FOREWORD

The 1953 Royal Purple has one purpose—to record in words and photographs a year at Kansas State college.

Year after year college yearbooks are somehow forced to contain almost the same material, with the exception of photographs. My staff and I feel that you readers will enjoy browsing over something a bit different this spring as we have changed much of the structural organization of the Royal Purple. As you read through the following pages you will notice, and we hope approve, these changes.

Seventeen Royal Purples preceding this one were outstanding in that they received All-American ratings. However, our chief aim is to produce a yearbook that you will enjoy and profit from, let the honors fall as they may. If in the years to come, the 1953 Royal Purple helps you re-live your years at Kansas State college, we will know that our book has served its principal purpose.

The spire of Anderson reflects the morning sun
in this panoramic view of the east campus.

It's **RP-day** on the campus—RP meaning Royal Purple, the College yearbook. The annual is being distributed to 5,000 eager students who are waiting to pore over its pages. Some line up in front of Kedzie hall to receive their books, while others, who came earlier, relax on the grass and read.

A hubbub of activity from morning 'til night is the Student Union parking lot. Each day hundreds of cars bring thousands of students to this spot from whence they disperse in all directions. This view was taken during one of the quieter periods—while classes were in session. In a matter of minutes the owners of the vehicles and their friends will stream from class and the hustle will begin again.

Late Friday afternoon classes have just been dismissed and students follow the walk from the new classroom building past ivy-covered Anderson toward the edge of the campus, free from books for a day or possibly a whole week end.

A horticulture class meets near the greenhouses to study the campus shrubbery. Across the street, physics and chemistry

students experiment in Willard hall. The College animal husbandry barns can be seen through the trees in the distance.

Stately Holton hall, better known as the Education building, stands overlooking the activities of a busy campus. Here students receive instruction in psychology, dramatics, and education.

Dark clouds are probably unnoticed as visitors, graduates, and faculty enter the Field House for the 1952 commencement exercises, which meant the beginning of a new life for the graduating seniors.

A feudal-like appearance is assumed by the spire of Fairchild hall and Danforth chapel, when viewed from the southeast campus.

A map-like view of the animal husbandry barns may be seen from the third floor of Dickens hall.

In Mathematics hall, one of the oldest classroom buildings on the campus, one of man's oldest courses of study is taught.

ADMINISTRATION

Congratulatory messages, a huge cake, and a greeting from President Eisenhower helped Kansas State college celebrate its 90th birthday last February 16. As one looks back over K-State's ninety years of service to the state and to the nation, one sees a school to be proud of. From one of the first land grant colleges established under the Morrill Act, K-State has grown to the second largest school in the state, and ranks high in the nation in many fields. Its School of Home Economics is the only one in the state, and ranks high nationally, it claims one of the outstanding Schools of Veterinary Medicine, the second largest fieldhouse, the only department of milling industry in the world, a top-ranking basketball team, and an Olympic star. The future is sure to be as successful. Happy Birthday, K-State, you've come a long way!

Kansas State's President James A. McCain directs the many activities of the College and its associated agricultural and

engineering experiment stations from his remodeled office in Anderson hall. Dr. McCain is the tenth Kansas State president.

McCain Brings 3-Year Building Boom

During the administration of President James A. McCain, Kansas State college has continued a program of educational and physical expansion unequalled in its history. New buildings on which work was begun during the past two years include the \$375,000 addition to the Library, a \$500,000 veterinary hospital, and a \$60,000 greenhouse. Also initiated was the construction of a pilot feed mill for which approximately \$200,000 was contributed by the nation's feed manufacturers. Construction of the \$1,500,000 Student Union build-

ing was begun in the spring.

In the summer of 1952 Kansas State obtained the first television channel and construction permit allocated by the FCC to a college or university. The College has received an offer of \$100,000 from the Fund for Adult Education of the Ford Foundation to assist in constructing a television transmitter and prospects appear excellent that K-State will be one of the pioneer institutions in the use of educational television.

The President regards Kansas State as more than a

campus-bound college. It is hoped that through the use of television and the already well-developed facilities of the College extension service that Kansas State can do an even more effective job of making available to all the people of Kansas the knowledge and culture obtainable at Kansas State college.

While the President is directly responsible for the activities of the College, a large and important part of the work done by Kansas State is determined by the caliber of personnel appointed for the school. The responsibility for these appointments and other decisions affecting general campus policy is handled by the State Board of Regents.

Present members of the Board of Regents include Walter Fees, Iola, chairman; Oscar L. Stauffer, Topeka; Lester McCoy, Garden City; Drew McLaughlin, Paola; Mrs. Elizabeth Haughey, Concordia; Arthur W. Hersberger, Wichita; Willis N. Kelly, Hutchinson; LaVerne B. Spake, Kansas City; and Grover Poole, Manhattan. Hubert Brighton, Topeka, is the secretary of the Board.

Edward F. Arn was re-elected Governor of Kansas in the 1952 election. Long a loyal booster of the College, Governor Arn has even more interest in Kansas State now than formerly, as his daughter Barbara enrolled as a freshman here last fall.

Students, faculty, alumni, and other visitors wait their turn to see the President while seated in the outer office. Mrs.

Grace B. Lindquist, the President's secretary, has the task of directing the many visitors into the President's private office.

Administrators

Financial affairs of the College are supervised by A. R. Jones, dean of finance, and school comptroller.

The College is for the students, but without the administrative officers behind them, the smoothly functioning organization that is Kansas State college would be a mere dream. From the time a student enrolls in school until he graduates, administrators help to guide, direct, and supervise his activities.

Supervising financial affairs and the College budget is Dean of Finance A. R. Jones, appointed to that post last year.

Directly responsible to the President is Dean of Administration A. L. Pugsley who supervises and directs academic affairs, and is the director of summer school.

From their redecorated and combined offices in Anderson, Dean of Students William G. Craig, Dean of Women Helen Moore, and Assistant Dean of Students Philip Sorensen, help

direct and coordinate student activities, government, and affairs. Dean Sorensen came to Kansas State from Portland, Ore., where he was director of public high school recreation.

Direct College

The welfare of the women students on and off the campus is the responsibility of Dean of Women Helen Moore. It is her job to develop the social, educational, and vocational activities of women residents between themselves and other living groups.

Maintaining a close relationship with the academic and administrative staffs in helping to interpret student needs is the responsibility of Dean of Students William G. Craig and Assistant Dean Philip Sorensen.

The College machine is for the students, but the administration keeps the wheels of the machine turning to provide necessary services for all students.

The President's right-hand man in charge of supervising academic affairs is Dean of Administration A. L. Pugsley.

K-State Administrators—*top row*: William Baehr, librarian; C. M. Correll, college historian; Theodore Cross, director of student counseling center; F. D. Farrell, president emeritus; Kenney L. Ford, alumni secretary; R. F. Gingrich, maintenance superintendent. *Bottom row*: Dr. B. F. Lafene, director of

student health; Max W. Milbourn, director of public service; J. W. Pratt, assistant comptroller; Dean Emeritus Roy A. Seaton, building expediter; Eric T. Tebow, director of admissions and registrar; and A. Thornton Edwards, director of housing.

**L.C. WILLIAMS
DEAN & DIRECTOR**

Results of research done at K-State are distributed throughout the state by the Division of Extension, headed by Dean

and Director of Agricultural Extension, L. C. Williams, and Assistant Dean and Agricultural Specialist, Paul W. Griffith.

Extension Serves Entire State

To spread the results of research done at K-State throughout Kansas is the purpose and job of the extension service of the College. Extension has been called the largest out-of-school educational system in the world.

The K-State Division of Extension is supported by federal, state, and county funds, and is the field arm of the United States Department of Agriculture and the College.

Extension helps to provide Kansans with the latest scientific findings, technical service, and the knowledge that will make them well-informed citizens. Extension also helps them to analyze local conditions, recognize

their major problems and evaluate their resources.

The county agricultural agent, home demonstration agent, and 4-H club agent are the local representatives of the K-State extension service. The agents use such devices as conferences, meetings, telephone calls, personal visits, demonstrations, radio, and publications, to teach the people they contact.

A Home Study Service, financed entirely by state funds and student fees, is available to residents of Kansas who cannot attend classes on the campus. During 1952, there were 2,053 students enrolled in high school or college credit courses by correspondence.

Many Fields Of Extension

Dean of the Extension Division L. C. Williams is also the director of the agricultural extension service, representing both the College and the Department of Agriculture. Working with him is Assistant Dean Paul W. Griffith, Agricultural Specialist.

The program of home study is headed by Dr. George Gemmell, and maintains a full-time faculty for the grading and instruction of papers from correspondent students.

John Ferguson heads engineering extension, teaching the principles of engineering which may be applied to agriculture.

Supervising and helping the home demonstration units and 4-H work are the duties of Georgiana Smurthwaite, head of the home economics department.

Extension information is directed by Lyle Longsdorf. He communicates with the people of Kansas through KSAC, the radio voice of K-State, and bulletins, to give listeners and readers the latest findings.

K-State extension heads—*top row*: W. G. Amstein, agricultural specialist; Harry C. Baird, district agent; Frank O. Blecha, district agent; John M. Ferguson, extension engineering; Arthur L. Hjort, extension administrative assistant. *Bot-*

Peairs Wilson, R. M. Kerchner, Reed F. Morse and M. A. Durland.

Chairman of the Faculty Senate is Prof. Russel M. Kerchner, who presides over the monthly meetings of the 44 Senate members. Members of the Faculty are elected by the faculty members of each school of the College.

Senate Recommends New Department

The Faculty Senate was first organized in November of 1951, replacing many general college committees. The Senate determines policy relating to all-College problems and makes recommendations subject to approval by the President and the State Board of Regents. The group also approves all course and curriculum changes and must approve candidates for degrees. The main business of the Senate this year has been the discussion, approval, and the recommendation of the establishment of a department of general study, which would include such courses as comprehensives.

A clearing house for Faculty Senate business is the executive committee elected by the Senate. The committee elects the chairman and secretary of the body each year. Subordinate to the Senate are three permanent committees and four councils. All are composed of members of the Senate with a few exceptions. The committee titles are physical facilities, faculty affairs, and academic affairs. Athletic, Graduate, Public Affairs, and Student Affairs, are the four councils. The latter is the link connecting the Senate with the Student Council.

Council Appoints and Recommends

The Student Council is composed of representatives elected by the student body. The number of members elected each year is based on the College enrollment, and then apportioned to each school. Last spring sixteen members were chosen for council seats.

Council members attended the Big Seven conference at MU in December, discussed and voted down joining the National Student Association, decided to change closing hours, and received front page Collegian coverage of every meeting.

Holding the top student office for the year was John Schovee, a senior in milling from Topeka. As student body president he is an ex-officio member of the Student Council.

Chairman of the Student Council was Bill Walker. Other officers were Thane Baker, vice-chairman; Jackie Christie, corresponding secretary; Jeannine Wedell, recording secretary; and Bob Skiver, treasurer. Dean William Craig and

Prof. Thomas B. Avery were faculty advisers.

Through subcommittees of the Council, recommendations were made for constitution revisions, and all College varsities and free movies were made available to the students in which potential leaders were trained for responsible positions in student government. A new leadership training program was initiated second semester. Billy May and his band played for an all-school dance before Christmas.

Tribunal—standing: Neal Atkinson, Merlin Dennis, Ivan W. Schmedemann. Seated: M. Blythe Guy, Patricia R. Coad, A. D. Miller, Roger M. Brislawn, Wilson Tripp, and Helen E. Clark.

Apportionment Board—standing: Charles Weathers, Dean William G. Craig, Dr. H. H. Haymaker. Seated: Gertrude E. Leinkaemper, John R. Schovee, Bob Featherston, and Dixie J. Des Jardins.

Groups Handle Funds, Dances,

Disciplinary problems of the College go to the judicial branch of student government, the Tribunal. Determining parking violations, enforcing the honor code, and carrying out the academic honesty program are the responsibilities of this group. Since the Tribunal was first organized in 1952, most of its business has concerned traffic tickets and other parking violations on the campus. Decisions of the Tribunal must be approved by President McCain. Set up in a manner similar to the national judicial board, the nine justices are appointed by the President from nominations submitted by each school council. Roger Brislawn has served as chancellor for the Tribunal since it was begun.

A presidential committee with important duties is the Apportionment Board, which has the responsibility of planning and regulating the distribution of student activity fees from the College budget. Members are nominated by the Student Council and are appointed by the President. John Schovee, president of the student body, automatically served as ex-officio chairman. Four faculty members and three other student members comprise the board. The biggest apportionments each year are allotted to athletics and student publications. Several of the other activities receiving funds are the band, orchestra, judging teams, K-State Players, and Lift Week. However, any activity may request funds.

Student Union Planning Committee—standing: Paul Weigel, Ronald R. Watters, Stuart E. Whitcomb, Philip H. Sorensen, Edith L. Schmid, Dean William G. Craig. Seated: Helen R. Jassman, and Dean A. L. Pugsley.

Social and Recreation Committee—back row: Mike A. Chappell, Philip H. Sorensen, Karolyn King, Robert N. Skiver. Front row: Marilyn L. Benz, Phyllis A. Conner, Doris A. Wolgast, Frank C. Andrews, Mary L. Woodward, Clifford C. Bizek. Standing: M. Jean Sheets.

Plans and Traffic Violations

The general supervision of the social program for the campus is the responsibility of the social and recreational committee. With members appointed by the Student Council, this organization sponsors movies, dancing lessons, and many other all-College activities that are usually free of charge to the student body. The two biggest projects of the committee this year were the two name band dances. In December Billy May played at the combined name band dance and Royal Purple ball, and in March Woody Herman visited the campus to entertain. Jean Sheets was chairman of the committee and Prof. Stuart Whitcomb and Philip Sorensen are faculty advisors.

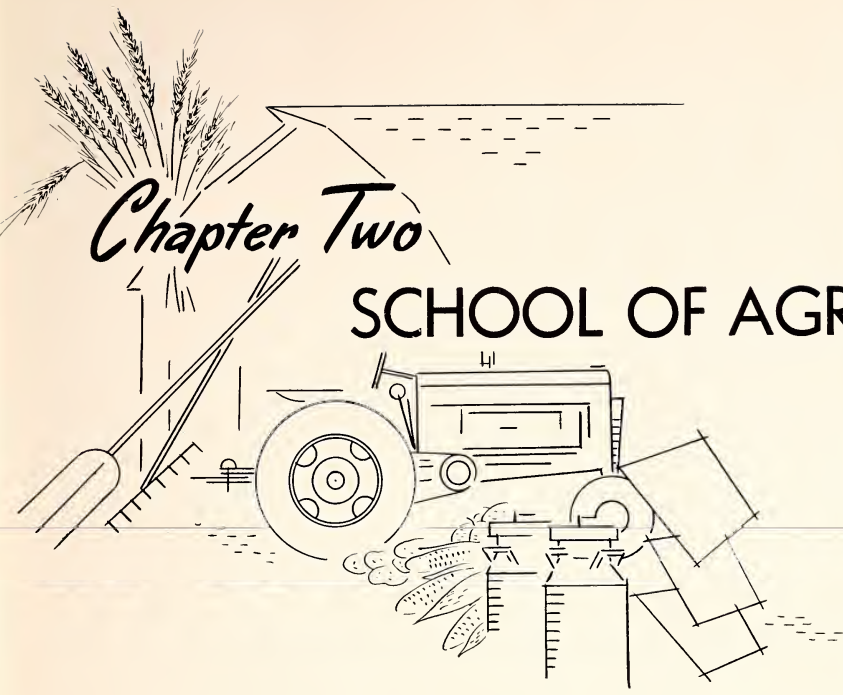

The details of the plans and architectural aspects of the new Student Union have been discussed and decided upon by the Student Union planning committee. This group operates under the auspices of the Faculty Senate, and is a sub-committee of the committees on physical facilities and campus development. Faculty members are appointed by the Senate, and Dean A. L. Pugsley is chairman. Other faculty members are Prof. Leone Kell, Prof. Stuart Whitcomb, Prof. Paul Weigel, Dean Craig, Dean Moore, and Philip Sorensen. The six student members are appointed by the Student Council. The work of this committee will not be completed until the Union is an actual functioning part of the campus.

Student Planning Conference meant serious discussion of College problems.

Registration opens the three-day meet (upper left and right); The faculty entertains (circle); A wiener roast (center); Discussion session (lower left); Dancing on tennis courts (lower right).

Chapter Two

SCHOOL OF AGRICULTURE

Kansas without agriculture would be like bread without butter or vice versa. The School of Agriculture at Kansas State college strives to prepare students planning a vocation in farming or in an allied agricultural field. Some courses in agriculture have been taught at K-State since 1854, but today there is an organized school, with seven departments and numerous curricula. The College owns 2,784 acres of land for experimental work and instuction, and also maintains large and well-equipped laboratories for soil and crop work. The Students also become familiar with types of animal breeds through actual stock work. The school's judging teams are among the top in the nation, and the annually-staged Little American Royal draws a crowd from all over the area. Kansas State college is doing its share to prepare boys and girls for a life and vocation satisfying and profitable—agriculture. It is the bread and butter of Kansas.

East Waters hall, one of the few places in the world where students can obtain training in milling administration, milling chemistry, and milling technology is now connected to West Waters hall by the new wing. The office of the dean of agriculture and several ag school departmental offices have been moved from East Waters into the new wing.

Administrators of the School of Agriculture and the agricultural experiment stations are Clyde W. Mullen and Harold

E. Myers, assistant deans; Arthur D. Weber, dean; and C. Peairs Wilson, assistant director of the experiment stations.

Dean Weber Heads Ag School

Dr. Arthur D. Weber, noted internationally as a cattle show judge, was elevated to the post of ag school dean on July 1, 1952. Weber, the first animal husbandry man ever to hold the job, has been on the Kansas State staff for 23 years. He was head of the animal husbandry department from 1944 to 1950 and was associate dean from January 1950 to July 1952.

Dr. Weber was recognized as an outstanding livestock man by the Saddle and Sirloin club at the 1952 International Livestock Exposition. A banquet was given in his honor at which time his portrait was hung in the

Saddle and Sirloin room to commemorate the occasion.

Dr. Harold E. Myers, agronomy department head, was appointed assistant dean. He will supervise the experiment stations at Fort Hays, Mound Valley, Garden City, Colby, and Tribune. Prof. C. Peairs Wilson will serve as assistant director of the experiment stations.

The Kansas State agricultural experiment stations work in conjunction with the United States Department of Agriculture in helping to develop and expand theories of agriculture which can be applied by Kansas farmers to solve their practical problems.

Ag Association Officers
—top row: Jay Zimmerman, Richard Fleming, Harold Reed. Bottom row: Douglass Fell, George D. Wingert, and John Schovee.

Ag Association Directs Ag Week

President John Schovee headed the executive body of the Agricultural association which had 961 members this year. Sponsored by Dr. Milton Manuel, this group conducted the annual Ag Week activities, the Ag Barnwarmer, the publication of the Kansas Agricultural Student, and the monthly seminars of the ag school.

Scholarships or fellowships available for students in agriculture include the Borden Fellowship which provides for two scholarships in dairy husbandry. The Carl Raymond Gray fund is given by the Union Pacific Railroad for 4-H and vocational agriculture winners. Kroger awards and the Sears Roebuck scholarships provide awards for 15 freshmen and one sophomore annually. The Fulton Bag and Cotton Mills company offers a scholarship to the outstanding freshman in milling each year. Richard Robertson received this year's

scholarship as an outstanding student.

Courses in agriculture have been taught at the College for 89 years. Along with the other departments and schools of KSC, the School of Agriculture was established by the Board of Regents in 1912.

Dr. Raymond V. Olson was promoted on July 1, 1952, to the head of the department of agronomy, succeeding Dr. Harold Myers, who moved to assistant dean of the school. Doctor Olson and the other department heads will serve in the administration of the School of Agriculture. The school is divided into seven departments representing almost every phase of agrarian operations. These departments include animal husbandry; dairy husbandry; agriculture economics; agronomy; poultry husbandry; horticulture; and flour and feed milling industries.

School of Agriculture department heads—F. W. Atkeson, dairy husbandry; Rufus F. Cox, animal husbandry; George Montgomery, agricultural economics; R. V. Olson, agronomy;

Loyal F. Payne, poultry husbandry; William F. Pickett, horticulture; and John A. Shellenberger, flour and feed milling industries.

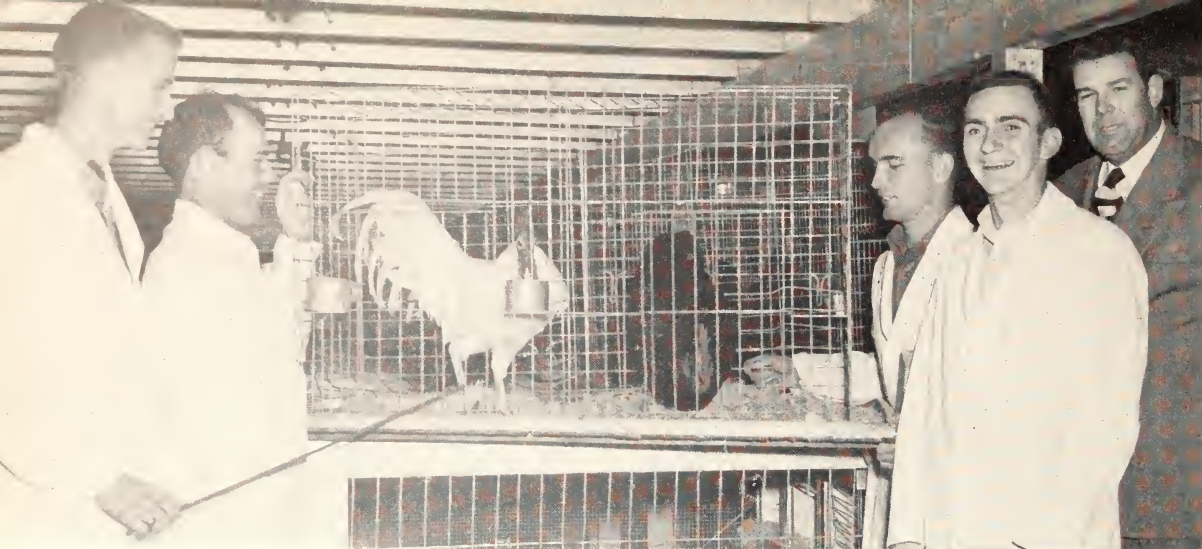

Practical experience supplements "book larnin" to give Kansas State agriculture students a well-rounded and useful education.

Flower arrangement is practiced by a floriculture class in the Greenhouse (*upper right*); Poultry students study the real thing (*upper left*); Ice cream that is sold in the Dairy Bar is made by dairy manufacturing students (*left*); Dairy judges attend an outdoor class near the dairy barns (*lower left*); Future millers gain experience by operating Kansas State's mill, which is located in East Waters hall.

Kansas State's poultry judging team composed of (left to right) C. Gene Park, Dale Davies, Kenneth F. Kern, Leonard

E. Muir, and coach Prof. Thomas Avery won the eighth National Intercollegiate Poultry judging championship, Chicago.

KSC Judging Teams

Meats Judging Team—Don G. Reese, George D. Wingert, Ken T. Boughton,, coach Ralph P. Soule, and Harold Reed.

Wool Judging Team—Dale Davies, Dave A. Schoneweis, Stanley E. Slyter, Maurice A. McClure, and coach Prof. T. Donald Bell.

First place honors in the intercollegiate judging contest at the 1952 American Royal were taken by K-State's senior livestock judging team, coached by Prof. Don Good. Twenty schools competed for honors in the contest. Ray Sis, an animal husbandry senior, amassed a total of 922 points out of a possible 1,000, to become the high-scoring man in the Kansas City show. The entire team accumulated 4,361 out of a possible 5,000 points. Missouri placed second and Minnesota third.

The livestock judging team finished in fifth place in the contest at the International Livestock Exposition in Chicago, competing in a field of 36 teams. There the team racked up 4,243 points out of a possible 5,000.

The wool judging team placed second at the Royal in breed, fourth in commercial classes, and second among all competing teams.

Also at the Royal, the meats team coached by Ralph Soule came in thirteenth, but at the International, the

Dairy Judging Team—Coach Glenn H. Beck, Glen L. Krumme, Joe W. Armstrong, Duane E. Traylor, and Jim Schuh.

Kansas State's senior livestock judging team won first place honors at the 1952 American Royal last fall. Team members

team won fifth place among the 20 teams entered. Harold Reed was high man in beef grading and classification and also ranked seventh at International.

K-State banners flew high at the National Intercollegiate Poultry judging contest. The team captured its third consecutive championship and its eighth national championship—more firsts than any other college in the nation. The team, coached by Prof. Thomas Avery, out-scored 21 other teams, picking up 3,867 points out of 4,500 possible.

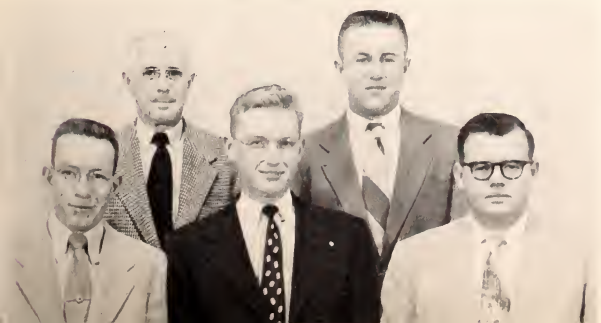

The crops judging team, coached by Prof. Ernest Mader, took in 4,831 points out of a possible 5,400 or place ninth in the International at Chicago. Howard Wilkins was second high individual in the show. K-Staters were seventh in the Kansas City contest.

Fifth place at the National Dairy Cattle Congress at Waterloo, Iowa, was won by the K-State dairy team last October. Prof. Glenn Beck is coach of the team.

Grain Judging Team—James A. Joyce, coach Ernest L. Mader, Don O. Dauber, and Howard Wilkins.

Ag Mag staff was headed this year by editor Dick Fleming (right). He was assisted by business manager Bob Hoisington (left) who was succeeded by Chuck Bellman second semester.

Ag Mag Expands Its Circulation

The Kansas Agricultural Student, published by students in the Agricultural association, set some new records this year. Under the direction of a new advisor, Stan Creek, and this year's editor, Dick Fleming, the Ag Mag monthly circulation was increased from 1,600 in the fall to 2,000 for the spring copies.

In the past the Ag Mag was published four times each school year. Starting in February the magazine was published every month of the spring semester. The March issue was a special one in honor of the twenty-fifth anniversary of the Little American Royal. This issue sold 3,200 copies. Because of a larger advertising campaign which was carried out this year, it was possible to produce a larger magazine than formerly.

Aggies, Millers, Active Clubbers

The Agricultural Council came into existence in 1948 as a result of an amendment to the Agricultural Association constitution. The members of the council correlate the interests of the school and serve as a contact between the Student Council and the school. The members are elected through the departmental clubs or are officers of the association. John Schovee was chairman and Dean C. W. Mullen is faculty sponsor.

Ag Clubs Offer Writing, Science

An interest in agricultural journalism is the requirement for membership in the Plow and Pen club. The club strives to promote a high scholastic standard among students in ag journalism and also tries to bring about

a better understanding between students and professionals. The club's 16 members hold regular dinner meetings. Nick Kominus was president and Stan Creek is faculty sponsor.

Thanksgiving turkeys were sold by members of the Poultry Science club to aid the poultry department. Creating an interest in poultry husbandry and promoting closer friendship and cooperation among students and faculty is the purpose of the organization. The

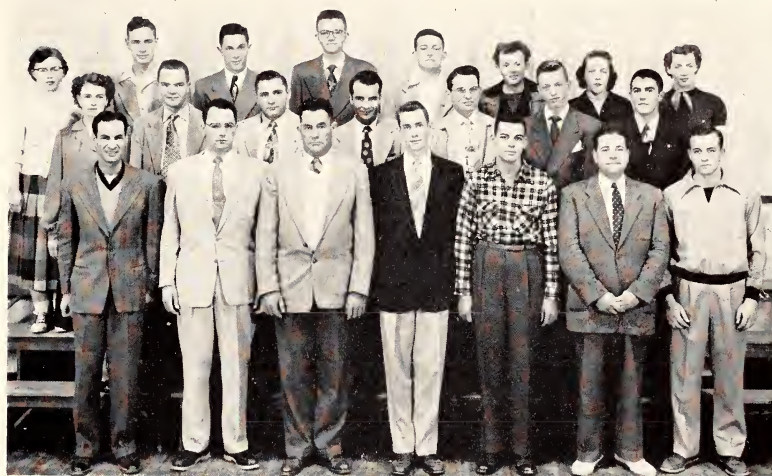

club sponsored the junior and senior poultry judging contests and held a banquet to award prizes to the winners. Members held a stag barbecue in the fall. Amos J. Kahrs was president and Prof. Clyde W. Mueller is faculty sponsor.

Clubs Offer Education, Fellowship

Promoting good fellowship and advancing interests in horticulture are the purposes of the Horticulture club, which was organized on the campus in 1920. Any student or faculty member interested in horticulture may join. During the fall the club sponsored a horticulture

products judging contest in which any college student could enter. Jack Kyle served as president and Prof. Ronald W. Campbell is faculty sponsor of the club, which is a junior branch member of the American Society of Horticulture Science.

Membership in the Extension club is primarily for those who wish to become county, club, or home demonstration agents. Any boy or girl interested in extension may join. The objectives of the club are to become better acquainted with Kansas State's Extension Division personnel, to learn extension methods and policies, and

to become better acquainted with the club's members. In addition to learning more about extension programs, the club helps promote the extension work through their own radio program. Clifford Meireis was president and Prof. Leonard Neff and Prof. Naomi Johnson are faculty sponsors.

Clubs Sponsor Contest, Little Royal

The student crop judging contest is an annual project of the Klod and Kernel club. The contest is in the spring and prizes and cash awards are awarded to student winners. Organized to further the interests of agronomy, the club was instrumental in starting similar clubs among agricultural colleges. Don Dauber was president and Prof. Ernest Mader and Prof. Roscoe Ellis are faculty sponsors.

Kansas State is a charter member of the national Block and Bridle club for animal husbandry students, which was organized in 1919. Members now boast of their faculty sponsor, Prof. Dave L. Mackintosh, who is president of the national organization. The club co-sponsored the Little American Royal with the Dairy club. Henry Gardiner was president. At the present time there are about 82 members on campus.

Econ, Education Spark Ag Clubs

Students enrolled in ag administration, ag economics, or with an interest in economics, may become members of the Agricultural Economics club. This organization is a member of the Junior Section of the Farm Economics association. "The Door to Success is Labeled Push" is the motto of the group. An annual steak fry for club members and faculty is held at the last meeting of the year. Besides other club social activities, members and staff take an active part in club projects. The group meets once a month to hear speakers. Eldon L. Johnson was president and Dr. J. A. Hodges is faculty sponsor.

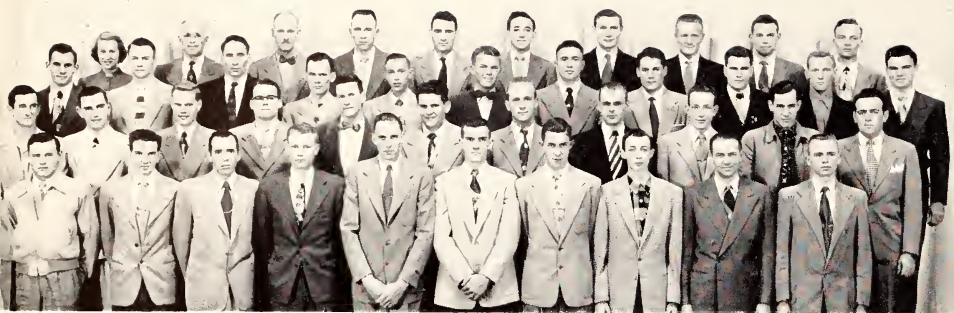

A model Future Farmers' of America forum is held each year by members of the Agricultural Education club to prepare students as vocational agriculture teachers. The club, which was organized in 1945 is for students in agricultural education, and works in connection with the Kansas Association of FFA. Speakers addressed regular monthly meetings, and the club held two social events during the year. A box lunch was served by members during the state high school judging contest. Emery Berry was president and Prof. H. R. Bradley is faculty sponsor.

Ag Groups Promote Special Fields

Dairy-minded students co-sponsored the Little American Royal and sponsored a collegiate judging contest for dairy cattle. Membership in the Dairy club is open to any KSC student or faculty member especially interested in dairying. The club's purpose is to serve KSC and the dairy department by providing information and fellowship. Members entertained with a smoker, a square dance, and steak fry in the fall. They assisted the dairy department with Farm and Home Week and the Formula Feed conference. Joe Armstrong was president and Dr. E. E. Bartley is faculty sponsor.

Milling lectures were given once a month to members of the Milling Industry association by nationally prominent persons representing some phase of the milling industry. The organization offers students enrolled in milling or an allied field the opportunity to get together and keep informed on new innovations and changes in milling and associated industries. The 72 undergraduate members met at the end of the school year for a picnic honoring the milling faculty. Charles Weathers served as president. Faculty sponsors are E. P. Farrell and Don Palmer.

Ag Week means electing a queen, throwing the Barnwarmer dance, and occasional dunkings for aggie students who do not wear the traditional costume.

The Ag Barnwarmer dance was in full swing in Nichols (upper left) as Barnwarmer Queen Joan David and her attendants Bonnie Hoffman, Helen Morris, Betty Jo Hoffmeier, and Millicent Schultz, were crowned (upper right) on October 25. A horsetank victim gets a free bath from the aggies (middle left); A crowd watches (above) as queen candidates display their farm skills by driving a tractor (left), milking a cow (lower left), and roping a steer (lower right).

Chapter Three

ARTS AND SCIENCES

In past ages, the arts and sciences of a people have characterized their whole way of life. The same is true today. The School of Arts and Sciences at Kansas State has the largest total enrollment of any school in the College, and the curriculum in business administration, the largest in the school, is also the largest in the entire college. A new curriculum, elementary education, is now offered and claims an enrollment of 130. The new Arts and Sciences classroom building, complete and modern, and the necessity of having to hire additional instructors, is evidence of the popularity of the arts and the sciences on the K-State campus. Teaching over 50 per cent of all the classes taught, the School of Arts and Sciences offers almost any curriculum desired in the modern world, from math to music, physics to physical education, pre-vet to political science, and English to education.

Standing before the newly completed \$655,000 Arts and Sciences office and classroom building, Assistant Deans Joe Eisenbach Jr. and G. Orval Ebberts discuss school plans with

Dr. Rodney W. Babcock, dean of the School of Arts and Sciences. Eisenbach was appointed to the position in the spring of 1952, and Ebberts has been assistant dean for four years.

Arts and Sciences Is Largest School

With an unexpected enrollment of 1,882 students as compared with 1,762 last year, the School of Arts and Sciences found many new problems to meet this year. Thirteen temporary instructors were employed for the fall semester and seven permanent instructors were added to the staff.

The newly completed Arts and Sciences building, occupied last spring, helped meet the increase in enrollment. The building has 41 offices and 31 classrooms and houses the departments of English, modern languages, speech, and history, government, and philosophy.

Students linger in front of the new Arts and Sciences classroom building as they chat with friends and smoke that last

Dr. Rodney W. Babcock, dean of the School of Arts and Sciences, is assisted by G. Orval Ebberts and Joe Eisenbach Jr.

Col. Laurence F. Brown, military science, Prof. Vernon D. Foltz, bacteriology, and Dr. Stuart M. Pady, botany and pathology, were named as new department heads.

A new four-year curriculum in elementary education began with the fall semester and by second semester 130 students were enrolled in the new curriculum. The business administration curriculum has the largest enrollment of any in the College.

Newest Council Publishes Brochure

Solving student problems and publicizing their school are the objectives of the new Arts and Sciences Council, which was organized last spring under the new constitution. The council, whose members are elected by the students of the school, meets at least once a month. A business brochure to inform Kansas high school stu-

dents of the availability of obtaining a business degree at K-State is the project of the council this year. An all-school carnival is planned for the late spring. Organizations in the school were asked to enter booths and games for entertainment. Gerald Shadwick was president, and Dean Rodney Babcock is the sponsor.

Many students in the arts and science school spend long hours developing practical skills through laboratory instruction. To balance time spent in laboratory work the physical education department offers recreation to students enrolled in all fields.

Students work to complete an assignment setting type in the journalism typography lab (*left*); A women's physical education class learns the fundamentals of tennis by actual practice (*lower left*); Students in the laboratory spend long hours watching a chemical reaction (*below*).

Sidewalks lead from the campus toward the Canteen, Aggieville, and other off-campus spots, but when the weather is nice

in the early fall and late spring students prefer to take the short cut directly across the grass east of the College auditorium.

Clubs Keynote Understanding

The April fool edition of the Collegian each year is due to the efforts of the men of Sigma Delta Chi. Everett Browning was president last year and C. J. Medlin sponsors the honorary journalism fraternity.

Theta Sigma Phi, honorary journalism sorority, activities were a Matrix Table banquet in April, ordering and distributing graduation announcements, and giving

a coke party for freshmen girls in journalism. Mary Lee Smith was president.

The National Collegiate Players, Pi Epsilon Delta, sponsor a banquet to honor six outstanding students in drama and backstage work by presenting "oscar." The president was Richard Thomas, and Prof. Earl G. Hoover sponsors the group.

Honoraries Recognize Scholarship

Phi Epsilon Kappa, Sigma Gamma Epsilon, and Alpha Delta Theta are arts and sciences' honoraries having a common goal of scholarship and understanding of their fields.

Physical education majors with good scholastic standing are eligible for Phi Epsilon Kappa. It is a national honorary and professional fraternity organized at K-State in 1930. Projects include selling cowbells, buying books for the departmental library, and sponsoring social affairs for physical education majors.

Sigma Gamma Epsilon, geological fraternity, spon-

sors the Williston Geology club, the annual field trip made by geology majors, and a news letter. The Alpha Nu chapter was organized in 1947. The 13 members were headed by R. M. Sullivan and Harry Smedes is the sponsor.

Medical technology majors are able to familiarize themselves with their field through Alpha Delta Theta. Projects of the 30 members included selling Christmas cards and making Christmas baskets for welfare patients. Prof. C. A. Dorf and Prof. J. O. Harris sponsor the club.

Sigma Gamma Epsilon—*top row*: Frank E. Byrne, Eugene M. Hilton, Keith D. Heininger, Robert A. Shapley, Robert E. Darline, Joseph R. Chelikowsky. *Second row*: Henry V. Beck, Arthur B. Snerry, William M. Baehr, Clarence L. Harr, Harry W. Smedes, Kenneth B. Huffer. *Bottom row*: Claude W. Shenkel Jr., O. W. Tollefson, Charles P. Walters, Joseph W. Walker, Harold D. Radio Amateurs Contact 42 States

Students who have distinguished themselves in forensic activities are eligible to become members of Delta Sigma Rho. This group participates in intercollegiate public speaking activities and assists with the annual K-State beginners' debate tournament. Wilma Wilson was president first semester and Dr. Howard T. Hill sponsors the group.

Members of the Kansas State Amateur Radio club have contacted other amateur operators in 42 states and approximately 15 foreign countries. Any student interested in radio may join the club as an associate member. Those who hold licenses are operating mem-

bers. Bob Guy was president last year.

Alpha Eta chapter of Alpha Epsilon Rho, national radio honorary, became a reality at K-State in April of last year. Previously the group was called the Radio Guild. In order to become a member, a radio speech major must be a junior with a 2.0 grade average in radio courses. Cheryl Dicks was sent as the official delegate of the K-State chapter to the national council of Alpha Epsilon Rho in Columbus, Ohio. This council was held in conjunction with the 23rd Institute of Education by Radio and Television. Prof. Virginia Howe sponsors the organization. Robert Fromme was president.

Alpha Epsilon Rho—*top row*: Mahlon Wheeler, Cheryl L. Dicks, Bob Fromme. *Second row*: Barbara J. Babbit, Carrol J. Thomas, Gerald L. Shadwick, Jacqueline J. Pantier. *Bottom row*: James F. Wymore, Jack H. Flannelly, and Clyde E. Cless.

Mu Phi Epsilon—*top row*: Nancy R. Leavengood, Nadine M. Salmans, Patricia Davies, Yvonna J. Whiteley. *Bottom row*: Narvelle B. Oglevie, Gwendolyn R. Emel, Gloria L. Johnston, Mary B. Sieh, and M. Kay Patterson.

Honoraries Offer Scholarships

Phi Alpha Mu promotes scholarship and fellowship for junior and senior women in the School of Arts and Sciences who maintain above a B average. At a spring membership tea the highest ranking junior and senior girls receive Margaret Russel scholarships of \$25 each. Pat Barker was president and Prof. Golda Crawford is sponsor.

Through research, service, and leadership Phi Delta

Kappa promotes free public education as essential to the development and maintenance of a democracy. Assistant Dean Orval G. Ebberts was president.

A scholarship is given by Mu Phi Epsilon, national women's music honorary, to an outstanding freshman woman in the music department each year. Yvonna Whitely was president and Prof. Clarice Painter is sponsor.

Phi Alpha Mu—*top row*: Nadine M. Salmans, Edith L. Schmid, Margot Wolfenstine, Pat A. Dufford, Lois M. Ottaway, Pat A. Barker. *Second row*: Jeannine L. Wedell, Dorothy P. Bottom row: Tom Helms, Alberto Martinez, Bob Fach, Jawad Baldawi, James C. Carey, and William D. Bell.

FTA Members Give Education Banquet

The K-State student branch of the American Institute of Physics gathers facts and information from physics graduates. In the spring, the 16 members had a picnic with the chemical society. Richard Hodgson was president and Louis D. Willsworth sponsors the group.

Pan-American Day, the Cervantes club had a banquet at the Wareham hotel. Christmas, they held a Latin American dinner. The members have seen several Spanish pictures this year. The organization is open to any-

one with a knowledge of basic Spanish. Bob Fach was president. James Carey and Thirza Mossman sponsor the Spanish club.

The Future Teachers of America strive to secure public support for education, develop leadership, and help improve the curriculum. President McCain was the guest speaker at their Education Banquet this year. Gwen Emel was president and Profs. George Olson and John De Mand are sponsors.

Future Teachers of America—*top row:* Bernice L. Lash, Narvelle B. Oglevie, Gretchen Morgenstern, Barbara V. Hoff, Roberta E. Potter, Shirley A. Carswell, Donna C. Lash, Donna M. Hoverson, Mary A. MacLean, Ruth J. Hill, Lavonne M. Stars, Carol D. Rankin.

Groups Prepare Students for Future

Any business student may join the Business Students association. The club held a fall picnic for new members, and speakers in the business field address the club at monthly meetings. Neil Anderson was president. Prof. Conrad Eriksen and Prof. Merle E. Gugler were faculty sponsors.

"The Warrior Who Cultivates His Mind Polishes His Arms" is the motto of the Lloyd Vorhies Squadron of Arnold Air society, whose members are top air R.O.T.C. students. The society is co-sponsor of the Military Ball. Mark Enns was commanding officer and Maj. Dale B. Wood and Capt. James A. Griffith are sponsors.

Groups Play Host To Other Schools

November 15, the debate squad sponsored the annual invitational tournament for freshmen debaters. It was the only collegiate debate tournament held on this campus. All during the year, the debaters were busy attending tournaments at other schools in Iowa, Nebraska, Colorado, Washington, D. C., and Alabama. Bob Arnold coaches the squad.

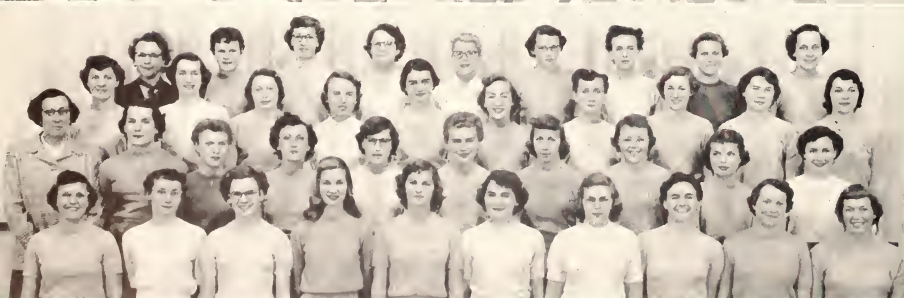

Without the Women's Athletic Association, there would be no women's intramurals. This group organizes and manages the program. Members participate and sponsor Sports Days with other colleges. Any

undergraduate woman who has participated in two different sports during the year is eligible to join. Miss Kathryn McKinney sponsors the W.A.A. Shirley Malcolm was president last year.

The Phems kept busy socially this year by having a picnic, dance, Christmas party, and senior dinner. They were hostesses for a Play Day for high school girls in this area. Dorothy Christiansen headed the organization for women physical education majors. Miss Eva Lyman sponsors the club which has been active for the past 16 years.

Clubs Sponsor Recitals, Field Trips

The chief activity of the student group of the American Guild of Organists is the putting on of recitals by the members for each other. From these recitals, practical experience is gained. The monthly meetings of the guild allow the students studying organ to meet together and become better acquainted. Outstanding organists are brought in, and sometimes the 20 members of the organization go out of town to hear other organists. Studying the techniques and mechanics of the organ is another project of the group. The student group was founded at Kansas State in December of 1946, when the national headquarters of the American Organists Guild granted the local charter. Charles Amstein was president and Prof. Robert W. Hayes is the faculty sponsor.

Students majoring in geology may become members of the Williston Geology club, whose purpose it is to further the interest in geological sciences and allied fields, among the undergraduates of the college. There are 76 members this year. The club was named in honor of a well-known Kansas geologist, active at Kansas State for a number of years, and is sponsored by the national honorary and professional fraternity, Sigma Gamma Epsilon. Highlights of the year include a field trip in the spring, and seminars of geological interest. Professional geologists are sometimes guest speakers at the bi-monthly meetings of the club. The faculty sponsor is Prof. Arthur Sperry, and Richard Sullivan was president.

Vocational Interest

There is a common bond between these three organizations. All work to promote a better understanding of their professions. Programs of professional interest are held at each meeting.

Since 1949, undergraduate students majoring in chemistry have been able to profit by joining the student affiliation of the American Chemical Society. Members secure experience in preparing and presenting technical material before professional audiences. Last year they presented a radio program, "Headlines in Chemistry," gave high school assembly programs, and heard guest speakers in the field of chemistry. The 26 members were headed by Louis E. Ott. Prof. William G. Schrenk sponsors the organization.

The Kansas State Entomological club provides a means of contact between the students and faculty and strives to encourage the science of entomology among interested students at K-State. Lloyd O. Warren was president last year. Prof. D. A. Wilbur sponsors the organization.

The Chancery club is organized for the better train-

ing of pre-law students. Last year, there were approximately 30 members, four of whom were girls. The club heard a criminal lawyer, a judge, senator, and several law professors at meetings last year. The Chancery club is three years old and the first one of its kind. Theodore Heim was president of the group last year. Prof. A. D. Miller sponsors the club.

Journalism Students and faculty are hosts for the annual high school yearbook and Editor Day conferences, which are held annually in the fall.

Prof. Ralph R. Lashbrook, head of the department of journalism, welcomes high school journalists to the yearbook convention (*upper left*); Royal Purple staff members show the visitors what should be included in a yearbook (*upper right*); Don Carlile, Collegian editor, demonstrates how to use one of the linotype machines located in Kedzie (*left*); Prof. C. J. Medlin tells high school students some of the tricks of the yearbook trade (*lower left*); Kansas editors meet in Kedzie during Editors' Day to discuss some of the current problems facing their profession (*lower right*).

Chapter Four

ENGINEERING AND ARCHITECTURE

Shelter, they say, is one of the three essentials for life, the other two being food and clothing. Shelter is largely provided by the engineers. However, their work is not only along the architectural line, but also in the fields of industrial arts, chemical, mechanical, agricultural, civil, and electrical engineering. In this day of highly scientific living, another field has been entered, nuclear engineering. K-State offers training in all of these fields through curricula in the School of Engineering and Architecture. In recent years engineering has ceased being exclusively for men, for this year, of the 818 enrolled in the school, six are girls. The Engineers have a chance to show their knowledge and ability every year when people from all over Kansas come to Engineers' Open House, which features displays representing every phase of engineering. In the future, as in the past and at the present, the engineers will work to advance modern living, and to make it more comfortable and convenient.

Coordinating the work and activities of the fourteen departments that are included in Kansas State's School of Engineer-

ing and Architecture is the job handled by Assistant Dean Richard Porter (*left*) and Dean M. A. Durland (*right*).

School Now Offers Nuclear Engineering

Kansas State's School of Engineering and Architecture provides its students with professional training in engineering, architecture, and the allied industrial fields. More than six thousand men and women have entered the nation's industry as graduates of Kansas State. These graduates have helped to design and build the bridges and highways, dams and irrigation ditches, light and power systems, homes and buildings, that dot the state and nation.

Four-year curriculums are offered by the School of Engineering and Architecture in industrial arts, and

electrical, mechanical, civil, chemical, and agricultural engineering. Work in each of these curriculums leads to the degree of Bachelor of Science in the particular field of study. In addition, the School of Engineering and Architecture offers a five-year curriculum in architecture, which leads to the degree of Bachelor of Architecture.

The school offers summer classes which are designed especially for Kansas high school and grade school teachers. Teachers who wish to take an engineering or architectural course may do so during summer vacations.

School of Engineering and Architecture department heads—Prof. Fredrick C. Fenton, agricultural engineering; Prof. Linn Halander, mechanical engineering; Prof. Leland S. Hobson, as-

sistant director of the Engineering Experiment Station; Prof. Royce G. Kloeffler, electrical engineering; and Prof. Reed F. Morse, civil engineering.

Keeping pace with technological changes in the engineering field, the School of Engineering and Architecture now offers a curriculum in nuclear engineering. The demand for engineers who are trained in engineering is rapidly developing because of the growing interest of private enterprise in atomic energy, and the expansion of government-owned plants for the production of fissionable materials.

All departments of the school offer the Master of Science degree, and the Doctor of Philosophy degree is offered in applied mechanics. Graduate study is available in each of the departments granting the Bachelor of Science degree.

Enrollment reached a post-war low during the past two years. First semester enrollees this year totaled 937, the same number as in the previous year.

Associated with the engineering school is the Engi-

neering Experiment Station, also directed by Dean M. A. Durland. The station was established in 1910 to conduct tests and research work that would be of engineering and manufacturing value to the people of Kansas. The personnel of the station consists of members of the school's staff, and the staffs of allied departments. Many of the projects are supported by funds from industrial or commercial organizations or by the state legislature and various government departments.

The Experiment Station's testing laboratories are available for the use of the Kansas highway commission and the highway engineers. Some of the results of the investigations are published as bulletins and circulars, which are sent free to interested persons. Besides issuing these publications, the station answers many hundreds of requests each year for information which concerns engineering.

School of Engineering and Architecture department heads—Prof. Clinton E. Pearce, machine design; Prof. Charles H. Scholer, applied mechanics; Prof. Gabe Sellers, shop practice;

Prof. Henry T. Ward, chemical engineering; and Prof. Paul Weigel, architecture and allied arts.

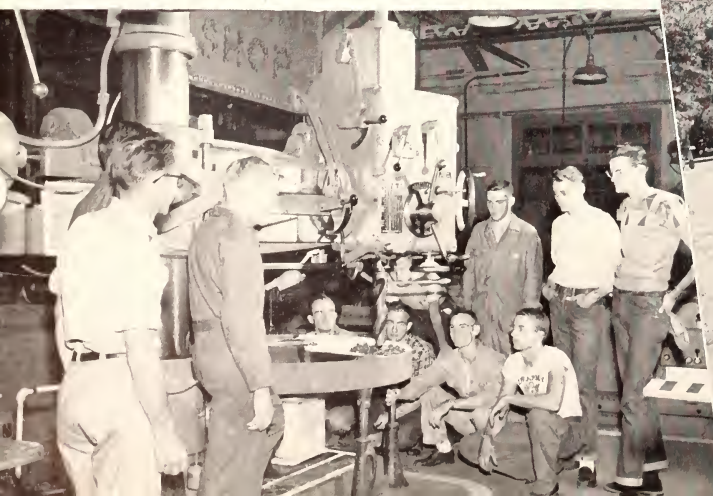

Competent instruction in widely separated subjects combines to give students in the School of Engineering and Architecture a good background for their careers after graduation from K-State.

Architecture students criticize modern art drawings (*upper left*); Life drawing helps students prepare for advanced drawing courses (*upper right*); Architects study plans for a new type of church construction (*right*); Engineers receive basic instruction in surveying on the parking lot (*lower right*); Students in industrial arts learn to operate and maintain power machinery (*lower left*).

Engineer Wins Honors at Convention

The K-State Engineer magazine brought home honors from the national convention this fall. The Best Single Cover award was presented to Gene Ernst of K-State for his design on the March 1952 issue. Harold Haas received honorable mention for the Article of the Year, for his article on rammed earth construction, which appeared in the May 1952 issue.

Put out entirely by engineering students, the magazine this year has a staff of about 22. Katy Keene and Dean Morton are co-editors, and Leland Hobson and Richard C. Potter are faculty advisors.

Self-supporting for the first time this year, the Engineer subsists wholly on advertising and subscription funds. In previous years, the magazine was financed by appropriations from the College budget. With eight issues a year, one a month from October through May, the magazine is read mainly by engineering students on the K-State campus, and on campuses over the nation. For as a member of the Engineering College

Magazine association, K-State sends an issue to each of the 32 member schools. Also, every high school in Kansas receives a copy.

Subject matter in the magazine naturally centers wholly around engineering, architecture, and allied topics. Articles concern technical subjects, education, job opportunities, people in the field, and local and national engineering news. One spring issue each year is dedicated to Engineers' Open House. In this issue, projects, committees, plans and visitors were pictured, explained, or reviewed.

The magazine serves several useful purposes. It acts as a publicity agent for the School of Engineering and Architecture, both to prospective students now in high schools, and to engineering students in other colleges. It is informative, with articles and pictures of engineering news and features. And, it provides another opportunity for the engineering students on this campus to work, cooperate together, and to express their ideas.

Engineers' Open House Honors St. Pat

Members of the Engineering Council, chosen from their respective departments and engineering societies, serve as a coordinating and policy-forming group for the School of Engineering and Architecture. There were 19 members on the council this year. Robert Bertrand served as president and Dean M. A. Durland is faculty sponsor.

Engineering Open House began in 1919 and today is the biggest program put on by the engineers. The main purpose of Open House is to interest high school students in K-State and the engineering school. The crowning of St. Pat and St. Patricia at St. Pat's Prom is the climaxing event. Mark Brislawn Jr. was Open House manager and Don Moss is sponsor.

Engineering Honoraries Emphasize

The white letters "KS" on K Hill are maintained by members of Sigma Tau, honorary engineering fraternity. Recognition of student engineers and encouraging the advancement of interests in engineering education are the purposes of the organization. Members are chosen from the upper one-third of the engineering students on the basis of scholarship, practicability, and sociability. Sigma Tau was founded at the University of Nebraska in 1904 and at Kansas State in 1912. This engineering honorary sponsors St. Pat's Prom in conjunction with Engineers' Open House. Every year Sigma Tau presents medals to the three students who maintain the highest grade averages as freshmen in the engineering school. Members gave two banquets during the year. Robert Bertrand held the president's title for the year and Prof. Milton E. Raville serves as faculty sponsor.

As in the other departments of the engineering school, the mechanical engineers have an honorary. Pi Tau Sigma provides recognition for outstanding mechanical engineering students. Members are chosen from the upper 20 per cent of the mechanical engineering students in the junior and senior classes. Pi Tau Sigma was founded at the Universities of Illinois and Wisconsin in 1916. K-State's Rho chapter was installed in 1939. The reading room on the third floor of the engineering building is maintained by members of Pi Tau Sigma who are responsible for its upkeep. An exhibition booth at Engineering Open House held in the spring is another project sponsored by the group. The club also keeps an activity record of K-State engineering alumni. Kenneth Collins served as president of the organization, and Prof. B. B. Brainard serves as faculty sponsor.

Scholarship and Leadership

For 25 years Steel Ring has met with the purpose of fostering interest and leadership in engineering school activities. The organization was founded at Kansas State college in 1928 by 13 senior engineering students, but since then has increased its membership to 48. Membership is open to male junior and senior engineering students who possess leadership ability and a 1.00 minimum grade average. The members presented a Steel Ring trophy for the most outstanding exhibit at the Engineers' Open House. They sponsored the Engineers' Alloy and published "Intake and Exhaust," a humor magazine. Several banquets and picnics were held for members and engineering faculty members. The directory for faculty members which is in the engineering building was purchased and is maintained by Steel Ring. Phil Huff served as president and Prof. L. M. Jorgenson and Dr. Reed Morse serve as faculty sponsors.

Tau Sigma Delta is among the newest of K-State's engineering honoraries. The organization was founded nationally at the University of Michigan in 1913. K-State's Omicron chapter, installed in 1950, is one of 13 active national chapters. Tau Sigma Delta emphasizes leadership and outstanding character to reward students who attain high scholastic standing in architecture, landscape architecture, and architectural engineering. Members are selected from the upper 20 per cent of the junior and senior classes and must have completed five-eighths of their required work. They must receive the approval of the active members and the head of the department of architecture. There were about 30 members this year. Design subjects are considered in member selection. Chapter master Robert L. Funk guided the club's yearly activities. Prof. John Helm and Prof. John Brennehan are faculty sponsors for the organization.

Eta Kappa Nu Honors Scholarship

Each year Eta Kappa Nu presents an award to the electrical engineering junior who had the best scholastic record during his sophomore year. Eta Kappa Nu, honorary electrical engineering fraternity, was founded nationally in 1904 at the University of Illinois and locally in 1939. The fraternity recognizes scholarship and leadership. William H. Rathbun was president and Prof. R. M. Kerchner is faculty sponsor.

Any chemical engineering student may join the K-State student chapter of the American Institute of

Chemical Engineers, which was organized on the campus in 1934. Ernest Hepler was president and Dr. H. T. Ward and Prof. W. H. Honstead are faculty sponsors.

Alpha Alpha Gamma, for women in architecture or landscape design, helps promote the interest of women in that field. Any woman is eligible for membership but must be voted in by members. After being selected for membership, a pledge period of one year follows. The organization helped sponsor the department's Christmas party. Prof. Ronald Whiteley is sponsor.

Interest Shown in Radio, Shops

Sophomores in the industrial arts curriculum are eligible for membership in the Student Industrial Arts association, which this year boasts a membership of 45 students. The purpose of this organization is to acquaint the student with the latest developments in industrial arts and to give him more definite ideas of the opportunities and requirements for success in the profession. Interests in industrial arts and the acquaintance of students in the curriculum at the college and over the state are also furthered by the association. This group holds monthly meetings, helps work on Engineers' Open House, and sponsors student-faculty smokers. Virden Turner was president this year and Prof. Earl Darby is the faculty advisor.

The student branch of the Institute of Radio Engineers was brought to the K-State campus right after World War II, to advance the art and science of radio communications, and to promote the professional welfare of the engineers in that field. The national organization was founded in 1912. With a membership of about 20 each year, the organization tries to bring programs of interest to the electrical engineering students to the campus. These programs include special guest speakers in radio engineering and allied fields, and along the social line several parties and meetings are held within the group itself. Dean Morton presided over the group this year, and Prof. J. E. Wolfe is the faculty sponsor.

Engineering Societies Have Many

Winning second place on over-all display and first for individual display at last year's Engineers' Open House were members of the American Society of Agricultural Engineers. Last fall the members of the society took an inspection trip through Missouri, Iowa, and Illinois. Socially, ASAE had a picnic and a party for members and their dates. Twenty-nine of the 48 students in the chapter belong to the National Student ASAE. Any sophomore in the ag engineering curriculum is eligible for membership. Bill Schoof was president and Bill Funk is sponsor.

The student branch of the American Society of Mechanical Engineers tries to acquaint the members with the activities of the society and of the mechanical engineering profession. The organization, which boasts 140 members, was organized at K-State in 1914. This year members attended the regional ASME convention, submitted a display at Engineers' Open House, and had a joint dinner with the KU chapter. After one semester of work, any mechanical engineering student may join. Prof. Arthur O. Flinner is sponsor and Gerald Sullivan was president.

Activities Designed To Promote Field

Among the activities of the student branch of the American Institute of Electrical Engineers are inviting special speakers to the department, holding an annual joint meeting with the Kansas City, Mo., section, and sponsoring movies of interest to electrical engineering students. The group, which strives to promote and take a hand in bettering their profession, consists of 20 national members and 30 student members. Any electrical engineering student in his second or third year may join. Mark Enns was president and E. L. Sitz is sponsor.

The student chapter of the American Society of Civil Engineers sponsors student papers and sends delegates to a regional conference of student chapters each year. Joint meetings are held twice with Kansas university and the Kansas section of ASCE. Speakers are featured twice a month at regular evening meetings. The 70 members of the organization are sophomores, juniors, or seniors. Through the club's activities, the development of professional spirit is fostered. Kenneth E. Kaul presided and F. F. Frazier is sponsor.

A.I.A. Brings Noted Speakers to Campus

To emphasize and promote the professional rather than the social and fraternal aspects of student activities is the object of the student chapter of the American Institute of Architects. The A.I.A. works to foster an appreciation of the ideals of architecture and to promote fellowship, cooperation, and a spirit of unity between student architects and practitioners.

Membership in the A.I.A. is open to all students in architecture or architectural engineering enrolled and in good scholastic standing in the school. Freshmen have previously been excluded, but this year it was decided to include them as student associate members. At the present time there are 105 members, an increase of 67 over the 1951-52 membership. Manfred R. Wolfenstine presided over the organization this year and Prof. Theodore A. Chadwick is the faculty advisor. This chap-

ter is a non-profit, unincorporated membership association organized and existing under a charter granted to the Kansas chapter by the senior chapter of the Institute in October, 1949.

Along the line of activities and special projects, the A.I.A. is very successful. The organization works to bring known speakers to the campus to lecture on architectural subjects. Their visitors this year have included such noted architectural personalities as Richard Neutra, Frank Lloyd Wright, and Buckminster Fuller. Films on architectural topics, discussions of new building materials, and smokers for forum discussions are some of the more informal activities. Committees formed from members of the A.I.A. organization are appointed to study better promotion of architecture on and off the campus.

A little learning is a dangerous thing, a famous man once said. At Kansas State this semester there are students who have taken that old adage seriously. These students are enrolled in the Graduate School, extending their school years to extend their knowledge. Of the 338 enrolled, 276 are working toward a Master's Degree, and 66 towards a Doctor's Degree. The College does everything possible to encourage graduate study. To facilitate research work, teaching, and the acquisition of advanced degrees, the College has established graduate assistantships in most departments. These assistantships make it possible for the graduate student to gain practical experience as well as financial aid, while endeavoring to improve himself. Also, a number of industrial fellowships are available each year offering stipends to deserving graduate students. If a little learning is a dangerous thing, a lot of learning is a valuable thing, and 338 graduate students are going to prove it.

Grads Work For Degrees

Dr. Harold Howe became dean of the Graduate School eight years ago. As dean, and chairman of the Graduate Council, Dr. Howe supervises, directs, and coordinates the studies of 361 graduate students.

Fairchild hall houses the office of the dean of the Graduate School. This school is unique in that it utilizes the faculty and facilities of all the other schools on the campus.

Today the Graduate School, in keeping with the trend in higher education, is maintaining a program to help the student achieve the maximum possible education while pursuing the specialized professional courses. The chief function of the school is to assist persons of ability in creating new knowledge and acquiring skills in the use of scientific knowledge.

This school is unique in that it is superimposed on the existing schools of the College. The faculty are those employed by the undergraduate schools that offer courses for graduate credit.

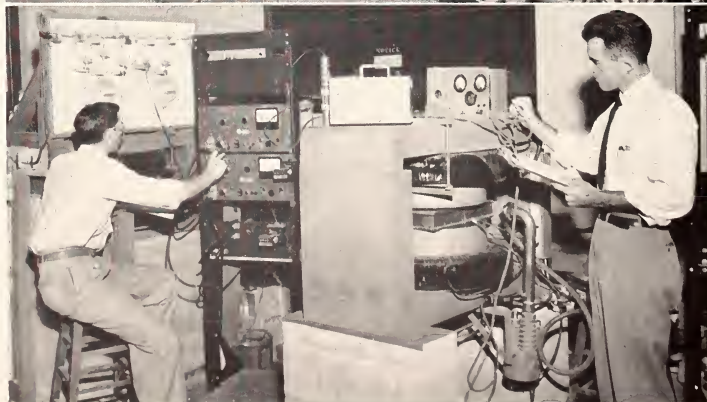

Work leading to the degree of Master of Science is offered in 60 fields and the degree of Doctor of Philosophy is offered in 12. Much of the original research conducted by graduate students is in cooperation with agricultural and engineering experiment stations.

The College granted its first Master's Degree in 1871. In 1886 a standing committee on graduate work was created. A Graduate Council was established in 1919, and in 1931 a Division of Graduate Study, under a dean, was organized. The College was authorized in 1932 to confer the degree of Doctor of Philosophy. The name Graduate School was adopted in 1942.

Graduates and undergraduates mingle and work together in classes and in many departmental activities.

Butterfly nets and bottles are standard equipment in entomology classes, especially in the outside work (*above*); Economics classes learn that money is the root of a very interesting course (*above right*); Physics and its principles are learned in classes devoted to that science (*lower right*).

Grads Have Council, Association

Graduate Council—standing: Harold Myers, Fred Parrish, Harold Howe, Earl Edgar. Seated: Finis M. Green, Reed Morse, Florence McKinney, G. K. Underbjerg, and Roger Smith.

The main administrative body for the Graduate School is the Graduate Council, composed of ten faculty members from the various schools, with Dean Howe as chairman. The council, organized in 1919, determines matters of curriculum, admission to graduate study, admission to candidacy for advanced degrees, and matters relating to the development and administration of graduate work in the College. Members of the council, or their deputies, also function as chairmen of the oral examination committees throughout the institution. This is done to obtain uniformity in the examinations.

The Graduate club, started in 1923, was the first organized group of graduate students. The club had officers and functioned much as the 1952 organization. The name was changed in 1950 to the Graduate association. Through an amendment to the constitution in the same year, the association could send one representative to the Student Council.

All graduate students are members of the association, whose purpose it is to promote acquaintance and fellowship among those enrolled in advanced work. One business and three social functions are given each semester. The social highlights included mixers and canasta parties at Rec Center, and a spring banquet at which Dean Emeritus of the Graduate School J. E. Ackert was the principal speaker. Dean Ackert was dean when the Graduate club was first organized 30 years ago.

The elected representatives of the association form the cabinet, which is the executive committee. John Hennes was president the first semester.

Other graduate organizations include the Graduate Wives club, Men's Grad house, and the Women's Grad house, organized in the fall of 1952. This spring 41 graduate women received a local charter of Phi Delta Gamma, national sorority for graduate women.

The three hundred thirty-three members of the Graduate Students association found time to pause in their search for advanced knowledge, to relax and enjoy their extended college years. Besides the three regular busi-

ness meetings a semester, the graduate students frolicked at a Sunset park picnic in September, threw a big Halloween party in Rec Center in October, and climaxed the first semester activities with a Christmas dance.

Yuletide spirit was provided by an appropriate Christmas dance with decorations, good music, and refreshments, for about one

hundred members of the Graduate Students association, their wives and dates. The dance and party was in Rec Center.

HOME ECONOMICS

Homemakers are the people behind the scenes who make life easier and more worthwhile for other people. They are the housewives, mothers, and the professional home economists. The School of Home Economics at Kansas State is famed for the high quality of homemakers and professional women it graduates. It is ranked one of the top in the nation, and is the only School of Home Economics in the state. The program of the school has two objectives, general education and specialized education of the home economics student. These are accomplished through a curriculum with required courses for common learnings, aimed at helping the student become a well-adjusted and well-informed person with an understanding of the principles contributing to a happy personal, family, and community life. Eight fields of specialized study are offered in preparation for a profession in home economics. In short, the School of Home Economics strives to teach an appreciation and utilization of the aesthetic in daily living.

Careers in Home Economics is a favorite topic of Dean Margaret Justin (*right*) and Assistant Dean Martha Kramer (*left*).

Dean Justin, a 1909 Kansas State graduate, has been the dean of the School of Home Economics for thirty years.

Home Ec Offers Eight Fields of Study

Girls enrolled in the School of Home Economics have a choice of eight different fields in which to major. These are art, clothing and textiles, child welfare and euthenics, food economics and nutrition, household economics, institutional management, education, and journalism. Through training in these fields, a girl may become an interior decorator, a teacher, an extension agent, or a homemaker, to mention only a few of the career possibilities offered. For the first time this year, the school offers a curriculum in restaurant management.

Highlights of the home economics school year are

Hospitality Days and the annual Snowball dance. Planning for these and other events is done by the Home Economics Executive Council, which is composed of elected officers and girls representing the nine home economics clubs.

Several hundred high school girls visited K-State during the twenty-third annual Hospitality Days on April 17 and 18.

The choosing of the "Favorite Man on Campus" is the project of home ec girls each year. The FMOC and his "attendants" are presented at the Snowball dance. Thane Baker reigned in 1952.

Learning by doing is the slogan in home economics, where each girl is given the opportunity to become proficient in the skills used in operating a home. One of the major parts of

the home ec student's classtime is spent in laboratories, where she learns to apply the fundamentals of good homemaking, well preparing her for the practical duties of later life.

School of Home Economics department heads—Prof. Dorothy Barfoot, art; Prof. Alpha Latzke, clothing and textiles; Prof. Florence McKinney, household economics; Prof. Lois Shulz,

child welfare and euthenics; Prof. Gladys Vail, food economics and nutrition; and Prof. Bessie B. West, institutional management.

Committees Plan Hospitality Days

Functioning as an executive board for the planning of Hospitality Days, the annual open house of the School of Home Economics, is the Hospitality Days General Steering committee. The over-all chairman of Hospitality Days is automatically the chairman of the steering committee, and she appoints the other members. There were 23 this year. These members represent each of the subordinate committees working on the program, such as the fashion show, box lunches, teas, and also each of the divisions of the home economics school, child welfare, education, foods and nutrition, economics, journalism, institutional management, and clothing and textiles. Each has a part in the Hospitality Days program. This year it was held on April 17 and 18. Student chairman this year was Grace Lobenstein, and Miss Elsie Miller is faculty sponsor and Miss Margaret Raffington is the faculty advisor.

Opportunities for fellowship, professional development and vocational guidance in home economics are provided by the Margaret Justin Home Economics club. Any home economics student or faculty member is eligible to join the club. This year there were 219 members, a decrease of 45 over last year's number. The president of each of the subsidiary home ec clubs form the executive council of the school. Activities and special projects of this club, guided by the executive council, are wide and varied. Not only do they help with the planning of Hospitality Days, but the club sponsors the annual Snowball formal. At this dance the Favorite Man on Campus is crowned. A Christmas package for children was sent to Greece, and a foreign scholarship project was carried on. Olive Jantz served as president this year, and Miss Margaret Raffington is faculty sponsor.

Home Ec Has Honorary, Interest Clubs

Students in various specialized fields in Home Economics have the opportunity to meet with students in the same field and to gain more professional knowledge through the home ec interest clubs, which are subordinate to the Margaret Justin Home Economics club.

Besides promoting the interest clubs, the school claims an honorary, Omicron Nu, of which there are 16 members, chosen from the upper scholastic percentages of the junior and senior classes.

Home ec majors with an interest in writing belong to

the Home Ec and Journalism club, and toured local newspaper offices. New to the campus this year is the Commercial Demonstration club, which already claims 20 members. Members of the Retailing club work on the Hospitality Days fashion show as a special project. The Art club decorates for the Snowball, designs Christmas cards, and sponsors a sidewalk art show. The Dietetics club gives a Valentine party for children and works on the Christmas Tea. The largest group is the Home Ec Teaching club, with 75 members.

Club Looks After Nursery School

Repairing and rejuvenating the equipment at the College nursery school are projects carried out by the members of the Child Welfare club. Last year the club furnished some equipment for a nursery school in Japan. The 35 girls in this organization have regular business and social meetings each month. Last November, their faculty entertained them with a progressive dinner at their homes. Carolyn Krings was president. Jane Ferrell and Dr. Lois Schulz sponsor the club.

The Home Economics and Nursing club held their annual chili supper in the fall. In the spring, they showed a Hospitality Days exhibit. Any girl enrolled in the field of home economics and nursing may join

the organization. Maxine Tiffany was president and Miss Jennie Williams is sponsor.

Those girls interested in becoming home demonstration agents join the Home Economics Extension club to better acquaint them with the program. This year, the club membership was 51, a 30 per cent increase over last year. Doris Milliken was president and Mrs. Wyona Starkey sponsors the group.

These three organizations are subordinate clubs under the Margaret Justin Home Economics club.

These home economics clubs plan and coordinate their activities to help round out the academic program of their members.

Child guidance and welfare courses provide girls in home economics an opportunity to supervise children between the ages of three and six. Kansas State staffs and operates its own nursery school off the campus for training purposes.

Housework and homework are combined for nine weeks of the year for girls in home economics. Before graduating she must live nine weeks in two of three home management houses. Here a group of girls relax in the living room.

Home management houses located in the northeastern part of the campus, are designed to teach girls the art of efficient house-keeping on the upper, middle, and lower scale income levels. The houses are modern and comfortable.

Home Ec girls on their way to Calvin hall, where they learn the domestic arts, often trod this walk connecting Nichols gym

and Anderson hall. K-State's School of Home Economics, centered in Calvin, is ranked one of the top in the nation.

Chapter Seven

VETERINARY MEDICINE

That the dog or any other animal, is man's best friend may be true, but at Kansas State it is the reverse. Kansas State claims one of the few highly ranked Schools of Veterinary Medicine in the country. It attracted this year, as prospective veterinarians, 224 boys and one girl, from states far and near. The curriculum in veterinary medicine was originally established to give the young men of Kansas an opportunity to pursue these studies in an agricultural environment, where the facilities of the other branches of the College would be at their command. In addition to purely professional work, vet students are required to take many livestock, dairy, and zoology courses, to enable them to cope with all types of animal problems. The students learn knowledge from books and lectures, but they acquire skill from actual experience. Maybe the canine is man's most loyal companion, but man, especially in the vet school, is the best friend of animals all over the state and the nation.

Future veterinarians spend the majority of their six years at Kansas State working and practicing in the laboratories and

classrooms of Veterinary hall, the center of one of the most outstanding schools of veterinary medicine in the United States.

Vets to Have New Hospital

The much needed new veterinary hospital which is to be completed upon the Kansas State college campus will be an imposing limestone T-shaped structure. The south front of the building will have the dimensions of 260 feet by 46 feet and west by north front dimensions will be 214 feet by 64 feet.

Designed to fulfill many purposes, the building contains examination and surgery rooms, a clinical pathology laboratory, a pharmacy, modern autopsy room, offices for the staff, kennels and stalls, x-ray room, and an auditorium with a seating capacity for 300 persons.

The second floor plan has quarters of sufficient size

to house twelve intern students and includes one student classroom.

The new hospital will find added use in teaching research and public service work conducted by the staff in the diagnostic field of animal diseases in Kansas.

Staff members are called upon to investigate and diagnose any outbreaks of animal diseases within the state each year. Two serious animal diseases demanded considerable attention this year.

Plans for a new hospital were not the only addition to the vet school this year, as seven new faculty members were appointed.

Eldon E. Leasure, dean of the school of veterinary medicine and Mrs. **Laura M. Fulton**, assistant to the dean, have increased

duties this year with the proposed construction of the new veterinary building. Dean Leasure has been dean five years.

The distinction of being one of the oldest state-supported veterinary schools in the United States is held by the Kansas State college School of Veterinary Medicine. At present there are seventeen state-supported veterinary schools in the country. Kansas State graduated its first class of Doctors of Veterinary Medicine in 1907.

The enrollment in the School of Veterinary Medicine, which fluctuates very little because of the restricted number of sixty students accepted each year, was 246 at the beginning of the 1952-1953 school year. Sixty-six students will graduate this spring with degrees of Bachelor of Science and Doctor of Veterinary Medicine. Twenty-five of this number also will receive commissions as second lieutenants in the army or air force veterinary corps by virtue of their advanced R.O.T.C. training.

Studying textbooks is only a part of the veterinarian's schooling. Interesting and practical experiences meet him in his classes each day to help prepare him for his chosen career.

A class in anatomy (*top*) watches intently as the instructors point out various facts, while students withdraw a sample of blood from a dog in the small animal clinic (*center*). The large animal surgery room is the scene of an operation (*bottom*).

Vet Students Belong to Student AVMA

Organized by a veterinary student on this campus in 1906, the Kansas State Student Chapter of the American Veterinary Medical Association received a charter from the national AVMA in 1939. All undergraduates pursuing the curriculum in vet medicine are members of the organization. Prominent men in vet medicine often speak at AVMA meetings. Combined meetings and parties are held with the AVMA Auxiliary, organized for wives of AVMA members. The group's 244 mem-

bers held a smoker for freshman vet students in the fall and a formal and senior banquet in the spring. Members took an active part in intramurals. Don Shuman served as president and Dr. J. E. Mosier and Dr. M. J. Swenson were faculty sponsors.

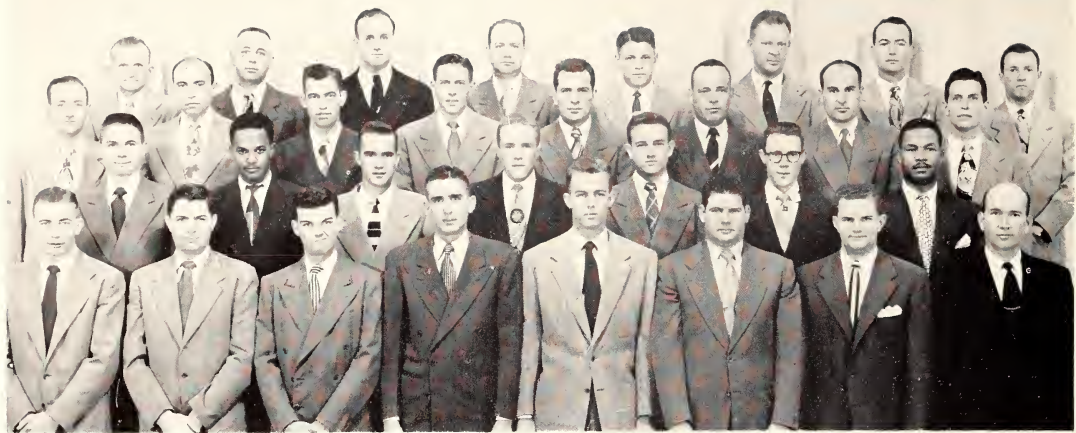

After spending weary hours in the laboratories and dissecting rooms, the vet students find recreation in their intramural teams. For several years the AVMA has been a leading contender for intramural honors.

Chapter Eight

RELIGIOUS ACTIVITIES

Freedom of religion is part of our American heritage. Here, all people have the right to worship when, where, and how they please. The Kansas State campus reflects this freedom, for any student may reverence and practice the religion of his choice. To facilitate this, over twenty organizations, representing almost a dozen religions, have been formed. All serve to promote and organize the activities of the members of the various beliefs. An interdenominational council coordinates religious activities as a whole. In addition to these smaller groups, the Young Men's and Young Women's Christian Associations, open to any student, sponsor LIFT Week each year, bringing to the campus nationally famous speakers from different denominations. "Live in Faith Today" was the theme of this year's LIFT week speakers. However, for all these organizations a deep religious faith is the theme for all 52 weeks of each year.

Serene and calm, Danforth chapel takes its place on the east campus. Open day and night, the chapel is available for stu-

dent worship and marriage services, and is the center of campus religious life.

Chapel to Have New Addition

After the cessation of hostilities that ended World War II, a fund was started among the alumni of Kansas State to provide a suitable memorial for the men and women who had served in the conflict.

The funds were raised, and in 1949 General Dwight D. Eisenhower lifted the first shovel of dirt that started work on the memorial.

The resulting building is Danforth chapel. After the present chapel was completed there remained enough

money to start an addition. The addition was first designed to be built along the same gothic lines as those of the chapel. However, the Korean situation intervened and due to increased cost, this plan was abandoned in favor of an addition consisting of a foyer and auditorium built in a contemporary-functional style.

A definite date for construction of the additional part has not been decided. The 470-seat auditorium will be used for religious services, vespers, and recitals.

LIFT Week is packed with speeches, meetings, and group assemblies where students and speakers participate in discussions about religious topics.

Dr. Frederick Keller Stamm officially opens LIFT Week at an all-College assembly in the College auditorium (*left*); AGR members listen to Rev. E. J. Mundinger as he leads an evening discussion (*below*); LIFT Week speakers and committee members enjoy a breakfast together in the cafeteria (*center*); Rabbi Joseph Utschen conducts an "Information Please" coffee hour in Calvin lounge (*bottom*).

LIFT Week Inspires Religious Talks

"Live in Faith Today" was the theme of LIFT Week held from October 19 to 22 this fall. Four seminars topped the program. The first, "Meaning of Christian Faith" led by Rev. E. J. Mundinger officially started the week and was followed by "Science and Religion" led by Father A. J. Adams, "Christian Campus Life" led by Dr. Ed Dirks, and "A Christian in Government" led by Rev. Oscar Bonny, which completed the roster of seminars.

Dr. Frederick Keller Stamm, featured LIFT Week speaker, told an all-College assembly that "if you're going to make a contribution in this world you've got to get rid of a couple of obstacles, hate and inertia." He emphasized the need to make democracy have meaning to each individual.

A new feature, coffee hours, was added to the LIFT Week program this year. These coffee hours, called "Information Please," were discussions between students and LIFT Week speakers on questions that arise in students' minds about religions.

During LIFT Week committee members and speakers assembled each morning at 7 o'clock for breakfast in Thompson hall cafeteria. Various organized houses and dormitories enjoyed evening discussions at their houses conducted by LIFT Week speakers. Llano Thelin was honorary chairman of LIFT Week.

Religious Council Sponsors Lift Week

Lift Week was sponsored by the Religious Coordinating council which was reorganized last spring as a committee of the Student Council. Since then it has served to integrate and coordinate the activities of the campus religious groups. Chuck Amstein served as chairman and Rev. Herb Pifer, Prof. Gwendolyn Tinklin, and Prof. Milton Raville are faculty members.

Sigma Eta Chi is open to any Congregational student whose ideals are in harmony with those of the group. "Her candle goth not out by night" is the

motto of the organization which strives to extend Christian experiences so members may become loyal and progressive members of the church. Leona Manz was president and Prof. Gertrude Lienkaemper is faculty sponsor.

The United Student fellowship provides Christian fellowship for college students regardless of their faith. The group held devotional services as well as several social events. Robert Wilbur was president and Prof. and Mrs. Jack Northam are sponsors.

Baptist Groups Gain Student Interest

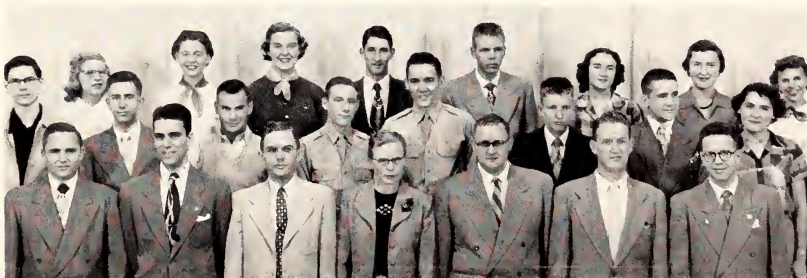

Theta Epsilon, sorority for Baptist girls prepares its members for lives of Christian usefulness. Meetings are held twice monthly and this year placed emphasis on studying home missions. Jeannine Wilson was president and Prof. Alice Geiger is sponsor.

The Baptist Youth Fellowship is the effort of the Baptist church to meet the spiritual needs of the students. Religious services, social activities, and service projects are a part of the group's activities. Doris Jean

Wagner was president and Prof. and Mrs. Paul M. Young are faculty sponsors.

"That Christ may dwell in your hearts by faith, that ye might be filled with all the fullness of God" is the motto of the College Baptist Student Fellowship. The group helps support three foreign missionaries. Lyle LaGasse was president and Prof. Verlin R. Easterling is faculty sponsor.

Presbyterians Give New Scholarship

This year marked the beginning of the Westminster Fellowship scholarship award. The award, in the form of \$50, is now given each semester to a deserving student. The Westminster Fellowship is a group of Presbyterian students.

The group meets every Sunday for a coffee hour in the morning and a study session in the evening. First semester the members discussed the Disciples' Creed and second semester Christian Thinking was the topic for study. Other activities included two Lenten seminars and the gift of a basket of food to a needy Manhattan family. James McMahan was president and Dr. George A. Filinger is faculty sponsor.

Phi Alpha, men's Presbyterian group, had several projects this year. Last semester Phi Alpha members worked nights redecorating the basement rooms of the Westminster House. During the spring semester the group served a Palm Sunday breakfast. They also participated in a sunrise service on Bluemont Hill with other religious groups.

Phi Alpha members hold regular dinner meetings every month in Westminster House. This year Tony Harris served as president. Prof. Thomas B. Avery is the faculty sponsor. The members helped the Presbyterian church every Sunday by serving as ushers and helping to take up the collection.

Clubs Provide Religious Training

A new religious group on the campus, the Christian Science organization, began last semester. The organization meets bi-monthly for testimony meetings and services. Meetings are open to all regular members and anyone interested in Christian Science. Regular members must be members of a Christian Science church and officers must be members of the mother church in Boston. Jim Rankin, president, was responsible for organizing the new group and through his efforts a group of twelve members plan to continue the work of Christian Science on the K-State campus. Miss Dorothy Pettis is faculty sponsor.

Members of the Canterbury club meet every Sunday morning for breakfast at the Episcopal church. The organization is open to all students who are confirmed members of the Episcopal church and any others wishing to learn about the life and work of the church. "To serve the mission of Christ in higher education by fostering among the students of this institution a better understanding of the faith and practice of the Episcopal church and loyalty to its corporate life" is their motto. On Shrove Tuesday, members held their annual pancake supper. A social event was held each month. Betsy Bacon was president and Prof. and Mrs. Bob Fell are sponsors.

DSF Brings Christmas Joy to Child

"Service" is the watchword of Kappa Beta, religious sorority for all college girls who affiliate with the activities of the Disciples of Christ church. During the year the group made curtains and chairs for the Disciple Student Foundation at 1633 Anderson. On band day, members sold hot dogs to earn money for group projects. Kappa Beta was founded nationally in 1911 at the University of Illinois. In 1952 Kappa Beta was incorporated as a part of the national Disciple Student fellowship. Doris Keas, a K-State student, is national president of Kappa Beta. Margaret Ficke was local president and Miss Gwendolyn Tinklin is faculty sponsor.

A youngster from the Colorado Christian home spent a happy and joyful Christmas this year in Manhattan because of the activities of the Disciple Student Foundation. The group sponsored the trip and visit of the child and presented him with many gifts. The organization trains members to become leaders in their home churches. During the year gospel teams were sent to several small churches in the state to give student training in that work. Walter Abel is the new student director of DSF this year. His group also entertained soldiers at the Fort Riley hospital. Glen E. Hurley was president and Miss Lois B. Turner is faculty sponsor.

Club Named for Catholic Cardinal

Newman clubs are organized in non-Catholic colleges and universities in the United States and Canada to promote spiritual fellowship among Catholic students.

The club name of Newman is in honor of John Henry Newman, a Cardinal in the Roman Catholic church in England during the nineteenth century.

One Sunday every month, the Newman club mem-

bers rise early and meet in the basement of the Seven Dolors church to have breakfast together. They also meet once every month for a Sunday morning coffee hour.

The president first semester was Leo Paulich and Prof. J. P. Callahan is the faculty sponsor. Rev. E. J. Weisenberg drives to K-State every Monday afternoon from St. Marys to serve as advisor for the Newman club.

Active KSCF Keeps Busy Schedule

"To know Christ and to make Him known" is the motto of the Kansas State Christian Fellowship. KSCF is an interdenominational group affiliated with the national organization, Intersarsity Christian Fellowship. It functions so that students may find a real purpose in life through religious training. There are no formal requirements for membership. Members strengthen their spiritual life by the study of the Bible, by prayer, and by Christian fellowship. The Intersarsity Chris-

tian Fellowship sponsors several Christian camps in which members of KSCF have participated. A Bible study conference was held during Christian vacation. In the spring and fall members attended state conferences. Summer camps are held at Campus in the Woods in Canada and Campus by the Sea in California. The group also sponsored several religious movies and went caroling at Christmas. Charles Hawkins was president and Herman Smith is faculty sponsor.

Two Lutheran Groups Serve Campus

Gamma Delta, religious student group of the Lutheran church, meets so that members may better serve their church. A medical missionary was sponsored by the group this year, and last year they helped support a student center in Tokyo, Japan. Members also take an active part in LIFT week each year. Meetings, picnics, and special parties are held often. Jim Jorns was president and Prof. William Baehr is faculty sponsor.

Any Lutheran student of the National Lutheran Council of Churches who is enrolled at K-State is a member of the Lutheran Student association. The LSA was originally organized in 1923. The group meets regularly for Bible study discussion groups. Members also hold a social meeting once a month. Llano Thelin was president and Miss Inez Ekdahl, Prof. George Larson, and Rev. Martin Ringstrom are faculty sponsors.

Methodist Students Join Wesley Group

The Wesley Foundation provides a place for worship, recreation, religious education, and fellowship projects for Methodist students.

The 1,978 members are governed by a council of 66 students. The council is responsible for carrying out the various projects and activities.

Projects such as sending Care packages to India, presenting entertainment programs at Ft. Riley, giving church programs, and doing local relief work keep Wesley students busy. The Wesley Singers furnish the choir for church services and the Wesley Players present religious dramatics. Students do the custodian work at the Wesley Center which was completed in 1950.

The Wesley Foundation was organized in 1916 by the Methodist church for Methodist students in tax-supported colleges and universities. The initial mem-

bership was 500 students and the organization has been in continuous operation since its beginning.

The Foundation strives, among other things, to deepen the Christian faith of college students, to develop international understanding and racial appreciation, and to supply Christian personal counseling so that each individual becomes a more complete and unified personality.

Faculty sponsors are Dean R. W. Babcock and Dr. Roy Langford. Rev. and Mrs. B. A. Rogers direct the Center. Last year's president was Robert Meuser.

Plans are being made to expand in the near future the Wesley Foundation Center, which is located at 1427 Anderson, to include a worship chapel and religious library. The Center is open to all students each day until late in the evening for informal discussion and informal recreation such as table tennis, checkers, chess, and folk dancing.

Serving Others is Purpose of YWCA

Among the oldest organizations on the Kansas State campus is the Young Women's Christian Association which was organized November 7, 1885. A group of 20 girls met for prayer and Bible study and the group became the YWCA. The organization received its national charter in 1907. The creed of the YWCA is: "We unite in the desire to realize the full and creative life through a growing knowledge of God. We determine to have a part in making this life possible for all people. In this task we seek to understand Jesus and to follow him."

The YWCA sponsors a Y-Mart each year. Another annual project is the Y-Knot Frolic held early in the fall for all women students. Every freshman girl who

joins the Y has an upperclass big sister who helps her in finding her place on the campus and in the Y. The big sister groups have two parties in the fall. The YWCA sponsors a community recreation program at Douglas Center and holds weekly interest groups for its members. The organization, which has membership open to all women students, works closely with other campus groups such as the YMCA and various church groups in sponsoring LIFT Week, United Nations Week, and the Community Chest Drive. Miss Ruth Bachelder is the new director of the YWCA this year. She is employed full time in serving the Y. The YWCA maintains a permanent office on the second floor of Anderson hall. Doris Mauk was president this year.

Unusual gifts and novelties from foreign countries intrigue students and townspeople who do their early Christmas shopping at the annual Y-Mart in rec center.

Y-Orpheum Sponsored by YMCA

Y-Orpheum, the only all-College variety show, is sponsored by the Young Men's Christian Association. The group also presents the Easter assembly and is a participant and sponsoring agency of LIFT week. Open to any male member of the student body, membership increased this year from 110 to 150 members. Weekly meetings are held in which members discuss effective citizenship, racial understanding, the Bible, international understanding, and dates and mates. Twice a month all association meetings are held with the YWCA. The YM conducts a radio workshop for members and presents a 15-minute radio show each week. During the year the YM sponsored folk and square dance instructions. Dick Hodgson was president and Dr. Howard T.

Hill is chairman of the faculty advisory board. Mr. Herb Pifer is the executive director.

Jr. Deacons are chosen from the student body to serve as deacons of the First Christian church in Manhattan. To be elected to the group, college men must be members of the church and be voted upon by the group. The purpose of the group is to further churchmanship among college men by serving as deacons and by religious training at monthly meetings. During the year the Jr. Deacons helped remodel the Disciple Student Foundation. They also helped sponsor a Christmas vacation for a child from a Colorado orphanage. Joe Hollingsworth was president and Mr. Walter Abel is faculty sponsor.

Variety and lots of it keeps college from being all work. Colorful events of the year included everything from the KU-Kansas State basketball game to ISA Parents' Day.

Chapter Nine

FRATERNITIES AND SORORITIES

Rush week is over. The freshman rushee chooses the group with which he or she wishes to live and then begins the cycle of Greek life—pledgings, initiations, pinnings, and graduations. Each of these words is synonymous for a part of sorority and fraternity life. Parties of all kinds from hour dances to elaborate formals are held throughout the year. Every house has its king and queen candidates, its honor winners, and campus notables. But these are the more glamorous aspects. The time comes when the sorority or fraternity demands a deeper pride and respect, as when each house gives up either its Sunday dinner or Homecoming decorations to add funds to the Polio collection or when the members take a Saturday off and do construction work for the community. Yes, after one year the freshman realizes that this is a wonderful life.

Sorority houses show marked advancement since 1915 when the first national sororities lived in organized houses.

Alpha Chi Omega

From pledges to actives, the Alpha Chi Omegas are interested in helping others. The special projects of the group this year were a party given by the pledges for underprivileged children and contributions towards the support of the National Cerebral Palsy organization.

President of the sorority was Claire Walker and the housemother is Mrs. Meta Jones.

The lyre-shaped pin of the Alpha Chis has a particular significance. Founded in 1865 at DePauw university in Greencastle, Indiana, Alpha Chi Omega was originally a sorority for music majors only. They became a social sorority a few years later, but kept the lyre as their pin as a reminder of the original beginning. Gamma Zeta chapter was founded in 1946.

Lampshades, animals, sailor hats, and paper hats were worn by guests as new Easter bonnets to the Alpha Chi party for the pledge classes on the hill. Every girl designed her own hat and a prize was given for the most original. Other social events were the Christmas house party, "Shovelin' Inn," and the spring formal, "Paradise Prom."

Carolyn Olsson was a member of Chimes and Doris Wolgast was in Omicron Nu.

Alpha Delta Pi

The honor of being the oldest secret society in the world for college women belongs to Alpha Delta Pi. It was founded in 1851 at Macon, Ga., and now 102 years later, there are eighty chapters. Alpha Eta was begun at Kansas State in 1915 and has grown to a chapter of 63 members. Jo Ellen Menchan held the office of president for the year and Mrs. Luna N. Campbell is the housemother.

The chapter can also be proud of their 100 per cent contributions to the polio, Community Chest, and tuberculosis funds.

Other highlights of the year were the Faculty tea, Christmas and spring formals, chapter picnic, and winter and spring houseparties. Joyce Spiegel was chosen as attendant to the military ball queen, and Marlene Frohn was one of the finalist candidates. In the 1952 Y-Orpheum the adventures of "Winkem, Blinkem, and Nod" were celebrated in words and music and won second place for the ADPis. In intramural swimming events third place was secured by the sorority.

Alpha Xi Delta

Winning first place in Y-Orpheum was the highlight of the 1952 spring semester for the Alpha Xi Deltas. Next to their unmistakable talent for producing winning Y-Orpheum shows is their ability to choose queens. Helen Morris was attendant to the Barnwarmer queen and Dorine Heitschmidt was selected as Lambda Chi "Crescent Girl" for 1952.

A new queen and king contest was brought to the campus by the Alpha Xis at their Halloween party this year. The king and queen were not chosen because of their looks and personality, but for their skill in dancing with a hot potato held between their foreheads. The Country Club is like a scene from a rose garden when the spring social season is closed with the Pink Rose formal.

Campus recognition was gained by Joyce Shannon, cheerleader, and Gwen Emel, president of Future Teachers of America.

Mrs. Bertha Landstrom is housemother and Rena Hartzler was president first semester.

Alpha Xi Delta had its beginning in 1893 with Alpha Kappa coming to Kansas State in 1922.

Chi Omega

From spring to fall the Chi Omegas were celebrating the triumphs of its members as queens. Phyllis Connor was the 1953 Royal Purple beauty queen, Pat Laney was attendant to the Homecoming queen, and Ann Vandiver was attendant to the Flushbowl queen.

The fall "Hayhop" is the well-known party of the Chi Os. In keeping with its autumn theme, bales of hay transform Pottof hall into a country setting. The chapter Eleusinian picnic, founder's day dinner, and the White Carnation Ball were the other social activities.

Enthusiasm for Kansas State's athletic teams was never lacking among the Chi Omegas for Joyce Krehbiel and Pat Laney were cheerleaders and Sue Burke was president of Purple Pepsters. In other activities Marilyn Benz was a member of Board of Student Publications and of Chimes. Lou Sidener was president of Alpha Delta Theta.

Chi Omega was founded nationally in 1895 and in 1915 at Kansas State. Kappa Alpha chapter is one of 113. Mrs. P. J. Groody is housemother and Marilyn Benz was president.

Clovia

Practicing what they study, the Clovias gain experience in the field of home economics by planning and cooking their own meals. Through the cooperation of all the residents, the house is run with precision and efficiency as the girls play the dual roles of student and home economist.

Organized in 1931 as a house for former 4-H club members, there are now two chapters with a third one to be installed in Nebraska. President is Lois Engel and Mrs. C. A. Halverson is housemother.

The Clovias can certainly be described as well-traveled, for three girls won trips to Chicago as state 4-H winners and two girls went to Europe through the International Farm Youth Exchange.

At Kansas State two Clovia members are in Chimes and one is in Mortar Board. All belong to Collegiate 4-H.

The annual Crystal Ball, Rodeo party, and a tea for extension personnel are the social attractions.

Delta Delta Delta

The versatile members of Delta Delta Delta have attained a variety of honors. They sang their way to first place in 1952 Interfraternity Sing and this fall, one of their members, Betty Taylor, was elected attendant to the Homecoming queen.

The sorority also claims three Mortar Board and three Chimes members. Besides this, Tri Delt's held the office of president in Orchesis, Delta Phi Delta, YWCA, Home Ec Council, and Mortar Board.

In order to help a deserving girl continue her education, each year the Delta Delta Delta \$200 scholarship is granted. This does not go necessarily to Tri Delt's, but to any girl who needs aid.

The "Come As You Are" house party was one of the funniest and most informal gatherings of the year. The Christmas and spring formals were the other main entertainments.

Tri Delt was founded Thanksgiving evening at Boston university in 1888. Theta Iota was founded in 1915. Mrs. Dorothy Wilcox is housemother and Doris Mauk was president.

Theta Iota Chapter—*top row:* Mrs. Dorothy Wilcox, Jan G. Austin, Betsy C. Bacon, Greta A. Bauer, Darlene K. Bowman, Barbara E. Boyd, Marilyn G. Brett. *Second row:* Phyllis J. Broman, Shirley R. Kappa Delta

The house was dark with only a few lights showing in the windows. To the people who passed by, it was an unusual view. The appearance suggested that the Kappa Deltas had deserted their home, but such was not the case. The girls had made their annual migration to Tulsa for the Tulsa university-Kansas State football game. The chapter there entertained the K-State KDs for the week end.

Returning for rush week, the girls were delighted with the complete interior redecoration and refurnishing of the chapter house which was done during the summer. It later became the scene of an Indian Summer party given by the pledges for the actives. The social season was concluded with the beautiful annual Emerald ball, held this year on Valentine's Day.

Outstanding members included Jan Grothusen, one of the finalists for Military Ball queen, Lindell Grauer, student director of many one-act plays for the K-State players, and Martha Copening, a member of Arts and Sciences Council second semester.

Founded in 1897 at Virginia State Normal, Kappa Delta now has 33,000 members and 83 chapters. Mary Ann Griebel was president fall semester.

Sigma Gamma Chapter—*top row:* Mrs. Kate Rawley, Doris A. Allen, Vera J. Amick, Patricia J. Angell, Barbara A. Blair. *Second row:* Mary H. Bates, Wilma J. Bauman, Marjorie Bowyer, Loene S. Kappa Kappa Gamma

Efficiency and queenliness evidently do mix. At national convention Gamma Alpha chapter received second place rating in efficiency of all Kappa Kappa Gamma chapters in the United States and Canada, and also was proud to claim Homecoming queen Charleen Dunn and Military Ball queen Pat Bullock.

The Kappas were active in campus matters. Marlene Myers was editor of the Royal Purple and Marlene Zimmerman was president of Chimes. The chapter won second place in the interfraternity sing and in sorority scholarship.

At their Christmas dinner they reversed tradition and gave a groom's shower for one of their house boys. The fall picnic and spring formal completed the social agenda.

Kappa Kappa Gamma was founded nationally at Monmouth college, Monmouth, Ill., in 1870, and established at K-State in 1916. President was Charleen Dunn and housemother is Mrs. Eura Harding.

Gamma Alpha Chapter—*top row:* Mrs. Eura Harding, Ardith Alford, Barbara Ann, Ruth Ashlev, Sidney Beattie, Ann Beckmeyer, Frances Bender, Diane Benedix. *Second row:* Carol Bernhardt, Snowdr Biderback, Carol Blackhall, Pat Boyd, Diane Brainard, Pat Bullock, Kathleen Burns, Mary Callahan. *Third row:* Cynthia Carlwell, Martha Carter, Carol Collins, Waneta Conine, Joan Crum, Mary Deal, Jessie Dodson, Charleen Dunn. *Fourth row:* Jean Eskine, Maryanne Finkle, Thomasine Gleason, Joyce Goering, Margaret Grantham, Margaret Griffith, Virginia Haas, Jackie Hagen. *Fifth row:* Mary Haines, Pat Heaston, Marilyn Heter, Margaret Howard, Elaine Hudson, Joan Hunsberger, Sylvia Hyde, Sandra Isaac. *Sixth row:* Jane Isaacson, Beverly Janzen, Betty Johnson, Karen Kenney, Jane Kimberly, Pat Kirk, Joan Knoll, Carol Knox. *Seventh row:* Mary Lambert, Joyce Larson, Nancy Leavengood, Edith Lovell, Ann Lundgren, Anne Lyon, Billie Mader, Donna Maxwell. *Eighth row:* Sally Mayer, Diane McDonald, Nancy Murray, Harriet Myers, Marlene Myers, Marilyn Nichols, Joyce Nicholson, Suzanne O'Bryant. *Ninth row:* Janice Olson, Kay Petersen, Judy Paustian, Carol Petersen, Janet Raleigh, Gloria Rasch, Betty Reid, Pat Rudrauff. *Tenth row:* Sally Sams, Nancy Schneekloth, Marilyn Schneeborg, Margaret Scholler, Janet Shields, Sue Shreve, Sue Skinner, Janice Stark. *Bottom row:* Sally Stebbings, Ann Study, Jerry Swaffar, Judy Vest, Janet Wann, Marilyn Wayman, Verdel Wilson, Marlene Zimmerman.

Pi Beta Phi

Important "firsts" can be credited to Pi Beta Phi sorority. Kansas Beta chapter of Pi Beta Phi, which was founded in 1915, was the first to be established locally. National origin was at Monmouth college, Monmouth, Ill., in 1867.

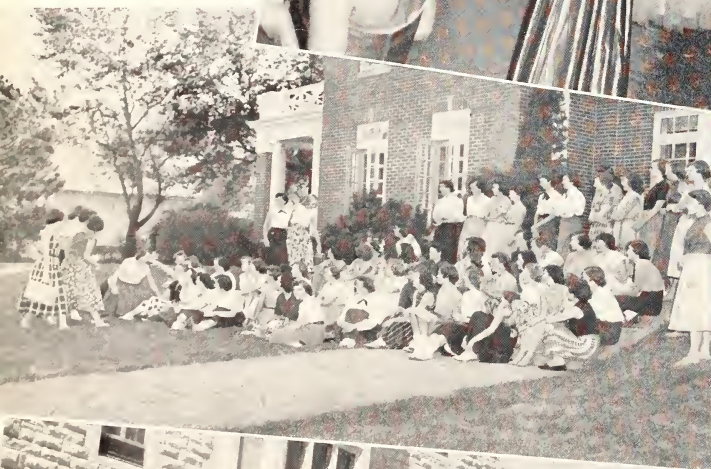

A series of firsts continued for the Pi Phis. They had the highest grades for the 1952 spring semester and took top honors in swimming intramurals. The chapter's work was guided by president Kay Jury and housemother Mrs. R. W. Torrey.

Three Pi Phis were in Mortar Board, two in Chimes and one on Student Council. The co-editorship of the Engineer, presidencies of Whi-Purs, Theta Sigma Phi, Phi Alpha Mu, and the vice presidency of the senior class were major offices held by Pi Phis. Betty Jo Hoffmeier was attendant to the Ag Barnwarmer queen and Becky Thacher was cheerleader. Joleen Knapp was Flushbowl queen.

"Candyland" was the scene of the costume party, which found the girls and their dates dressed as confectionary characters. The social season included a pledge tea, spring formal, and Christmas serenade.

More pledged sororities in 1952 than in any other year, but fewer moved into the sorority houses. Of the record-breaking 219, only 87 moved into the houses, because for the first time all freshmen girls were able to be housed in College dorms.

Three Councils Unify Greek Groups

With the coming of social sororities and fraternities to the K-State campus, a need arose for some type of council to unite the rapidly increasing number of Greek groups. Today there are three such councils, Interfraternity council, Senior Women's Panhellenic council, and Interfraternity Pledge council. All strive to provide unity and to strengthen friendship between the various groups.

Composed of one representative from each fraternity, the Interfraternity council, coordinates the activities of the 22 men's groups. In addition to being the general connecting link between these groups, the council sponsors the annual Interfraternity Sing, helps with Homecoming decorations, and plans and supervises boys' rush week. This year when the sororities and fraternities decided to donate the money ordinarily spent on Homecoming decorations to the Polio fund, IFC collected

and presented the money to the county chairman of the drive. Bob Coloney was president and Prof. Vernon D. Foltz is advisor.

Representatives of the nine sororities that constitute the Panhellenic council, revised their constitution this year, providing, among other things, for the official addition of Clovia as an associate member. Another new addition this year, was that of having the president of each house as one of the two representatives. A new rush booklet was written, and revisions in rush week were discussed. It was decided to have a non-invitational girls' rush week this year. Doris Wolgast was president and Miss Margaret Forsythe is advisor.

An all-pledge dance was sponsored by the members of IPC, the Interfraternity Pledge council. At the dance, a Pledge King and Queen were crowned. Jim Hockersmith was president.

Acacia

With the plans drawn and the site selected, the near future should show the Acacias living in a new chapter house. Acacia fraternity was founded nationally in 1904 at Ann Arbor, Mich. The chapter at Kansas State was established in 1913.

The main extracurricular activity of the fraternity as a whole was helping the blood drive program in the fall. Underprivileged children of Manhattan received gifts from the Acacias. A vigorous drive for the Community Chest first semester brought the desired results as the fraternity contributed 100 per cent.

Not many houses can claim as complete a social program as the Acacias. Taking a cue from the Indian summer weather, the boys held their Indian party last fall with ceremonial tribal dances as the main attraction. The Black and Gold fall formal, chicken barbeque, Christmas party, spring formal, Founders Day dinner, and a valentine party were other times of festivity.

Robert A. Coloney was president of the Interfraternity Council and William G. Kvasnicka held the office of president of Alpha Zeta. Donald E. Sheets was a Wampus Cat and Harry Warren was on the dairy products judging team. Earl S. Beaver was president of the chapter and Mrs. Ella Lyles is housemother.

Kansas State Chapter—*top row*: Mrs. Ella Lyles, Ralph Adams, John W. Baughman, Earl S. Beaver, Mark F. Bence. *Second row*: Clifford C. Bizek, Gary L. Brack, S. Weldon Braman, John R. Alpha Gamma Rho

The sound of drums, trombones, and clarinets, blares out from the Alpha Gamma Rho house and the noise does not come from their new console radio-television set. It is the practice period of the AGR pep band. From Homecoming parades to jam sessions, the band finds a useful place in fraternity life.

Founded nationally in 1908 and at Kansas State in 1927, Alpha Gamma Rho is composed of boys who have a special interest in agriculture. Representative of this interest are the offices held by members. They had the presidencies of the Klod and Kernel Klub, Collegiate 4-H, Horticulture club, and were members of the livestock, meats, crops, and dairy judging teams. Raymond Sis, president of the fraternity, was high individual point winner of college competition at the American Royal. National fraternity recognition was given the Alpha Zeta chapter, when they won the National Outstanding Activities Award. Intramural softball champions was an additional honor.

Mrs. Olive Kipfer is the housemother for the boys who wear the scythe and sheaf of wheat.

Alpha Zeta Chapter—*top row:* Mrs. Olive Kipfer, James W. Adams, Richard L. Ahlvers, Allan Andrews, William J. Baker, Rex A. Bantz. *Second row:* William H. Bereman, William J. Alpha Kappa Lambda

The Mardi Gras, a time of festivity, was brought to Kansas State at the Alpha Kappa Lambda fraternity party. New Orleans with all its elaborate decorations finds competition with the fun and the pleasure that the boys and their dates enjoyed at their little Mardi Gras. Other sources of entertainment during the year were picnics, hayrack rides, exchange dinners, a halloween party, and spring and fall formals.

Iota chapter of Alpha Kappa Lambda was established at Kansas State college in 1930. The national fraternity originated at the University of California in 1914. There are now fourteen chapters.

Intramurals were participated in by nearly every member of the chapter. Touch football, bowling, basketball, wrestling, and most of the other intramural sports available had representatives from Alpha Kappa Lambda. Individual honors were gained. Two members were all-fraternity wrestling champions in the lightweight and heavyweight divisions.

AKLs interest in organizations runs specifically to military honorary societies and engineering organizations.

Mrs. Arvella Smith capably fulfilled her role as housemother and Ralph Comiskey was president.

Iota Chapter—*top row:* Mrs. Arvella Smith, Edward H. Bauerband, James T. Bonner, Karl L. Brack. *Second row:* Ralph E. Comiskey, Gordon W. Dickerson, Vernon H. Dye, Leighton E. Alpha Tau Omega

"Help Week in place of Hell Week" has become a common practice on the campus due to the efforts of the Alpha Tau Omegas. Three years ago they were the first fraternity at Kansas State to substitute charitable work for the usual pre-initiation practices. This year the pledges did clean up work in churches of Manhattan which had not been restored completely after the flood. The fraternity gained national recognition for the establishment of national Help Week.

The ATOs believe in a gay and bright social season. The western festival and Hawaiian party provided the more informal entertainment of the year. The Blackfoot-Whitefoot picnic and dance held with the Sigma Nus was fun for the chapter. Dignity was added to the fraternity social activities by their White Tea Rose formal.

Alpha Tau Omega was established at Richmond, Va., September 11, 1865. There are 116 chapters. Delta Theta was founded on the Kansas State campus October 22, 1920.

Mrs. L. E. Keeler is the housemother and Paul Marti handled the office of president.

Beta Sigma Psi

Acting as hosts to the Beta Sigma Psi National Convention made a busy spring semester for the Zeta chapter at Kansas State. The preparations which were begun early in the fall ended with the two-day meeting April 18 and 19. Two hundred members, officers, and delegates met to elect new officers and to exchange ideas. A program of national officer speakers closed the conference at the convention banquet.

Beta Sigma Psi was founded at Champaign, Ill., in 1925. It is a national social fraternity whose membership is composed of Communicant Lutheran students. The local chapter had its beginning March 4, 1951.

Zeta chapter had its share of campus-recognized members. Bill Jorns was on the track varsity and Bill Herberg and Carl Karst were on the Dean's Honor Roll. To heighten the excitement of the Homecoming celebration, the boys built a float for the parade.

A Christmas party, house picnics, hour dances, and Parents Day are important parts of the social program.

Mrs. L. R. Keim is housemother and Bill Herberg was president.

Zeta Chapter—*top row:* Mrs. L. R. Keim, Wallace L. Asendorf, William M. Bucher, Warren D. Biel, Marvin D. Bitter. *Second row:* Duane A. Blackwood, Del L. Bokelman, James E. Boyd, Harold J. Beta Theta Pi

Catastrophe struck the Beta Theta Pi fraternity one evening last spring when the judges of the Interfraternity Sing announced the winners—for the first time in 20 years the Betas received the third place cup instead of the first or second place trophy. Shortly afterward however, Beta spirits were upped by the announcement that they had won intramurals.

Bill Varney presided for the year. Mrs. E. A. Coady is the Beta housemother.

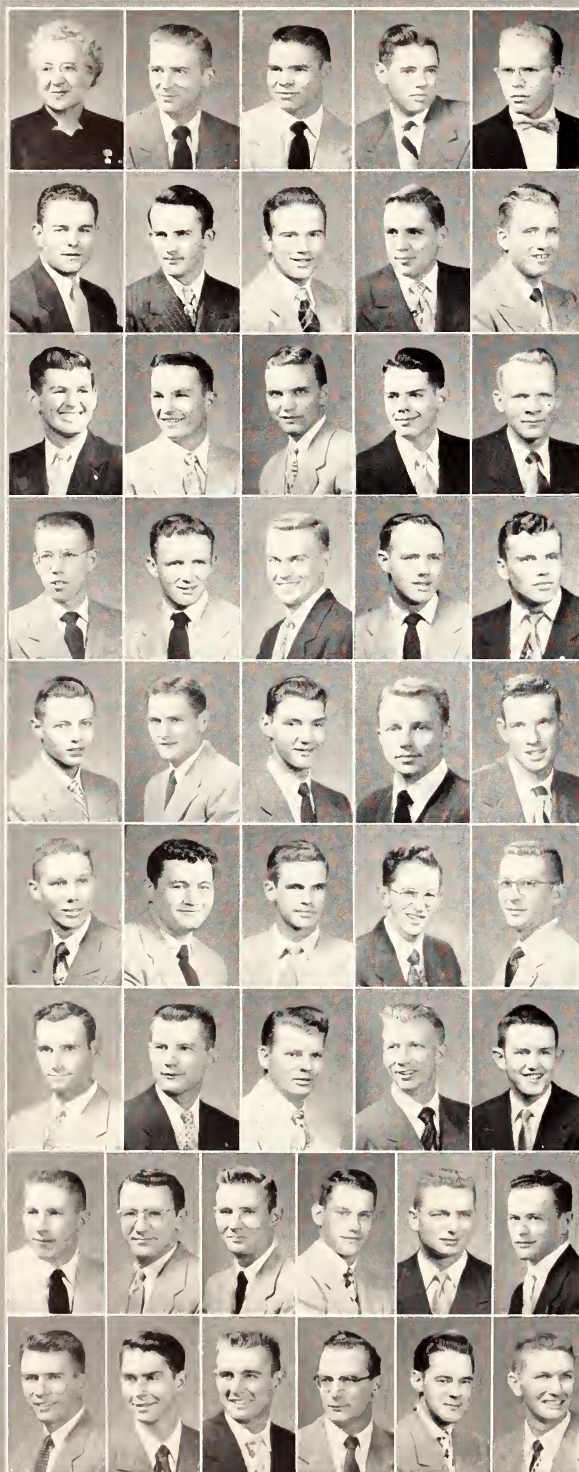

The Betas cheer wildly for basketball player Dick Knostman who was placed on four first All American teams and on three second teams, and point with pride to Student Council president Bill Walker.

The local Gamma Epsilon chapter was established in 1914. Beta Theta Pi was founded nationally in 1839 at Miami university.

When they entertain the Betas dress up for the Triad and Beta Pig, but go country when they attend the Li'l Abner house party and the Beta Barbeque.

Theodore Weaver, P. David Weigel, Dennis L. Winger, Richard T. Wriehtr, and George J. Yapp.

Delta Sigma Phi

"Originality" has been the keynote for all Delta Sigma Phi activities this year. Their first place homecoming decorations pictured the tiger of MU in an elaborate three-scene jungle hunt climaxed with the "de-feeting" of the tiger.

The most amazing and one of the cutest candidates for FMOC was nominated by the Delta Sigs. Their mascot, the blonde cocker spaniel 4-Bits, produced a furor on the campus when he ran for favorite man. Four-Bits was not counted out of the race either, for on the night of the dance he was named FDOC or Favorite Dog on Campus.

The presidencies of Blue Key, Scabbard and Blade, Interfraternity Pledge Council, Industrial Arts Association and Agricultural Education club are held by the members. The president of the chapter was Ray Burns.

For their own enjoyment, the boys built a new recreation room. This was a wonderful place to hold their French Apache party and the spring Sailor's Ball. The other outstanding social affair is the White Carnation ball.

The Delta Sigs also took first in their intramural football bracket.

The fraternity was founded in 1899. K-State's chapter, one of 78, was established in 1925.

Mrs. Paul F. Smith is housemother.

Alpha Upsilon Chapter—*top row:* Mrs. Paul F. Smith, Herbert E. Baker, Jack E. Bean, Roe E. Borsdorf, John N. Bradford. *Second row:* Raymond L. Burns, Ronald C. Carmichael, Donald L. Corey, John F. DeMott, Richard D. Drury. *Third row:* William J. Elliott, Samuel L. Fisher, Gary D. Fletcher, Calvin C. Garrison, Robert W. Greve. *Fourth row:* John M. Guion, William B. Hale, Jerome L. Stockstill, Virden L. Turner, and Pat A. Wilkerson.

Delta Tau Delta

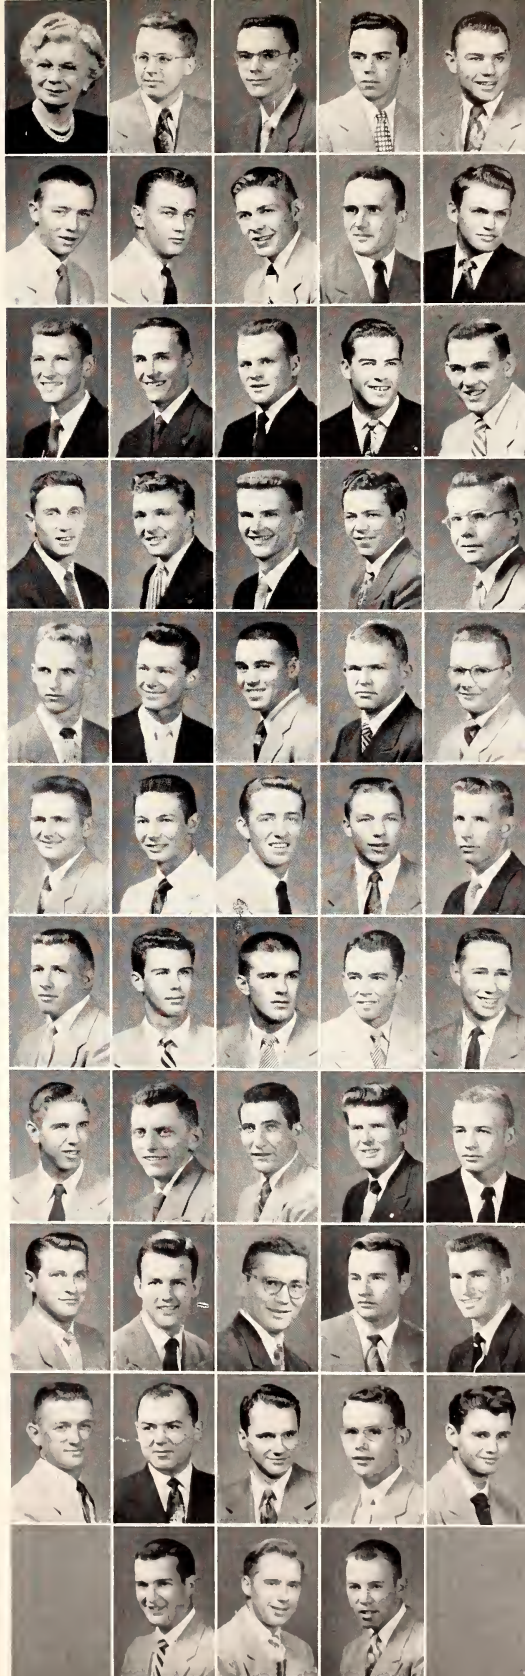

With every nail that is hammered and every brick that is laid, the Delta Tau Deltas become happier. Their new "Delt Shelter" is nearing completion and they will soon be able to occupy the modern fraternity house.

Maintaining a firm hold on campus matters, the Delta Tau Deltas had a busy and good year. The "Delt Sweetheart Song" brought the fraternity first place in the Interfraternity Sing for 1952. The outstanding Thane Baker gained international recognition as an Olympic track star and added to his honors during the following school year. Showing the same characteristics that have won him races, Thane ran for FMOC and was the winner. He was also on Student Council and Athletic Council. Dean Morton was treasurer of the senior class, co-editor of the Engineer, and Student Council representative.

The annual Delt winter formal, spring formal, pledge paddle party, and the annual Bar-B-Q were the usual successes.

Wendell Jacobs was president and Mrs. Fred Coulson is housemother. Delta Tau Delta was founded at Bethany college in 1858. Gamma Chi was founded at Kansas State in 1919 and since that time has initiated approximately 500 members.

Gamma Chi Chapter—*top row:* Mrs. Fred Coulson, Frank C. Andrews, David C. Ayers, Donald V. Ayers, W. Thane Baker. *Second row:* David G. Boucher, Lawrence A. Chitwood, Richard Cunningham, Elmer G. Davis, Phillip A. Diehl. *Third row:* William E. Epperson, Robert F. Frank, Franklin D. Frewen, Donald R. Gadberry, Austin P. Gentry. *Fourth row:* John P. Gibson, Jesse M. Gibson, Edward L. Schiller, Marion D. Socolofsky, R. J. Streeter, Paul Strunk, Robert L. Tidy. *Bottom row:* Richard M. Thompson, John D. Townsend, and Wayne W. Windsor.

Farm House

"Parties! Parties! Seems as if we have more parties than anyone else." That might well be said by the boys from Farm House. A look at their social activities shows that they entertain with a Gay 90's party, Star and Crescent formal, Christmas party, Sweetheart's Day, Parents' Day and Sisters' Day dinner, plus several informal house parties and picnics.

Evidently parties don't affect their scholarship achievement and activities, for Farm House has always rated high in grade average. In the spring of 1952 they received recognition for having the highest grades of all the social fraternities on the campus. Individual honors were attained by many members. Three boys were in Blue Key. Doug Fell was the president of the senior class, vice president of Blue Key, and president of the fraternity. Llano Thelin was chairman of SPC and Lift Week. J. Zimmerman was manager of the Ag Barnwarmer, and Neal Atkinson was attorney general for the Tribunal. Besides all this, the boys painted their chapter house last fall as a group project.

Farm House has been at Kansas State since 1921. This placed it as the fourth chapter of the twelve now in the United States. Mrs. E. L. Taylor is the housemother.

Kansas Chapter—*top row:* Mrs. E. L. Taylor, Charles W. Alexander, Philip H. Arnold, L. Neal Atkinson, Jack E. Beauchamp. *Second row:* H. Eugene Brinkman, Glen E. David, Wayne L. David, B. Kappa Sigma

The Kappa Sigma door opens. Pirates, their ladies, and varieties of storybook-looking characters can be seen within. It is the time for the Red Dog party, a red letter day at the fraternity. Music and atmosphere greet the ladies and their escorts as they enter the scene of gaiety and excitement. This year the party featured a pirate theme which was elaborated with costumes and setting.

Parties don't end with the Red Dog. A Christmas formal, Black and White spring formal, and many house parties, picnics, and dances are given.

A starting varsity baseball pitcher, Rex Wade, was in the ranks of the Kappa Sigs. Also making a name for itself was the intramural football team which won its bracket. Activity minded, the fraternity won second place in the 1952 Y-Orpheum and Richard Coonrod was treasurer of the Arnold Air Society.

Kappa Sigma began at University of Virginia in 1869 and at K-State in 1919. There are 124 chapters in the United States. Don Wenger was grand master of the local chapter this year and the housemother is Mrs. Verna Sibley.

Gamma Chi Chapter—*top row:* Mrs. Verna Sibley, Ronald V. Anderson, Gerald C. Armstrong, Joe E. Ballinger, R. Tom Barton, Robert R. Burns. *Second row:* Fred C. Casterline, Dale O. Kappa Alpha Psi

Although a young fraternity on the Kansas State college campus, Kappa Alpha Psi is becoming well-known in Manhattan. Especially aware of their presence are the children of the Douglas grade school. This year, as has been their custom for the past several years, members of Kappa Alpha Psi saw to it that every child in the school received a Christmas present.

Entertainment highlights of the Kappa Alpha Psi social year are the spring and fall formals.

Kappa Alpha Psi can be justly proud of twice All-American, twice Big Seven Conference, football player Veryl "Joe" Switzer. The fraternity presented him with an award for his fine achievements in athletics at Kansas State at a special ceremony last fall.

Always a threat in intramurals, the Kappa Alpha Psis were the runner-ups in basketball and were the volleyball champions of 1952.

At the present time Kappa Alpha Psi members have neither a house nor a housemother, but hope to have both next year. Currently, they hold meetings in various rooms on the campus and remain an active and functioning organization.

Beta Psi chapter was founded at Kansas State in 1947. There are now ninety-three undergraduate chapters of the fraternity. The date of national organization was 1911. The president was Victor Talbot.

Lambda Chi Alpha

An air of confidence prevails at the Lambda Chi Alpha house, for this year has really brought these boys some happy and proud moments. They are experiencing true fraternity life, living in their new home. The fraternity has gained campus fame, when after nights of secret planning, hammering, and building, their elaborate float "His Master's Voice" took first place in the Homecoming parade competition.

But the Lambda Chis' drive and ambition weren't limited to the College and fraternity, for they inaugurated a public relations project to help the city of Manhattan. The boys gladly gave up one Saturday during the fall to paint the Community House windows.

The social season finds them entertaining with a fall and spring formal, and an Alcatraz party where the guests amused themselves with a game of cops and robbers.

One of their members, Gene Park, was one of the six members of the K-State poultry judging team that won the collegiate championship in Chicago.

Founded at Boston university in 1909, Lambda Chi has 141 active chapters. Gamma Xi was established at Kansas State in 1924 and reactivated in 1948.

Clarence M. Call was president for the fall semester and Mrs. E. M. May is the housemother.

Phi Delta Theta

Sports-minded Phi Delta Thetas have real reason to be proud of their athletic ability. When they go to a varsity football game, the Phi Dels feel that they also have a fraternal interest in the Wildcats for three members, Jerry Cashman, Dick Towers, and Earl Meyer, are in the line-up. The intramural basketball crown went to the Phi Dels when they beat Kappa Alpha Psi 27 to 24. The only blemish on their record was the loss of the annual Flush-bowl football game to the Sig Alphas.

The singing Phi Dels made the 1952 Inter-fraternity Sing a night to remember as they won the second place trophy.

Kansas Gamma, founded in 1921, is one of 115 chapters of Phi Delta Theta which originated nationally in 1848. This year the Phi Dels chose as their president Charles Thomas.

Mrs. John Hurley, the new house director, was honored with a tea during the fall semester. Other parties included the Triad and spring formal.

President of Steel Ring was Phil Huff and the president of YMCA was Dick Hodgson. They were also in Blue Key and were members of the Student Council.

Phi Kappa

"Is it the Country Club or an aquarium?" asked an amazed girl to her date at the Phi Kappa spring formal. The reason—the Phi Kaps were giving added emphasis to their Friday Fish formal theme by having goldfish and a crested bowl as favors. In addition to this party, the numerous house parties, picnics, smokers, and hour dances rounded out the social program.

After much hard work this last summer, the Phi Kappas can sit back and rest while their housemother, Mrs. Eleanor Theisen, enjoys the new addition to her quarters which they helped build.

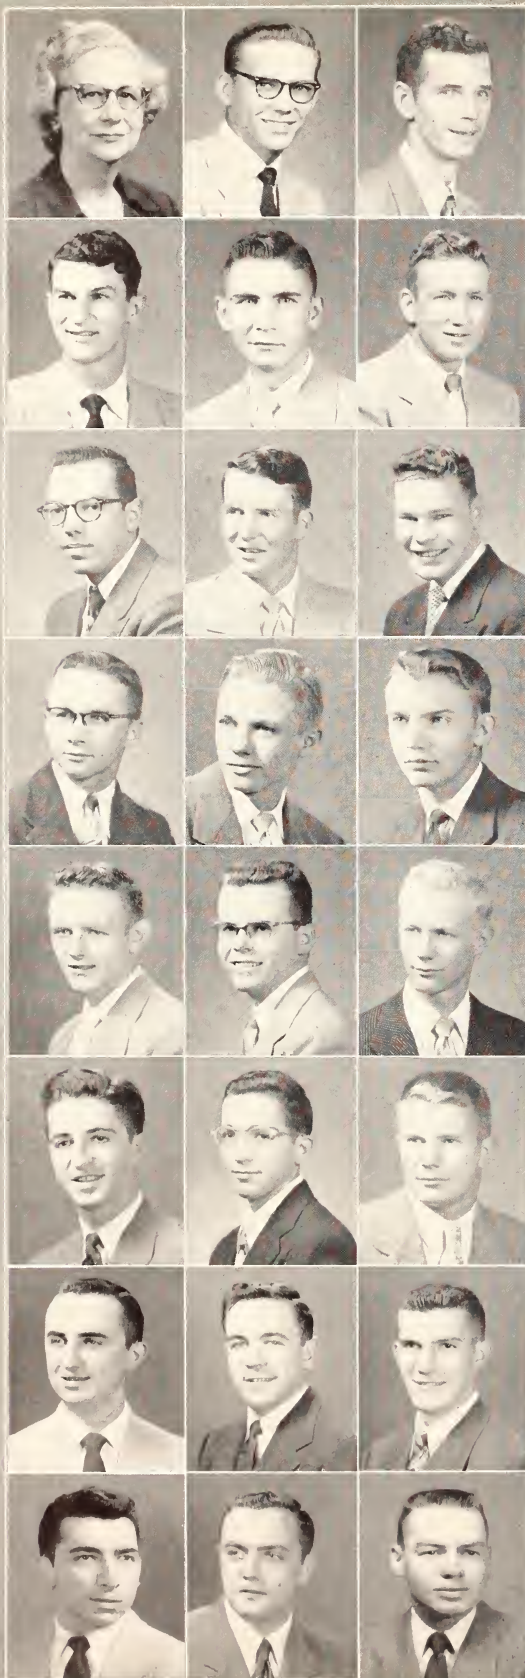

Kansas State's Iota chapter was founded in 1921. The national Catholic fraternity was established at Brown university in 1889 and there are now 32 chapters. Don Luebbert was president of the local chapter.

Placing second in fraternity softball championship play-offs was a proud day for the boys. The Phi Kappas also feel that their dog mascot, Waldo, would have made a good competitor for the Delta Sigs' cocker spaniel, 4-bits, in the FMOC race.

Robert Melroy was the vice president of Scabbard and Blade. In this capacity he served as chairman of the Military Ball. Two Phi Kappas, Marion Tongish and Dan Petracek were International Farm Youth Exchange students and spent the first semester in Europe.

Iota Chapter—*top row*: Mrs. W. P. Theisen, William L. Bennett, Harold L. Birzer, Roger O. Day Jr., Fred G. Dikeman. *Second row*: James H. Drees, Wilbert F. Dreiling, John P. Epler, William C. Phi Kappa Tau

"Small but mighty" could be the motto of Phi Kappa Tau fraternity. Alpha Epsilon was reactivated again on the Kansas State campus in 1950, following its discontinuance during the war, but its growth has been rapid and progressive during the past three years.

The boys have an entertaining social agenda. The Klondike party was one of their most colorful parties of the year. The theme was an old saloon in the North country. Everyone danced, played cards, and had fun in the true Alaskan fashion. A Christmas party was given for some underprivileged children of Manhattan. The fall and spring semesters were each accented by a formal party.

Following considerable work, Phi Kappa Tau entered as their float in the Homecoming parade an old car with the large sign "Us Grads Return." Although bringing home no trophies this year, the Phi Kappa Taus were enthusiastic supporters of the intramural program for they participated in all events.

Mrs. Wallace Applegate housemother, and William Wise, president, did their part to make the year successful.

The fraternity was founded in 1906 at Miami, Ohio. There are now 68 chapters. The Kansas State chapter was founded in 1925.

Alpha Epsilon Chapter—*top row:* Mrs. Wallace Applegate, Richard E. Blackwell, Wallace C. Brown. *Second row:* Vance L. Carson, Joseph E. Conway, Sylvan L. Dawson. *Third row:* Kenneth E. Pi Kappa Alpha

The good old days—when college boys wore racoon coats and everyone danced the Charleston—The Roarin' Twenties. The Pi Kappa Alphas turn the calendar back thirty years one night each winter and revive the spirit of those earlier days with their Roarin' Twenties party. Decorations, dress, and entertainment are kept authentic, and everyone from the flapper to the sheik has a good time. Similar color is present in all the PiKA parties whether it is the Dixie Ball, Corn Jigger, Beachcomber party or the winter formal.

Outstanding student members were Bob Bertrand, cadet general of A.F.R.O.T.C. and president of Sigma Tau, and Bob Byrkit, business manager of the Collegian first semester. Pi Kappa Alpha for still another year can claim cheerleaders, with Buddy Jass and Ernie Harms.

Mrs. Ransom Stephens is housemother and Bud Quinlan was president. Pi Kappa Alpha was founded at the University of Virginia in 1868. Alpha Omega chapter was established in 1913.

Alpha Omega Chapter—*top row:* Mrs. Ransom Stevens, Jack W. Argabright, Gary D. Atkinson, H. Mike Back, Melvin A. Battin, Kenneth M. Barr. *Second row:* Robert G. Benyshek, Robert L. Sigma Alpha Epsilon

This year the Sigma Alpha Epsilons could call themselves the best politicians on the hill, having captured the presidencies of five campus organizations. SAEs wield the gavels for SGA, Milling association, Pi Tau Sigma, Arts and Sciences Council, Student Wildcat club, and co-chairman of SPC.

SAE was founded in 1856 at Alabama university. Kansas State's Kansas Beta chapter was established in 1913. Sig Alph house-mother is Mrs. E. L. Claren. President was Charles Weathers.

The Sig Alphs go in for athletics in a big way, intramural and intercollegiate. Last spring SAE won intramural track and swimming. This fall they beat the Phi Delt in the annual Flushbowl football game. The Sig Alphs really score with a private K-State basketball team of Prisock, Rousey, Stauffer, Smith, and Jung.

Socially they still have their Island party although part of the island went down the Kaw with the flood. They also entertain with the Belle Ball, and Bowery party.

Sigma Chi

A famous song, the Sweetheart formal, and fraternity pride are all qualities for which the Sigma Chi fraternity is recognized.

Taking a cue from their world-familiar song, Sweetheart of Sigma Chi, the fraternity has a Sweetheart Ball each spring. Marcia Winegardner was Sigma Chi Sweetheart for 1952 and Sue Shreve reigned over the 1953 ball. The Miami Triad formal with the Betas and Phi Deltas enlivens the fall social setting.

Delta Upsilon chapter was founded at Kansas State in 1949. They celebrated their third anniversary on the campus by entertaining the national president of the fraternity. Sigma Chi was founded nationally in 1855 and now includes 125 chapters.

The fraternity house had a visitor for three days at Christmas. Each year the members provide an orphan with a home. Parties and dinners are all planned to entertain their small guest.

Dale Schindler was president and Mrs. H. T. Boss is housemother.

Sigma Chis are the presidents of the All-College political party and the Miniwanca Club, and commander of the Pershing Rifles.

Sigma Nu

No furniture can be seen, but oddly enough there are large bowls of fruit set on the floor. It doesn't look like the scene of a party, but it is. The Roman Party! The boys and their dates arrive in long tunic like costumes and from then on, the motto is "Do as the Roman do."

The Sigma Nu social season is colorful and varied. The White Rose formal is one of the most beautiful parties of the year. Interfraternity ties are strengthened by the annual Black-foot-Whitefoot picnic and formal held by the Sigma Nus and the Alpha Tau Omegas.

Founded at Virginia Military Institute in 1869, Sigma Nu fraternity was installed at K-State in 1913. The local chapter has grown to a membership of seventy-five boys. The Chancellor of the Tribunal, Roger Brislaw, and Chairman of Engineers Open House, Mark Brislaw, and Blue Key Treasurer, Warren Beevers, are Sigma Nus. Bernie Dudley and Tommy O'Boyle were the fraternity representatives on the varsity football squad. O'Boyle was selected by the AP for the second string Big Seven defensive team. Intramural wrestling was won by the fraternity.

President was Alan Wilson and housemother is Mrs. Illa Hall Wells.

Sigma Phi Epsilon

The Golden Heart Ball went underwater with its theme this year. The symbolic gold heart was replaced in the decoration motif with a large chartreuse replica covered with seaweed in keeping with the greens and blues of ocean life. Mermaids and underwater scenes accentuated the theme. Diantha Horton reigned over the dance as Sig Ep Sweetheart. The western party and paddle party were the other main social events.

Campus offices held by Sig Eps were the presidencies of Young Democrats and Alpha Phi Omega, the vice-presidency of All-College party, and membership on the Student Council.

"Look Sharp, Feel Sharp, Be Sharp—The Sharpest Cats Ever Shown" was the slogan that brought second place Homecoming decorations to the fraternity. The two figures used were the Wildcat barber and the tiger customer.

Mrs. Doris Erickson is housemother and Jack Jury was president for the year.

The fraternity was founded nationally November 1, 1901, in Richmond, Va. Kansas Beta chapter was founded February 23, 1918.

Tau Kappa Epsilon

To be an active for a day is the wish of many a pledge. Tau Kappa Epsilon has a reversal day which gives the pledges an opportunity to wield the power, while the actives return to the status of a pledge. Shouts of shine those shoes and do that work are heard as the actives take over the duties. The day is climaxed with a party given by the actives, after which the spell is broken and pledges resume their roles.

Socially the TKEs entertain with Christmas and Halloween parties, a Corral-Barbeque, exchange picnics and dinners, hour dances, and a spring formal.

The fraternity participated in all intramurals and belong to the College Bowling League.

The president of Wampus Cats and a cheerleader were TKEs. Erle Muir was second high in poultry judging at the International Exposition in Chicago.

Tau Kappa Epsilon was founded 1899. Alpha Lambda chapter originated on the campus in 1931.

Robert Sambol was president and Mrs. Edith Johnson is housemother.

Theta Xi

Campus, city and fraternity spirit was high with the Theta Xis the past year.

Members of the chapter had a particular reason to help spur the Wildcats to victory for Chuck Bellman and Ed Drimmel were leading cheers at all of the games. In their own athletic department, the Theta Xis were the intramural tennis team champs and boasted the handball champ for 1952.

Creative ability was not lacking. An African safari won third place in the Homecoming parade and the themes of their parties were different and unusual. The Tuffy Strut, Unicorn Ball, and Tunabout were entertaining and clever parties. A skating party was another social function.

"Hellweek" with all its stunts and tricks was replaced this year by a community improvement project.

Providing the leadership necessary to make their plans successful were Dale Schwindaman, president, and Mrs. J. Conkey, housemother.

Theta Xi was founded at Reneselaer Polytechnic Institute, Troy, New York in 1864. The local chapter, one of 55, was installed in 1931.

The place a student lives is the real center of college life. College dormitories and independent organized houses play a vital role in the educational process; for education includes learning about people in relation to yourself. Nearly two-thirds of each student's day is spent in his college home. This constitutes twice as much time as the average K-Stater uses in the classroom. The residence is the scene of college joys, problems, studies, and friendships. Kansas State has quite recently greatly strengthened its dormitory system. The beautiful new residences, Northwest and Southeast, and the older dormitories, Van Zile and Waltheim, are drawing more and more women to the school. Over six hundred girls lived in these halls during the 1952-1953 school year. Future "campus of tomorrow" plans will meet the demand for more men's housing with new dormitories to supplement West and East Stadiums, the present men's dorms. Smaller housing groups contribute a spirited influence to the campus. K-State's housing program provides the type of college home that is truly home-like.

Northwest hall, one of three girls' dormitories on the campus, was opened for freshmen in the fall of 1951. It stands facing the east, on the west end of dormitory hill.

Van Zile hall, the oldest girls' organized dormitory, overlooks the other dorms from its center position on the hill. Van Zile houses 170 freshmen and upperclassmen.

Southeast hall opened its doors for the first time last fall, letting in over 200 freshmen and upperclassmen. It is the east-end member of the dormitory group.

Waltheim is the only dormitory occupying an off-campus location. The 60 upperclassmen girls living here enjoy the comfort of individual apartments and study rooms.

Northwest

Spirit, enthusiasm, and gaiety envelop Northwest hall, the center of college life for 211 girls. Here, from the beginning of the new school year to the end, it is the scene of study, parties, and excitement.

Northwest in its second year of organization, has proved even more attractive for the freshmen girl. Socially, the residents have entertained with hour dances, a winter formal, coffee hours, and a faculty tea. During semester vacation a pajama party was held in the honor of the new girls moving into the dorm.

Clear strains of "Silent Night" floated out on the evening air. It was the inter-dormitory Christmas sing held outside in front of Van Zile hall. The result was so satisfactory that it is now planned to make this sing an annual event. Christmas was really celebrated at Northwest, for they also had tree trimming sessions, a Christmas dinner, and sang carols at Fort Riley.

Music highlights the informal party held for new girls.

In the realm of queens Northwest had more than its share. Joan David was Ag Barnwarmer queen, Yvonna Higginbotham was a Scabbard and Blade sponsor, Betty Wharton was an attendant to the Military Ball queen, and Eleanor Hedges was chosen as first attendant to the Royal Purple Beauty queen.

Proving as versatile in athletics as in other activities, Northwest's volleyball team won first place in girls' intramurals.

Northwest Extends Its Role

As Northwest was the first freshman dormitory, its influence has been important. It became evident that with the addition of the second new dorm, Southeast, a method of coordinating the activities of the four College dorms was needed. Thus, the inter-dorm council was originated, composed of members from each dorm. Northwest plays a vital part in this council as its problems have been similar to ones facing the other residences.

Northwest's recreation room, situated in the basement, provides the girls and dates with welcome relief from their studies.

Van Zile Now Houses

Wherever you find a college girl, you will find music. The piano is a community place of interest to Van Zile residents whether they sing, play, or just listen to the newest songs.

Van Zile has undergone a change in residents, for with the completion of Southeast hall, the upperclass girls deserted its corridors, and Van Zile became a freshman dormitory alongside Northwest hall. To be sure, another dorm was needed, for even Van Zile had reached capacity housing with 151 freshmen girls and ten counselors. This dorm boasts the unusual honor of participating in boys' intramurals. The houseboys and waiters formed a basketball team which represented the residents. Van Zile did not need the help of boys to place them in the winning column of intramurals, for they were victorious in various swimming events.

51 Freshmen Women

Each year Van Zile will house new girls. As the freshmen girls of 1953 become sophomores, they will leave the dormitory and different faces will appear in its halls. The residents of this year will leave a reminder of their presence, for as a group project they supervised the redecoration of the recreation room.

A smorgasbord dinner, faculty dinners, Christmas banquet, and house parties were social functions of the year. The formal dances were held jointly with Northwas hall. Margaret Forsythe is house director and Shirley Nichols was president.

Freshmen girls who are living in Van Zile hall enjoy all the comforts and conveniences which a modern dormitory can offer. Spacious rooms and recreational facilities are available.

For fun or study the social room is a good place to spend an afternoon. A group of girls play cards, others read, sew and type.

Southeast Hall

The hammering and the crashing stopped. The air became unnaturally quiet. Southeast hall was finished and the last women's residence hall included in the "Campus of Tomorrow" was completed. The extensive dorm plan was now in action.

Southeast in contrast to its sister dorms Northwest and Van Zile, houses only upperclass women. Here, under the influence of the beautiful dormitory with its completely new furnishings and harmonious decorations, college life has been enhanced for the K-State coed.

Pleasure and Joy Found in Dorm Life

Dorm living—a common saying and yet so meaningful to the 210 girls living in Southeast. To them, these two words bring to mind only the most pleasant memories, the things that they will always remember—the parties, the fun, and the wonderful friendships. No Southeast girl will forget the pride she felt at Open House when after the rush and hurry of cleaning rooms and literally polishing the dorm until it sparkled, she showed her parents and friends the place she calls her college home. The dormitory was planned to provide the nicest living conditions possible and to promote the happiness of the girl at college. This aim has been accomplished.

Open House presented the opportunity for residents to show with pride the big new dorm to parents, faculty, and friends.

Southeast Completes Dorm Plan

Under the capable leadership of director Mrs. Helen Atherton and dorm president Ellen Lehman, Southeast enjoyed a successful first year. Problems met and difficulties solved, Southeast was launched as a College housing organization. The final women's dorm had been completed.

Evening snacks are fun and easy to fix in the kitchenette.

Waltheim Hall

A friendly and relaxed atmosphere can always be found at Waltheim hall. Here 78 girls, living in the only College dormitory equipped with apartments, have a real home away from home. A faculty tea given to honor their new director Mrs. Jane Prier was the outstanding fall social function. Spring found the residents entertaining with their annual Firefly Fantasy formal. Waltheim created an enviable intramural record by capturing third place in volleyball and second in the single division of tennis. Doris Keas was president for the fall semester.

Sunshine and conversation are enjoyed by Waltheim girls.

Dorm days are happy days. And why shouldn't they be, with three comfortable big dorms, complete with self-government, recreational facilities, and about anything a girl could wish for in a college dorm.

The inter-dorm council, composed of representatives of each of the three units, is the connecting link between the dorms (*upper right*); Southeast girls are becoming expert table tennis players and avid record fans (*upper left*); Cozy chats in a comfortable living room are relaxing for some Van Zile girls (*above*); Cards, books, and scrapbooks are practically standard pieces of equipment in any Northwest room (*lower left*); Music and magazines fill in the gap between classes and meals at Waltheim (*below*).

K-State Holds State ISA Convention

Unity of the independent women living in organized houses is the primary aim of Amicossembly. Its forty members are furthering scholarship at Kansas State by giving scholastic recognition. Amicossembly sponsored a dinner in March at which the scholarship cup was given to Clark's Gables, the housing group with the highest grade average. Individual honors were awarded to Joan Mundell and Lois Ottaway.

Miss Helen Wroten, the new sponsor, was entertained with a tea at La Fiel in December. As a group project, the members went Christmas caroling. A picnic was the spring semester social function.

Manhattan was the scene of the ISA state convention. Approximately fifty students from six colleges in the state attended the two-day meeting. Four hundred K-State members make the Independent Students Association one of the largest organizations on the campus. ISA provides many social opportunities for the college students. The Sadie Hawkins Day Dance was one of the highlights of the fall season. In connection with the College Open House ISA held a Parents' Day tea. Picnics and mixers were scheduled throughout the year.

The sponsors are Golda Crawford and Keith Lambert. Louie Keller was president.

The scholarship cup for independent organized women's houses was won by Clark's Gables, one of the smallest housing groups. The members topped the scholarship list with a 1.945 average. Lois Ottaway was Royal Purple business manager, Student Directory editor, and a member of Mortar Board. Leona Manz was president of Sigma Eta Chi. Mrs. Edith M. Clark is the housemother and Mary Henre was president.

As members of a small, compact, friendly group of girls, the residents of Pal-O-Mie have all the fun that is associated with college life. They entertain traditionally with a Thanksgiving dinner, Christmas party, and a combination Mother's Day and Senior Day breakfast. Mrs. Lillian Fuller is the housemother, and Lavonne Starr was the president.

La Fiel is proud to claim the two home economic club presidents, Maxine Tiffany and Doris Milliken. The housemother of the woman's organized house is Mrs. E. E. Rogers and president was Evelyn Roose. House parties, hour dances, and picnics are a part of the social calendar.

Some quality of a small organization promotes a feeling of close companionship. Maison-Elle is such a group. Mrs. Mattie A. Cassity is housemother and Carolyn Stratton was president. Maison-Elle was established in 1943.

Groups Have Unity

The Acropolis parking lot, located on Anderson street, is always opened during ball games. This idea was the money-making project of Acropolis, a unified and active house for independent men students. Socially, the group entertains with a hayrack ride, Halloween and Christmas parties, and a watermelon feed. Mrs. Ethel Stockwell, housemother, and president Don Gramly helped direct these activities.

The name Signa Phi Nothing does not appropriately describe its eighteen members, for these boys do signify activities and scholarship. Nearly every major organization on the campus has representatives from this house. Mrs. Julia Schimmels is housemother and Joseph Walker held the office of president.

No need is found for a study hall monitor at the Men's Graduate house. Its fourteen student residents have the common aim of furthering their education by doing graduate work at Kansas State college. The housemother is Mrs. Pearl Power and the president was Paul Conn.

West Stadium Prints

The first year of organization found Hills Heights with a varied and well-planned social calendar. Picnics, dances, and holiday dinners comprised the program.

News! Deadlines! Copy! The result is the "Stadium Squints," the only newspaper printed by an organized residence on the campus. West Stadium's aims are self government and group leadership.

This year, the first for the O.K. House, was primarily spent in planning and preparing a program of organization.

Social activities highlighted House of Jerichos entertainment.

House of Williams claims three champs in the independent division of intramural basketball.

Diversified interests of Catalpa Inn are represented by social functions and campus offices.

ISA social activities are greatly inspired by tradition as each year the members of the Independent Students Association have a Sadie Hawkins Day dance, and a Sweetheart Ball.

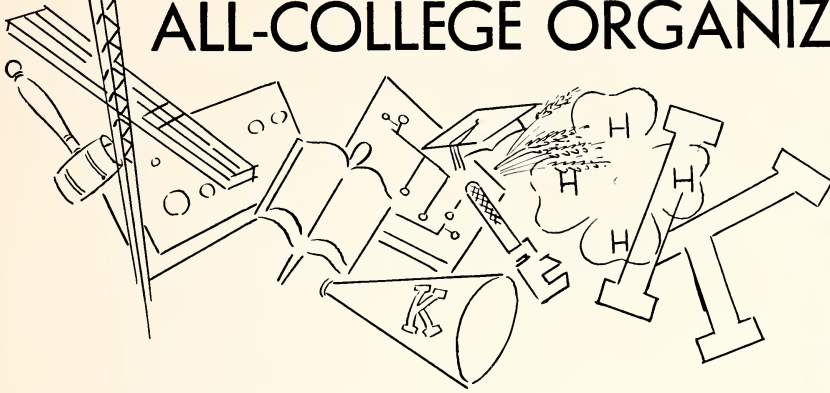

Representatives of six schools assemble in Rec Center during the state ISA convention held at K-State in the fall (*upper left*); ISA Sweetheart Irene Parshall and attendants Frankie Branch and Doris Salter are crowned by Dean William Craig at the Sweetheart Ball (*upper right*); The biggest event in Dogpatch is re-enacted every November when members hold their Sadie Hawkins Day dance. The girls chase (*second row left*), the boys run (*above*), the captive and captor are "married" (*left*), and everyone joins in the Bunny-hop (*below*); The Hop is also the favorite dance at the Sweetheart Ball (*lower left*).

Chapter Eleven

ALL-COLLEGE ORGANIZATIONS

It is a basic principle that people like to "belong." Almost everyone who attends Kansas State has, at one time or another, belonged to an all-College organization. These are the organizations whose memberships are open to all students regardless of the school in which they are enrolled. Students are not required to belong to this type of an organization in order to graduate and no college credit is given for membership. However, these groups of students are an important part of college. Whether the organization is a big one, formed along national lines and represented on every college and university campus, or a small local group is of little importance. What counts is the fact that these groups are present and offer an opportunity for the individual to join and learn to meet with other individuals in planning social and business projects.

Phi Kappa Phi

Each semester the upper ten per cent of the senior class in each school is chosen for Phi Kappa Phi honors. Phi Kappa Phi is a national honorary, equivalent to Phi Beta Kappa, and at Kansas State is the highest scholastic honor obtainable. Recognition awards are given each year to freshmen with outstanding scholarship.

The purpose of this society, which has chapters at colleges and universities all over the country, is to recognize and encourage scholarship in all fields of study. "Love of Learning Rules the World" is the motto of this honor society. It was established at K-State in 1919. Prof. Ralph Silker was president this year.

Top Honors

Outstanding leadership and good scholastic standing are the membership requirements of Mortar Board and Blue Key, senior honoraries.

The fifteen girls belonging to Mortar Board sold mums at Homecoming, sponsored service projects, and bestowed a scholarship on a deserving girl. All year they strove for scholarship promotion and recognition. The Kansas State chapter of Xix, organized in 1915, affiliated with the national honorary of Mortar Board in 1920. Patricia Coad was president this year, and Miss Gertrude Leinkaemper, Miss Jane Ferrell, and Mrs. James A. McCain sponsor the group.

Service projects keynote the activities of the thirteen men in Blue Key. This honorary sponsors the selection of the Homecoming queen and her attendants, as well as the Homecoming ball. Blue Key was organized as a national honor fraternity in 1924 at the University of Florida. Ivan Schmedemann presided over the group this year, and Pres. James A. McCain is the faculty sponsor. Ray Sis and Bill Walker were initiated second semester.

Prix Affiliates With Chimes

Before speaking to an all-College assembly, syndicated columnist Dorothy Thompson was presented an Appreciation award by the president of the Arab Students club Sahib S. Bayee. The club gave the award in honor of Miss Thompson's work as chairman of the American Friends of the Middle East. Other activities of the Arab Students club are promoting a spirit of fellowship among persons who are from the Arab states, and acquainting other students with the economic, social, and political aspects of the Middle East. The sponsors are Dean William Craig and Dean Harold Myers.

Formerly called Prix, K-State's junior women's honorary group affiliated with Chimes, national junior women's honor society this year. Prix had been in existence on the K-State campus since 1916. Kansas State's chapter of Chimes was officially installed on August 29, 1952. Members are picked from girls in the upper 35 per cent of their class who are second semester sophomores or first semester juniors. Chimes also requires that a prospective member show the qualities of leadership and creative ability. Marlene Zimmerman was president and Prof. Golda Crawford is sponsor.

"Cyrano" Influenced Wildcat Fencers

To be eligible to join the Chaparajos club, students must be able to pass several tests. They must be able to identify different styles of riding, types of gear used by horsemen and must have a fair knowledge of handling horses. The prospective members must also show an interest in light horses. Girls as well as boys can join the organization.

One of the main activities of the Chaparajos is attending rodeos about the country. They also have picnics and square dances. This year's president was Monte Dutcher and the faculty advisor is Prof. T. Donald Bell.

"Sans peur et sans reproche" is the motto of the Wildcat Fencing club. Translated this means "without fear and without reproach." The Wildcat Fencing club was organized in 1949 by some students who were in the cast of *Cyrano de Bergerac*, a school play. The cast had to learn how to fence and decided to form a club.

The members hold practice sessions at every weekly meeting. Matches include intra-club duels and also matches with Kansas university and Wichita university. Jacques Boegli is the faculty sponsor and Louise Wolf was the president.

Clubs Do Service, Better Relations

Previous training in scouting and a desire to render service are the main requirements of members of Alpha Phi Omega, national service fraternity. The K-State chapter conducts a ride service, acts as a collecting agency for community chest drives, furnishes literature for the Student Hospital, and sells Christmas seals. Members elected Marilyn Monroe as their honorary sergeant-at-arms and are the proud donaters and exhibitors of the K-State mascot, Touchdown IV. Elden Martin was president and Ralph Nevins is faculty sponsor of the organization.

Originally organized to bring different foreign students on the campus together, the Cosmopolitan club now claims almost 90 members, with more than half American students. The purpose of the club is to better relations and understandings between students and people from different nations. In addition to speakers and regular bimonthly meetings, the club annually sponsors the Feast of Nations, a banquet for which foreign students cook foods of their countries, and a spring formal. C. Kesamurthy was president and Cecil Miller is faculty sponsor.

Camp Miniwanca Sends Boy to Camp

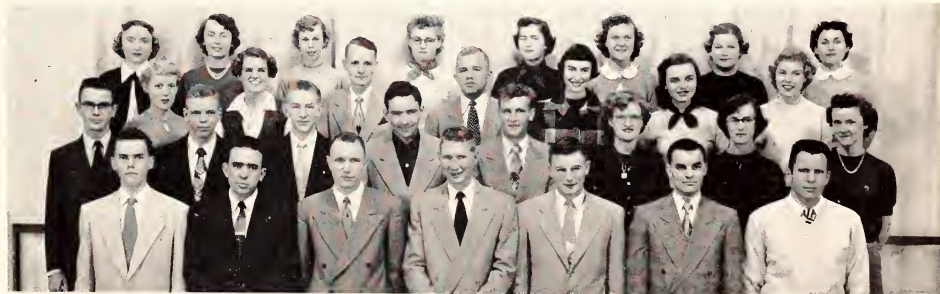

A freshmen boy was awarded a scholarship to attend an American Youth Foundation camp in Selby, Mich., this summer by the Camp Miniwanca club. Members worked at the Cafeteria in order to raise the necessary money. K-State's Miniwanca club is one of two in the country. Membership is limited to those who have attended the camp. The organization stresses building for full development, mentally, physically, religiously, and socially. The group holds monthly meetings. Eldon Johnson was president. Prof. Harold Kugler is sponsor.

The Kansas State Collegiate Republicans are stu-

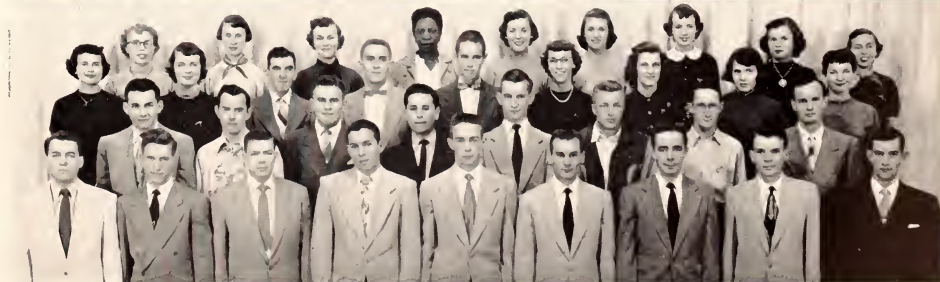

dents having an avid interest in politics and government. The club debated with the Young Democrats on political issues over KSDB-FM before the elections. Lewis Brister was last year's president.

The Young Democrats at Kansas State sponsored candidates for state offices in last fall's election. A year ago in April, they sponsored a mock Democratic convention in Manhattan. Two of their members were Riley county delegates to the state convention. The club has a membership of about 75. John J. Cummings was president for the 1953-53 year.

Circle Burners Promote Aviation

Students, faculty, and Manhattan citizens who have an interest in aeronautics and like to build and fly model airplanes are eligible to join the Kansas State Circle Burners.

Organized in 1946 with Matt Betton as the first president, the Circle Burners have expanded to a membership of 30 aeronautical enthusiasts. When first organized, control line flying with two lines, was the main type used, causing the plane to fly around in a circle. Thus the name of Circle Burners was adopted. Today there are more radio and free flight flying types. The president this year was Max Meinen and Mr. and Mrs. Eric Tebow serve as the faculty sponsors.

The Circle Burners helped to increase interest in model airplane building by conducting a model airplane building class for both senior and junior high school students. The organization also sponsored two model airplane shows in which both members and other interested persons participated. One is in the spring, the other in the fall, and both are held on the military science drill field. In each show there are three different events—stunting, combat flying, and free for all racing.

Any student who is a first degree Mason is eligible to become a member of the newly formed Masonic club. The club has just been organized on the K-State campus and has a membership total of 14.

Frog Club Gives Spring Aquacade

After spending the major part of the school year developing water stunts, strokes, and synchronized swimming, the members of Frog club participated in an aquacade in the spring. The theme of the show was "Rain or Shine." All members must have passed a skill test. Joyce Nicholson was president and Prof. Eva Lyman is the faculty sponsor.

Scabbard and Blade is an honorary for cadets in advanced army R.O.T.C. The biggest event of the year for Scabbard and Blade members was the Military Ball which they co-sponsored with the Arnold Air Society. Bob Melroy was over-all chairman of the Military Ball this year. Scabbard and Blade was headed by William Elliott. Faculty sponsor is Capt. Donald G. Albright.

"Far Away Places" Given By Orchesis

Orchesis is a national dance honorary organized at the University of Wisconsin in 1919. The club was organized at K-State in 1930. Membership is determined by interest, skill, and sincerity of purpose. Prospective members must meet try-out requirements. This year there were 27 members in senior Orchesis, and 12 in junior Orchesis. Two of the senior Orchesis members were men.

In addition to special small demonstrations and programs given by the group during the year, a spring program was presented in March by the members of both Orchesis groups. The theme this year was "Far Away Places" and featured dance numbers depicting such places as Vienna, Paris, and Ireland.

Proceeds from the show were used to establish a dance scholarship for an eligible Orchesis member. This scholarship would enable the recipient to attend Con-

necticut college for a six-week dance school this summer. This is the first time a chance for such a scholarship has been given to Kansas State. Orchesis also sponsors workshops and master lessons or concerts by professional dancers. Barbara Hart was president this year, and Miss Jacquelyn Van Gaasbeek is sponsor.

The Graduate Wives Club is a social organization for women whose husbands are enrolled in the Graduate School at Kansas State. The 21 members of this club have a program meeting and a meeting to play cards each month. Usually they try to have one special party each year. The club has been active each year since its organization in 1945. Mrs. Harold Howe, wife of the dean of the Graduate School, has been faculty sponsor since its organization eight years ago. Mrs. Joe Ward is also the sponsor. Mrs. John Schesser was president this year.

PR's Practice Precision Drill

Founded nationally at the University of Nebraska by Gen. John J. Pershing in 1894, Pershing Rifles now has over 100 chapters in colleges and universities which offer army or air force R.O.T.C. programs.

Adept performance of precision drill and extra-curricular instruction in military leadership are the twin purposes of the Pershing Rifles.

Requirements for membership include a 1.00 grade average and an interest in military leadership and drill procedure. Membership is open to all basic cadets in

either arm yor air force R.O.T.C. who meet these requirements.

D. D. Robbins served as commander of Pershing Rifles and the faculty sponsors are Capt. C. J. Wells, representing the air force R.O.T.C. and M/Sgt. M. E. Bennett of the army R.O.T.C.

One of the most noticeable activities of Pershing Rifles is the raising of the flag before the football games. PR members give an annual precision drill demonstration at half-time of one of the football games.

English, Drama Highlight Clublife

Still in the formative stage, yet successful in its purpose of furthering interest in English, the English club, organized in 1952, is composed of members of the department staff and English majors. All meetings are open to those interested. Mary Ellen Callahan was president and Jordan Miller is the faculty sponsor.

To be a member of Kansas State Players a student

must show active participation and interest in the projects of the group, which include three major productions and several one-act plays produced for outside enjoyment. The group also presented "Death of a Salesman" for the Fine Arts Festival in April. The present membership is 128. The president was Lindell Grauer and Prof. Earl G. Hoover is the faculty sponsor.

Council Deals With Hilltop Problems

The Hilltop Court's council regulates and tries to improve living conditions for the 500 residents of Hilltop Court. Members of the council are elected by the residents. Besides dealing with the serious problems of group living, the council sponsors a Christmas party each year. Last year, Manfred R. Wolsenstine was mayor of this veteran's housing unit.

Wives of veterans, R.O.T.C. men, or reservists are welcome to join the Veterans Wives club. Last year,

this organization gave a fall style show and tea, and sponsored two food sales. Joy Whitenack was president last year. Mrs. S. Thomas Parker sponsored the club.

Since 1947, recreational and educational activities have been provided for student wives. General meetings are held monthly and interest groups meet weekly. Blynn McGrath was president of the Student Wives Educational association last year.

College 4-H is Largest Service Club

The members of Collegiate 4-H produce and direct a radio program entitled "Voice of Collegiate 4-H" every Saturday of the school year. The transmitting facilities of Kansas State's radio station are used to beam the program throughout Kansas.

This program is primarily for Kansas farm youth who are planning to attend college. Another service rendered by the Collegiate 4-H is the publication of Who's Who. Patterned after the Who's Who in America, Who's Who lists outstanding high school members of 4-H clubs in Kansas.

George Wingert was the first semester president of the College 4-H group this year and was also the editor of Who's Who. J. Harold Johnson, state 4-H representative is the sponsor.

This year the organization entertained with a combined dinner and dance in the fall and a spring formal second semester. Senior awards were given at the formal for those seniors who had been especially active in the production of the radio program, the publication of Who's Who, and other club projects.

The Collegiate 4-H was organized 26 years ago with 60 charter members and grew to 600 after the war. Membership now totals approximately 400.

At regular bi-monthly meetings, recreation and business meetings are held. During the year several club members who were International Farm Youth exchange students told of their experiences in Europe last summer.

Conservationists Study Dam Problems

The Tuttle Creek dam controversy provided a study topic this year for the K-State Conservation club. Members heard representatives of the U. S. army corps of engineers and the Blue Valley Study association. The principles of conservation of soil, water, and wildlife resources, and an understanding of and compliance with the laws governing the same constitutes the educational purpose of the club. James E. Anders was president and Prof. Otto W. Tiemeier and Prof. James A. Hobb are faculty sponsors.

Wives of the members of the Junior American Veterinary Medical association meet to promote social, spiritual, and educational amiability. The Women's Auxiliary of the Jr. AVMA was organized in 1940 when a group of vet wives met at a social gathering. Vet husbands were entertained with a Christmas party and a family picnic in the spring. Bridge and crafts interest groups also kept members busy. Frantom Jones served as president this year and Mrs. W. Max McLeod and Mrs. Donald C. Kelley are sponsors.

Students Sing, Feast and Counsel

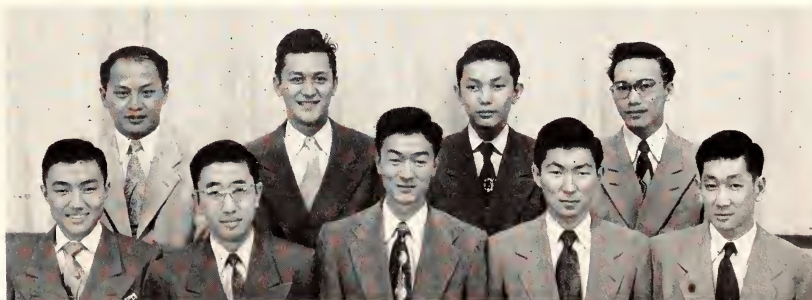

The College Chorus prepares singers for future membership in the A Cappella Choir. The chorus was organized in 1948 by combining the men's and women's glee clubs. Any student may join the chorus which gives broadcasts over KSAC and helps present the "Mes-siah." Prof. Charles J. Wood is faculty sponsor.

The Hui O Hawaii club held their annual spring luau, a kalua pig feast, with a special Hawaiian atmos-

phere. Alvin M. Okamura was president and Dr. R. C. Hill and Dr. J. O. Harris are faculty sponsors.

A group of upperclass girls chosen for their competence and interest in beginning college students, serve as freshman advisors to women living in Northwest and Van Zile halls. Miss Margaret Forsythe, Miss Kathryn Harries, Prof. Margaret Raffington, and Dean Helen Moore serve as faculty sponsors.

Pepsters Plan Rallies, Help Cheer

Promoting pep and lots of it is the main purpose of Phi Sigma Chi, more commonly known as Purple Pepsters.

To obtain their goal, the Pepsters plan, sponsor, and publicize all of the K-State pep rallies, in conjunction with the Wampus Cats and Whi-Purs. Rallies before football games last fall attracted large crowds, and offered original attractions such as the KU Jayhawk's hanging and funeral rites, snake dances, and mammoth bonfires in the parking lot.

The 63 girls belonging to this organization also help in the selection of cheerleaders.

The day of Purple Pepster initiation is always a busy one at the Canteen. The aspiring members spend all of their free hours that day in the Canteen dressed in costumes prescribed for them by the senior members of the club. Each initiate is obliged to give a poem about

her costume, lead a cheer, or sing a song at any member's request. Laughs are always in store for everyone.

Membership is based on a quota system. Each organized house is limited to four upperclassmen girls. The three dormitories are represented by 11 girls, and 10 are chosen from independents-at-large. Prospective members are entertained at an afternoon coke party early in the fall. Phi Sigma Chi was organized nationally at Nebraska. There are chapters on many college campuses over the nation.

Members of Phi Sigma Chi from colleges in the Big Seven conference attended a meeting on the K-State campus last fall. Following a luncheon, the members attended the Iowa State-K-State football game.

The girls who wear the purple sweaters and the white skirts help provide an able cheering section at all home football and basketball games.

K-Fraternity Represents All Sports

Prime requirement for membership in the K-Fraternity is the winning of an athletic award in any inter-collegiate sport. These include both major and minor sports. The members of the club manage the K room in the Fieldhouse for visiting athletes. President of the K-Fraternity this year was Thane Baker. Faculty sponsors are Fritz Knorr and Red Reynard.

The Wampus Cats are male students who are organized to promote pep and sponsor rallies for athletic contests. The greek-letter name of the organization is Pi Epsilon Pi. They are the brother club of the Purple Pepsters. Members participated in half time skits and pep-provoking stunts. Buddy Jass was the president and Dobby Lambert is the faculty sponsor.

Whi-Purs Gain Members, Enthusiasm

Although this pep organization is not very old, the enthusiasm and spirit runs high, and most freshmen girls are very interested in it. Whi-Purs was organized in the fall of 1951 by a group of freshmen girls for the purpose of promoting interest and cooperation among the freshmen women at Kansas State, and to further the spirit of pep and good sportsmanship. The name Whi-

Pur was taken as a contraction of the school colors, white and purple. Any freshman girl is eligible to join, and this year there are almost 150 members, an increase of 60 over last year. The club helps in the cheering sections at the games, and also with pep rallies, floats, and Homecoming. Serena Rankin was president and Miss Jane Ferrell was the faculty advisor.

Participation in interest activities invariably leads to extensive class cuts, a loss of sleep, and a lowered grade point average. These three things are not generally thought of as being conducive to the proper amount of work necessary for a degree. However, all work and no play makes Jack a dull boy. A truly educated person does not know only facts learned in a textbook, in a classroom, or on a quiz. He knows how to work with people, he has more varied interests, and more experience in doing more things. At Kansas State the term "interest" is used to describe the many hours of behind-the-scenes work that results in such final products as the Collegian, plays, debates, musical programs, and even the Royal Purple. Yes, it is work—a lot of it, but it's fun. These so-called interest activities will be remembered by the persons who participated, as one of the best and most profitable parts of their entire college life.

Programs, Campaign, Tour, Highlight

A drive to raise money for new band uniforms has been the main highlight of the year for the K-State Concert and pep bands. The campaign, which was started early in the spring, exploited many methods for raising revenue.

The Concert Band, formed from various members of the College pep band, presented two programs during the year. One was the Friends of Music concert, sponsored by the Manhattan organization, with proceeds going into a fund for establishing scholarships for deserving music majors at K-State. A Pops concert was the other program. The proceeds from this program were used to buy recognition keys for band members with outstanding service.

Kay Hofman was librarian this year, and the director is Jean Hedlund.

Three years ago the College Orchestra with membership open to K-State students only, was renamed the College Civic Orchestra. Membership is now open to off-campus musicians. Because of this change, the orchestra has a membership of about 50 per cent students and 50 per cent off-campus personnel.

Positions in the orchestra are obtained through try-outs which are open to anyone within the vicinity of the College.

Two concerts are given, one in the spring and one in the fall. This April, the orchestra also participated in the Fine Arts Festival, presenting one half of the program, and accompanying the A Cappella Choir in "Te Deum" for the other half.

There are about 55 members. George Leedham and Prof. Luther Leavengood are the co-directors.

Year for Three College Music Groups

Two busloads of A Cappello Choir members appeared at seven Kansas high schools in three days during March on their annual spring concert tour. The choir was scheduled to make nine appearances in four days, but because of snow storm, the first day's two appearances had to be cancelled.

In 1946, Professor Luther Leavengood, of the music department, held try-outs for the first A Cappello Choir. Since that time, seven years ago, the group has been built into an organization of 75 members, and claims some of the best choral voices on the campus.

The purpose of the choir is to study and perform the better choral works, and to acquaint the students with the various types of literature in the choral field.

Each fall try-outs are held and are open to anyone interested. The judging of qualifications is done by Professor Leavengood, and is based on ability to read at sight, to hear and find pitches, range quality, and over-all vocal quality.

This year the choir made three major appearances in addition to the tour. At the Christmas Vespers, the program for the Kansas Music Teachers association convention in February, and at the Fine Arts Festival in April, the choir presented "Te Deum," (*below*) a long choral work by Kodaly. This was the first of its kind ever presented by the group.

Marion Socolofsky was president of the organization this year, and Professor Leavengood is the director.

Prof. R. R. Lashbrook, journalism department head and president of the National Association of Accredited Schools and Departments of Journalism, serves as chairman of the Board of Student Publications.

Journalism Students and Faculty

The Board of Student Publications is a joint faculty and student combination, consisting of three faculty members and three student representatives chosen at large by student election. Professor R. R. Lashbrook, as head of the journalism department, automatically holds the position of chairman of this board.

The responsibilities of this board consist of choosing editors and business managers for the Collegian and

Royal Purple, and the editor of the Student Directory. They also approve major contracts and budgets. Forty top-ranking publication staff members are chosen yearly by this group to receive the gold K-Key signifying outstanding service in journalism.

Second semester Kathleen Kelly and Bob Moore replaced Dorothy Hefling and Dale Evans on the board. Evans graduated and Hefling was editor of the Collegian.

Prof. C. J. Medlin, graduate manager of student publications, acts in an advisory capacity to editors and staffs of College students publications. Frances Feeter ably assists him by supervising the office staff and keeping the books for the Collegian and Royal Purple.

Advise and Edit Publications

The job of supervising two large publications, the Collegian and the Royal Purple as well as giving attention to the preparation of the Student Directory kept graduate manager, Prof. C. J. Medlin in a constant whirl of advising and directing. Much of the secretarial work of keeping books, selling photo receipts, indexing, and typing of copy conducted in this office was managed efficiently by his secretary Frances Feeter.

Information dealing with every phase of college life such as organizations, post office and telephone num-

bers, and the College constitution can be found in the annual Student Directory. Editor Lois Ottaway spent many hours in compiling accurate information for the benefit of students.

The K-Book, given to every freshman as he entered College, contained helpful information on student government, academic requirements, social rules and regulations, activities, and financial aids. Editor Ruthe Hetzler was responsible for the production of this book and Prof. Ralph Lashbrook was advisor.

'52 Publications

When a college athletic season such as basketball or football ends several organizations select what they call all-American players. Although not as widely known, somewhat the same procedure is followed in the field of college publications. However, instead of selecting individual all-Americans, as is the case in sports, an entire team consisting of the editorial and business staffs plus the advisor is mentioned for an award.

The organizations that judge college publications and make awards for outstanding journalistic work are associated with the University of Minnesota School of Journalism. The Associated Collegiate Press selects college newspapers that are to receive awards and the National Scholastic Press Association does the same for college yearbooks.

Last spring's Collegian, 1952, received an all-American rating of superior. Other ratings given are excellent, good, and fair. The award was the first all-American since the Collegian became a daily paper. The other all-American certificate was won in 1940 when the Collegian was semi-weekly.

Entered against daily newspapers from colleges and universities of all sizes, the Collegian was commended

Rated All-American

for varied coverage, human interest, descriptive pieces, and good story organization. Only six other college dailies were ranked with the Collegian in the all-American column last year.

Phil Meyer edited last spring's Collegian and Marillyn Weisbender was the associate editor. John Krell was the business manager.

The 1952 Royal Purple also received an all-American rating. This was the seventeenth consecutive year that the Kansas State yearbook has been honored with such a recognition. The award was made by the National Scholastic Press Association.

College yearbooks are judged according to classifications based on the enrollment of the school. Last year the Royal Purple was entered in the class for schools having from 4,000 to 6,999 students. K-State was the only school in this class to receive an all-American rating.

Ratings of yearbooks are figured on a point system. Points being awarded for design, content, content coverage, printing, and binding. To receive an all-American rating a yearbook must amass 3,400 points. Last year the Royal Purple received 3,720.

Dave Weigel was editor and Jim Grove was business manager of the Royal Purple.

duties connected with the publication of the Collegian and Royal Purple. However, there must be someone to turn to for advisory help, technically this person is called Prof. C. J. Medlin, Graduate Manager of Student Publications. In practice however, Prof. Medlin is called "Chief" by everyone in Kedzie.

Recognized as one of the country's leading authorities on yearbook publication, Prof. Medlin annually conducts yearbook conferences in all sections of the country. During the summer he conducts several short courses on yearbook management. Prof. Medlin is also the author of a yearbook text used in many schools and colleges.

Much of the behind-the-scenes credit for the success of Kansas State publications is due to Prof. Medlin.

Yearlong Effort

Royal Purple editor Marlene Myers had the dual task of planning the yearbook and coordinating the efforts of the staff.

From the first day of September until Easter Sunday, the final deadline, RP staffers put editing, indexing, writing copy, and selling advertising ahead of studies and sometimes even postponed social activities in order to meet a deadline on time.

The work of producing Kansas State's yearbook is divided into three sections. The editorial staff writes and edits copy; selling advertising space is the job of the business staff; the office staff does such clerical work as indexing names in the class section and filing senior activity cards.

Students working on the Royal Purple editorial staff may receive one hour of college credit in journalism. Only the editor, assistant editor, and business manager are paying jobs. Office staff members who have worked on the RP for two semesters are eligible for a K-Key award as are the business and editorial staffers. The awards are small gold K's which are presented at the Publications Award dinner. The dinner is held every spring with the award winners from the Collegian.

The following students won K-Key awards for the 1952-53 school year. Collegian business staff: Sally J. Doyle, Charleen Dunn, Betsy Horridge, Phyllis A. Ruthrauff, Gary W. Swanson. Collegian editorial staff:

A unique feature about this year's editorial staff is the fact that no seniors were in the group. Of the nine students on the staff, five were sophomores and four were juniors. Also unusual is the fact that the editor, Marlene Myers, is a speech major instead of being a journalism student.

Business manager Lois Ottaway was in charge of selling the advertising that furnished some of the revenue for the RP.

Publications Tell Alums of Alma Mater

Initiated in the spring of 1951, the K-Stater distributed to former alumni and friends of the College offers them the chance and opportunity to keep up to date with events on the campus. In filling the place of a news "clearing house" pertaining to different phases of College activity, the K-Stater is published in October, December, March, and June. Merrill Samuelson is

editor of this four issue publication.

Campus news and articles on leading alumni are featured in the *Industrialist*, the official newspaper of the Kansas State College Alumni Association. Going to all corners of the state and beyond, this paper keeps alums in contact with their old alma mater. R. R. Lashbrook is editor.

A K-State Collegiate 4-H member from each county serves as county representative. This student is responsible for contacting the county 4-H agent for pictures, selling advertising, and selling the book in his county. It is interesting to all 4-H club members as it features 4-H club members from every Kansas county, programs of individual counties, as well as state-wide activities. George Wingert was this year's Who's Whoot editor and Sherlund Prawl was business manager.

Actors Stage Three Plays

After repeated hours of rehearsals, hard concentration on lines, and a slight feeling of uneasiness, the curtain rolls smoothly open to disclose a sea of expectant faces all trained on one spot. Kansas State Players were in that spot of interest when they put on three full-scale productions and several one-act plays this past year.

Under the competent direction and experienced leadership of Prof. Earl G. Hoover, director of drama, professional productions were presented to College audiences. Don Hermes, technical director, helped in making these productions a success by directing the construction of stage scenery and props.

In spite of the summer heat, rehearsals continued for "Night Must Fall" the summer production in which suspense, murder, and comedy were combined in a three-act thriller by Emyln Williams. Playgoers met Mrs. Bramson, played by Jean Scott, in her forest cottage near Essex, England. Richard Thomas portrayed Don, a bellboy, as the lady charmer who becomes "involved" with Dora, a maid at Mrs. Bramson's, played by Sue Quinn.

Director of drama, Prof. Earl G. Hoover was elected president of the Kansas Speech Association for the 1953-1954 term.

Olivia, Mrs. Bramson's niece was played by Florence Larsen. Hubert Laurie, Olivia's suitor, was played by Bruce L. Wilson. The comedy part of Mrs. Terrence, the sharp-tongued household cook, was taken by Mrs. Margherita Sparman. Nurse Libby was played by Julia Stueve and Joe Ward was Belsize.

"Suppressed Desires," "She's only a Farmer's Daughter," and "My Solid Gold Watches" were the laboratory one-act plays presented this fall.

In the summer production, "Night Must Fall," K-State Players Florence Larsen, Richard Thomas, and Joe Ward practice a serious scene (*left*). Cast members rehearse for the one-act Christmas play "By-line for St. Luke" (*below*).

Players Present

The fall production "Comedy of Errors," a Shakespearean play, told the story of two sets of identical twins in Greco-Roman times. Amusing as well as educational, the play is a series of comical mix-ups of mistaken identity. Much confusion results in family and business associations between twin brothers and their twin slaves. Richard Thomas played the part of Antipholus of Syracuse, and Gene Paulsen portrayed Anti-

pholus of Ephesus. Both are the twin sons of Aegeon, a merchant of Syracuse, depicted by J. D. Campbell.

The sons both have twin slaves. Larry Evans is cast in the part of Dromio of Syracuse and Charles Hyatt is Dromio of Ephesus. The antics of these two characters provided the humorous highlights of the play.

Other members of the cast were Allen Kipper, Janis Crawford, Rita Peterson, Bob Fitzgerald, John Fish, Marvin Fernkopf, Roger Rankin, Bruce Bellamy, Don Moses, Tom Carpenter, Harry Dibble, Shirley Johnson, Patti Patton, Phyllis Shaffer, Sue Shirling, and Janie Ausherman.

A feature of the scenery for this production was a special backdrop designed by Don Hermes, technical director. Used in the night scene, it had a blue background which was lighted by many tiny lights to look like stars.

The costumes were elaborate Greco-Roman and some Oriental. The biggest problem in the costuming and make-up was making the two sets of twins look like twins.

Antipholus of Syracuse played by Richard Thomas is in the act of reprimanding and scolding his slave played by Larry Evans in the fall production "Comedy of Errors" (*circle*). Special scenery designed by Don Hermes, technical director, and elaborate costumes highlight the acting as the king, Allen Kipper (*seated*) tries to straighten out the identity of the two sets of twin brothers (*below*). The climax of the play is reached as both sets of twin brothers appear on stage at the same time causing the other actors much confusion (*lower right*).

Shakespeare Comedy

The three-act Christopher Fry play "Ring 'Round the Moon," as the Kansas State Players winter production, gave the audience a Fourth of July preview, ending with a fireworks display.

A suicide attempt by a ballet dancer, identical twins, rival love hopefuls, a disappointed millionaire, and a wheelchair invalid are among the characterizations in this French comedy.

Allen Kipper played the dual part of the two brothers, Frederic and Hugo, shy and sensitive, heartless and aggressive. Frederic loved a hussy, portrayed by Shirley Johnson, who in turn loved Hugo. Therefore, Hugo tried to interest Frederic in a beautiful dancer, played by Adele Nelson. The dancer proceeded to dominate attention and called the plays from then on.

Others in the cast were Bruce Bellamy, a crumbling butler; John Fish, secretive secretary; Ann Shaw, aunt to Hugo and Frederic; Jeanie Hunter, her faded companion; J. D. Campbell, a melancholy millionaire; Marvin Fernkopf, patron of the arts and of the ballet dancer; Patti Patton, pianoforte teacher; Bob Fitzgerald, general; Edward Bowdon, footman; and Peggy Goetz, Lady India.

The set consisted of a winter garden complete with garden statues, trees, a rock wall, and trellis work.

Don Hermes, technical director, Roger Sherman, Phyllis Shaffer, and Lloyd Biggs construct scenery for the winter production "Ring 'Round the Moon" (*top*). Adele Nelson and Patti Patton are confronted by the butler, Bruce Bellamy, upon their arrival (*middle*). Several members of the cast discuss the situation in a ballroom scene (*bottom*). Debater Verdel Wilson presents her side of the question in a mock debate while fellow-debators Howard Hill Jr., John Boyer, and William Patzell make notations (*left*).

Speak the Speech

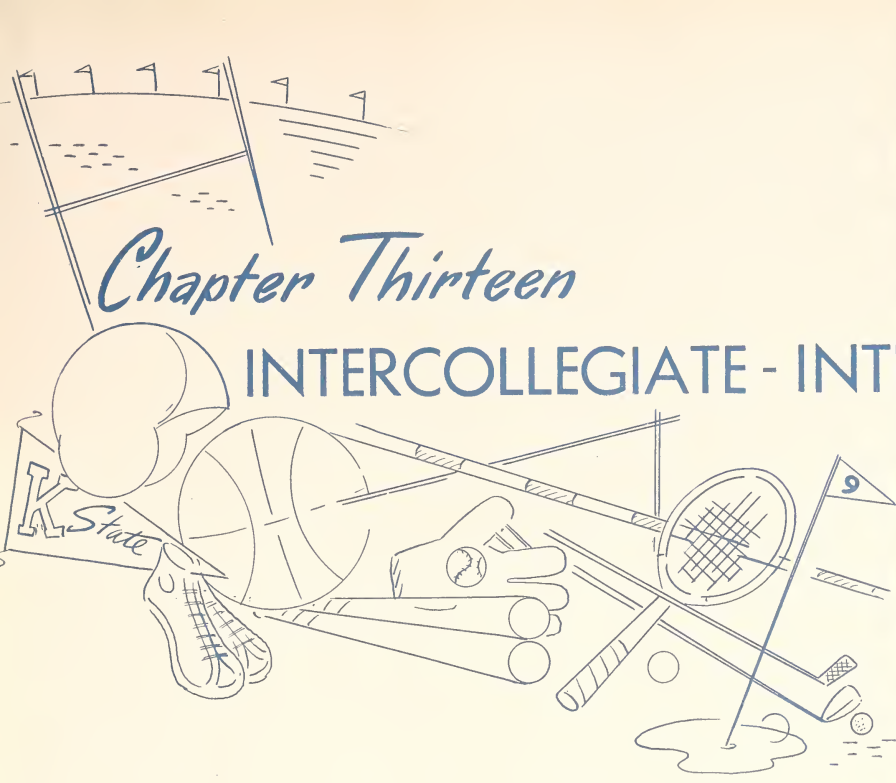

The speech department had a busy season this year. The debate squad made trips to Iowa, Nebraska, Washington, D. C., Colorado, and Alabama. The Kansas State debaters were hosts for the fifth annual invitational debate tournament to be held on the campus. Fifteen schools attended the tournament which is for first year students only. The speech department helped to form the first reading quartet on the campus. The quartet presented a Noel Coward comedy "Private Lives" as its initial performance. They use no scenery or background staging, but sit at reading stands and read their lines from books.

Debate tournament hosts were Fred Rogers, coach Bob Arnold, John Boyer, Verdel Wilson, Scott Chandler, Mary Wheeler, Howard Hill Jr., Don Cordes, John Epler, William Patzell and Wilma Wilson (*upper left*).

Chapter Thirteen

INTERCOLLEGIATE - INTRAMURAL

Although Kansas State had no championships to point to this year, the Wildcat fans can talk about their all-American football player, all-American basketball player, and Olympic finalist. Team records of spring sports show that the Cats were not at top form in golf, baseball, or wrestling, but the track team placed second at the Big Seven meet. At the halves of the Cincinnati, Nebraska, Colorado, Tulsa, and Kansas football games the Wildcat squad was either ahead or tied with their foe. Lack of depth struck down the Cats in the second half and their record was one win and nine losses. The basketball team beat KU and Indiana, the two teams who battled it out for the NCAA championship, broke the Big Seven scoring record by thrashing Nebraska 108 to 80, and the Cat center broke Lovelette's single game scoring record when he dunked 42 points against the Sooners. Whenever sports were discussed K-Staters could be proud of the Wildcat teams.

Athletic Program

Athletic Department Officials—Laurence "Moon" Mullins, athletic director (*top*) and business manager Fritz Knorr (*bottom*).

It takes more than a group of athletes to make a successful and well-balanced sports program within a college, and Kansas State is no exception. Administrative and tactical ability must go hand in hand with player ability.

Athletic Council Sets Policy

The athletic council is, in a large way, responsible for the successful athletic program at the College. This body, composed of faculty, student, and alumni members, makes all decisions concerning athletic policy. These decisions are subject to the approval of President McCain.

Eight Intercollegiate Sports

Besides an intramural program, K-State teams enter intercollegiate competition in football, basketball, indoor and outdoor track, wrestling, baseball, golf, tennis, and gymnastics.

Top man in the athletic department is Laurence "Moon" Mullins, the athletic director. Mullins, who joined the athletic department in February of 1951, is a sports expert with exceptional knowledge of football. He played fullback on Notre Dame's 1929 and 1930 national champion football teams.

Athletic Council Members—Gerald Shadwick, William Craig, Bob Kirk, Thane Baker, H. H. Haymaker, Evan Griffith, M.

A. Durland, Laurence Mullins, director of athletics, and Eric Tebow, chairman and Big Seven faculty representative.

Offers Fun, Variety

On the business end of the athletic department is business manager Fritz Knorr. Knorr not only supervises football and basketball ticket sales, but he must make travel arrangements for Wildcat teams and control the athletic budget.

Parris Directs Publicity

Fred Parris is the man behind Kansas State's athletic publicity. He is well known for the outstanding football and basketball brochures which he writes, and for his press box management.

Guiding the Wildcat football fortunes is coach Bill Meek. Meek, who learned his football as a blocking back at Tennessee, utilized the split-T offense this season.

Experienced Coaching Staff

Meek's assistants also have a fine grid background. John Cudmore was a former assistant coach at Maryland. Line coach Clyde Van Sickle, who began coaching in 1931, is the veteran of the coaching corps.

Royal "Sharkey" Price was a guard on Tennessee's 1947 Orange Bowl team. Another line coach, Jake Rowden, played center for Maryland from 1947 to 1950. Backfield coach Don Stehley performed at quarterback for the Wildcat teams from 1946 through 1949.

A K-State running play went for little gain in the season opener against Bradley. K-State won the game, its only victory of the season, 21 to 7.

Lack of Depth

Hampered by constant injuries to key players and a lack of adequate bench strength, the Wildcat football team scored only one win during the 10-game season of 1952. K-State's only victory came in the opener against Bradley.

The Cat gridders kept up with their opponents during the first half of many contests. The Wildcats held halftime leads of one point over Colorado, Tulsa, and Wyoming, and were even with Kansas and Bradley in the last two periods.

Forfeits 1951 Grid Games

An early blow to the team's morale came before football practices had started. Three footballers from the 1951 team were ruled ineligible because they had engaged in athletic competition with other schools in 1950.

One of the ineligible players was a starter. Since he had played in all of the K-State games the previous year, the school had to forfeit a win to Missouri and a tie game to Nebraska.

Injuries Hit Backfield Duo

Two backfield men, considered to be good ball carriers, were sidelined early. Eldon Zeller, sophomore halfback, injured his shoulder while playing baseball during the summer, and he was not able to compete. He had previously injured the shoulder in the Iowa State football game in 1950.

Leading pass-catcher on the Wildcat team until he was injured against Nebraska was Jack McShulskis (*center*); Dick Towers (*left*) was voted the Cat's "Most Inspirational" player.

Goal line stands were a specialty of defensive guard Tom O'Boyle (*top*); Veryl Switzer (*center*) was all-Big Seven and received all-American mention for his defensive play; A big gun rushing was sophomore fullback Dewey Wade (*bottom*).

Plugged by injuries, guard Dennis Kane (*upper left*) ended his college playing career in the Kansas game; Speedster Corky Taylor (*left*) was a demon on offense; Taylor breaks through the Missouri line for a gain (*above*).

Switzer Named All-American

The Wildcats' flashy defensive safety, Veryl Switzer, received honorable mention ratings for all-American. He was given a second team berth on an all-Midwest team, and a first team position on the AP Big Seven all-star team. Tom O'Boyle made the Big Seven second defensive team as guard.

Army end Jack McShulskis led the K-State scoring parade with 18 points, all scored on pass receptions. Four Wildcats were next in line with two touchdowns apiece. They were Dick Towers, Bernie Dudley, Veryl Switzer, and Carl Albacker.

Albacker ranked fourth in Big Seven passing, Switzer was fifth in punt returns, and Bill Keeler and Gerry Cashman were high on the list of punters.

Line plunges were the job of senior fullback Elmer Creviston (*left*); Plugging the offensive tackle gaps were Price Gentry and Charles Farinella (*below*); Marvin Anderson (*lower right*) saw action as a reserve tackle.

Wildcats Open Season With 21-7 Win

The Cats made their grid opener a winning one by downing Bradley, 21-7, in a night contest in Memorial stadium. Capitalizing on six Bradley fumbles, K-State had little trouble moving through the Brave forward wall when points were needed.

Carl Albacker went over from the 1-yard line for the first touchdown of the season. The scoring play was set up by an 18-yard jaunt by Corky Taylor and a Brave penalty.

Switzer Puts Cats Ahead

Bradley tied the game at 7-7, but in the third quarter Switzer dived over from the 3-yard line to put K-State ahead. Albacker scored again on a short plunge in the final quarter. Lane Brown made good his three extra point tries.

Elmer Creviston and Taylor led the rushing. Creviston carried the ball 9 times for 62 yards, and Taylor, 5 times for 38 yards. Bob Dahnke paced the aerial attack with a 38-yard pass completion.

Cincinnati Edges K-State

Though the Cats were three-touchdown underdogs, they made Cincinnati fight all the way to win a 13-6 decision. The Bearcats outpassed, outrushed, and outpunted the Staters who never showed signs of giving up.

Cincinnati tallied first on a 23-yard pass play in the

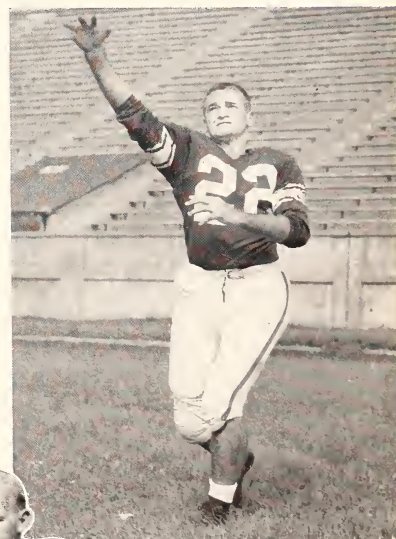

second period. In the third quarter the Wildcats put across their sole score of the game.

Center Sets Up Lone TD

Ed Pence intercepted a pass, and a series of short power plays took K-State to the 6-yard line. From there Albacker passed to McShulskis for the touchdown. Early in the final quarter, Cincinnati again broke through to score.

The Purple offense didn't stand up well against the hard-charging Cincinnati line. K-State gained only 88 yards on the ground and 57 yards through the air. Switzer had 34 yards on 14 carries, and Albacker completed 6 of 15 passes.

Diminutive Bertie Dudley (*right*), 5-9 left halfback, did double duty for the Cat team. His specialty was getting through small holes in the line, but he also threw passes. **Gerald Cashman** (*below*) served at a defensive halfback post and also punted.

Three-letter winner in the grid sport was Carvel Oldham (*left*). Though he saw action principally as a linebacker, he also played the offensive fullback position. Tom Smith (*center*) played in a tackle slot.

Extra - point specialist was reserve quarterback Lane Brown (*top*). Brown's best performance was three conversions against Bradley. Larry Hartshorn (*above*), a sophomore tackle, added to team hustle.

A pair of rugged linemen who strengthened the K-State forward wall are Cletis Wilson (*top center*) and Ed Linta (*top right*). Wilson started at defensive guard and Linta booted the ball on kickoffs.

Missouri Tigers Roll Over

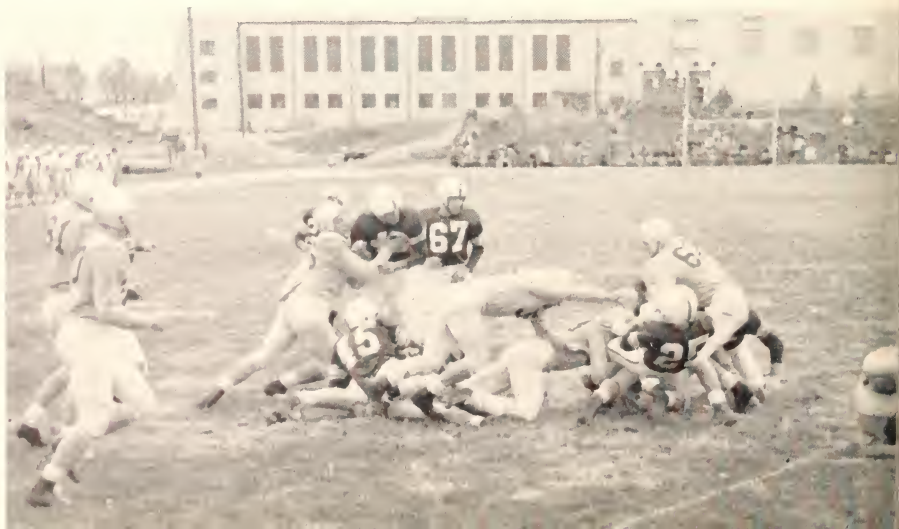

A fired up Missouri team overpowered the Wildcats, 26-0, in the Cats' second home game. The Tigers rolled up 335 yards on the ground, while K-State could only pick up 63 yards rushing.

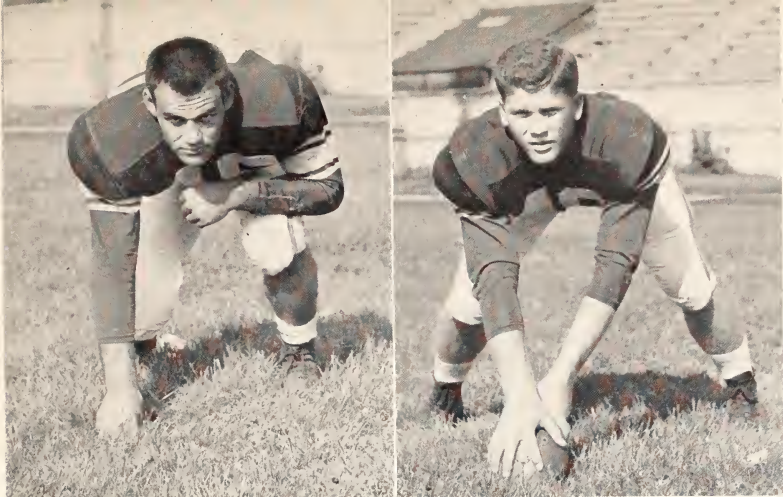

Missouri scored only once in the first half, but after a third quarter touchdown, they picked up steam again and added two more in the last quarter. K-State's defense made a brilliant goal line stand at the end of the third period, holding Missouri for downs on the 1-yard line.

Albacker Sets Completion Mark

The never-say-die Wildcat spirit was exhibited against Nebraska, although the Cornhuskers won the contest, 27 to 14. Albacker set a K-State record by completing 17 of 32 passes. The old mark of 16 completions was held by Dana Atkins.

Dick Towers, senior halfback, backs over the goal line to score the lone Wildcat touchdown against Wyoming university. Carl Albacker (67) had just handed the pigskin to Towers.

Wildcat linemen Dean Peck (*left*) and Bob Smith (*right*) played both offensive and defensive ball. Peck was a regular guard and Smith an alternate center.

K-Staters On Rushing Strength

Both of the Cat scores came on passes from Albacker to McShulskis. Twelve Wildcats were injured in the contest, and McShulskis and Ken Barr, both ends, were sidelined for the rest of the season with knee injuries. McShulskis was the team's leading pass receiver at the time.

Lead Tulsa at Halftime

After leading at halftime, 7-6, K-State bowed to Tulsa, 26-7, after the Golden Hurricane offense got rolling in the second half. Bill Meek's team controlled the ball for practically the entire first quarter, when it scored its lone touchdown.

The tally came on an 8-yard pass from Albacker to end Jim Limes to climax a 58-yard drive. In the second period Taylor, Switzer, and Elmer Creviston carried the ball to Tulsa's 1-yard line before the Hurricane line stiffened.

Good Cat blocking helps Bill Keeler get off a punt in the Wyoming game. The K-State punting protection is shown at its best in this play sequence.

Earl Meyer (*top*), 200-pound junior tackle, started several ball games; Regular punting chores were handled by end Bill Keeler (*above*). He ranked fifth in conference punting with a 37.7 yard average.

Sophomore fullback Dewey Wade grabs a pass in the Missouri game, and looks toward Veryl Switzer to see if he may lateral. Jack McShulskis (73) is at the right.

Sooners Register Easy 49-6

Kansas State was humbled, 49-6, by the Oklahoma Sooners at Norman. The Sooners scored almost at will, getting a touchdown in the first quarter, three in the second quarter, and three more in the third quarter. The Purple gridmen held them scoreless during the final frame.

A long forward pass from quarterback Jack Chilton to Dudley accounted for the only Cat points. Oklahoma got fine blocking from fullback Buck McPhail and capable running from all-American halfback Billy Vessels.

Jayhawk Scoring Delayed

Kansas university was forced to go all out in the second half to take a win from the Wildcats, 26 to 6. After Kansas jumped off to a 6-0 lead in the first period, K-State came back to score in the second period. The Wildcats recovered a Jayhawk fumble on the KU 19.

Six plays later Towers went over from the 1-yard line. Sophomore Dewey Wade played an inspired game, gaining 68 yards on 11 tries, for the best running performance on either team.

Regular offensive center was Ken Gowdy (*top*), a 195-pound junior; Al Karetski (*above*), sophomore tackle, started some games on the defensive platoon; Bob Dahnke (*right*) was a standout at defensive halfback; Ron Marciniak (*lower right*) kept the team fired up with his hustle and keen competitive spirit.

Romp at Norman

Loss Number Seven to Wyoming

Again the Cats were unable to hold a halftime lead, as they fell to Wyoming, 20 to 7. K-State got behind on a first quarter Wyoming touchdown, but came back in the next period to lead, 7 to 6. Wyoming added another scoring play in the third quarter, and another in the fourth period.

The only Purple touchdown came when Dick Towers went across to score from the 1-yard line. Wade gained 62 yards, and Towers, 42 yards for K-State. Chuck Spaulding romped over the State line for a 105-yard total.

Albacker and Chilton were successfully filling the air with passes. Albacker completed 9 of 10 aeriels, and Chilton made 2 of 4 passes good.

Cat sophomore Carl Albacker hit 17 passes in the Nebraska game (left); Ron Clair (center) was normally a tackle, but he also played end; August Keller (right) was a reserve center; Ken Barr had his season ended abruptly in the game with Nebraska.

Dick Towers scores the only Wildcat touchdown against Kansas, with the help of a key block from senior guard Ed Stahura. KU won the game, 26 to 6.

Lose to Buffs on Errors

Colorado capitalized on second half errors to defeat K-State, 34-14, at Boulder. Bill Meek's boys had gotten into the habit of first half scoring, so they made a pair of touchdowns in the initial period and led the Buffs, 14-13, at halftime.

Dudley scooped up a fumble and ran four yards for the first score of the game. Later Switzer took a punt and galloped 64 yards to scoring territory. Lane Brown converted after each touchdown.

Cats Drop Finale to Cyclones

In their final contest of the season, the Wildcats lost, 27-0, to an inspired Iowa State squad. It was the ninth consecutive loss for the Cats, and left them in the conference cellar spot for the ninth straight year. The game marked the college grid finale for Ed Stahura, Lane Brown, Dick Towers, Jim Limes, and Carvel Oldham. Injuries forced Jack McShulskis, Ken Barr, Dennis Kane, and Elmer Creviston to quit early.

The freshman footballers, coached by Clyde Van Sickle, played only one contest, a scoreless deadlock with the Kansas university frosh. The Kitten line play was especially good. Gil Roether, hard-driving fullback, hit the Jayhawk line 12 times for 67 yards. Backs Jim Logsdon and Bill Englehardt were also consistent ground gainers.

Former West Point griddier, Ed Stahura was used at an offensive guard (*top*); Starting defensive center was Ed Pence (*center*); Joe Rainman (*left*) led Cat pass receivers.

Tallest team in the nation would be a good descriptive phrase for the 1953 Kansas State basketball squad. Ranging from 5 feet 11 inches to 6 feet 11 inches, the Wildcats average height was 6 feet 3 inches. Because of their height advantage the Cats could usually out-rebound their opponents.

Kansas State Beats NCAA Champs, Runner-Up

Although the Kansas State basketball team didn't live up to all pre-season predictions, it performed one feat of which no other team in the country can boast. The Wildcat cagers defeated the two top teams in the country, Indiana and Kansas.

National champion Indiana lost to the Cats, 82-80, at the Field House in December. K-State topped the Kansas Jayhawks, 93-87, in the finals of the Big Seven pre-season tournament in Kansas City.

Before the start of the season, Kansas State was picked to win the Big Seven title, and to be among the best teams in the nation. Although they did not win the conference crown, their 17-4 record against stiff opposition is enough to indicate that the Cats were plenty tough.

Their only losses came at the hands of Kansas, Nebraska, and Michigan State. The Jayhawks won two decisions from the Cats.

Jack Gardner, Kansas State basketball coach, piloted the Wildcats to the best over-all season record of all Big Seven teams this year, 17 wins and only 4 losses. His teams have won 147 games and lost 76 during his 10 years at K-State.

Wildcats Edged Out of

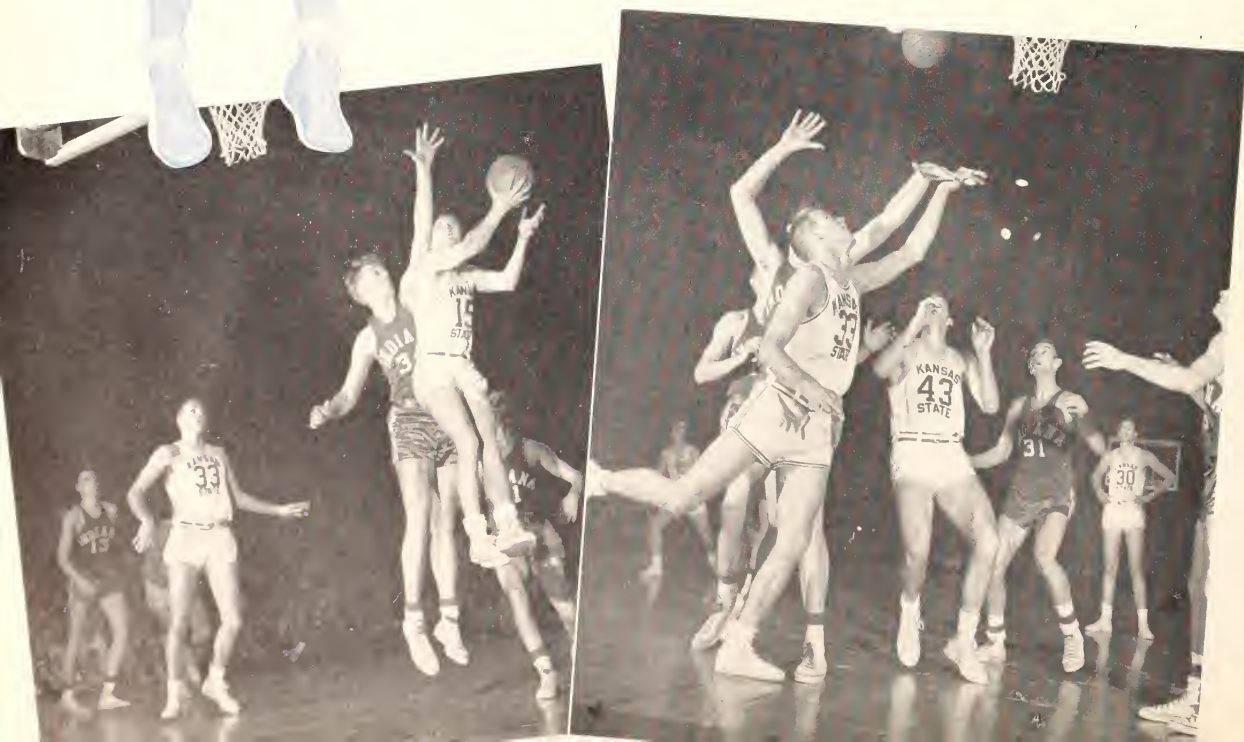

K-State finished with a 9-3 record in the Big Seven, and was just edged out of first place by Kansas, which won 10 games and lost 2. Kansas had a 16-5 over-all record.

The Cat cagers were the most potent offensive team in K-State and conference history. They averaged 81 points in their 12 conference games, breaking their 1952 mark of 73.8 points. In all 21 of their games, the Purple cagers hit at a 81.4 clip. Their previous season high of 74.7 was set by the 1951-52 squad.

As Kansas had edged the Cats out of first place, so did the Jayhawk center, B. H. Born, win the scoring title by hitting two points more than did Dick Knostman, all-American Wildcat pivot man. Born won the point crown by netting 270 points for a 22.5 average, and Knostman hit 268 points for a 22.3 mark.

Knostman broke the conference single game scoring mark by hitting 42 points against Oklahoma in a home contest. The previous record of 41 points was held by Kansas' Clyde Lovellette. Kansas got the mark right back, as Born scored 44 tallies in a later game.

Dick Knostman established himself as the greatest scorer in K-State basketball history (*left*). Peck Mills tries to get off a shot over Indiana's all-American center Don Schlundt (*lower left*). Knostman pushes the ball goalward against the Hoosiers (*lower right*).

Knostman An All-American

Knostman was picked on just about everybody's all-American team at the close of the season. He was chosen on the mythical first team by the NEA and several magazines including Look. The A.P., U.P. and Colliers picked him on the second team. He was also chosen on the Big Seven first five, and was named on the all-star teams of nearly all the Wildcat opponents.

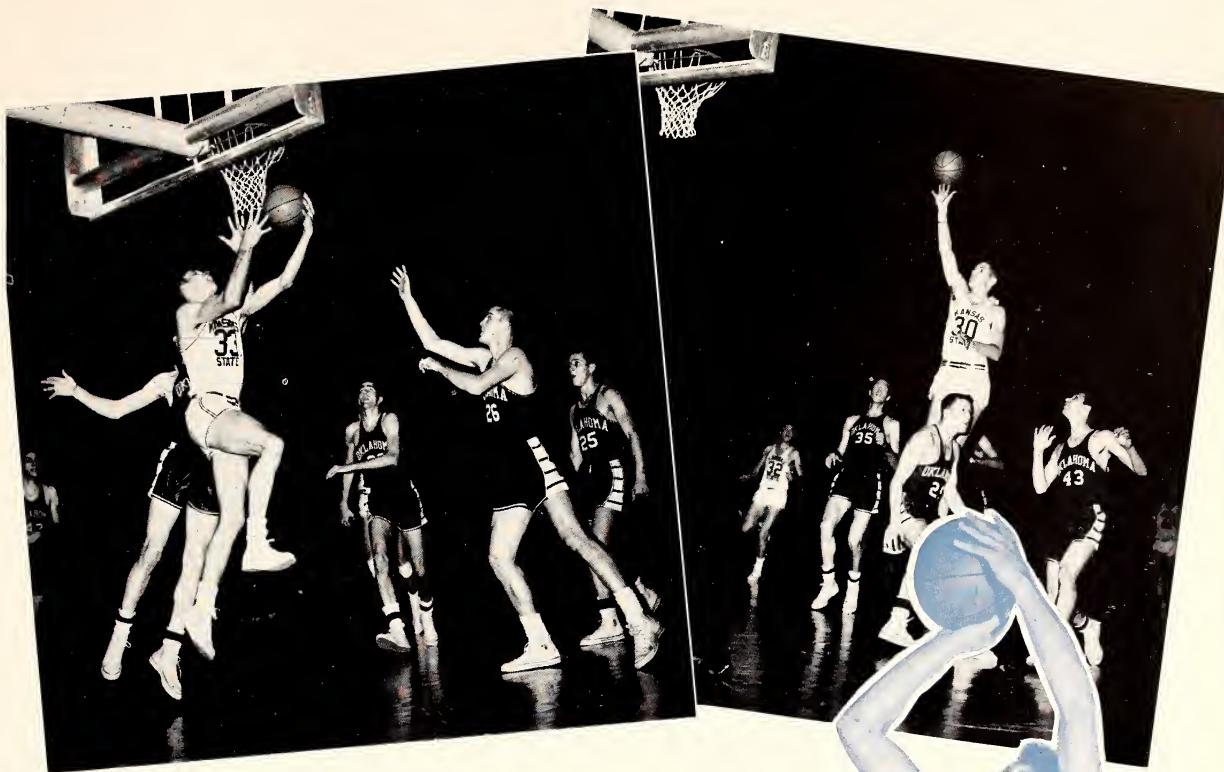

Bob Rousey Wins Honors

Bob Rousey also came in for his share of honors. He was given honorable mention for all-American by the U.P. and was named on most of the Big Seven all-star teams. Gene Stauffer and Gary Bergen were given honorable mention for conference honors.

At the close of the season, Coach Jack Gardner was selected to coach the West all-stars in the East-West game in Kansas City. Rousey scored 26 points and Knostman, 21, in the West victory. Both boys toured the country playing against the Harlem Globetrotters.

Bob Rousey, senior guard, was the team playmaker and the second best scorer. Jim Smith goes high for a shot against Iowa State (*left*). Bringing down a rebound in the Colorado game is Jesse Prisock (*right*).

Jim Smith, though not a high scorer, was an alert and hustling forward (*right*). Dick Knostman maneuvers under the basket to tally against Oklahoma (*left*). He scored 42 points in the contest. Gary Bergen shoots over the Sooner defenders (*right*).

Knostman Sets Scoring Mark

Knostman surpassed the school career scoring mark of 820 points, set by Rick Harman, Wildcat all-American, in 1950. The 6-6 senior went over the former record in the Big Seven opener at Lawrence. He finished the season with 476 points, and a career total of 1,083.

Kansas State also set a school and conference record for the most points scored by one team in a game. The Cats went wild in their season finale and got 108 tallies against Nebraska. K-State had held the previous mark of 99 points against Iowa State in 1951.

Squad Packed With Talent

Dick Knostman was the big gun of the Cat attack throughout the season, but he was not a one-man team. Rousey started slowly, but after the middle of the season he was a deadly scorer. Gene Strauffer dealt trouble every time he took a set shot, and Jesse Prisock was equal to Knostman in rebounding towards the latter stages of the season and was a dangerous scorer.

Wildcats Win Conference

Getting off to a good start, K-State began by beating a tough Drake quintet, 79-73, in an overtime period. The score was knotted 71-71 at the end of the regulation time, but three free throws by guard Marvin "Peck" Mills cinched the win for K-State. Knostman was high man with 32 points.

A 35-foot set shot by Jack Carby in the closing seconds of the Indiana game gave the Purple and White an 82-80 win. Gene Stauffer had tied the score seconds earlier with a set shot. Knostman hit 27 points for the Cats. They also coasted past San Francisco, 81-60, for their third Field House win of the season.

After downing previously unbeaten Notre Dame, 80-64, in the Michigan State invitational meet, K-State had its winning streak snapped at four games by the host team. Michigan State won 80-63.

The Wildcats then entered and won the conference pre-season tournament in Kansas City. Playing an almost faultless brand of ball, the Cats got past Oklahoma, 93-69, in the opener. They downed Yale, 79-66, in the semi-finals. Although Kansas put a fight in the finals, K-State triumphed 93-87. Jayhawk center Born fouled out in the second period with three points.

Jesse Prisock was a demon rebounder and accurate with his flat jump shot (*left*). Knostman gets away his soft jump shot, as Kansas center B. H. Born tries to block the shot (*left*). Prisock has the ball for a tip-in attempt against the Jayhawks (*right*).

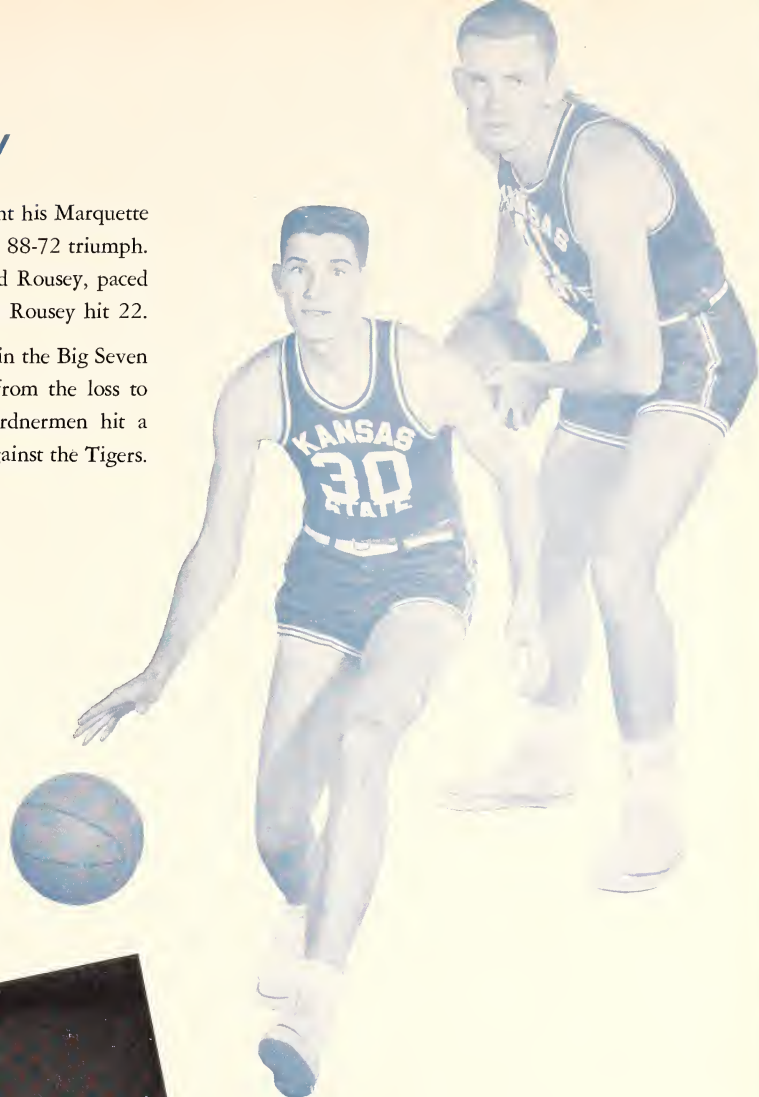

Pre-Season Tourney

Former assistant coach "Tex" Winter brought his Marquette team here, and the K-Staters responded with an 88-72 triumph. Two of Winter's former pupils, Knostman and Rousey, paced the attack. Knostman gathered 26 points, and Rousey hit 22.

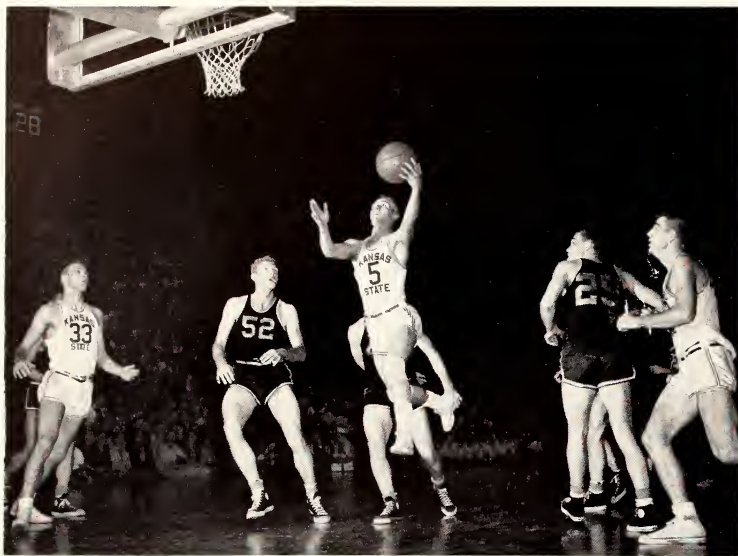

Kansas handed the Cats an 80-66 trouncing in the Big Seven opener for the Wildcats. K-State rebounded from the loss to drop Missouri, 94-85, at Columbia. The Gardnermen hit a torrid 47 per cent of their field goal attempts against the Tigers.

Kansas State squeezed past Iowa State, 81-78, on the Field House court. The cats faltered again, losing 80-67 to Nebraska on the Husker court. Knostman paced the Wildcat comeback against Iowa State with 31 points in the 74-64 win.

Bruce Drake's Oklahoma Sooners were completely outclassed, as the K-Staters triumphed, 84 to 64. Besides scoring 42 points, Knostman broke his Big Seven rebound mark, with 23 grabs.

Gary Bergen and Jack Carby gave the team added height. Bergen is a 6-8 sophomore, and Carby, a 6-7 senior. Jim Smith drives through the Missouri defense (*right*).

Marvin Mills and Jerry Jung were two of the most promising sophomores on the squad. Mills saw a lot of action at guard, and Jung filled in at center. Bob Rousey (above) goes down the middle to try a layup against Missouri.

Hawks Break Home Streak

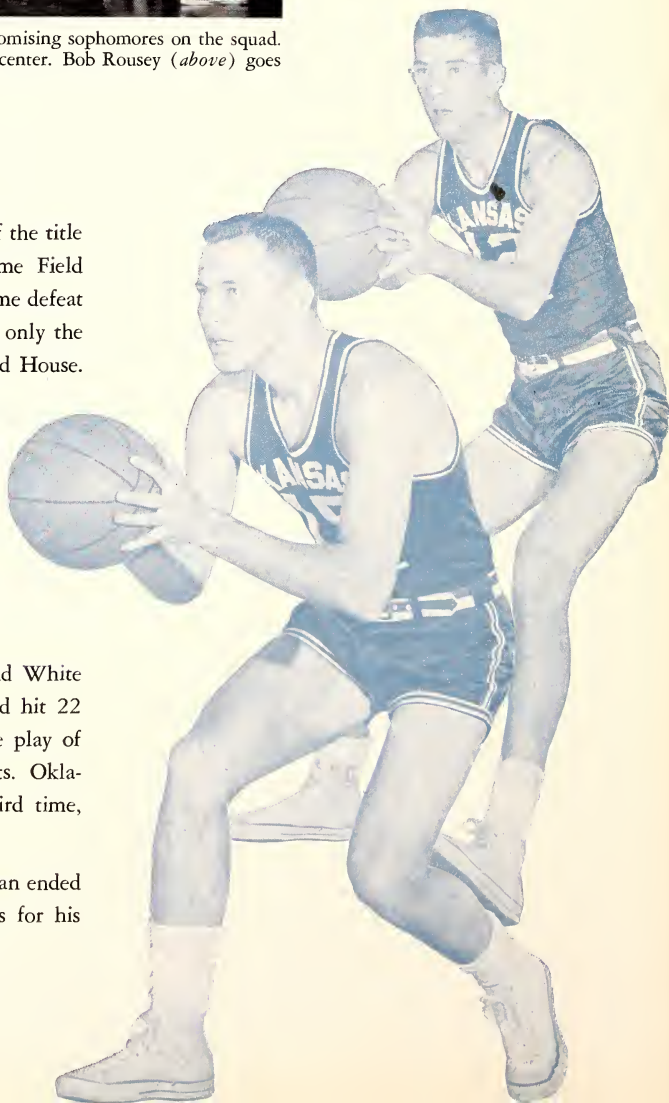

The Kansas Jayhawks knocked the Cats out of the title race, 80-78, and also broke the team's 27-game Field House winning streak. The loss was the first home defeat since Indiana turned the trick in 1950, and was only the second defeat the Cats have suffered in the Field House.

The high altitude at Boulder served to invigorate the Wildcats, and they toppled Colorado, 81 to 56. A balanced scoring attack featured the Cat win over Missouri, 75-68, in the Field House. Knostman scored 18 points, and Rousey and Prisock each had 15.

Rousey Paces Win Over Buffs

With Rousey leading the way, the Purple and White set down Colorado, 88 to 69. The senior guard hit 22 points. Another bright spot in the win was the play of 6-11 reserve center Jerry Jung, who got 8 points. Oklahoma fell before the K-State attack for the third time, 76 to 60.

In the 108-80 trouncing of Nebraska, Knostman ended his college career by tallying the last 12 points for his team. He scored 28 points and Prisock got 21.

Frosh Cagers Play Only in Exhibitions

Although the Kansas State freshman team did not compete against other schools, they saw plenty of action by playing against the varsity "B" team, an alumni squad, and the College intramural basketball all-stars.

In these exhibitions, the frosh showed know-how, speed, and good playing ability. Guards Kent Poore and J. R. Snyder were consistent scorers with their long set shots. Jim Frary, 6-7 center, handled the post position with ease, and Richard Stone, Gary Parker, and Joe Powell were among others who sparked the frost team. George Carey, an air force veteran, joined the team at mid-season and gave the squad added speed.

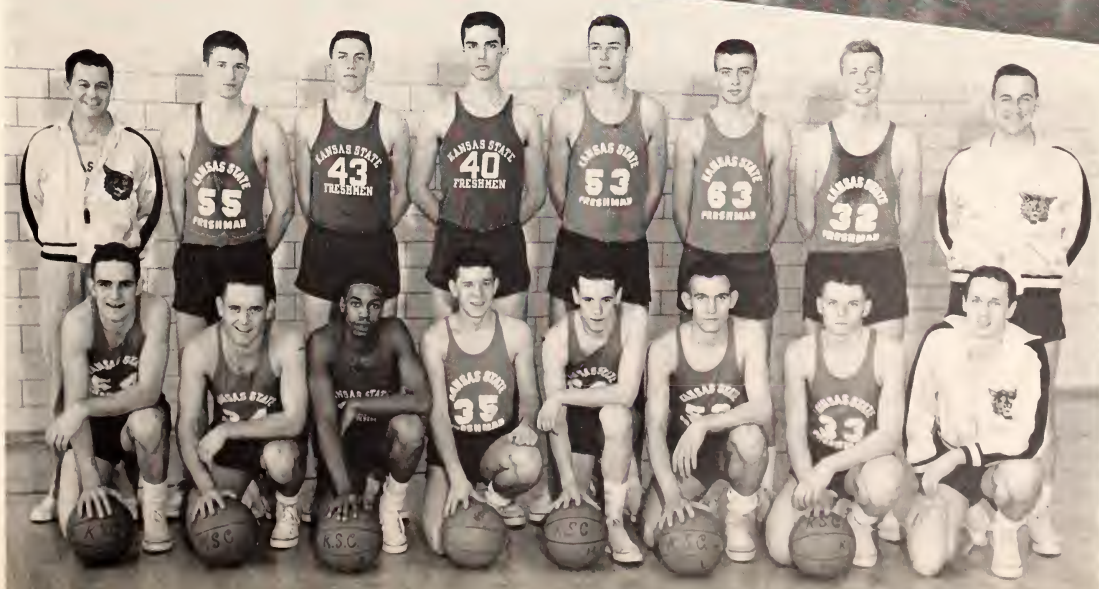

Frary led the frosh with 25 points against the alumni cagers. The alumni won 97 to 87. Snyder scored 14 points, Poore 13, and Stone 12 points. The frosh hit with 34 per cent accuracy in the contest.

Keith "Dobbie" Lambert has served for two years as head freshman and assistant varsity basketball coach. He formerly coached at Anderson, Ind., high school.

Jim Frary, frosh center, gets loose under the basket to score against the alumni. Don Upson (73) and John "Hoot" Gibson (32) stand by for the alums.

Cat Trackmen Sparkle On Cinders

Top performer on the Wildcat squad was Thane Baker, shown receiving congratulations from Coach Haylett.

Sensational sprinting by Thane Baker, the coaching artistry of Ward Haylett and spurts of greatness on the part of several other thinclads, highlighted the 1952 K-State outdoor track season.

Baker consistently turned in outstanding performances in the dash events. He won the Kansas relays' 100-yard dash in 9.5 seconds, the best collegiate performance of the year. Turning in one of the top 220 dashes, he scurried the distance in 20.8 at the KU dual, to set a new meet record and a school mark. Climaxing the season, Baker won both the 100 and 220 dash titles in the conference meet, besides running anchor on the winning Cat mile relay team. For this performance, he was awarded the Henry Schulte award for the outstanding competitor in the meet.

It was far from being a one-man squad, though. Gene Wilson won the broad jump at the Kansas relays. The K-State two-mile relay squad, of Bob Canfield, John Caldwell, Ted Hanson and Dick Towers, set a Colorado relays' mark of 7:56.7, bettering the old record by nearly eight seconds. Closing his collegiate career in a blaze of glory, Hi Faubion won the high hurdles event in the Big Seven meet.

Clearing the high hurdles in the Kansas dual are Dick Culbertson (*left*), Dick Knostman (*third from left*), and Hi Faubion (*second from right*).

K-State took a sixteen-man squad to the Texas relays, but failed to make an impressive showing. Thane Baker ran second to Dean Smith of Texas in the century.

Oklahoma's trackmen were 76 5/6 to 53 1/6 victors over the Wildcats in the first outdoor dual. K-State salvaged only four firsts in the Norman meet. Freshman flash Jerry Mershon won the 100-yard dash; Baker took the 220 sprint; Veryl Switzer topped the pole vaulters; and Gene Bates captured the javelin honors.

Coach Haylett's aggregation took several honors in the Kansas relays. Besides a 100-yard dash win by Baker, Wilson leaped twenty-four feet to take the broad jump, with Switzer finishing third in the same event. The 440 relay squad, composed of Cecil "Corky" Taylor, Jim Loomis, Wilson, and Baker, placed fourth.

Good distance men were scarce, but Ted Hanson (*upper right*) was a steady miler. Dick Knostman (*left center*) was equally skillful in the discus and high hurdles. Best of the high hurdlers was Hi Faubion (*right center*). Tom Machin (*lower left*) was a consistent scorer in the pole vault, as was John Caldwell (*lower right*) in the relays.

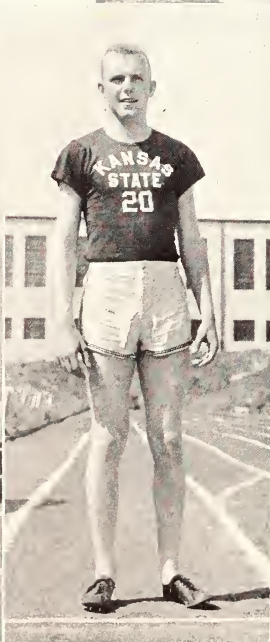

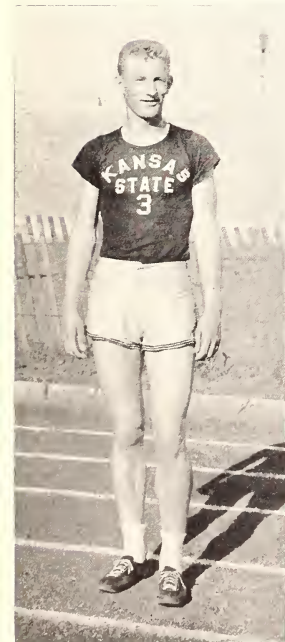

Off the starting blocks in a 100-yard dash against the Jayhawks are Wildcat sprinters Jim Loomis (20), Thane Baker (4), and Jerry Mershon (24).

K-State won the Colorado relays team championship, scoring firsts in the two-mile, mile, 880 and 440-yard relays. Besides anchoring three winning baton teams, Baker won the 100-yard dash.

A lack of depth was evident as the Wildcats dropped their only home meet, 51-80, to a strong Kansas squad. Gene Wilson was tops in the broad jump and high jump, and Dick Knostman led the discuss throwers. Baker easily sped to wins in the 100 and 220-yard dashes, and Faubion won the high hurdles.

Baker led the way, and K-State picked up its first dual victory of the outdoor season, 71 4/15 to 59 11/15, at Nebraska. Baker won the century, 220, quarter-mile, and anchored the mile relay squad with a brilliant 48:3 time. Towers set a new meet record of 1:55.1 for the half-mile.

Most consistent of the field performers was Gene Wilson (*upper left*). Jerry Mershon (*upper center*) won two 100-yard sprints, and Dick Towers (*above left*) led the middle distance performers. Jim Loomis (*above right*) was used chiefly in relays, and Veryl Switzer (*right*) excelled in the broad jump. Lunging across the tape in the KU relays century is Thane Baker (*center*).

Thane Baker sets a meet record of 9.6 for the 100-yard dash in the dual with Kansas. Kansas State's Jerry Mershon (24) finished behind Hess of Kansas.

The cindermen evened up their dual record by beating Iowa State, 72-59, on the Iowa State track. Four Wildcats registered double wins. Towers won the mile and half-mile, Baker set the pace in the 220 and 440 dashes, Faubion took the high and low hurdles, and Gene Wilson had firsts in the high and broad jumps.

Finishing behind Kansas and Oklahoma, K-State copped third spot in the conference meet at Norman. First place finishers were Baker in the 100 and 220-yard dashes, Faubion in the high hurdles, and the mile relay team composed of Jerry Rowe, John Caldwell, Towers, and Baker.

In the Missouri Valley AAU meet, Baker won the 100 and 200-meter events and Towers placed second in the 400-meter hurdles. Baker went on to the NCAA meet, placing third in the 200 and sixth in the 100-meter events. He was fourth in each of the two events in the national AAU finals in Long Beach, California.

Pole vaulter Herman Wilson (*upper center*) was a capable performer, as was freshman Jerry Sartorius (*upper right*) in the relays. Gene Bates (*above left*) was K-State's main performer with the javelin. Bob Canfield (*above right*) ran the half-mile, while Don Thurlow (*left*) ran the two-mile.

Trackmen Score Indoors

The Wildcat indoor track team had a successful season, winning one of two dual meets, a triangle meet, and dominating the Colorado invitational events. They finished fourth in the conference meet.

K-State thinclads opened their season with a 55 1/3 to 48 2/3 win over Nebraska. Thane Baker, who won every individual event in which he participated during the season, was the only double winner.

After losing 39 2/3 to 64 1/3 to a strong Kansas track crew, the team won top honors in the Michigan State relays. Winners were the sprint medley relay team, Veryl Switzer in the broad jump, and Baker in the 75 and 300-yard dashes.

Kansas State won the Field House triangle meet with 47 1/3 points. Colorado had 44 5/6 points, and Iowa State, 37 5/6. Then in the Big Seven meet the Cats registered a pair of firsts. Baker won the 60 and 440 dashes.

Fast finishes on the Field House track were registered by Dick Towers (*top*) and Thane Baker (*left*). Towers is breaking the tape in the half-mile, and Baker is beating the field in the quarter-mile event.

Indoor trackmen—*top row*: Coach Ward Haylett, Wesley Wilkison, David Boucher, Henry Renollet, Floyd Niernberger, Elmer Creviston, Ray Russell, Jerry Sartorius, Fred Wingert. *Second row*: Frank Ruvalo, Don Roberts, Bill Johnson, John Caldwell, Darl Michel, Donald Hart, Veryl Switzer, Jerry Rowe, Jack Epler, Chester Wasson. *Third row*: Stephen Belt,

Gene Youngstedt, Ted Hanson, Norman Mills, Marvin Chiles, Gene Porter, Clifford Bizek, Allen Muecke, Gerald Shadwick. *Bottom row*: Clinton Norton, Edward Clem, Jim Jorns, Dick Towers, Thane Baker, John Schroeder, Dick Culbertson, Glen Taplin, Jerry Mershom, and Jim Loomis.

Olympic Finalist

Thane Baker won international fame for himself and Kansas State last summer at Helsinki, Finland. Baker, a member of the United States Olympic track team, finished second in the 200-meter dash finals.

At the Olympic games Thane competed against 117 other runners for the 200-meter world title. He won two heats in the event with identical times of 21.4 seconds. In the finals he finished just one-tenth of a second short of the Olympic record. Baker's 20.8 time was topped only by United States runner Andy Stanfield, who tied the record of 20.7 seconds.

In post-Olympic European exhibitions, Baker finished first in 100-meter and 200-meter races, and he ran several relay events.

Wrestlers Finish Strong

Wildcat Wrestling Coach—Leon "Red" Reynard has guided the fortunes of the wrestling squads since 1948.

Though winning but three of nine duals during the season, the wrestling team showed strength at the Big Seven meet by taking third place. Leslie Kramer, Wildcat 157-pounder, led the team, winning the championship in his division. Bob Mancuso was second in the 123-pound class, and Ted Weaver was third in the 177-pound class.

In the season opener the Wildcats were stopped by the defending national champion, the Oklahoma Sooners, 22-3, in the Field House. Kramer was the only K-Stater to win a match. Mankato State topped the Cat matmen, 18-11, before a K-State crowd. Mancuso, Pacha, and Kramer won decisions, and Marciniak gained a draw.

The matmen took to the road in search of a win, but their hopes were jolted, 24-4, by Colorado university. K-State failed to win any event. A takedown by Marciniak in the last seconds of the heavyweight match gave Kansas State its first win of the season, 16-15, over Colorado State.

Wildcat wrestling team—Bob P. Mancuso, 123 and 130 pounds; Max R. Webster, 130 pounds; Dick W. Spring, 137 pounds; Ken N. Spicher, and Bill C. Boon, 147 pounds; Leslie

J. Kramer, 157 pounds; Leonard E. Pacha, 167 pounds; Ted Weaver, 177 pounds; and Ron Marciniak, heavyweight.

Illini Grapplers Are Victors

Illinois topped the Cats, 16-11, but K-State had a strong finish. Going into the 157-pound event, the Wildcats trailed 14 to 0. Kramer, Pacha, and Weaver won decisions, and Marciniak's match ended in a draw.

The K-State wrestlers won their second meet by dropping Wyoming 16 to 12. Besides the forfeit in the 123-class, the Cats lost only one match. Mancuso, Spring, Kramer, and Weaver decisioned their opponents, and Marciniak fought to a draw.

K-State Loses at Ames

Another loss came at the hands of Iowa State, 18-8, on the I-State mats. Mancuso scored five of the Wildcats' eight points with a last-second pin. Kramer was the only other Cat performer to win over the Cyclones.

The grapplers came back the next night to end their dual season with a 16-12 win over Cornell college at Mount Vernon, Iowa. Mancuso and Weaver accounted for 10 points by pinning their men. Kramer and Marciniak rounded out the scoring with decisions.

Heavyweight Ron Marciniak leads his opponent around by the head (*top*); Bob Mancuso does a dance to keep from falling in the Wyoming meet (*second*); Dick Spring has his Wyoming opponent pretty well tied up (*third*); Ted Weaver, 177-pounder, gains the advantage in the Mankato State match (*fourth*); Leslie Kramer tackles an Oklahoma foe (*bottom*).

"You see men it's this way," Coach Evans says as he explains the proper grip to Dale Elliott, Bill Boggess, Graham Hunt,

Russell Hicks and John Stretcher. The team is shown on one of the greens of the Manhattan Country Club for practice.

Golfers Bow; But Look To Future

Fore! Letterman Graham Hunt tees off as Bill Boggess watches.

Inexperience and bad breaks combined to give the golf team an uninspiring record on paper. The golfers, under the guidance of Coach Mickey Evans, dropped seven duals and tied one.

However the situation is not as bad as it first seems. Things look better when it is realized that two of the matches were lost by only one point and one match was lost by three points. And things look even more encouraging when the age of the team is considered. The squad was composed of two juniors, Graham Hunt and Russell Hicks, a sophomore, John Stretcher, and two freshmen, Bill Boggess and Dale Elliott. The Cats placed sixth in the Colorado College tournament and last in the conference tournament.

Netmen Register Top School Mark

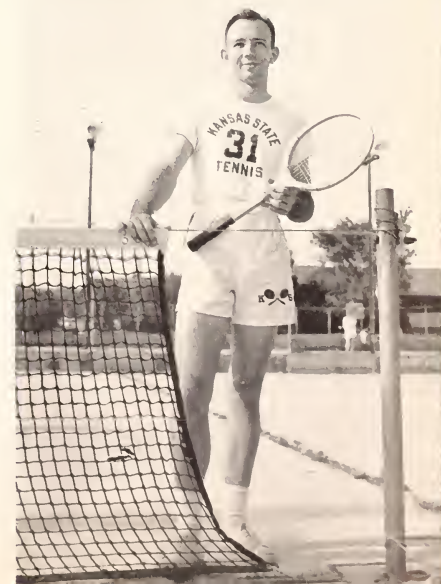

Kansas State's tennis team had one of its most successful seasons last spring, winning nine times while losing only three. Allen Chaplin boasted the top singles record. He won 10 times and lost 2. Chris Williams had a 9-3 record, and Roger Coad, a 7-5 mark. Coad and Williams teamed up in doubles to win 11 of their 12 matches.

The team opened pre-season play by downing Southern Methodist, 4 to 2, and Southeastern Oklahoma, 4 to 3. Oklahoma then turned the tables with a 7 to 0 win.

In their first home meet, K-State's netmen bowed, 6 to 1, to Iowa. Then after topping Tulsa 6 to 1, Kansas handed them a 3 to 2 loss at Lawrence.

The Wildcats finished the season with six consecutive wins, beating Iowa State, Missouri, Nebraska twice, Washburn, and Kansas. In the Big Seven meet at Norman, K-State dropped to fourth place, but Roger Coad and Allen Chaplin advanced to the finals before losing.

Number one singles ace was senior letterman Roger Coad.

Inexperience

Wildcat catching staff members Ray Holder and Dick Myers receive some instructions from their coach Ray Wauthier.

A young and inexperienced Wildcat baseball squad won only two of seventeen Big Seven encounters, however they fared better against their non-conference foes. K-State downed Wichita university twice and took a game from Forbes Air Force base of Topeka.

Bad weather a hinderance

The Cats were hampered by bad weather in pre-season practice sessions. Ray Wauthier, in his second year as baseball mentor, was assisted by Duane Holder.

Some good hitting

Jim Pollom, shortstop, topped the K-State regulars in hitting with a .381 average. Ralph Clark and Don Morris had high averages, but neither was at bat more than ten times. Pollom collected eight safeties in the 21 times he batted. Don Childs batted .315, Nugent Adams hit .313, and Richard Tannahill had a .310 average. Jerry Schnittker was next in line with a .273 hitting mark.

The Cats' conference victories were at the expense of Iowa State and Missouri. The Cats downed Iowa State, 8-6, at Ames, and they handed Missouri its only Big Seven loss in a 5-4 upset here at Griffith stadium.

Plagues the Cats

Schnittker and Childs lead RBI's

Schnittker and Childs topped the squad in runs-batted-in, with 12 apiece. Adams followed with 10 RBI's. Adams and Childs each had two home runs, and Childs scored 15 runs to lead Cat hitters in that department.

Top hurler for K-State was Walt Kelly, with two wins against a pair of defeats. Bob Parker had one triumph and no losses, and Jack Dillman won two games and suffered three defeats. Rex Wade saw the most action on the mound hurling in 10 games. Wade registered 43 strikeouts and issued 39 walks. Cat pitchers served up an average of 7.8 walks per contest.

Cats win opener, 13-7

Eighteen men were employed in the opening game, which the Wildcats took 13-7 from Forbes Air Force base. Leading the hitting parade for K-State were Don Prigmore, Nugent Adams, Jerry Schnittker and Don Childs, with two safties each. Jack Dillon started and received credit for the win, although three other hurlers later took the mound. Forbes held a 1-0 lead until the Cats exploded for six tallies in the third inning. The Wildcats were pressed 6-5 in the seventh inning, but K-State pushed across three runs in the last half of that inning, and got four more in the eighth frame.

Diamond defense for the Cats was supplied by infielders Gene Stauffer, Nugent Adams, Don Prigmore, and Don Childs.

The Wildcat baseball team usually draws a good crowd when they play in their home ball park at Griffith stadium.

Hard-hitting first baseman Nugent Adams, who ended the season batting .313, follows through on his powerful swing.

Win streak continues

The Cats ran their early season winning streak to three games with 10 to 1 and 3 to 0 wins over Wichita.

Nebraska ended K-State's winning ways, jolting the Wildcats, 1-12 and 1-14. In the opener the Huskers

collected 16 hits and were aided by five K-State miscues. The second game found Nebraska pitcher Pat Mallette hurling a two-hitter. Dick Myers doubled to score Adams with the only Cat run.

Starting an eight game road trip, Coach Wauthier's squad was swamped 0-20 by Missouri. John Boyer's single off Tiger tosser Don Boenker was the only K-State safety. The Cats dropped the second contest, 4-12, although the Tigers collected only eight hits.

K-State in conference victory

Relief hurler Walt Kelly received credit for the Wildcats' first Big Seven triumph, 8-6, over Iowa State. Kelly and starter Dillman gave up 10 hits, while K-State was pounding out eight singles. Adams set the pace with a pair of home runs.

Kansas took two close contests from the Cats, 3-5 and 10-11. The longest blow of the first game was a four-bagger by Prigmore. Rex Wade went the distance giving up only six hits. In the second contest the Cats collected eleven hits to KU's eight, but the K-State defense fell apart and provided the Hawkers a one run victory margin.

Midway through their season, the Wildcat baseballers had compiled four wins and six losses. K-State held the conference cellar position, as they had registered only one win to go with six Big Seven defeats.

Wildcat pitching duties were performed by regular pitchers Walt Kelly, Rex Wade, Bob Parker, and Jack Dillman.

Cats Split with Tigers

Kansas State had the honor of handing the Missouri Tigers their only Big Seven conference loss of the season, 5-4. The Cats dropped the second game by a 6 to 9 score.

Bob Reynolds, Husker second-baseman, proved himself as capable on the diamond as on the gridiron when he led the attack on the Wildcats that resulted in two losses, 0-16 and 2-19.

Oklahoma, the defending NCAA champions, swept a pair of slugfests, 12-18 and 12-24. The Sooners banged out 16 hits and took advantage of 11 walks, as K-State connected with 10 hits and got 13 free tickets. In the second game the Wildcats collected 16 safeties, including a home run by Childs.

Colorado Topples Cats

The Wildcats dropped a twin-bill to Colorado, 6-12 and 4-7. In the opener the K-Staters jumped off to a three-run lead, but the Buffs took command with a six-run sixth inning.

The Cats dropped a 7-9 decision to Kansas. Trying desperately to end the season with a win, K-State hammered out 21 hits for 17 runs. The Jayhawks gathered 15 hits, but made them count for 19 runs.

A mighty swing is taken by second baseman Don Childs (top); Catcher Dick Myers appears disinterested as his opponent complains to the umpire (bottom).

Roaming the outfield for K-State were Earl Woods, Jim Jacobs, Joe Arnold, and Richard Tannahill.

Gymnasts in Second Year

For their second season, K-State's gymnasts competed with other colleges and performed during halftime at basketball games.

Three Sports Added to Intramurals

Intramural director Frank Myers (*left*) supervisor of the men's intramural program at Kansas State, looks on while student athletes check results of the spring track and field meet. Myers has been a member of the athletic staff since 1926.

The College intramural program has been expanded to include thirteen sports. Three new sports are wrestling, badminton, and free throws. The other intramurals are played in golf, touch football, basketball, volleyball, softball, tennis, horseshoes, handball, track, and swimming.

All Students Eligible

All male students are eligible to compete in each sport if they are not members of the varsity squad in that athletic event.

Intramural athletics at Kansas State are arranged to provide the students with a chance to participate in any or all of the thirteen recreational activities. This year about two thousand men competed in intramural sports.

Three Outdoor Fields Used

The outdoor intramurals are played on two fields on the east campus grounds, and in the city park. Most of the indoor sports are played on the three courts in the Field House gymnasium. The finals of the basketball tournament were played in the Field House to accommodate the large crowd.

Golf Opens Season

Golf was the first intramural event to be completed last fall. Winners of the school link titles were the independent champs, the Hillbillys, and Beta Theta Pi of the fraternity division. Members of the Hillbilly team were Bill Beasley, Gary Fletcher, Ronnie Young, and Eldon Johnson.

In touch football Sigma Alpha Epsilon won the crown by defeating the independent winners, Jr. AVMA, 33 to 26.

No Team Wrestling Title

There was no team championship in the wrestling tournament, and no matches between the fraternity and independent winners.

Sumner County Leaguers won the all-school basketball championship by downing Phi Delta Theta, 45 to 41. The Bluemonsters were runners-up for the independent title, and Kappa Alpha Psi was second among fraternities.

The Sumner team also copped the independent free throws crown. Kappa Sigma and Pi Kappa Alpha tied for first in the fraternity division.

Ed Baker of Jr. AVMA won the independent handball intramurals by defeating J. A. Sprowls, also of Jr. AVMA.

Fraternity wrestlers—*top row:* Glen David, Leonard Pacha, Bill Boone, Charles Young. *Bottom row:* Vaughn Gregg, Jack Toliver, and Bob Logan.

Independent wrestling—Ken N. Spicher, Kenneth L. Ellis, Ben McDaniels, Elmer L. Richers, and Larry G. Henry.

Many Girls Play Intramural Sports

Men are not the only students who have an opportunity to participate in intramural athletics. The girls have an organized intramural program which this year has attracted about 400 women students. This number has remained about the same for the last three years.

The women's physical education department directs the program, which includes six team sports and three individual sports. The sports in which girls compete as teams are volleyball, tenniquoits, posture, swimming, basketball, and softball.

In addition to these, there is tennis, table tennis, and badminton. Volleyball has proved to be the most popular team sport with the girls, although basketball has a large following.

In order to keep the teams well balanced and insure that none has an advantage over the other, rules permit no team to have more than one-half of its players, who are physical education majors, on the team at the same time.

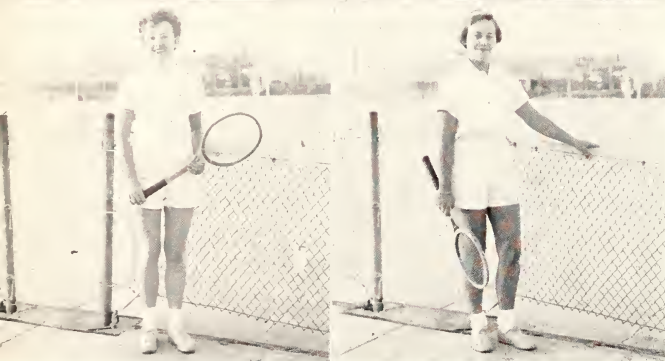

Katheryn McKinney, assistant professor of physical education, has been intramural director here for seven years. She is responsible for the growth of the present intramural program for coeds, which now has nine sports.

Phi Beta Phi swimming team—Shirley Cortwright, Patricia Ptacek, Rebecca Thacher, Sandra Targe, Ann Lundberg, Linna

Snyder, Jean Hunter, and Martha Ann Blum.

Alpha Chi Omega Posture team—Lou Jean Moyer, Jean Sheets, Joanne Wood, Peggy Meyers, Gene Anne Schleifer, and Janet Barger.

Tennis winners—Kathleen Brubaker, Waltheim, and Sue Burke, Chi Omega, won the intramural tennis tournaments.

Future Expansion Planned

Due to the interest that the girls are taking in intramural sports, the women's athletic department is looking ahead to a larger intramural program. Bowling may be added to the list of sports in the near future.

All of the sororities and dormitories have intramural teams. Some of the larger groups field two squads. Each organization is in charge of managing its own group.

Not Enough Independents

The chief problem encountered by the intramural director, Miss Katheryn McKinney, is that not enough girls from unorganized houses participate.

The only team this year which was composed of girls from unorganized houses was the Blitz Babes. In past years church groups and independent students organizations have entered teams in the intramurals.

Intramurals Open To All Coeds

Only One Team Champion

The program is run in a different way from the manner in which men's intramurals are conducted. Instead of having two divisions, fraternity and independent, the girls play in only one bracket. The winner of each sport may be either a sorority or an independent team.

Intramurals are open to all of the coeds, and not just those in physical education classes. Participation is not compulsory.

Intramurals Played in 1930's

Women's intramurals are not a new thing at the College. They first started in the early 1930's. The program grew steadily until World War II, when it was seriously disrupted. Since that time however, interest has been gradually increasing.

Table tennis champs—Lavina McCormick, Southeast, and Gwen Emel, Alpha Xi Delta, were the table tennis winners.

Northwest Is Volleyball Champ

Northwest hall defeated the Blitz Babes, 21-12, to win the volleyball championship. Kathleen Brubaker of Waltheim, and Sue Burke of Chi Omega won the tennis tournament.

Delta Delta Delta won the tenniquoits title by besting Alpha Delta Pi. The posture championship was won by Alpha Chi Omega.

Lavina McCormick of Southeast was the winner of the intramural table tennis championship by beating Gwen Emel of Alpha Xi Delta.

Waltheim and Delta Delta Delta tied for the top honors in basketball. Their score was 16-16. Pi Beta Phi was the winner of the intramural swimming crown.

A full house almost every night was the record set in the Field House this year. 115,000 fans came to watch the Kansas State cagers play in ten home games. The huge Field House can easily accommodate about 12,500 persons at one time, but several times the crowd reached an estimated 13,000. Lines at the student entrances began forming early before every home cage contest.

Chapter Fourteen

HIGHLIGHTS OF THE YEAR

Almost every week of college life is highlighted by some colorful event or memorable experience. There are about 36 weeks of school in the combined fall and spring semesters, and the Royal Purple has neither the space nor the money to print a complete pictorial record of everything that happened during the 1952-1953 school year. However, the photographer did focus his camera on many such events such as big name band dances, queens, enrollment, assembly speakers, and commencement. They are not events limited to personnel in one particular school or interest group, but are all-school events, ones in which every student enrolled at K-State may or must participate. It is hoped that these pictures of a few outstanding occurrences will help jog your memory into remembering the other experiences that made up this school year at Kansas State for a long time.

Fall enrollment saw more than 5,000 students go through the necessary registration process.

The long wait is in front of Anderson (upper left); IBM cards are picked up near the entrance (upper right); Identification pictures are taken (above); Fees are paid at the cashier's office (upper center); Confusion reigns in Nichols (right); There's a frantic search for class cards (below and lower left); the final check (lower center); and it's all over (lower right).

Orientation week packed many activities into a few days for the freshmen.

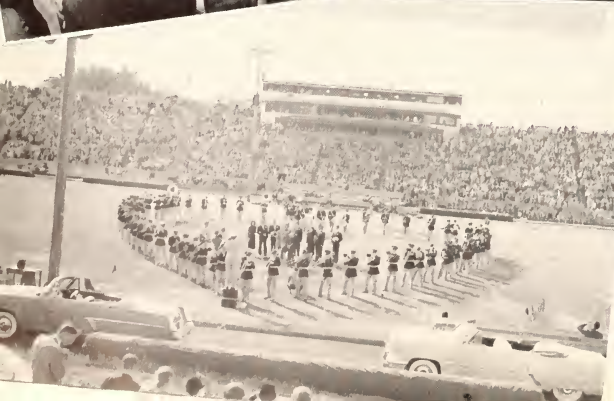

New students enjoyed their first varsity with the music of Matt Betton (*upper left*); Betton enjoyed the fun, too (*above*); The freshman talent show displayed the versatility of the new class (*upper center*); Entrance tests were an important part of the orientation process (*left*); Watermelon hit the spot with the boys at the watermelon feed (*below*); President McCain started the week by addressing new students and their parents in the auditorium (*lower left*); Students waited under the trees to take their next test in the over-crowded auditorium (*lower right*).

Homecoming festivities were as colorful in 1952 as ever before.

Aggieville stops business to watch the Homecoming parade (upper left); Delta Sigma Phi shows how to "de-feet" MU's tiger (upper right); Queen Charleen Dunn is presented by President McCain (above left); Lambda Chi Alpha had the winning float (above); The Homecoming ball drew a big crowd (left); K-State's Band forms a heart around the Queen and her attendants (lower left); Blue Key members escort Queen Dunn, and attendants Pat Laney, and Betty Taylor, during half-time ceremonies (lower right).

Visitors are welcomed at K-State. Students were entertained and educated by experts from various fields.

President McCain presides at assembly (*above*); Correspondent Frank McNaughton tells of news writing in Washington (*upper right*); Dorothy Thompson, journalist, chats with students (*right*); Judge Camille Kelley keeps her audience "rolling in the aisles" with her Southern quips (*below*); "You ain't seen nothin' yet" says Irvin Mattick in his physics demonstration (*lower right*); Patty Berg shows golfing from the professional angle (*lower left*).

Fiendish ideas are at a premium when the actives belonging to the campus honoraries and all-school organizations start seeking new methods of initiating their pledges.

A Steel Ring pledge is measured for the paddle treatment (upper left); Scabbard and Blade initiates engage in a wooden sword fight (upper right); Three Pershing Rifles' pledges stand guard at the Military Science building (left); Purple Pepsters parade their pledges to Aggieville (above), and have them perform on a campus wall (lower left); Bearded Sigma Gamma Epsilon initiates pitch tent on the campus to examine rock specimens (lower right).

It's a parade—and the Army R.O.T.C. regiment, more than 800 cadets strong, are reviewed on the drill field. These cadets held three parades during the fall. At the final review six Scabbard and Blade candidates for Military Ball queen were presented to the regiment. These coeds competed against six girls chosen by the Arnold Air society for the honor of reigning over Kansas State's only annual formal dance. Each of the candidates was given the honorary rank of lieutenant colonel.

One of the battalion commanders pins a medal on a queen candidate (*upper left*); A queen hopeful and cadet officers focus their attention on the reviewing stand (*upper right*); Queen candidates were Susan Sears, Marlene Frohn, Betty Wharton, Pat Bullock, Yvonne Higgenbotham, and Barbara Hart (*center*); Army cadet corps stands at attention (*right*); Regiment is inspected by their sponsor and College officials (*lower left*); Cadets pass in review (*lower right*).

Celebrities come to State and the auditorium is filled for their appearances. K-State Players and the Artist Series committee are responsible for the fine entertainment offered the students.

Hollywood stars Raymond Massey, Judith Anderson, and Tyrone Power pose after their presentation of "John Brown's Body" (*upper left*); Members of the Ballet Russe de Monte Carlo thrilled the audience with interpretations of well-known ballets (*above*); Elsa Lancaster and her Mad Hatters furnished an evening of spirited verse and song (*second row left*); Robert Merrill obliges autograph seekers (*third row left*) and talks with Prof. Earl Hoover of the speech department (*lower left*); Elsa Lancaster demonstrates the use of few props (*lower center*); Ballet artists limber up for the performance (*lower right*).

Capacity crowds again filled the Field House this year to watch the Wildcats play such cage greats as NCAA champion Indiana and NCAA runnerup KU.

13,500 basketball addicts gathered for the KU game (*above*); The Wildcats proudly show the trophy they received for winning the Big Seven tournament (*upper right*); A pair of K-Staters hit the deck with two San Francisco Dons (*upper left*); The Band is all eyes (*left center*); A Hoosier is almost bottled up by Knostman and Smith (*left*); Cat rooters do the bunnyhop (*lower left*); Knostman broke Lovellette's record by hitting 42 (*lower right*).

Faculty members work and play in much the same way as students, and their associations with each other do not end inside the classroom.

A general faculty meeting is conducted by President McCain in Rec Center (*above*); Members of the mathematics department and their wives celebrate St. Patrick's Day with a dessert and card party (*upper left*); The Faculty Senate meets in the new classroom building (*second row left*); Dorothy Thompson visits with Dean and Mrs. A. L. Pugsley and President and Mrs. McCain (*left*); Journalism faculty meet to listen to the election returns (*lower left*); Faculty trip the light fantastic at a square dance in Rec Center (*below*).

Beauty queens and modern music reigned at the combined name band dance and Royal Purple ball in Nichols gym last December.

The job of choosing the queen belonged to Frederick A. Birmingham, editor of Esquire magazine (*above*); Queen Phyllis Conner and attendants Shirley Swartz and Eleanor Hedges receive their bouquets from Prof. H. W. Davis (*upper right*); The band and vocal groups of Billy May attracted the admiration and interest of the capacity crowd (*above right and right*); Candidates and crowd await the important announcement by Prof. H. W. Davis (*below*).

Connor Reigns As RP Beauty Queen

Phyllis Conner, Royal Purple Beauty Queen, was selected from 19 K-State co-eds by Frederic A. Birmingham, editor of Esquire magazine. She represents Chi Omega sorority and is from Wichita.

Eleanor Hedges, first attendant to the queen, was the candidate from Northwest hall. Her home is in Eureka.

Shirley Swartz, second attendant, is from St. John. She represented the Independent Students' Association.

Graduation provides a suitable climax to years of college life, and opens the door to a new life.

Graduating seniors gather on the quadrangle east of Anderson during spring graduation (*upper left*); Standing on the palm-decorated speaker's platform, President McCain hands the graduates their diplomas (*upper right*); Guests and graduates can be seen in the interior views of the Field House as eight hundred degrees were being conferred (*left and lower left*); Faculty precedes students in the colorful academic procession to the Field House (*lower right*).

Chapter Fifteen

UNDERCLASSMEN

Three out of four students enrolled at Kansas State are either freshmen, sophomores, or juniors. Collectively these students are called the underclassmen. Broken down into groups the underclassmen are hazed when they are freshmen, ignored as sophomores, and finally when they are juniors, are more or less accepted as people who might someday graduate. While seniors hold the top administrative and authoritative positions on the "hill", underclassmen are always present, learning how to do the big jobs, ready to follow in the seniors' footsteps. In this section, entitled Underclassmen, are the pictures of the students who will in the next three years fill the places left by the graduating class of 1953.

Hero worshipers surround Dick Knostman in the Field House after the Cats' final game. Win or lose, the two time all-American was always mobbed by autograph-seeking admirers.

Chapter Sixteen

INDEX AND ADVERTISEMENTS

The merchants of Manhattan are indebted to Kansas State college students for a large share of their business, and Kansas State students owe thanks to these same merchants who provide services that are needed in a college community. In the following section, advertising, the Manhattan merchants, plus Kansas businessmen from other cities, have once again shown their good will toward the College by purchasing advertising space. The purchase of advertising space materially helps the Royal Purple meet its budget. In consideration of the help given by these businessmen, the staff of the Royal Purple urges students to remember these advertisers when buying in Aggieville, Manhattan, or any other Kansas town where an advertiser may have his business.
