The Campus of Tomorrow

Becomes THE CAMPUS OF TODAY

No longer just a dream is the "Campus of Tomorrow". Under a dynamic post-war building program, eleven buildings (shown above in red) have either been completed, are now under construction, or have been authorized by the state legislature. Buildings are (1) Military Science, (2) Small Animal Research Laboratory, (3) connecting wing for Waters Hall, (4) Student Health Center, (5) Girls' Dormitory, (6) Home Economics Classrooms, (7) Home Economics Practice Houses, (8) Arts and Sciences Classrooms, (9) additions to Engineering Hall, (10) Fieldhouse, (11) Student Union, (13) Auditorium, and (14) All-Faith Chapel.

SIX YEARS AGO Kansas State College entered the greatest period of expansion in her history. Today the college stands as a tribute to the people of the State of Kansas.

On the campus, at the dozens of experimental plots, at the experiment stations, and on the radio Kansas State College means "Education for Living." The college answers the needs of the people of Kansas in a way not met by any other institution.

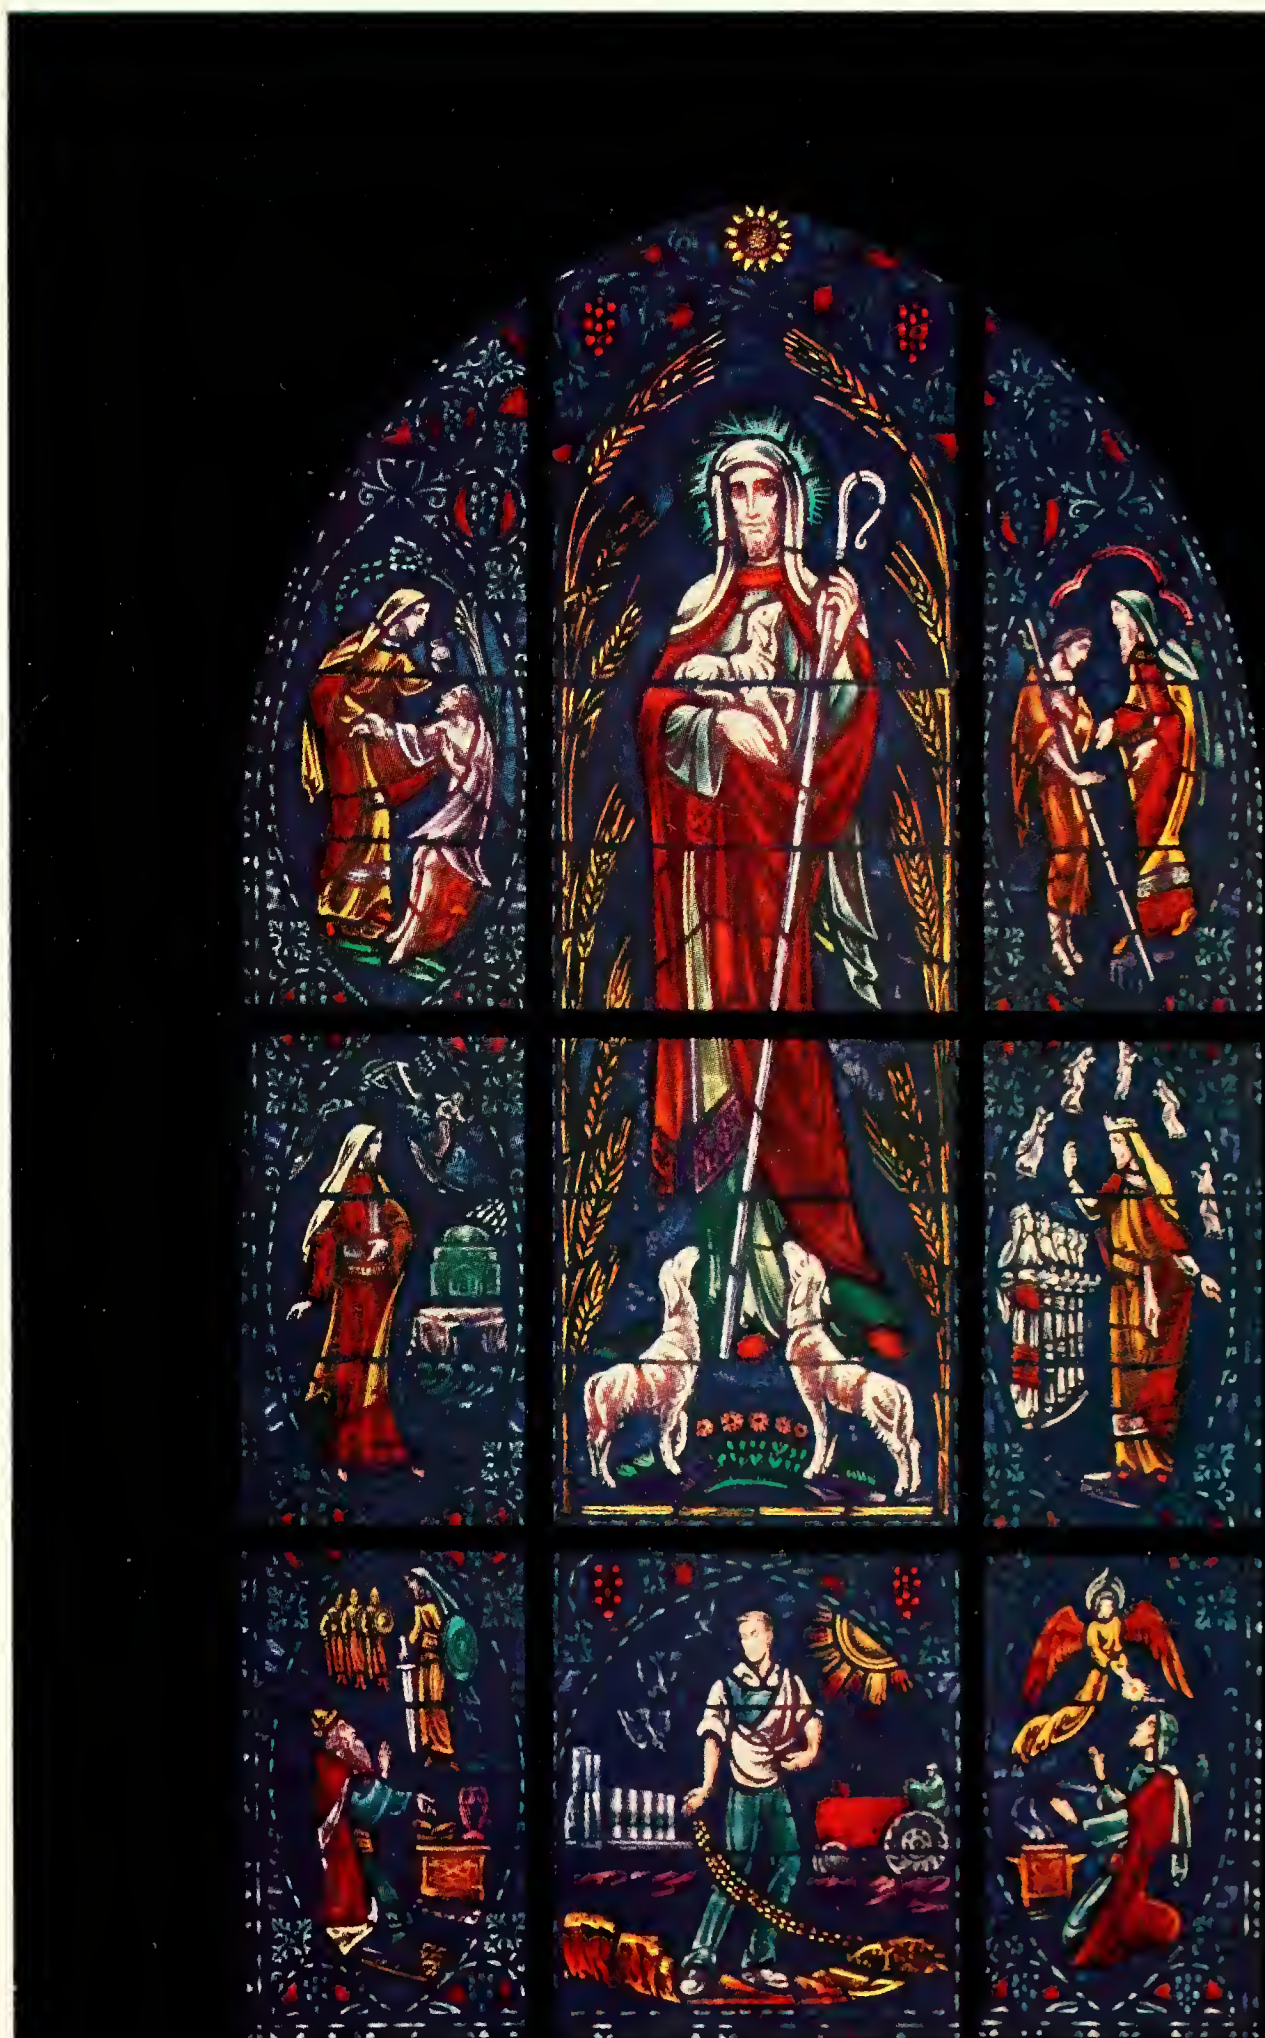

It is with vigor and humility that the faculty and staff of the college endeavor to instill in the youth of Kansas those ideals and moral judgements which characterize Kansans.

With the realization that the recent growth of Kansas State College, in physical equipment and educational standards, and in the proposed further expansion of the college is due in large measure to the efforts of President Milton S. Eisenhower, the students of the college enthusiastically dedicate this 1950 Royal Purple to him.

As a tribute to President Eisenhower's work in behalf of the college and his interest in our future, we shall proudly carry forward the progressive tradition of Kansas State College.

IN A NEW ROLE

WHEN the last war came, Kansas State College was an average-or-better state agricultural school, enrolling about 4000 every year and feeling no need for new building or expansion programs. Faculty and students thought it was fine the way it was—and they were probably right.

But when the draft hit, depopulating the ag and engineering schools, leaving fraternity houses in a vacuum shortly to be filled by faculty couples and coeds, striking repeatedly at the ranks of the faculty—then the pleasant, rather drowsy College routine was picked up, shaken thoroughly, and discarded forever.

A new President, in midwar 1943, looked ahead to the war's end and decided that K.S.C. would be feeling severe growing-pains before long, unless some advance planning was done. So he got a program going. Curriculums were revised . . . negotiations for veterans' housing began . . . a long-range building program was drafted to take care of skyrocketing enrollments. . . hundreds of new faculty and administrative positions were created—a totally new "Campus of Tomorrow" was drafted, in ideas as well as in cubic footage of classroom space.

Though realization of the plan looked a long way off when the first G.I. wave hit the enrollment lines in '45, it progressed. Splinterville and the Comprehensives appeared in the same year—both signs of growth. Room was somehow found for 7400 students. And today, at the end of K-State's "adolescent period," life is becoming normal again. Everyone connected or affected by that program, conceived back in 1943, can point with pride to the evidences of its success—the steel-and-stone bulk of the fieldhouse, the growing part played by SPC, the intangible but invaluable national reputation Kansas State College now possesses.

Our thanks to the administration — for a vitally important job well done . . .

College Expansion Program Causes Rapid Growth And Brings Record-Breaking Budget of \$9,100,000

Running a college isn't a one man job, as President Milton S. Eisenhower can well testify. During the current year a budget of \$9,100,000 has been established.

C. O. Price, assistant to President Eisenhower, aids the President with administrative, personnel, policy and related problems. Price helped three State presidents in this position. He is secretary of Council of Deans and a member of several all-College committees.

and a considerate legislature as well as a skilled president are needed.

Before the last war started, Kansas State's physical facilities were rapidly proving inadequate for the numbers of students enrolling. During the war it became evident that post-war enrollments would be tremendous. All indications showed that enrollments in the period after the war would stabilize at about 50 per cent above prewar levels.

Need for Growth Foreseen

President Eisenhower and his administrative staff realized Kansas State must grow physically at a rapid rate if the college was to continue to be one of the outstanding educational institutions in the Middle West. A list of the minimum necessary construction projects

In the last five years the college has expended more than \$32,800,000.

The management of a program involving such large sums of money demands top level administrators. When an educational institution expends such amounts, an interested Board of Regents, a sympathetic governor,

was drawn up; plans were made; and from the plans the Campus of Tomorrow developed.

Accompanying the physical growth of the college was an even larger growth in the number of problems to be solved. New courses were added, new faculty members were called in, but the problems only mounted faster. War surplus buildings and equipment were received from all parts of the nation. To cope with the shortage in housing facilities for 468 families were established on college owned property; barracks for 384 men were erected; part of the stadium was converted to dormitories; and 1,000 beds were procured and loaned to householders to encourage them to take student roomers. An estimated 2,000 students used the housing office files each year to find a place which they could call home while at school.

Huge Vet Influx

More than 8,300 veterans came to Manhattan to attend K.S.C. Along with them came several thousand non-veterans who also realized the importance of a college education.

Every department from the Cafeteria to the President's Office met with difficulties and had to expand. A typical picture of the rapid development of facilities is seen in an examination of the Student Health

A. L. Pugsley, Dean of Administration and Director of Summer School, has myriad duties. He is in charge of faculty welfare, development of instructional program, accrediting educational standards, commencement, assemblies, Library, and many problems which come to the President's office.

Service records. Before the war a clinic was maintained in Anderson Hall and a small hospital, now the hospital annex, was available. Now a three-wing temporary hospital with five doctors, nineteen nurses, and three laboratory and X-ray technicians cares for more than 800 sick students annually. Last year 35,668 office calls were made by students at the Student Health Clinic. In 1945 the inventory of supplies and equipment for Student Health Service was \$18,444. At the close of the last fiscal year the inventory had grown to \$30,660. This figure did not include the new X-ray unit for tuberculosis diagnosis which will add an additional \$9,000 to the inventory.

Problems Aren't All Big

All of the expansion problems, however, aren't concerned with the big things on the campus. As the construction program advances, hundreds of small trouble spots also arise. As an example of the expense of "little" things involved in making the Campus of Tomorrow become a reality today it is noted that light bulbs for the new field house will cost the college \$570.

Plans for the future of the college had been drawn up before President Eisenhower announced his resignation. These plans, which might be called the six year plan, specify the order in which the legislature would be asked to approve construction at Kansas State.

Next biennium it is planned to build the Student

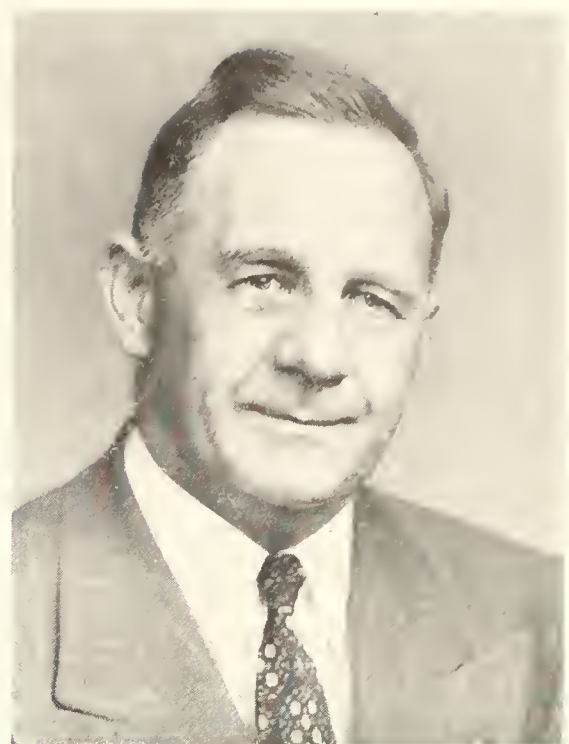

Union if the legislature will supply one fourth of the two million dollars needed. An addition to the Library and a building for the Extension Service are also planned.

For the next legislative session after this, plans call for requesting

funds to build either the Student Hospital or put an extension wing on the Veterinary Hospital. \$100,000 for the Student Hospital is already available. An animals Industries Building is also planned for that period.

Two years later it is hoped that the new Auditorium can be built. The present Auditorium will be converted into a music department building. Both mens and women's housing will be advanced during the six year period as funds become available.

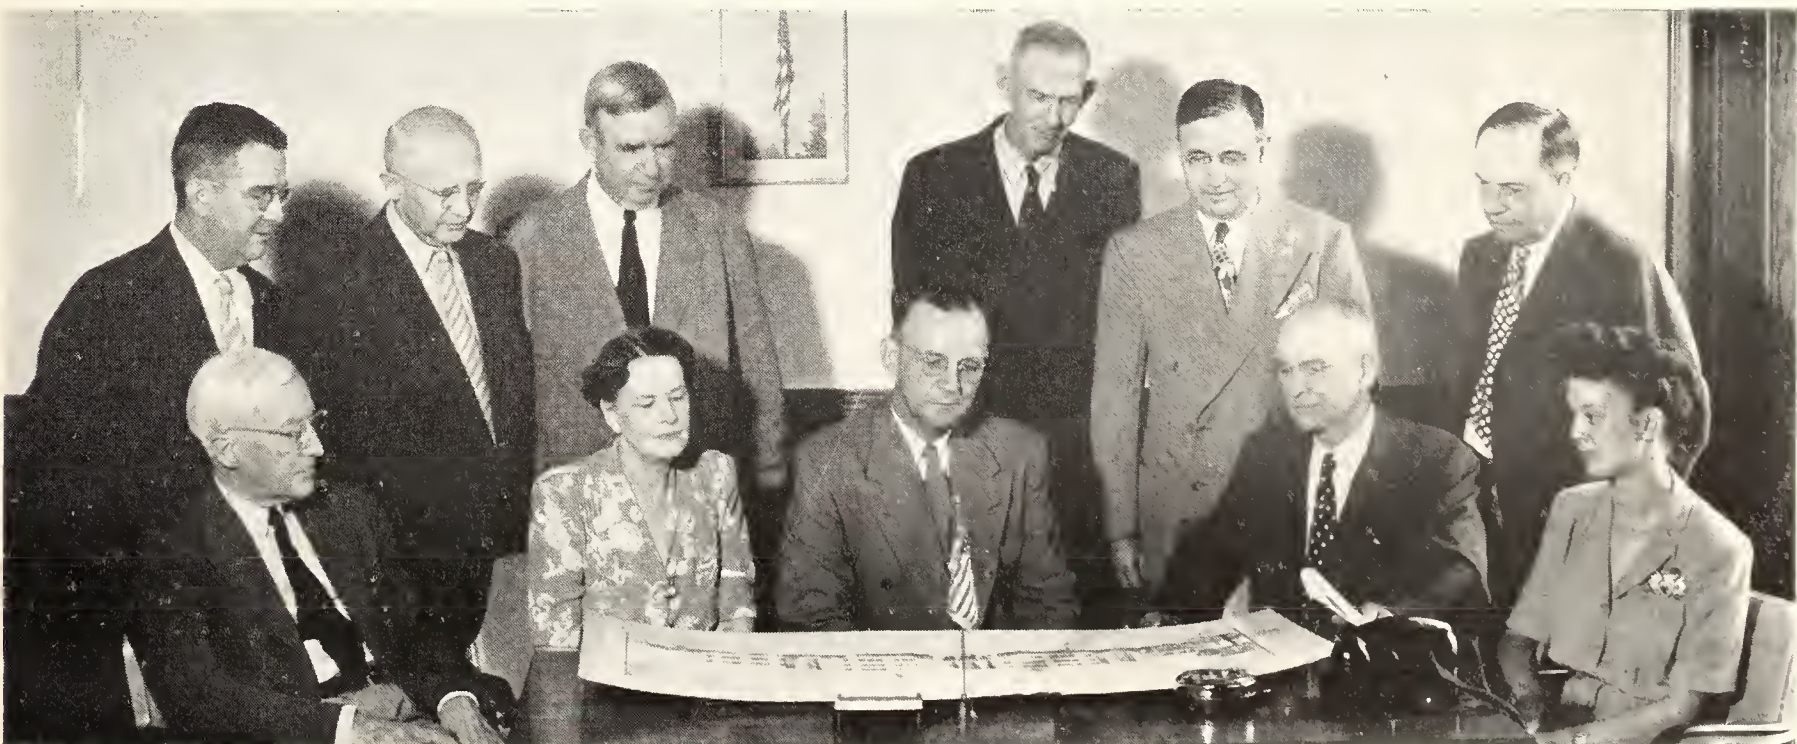

Permanent men's residence halls will be built on the present site of veterans housing units.

Governor Frank Carlson has been one of the College's staunch boosters during the period of expansion. The Governor has been a frequent Campus visitor during this year.

Student and Faculty Councils Make Changes

The two most important councils on the campus during the year were the only groups which deviated from the college's policy of including both faculty and students on all committees. The Student Council had no faculty members and the Faculty Council on

when President Eisenhower took over the reins of college administration. He has often expressed the opinion

Student Affairs had no student members. Student membership on all important committees was proudly pointed out as "just another example of democracy at work" by several of the leading administrators in the college.

The policy of joint faculty-student committees at Kansas State was originated

that education for living includes all phases of citizenship education as well as learning how to be the family bread winner. Since his inauguration much of the responsibility of administration of problems involving students has been placed in student hands. Top administration officials are frank in their admission that they had doubts about the "experiment" when it started, but now conclude that the procedure has been a complete success.

Aid Town-Gown Relations

Key group in carrying out student requests and in governing the student body, the Student Council took the initiative during the year to foster better relations between the city and the college. The Council holds membership in the Manhattan Chamber of Commerce. They have taken several steps in bringing the merchants and the college community into closer harmony.

Declare Two Holidays

Among the more dramatic actions taken by the Council during the year were the declaration of a holiday after the Colorado football team was tromped by the Wildcats. The Student Council also declared a student holiday during the second semester. The second semester holiday followed the winning of the Big Seven Championship by the Wildcat basketball team.

Among the duties of the Student Council is the

Raffington. Not present in picture: S. E. Whitcomb, A. Thornton Edwards. The Council represents the college in its relations with the Student Governing Association.

selection of student members for all-college committees. The council submits their nominees' names to the President's office for official appointment.

Modernization of the college election system was another of the group's moves. The council also spearheaded the drive to bring the Constitution up to date. Members also studied the allocation of student funds and called in many college officials for consultation before making any suggestions.

Back Chapel Chime Drive

The Student Council demonstrated its interest in the future of the college at Christmas by sponsoring the Campus Chapel Chime Drive. It also sponsored the development of Marlatt Park as an official college recreation area.

Handles Student-Faculty Relations

The other "big" council on the campus, the Faculty Council on Student Affairs, holds joint meetings with the Student Council whenever any problems arise which affect both groups. The Faculty Council represents the college in its relations with the Student Governing Association. It also recommends rules on student activities to the President. The Dean of Students is chairman of the council.

Seven active subcommittees of the Faculty Council have both faculty and student members. These committees deal with academic honesty, organization con-

trol, scholastic eligibility, social and recreational, sororities and fraternities, independent students, and Who's Who among College Students.

Safety Measures Studied

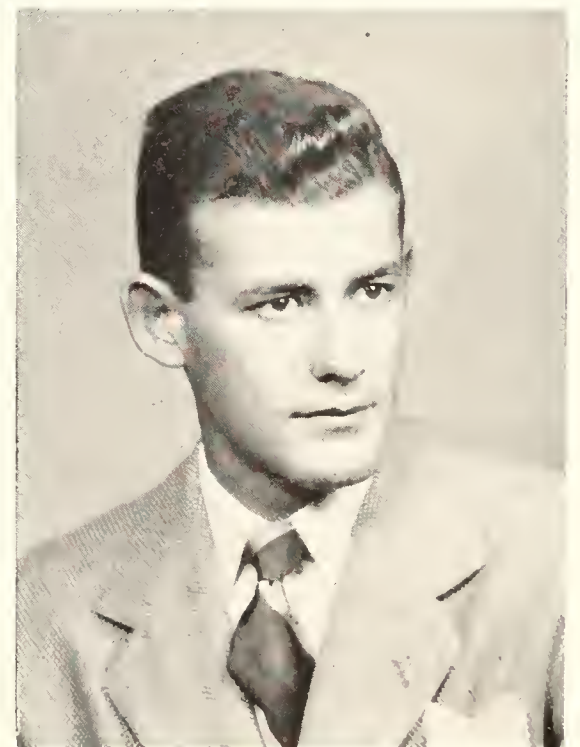

The Faculty Council approves constitutions for new campus organizations and passes on disciplinary action against any organization if necessary.

Two major issues have received much attention from the Council this year. Fire precautions and

safety measures on the campus were considered.

The Council also studied general safety regulations in all housing facilities and brought about changes in several buildings occupied by students. Some of the buildings

were college-owned. Fire precautions, especially the construction of fire escapes, was stressed.

Rick Harman, President of the Student Council, directed representatives in one of the most constructive years ever noted. Student-faculty relations improved and college-town associations brought to a better understanding.

Top Flight Administrators

In addition to building graceful new limestone buildings and employing more professors, making the Campus of Tomorrow a reality has required expansion of almost every department, both academic and administrative. Some new departments have been established.

Modernization and expansion completely changed the routine of the Registrar's office when IBM equipment was installed to hasten and simplify record keeping. The office of Director of Public Service was established. Problems connected with locating homes for faculty and students swamped the housing office daily.

Forgetful Profs Gone Forever

The old stereotype of college personnel sisting only of absent-minded professors and prankster students is shattered by the top flight administrators who handle the myriad problems connected with making Kansas State College one of the nation's leaders in education. Pictured here are eleven of those administrators.

Dr. F. D. Farrell, President Emeritus, gave the Prexy's reins to President Eisenhower in 1943 when he reached retirement age. Dr. Farrell did not leave the college when he retired, but remained as a professor of Rural Institutions. Dr. Farrell became President in 1921. During his administration Willard Hall, Van Zile Hall, the Library, Power

Plant, and the new Dairy Production Plant were built.

Richard C. Maloney, College Registrar, assumed his duties in 1948. During his term as chief record keeper Mr. Maloney has brought about modernization of the Registrar's Office. Installation of International Business Machines in his office this year gave promise of faster registrations each semester.

Hospital Has Peak Crowds

Administration of the Student Health Clinic and the Student Hospital kept Dr. B. W. Lafene on duty almost constantly during the year. Peak enrollments coupled with Kansas weather gave the Doctor and his four staff physicians many sleepless nights as minor epidemics of flu filled the hospital. Everything from splinters in fingers to major bone fractures were treated at the clinic and hospital.

Milbourn Fills New Post

A new personality of the campus this year, Max W. Milbourn became Director of Public Service. He is a member of the staff of the Office of the President. His responsibilities in addition to those personally connected with the President, are to coordinate the many phases of the college program and to increase the impact and effectiveness of that program with the people of the state.

the happiest people in the world when he notifies them they have been accepted for admission by the college. Mr. Tebow, who is a Kansas State graduate, assumed his duties in the admissions office in 1948. He is a noted leader in the field of visual education.

Ten years as Dean of Women is the record of Miss Helen Moore. From her office in the Recreation Center Dean Moore directs the social life of the campus. She is responsible for the welfare of all women enrolled in the college both on and off the campus. She is also in charge of administration of women's residence halls.

Torrance Heads Counsellors

Another new leader on the campus this year, Paul E. Torrance became Director of the Counseling Bureau. Mr. Torrance was assistant to Dean Woolf in the Counseling Bureau until 1948 when he went to the University of Michigan to work on his doctorate.

The machine age also hit the Counseling Bureau. A Hollerith Test Scoring machine scores tests almost instantly. One of the Bureau's main projects is Freshman Orientation Week.

Assurance that completion of the Campus of Tomorrow will find Kansas State College with one of the finest campuses in the nation was guaranteed this year when Dr. R. A. Seaton, Dean Emeritus, was appointed Building Expediter. Dean Seaton was honored by

some of the country's outstanding engineers when he retired this year. A bronze relief portrait of the Dean has been hung in Engineering Hall.

Housing Office Busy

Finding places in Manhattan for more than seven thousand students to live is quite a problem for anyone. Add to that problem the question of where some two thousand of those students can find places for their wives and children and you have a slight idea of the task of Housing Director A. Thornton Edwards. Mr. Edwards has been Director of Housing at the college since 1946.

Jones Accounts for 9 Million

Arnold R. Jones, a certified public accountant, must account to the state for an estimated \$9,100,000 college budget this year. In his position as College Comptroller Mr. Jones is responsible for the receipts and expenditures of all funds used by the college. He came to K-State in 1929 as a professor of accounting and became Comptroller in 1945.

The man that too few undergraduates know, but who is known by all alumni, Secretary Kenny L. Ford of the Alumni Association, is responsible for the procurement of endowment funds. Mr. Ford, who has been in his present position since 1928, travels more than fifty thousand miles a year meeting alumni and telling the nation of the progress of Kansas State College.

Faculty-Student Committees Handle Problems

Five of the all-college committees which are sub-committees of the Faculty Council on Student Affairs held many important meetings during the academic year. One of the committees, the All-College Social and Recreational Committee, operated a full schedule of events and activities for the first time. The committee, which resulted from an SPC recommendation, was not completely organized nor did it have sufficient funds in the past.

Name Switch Brings Gags

Another of the sub-committees was reorganized and renamed during the academic year also. The Committee on Academic Honesty was formerly the Committee on Academic Dishonesty. Many puns and jokes resulted from the announcement that the name had been changed.

From the student point of view the All-College Social and Recreational Committee probably rates as

the most important of the student-faculty committees. During the school year the committee sponsored 35 weekend movie programs in the Auditorium and arrange 31 hour dances at the Student Union. Music for the hour dances was supplied by Matt Betton's and Bob Smith's orchestras.

In addition to the hour dances, three all-college dances were sponsored on the tennis courts, three parties were staged in Nichols Gymnasium and nine weekend dances at the Community House were presented.

Farewell Is Highlight

Biggest event of the year for the college community was the All-College Farewell Party and Dance in honor of President Eisenhower. Gene Krupa's band presented a concert in the afternoon and a dance the evening of April 26.

One action of the committee which met with great

approval on the campus this year was the presentation of invitations to faculty members to participate in extra-curricular activities.

Committee Guides Union

Another all-college committee which worked for the advancement of recreational facilities was the Student Union Committee. The committee is the governing, policy-making and finance-managing body of the Temporary Student Union.

The committee's reports show K-Staters are avid coffee drinkers. 700 to 1,000 cups of coffee are sold every morning in the Union.

Will Redecorate TSU

Plans to redecorate the Temporary Union during the summer have been announced by the committee.

A committee closely watched by the entire college student body and faculty handles the Student Activity Fee allocation. The Apportionment Board this year allocated more than \$129,000 to various groups. Athletics came in for the largest amount, \$48,800, with the Royal Purple second with \$29,250. The athletics sum represented an increase of \$800 more than last year, while the Royal Purple had a decrease of \$1,750. Another large amount went to the daily Collegian. \$9,800 was granted to the Social and Recreational Committee. Money was also appropriated for judging teams, music and drama, and other all-college events.

Board O.K.'s New Clubs

The Organization Control Board recognized several new campus organizations during the year. All student groups, except social fraternities and sororities, must be approved by the board before they may meet on the campus or use any of the college facilities. The board may suspend any organization for failure to comply with college regulations.

Honesty among students has kept the Committee on Academic Honesty almost unemployed. Despite the fact that students take an estimated 42,000 examinations each year, only 30 cases of cheating in tests have been brought before the committee in three years.

Academic Honesty Committee for the year were (left to right) J. R. Watkins, Betty Williams, Prof. Wilson Tripp, Miss Katherine Geyer, and Glenn Munger.

Members and organization representatives present at a fall meeting of the Apportionment Board were (starting at lower left) C. J. Medlin, H. H. Haymaker, Harold Peffly, Rick Harman, Pres. Milton S. Eisenhower, Mike Myers, W. W. Cook, Don Robinson and A. R. Jones.

The members of the Organization Control Board are Dexter P. Sharp, Jo Eloise Williams, Jim Fassett, A. Thornton Edwards, and Barbara Cotton.

Board of Student Publications—Joe Henderson, Prof. H. W. Davis, Dorothy Stover, Prof. R. R. Lashbrook, Mary Lou Edwards, Asst. Prof. Lowell Brandner. Applications for top staff positions on publica-

tions are submitted to this group, which also approves publications K-key awards and projects and sponsors annual Publications Dinner.

Daily Collegian Brings New Problems to Board

Daily publication of the Collegian at K.S.C. this year added to the problems faced by the Board of Student Publications, Incorporated. This board, incorporated under state laws, handles the administration of the Royal Purple, Daily Collegian and the Student Directory.

No increase was made in the size of the board, but it

was made responsible for the smooth functioning of the enlarged paper.

As an aid to the editor of the Collegian an Editorial Policy Board was established in the fall following an SPC recommendation. The group meets regularly with the editor of the paper to discuss matters of policy brought before it by the editor.

Prof. Ralph R. Lashbrook (below left), is head of Department of Journalism and Chairman of the Board of Student Publications and Collegian Editorial Policy Board. Collegian Editorial Policy Board (below

SPC Makes Important Suggestions to College

An institution unique among colleges and universities, the Student Planning Conference of Kansas State College has done much to promote K.S.C. through practical experience in democratic methods.

Student Participation Is Basis

SPC originated when a group of campus leaders expressed the opinion that college students were aware of campus problems and that they possessed potential ability to suggest solutions. It was felt that the accomplishments of campus leaders and administrators would be greater if there was large scale cooperation between students and faculty.

Program Four Years Old

The first conference was held four years ago. Faculty and students have met annually since then at Camp Wood to discuss suggestions for changes or modifications in college policy. Out of the conferences have come some of the most important changes noted on the campus during the expansion period.

More than 70 per cent of the suggestions made at the annual meetings have been put into effect by the

college administration. Of those that have not been accepted, some are long range proposals which will be utilized when conditions permit the suggested changes.

Other proposals proved either impracticable or too expensive for utilization at present.

The last Student Planning Conference, which was just prior to the start of the current academic year, reported more than 40 recommendations at the SPC assembly during the first semester.

The suggestions covered five general fields: Curriculum, Orientation and Pre-enrollment, Student Government, Social and Recreational, Intramurals, and Public Relations. Many of the proposals have already been put into effect.

Joan Beggs Chapin, 1949 Student Planning Conference chairman, directed activities at Camp Wood. In cooperation with the Administration, she helped get many student recommendations accepted.

Ag School's Expansion Creates New Position

Some of the myriad problems faced by R. I. Throckmorton, Dean of the School of Agriculture and Director of the Agricultural Experiment Station were solved this year when Dr. A. D. "Dad" Weber was promoted from head of the Department of Animal Husbandry to the post of Associate Dean of the School and Associate Director of the Experiment Station. Dr. Weber became the college's first associate dean.

Wing To Go Up

Other problems which face the School of Agriculture will be almost eliminated next year by the construction

of a connecting wing between East and West Waters Halls. Even before postwar swollen enrollments overtaxed college facilities, the Ag school was almost bursting at the seams.

A general reshuffling of the Dean's offices and others

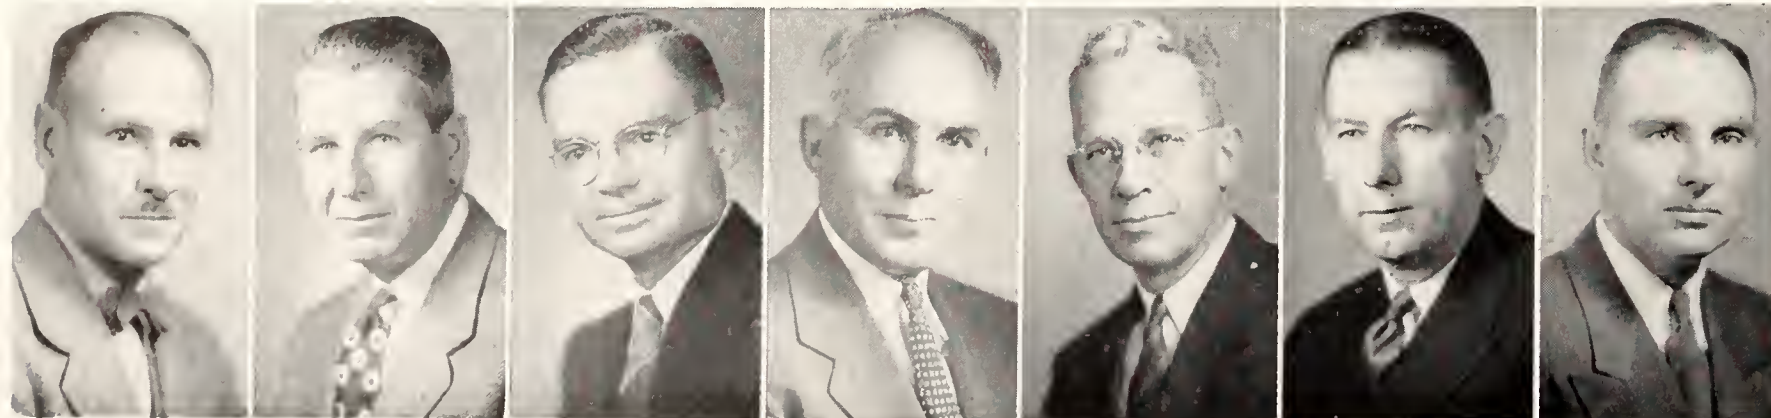

R. I. Throckmorton, Dean of the School of Agriculture and Director of the Agricultural Experiment Station, has a job which has become so complex in recent years that an Associate Dean and Director were appointed this year to aid in the administration of the School. of the Ag school departments is scheduled to take place as soon as the south wing to Waters hall is finished. The Department of Horticulture will be moved from Dickens hall to Waters hall. Offices of the Dean and Associate Dean of agriculture will be moved into the new wing, as will several other agriculture administrative offices and departmental offices. An agricultural laboratory will also be established in the new section.

Another phase in the expansion of the school's extensive program has been marked by an increase of 70 per cent in college-owned pasturelands in Riley County. 1,134 acres has been acquired during the college's ex-

Heads of departments in the School of Agriculture: F. W. Atkeson, Department of Dairy Husbandry; George Montgomery, Department of Economics and Sociology; Dr. H. E. Myers, Department of Ag-

ronomy; Loyal F. Payne, Department of Poultry Husbandry; William F. Pickett, Department of Horticulture; Dr. J. A. Shellenberger, Department of Milling; Dr. Rufus F. Cox, Department of Animal Husbandry.

pansion program for pasture utilization and management projects.

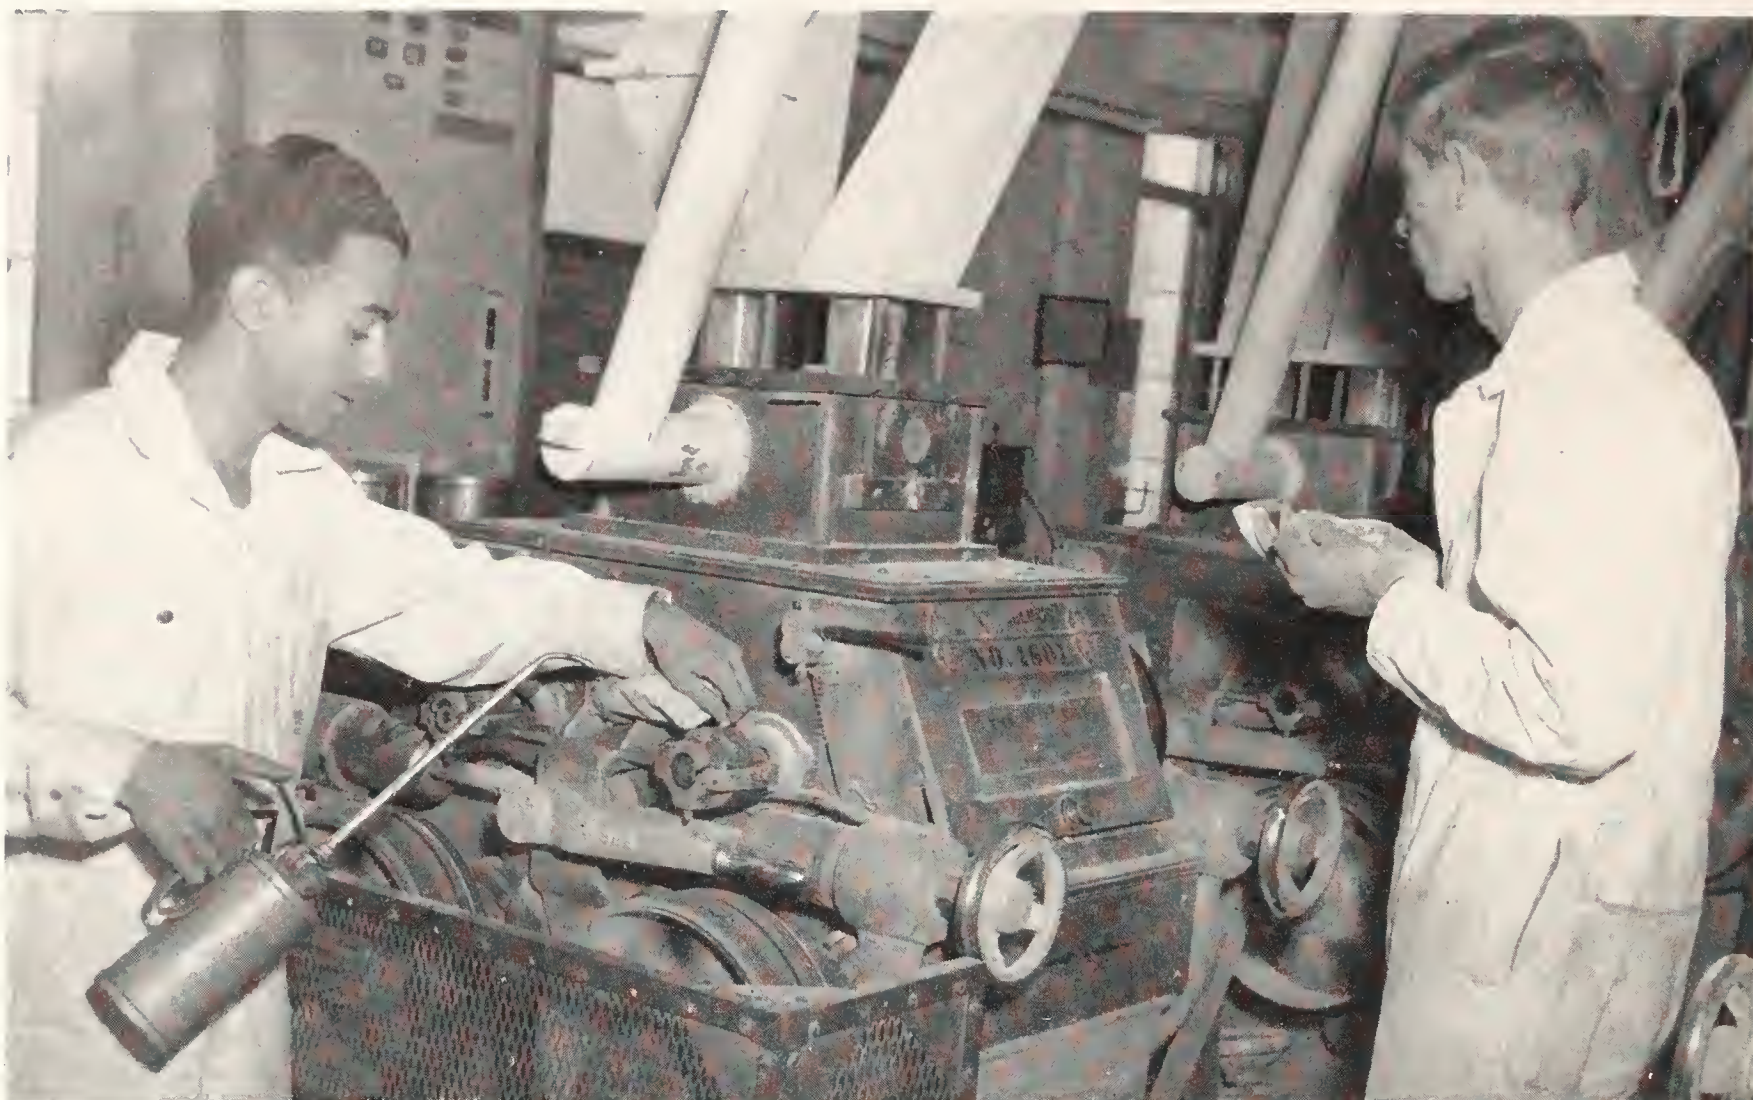

One of the first buildings completed toward the Campus of Tomorrow, the Small Animals Research Laboratory, has aided slightly in the space utilization problems faced by the school. While the new laboratory is under the administration of the Agriculture Experiment Station, space in it has been assigned to departments from other schools for research problems. Some of the departments utilizing the laboratory's facilities are the Department of Bacteriology, chemistry department, animal pathology department, Departments of Zoology and the animal husbandry department.

Offer 12 Courses

During the academic year the School of Agriculture offered 12 curriculums, 11 of them four year courses leading to a Bachelor of Science degree. Bachelor's degrees were granted in general agriculture, agricultural administration, agricultural education, agricultural journalism, dairy manufacturing, floriculture and ornamental horticulture, landscape design, milling administration, milling chemistry, milling technology and soil conservation. A two-year curriculum in agriculture was also offered. The two-year course did not lead to a degree, however.

Chief expediter of problems of students in the School

Ag Tasks Vary

of Agriculture is Assistant Dean C. W. Mullen. Because of the wide scope of the fields in the school, administrative problems are usually more complex than in some of the other schools of the college. Dean Mullen, handles, among other things, problems of class conflicts, students' desire to get a day off occasionally and the inevitable swapping of courses each semester. A quick inspection of the School of Agriculture's two buildings, East and West Waters Halls, leaves a visitor wondering for months how so many functions can be going on in one school at one time.

Arts and Sciences Gets New Building Approval

One of the schools in the college which shows the impact of the realization of the Campus of Tomorrow is the School of Arts and Sciences. Dean Rodney W. Babcock and his two assistant deans, Chester E. Peters and Orval E. Ebberts, had a total of 4,750 undergraduates under their direction in the School's 15 curriculums this year.

Many Research Projects

Seven departments within the School of Arts and Sciences were engaged in various research problems. These projects covered the fields of bacteriology, chemistry and physics, nuclear physics, and other phases of the natural sciences.

Greatest news in the School this year was the ap-

proval by the legislature of a half million dollar building to house some of the departments of the School. Completion of the new building, which is expected to be ready for occupancy sometime in 1951, will create better facilities for some departments of the School. The office of the dean will be located in the new structure. At present Dean Babcock's office, which consists of three tables piled shoulder high with administrative matters, is in the north end of Anderson Hall. Present facilities for the School's administrative offices have been outgrown for several years.

Offices to New Building

Other offices which will be located in the new Arts and Sciences building are the Department of History and Government, English department and the Department of Modern Languages.

Recent expansion noted in Arts and Sciences includes the additions to the College Press in Kedzie Hall. A new high speed press was added to facilitate publication of the Collegian on a daily basis. Other new equipment includes a linotype machine, a line casting machine for headlines and advertisements, and a machine for casting spacing material, column rules and other lead pieces

used in making up a newspaper. The addition of new machinery, which cost in excess of \$55,000, brought about several changes in the arrangement of the printing shop.

One of the major research projects started in the School this year was in the field of nuclear physics. The Department of Physics in conjunction with several other departments of the college established an atomic research laboratory in Willard Hall. Radioactive isotopes are used as tracers in experimental work.

As a result of a suggestion by the Student Planning Conference before school opened last fall, a committee was formed to study the comprehensive courses offered by the School of Arts and Sciences. An extensive study was underway when it was announced that Kansas State was to take part in a cooperative study and evaluation of general education with 17 other colleges and univer-

sities. The committee on comprehensives then recessed and the study was undertaken through the cooperative evaluation survey. Dr. Earl Edgar of the Institute of Citizenship was appointed local chairman for the cooperative study.

The School of Arts and Sciences had the largest enrollment in the college this year.

A&S Fields Vary

In the college's largest school, Arts and Sciences, activities vary so much from department to department that students in each curriculum feel as though they're in a separate school of their own.

There are 15 departments in the School. The departments cover a wide variety of fields from speech and English to zoology, chemistry and physics. Many graduate students conduct research in the School of Arts and Sciences.

Growth & Staff Changes Are Engineering News

Two events in the School of Engineering and Architecture made national news. Early in the year announcement was made that the legislature had appropriated \$500,000 for a wing to the Engineering Building. Later in the semester engineering circles all over the country paid tribute to Dr. R. A. Seaton when he retired as Dean of the School and Director of the Engineering Experiment Station.

Approval of the proposed expansion of the Engineering School's building was the first step in enlarging the facilities of the School as proposed in the Campus of Tomorrow blueprint.

Will Add Lab Space

Space in the new wing will be used for electrical engineering laboratories, facilities of the civil engineering department, and part of the equipment of the agricultural engineering and machine design departments. An increase of about 500,000 cubic feet of space will be made available to the School when the building is completed.

The legislature will be asked to appropriate funds for

Enrollment Doubles

The critical need for expansion of facilities in the School of Engineering and Architecture was dramatically demonstrated when it was announced that enrollment had increased from 1200 students before the war to more than 2600 during the peak enrollment period. Prewar graduating classes in the School usually contained only about 170 students. During the current year more than 600 engineers and architects will receive degrees.

Introduce TV for Games

One department of the School made an announcement early in the year which met with unanimous approval all over the campus. The electrical engineering department made both faculty and students happy with the news that all home basketball games would be televised over station KA2XBD.

In keeping with the college's policy of expansion, one major change was made in the organization of the School of Engineering and Architecture this year. Effective on January first the Building and Repair Department and the Heat and Power Department were consolidated into one department known as the Physical

Plant Department. The new department was established as a section of the general college administration. Previously it had made up three departments of the engineering school.

Other signs of the program of growth in the School were

noted when a limestone wing was added to the Chemical Engineering Building and an auditorium was built in back of Engineering Hall.

Richard C. Potter is Assistant Dean of Engineering and Architecture. Assistant Dean Potter handles student problems and assignments in the Engineering School.

Two Additions Completed

During the initial expansion of the School several temporary buildings were constructed for classes in drafting, engineering laboratories and general lectures. Three of the converted army barracks used by the School have served as an effective fence to keep spectators away from construction on the new fieldhouse.

"Engine House"

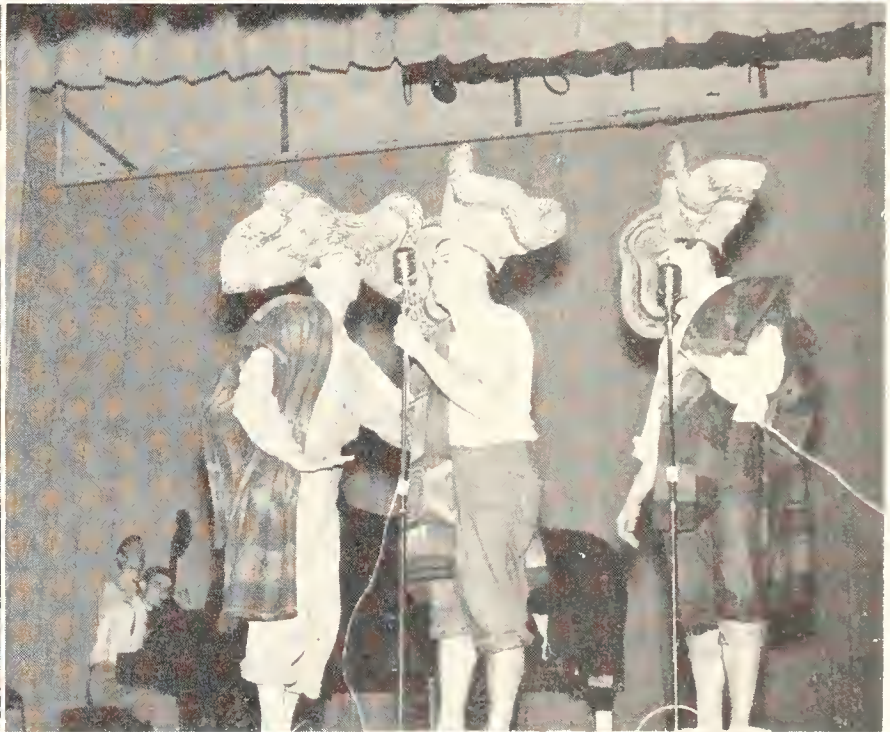

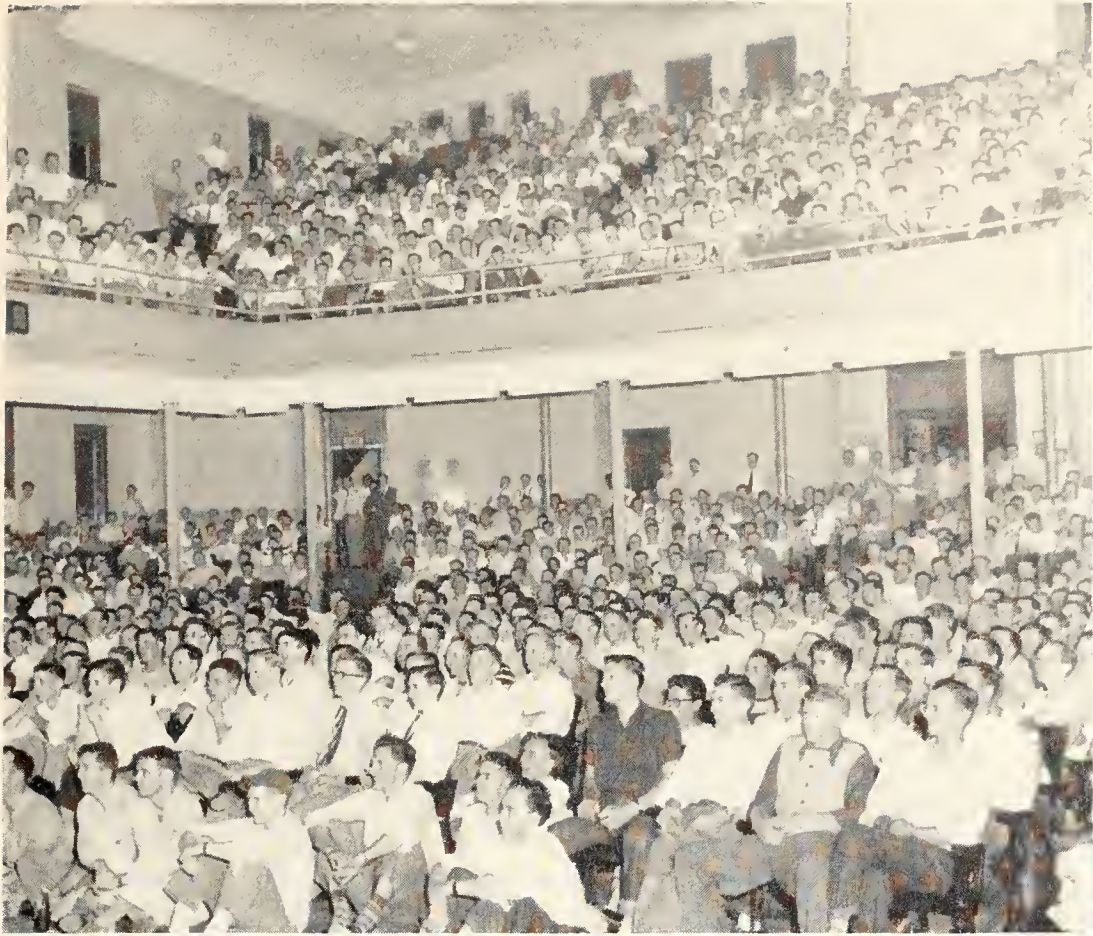

Engineering students do just about everything from dabbling in mud to playing with paint. Each of the seven curriculums in their school provides a chance to spend close to eight hours a day in the rambling "engine house," and any engineering student will tell you he and his fellows spend more time at the books than anyone.

Opportunities Unlimited In School of Home Ec.

"Opportunities unlimited for women" is the general theme of activity in the School of Home Economics. Although there are no plans in the Campus of Tomorrow for new classroom buildings for this School, three home management houses have been completed and considerable expansion of curriculum has taken place during the postwar period.

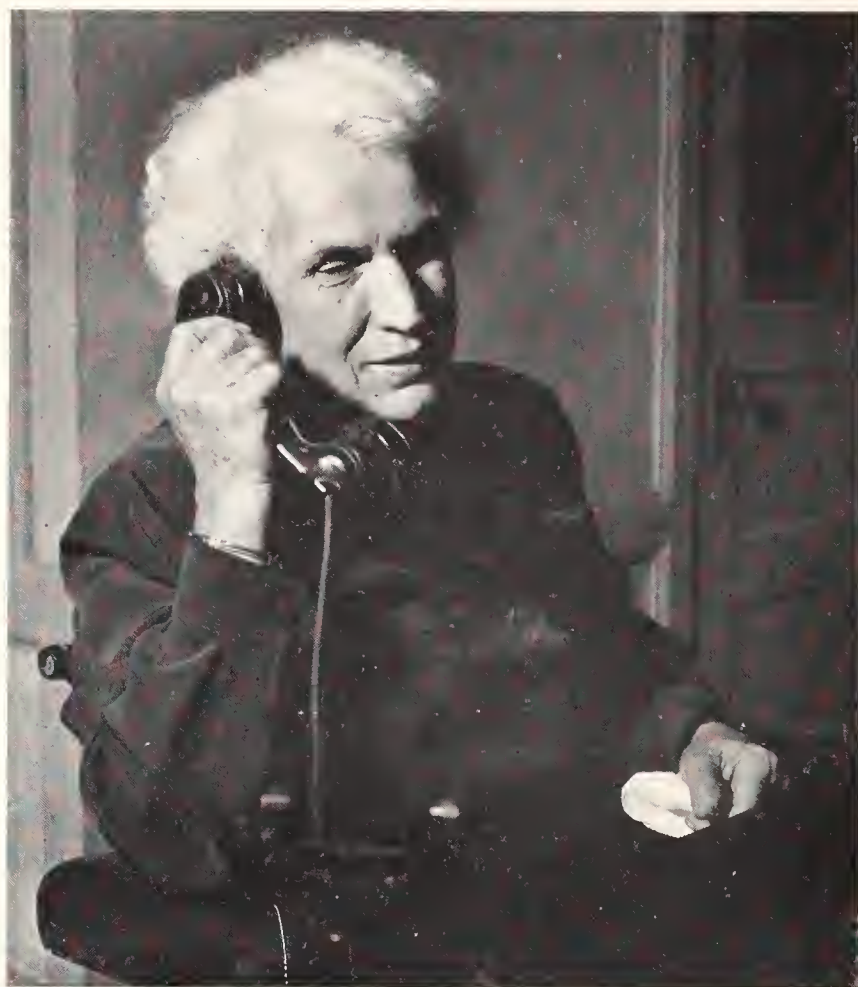

The new home management houses represent the three general income brackets most commonly found in America. Girls from the School live in each of the houses during their training. They must prepare a budget and maintain the house within the income allowed.

Two Curriculums Added

During the expansion program of the college the School of Home Economics has expanded its program by the addition of two new curriculums. Women may now take a course in "Home Economics and Journalism" and "Home Economics with Provision for Specialization."

The first graduates in the new journalism course received their degrees at spring graduation last year. Women taking the required subjects plus optional courses in a particular field are qualified for highly specialized positions on magazine staffs writing copy for women readers.

Girls enrolling in the curriculum of "Home Economics with Provision for Specialization" take certain required basic courses and then specialize in a particular

field. A professional standing can be attained in many women's fields through the curriculum.

Union to House Cafeteria

With the completion of the Campus of Tomorrow the School of Home Economics will have more space than is now available for it. It is not anticipated that a new building will have to be built for the School. When the new Student Union is constructed the College Cafeteria, which is now located in Thompson Hall, will be transferred to the Union. Plans now available specify that the space now used for the cafeteria be turned over to the School of Home Economics. Part

of the cafeteria space will probably be used for class instruction. The rest will be utilized for research in home economics and institutional management.

Research Program Increased

Several departments in the School have expanded their research facilities. Practical experimentation is conducted for textile industries and for graduate degrees.

One of the more interesting experiments conducted in the School during the year involves the wearing quality of bed sheets. A large number of sheets of varying

weaves and textiles was given to the School for research. Each of the sheets was given a code number which showed the kind of material and when it was first used. Girls living in Van Zile Hall were drafted to help in the research — they sleep on the

sheets. Each sheet has a record card which shows the number of times it was used and the number of times it was laundered. Periodically one of the sheets is removed from the dormitory and is analyzed in the textiles laboratory.

Experiment with Uniforms

Another textiles project involves the white uniforms worn by the girls in laboratory courses in the School. These uniforms are checked in the same manner as the sheets, and data is compiled and is released for guidance of industry and consumers. Several large American textile manufacturers are interested in the projects and cooperate with the School in the research and experimentation.

Research is also carried on in the fields of nutrition, foods, art and interior decoration, child welfare and in-

stitutional management.

One of the main events of the year in the School of Home Economics is the annual Hospitality Days. Girls from high schools over the state are invited to be guests of the College and the School. Myriad demonstrations from making the daintiest pastry to the use of cumbersome textile testing equipment are prepared for the prospective students.

One thing above all else sets the School of Home Economics out as unique among the schools on the campus. Calvin Hall, the home of the School, is alternately the most pleasant and the most unusual smelling building in the college. Usually the odor of delicious meals greets visitors to the School, or an over-cooked food item gives off its own distinctive aroma.

Nighttime on the campus finds two students discussing matters of importance on the steps of Calvin Hall. The odor of home cooked food and a completely equipped lounge make Calvin one of the more popular buildings on the Campus. Many meetings are scheduled in the Hall.

H.E.'s Have Fun

Life in the School of Home Economics isn't a very dismal existence according to the typical "shots" on these pages. Home Ec'ers are often accused of being here just to learn what you have to know to catch a husband, but maybe that's not such a bad idea.

Curriculums offered in the Home Economics School include such varied ones as Dietetics and Institutional Management, Home Economics and Journalism, and Home Economics and Nursing.

Regents' Rule Keeps V. M. Enrollment Small

The only school in the college that is not crowded to the rafters is the School of Veterinary Medicine. This is not the result of a lack of interest in the field, however. Because many more prospective students wanted to enroll than the school could adequately provide for, the Kansas Board of Regents in 1936 acted to restrict enrollment in this School to 200 students. During the period of swollen enrollments the ruling was relaxed slightly, and this year 277 students were enrolled in the School.

Although the number of students has not become a burden to the School, Dean E. E. Leasure finds his staff of 25 instructors hard pressed to keep abreast of the growing demands on the School's hospital and clinic. During the past year 27,209 animal patients were treated in the clinic or were hospitalized. This is an increase of 5,146 patients more than the previous year.

Hospital Addition Planned

Included in the program of expansion of the college, but not shown in pictures of the Campus of Tomorrow, is an addition to the Veterinary Hospital. No date has been set for requesting funds for the construction, but it is considered one of the important additions of the future.

In 1946, just as peak enrollments were starting at Kansas State, a major calamity struck the campus when the Veterinary Hospital was gutted by fire. Thus, unexpectedly, the school received a modernized building even before the Campus of Tomorrow was well out of the planning stage. \$100,000 was spent to rebuild the

hospital and an additional \$25,000 was required to replace the equipment lost in the fire.

Provide Service for Area

In addition to the hospital and clinic operated on the campus, the School of Veterinary Medicine has five cars which are fully equipped with instruments and drugs to conduct country veterinary service. Faculty members and students last year made an average of nine calls daily in rural areas to treat animals which needed veterinary care.

Equipment used in the Vet hospital was valued in excess of \$38,000 at the last annual inventory.

Since the first class of veterinary students was graduated from the college in 1907 more than 1,500 veterinarians have received degrees from the school. At com-

mencement this year 71 students will receive the degree of Doctor of Veterinary Medicine.

An interesting sidelight to the School was revealed by the archives. A veterinary medicine experiment station has been established on the campus for 50 years. This predates the first graduating class by seven years. It was at the vet experiment station that serum for prevention of Black Leg, a dreaded cattle disease was made.

Effective with the 1949 enrollment in the School of Veterinary Medicine the curriculum was changed from a five year course to a six year term of training. The increase in training was brought about by the advancement of veterinary medicine and its expansion into new fields during recent years.

Require 200 Hours

The school is divided into five departments. The divisions cover the fields of anatomy, physiology, pathology, and surgery and medicine. A candidate for the degree of Doctor of Veterinary Medicine must complete 209 semester hours of college work before receiving the degree.

Members of the student body who meet the necessary qualifications are admitted into the School's chapter of the Junior American Veterinary Medical Association. The group is the undergraduate division of the national veterinarians' professional organization.

Veterinary Hospital (below), was the scene for treatment of 27,209 animals during the year. \$100,000 was spent to rebuild the hospital after it was gutted by fire just as the Campus expansion program got underway.

Vets Are Versatile

Everything from dog bathing to heart examinations is routine in the School of Veterinary Medicine. "On-the-job training" is an important part of the School's program.

During the academic year many unusual incidents took place in the clinic and hospital. Chief surprise of the year was the arrival of a two-headed calf which defied normal expectations and lived.

Race horses which are among the leaders in the Nation are brought to the School frequently.

Ten Grad Students Get Doctorates This Year

Only one school in the college, the Graduate School, can boast that it has no housing problem for its facilities. The Dean of the Graduate School is also the only dean without a faculty to worry about. The only thing which has kept the Graduate School office from being sheer utopia is the ever increasing enrollment in the school.

Record Grad Enrollment

One of the newest schools in the college, the Graduate School, which first opened in 1931, has shown a greater percentage of growth during the college's expansion period than any other in the college. In the academic year 1944-45 only five seniors were taking courses for graduate credit. During the current year 71 seniors are enrolled in graduate studies. Every registration period since the fall of 1945 there has been an average increase of 25 candidates for either master's or doctor's degrees. Ten doctorates are being conferred this year. This is the largest number of doctor's degrees ever granted in any one academic year in the history of the college. It is anticipated that 500 students will be enrolled in the Graduate School at the start of the 1950-51 academic year.

Students in the Graduate School study in every

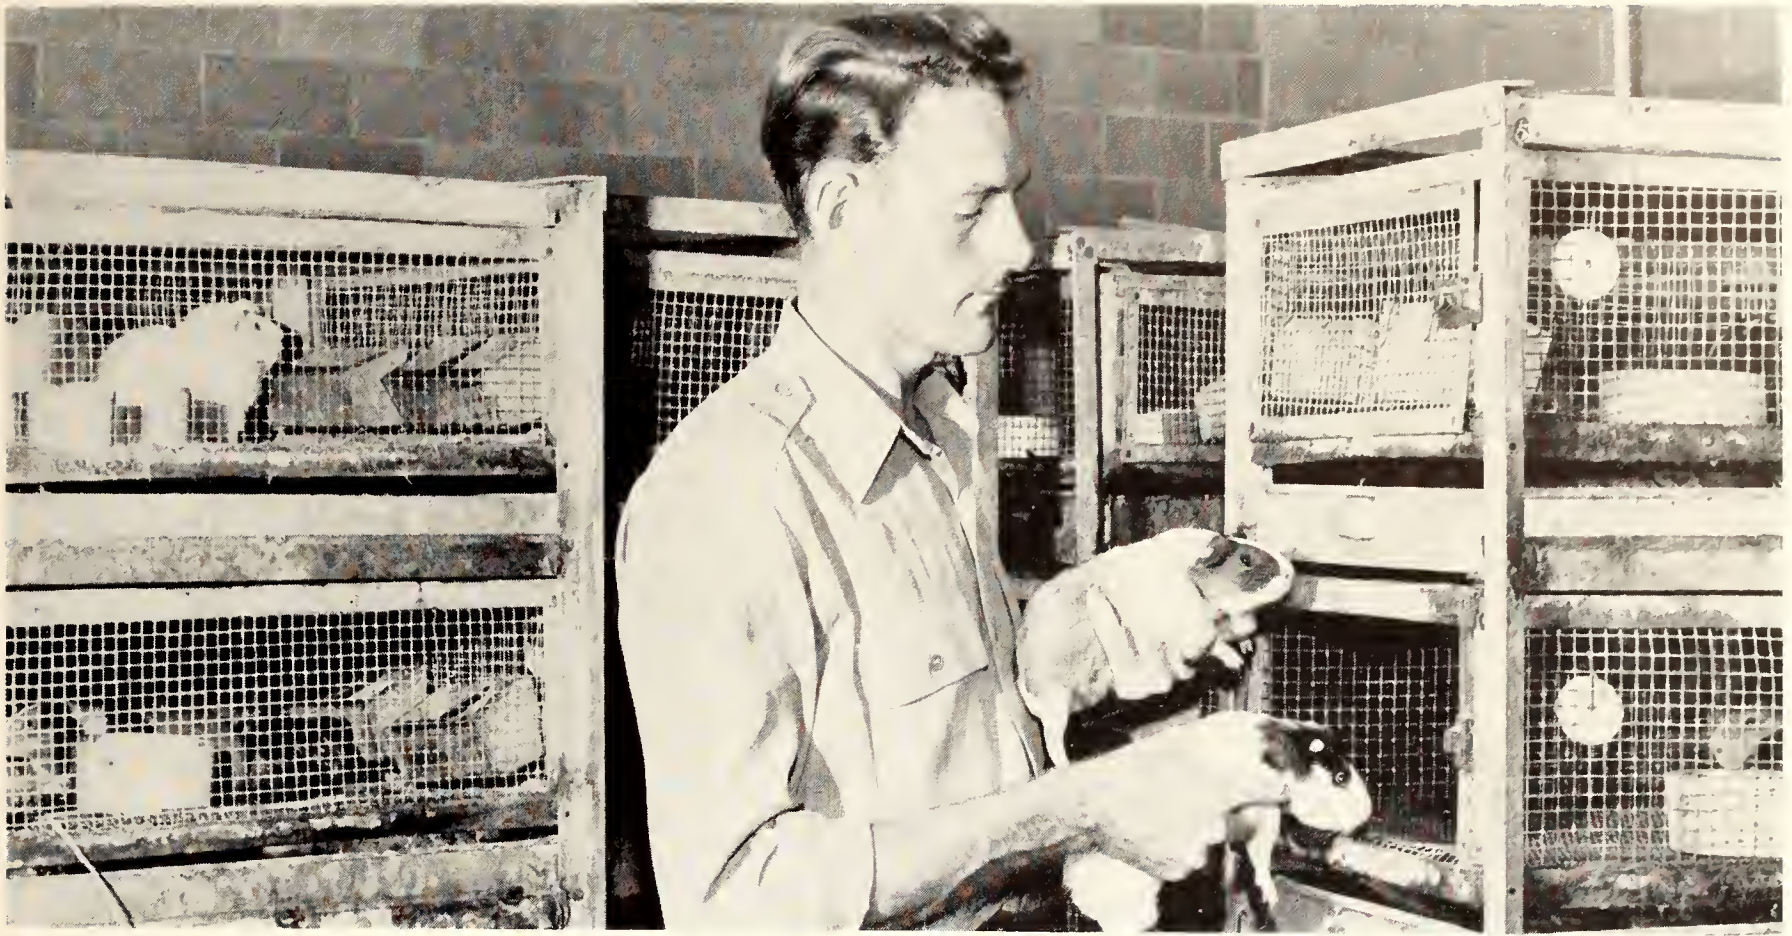

Dr. Harold Howe, Dean of the Graduate School, is the only dean on the campus who has neither a faculty nor a building for his school. He coordinates and supervises the studies of more than 400 graduate students. Dean Howe came to Kansas State in 1925. He has been Dean of the Graduate School since July 1, 1945. School. All administrative procedures connected with student problems are handled there.

Main objective of the School is training students for positions requiring degrees which show extensive study beyond undergraduate work. Positions in almost all institutions of higher learning and in most research laboratories demand a minimum of a master's degree. Some colleges and universities, Kansas State College included, now require the degree of doctor of philosophy for appointment as a professor. The Graduate School finds the demand for their students exceeds the number available in some fields.

Plays Vital Role

A passage in the Report of the President's Commission on Higher Education sounds as though it had been written to describe Kansas State's Graduate School. It says in part, "The graduate school is the apex of the university, the last of the progressively selective levels of higher education, and its students are the most advanced on the campus . . . It is a powerful factor in determining the course of American life and culture. What is does today determines in great part what the rest of education will do tomorrow. It trains our college teachers and our research personnel. To it belongs the responsibility for scholarship and research, for the advancement of the frontiers of knowledge."

KS Extension Service Aids Millions of People

The development of the Campus of Tomorrow has not been limited solely to the Manhattan campus. The expansion of the facilities of KSAC, at a cost of more than \$65,000, has enlarged the station's listening audience to a potential of more than five million people.

KSAC Is Extension Project

KSAC, the voice of Kansas State College, is administered and financed by the Extension Service. The station takes to its listeners the results of research at the College, and reports progress made by farmers and homemakers in applying scientific practices for the improvement of rural life. KSAC has also made a considerable "hit" through the state by carrying assembly and sports programs.

Last year the Extension Service made contacts with a total of 3,679,624 persons, exclusive of press and radio communications.

Offer Wide Educational Program

Balanced farming and family living is the main theme of the educational program offered by the Service. This is accomplished by a staff of 31 agricultural specialists, 17 home economics specialists, 103 county agricultural agents, 89 home demonstration agents, and

Prof. L. C. Williams, Dean and Director of Extension Service for three years. Dean William's branch of the College contacted three and a half million people last year from headquarters in temporary buildings. Completion of Campus of Tomorrow will eliminate the wooden structures.

30 4-H Club agents. Also utilized in the program of extension education is the Home Study Service which offers more than 20 correspondence courses. Last year 3,578 students were taking courses through the correspondence division.

The Campus of Tomorrow will find Extension housed in permanent buildings.

THE PACE IS TERRIFIC

WHEN a campus comes of age, like any other living being it wants to try its stuff. At Kansas State, the great and energetic entity called the student body, now twice as big and more than it was ten years ago, is just discovering the joys of greater stature.

The more people there are in a community, the wider the variety of interests which will be represented. This campus is no exception. Since expansion commenced, K-Staters have discovered that other K-Staters are interested in fencing, in Morse code, in square dancing, or in discussing philosophy—even, in some cases, interested in everything at once.

As a result of all this very healthy and stimulating turmoil, a host of new organizations have sprung up. Numerous new all-college committees claim the campus leader's attention; more ambitious club projects keep the rank-and-file member busy.

Even social contacts are thicker and more hard to keep up with. With a mammoth new all-college recreational program, there's a dance to go to almost every weekend night. It used to be easy for a campus belle to hold a record of never missing a dance, but in this day of three and four formals in one evening, her life is more hectic.

But perhaps the most unmistakable (and most ominous, in the opinion of an unheard few) sign of increase is the remarkable crop of that Kansas commodity, queens. If the present rate of increase of two or three a year keeps up, the time yet will come when every queen's a coed—and every coed a queen.

Pool Is Center of S.S. Activity

All aboard for the summer session as prospective students stand in line to enroll. Their vision of the future is not a summer of grind; rather one of fun and fellowship while chalking up a few needed hours toward graduation. Betty Bogue reigned over the all-school swimming party with her attendants Yvonne Swenson and Pat Hale . . . Jacque Compton and Alice Becker carried off honors in diving. Many an ROTC crack shot found the carnival plaster horse was harder to hit than he

thought. Climaxing the summer was graduation for 374 students at Ahearn Field. The joys of Freshman Orientation Week in the fall . . . with lap-board in lap and eye on the clock, the frosh plowed through the tests wondering if they were college material at all! Then donning their freshman caps, they cheerfully tramped off to tour the campus and see the Senior Talent Show. In line again, this time to actually enroll, 7033 students almost set a record.

Ag Week, SPC Start Fall

The Barnwarmer is the big social event on the Ag students' calendar. They celebrate the week previous to this by dressing in the traditional attire of blue jeans and bandannas. Non-conformists receive the "treatment," a dunking in the reformer's tank. Out of 22 candidates, five girls were chosen to compete for the honor of Barnwarmer Queen. The winner was crowned at in-

termission of the dance.

Student Planning Conference camp plays an important part in the student government of Kansas State. Wild West Returns

"Ride 'em Cowboy!" was the cry as K-State held its third annual rodeo, sponsored by the Chaparajos Club. Teams from Colorado A and M, Ft. Hays and K-State were entered, with K-State coming out on top. The rodeo, held in Griffith Stadium in the spring, ran for three days. K-State's Clint Rankin was acclaimed 'All-Round Cowboy' winning a saddle with the honor. Trick riding brought many thrills to the onlookers as well as spills to the riders. Winners of contests in saddle bronc riding, bare back bronc, bull riding, bull dozing, ribbon roping, calf roping and cutting-horse won custom-made boots and belt-buckles as prizes in addition to the awards.

Smith Is Miss Manhattan

With rivalry running at its highest, K-Staters marched down the main street of Lawrence, showing their spirit before the KU-K-State football game. Cheerleaders led a few at the corners and gave watching Jayhawks a sample of Wildcat pep.

The fourth annual Football Barbecue, sponsored by the Chamber of Commerce, gave 6,500 fans a preview of the 1949 Wildcats in action. At halftime of the intra-squad game, the six finalists in the Miss Manhattan beauty contest were presented and the winner crowned (?) by Governor Carlson. Shirley Smith, chosen as Miss Manhattan, later represented Manhattan in Kansas City at the American Royal beauty contest.

Gala Homecoming

Homecoming, November 5, was a red letter day at K-State. The fuse for the celebration was set off Friday night by a torch light parade and pep rally, followed by a tour of the homecoming decorations. A record breaking crowd of over 18,000 watched the Wildcats battle the Sooners to a 39-0 loss, the only dark note in the day. First place for decorations went to Pi Beta Phi and Phi Delta Theta.

Religion Highlighted

With Christmas in the air, K-Staters showed much of the true Yuletide spirit. The Interfrat Council and the Kappa Deltas held their Christmas parties with the underprivileged children of Manhattan. Home Ec Club celebrated with a tea. The theme of Lift Week this year was "Live In Faith Together." Featured speakers were Dr. T. Z. Koo, Rabbi Lou H. Silberman, and Gabriel Nahas. Activities consisted of assemblies, guest speakers at the organized houses, religious seminars and retreats, devotional meetings, book displays and leadership breakfasts.

Big Names are Frequent Guests

Assemblies bring to the campus of Kansas State many distinguished and famous guests. Marian Anderson thrilled a packed house with her interpretation of the native American spirituals. Archduke Otto of Austria-Hungary told K-Staters of conditions between Moscow and Washington. Isaac Stern's mastery of the violin won him great applause.

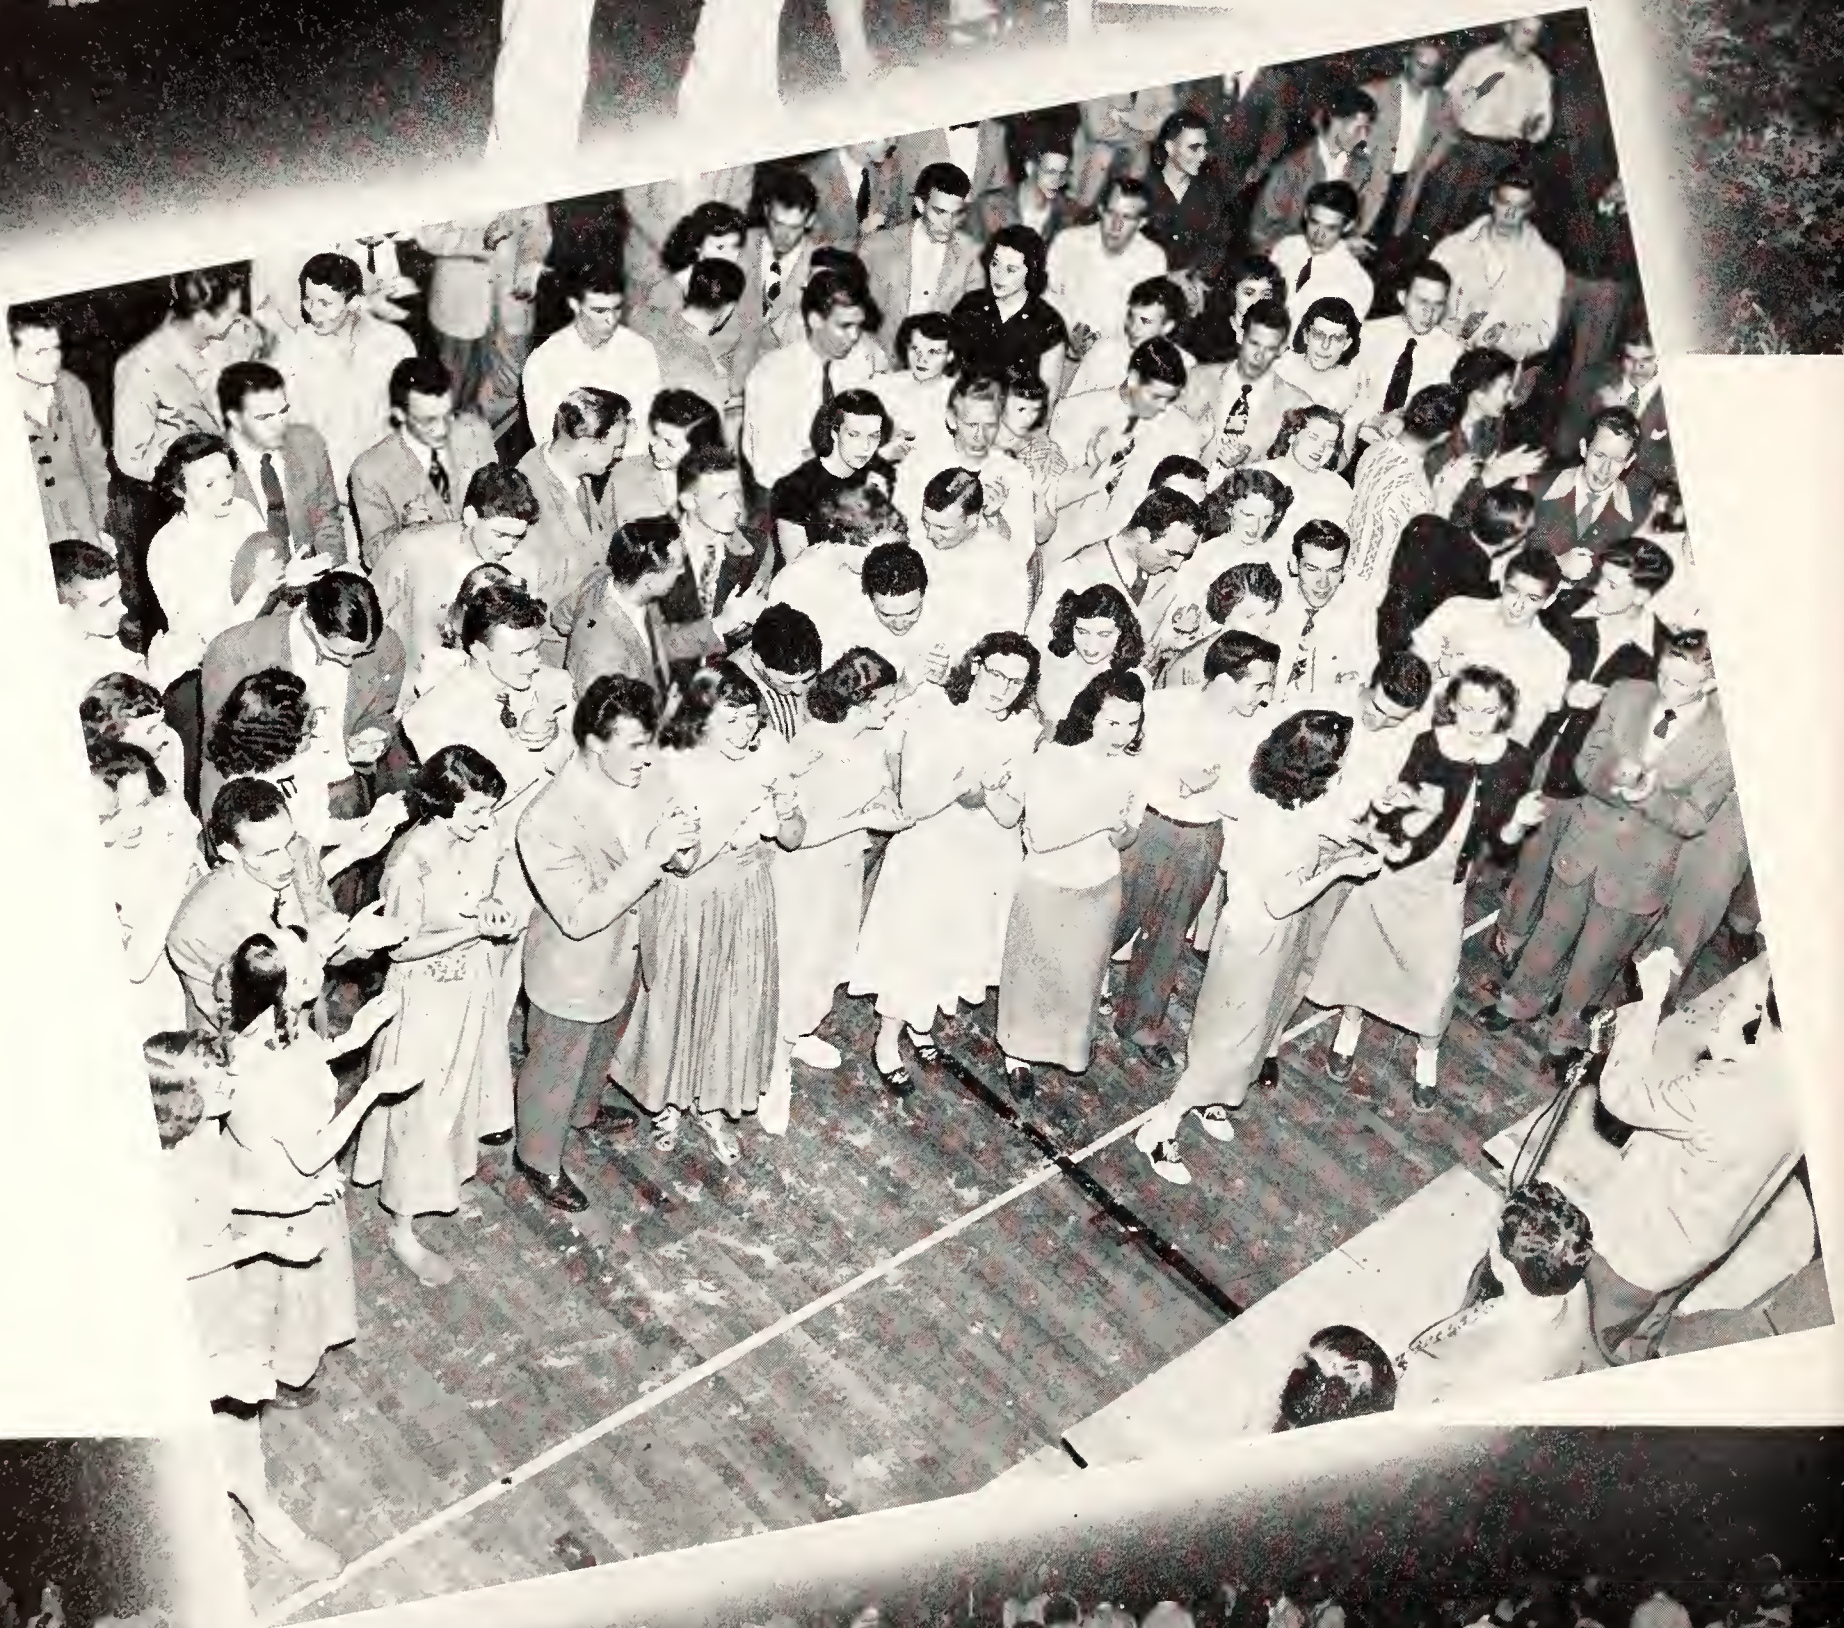

Science and common sense was the topic of the address of Dr. James B. Conant, president of Harvard University. Dr. Joseph Korbel, international political analyst, made students think as he discussed the split between the Soviet Union and Yugoslavia. Other famous speakers heard were George V. Allen, Dr. Franklin Murphy, and Cord Meyer Jr.

Crowns, Costumes, Mark Parties

All at K-State isn't work. Here is a bit of photographic proof—Delta Sigs turn nautical at their Sailor's Ball with all hands aboard for a good time. All-school varsities are fitting topping to victorious games. Warm weather turns K-Staters to the tennis courts for their dances. "De Bowery" is the theme as the Sig Alphas "say such things and do such things", but their dates seem to enjoy it. Purple Pepsters take K-State back to the days of

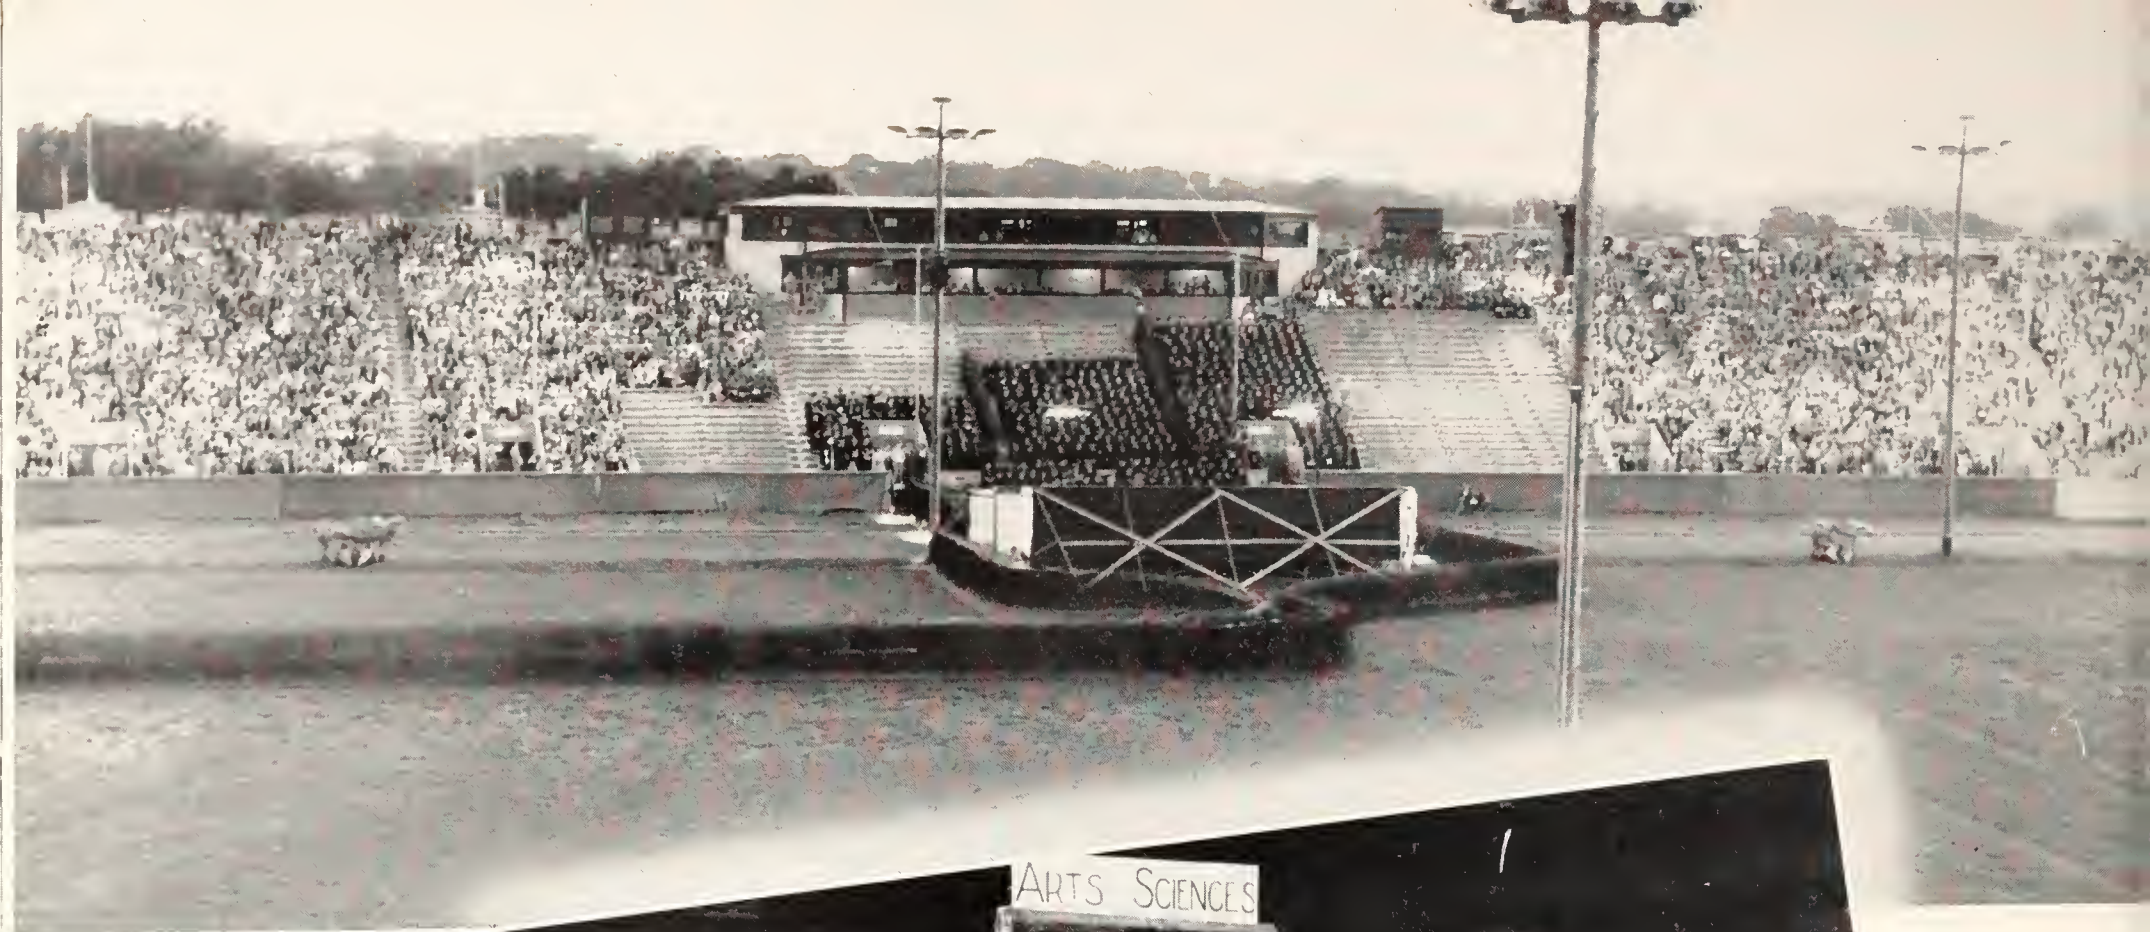

'49ers and crown "King of Pep" at their Gold Diggers Ball. The spotlight is on male royalty at the Home Ec Club Snow Ball as the FMOC is crowned. At the IPC dance, pledges come "Stag or Drag", but either way they're away from watchful active eyes. Back to sea, this time as a beachcomber with the PiKA's—and look what just "drifted" in. Dog-patchers all, the ISA's hold their annual Sadie Hawkins dance. 'Pears like lots of Sadies caught their men.

543 in January Procession

Commencement, caps and gowns, sheepskins and all the other symbols that mean graduation and a college degree—these were the rewards for the hard work of K-State's January graduates. A record-breaking mid-term graduation class of 543 left a big void at Kansas State as they turned into alumni and moved along into another world. College was just a memory now; jobs were getting scarcer; and the life ahead wasn't so sure and secure as that behind.

A glance across the page gives a glimpse of Commencement in the stadium; Arts and Sciences graduates waiting patiently, or not so patiently as the case may be, for that final march; and a part of the graduating class standing for the invocation.

Parties? Why Shore!

There's a party in the air 'most all the time at K-State, a kind to please everyone. For the stags, APO dinners, Poultry Science Club Barbecues; for the girls, WAA mixers, teas, Phems picnics; for those who like to mix it up, the Y-Knot Frolic and Gold Diggers Ball to mention a few. Whether it's outdoors or in, stag or drag, it sure looks like fun, doesn't it?

Show Foreign Talent

"A Fair International" was the title of the production announcing the opening of International Week. In its cast fourteen nationalities were represented. Talented foreign students presented the songs and dances in the costumes of their native countries. "A Fair International" was under the direction of Shirley Smith and Raul de Loayze.

"Hospitality Days" gives the Home Ec Department a chance to "strut their stuff." High school girls are invited from all over the state and are given a preview of what K-State has to offer in Home Economics.

The traditional 30-second whistle and a marathon race marked the beginning of Engineer's Open House. Runners carried torches to KS Hill, where 150 kerosene flares in the form of a KS were lit. Radio, Debate Interest Many

Kansas State debaters have traveled widely this year, competing at Northwestern, Texas, Pittsburg, St. Johns, Missouri Valley, and Hutchinson as well as here at K-State. Versatile debaters have had to be prepared on not one but three topics: "Should the United States nationalize all basic non-agricultural industries?" "Should the communists be outlawed in the U.S.?"; and "Should nations within the North Atlantic Pact form a federal alliance within the UN?" Pictured above is the debate squad; from left to right they are (*top row*) Irwin Frank, Donald Volker, John Cory, Ronald Glens, Duncan Circle; (*bottom row*) Clinton Mehl, Lloyd Alvery, Jerry Tribble, Vernon McGuire, coach, Wilma Wilson and Donald Hopkins.

KSAC and KSDB offer K-State a variety in radio. KSAC is the educational station, college-supported and sponsored by the extension division of K-State. KSDB is the campus wired-wireless station. It is self-supporting and student managed.

Three Editors of "Mademoiselle" Choose 1950 R. P. Beauties

Choice of the Royal Purple Beauty Queen was left to the able judgment of these three editors of Mademoiselle magazine: Nancy Garoutte, pictured in the upper left hand corner; Bradbury Thompson, center; and Betsy Talbot Blackwell, in the lower right hand corner. Miss Garoutte is the College Board Editor. Mr. Thompson is the Art Editor, and Miss Blackwell is the Editor-in-chief of the national fashion magazine.

Eighteen Are Nominated

Eighteen candidates were chosen by their respective organizations to compete for the title of Royal Purple Beauty Queen; nine were chosen from organized houses and nine from independent residence halls and houses.

The candidates' entry pictures were taken by Laurence Blaker at the Studio Royal and were sent to Mademoiselle for judging late in October.

Difficulty in Choice

Miss Blackwell explained that it was most difficult to make a fair selection without being able to eval-

Editors Unanimously Select Queen

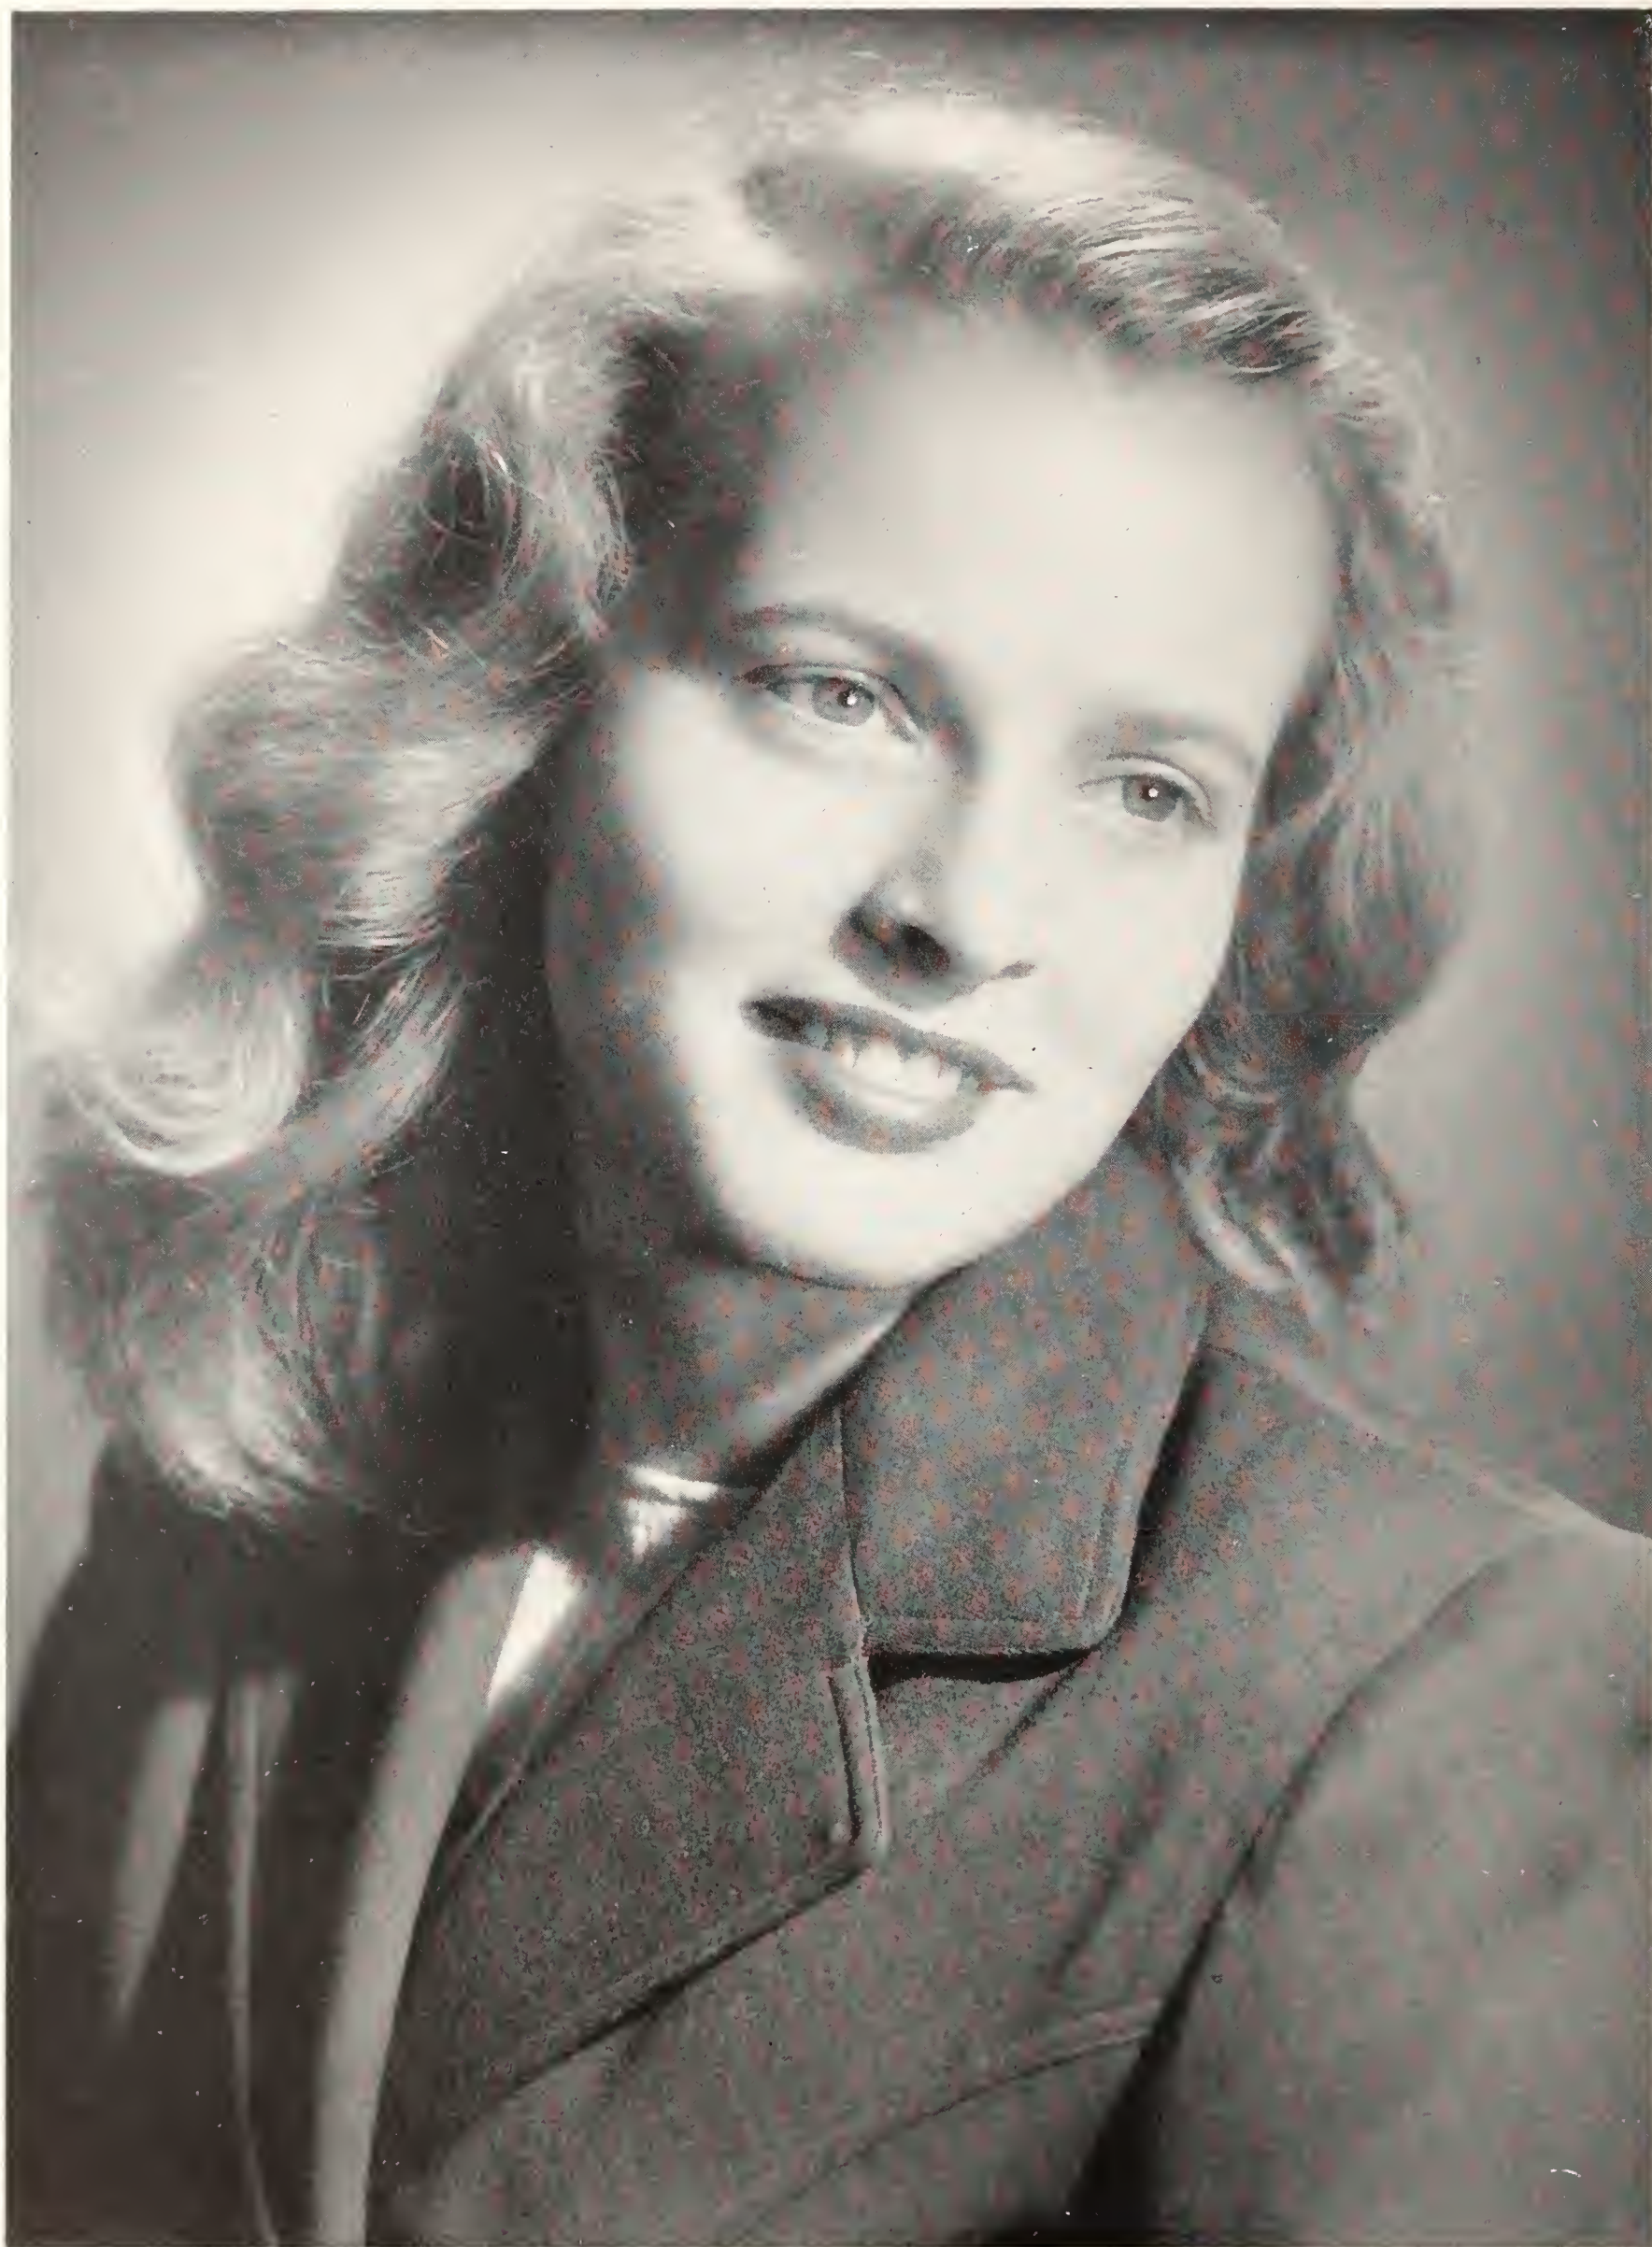

Mademoiselle editors were unanimous in their selection of Geraldine Cooper as Royal Purple Beauty Queen, and of Doris Montague, Pat Siwan, and Shirley Jo Johnson as the three attendants.

Mr. Thompson, a native Kansan commented, "It seems rather difficult to choose as all Kansas girls are so attractive."

One of the formal high lights of all-school parties in the fall semester is the Royal Purple Ball. This year it was held on November 19. The long suspense for the candidates and the guessing as to who the new royalty would be was ended at intermission of the Ball as Her Royal Highness and the attendants were presented by the retiring queen. Here the camera man catches Joan Parret, 1949 Royal Purple Beauty Queen, in the act of crowning her successor, Geraldine Cooper, who will reign for the coming year. Bouquets accompanied the honors.

Del Weidner and his twelve piece orchestra, of Topeka, furnished the music as 425 couples danced. Sigma Delta Chi, professional journalism fraternity for men, catered.

The business staff of the 1950 Royal Purple was in charge of the Ball. Office staff members working on decorations were Helen Cortelyou, Alleta Ecord, Jim Fassett, Joyce Fleet, Jim Grove, Lou Jean Moyer, Sue Quinn, Steve Sage, Carol Faulson, Bob Willmeth, Alan Wilson, and Marjorie Marchbank. Business staffers on the job were Frances Callahan, Don Matlack, Bill Beckmeyer, Bob Larberg, and Barbara Selders.

BOOK III

Places

to Live

IF YOU'RE LUCKY

 OTHER things in campus life may be important, may add or detract a lot from the value of the whole experience of going to college . . . but there's not much that's more influential on morale than the place you live.

On this basis, the casual visitor to Manhattan might take a look or two at the barracks and a horrified goggle at the trailers and conclude that morale at K.S.C. is nil. But this isn't the case, strangely enough.

This generation of male students is not one to complain about the hardships of living in barracks. After all, there are barracks and barracks, and it's a far cry from Splinterville or Hilltop Courts to some of the other barracks they've seen. The married boys, especially, aren't heard complaining very often — they figure, and rightly, that they've got it good. Even confirmed G.I. bachelors have been known to express envy for "that home cooking."

It's crowded, of course—even a trailer took some maneuvering to get into in 1950. And many fraternities have established annexes. Sorority houses are splitting at the seams, and the girls are almost happy about deferred rushing, scheduled to begin a couple of years from now when new dormitory facilities are complete.

Independent girls might be bad off if it weren't for the new dorms, since many housemothers have recently decided that it's easier to look after boys than coeds. But there'll be some sadness on the girls' part when the whole women's-organized-house system goes out, as it sometime must, for there's a certain home-feeling about a small group that just isn't there when you live with fifty or a hundred others.

It was rough for a while, all right, getting a place that you could call your own, let alone learn to love. But things could be much worse on the housing front.

Left—The new Girls' Dormitory, rapidly nearing completion, as seen by an architect.

Community playground space is available for children living in Elliott Courts (above) and other housing areas.

Over 300 Families Now Live in College-Owned

Prior to the termination of hostilities in World War II, Kansas State College provided dormitory housing for women students only. The community surrounding the college furnished rooms in private homes to take care of all men students who did not live in fraternities and other organized houses.

Trailers from Government

At the beginning of the fall semester in 1945, it was apparent that a sufficient amount of housing, particularly of the apartment type needed by married veteran

students, did not exist. In December of 1945, the college contracted with the Federal Public Housing Authority, later called the Public Housing Administration, for 101 trailers to be moved to the campus for accommodations for married veteran students. The trailers were moved to Manhattan from Great Bend, Dodge City, Salina and Pratt, and were ready for occupancy for the spring semester of 1946. Seventy-four standard trailers and 26 expansible ones were obtained. The wives of the students have made the interiors very attractive and homelike.

Trailerites Under Constitution

The students living in the trailer community of 101 families have established their own student government organization. A constitution has been made and officers elected. These officers have gained wide experience in handling the problems which arise when people live together in groups. Regulations ranging from the establishment of the washing schedule to the rules for keeping dogs have been a part of their experience.

Kansas State at the present time provides places for 470 married students and their families to live. These accommodations are 336 converted barracks apartments, 101 trailers, and 33 spaces for parking privately owned trailers. The apartment accommodations consist of 176 units with one bedroom and 160 units with two bedrooms.

Two symbols of college expansion noted in Hilltop Courts (below) are married vets' full clotheslines and rapidly-rising fieldhouse, whose silhouette dominates the campus from every observable angle. Hill-top husbands' favorite pastime is watching progress of construction.

A community within itself, with laundry, shower and maintenance facilities, is the Campus Courts trailer area.

Trailers and Apartments in Four Areas

The apartments are located in three different areas, Hilltop Courts, which is on the campus proper; Elliot Courts, which is across North 18th Street, west of Hilltop Courts; and Goodnow Courts, which is located eight blocks east of the college campus in an area known as Goodnow Park. The apartments are unfurnished except for a gas range, an ice refrigerator, hot water and space heaters.

Students Deputized

The students living in these units have also set up a student government with mayors and councilmen. Two students are giving time to help regulate traffic through the area, for the safety of the children, by being sworn in as deputy county sheriffs.

Courts Give Trailer Room

At the urgent request of a number of college students who owned trailers, in 1947 an area on the west side of the Elliot tract was developed by the college for a trailer park. This housing, known as West Campus Courts, belongs to the college now and not to the Federal Government as it did at one time. In Campus Courts this year 101 trailers are being used, and there are 120 families in the Hilltop apartments, 168 in the Elliot apartments and 48 in the Goodnow apartments. They have been rented continuously since the beginning of the project.

Waiting lists for campus housing facilities are ex-

pected to decrease as enrollment goes down and the G.I.'s graduate, but the situation this year was still tight, particularly for married couples without children. In future years the restriction of all barracks housing to families containing children may be lifted.

Completion of the present dormitory-building program will probably also ease the problem for married students, as many organized houses for single students may convert into apartments. In the meantime, the kids continue to live in trailers—and the strange thing is, they like it!

Formerly Pasture and farmland, West Campus Courts' best crop these days is children. Transportation to school is a problem for them and their parents, but most of the kids aren't big enough to mind.

A typical crowd at the cafeteria includes crammers with textbooks open, students glad of the mid-day break, and a percentage of faculty members.

Cafeteria Serves 1500

In the midst of school and all of their activities, K-Staters don't forget to leave time for eating. Whether it is the conventional hamburger or a big juicy steak, students are still gourmets in their own rights. The pleasant surroundings and atmosphere of the Campus Cafeteria add to the pleasure of eating. A choice counter is available where foods of all varieties, meats of various cuts and inexpensive dishes provide a well balanced diet for the students. An average day at the cafeteria finds 1500 to 1800 students passing through the lines eagerly waiting to select their favorites of favorites. At the cafeteria, professional organizations on the campus hold their banquets, groups give luncheons and meetings hold a prominent place in the use of this institution.

The Splinterville Cafeteria is used in conjunction with the College Cafeteria and serves on the average of 600 students a day. It was set up in 1945 merely to accomodate GI's. War surplus equipment and buildings were used to supplement the need for a larger cafeteria.

"Line-Bucking" Unprofitable

Then there are the times when students drift into Aggieville anytime of the day and stared longingly at the menu. Cafe lunch hour lines are sometimes so long as to be impossible. If they are hungry enough to brave lines at the Canteen the studes eventually may end up with a coke or coffee.

The Student Union is the recreational and social center of the campus, where students gather to grab a quick snack between classes.

Splinterville, for five years a part of the campus scene, is destined for removal sometime during the coming year.

Smaller Houses Provide Good Group Training

Arcadia is in its seventh year as a women's organized house. Mrs. Grace Friel supervised the eight coeds who made her house their home this year. Arcadia holds membership in Amicossembly, and its members are active in the K.S.C. Band, W.A.A., Nursing Club, 4-H, and are proud of their Who's Whoot representative. First semester president Harriet Hill, was followed second semester by Theodora Phillips.

Eight to Crippen Inn

Crippen Inn, one of the younger members of the organized house group, was organized in the fall of

1946. Eight Kansas State girls made their home with Mrs. James Crippen, housemother. President this year was Shirley Grame.

Gables Gals Are Active

As president of Clark's Gables, Darlene Thompson and other members were active in YWCA, Kappa Phi, Purple Pepsters and Prix. On the social calendar was a skating party and chili supper, a Christmas dinner and an Old Fashioned party. Organized in 1941 by its present housemother, Mrs. Edith Clark, Clark's Gables provided residence for ten coeds.

Coed Court Is Oldest Organized House for Girls

Coed Court, organized thirteen years ago, is the oldest independent women's organized houses on the campus. Housemother for its fourteen members who live at 1417 Leavenworth, is Mrs. Pearl Power. In addition to being an active member of Amicossembly, Coed Court has members in I.S.A., Kappa Phi, Sigma Eta Chi and Purple Pepsters. Social highlights of the year were a Thanksgiving dinner, a Christmas party, and a Christmas breakfast. During the year, Joan Jacobs took the president's gavel.

House Switches Sexes

An unusual feature of Hill's Heights is that before its organization in 1942 as a house for independent women it was a men's organized house. Now a member of Amicossembly, its nineteen members have as their housemother Mrs. W. H. Hills. Hill's Heights members participate in A Cappella Choir, Kappa Phi, SPC, and Collegiate 4-H, and the girls are still proud

of their 1949 Royal Purple queen, Joan Parret. Social activities of the group whose address is 1423 Fairchild, included picnics and parties. Kathleen Kysar was president of the group this year.

La Fiel Active

La Fiel, located at 1707 Laramie, was first organized in 1941. Mrs. E. E. Rogers was housemother for its twenty-seven Kansas State coeds this year. La Fiel is a member of Amicossembly and has active members in I.S.A., Kappa Phi, UNESCO, A Cappella Choir, Frog Club and Orchesis.

Shepherd Wins Laurels

An outstanding member of La Fiel was Colleen Shepherd, who reigned as the 1949 Ag Barnwarmer Queen, and had major roles in several Kansas State Players productions including "The Miser." On the social register the big events were a Halloween party and a Christmas breakfast.

Girls' Organized Houses Help Promote ISA

Skywood Hall, located high above the street at 1719 Laramie, is home for twelve Kansas State coeds this year. Supervising this house is Mrs. Neil Swanson. A members of Amicossembly, the house also has members in Purple Pepsters, Mortar Board, Phi Kappa Phi, and Omicron Nu. Highlights of Skywood Hall's social season were the Christmas party and the annual senior dinner.

Maisonelle Houses Twelve

Organized in the fall of 1943, Maisonelle housed twelve coeds this year. Located at 1706 Laramie, the

house is under the supervision of Mrs. Mattie Cassity. Its members were active in Amicossembly as well as I.S.A., Purple Pepsters and A Cappella Choir. Members enjoyed impromptu social gatherings.

Pal-O-Mie in Social Whirl

Pal-O-Mie has been known on the campus since 1939. Housemother for the fourteen girls living there is Mrs. Lillian Fuller. Members of Pal-O-Mie took part in campus activities, and their social functions included a Thanksgiving dinner, a Christmas party, and a May Day breakfast for seniors and their mothers.

It's a Family Campus

If it's true that American kids are distinguished for the number of places outside the nursery you find 'em, K-State should be the typical American community.

Warm spring days bring the perambulators out—in Kansas we call em baby-buggies—till the campus looks like Central Park. Driving by any barracks block, it's hard to believe that the country's birth-rate will ever slack off.

The parents of these kids are something the college is proud of, too. They're an easily-pleased race, spending free afternoons washing the car, playing softball or hanging out the laundry. Some of them have been heard to say they have a uniquely satisfying life—almost having their cake and eating it.

Utopia—*Back row:* Marilyn Jones, Irene Swart, Velma Payne, Sec. Treas. Dottie Edwards. *Second row:* Lucile Wells, Theo Gooch, Reporter Joan Keipper. *Front row:* Mrs. Elmer Hackney, Vice Pres. Elaine Birkholtz, Pres. Dorothy Hass, Dorothy Hoyt.

Three New Organized Houses Start Activities

Utopia, organized this year, is the newest of houses for independent women. Mrs. Elmer Hackney is housemother for the ten Kansas State coeds who reside at 613 North Sixteenth. Members of Utopia were active in scholastic and extracurricular activities. Social activities included teas, a Christmas party and numerous picnics.

Active In Intramurals

Manhattan Lodge, located at 607 North Manhattan, was organized this year. Mrs. Clara Karr was housemother. Leaders in independent student affairs through-

out the school year, the ten members also participated in all intramural sports.

Catalpa Houses Eight

Catalpa Inn took its place among the newly organized houses this year when it became a home for eight Kansas State men. Housemother for the group was Mrs. Alice Spealman. Members of Catalpa Inn were active in I.S.A. and other organizations on the campus. Parties and dances were social events of the year.

Men's Houses are Active in Intra Program

House of Williams is the only independent men's house on the campus with an organized alumni association. Organized in 1939, it houses eighteen men this year under the direction of Mrs. Katherine Williams. Members were active in I.S.A., YMCA and various church groups, and in all intramural sports.

Foster, Hardenburger Preside

Officers for the first semester were Hugh Foster, president; Ray Romero, vice-president; Duane Dennis, secretary; Howard Holcomb, treasurer, and Bernard Keating, intramural manager. Second semester officers were Bill Hardenburger, president; Dean Holcomb, vice-president; Bernard Keating, secretary; Don Holcomb, treasurer; and Francis Preschl, intramural manager.

Block-A-Way Is New Group

One of the newly organized houses this year for

independent men was Block-A-Way. Housemother to the fourteen men who live there was Mrs. Scalon. Block-A-Way men were active in Independent Student Activities, and had teams participating in all intramural sports. The year's officers were Thomas L. Fox, president; Reed Rumsey, vice-president; Donn Lillich, secretary; and Norman Miller, treasurer.

Monchonsia in Second Year

Organization of Monchonsia Hall offered a place for twenty-six men to live this year. Marking its second year as a home for independent men on the campus, Monchonsia had many active members in campus organizations. In the midst of their activities, members left time for recreation by participation in intramural sports. Bob Gantz served as president, Sidney Hanson as vice-president, Arlie Roesener as secretary-treasurer, and Kenneth Carnes as intramural manager.

New Housing Units Active In Campus Affairs

Residing in Dorm 1 of Moro Courts are twenty-nine men. The residents of this building, from all different sections of the hemisphere, were accidentally thrown together under the same roof, so decided to organize as a men's independent house. Hale Laulima (House of Hospitality) was the name given to Dorm 1 by their members. Activities in organizations on the campus and intramural sports occupy much of the time of Hale Laulima members. Officers for the year were John Detolla, president; Henry Henderson, vice president; and Wing Chin, secretary and treasurer.

Syconia All-Lutheran

Syconia is in its second year as an organized house for men at Kansas State. New on the campus last year, it is unique in that its membership is composed entirely of Lutheran students. Mrs. L. R. Keim is housemother to the thirty-two men. On the social side, Syconia led

the way with hour dances and a Christmas party. Members are active in SPC, Student Council, Phi Kappa Phi, Sigma Tau and Sigma Delta Chi. Officers for the second semester were Harvey Arand, president; William Herberg, vice president; Sterling Kath, treasurer; and Vernon Hesterman, secretary.

Houses Many Foreign Students

Fourteen Kansas State men make their home at the Y-House under the supervision of Mrs. Mildred Reynolds. The fall semester found a need of places for men to live, which gave rise to the organization of the Y-House. A congenial spirit of "home away from home" is reflected in its atmosphere. Its members are active in I.S.A., YMCA, UNESCO, the college orchestra, and collegiate 4-H. A special project of the group was the Annual Open House. Temporary Board of Directors were John Finley, Herb Cates and John Maxwell.

West Stadium Dorm

Dormitory life for men at Kansas State is a relatively new experience. Construction of the first dormitory for single men was begun in the fall of 1945 under the north section of the East Stadium. It was ready for use for the fall semester of 1946 and housed 68 men. In March, 1946, work was begun on a men's dormitory using all the space under the West Stadium. The college operates West Stadium dormitory, which is a permanent men's dormitory. West Stadium will house 146 students and has accommodations which provide that each man has own single bed, a locker for his clothes and a study table and chair.

West Stadium is one of three projects which has been completed for the housing of single men. This housing has made it possible for many more young men of Kansas to obtain a college education.

Dorm organization provides an opportunity for participation in intramural contests, for social activities such as parties and dances, and for training in leadership. Officers at West Stadium were Ernie Barrett, president; John Phillips, secretary and treasurer; Allan LaShier, social chairman; and Wade O'Neil, intramural manager.

Van Zile to Have Sister Dorms

Van Zile Hall, campus home of many KSC girls, is the result of a movement started in 1919 to establish dormitories at the five state schools. In 1921, largely through the efforts of the Kansas Council for Women, a bill was passed, but the appropriations were not sufficient to provide each school with a dormitory. Kansas State offered to wait, allowing the other schools to build, with the understanding that the Kansas State dormitory would be built later. It was not until the 1925 session of the legislature that the combined efforts of the Kansas Council, the A.A.U.W., and others were successful in getting the dormitory plan through.

Is First of Several

Van Zile Hall, which houses 170 girls, was named for Mrs. Mary Pierce Van Zile, who was Dean of Women from 1908 to 1940. When Van Zile was built it was the dream that it would be the center one of several women's residence halls. Just now that aspect of the "Campus of Tomorrow" is coming true as the construction of a new dormitory to the northwest of Van Zile nears completion. This hall is tentatively scheduled to be ready for occupancy September, 1951, or possibly not until February. A third hall, to the southeast of Van Zile, will be started in the near future. These new dorms will house 210 girls and will be alike in most respects.

Miss Dorothy Hamer, assistant dean of women, has been house director of Van Zile for nine years.

Van Zile is represented in such organizations as Prix, Omicron Nu, Purple Pepsters, Mortar Board, Mu Phi Epsilon, Phi Alpha Mu, Who's Who, Student Council and Phi Kappa Phi.

Queens and attendants included Mae Meinen and Suzanne Sykes, who were attendants to the Barnwarmer Queen; Jean Petrcek, who reigned as St. Patricia for the Engineers Open house; and Evelyn Skonberg, an attendant to the ISA Queen.

Enter All Intra Fields

In intramurals Van Zile placed first and second in tennis. The girls also entered basketball, volley ball, swimming, table tennis, posture, dance, soft ball and tenniquoits.

Girls at Van Zile are the big activity women on the campus. They have more activities per capita than any other group. Well-informed and well-organized, they exert their influence in every activity on the campus.

Fritzler, Jones Are Prexys

First semester officers were Betty Fritzler, president; Muriel Frey, vice president; Dolores Salmans, secretary; and Mary Kay Meyer, treasurer. Second semester officers included Lois Jones, president; Sara Stockwell, vice president; Twila Oltjen, secretary; and Mary Kay Meyer, treasurer.

Van Zile's appearance was made more impressive this year when its drive was moved down hill to make room for the two new girls' dorms.

East Stadium Dorm

The dormitory under East Stadium was first used as a women's residence during the 1947-48 school year. This change was made because all available housing for women in private homes in Manhattan was being used, while householders were making more and more places available for men. Now East Stadium is moving into its third year as a dormitory for college women. Mrs. Fred Tharp was housemother for the fifty-three members.

Girls at East Stadium were active in Phi Kappa Phi, Purple Pepsters, UNESCO and YWCA. Reigning as sweetheart over the Independent Student Association formal was Lavonne Slocombe. Officers for the first semester were Muriel McHale, president; Iris Fegley, vice president; Doris Fleming, secretary; Virginia Bulkly, treasurer, and Joanne Lowe, social chairman. Second semester officers were Bonnie Stephan, president; Harriet Reikowsky, vice president; Melvia Lee, secretary; Virginia Bulkly, treasurer, and Myrth Theede, social chairman.

Since the greatest need at the present time is for rooms for college women, an additional women's dormitory is being constructed.

Shaded Waltheim Hall, 1436 Laramie, was private apartments to 1946.

Waltheim Hall

"Life at Waltheim Hall is fun, even hilarious at times," according to one of the seventy-eight Kansas State co-eds living there. Remember those sleepy-eyed breakfasts, empty mail boxes at noon, the late bridge games and midnite snacks? Of course there were the nights when lights burned far into the night as the girls "hit the books" for that quiz next day.

Then there were times when all thoughts of classes were pushed aside and the girls focused their attention on the men of their life. Especially on the weekends of the football games there was a great hum of activity.

Organized in 1946, Waltheim Hall is now under the direction of Mrs. Blanche Twiss. Including members in YWCA, Mortar Board, UNESCO, and Purple Pepsters, the register at Waltheim Hall lists many campus personalities. On the social calendar their spring formal took top honors. Serving as president the first semester was Lois Stuewe.

Officers for the second semester were Dorcas Speer, president; Lucille Lenkner, vice president; Peggy Wilson, secretary; Vivian Bebermeyer, treasurer; Dorothy Haslett, reporter; and Bernyce Thomas, historian.

It is a great life, this getting up, sitting down, chatting, smoking, walking, and remembering names. Yes, for two weeks, early in September, life was truly rush, rush, rush as rushees smiled their way through while answering countless queries of "And what are you going to major in?" or "Oh, you're from Wichita—you must know Susie Simmons!"

The "pause that refreshes" found rushees relaxing at a local drugstore (*top left*). Rushees say goodbye to Tri Deltas (*above*) after a gay party. Panhel, IPC Aid In Student Self-Government

The national organization which binds Kansas State sororities together is known as Panhellenic. Each of the eight national sororities sends a representative to its policy-making meetings. This Council plans sorority rush week and determines the rules and regulations which govern rush activities.

Panhel Is Peacemaker

Panhellenic promotes intersorority friendliness, and aids in keeping the feet of eight busy groups of young Greek women on the campus traveling in their appointed paths. So far, Panhellenic has ably averted any

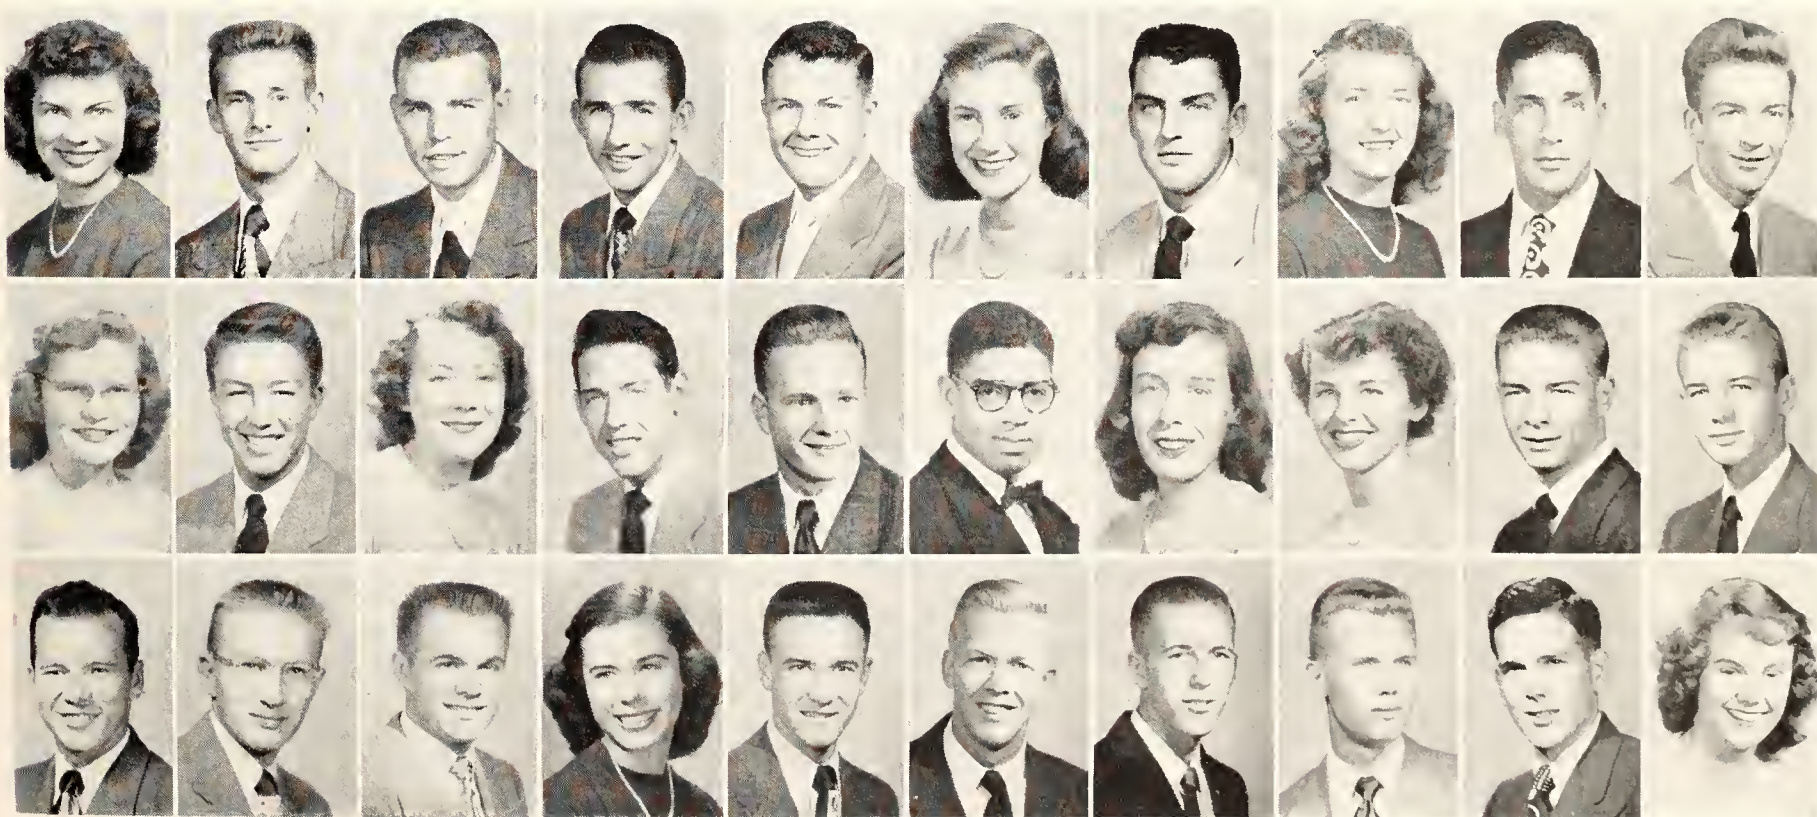

feuds between all young ladies concerned, whether they be contending for cups, beauty queens, class officers or just plain dates.

IPC Gives "Tag and Drag"

The Interfraternity Pledge Council, composed of delegates from each fraternity and sorority, coordinates all pledge activities and provides training in group cooperation. Biggest IPC job this year was the sponsorship of the Tag and Drag dance for all pledges. At this affair Jancy Hunter, Pi Beta Phi, and Dennis Kane, Theta Xi, were crowned Pledge Queen and King.

Fraternities in Boom as Enrollment Stays High

Through representation in the Interfraternity Council, campus chapters of national social fraternities strive to integrate their activities toward a common goal of cooperation among all Greek-letter houses and between the fraternities nationally. The achievement of this aim has materialized through such council functions as support and enforcement of college policy concerning fraternities, and initiation or support of all interfraternity activities such as competition in athletics. The council also tries to promote a brotherly spirit among all fraternity men, usually with success, through occasionally fraternity members demonstrate their good will by stealing other houses front doors.

Four New Chapters

Four new fraternities, Alpha Epsilon Pi, Phi Lambda Alpha, Phi Kappa Tau and Sigma Chi added to the confusion and excitement of rush week at K-State this year.

Perhaps the most unique of these groups is Phi Lambda Alpha, an organization for Latin-American students at Kansas State. Sigma Chi, whose local petitioning chapter was known as Chi Sigma, received a hearty welcome on the campus, where it has been awaited for something like twenty-five years. Alpha Epsilon Pi is an entirely new group to the college, and Phi Kappa Tau has reactivated after a nine-year absence.

Top Frat Membership

This year fraternity membership is at a record peak. The four new chapters brought the total number of groups to twenty-three, with a combined membership of close to a thousand.

Each fraternity is represented on the Interfraternity Council by one member. The president this year was Robert Heckler, Sigma Nu. Prof. V. D. Foltz, a member of the Fraternity and Sorority Advisory Committee, sponsors the council.

BOOK IV

Our Organ

ized Society

A CLUB FOR EVERYBODY

THE original Campus of Tomorrow blueprint didn't say much about organizations. But organizations wouldn't be left out—as enrollment went up, so did organizations, both in number and in respective memberships.

So now on the K-State campus there are some three hundred clubs—which makes, roughly, a club for every twenty-three students. And considering that some of these have membership up in the several hundreds, the conclusion is almost inescapable that the average Stater is a well-organized guy.

What can three hundred clubs find to do? It doesn't seem to be a bit hard. When you consider that, no matter what curriculum you're in, there are, connected with it, probably (1) a general departmental organization, which meets to hear lecturers, (2) a sub-club for you and others interested in a particular phase of home economics or engineering or whatever, (3) a professional and honorary organization for members of your field, (4) at least two, and possibly four or five all-school or all-college honoraries for men or women, (5) any or all of several student-government organizations, and (6) as many outside-interest groups as you have time to belong to—consider this, and you begin to see how it works.

There are a few supermen and women around the campus who manage all of the above list, and stay on the Dean's lists too. And there are many more who let the studies slip a little in order to have more time for meetings—and many more than that who'd *like* to "join more things" but who just can't keep up the pace.

And they tell us it'll be like this all our lives—so we'd better get well-adjusted, but fast.

Left—Ag Association members have an interest in the progress of this "missing link" between East and West Waters Halls. This sketch is an architect's visualization and may not be exact.

Honorary Organizations

*by
Faye Converse*

"Honoraries" on every campus have undergone some far-reaching changes since a few William and Mary students, interested in intellectual pursuits, founded Phi Beta Kappa in 1776. Kansas State is no exception. Though her honor organizations once served only as a means of recognizing the scholastically outstanding and providing them an opportunity to study further in the company of other high-class scholars, today their work is almost entirely extracurricular. If our honoraries were to vanish from the campus scene, not only would we be without one incentive to higher achievement, we should have to find new sponsors for (to name a few honorary projects) the Homecoming Ball, the St. Pat's Prom, the Scholarship Dinner, and the Military Ball.

National Groups Recognize Seniors

Mortar Board's activities include the sale of "mums" at Homecoming and a scholarship banquet. Intelligent senior women leaders, the owners of the prized little square pins are sponsored by Misses Emma Hyde, Margaret Raffington and Mary Ann Montgomery.

Not to be outdone by their feminine counterpart, high-ranking senior men leaders unite in Blue Key, sponsored by Pres. Milton S. Eisenhower. They capably present the Homecoming Queen and plan the Homecoming Ball.

Phi Kappa Phi (see left) initiated ninety-one high-ranking seniors and graduate students of good character in the fall semester. Initiations are held every semester. A spring banquet and a campus speaker are sponsored annually by the national organization. Dr. W. F. Pickett is local president.

Who's Who Honors 28

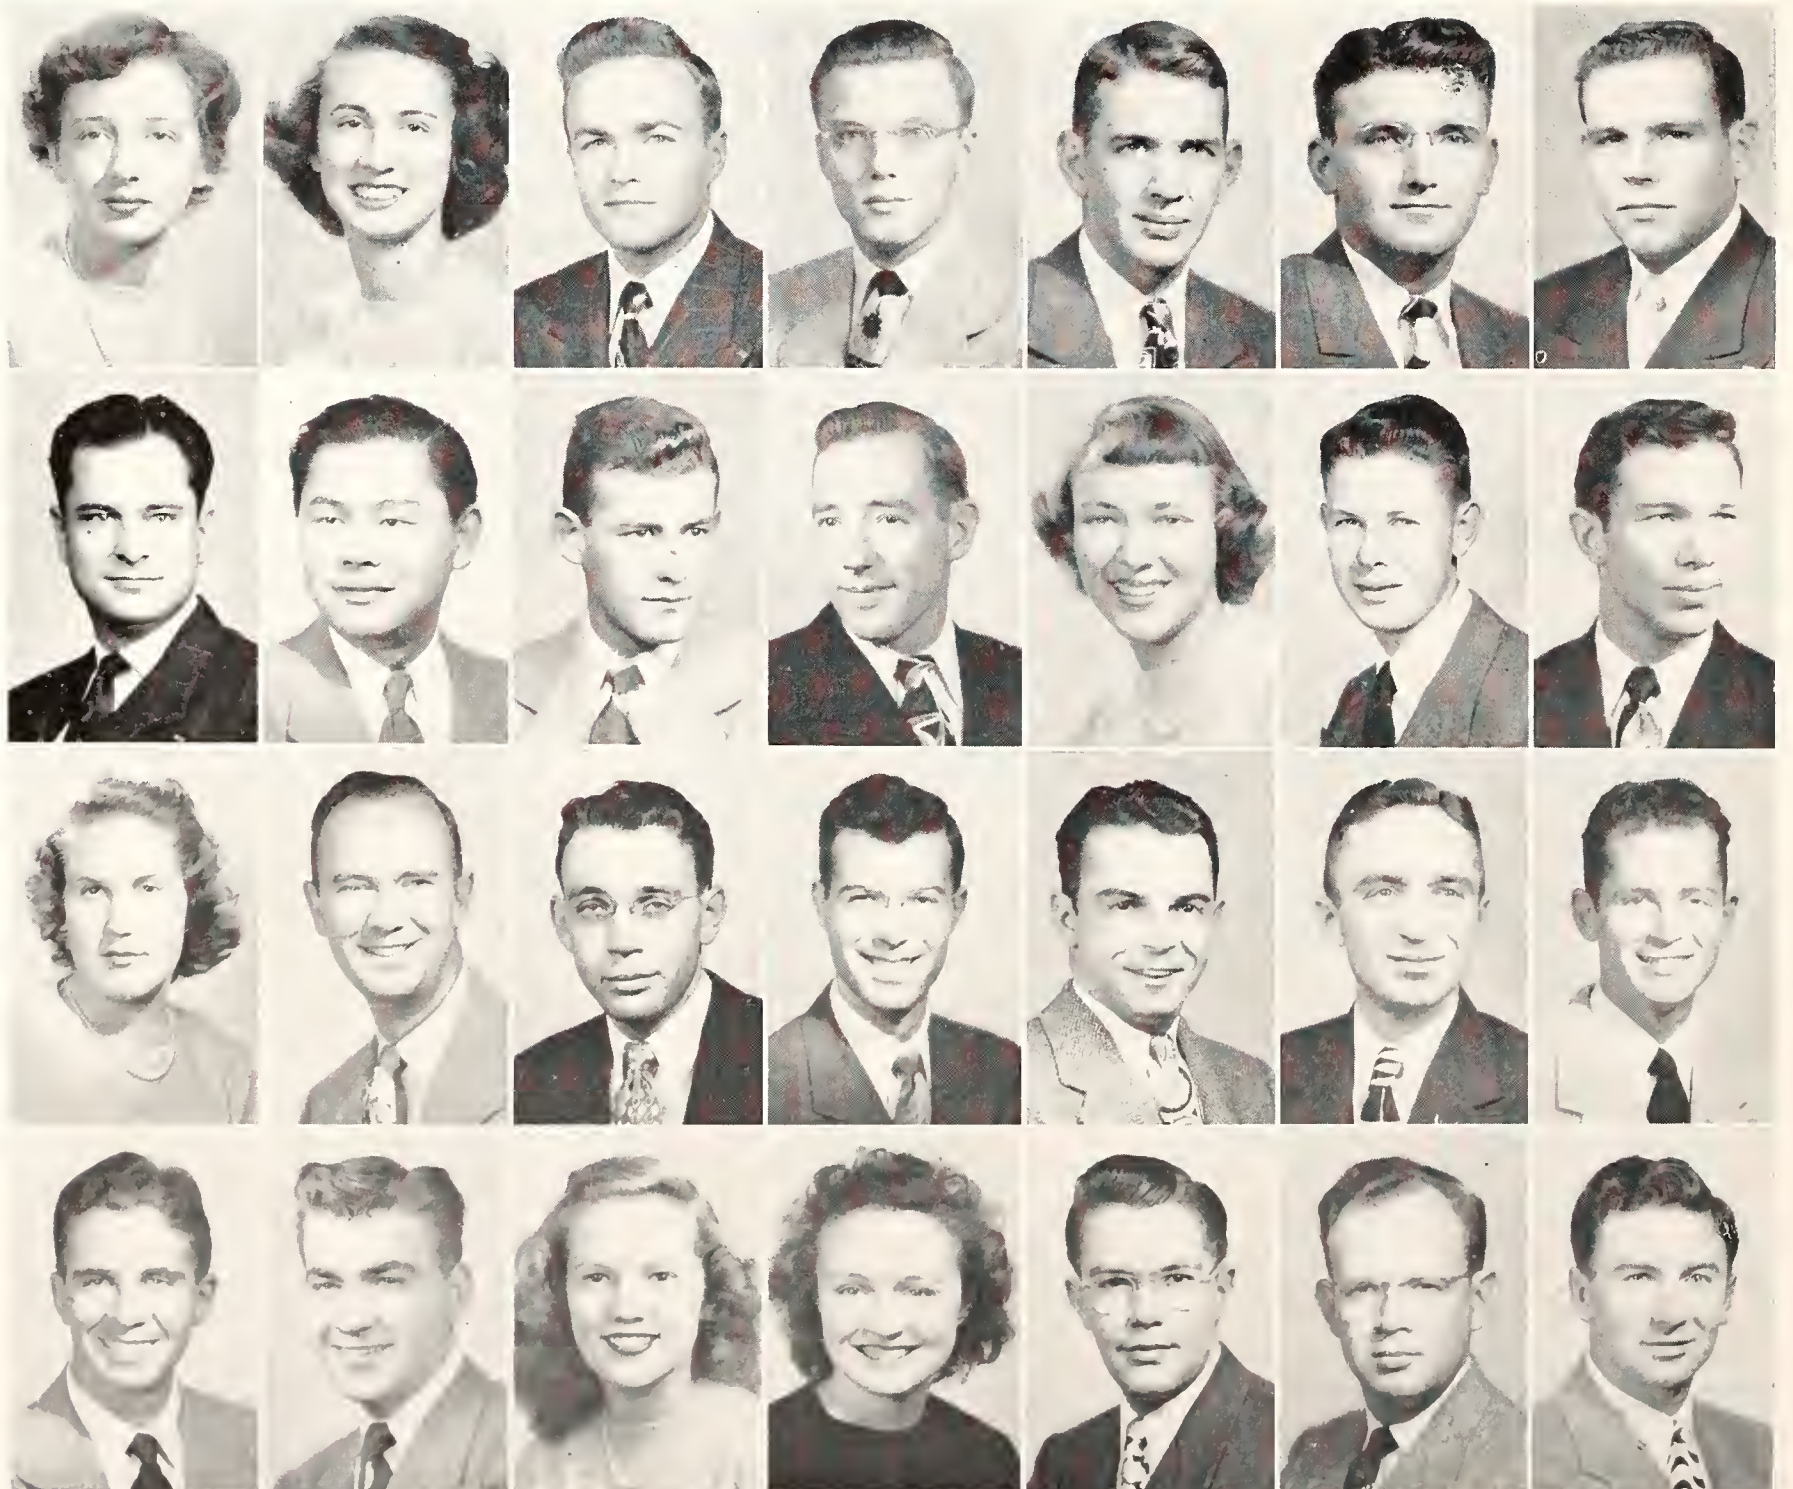

Students selected for Who's Who recognition will have their pictures, along with a short biography of their achievements, in the annual book, "Who's Who in American Universities and Colleges."

Each campus organization was asked to nominate at least two candidates on the basis of scholarship (1.5 grade point minimum), extracurricular activities, character, leadership in college activities, and possibility of future usefulness. For each candidate, rating sheets were sent to five people—two students and three older persons—familiar with the student's qualifications. Of 133 highly recommended aspirants, 28 were elected and 14 received honorable mention by a faculty-student committee composed of Charles Glotzbaach, Counseling Bureau; Richard Maloney, Registrar; Deloris Montague and Harvey Arand, students.

This year the various schools were represented as follows: Agriculture, seven; Arts and Sciences, ten; Engineering, eight; Home Economics, one; and Veterinary Medicine, two.

Numerous Projects Typify Engineer's Groups

Sigma Tau members demonstrate their engineering ability by transforming Nichols Gym, via a false ceiling and appropriate St. Pat's and engineers' motifs, into a fancy ballroom for the annual St. Pat's Prom. For other clear-cut evidence of their capability, look at "KS Hill," which is maintained by Sigma Tau.

Sigma Tau in 38th Year

Under the sponsorship of Prof. Leon V. White, the organization gives recognition to upperclass engineering students if they make excellent grades, show sufficient talent in the engineering field, and participate well in group activities.

Epsilon chapter of Sigma Tau was established on our campus in 1912.

Sponsor Annual "Alloy"

Steel Ring is a busy organization which loves to sponsor things. Its members work on Open House and stimulate rivalry by providing a trophy to be awarded

to the department displaying the best exhibits.

Their "dramatic ability" is shown at the annual Engineers' Alloy. The publication of the "Intake and Exhaust" is another exclusive activity.

Prof. L. M. Jorgenson and Prof. R. M. Morse stand behind the organization.

Steel Ring has members of high engineering interest and leadership ability, who "Keep the Steel Ring free of rust."

Honor Double E's

The young, growing organization of Eta Kappa Nu has 68 members, or 13 more than last year. Beta Kappa chapter was chartered here in 1939 to recognize scholarship and fellowship among upperclass electrical engineers who have character, personality, and who engage in college activities.

Under the faculty eye of Prof. R. M. Kerchner, these students promote projects such as a scholarship award to the most outstanding

Steel Ring—Back row: Treas. J. McClintock, K. Sellers, W. Barrett, A. Greif, H. Wood, J. Holman, D. Sheets. Third row: L. M. Jorgenson, M. Stuewe, D. Turnbull, O. Olden, D. Gregg, J. Roth, G. An exhibit in Open House is one of the projects the "double E's" present for public comment. More exclusive activities are picnics and parties for members and their guests.

Mixed Sliderules and "Sinkers"

Pi Tau Sigma members take an active part in the mechanical engineers' display at Open House. Members decided that food and concentration make a good pair, so they served coffee and cookies at meetings of a class

in sliderule operation, which they conducted in October.

Members work to develop attributes of leadership, citizenship, and fellowship. Requirements for membership are based on scholarship, socialability and practicality. Prof. B. B. Brainard, a charter member, is the faculty sponsor.

Kansas State Rho, chartered in 1939, is the eighteenth of the fifty-one chapters of the national fraternity.

Honoraries Back Frequent Campus Projects

Three-year-old Sigma Gamma Epsilon, honorary for geology students, works for scholastic, scientific and social advancement. With their sponsors, Professors Arthur B. Sperry and Charles P. Walters, the busy group maintains a bibliography of geology in Kansas and geology displays in Fairchild Hall. They publish an annual newsletter to graduates, promote an annual field trip with K.U., sponsor the Williston Geology Club and a spring field trip to geological points of interest in Kansas for geology majors.

Med Techs Convene

If you're a bright young woman, take medical technology, and are a good student, you may be eligible for membership in Alpha Delta Theta. Prof. C. A. Dorf and Prof. J. O. Harris sponsor the group. Five members and Prof. Dorf attended the national convention at Madison, Wisconsin last fall. Pledges plan an annual Christmas party, and graduating seniors are honored with a spring picnic.

Alpha Mu honored freshmen with a smoker for all milling students, and every year the industrious group mills flour which is given to needy families at Christmas. Members must be of high scholastic standing, receive the unanimous vote of the chapter, and be a leader in the milling field.

Faculty advisor is Prof. R. O. Pence.

Home Ecs Do Tutoring

Omicron Nu quietly carries on its purpose of promoting scholarship, leadership, research, and home economics. These feminine whizzes come from the upper 10 and 20 per cent of the junior and senior classes. They give teas for freshmen and transfer students, make a \$10 award to the freshman in home ec with the highest average, and maintain a tutoring service for all students. Assoc. Prof. Nina Browning is the faculty advisor.

In pursuit of better journalism and higher achievement are the members of Theta Sigma Phi, honor group for upperclass or graduate women in journalism. High-ranking leaders, they assisted with Editor's Day, sold senior announcements, recognized community leaders with the Matrix Table Dinner, and entertained professional speakers in their field. Sponsors of the lucky 13 were Profs. Helen Hostetter and Mary Ann Montgomery.

Publish Fools'-Day Paper

Sigma Delta Chi, composed of capable men who are planning careers in journalism, served luncheon in Kedzie Hall to visiting newsmen and women on Editor's

Day. Members were prominent in working on the Kansas Day edition of the Topeka Daily Capital; they sponsored the April Fool edition of The Collegian, and catered at the Royal Purple beauty ball. Prof. C. J. Medlin is their sponsor.

Lettermen Are Ushers

K-Fraternity, sponsored by Fritz Knorr, recognizes good physical development and sportsmanship. By earning a varsity letter, an athlete becomes eligible for membership. At the request of K-Fraternity, freshmen purchase their purple-and-white beanies. The muscle men handled the March of Dimes collection and ushered at various games.

Honor Talent in Wide Variety of Interest Fields

Big activities of Phi Epsilon Kappa included their Founder's Day dinner in April, and a mixer for men and women majoring in physical education. The fraternity sponsored prominent speakers from their professional field, and sold purple-and-white cowbells at football games. These phys ed majors of high scholarship, character and personality help promote better activities on the campus for major sports. Prof. Louis P. Washburn is their sponsor.

Take "Miser" on Road

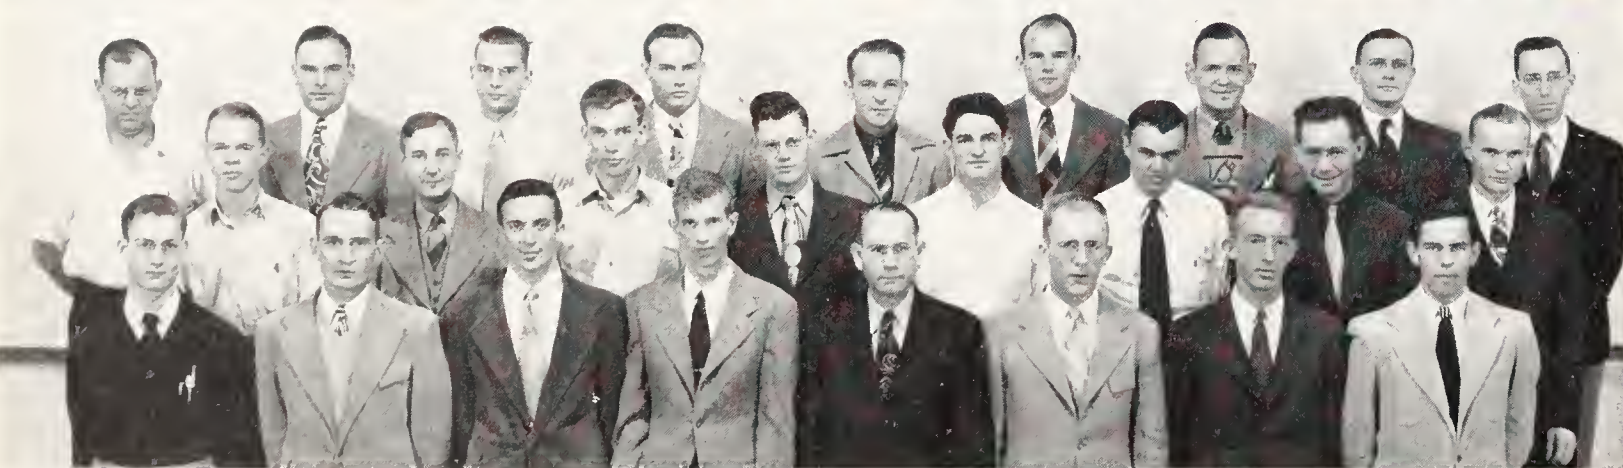

National Collegiate Players, honorary dramatic fraternity, promoted the road tour of the comedy, "The Miser." Striving to raise the standards of the theater and creative arts, the organization gave four awards for acting and two for stagework at its spring Oscar banquet. Members, who are upperclassmen, must have acquired 20 points in thespian activities and have the O.K. of the National Council and local group.

Chemists Reward Scholarship

High-ranking upperclassmen in the field of chemistry make up Phi Lambda Upsilon, which promotes original investigation in that field. New pledges were honored with a fall banquet, and a spring picnic was enjoyed by the hard-working test-tubers.

Award to Freshman

Each year the chapter makes an award to the freshman enrolled in chemical engineering, industrial or milling chemistry, who makes the highest grades. Faculty advisor is Assoc. Prof. W. H. Honstead.

Riflemen Take First

K-State's 35 members of the National Honorary Society of Pershing Rifles walked off with first place in squad and individual drill at the 7th regimental meet last spring. Members are in first- or second-year basic R.O.T.C. This uniformed group performed at the Homecoming football game, Military Ball, and did MP duty at Engineers' Open House. Capt. William C. Goers and 1st Lt. Edward M. Crockett are the sponsors.

Nearly 80 Are A.Z.'s

Alpha Zeta boasts 79 members in the field of technical agriculture. They are selected from the upper two-fifths of their class on the basis of character and leadership. These plaid-shirted, blue-denimed men strive to establish a spirit of fellowship among their members. Accepting faculty responsibility for the group are Prof. Merton L. Otto, Dr. Leigh Baker, and Dr. R. B. Olson.

Scabbard and Blade Backs Military Ball

Scabbard and Blade's projects are aiding with the military display for Open House and the Military Ball, sponsoring speakers from the active reserve and army, and dances for the gay blades and their wives or dates.

Aims include a closer relationship among military departments in American schools, development of good officers and military science-conscious citizens. Lt. Col. John S. Chalafant and 1st Lt. Gordon R. Myers are the sponsors for this organization, whose members are outstanding military students. Ivan Storrer was presiding officer this year.

For Inspiration and Guidance

by Barbara Bowyer

Religious organizations are a popular institution at Kansas State, providing opportunities for students of the same faith to get together socially as well as to join in worship and fellowship programs. Most of Manhattan's twenty-odd churches are represented by campus groups, and some denominations have several clubs.

Each denominational group sends a delegate to meetings of the KSC Religious Federation, whose big project during the year was co-sponsorship, with the YM and YW, of Lift Week. This five-day program included

an all-college assembly, a series of breakfast discussions with visiting authorities on religion, after-dinner talks at organized houses, and individual counseling.

Of particular interest to college church students was the new building activity occurring within church groups and on the campus.

Perhaps the biggest event in campus religious life was the dedication and formal opening of the Danforth Meditation Chapel, first wing of KSC's All-Faith Memorial Chapel to be completed. Since October 9, dedication day, the chapel has been in almost constant use for weddings, vesper services, meditation hours, and one funeral.

The drive for funds to complete the World War II memorial, of which the Danforth chapel will be only a small part, is continuing under the direction of the Alumni Office.

First couple married in Danforth Chapel were the former Beth Stockwell and Theodore Olson. Their wedding was October 29.

YM-YW Work Toward Better Understanding

Few indeed are the students who have not come into contact with the college YWCA or YMCA. Through individual and joint activities, these two groups have helped our college grow.

Each year they sponsor jointly several college functions. One is the Y-Knot frolic which gives new students a chance to get acquainted early in the fall.

Fun-filled folk and square dances are held twice a month under this joint sponsorship. Our annual Easter assembly is a product of their planning.

YW Here 65 Years

The Young Women's Christian Association was organized on the campus in 1885, and has about 250 members now. Any woman member of the campus community may become a member.

Its purpose is to build a fellowship of women brought together by their Christian faith. Each organized house has a representative in YW, which indicates progress toward that goal.

Girls who have a special interest in some certain subject meet weekly to discuss it. The groups center around such topics as racial understanding, camp counseling, leadership training, worship planning, and pub-

lic affairs.

Two additional activities are a weekly radio show and a paper published bi-monthly.

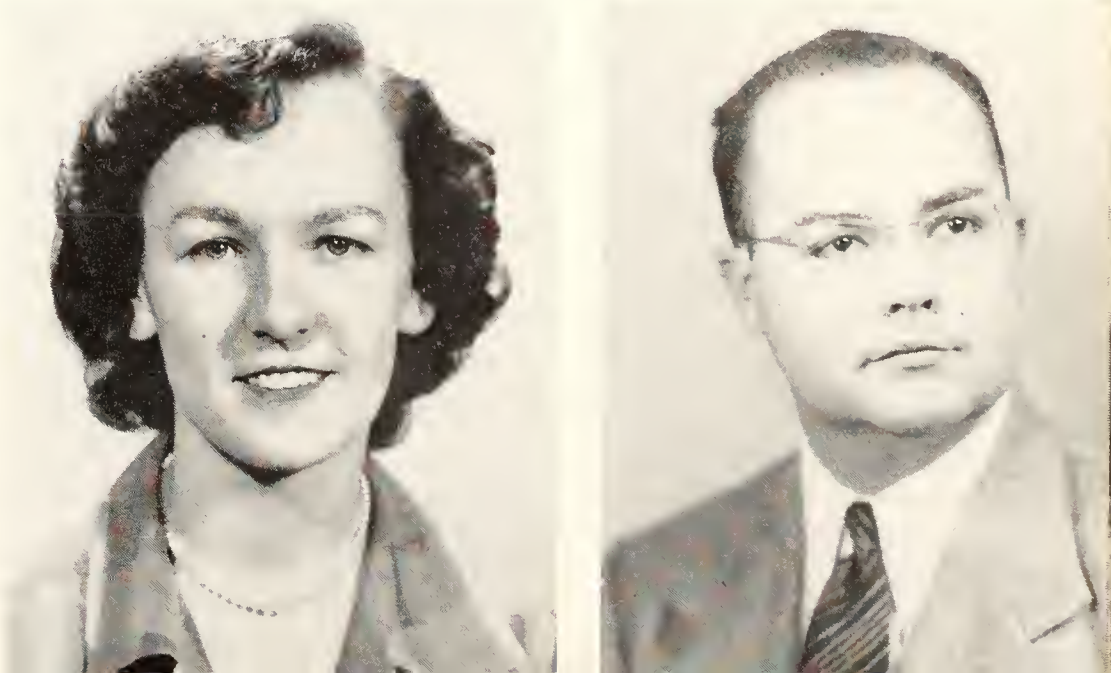

One of the first student YMCA's in the country was organized here in 1872. Now there are 325 members—75 more than last year. Young men may join by signing the statement of purpose and paying dues.

YMCA strives to develop mature Christian faith in its members, and through experience, effective American citizens; to combat actively any unethical relations; and to provide Christian fellowship.

Major Projects YM Sponsored

Services the YMCA originated include the employment bureau, the courtship and marriage series, and religious emphasis week. Chapel services, discussion groups, a radio program, and an information bureau are also part of its work as a college organization.

Carolyn Whitmore (right), a Vassar graduate, is just finishing her first year at K-State as YWCA secretary. YM secretary **Bill West** (far right) announced his resignation this spring, to go into theological work. This is his fourth year here.

Interfaith and Sectarian Clubs Cooperate

The Lutheran Student Association counts all students members who attend regularly and participate actively in the group. Fifteen more students met the requirements for membership this year than did last year.

Together the members of this organization work for spiritual development and cultivation of Christian friendship. Proof of this friendship is shown by one of their special projects, which is the sponsoring of a "Displaced Person," a student. Further evidence is the giving of financial aid to students in foreign countries.

Other activities of the group include weekly Bible study and meetings, and several parties throughout the year.

Membership Up Twenty

"To know Christ and to make Him known" is the purpose of the Kansas State Christian Fellowship. It is proud of its membership of sixty, which is an increase of 20 over last year.

Daily Bible studies and prayer meetings are two of

the activities of this interdenominational group. Chapter meetings and missionary meetings are held weekly. Seasonal parties are an enjoyable aspect of membership in this organization.

Federation Is Active

All twenty religious groups on the campus are members of the Kansas State College Religious Federation, whose purpose is to coordinate the activities of student religious organizations. The members in this way share their programs and work-projects.

LIFT Week was a joint project of this group, the YMCA and the YWCA. They were also responsible for bringing to the campus the University Christian Mission speakers.

All religions in Manhattan who have college youth groups are invited to become members of the Federation. Each is represented by a delegate, and no denominational group can have more than one group membership.

Gamma Delta and USF Have Fellowship Goals

Three-fold is Gamma Delta's program—religious, educational, and social benefits for Lutheran students. It also provides a positive program of Christian fellowship based on Christian knowledge and education.

Increase Membership

Twenty-two pledges were initiated this year, which brings the total membership to 70, an increase of 10 over last year's number.

Mu Chapter is one of the first chapters in the international organization. It participates in a state wide drive for funds to build churches and better facilities in Kansas college towns.

Furnishes Speakers

Gamma Delta serves Lutheran congregations by furnishing them with speakers, contributing ideas, and by supporting their programs.

Every other Sunday a meeting is held, with discussion

of a religious topic of interest to the members.

Recreation is a vital part of their fellowship. A get-acquainted picnic was an event of the first semester. The Walther League of Topeka was invited to Manhattan for another picnic. Intramurals with neighboring church teams included both basketball and softball.

Thirty-six members of this chapter attended a Christmas banquet sponsored by the KU chapter, and Christmas caroling is an annual event.

USF Has Scholarship Fund

Through their organization, United Student Fellowship members hope to foster Christian education, discipline, and fellowship among college students.

A scholarship fund for a Japanese missionary is the special project of this group. Weekly meetings are held each Sunday evening.

Membership in the United Student Fellowship is open to all college students and persons of college age.

United Presbyterians Adopt New Club Name

The purpose of the Young People's Christian Union is to bring students closer to Christ and help them realize the real Christian life. These young people of the United Presbyterian church try to accomplish their purpose through their Sunday evening services and through emphasis on daily Christian living.

Follow Scriptural Guide

"Seek ye first the kingdom of God and his righteousness; and all these things shall be added unto you," Matthew 6:33, is their motto.

Twenty students now belong to this group. To become a member, one must attend the meetings and must also be willing to lead services or help in any other way he is needed.

Help Buy Projector

A variety of activities was carried on by the YPCU this year. They helped raise money for a projector which is used to show slides and films. A pulpit chair was also purchased with their help. Donations were set aside for the special mission fund.

Friday night mixers were popular with club members and their dates. The Thanksgiving dinner program at the church was a result of their planning.

Kansas State's Iota chapter of Kappa Phi, national Methodist girls' club, dates from 1921. Four of the 33 U. S. chapters are located in Kansas.

102 in Kappa Phi

New initiates bring the total membership of Kappa Phi to 102. Its aim is to make "Every Methodist woman in the university world of today, a leader in the church of tomorrow." The group welcomes any Methodist or Methodist preference girl enrolled in college today. Girls who show an interest in the club are treated to a tea for new students early in the fall.

Service activities are their strong point. Helping with the nursery is one of Kappa Phi's main activities. Each year the girls give Christmas program at the I. O. O. F. home. They also did their part toward completing the new Wesley Foundation building.

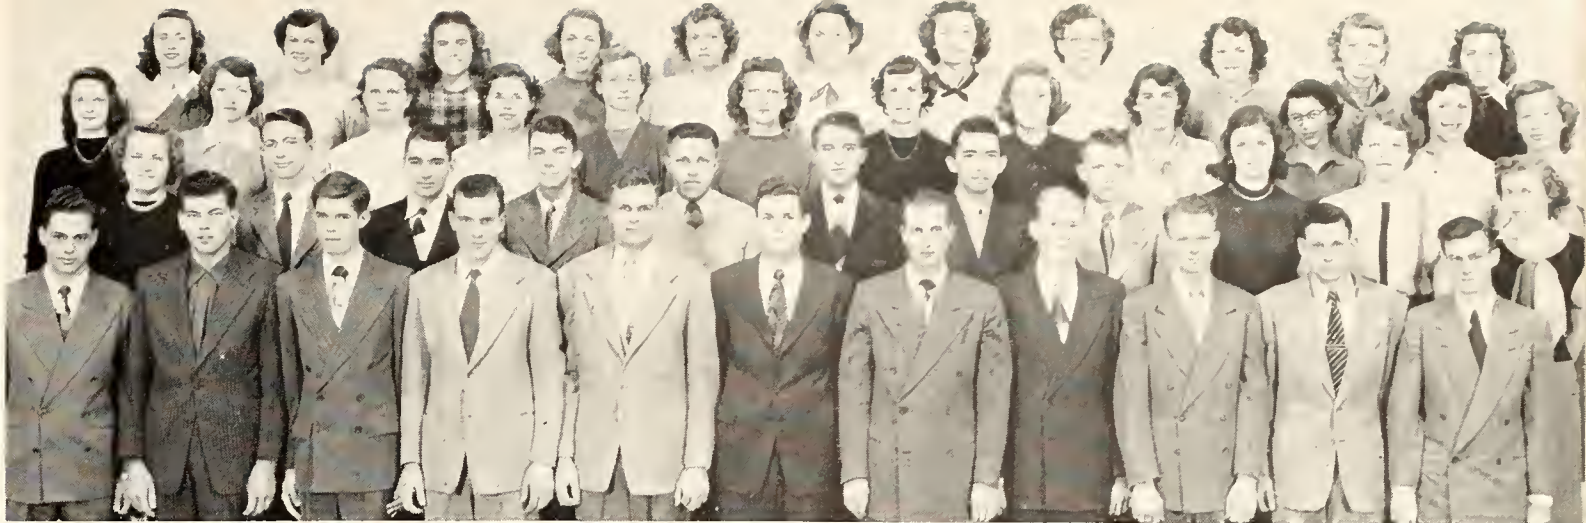

Meetings this year have centered around different phases of church life. Kappa Phi was host to the union meeting of Congregational, Christian, and Baptist young women's organizations during the year.

The chapter from Fort Hays State Teachers college was here for a joint meeting this spring. The national sponsor of Kappa Phi from Massachusetts also visited them at that time.

Methodists Soon Will Have Long-Wanted Home

Wesley Foundation expertly fulfills its motto, "Your home and church away from home." It provides religious and social fellowship for all students interested in the Methodist church.

Membership this year is about the same as last year—450 members. All members of Wesley Foundation must maintain an active interest in its activities and programs. A 50-member council helps in the management of the various affairs of the group.

Student Center Nears Completion

The new student center for Wesley Foundation activities fulfills a long-time dream. Recreation and fellowship facilities make it a truly functional building for college students. It is conveniently located at 1427 Anderson, just across from the campus.

Each year special dates are listed on Wesley's calendar—September, the month of teas and dinners for new college students; November, the annual Thanksgiving dinner; December, Christmas festivities and meditation; April, the Easter Sunrise Service; and May, the eagerly awaited spring retreat.

Just as enjoyable, but more spontaneous, are the many parties and activities of Wesley Foundation through the school year. Some are serious, some are full of fun, but all show a genuine spirit of cooperation.

The Saturday Niters are a group of parties held once

a week during the year. Mixers, get-acquainted parties, dancing, scavenger hunts, square dances, and skating parties are included. More casual entertainment consists of corn-popping, listening to records, group singing, ping pong, and gift exchanges. Picnics, hikes, and softball games are for the nature-lovers.

Hold Weekly Devotions

Morning Devotions are held each Sunday in the church sanctuary. Soft organ music and meditation are featured.

Sunday evenings are made enjoyable by fellowship, food, and forums—meditation and discussion. Films, plays, book reviews, and interesting talks have been a part of these forums.

Wesley Players is an active group that presents plays during the year. Wesley Singers welcomes anyone who likes to sing. They often help out Sunday morning.

Circulate Digest

All college students are familiar with the Wesley Digest, which is circulated from the post office on Wednesdays. It is published by the Wesley office here on the campus.

Deputation teams provide services and programs for churches in towns close to Manhattan. These teams are made up of Wesley students and help to further the Christian service of Wesley Foundation.

Guerrant Finishes 30 Years With Foundation

1950 marks the end of 30 successful years with the Westminster Foundation for counsellor William U. Guerrant, Presbyterian college pastor.

Westminster Foundation aspirants need only express Presbyterian preference to be eligible for membership, which at the present count is 100.

Training in layman church work is one purpose of this group. Another is to provide a spiritual and social outlet for Presbyterian college students.

Foundation members enjoy such activities as Bible study, monthly parties, and publishing a paper called "Bill's Beacon."

Emphasis on Fellowship

Any male enrollee of Kansas State may become a member of Phi Alpha if he belongs to the Presbyterian church or is interested in promoting the Protestant church.

Phi Alpha provides an opportunity for fellowship among Presbyterian men students, strives to attain a higher standard of Christian life and conduct by making

the principles of Jesus more real, and provides wholesome training and social life toward the end of stronger more efficient men in the Presbyterian church.

Newest Club Grows Fast

K.S.C.'s newest campus religious organization is the College Baptist Student Fellowship. Already it has a membership of about 50 students.

Any college student may become a member by attending three consecutive meetings and expressing to the president the desire to belong.

Activities of this group include missionary work, gospel teamwork, a recreational program, social events, and hearing outstanding speakers.

The purpose of the College Baptist Student Fellowship are many: to exalt Jesus Christ, to promote the practice of His teachings in students' lives, to encourage active individual and group missionary and gospel efforts, and to apply the Holy Scriptures intelligently to the problems facing man throughout the world today.

Christian Science, Baptist Groups Gain Members

Promotion of Christian solutions for community and world problems is one purpose of the Baptist Youth Fellowship. It aims to contribute to the spiritual lives of students by its offer of Christian fellowship for all members, and to develop participation in missionary activity.

Students between 18 and 26 who are members of the Baptist church will be welcomed into the group, which now has 100 members.

CARE packages were sent to Youth Groups in Belgium by the B.Y.F. A Youth Week banquet was one of their social events. Sponsors were Dr. and Mrs. Paul M. Young.

Fast Growth for Group

The Christian Science Monitor Youth Forum was organized on the K.S.C. campus in the spring semester of 1948. It now has 30 members, an increase of 10 over last year. Members must be between 16 and 30,

attend a Christian Scientist church, and agree to the purposes of the Forum. Motto of the group is "Injure no man, but bless all mankind."

Meetings are devoted to discussions on the Christian Science Monitor. The forum seeks to provide cooperative, cultural, and social activity for its members. Song fests are a unique phase of their social activities. Dorothy Pettis is faculty sponsor.

21 Years of T. E. Activity

Theta Epsilon provides religious inspiration, fun, and fellowship for 20 Baptist girls in college. The only requirement for membership is Baptist church preference. The group has been active on the K.S.C. campus for 21 years.

Members help in the church nursery and also aid the James Street Mission in Kansas City. Social activities include box suppers, picnics, teas, and rushing. Miss Stella Harriss sponsored the group.

600 Catholic Students Unite at Newman Club

College life in its religious aspects is stressed in the educational programs of the Newman Club. It was organized at Kansas State in 1913 to fill the need for social and religious activities for Catholic students attending a secular college. Any Catholic student enrolled at Kansas State is eligible for membership, which now totals 600.

At Monthly Breakfast

Newman Club meets the first Sunday of each month. Following mass and communion, breakfast is served. Then a program is held discussing moral and social problems of interest to college students.

The Rev. E. J. Weisenberg S. J. of St. Mary's, Kansas, has been advisor of the club for 15 years. This

year, he also directed the programs, which included a series on Love and Marriage and on the attitudes and teachings of the church.

Mass in New Chapel

For the first time, through the sponsorship of Newman Club, mass has been celebrated twice weekly during Lent on the campus, at Danforth Chapel, to help fill the religious need of Catholic students during Lent.

The annual symposium was again presented in many towns throughout Kansas. It is a religious play produced in cooperation with other clubs of Kansas.

Social functions this year included a skating party and a semi-formal dance in April. Coffee hours are also held regularly.

Church Activities Fulfill Purpose For Members

Kappa Beta's challenging motto is "Stir up the gift of God that is within you." Its purpose is fourfold: friendly relationship among student women of the Disciples of Christ church, a deeper interest in the church to make the work of Kappa Beta a real means of Christian influence, expression of each member's faith by service, and high scholarship and broader interest in human activities.

Any college girl may become a member who wants to affiliate herself with the activities of the church. There are now 42 members, an increase of 10 since last year.

Financing the kitchen at the Christian Foundation House is their special project. Other activities include donations and a church bazaar booth.

Canterbury Attends Conference

Canterbury Club is principally for members of the Episcopalian church, but is open to anyone. There are now 35 members.

Its purpose is service to the church, and in return, an opportunity for inspiration, relaxation, and recreation.

A conference of Kansas clubs is one special project. Religious instruction and social fellowship are two activities of Canterbury.

Girls Sponsor School

Eigma Eta Chi is for Congregational college women. Members-to-be must be willing to live up to its standards. Special projects are the Lotts Creek Community School in Kentucky and the Luchnokaia candlelighting service, which is presented in Kansas each year.

Chapter Organized in 1944

The chapter here was organized in 1944, and holds meetings the first and third Tuesday of the month. The twelve members have as their motto a text from Luke: "And Jesus increased in wisdom and stature, and in favor with God and man."

Professional and Interest-Activity Groups

by Diane Alexander

Of the hundreds of campus organizations listed on the Organization Control Board's records, the great majority are clubs designed to supplement classroom work in the student's field of specialization.

Many of these are local chapters of national professional organizations, and provide contact with men of authority in their respective areas. Others are strictly KSC affairs, though they fill the same function of add-

ing to student interest and knowledge.

All of these groups are entirely student-operated, though each of them has a faculty advisor under Control Board regulations. Most of them combine business with pleasure.

Membership ranges from six to six hundred. Some have treasuries big enough to pay orchestras, write and publish yearbooks, give banquets; others dig deep to get doughnuts to go with the after-meeting coffee. A few groups are approaching their fiftieth birthday at Kansas State life, but the greater number have been chartered or organized within the last fifteen years as the school expanded and offered more diversified courses.

Interest clubs are a real part of Kansas State, especially as the college continues to become known as one of the country's best, for they show that students here are getting the kind of education that prepares for living and thinking as well as for getting a job.

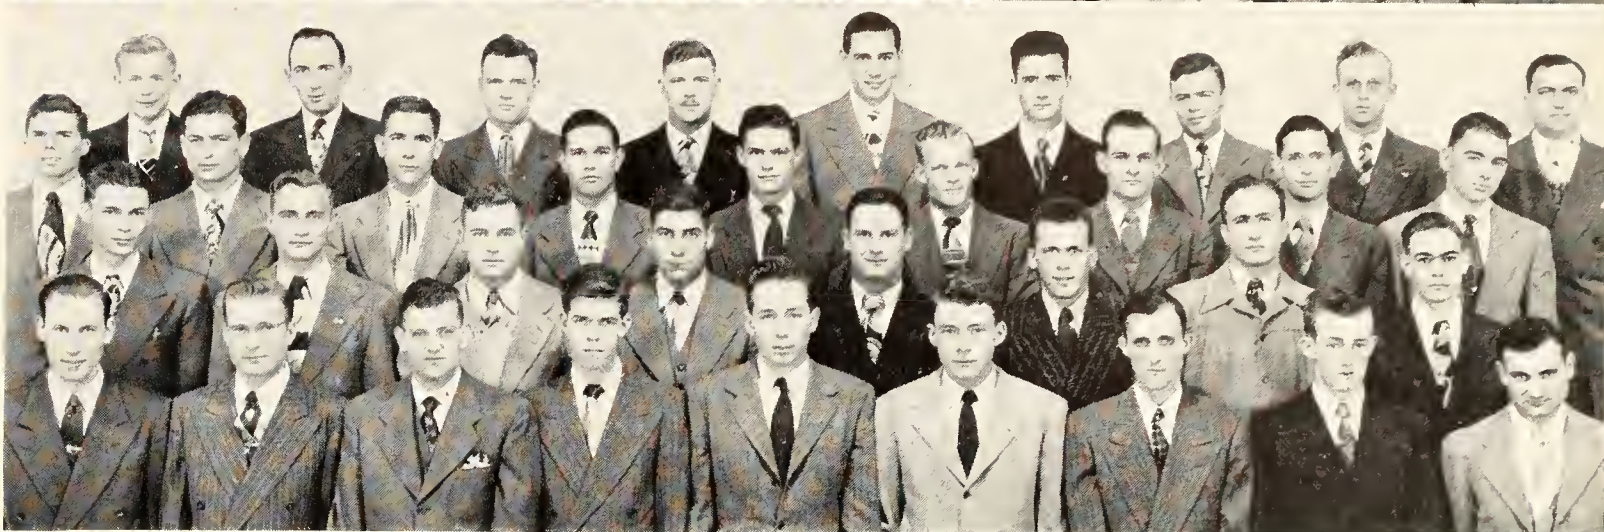

With or without stimulating liquid refreshment, club picnics at Sunset or Top of the World (Marlatt Park) are ever-popular.

Ag Organizations Stimulate Interest in Farming

Carrying out its purpose of helping future teachers, and assisting in the state contest for the Future Farmers of America, the Agricultural Education club this year served box lunches at the Future Farmers of America state contest, awarded a plaque to the team receiving the best record at the state contest, and held annual parties, a spring picnic, and a smoker.

Membership Increases by 45

Officers leading the club in these activities and in participation in intramural touch football, basketball, volleyball and softball, were President Robert Anderson, Vice-President Milton Keim, Secretary Howard Keim, Secretary Howard Thomas, Treasurer Warren Harding, Reporter Wallace Terrill, Parliamentarian Robert Barnes, Agriculture Council Representative Gerald Lawrence, and the advisor, Professor H. L. Kugler.

The Agricultural Education club was organized in 1946, soon after the establishment of a curriculum in

agricultural education, and has been active since. From an original 15-member charter, the organization has grown to include 148 students, an increase of 45 over last year.

Association Backs Ag Week

Open to all undergraduate enrollees in the School of Agriculture, the Agricultural Association functions to stimulate interest in agriculture.

The club chose for officers: president, Jim Dixon; vice-president, Norman Collins; secretary, Oliver G. Russ; treasurer, Jack Graham; Barnwarmer manager, Charles Glenn; assistant Barnwarmer manager, Robert P. Kuhn; and Agricultural Student editor, Dale Wiseman.

Assistant Dean C. W. Mullen was advisor of this club, which boasts 1,355 members. The association sponsors the annual Ag Barnwarmer, Ag Week, and conducts monthly Agricultural Seminars at which well known agricultural leaders speak.

Future Teachers Are New Here This Year

The Harl Douglass Chapter of the Future Teachers of America grew out of the Horace Mann Centennial and is a project of local, state and national education associations.

Open to all who exhibit an interest in the teaching profession, the club introduces prospective teachers to those already in the profession and promotes fellowship among its members.

First semester officers were: president, Roger Wilk; vice-president, Paul Degenhardt; secretary, Chester Templer; treasurer, Diann Davis; librarian, Gloria Nanninga; historian, John Wagner; and parliamentarian, Willis Poland.

Promote Use of Spanish

Second semester officers were: president, Paul Degenhardt; vice-president, Don Hart; secretary, Evelyn Skonberg; treasurer, James Hilliard; librarian, Don Shoup; and parliamentarian, Jack Rickter. Professors Finis Green and R. V. Olsen were sponsors.

Club Cervantes was founded in 1946 by a group of Spanish majors and Latin American students with the purpose of promoting the usage of Spanish. Meetings are conducted in Spanish while members listen to Spanish records and learn Spanish dances. Chosen as president was Blanca Van Beverhoudt. Other officers were: Vice-President Shirley Sykes, Secretary Jean Bell, Treasurer Louis Zambrana, and Historian Corrine Taylor. The club's sponsors were Professor Manuel Ramirez and Miss Thurza Mossman.

Citizenship Majors Organize

Criticorum, restricted to students in the Institute of Citizenship, elected Phil Rude president, Hartzell Whyte vice-president and business manager, Shelly Baruch treasurer, and a board of directors which includes Kent Thompson, Marian Echelberger, and Bill Crawford.

The purpose of Criticorum is to promote programs designed to afford experience in democratic group discussions.

Masons, Air Hams, Hort Experts Organize

Striving to promote better fellowship among Masons on the campus, the Kansas State Masonic Club held educational programs, coaching teams, and stag parties this year.

In order to widen its range of activities, the club also did degree team work in connection with the lodge in Manhattan.

The presidency this year was held by Morris Dilworth. Other officers were Jesse Longwith, vice-president; Jerald White, recording secretary; Carl Moran, corresponding secretary; Antom Harris, treasurer, and William Hauserman, sergeant at arms. Don Moss and Norman Byers sponsored as members of the faculty.

Hams Ready for Emergencies

Guided by the purposes of arousing interest among college students in amateur radio, of bettering the communication techniques of those who hold licenses, and of being of public assistance by handling communication in and out of possible areas of disaster, the Kansas State Amateur Radio Club owns and operates a 750-

watt station which can be operated on emergency as well as by regular power.

Presiding over the club first semester was Melvin Thurlow. Secretary and treasurer was Albert Arndt, chief phone operator was Earl Fox, and chief C.W. operator was James Lareau.

90 in Hort Club

The Horticulture Club, organized on December 16, 1920, proposes to promote good fellowship among members and to advance the science of horticulture.

Ninety strong this year, the members elected Joseph Brady as president, Bernard Kline as vice-president, Phillip A. Hedman as secretary, Duane L. Nelson as treasurer, and David Vanhaverbeke as program chairman. These officers, with the help of sponsor Associate Professor Ronald W. Campbell, led the club in staging the Horticulture Show on Homecoming week-end, sponsoring the ping-pong tournament for the ag school clubs, and backing improvements for Marlatt Memorial Park.

4-H Draws Record Membership, Leads Ag Work

With membership rising to the 600 mark as a result of a successful drive, the Collegiate 4-H Club draws its constituents from former 4-H clubs, and also non 4-H'ers who are recognized as associate members.

Functioning to maintain contact with former 4-H club members and students with similar background and interests, to assist in promotion of 4-H club work on a state-wide basis, and to help in any way possible the welfare of K.S.C., the fast-growing club may attribute its success to the sound basis on which it is organized.

Has Frequent Functions

A fall dance, spring dinner dance, spring picnic, Christmas party, and regular meetings twice a month in Recreation Center are a few 4-H activities. J. Harold Johnson and the state 4-H staff sponsor the club.

Organized in 1927 with only 60 members, the Collegiate 4-H Club is now one of the largest organizations

on the hill. "The 600" sponsored one of the school bulletin boards as last year's service project.

Pre-Meds in Clinic Club Work Toward Profession

Requiring its members to be enrollees in the pre-medical curriculum in good standing, the Clinic Club proposes to promote social and intellectual cooperation and fellowship, to better understand its professional objectives, and to organize the common endeavors of the members.

Frank Elected Prexy

Functioning since 1948 the club this year elected Gael Frank as president, Dick Colburn as vice-president, and Edda Bradstreet as secretary, with Dr. Mary Harmon as sponsor.

Hear Med Speakers

The group holds meetings each month consisting of talks pertaining to medicine and information on procedure for entering medical school, and deadlines for applications and aptitudes tests.

Dr. Mary Harmon, faculty sponsor, was one of the founders of the organization. Also, she is faculty advisor for all pre-medical students.

Many of the present members were charter members, and thus have seen the membership double and then still continue to increase, a fact which offers great incentive to the club.

First Extension Club in Middle West is at KSC

The Extension club, whose motto is: "Extending the campus to the farm", was organized in 1948, the first group of its kind west of the Mississippi.

Headed by President Floyd Ricker, Vice-President Glen Cartee, Secretary Elizabeth David, and Treasurer Richard Nichols, the club welcomes any student who is interested in promoting friendship between future extension workers and a better understanding of extension methods. With Mr. Leonard Neff and Mrs. Velma Houston as sponsors, the club studies recreation leadership and enjoys a picnic or party each semester.

Vet Wives Present Fashions

Organized in 1945, the Veterans' Wives Club this year elected Mrs. Philip Rude president, Mrs. Robert Doyle vice-president, Mrs. Dan Linn secretary, and Mrs. Bruce McLaury treasurer first semester, and second semester Mrs. William Reynolds president, Mrs. William Dodge vice-president, Mrs. Charles Woodrow sec-

retary, and Mrs. Frank Ridgway treasurer. Sponsored by Mrs. Tom Parker and Mrs. Roy Langford, the wives entertain with an annual tea, style show, and a family picnic.

President Clint Rankin, Vice-President Bob Simmons, Secretary Mary MacCaskill, and Treasurer W. E. Anderson led the Chaparajos Club through a very eventful year. Founded four years ago for the purpose of fostering interest in light horses, the club with Professor B. E. Ellis and Professor Emmit Breen as sponsors maintains its own stables and owns 12 trained jumping horses.

Special projects for this year were the purchase of the north lantern on Danforth Chapel, several inter-

collegiate rodeos, cross country rides, and non-academic riding courses.

Participation in two intramural activities is the requirement for joining the Womens' Athletics Association. Reorganized last year, membership has risen to fifty-seven under President Gertrude Stork, with Miss Katherine McKinney as sponsor. The State W.A.A. convention was this year's project, carrying out the club's motto "to further athletics for women."

With the aim of increasing their swimming ability and learning new swimming techniques, the Frog Club

holds frequent meetings and a yearly aquacade. Members selected for president, Louise Lynn, for secretary-treasurer, Lou Jean Moyer; and for program chairman, Alice Becker.

Physical education majors in 1944 organized on this campus their own professional club, Phems. Meeting monthly, the girls, assisted by sponsor Eva Lyman, plan the annual Play Day. Elected as president was Donna Tipton; as vice-president, Marilyn Hart; as secretary-treasurer, Jackie Kissick; and as program chairman, Alice Becker.

Aq Groups Study and Promote Special Fields

Any student in the agricultural journalism curriculum or otherwise interested in the field may join the Plow and Pen Club, which was organized in the fall of 1947, the first of its kind.

Sponsored by Elbert B. Macy, who is a charter member, the club elected Delmar Hatesohl president, Harold Brown vice-president, Don Wilson secretary, and Dale Evans treasurer. In their monthly meetings Plow and Pen members heard outstanding speakers in their field and endeavored to publicize the curriculum to high school seniors, as well as to promote interest in and improve the quality of agricultural writing.

Club for Chicken-Fanciers

Increasing this year to forty-two members, the Kansas State Poultry Science Club welcomes interested students.

A member of the National Collegiate Poultry Science Club, the organization promotes interest in the poultry industry and brings about closer relationships between faculty and students.

Paul C. Barrett was elected president this year, with Charles K. Katfield as vice-president, N. Jason Beck as secretary and Bill M. Johnson as treasurer.

Dr. Paul E. Sanford acted as sponsor.

Agronomists Elect Klaassen

Theodore Klaassen was elected president this year of the Klod and Kernel Klub, which is a member of the Student Section of the American Society of Agronomy. Other officers were Elder Anderson, vice-president; William Smies, secretary; Charles Townsend, treasurer; Edward Robins, reporter; Robert Dole, corresponding secretary; and Byron Patton, sergeant at arms. Klod and Kernel Klub members must be students in agriculture and have a genuine interest in agronomy and the promotion of improved agronomic practices. Holding meetings twice a month, a membership smoker and a steak fry each semester, Klod and Kernel took responsibility for the student crops judging contest and the

F. F. A. crops judging contest under sponsor John Gooding.

A charter member of its national organization, the Block and Bridle Club was established in 1919. Since then it has continued in its purposes of promoting animal husbandry, bringing about a closer relation between animal husbandrymen, and promoting higher scholastic standards.

B & B In Many Activities

Led this year by President Harold Dalbom, Vice-President Lloyd Lewis, Secretary Miles McKee, Corresponding Secretary Byron Alber, Treasurer Bill Edwards, and Marshal Ray Fort, the club was a co-sponsor of the Little American Royal, staged the Block and Bridle Banquet, the Block and Bridle Judging Contest, the Feeders Day Dinner, and an annual steak fry. Prof. David L. Mackintosh served as sponsor.

Milling Membership Required

The Milling Association, organized with the purpose of keeping students informed of modern and current trends in the milling industry, requires membership of all student in milling who are sophomores or above and have a C average.

Meeting once a month, the group listens to speakers who have been in some particular phase of milling, such as milling administration, chemistry, or technology, for a number of years.

Meyer Presides

John Meyer presided this year, assisted by Vice-President Walter Cochren, Secretary-Treasurer Don Buster and Sergeant-at-Arms Rex McCommon.

Faculty sponsors were Prof. Ward and Donald Fleming.

APC, Quill Are Among Most Active Groups

Operating as a national service fraternity, Alpha Phi Omega requires for membership previous experience in Boy Scout work, a desire to render service to others, and a satisfactory scholastic standing.

Chapter Active 20 Years

J. R. Watkins is president, Leo Ream vice-president, Frank MacCreary secretary, and R. A. Vanderwilt treasurer of this organization, which was founded nationally at Lafayette in 1925. Pi Chapter at KSC was founded in 1930, and has been active ever since except during the war.

Has Many Projects

Seeking to fulfill its purposes which are to assemble college men in the fellowship of the scout oath and law, to develop friendship, and to promote service to humanity, the club sponsors the Lost and Found, coat-check and coke stands at all-school dances, parties for members and their dates. A.P.O. contributes to the Com-

munity Chest, Christmas seals, Red Cross, and the March of Dimes. R. B. Nevins is the sponsor of this 70-member organization.

Quill Sponsors Writers

Membership in the American College Quill Club is limited to those members who gain approval of submitted manuscripts. The Quill Club encourages literary activity and literary criticism among college students, and fosters publication of literary work.

The local chapter was founded in 1914 by Miss Ada Rice, a faculty member, and then joined with the Kansas University chapter to form a national organization.

President J. F. Periale, Secretary Oliver Maskil, Treasurer Shirley King Sykes, Faculty Vice-President Roy Goss, and Faculty Sponsor Russell Laman direct the group in creative writing and in sponsoring a short story contest and a literary magazine open to all students.

Philosophy, Psychology, Wives All Have Interest

Organized in 1948 for the purpose of stimulating interest, discussion and better interpretation of contemporary events in history, the History, Government and Philosophy Club is open to any student majoring in one of these fields, and to staff members of the department as associate members.

First semester officers were Don Hart, president; Joseph Periale, vice-president; Lorraine Lacey, secretary-treasurer; Louise James, social chairman; and Neil Thompson, program chairman.

Second semester leaders were: Norman Jones, president; David Smith, vice-president; Betty Pendergrass, secretary-treasurer; Gerry Sanford, social chairman; and Bert Wayt, program chairman. Miss Hazel Riggs, Mr. Cecil Miller, Dr. Louis Douglas, and Miss Inez Alsop are faculty sponsors.

Wives Are Organized

The Student Wives' Educational Association was founded in 1947, when Miss Ellen Batchelor of the home economics extension faculty called a meeting of

wives of students living within 25 miles of Manhattan. Family relations was selected then, and has continued as the major interest.

President Elaine Watt, Vice-President Mildred Linn, Secretary Glenna McCammon, Treasurer Jessie Kline, Publicity Chairmen Margaret Bowerman and Betty Harding, and sponsor Miss Ellen Batchelor led the activities of the club this year.

Psychologists Present Programs

Electing as officers this year Carl Morgan, president; Bill Weaver, vice-president; Marjorie Imler, secretary-treasurer; and Paul Degenhardt and Dorothy Whitman, program chairmen, the Psychology Club, sponsored by Paul Torrance, functions to further and create an active interest in the many areas and applications of psychology.

Business meetings with a program and a social hour with refreshments, as well as parties and picnics are the functions of the club. Members must be psychology majors or be especially interested in psychology.

Future Animal Docs Join to Advance Profession

Totaling over two hundred and fifty members, the Kansas State College Student Chapter of the American Veterinary Medical Association devoted its efforts to advancing veterinary science and promoting social and literary activity. The organization also sponsored a smoker to welcome new freshmen, fall and spring dances, a banquet for graduating seniors, and a family picnic for married vet students.

Chartered in 1939

The Kansas State College chapter was organized in 1906 under the name of Veterinary Medical Association. The group functioned under this name until 1939 when it was granted a charter by the American Veterinary Medical Association, when it adopted its present title.

Members of the Junior A.V.M.A. were represented in Who's Who, the Student Council and UNESCO, and

found time to take an active part in intramural football, basketball, volleyball, baseball and track.

To become a member of the organization a student must be enrolled in the School of Veterinary Medicine, and attend and participate in its meetings and activities. Upon graduation members in good standing are admitted into the National Chapter of the A.V.M.A.

KSC's UNESCO Group Is First of Its Kind

Promoting fellowship and understanding between faculty members and students majoring in ag economics is the prime purpose of the Agricultural Economics Club.

Serving as president first semester was Dick DeFord, with Gene Foltz as vice-president, Dean Newell as treasurer, and Frank Lewis as corresponding secretary. Second semester president was Dale Watson, with Keith Tuggle as vice-president, Frank Lewis as corresponding secretary, Cleo Kuhn as recording secretary and Larry Andra as treasurer.

Formed on this campus in the fall of 1947 the Kansas

State College UNESCO is affiliated with the Kansas Commission for UNESCO and was the first to be formed on any college level.

Officers elected included Chairman Robert Snyder, Deputy Chairman Richard Chase, Corresponding Secretary Nancy Barnard, Recording Secretary June Cline, and Treasurer Connie Armitage.

Formed in March of last year, the Kansas State College Chapter of Student Affiliates of the American Chemical Society is an organization open to chemistry majors. Leading the organization (not pictured here) this year was Robert Lewis Doyle.

Clubs Contribute To Open House, Little Royal

"Dairy Farm and Home Week", the intercollegiate dairy judging contest, the judging for the state Future Farmers of America Convention, the Dairy Club dance and picnic, and co-sponsoring the "Little American Royal" takes much of the time of Kansas State College Dairy Club members. Men majoring in either dairy manufacturing or dairy production may join the club and aid in increasing the knowledge of all those interested in the dairy industry and in promoting good relations between faculty and members of the club.

The group elected as leaders: Bill Collins, president; Elroy Eberwein, vice-president; Bob Wulfkuhle, secretary; and Owen Fennema, treasurer, with Professor W. H. Chilson as sponsor.

Arts Club for Upperclassmen

A member of the Student Industrial Arts Association

must be of sophomore or higher standing, and must be enrolled in the industrial arts curriculum. Professor Earl Darby sponsors the group; Larry Crow is president, Willard Greene vice-president, Duane Gregg secretary-treasurer, Harry Parker program chairman, and Alvah Dyer open house chairman. The club acquaints students with the latest developments in industrial arts, gives them more definite ideas as to the opportunities and requirements for success in their profession, promotes acquaintance and fellowship among the students, and furthers the interests of industrial arts.

Campaign for Honor Group

Currently, an attempt is being made to bring an honor society for industrial arts students on the campus. The 110 members of the present club contribute to Engineers Open House, sponsors a smoker and picnic.

Bug and Rock-Fanciers Get Technical Dope

The special project of the Kansas State College Entomological Club was the publication of a yearly news letter. The organization also presented papers at the Kansas Entomological Society meetings, and held picnics and a Christmas party as highlights of their social calendar for the year.

Increase to Sixty

Rising to a membership of sixty students the Entomological Club elected to the presidency, James Sullens. Other officers were Tom Harvey, vice-president; Glenn Munger, treasurer; Jack Neal, secretary; and John Jay and James Kraing as an executive committee. Merlin McDougal acted as publicity chairman and Professor Wilbur sponsored the group.

Open to all students majoring in geology, the Williston Geology Club meets several times each month to hear outstanding speakers in the various fields of geology, sponsors geology seminars, and participates in an annual field trip to points of geologic interest in Kansas.

Keeps Students Informed

The club is sponsored by Sigma Gamma Epsilon fraternity and strives to carry out its purpose of keeping students abreast of new developments in geology and giving them the benefit of the experiences of successful geologists.

With Professor Arthur B. Sperry as faculty sponsor, the Geology Club has increased this year to 197 members.

Music, Dance Groups Foster Interest in Arts

Under the motto, "Soli Deo Gloria", the Kansas State College Student Group of the American Guild of Organists was authorized by its national council in 1946.

Headed by Jo Harriett Hofsess, with Corinne Holm as vice-president and program chairman, and Virginia Wyatt as secretary-treasurer, the organists work to raise the standards of church music and organ playing in America.

To be a member, one must be a college student studying organ with a member of the American Guild of Organists.

The club gives occasional recitals and attends concerts of well-known organists. Sponsored by Robert Hays, it also participates in the meditation services for the chapel program.

Orchesis Doubles Membership

At present there are 26 members in Orchesis, an increase of 16 over last year showing the popularity of the club. To be a member of the organization, a student

must show interest in modern dance, and pass a tryout.

A one-month apprenticeship is required for those new to Orchesis, whose purpose is to create an interest in the art of modern dance.

Electing Donna Shannon as president, Patricia Wilkinson as vice-president, and Pat Hunsaker as secretary-treasurer, the girls gave a spring program of different types of modern dance. Miss Jacquelyn Van Gaasbeek is the groups sponsor.

Promusica Sings Carols

President Carol Uhlenhop, Vice-President Joyce Davis, Secretary Donna Reed, Treasurer Carolee Dodd, Program Chairman Virginia Wyatt, and Social Chairman Florence Dickson led Promusica in its year's projects and activities, the principal one of which was caroling at Christmas time.

Sponsored by Mr. Charles Stratton, this club has been providing opportunity for music-lovers to meet socially since it was organized on the campus in 1945.

Business Clubs Help Students Find Future Jobs

Business administration majors are eligible to join the Business Students Association. The club's aims are to advance the best interest of business students and to further their education by lectures presented by faculty and business men. The organization also strives to promote interest by inspection trips to representative establishments in Kansas and to assist students in contacts for future employment. Bringing its members together with faculty for social functions is also a club project.

Active Since 1936

Active since 1936, the organization this year elected Donald Bridgewater as president, Dean Hess as vice-president, Doris Crandal as secretary, and Kent Dodge as treasurer. The faculty sponsors were Professor Harry Stewart and Professor Conrad Erickson.

A "B" average and 30 hours of college credit in business administration are the prerequisites for membership in the Alpha Omega chapter of Alpha Kappa

Psi. Professional in nature, the group strives to further the individual welfare of its members, to foster scientific research in the fields of commerce, to educate the public to appreciate and demand higher ideals in business, and to promote courses leading to degrees in business administration.

Holmes Is President

This year's officers were: president, Richard Holmes; vice-president, Gerald Clark; secretary, John Wagner; treasurer, Ward Dodge; and master of rituals, Dean Hess. Professor Harry Stewart and D. A. A. Holtz were sponsors.

Members of the club enjoyed a smoker to meet prospective members, a picnic at Sunset Park, and speeches on various phases of business and commerce given by invited speakers. Among the visiting speakers were Mr. Evan Griffith of the Union National Bank, Mr. Clair Wahl, and Professor Conrad Erickson.

Engineers Stress Development of Special Talent

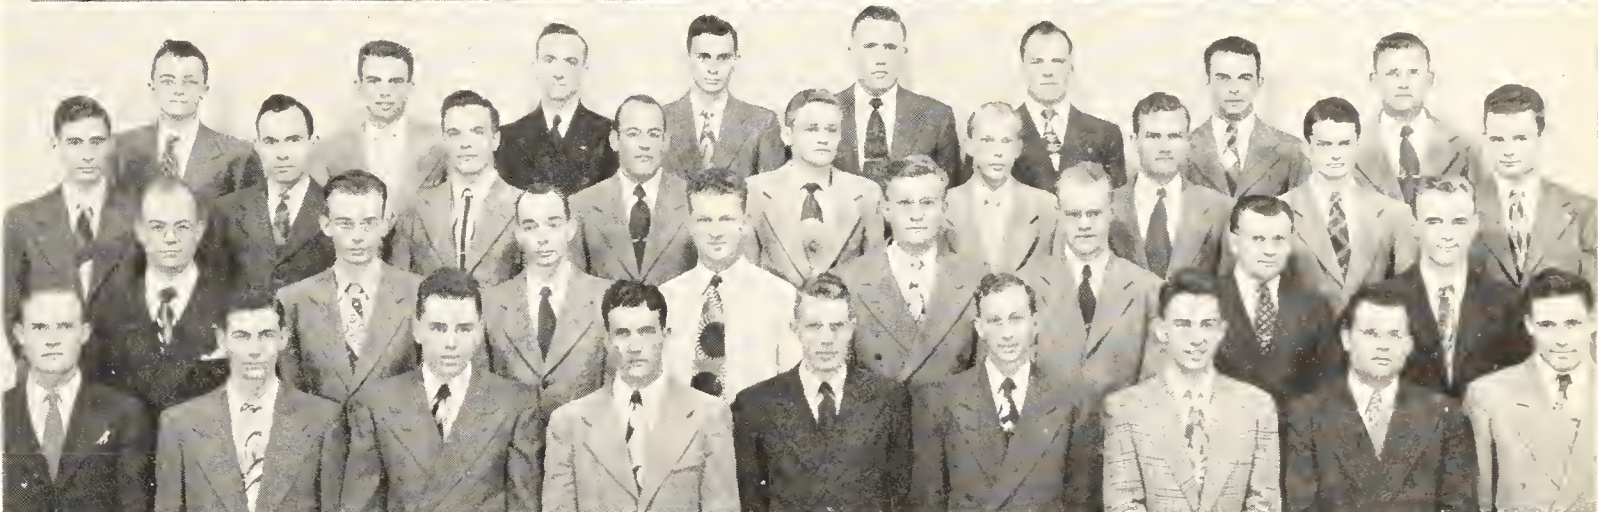

Emory Hickert, Donald Robinson, Robert St. John, Robert Scholtz, and Ray Thompson were elected respectively chairman, vice-chairman, secretary, treasurer and program chairman of the Student Branch of the Institute of Radio Engineers. This organization, whose purpose is to acquaint students with the electronics and communications field of electrical engineering, and to help them become acquainted with professional electrical engineers, sponsored a smoker and several lectures.

Undergraduates enrolled in electrical engineering, may become members of the Student Branch of the American Institute of Electrical Engineers, whose purpose is to develop the latent abilities of students enrolled in electrical engineering. Chairman James Holman, Vice-Chairman Paul Jones, Recording Secretary Bill Harper, Corresponding Secretary Glenn Bergmann, Treasurer Roger McWilson, and Sergeant at Arms Ward Clark led the organization.

Mechanicals Score First In Open House Displays

Under the motto of "Engineering for Modern Living" the Engineers Open House of 1950, planned and produced by students with the aid of faculty advisors, presented so many different phases of engineering that everyone from high school students to technical experts found displays of interest.

Honors for the best exhibit went to the Mechanical Engineers, with the Ag Engineers and Civil Engineers coming in for a close second and third.

Moeller Overall Head

Calvin Moeller was chairman of the Open House Committee and Dwight Kortman acted as secretary. Subcommittee Chairmen were: Wilbur Gaughan and Earl Burdick, Publicity and Printing; Ralph Newkirk, Aeronautics; Dale Turndull, Ag E.; Robert Siler, Applied Mechanics; Paul Remmele, Architecture; William Harper, Assembly; Richard Alexander, Chemical E.; Harold Cary, Civil E.; Emory Hickert, Electrical E.; Frank Nash, Machine Design; Frank Westerman, Mathematics; W. W. DeWittie, Mechanical E. and

Petroleum; John Moorman, Military; William Liggett, Program; Alvah Dyer, Industrial Arts; and Loyd Brumfield, Routing and Signs. J. M. Wood was faculty advisor.

Organized on the campus in 1923, the Kansas State College Student Chapter of the American Society of Civil Engineers reached an all-time high in membership with 150 members during the 1949-50 year.

Hear Guest Speakers

The aim of the Student Chapter of the A.S.C.E. is to provide for the professional development of the civil engineer.

Don Newton was president of the chapter during the first semester; Harold Cary, vice-president; Don Simcox, secretary; Milton Pollitt, treasurer; and Gayle Achterberg, program chairman.

Officers for the second semester were Milton Pollitt, president; Harold Cary, vice-president; Hal Faulconer, secretary; Durl O'Neil, treasurer; and Wayne Lander, program chairman. Prof. F. F. Frazier acted as advisor.

The purpose of the Student Branch of the American Society of Agricultural Engineers is to promote professional interest in that field. All students enrolled in ag engineering are members of this organization.

Learn Value of Experience

Meeting twice monthly, the group heard guest speakers who presented various phases of the professional outlook demonstrating the value of practical experience.

Officers elected for the year were Don R. Barger, president; Stanley Wood, vice-president; Carroll Nelson, secretary-treasurer; and Ken Hanson, scribe. Gustave Fairbanks sponsored the club.

Increasing by approximately 90 members over last year, the Kansas State College Student Chapter of the American Institute of Architects is open to all students in architecture or architectural engineering above the

freshman year.

A.I.A. Is Revitalized

The student A.I.A. has previously been open to seniors only and has not been really active since the war until this year. The group has now reorganized under a new constitution and has made a great deal of progress. The purpose of the organization is to foster and promote fellowship, cooperation and a spirit of unity between student architects and practitioners, and to emphasize the professional rather than the social aspects of student activities.

Presiding this year was Russell A. Jones with Paul Behrent as vice-president; John Hankammer as secretary; R. James Noone as treasurer; Al Grief as historian; and Paul Remmele as architecture Open House chairman. Faculty sponsors were Paul Weigel and T. A. Chadwick.

Practical Training Offered to Engineers' Clubs

The Kansas State College Student Branch of the American Society of Mechanical Engineers is composed of upperclass students enrolled in mechanical engineering.

Train For Later Work

Founded on this campus in 1914 as a branch of the professional organization, the group has continued to carry out its purpose of advancing and disseminating knowledge of the theory and practice of mechanical engineering, offering contracts with the personnel and activities of the American Society of Mechanical Engineers, and developing the members' initiative and ability to take on public responsibility.

Presiding for the first semester was Chairman Ernest Thorn. Other officers were Vice-Chairman Le Roy Du Bois, Secretary James Watkins, and Treasurer Norman Ernst.

Second semester officers were Chairman Norman Ernst, Vice-Chairman Russel Smith, Secretary James

Dancer, and Treasurer Bill Verbeck. Professor A. H. Duncan was the sponsor.

Are Hosts to Conference

Activities and special projects of the club included the sponsoring of the mechanical engineering Open House displays and the hostship to the spring conference of the A.S.M.E. where each attending school presented technical papers. An annual joint meeting was held with the Kansas City and the Kansas University sections of the A.S.M.E.

Ch.E.'s Are Pro Group

The American Institute of Chemical Engineers was organized on this campus in 1934 to develop professional attitudes in Chemical Engineering. The group elected John McClintock, president; Edwin Griffith, vice-president; Richard Merriman, secretary; and John McKeen, treasurer for the first semester. Second semester officers were: Dewey Peterson, president; Willis

Chinese Students Organize

The Chinese students enrolled in K.S.C. formed in 1948 the Chinese Student Association which entertains yearly with three banquets. President Szu-Shiang Chang, Secretary Jean Chen, and Treasurer Shan-Wu Lin were leaders of the group.

Campers Join Club

All students who have ever attended a summer session at Camp Miniwanca, Shelby, Michigan, on a Danforth Scholarship are members of the Miniwanca Club. Serving as president, vice-president, and secretary-treasurer respectively, were: Meredythe Hall, Norman Collins and Helen Cazier.

Mr. and Mrs. Harry Otto were faculty sponsors of the organization.

Margaret Justin Club Has Many Subdivisions

Each year the School of Home Economics stages a Hospitality Days event. Under the Hospitality Days Steering Committee, a weekend is devoted to showing visiting high school girls, college students, faculty, and townspeople how home economics is taught at K.S.C.

Co-Chairmen Virginia and Vivian Armstrong and Vice-Chairman Mary Baertch appointed other members of the steering committee. This group, with help from the students and faculty of the school planned, prepared, and presented the programs.

Clothing Group Is New

Organized to acquaint the girls with retailing and with opportunities in this field, the Clothing-Retailing Club welcomes home economics students who are in this area of specialization.

Just inaugurated this fall, the club elected Barbara

Kraemer president, Helen Howell vice-president, Jacque Compton secretary-treasurer, Betty Coady program chairman, and Barbara Mohri radio chairman.

Miss Esther Cormany, sponsor, helps the girls plan the style show for Hospitality Days which is their main project.

H.E.'s Do Extension Work

Home economic students interested in extension work may join the Home Economics Extension Club, whose purpose is to help its members understand extension methods and become acquainted with personnel in the field.

Electing as officers Evelyn Erickson, president; Alice Boone, vice-president; and secretary-treasurer, Nell Bauman for the first semester, the Extension Club held a social chili supper and sent games and toys to a children's tuberculosis hospital in Denver.

The Home Economics Art Club elected Reeve Hansen president, Mary Delle Byler vice-president, and program chairman, Joan Wolgast secretary-treasurer, and Jean Beck and Margaret Butler bulletin-board chairmen for 1949-50. This group, organized last year, was co-winner of the Home Ec Club interest plaque award.

Miss Margaret Raffington sponsors the Home Economics Freshman Counselors, an organization whose members must be juniors and have an ability to work with people.

Roberts, Sprinkel Are Heads

Betty Roberts presided over the Nutrition and Dietetics Club with Nina Raines as program chairman and Charles Carter as membership chairman.

The Nursing Club functioned under the leadership

of President Carol Sprinkel, Vice-President Joyce Anderson, Secretary-Treasurer Lola Keech.

Council Governs HE Clubs

Composed of the officers, the presidents of the subdivision groups, the standing committee chairmen and sponsor, the Home Economics Executive Council is the main governing body of the Margaret Justin Home Economics Club.

Members selected as officers: Katherine Wingert, president; Dorothy Stover, vice-president; Mary Lou Edwards, secretary-treasurer; and Twila Oltjen as lecture board chairman.

The main project of the club is promoting Hospitality Days, but it finds time to stage the Snowball, annual dance, and to contribute to various funds. Margaret Raffington is sponsor.

Girls interested in teaching home economics can become members in the Margaret Justin Home Economics Teaching Club, which this year elected Christine Allen as president, Josephine Pixley as vice president, and Delores Salmons as secretary-treasurer.

Furnishing information about careers in home economics and journalism, the Home Economics Journalism

Club publishes the "Home Ec Girl". Sponsored by Helen Hostetter and Mary Ann Montgomery, the club chose Alys Reeder president, Wilma Luthi vice-president, Joan Argabright secretary-treasurer, and Barbara Bowyer program chairman. The Freshman HE Club elected Mona Jo Piper as president with Jo Williams as sponsor.

Both Big Political Parties Have Campus Groups

Rapidly expanding, the Cosmopolitan Club now boasts seventy members, an increase of thirty over last year.

Discussing world affairs, listening to student speakers on international friendship, and sending members out to Kansas high schools to speak on this subject are some of the activities of the organization.

Acting as president was Il-Sayed Gaafar. Other officers elected were: Blanca Van Beverhoudt, vice-president; Joan Kay Ehram, recording secretary; Eugene Fieldhammer, corresponding secretary; and Naser-Aly, treasurer. Sponsors were Manuel Ramirez and C. V. Miller.

Republicans Number 200

Any young man or woman attending Kansas State College, and believing in the principles of the Republican Party and intending generally to support its candidates may join the Collegiate Young Republican Club.

With a membership of two hundred students, the club

functions to advance the interest of young Republicans in party organization and activity. Several social functions were held during the year.

Leaders of the organization were: President Ross Schimmels, Vice-President Ben Pickering, Secretary Cynthia Morrish, Treasurer Edward Murray, and Auditor Howard Sparks.

Members will be hosts to the statewide collegiate Republican convention this year.

Ryan Advises Demos

Rechartered in 1946 by Larry Ryan after a lapse during the war, the Young Democrats of Kansas State College consists of students with high democratic ideals and the intention of becoming members of the Democratic Party.

Leading the group this year were President Harold Niernberger, Vice-President King Cole, and Secretary-Treasurer Arthur King. Larry Ryan, Kansas Secretary of State, acts as political advisor for the group.

For Those Who Have the Time And the Inclination

by Howard Sparks

Kansas State, like every other school from kindergarten up, has its luckily small percentage of students whose time just doesn't seem to be completely taken up by academic pursuits. We say "luckily" because if every enrollee plunged into feverish extracurricular activity with the zeal of those pictured in the following pages, the whole school would crack up under impossible pressures.

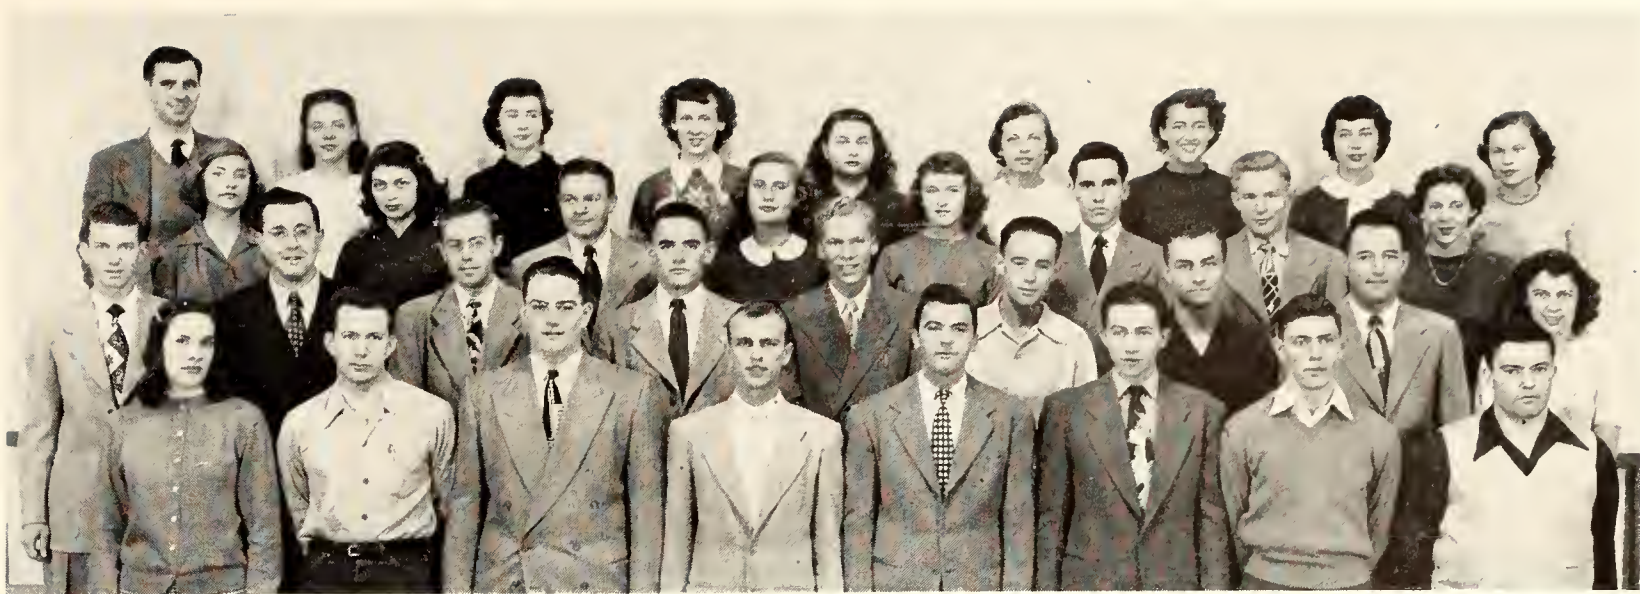

Not that we aren't heartily in favor of this outside-the classroom stuff. No one who heard the A Cap-

pella Choir at the Christmas Vespers, no one who left the auditorium with creases in his face after seeing Marvin Altman as "The Miser," no one (we hope) who follows the Collegian or who reads this page can help but be. It's just that some of us have more energy than others—and how! Energy is what it took in great bucketsful to make the all-collegiate production of "Martha" the success that it was; energy is what it takes for Purple Pepsters and Wampus Cats to keep on cheering to the end of a losing gridiron contest—or even a winning court battle. Energy is involved in the out-of-town trips which the judging teams, music groups, players and many others made in order to carry the "Word" about Kansas State to people in the home towns.

Energy is a Kansas characteristic—and has been since John Brown. We're proud to show we can keep up the tradition—after all, what's sleep and studies?

Even the villainous hero listens as all hands come on deck for Garth Grissom's Big Moment in "The Miser".

"Miser" Is Players Hit In Brilliant Season

Two extremes of comedy were offered by the Kansas State Players during the year. The first production of the fall semester was "Three Men on a Horse," a modern farce with a race track flavor. The second show was "The Miser," a classic French farce written in the 17th century by Moliere.

The summer production was "Jennie Kissed Me." Also a comedy, "Jennie" was directed by Earl G. Hoover and starred Roger Sherman, Shirley Smith, Barbara Meals, and Joe Adams.

The three men on a horse were Dave Meier, Marvin Altman, and Joe Adams. They were supported by Dick Badenhop, Margaret MacGregor, and nine others of the Players' top performers.

Substituting as Director of Drama this year for Earl G. Hoover, who is taking work towards an advanced degree at Iowa University, was Thomas Trenkle. Tom is no stranger to the Players, having worked with them three years ago before going to Catholic university in Washington, D. C., for further work.

Other activities of the Players were an adaption of "A Christmas Carol," given at the Christmas assembly, a set of one-acts and scenes, publication of a magazine, "Downstage Center," and a recognition banquet.

Jekyll changes to Hyde and vice versa, with variations, as the cast for "The Miser" (right) assumes its various faces and forms. "The Miser" played to appreciative road-show audiences and full houses at KSC.

"Miser," "Martha" Top Successful Season

Biggest event in dramatic circles—which is to say, the K-State Players—was the road-show tour of Moliere's "The Miser". This show, which was planned as the first of an annual exchange-tour series among Big Seven schools, played to enthusiastic audiences in Fort Riley, Lawrence, and Topeka, as well as to two packed houses in Manhattan.

Marvin Altman, in his ninth role at K-State, outdid himself as the bowlegged, gouty, scrimping miser of the piece. Acting is fun, according to Marv, who will graduate this year, but being an architect's more secure financially—so architecture gets a great talent.

KSC's Department of Music made entertainment history too, this year, producing the Flotow opera "Martha" with all the trimmings, including a thirty-voice chorus and thirty-piece orchestra. Two casts of principals were chosen, one for each performance. In the principal roles were Pat Hale, Joanne Frudden, Mary Jo Staley, Ruth Thomas, Paul Huddleston, Lyman Hancock, and Ivan Rundus.

William Fischer, professor in the music department, was largely responsible for the opera's success. He produced the show, directed it, and took the baton for the chorus and orchestra.

Daughter Elise (Sally Sanderson) and her miser-father Harpagon (Marv Altman) in one of their few relatively happy moments (*above*). "Miser" Marv reportedly couldn't stop walking with his toes turned out for three weeks after production. A 30-character chorus (*below*) and an orchestra of the same size supported the three principals for the music department's full-scale production of Flotow's "Martha". The opera, produced last March, was first work of its kind to be presented by K-Staters in several years. Full-house audiences showed they liked the change.

Tom Trenkle (*right*), who directed all Kansas State Players productions this year, was the toast of the thespians for his morale-building qualities. In the summer school production, "Jennie Kissed Me!" (*below, center*), Barbara Meals, Roger Sherman, Shirley Smith and Joe Adams get ready to deal with a new development in the lightly humorous, good-hot-weather plot. Shattering the calm of all concerned, "Three Men on a Horse" dashed racily across the fall stage. (*Below*) Dick Butler, Marv Altman, Dick Badenhop, Margaret MacGregor, and Shirley Smith demonstrate the piece's prevailing lack of dull or even calm moments. The Players this year showed an unusual variety of talent, and could probably have provided two separate casts for each of their productions.

Men's, Women's Glee Clubs Combine This Year

During the second semester of this year, the men's and the women's glee clubs were combined into one organization which had about 30 members during the semester. Performances of the men's club were at the Christmas assembly where they sang, with the women's glee club, the Bach cantata, "For Unto Us a Child Is Born," and at the performance of the Messiah in the auditorium early in April. William R. Fischer, who directed the men's glee club last year and the first semester of this year, also directed the combined groups.

The four Kansas State college bands—football, varsity, concert, and brass choir—were busy this year as they presented 30 performances in 36 weeks. These included six football games (five at home, one at KU),

eight basketball games, two off-campus concerts at Manhattan and Clay Center high schools, four campus concerts, pep rallies, radio broadcasts, and playing for spring commencement. The concert, varsity, and brass choir bands are not active until the end of the football season when the football band is divided into the three units. Membership in the various bands is determined by competitive tryouts.

The bands this year were again under the supervision of Jean Hedlund, who has been band director at Kansas State for four years. Hedlund personally directed the concert and football bands and was assisted by Harry Lenhoff who directed the varsity and brass choir bands.

Choir Featured in Vespers, Spring Tour

Highlight for the 1949-50 season for the Kansas State College A Cappella Choir was a five-day tour taken during early April. Stops on the trip were one each at St. Joseph, Mo., Atchison, Topeka, and Hiawatha, Kans., and three in Kansas City, Mo. In Kansas City the 85-voice choir performed at two high schools and at a church.

Part of the program presented by the choir on the tour were scenes from the opera, "Martha," given in March by the music department, and excerpts from "Porgy and Bess" by George Gershwin.

Sing for Chapel Dedication

Other performances by the purple-gowned choir were at the Danforth Chapel dedication early in the school year, vesper program at Christmas, three radio shows,

and an assembly in May. Thirty-two of the choir's personnel were selected to perform the Bach motet, "Jesu Meine Freude", during National Music Week held on the campus in May.

Luther Leavengood, who is also head of the music department at Kansas State, was director of the A Cappella Choir again this year. This is the fifth year that he has directed the student group.

Orchestra in "Martha" "Messiah"

The Kansas State College-Civic orchestra began the year with a concert given on the campus in December. Most of the orchestra's personnel were used for the orchestra for the music department's presentation of the opera, "Martha," in March and all of the group were used for the "Messiah" in the first week of April.

1949-50 Cheerleaders were (back row) Dick Cederberg, John Fleener, Clark Danner, Don Cochran, (front row) Yvonne Swenson, Patty Sue Warnick, Shirley King, June Boydston.

Wildcat Sports Activities Backed and Boosted

The Wildcat cheerleaders were headed this year by John Fleener, who was awarded the King of Pep crown by the Purple Pepsters at the Gold Diggers' Ball. Other cheerleaders for the first semester were Dick Cederberg, Clark Danner, Don Cochran, Yvonne Swenson, Patty Sue Warnick, Shirley King, and June Boydston. During the second semester, Shirley Taft, Joyce Bigham, and Ruth Price were elected to the group to replace Yvonne Swenson, Patty Sue Warnick, and Shirley King.

The cheerleaders are chosen by the vote of the two campus pep groups, the Wampus Cats and the Purple Pepsters. The eight cheerleaders are chosen by the groups first and then the head cheerleader is elected from this group.

P.P.'s Throw Ball

Active this year in boosting pep at Kansas State was Phi Sigma Chi, more familiarly known as the Purple Pepsters. These girls with their purple sweaters and

white skirts fostered pep at all of the rallies and football and basketball games, sponsored the Gold Diggers ball in October, and helped solicit for the chapel fund drive at Christmas-time.

The Purple Pepsters limit their membership to 72 girls, all of whom must be at least sophomores in college and be elected to membership by the club as a whole. In order that all groups on the campus may be represented as equally as possible, membership is divided between all organized houses and sororities.

Stover Heads Pepsters

Officers of the organization for the year were Dorothy Stover, president; Joan Jennings, vice-president; Betty Fritzler, secretary; and Paula Swiercinsky, treasurer. Barbara Kraemer was social chairman, Betty Russell was in charge of publicity, and Mary Roach was corresponding secretary. Mrs. Gladys Goff and Mary Jean Mulvaney were faculty sponsors.

By Organized Pep With Record Participation

The Junior Wildcat club is a relatively new group on the campus of Kansas State, having been organized only last spring. The club, which has a membership of about 25, acts as an off-campus booster for K-State athletics. During the summer the Junior Wildcats contact athletes suggested to them by the athletic department and encourage them to attend Kansas State. While the high school athletes are on the campus looking things over, the Junior Wildcats see that they have places to stay and entertain the potential Wildcat stars.

Bickle Is Prexy

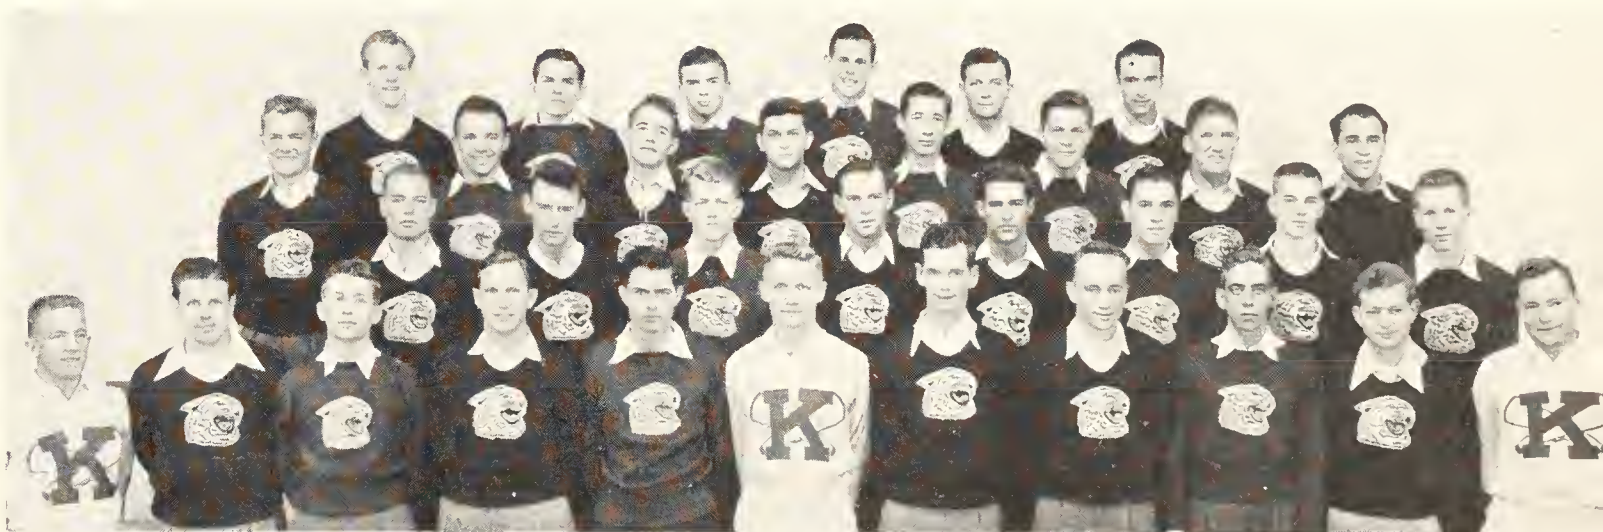

First semester president and vice-president of the club were Don Bickle and Dwayne Moore. Bruce Buehler and Bill Christian were secretary-treasurer and publicity chairman, respectively. During the second semester, the club was headed by Dean Van Valkenburgh, with Bill Barnes as vice-president. Norman Krey was secretary-treasurer and Dwayne Moore was publicity chairman.

Promoting sportsmanship and pep for the student body is the purpose of the Wampus Cats, Kansas State's male pep organization. The Wampus Cats work with the Purple Pepsters in staging pep rallies before all home football games and important basketball games. The Wampus Cats this year supplied ushers in the auditorium for the basketball games that were televised to the large screen there and held a get-acquainted smoker early in each semester for new students.

25 More Wampus Cats

The organization had about 105 members this year, an increase of about 25 over last year. During the first semester, Dick Cederberg was president, with Jack Collins as vice-president, Gene Snell as secretary, and Buddy Jass as treasurer. Second semester officers were Jack Collins, president; Lloyd Osborne, vice-president; Wallace Brown, secretary; and Don Matlack, treasurer. Tex Winters, freshman basketball coach, is the sponsor.

Ag Judging Teams Travel Midwestern States

At the Great Western Livestock Show at Denver, the Kansas State Livestock Judging Team made a very creditable record. In competition with teams from 14 states, K-State placed 6th in carload contest, 11th in livestock judging, and Kenneth Griffith was ranked 10th high man of all classes. Members of the team were Robert Kuhn, Charles Dutton, Wilbur Levering, Kenneth Griffith, Jack McClaskey, and Don Brock.

Members of the K-State judging team at the Fort Worth Livestock Show were Harold Dalbom, Bennie Bird, Richard Chase, Kenneth Carson, Robert Acre, and Charles Reese. Again competing against teams from 14 states, the team ranked 9th on all classes. Harold Dalbom won first place in cattle judging.

Competing against 22 state teams at the American Royal, the K-State team won 7th place as a team on all classes. Members of the group were Robert Acre, Bennie Bird, David Church, Harold Dalbom, Harold Van Cleave, and Leonard B. Johnson.

The Kansas State College meat judging team included Robert P. Kuhn, Daniel L. Gardner, William R. Edwards, and Ninian L. Christopher. Coach was Prof. David L. Mackintosh.

The team placed fifth among fourteen teams competing at the American Royal in Kansas City. At the International Livestock Exposition in Chicago they ranked tenth among twenty-one teams. Judging consisted of carcasses, classes and wholesale cuts of beef, pork and lamb.

To Compete: Pile Up Laurels for College

At the National Collegiate Dairy Cattle judging contest held at Waterloo, Iowa, Kansas State team member Harold Ramsey earned first place individual honors. For the K-State team, which ranked 16th out of 30 competitors, Ramsey was high man. Entrants judged milking cows, bulls and heifers of the Jersey, Guernsey, Holstein, Ayrshire and Brown Swiss breeds. Other team members besides Ramsey were Bill Collins, Jack Graham, and Earl Phillips.

A first in milk judging was awarded to the K.S.C. Dairy Products Judging Team at the Collegiate International Contest in Judging Products, held in Los Angeles in October. Howard Sherrod, Harold Ramsey, Owen Fennema, and alternate John Wilks made the trip with the team. Sherrod earned a first in individual

milk judging, while Ramsey placed third in ice cream, eighth in malk and eighth in all products.

In a close contest, the all-senior KSC poultry judging team walked off with fourth place in the 26th Mid-West Intercollegiate Poultry Judging contest at Chicago.. Only 28 points separated the Staters from Texas A & M, first place winner. Students participating in the contest were Gerald E. Lawrence, who was ninth high individual in all-around judging; Paul Barrett, who rated fourth in market products judging; Forrest L. Smith; and alternate Charles W. Smith.

K-State, with two wins behind them, has a chance of obtaining a rotating cup for poultry judging, which is to be given to the first team that wins three times. Missouri, Purdue, and Minnesota also stand a chance.

Varied Activities For 1400 ROTC Enrollees

Approximately 1,400 Kansas State students were enrolled each semester during the 1949-1950 academic year in one of the two phases of military training offered on the campus. This number was nearly evenly divided between the Army and the Air Force training sections.

Brislawn New Head

In charge of the training of these men was a staff of 29 instructors: ten enlisted men and nine officers for the Army and five enlisted men and five officers for the Air Force staff. The Army staff was headed by Col. Mark G. Brislawn, professor of military science and tactics, and the air unit by Lt. Col. Dean H. Eshelman, professor of air science and tactics.

These instructors teach the basic students—Army and Air Force alike—the principles of leadership, drill, and exercise of command. Beginning with the sophomore year, the air students specialize in logistics, air operation, administration and supply, military teaching methods, and personnel management. At the same time, the Army students take military law, command and staff, psychological warfare, personnel management, and military teaching methods.

During the Army student's sophomore, junior, and senior years, he studies any one of four branches—Anti-Aircraft Artillery, Signal Corps, Infantry, or Veterinary Medicine. Kansas State is one of the few schools in the country offering the vet medicine unit. The Air Force student spends his sophomore, junior, and senior years in either air engineering maintenance or air force administration.

Upon completion of the four years of training, the student is eligible for a commission in the Organized

Reserve corps or United States Air Force Reserve; or he may be commissioned in the Regular Army or the Regular Air Force if selected.

Three ROTC Clubs

The ROTC students have organized themselves into three regular undergraduate groups. Of these, the Cadet Officers' club, headed by Robert Elmer, is the largest, with approximately 200 members. The faculty sponsor of this group is Capt. F. G. Bohannon.

The next largest organization is Scabbard and Blade, a national scholastic military honorary organization. This group has a membership of around 50 and is headed by Lee Desilet. The faculty sponsors of this club, noted for its elaborate public initiations, are Lt. Col. J. S. Chalfant and Lt. G. R. Myers.

The third and smallest organization is the Pershing Rifles, crack drill team, which has about 30 members. This is also a national honorary organization, and has C. M. Phinney as its top man. The sponsors of this club are Capt. William C. Goers and 1st Lt. Edward M. Crockett. Working with the Military Science department is the Kansas State Amateur Radio Club. This group is made up primarily of students taking Signal Corps work and uses the department's Signal Corps equipment.

During the summers, advanced students in ROTC take a six-week "camp" at some Army post or Air Force base in the United States. This training is required of the student before he can earn his second lieutenant's commission. While at this work in either the Air Force, Infantry, Field Artillery, Signal Corps, or Veterinary Medicine, the student receives a daily monetary allowance as well as a uniform allowance.

Ag and 4-H Magazines Published by School

Working overtime to meet the deadline are Ag Student Editor Dale Wiseman and Business Manager Don Tarver (*above*). Their staff members, assembled below, were (*back row*) Stan Creek, Elbert Macy,

State-wide news of county 4-H clubs and leaders is exchanged in the annual publication "Who's Whoot." This book is sponsored by the Kansas State Collegiate 4-H club and is sent to all county 4-H organizations in the state. Editor of "Who's Whoot" this year was Marlys Waln, who was assisted by Faye Converse as assistant editor. Advertising manager was Dale Apel. Each county in the state has a page or more in "Who's Whoot" explaining in pictures and description the activities of that county's clubs. Irwin Collinge acted as the 1950 county page editor.

The Kansas Agricultural Student is the official publication of the Agricultural Association of Kansas State.

The "Ag Mag," as it's familiarly known on the campus, was edited this year by Dale Wiseman, senior ag journalism student from Centralia. He was assisted by Delmar Hatesohl and Stan Creek as associate editors and Elbert Macy, professor in agricultural journalism, as faculty advisor. The "Agricultural Student" is published in October, December, March and May.

Monthly Mag Is Voice of Engineering School

The Kansas State Engineer, official publication of the Kansas State Engineering association, is one of 29 members of the National Association of Engineering College Magazines. Issued monthly from October through May of each school year, the publication is edited and written entirely by engineering students for engineering students, and is widely read by those not in the engineering school.

Burdick Heads Staff

The editor of the 1949-50 issues of the Kansas State Engineer was Earl E. Burdick. A senior in electrical engineering, Burdick campaigned in his editorial column against the loss of individual thinking, urged co-operation in Open House activities, and emphasized the necessity of extra-curricular activities for a well-rounded college education.

Aiding him as assistant editor was Paul V. Jones, also an electrical engineering senior. Business manager of the 1949-50 Engineer was Wilbur F. Gaughan, who also served as publicity chairman for the 1950 Open House. Advertising manager was Tom Mortimer; the advertising board was made up of Phil Burns and Dick Morse.

Two Boards Supervise

The Engineer's faculty advisory board includes M. A. Durland, dean of the School of Engineering and Architecture, and Leland S. Hobson, professor in industrial engineering and assistant director of the engineering experiment station. These two men worked in co-

operation with the student editorial board, made up of Emory Hickert, Wilfred Hillstrom, and Mary Frances Caron.

The February issue of the magazine was devoted entirely to the events scheduled to occur during the engineers' 26th annual Open House in March, with eighteen committee chairmen reporting. The Engineer is financed by advertisements and with a portion of the engineering seminar fee.

Work of Publications Helps "Sell" KSC

Three other publications of Kansas State College are the Kansas Magazine, The Kansas Industrialist, and the student directory. The Kansas Magazine was edited this year by Robert Conover, professor in the college English department. The Kansas Magazine is an annual publication containing articles, short stories, poetry, and art work by native Kansans or about Kansas.

Industrialist Goes to Alumns

The Kansas Industrialist is the official newspaper of the Kansas State College alumni association. It is printed weekly and contains news of interest to the alumni of the college. R. R. Lashbrook, head of the journalism department, is the editor of the Industrialist.

The student directory is a handy little booklet cram-

med with names, regulations, and organization lists. It contains the names, addresses, telephone numbers, home towns, and curricula of all Kansas State students and faculty. Directory editor was Patricia Chew, senior in journalism.

Release 20,000 Stories

The College News Bureau primarily acts as a "clearing house" for out-going information about Kansas State. It readies all varieties of news releases about the college for publication in Kansas newspapers. R. R. Lashbrook is the "boss" of the news bureau, with Asst. Prof. Lowell Brandner and Mrs. Mae Weaver as assistants. This year the bureau sent out around 20,000 news stories.

Pat Chew (*below, left*) put in days at the typewriter as Student Directory editor. Kansas Magazine editors and publishers, photographed at

Editing the summer edition of the Collegian were Morris Briggs, Marilyn Moomaw, Earl Neiberger, Marv Hammer and Keith Duckers. One of

their jobs was adjusting paper and staff to the change from off-campus to on-campus publication.

Summer Paper Campus-Printed

For the first time since 1908, the campus newspaper was printed on the campus last summer. A new Goss Cox-o-type press was installed in the basement of Kedzie during the late spring of 1949, and after a trial edition of the new-style Collegian once last spring began the regular weekly run of the summer Collegian. The new Collegian was put out in tabloid size, with a daily average of eight pages.

Neiberger Head

The summer school Collegian was headed this year by Earl E. Neiberger, a journalism senior from Onaga. Assisting him were Bob Chisholm and Edgar Engelken as

associate editors, Keith Duckers as sports editor, and Max MacRae as copy desk editor. The business manager and his assistant for the summer were Rex Parsons and Blaine Phillips.

In spite of the warm summer months, the Collegian was a vigorous, campaigning newspaper.

Medlin in Big Job

C. J. Medlin acts as graduate manager for the Board of Student Publications. It is his job to see that everything on the Collegian and the Royal Purple move along smoothly and without hitches. His secretary, Mary Everson, keeps things running smoothly in his office.

Earl Neiberger (*above*), summer Collegian editor, now is graduate assistant in journalism department. C. J. "Chief" Medlin (*below, left*), Graduate Manager of Student Publications, and his secretary Mary Everson (*center*) handle everything from editorial policy to Collegian want-ads, are busy people. Perpetual Collegian business manager is Rex Parsons (*right*), in his third consecutive semester at the post. Rex's job, was greatly magnified when the Collegian "went daily" in fall.

Editorial staffers of the first daily Collegian, published in the fall semester, found it takes more of both people and work to get out a daily than a twice-a-week sheet. Staff members (*above, standing*)

were Don Alexander, Marvin Hammer, Howard Sparks, Jim Vycital, Morris Briggs, (*seated*) Keith Duckers, V. L. Nicholson, Shirley Nichols, Bill DesJardins, Betty Omer, Pat Chew and Earl Neiberger.

Staff Kept Busy as Collegian Goes Daily

First daily editor Neil Erdwien (*above*) had plenty of problems. Fall Collegian business staffers (*below*) were (*standing*): Bill O'Neal, Bud Eisenhower, Don Wempe, Rex Parsons, Tom Faulkner, (*seated*) Lee Keck, Silas Brandner, Barbara Selders, Paul Ruhr, Ken Smejkal, and Bob King.

The Kansas State Collegian went on a daily basis for the first time in its history this fall. Beginning at the first of the semester, the Board of Student Publications brought out the college paper five days a week.

Erdwien in Tough Job

Fall Collegian editor was Neil Erdwien, journalism senior from El Dorado, who had the duty of getting the Collegian staff adjusted properly to a daily basis after years of a two-a-week schedule.

Working under the managing editor on the daily set-up were five issue editors. Each had charge of one issue a week. During the first semester, these editors were Earl

Neiberger, Keith Duckers, Bill DesJardins, Marvin Hammer, and Howard Sparks. Sports editor for the first semester was V. L. Nicholson; Society editor was Shirley Nichols. Don Alexander, graduate assistant, kept a watchful eye on the workings of the Daily Collegian.

Parsons Handles Business

The fall Collegian business staff was managed by Rex Parsons, who had held the same position during the summer session. His two assistants, who helped in selling and arranging advertisements for the paper, were Bill O'Neal and Lee Keck.

Spring Collegian Editorial Staff included (*seated*) Mark Endsley, Bob Rudbeck, Pat Chew, Betty Omer, Howard Sparks, Keith Duckers, Al Berckmann, V. L. Nicholson, Kent Slyhoff, Delmar Hatesohl, Jim

Vycital, and Carolyn Bishop. Standing are Johnny Long and Ernie Blead, staff photographers.

Full Campus Coverage in Spring

Marvin Hammer, Kansas City, Mo., journalism senior, was chosen to head the Collegian for the spring semester. Hammer had worked as an issue editor during the fall semester and on the copy desk of the Collegian the summer before.

As assistants and issue editors, Hammer picked V. L. Nicholson, Delmar Hatesohl, Howard Sparks, Betty Omer, and Bob Rudbeck. He selected Al Berckmann to be his sports editor and Pat Chew his society editor. Another staffer was Earl Neiberger, graduate assistant.

Innovations introduced by Editor Hammer were daily columns, all on-campus editorials, and more pictures and campus news stories. Some of the biggest stories of the semester concerned the selection of a new president and the NCAA controversy.

Rex Parsons, veteran business manager, was again selected to run the advertising side of the daily Collegian. He retained Bill O'Neal, who had been his assistant the semester before, in the same position. Milton S. Eisenhower, Jr., moved up to become the other assistant.

Spring Editor Marv Hammer (*above*) looks just a bit more cynical than he is. Checking their inches are spring business-enders (*below*) John Costello, Ed Bauerband, Bill O'Neal, Rex Parsons, Morris Hostetter, Beverly Thompson, and Carol Hahnenkratt. Not in picture is Bud Eisenhower.

Royal Purple Editor Ann Thackrey Berry had the most consistently messed-up desk on the campus. Active in campus activities, journalism work, and holding several class offices, Ann was one of the few juniors to be elected to *Who's Who in American Colleges and Universities*.

'49 R. P. Again All-American

Work on the 1950 Royal Purple began some ten months before the yearbook was scheduled for publication, with the drafting of preliminary layouts. Staff members were selected early in the school year, and a majority of the pictures were taken by photographers Morris Briggs, Ernie Blean, and Marian Seaman during the first semester. The year's second half was a hair-tearing race with deadlines, with the deadlines usually the victors.

Good news for Royal Purple staffers of 1949 was the word that the '49 yearbook received the All-American rating, highest possible honor in the National Scholastic Press Association's yearbook judging program. This is the 14th consecutive top award for the KSC publication, which is judged in competition with yearbooks from all over the country.

The Royal Purple competed against books from schools with 5,000 or more enrollment.

Heading the Royal Purple business staff for 1949-50 was Frances Callahan, whose previous experience in selling advertising for the Collegian gave her the needed know-how. Besides taking care of strictly business matters, Frances spent many hours in Kedzie helping Mary Everson, Publications secretary, direct the many Royal Purple office staffers.

Assisting the business manager were advertising salesmen Bill Beckmeyer, Barbara Selders, Don Matlack and Bob Larberg.

Heading the list of hard-working and capable editorial staff members was Assistant Editor Catherine "DeeDee" Merrill, who spent untold hours reading copy and proof, filing pictures and ordering engravings. Chapter editors were Bob Chisholm, Administration; Marilyn Markham, On and Off the Campus; Jean Antenen, Places to Live; Faye Converse, Honorary Organizations; Barbara Bowyer, Religious Organizations; Diane Alexander, General Organizations; Joe Henderson, Physical Prowess; and Pat Chew, Lectures and Labs.

Other Royal Purple orchids go to Lawrence Blaker

and his Studio Royal staff, who were responsible for each individual picture in each panel in this book; to Floyd Hanna, College Photographer, who is represented by all the group pictures; to Byron Ellis of the College press, for good advice on matters of format; to Mary Everson, Deloris Montague and Katherine Herrold for all varieties of assistance; and a large bouquet to Graduate Manager C. J. Medlin, without whom there would never be a Royal Purple any year.

Frances Callahan, Royal Purple Business Manager, points hopefully to date on which books should come out. Frances, in between business duties, gave away literally thousands of free Chesterfields to Kedzie Kids and others, was popular when smoke-time came.

The Spice of Life

Extracurricular time isn't "spare time" for very many K-Staters, either those who teach or those who learn. Conferences, programs, publications, competitions, the arts—each takes its chunk out of that part of the day theoretically reserved for sleep, food and studying. As yet, however, there have been no serious complaints. Students, strangely, will do anything from swimming to speechifying to get away from those books.

...IN THE PUBLIC EYE

UNDOUBTEDLY the best-publicized side of the Campus of Tomorrow program was the ample room it provided for a *real* athletic program for Kansas State College. Students loved this—they were plenty fed up with “losing streaks,” “jinx teams” and getting beat in general.

But the promised program seemed almost too good to be believed—fieldhouse, better inducements to better athletes, big public-relations programs, and most important, winning teams.

And it did take time for results to show. It takes time to change the whole outlook of a football team, and it takes even longer to change the outlook of the fans who’ve been watching that team lose for years. It takes time to get the money for and actually to build a new fieldhouse, and it takes even longer to build a new attitude in the minds of those who’ll be using it.

But that time’s about up. Grid fans had a sweet taste of victory this year and are counting on a little bigger bite next season—but they don’t expect us to storm the conference right off the bat. There’ll be people around for a while yet who can’t forget that K-State didn’t go to the N.C.A.A.—but even these can’t help but feel proud of a prideworthy team which did a good job anyway.

It’s been a red-letter year for K-State athletics. The extent of our progress can be measured by the increasing interest throughout the state in K.S.C. results—by the fine showing made by football crowds last fall—and by the words of a student at Kansas University: “I hate to admit it, but whatever it is that it takes, those Wildcats have got it!” We think so, too.

Left—The fieldhouse, of course, as an architect and every student sees it.

'49-'50 Sports Year Is One

Visitors from other campus-worlds may conceivably scoff at K-State's scoring records in this or that sport, but any real Wildcat would rather have his cut privileges taken away than his athletic program. There're plenty of chances for cheers, too, under the steadily-progressing campaign to rebuild our once-fallen field fortunes.

The year was rich in highlights as far as sports goes. Our football wins, especially the conference victory over Colorado, were cause for celebrations lasting from an hour to a week, depending on the mood of the celebrant. The new football scoreboard, as superior to its predecessor as a radio-alarm is to a Big Ben, made game-watching much less of a strain on eyes and ears.

Packed with Color and Drama

Climaxes and crises were the rule rather than the exception during basketball season. The armchair strategists had radio dials within easy reach when the team went on the road. The "jinx" games with Missouri, the theft and return of Touchdown IV, the ins and outs of championship and NCAA chances—and the ultimate disappointment when we didn't get to play it off with Bradley—all made the year a rich one in excitement.

The two things which made Wildcat sports fans happiest throughout the year were probably the ever-more-promising appearance of the mammoth fieldhouse as it took on more of the aspects of a place where big games are played, and the announcement that Jack Gardner, despite rumors, would be back again next year.

Athletics Program Continues

THURLO MCCRADY

FRITZ KNORR

FRED PARRIS

1949-50 has been a year of progress for Kansas State's athletic program.

New attendance records were set during the football season, with five home games highlighting the schedule. For the first time in many years, Manhattan townspeople saw the Wildcat basketball team perform in Nichols gym when tickets were sold to the public for the Baylor-Kansas State game in December. Since only half the students could see basketball games at one time, it has been the policy of the athletic department not to sell any tickets to non-student fans.

Begin Building Fan Interest

But with more than 12,000 seats to be filled in the new fieldhouse, the athletic council believed it necessary to begin creating interest in the Wildcat cage machine a year ahead of time. To accomplish this, well-known non-conference teams were brought to Nichols gym.

In his third year as head of the Wildcat athletic program, Thurlo McCrady again demonstrated his determination to restore lagging K-State athletic fortunes to their rightful place among the other Big Seven members. "Mac" arranged schedules designed to fit the athletic needs of Kansas State's rebuilding program, and handled public relations with ease.

Athletic Council Influences Policy

Assisting McCrady in making decisions and plans concerning the athletic program is the Kansas State athletic council. Members of the council are Prof. Merton Otto, Prof. V. D. Foltz, Alumni Member Francis W. Body, Alumni Member Harry F. Lutz, Athletic Director Thurlo McCrady, Prof. H. H. Haymaker, Dean M. A. Durland, Pres. Milton S. Eisenhower, Dean R. W. Babcock, and students Kenny Johnston and Lloyd Krone.

Fritz Knorr doubled up as business manager and head baseball coach to take the place of Lud Fiser, who resigned a year ago. Handling both jobs kept Knorr busy most of the time but he handled his dual duties with little difficulty and still found time to greet the public from his ticket window.

Fred Parris is the man behind the Kansas State publicity which fills the newspapers and sports magazines. It's Fred's job to let the public know about the Wildcat athletes and each year he turns out reams of copy. Besides this, Fred is in charge of the press boxes and plays host to visiting sports writers when they drop in to watch the Wildcats in action.

Mickey Evans, in his second year as head golf coach, got permission for his linkmen to play on the Manhattan Country Club course during the entire golf season. Previously, the golfers had to practice at the Stagg Hill course and then play on the Country Club course, and consequently, had little of the "home course" advantage.

Long, Slow Climb Back to Top

Completing his second year as head football coach at Kansas State, Ralph Graham showed Wildcat followers he was determined to regain K-State football prestige.

While the sophomore grid team did not show too impressive a win-lose record, its spirit and aggressiveness against some fine teams showed that Graham was well on the way toward restoring K-State to its rightful place as a conference power.

In his first year as line coach, Tommy O'Boyle sharpened the Wildcat blocking and tackling which was noticeably lacking in recent years. The stocky line mentor proved himself a valuable man in K-State's rebuilding program by blending sophomores with veterans to bring the Wildcat line to a near-par with other conference lines.

In a move to further strengthen K-State's athletic program, Ted Warren, freshman coach and field representative, was moved to assistant to the athletic director, and Emmett Breen became freshman football coach.

Bob White, former Indiana fullback, was picked as the new Wildcat backfield coach and arrived shortly before spring training when he assumed his new duties. White was the Big Ten's leading ground gainer his last year and averaged better than five yards per carry.

Graham, who considers himself the most optimistic

coach in the country, has made good each of the promises he made when he took over the football job. First, he said he would end the losing streak which was at 28 when he took over. Second, he promised to give Kansas State fans a fighting ball club. In addition, the Wildcat mentor ended the conference victory drouth when his team defeated Colorado.

A former K-State grid star himself, Coach Ralph Graham is making good his promise to raise Wildcat football from the depths of the conference cellar. The likeable coach is predicting at least three wins for the coming season—an all time high for K-State teams.

Kansas State	13	Oklahoma A & M.....	26
Kansas State	28	Tulsa	47
Kansas State	28	Missouri	34

Perhaps it was the victory over Colorado, K-State's first conference win since 1944, which brings smiles to the faces of the Wildcat coaching staff, (left to right) backfield coach Emmett Breen, head coach Ralph Graham, end coach Paul Walker, and line coach Tommy O'Boyle.

Breen has been made head freshman coach for the coming season and Bob White, former Indiana backfield ace, will be the backfield coach. Breen replaces Ted Warren as frosh mentor.

Smash Ft. Hays 55-0

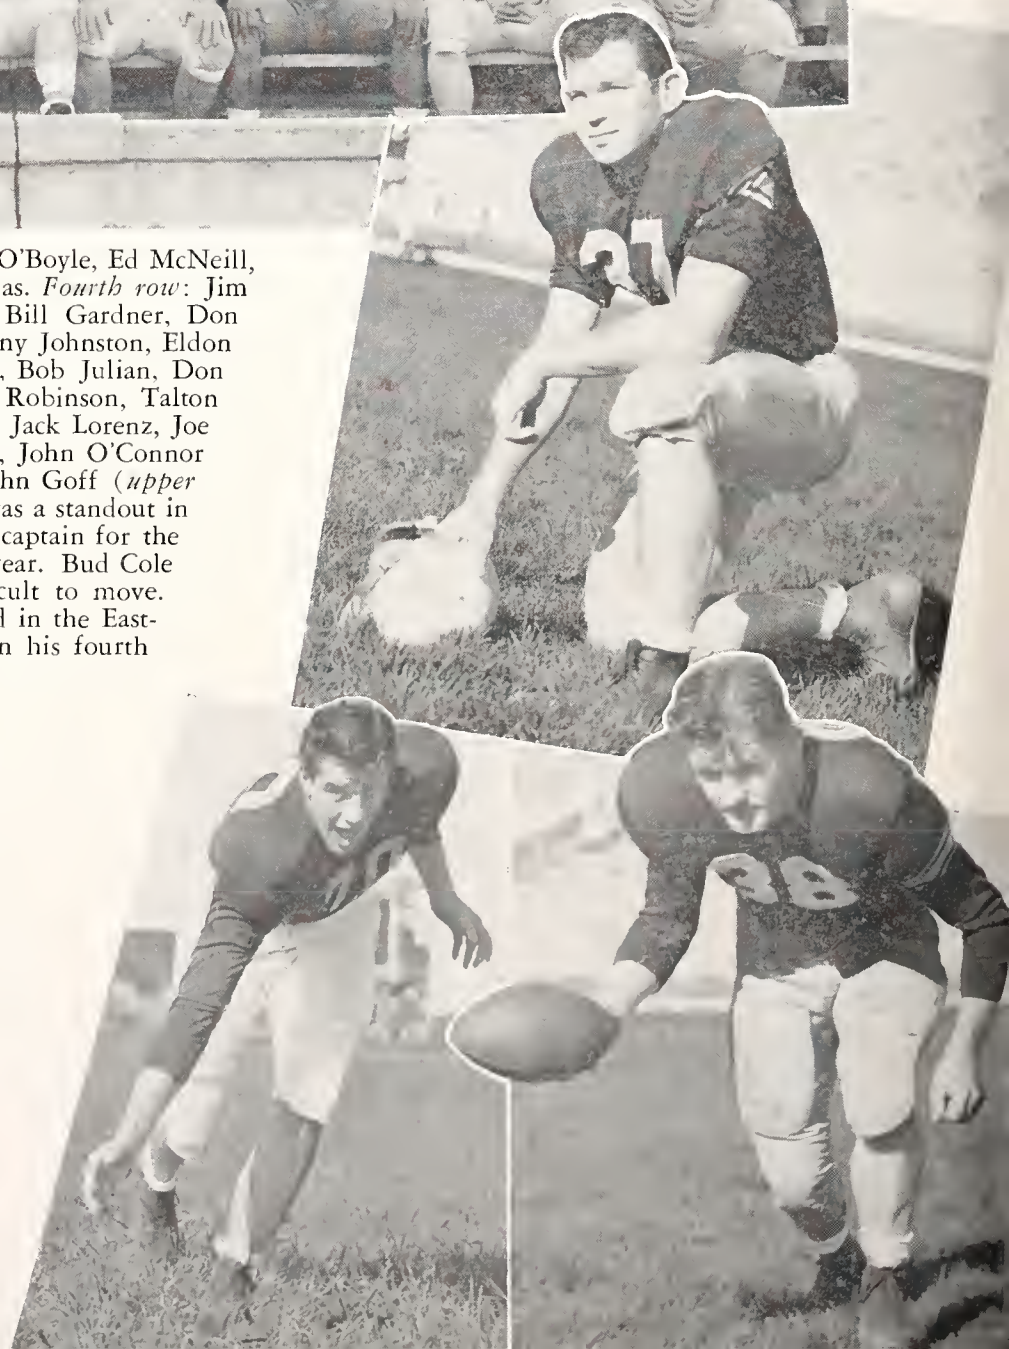

In completing his second year at the helm of Kansas State football fortunes, Coach Ralph Graham gave victory-starved Wildcat fans their best season in several years. Included among the two wins against eight losses for the season was the first K-State conference win since 1944.

The sophomore-spotted team scored more points than had been scored by a K-State football team since 1917. The 55 points rolled up against Fort Hays in the season's opener was the highest Wildcat single game total since 1920.

Varsity Football Squad—*Back row:* Francis Starns, Joe Blanchard, Tommy O'Boyle, Ed McNeill, Ralph Graham, Emmett Breen, Paul Walker, Herb Brent, Tommy Thomas. *Fourth row:* Jim Stehley, Dave Torbett, Rollin Prather, Lyle Koontz, Glenn Channell, Bill Gardner, Don Stehley, George Smith, Galen Christiansen, Dick Bogue. *Third row:* Kenny Johnston, Eldon Zollars, Dale Bohnenblust, Walt Gehlbach, Buddy Burris, Ted Maupin, Bob Julian, Don Bliss, Alton Davis, Kenny Hartung. *Second row:* Don Frazier, Harold Robinson, Talton Pace, Hi Faubion, Pete Raemer, Dana Atkins, Jack Wallace, Ross Estes, Jack Lorenz, Joe Berry. *Front row:* Dennis Kane, John Goff, Ralph Tidwell, Al Lummio, John O'Connor Elmer Creviston, Fred Koster, Hoyt Givens, Bud Cole, Dick Johnson. John Goff (*upper left*) divided the Kansas State kick-off duties with Gerald Hackney and was a standout in the Wildcat line. Joe Blanchard (*upper right*) was elected honorary co-captain for the season and climaxed a brilliant career as a K-State lineman with a great year. Bud Cole (*right center*) was one of the reasons why the K-State line was difficult to move. Rollin Prather (*lower left*) was an all-time K-State line great and starred in the East-West Shriners' game in San Francisco. Jim Stehley (*lower right*) won his fourth varsity grid letter in 1949.

Despite such severe losses as Guard Ray Romero and Fullback Gerald Hackney early in the year, the Wildcat grid aggregation showed hustle and spirit, and improved steadily during the season. At the time of his injury in the Memphis State game, Hackney was the Big Seven's leading ground gainer, averaging better than 5 yards each time he carried the ball.

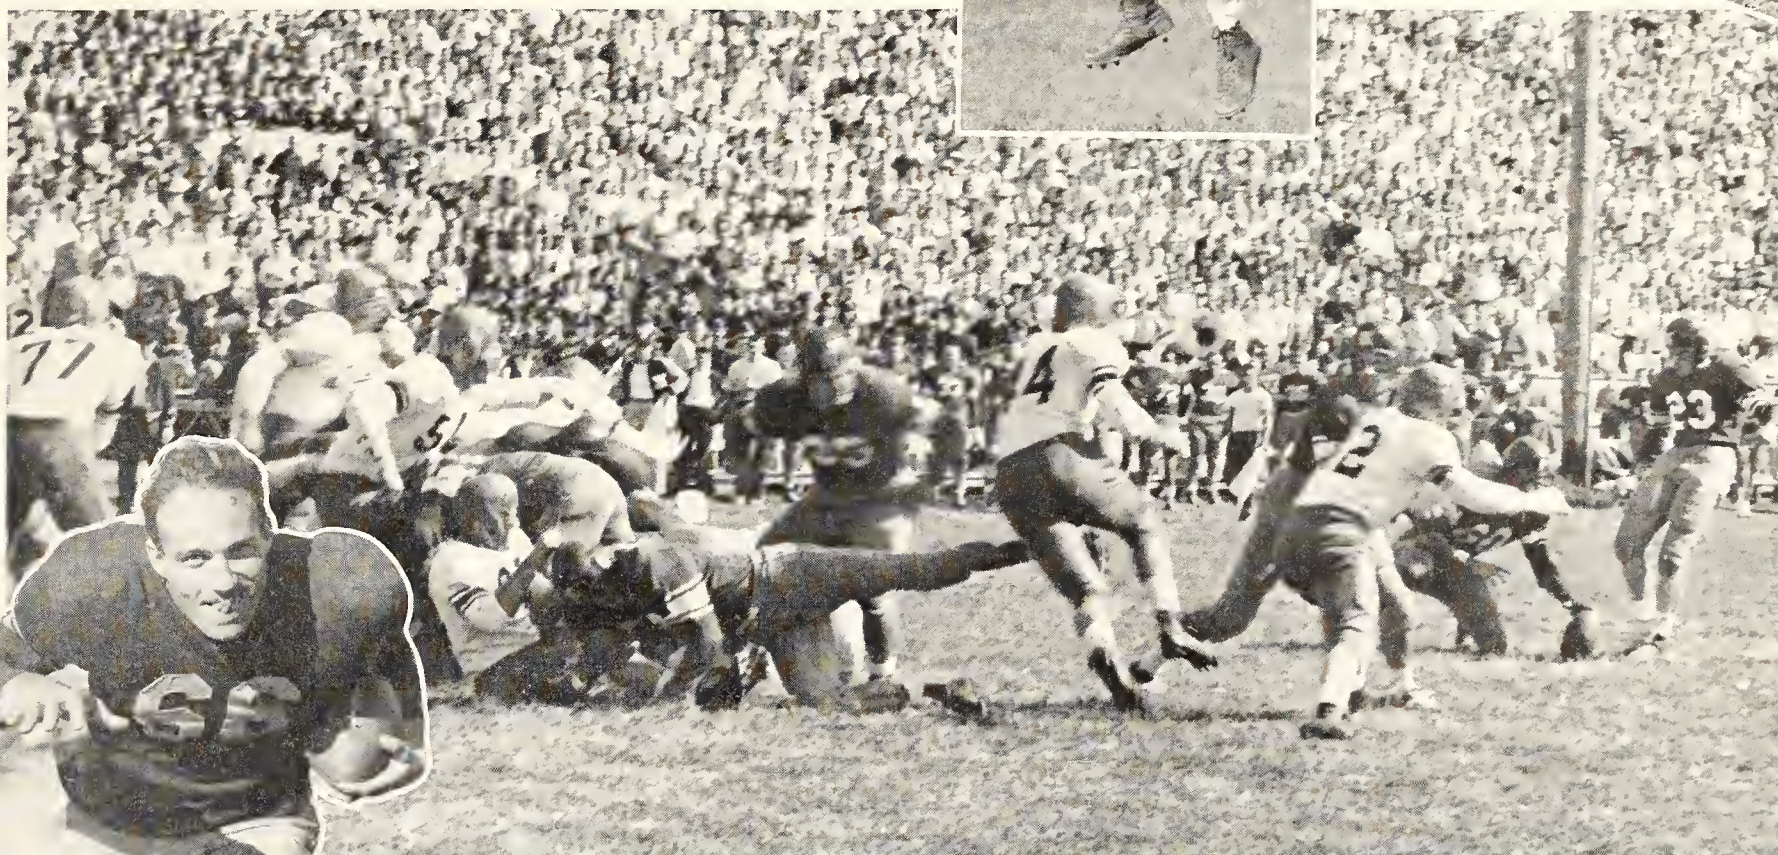

To Open Mixed Season

Kansas State opened its season by thumping Fort Hays, 55-0, in a night game. The hard hitting Wildcats' offense scored at will against the game but outmanned Hays team as Coach Graham swept the bench in sizing up his material for the coming campaign.

In All-Around Good Game

Spectacular end runs by sophomores Hi Faubion and Elmer Creviston, plus the line plunges of Gerald Hackney and the passing of Jon O'Connor led the sparkling Wildcat attack. A rugged eight-man line held the Hays Tigers

Ross Estes attempts a point after touchdown place kick (*center*) against Nebraska. It was one of the few kicks Estes had blocked during the season. Pete Raemer (*upper right*) has two more years in the Wildcat line. Francis Starns (*upper left*) shows promise of becoming a fine pass receiver. Gerald Hackney (*left center*) averaged 5-plus yards per carry before being injured in Memphis State game. Galen Christiansen (*lower left*) had his best year as defensive tackle. Buddy Burris (*lower right*) is a fine sophomore backfield prospect.

to a scant 53 yards rushing.

Break Jinx, Win Loop Game

Kansas State racked up its first conference victory in five years by overpowering the Colorado Buffaloes, 27-13, the following Saturday. The highly-gearred Wildcat offense scored two touchdowns in each half while limiting the Buffs to a pair for the game. Hi Faubion was the big gun for K-State as he scored three touchdowns and passed for a fourth.

Although they outplayed the Cornhuskers most of the way, the Wildcats were handed their first setback of the season, 13-6, in the third consecutive home game.

Cats Capitulate to Loop Enemies

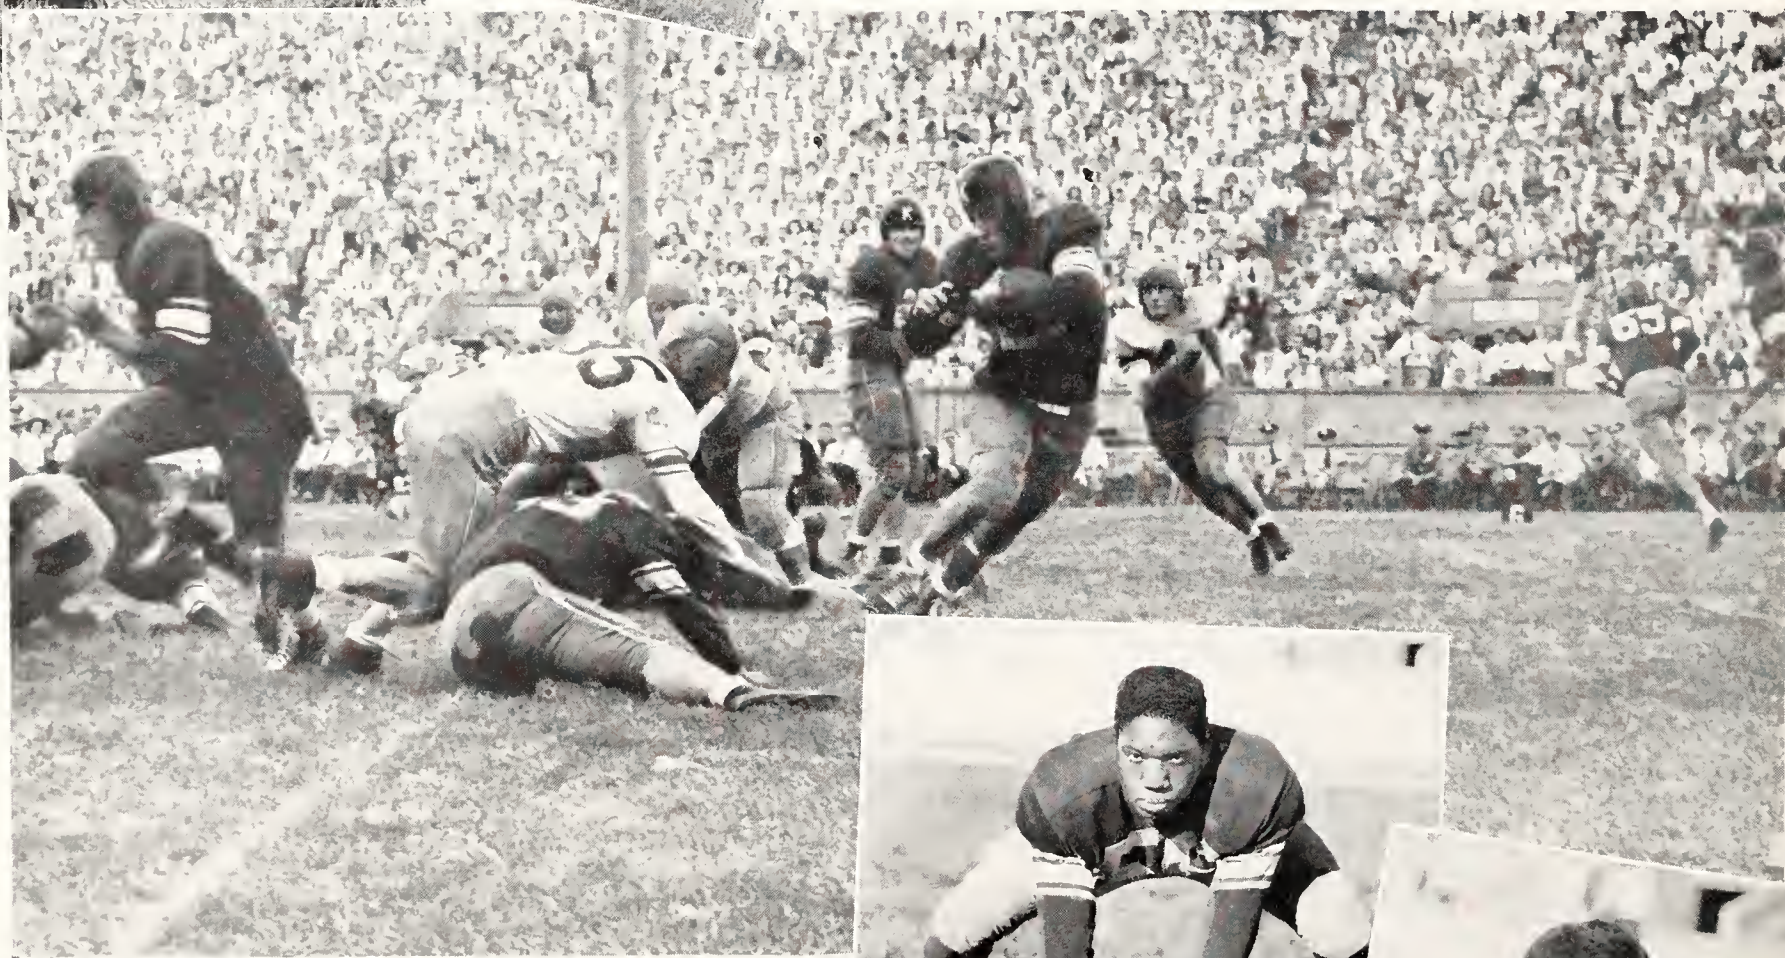

Early TD Is Heart-breaker

Ron Clark, Nebraska halfback, took the opening kick-off and ran it back 100 yards for a touchdown. Kansas State threatened throughout the first half but couldn't dent the Husker goal line. Then with only 13 seconds left in the first half, Fran Nagle tossed a touchdown pass to give Nebraska a 13-0 halftime lead.

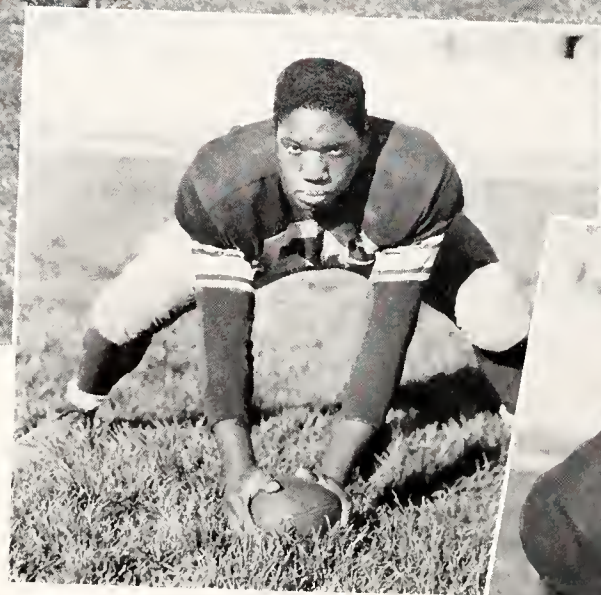

Johnston Scores

The Wildcats got their touchdown in the fourth quarter, when linebacker Kenny Johnston fell on a blocked Husker punt in the end zone.

On the road for the first time, K-State lost a thriller to Iowa State, 25-21. The Cyclones capitalized on Wildcat miscues to score twice in the opening minutes.

Elmer Creviston, star sophomore halfback, twists away (*center*) from a would-be Nebraska tackler as Wildcat interference clears a path. Lloyd Estes (*upper left*) may become a fine guard. Bob Julian (*center left*) filled in for injured Ray Romero and did a fine job. Dennis Kane (*upper right*) stepped into Hackney's shoes when the latter was injured and looked especially good against Tulsa and Missouri. Harold Robinson (*lower center*) was the first of his race to play in the Big Seven and was on the AP all-sophomore team. Walt Gehlbach (*lower right*) was picked as the best blocker on the team for the second consecutive year.

In Tough Fight After Early Wins

In Halftime Recovery

But led by the passing of Jon O'Connor, who hit four tosses in a row, K-State came back to post a 14-13 half-time lead. Gerald Hackney hit his stride and put fear in the hearts of the Iowa State Homecoming crowd as he pounded out 162 yards through the Cyclone line.

End Stalled on 20

Trailing by only four points, the final Wildcat scoring attempt died on the Cyclone 20 yard marker with two minutes left as the Iowans took over on downs and stalled out the remaining time.

Supposed to be a breather, the Memphis State game turned out to be the disaster of the season. Not only did the team lose 20 to 14, but also lost was "Bulldozer" Gerald Hackney. The Wildcat ace was injured in the first half and the demoralized

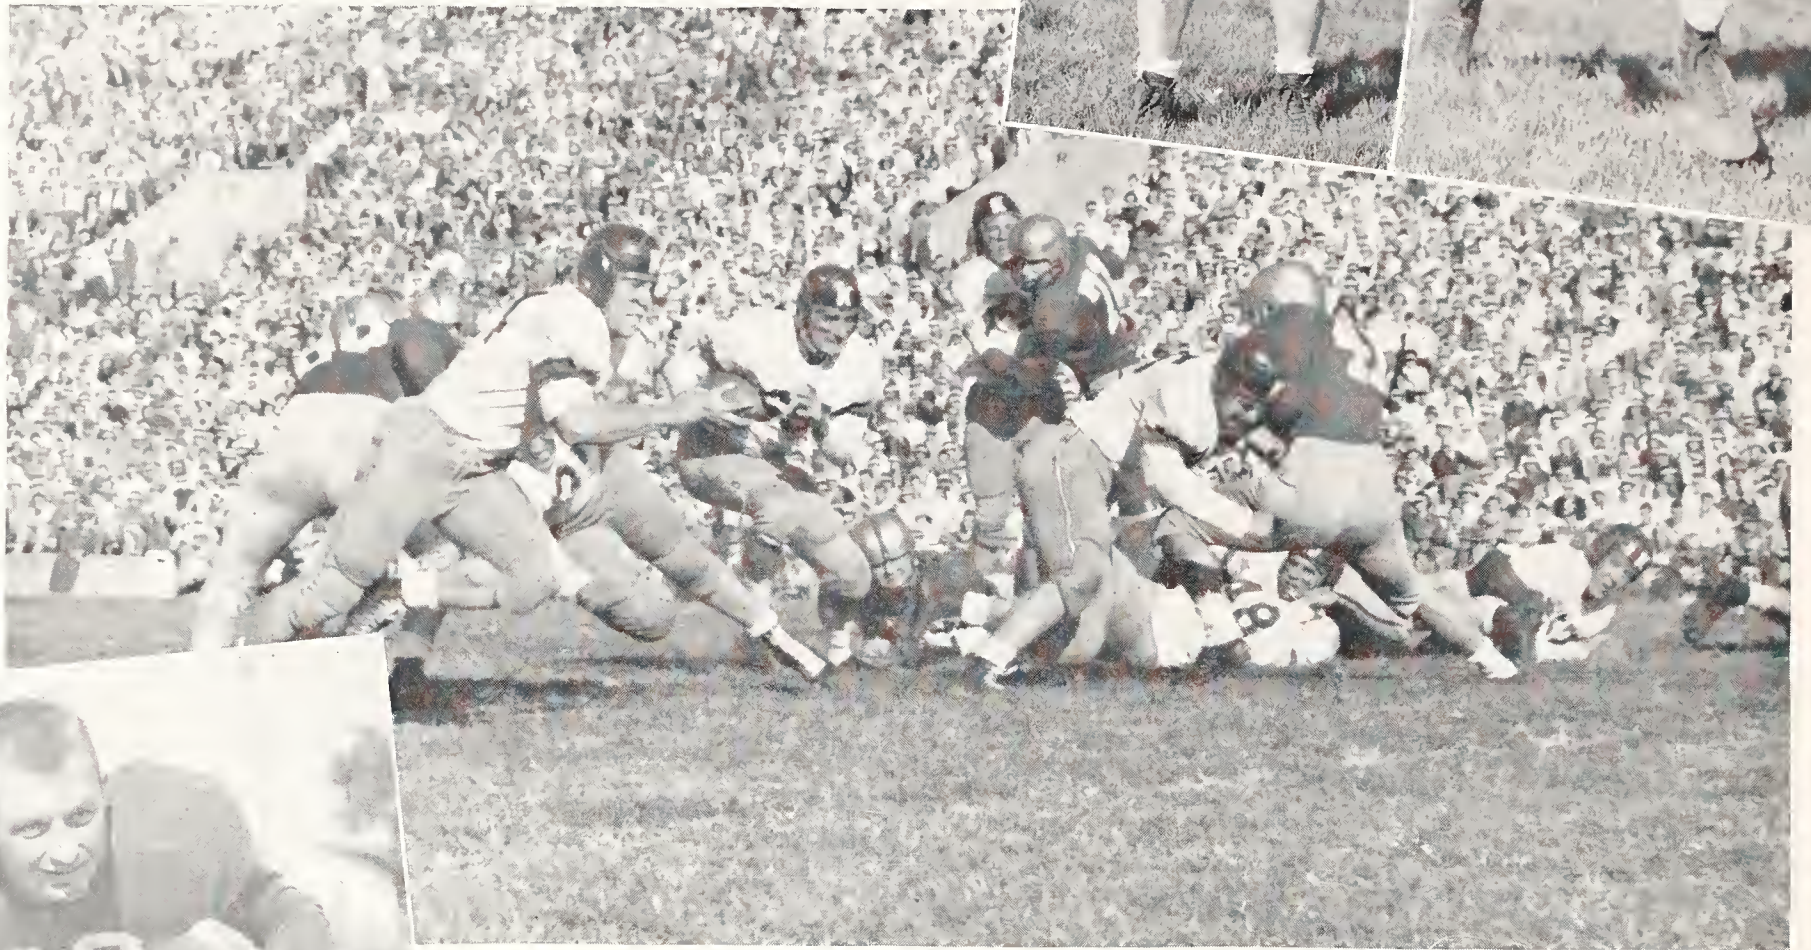

Hi Faubion dives over the Iowa State goal line (center) for one of the Wildcats' touchdowns. Talton Pace (top right) was a defensive tackle. Don Bliss (upper right) was transplanted from the backfield to the line and may develop into a top-notch lineman. Kenny Johnston (right center) was elected co-captain for the coming year and was one of the best line-backers in the conference. Joel Berry (far left) was a standout defensive end. Jon O'Connor (left) did most of the Wildcat's passing early in the season and may develop into a fine passer in his two remaining years of competition.

K-Staters fell behind in the third period and never caught the rampaging Southerners.

Dick Johnson (left center) was all-around end standout and was elected co-captain for the coming season. Ray Romero (far left) appeared to be in for his best year before being injured in the Nebraska game. His loss was a severe setback to Wildcat grid hopes. rivals, KU, 38 to 0. The Jayhawks took the opening kickoff and marched down the field for their first tally. The Wildcats fought back and appeared to be on the way to a touchdown of their own until stopped by penalties and a fumble.

Behind two touchdowns at halftime, the tiring Wildcats could not stand the Jayhawk pace and saw the game turned into a rout in the final minutes.

Battle O.U. in Big Weekend

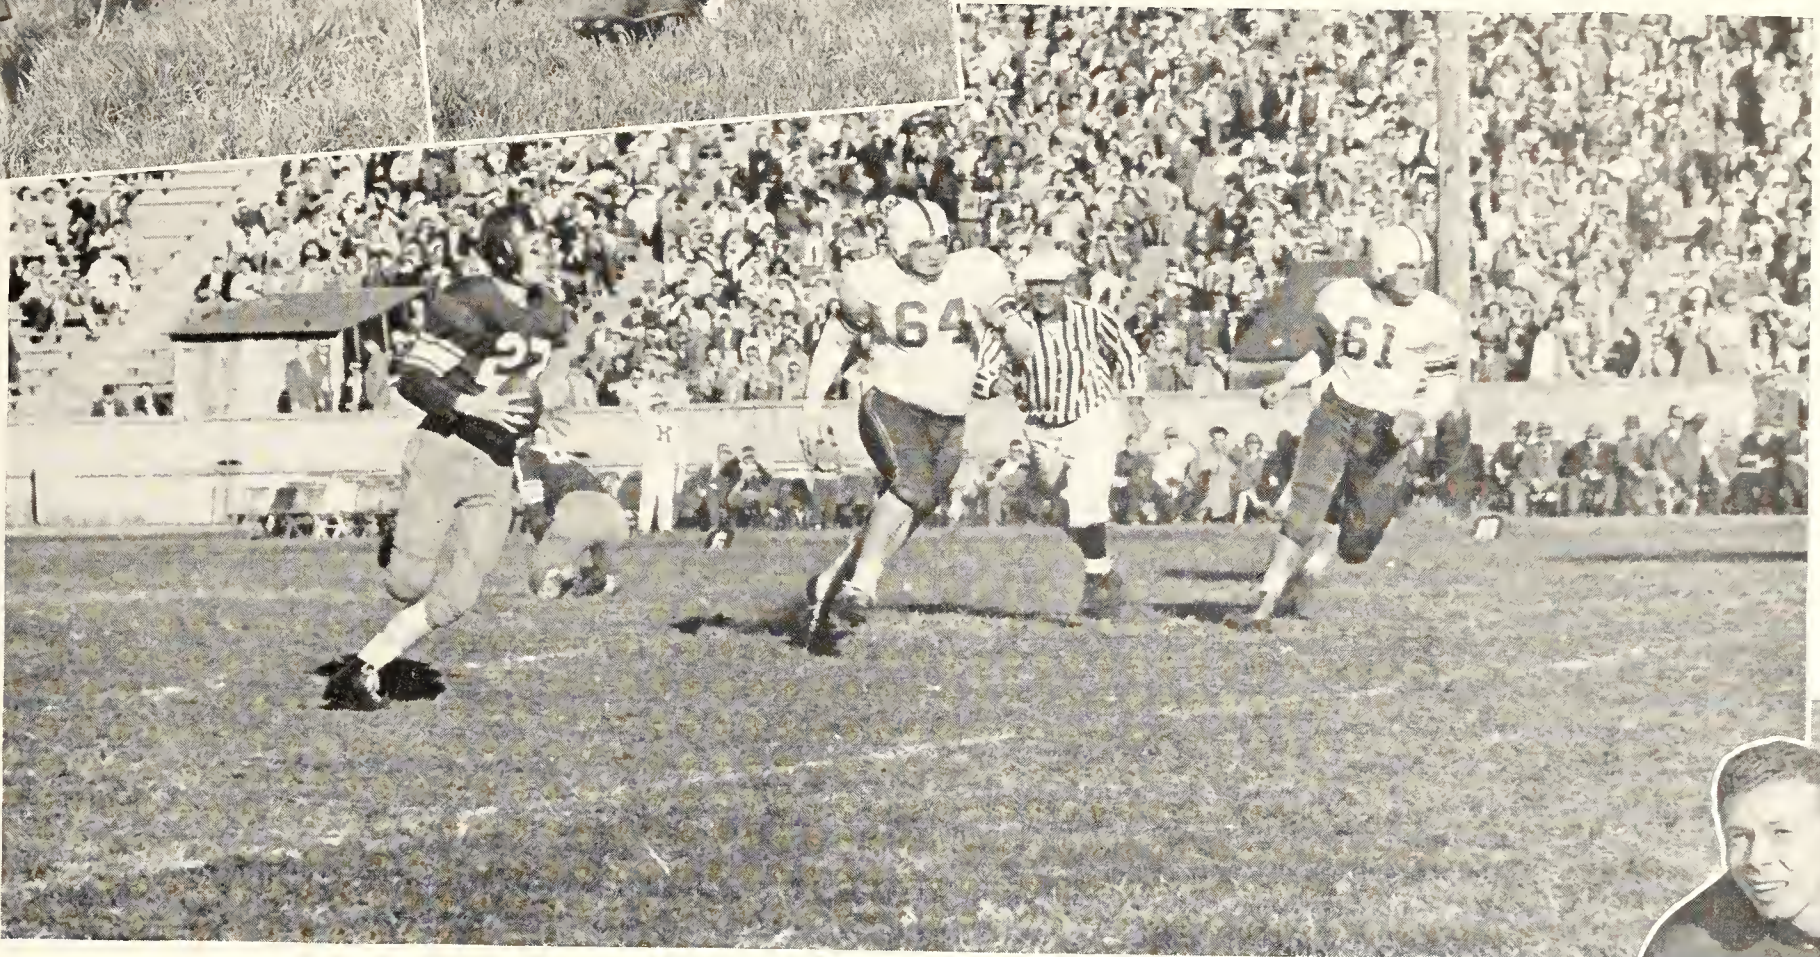

Before a record-shattering Homecoming crowd of 18,500, Kansas State put up a determined but outclassed stand against the Oklahoma Sooners, ranked as one of the top teams in the nation, before falling 39-0. The power-laden Sooners chalked up 33 points in the first half but were limited to only six in the second half by the aroused K-State defense. Dana Atkins starred for the Wildcats with his accurate passing and quarterbacking.

In Aggie Mud Battle

In a battle of mud, Oklahoma A & M outlasted Kansas State, 26-13, in the Wildcats' final home appearance. Tiny Dana Atkins' passing and the fine running of Hi Fubion and Dennis Kane gave Kansas State a 13 to 6 third period lead, but the Cowboys' superior reserve

Mighty Mite Dana Atkins (*center*) eludes two Oklahoma linemen as he scans the field for a pass receiver. George Smith (*far upper left*) was converted from end to guard where he turned in creditable performances. He suffered a skull fracture in the final game of the season but is expected to play next year. strength registered three touchdowns in the last quarter. Sophomore Dennis Kane reached a peak he maintained for the rest of the season as he crashed through the heavy Aggie line for long gains.

Play on Gumbo Grid

The gridiron was a quagmire from all-night and early-morning rain, but it didn't dampen the passing attacks of either team. Dana Atkins matched passes with the Aggies' Hartman and Riley, while Hi Faubion topped anything the Aggies' offered as a breakaway back.

Lose Early Lead

At Tulsa, the Wildcats scored twice before the Golden Hurricane could count one, but again fell behind in the last half and

Stand Well Against Mizzon

lost 47 to 28. The Hurricanes' ace quarterback put on an aerial show for the fans in Skelley Stadium as he tossed five touchdown passes. A new-found passing combination of Atkins and end Dick Johnson accounted for two touchdowns and lots of valuable yardage but it was Tulsa's day.

In the last game of the season, Kansas State stunned the football experts by playing the bowl-bound Missouri Tigers right down to the wire before falling 34-28.

Fool Dopesters With Air Attack

Dana Atkins turned in one of his best performances as he kept the Wildcats in the game with spectacular passing. One of his touchdown passes came on the last play of the game when he hurled a strike to end Dick Johnson, who made sensational catch in end zone.

Sophomore halfback Elmer Creviston suffered a fractured skull in the game and remained in a Columbia hospital for a week after the Thanksgiving Day tilt.

The 1949 team showed promise for the next two years.

Frosh Look Good Despite Wrong-Way Scores

This was a busy year for Ted Warren who had to handle two jobs. Warren was originally brought to Kansas State as field representative to meet the high school athletes and sell them on K-State. But with the resignation of Lud Fiser, Warren also took over the job of coaching the Wildcat yearling football team.

Prospects Look Good

Although the freshman gridgers failed to win either of their two games, they demonstrated spirit and determination that is typical of Kansas State's rebuilding program, now in its third year. Another factor to be considered in the two frosh losses is the caliber of team they were playing. Both Nebraska and Kansas claimed to have the best freshman grid aggregation in the history of the schools.

Drop to Huskers

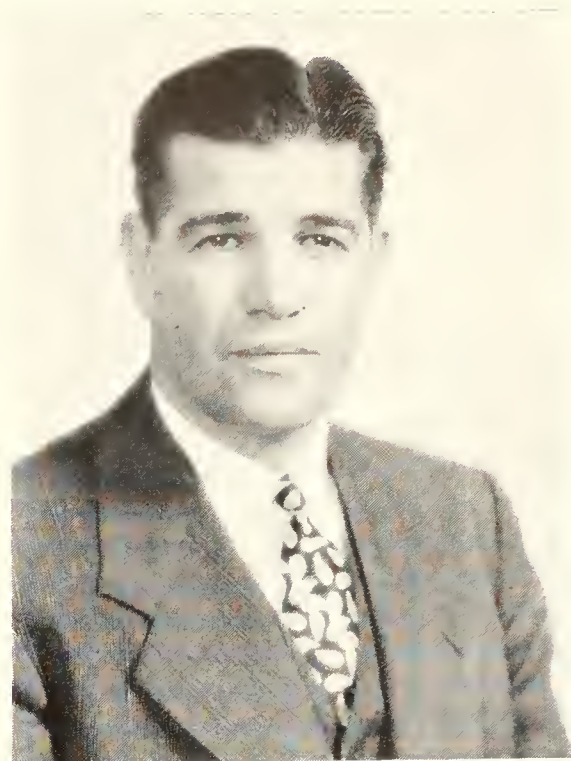

The junior Wildcats opened their season against a powerful Nebraska eleven and fell before the Nebraskans power 14-0. The yearlings fell behind 14-0 in the first half, and couldn't overcome the Nebraska lead, but held their opponents scoreless in the second half.

Highlighting the game was a 70-yard touchdown jaunt by Nebraska's Bob Reynolds, reported the best high school athlete to come out of the Cornhusker state in several years. But the Wildcat frosh had a few tricks of their own and moved deep into Husker territory on the line plunges of Carvel Oldham and the end runs of

George Zipp and Dick Towers. Each time the K-State frosh moved into a scoring position the Nebraska line stiffened and held on downs or else the inexperienced freshmen fumbled.

In their final outing of the season, the Wildcat yearlings lost a 25-6 decision to the Kansas first year men. The game was closer than the score indicated. At

the start of the final period, the Jayhawks could claim only a one touchdown margin. But a kick-off return for a touchdown plus a 90-yard touchdown gallop enabled the Hawk frosh to pull away. Dick Towers was the star for Kansas State when he returned a KU kick-off for a touchdown, and reeled off other long gains.

Ted Warren keeps busy the year around as he coaches the Kansas State freshman team and meets prospective high school stars over the state. Warren was moved up to be assistant athletic director during year and at the same time Emmett Breen made frosh grid coach.

For the second time in the past three years, the Kansas State basketball team was on top of the conference

heap when the battle smoke cleared away. The Wildcats were forced to settle for only a share this year, though, as they tied for top honors with Kansas and Nebraska.

Despite some late season

losses, Coach Jack Gardner's team wound up the season with 17 wins and 7 losses. The conference record was 8 wins and 4 losses.

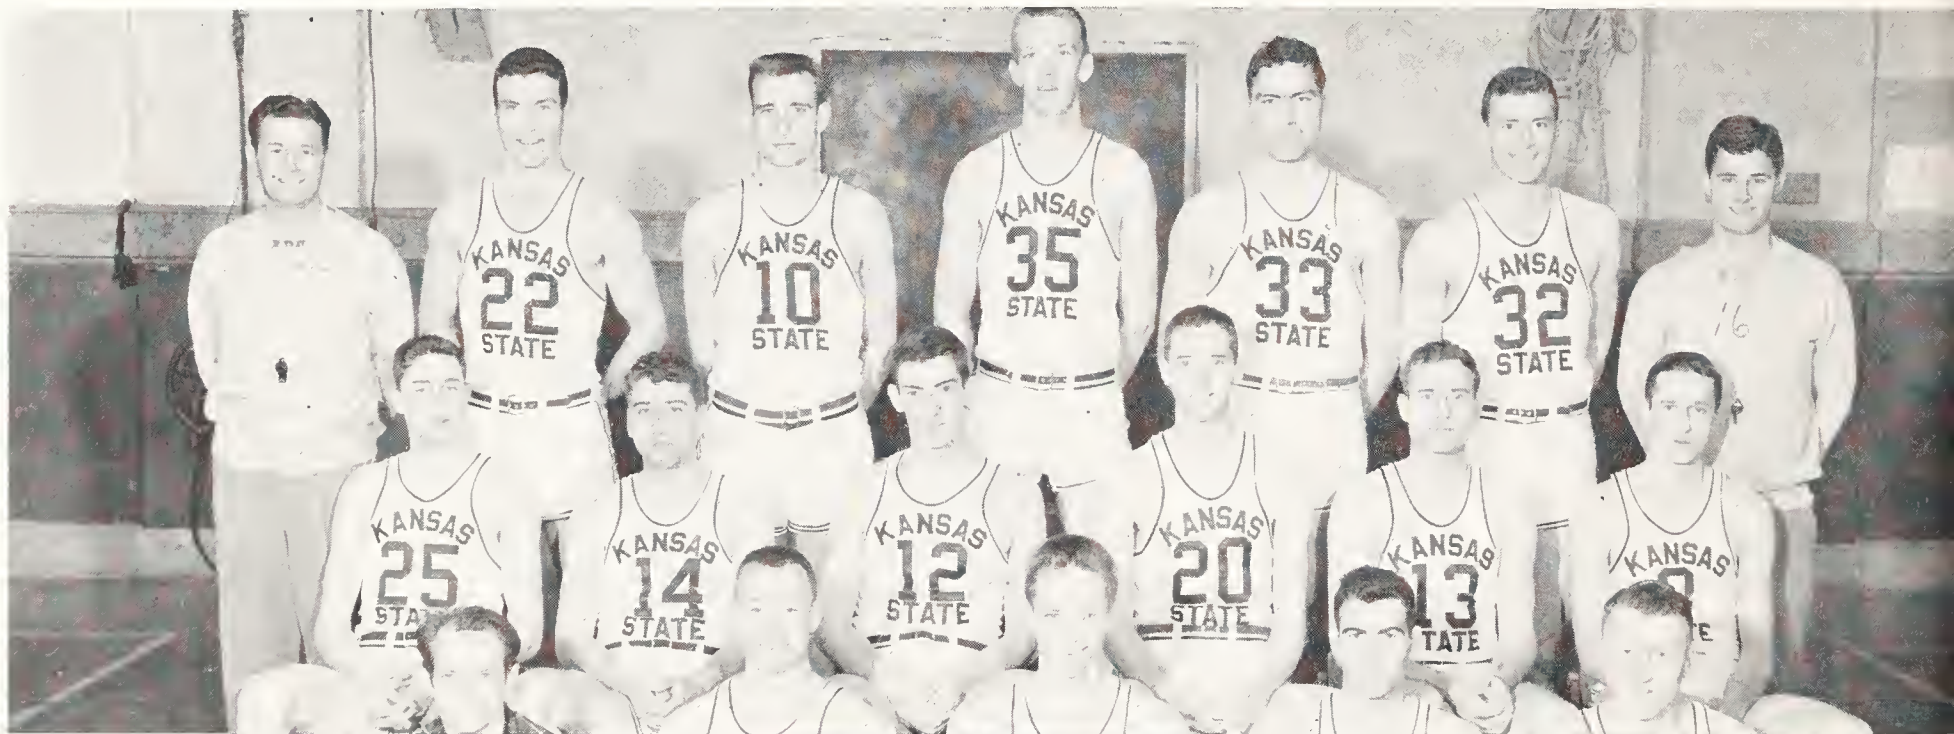

Biggest disappointment of the season came with the selection of KU to meet Bradley in the fifth district play-off game instead of the Wildcats. K-State believed it had the best season's record. The Cats defeated the Jayhawks two out of three games, but the selection committee claimed KU had finished stronger at the end of the year and sent the Jayhawks into the play-off.

Kansas State opened the season by setting a new Nichols gym scoring record by routing Rockhurst 83-34. Next victim was Emporia 59-50.

Court Fortunes Again

The Wildcats suffered their first setback of the season in the initial game of their Eastern road trip 48-56. The K-State cagers couldn't handle All-American Don Rehfeldt and committed 29 fouls to only 10 for the Wisconsin Badgers. Consequently the Cats lost from the charity line.

son Square Garden by coming from behind to defeat Long Island 58-51. Ernie Barrett sparked the win with five fielders in a row and totaled 15 points for the night. It was the first K-State win over LIU in three attempts.

Tired from sightseeing in New York City, the Wildcats dropped their next outing in the East to Canisius 51-54 at Buffalo.

K-State completed its lengthy road trip by stunning West Virginia U. on their home court 49-44. All-American Rick Harman led the way with 19 points to hand the Mountaineers their second home court loss in 65 games.

In a game open to the public, the Wildcats returned home to score a smashing 78-30 revenge win over Baylor.

Cats Place Third in Tourney

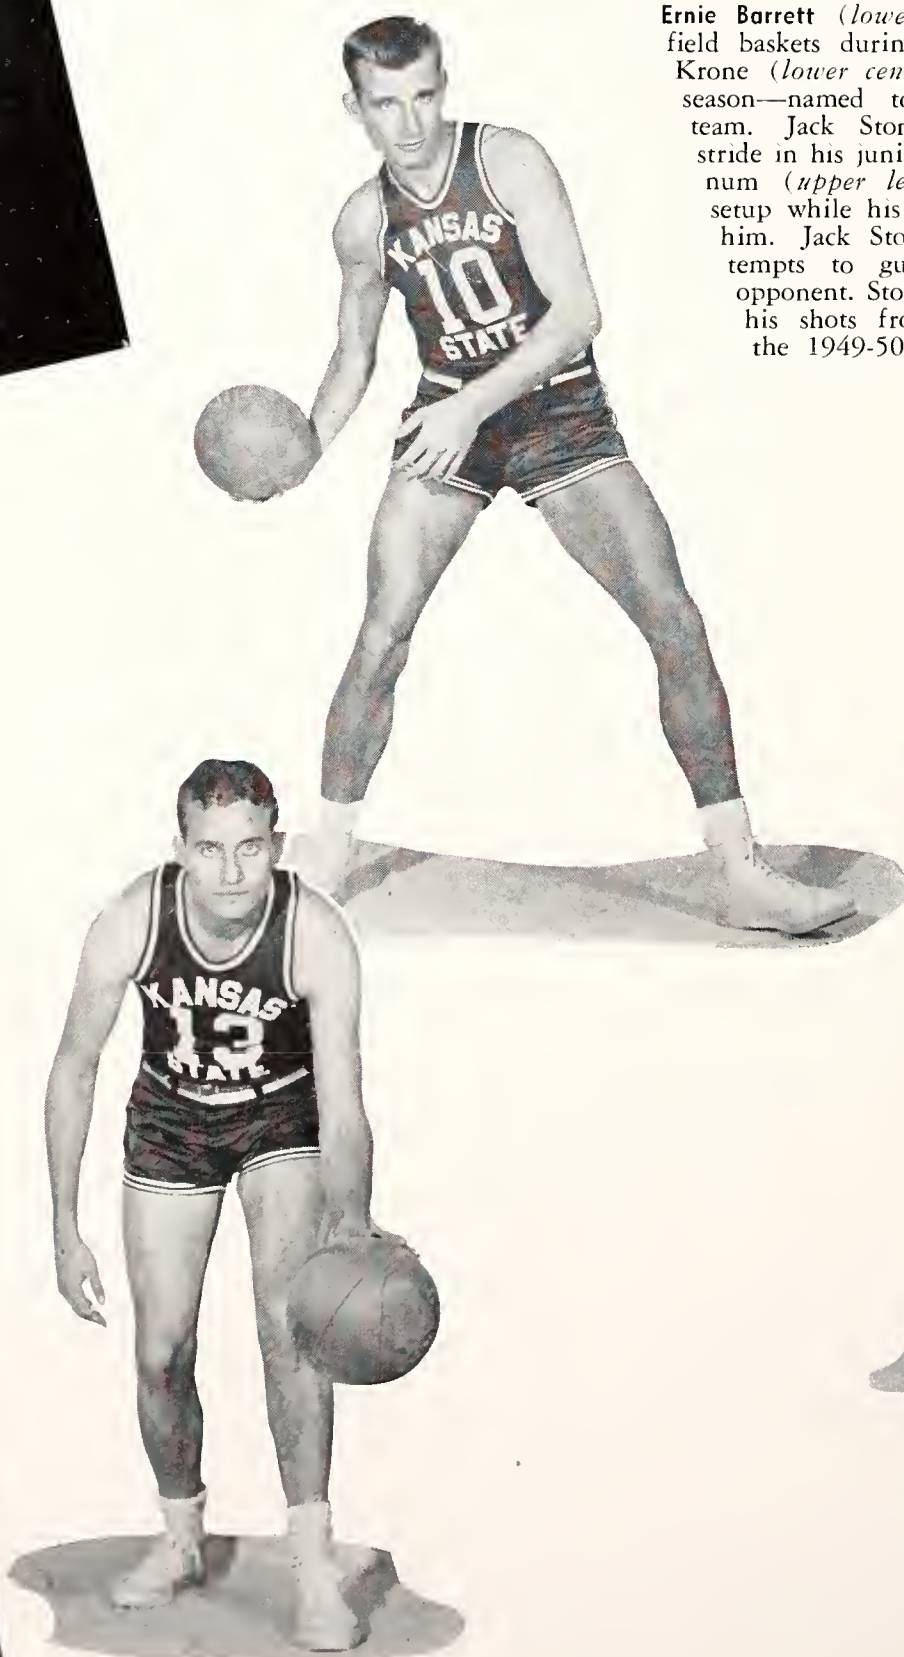

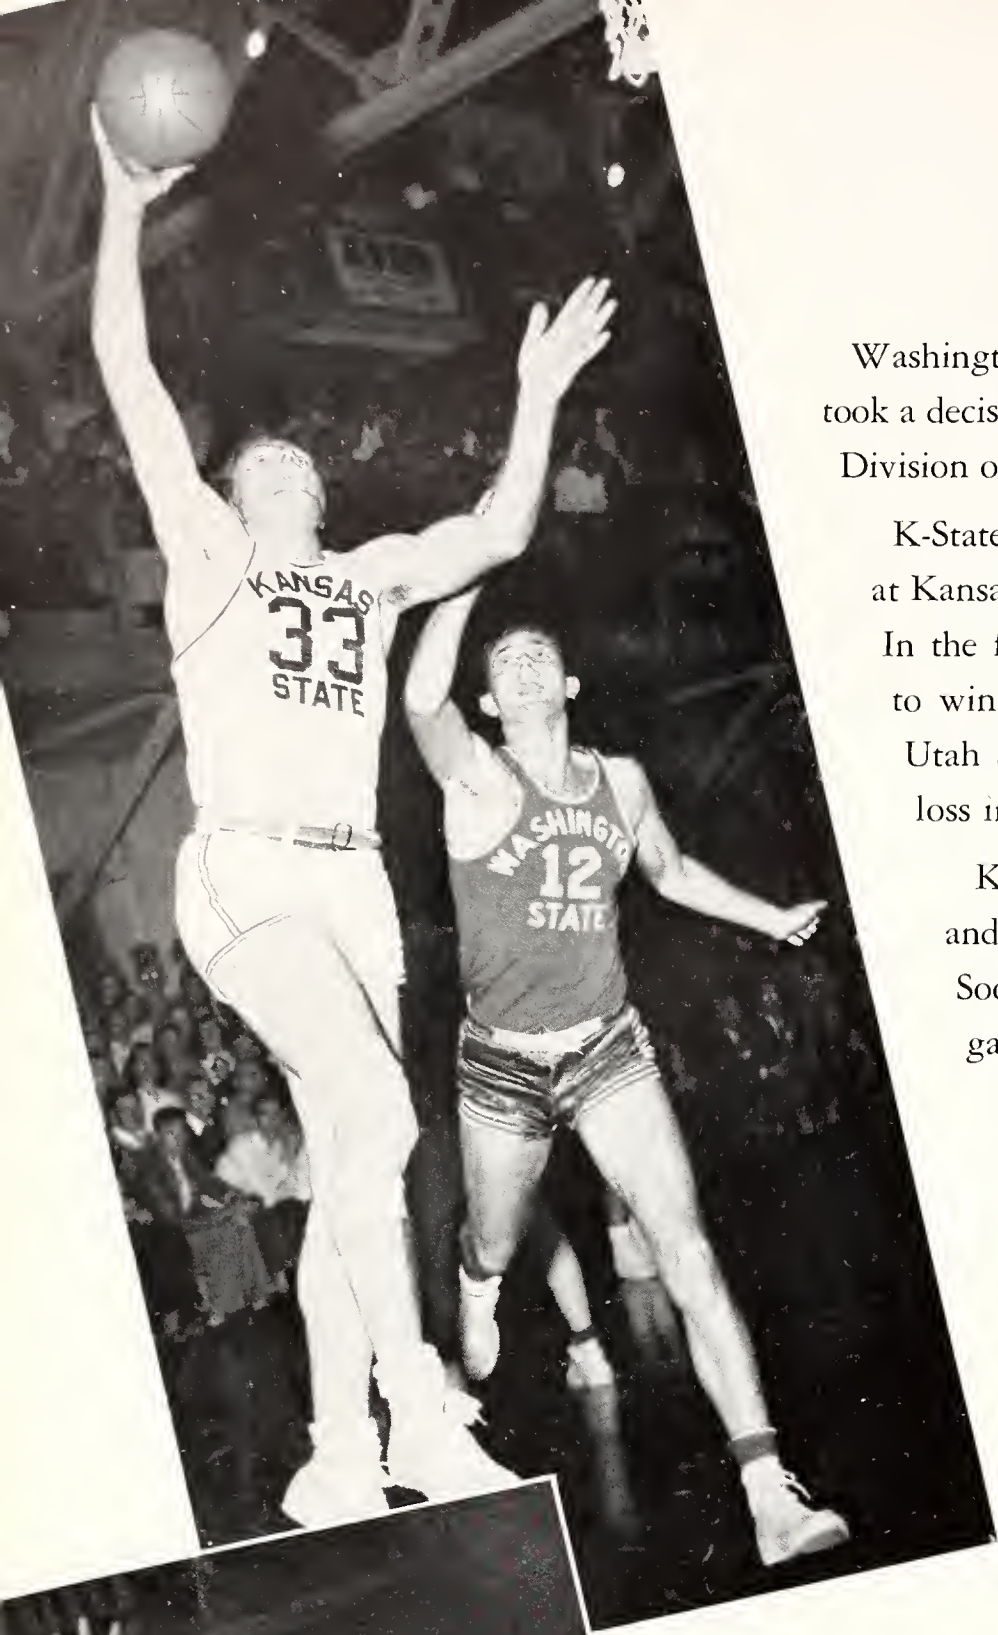

Washington State, entertained by the Wildcats during Christmas vacation, took a decisive 63-39 beating. The Cougars later went on to win the Northern Division of the West Coast League.

K-State defeated KU in the first round of the Big Seven pre-season tourney at Kansas City, 58-48, but lost to Oklahoma 50-55 in the semi-final round. In the final night of the tournament, the Cats defeated Colorado 59-46, to win third place in the tournament. K-State returned home to hand Utah State, another highly regarded non-conference opponent, a 70-45 loss in another Christmas vacation game.

Kansas State went into actual conference competition at Norman and took a thrilling 43-42 overtime decision from the Oklahoma Sooners. Rick Harman went on a rampage in the final minutes of the game and in the overtime to pull the game out of the fire.

the Iowa State Cyclones 99-57 in Nichols Gym. Rick Harman was again high man for the Cats as he scored 16 points while playing only 16 minutes.

At Colorado, K-State handed the Buffalos the worst defeat in C. U. history, 75-45. Ernie Barrett was high man with 15 points.

Completing the long road trip at Lincoln, the Gardnermen ran into a gang of red-hot Nebraska sharpshooters and suffered their first loop defeat, 63-65 in an over-time. Clarence Brannum was the high point man for K-State with 14 points.

Ed Head (*lower left*) had the best night of his career as he pumped in 24 points against KU in the Wildcats' losing effort at Lawrence. Al Langton's defensive aggressiveness and ball handling pulled the Cats through the close ones.

Bow to Huskers, "Jinxed" Tigers

The Wildcats rebounded from the Nebraska licking with vengeance and ran over Oklahoma 91-68. With Harman showing the way with 21 points, the Cats handed the Sooners their worst defeat of the season and scored the most points ever counted against one of Coach Bruce Drake's teams. This game also set a conference record for the most total points scored by two teams in a single game.

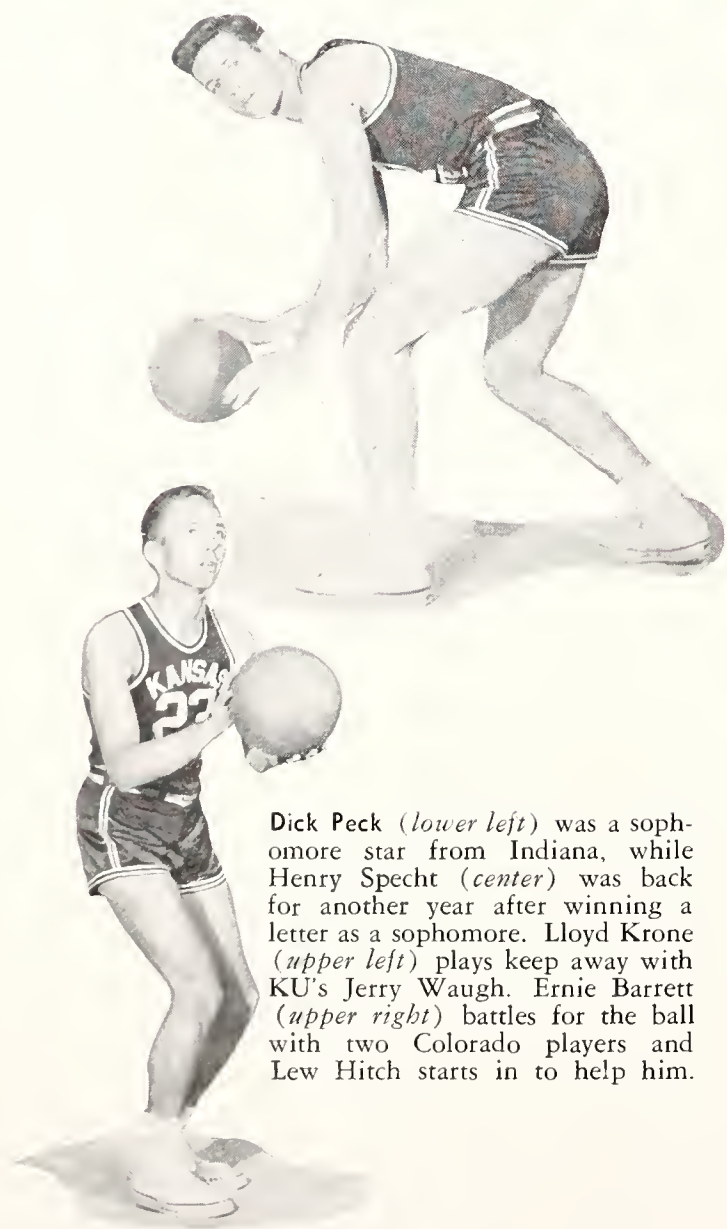

Missouri Coach Sparky Stalcup retained his jinx over Kansas State basketball teams by leading his team to a 59-43 win over the Cats at Columbia. The game was close right down to the wire, but the Tigers turned on the steam in the final minutes to win going away. The loss dropped K-State into second place behind Nebraska.

Coach Gardner's charges scored their second consecutive win over KU, by taking a hard fought 55-50 verdict from the Jayhawks. All around scoring punch was responsible for the triumph, although Phog Allen's boys were never out of the game until the final gun.

The Wildcats repeated their easy win over Iowa State 80-56, this time on the Cyclones' home court. Barrett was the leading scorer of a well balanced attack with 15 points.

Colorado was knocked from further title consideration by losing 74-49 in Nichols Gym. It was the third consecutive loss to the Cats by the Buffs during the season.

Missouri's last-place Tigers roared into Nichols Gym and dealt Kansas State's title hopes a severe jolt by edging the Cats 58-55. It was sixth win

in seven meetings for Coach Stalcup over Jack Gardner, and dropped the Wildcats to second place deadlock with Jayhawks.

KU put an end to any hopes K-State had of winning the title in undisputed fashion by defeating K.S.C. 79-68, before an overflow crowd in Hoch Auditorium. Big Clyde Lovellette was too much for the Wildcats as he poured in 32 points to lead the Jayhawk victory. It was the first conference win for KU over K-State since 1947.

In a last ditch battle for a share of the conference basketball crown, the Cats defeated a hustling Nebraska quintet 63-60. This win coupled with KU's loss to Oklahoma elevated the Cats to a three-way tie with the Hawks and Huskers.

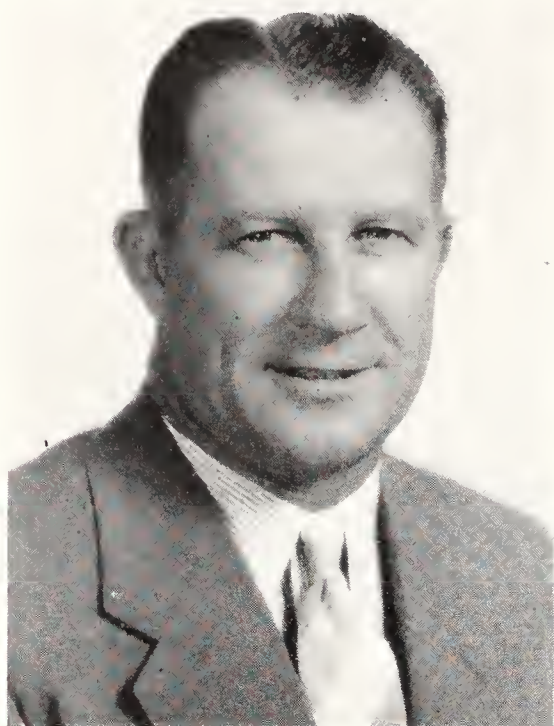

Four Kansas State cagers, Rick Harman, Clarence Brannum, Lloyd Krone, and Al Langton, made their final appearance in K-State uniforms. Harman climaxed a brilliant four year career by being mentioned on practically every all-American team in the country, including first five on Sporting News' selections. Brannum ended his stormy collegiate career by being named all-conference for the second time and receiving all-American mention.

Knorr Leads Wildcats In Tough Diamond Battle

A shortage of manpower coupled with bad weather early in the season put Kansas State in the number five spot in conference baseball rankings. Under the tutelage

hardworking Jack Dean on the mound. Atkins led the league in total bases with 60, and Nielsen ranked third in the batting race with an average of .340.

of Coach Fritz Knorr, the Wildcat nine won six games and lost eight. It was Knorr's fourth year at the helm of K-State baseball fortunes.

Leading the diamond crew over the tough Big Seven schedule were infielders Dana Atkins and Jack Nielsen in the batting department and

Dean won five games and lost two in loop competition. He tied with KU's Dick Gilman for the most games pitched, at 10. Over all, the Wildcat mound ace made an appearance in all but two of Kansas State's games.

Victory in Opener

The team got off on the right foot in their season's opener in the familiar setting of Griffith field by trouncing Wichita U., 11-1. Coach Knorr used all his squad in this game to uncover talent for the coming conference race. Duane Holder started for K-State and received credit for the win.

But the Wildcats' luck took a turn for the worse as they began a four game invasion of Oklahoma. In the first series, the Knormen dropped two games to Oklahoma, 8 to 5 and 5 to 4. Jack Dean pitched the first game for the Wildcats and did a creditable job but fell a victim of some erratic support. In the second game, Duane Holder received the starting assignment but was hit on the hand with a batted ball in the third inning and was forced to retire to the sidelines. Again it was Jack Dean who was called in to finish the game.

series with the Oklahoma Aggies. The powerful Aggie team duplicated the Sooners' feat and handed the Cats two more setbacks, 10 to 1 and 9 to 2. With Holder's ailing hand keeping him on the bench, the brunt of the pitching chores again fell on the slim form of Jack Dean. Dean pitched one complete game and five innings of another as the Wildcat sluggers remained harnessed before Aggie pitching.

Dean Smashes Huskers

Coach Knorr's charges fared better against their second conference opponent, Nebraska. The Cornhuskers came out on top in the first tilt, 9 to 2, behind the two-hit pitching of their ace, Jim Sandstedt. But Dean came back the next day to hang up a 14 to 4 win as the Wildcat bats exploded for the first time.

The team completed the eight-game road swing at Lawrence by splitting a pair of games with their arch-rivals. Duane Holder returned to the lineup in the first game to limit the Jayhawks to three hits, only to lose a heartbreaker, 2 to 1. Dana Atkins led the State nine to an 8 to 3 win in the second game by blasting two home runs as Dean twirled a four hit masterpiece.

Iowa State ruined the Wildcats' homecoming by taking the first round of the two game series, 3 to 1. Again Duane Holder was the victim of the Wildcats' impotent bats, as he lost his second well-pitched game of the season. Dave Bremner threatened to break up the game

in the eighth inning when he drove a long fly to the fence with the bases loaded. But the Cyclone outfielder pulled it in and the last Cat threat died. Rain postponed the second game.

Drop Two To Washburn

Five K-State errors contributed to the 9 to 8 loss to Washburn in the next home game. The Wildcats jumped to a four-run lead in the first inning, but miscues cost mound ace Jack Dean the game. K-State went into the ninth inning with a one-run lead that vanished as the Ichabods counted twice on unearned runs.

In the return game with Washburn at Topeka, the Wildcats again went down, 8 to 3. Holder started for K-State but was lifted for a pinch hitter after giving up four runs. Dean finished the game.

It looked like—and it was a long way around from home plate as the Cats went down to Washburn's Ichabods on errors (*below, top*). Even ground-covering like that of Al Sheriff (*bottom*) didn't help.

Dean, Holder Carry

Returning home, the Wildcats whitewashed Nebraska, 4 to 0, behind the four-hit hurling of Jack Dean. The Huskers threatened only once. In the ninth inning they loaded the sacks, but Dean settled down to retire the side via the strikeout route, the last victim being burly Tom Novak, Nebraska's home run hitter.

Cats Go Down Fighting

The Huskers bounced back the next day to down the Cats, 5 to 3. Holder had a tie game, 1 to 1, going into the ninth, but a towering home run by Novak started a rally that saw the Huskers count four tallies before being retired. The Wildcats fought back in their half of the inning to score two markers but went down before tying the score.

Kansas State swept a two-game series from Colorado in their next home appearance, 3 to 1 and 14 to 3. The first game, played Friday night, went 10 innings before hardworking Jack Dean could claim his victory. Going into the tenth inning, the score was tied 1 to 1. Then Dana Atkins reached first on an error and Al Sheriff, slugging third sacker, blasted a long drive over the wall for the game-winning scores.

Infield crew members for '49 were Jack Nielsen, Al Sheriff, Dale Carr, Dave Bremner, Loren Blaser, and Dana Atkins.

Pitching Load for Season

Dean held the Buffalos to a mere two hits during his 10 inning stint on the mound and retired the last 12 men to face him in order.

Holder In Initial Win

Duane Holder, the Wildcat's hard luck twirler, coasted to his initial win of the season the next afternoon in the 14 to 3 slugfest. Sheriff continued where he left off the night before by hitting an inside-the-park homer with Atkins aboard, and Catcher Clint Davis accounted for another four-master.

On their final road trip of the season the Wildcats journeyed to Missouri, where they dropped one game, 3 to 9, as the weather man washed out the second game. Jack Dean tossed a four-hitter but saw his efforts wasted as his mates could master only one hit, an infield roller by Dana Atkins, off the offerings of Roger Englert. The Tiger ace struck out 15 K-State batters. It was the second conference defeat suffered by Dean.

Split Pair With Jays

The Wildcats wound up their season at home by dividing a two-game series with the Kansas Jayhawks.

Did it bounce? Dave Bremner and a Jayhawk batsman both appear baffled as the camera records an instant's action in the night game. Cats and Hawks each carried off two wins from the seasons skirmishes.

Team Ends Fifth In Loop

Outfielders Dick Johnson, Ted Grimes and Jack Bell (*right*) handled the season's long-range chores. (*Below*) Dana Atkins, athlete who graduated last January, has his eye on the number one sack as he starts a circuit.

The one win salvaged by the Jayhawks handed them the Big Seven championship. But K.U. had to wait a night to clinch the loop crown as lanky Jack Dean turned in his best performance of the season. In stopping the Hawks 2 to 0, with only two hits and retiring an even dozen on strikeouts, Dean bested Dick Gilman, Jayhawk mound star, in a pitchers' duel that wasn't settled until the final out.

Only 16 Pass Dean

The two-hit shutout gave Dean a record of allowing only 16 hits in his last four games.

The hardworking chucker pitched in all but two of the Kansas State games.

Cats Whitewashed

After being humbled by the mastery of slender Jack Dean, the Jayhawks were not to be denied in the final game of the season. Their big bats exploded at the expense of starter Duane Holder and subsequent relief hurlers to pound out a 12 to 0 win. The win gave the Jayhawks a split for the four games played against Kansas State during the season and handed them the conference baseball title.

Tops in Solo Laurels Won by KS Trackmen

COACH WARD HAYLETT'S 1949 track team proved to be one of the most potent in recent Kansas State cinder history. The Wildcats placed high in several of the nation's big spike-shoe carnivals and broke even in their dual meets, winning two and losing two despite a noticeable lack of team depth.

Squad Ends Sixth

This lack of depth was most apparent in the Big Seven Outdoor meet, when Kansas State won more individual firsts than any other team, yet finished only sixth in final standings.

Hoskins New Star

The Wildcats were led again this year by Big Rollin Prather, conference master at the shotput and discus throw. Aiding Prather in the point-producing was a newcomer, sophomore Herb Hoskins, who developed into one of the nation's best broadjumpers before the season ended. Hoskins climaxed his first year of competition by winning the Junior AAU broadjump title at

Fresno, Calif., in June.

The Wildcats opened the season by finishing seventh in the Texas Relays. Honors for the day went to muscle man Prather as he took first in the shotput and second in the discus throw to win the high point man award for the

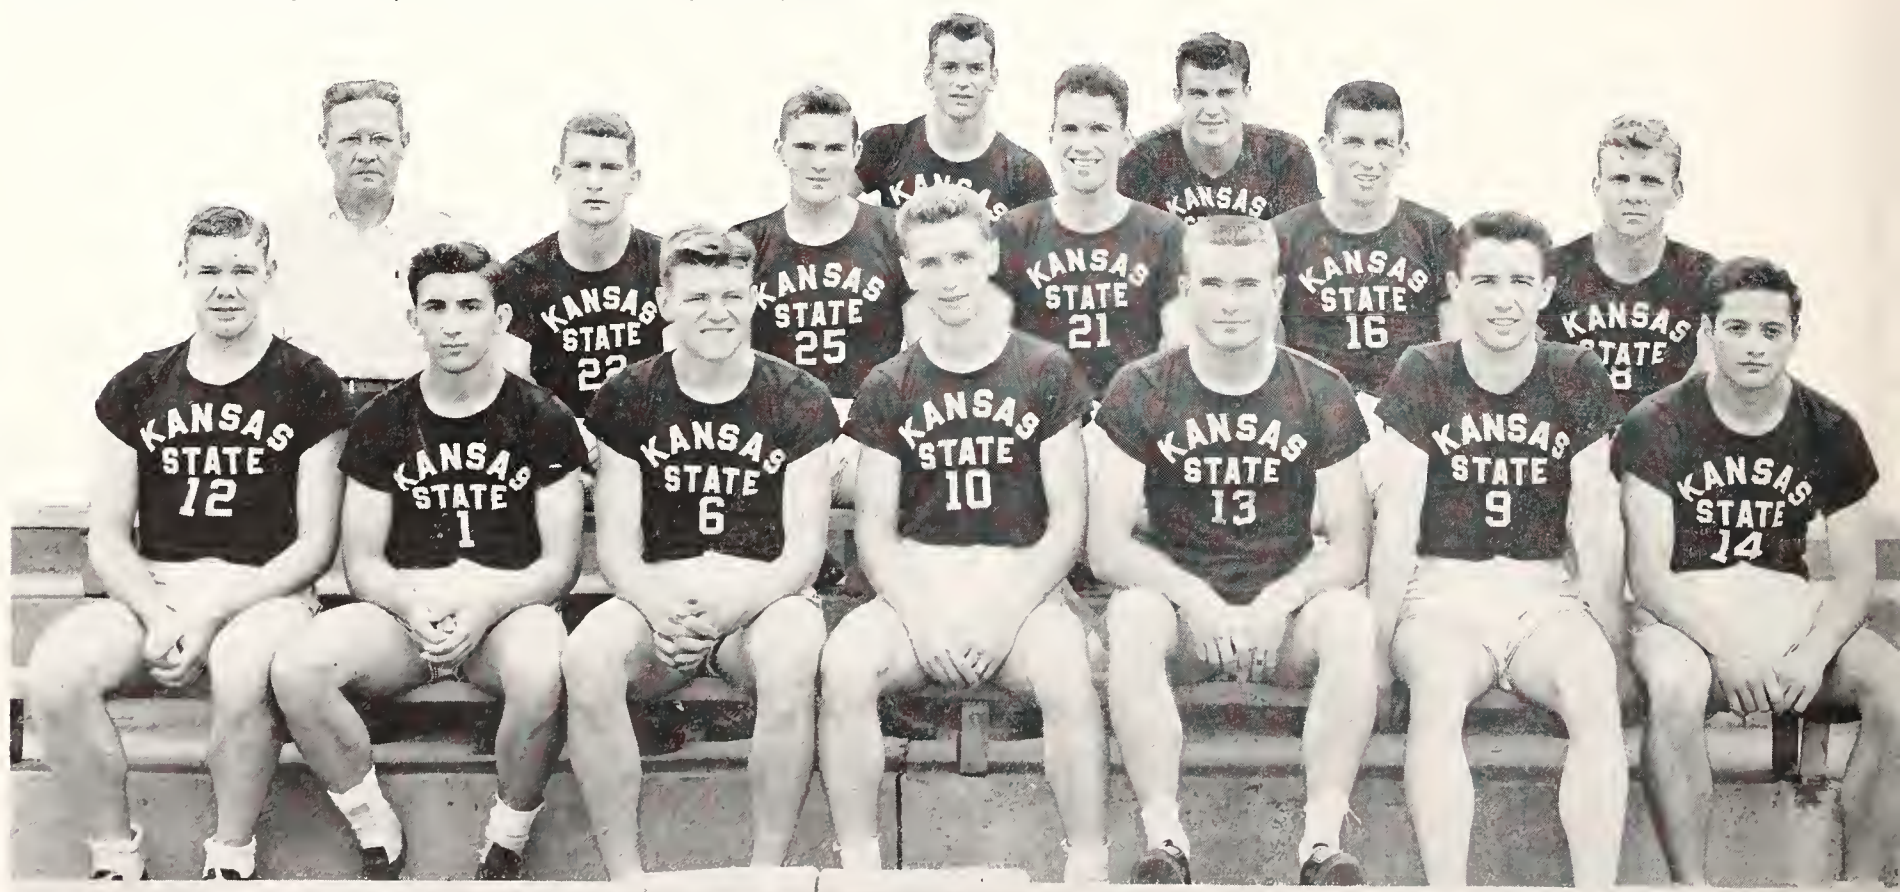

meet. Herb Hoskins won second in the broad jump, and the distance medley team won fourth to complete the K-State scoring. The Wildcat's performance in this meet set a pattern for the season. They made good showings in the bigger meets because of their individual stars, but they lacked the all-around depth to win.

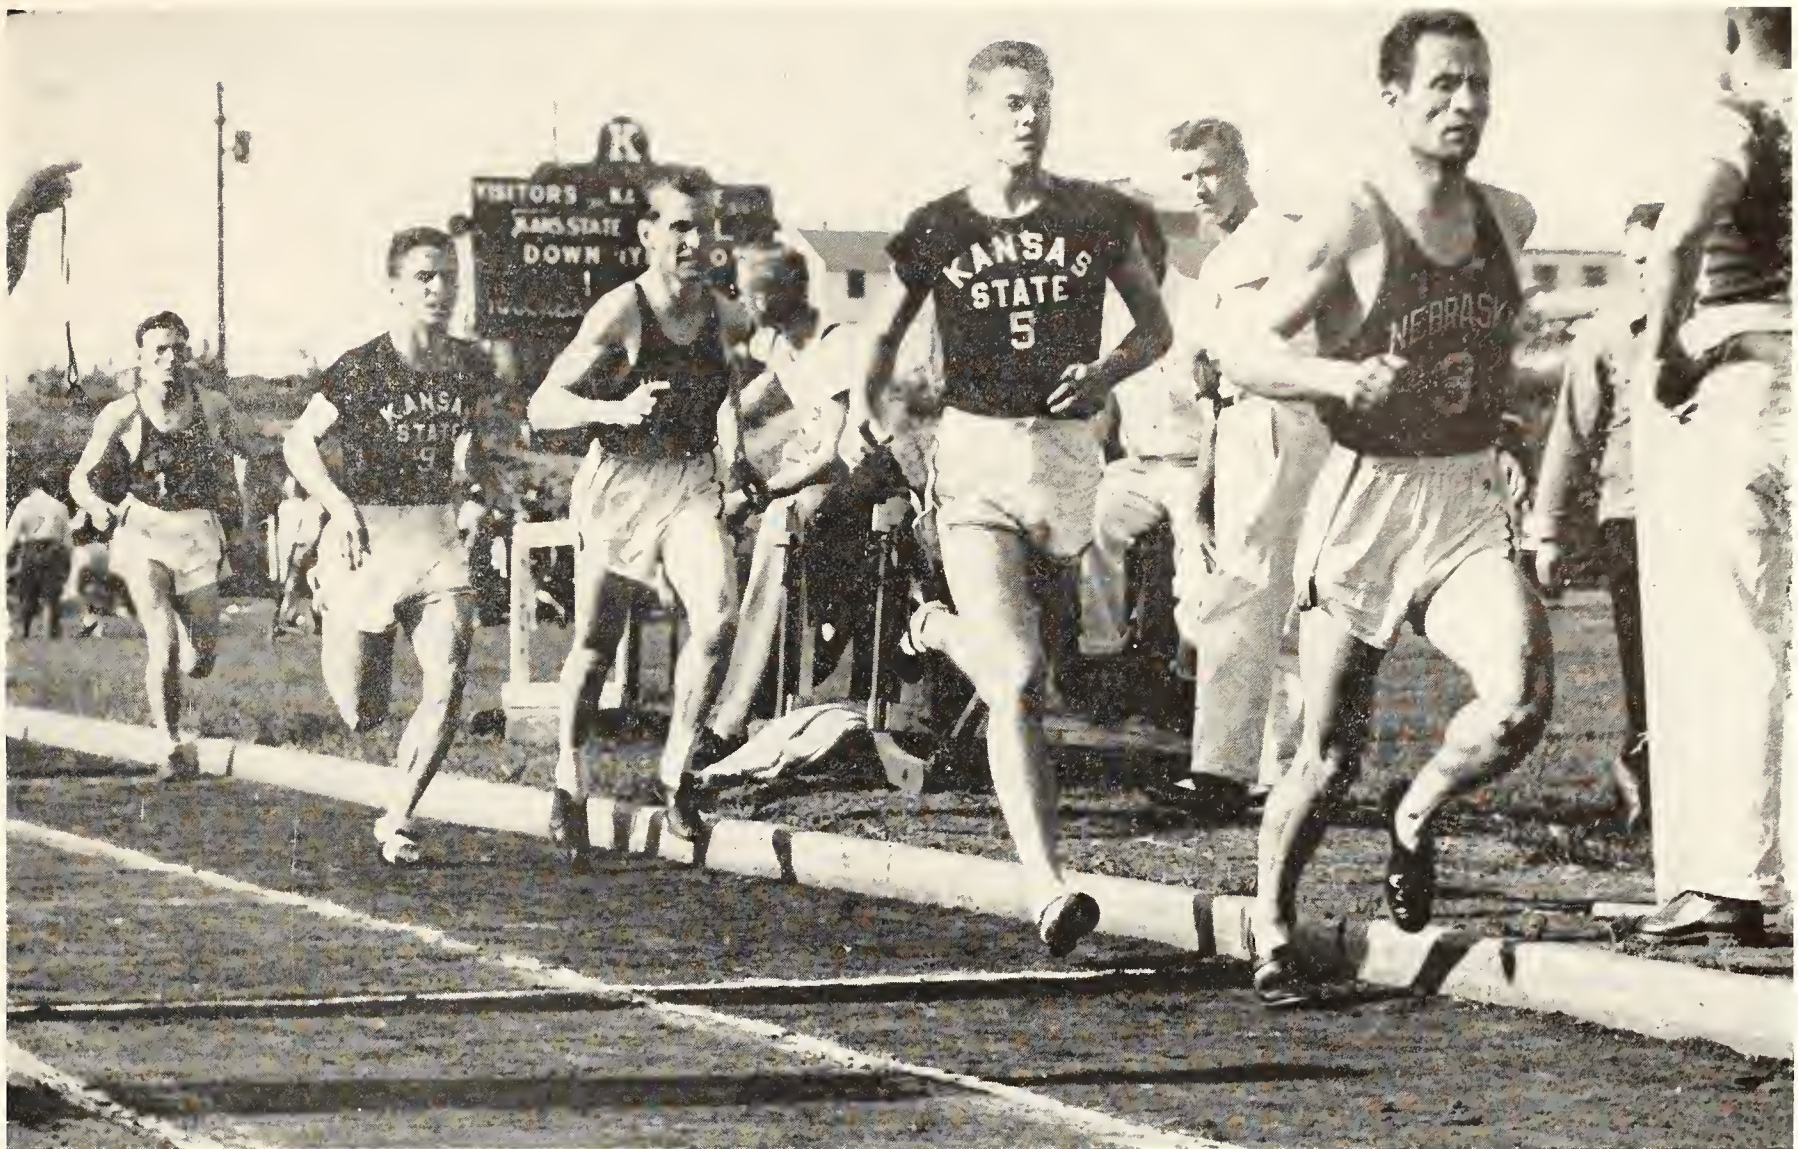

K-State's Ward Haylett is one of the nation's most distinguished track coaches.

Special honors of the track and field season went to Coach Ward Haylett and weight man Rollin Prather. Prather received recognition on the NCAA all-American track and field team for the second consecutive year. He won the all-American rating first on his ability to put the shot, and last year on his discus throwing.

Haylett, who completed his thirtieth year of coaching the cinder sport, was named referee at the Kansas Relays and recognized by the Helms Foundation Hall of Fame. The preceding year, Haylett was referee at the Texas Relays. In addition to this, Haylett was one of the Olympic coaches and is a member of the Century Club, organization for all track coaches with twenty-five years of service.

Hoskins Smashes Two Records At N.U. Meet

A new school high hurdles record was set by Earl Elliott (below, top), as he skipped over in 14.4 seconds at conference outdoor meet. Ed Head (bottom) cleared the crossbar at 6 feet 1 inch for the Cats.

Kansas State grabbed second place at the Colorado Relays as Prather tossed the discus 157 feet 10 inches to smash his own record in this event. To top it off right, he added the shotput title to again lead Wildcat scoring.

K.U. Beats Cats

In their next dual meet of the year, the Wildcats fell victims to their arch rivals, KU, 73 $\frac{1}{3}$ to 57 $\frac{2}{3}$. Prather was a double winner as he won the shotput and set a new meet record in the discus. Hoskins broke a 15-year-old record by broadjumping 24 feet 3 inches. Earl Elliott clipped off the high hurdles in 14.3 to win his specialty. Rod McClay won the 100 yard dash and Virgil Severns tied for first in the high jump to pace the Wildcat scoring.

Scare Huskers

Coach Haylett's charges gave the Big Seven's outdoor champion's, Nebraska, a bad time before succumbing to the Huskers' all-around strength, 73 $\frac{1}{2}$ to 57 $\frac{1}{2}$, in their final home appearance. K-State trailed by only two points going into the final two events. But the Huskers swept all places in these events for their margin of victory. Rod McClay highlighted his high point performance by shattering two records. He won the 100 yard dash in 9.7 to erase a mark a set in 1910, and copped the low hurdles in 23.6.

Prather Injured

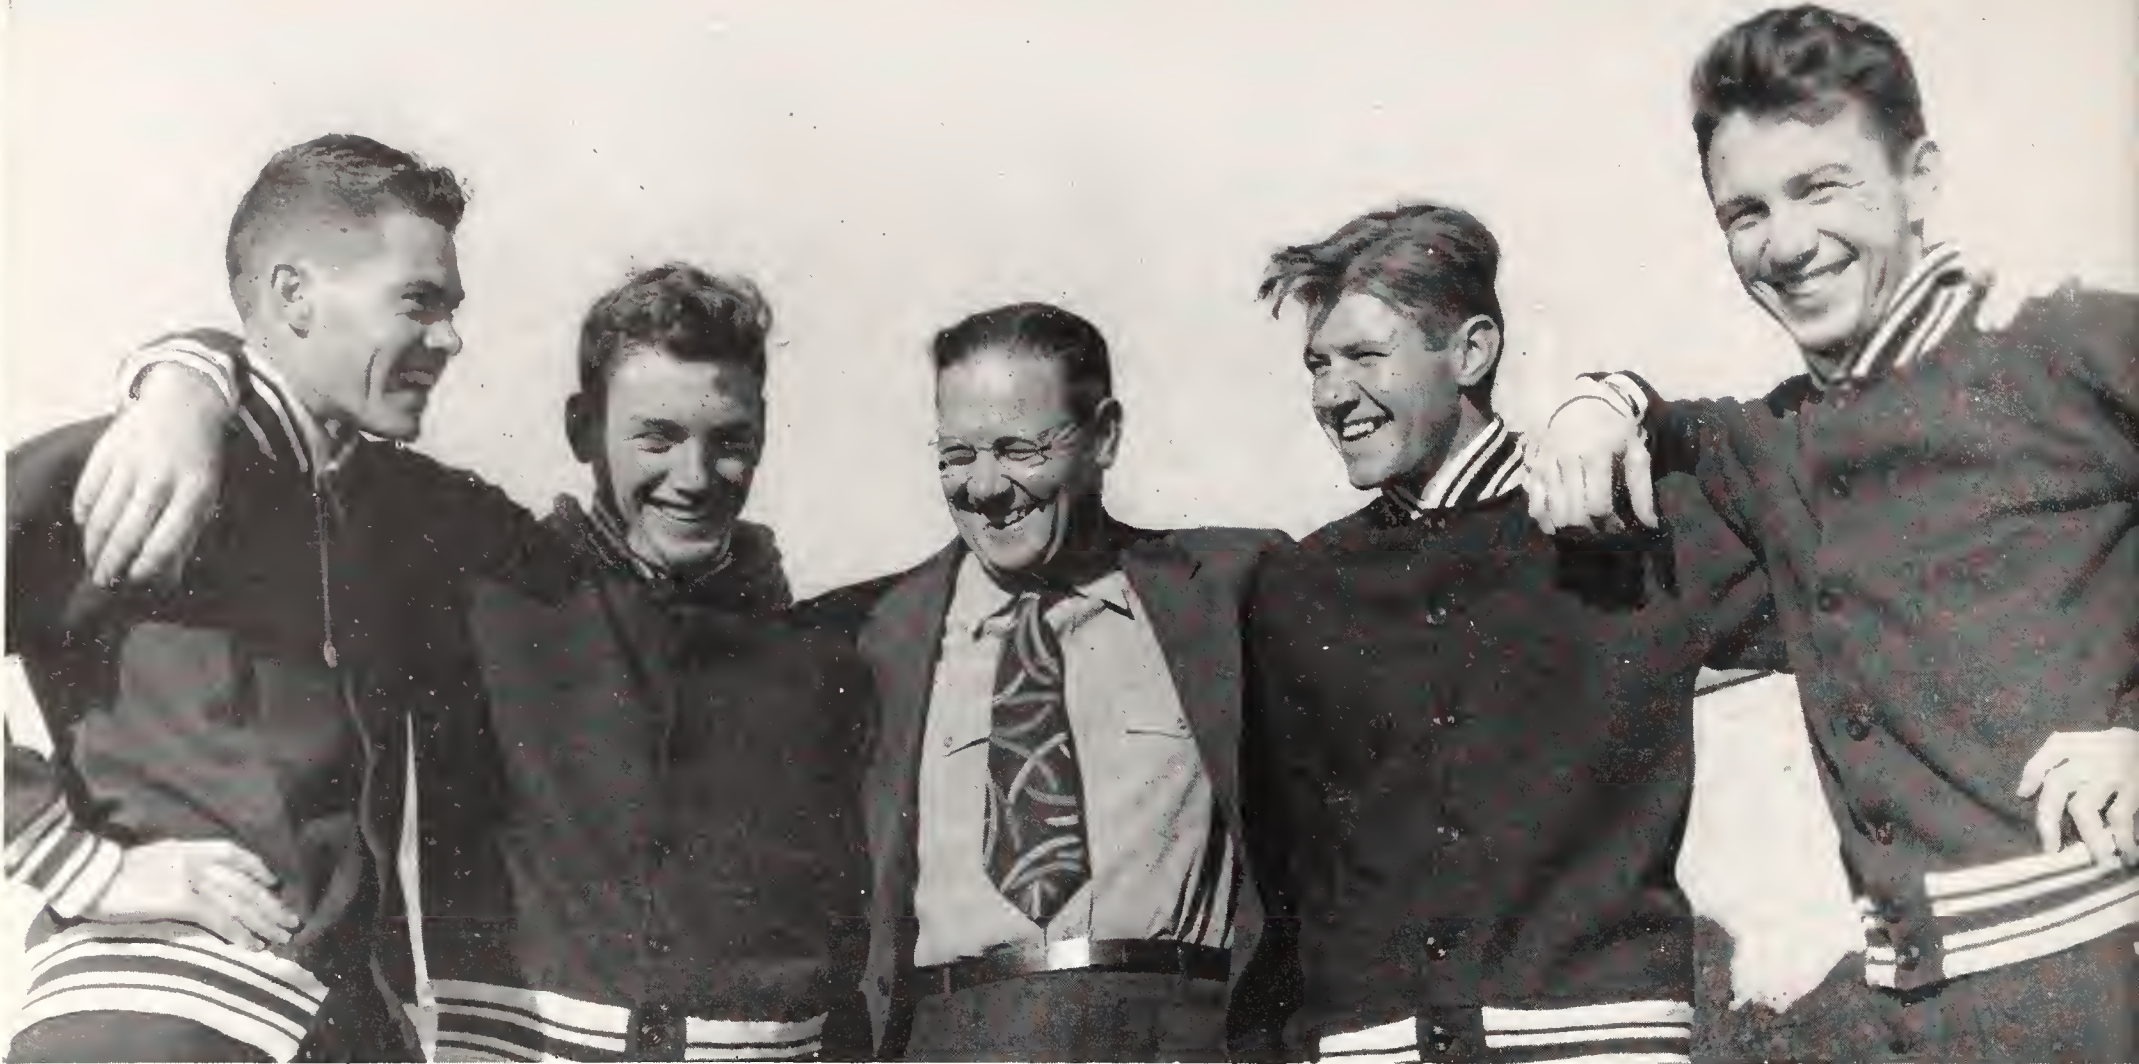

K-State's hopes of showing well in the Kansas Relays were dimmed by an elbow injury to Rollin Prather. "Tiny" injured his elbow practicing the discus and was able to garner only fourth places in both the shotput and the discus throw. Bright spot of the day for Kansas State was Herb Hoskin's showing in the broadjump. Against some of the best competition in the country, the Wildcat sophomore leaped 24 feet 9 $\frac{3}{4}$ inches in annexing first place. Elliott and McClay finished third and fourth respectively in the high hurdles, and the distance medley team took fourth to complete K-State's scoring.

Polevaulter Dean Nunn exhibits the form that placed him in several of the Wildcat's dual meets. Individual showings for the Wildcats were up to standard, though team results left something to be desired.

Grab Two Firsts in Big Seven-Southwest Meet

The Wildcats closed their dual season with a smashing $85\frac{1}{3}$ to $40\frac{2}{3}$ win over Iowa State. Rod McClay had a field day as he totaled 20 points for individual honors. He won first in the 100 yard dash and low hurdles, tied for first in the pole vault and was second only to Hoskins in the broad jump.

Kays, Elliott Top Marks

Dean Kays reached his peak as he set a new mark in the mile run at 4:29. Elliott continued his record breaking stride by skipping over the high hurdles in 14.9 seconds.

Tops in Loop Meet Solos

Kansas State won more individual firsts in the Big Seven outdoor track meet than any other team, but lacked adequate team strength to finish higher than sixth. Big Rollin Prather came through as expected to successfully defend his shotput and discus titles. Herb Hoskins and Earl Elliott added the other two firsts to the Wildcat total by winning the broadjump and the high hurdles.

In the annual Big Seven-Southwest Conference meet, two Wildcat stars, Hoskins and Prather, accounted for two firsts and a second. Hoskins came through in fine

style to win his broadjump specialty, and K-State's favorite son, Prather, won the discus and finished second in the shotput.

All things considered, the Kansas State thinclads did a notable job of carrying the purple and white colors against the superior manpower of other conference schools. Handicapped from the start because of poor indoor facilities, the Wildcats showed a marked improvement when they moved outside and were on a more even footing with the other teams.

Coach Ward Haylett proved again his ability to develop outstanding track men, by leading his team to the most individual titles in the conference meet. Haylett anticipates completion of the field house, when he can move his team indoors.

Dave Schleiffer was another of Haylett's two-mile stars.

Steady Indoor Season

Kansas State's 1950 indoor track team came out even in its dual meet schedule and showed well individually in some of the best indoor meets in the country.

The Wildcat cindermen opened the indoor season at the Michigan State Relays when Ward Haylett took a carload of field men to the big track carnival. Virgil Severns, high jumper, Herb Hoskins, broad jumper, and Rollin Prather, shotputter, all placed in their respective events.

In their first dual meet of the season, Kansas State renewed an old rivalry with Drake and handed the Bulldogs a 69-35 lacing in their own fieldhouse. The Wildcats dominated all the events and won with ease.

But against the perennially strong Nebraska Cornhuskers, Coach Ward Haylett's men lost 64-40. Virgil Severns was the individual star of the meet by high jumping 6 feet 5 $\frac{5}{8}$ inches for a new meet record.

In the Big Seven conference meet, Rollin Prather won the shotput for the third consecutive year, and Herb Hoskins won first in the broad jump as K-State took fifth. At the Illinois Tech Relays, Virgil Severns won the high jump and the two mile relay team took fourth.

Herb Hoskins examines Rollin Prather's injured elbow (*upper right*). Both Hoskins and Prather won conference championships in the indoor meet at Kansas City. Virgil Severns (*center*) shows the people how far he has to jump over his head when he clears 6 feet 5 $\frac{5}{8}$ inches.

The Wildcat golf team stroked its way to two victories and seven defeats in dual meets and finished fifth in the Big Seven meet at Lincoln.

Take First Meet

K-State's linkmen got off to a fine start by defeating Colorado $14\frac{1}{2}$ to $3\frac{1}{2}$ in the first meet of the year. Bob Moss, K-State, was the medalist with a 74. Coach Mickey Evans's golfers went on the road for their next two engagements, losing to Iowa State, $12\frac{1}{2}$ to $5\frac{1}{2}$, and to Nebraska, $15\frac{1}{2}$ to $2\frac{1}{2}$.

Bow to O. U. at Salina

The Wildcats' next opponents, Oklahoma, took a $10\frac{1}{2}$ to $7\frac{1}{2}$ decision at the Salina Country Club where K-State played one of its home meets. Oklahoman Paul Merchant's 72 won medalist honors. At Lawrence, K-State lost to KU, 13 to 5, then returned to the Fort Riley course to lose to Missouri, $17\frac{1}{2}$ to $\frac{1}{2}$.

Top K. U. in Final Contest

Nebraska came calling and topped the Wildcats, $15\frac{1}{2}$ to $2\frac{1}{2}$. Drake edged K-State $10\frac{1}{2}$ to $7\frac{1}{2}$, and in the final dual meet of the season, the Wildcats defeated KU, 16 to 2.

Could Be Better

Kansas State's tennis team had little luck in their dual meets, winning one while dropping seven and registering only two points in the conference meet at Lincoln.

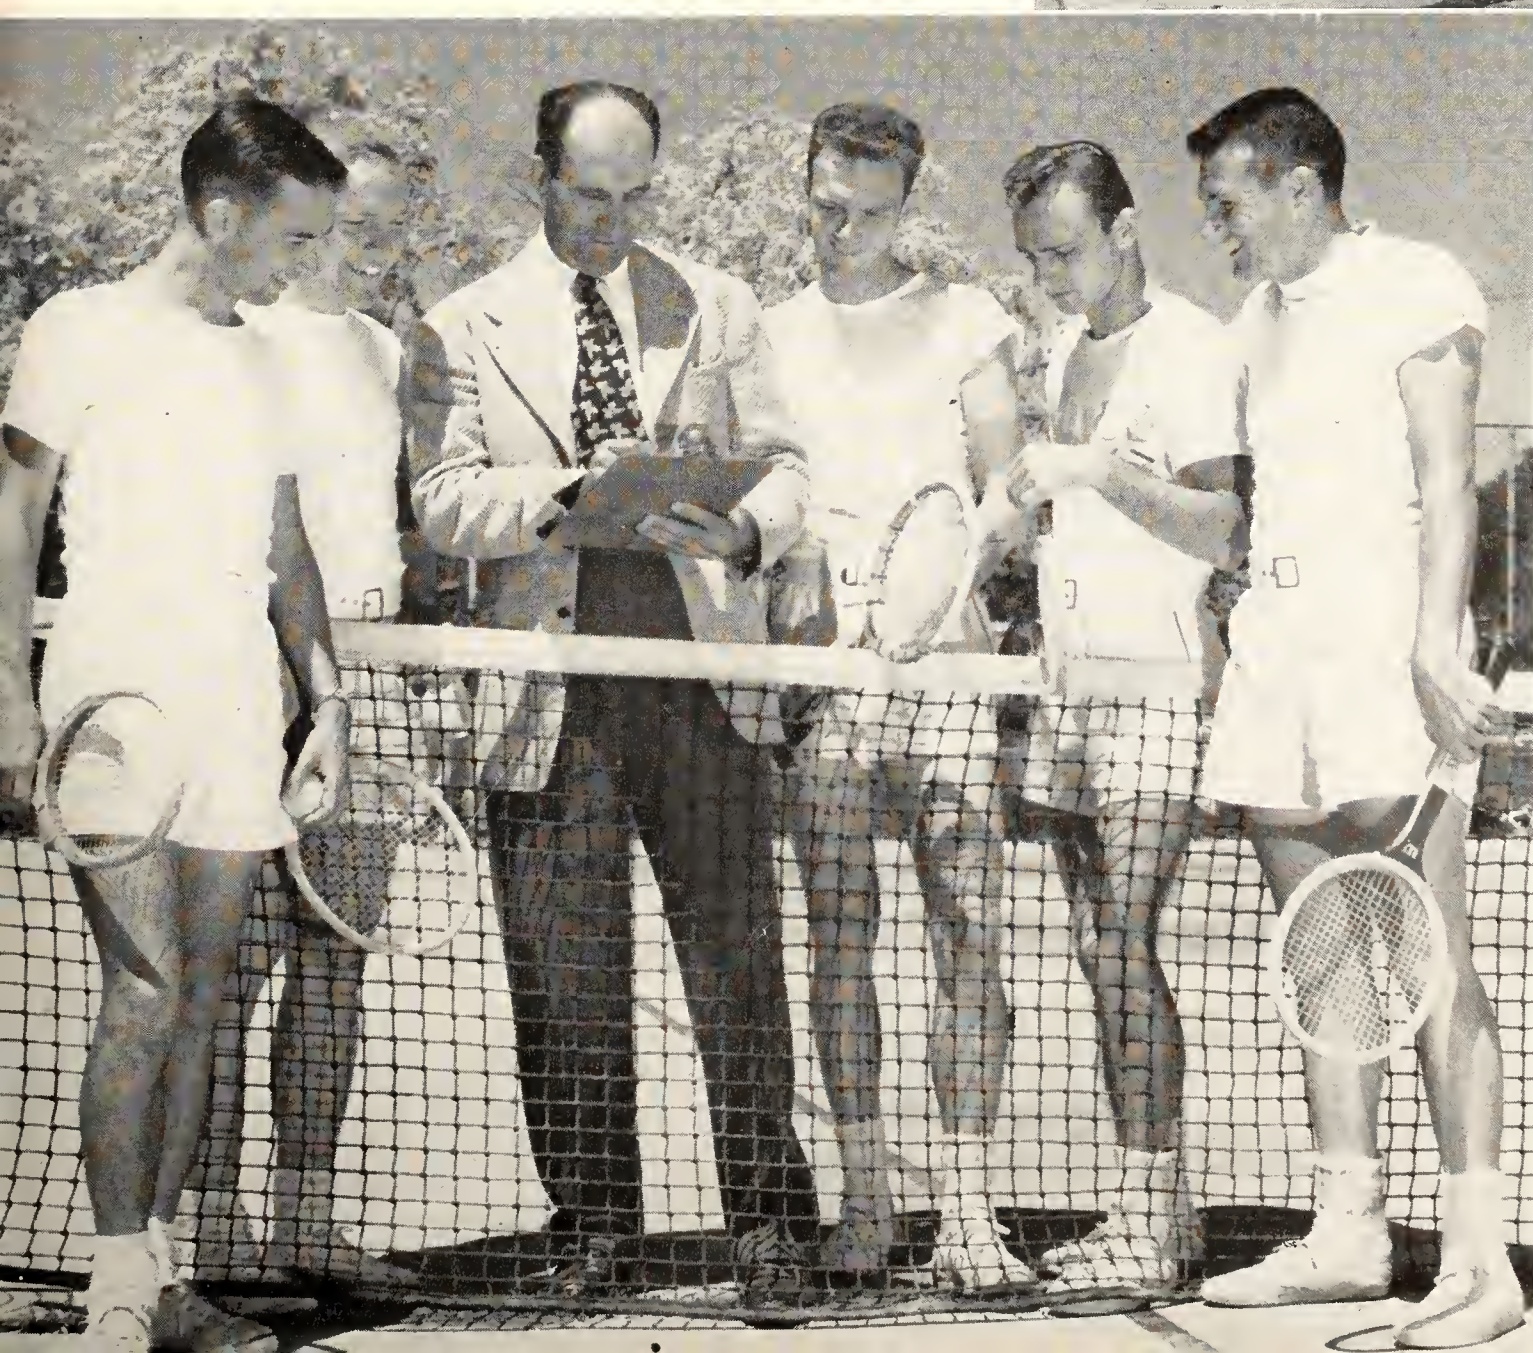

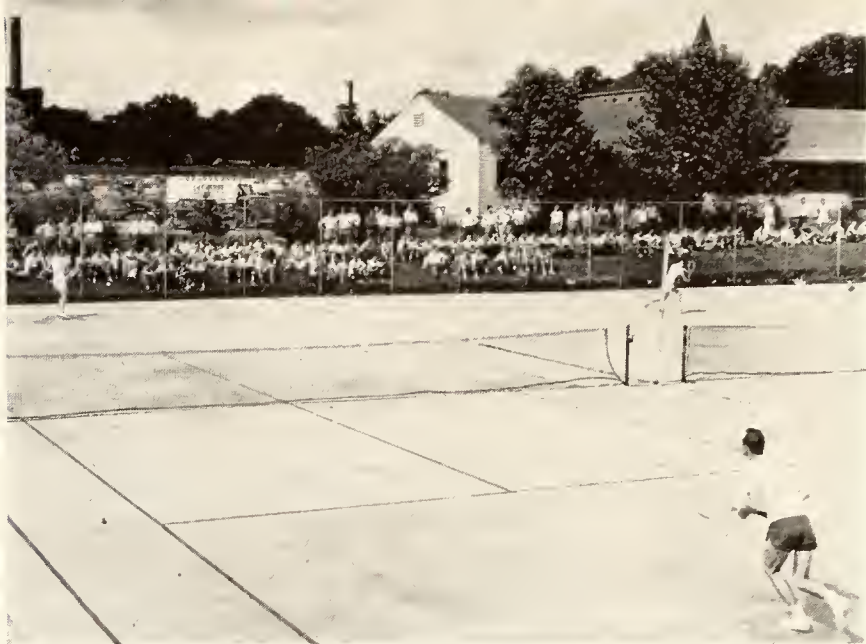

The Wildcat netmen opened the season by losing to Colorado 7-0. Two closely contested meets were then lost to Iowa State and Nebraska by identical counts, 4-3. The next meet, with Oklahoma was rained out.

Can't Get Started

Kansas U. entertained the Wildcat tennis team by beating the Cats 5-2 on the Lawrence courts. Missouri's powerful racket team gave K-State its second white-washing of the season 7-0 at Manhattan. Nebraska repeated its earlier victory over Coach Cooney Moll's charges with a 4-3 win.

Only Win Over K.U.

In the last meet of the year, the Wildcats won their only victory by edging KU, 4-3. In the conference meet, the Wildcat doubles team of Jim Neumann and Dick Powers gave K-State its two points.

Jim Neumann (*top*) gets set to lay away a point in the Kansas State-KU meet. An enthusiastic crowd lines the north end of the tennis courts to watch the Wildcats win their only meet of the year, 4-3. Dick Powers (*center*), a Wildcat mainstay for two years, demonstrates the service form that helped win points for the team. Powers teamed with Neumann to give K-State its most potent doubles team in several years. Coach Cooney Moll (*left*) points out some statistics to Louis Thompson, Dick Nichols, Bob McMurray, Jim Neumann and Ken Skelton.

Blanchard, Solomon in Stellar Mat Roles

Coach Red Reynard's Wildcat wrestlers battled not only some of the nation's best teams, but also fought a losing battle with the injury jinx. Reynard was unable

to muster all his starting lineup for any one meet of the year.

Despite their indifferent record of one win, two ties, and seven defeats, the Wildcat grapplers turned in several fine performances and showed promise of better things to

come in the future. Most of the wrestlers were competing for the varsity for either the first or second time, and had eligibility remaining for the next two years.

Red Reynard, in his third year as coach of the Wildcat matmen, is rebuilding the K-State wrestling program. Reynard himself is a former K-State wrestling star.

In completing his third year at the helm of Kansas

Blanchard, Solomon Score

Kansas State opened the 1949-50 season by dropping a 24-6 decision to the Iowa State Cyclones in Nichols Gym. Heavyweight Joe Blanchard and 175-pounder Frank Solomon were the only Wildcat grapplers to score wins against the strong Iowa team.

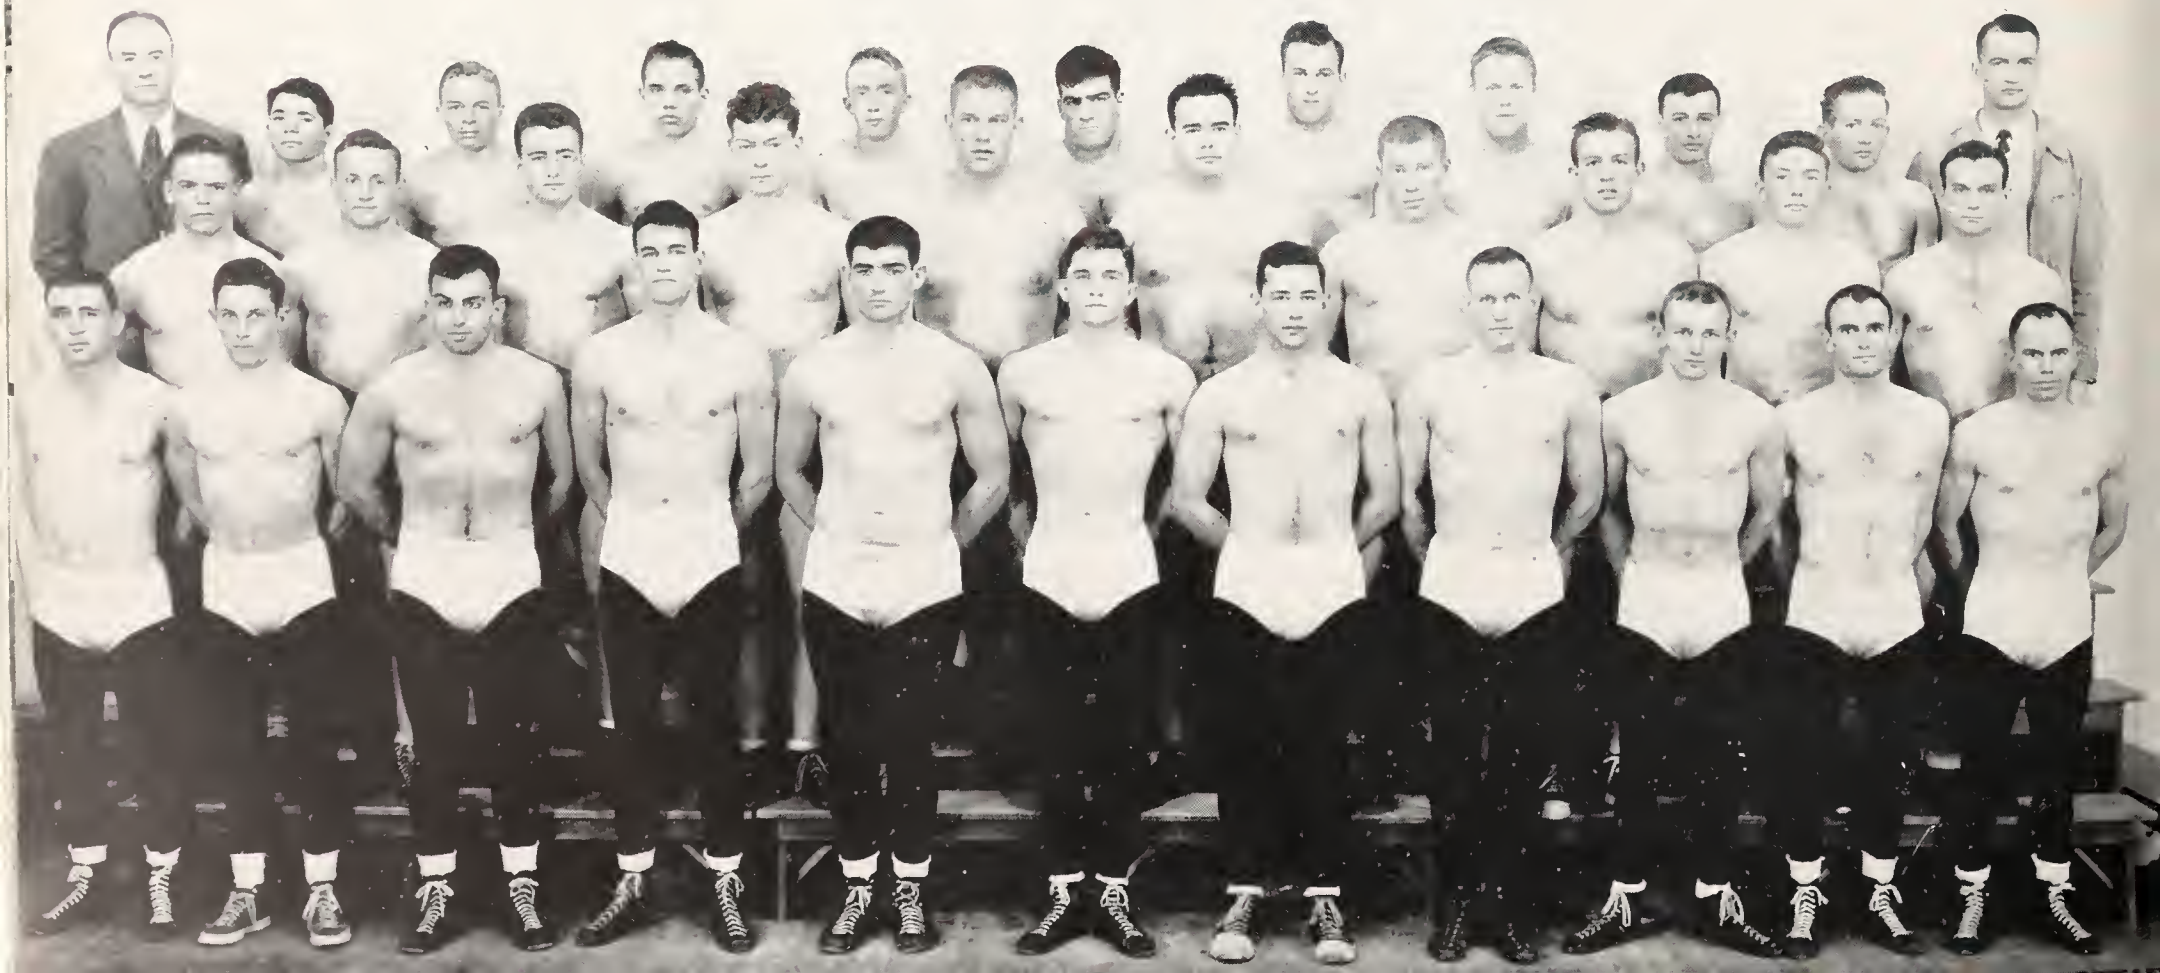

The Wildcats showed signs of improving in their next met although they lost by a 22-6 count. Most of the matches were close and with a little luck the K-State matmen could have pulled two more wins from the defeat column.

Against Colorado A & M, the Reynardmen scored their first draw of the season 12-12, in Nichols Gym. The Aggies held a three point lead going into the heavyweight match, but popular Joe Blanchard disposed of his opponent in easy fashion to save the Wildcats from another defeat.

Minnesota's powerful Golden Gophers roared into Nichols Gym to take a handy 27-2 decision from Kansas State in the Wildcat's fourth home appearance.

Squad Improves

On the way home from North Carolina, the Wildcats stopped at Jonesboro, Arkansas, and won their only meet of the season 17-9. Every man on the team scored a takedown against the outclassed Arkansas team.

Two weeks later, Kansas State went to Stillwater and was whitewashed by the perennially strong Oklahoma A & M Cowboys, 32-0.

The next night the K-State grapplers moved to Norman, Oklahoma, where they were defeated 24-7 by the Sooners. Joe Blanchard continued his mastery of Big Seven heavyweights as he won a fall to pick up five of the Wildcats seven points.

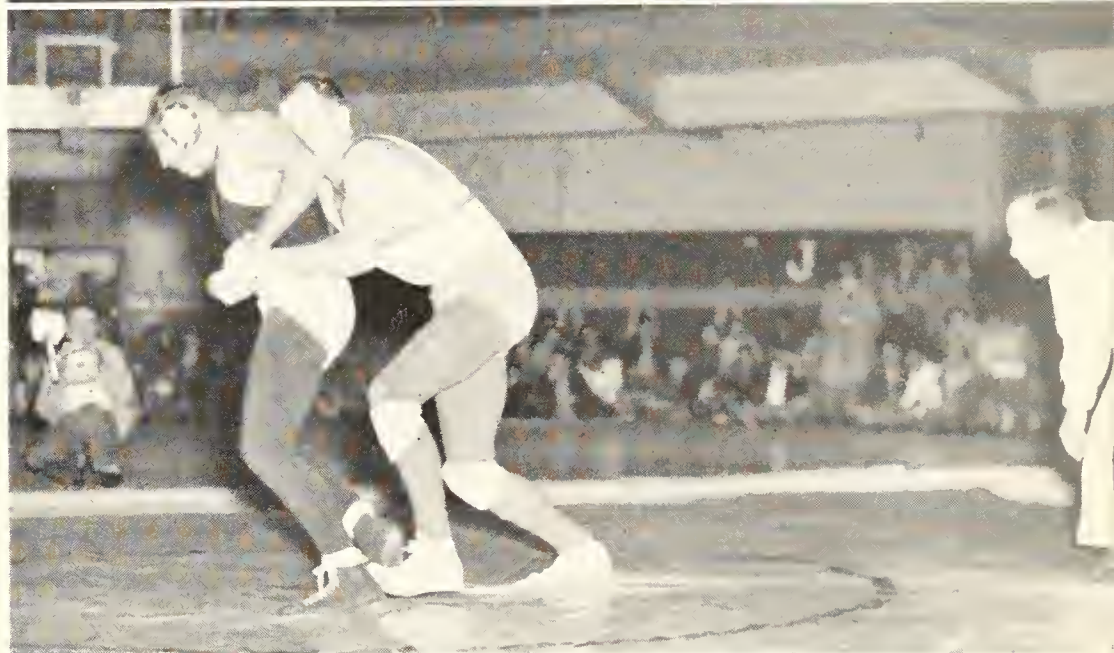

Returning home, Kansas State entertained the defending Big Seven champs, Nebraska, and played the perfect host by bowing to the champs 20-13, in a hard-fought meet. Lyle Linnell, K-State's sophomore 136 pounder, scored the only Wildcat fall of the evening when he pinned the conference champ, Mickey Sparano.

Husky Joe Blanchard got his revenge for the past two years as he won a 3-0 verdict from the Cornhusker's Mike Di Biase, another defending champion. It was the first win scored over the squat Nebraska heavyweight star for Blanchard, who had lost to him twice.

Kansas State got its second draw of the season in the final dual meet of the year by coming from behind to tie Colorado's Golden Buffalos, 14-14. Again it was Joe Blanchard who mauled his opponent into defeat to give the Wildcats the necessary three points to tie the Rocky Mountain team. Several times, Blanchard had his opponent on the verge of a fall which would have handed K-State five points and enough to win the meet. But each time, the Colorado heavy got away and the Wildcats had to be content with another draw.

In the conference meet, held in Nichols Gym, Kansas State won fourth, beating out Colorado, and trailing Iowa State by a few points, as the Oklahoma Sooners rolled to another conference title.

Joe Blanchard duplicated his early win over Nebraska's Di Biase to become the only Wildcat conference champ. Frank Solomon was runner-up in the 175 pound match as he lost on riding time to Nebraska's

John Riddell, K-State's 155 pounder, gets a figure four ride on his Colorado opponent. Riddell, a sophomore, showed promise of becoming one of the Wildcat's most aggressive wrestlers. Joe Blanchard, K-State's popular heavyweight, gets set to take down Mike DiBiase, Big Seven defending champion. Blanchard was K-State's only conference champion this year. Frank Solomon, 175 pounder, gets ready for an escape. Solomon was runner-up for conference honors in the 175 pound bracket.

Herb Reece.

Blanchard and Solomon went to the NCAA meet at Cedar Falls, Iowa, but both failed to place against the rugged competition.

Nearly 4,000 Come Out for Varied Intra Sports

"Fun, diversion, and recreation" is the slogan of the Kansas State men's intramural program. Under the watchful eye of Frank L. Myers, director of intramural athletics, the program is expanding to more of the

college's male students each year.

A ten-event program of athletic competition highlighted this year's calendar. Designed to build character, sportsmanship, and acquaintances among college men, the intramural program has endeavored to reach those students not

sports were divided into separate independent-fraternity divisions. The winners in each group traditionally play for all-school championship honors.

This year's program, starting late in the spring of 1949, included touch football, basketball, swimming, tennis, softball, track, golf, table tennis, horseshoes, and volleyball.

Court, Diamond Attract Many

Basketball and softball are the two largest sports on the intramural schedule, drawing interest from nearly 1,600 students. Football and volleyball followed with a total of 1,229 men forming 99 different independent and fraternity teams.

Four of the 10 events on this year's program were completed late last spring. These events included contests in softball, tennis, track and volleyball.

Hooper Splinters Par

Golf started activities in the fall, and saw Frankie Hooper, Sigma Alpha Epsilon, take all-school honors with a blazing three under par 67 over the Stagg Hill course. Les Baxter, Roots' Ranglers, scored the independent low with a card score of 73.

Roots' Ranglers came through to top the team match play with a low 298. Sigma Nu followed by posting a 312 for the course.

Responsible for the success of the men's intramurals program is Frank L. Myers, director of intramural athletics. In completing his second year as the first full-time director of the activity, Myers has increased the popularity of the program to a new record high of individual participation.

qualified for intercollegiate competition.

More than 3,819 individuals formed 422 teams for the long weeks of competitive play. As in the past, all

Ten Independent 220-yard men come to their marks as Frank Myers sets the group ready for the start of the event in the all-school intra-

mural track meet last spring. A total of 297 independent and fraternity men competed in the track and field events of the meet for honors.

Poultry Club (*upper left*) topped the independent softball teams for championship honors late in the spring of 1949. More than 500 independent men competed in the activities of the sport.

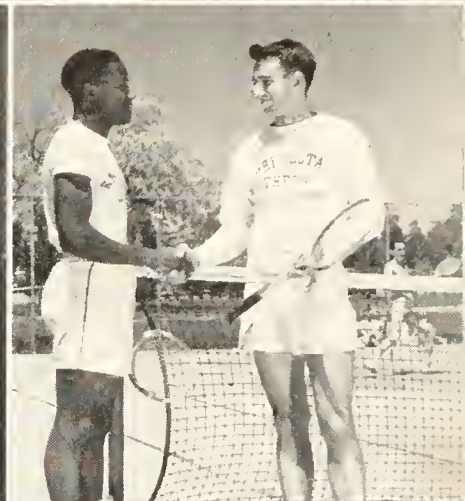

Gutter Bums (*upper right, top*) outran other independent groups for first place in the intramural track meet held last spring. Men of Sigma Alpha Epsilon (*upper right, lower*) topped the fraternity division in all track events for championship honors.

Tennis champions (*right center, top*) were all-school champ Roger Coad of Phi Delta Theta, and Donald Harris, independent unattached champion.

Jim Neumann and **Ty Powers** (*left center*) were fraternity table tennis doubles champions. Neumann (*right center, lower*) was second place fraternity table tennis winner.

Swimming champions for this year were the independent Northwestern Kansas Leaguers (*lower left, top*), and Beta Theta Pi fraternity (*lower left, bottom*).

Fraternity softball champs (*lower right*) were the Phi Kappa's. No play-off between Phi Kappa and Poultry club was held for all-school honors because of weather conditions.

Record High Entries Make

Allen and Earl Bartel (*upper left*) came up with a winning brother combination to walk off with high honors in the independent horseshoe activities for doubles teams.

Members of Beta Theta Pi (*upper right*) braved chilly fall weather to capture the touch football crown in the fraternity division.

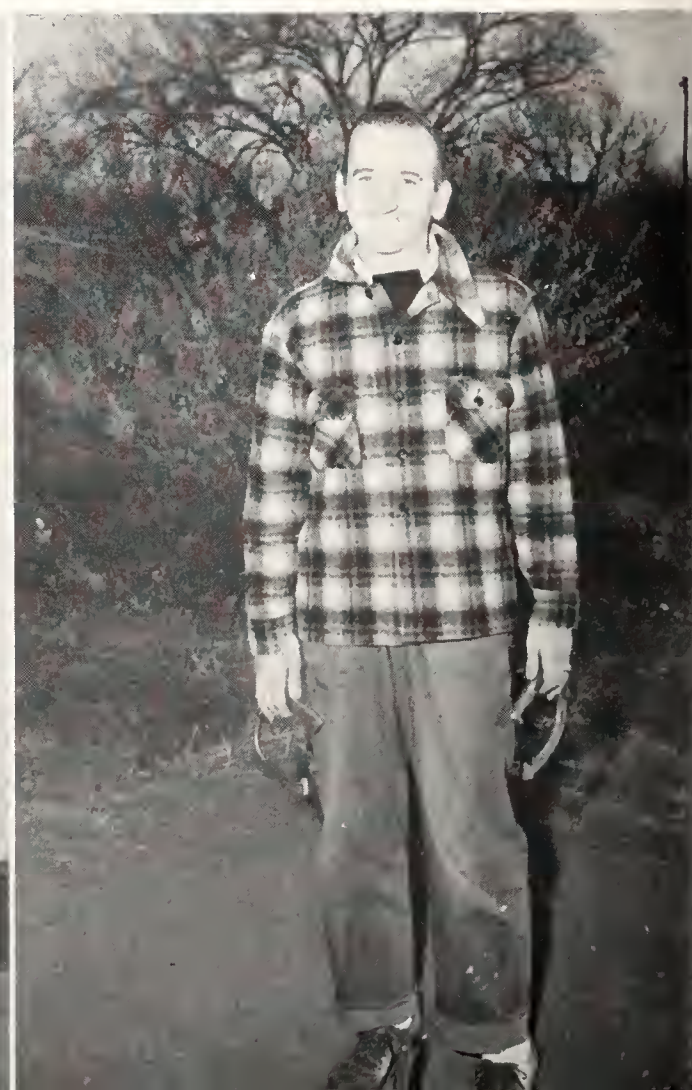

Hot Shots Cop Pigskin Crown

Hot Shots (*center*), independent touch football champions, walked off with the all-school title by downing the Beta Theta Pi team in the post-season playoffs.

Fraternity division horseshoe doubles winners (*lower left*) were Billy Johnson and Dana Lupton. Both represented Sigma Phi Epsilon fraternity.

Kubicki, Malnar Horseshoe Champs

Horseshoes singles champions were fraternity division first place (*lower center*) Eugene Kubicki, Sigma Alpha Epsilon, and independent first place (*lower right*) Edward Malnar.

All Competitions Fierce

Northwesterners (*upper left*) came out on top of a field of 60 independent basketball teams last spring to win first place honors in the division.

Eager track men (*upper center*) await the official times and places in the 100-yard dash of the all-school track meet last spring, as Frank Myers prepares the tally sheet.

Lindblom Is Ping Pong King

Fraternity table tennis champion (*upper right*) was Dick Lindblom of Sigma Alpha Epsilon. There were 67 teams and 147 individuals playing in the early winter event.

Volleyball Honors to Set Ups

All-school volleyball champions last spring were the Set Ups (*center*), winners in the independent division. Beta Theta Pi (*lower right*) was the fraternity first place team. Set Ups defeated the Beta's in the play-offs.

During the basketball activities, the Kappa Alpha Psi quintet (*lower left*) notched first place in the fraternity division, then went on to the all-school championship.

Over Half of Coed Enrollment in Intra Program

Always popular on the campus are activities of the women's intramural program. As in the past, this year's participation included more than 50 per cent of the women enrolled at the college.

Designed specifically as an outlet for entertainment and recreation,

Miss Kathryn McKinney, assistant professor in the women's physical education department, completed her fourth year as head of the women's intramurals program.

college women are presented with an opportunity of expressing themselves outside of the regular classrooms.

Competition in the women's intramural program is not limited to students enrolled in physical education, but can be entered into by any girl interested in

the sports available through the program.

Included among the many activities on this year's program were contests in tennis, swimming, softball, basketball, table tennis, and volleyball. Competitors represented organized and independent groups, and independent and sorority houses.

McKinney Heads Program

Completing her fourth year as Kansas State's women's intramural director is Miss Kathryn McKinney, assistant professor of physical education for women. Under her watchful eye, the women's intramural program at Kansas State has grown to what it is today.

Clovias High Participants

Individual participation among sorority groups alone shows that Clovia maintained the highest group average, with more than 87 per cent of the house entering into the competition of at least one sport.

Alpha Chi Omega and Kappa Kappa Gamma followed with 82 and 75 per cent respectively. Another indication of the popularity of intramurals is evidenced in that not all of the entrants were underclassmen, or pledges, as shown by Alpha Chi Omega. This group presented nearly half junior and senior participation, while Kappa Kappa Gamma ranked high with 35 per cent in the same classification.

Van Zile Hall's softball team won the women's intramural championship late in the spring of 1949. Back row: Betty Hornbaker, Alice Boone, Lois Sarver, Carol Huck, Talma Newton, Dorothy Stover, and

Clarene Molson. Front row: Julia Stueve, Carol Sprinkel, Lois Jones, Donna Kahl, and Mary Meyer.

The activities of the women's intramural program each year are divided into spring and fall sport classes. Included among the fall sports this year were tennis, swimming, basketball, and volleyball.

Van Zile hall entries dominated this year's tennis championships by placing both the first and second place winners. The first and second place Van Zile girls were Alice Boone and Jane McKee, winning over 15 other contestants in the heated battles.

Rough Volleyball Contest

The volleyball competition saw more than 225 girls form 19 teams for one of the largest sport activities of the season. The volleyball contests took place on the courts in Nichols gym. Kappa Kappa Gamma walked off with team honors after many weeks of hard fought games.

Pi Phi, Alpha Xi Top in Swimming

This year also saw two swimming teams crowned as champions. Late last spring Pi Beta Phi swam home winners in the first meets of the year. This fall Alpha Xi Delta splashed their way to victory. The Alpha Xi Delta team consisted of Mary Jo Anderson, Barbara Babbitt, Mary Ann Dickenson, Rena Hartzler, Lou Ellen Poore, Joyce Shannon, and Suzanne Sykes.

Returning again to the winner circles again this year by taking two basketball crowns were the Blitz Babes. The first championship came late last spring, and

First and second place winners in the women's intramural tennis matches were Alice Boone and Jane McKee. Both represented Van Zile.

then the Blitz Babes repeated the same feat again this winter.

With no team dominating in more than one sport, the fall intramurals activities presented open competition to the perfection of the skills of each group.

Kappa Kappa Gamma took the intramural volleyball crown for fall '50. Winning team members are—*Back row:* Donna Tipton, Shirley

Hill, Gwyn Kimbell, Joan Ruth Atkinson, Betty Ann Bergquist. *Front row:* Doris Bondank, Patty Sue Warnick, Betsy Baker, Marilyn Hentzler.

Pi Phi, Van Zile Win

Women's intramural activities start each year late in the spring semester. The program varies somewhat from year to year, but presents keen competition to the last day.

This year the spring portion of the program consisted of match play of table tennis champions, and contests to decide winners in swimming, basketball and softball.

Sikes Twice Champ

Defending table tennis champion, Shirley King Sikes, went all the way to retain her crown for the second consecutive year. Shirley represented Pi Beta Phi sorority.

Second place was won by East Stadium's Mildred Reisner. More than 69 girls played the round robin tourney that decided the finalists.

Pi Beta Phi was full of winning combinations last spring, as the sorority finished first in the swimming matches, as well in table tennis. The Pi Beta Phi crown was one of two awarded for swimming events during the year.

Van Zile Scores

Van Zile hall girls came in for their share of glory during the year. The Van Zile softball team set its opposition down to come out on top in the activities of that sport. Softball was the largest participation sport of the spring season.

Another independent group, the Blitz Babes, won the early spring basketball crown, and then came back to repeat the same feat early this winter.

Several popular women's intramural activities were not included in this year's program because of alternation of certain sports from year to year to coincide with courses taught in the women's physical education department. Included among these not sponsored were posture contests and social, modern and ballroom dancing.

No awards are given to winners in the various events because the faculty felt awards were not necessary.

Top: Pi Beta Phi spring swimming team winners were Evelyn Platner, Connie Armitage, Dorothy O'Donnell, Lois Gillan, and Jacque Compton. *Center:* Intramural table tennis finalists were Champion Shirley King and Second Place Winner Mildred Reisner. *Bottom:* Blitz Babes, who captured two basketball crowns, were (*back row*) Eloise Shwalter, Pat Wilkinson, Jo Ann Sinn, Kitty Theobald, (*front row*) Ruth Moomaw, Joanne Chambers, and Jane Rogers.

BOOK VI

Lectures

and Labs

.... CAN'T ESCAPE CLASSES

■ **T**HERE'S a new addition to the old combination of Lectures and Labs at Kansas State. We still have them, of course, but it's gradually becoming the custom to have, alongside the note-taking session and the test-tubing session, the just plain bull session.

Each year since the war, more departments have adopted the discussion method in at least one course. Controversies rage in national education circles as to its overall effectiveness; Hutchins and Dewey are never placed side by side on polite bookshelves; and in the meantime K-Staters just go ahead and discuss.

There seems to be no doubt that, whatever its relative educational merit, discussion is stimulating. S.P.C. came into being as a result of discussions, and continues its existence only as long as students continue to talk about what's wrong with the campus.

The student habit of staying up late "just gabbin'" seems right in line with the "Campus of Today" — a symptom of growth and of wider minds.

Basically, classes don't change much. Wars over comprehensive courses may wage; departments may compete for the best crop of students; new equipment may make some instructors' lives easier—but the principles stay the same. It all boils down to just what it boiled down to in 1863—if you want to learn a lot at college, you will; if you don't, that's easy too.

Left—Construction is commencing on the Arts and Sciences Classroom Building. Shown here is an architect's concept of the finished structure.

K-State Boasts More Seniors than Freshmen

Hitting a new record high in numbers, the senior class of 1950 boasts a graduating class of 1,971 students. Led by president and basketball ace Lloyd Krone, vice president Lyman Hancock, secretary Pat Chew, and treasurer Mike Meyers (*above*), the class observed an eventful year. As a parting gift to the school, the class contributed money toward the portrait of departing President Milton S. Eisenhower. The class celebrated

Senior Day this year by picnicking and dancing to the music of Matt Betton.

Heading junior class activities this year were (*below*) John Hudelson, president; John Hart, vice president; Molly Weathers, secretary; and Ann Berry (*not present*), treasurer. The junior class can claim the dubious honor of having the smallest enrollment of the four classes—1,213 students.

As Enrollment Starts Postwar Leveling-Off

Jerome Chandler, president, led the sophomore class this year. He was assisted by (*above*) Gordon Hess, vice president; Charlotte Laing, secretary; and Herb Cates, treasurer. The sophomore class was the only one in which the All-College political party didn't make a sweeping victory in the fall class elections. Two sophomore offices were filled by members of the Commonwealth Party.

Lowest in rank, but not number, the freshman class boasts of a surprising enrollment of 1,416 freshmen—1,000 of them men, a figure not very encouraging to the already lopsided ratio of one girl to every 5 men. President of the freshman class this year was Stuart Noyes. Other officers were Charles Bascom, vice president; Dorothy Wonder, secretary; and Patricia Pendleton, treasurer (*below*).

YWCA and YMCA get together in Nichols gym for the Y-Knot frolic.

Torch-carrying students (*above*) led by the college band parade through Aggieville preceding the Colorado pigskin tussle. A view (*upper center*) of the north side of Poyntz Avenue between Third and Fourth Streets shows many remodeled stores. This scene (*lower center*) shows South Poyntz between Third and Fourth streets on a busy day. *Below* is a typical moment at Fourth and Houston.

Manhattan Merchants

Rapidly becoming a thriving city, Manhattan has grown steadily since it was incorporated by a pro-slavery legislature February 14, 1857. Its business district (including Aggieville) now boasts over 400 businesses—a great expansion over the livery stable, hotel, and saloon which composed the downtown section in 1860.

New stores and remodeled old ones give testimony to the thriving business in Manhattan. Population figures show great expansion, too. An increase of over 2,000 in the last seven years indicates that the population has increased steadily along with the increase in college enrollment.

Kansas State has been a very important factor in the growth of the city. Eighteen sixty-three saw the opening of Kansas State College of Agricul-

Are College Boosters

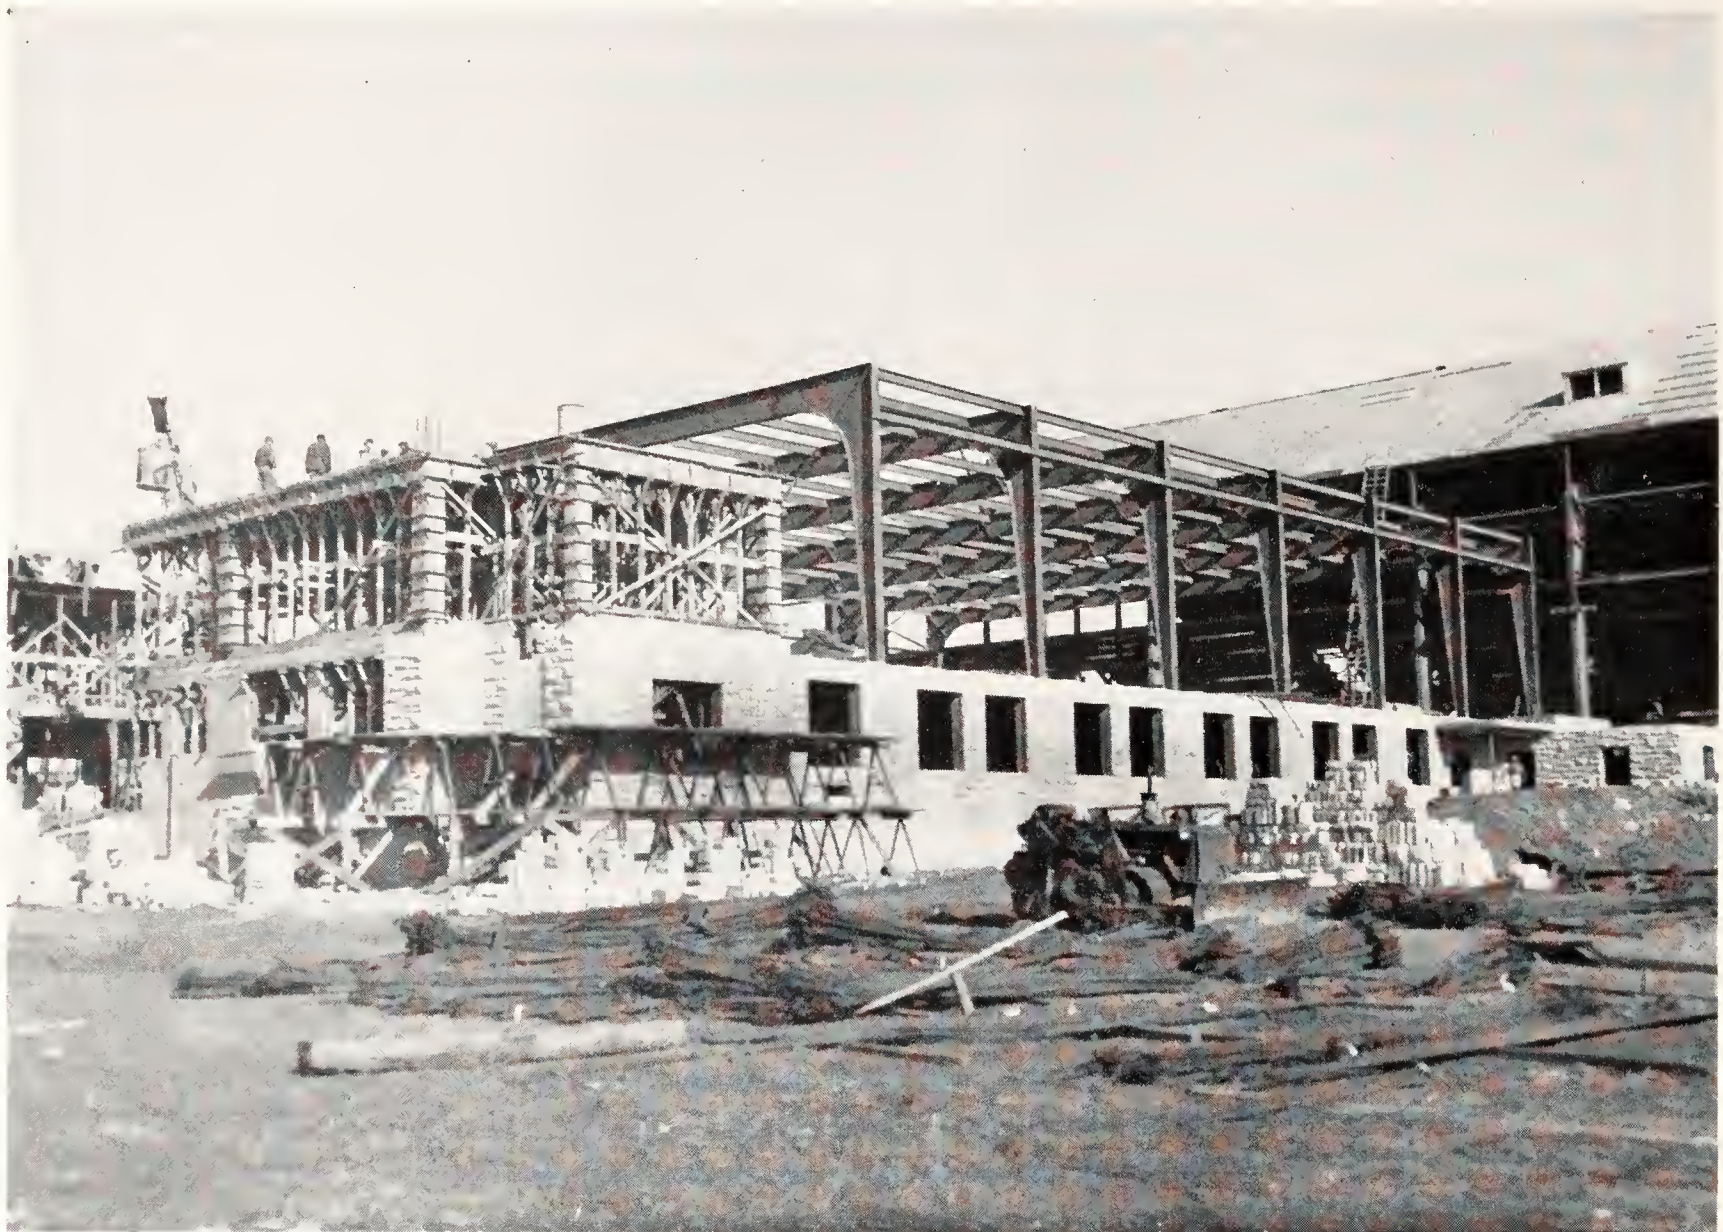

ture and Applied Science, formerly the old Blue-mont College. Since that time, the college has grown into a nationally known school—listing many prominent people among its alumni.

The growth of the city and the college has been steady and permanent. The two have grown up side by side—each aiding the other. Many businesses have been established because of the needs of college students and many students have come to K-State because of the friendly town.

The advertising on the following pages is evidence of the support which merchants of Manhattan give to the Royal Purple. It is with their cooperation that this book is published. The staff urges you to take this in consideration when you shop in Manhattan.

A little town all its own, Aggieville (*above and upper center*) offers Kansas State students just about everything they want. Facing westward in the downtown district (*lower center*) one sees the Wareham Hotel looming above other buildings. A night picture (*below*) shows downtown Manhattan under the bright neon lights.

Hardly a day passed this year when workmen weren't seen atop the spacious new fieldhouse. This view from the west shows the building in one stage of its construction.

I KNOW A SPOT THAT I LOVE FULL WELL

K.S.C., WE'LL CARRY THY BANNER HIGH; K.S.C., LONG, LONG MAY THY COLORS FLY!

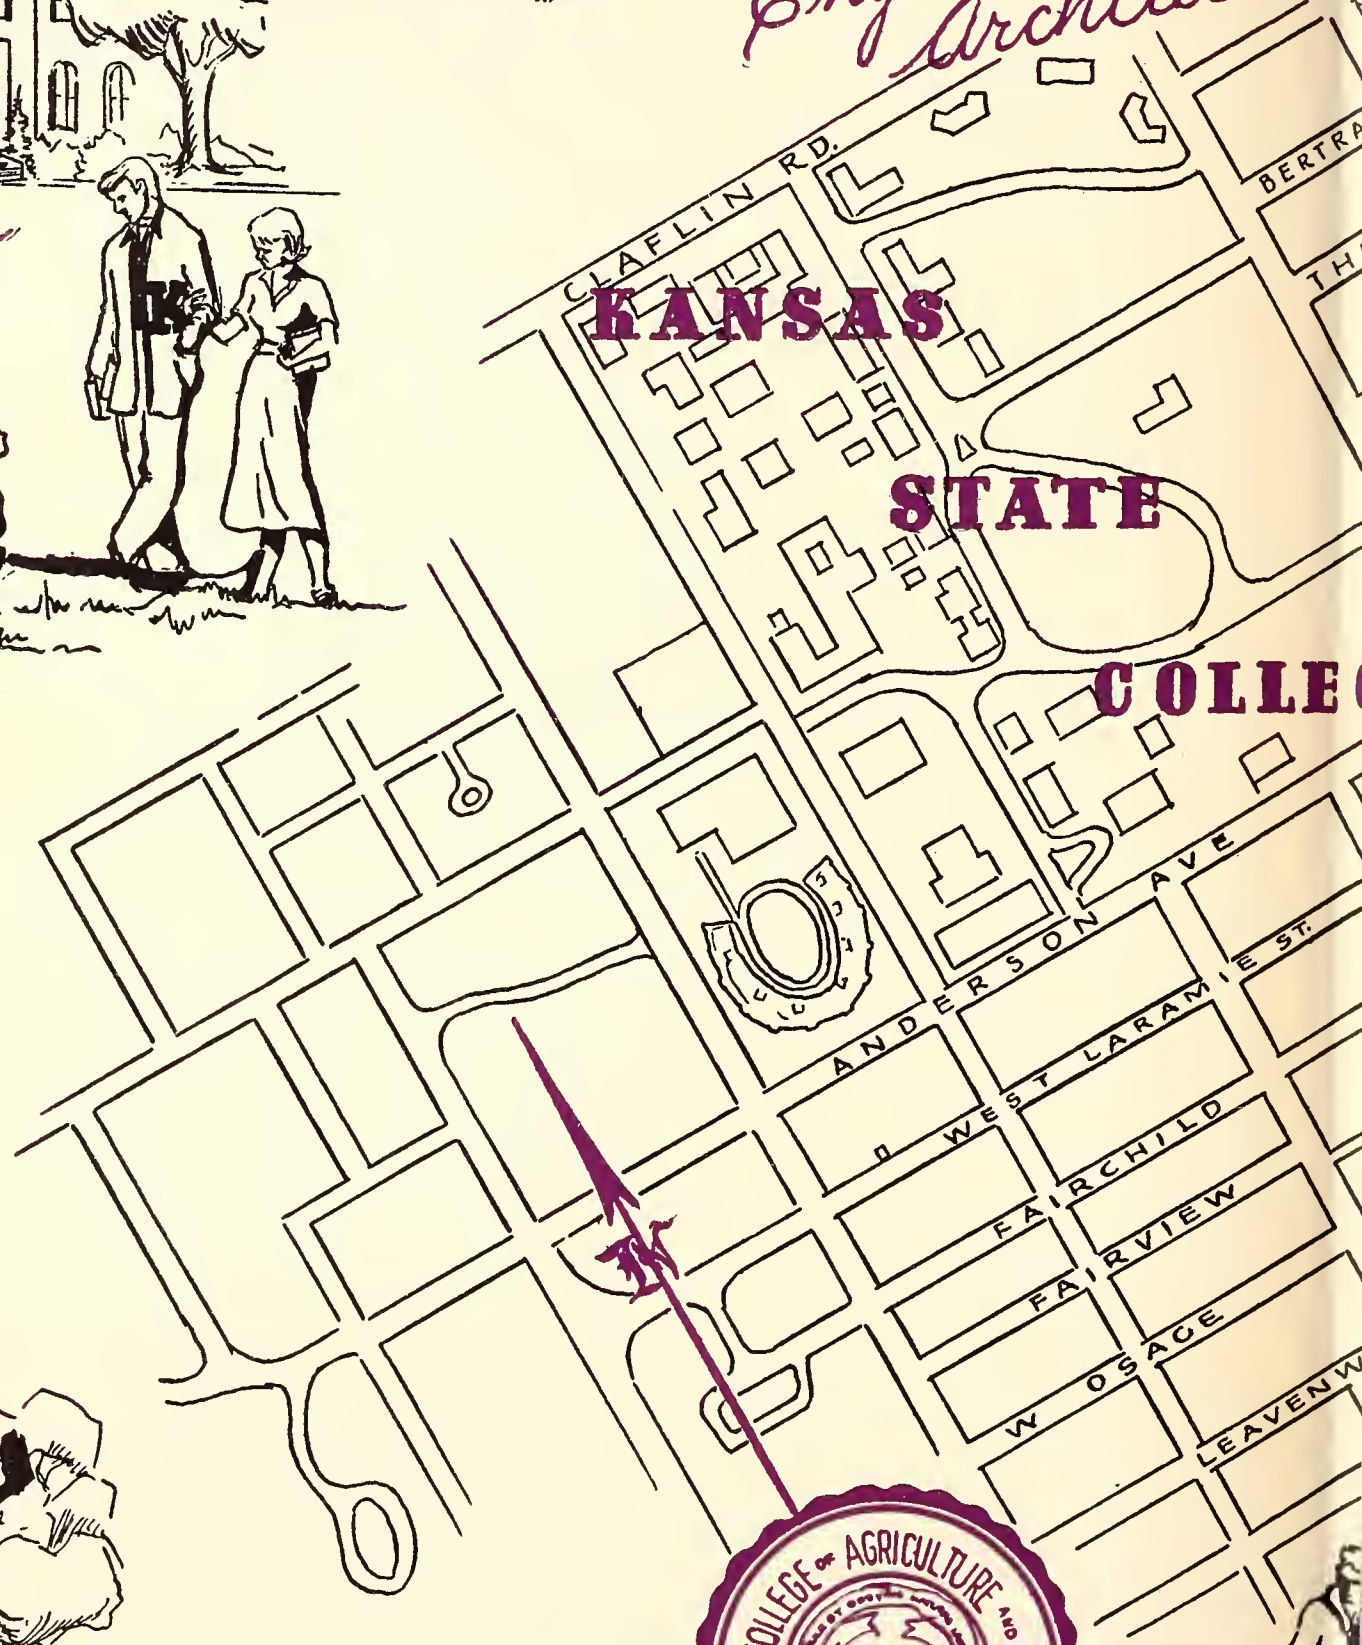

Home Economics

Engineering & Architecture

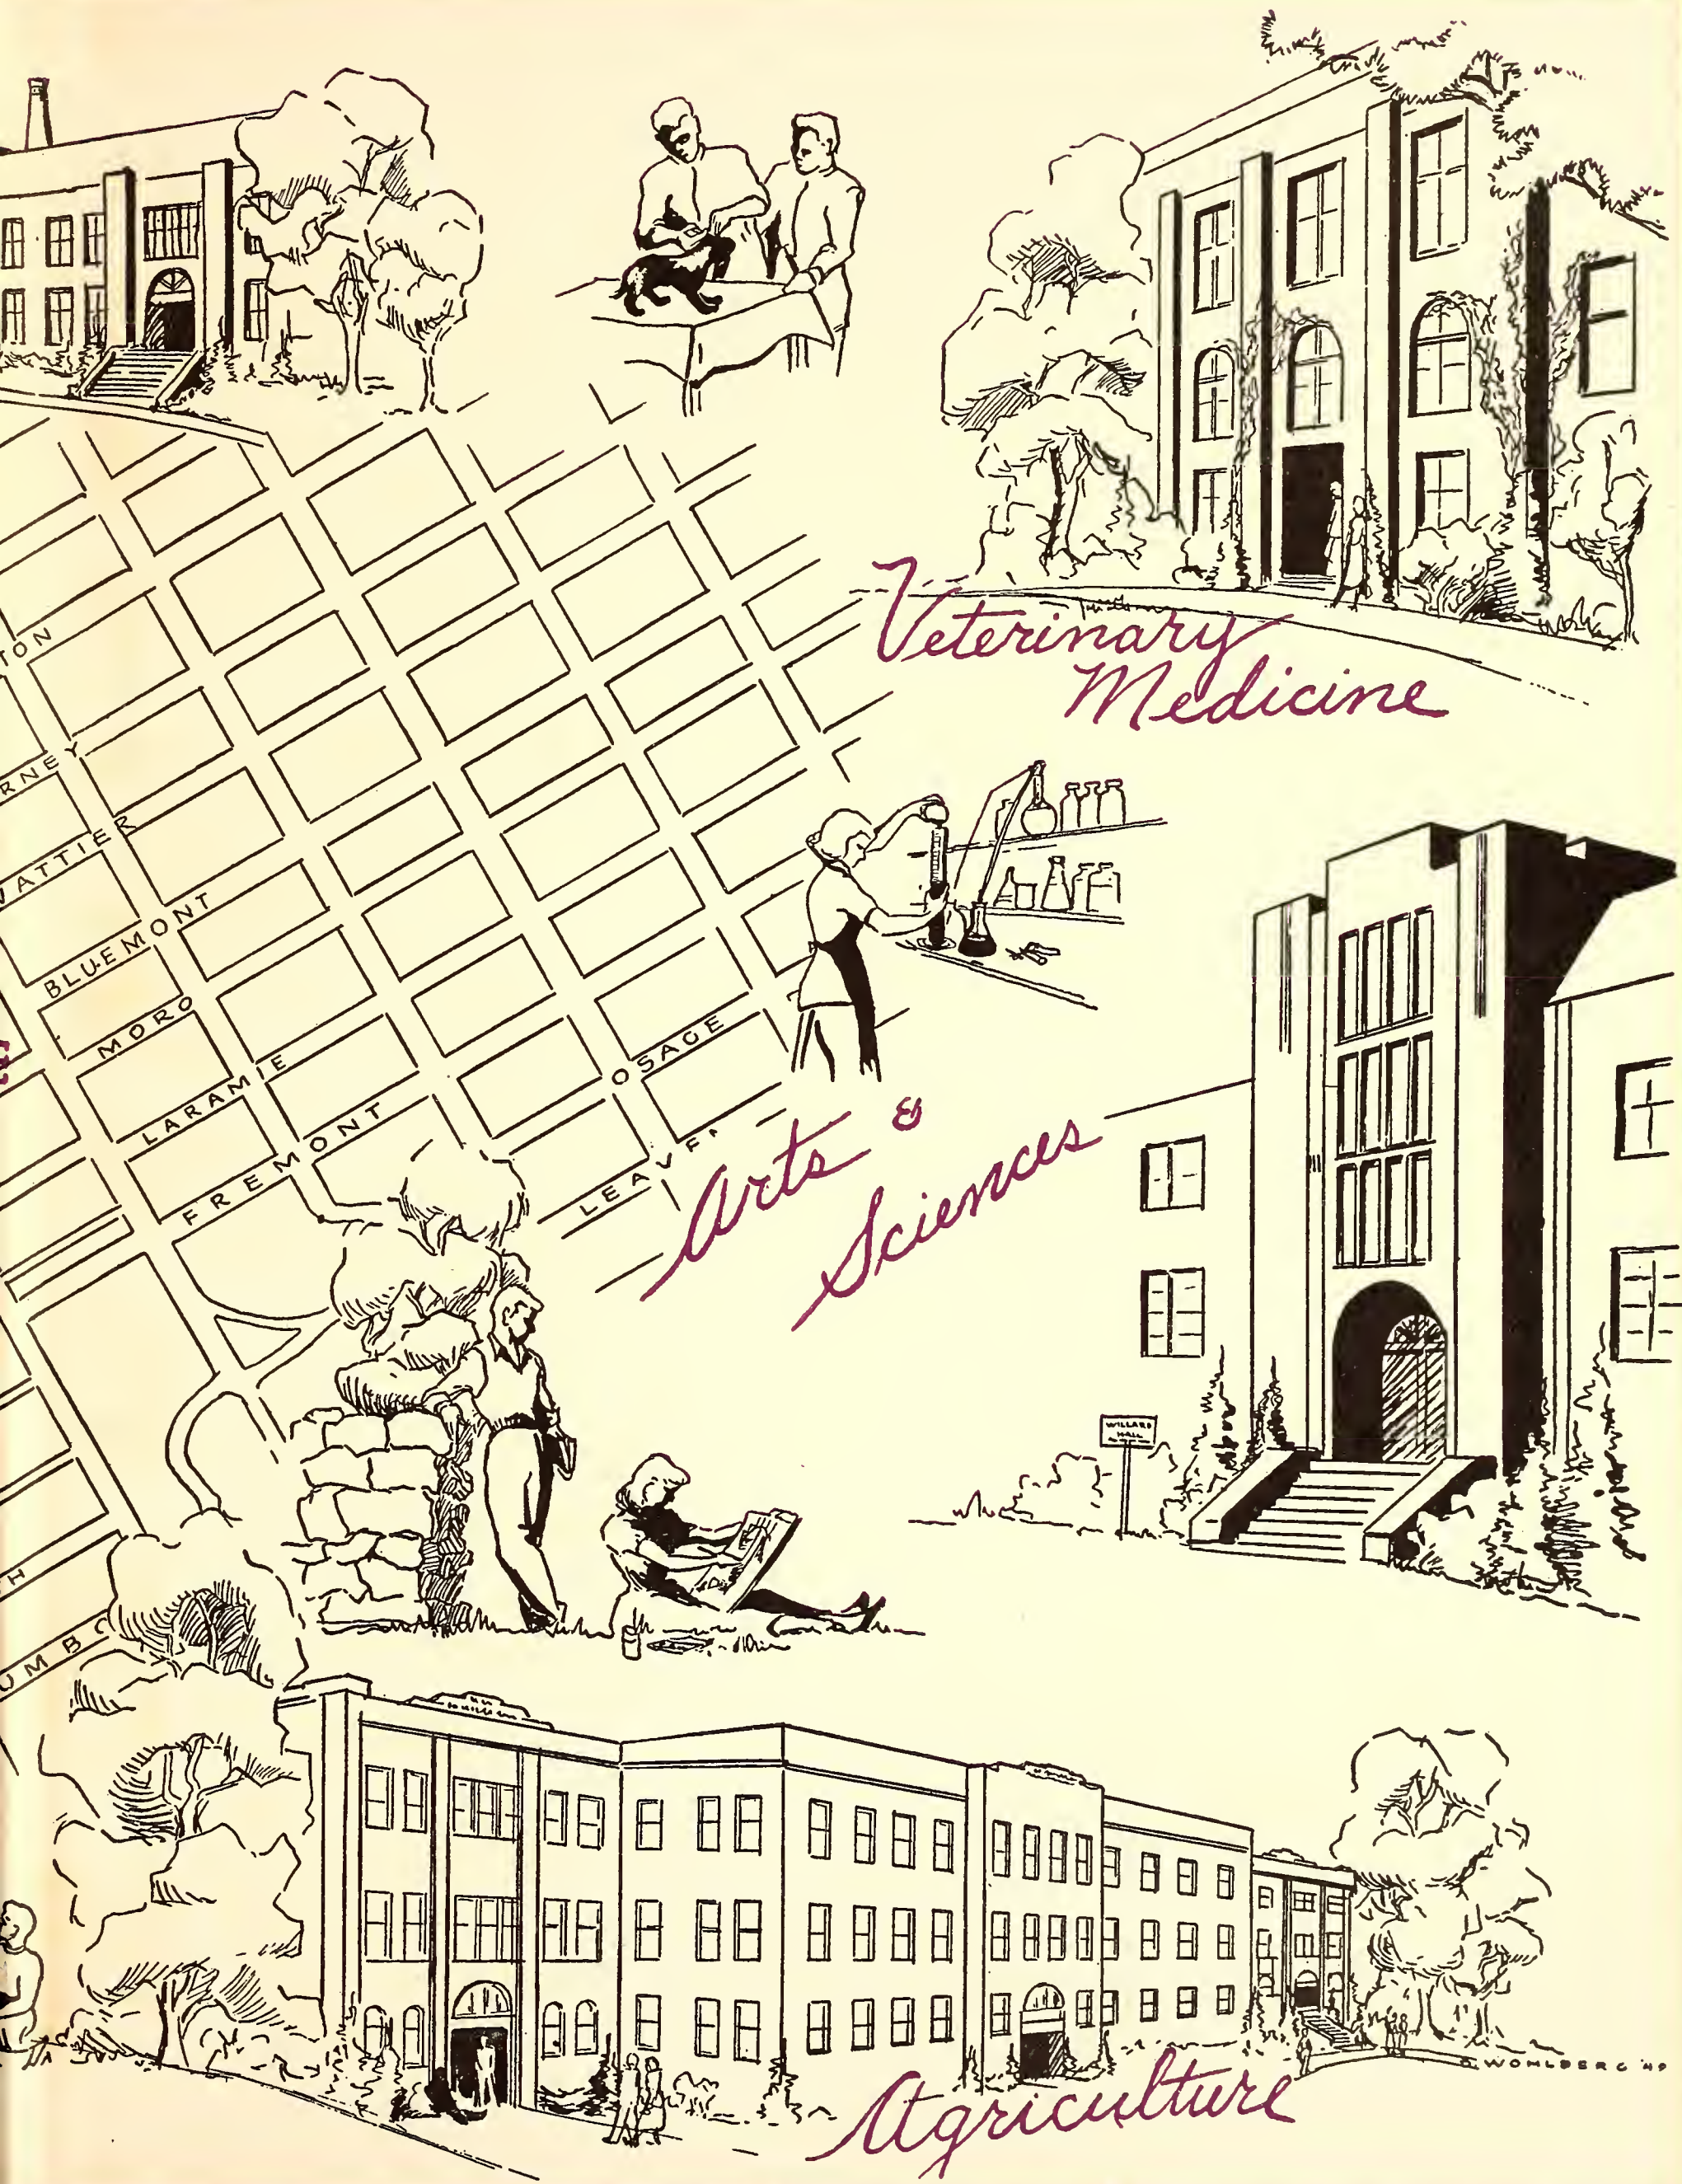

Graduate School

LOYAL TO THEE, THY CHILDREN WILL SWELL

'TIS NOT IN FOREST NOR YET IN DELL;

EVER IT HOLDS ME WITH MAGIC SPELL, I THINK OF THEE, ALMA MATER.

THE CRY, HAIL! HAIL! HAIL! ALMA MATER.
