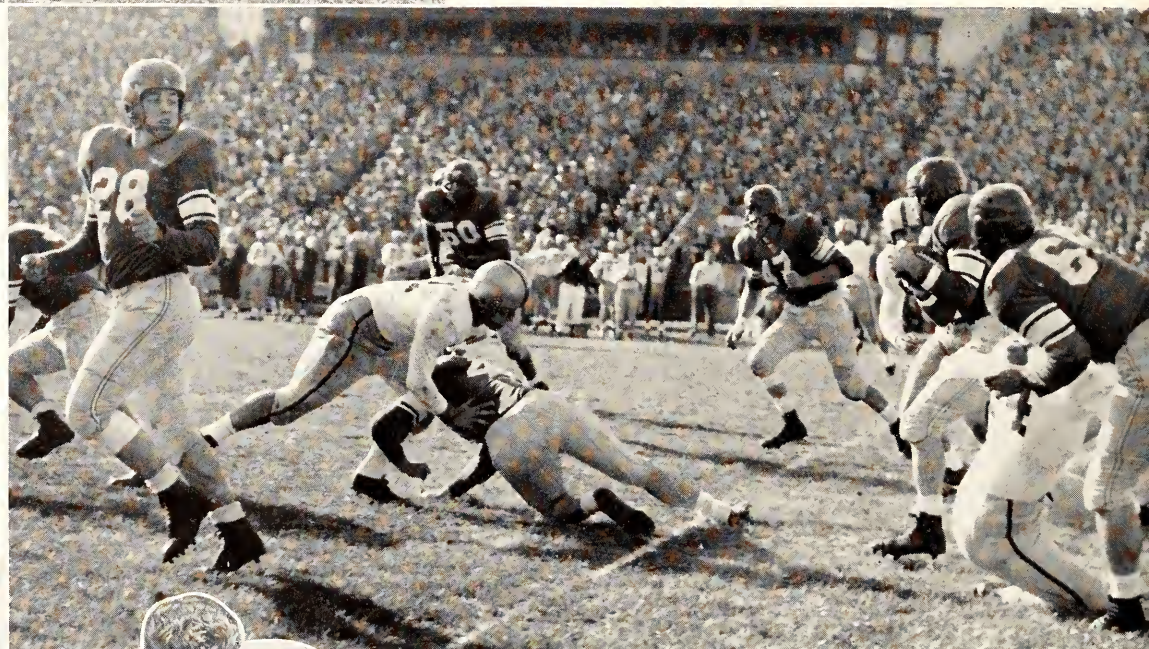

At Norman, the champion Oklahoma Sooners scored at will against the defenseless Wildcats, crossing the scoring stripe nine times and sent the ball through the cross bars four times to top

CHARLIE THORNBORROW, *top left*, was a tackle imported from Tulia, Texas. Francis Starns, *top right*, was the regular left end for the Wildcat offensive platoon. Identifiable Wildcat players are Elmer Creviston (28), Hi Faubion (65), Harold Robinson (50), and Al Lummio (47). Kansas State fought the game on even terms until the Jayhawks Charlie Hoag and Wade Stinson completely demoralized them by scoring three touchdowns from the neighborhood of the 50-yard line on three consecutive offensive plays. Kansas walked away with the game 47-7. It was the fifth straight triumph for the Jayhawks since 1945 when the Cats won a 18-14 thriller.

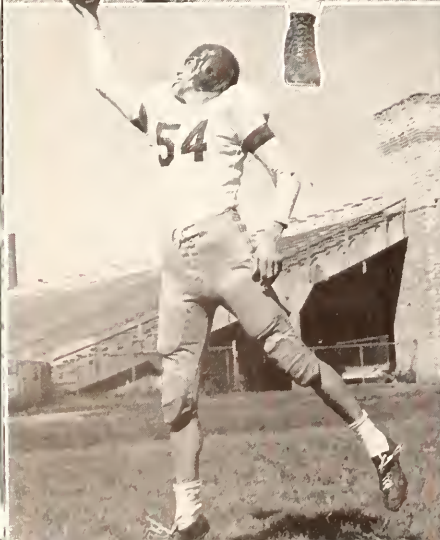

OLDEST MAN ON THE SQUAD was Kenny Johnston, *middle left*, who doubled with Robinson as a linebacker to add strength to a good defensive line. Fullback Bob Mayer, *middle right*, scored the only TD against Missouri on a pass from Hooper. Glenn Channell, *bottom left*, made many sensational snags at end. the cats, 58-0. The 435 yards that the Sooners ran up in the rushing column was way out front in comparison with only 48 for Kansas State. OU's total offense tallied 555 yards.

The Iowa State Cyclones put a damper on Homecoming festivities at Kansas State by barely edging out the Wildcats, 13-6. Fifteen thousand fans saw Lynn Burris and Frankie Hooper lead the home team to the very door of victory, only to have it closed in their face by the Iowa forward wall. Burris scored in the first quarter from the sixteen and Estes booted the extra point.

The two teams battled equally until the fourth quarter when the Iowa sensation, Bill Weeks, led his teammates to two touchdowns and one extra point. The Wildcats launched a counter-offensive that took them down to the Cyclone's goal, but halfback Hoyt Givens was stopped just inches away on the fourth down.

FRESHMAN SENSATION Veryl Switzer, *above*, sprints around end in the K-State-Kansas U freshman game. The Kittens won the game 13-6. In the other freshman game, the Nebraskans beat the Kittens 32-12 at Lincoln. Home fans, *left*, cheer a Wildcat rally.

In the traditional University-State grudge battle, the Kansas Jayhawks humbled the Cats, 47-7. Led by Charlie Hoag and Wade Stinson, the Jayhawks scored touchdowns on three consecutive offensive plays in the second quarter, completely demoralizing the Wildcats.

Led by All-American Bobby Reynolds, the Nebraska Cornhuskers outpointed the Cats 49-21 in a free scoring ball game at Lincoln. Reynolds accounted for 26 of his team's points. Dick Towers, Bill Wall, and Hooper scored the Wildcat touchdowns.

At Stillwater, the Oklahoma Aggies

repeated the Jayhawk's performance of the preceding week as they trounced the Wildcats, 41-0.

In the final game of the season, the K-State Wildcats traveled to Wichita University to tie the Shockers 6 to 6.

Wrestling Team

wins second in Big Seven Conference

The most promising Kansas State College wrestling team to represent the school in many years finished second in the Big Seven conference meet after a strictly mediocre season.

Only Oklahoma, wrestling on its home mats and destined later to become national champs, could outscore the Wildcats. K-State's 21 points for a second place finish represented the greatest achievement for a Kansas State wrestling team in a Big Seven conference tourney since the championship year of 1940.

After starting the season with impressive wins in dual meets with South Dakota State and Arkansas State, coach Red Reynard's inexperienced squad lost five duals in succession before coming back to swamp the University of Omaha.

The Wildcats then lost their dual match of the campaign to powerful Oklahoma University. This gave K-State a record of three wins and six losses in dual meets.

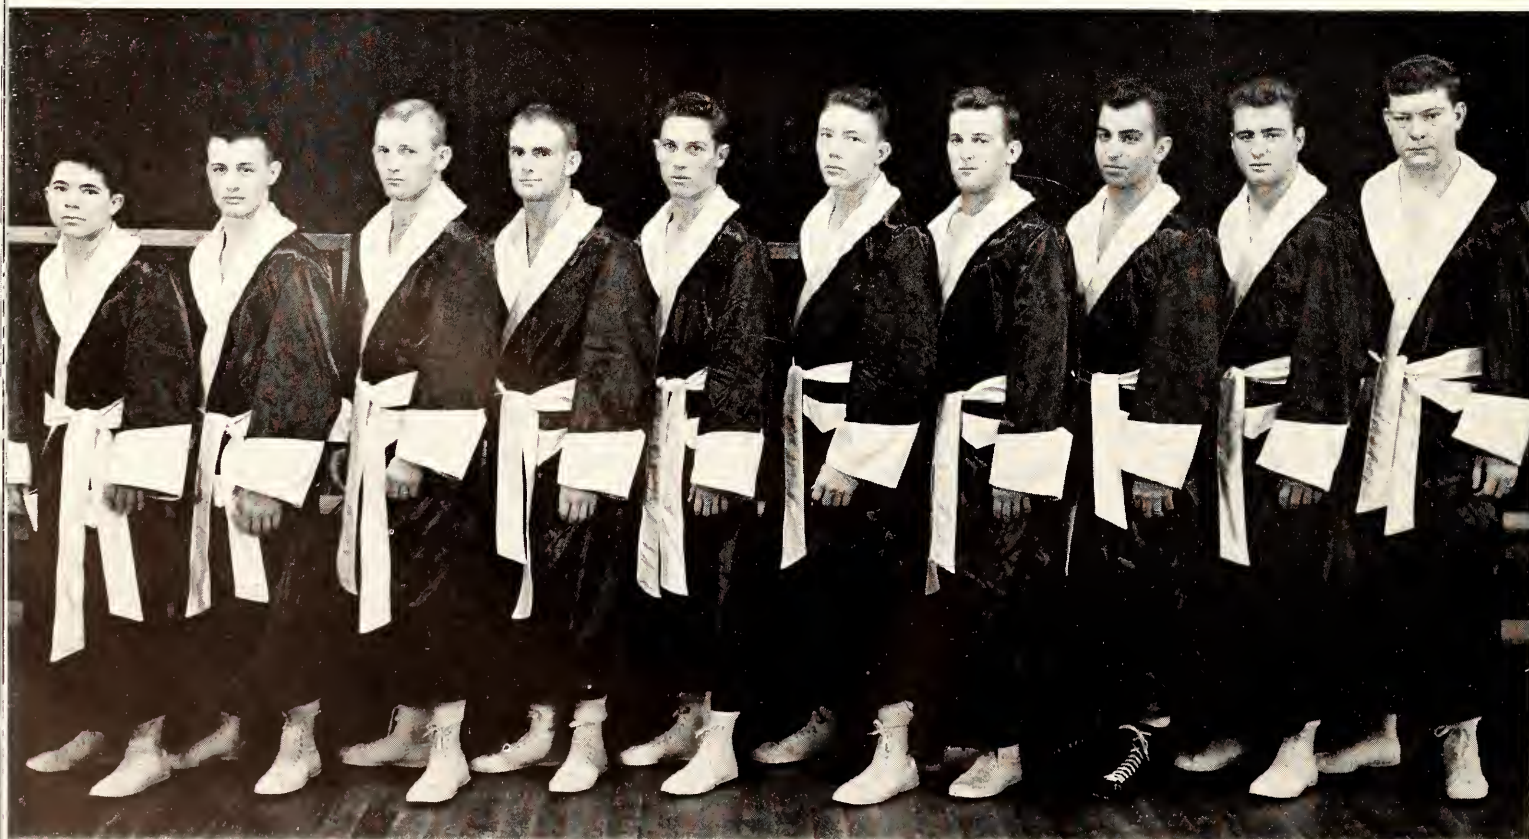

Of the ten men who wrestled for the purple and white during the 1950-51 season, only Frank Solomon is a graduating senior. Six sophomores and three juniors, who make up the remainder of the team, promise trouble for Wildcat opponents next year.

RED REYNARD, former K-State mat star, is varsity wrestling coach.

In finishing second in the conference meet at Norman, no K-State matman won an individual title but three outstanding first-year men garnered runner-up spots. Each turned down the chance to compete in the NCAA finals.

THE 1950-51 WRESTLING SQUAD consisted of Don Gerstner, Joe Mosa, Dean Scheets, Lyle Linnell, Duane Rieke, Wayne Richardson, Leslie Kramer, Frank Solomon, Bob Mayer, and Alvin Ogden.

Leslie Kramer wrestling at 157 pounds, Bob Mayer, 177, and Alvin Ogle in the heavyweight division, placed second. Sophomore Don Gerstner, 123, junior Dean Scheets, 137, sophomore Wayne Richardson, 157, and senior Frank Solomon, 177, finished third in their respective divisions.

Others who saw action during the year, but who did not place or who did not compete in the conference tournament were: sophomore Joe Mosa, 130, junior Lyle Linnell, 147, and Duane Riecke, 130. Only three squad members Linnell, Richardson, and Solomon had ever had any wrestling experience before coming to Kansas State.

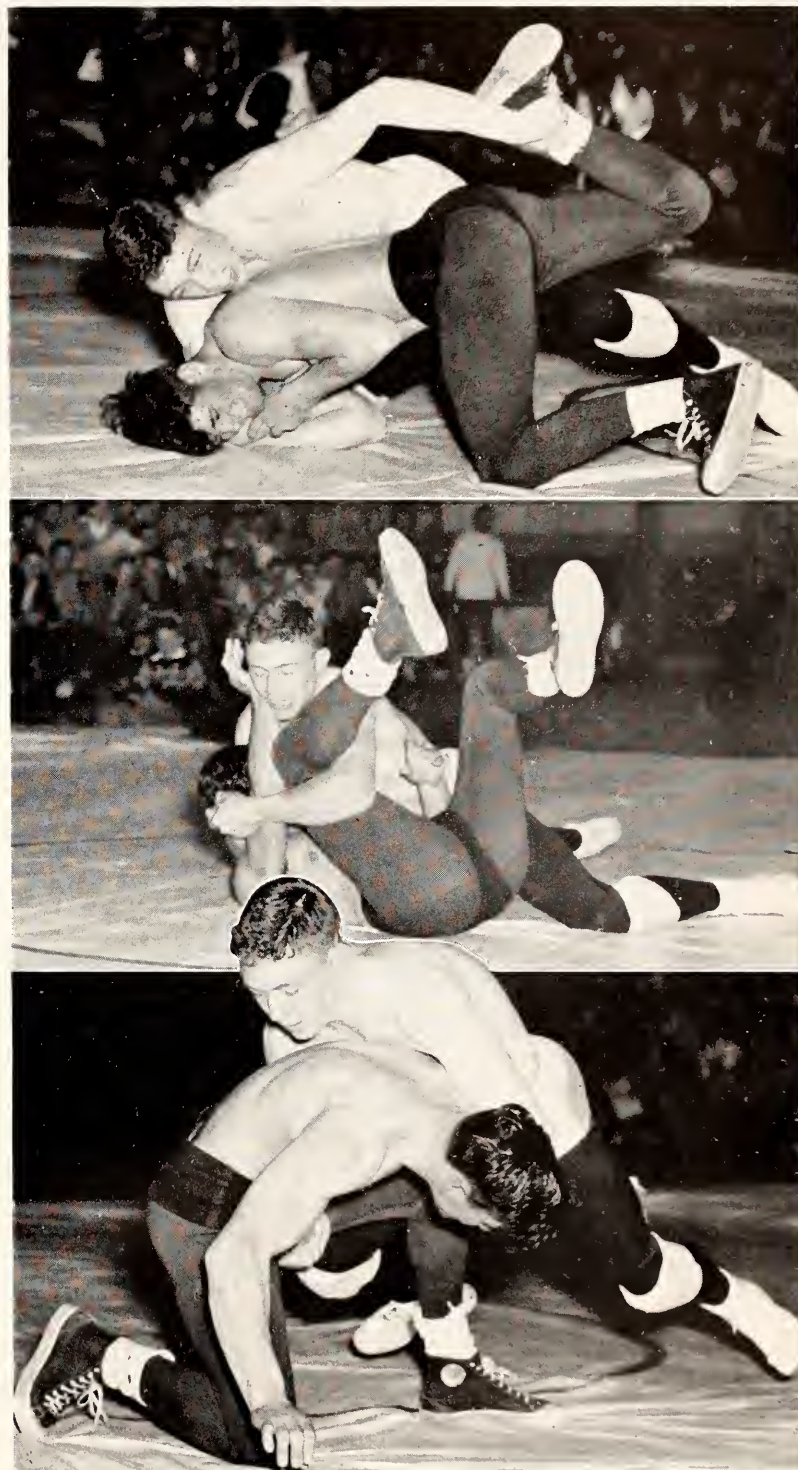

Team captain Frank Solomon, who last season placed second in the 177 pound class in the conference meet, dropped down this year to the 167 pound division. During the regular season, Solomon won 6, lost 4, and drew 1.

Solomon won the high point trophy given each year by Coach Reynard to the matman winning the largest number of points in matches during the entire season. Solomon scored 24 points during the season to nose out Al Ogden by one point for individual scoring honors. Last year's trophy winner, Joe Blanchard, who was Big Seven heavyweight titleholder, had been lost through graduation.

Sports Spotlight on K-State as Cats

nine "big" teams fall before Wildcats

"King Basketball" reigned supreme at Kansas State during the 1950-51 season as the Wildcats won almost everything that a Big Seven school can win. At the close

of the season, their won and lost record stood at 25-4. They were second in the NCAA, first in the Western N C A A play-offs. They won the Big Seven Pre-season Tournament in K. C. They beat such teams as B r i g h a m Young, winner

of the NIT and Skyline Six; Illinois, Big Ten champ; Oklahoma A & M, Missouri Valley winner; and Arizona, Border Conference champion.

The Cats also racked up victories over such powerhouses as Long Island, Ohio State, Minnesota, Kansas,

and Purdue. Their 11-1 record in winning the Big Seven, was the best ever accumulated since the conference added its seventh member.

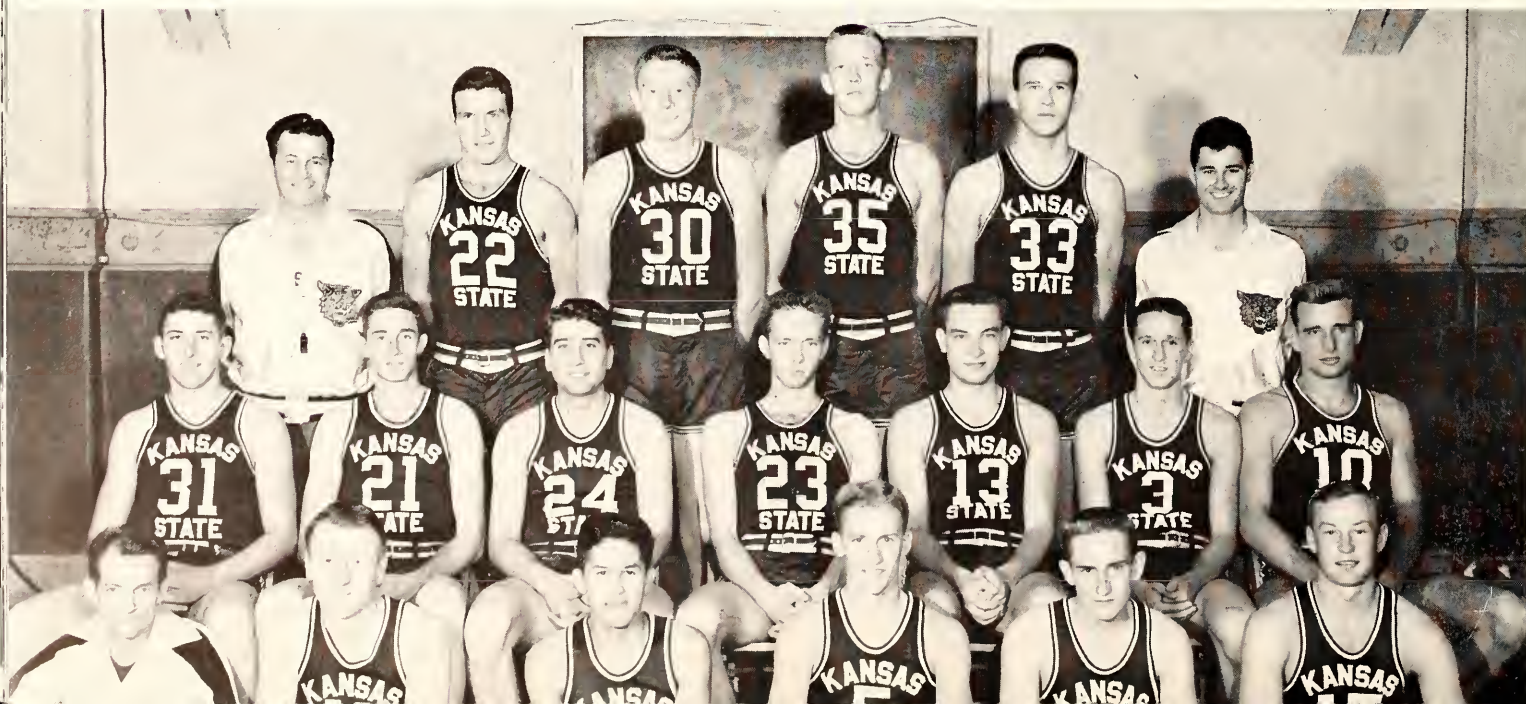

The Cats, this year, used a two-platoon system, the second five being as deadly as the first. Nor was any one player outstanding. Barrett was named on several first and second All-American teams. Barrett, Hitch, and Stone were selected on the Big Seven team; Stone and Head were on the all-tournament team after the

Western NCAA playoffs. Rousey was named the "outstanding sophomore" of the year in the Big Seven. It was a coach's dream, "a team's team."

Five seniors played their last college game this year. Forwards Jack Stone and Ed Head, Centers Lew Hitch and Glenn Channell, and Guard Ernie Barrett moved into the ranks of the graduated.

Before the basketball season got under way, the nation's sports writers picked the Wildcats to wind up about tenth nationally. After dropping a close one to Long Island, 60-59, in Madison Square Garden, the Cats' shooting and floor play began to pick up, and they began their slow drive upward in the national rankings.

In the two remaining games of their Eastern swing, the Wildcat cagemen drubbed Ohio State 68-51 and Purdue 60-44.

December 9, 1950, saw Kansas State meet Utah State in the opening game in the new Wildcat Fieldhouse. A crowd of 10,500 fans saw the Cats come out on top of a 66-56 score. It was K-State all the way from Hitch's first tip-in until Barrett's final free throw.

Three days later, the Cats swamped Wichita University 73-42 in the Fieldhouse.

On the 16th, the Cats bowed for the second time of the season, and the only time on their home court, to the Indiana Hoosiers, 58-52. It was a running and shooting ball game with Indiana having a slightly higher shot percentage.

squad trounced the Badgers from Wisconsin, 77-58, and Springfield College, 82-59.

The Wildcats still were the dark horse as they went into the pre-season Big Seven Tournament in Kansas City. In the first game, they met the Sooners from Oklahoma and gained victory in a last-second thriller that saw little Jim Iverson push through a 30 foot field goal to give the Cats a 55-53 margin. In the second game, the Wildcats easily defeated the Nebraska Cornhuskers, 72-53. It was in the second half of this game that All-American Ernie Barrett rang the two-point bell nine times in a row.

In the final game of the tournament, K-State out-

lasted Minnesota, 70-62. The Gopher's "Whitey" Skoog nudged Jack Stone in an individual scoring dual, 22-20.

The Wildcats opened their conference play at Columbia against the Missouri Tigers. They defeated the Missourians on the "jinx court," 60-43. Back in Manhattan, the Cats ran up the biggest offensive total of the year in trimming the Iowa State Cyclones, 98-58. Six of the home cagers scored ten or more points as twelve men broke into the scoring column.

Traveling down the Kaw, the Wildcats defeated their interstate rivals, the Kansas Jayhawks, 47-43, at Lawrence in a last-minute thriller. Hitch and Barrett were the game heroes. It was the 6' 7", "Big Lew," who stole the ball from the Jayhawk star Clyde Lovellette to knot the score 43 all. Seconds later, Barrett calmly put K-State in the lead with one of his famous 30 footers. Free throws by Iverson and Gibson cinched the game.

The Colorado Buffalos were no match for the Cats on the latter's home court, as the Gardner men won an easy 63-42 victory.

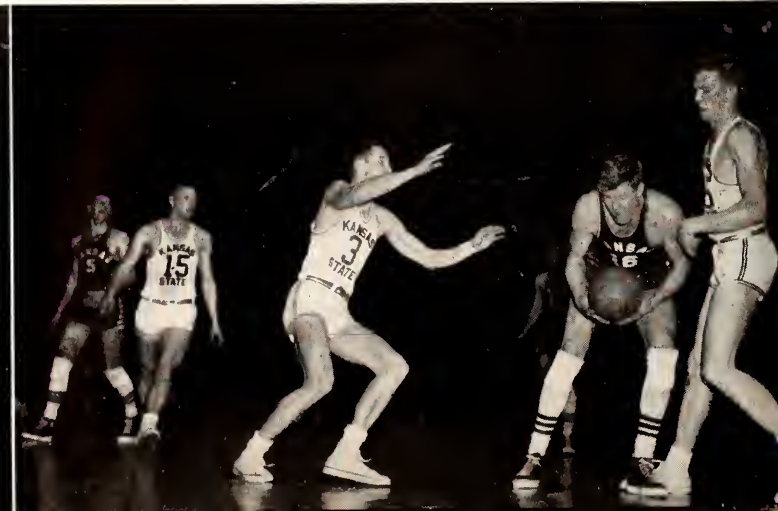

The Blackbirds of Long Island University were next to fall before the onslaught of the revenge-seeking Wildcats. The Cats counted 85 points to their opponents 65 in the game which, according to sports writers, was to be an even match with possibly a slight edge to LIU. Many K-Staters considered it one of the best-played games by the Purple and White team during the 1950-51 season.

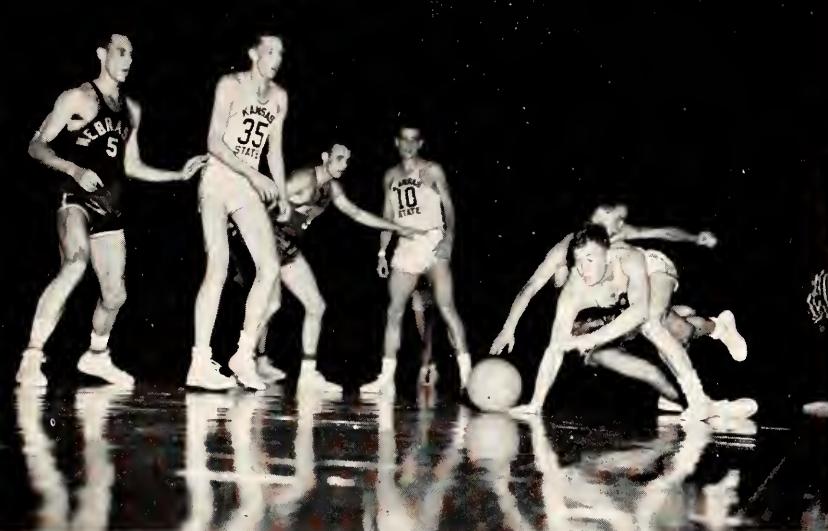

On the road again, the Cats dumped the Buffs 60-45, then routed the Nebraska Cornhuskers, 79-50.

Kansas State counted its seventh conference victory by defeating the Missouri Tigers 75-64 at Manhattan.

"IVY" IVERSON seems to be asking for a handout from Dick Knostman as the reserve center grabs a rebound from the hands of an Oklahoma Sooner.

A poor floor game, a bad shooting eye, and general bad luck were in evidence when the Wildcats took on the Oklahoma Sooners at Norman. Marcus Freiberger dumped in 21 points to lead the Okies to a 49-46 victory.

Back on their home court again, the Staters regained their composure and found easy pickings in defeating Kansas, 65-51. Two days later, the Cats trounced Nebraska, 74-48. Iowa State was the next team to feel the Cat's claw, bowing to the Manhattan team, 81-47.

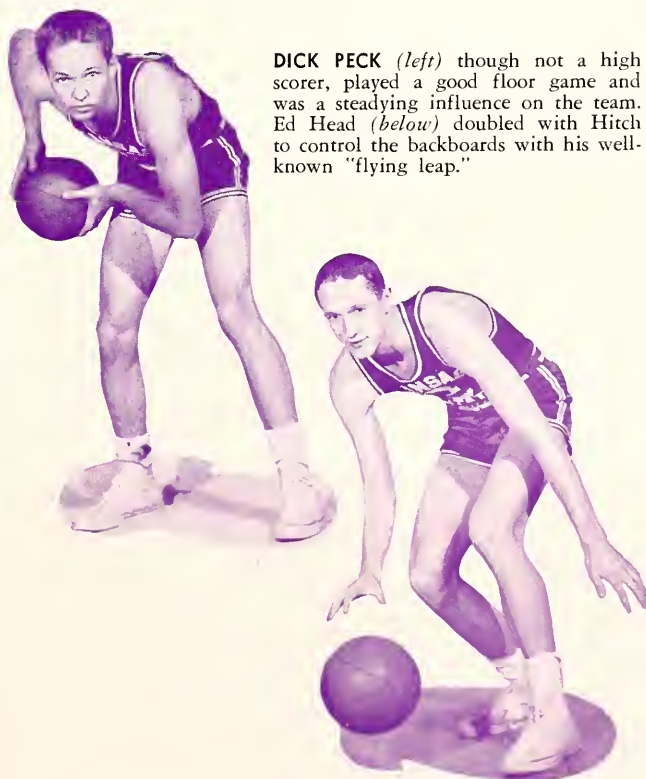

There was blood in the eyes of the Wildcat team when the Sooners came to Manhattan for the final game of the conference. Although the Cats had already won the title, they were looking for revenge for their only conference defeat. When the smoke cleared, Kansas State was on the long end of an 87-48 count.

After obtaining approval from the Big Seven conference committee to play a practice game between the close of the regular season and the Western NCAA playoffs, the Wildcats took on the "Fighting Illini", champions of the Big Ten conference. Playing in the new Fieldhouse, the Big Seven champs displayed the poise and shooting ability that had obtained them their national recognition and slaughtered the visitors 91-72. It was a great night for Jack Stone who broke the all-time Wildcat individual game scoring record with 29 points. Ernie Barrett was second with 21.

Fresh from the "practice game", the Cats traveled to Kansas City where they met Arizona in the first round of the NCAA Western playoffs. During the first half and the first 10 minutes of the second, they played their

usual game leading by 23 points with eight minutes left. Then Arizona began to pick up and the Wildcats turned frigid. Only a successful stall saved the Purple and White as they won 61-59.

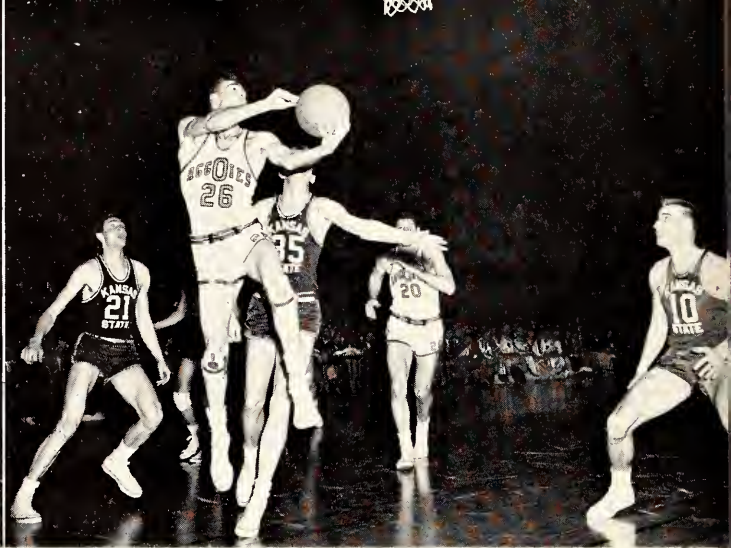

In the semi-finals, K-State met Brigham Young, whom they led all the way, coming out on the long end of a 64-54 count. In the finals of the Western NCAA, Kansas State played its best game of the year. The "marvelous Manhattan Marauders", as they were dubbed by the sports writers, played the game to perfection as they trounced the Aggies from Oklahoma, rated as

number two in the nation, 68-44. It was the worst defeat in the Aggies' history. Every Wildcat was a star; every one looked like an All-American. In beating the Iba-coached team, the Cats hit 53 per cent of their shots.

Riding on top of the world after their last victory, Kansas State flew to Minneapolis to meet the Wildcats

from Kentucky in the national finals of the NCAA. K-State started off in its usual form and at halftime was on top, 29-27. From the opening tip in the second half, it was Kentucky all the way with Kansas State's shooting dropping to around zero degrees. For eight minutes in the second stanza, State didn't get a field goal. Kentucky continued to increase the margin. Then, with but three minutes to go, the State second team began to close the gap, but were unable to catch Coach Adolph Rupp's boys, as the game ended 68-58.

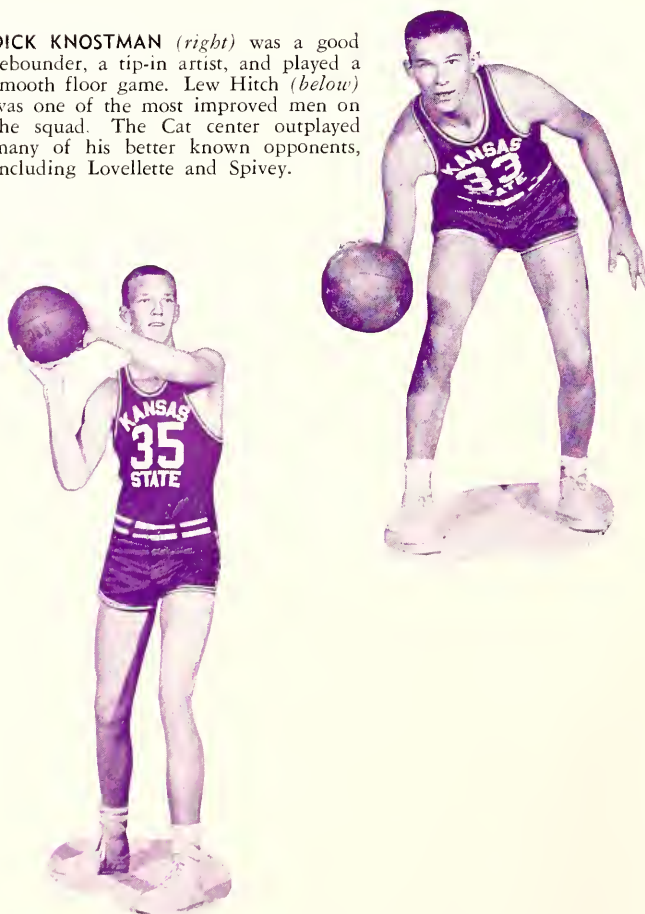

When the Wildcats returned home from Minneapolis the next day, students and Manhattanites turned out despite a drizzling rain to give them the largest welcome afforded any Cat team since the 1947 championship. President McCain closed all classes at K-State shortly before their arrival to allow the student body to greet the team.

All-American Ernie Barrett continued to play ball, however. From the NCAA game, he traveled to New York, where he participated in the East-West game, playing under Coach Phog Allen of Kansas. The West won with a 75-59 victory, Barrett dropping in four points.

From there he began an eleven game road trip, playing with the College All Stars against the Harlem Globe Trotters.

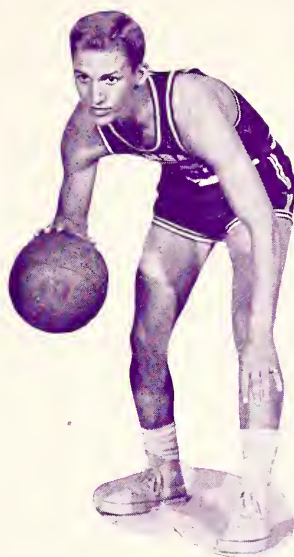

Included in the starting lineup with Barrett were many players that Barrett had met during the season. Coach of the All Stars was Clair Bee of Long Island. Bee also coached the East team during the previous week.

DICK KNOTSMAN (right) was a good rebounder, a tip-in artist, and played a smooth floor game. Lew Hitch (below) was one of the most improved men on the squad. The Cat center outplayed many of his better known opponents, including Lovellette and Spivey.

place with five wins and eleven losses. Nebraska University won the conference with eleven victories against three defeats.

The 1950 season began a "long-range reconstruction program" for the Wildcats, aimed at restoring them to the

top ranks. Although the Cats finished one place lower than the season before, they increased the varsity squad by seven men to add more depth. A 25 man freshman squad brightened future prospects.

The K-State nine had a few individual stars within its ranks, but lacked enough depth in the pitching

department and enough power in batting to make them a major threat. Tim Scannell was the big gun for the Wildcats, blasting out 21 hits in 77 trips to the plate. He led his teammates with five doubles. At the end of the season, Scannell was voted on the All-Missouri Valley team at second base. He was third in fielding with one error.

Right behind Scannell was cleanup batter Dick Johnson with 20 hits for a .273 batting average. Johnson also led in runs with 13 to his credit and in runs batted in with 10.

Another reliable for the Cats was Hank Specht, who copped the home batting crown with a .290 average. He blasted out 20 hits, two of which were roundtrippers. The Wildcat speedster took another first by stealing 14 bases during the season.

First baseman Dave Bremner and Catcher Cliff Schumacher led the conference in fielding in their respective positions with a perfect average. Bremner also pulled down second among the Wildcat batters with a .273 average on 14 hits. He scored 13 runs and batted in 10.

Another regular was utility man Dale Carr. Dale saw action in 16 of the Wildcat games, playing both right field and shortstop. He was fourth among the batters with a .270 average on 14 hits. The younger of

THE 1950 EDITION of the Kansas State "long-range program" in baseball boasted a near-record squad of 25 players. They were *back row*: Coach Fritz Knorr, assistant coach Ray Wauthier, freshman coach Verle Snyder, Easter Elliott, Dave Bremner, Ed Robinson, Dick Hilts, Dick Johnson, Keith Thayer. *Second row*: Bob Rick, Perk Reitemeier, Perry Wayman, Samuel Pine, Gene Kubicki, Jim Iverson,

Duane Holder, Gerald Backman, Keith Chadd. *Front row*: Dale Carr, Cliff Schumacher, Joe Arnold, Lyndell Fitzgerald, Tim Scannell, Bob Bremner, John Watson, Bob Gowdy, and Hank Specht. Not in picture —Don Batson. (Batson broke his leg during the second Wildcat game.)

the Bremner brothers, Bob, held down the third base for the Wildcats. Though Bob batted only .247, he did collect 16 hits to further the Wildcat cause.

Playing left field was Dick Hilts, who slammed out one round tripper, two doubles and eleven other safeties. He scored 12 runs himself while driving in eight more. Keith Thayer doubled with Schumacher to handle the catching duties for the Wildcats. In the 13 games that Thayer played, he committed only one bobble, to almost equal the perfect fielding record of his position-mate. Though he hit safely only eight times, he batted in four runs.

Perk Reitemeier was the workhorse on the mound for the Cats, pitching 65 innings. During the season, Perk posted three victories against four losses. He struck out 50 men and walked 33. The only pitcher to win as many games as he lost was sophomore Jim Iverson with

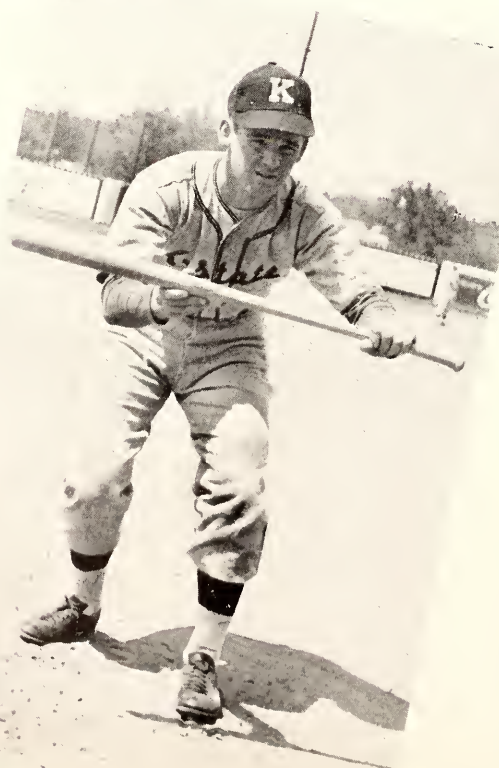

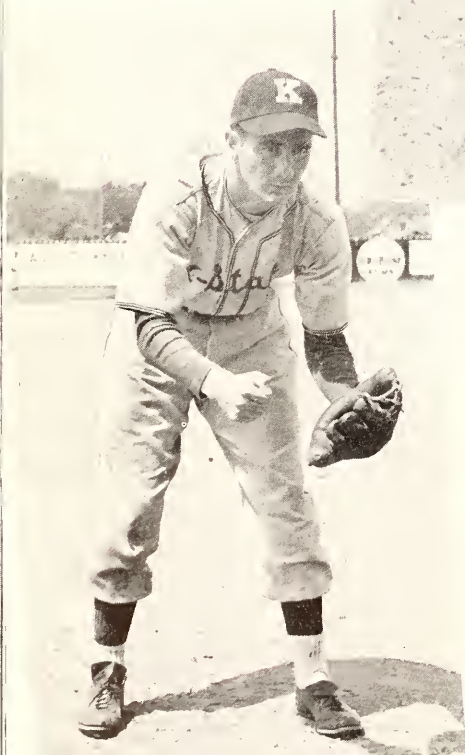

a 2-2 record. Iverson put down 29 opponents via the strikeout route, while walking 16 in the 46 innings that he pitched.

Duane Holder was the other Wildcat starter, pitching 31 innings for a two won and six lost record. Twenty men went down swinging before Holder's control pitching, while 19 got free tickets to first base. The main relief pitcher for the Cats was Sam Pine, who accounted for 13 strikeouts and 19 walks in 19 innings.

The Kansas State nine started their season by blasting out twin victories over Tulsa University. The first game found the Wildcats on the long end of a 9 to 1 score. Pounding out 18 hits, the Knorrmen held the Oklahomans to seven safeties behind the pitching of Perk Reitemeier. Hank Specht knocked out two doubles and two singles in five trips to the plate. He also scored three of the Cat's runs. The second game with Tulsa

was a batters' duel with K-State coming out on top, 15 to 12. Duane Holder was the winning pitcher though he required the help of three teammates. Specht collected two for three and was credited with three stolen bases.

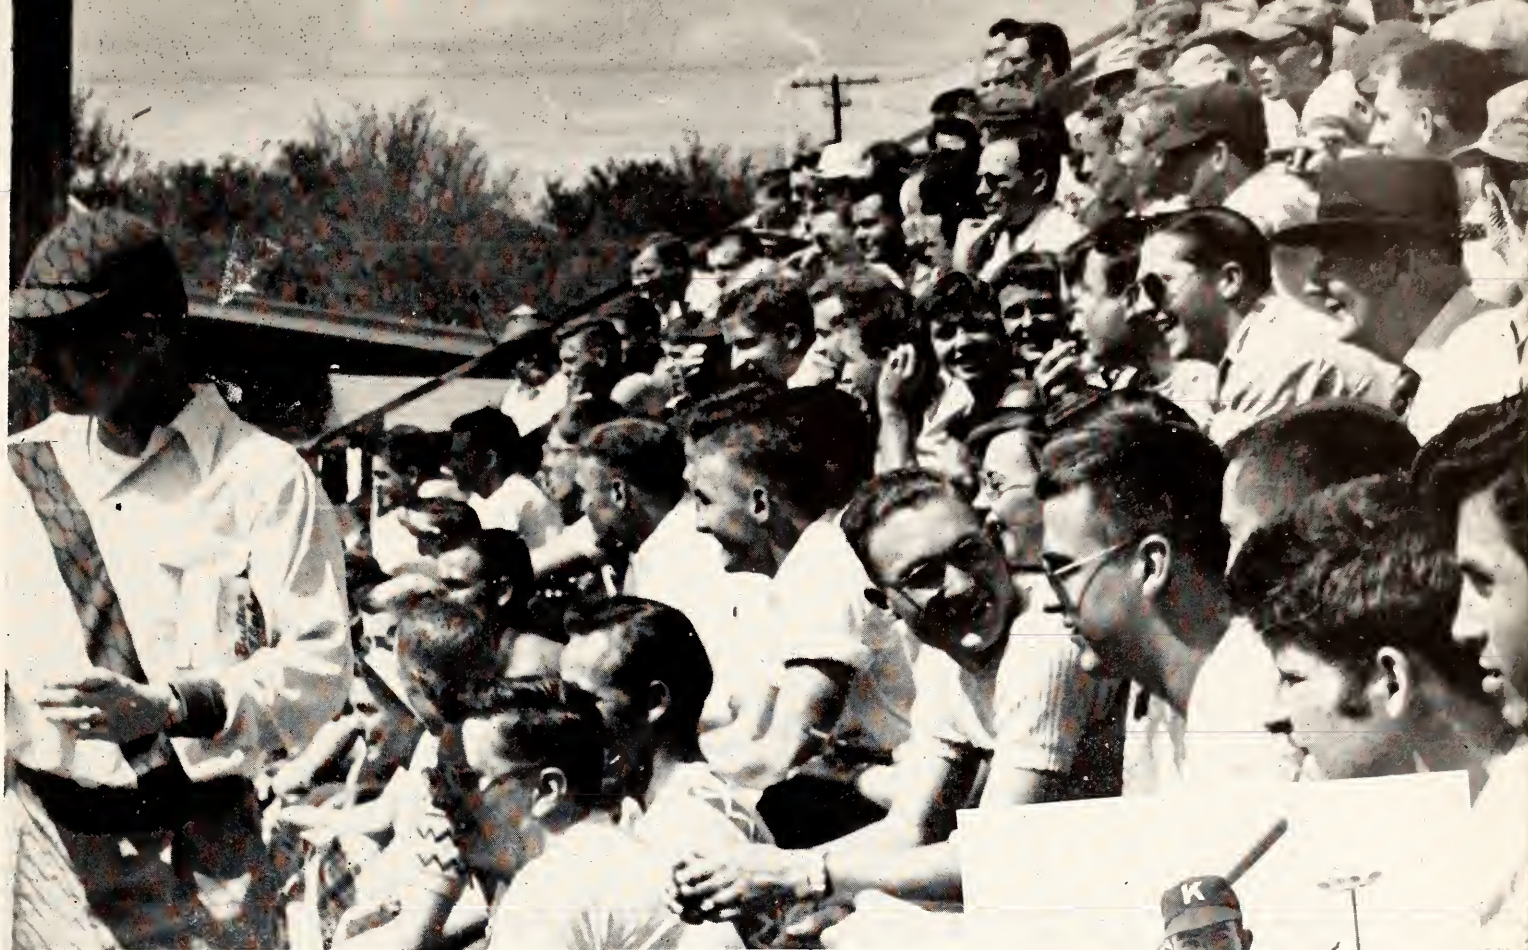

Kansas State then bowed twice on their home field to the powerful Oklahoma Aggies, 3-0 and 21-2. State out-hit A&M, 8-4, in the first game, but failed in the clinch, as all eight died on base. Reitemeier was the losing pitcher. In the second game, the Aggies blasted five Wildcat pitchers for 22 safeties. Holder was credited with the loss.

Traveling to Lincoln, the Knorrmen split a pair with the University of Nebraska. In the opening game, the Cats connected for 10 hits against Nebraska's 11, but could only push three runs across to the Cornhusker's six. Losing pitcher Reitemeier's double was the only extra base hit for K-State. Behind the twirling of Duane Holder, the Cats edged out the champion Huskers 7-6 in the second game. A seventh inning double by Dave Bremner scored Dick Hilts to cinch the contest.

Back in Manhattan's Griffith Field, the Wildcats downed the Oklahoma Sooners, 5-2, for their first home win. Iverson went the route for the Cats, holding the visitors to three hits, while his teammates collected 10. Oklahoma came back the next day with a two run rally in the tenth inning to break a tie and win 7-5. With one out and nobody on, the Sooner's Jones lifted Sam Pine's first pitch out of the ball park to put the game on ice.

On the Ames field, Iowa State's Singley outlasted Holder in a pitcher's duel as the Cyclones edged the Cats, 2-1. Iowa combined a single, a stolen base, and a double in that order to score the winning run in the fourth inning. A four-run third inning was the story behind Reitemeier's 6-3 victory in the second game.

At home again, the Knorrmen dropped two games to the Tigers from Missouri. Four K-State errors helped the visitors win the first game, 6-3. A home run by pitcher

Reitemeier failed to help the Cats as Missouri won an easy 3-1 victory in the second game.

A two-run homer by Hank Specht and a three-run homer by Dick Johnson helped the Wildcats outscore their arch rivals, the Kansas Jayhawks, 9-7, on Griffith Field. Reitemeier further singed the Jayhawk's feathers with eight strikeouts. However, the Kansans flew back into the battle fighting mad the next day and dulled the Wildcat's claws with a 7-3 victory. A ninth inning rally failed to materialize for the Cats, as KU's Sandefur calmly nipped it in the bud after Hilts had scored the third and last run.

Four days later, the Knorrmen traveled down the Kaw to outscore Kansas, 7-5, in the first game of a return series. Jim Iverson went the route for K-State as his teammates blasted three Jayhawk pitchers for 10 hits. Again the KU nine came back in the second game to defeat the Cats, 3-1. Two walks by Perk Reitemeier in the eighth inning together with a Jayhawk triple provided the margin of victory.

Back in Manhattan, Kansas State dropped two to the champion Nebraska Cornhuskers. In the first game, the Wildcats collected seven hits to eight safeties by

Nebraska, but could only push across one run to their opponent's six. Duane Holder was the losing pitcher. In the second game, the Cats were shutout, 11-0. Reitemeier, the losing pitcher, allowed six hits and eight runs in his four innings.

Traveling to Boulder, the Kansas Staters bowed twice to the Colorado Buffalos in their last series of the season. The Buffs blasted Jim Iverson for eight hits in the first game to win 5-1. Then the Buffs got to Sam Pine and Duane Holder eight times in the second game on which they scored 10 runs to the Wildcat's five.

At the end of the 1950 season, Coach Fritz Knorr retired from active coaching to devote all his time to the job of business manager of athletics.

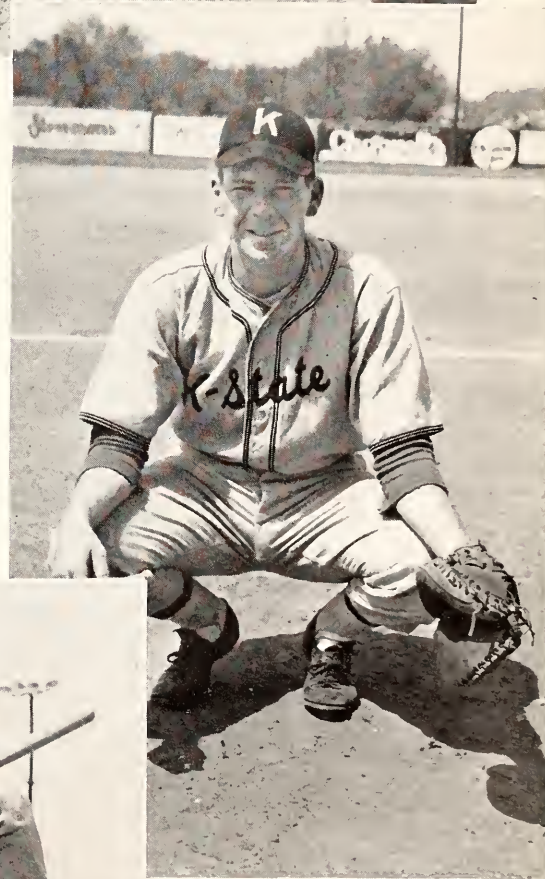

Knorr holds a master's degree from Kansas State in physical education.

He came to K-State in 1942 as an instructor. Since then he has been head basketball and baseball coach, and assistant football and wrestling coach.

During the absence of Jack Gardner in the 44-45 and 45-46 seasons, Knorr took over the basketball helm. He has coached the baseball teams for the last two years.

the squad lacked enough depth to secure second, third and fourth place positions which would have made Kansas State a high scoring team.

This is evidenced by the fact that Kansas State scored more points in

the various relay carnivals and in the Southwest-Big Seven dual meet than any other of the Big Seven schools.

Herb Hoskins, Rollin Prather, Virgil Severns and Jim Danielson carried the Wildcat cause to the nation's upper circles. Hoskins, who set a new K-State broad-jumping record with a leap of 25 feet, 2 $\frac{3}{8}$ inches, won the Big Seven outdoor broadjumping title and placed fourth in the National Collegiate meet.

During the summer, Hoskins, a junior, traveled abroad to Finland where he entered the international field. He captured fourteen firsts in as many meets.

Rollin "Tiny" Prather won fame for himself and Kansas State in the discus and shotput events. Prather copped a first in the discuss at the conference meet with a toss of 153 feet and a second in the shot behind Allen of Colorado. His toss of 164 feet, 9 $\frac{1}{2}$ inches set a new Wildcat record in the discus.

Virgil Severns was the other Wildcat to travel abroad. Severns went to England during the summer where he was defeated only once in his specialty, the high jump.

In the Big Seven meet, Severns took second behind Gorden of Missouri with a leap of 6 feet, 4 $\frac{7}{8}$ inches. He copped second in the National meet. At the Texas Relays in Austin, he set a new Kansas State record as he soared 6 feet, 8 $\frac{1}{4}$ inches.

Jim Danielson, though overshadowed by Hoskins, also was high in the national rankings in the broad jump. He was second in the Big Seven and sixth in the National. His 24 feet, 2 $\frac{1}{4}$ inch jump also broke the previous K- State record.

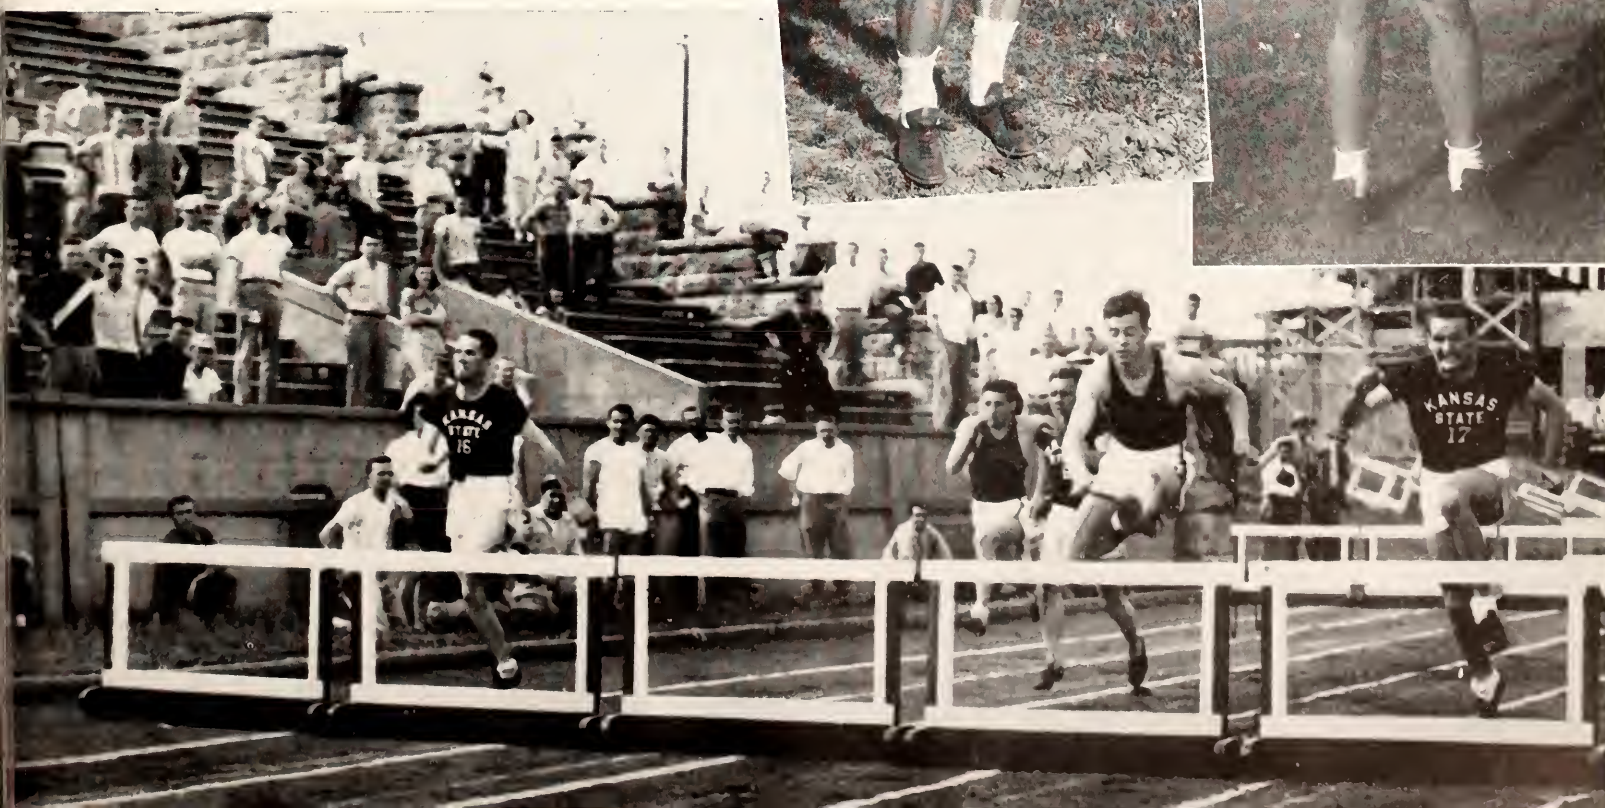

The Wildcats opened their 1950 season at the Texas Relays where they finished in a second place tie with Oklahoma A & M. Hoskins, Prather and Severns copped first places.

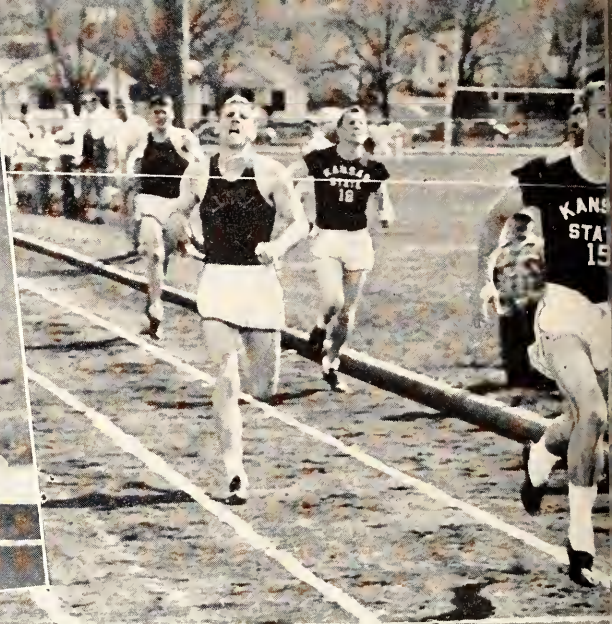

In the famous Kansas Relays at Lawrence, the Cats wound up in fifth place, leaders, however, of all Big Seven teams. Prather took the only first in the shotput. Severns in the high jump and Prather in the discus were runners-up.

Severns soared 6 feet, 6 $\frac{3}{8}$ inches at the Drake Relays in Des Moines to cop a first in the high jump. Prather's third and fifth in the discus and the shotput rounded out the Wildcat scoring. K-State's 14 points again topped all other Big Seven schools.

Kansas State gathered up 74 $\frac{1}{2}$ points in the Big Seven meet at Lincoln to wind up in fourth place.

INDIVIDUAL STARS for the Wildcats were Dave Van Haverbeke (top, left) two mile, Don Fraizer (top, right) javelin; Herb Hoskins (middle, left) broad jump; and Rollin Prather (middle, right) shot-put and discus. Below: Elliott and Faubion race KU's Greenwood for the tape in the low hurdles.

Hoskins and Prather captured the only first for the Cats. Troilo copped a second place in the 100 and a fourth in the 220. Elliott won a second in the high hurdles and a sixth in the lows.

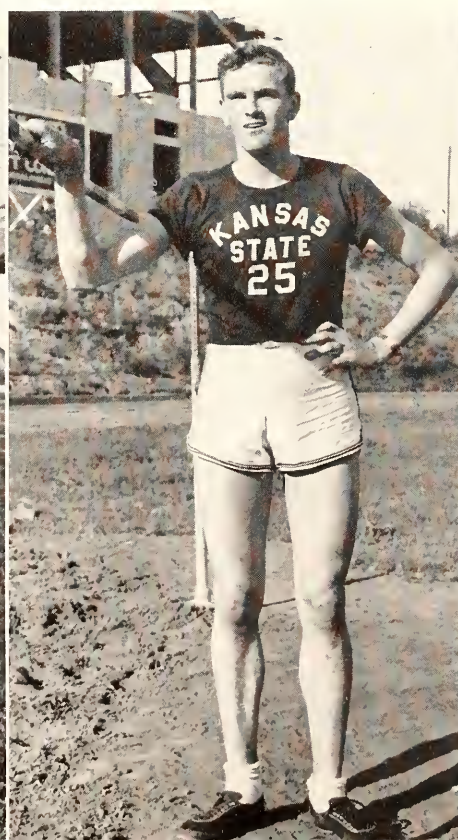

The Wildcats monopolized the broad jump, Danielson taking second and Creviston sixth. Frazier, whose toss of 201 feet, $4\frac{3}{4}$ inches set a new Wildcat javelin record, placed sixth in that event. Nunn, who tied for fifth in the pole vault, Hoskins, who was fourth in the 100-yard dash, and the fifth-place mile relay team rounded out the Kansas State scoring.

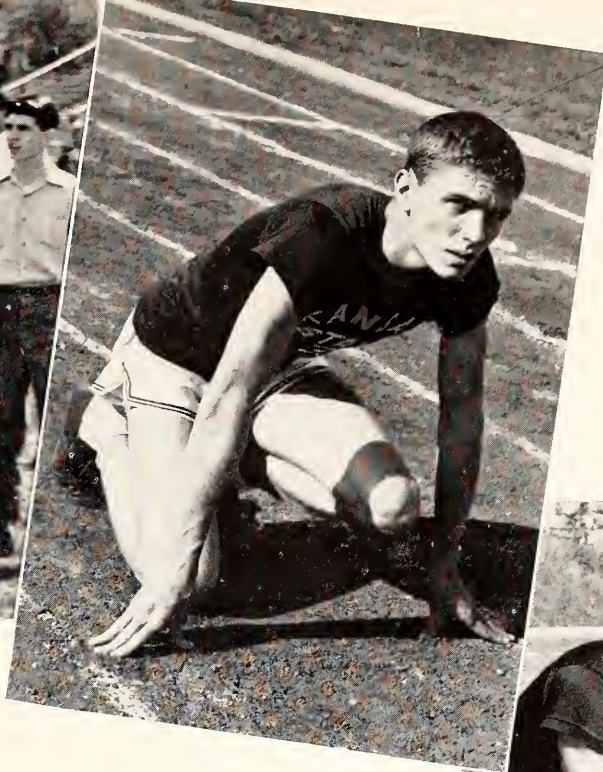

The outdoor track team participated in four dual meets during the 1950 season. At Emporia, K-State racked up a 89-42 count. Back in Manhattan, the Cats dropped a 66-65 thriller to their interstate rivals, the Kansas Jayhawks. K-State captured nine out of sixteen firsts and a shutout in the broad jump, but it was the lack of depth on the part of the Wildcats that gave the Mt. Oread thinclads their margin of victory. At the end of the broad jump event, the Cats were leading 65-61, but a KU win in the last event turned the tide.

At Ames, a weak Iowa State was no match for the Cats as the Cyclones wound up on the short end of a 103 $\frac{1}{3}$ to 27 $\frac{2}{3}$ count. K-State captured 13 of 15 firsts and completely blanketed their opponents in the shotput and broad jump.

Ward Haylett, the Wildcat coach, has been at K-State since 1928. He has been a referee frequently at nationally known relays.

He has been recognized by the Helms Foundation Hall of Fame and was one of the 1948 Olympic coaches. Coach Haylett is a member of the Century Club, an organization for all track coaches with twenty-five years of service.

Wildcat Two-Milers Have Poor Season

with injuries hampering 1950 team

The injury-ridden and illness-hampered cross-country team finished the 1950 season with little fan fare but gave promise of a better record when the cross-country season opens next year.

The Wildcats dropped their first dual meet to the Oklahoma Sooners at Norman, 12 to 26. (Low score wins). Drummond of OU broke the tape in 9 minutes, 37.9 seconds. K-State's Don Thurlow finished third in 9 minutes, 43 seconds.

The Iowa Cyclones swept the Wildcats off their feet at Manhattan as they underscored the Cats, 15 to

22. Thurlow of Kansas State crossed the finish line first in 10 minutes, 13.5, but Iowa placed men second, third, fourth and sixth to win the meet which was held during the wet, muddy season.

Kansas University, two-time Big Seven champions, trounced the Wildcats 14 to 24 at Ahearn Field. Jayhawker, Semper, led two teammates across the finish line, running the eight laps in 9 minutes, 42.5 seconds. Thurlow and Hanson finished fourth and fifth.

In the Big Seven meet at Lawrence, Kansas State placed fifth. Thurlow placed fourth for individual honors. Semper led KU to their third straight victory with a time of 9 minutes, 19.8 seconds.

Indoor Track Relies On Three Scorers

Baker, Severns, Hoskins are high men

The Wildcat indoor track squad had an average season during 1951, due mainly to the lack of sufficient depth. Thane Baker, Virgil Severns and Herb Hoskins carried the scoring load for the Purple and White.

Kansas State opened its season at the Michigan State Relays at East Lansing. Baker copped a first in the 300 yard run and a second in the 75 yard dash. Hoskins leaped 24 feet, 1 $\frac{1}{8}$ inches, to win the broad jump and Severns tied for first place in the high jump going up 6 feet, 4 inches.

The Cats then traveled to Des Moines to beat Drake University 53-51. K-State could only take five firsts, but took almost every second spot to win. New meet records were established by Severns in the high jump, Hoskins

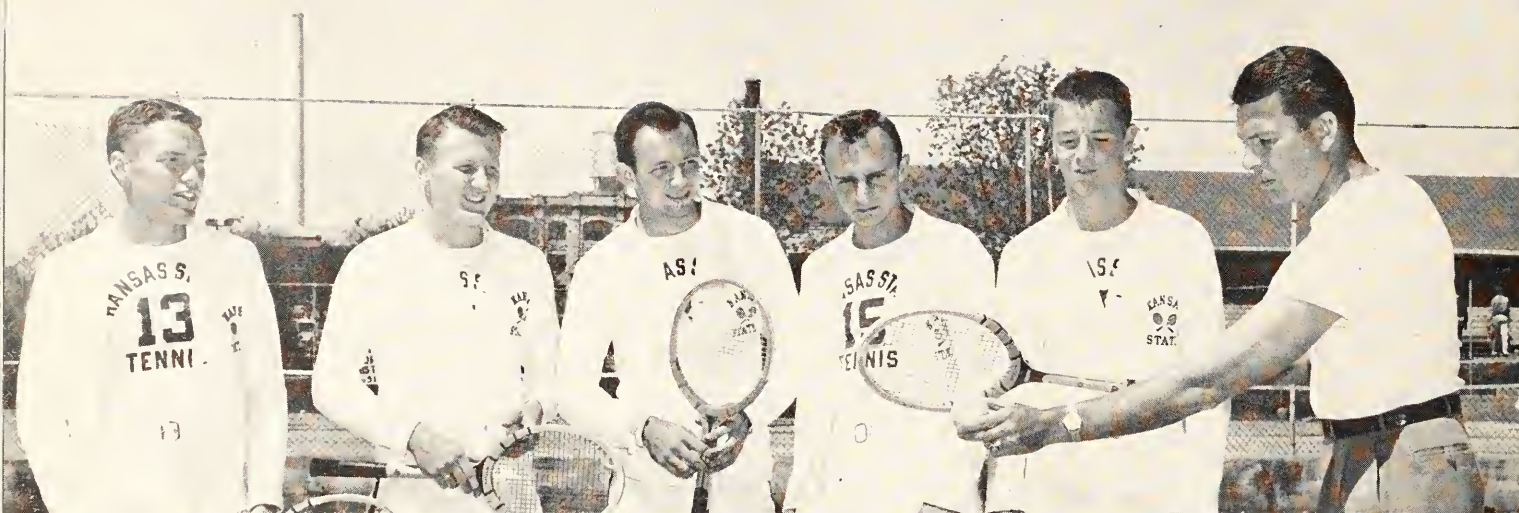

in the broad jump, and Frank Hooper and Dean Nunn in the pole vault.

In the National Indoor in New York, Hoskins took second with a leap of 24 feet, $\frac{1}{4}$ inches.

Severns won the high jump in the Pan American games in Buenos Aires, soaring 6 feet, 4 $\frac{3}{4}$ inches.

The Cornhuskers of Nebraska trounced the Wildcats 69 $\frac{1}{3}$ to 34 $\frac{2}{3}$ at Lincoln. Baker won the 60 and 440 yard dashes and ran on the winning mile relay team. Hoskins supplied the other first.

At the Big Seven Indoor meet, the Cats won only one first as Hoskins set a new broad jump record, jumping 24 feet, 7 $\frac{3}{4}$ inches. It was the eleventh new record he has written since coming to Kansas State. Kansas State placed fourth and Nebraska won the meet.

victorious in six of eight dual meets

The Kansas State tennis team downed six of their eight opponents in dual meets during the 1950 season. This, compared with the 1-7 record the preceding year, gave a slight boost to school athletics.

The Wildcats triumphantly scored twin victories over their arch rivals, the Kansas Jayhawks. At Lawrence the Cats won 5 to 2, while on their home court, they racked up a 4 to 1 count.

The powerful Oklahoma Sooners swept the Big Seven meet at Lincoln, collecting 18 points to second place Colorado's 11. K-State and Missouri were third

with six apiece, followed by Kansas, Nebraska, and Iowa State in that order. For Kansas State, Cris Williams captured a second place in one of the six singles brackets. Williams and Roger Coad were second in the conference in the doubles.

finishing with 3 wins, 4 losses, 1 tie

Although showing an improvement over the 1949 season, the 1950 Wildcat golf team left much to be desired. Coach Mickey Evan's golfers won three dual meets, lost four and tied one. They finished seventh in the Big Seven conference meet at Lincoln.

K-State began by dropping two meets away from home, to Wichita, 7 to 11, and to NU, 8 to 10. Dick Atkinson was medalist in the NU meet with a 73.

Back home, the Wildcats topped Iowa State, 10½ to 7½, and Nebraska, 11 to 7. Dick Atkinson was again medalist in the NU meet with a 71. In the third

home meet, K-State defeated Wichita, 11½ to 6½.

On the road again, K-State dropped one to Missouri, ½ to 17½, and one to KU, 2½ to 15½. At Manhattan, the Wildcats tied the Jayhawks, 9 to 9.

Men's Intramurals

eleven sports events attract many

From tee-off time at Stag Hill where the golf tournament is held in September until the last out is made on one of the many campus softball diamonds in May,

FRANK L. MYERS has been director of men's intramurals for two years.

men's intramural sports at Kansas State are hotly contested.

Nearly 100 organizations, including both fraternities and independent groups, participate annually in the festivities. Last year more than 1500

men were thrown into the fray in hopes of winning the many individual and team awards offered.

Trophies or plaques are given to team winners in all groups, while medals are awarded to titleholders in in-

dividual events. In addition, coat sweaters with the intramural emblem are presented to the twenty men who score the greatest number of points during the year.

Possibly the most coveted prize, however, is the large all-sports plaque provided for both the independent and fraternity division, upon which is engraved the names of the organizations earning the largest number of points during the year. Winners last year were Signa Phi Nothing among independents and Sigma Alpha Epsilon in the fraternity bracket.

The intramural program has grown to the point where it now consists of eleven sports: golf, touch football, horse shoes, handball, basketball, volleyball, table tennis, swimming, tennis, softball, and outdoor track.

Full time director of men's intramurals since the post was created last year, has been former assistant athletic director Frank L. Myers.

Intramural athletics were introduced at Kansas State in the fall of 1920 with basketball as the only activity. The following spring baseball and tennis were added to the schedule, and the intramural program has been growing by leaps and bounds since.

In the summer of 1928 the intramural athletic field located north of the new fieldhouse was prepared for use. Since the war however, a part of the grounds has been used for temporary housing necessitating replacement fields.

BETA THETA PI captured the first team sport of the intramural season as they downed Phi Kappa in an overtime period 13 to 12 in the fraternity finals of touch football.

INDEPENDENT TOUCH FOOTBALL victors were the Jr. A.V.M.A.'s who beat Blockaway 18 to 6 in the finals. Beta Theta Pi won the all-school championship 51 to 6 over Jr. A.V.M.A.

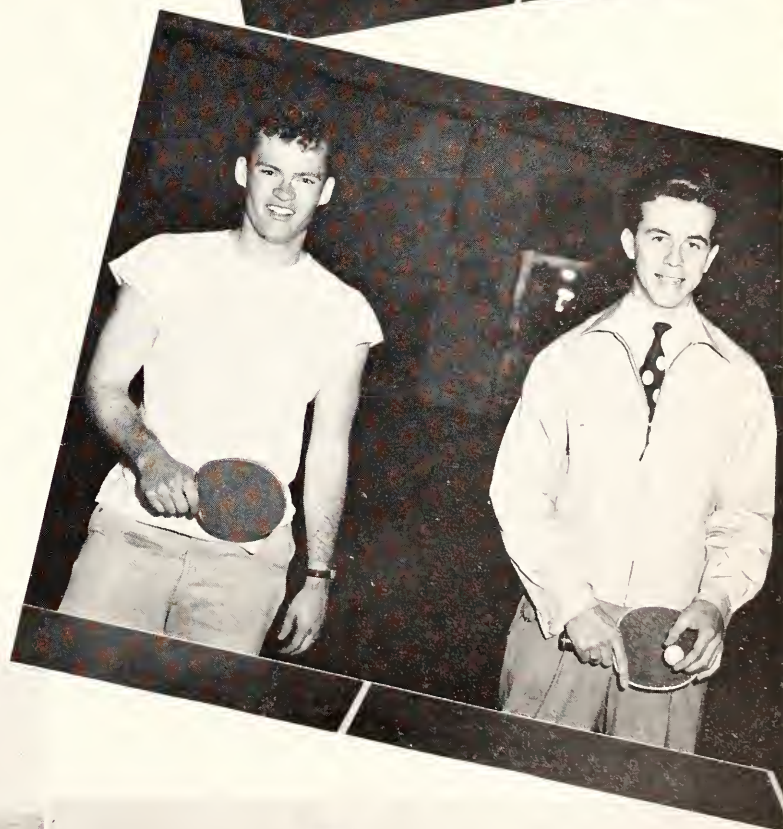

KAPPA ALPHA PSI (*upper left*) won the fraternity basketball championship. Virgil Spires and Bill Christian, Pi Kappa Alpha (*upper right*) were victors in the fraternity division of table tennis doubles.

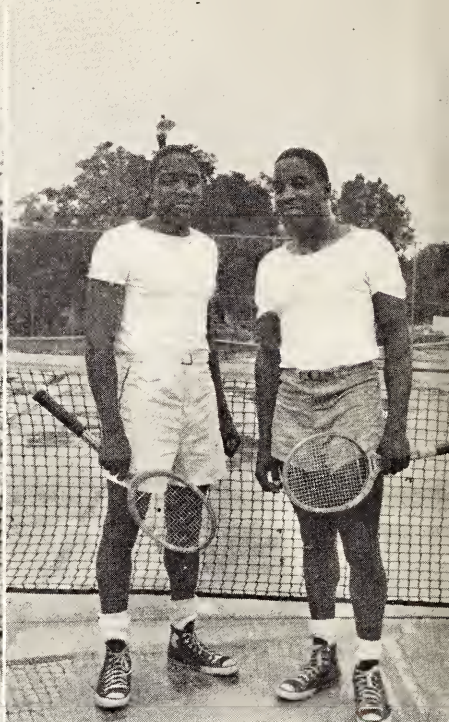

DWAYNE MOORE, Sigma Alpha Epsilon (*center*) winner of the fraternity singles crown in table tennis, lost in the playoff for the all-school title to Rodney Jeffries (*right*), Roots Ranglers.

JUNIOR WILDCATS (*lower left*) won the independent basketball title, but lost the all-school crown to Kappa Alpha Psi 34 to 18. Lane Brown and Don Villeme (*lower right*), Marshall County All-Stars, won the all-school table tennis doubles title.

SIGMA ALPHA EPSILON'S volleyball team (*upper left*) won the fraternity title late last winter. William Brown (*upper center*) of the Blockaway Club was the winner of independent tennis singles, while the Harris twins, Donald and Ronald (*upper right*), Kappa Alpha Psi, were fraternity doubles co-champions. D. Harris also won singles in the Greek division.

KING PINS OF SOFTBALL from among fifty-three competing teams were the Jr. A.V.M.A.'s (*center*). Beta Theta Pi (*lower left*) ruled the diamond sport in the fraternity bracket, but lost to the Jr. A.V.M.A.'s in the all-school playoff. Although losing the all-school title to S.A.E., the Ticks (*lower right*) won the independent volleyball championship of 1950.

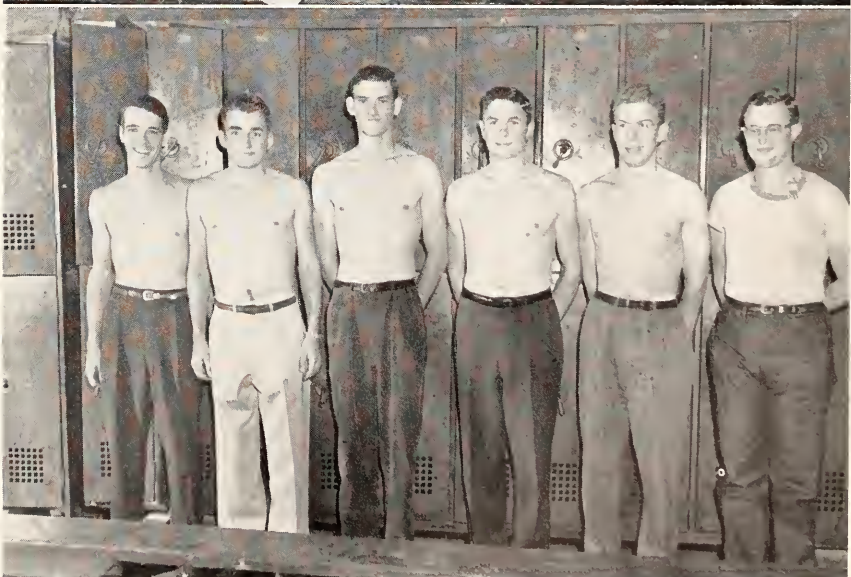

FOR THE SECOND CONSECUTIVE YEAR Sigma Alpha Epsilon with 71 1/6 points won the fraternity intramural track championship. Seventeen fraternities had 199 men competing last May in the ten event meet which was held in the football stadium over a two-day period. The ten members of the winning S.A.E. squad were: *Back row*, Marvin Johnson, George Lambros, Bob Rumble, John Costello, and Bill Hull. *Front row*, Dwayne Moore, Bill Harrington, Jim Iverson, Charles Spence, and Bill Aye.

EACH WINTER the intramural swimming meet is held in the pool in the basement of Nichols gymnasium. Last season the competition in the fraternity division was won by Sigma Alpha Epsilon whose members won six of the seven events staged, setting intramural records in each of the six. Members of the winning team were: Jerome Chandler, Neil Anderson, Ira Rogers, Bill Hull, Gene Kubicki, and Bill Aye. Danny Huston (not pictured) was also a member of the squad.

IN THE INDEPENDENT SECTION of the swimming meet, members of the Blockaway Club splashed their way to victory. The group garnered 63 points to easily win team honors from the other eight independent organizations that entered the three-day affair. The Blockaway team consisted of: Bob Schrum, Keith Selby, Murray Smith, Reid Rumsey, Don Lillick, and Charles Hoskins. Jim Walsh, Ted Gottas, Tom Fox, and Bill Hunter were also members of the team.

THE INDEPENDENT DIVISION of the track and field meet also hailed a repeating champion, as the Gutterbums racked up 97 points to have things all their own way. Eleven non-Greek organizations fielded teams, but none of them had the speed and squad depth to head off the Gutterbums. Members of the winning squad were: George Lambros, Charles Brehm, Keith Mines, and Lyle Rutter. John Pecenka and Norman Brandenberry were also on the winning Gutterbum team.

Women's Intramurals

lure Kansas State coeds to sports

For those coeds wishing fun, diversion, and exercise Kansas State College offers an extensive women's intra-

MISS KATHERYN MCKINNEY serves as director of women's intramurals.

murals program. This is in addition to the two-year physical education courses that are required for all freshman and sophomore girls.

Heading the women's intramural program is Miss Katheryn McKinney, assistant profes-

sor in the women's physical education department. Miss McKinney, under whose direction the intramural pro-

gram is improving from year to year, is now completing her fourth year as director.

Offered to the girls this year were contests in the following sports: volleyball, basketball, softball, tenniquoits, badminton, tennis, swimming, and table tennis. Three hundred eighty-seven coeds took part in the intramural program with volleyball and basketball being the largest drawing cards.

Fifteen groups, representing all of the organized houses on the hill and several independent clubs, competed. Among the organized houses, Clovia had the highest percentage of girls participating with 85 per cent of its membership competing in at least one sport. Following closely was Kappa Delta with 78 per cent.

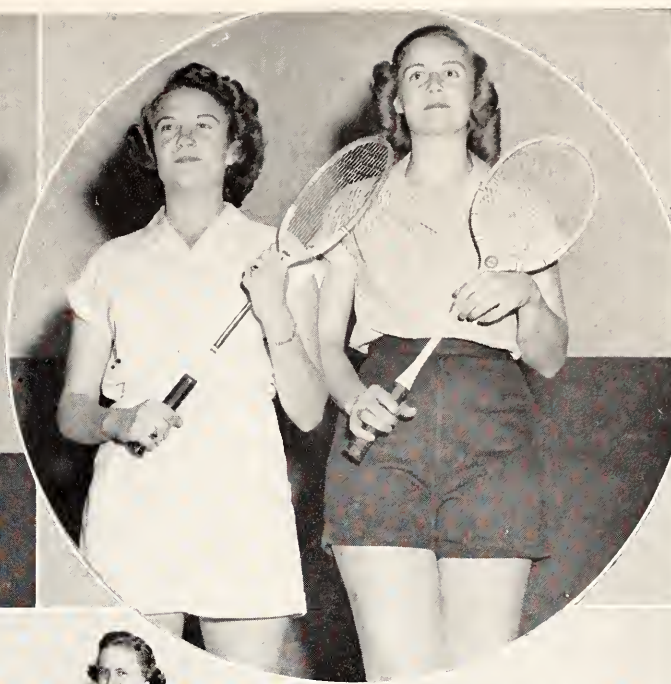

Last spring Van Zile Hall won the softball championship as the games were squeezed in among the heavy April-May showers. There was a tie for first in the judging of posture as Alpha Xi Delta and Pal O' Mie both were rewarded the same amount of total points.

Earlier in the spring while the snow was still hanging on out-doors, the Blitz Babes raced through a tough basketball schedule to win the title.

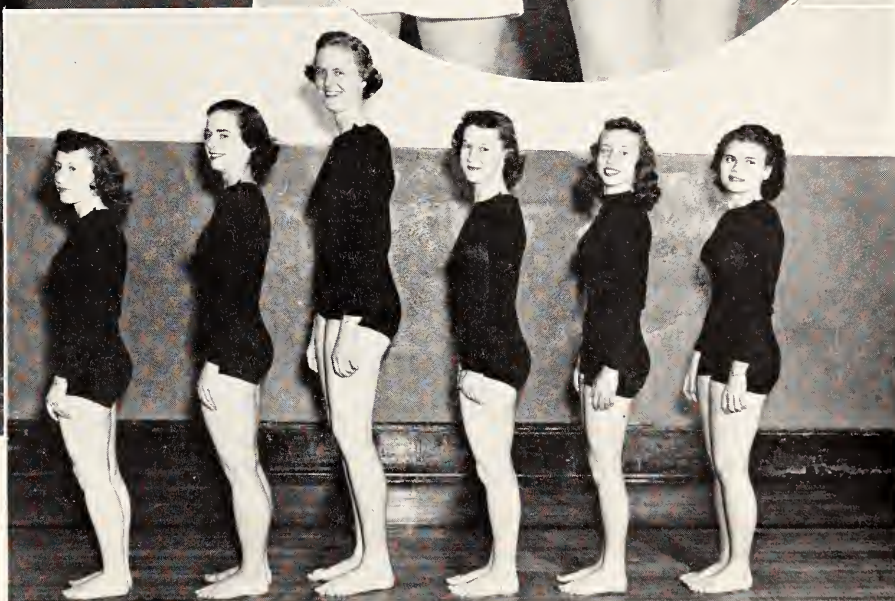

This fall, it was the Blitz Babes once again as they took the intramural tenniquoits crown. In the

fielded the winning club last season during the annual softball spring tournament.

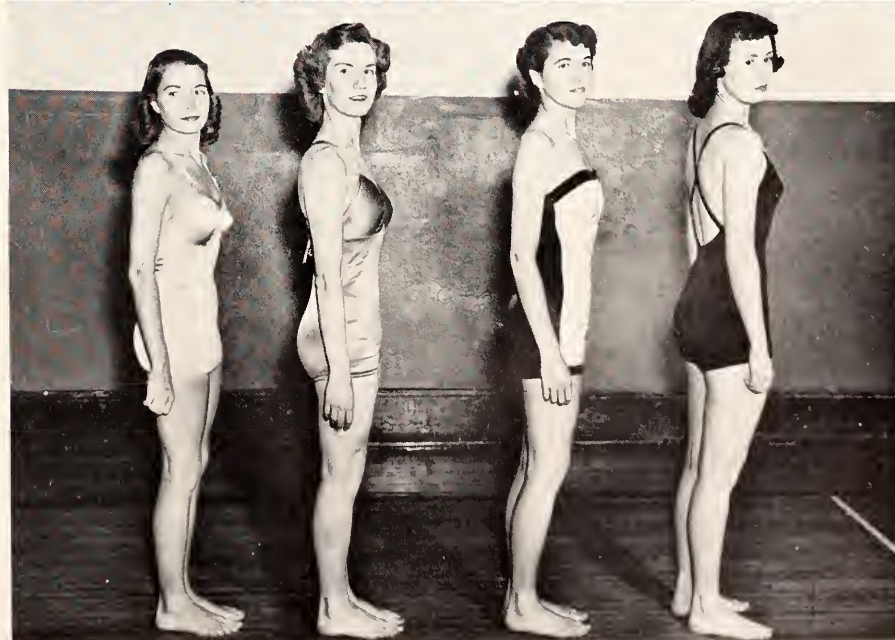

JANE SWANSON (*upper left*), representing Pi Beta Phi, won the badminton singles title in the tournament played off this fall.

WINNERS of the doubles championship in girls' badminton were Shirley Malcom and Peg Tangeman (*upper right*) of Waltheim Hall.

CO-WINNERS IN POSTURE were Pal O' Mie members (*center*): Marilyn Moomaw, Marilyn Garrison, Dorothy Bettenbrock, Leona Fry, Ruth Moomaw, Yolanda Van.

SHARING THE CROWN with Pal O' Mie were Alpha Xi Delta members (*bottom*): Francis Stover, Shirley McKitrick, Joan Conover, Marilyn Blankenship.

VAN ZILE HALL (*upper left*) won the girls' intramural softball championship in the spring of 1950. Winner of the modern dance competition was Alpha Xi Delta (*upper right*), represented by (*left to right*) Connie Copeland, Theda Whelan, and Mary Ann Dickenson. Blitz Babes (*lower left*) walked off with first place honors this year in

tennis. Lois Jones (*lower center*) of Van Zile emerged the singles champ in table tennis after a long tournament. In basketball, played off in the early spring of 1950, it was the team of Blitz Babes (*lower right*) who once again came out on top.

popular volleyball, however, it was Van Zile Hall that was not to be denied first place, moving through a hard elimination tournament. A tourney in tennis was started this fall, but rain forced its cancellation.

Several popular women's activities are not offered every year, being alternated to coincide with courses taught in the physical education department. This year social and ballroom dancing contests were not held.

In modern dance, one of the intramural sports offered only on alternate years, Alpha Xi Delta, represented by Connie Copeland, Theda Whelan, and Mary Ann Dickenson took first place.

Joining other individual winners in the women's sports program, Lois Jones of Van Zile Hall captured the mythical blue ribbon in the annual table tennis

tourney held during the winter.

Facilities for women's intramurals are certain to be better at Kansas State in the future. For years the girls have been confined for the most part to the basement of Nichols gymnasium, while their male counterparts, along with the varsity basketball team, have cavorted on the upper floors.

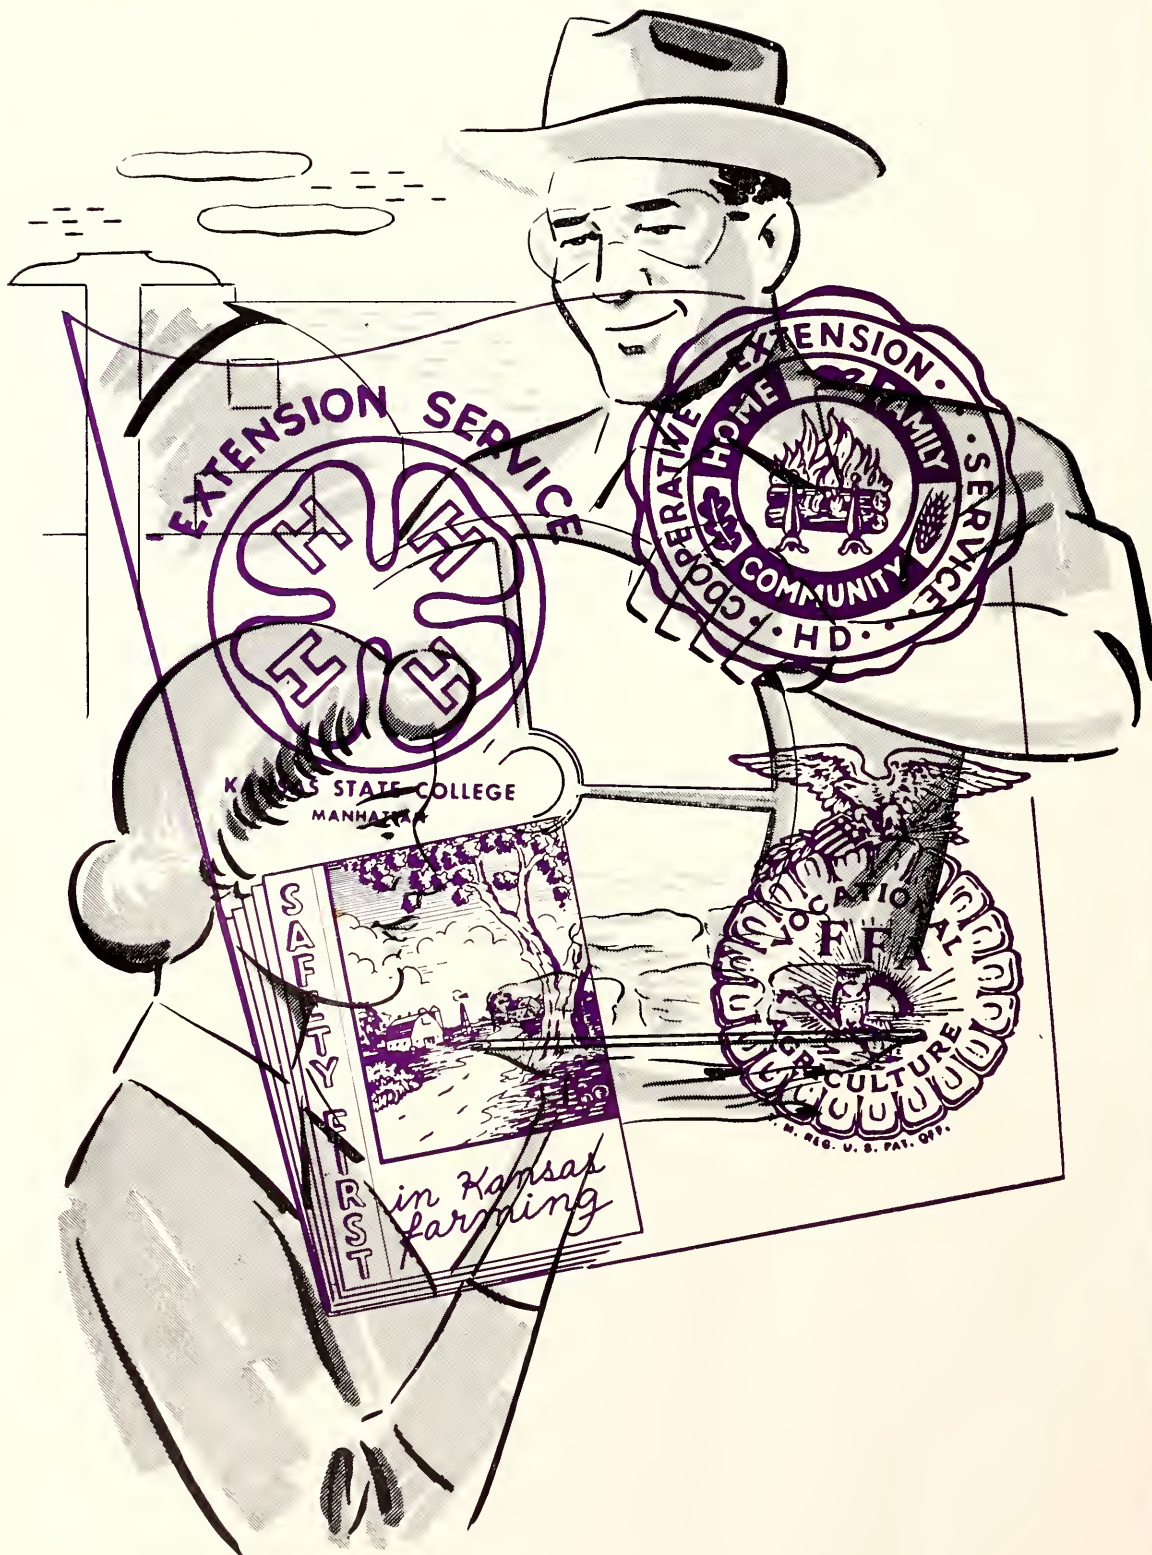

With the completion of the Fieldhouse however, the debatably weaker but certainly outnumbered campus coeds will have more room. It is quite probable that much of Nichols will be theirs in which to play.

No awards are given in women's intramurals either to individuals or to winning teams since it was decided by the faculty and by the girls themselves that they were not necessary.

Education

THROUGH the Extension Service, the College takes its classrooms, its laboratories, and its experimental fields directly to the people of Kansas.

County agricultural agents, most of them trained by the College, keep their areas up-to-date on the latest developments in agricultural methods. They do this by personal consultation, personal direction, Extension Service bulletins, pamphlets, and press releases. Regularly scheduled farm programs broadcast by the College's own station, KSAC, supplement this service.

Home demonstration agents bring directly to homemakers better methods of food preservation and preparation, timely household hints, better farm housekeeping—all the results of study and research at the College.

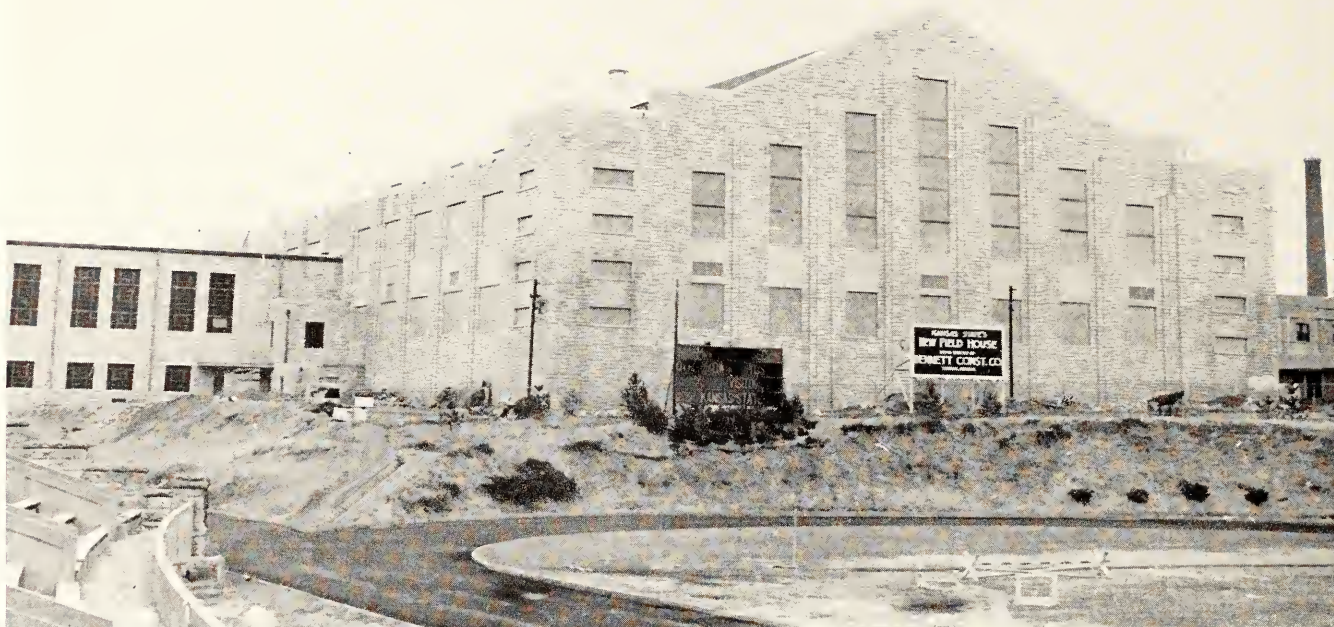

Working through the Extension Service, a central 4-H Club office at Manhattan helps individual county clubs improve their projects and achievement records, and serves as a central news-gathering and news disseminating point.

Through the Engineering Extension Service, Kansas farmers learn to construct better stock ponds and retaining dams, and to do better contour plowing, planting and terracing. The application of engineering skills to agricultural problems has long been a basic aim of the College.

The Home Study division of extension enables thousands of Kansans to take College credit courses by mail.

Extension is not a one-way street. Through its widely distributed agents, problems peculiar to particular areas are brought to the College for solution through research and study.

More than any other agency of the College, Extension assures the people of Kansas that the fruits of research are distributed immediately and efficiently to those regions in Kansas in need of specific kinds of help or direction.

The pride of Kansas State College and Manhattan is the new Fieldhouse which opened its doors for the first home basketball game of the season, December 9.
