Convention in Omaha Endorsed Many Measures Designed to Benefit Farmer Class in National Legislation

### SIMPSON REELECTED

Lambertson is Member of National Executive Board; Frazier Bill, Swank-Thomas and Wheeler Bills are Endorsed

John A. Simpson was reelected president of the National Farmers Union at the convention of that body held in Omaha, Nebraska, on November 15 and 16. H. G. Keeney, president of Nebraska Farmers Union, was reelected as vice president, and E. E. Kennedy, of Kankakee, Ill., was returned as secretary-treasurer.

Some changes were made in the personnel of the executive board. Congressman W. P. Lambertson of Kansas was given a place on the board, and Joe Plummer of Akron, Colorado, is another new member on the board. The retiring members, as the result of the election, were Tom Howard, Denver, Colorado, and Emil Becker of five loads of cattle, and one mixed Clarks, Nebraska. The other three members held their positions on the board, and are: E. H. Everson, Yankton, South Dakota; C. M. Rogers, Indianola, Iowa, and Fritz Schultheiss, Prairie Farm, Wisconsin.

The Kansas delegation consisted of two: Charles Day, of Allen, Kansas, and M. L. Beckman of Clay Center. Kansas had eight votes. Others attending from Kansas were Mrs. Beckman and Mrs. Day; Congressman and Mrs. Lambertson; Mr. and Mrs. Walter Hammill of Clay Center and the Kansas Farmers Union president and secretary, C. A. Ward and Floyd H.

The sessions were held in the Casgates were on hand for the opening place. session Tuesday morning. The Nebraska Farmers Union male quartette and other musical talent provided entertainment from time to time.

Resolutions adopted included the rate of 1 1-2 per cent interest, and carloads during the month of Octopayment of 1 1-2 per cent of the prin- ber were as follows: ciple each year. The convention also endorsed the Swank bill which would license dealers in agricultural products and guarantee cost of production. Remonetazation of silver at the ratio of 16 to 1 was favored by the convention, according to terms of the Wheel-

Higher income taxes, a moratorium on all private and public debts, reduction of government costs as a means of balancing the budget and a recommendation that farmers give "care; ful consideration" to the Farmers' Holiday Association were included in the proposed relief program.

The resolution dealing with farm strike activities contained no direct indorsement of the Holiday group's pro-

Other resolutions called for the re adjustment of certain live stock rates involving reshipping and sorting, condemnation of the "militaristic attitude fostered by our educational institutions," exception of small farms and homes from all except income taxes, and legislation limiting individual inheritances to \$500,000.

Among the speakers at the convention were Senator Lynn J. Frazier, republican of North Dakota, author of the "Frazier Bill," and Senator El-mer Thomas of Oklahoma, coauthor of the Swank-Thomas bill providing for cost of production to farmers. President Simpson expressed his views in his report, in which he said

that a democrat-controlled Congress will soon enact legislation designed to aid the farmer.

**ORGANIZATION** 

Other speakers, including Charles Talbott, president of the North Dakota Farmers Union, cautioned the delegates and visitors against building their hopes too high, pointing out that the industrial east is still represented strongly in Congress, and that they are still the enemies of the agri-cultural class. It was pointed out by several speakers that the Farmers Union and agriculture in general still has a fight on its hands, and that there must be no letting up in the in-tensity of the fight for beneficial legislation. The value of a large membership was stressed throughout the convention, and every state is planning on intensive membership drives

Charles Barrett of Georgia, who was president of the National Farmers Union for 25 consecutive years was present, and spoke on the necessity of proper representation in Wash-

Glen Leupold, Manager of the Frankfort Farmers Union Shipping Association, was running true to form during the month of October and shipped ten loads of live stock which put him well out in the lead in the shipping association race. The ten loads consisted of four loads of hogs,

load. Don E. Page, Manager of the Laredo Shipping Association, Laredo, Missouri, shipped five loads of hogs and one mixed load to finish in second place. This Association is staging a come-back and is increasing its shipments every month recently. We

his business continues to prosper. Ed Mauch, Manager of the Ness City Shipping Association, Ness City, Kansas, keeps them coming and was on the market with five loads of cattle, during the month of October, to occupy third place. Joint Report of Two Houses Shows Increase in Net Profits and Decrease in Expenses; Report Shows Good Volume

The strong position of the Farmers Union Live Stock Commission Co., op-erating on the Kansas City and Wichita markets, is told in a story which appears in the current issue of the Co-Operator, published in Kansas City as the organ of the live stock FRANKFORT ASSOCIATION company and of the Farmers Union Jobbing Association. The story fol-

> Why support your own live stock firm? The Farmers Union Live Stock Commission Company records will answer this question, but before going into these records let us remind you that this organization is a cooperative and entirely owned and controlled by farmers and live stock men. It was organized and is maintained to forward the cooperative movement and serve the members of cooperative organizations in its trade territory.

In the October 31st reports from oth offices, the following interesting information appears. In Kansas City the Farmers Union is ranking third in volume of receipts for the year. congratulate Mr. Page and hope that They have handled 4,108 cars arriving by truck and rail. In Wichita your

26 NEW MEMBERS COME IN FROM ONE LOCAL

The parade has started. Nick Greiner of Hunter, Kansas, who is secretary of Ashville Local No. 1316, came into the office of the state Farmers Union secretarytreasurer this week with twenty-six NEW members. A number of secretaries have sent in lesser numbers of new members, and many have sent in 1933 member-ships for old members. With the initiation fee eliminat-

ed, and with the elimination of the necessity to pay back dues, there should be a regular stampede of new and old members into the Farmers Union. Nick Greiner says: "It is working out fine in our neighborhood. We are not through yet, and we are going to make an effort to get paid up for

1933 as soon as we can."

Lew Wagner is president of Ashville Local, and Charles Kimerer is director. These men, with the cooperation of Mr. Greiner and the membership of the local, are really getting things done.

firm is ranking first with 1,818 cars. This report is evidence of the efficient service which the Farmers Unon is endering on these markets. Of course, being a cooperative, the Farmers Union is supported by the members of two strong farmers organizations. However, these members are not bound by a contract and are not forced to ship their live stock to them; but they relaize that the service which they receive from the Farmers Union four years in February, we have built is equal to that of any other commission firm. The above mentioned rankattract such a volume unless they were farmers in the seven other states giving satisfactory service.

The report further shows a saving (continued on page 4)

## COOPERATION **OUR BUSINESS** SAYS COWDEN

Radio Address of Manager of Union Oil Company Points Out Advantages of Cooperation in Buying Petroleum Products

## PAID GREAT DIVIDENDS

Thousands of Dollars Paid Back to Kansas Cooperators Has Been of Material Benefit is Paying Taxes and Other Expense

es in Kansas. He gave his talk the title of "Cooperation—Our Business." Third, we have saved cooperative He said. in part,

Mr. Cowden's Speech During the time the Union Oil Company has operated, which will be a cooperative organization which merits and deserves the support of every ings have existed for a number of farmer in Kansas who uses petroleum years and no firm could continue to products, as well as the support of products, and not now working with the Union Certified group, then you

are not measuring up to your full responsibility to help improve the farmers' condition. In other words, if you are not working with us, then you should be. You should be helping to build this worth while cooperative program which has for its purpose, to save for the farmer as large a per cent as possible of the dolars. large a per cent as possible of the dollar he uses to purchase petroleum Farmers Who Ship Live Stock to products.

Let us review briefly the majo things which we have accomplished, in the cooperative buying of petroleum products.

First, we established the coopera-tive brand, Union Certified. We made it possible for cooperators to cease using the brands of "old line" companies, and instead, use a brand which they own and control.

Second, we made possible cooperative advertising. Instead of cooperative oil companies advertising ious "old line" brands, and building That the Union Oil Company has been of material benefit in helping to carry the load of taxation and other vertise their cooperative brand. We expenses of farmers was pointed out adopted our own cooperative colors, in an address which Howard Cowden, orange and blue, and use our own manager of the Union Oil Co., delivtrade mark, the Union Certified emered over radio station WIBW, To- blem in the form of a seal which sigpeka, on Thursday evening, Novem-ber 3. Mr. Cowden said the thou-Through this cooperative advertising, sands of dollars which have been returned to the cooperative patrons of mand for our cooperative brand. We this cooperative oil company played have educated thousands upon thouan important part in payment of tax- sands of consumers to depend upon

> oil companies a large sum in the pur-chase of equipment. The profits on equipment have been returned to newly organized cooperative oil companies the same as the profits on petroleum products.

Fourth, after we had operated for several months, we purchased and began the operation of our own com-pounding plant, the first cooperative farmers in the seven other states compounding plant in the country. eting firms on that terminal. It has where we are now operating. If you are a farmer and are using petroleum built it from the bottom up. Today, Local. The Wichita local is known as we have one of the most efficient and the Arkansas Valley Local, and has United States. This plant has not ance of L. J. Alkire, manager of the cost farmers a single penny. It has been built out of profits on their business which otherwise would have gone to "old line" companies, and in ship in the Kansas Farmers Union addition, we have returned thousands and who ships live stock to either of of dollars in the form of patronage the two houses is urged to inquire dividends.

Fifth, in connection with our plant, we established our own cooperative laboratory. Through experience we found that we could not depend on the quality furnished us by "old line" (continued on page 4)

FARMERS LIVE STOCK MARKET ING ASSOCIATION TO TAKE PART IN RATE HEARING

The farmers Live Stock Marketing Association, the national organization of which the Farmers Union of Kansas City and Wichita are members, will participate in the rate hearing to be held at Excelsior Springs, Missouri, some time in December. At the present time we do not have much information regarding this hearing, however, it will concern through billing privileges on terminal markets. The aim of the Farmers Live Stock Marketing Association in entering this hearing is to procure through billing on cars of live stock which have been sold on the terminal markets and lost their identity.-The Co-Operator.

WARD ON RADIO PROGRAM

C. A. Ward, president of the Kansas Farmers Union, will be the speaker Thursday evening over radio sta-tion WIBW, during the regular Farmers Union period of broadcast. The Commission Company congratulates Farmers Union program will begin every boy and girl who has entered at 7:30. All are urged to tune in on this program.

# **COMMISSION FIRMS** BUILD MEMBERSHIP WITH NOVEL PLAN

Farmers Union Firm Either at Kansas City or Wichita May Become Members if Eligible

## URGED TO INQUIRE

Manager Hobbs Evolved Plan which will Materially Increase Membership, and Make Shippers Eligible for Dividends

Membership in the Kansas Farmers Jnion is due to receive a great boost from the Kansas City and Wichita houses of the Farmers Union Live Stock Commission Company. Under a plan which is mentioned in The Cooperator, and which has been referred to previously in the Kansas Union Farmer, customers' who patronize either of these two houses may become members of the Farmers Union through locals set up at Kansas City and Wichita. The plan was evolved by G. W. Hobbs, manager of the live stock commission firm, and bids fair to bring a large number of new people into the organization, at the same time making them eligible to receive patronage dividends from sales of their live stock.

The Farmers Union local at Kansas City has been in existence for a number of years. Its membership formerly has consisted largely of the employees of the Farmers Union markeconomically operated plants in the recently been set up under the guid-

Any one who is eligible to memberparticulars will be furnished. Under the plan, those who have heretofore been ineligible to purchase the nominally priced stock in the commission company, because of not belonging to state wide farm organization, and therefore were not in a position to participate in patronage dividends, will now be eligible, if they take ad-

vantage of the plan. The office at Kansas City will also The number of votes to which each Farmers Union state was entited at take applications for membership in the national convention, and the number of delegates from each, are shown here:

The office at Kansas City take applications for membership in the Missouri Farmers Association, since that organization is affiliated with the Farmers Union firm on the Kansas City market.

The plan is the natural outgrowth of the interdependence and cooperation existing between the Farmers Union live stock marketing agency and the parent or state organization That which helps one helps the other, and at the same time is of great benefit to the cooperating farmer. Don't fail to ship to these firms, and don't fail to ask about the plan.

## CALF CLUB SALES

For the past few months, auctions of 4-H and Vocational Club Calves have been held at the Kansas City stockyards. The sales were held on Fridays and at regular intervals. They have brought many boys and girls to the Kansas City stockyards and have given them the opportunity to realize a good price for their calves. Of course, prices in these sales have followed the general trend of the market and calves which were sold at the pre-Royal sale Friday, November 11, brought considerably less than those which were sold at the first of these sales. The bulk of the calves entered in these Friday auctions have been shown at County and State Fairs. They are proof of the good work being done by 4-H Clubs and Vocational Agricultural Departments, and display the interest the boys and girls are taking in this work.

The entries in this class are very

large at the American Royal this year. The boys and girls are showing some fine animals and displaying ability as showmen and show-wome

The Farmers Union Live Stock calves in the regular sales and the Royal.—The Co-Operator.

# Cattle Market Situation

One of the valuable set es render- and yearlings on the market this week, ed by the Farmers Unio- Live Stock because of the American Royal. The Comission Company is in the form of a summary of the cattle market and feeding situation, published each month in The Co-Operator. The Kannary Living Farmon takes placeure in lest It looks now like we will be a lest It looks now like we we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we will be a lest It looks now like we sas Union Farmer takes pleasure in reprinting these summaries as they appeared in the November 17 issue of The Co-Operator. Bob Lieurance, in charge of the stocker and feeder order buying division with the Farmers Union firm; John Hannon, butcher salesman; Art Little, salesman of fat steers, and Fred Seager, who sells the stockers and feeders, are the authors of the market summaries, printed below.

Following last week's substantial advance, in fat steer prices, the marweek's advance was on the short fed cattle, that is the kind selling up to

little change, as the demand for choice beef has been very light. In contrast to the early fall market, when heavy cattle were in good demand and bringing higher prices comparatively than the light and handy weight kind, the weighty cattle at present are being neglected, with the demand much broader for the lighter weight kind.

Stockers and Feeders ing a little loing it today.

There has been a good supply of ing it today.

good quality stocker and feeder calves (continue)

lost. It looks now like we will be able to buy some real good kind at prices that look worth the money, at the end of the week. The fall run of good quality calves will be over in the next week or ten days, and we would advise prospective buyers to lay in their supply soon as we look for the quality to become much plainer after next

month. **Butcher Cattle Situation** The past ten days we have had exceptionally light receipts of butcher cattle. Due to the interest in last week's election the runs of all classes of cattle were light and our market ket this week, due to heavy supplies on killers, both steers and butchers' at eastern markets, particularly Chicago, broke sharply and at the close ever, with heavier runs at Eastern was generally 35c to 50c lower. Last points the middle of the week steers points the middle of the week, steers at all markets showed lower, with cows, heifers and mixed yearlings .00. The cattle good enough to get holding the early advance. The latter out of the short fed class showed very part of last week, prices on all killing holding the early advance. The latter

cattle resumed Monday's upward This week has proved unusual trading in our butcher cattle. The Eastern order buyers have had practically no orders, but with very few cows and light weight killers among the offerings from day to day, our market has held last week's higher prices, showing a little loss yesterday but regain-

# ARE YOU READY

For the Farmers Union Membership Drive in December

ARE YOU THOROUGHLY CONVINCED THAT A LARGE MEMBERSHIP AT THE FIRST OF THE YEAR IS ABSOLUTELY NECESSARY FOR EFFEC-TIVE WORK WITH THE STATE LEGISLATURE AND WITH CONGRESS?

REMEMBER that if you wait until summer of fall or even until spring to pay your dues, you will not be an effective asset to the Farmers Union NOW when you are needed.

REMEMBER that it is just as easy to pay dues now as to wait for some time and then pay them. Not "sometime"—but now, is the time.

REMEMBER that the original intention, according to the constitution and by laws, has been that dues are due and payable on January 1 instead of later in the year.

REMEMBER that the Kansas Farmers Union is not fully effective until all its members have paid current dues. This is one year when it must be effective right on the start.

REMEMBER that other industries are fully organized and that members are forced to pay when dues are due —and their dues are much higher than Farmers Union

REMEMBER that other classes, being organized, are laughing "up their sleeves" at the Farmers Union when it tries to function for the preservation of Agriculture without being fully organized.

REMEMBER that the initiation fees have been eliminated, and that you can be a member in good standing simply by payment of 1933 dues, no matter if you are in arrears.

REMEMBER dues may be paid now, in November, and that now is a mighty good time to pay them. Several members have already paid 1933 dues.

SEE YOUR LOCAL SECRETARY RIGHT NOW AND BE AMONG THE FIRST TO SHOW YOUR LOYALTY TO YOUR OWN CLASS ORGANIZATION. THEN GET BUSY AND PREACH THE IDEA TO YOUR NEIGHBORS. SEE THEM BE-FORE THEY HAVE A CHANCE TO SEE YOU ABOUT IT.

# Farmers National Merger

Merger of the Central States Grain er with a number of local farmers ele-Association and the Indiana Farmers vator associations. The Indiana Farpresident of the corporation. Boards of directors of both organizations have approved the merger, which becomes effective at once. This merger is similar to the merger affecting the Farmers Union Jobbing Assn. and others in this territory.

The consolidation brings together in one state-wide marketing organization cooperatives of the two major types that have been developed over a period of years, the Central States association representing the so-called pooling plan and the elevator company as its name implies, the farmers' elevator groups.

The Central States Grain Associa tion was organized ears; in 1924 under the name of the Indiana Wheat Growers Association and now embraces in its membership about 13,-000 grain growers in Indiana, South-ern Illinois and Western Ohio, togeth-marketing.

vator associations. The Indiana Far-mers Cooperative Elevator Company Cooperative Elevator Company, the two Hoosier State stockholders of was organized in 1929, and is made Farmers National Grain Corporation, up of about twenty farmers' elevators wa announced today by C. E. Huff, in Northern Indiana. It is estimated that the two groups handle cooperatively approximately one-third of all grain marketed commercially in the state. Membership campaigns involv-ing both individuals and farmers' elevators are under way and the volume andled is steadily increasing.

Under the consolidation plan the stock of Farmers National Grain Corporation held by the Indiana Farmers Cooperative Elevator will be transferred to the Central States Grain Association. The former becomes a member of the latter, with full membership privileges and representation on the Central States directorate.

The consolidation is similar to those effected some time ago in Nebraska, Colorado and the Spring Wheat area, and is regarded by many cooperative leaders as marking a definite trend in the progress of cooperative grain

> Let us not fall into the snare now being cunningly laid for us-viz.-to Creep feeding has been gone into settle down to a low price level. The nuch more extensively the past two trouble is our debts don't come down.

> > All through the campaign the popular talk was, "Cut down expenses Cut down salaries. Get along with less public service. Farmers produce cheaper. Fear, overproduction," etc. Hardly a word about higher prices. All negative. All back track stuff. All the whine of inefficient statesmen and executives. That's not what made America great.

Let me repeat, the trouble is not over-production, but under-consumption. Let me again say the saturation point in consumption has never been

bread and meat or clothing, and probably never will. It's all a matter of distribution. That's the statesman's

Full consumption is only possible with liberal supply of money and credit. That's what gives buying power and good prices. All money and credit is the creation of law and proper handling by banks. Banks are lawcreated, and can be controlled by Government or the States. So it all comes back to legislation and proper

Over and against all this is the money lenders and speculating investors, the credit holding class whose interest is in scare, high-powered dollars which makes his property (viz. money and credit paper) worth more and all other property worth less. It is the eternal struggle between debtor and creditor, paper wealth and real, tangible wealth. The money-credit mongers are largely in control at Washington. They are very powerful. That's the bunch we have to go up against. I am warning it's no small job. It will be a battle roy-al. It will shake the foundations, but it must be won if we farmers are to exist as freeholding, independent citizens.

### BUTTER AND EGG MARKET LETTER

By P. L. Betts, General Manager Dairy & Poultry Cooperatives, Inc.

Week ending November 16, 1932 Butter

We have had a strong and continually advancing butter market during the current week. All grades have shared in the advance. Extras opened at 201/2c and advanced 2c to 22½c. Standards opened at 20½c advancing to 22c. 89 point cars opened at 19 1-4c advancing 1%c to 21c. 88 point cars opened at 181/2c and advanced 1c to 191/2c.

The factors that have tended to strengthen the butter market have been, first mainly the fact that the the 13 per cent more cows that the Government had reported earlier in the season has not materialized. Investigations from various sources

been of considerable importance is the weather. Winter is setting in Why the discussion of party plat- early. The entire northwest is cov-

and with this tendency prices have

The egg market has simply boomed fresh gathered firsts at 32c, current receipts at 31c, dirties 23c, and checks

starts, it will be another story. Naturally, of course, this very high price on eggs is going to encourage turn moves forward a little on the in- priced eggs which they should do at priced eggs and consuming the cheap-Our work as farm organizations is just cleverly begun. By this political evolution we feel that we have better times when it is just as good sense to see to it that home consumption is made just as heavy as possible in order to relieve markets from gluts, resulting from overproduction. P. L. Betts.

PRIZE SHORTHORNS BRING 15c

The fat cattle entries in the car lot exhibition of the American Royal were sold through the auction ring Wednesday, November 16. The highest price was paid for the champion load of shorthorns shown by the Sni-a-Bar Farm. They sold to Armour & Company at \$15.00 per cwt. The champion load in the Hereford class brought \$10.25, while the winner in the Angus class sold at \$12.25. There were 75 loads of cattle entered in this class.—The Co-Operator.

Prompt chilling of pork immediateafter slaughter is as essential as hilling fresh milk.

Thirty years ago almost none of the ilk sold in American cities of 10,-000 or larger was pasteurized. Today nearly 90 per cent of it is.

Baked products made with honey retain their moisture longer those without it. Honey used in bread keeps it moist and fresh and gives the crust a rich, brown color.

If there is much difference in the size of lambs, it will pay to sort them according to size for the feed lots.

# Junior Cooperators

HOW TO BECOME A MEMBER OF THIS DEPARTMENT Any boy or girl between the ages of six and sixteen, whose father is a member in good standing of the Farmers' Union, who writes a letter for publication, can be a member of this department, and is entitled to a pin In order to receive a book, he must signify his intentions to study the lessons and send them in. We cannot send out books to those who do not intend to send their lessons. The address to which all Juniors should send their letters is: Aunt Patience in care of the KANSAS UNION FARMER, Salina, Kansas

# A \$2 Dinner For 6

TOW'S this for an inexpensive holiday dinner?

Tomato and Vegetable Cocktail 17¢
Veal Chops 75¢
Parsley Creamed Potatoes 20¢
Stringless Beans with Crumbs 21¢
Bread and Butter 11¢
Lettuce Hearts 16¢
Green Gage Lime Sponge 35¢
Demi-tasse 5¢ Tomato and Vegetable Cocktail

Combine two nine and one-half ounce cans tomato juice, the juice from a No. 2 can stringless beans, one-fourth teaspoon Wor-chesterehire sauce, few drops onion juice, three tablespoons-lemon juice and sait and papper to taste—stir well and chill. Serve-in small glasses.

in small glasses.

Stringless Beans with Orumbs: Drain one No. 2 can string-less beans—use juice in cocktalls —and spread out in shallow, flat baking dish. Sprinkle with salt recipes serve six.

and pepper and with one-half cup crumbs mixed with two table-spoons melted butter. Place in hot oven or under broiler until hot and crumbs brown.

Green Gage Lime Sponge: Dissolve one package lime gelatin in one and one-half cups beiling water and add two tablespoons ugar. Remove stones from one eight-ounce can green gage plums, press through sieve and add to gelatin. Chill. When thickening, fold in two stiffy-beaten egg-whites, and mold. Serve with

Crossy Custord: Beat two egg polks; add three tablespoons sugar and a few grains of salt. Then add one-half cup scaled diluted evaporated milk. Cook' in double belier until creamy,

VINEGAR SOLUTION WILL REMOVE LIME

Heavy deposits of lime in water kettles can be removed by heating a mixture of vinegar and water in the kettle, according to chemists at

State college. The amount of vinegar added the water will depend on the thick-nesses of the lime deposit. The acid in the vinegar will combine with the lime and form a soluable compound which will pour off with the water.

If the deposit of lime is quite thin it may be removed by using the kettle to cook some acid food such as to-

matoes or rhubarb.

If the kettle is made of granite or enamel, it will not be injured by the acid. If it is of aluminum it may be attacked slightly by the acid.

Turkeys of ordinary finish lose approximately 12 per cent in weight when dressed for market, undrawn. This loss is less when the birds are

The best winter protection that can be given plants is snow. In years of heavy snow fall very little winter injury is experienced. In open winters plants are more severely injured.

Kanses City, Me.

VERY egg laid is another reason for feeding NUTRENA. Every hen should be allowed to do her best to produce more eggs and do it with the most profit possible. That's why so many poultrymen depend on NUTRENA to produce more eggs for them and at the same time, cut down their egg cost. Your flocks will do better on NUTRENA. The extra eggs you get will go a long way in producing extra money for the things you want. The full line of NUTRENA FEEDS is carried by your local Farmers Union Store or Elevator. See them to solve your feeding problems

and increase your profits.

fore the meeting. Dinner will be served at noon. Everybody invited.

Yours truly, Gust Larson, Secretary.

MARSHALL COUNTY MEETING

The fourth quarterly meeting of the Marshall County Farmers Union will be held at Waterville, Dec. 6. The meeting will be called at 11 o'clock and a basket dinner will be served at noon as usual. We will have our annual election of officers and every local in the county is asked to send delegates.

CHANGE IN SALES FORCE

Some changes and promotions have been made recently in the Farmers Union Live Stock Commission Co., under the direction of Manager G. W. Hobbs. This firm belongs to the producers out in the country, and for that reason, most of the readers of the Kansas Union Farmer have a distinct interest in the activities of that firm. Therefore, this paper is glad to print here a story "lifted" from The

Co-Operator:

On September 1, 1932, Ed. Klamın who has been in the employ of the Farmers Union for the past ten years was promoted to the position of calf salesman. "Eddie" the name by which he is known in the yards first came to the Kansas City stockyards in 1909. His first position was with the Stockyards Company, and while with them through his hard work and abil-wingo, Ky. ity, received several promotions. His

quainted with every branch of the service and knows the method of handling cattle in the yards from the ground up. Eddie has always held a responsible position with the Farmers Union, that of weighing cattle sold in at the Washington schoolhouse on November 18. The meeting was called to order by president S. J. Lohr who had driven 40 miles to be on hand, had driven 40 m ways been entirely satisfactory. He is well fitted for his new position, for he

had read the report in our own state paper, however there was considerable Union that they can rely on Mr.

man, is now selling stocker and feedling this new position in the same efficient manner and is making many new friends for the Farmers Union.

FARMERS UNION LIVE STOCK CO. RANKS NEAR TOP

(continued from page 1) of \$21,434.90 for the first ten months of 1932, which amount is 18.2 per cent of the gross income. This saving has been made in spite of a decrease in receipts on the yards which has naturally decreased the gross income. In Now, we hope every local will get addition, both offices have reduced its membership back to normal and commission rates this year. The Kanaddition, both offices have reduced a schedule which is around twentyfive per cent less than that in effect prior to May 25th, 1932, and the Wichita office has made a reduction which will figure about the same saving for their patrons. Expenses have been decreased around \$8,000.00 for the first ten months.

Truck Receipts

The trucked in business is supply ing a good percentage of the volume per cent has arrived by that route. The Farmers Union Live Stock Comserved by the local. The Highland local furnshed the music which, as local furnshed the music which are local furnshed to the local furnshed the music which are local furnshed to the local give truck consignments the same ments. In former years many farmers patronized their own cooperative organization through shipping associations and were well pleased with the service which they received. Howthe place of shipping associations in numerous communities, many farmers in those localities have failed to take advantage of the service and saving offered by their own firm. The matter of consignment is left entirely with the owner, and he will find it to his advantage to patronize his own firm. The Farmers Union reports show an increase in trucked-in business. They are equipped to handle it efficiently, and solicit your business.

The board of directors and manage

ment of the Farmers Union Live Stock Commission Company submit the above statements for your considerais deserving of your patronage.

CATTLE FEEDING SITUATION

The shipments of stocker and feeder cattle, inspected through markets into the Corn Belt States in October meeting of the Kansas State Board of were very small, being over 10 per cent smaller than the relatively small Bring a sack lunch and enjoy the shipments in October 1931, nearly 20 meeting. Plenty of good music and per cent smaller than the October aventertainment will be provided for erage for the preceding five years all. Let's get the business session and the smallest for the month in 12 over as early as possible. There will years. Most of the decrease from be good speaking and a general good time for all. This is a very important meeting, and every local in the River, which were the smallest for county should be represented. Every- the month in at least 14 years. Shipbody is invited, as this will be an open ments into the area east of the Mississippi, while smaller than in October 1931, were larger than in any of the

This decrease in shipments in Oc-ETING tober was in contrast to the preceding three months, in each of which the movement was larger than in the The annual meeting of the Riley corresponding months of 1931, and reduced the total for the four months, held at the Baldwin Creek school July to October, inclusive, below the house Saturday, Dec. 3, beginning at corresponding total for 1931 and to the second smallest in 12 years. The Election of officers for 1933 and four months' shipments into the area any other business that may come be-15 per cent larger than in 1931 and much above the average of the years 1927 to 1931; shipments into the area west of the Mississippi were eight per kets in October were due in part to cent smaller than in 1931 and 10 per the very small supplies of cattle at | "old line" company either direct or cent smaller than in any other year

since 1919. The decrease from last year was most marked in the shipments into the States west of the Missouri river. Shipments into these States in 1931 were relatively small due to the short production of corn and other feed years. crops resulting from the 1931 drought. Feed grain and hay production this year are much above 1931 but the in-shipments of feeder cattle through markets have again declined. Reports from these States, however, indicate that the direct movement of feeder cattle (not going through stockyards markets) is much larger this year than last, and the supply of locally raised cattle available for feeding is relatively large. Hence, the ship-ments through markets this year do not give a dependable indication as to the probable volume of feeding this season, which is expected to be larger than a year earlier.

The reduced shipments from mar-

# **JOBBING ASSN.** HAS BIG VOLUME IN MERCHANDISE

Mill Feed Volume

**GET TWINE ORDERS** 

The volume of coal business handled by the merchandising department of the Farmers Union Jobbing Asso-ciation, according to Ted Belden, manager of this department, has shown a most substantial increase over last year's sales. Mr. Belden reports, through the columns of The Co-Operator, that virtually all the coal business this year has been transacted on southern Kansas deep shaft coal. The trade name of this popular product is "Imperial" and it is obtainable in either lump or nut size.

The Farmers Union Cooperative Association of Ellsworth, Kansas, has handled twenty loads of this coal since January 1st. They have found that it has proven entirely satisfactory to their and trade and profitable for their organization. Numerous other associations are using the product, and reports received by the Jobbing Association from them prove that it is giving satisfaction to all who use it. Those dealers handing coal and not contracting for it through the Farmers Union Jobbing Association will find it to their advantage to ask them for quotations and full information

regarding their service.

Many dealers will be glad to know that Imperial coal is mined from the same vein as Hamilton No. 9 and ompares favorably with it in quality. Remember the Jobbing Association can supply you with practically any brand of coal you may desire. Inform them of your needs and request their quotations.

Flour and Mill Feeds

The Farmers Union Jobbing Association reports a nice volume of business during the past month on Union Gold and Union Standard flour. These products are growig more popular each month with Farmers members and the Jobbing Association expects to distribute them to every Farmers Union store or elevator in Kansas that handles flour and mill

Kansas City and St. Joseph, Mo., and is milled and distributed by the Beloit Milling Co., Beloit, Kansas. Remember that, from either mill, you

handling these products, as they feel certain it will prove to be a valuable asset to its business.

Other Jobbing Activities

Orders for binding twine are being received for next year's use, by the Jobbing Association daily. These or-ders are being booked on the part of the Jobbing house with the expectation of being able to supply their trade with twine from the State Penitentiary at Lansing. They are endeavoring to again contract for the entire output at the prison. On the strength of past sales of this product, and because of its good quality orders for the it. The Jobbing Association is calling on the customers who handled this twine last year and if they have not been around to you will do so in the near future.

The business on meat scraps and tankage, which are now being furnished through Armour & Co., is especially pleasing, as it is always difficult to get the trade over to another brand of product. Farmers Union customers are responding nicely and are finding these products all that the Jobbing Associations promised; the best obtainable. They are manufactured from clean animals under Government inspection. Dealers will find sion? prices on these products in line with others.

markets during that month. Cattle receipts at seven leading middle west-ern markets in October 1932 were about 15 per cent smaller than in October 1931, which in turn, were the smallest for the month in at least 15

Services which time will not permit me to enumerate now. We have constantly practiced economy in the development of our program. We have saving money for the farmers in their territory rather than helping to build a commendation to permit the similar cooperatives own. They are saving money for the farmers in their territory rather than helping to build a commendation to program which they together with other saving money for the farmers in their territory rather than helping to make the stockholders of eastern concerns and handling these products, as they feel

Cooperatives and Old Line

I said in the beginning what we are doing deserves the support of every farmer in Kansas who uses petroleum products. The cooperative oil business is not something for farmers to pass up lightly and to continue supporting "old line" companies. Through Cooperative purchasing of these products farmers saved approximately eight millions of dollars last year. What does this kind of saving mean? It means that these farmers have and price, dealers are readily booking eight million dollars which they take care of the burdensome expenses would not have had had they not purchased their petroleum products cooperatively. It means that they have eight million dollars with which to very much desired at this time. Many very much desired at this time.

Certanly, such a program deserves the support of every farmer who buys gasoline, kerosene, motor or tractor oil. Isn't this a very practical way to help relieve the depres-

An incident happened a few days ago which illustrates clearly the position farmers are in when they continue to give their patronage to an through their cooperative oil company. One of our field men met with the board of directors of a local cooperative oil company, a splendid bunch of good cooperators. They had in the past been giving their business to an "old line" oil company; however

COOPERATION OUR BUSINESS they soon recognized that our says are says as thorough cooperator and had the interest of the farmer at had the interest of discussion, in heart. After a brief discussion, which our fieldman asked them or independent companies. We were which our fieldman asked them to determined that there would be no line up with the Union Certified guess work about the quality of our group, a member of their board made the statement that they would like to Is Enthusiastic over Coal Trade which has Increased Substantially over

Aftto our Union Certified line until to-day, we can furnish a complete line of the board said that he had spent not only of motor and tractor oils but considerable time and used every efof all miscellaneous oils, fly sprays fort that he knew of to investigate and disinfectants. The Union Certitle Union Oil Company. He made the fied label on all of these guarantees statement something like this: "I also found that the salesmen of the "old line" companies are more than ready razzed the officers of the Union Oil Company, condemned the quality of their own company. In this connection, we have been bale to save local companies a substantial amount of erators. In fact, they said so much houses at conveniently located points. one we should be working with, and I Eighth, a little more than two tract with the 'old line' company and

> are perfectly willing for the local cooperative oil companies to pool the volume of their members and then to give it to them. But, when it comes to the local companies pooling their volume and handling it cooperatively all along the line, that is quite a different thing. It seems to me, this is reason enough for farmers to fight their battles from behind the same up with cooperators rather than with old line" companies.

With the present price of wheat, corn and hogs, certainly there is plenty of reason for farmers to cast their lot with each other. Agriculture thoroughly organized would be a giant among American industries. As t is today, it is hardly more than a sleeping giant. There is just one way to correct this and that is for every farmer to line up with his cooperaand to cease supporting the

line" company who does not, and never has, done a single thing that the farmer might save the profit on

Along with the ten major accompanies saved this much of the wholeplishments which I have pointed out panies saved this much of the wholeto you, we have rendered many other sale profits on the petroleum prod-

ealthier. It seems to me that it was never more important that we make a supreme effort to the end that loved ones may enjoy more of the good things of life. We do not, and never have contended that the handling of petroleum products will solve all of the farmers' troubles. We know, however, that it will help to the extent that he can save the profit on the petroleum products which he consumes if he will patronize his cooperatives all the way down the line, and certainly these profits, as we have demonstrated by our record, will help which he has. In other words, they will help increase the size of his pur-

amount of his taxes.

Now that I have stated our position fully, and candidly, I think I am safe in saying that we can rely upon the good judgment of every thinking farmer and that he will decide to line up with his neighbors and to cooperate with them rather than to con-tinue patronizing the "old liners."
