Mary Shoop, graduate in education, takes a break in Farrell Library.

What can the student expect from K-State?

Aside from infinite basketball ticket lines, sub-zero winter weather and surprise enrollment procedures from Admissions and Records each semester, what can the student count on?

Farrell Library offers areas for students to study or relax.

Early morning light casts its warmth on Anderson Hall.

ABOVE: Joseph Wayo studies in front of Calvin Hall. BELOW: The greenhouse gives Bernadette Jilka practical experience.

The University ideally tenders certain attributes — superior intelligence, acute insight and an answer to every question.

Realistically, college offers little more than its consumers are willing to invest in.

Historically, society has dictated that the only way to “beat the system” is through perseverance and old-fashioned hard work. College is sanctioned as a means to attain this end. K-State is no exception.

Looking east from Ackert Hall, one can gaze across the campus.

Therefore, one can expect to find some semblance of persistence at K-State.

Colleges have survived the vicissitudes of the past decade. Was it only ten years ago colleges were plagued with protests of Vietnam and the status quo? Apathy gave way to violence which gave way to more apathy.

K-State emerged relatively unscathed, but not unaffected. Memories remain. We have survived, maybe even progressed. And, importantly, we still care about college.

Today, though we may often question values in our society, we refuse, for the most part, to reject them altogether. If anger is present, it has taken a subtler form.

Abandoned rural schoolhouses are prominent in Kansas.

Late afternoon rainbows frequent the plains of western Kansas.
Bryce Jacobson takes a break from school by skiing at Tuttle Creek.

Many students return to school via Interstate 70.

The moon glistens over the Manhattan skyline at day's end.

Rather, the K-State student seeks some reward, tangible or intangible, for putting forth effort.

As K-State freshmen, we hold steadfast to ideas of changing the world. Initially, studying is of the utmost importance. The first-day freshman is easily spotted. He scuffles with an armload of 500-page books while fumbling with a campus map. His goals are high: a 4.0 — nothing less.

But idealism eventually gives way to realism.

A few all-nighters and a couple of Cs later, our goals change.

Instead, a sense of quiet procrastination develops for many. Nodoz taken at 4 a.m. elicit self-proclaimed promises of “I’ll never put things off again.”

Gestures are fine in times of panic, but the age-old platitude holds true: actions do speak louder than words.

The idea of conquering some vast unknown dissipates. More likely, a question of "Can I survive four years?" arises. Graduation becomes the ultimate goal.

The K-State student persists, despite the trial and error atmosphere college may project. We struggle through semesters of essay tests and comprehensive finals to achieve the final objective — a diploma.

Students do graduate. And although priorities at times get misplaced during college, they are nonetheless present. The "real world" lies outside ivy-clad buildings and iridescent Aggieville bars.

The hunt for a parking space often makes students late for class.

Fred Schmidt, left, and Skip Brod make their debut in the weekly nooner held in the Catskeller.

A Volkswagen stuffing contest was one of many new events during Homecoming week.

Ken Voss and Anne Miller look for the perfect pumpkin at Britts Market.

Leslie Brockman and Pam Kogler celebrate Halloween.

Many K-Staters can be found jogging on Denison in the early morning.
Fall leaves and an enormous tree offer comfort for a reader.

What it comes down to is discovering some goal to strive toward. Freshman anticipations of moving mountains surrender to filling out endless resumes.

Somehow, we hold on to the end, even when the only lucid alternative after college appears to be the "real world."

Hopefully, we are not too sheltered from it at K-State.

Rest assured, life does continue after college, long after the last final is taken, the last suitcase is packed and the last goodbye is echoed.

The Union offers quiet nooks for studying.
Dodging North Manhattan Avenue traffic is a daily occurrence for some students.

So what is the student left with when he leaves K-State? Undoubtedly, some sense of accomplishment prevails. College years take their toll — on time, patience, stamina and perspective. Supposedly the benefits derived from persevering remain.

ACADEMICS

Persistence prevails in Acker's administration

Acker prepares lecture notes on an antique desk — one of several pieces of Victorian furniture he has purchased for his controversial office.

Reading at home allows Acker to relax after work.

Persistence, like enthusiasm, can rub off on others. If someone holds strong beliefs, those beliefs can influence others.

Duane Acker's role as president offers a different opportunity for persistence. He must constantly instill to administrators and faculty a sense of responsibility to provide quality education.

"I think a person in this kind of spot has quite a responsibility to encourage the vice presidents, deans and department heads to insist upon intellectually stimulating staffs, to see high-quality work."

Acker said his persistence with the Board of Regents concerning the new classroom building has paid off. It wasn't on the Regents' priority list, but with Acker's insistence to keep it a number one priority, it has finally been endorsed and approved. The new building is jokingly known as "Finally Hall," Acker said.

"Persistence lets other people know that the goal really is important. It helps convey that message," he said.

Acker said that because he is more distant from the students, he must gain satisfaction from someone else doing work well.

"A lot of my impact has to be indirect, through encouragement and expression, because decisions are made by department heads and deans. They are the ones delivering to the students."

Acker does manage to be personal with students, regardless

of his busy schedule. He frequently has dinner with several living groups and sometimes attends Student Senate meetings.

He is teaching an introductory class in animal science this year. He said his course is beneficial to the student interested in animal science, but who doesn't have the farming background. The teaching opportunity also helps him become aware of basic student needs, such as broken chairs and drop-add difficulties.

Because Acker is busy throughout the day, he must often think of persistence to keep him going.

But, he must break away at times, too. A momentary escape for him is to look out the window in his new office.

Other escapes include music and books (such as history and mysteries).

"I love people, but I do need some solitude. Every three months I simply have to get out of town for five to seven days. Often it will be to a farm we have in southwest Iowa."

"I come back fresh and I'm much more productive."

Acker views a student's persistence in a different light. He said the student must apply himself without procrastination, because of "a more finite time situation."

"You will be forced sometimes to be especially creative if you are persistent," he said. "That creativity leads to a solution."

"Those things that come after a persistent pursuit taste better, and internal satisfactions are meaningful."

Acker lectures on nutrition in an animal science class he taught.

How do your responsibilities directly affect K-State students?

"The proper performance ... translates into getting the best possible faculty members into the classroom, supporting their efforts with necessary resources, protecting their academic freedom, encouraging innovation and faculty development and helping to sustain a reward system based on merit."

— **John Chalmers, V.P. for Academic Affairs**

"I work with the student body president and various organizations associated with the campus ... Mortar Board and Blue Key with Homecoming ... Chimes with Parent's Day. I also assist students who drop by unannounced or are referred to me by the President, with specific problems or questions they have about the University."

— **Max Milbourn, Assistant to the President**

"The functions of the office ... primarily affect students indirectly by helping to insure that each dollar available to the University is expended legally and prudently to yield the greatest return in the areas of administration, student services, instruction, research and public services."

— **Daniel Beatty, V.P. for Business Affairs**

"My responsibility is to provide an environment in which living and learning within the University community can take place. The campus environment must do more than just provide for the routine needs of those who are a part of it. It should help each person broaden one's aesthetic horizons and lift one's goals in life."

— **Paul Young, V.P. for University Facilities**

"I see my direct affect in first, emphasizing to prospective faculty that quality teaching and advising are key responsibilities at Kansas State and secondly, to share in rewarding through recognition, salary and rank those faculty who perform well in these areas."

— **Roger Mitchell, V.P. for Agriculture**

"My responsibility and that of student personnel departments is to help students become what they have the capability, motivation, desire and intellect to become."

— **Chester Peters, V.P. for Student Affairs**

"The support which the housing department gives to Jardine and hall governments and to staff activities is probably the most important to, and has the greatest affect on residents, in helping them adjust to their new living situations and having opportunities for individual growth."

— **Tom Frith, Director of Housing**

"With a given amount of resources, I must decide what kind of books to buy, at what level, in what proportions . . . choose between numbers of hours open and the amount of services that are available when the library is open."

— **Jay Rausch, Director of Libraries**

"My first responsibility is to guide the budget through the state legislature. Without adequate funding the quality of education received by our students suffers. Other areas . . . Landon Lectures and advisory role with student government leaders have a positive affect on student life."

— **Barry Flinchbaugh, Assistant to the President**

"... (We) are constantly serving the student body by offering the availability of complete health care to the student client excluding major surgery, dental care and long-term hospital confinement. Lafene's entire activities center around service to the student client and hence, in the areas of campus health and environment, exerts a daily influence."

— **Robert Sinclair, Director of Student Health**

"First, we endeavor to cause qualified students to apply and be admitted to K-State. Then we schedule them for advisement and enroll them in classes ... collect and record grades ... check candidates for degrees ... and prepare transcripts of student records for students seeking employment or certification."

— **Ellsworth Gerritz, Director of Admissions and Records**

"As director, I work with individual students and student groups and serve as liaison to all elements of the University community. We (at the Center) provide aide, counseling information, supportive and referral services to persons on our campus."

— **Earl Nolting, Director of Center for Student Development.**

"It is my responsibility to see that K-State Union provides for the services, conveniences and amenities that the students need in their daily life on campus. We must provide a cultural, social and recreational program aiming to make free time activity a cooperative factor with study in education."

— **Walt Smith, Director of K-State Union Operations.**

College of Agriculture

David Mugler, acting dean, College of Agriculture

Robert Boufford, graduate teaching assistant in horticulture, examines plants in the greenhouse behind Justin Hall.

Agriculture is not just farming fields and raising cattle, as the College of Agriculture can verify. The profession of agriculture is broad and the college offers many more options than most people think.

Degrees in horticulture, animal science and industry, grain science, plant pathology and agricultural journalism are a few of the possibilities available.

"The most important person in the college is the student," David Mugler, Acting Dean of Agriculture, said. "That's my basic philosophy, and also the main concern of the college."

Another concern of the college is to have modern and extensive facilities to help provide effective instruction. More than 4,000 acres of land are used for experimental work and research. A feed mill, flour mill and bakery mill include modern equipment from eight countries. Livestock, field crops, fruits and vegetables are all used in teaching and research. The grain science department houses many of these facilities and sets an example for the rest of the country as it provides the only

milling program in the world.

The College of Agriculture has several professional clubs and honoraries, including a judging team which judges everything from livestock and meat to poultry and dairy.

"Judging is time-consuming, but is important as it teaches the student to be more confident and able to make decisions," Beth Pringle, senior in animal science and industry, said.

Another activity the college has is an annual, which provides personal data and career interests of the seniors in agriculture and is sent to more than 400 prospective employers.

This year enrollment has declined 5.8 percent, but the College of Agriculture is optimistic that enrollment will increase.

"The job opportunities are great in most parts of our industry," Deb Williams, senior in agriculture journalism, said. There are one and one-half job positions available to each graduate in agriculture. This, plus the many opportunities available in the college, may lure students into the agricultural area of study.

A student evaluates beef in an animal science class.

College of Architecture and Design

The concern about the tight job markets that exist today prompted the college of Architecture and Design to provide programs to make the student's search for employment easier.

"Our students have been unusually fortunate in (job) placements," Dean Bernd Foerster said. "There have been many requests for graduates from our program that we are unable to fill."

The specialized curricula — architecture, interior architecture and landscape architecture — begin in the student's third year, after completion of the pre-design professions program. This program provides common background and skills, and enables the student to select his or her field on the basis of understanding gained in the college.

"Our emphasis in the pre-design professions program is on advising and matching students with their interests and abilities," Foerster said.

Another way in which a student gains valuable experience is through the internship program. This elective 30-week internship may include work-study experience in professional offices, industry or government agencies. This program allows the student to develop a better understanding of the possible

careers in the various fields of architecture.

The college has also provided a lecture program, bringing in design professionals and leaders from related fields. This contact can further acquaint a student with the job market, Foerster said.

Every spring, admission to the three professional curricula is determined by faculty in each department. No quotas are set for the number accepted. Selection criteria includes evidence of motivation, aptitude and scholarship, Foerster said.

The design studio experience forms the core of the program in the college. All students take studio courses in which they work on individual projects, with faculty serving as critics.

Graduate study is available in an additional area, regional and community planning, as well as in the other three departments of architecture.

Approximately 1,000 students are enrolled in the college, with women making up 17 percent. There has been concern over increasing that percentage, Foerster said.

"We want to make women aware of the opportunities in architecture."

Four students work on projects in interior design studios in Seaton Hall.

Bernd Foerster, dean, College of Architecture and Design

Julia Thomason, junior in landscape architecture, holds a measuring stick for another student during a surveying class.

Lynn Rieger, senior, uses transfer letters for her project.

Lorraine Davidson studies the stages of mitosis in her Principles of Biology lab.

ABOVE: William Stamey, dean, College of Arts and Sciences.

Pawan Handa runs his computer program through the terminals in the basement of Seaton Hall.

College of Arts and Sciences

The College of Arts and Sciences is the largest college at K-State and has the widest variety of majors.

"I believe we're the central core of the University," Dean William Stamey said. "If we're not good, the University is not good."

More than 2,000 courses are offered and virtually every student enrolls at some time in at least one course in Arts and Sciences.

"We have a dual responsibility in the College of Arts and Sciences," Stamey said. "We have our own students and in addition, we must provide supplementary courses in general education to students in all the other professional colleges at K-State."

The goal of the college is to help this large group gain knowledge and understanding, acquire skills and develop habits of critical thinking, Stamey said.

More than 4,000 students are enrolled in the 48 majors available in Arts and Sciences. The programs of study include the pre-professional majors, such as pre-law, pre-veterinary medicine and pre-nursing.

Stamey said there has been a large increase in these programs because there is a sense of security in preparing for specific jobs after graduation.

Other majors enable students to develop skills in music, art and communications. Students can also major in the social, physical or biological sciences.

"In a way, we are a mini-university," Stamey said. "We have such a variety, from fine arts (to) sciences to humanities."

"My goal is for every student, in the College of Arts and Sciences or not, to get the best education possible," he said. "I'm sure we'll (the college) have something to do with it."

"We do have an impact."

John Greer, junior in business management, waits for his class to begin.

Karen Wilson studies on the steps of Calvin Hall.

Susan Walterscheid, senior in business, takes a shorthand speed test during Intermediate Shorthand.

College of Business Administration

Job interviews, independent classes, placement programs and organizations are all part of the system found in the College of Business Administration at K-State.

The college has about 2,000 students enrolled in various areas — accounting, finance, marketing, administration and management.

The primary college objective, according to Dean Robert Lynn, is to provide the opportunity for education, study and development.

Business students are found not only in Calvin Hall but all over the K-State campus. The college has greatly expanded and developed since its establishment in 1962.

"According to current statistics, the college enrollment has increased 7.9 percent in the last year," Lynn said. "We are proud of our growth." The number of faculty positions has also expanded.

Undergraduate business courses range from Business Logistics to Financial Management, and from International Marketing to Insurance. There are also independent, self-paced classes and courses where students work with companies.

"The K-State business college has practical and versatile courses, which will provide good career opportunities," Martha Wilson, senior in home economics and business, said. Of the 126 credit hours required for a degree in business, only 10 hours are electives.

There are numerous organizations and honoraries students in the college can be members of. These include Business Administration Council, Beta Alpha Phi, Alpha Kappa Phi, Phi Chi Theta, Beta Gamma Sigma, Society for the Advancement of Management, Marketing Club and Accounting Club.

"Our many organizations and strong groups provide important college participation," Lynn said.

The college, in conjunction with the student placement program, provides another opportunity for business students.

"Interviews allow approximately 70 percent of business students to go through the placement programs for both the purpose of practice and employment," Joan Dragastin, senior in marketing, said.

K-State Business Administration programs have been acknowledged on the national level. In April 1978, Phillips Petroleum Company presented a \$7,500 check to the college "to help develop strength in the new area of international finance," Lynn said. A new international marketing program is also beginning at K-State.

The peer advisory system, in which the older students help younger students, and other unique programs are found within the college.

"Our highest goal is that which is most important for the students," Lynn said. "I can be confident that in some way we are helping them."

Students listen intensely in a managerial class.

Robert Lynn, dean, College of Business Administration

A student's questions are answered by Kathy Franz, student teacher at Bluemont School.

College of Education

The College of Education cooperates with the other colleges and departments at K-State in preparing teachers and other educational personnel.

There are 600 students enrolled solely in the college, but more than 2,000 students a year are certified in education.

Primary consideration in the college is given to the training of teachers for elementary and secondary schools, and for occupational and vocational programs. Curricula are also available for the preparation of administrators and counselors in schools and colleges.

"During the last two years, we've made a greater thrust into adult education," Dean Jordan Utsey said. "A lot more people are getting training in hospital training and supervision."

There is a shortage of students in the education fields of science, math, English and agriculture, Utsey said. In contrast, the job opportunities in these areas seem to be good.

In light of the \$71,416 grant by the Department of Health, Education and Welfare, the College of Education works with teachers and administrators in the Kansas City, MO, school

district as it strives toward desegregation.

"We are learning how to teach in desegregated classrooms," Utsey said.

Utsey said he sees no communication problem between students and administrators in the college.

"I communicate through individual contact and primarily through college council," he said. He also interacts with the Teachers of Education Council, which has student representation.

"We have a lot of input and chances to meet face to face," he said.

Two major committees have been drawn up to review the graduate and undergraduate programs.

"The undergraduate program is in the process of being strengthened — with a certification change," Utsey said. "There will also be stronger emphasis in reading skills."

There will be continued specialization at the graduate level in fields such as guidance counseling, dealing with the handicapped and gifted and adult education, he said.

Jordan Utsey, dean, College of Education

Heidi Teichgraber student teaches in music at Manhattan Junior High.

College of Engineering

For the first time in 25 years enrollment in the College of Engineering has passed the 2,000 mark, doubling in the past four years.

"Enrollment is up 10 percent (this year), which is the largest increase at the University," Dean Donald Rathbone said.

One reason for this is the increase in the number of women in the college. In the past year alone, women engineering enrollment has increased from 150 to 185.

Facilities are also improving, allowing for additional classroom space.

Phase II of the new engineering complex was approved by the Kansas Board of Regents and the Kansas Legislature. It will be located north of Durland Hall and will house electrical and mechanical engineering, plus the dean's office.

The College of Engineering at K-State is the largest engineering school in the state, with 1,875 undergraduates and about 240 graduate students.

Rathbone believes the size of the college is ideal — large, yet small enough to maintain a "personal touch" with students.

"Our students are the college's biggest boosters," Rathbone said. "Their enthusiasm for their programs and activities here have been most gratifying to the faculty and the administration."

Entering freshmen who are undecided about a major may enroll in general engineering for one year. The college offers degrees in agricultural, architectural, chemical, civil, electrical, industrial, mechanical and nuclear engineering, in addition to construction science and engineering technology.

ABOVE: Donald Rathbone, dean, College of Engineering. RIGHT: Jayaram Polavarapu and Gary Breipohl, graduates in nuclear engineering, prepare an experiment in the shock tube.

Dave Pacey tests the efficiency of a hydrostatic transmission for his research in agricultural engineering. Robert McGriff, graduate in nuclear engineering, works on a water transfer loop.

Ruth Hoeflin, dean, College of Home Economics

Bea Ann Wade works on her garment during a clothing construction class.

College of Home Economics

The College of Home Economics at K-State is one of the largest and most well-known home economic institutions in the country, according to Dean Ruth Hoeflin.

"In 1873, K-State offered the first home economics course in the U.S. for college credit," she said.

"We have a reputation that is good and it attracts out-of-state (and Kansas) students."

One reason students choose K-State's home economics program, Hoeflin said, "is because almost every major offers field study experience."

Home economics students can earn credit and gain on-the-job experience in a variety of locations.

Examples of field study opportunities include internships in retail stores for students majoring in fashion marketing, and the chance to work in financial counseling for family economics majors. Students in family and child development can gain experience in child care centers, and students in dietetics can

receive field work through clinical and administrative experiences in hospitals and health care facilities. Food service centers on campus and in business establishments provide training for those in restaurant management.

Another reason home economics is popular, is because it emphasizes the family, Hoeflin said.

"We're in a field that is related to service," she said.

Many courses in home economics involve skills that can be applied to everyday life. Some of these classes include: Family Relationships and Sex Roles; Death and the Family; Consumer Action and Personal and Family Finance.

Men are becoming interested in home economics, which is evidenced by increasing enrollment figures every year. One reason is because of excellent job and salary opportunities available for them, Hoeflin said.

"There is a demand especially for men in home economics teaching."

Kathy Bosco, graduate in family and child development, reads a story to a group of children at the child development lab.

Marilyn Lacey sniffs vegetables during an experiment in Food Science.

Debbie Mitchell, junior in fashion marketing, fills out a work sheet for a clothing construction class.

College of Veterinary Medicine

The College of Veterinary Medicine is one of the oldest veterinary schools in the country, dating back to 1905. In the summer of 1978, the last building of the three-unit complex was completed.

"It was a banner year for us," Dean Donald Trotter said, referring to the school's completed facilities.

"We're extremely proud of the complex and we now have facilities to improve research for students and the state.

"We're second to none in relation to our program," Trotter said.

The complex provides classroom space, research laboratories, examining rooms and surgery resources. The newest building houses a veterinary hospital, which serves Manhattan as a pet clinic while allowing students to gain valuable experience.

Enrollment in the college is limited to 105 students each year. Students must complete a minimum of two years of college work, including the required 64 hours of pre-veterinary medicine courses.

Selection is based upon academic achievement and professional potential as determined by an interview with the admissions committee.

During their first year in the college, students have cubicles and desk areas in which they keep microscopes, slides and books. Lectures and labs are also on this floor and are attended by the entire freshman class.

Each year in the college is organized in the same manner, with each level taking the same courses.

Seniors have the opportunity to be more specialized, however, as they can concentrate in surgery or medicine.

The veterinary medicine facilities were completed in the summer of 1978.

Horses are one of many animals cared for by veterinary medicine students.

Debbie Tarrant, freshman, examines slides in her cubicle.
Donald Trotter, dean, College of Veterinary Medicine

Evelyn Booth is a local resident who uses the pet clinic.

Graduate School

Robert Kruh, dean, Graduate School

There is more than one way to bake a cake, as Teofilo Dulay, graduate in food science, shows.

Ada Milenkovic, graduate in biology, does research for her thesis.

While other colleges at K-State suffer from declining enrollment, the Graduate School enrollment is steadily going up.

In 1978, 800 master's degrees and 150 doctoral degrees were awarded. This year 3,800 students were enrolled in one of the 65 master's or 32 doctoral programs available.

Robert Kruh, dean of the Graduate School, attributes part of this gain to the increasing number of on-the-job people who are getting back into school.

More and more students are attracted to graduate study because they have interests in advanced scholarly work and because career opportunities are improved as a result of advanced training.

Today's bachelor's degree occupies the position the high school diploma had 50 years ago, Kruh said.

"This reflects a need for a higher level of training to deal with the tasks of today's world," he said. "We know more now

and it takes more knowledge to get the job done."

The Graduate School, located in Fairchild Hall, has been in existence since 1931, although the first graduate student enrolled in 1868. More graduate-level degrees, however, have been awarded in the last 10 years than in all of K-State's history.

To apply to the Graduate School, a student must have a bachelor's degree from an accredited institution, a 3.0 grade point average and sufficient undergraduate preparation in the intended field of study.

Graduate students work individually or in small groups with a major professor. Most graduate courses are taught in the form of seminars, providing for exchange of ideas among the students and an instructor.

The ultimate objective of the college is to create the desire and capacity for independent study and research, Kruh said.

Teachers of the year...

Awards of recognition take many forms and are shown in a variety of ways. Some recipients are honored with a pat on the back or a firm handshake; others are bestowed with generous gifts.

Each year K-State recognizes selected professors and undergraduate instructors with outstanding teacher awards.

The 1978 teaching excellence awards went to Fred O. Bradley, associate professor of administration and foundations; Roshantha A. Chandraratna, graduate teaching assistant in chemistry; Albert N. Hamscher III, associate professor of history and Miles R. McKee, professor of animal science and industry.

For encouragement and recognition of teaching, Amoco provides grants of \$1,000 for associate and full professor winners, and \$500 to instructors and assistant professor recipients.

An additional tribute includes the inscription of the winners' names on a plaque displayed in the lobby of Farrell Library.

This annual process is based largely on student evaluations. Twenty semi-finalists are chosen from students in the various colleges. They are then evaluated by a selection committee, which includes a representative from each college plus one student-at-large.

"Since the program began in 1968, a great diversity and variety of teachers have been selected for this (award)," Richard Owens, director of educational improvement and innovation, said.

"Though this program is not common knowledge, it is a good process and is something that both the students and faculty should be interested in."

Fred Bradley taught one class, Guidance of the Exceptional Child, and for his effort he received the teacher of the year award from his students.

The course relates to all areas of child development.

"It's a good course, it has a lot of natural appeal," Bradley said. "It is popular because it is applied and it is common sense."

The majority of his students are women, though some men are included in the 30-50 student classroom.

Bradley said his classes aren't extremely flexible.

"I'm predominantly a lecturer — there is some discussion, though," he said.

Bradley said he tries to bridge the gap between the "real world" and the classroom — trying to rid the "ivory tower" image. He said he tries to create actual life situations into his class.

"I think that's really all education is about — teaching people about life."

Bradley said he has two goals when he begins teaching a class: One is to teach the students the subject matter; the other is to teach them how to apply the matter.

"I think students need to gain a base knowledge; beyond that, I think students need to learn to take material and apply it to their own life," Bradley said.

Bradley is known as a man who never stops. He loves to generate enthusiasm.

"I'm a ranter and a raver. I try to involve myself and be enthusiastic."

There are three things involved in being a good teacher, Bradley said.

"The first is knowing the subject matter. The second is being able to communicate it and lastly, caring that the students learn it. I obviously believe you need all three."

Besides teaching, Bradley said he enjoys research, including such things as counseling and testing. He also does a modest amount of writing and speaking in child discipline and parenting.

"I like working with the public — both parents and teachers — in helping them better understand their own children," he said.

Fred Bradley, associate professor of administration and foundations

Roshantha Chandraratna, right, graduate teaching assistant in chemistry

Roshantha Chandraratna has lived in the United States three years. Though his native tongue is not English, he apparently has no trouble communicating with students, because he received the 1978 graduate teaching assistant of the year award.

He teaches an elementary organic chemistry lab of 20-25 students and a help session in chemistry.

Chandraratna came to K-State after completing four and one-half years of undergraduate work at the University of Sri Lanka in the country of Sri Lanka (formerly known as Ceylon), off the tip of India.

Why did he choose K-State?

"I wanted to study in a smaller university and live in a smaller town," he said.

"In my first semester here I taught Chem. I; most of the students were freshmen who had probably never heard a foreigner speak, and I'd never heard a Kansan.

"I try to tell them a few of the major points in accent and I always take the trouble to slow down," he said. "If both the students and the teaching assistant try, the language barrier can be fairly easily overcome."

Chandraratna puts much emphasis on "trying hard."

"If you try, you can convey to the students you are interest-

ed in them, and they respond by working harder.

"I don't really consider myself an outstanding teacher, except that I try hard," he said.

His classes aren't filled with students greatly interested in chemistry, but those who just need to fulfill a requirement. Therefore, Chandraratna must find ways to motivate students.

"Because the students are non-science majors, I try to take ideas and experimental techniques and relate them to everyday life," he said.

"It's easy to teach a good student. If I can take a 'C' student and get him to have 'A' knowledge, then I've succeeded."

Chandraratna said students are on the defensive when they come into class.

"I don't con them into thinking it will be easy. But I tell them that if they try it won't be as hard. They begin believing it and respond."

He said he believes the best way to teach is to make it as simple as possible.

"I think that is the mark of a good teacher — if a teacher understands a subject in a deep sense, he should be able to express it simply," he said.

Albert Hamscher, associate professor of history

...teachers of the year

Albert N. Hamscher III, associate professor of history, thinks maintaining high standards is essential.

"I like to teach — it's important," he said. "I also like to work with students, molding and instilling values and discipline in them."

Hamscher teaches classes in early and modern European history, with a special emphasis in French history. The size of his classes range from small recitation classes to lecture classes with about 80 students.

"I teach general survey-type courses in addition to upper-level courses in those areas," he said. "I try to show how interesting and significant history can be."

Teaching students skills to be used outside the classroom is one of Hamscher's goals.

"I not only try to teach students the significance of the past, but try to encourage them to think in a disciplinary way," he said.

"I also try to encourage the students to write and think clearly."

Involved in research, Hamscher travels regularly to France to collect materials for his writings.

"I think the two (research and teaching) can be combined effectively," Hamscher said. "If someone is an active researcher and scholar, it not only keeps his mind working, but also keeps him current in the field."

Miles McKee, professor of animal science and industry
Frederick Oehme, professor of veterinary medicine

Miles R. McKee believes anything worthy of doing is worth doing well.

"As a teacher it's my responsibility to make it easy to understand the material so they (the students) can learn," he said. "I feel that this student learning process is very important."

McKee is a professor of animal science and industry in the College of Agriculture. He teaches Livestock Production Management, Gestation of Farm Animals, Principles of Animal Science, Livestock Sales Management and Beef Cowherd Unit Operations.

"I try to encourage and stimulate the students," he said. "What I do to encourage one student might turn another off, but I am always happy to reach some of them."

Aside from his teaching responsibilities, McKee has also served as an adviser for organizations and honoraries. In his faculty adviser capacity, he counsels about 70 students.

"It gives me great satisfaction to see those who I have worked with become successful," he said.

"I feel that I am very fortunate to have had so many rewarding experiences and opportunities," McKee said. "I have received many honors — and they're rewarding, too — but the most rewarding experience is encouraging students."

Frederick Oehme claims his teaching philosophies are no different from other professors'. However, they were of enough significance to earn him the 1978 distinguished graduate faculty award.

Oehme, professor of surgery and medicine in the College of Veterinary Medicine, received the honor at the 1978 spring commencement exercises. After being nominated for the award by graduate students, Oehme and the other candidates were evaluated by a committee selected by Robert Kruh, dean of the Graduate School. Qualifications and achievements of the nominees were compared, and the winner was announced last spring.

Oehme believes an instructor should give students the most accurate and recent information available on the subject being studied. Since Oehme teaches mostly on the graduate level, he allows his students freedom to work on their own. Once a student has reached graduate level, "spoon-feeding" shouldn't be necessary, he said.

Every learning opportunity should be offered to a student, Oehme said, and it is the professor's responsibility to provide most of this information.

Oehme teaches an undergraduate course in veterinary medicine. His remaining four or five courses are taught through the Graduate School. The graduate classes are rotated among the fall, spring and summer semesters.

by Cecilia Kasl

Looking back over the years, as seniors often do, it seems like just yesterday that I first became acquainted with a basic facet of college life.

Yes, the first day I came to Manhattan as an eager freshman ready to undertake the challenges of college, I became exposed to the one thing that would never change or improve during my four years here — the hassle of waiting in line.

I remember how I parked my blue Chevy near the door of my house that first day and excitedly took the front steps two by two, only to discover I had to wait in line to get my room number. By the time I got everything unpacked, including my stuffed dog, Abbott, I was so hungry I could eat a . . . well, not quite that hungry. But by the time I waited through the lunch line, I considered it.

That was just the beginning of a horrible day of waiting in line. I recall walking to Ahearn for registration and getting into my first line (marked “josm-katz”), which was backed up to Seaton. Once my identification was checked, I patiently waited to get my registration form. If I remember correctly, seven more lines followed — one for car registration, Royal Purple, financial assistance, student ID, football tickets, student health insurance and the “biggy” — tuition payment.

One thing I learned over the years was that as much as I hate to get up early (ask my roomies), it was well worth it to get to the bookstore before the checkout lines reached to the back wall. Ten 600-page books can get mighty heavy!

Waiting in line was as much a part of college life as Union lab, late-night studying and basketball games. Everywhere on the K-State campus I stood in line.

Take good old Farrell Library, for example. Over the past semesters I waited in line to go through drop-add, get a new ID, check out books, straighten out the fine they assessed me

(which I didn’t have), get articles on reserve, buy a package of potato chips and get on the elevator.

At the Union I waited in line to cash a check, to buy bare essentials, to see movies, to buy concert tickets and to buy a Mr. Pibb. By the way, instead of juggling my books, my purse and an overflowing glass of Mr. Pibb, I learned to leave my junk at a table and then proceed to get in line for my refreshment. It beats buying Spray-n-Wash to get the Pibb stains out of my white blouse.

The one place I recall where waiting in line irritated me most was Lafene Student Health. It could be because I sometimes felt just a bit under the weather when I went there, but gee, usually I felt like I was dying, and I didn’t appreciate waiting to show the all-important fee card, waiting to talk to the nurses, waiting to see the doctor, waiting to get my prescription filled and waiting to pay the cashier. Even when I was healthy, I waited before I could visit a sick friend in the hospital.

Over the years, new lines developed to challenge my tired feet and bored mind. I waited to find out which seat I had in Theatre Appreciation, to buy basketball tickets, to go to the bathroom, to see my adviser and to sign up for job interviews in Anderson Hall.

Another thing I’ve discovered at college is that waiting in line is not confined to the K-State campus. I have stood in lines at Wal-Mart, Dillon’s, Mother’s Worry, Aggie Station, Swansons, Vern’s and Sambo’s.

Discouragingly, with the knowledge I’ve gained over the last four years, what I’ve learned most is that waiting in line is a time-consuming part of life itself. So, college has at least prepared me to have the patience to wait, and wait, and wait, and wait, and wait . . .

FALL
FESTIVAL

Summer days, driftin' away ...

Summer. The word is almost synonymous with vacation, swimming, sleeping late and goofing off. But for some it also means school.

The atmosphere at K-State is more relaxed and casual than in fall or spring, but it's still school. Classes meet everyday, the work load is more concentrated and the assignments never seem to let up.

The weather is steamy and hot. When the temperature begins to creep up to the 100-degree mark, the size of classes diminishes. The attendance at Tuttle Creek booms, where the assignment is simple: get a tan.

Shorts and bare feet are commonly seen among the students on campus. Ice cream cones and icy-cold soft drinks are just as important in class as pencil and paper.

Summer school has some advantages that the regular semester lacks. Almost everyone can find a parking space close to their classes. The Union hours are shorter and the StatEROOM at times is almost empty. The local bars and taverns have reduced rates; and you can finally find a place to sit in Kite's or a space to dance at Mr. K's.

But stuffing a whole semester's work into a few short weeks can make for some tense moments. Projects that would normally take a month or more to complete are due in only one week.

Summer school students face additional problems, such as unairconditioned classrooms, permanent sweat and little or no campus activities.

Nevertheless, students find that summer school is a way to lessen the load of a regular semester.

David Laurie shoots baskets at the natatorium.

Susan Hickman and Michelle Bernard enjoy the sun while playing backgammon by Tuttle Cove. Sherry Sinclair, senior in business, took advantage of a beautiful day to practice her guitar.

Ron West, Missouri's lead singer wrote the majority of the group's songs. Missouri performed to an audience of about 1,000 last summer.

Missouri in Kansas

The first summer concert ever held at K-State on June 10, 1978, drew a crowd of about 1,000 in McCain Auditorium.

Missouri, a Kansas City-based band, almost resembled Bob Seger or the Doobie Brothers. Their music hit hard, but that's where the comparison stopped.

Missouri's lead singer-guitarist-songwriter Ron West showed that he doesn't have quite the ability or composing talents of Seger. He does have a rough voice like Seger's — perhaps too rough.

West's band (keyboards, bass, lead guitar and drums) showed it could pound out rock and roll like the Doobie Brothers, but it didn't have the high energy and style of that band.

Missouri pounded out the kind of sledgehammer rock that characterized the decline of Bachman-Turner-Overdrive.

They played nine of the ten songs on their album, hitting with crowd pleasers three-fourths of the way into the show. A dry ice fog set the mood for "Mystic Lady" and a spinning crystal ball above

the stage led into "Movin' On."

The audience called the band back for an encore which included a Chuck Berry number and "Got That Fever."

Bassist Alan Cohen closed out the night by telling the crowd, "So this is it for awhile. We've enjoyed your company. Let's part like friends."

The three-band concert was opened with a half-hour of hard rock from Alexis, followed by the synthesized rock of Oz.

Traditions reflect Homecoming

by Tony Seals

TOP: President Duane Acker receives a kiss from a clown during Homecoming activities. BOTTOM: Delta Delta Delta-Kappa Sigma won the best over-all design for their float and were the winners of the all-university trophy.

Sentimental was the mood, "Reflections" was the theme when K-State alumni returned to their alma mater for Homecoming '78.

For some it was a time of reminiscing and remembering — remembering when West Stadium shuddered at Saturday afternoon football games and when white bobby socks and patent leather shoes were "in." And afterwards, the dance hall would shake while the frug and jitterbug were danced effortlessly.

Those times and trends have long since passed, but their spirit lingers on. In 1915 head football coach "Jawn" Bender proposed a special day for alumni aimed at generating spirit for alumni and students.

For two decades the popularity of Homecoming activities attracted large audiences. The parade at times drew 20,000 spectators. Participation ranged from high school bands and drill teams to Manhattan civic organizations and the University of Kansas band. There were activities such as the annual Homecoming Ball, pep rallies, fireworks, pajama parades, Homecoming queens and bonfires.

The spirit of purple and white was

alive.

In recent years this spirit has suffered. Participation and interest dropped due to changing values and a losing tradition. The spirit laid dormant.

But old traditions were revived once again through the efforts of Blue Key and the 1978 University Homecoming Committee.

This year's Homecoming week activities included a "Stuff the Union Day," in which students were encouraged to set a record number of people in the Union. Almost 15,000 fortune cookies were given away at the doors with chances for free prizes and special Union discounts.

Other contests and events held throughout the week included a stadium dance with a performance by "Black Frost"; a bonfire and "Yell Like Hell" contest; a Volkswagen-stuffing contest, where students wiggled and squirmed their way into the compactest of compacts; a bed-making contest and a pie-eating contest.

A Board of Regents putting contest pitted dignitaries President Duane Acker; K-State's own Regent Bernard Franklin; KU Chancellor Archie

revival

Dykes; K-State marching band director Phil Hewett; athletic director DeLoss Dodds; head football coach Jim Dickey and quarterback Dan Manucci.

The Homecoming Parade was revived, with floats cruising Manhattan Avenue. Awards were given for the best floats.

The team accumulating the most points in all competitive events of Homecoming week was Kappa Sigma and Delta Delta Delta.

The pre-game ceremonies on Saturday included the crowning of K-State Ambassadors. Sue Livingston, senior in modern languages, and Mitch Holthus, senior in journalism, were chosen to represent K-State's student body at special University functions, such as alumni gatherings.

The spirit of purple and white which glowed throughout the week was temporarily dulled by Saturday's football game. Missouri whipped the 'Cats 56-14.

Nevertheless, Homecoming '78 sparked the return of tradition to K-State Homecoming festivities. "Reflections" proved to be a more than appropriate theme for this revival.

Shelli Darrow listens for the judge to begin the pie-eating contest.

LEFT: The "Yell like Hell" final competition was judged at the bonfire Friday night. ABOVE: Sigma Alpha Epsilon and Gamma Phi Beta put the finishing touches on their float.

UPC offers diversity

The Union Programming Council is a learning laboratory. It consists of volunteers who work together on the nine committees within UPC. Working with students, university officials, community figures and entertainment agencies, students are able to share knowledge and leadership, as well as enrich their academic careers.

Each of the nine committees is headed by a committee coordinator who in turn is headed by the executive coordinator, Larry Najuch.

The executive coordinator is the official representative of UPC. He is in charge of planning the selecting of UPC members, UPC training workshops and the Activities Carnival.

UPC committees include the Travel, Promotions, Outdoor Recreation, Feature Films, Issues and Ideas, Kaleidoscope, Concerts, Coffeehouse and Arts committees.

The Travel Committee members plan and coordinate trips offered to students at reduced rates. This year the committee offered trips ranging from snow skiing at Steamboat Springs, Vail, Winter Park and Ski the Summit, to sunny excursions in Jamaica and Padre Island.

The Promotions Committee promotes all UPC committees. Although Promotions has its own committee members, committees concerning ad-

vertising techniques and promotional campaigns are also involved.

The main duties of Promotions include publishing the Programmer — a K-State activities and information datebook, promoting the annual Activities Carnival and recruitment and selection of UPC members.

Promoting knowledge of the natural environment through trips, speakers, films and demonstrations is the main task of the Outdoor Recreation Committee. In the past year, this committee offered Outdoor Awareness Day, and Ozark Canoeing trip and a Back-packing the Big Piney trip.

"Pink Flamingos," "The Rocky Horror Picture Show," "The Paper Chase," "Tommy" and "The Last Tycoon" were among the Kaleidoscope films featured this year. This committee provides a diversified film series of innovative, classic, creative, documentary and international films.

The Issues and Ideas Committee presents films concerning current events at the local, state and national level. Highlights of the past year included "Duck's Breath Mystery Theater" and "Let's Talk About It," a bi-weekly open discussion held in the Catskeller at the Union.

Presenting the latest in popular films every weekend for only \$1.25 in Forum

Hall is the duty of the Feature Films Committee. Films offered during the year included "The Goodbye Girl," "Julia," "Smokey and the Bandit," "Oh God," "Saturday Night Fever" and "Gone with the Wind."

In past years, the UPC Concerts Committee has featured many popular performers. Chicago and Jerry Lewis were the attractions this year; The Chicago concert was the largest rock show at K-State since 1970.

"Students Entertaining Students" is the theme of the Coffeehouse Committee. The highlight of the UPC entertainment programs is the "Nooner," a live performance presented every Tuesday by K-State students desiring to share their talents with fellow students.

Coordinating and publicizing the phases of the KSU Union Art Gallery exhibitions, design, installation and selection is the primary concern of the Arts Committee. The Arts Committee also schedules art displays in the Union showcase on the second floor and annually sponsors an Arts and Crafts sale.

UPC has three paid full-time staff members who advise and work with the UPC committee members. Program Director Margaret Smith and advisers Rob Cieslicki and Bill Muret aid UPC student volunteers in carrying out the duties of their committees.

Students have the opportunity to show talent through "Nooners."

The Activities Carnival allows students to learn about campus organizations.

Mark Hodges examines skis at the Outdoor Awareness Day.
Denise Long and Bret Taylor perform during the first "Nooner" of the year on the lawn of the Union.

Spirit of Halloween lives

“There’s a little bit of kid in all of us,” the saying goes, and Halloween proved to be the perfect opportunity for K-Staters to break away from the humdrum of studying for mid-terms and celebrate a holiday designed especially for children.

Everyday tensions and frustrations found release through screams, as students experienced spook houses set up around campus. Many attended a special Halloween movie in the Union entitled “Rocky Horror Picture Show” (where the audience at times proved to be freakier than the film).

Ghosts and goblins, as well as all sorts of other imaginative creatures, roamed the streets of Aggieville, lured by special prizes for best costumes and just the fun of being obscure.

The toga, which reached popularity through the movie “Animal House,” was one of the most widely used costumes, but the traditional and the imaginative could be seen on almost every corner. Even the observer who chose not to dress up was captured by the Halloween spirit.

Members of Moore Hall carry a coffin through the Derby food center on Halloween.

Residents of Edwards Hall visited children at St. Mary's Hospital.

Mary Dinkel, Jennifer Clendenon and Sharon Hederstedt played the part of gangsters on Halloween night.

Julie Doll and Mickie Brantingham were two of the many clowns in Aggieville on Halloween.

And the winner is...

Gov. Robert Bennett loses his bid for re-election.

Election season bumper stickers, yard signs and posters, reminding us of the democratic process, now deteriorate under the Kansas sun, wind and rain. The elements care not who won or lost.

But the results of the 1978 Kansas election for U.S. Senate, Congress and state offices won't fade so easily from memory.

With the victory of Republican Nancy Landon Kassebaum, Kansas gained the honor of having the first woman elected to the Senate who was not preceded by her husband. Kassebaum defeated Democrat Dr. Bill Roy by 14 percent of the vote.

With passage of the liquor by the drink bill, K-Staters and other Riley County restaurant patrons may remember 1978 as the year they almost gained the right to be served a drink without possessing a club membership. But before taste buds could be wetted, the Kansas Supreme Court ruled the mea-

sure unconstitutional.

The major candidates and family members appeared at K-State throughout the campaign, claiming the college vote was vital to the success of their campaigns. Although many said they believed students would turn out at the polls mainly because of the liquor issue, candidates urged students to be aware of all the issues.

While most of the campaigns were without major issues, 1978 will undoubtedly be remembered as the year of the "unpredicted upset." Three incumbents painfully learned this year's key to victory lay not in their abundance of political experience, but instead in the lack of it.

Perhaps the most startling of all election results was the upset of Republican Gov. Robert Bennett by Speaker of the House, John Carlin. In a primarily Republican state, Carlin, a K-State alumnus, accomplished what many said

Bill Roy concedes his loss to Kassebaum.

couldn't be done — defeating Bennett.

From the 2nd Congressional district race emerged the most talked about campaign song of the season — Jim Jeffries' "Martha Doesn't Shop Here Anymore." Jeffries, who defeated Congresswoman Martha Keys (D-Manhattan) in her try for a third term in Washington, was referring to Key's former campaign slogan, "I shop where you shop."

The outcome of the Keys-Jeffries race was questionable to the very end, although his advertisements and some of his activities leading up to election night kept voters wondering just who their new congressman would be.

The incumbent Democratic Attorney General, Curt Schneider, was also defeated by a Republican newcomer to the political arena, Judge Robert Stephan.

Nancy Landon Kassebaum greets well-wishers after her Senate victory.
Governor-elect John Carlin makes his victory speech.

Reporters surround Jim Jeffries.

Chicago

Guitarist Peter Cetera

by Scott Farina

For a long time it looked like there would be no major concert on campus during the fall semester. Manhattan's off-the-beaten-track location and the lack of facilities for a large concert, students grumbled, were reasons K-State had trouble getting the big names.

Then, in late October, the word was out: the Little Apple would play host to super group — a group with an eight-year history of million-selling singles and albums; a group that, surprisingly, was trying to make a comeback after personal setbacks and critical yawns.

CHICAGO.

Hot on the heels of a new album, a new guitarist and a harder, more rocking sound than before, Chicago played to a near-capacity crowd in Ahearn Field House just before Thanksgiving. What a feast.

With no warm-up band to prep the audience, Chicago hit the stage at 8:15 and delivered nearly two hours of music for both new and old fans.

You would expect a band with a new album to promote it heavily in concert, yet Chicago played only four songs from "Hot Streets": the title tune, "Alive Again," "Ain't it Time" and "Little Miss Lovin'." The rest of the evening consisted of songs — not necessarily hits — from Chicago's, and our, past.

"Feelin' Stronger Every Day" was the show opener, a rocker with Peter Cetera's strong vocals and good horn work. "Dialog" followed, harkening back to the days when Chicago made political statements through their music.

Younger fans cheered to the sound of "If You Leave Me Now," a mushy love song that received the biggest applause of the night, and "Just You 'n' Me."

Older Chicago fans were happy to hear songs such as "Beginnings," "25 or 6 to 4" and "Happy Man."

Those who followed Chicago not just through the singles but on albums were treated to "A Little More Free," from Chicago III, and "Mongonucleosis," a Latin-rhythm instrumental from "Chicago VII" that allowed drummer Danny Seraphine and percussionist Laudir di Oliveira to show off.

The crowd was on its feet often, clapping hands, cheering, dancing in front of chairs. And the boys in the band looked as if they were having as much fun as the audience.

Guitarist Donnie Dacus was the center of attention most of the time. He's been called the first sex symbol in the band. More important is his guitar playing — tough, gritty and high-charged, adding a touch of Texas rock to a band that could formerly have been described as subdued.

Dacus doesn't let his guitar do it all, though. He was animated on stage, leaping in the air, dropping to his knees, bending over his instrument as if he would bite the strings, then leaning far back as if in a trance.

What made the concert click was that Chicago didn't just repeat the arrangements of the recorded songs. They changed things around, leaving room for everyone to get at least one improvised solo. And no matter what one may think of Chicago, they are all talented musicians.

Ahearn may not be the ideal concert setting, and Manhattan may not be the most accessible town in America; but the crowd reaction that Friday night should prove that K-Staters were more than willing to support quality music performances.

K-State outpaddles KU

The Goodnow Four team splashes it up in-between crew changes during the first day on the river.

K-State canoers took first, second and third places in the annual Kaw River, Manhattan-to-Lawrence canoe race Sept. 10.

Haymaker Three took first place with a time of 19 hours, 15 minutes; second place went to Van Zile with 19 hours, 58 minutes and third place went to Haymaker Four with 20 hours, 15 minutes.

Twenty-nine canoes started the race, with 13 from K-State.

The river was shallow because of infrequent rains and many canoers had to carry their crafts across unnavigable spots.

The two-day event was staggered with an overnight stopover in St. Marys. Many spent the night camping on the sandbars and along the shore of the river. At 7 a.m. they clambered back into their canoes for the dash to Lawrence.

Lynn Hoppe yells encouragement to racers.

Members of the Kaw-Dads canoe team paddle under the Perry-Lecompton bridge on the second day.

Ford, West, Moore and Haymaker Halls perform in the competition.

Singers net money for Sunset Zoo

Pat Culley, directs the Kappa Kappa Gamma, Sigma Nu and Acacia singing group in U-Sing finals.

After months of practice, eight teams of campus living groups performed in University Sing, Oct. 29

The contest is an annual event sponsored by Sigma Chi fraternity to raise money for Manhattan's Sunset Zoo. This year University Sing netted \$3,400 for the children's portion of the zoo.

The singing team of Delta Delta Delta and Farmhouse won first place in the two and one-half hour competition with their rendition of "Holy Radiant Light" and "Broadway Spectacular," a medley of famous Broadway songs.

Chi Omega and Delta Upsilon earned second-place honors with their interpretation of "Give Me Jesus" and "No One's Perfect." Third place in the competition went to Alpha Delta Pi and Sigma Alpha Epsilon, who also took the first-place trophy for ticket sales.

The performance capped more than two months of rehearsals and tryouts for the groups entered in the competition. The field was narrowed from 13 groups in semi-final eliminations to the eight groups which sang before a crowd of about 1,000 in McCain Auditorium.

Bump, bump, bump

"Checks, cash and loose change flowed from teary-eyed spectators."

Dancers rest on the floor during an early morning break.

Sixty-four hours of pain and joy and dancing ... for Jerry's kids. Sixty-four hours of love and togetherness and sore feet ... for Muscular Dystrophy.

January 23-26 meant two and one-half days of near-continuous dancing, with only 10-minute breaks every hour for more than 40 K-State students in the fifth annual Bump-A-Thon for MD at Mother's Worry, an Aggieville disco.

While each started dancing for individual reasons, by the end of 64 hours the students had become a close-knit group with one goal: raising \$20,000 for MD.

The disc jockeys told jokes to keep the dancers going, and throughout the two nights, friends would stop by to cheer them on and keep them awake.

As they danced, the donations came in. But by early in the last evening, the goal appeared unreachable. Then the owner of the disco, Fred Lechner, sat on the stage with a local girl afflicted with MD and appealed for donations. Checks, cash and loose change flowed from teary-eyed spectators.

As tears of joy and relief filled their eyes, 41 students finished the marathon in a circle, arms interlocked, singing the spiritual song they had chosen as their theme, "He Who Overcomes."

As a result of their efforts, the Bump-A-Thon netted more than \$17,000. Mark Dayvault and Patti Cook raised \$1,154.15 to take honors for raising the most money.

Scott Berning, a victim of MD, appeared at the bump-a-thon.

Brian Hueben dresses up for the Italian dinner.

Greek Week, Jan. 28-Feb. 3, gave fraternities and sororities time to become better acquainted, have fun and raise money.

The week began on Sunday with a "Mini-Olympics." Relay teams competed in Weber arena for the event, which raised money for the Manhattan Red Cross.

An exchange dinner was held on Monday to better acquaint Greeks with each other. Representatives from each house visited other houses for dinner. The theme was "Lifestyles," with different foods, such as Italian and Chinese, being served at each house. Programs and ethnic costumes added to the fun.

Chapter presidents participated in a leadership banquet on Tuesday. President Acker spoke to the group at the Flint Hills room at the Union.

On Wednesday, an all-Greek party was held at Houston Street. A "dating

game" ended the evening with four couples winning a free dinner date.

Friday brought the winners of the Greek Week Queen and King contest. This was intended to be a satire on beauty contests, and Shawn Swaim, co-chairman of Greek Week. Two winners were announced after a short interview and a talent show (a take-off of the "Gong Show"). Karen Hummer, Chi Omega freshman, won Greek Queen for her cheer on roller skates, and Steve Loos, Beta Sigma Psi freshman, won Greek King with his routine of "Grease Lightening."

The highlight of the week was Greek Follies at McCain Auditorium Saturday night.

The winners of the skit contest presented a song and dance act entitled "Greek is the Word — But What is the Theme?"

The winners were members of Alpha Delta Pi and Kappa Kappa Gamma so-

rorities and Acacia, Alpha Kappa Lambda, Beta Sigma Psi, Phi Kappa Theta, Tau Kappa Epsilon and Theta Xi fraternities.

A highlight of their skit was a Steve Martin imitation done by Ross Voorhees, Theta Xi freshman in fine arts. Voorhees, complete with white suit and silver hair, sang "King Tut" as well as selections of Martin's album, "A Wild and Crazy Guy."

Other groups also showed ingenuity in adapting familiar names and tunes to fit the themes of their skits. In the last of the four performances, "The Way We Were — or Take My Fee Card . . . Please," the group sang their goodbyes with "Give My Regards to Old K-State." "Thank God for Terry Ray," sung to the tune of "Cabaret," had the audience cheering.

For all involved, Greek Week seemed to be a success.

Kevin Petrehn is Charlie Brown in Greek Follies.

The steering committee planned the Greek Week activities.

'Greek is the word'

Brewer, Shipley: the past revisited

Brewer and Shipley performed in the Catskeller on Jan. 26 and 27.

by Scott Farina

It was like a pocket of time from the past emptied onto the Catskeller stage.

There were two guys with long hair, blue jeans and open-necked shirts, each singing songs about dope, ecology and politics. There was even a reference to Richard Nixon.

Old folkies never die, they just play the college circuit. Lucky for us.

Brewer and Shipley is a folk duo that has made many records in the past 10 years. Some, like "One Toke Over the Line," have been big sellers, but in the disco-fied late '70s they have not had any hits. Those who like their music were able to hear this duo Jan. 26 and 27.

The two had an almost instant rapport with the audience, kidding about the town they were playing in, noting "You have one of the most boring Ramada Inns in the country," and sarcastically calling Manhattan "a veritable psychedelic wonderland."

Most of the banter between songs was similar to that — some drug jokes, some political remarks, some personal-life observations.

Considering Brewer and Shipley used only two guitars and their two voices on stage, they produced a full, rich sound that enveloped the audience.

"One Kind Favor" opened the set, a modified blues that built up with a long introduction and then treated the audience to the harmonized singing that has always been a Brewer and Shipley trademark.

For the dopers, they did "One Toke Over the Line" (sung "One toot over the line" the first time through), "Brain Damage," and "Wichi-Tai-To," which is "a peyote chant."

For political activists, there was "Tarkio Road," "50 States of Freedom," and Bob Dylan's "All Along the Watchtower."

There were other themes to the music. "Indian Summer" was a quiet, reflective piece that led into the Bee Gee's

"To Love Somebody." "What Cha Doin' Tonight" was an easy-going song about a pick-up (no, not a truck). And there was a simple love song with "Crested Butte."

This was not a "show" in the theatrical sense of the word. Brewer and Shipley are not animated; they stood their ground with guitars strapped to their shoulders, playing and singing.

Their voices and instruments blended well, and the two traded off singing and playing lead.

Brewer and Shipley performed smoothly and without the slickness of musicians who have been on the road so long that they do their show by rote. The two behaved as if what they were doing was still fresh and exciting, and that feeling communicated well to the crowd.

The music was pleasant, the audience good-natured and the setting comfortable. It's nice to leave a performance without having the ears ring for hours afterward.

ABOVE: Brewer sings "One Toke Over the Line." LEFT: The duo used only their guitars and voices on stage.

Tucker's flair captures crowd

by Scott Farina

Six-thousand people in Ahearn Field House isn't much of a crowd. But when those people feel like partying, they can sure sound like a full house. That's how it was when the Marshall Tucker Band and Firefall played the K-State campus in February.

Firefall opened the show, sounding not at all like their records. Their recorded style is in the California, laid-back tradition, but in concert they came across as a hard-driving rock band.

All the Firefall hits were performed: "Cinderella," "You are the Woman," "Goodbye I Love You," "Strange Way" and more. All of the songs in the Firefall set were done with a heavy beat and at quick tempos.

The band displayed a lot of energy, working the crowd into a controlled frenzy. The band members played directly to the audience, especially the bass player, who appeared to be orbiting another planet.

The sound was loud, and occasionally the saxophone player was drowned out, as in "Goodbye I Love You." The flute work on "You are The Woman" and "Just Remember I Love You" carried through well, though.

Along with the old favorites, Firefall played a new song called "Lips," a high-charged rocker with a strong bass hook.

The Firefall set was short but lively, ending with a long jam session on the

encore tune "Winds of Change."

While the stage crew prepared for the next band, frisbees floated through the fieldhouse, the scent of marijuana was strong and alcohol was consumed. Fortunately the crowd, for the most part, behaved itself.

When the Marshall Tucker Band took the stage, the crowd cheered wildly. This was the group, after all, that they had come to see and hear. For nearly two hours the Tucker boys kept the audience thirsting for more.

As Firefall had done, Tucker played many songs at a faster pace than the recorded versions. Most obvious was the big hit, "Heard it in a Love Song," which was played in concert at a gallop. Somehow it worked, and there was some fine solo instrumental work by flutist Jerry Eubanks and lead guitarist-songwriter-vocalist Toy Caldwell.

The Tucker band has its roots in country, jazz and rock music, and all those elements were heard during the show. "Searching for a Rainbow" was in the country mold and "I'm Easy, I'm Happy, and I'm Free" had a nice shuffle beat.

"Fire on the Mountain" was the most country-sounding piece, as Caldwell switched to steel guitar for this one. "Blue Ridge Mountain Skies" and "Ramblin'" had a Western swing feel that came through even with the faster tempos.

Of course, the band did "Can't You See," a song that was never a hit (although it was a single release in 1973) but is always called for.

What makes the Marshall Tucker Band so good is the fine tunes by Caldwell and the high level of musicianship of all the performers. Eubanks in particular is a strong improviser, with a good sense of what fits in a song.

All the performers took at least one solo outing, except for drummer Paul Riddle. Too bad. Riddle is a powerful drummer who backs the band well, driving the band on, and he does it with real style.

There were some technical difficulties; many of the vocals were drowned out by the overpowering work, and there were some instances of feedback. But the lighting was good and you could see if you stood up. (By the time Tucker came on stage, nearly everybody on the floor level was on their feet instead of in their chairs.)

The band was called back for three encores. The second time out lead vocalist Doug Gray said, "What the hell, we've got nothing else to do tonight." "Searchin' for a Rainbow" finally ended the show.

The Marshall Tucker Band didn't use any flashy, fancy gimmicks on stage. The musicians relied on their ability to make music to win the crowd over ... and it worked.

A member of Firefall plays the keyboards.

BELOW: The Tucker Band showed why they've remained popular for six years.

The Amazing Kreskin

Hocus, pocus, presto—Kreskin

by Debbie Neff

“**A**bracadabra,
Bibbledée-Boo.
Tiptoe from the shadows, folks —
‘Cause Kreskin’s after you.”

If this is how people felt as they filed into McCain Auditorium Sept. 22, they were in for a surprise.

The Amazing (T.A.) Kreskin, world-famous mentalist and authority on Extra Sensory Perception, is not a magician. He doesn’t even consider himself a psychic.

“I’m a sensitive,” he said.

“I do not do miracles; I don’t claim to. I don’t walk on water — though I’ve tried it . . . nearly drowned!”

Even so, Kreskin’s opening humor may have baffled some skeptics. Was he planning to use the power of suggestion, as he said he would, or did he have supernatural powers?

“Take all the pictures you want,” he said to a somewhat reluctant photographer.

“They won’t bother me . . . they just won’t come out.” He slapped his knee and chuckled, widening his Cheshire-like grin.

Not certain yet how to react, the audience alternated between fits of uncontrollable laughter and suspicious half-smiles.

For his first “trick,” he collected three rings from the audience. He looped them around a pencil, twirled it and . . . presto! Three rings — not magnetized, not switched, not even looped — but bonded together.

“I tell you one thing folks,” Kreskin giggled. “The three guys who own these are really going to get to know each other.”

But Kreskin wasn’t merciless; he did unbond and return the rings. Then he engaged in a bit of mind-reading, reciting for audience members their Social Security numbers, names of relatives and secret thoughts.

But no one was more embarrassed than Kreskin just before intermission. Kreskin’s tradition of leaving the stage while four audience members hid his \$2,500 fee check proved disastrous for

the seventh time in his career.

After four unsuccessful attempts at reading the minds of those who helped hide the check, and after coming as close as picking up the jacket in which the check was concealed, Kreskin relented:

“I think it’s my folly that has destroyed my career right this moment here on stage. I will forfeit my fee and the entire show will be for fun . . . your fun, not mine.”

Those who expected Kreskin to have trouble dragging himself back on stage for the second half of a “free” performance were in for another surprise.

“Can I please have some volunteers to fill the chairs on stage?” he asked.

No sooner had the words escaped from his mouth than 36 eager subjects were speeding down aisles and leaping over seats, clamoring for the stage and a chance to participate.

“First,” Kreskin qualified, “I do not believe there is such a thing as a hypnotic state . . . the key to what I’m about to do is the power of your own

imagination.”

“Close your eyes,” he commanded. “Now, you must hold an idea so clear in your mind that your muscles react without thinking.”

Kreskin proceeded to use this “power of suggestion” to put the arms and hands of the participants into a state of uncontrollable jittering, to make his subjects shiver in the cold and melt in the heat, to cause them to jump from their chairs whenever he clicked his fingers, and to induce them to render a version of “Happy Birthday” that was “off-key and slow as melting wax.”

“Since I’ve captured their emotion they cannot use the muscles of their bodies,” he explained.

“The power of an idea is almost awesome.”

When he had finished, and his guinea pigs were “normalized,” Kreskin left his audience with one ghostly thought.

“I’d like you to think of this as a temporary so-long,” he said.

“And be the good Lord willing . . . I’ll be back again.”

Kreskin commands volunteers to freeze their outstretched arms.

Janet Sunderland plays Nora, the protected wife of Chip Ratner.

The play is Henrik Ibsen's "A Doll's House." The helpless heroine is Nora Helmer; the villain, Nils Krogstad, a seemingly scrupulous lawyer, and the would-be hero, Nora's husband Torvald.

"A Doll's House" is no ordinary melodrama, though it appears so until the final act. Ibsen's indications throughout Acts One and Two suggest the conventional Dudley Do-Right vs. Simon Le-Gree format.

As the play begins, we find our Victorian heroine Nora playing house with her wise and wonderful husband, Torvald. She is his doll — his little "song-bird." She dresses up and performs tricks for him. He is strong and protective. She is safe and warm under his wings.

It isn't until the villainous Krogstad enters that Nora is forced to view the painful reflection of her Victorian ideals.

Krogstad, played by Jess Priscock, reminds Nora that she forged her father's name as security on a loan for a trip abroad — a trip designed to save her husband's health. Because Nora was afraid her husband would react violently to her stepping out of Victorian character and taking some initiative, she kept her transaction a secret. Now, Krogstad is threatening to expose her indiscretion. As might be expected, Nora contemplates taking her life.

ENTER: kindly old family doctor.

Amiably portrayed by Lynn Bunker, Dr. Rank elevates our heroine's self-esteem when he explains that he has always loved her. No. Suicide is out of the question; besides, it's too painful. Krogstad has already written her husband telling him of her sin.

ENTER: Nora's childhood friend, Christine Linde, played by Susan Naderhiser. Linde, who happens to be Krogstad's old lover, convinces him to start life over again with her and to forget Nora's forgery.

But Torvald has already opened Krogstad's letter. He explodes:

"Miserable creature, what have you done? Hypocrite! Liar! Criminal! ... For shame, for shame!" Nora tries to explain that what she did was for love, but Torvald begs her to give him no "silly excuses."

Just as doom seems eminent, Krogstad sends a message, telling Nora that he will not expose her and that he is returning the forged security bond.

"We are saved," Torvald exclaims. "I have forgiven you of everything, Nora. Calm yourself now, my frightened little singing bird. Be at rest. I have broad wings to shelter you under."

Happy ending? Nice and tidy?

No.

It is at this point that the real drama begins. Torvald is seen not as the hero, but rather as the villain, for he refuses to acknowledge Nora's identity, saying she acted as an unthinking child.

'A Doll's House'

Heroine

VS.

Hero

by Debbie Neff

As Torvald, Chip Ratner does an outstanding job of portraying this stereotype of the masculine protector.

Realizing that she no longer fits into the mold of feminine dependency, Nora, played by Janet Sunderland, tells her husband she must leave the doll's house where she has been his toy for eight years.

"I must go and find out who is right," she says, "the world or I. Surely there can be no law against saving your own husband's life."

In the final act of the play Sunderland wins the audience's affection. There are cheers as the doll is transformed from a carefree, unthinking little skylark into a woman who is, in the words of director Paul Roland, "strong enough to venture alone into a man's world to answer some women's questions."

It is this strength that perplexes Torvald. He too must begin asking questions about the role he is forced to play. Hence, Ibsen's drama is not strictly a feminist vehicle, but rather, a mirror, forcing men and women alike to examine their identities.

"Empty," Torvald laments. "She is gone."

The houselights come up. Will the real hero please step forward? Sunderland takes the spotlight. The audience stands. The characters leave the stage.

The doll's house is empty.

The Dallas Theater Center presented "Vanities" on Oct. 14.

'Vanities'

'Who's the fairest of them all?'

by Debbie Neff

Mirror Mirror on the wall,

Who's the fairest of them all?

Joanne, the pure and innocent self-righteous virgin? Mary, the voluptuous self-indulgent blonde? Or Kathy, the all-American beauty queen with a plan for everything — except her own life.

Jack Heifner's "Vanities," presented Oct. 14 in McCain Auditorium by the Dallas Theater Center, is the story of three women leading full yet empty lives — full of glamour and glory, but empty of reality.

The three acts carry the women from

the popularity of high school cheerleading, through college life as officers in the same sorority and finally to a reunion when they are nearing age 30, the dusk of their youth.

They find that when they meet in the final act, they no longer have anything in common.

Joanne has what she always wanted — a house in the country with a husband and children. But she is unfulfilled. She concentrated her youth on popularity, leaving her mind and her ideals undeveloped. She takes to the bottle, attempting to modify her buff-colored life.

Mary is also void of reality. She has

money, clothes, a gallery for erotic art and men. But she has no genuine relationships and no understanding of herself. Ironically, she uses Joanne's husband to plug the empty spaces in her days and nights.

Though Kathy realizes she has wasted her youth, she is left with hope. She makes no plans for her security, but spends time developing her mind and searching herself for the values she ignored as a popular and glamorous beauty.

Dressing the stage are three vanities, the perfect setting for a play reflecting the folly of taking excessive pride in one's appearance and achievements.

A different side of suicide

by Debbie Neff

"A Comatose Circus," written by Teresa Haffener Frost, graduate in speech, honored K-State's playwriting program when it opened the 1978-79 Purple Masque Theatre season Oct. 26.

Frost's play employed a mixture of dialogue and verse to tell the story of a young woman — bitter at life and all its disappointments — who decided to beat death to the finish line by swallowing a bottle of sleeping pills.

But the young woman (Susan) didn't die. Instead she was suspended in a coma. That is where the circus began.

Susan's childhood toys came to life in her coma and acted out her memories in a series of poetry and dumbshows.

Through her poetry, Frost tended to be a bit overzealous in revealing her

views on a variety of life's issues. Too many topics that stray from the issues at hand (Susan's defeat) were dealt with.

The poetry, however, was lyrical and easy to follow and the dumbshows reflected situations which are all too common in today's society.

In the final analysis, the script was enjoyable. So was Dorinda Hill, freshman in speech, who played the part of Susan. Hill's portrayal evidenced careful consideration of all emotions involved.

Butch Stucker, graduate in speech, also presented a strong characterization in his role as Clown, one of Susan's toys.

Dorinda Hill plays Susan, who tries to escape through suicide.

Raymond Johnson

Dance Company shows versatility

by Debbie Rhein and Carol Wright

Inventive choreography — somber, abstract dances to lighthearted satirical pieces — showed the versatility of the Raymond Johnson Dance Company, who performed Oct. 20 in McCain Auditorium.

The six-member company opened with the dance "Flapjack." It was a breezy dance with partially classical steps which ended in a primitive flat-foot. The combination was interesting, but didn't involve the audience deeply. It was the only dance with much action in the form of fast movements and leaps.

With a complete change of pace as well as style, the company followed "Flapjack" with "Chamber," an abstract dance emphasizing the human body as sculpture.

"Chamber" replaced two dances on the bill, "Three Faces" and "Feathers,"

because Johnson, who was scheduled to perform, injured his back during rehearsal. Johnson did perform in the last dance.

The costumes and lighting were most effective for "Chamber," with the dancers silhouetted in shadowy, loose tunics and trousers against a dark backdrop. The jerky movements of the dance in combination with the choreographed posing contributed to the sculpture-like quality.

The cool, distant tone was carried into the next dance, "Atrium." The costumes were form-fitting, rust-colored with white dots, giving the dance a wild air.

Both of the abstract pieces, "Chamber" and "Atrium," involved an interesting combination of classical steps with acrobatics and primitive steps.

The last dance was a delightfully fun-

ny soap opera satire, "As the World Turns Out," using music by Chopin. There were several short scenes, dealing with everything from man-woman relationships to jealousy between sisters.

Johnson formed the repertory dance company in 1974 and choreographed all of the dance selections performed.

"There's a possibility for unlimited expression in the dance. I've always thought that modern dance has been kind of a fun house mirror," he said.

What comes out in Johnson's work is representative to what his dances mean to him.

"I don't gear my dances toward a culture or a group of people who follow me. I expect my dances that I create can be appreciated by anyone on any level, no matter what their exposure is," he said.

Raymond Johnson choreographed the dances.

Members of the Dance Company rehearse a "Chamber" dance.

Chet Atkins (left) harmonizes with bass player Curtis Young.

With a style ranging from classical to country, performer Chet Atkins impressed a packed McCain Auditorium crowd Nov. 4 with his personality as well as his flashy guitar playing.

Atkins, nicknamed "Mr. Guitar," launched into his performance after being literally jolted off his stool by a burst of feedback from his microphone. A classical style dominated his first set of songs, although many weren't written to be played that way.

Atkins gave the audience a taste of his versatile talents in "Copper Kettle." The traditional bluegrass tune, originating in the 54-year-old's Clinch Mountain birthplace, mingled dexterous guitar licks with his classical harmonies. An inspiration to sing a few lines of the refrain broke the instrumental and revealed Atkin's Tennessee drawl. Although his voice was feeble,

his informality was warmly appreciated by the audience.

"We don't want to sit up here and bore you with a lot of talent," Atkins said after introducing a classical Mozart piece. Although his rendition of the piece may not have been in accordance with classical theory, it was critically untouchable. Innovation and improvisation are his freedom as a musical creator.

His entire performance projected this aura of innovation. A schedule of songs did not straight-jacket Atkins into a preplanned program. Instead, he allowed audience feedback and personal inspiration to guide his song selection.

The second half of the show featured Atkins' electric guitar, "which is better than the gas guitar," he said. The tempo and volume of the music increased,

Chet Atkins

An evening with 'Mr. Guitar'

by Sallie Hofmeister

for the most part, during the last half of the performance.

For his final number, Atkins performed a western jamboree, including a medley of oldies ranging from Hank Snow greats to Don Gibson legends.

Following an ovation, Atkins returned for an encore, playing "Dixie" and "Yankee Doodle" simultaneously on his guitar. Fingering "Dixie" on the high strings and "Yankee Doodle" on the low strings, Atkins' showmanship sparkled for an impressed audience.

Atkins is clearly an accomplished performer and guitar player. His versatility, dexterity and pleasant personality created an exhilarating, entertaining show. Polished and professional from years of practice, Atkins' performance was flawless.

'Carousel'

Musical depicts past era

by Debbie Rhein

The curtain silently opened on yesterday, with long, lacy dresses swirling softly as the girls sat on the swings watching the men toss horseshoes. The silence ended when the transparent curtain was lifted on "Carousel."

K-State's production of the Rodgers and Hammerstein musical was presented on Nov. 16-18 in McCain Auditorium.

The musical takes place in New England around the turn of the Century. It is centered around a carousel and its barker, Billy Bigelow, played by Alex Santoriello.

Billy is quite the ladies man, determined not to fall in love and settle down. That determination falls apart when he meets Julie Jordon, portrayed by Jan Shultz. Shortly after meeting, they are married.

Mark Pennington is Jigger.

To complicate matters, Billy is out of a job because his boss, Mrs. Mullin, fires him for paying attention to Julie. Mrs. Mullin is played by Rondalyn Bohm, senior in education.

When Julie tells Billy she is pregnant, Billy is determined to start supporting the family, no matter how desperate the means.

Billy dies in an attempt to rob a wealthy man, but has the chance to return to earth to help his child, who by then is a woman.

Aside from the plot, there were other major delights. The sets, especially the opening one, were lovely, and in tune with the time. The costumes suited the characters, from more demure gowns for Julie to flashier clothes for Billy.

The singing was both the strongest, as well as the weakest, point in the production.

Many of Shultz's songs were performed too softly to understand the words, while the group songs were excellent. The last song, "You'll Never Walk Alone," sung at graduation, proved why it remains a favorite.

Other oldies sung well were, "If I Loved You," "June is Busting Out All Over" and "What's the Use of Wonderin'."

Santoriello's voice, rich and full of vibrato, carried the songs well.

The cast was well-chosen. The 35 performers, all singing and dancing, proved that talent was not lacking on the K-State campus.

The simplicity and graciousness of the era were obvious in the play, although there were moments to remind the audience that life isn't really all that different today, that people still behave the same and face the same problems.

Carrie Pipperidge, played by Bev Hughey, sings about her wedding.

Vienna Choir Boys

Professionalism enchants audience

by Greg Leet

The Vienna Choir Boys concert in McCain Auditorium Nov. 19 surmounted cultural and language barriers to leave the audience enchanted and asking for more.

The program opened with the 23 boys divided on each side of the piano, which was centered on the stage.

The first two pieces, in Latin, featured long, flowing runs which permeated the air with light, clear vowels.

The Choir's third selection, "A Ceremony of Carols," performed in German, kept the audience intrigued with their mastery of dynamics. Each song swelled and diminished like waves on a captive beach, and like a wave, was unpredictable.

Some of the carols were highlighted by solos, with background provided by the Choir. The effect was delicate and delicious.

The boys' attention was given solely to their conductor, who was either seated at the piano or standing before them directing. The only acknowledgement of the audience came in the form of bows after each presentation.

The last of the four selections was movements from the "German Mass," by Schubert. The piece's textures ranged from snowflake delicacy to the fullness of an oak tree engaged in battle with a gale.

After an intermission, the Choir performed an operetta entitled, "Franz Schubert's Merry Pranks." The operetta depicted a prank pulled by the boys at the Imperial Boarding School in Vienna when Schubert was a member of the Choir.

The boys with leads in the operetta faced the obstacle of communicating the plot through songs written entirely in German. A short summary of the plot in the program saved the audience from confusion. On occasion the soloists' young voices didn't carry well, leaving the audience straining to hear.

The concert continued after another intermission following the operetta. The distinction between the last four songs seemed less apparent than with the earlier selections. This may have been because of the audience's lack of familiarity with the pieces and the fact none of the songs were announced.

The grand exception to this was "The Gypsy," the second half of a two-part piece by Kolady. The song permitted a quick glance into a European forest with gypsies prancing around an evening fire. The song was alive, with each voice part energetically echoing another during the piece.

The other selections exhibited the musical proficiency of the Choir. Markedly rolled "r's", staggered entrances,

deceptively simple rhythm patterns and tiptoeing runs commanded the audience's unwavering attention.

The choir presented three encores to the audience. The first, "The Blue Danube Waltz," was a surprise. Most often performed by an orchestra, it was an unexpected pleasure to hear the song performed by a group of voices.

The second treat was an American folk song, "O My Darling Clementine." To the surprise of some, the Choir sang it in English. The audience chuckled as the Choir sang with pronounced accents. The heavily rolled "r's" never disappeared.

The final encore, "Edelweiss," made famous in the musical "The Sound of Music," was the audience's favorite. Rather than singing the piece in the traditional German, the Choir sang it in English.

With the presence of the Choir in McCain, K-State was permitted to sample the grandeur, history, richness and tradition so characteristic of Europe.

The Vienna Choir Boys, at an average age of less than 13, performed at a level of professionalism and excellence of which many performing groups can only dream.

The Choir hums a song.

The Choir attentively watches its director.

'From Heaven to Hell'

Brothers suffer conflicting lifestyles

Rod Russell and Teresa Frost rehearse a scene

"From Heaven to Hell," performed in the Purple Masque Theatre on Dec. 7, is an intense three-act play about two brothers, Will and Amos Johnson, who are involved in a continuous battle.

Cindy Helferstay, a former K-State student, wrote the play. It was directed by Alana Windhorst, graduate student in speech, and produced by the K-State Players.

Will, portrayed by Mark Pennington, is a playboy, concerned only with women, booze and Amos' money. Amos, the elder Johnson brother played by Rod Russell, doesn't like change or any form of progress, such as a lightbulb, radio or an airplane.

And so, when Will brings electricity and women to his cabin, all hell breaks loose. Amos believes he controls his father's land from heaven to hell and anyone trespassing either on land or air will be shot. He is a recluse, and is content to finish life plowing his land and smok-

ing a pipe.

In the four-character drama, the two women, Marta and Elsie, play just as dominant a role as the men. Both are involved with the "Salvation of Man," a local charity organization, and both are as equally opposite as the brothers.

Marta, played by Teresa Haffener Frost, feels it is her duty to save the people of her community from the evils of sin and educate them about the modern world. She visits Amos in hopes of teaching him that "cleanliness is next to godliness." Amos, however, makes it clear that he enjoys living the way he does.

Elsie, played by Patty Wirtz, is Will's girlfriend and is concerned with finding a rich man who will bring her flowers.

"I got the idea about five years ago," Helferstay said. "One of the characters is based on true stories about a gentleman who lived alone in the woods of Missouri in the '30s."

'Messiah'

As a part of the Christmas holidays, Handel's "Messiah" was performed in McCain Auditorium December 17.

The combined efforts of the K-State Concert Choir, the K-State Symphony, the Manhattan Chorale and the Manhattan Chamber Orchestra resulted in several hours of music and religious celebration.

Rod Walker directed the choir and Mischa Semanitsky was the orchestra director. Both are K-State music professors.

The four soloists were music professors Jean Sloop and Jerry Langenkamp, music instructor Jennifer Edwards and biochemistry professor Gerald Reeck.

The popular "Messiah" is performed annually at K-State during the holiday season.

"There is really no other work in the world that means to the English-speaking world what the 'Messiah' does," Chappell White, music history instructor, said.

John Zimmerman, biology professor, is a member of Manhattan Chorale.

Richard Ooms of The Acting Company performs during a mask demonstration.

The Acting Company

Group's productions charm campus

Manhattan residents and K-State students were given an opportunity for exposure to professional theater Feb. 5-7, with the presence of The Acting Company at K-State.

The Company, a repertory ensemble consisting of 15 actors, presented three different plays in McCain Auditorium and conducted four workshops on theater techniques.

The workshops, three of which were open to the public, are part of the Company's touring program. The Manhattan Arts Council sponsored the three-day event in conjunction with McCain Auditorium.

The group's first presentation, Monday evening, was "The Other Half." It

involved the evolution of women writers from 600 B.C. to the present. Reminiscent of "Spoon River Anthology," five women presented the play, changing costumes on stage and taking on five or six roles throughout the performance. The play was a mixture of comedy, drama and songs.

"Romeo and Juliet" was The Acting Company's performance on Tuesday. It was an excellent production of Shakespeare's tragic love story. The play seemed to show two different styles, however, with the first half concentrating on the bawdy comedy style and the second half on the tragic side of the play.

"Broadway," the final production, on

Wednesday, dealt with the bootleggers and cabaret performers of the 1920s. The musical showed what Grandma and Grandpa were like before arthritis set in.

The characterizations, choreography, costumes, sets and lighting were superbly done. The pacing of the plays was smoothly executed, and the voice projection and music made the three productions special.

The Company, which tours coast to coast with a repertory of classical and modern plays, was formed in 1972 by John Houseman, director, producer and actor. He is also the star of the television series "The Paper Chase."

'An Evening of Opera...

"Oh, what a beautiful voice. Oh, what beautiful eyes. Oh, what a beautiful torso!" sang the spinster Miss Todd, and her housekeeper Laetitia, in awe of their unexpected houseguest.

These characters were from Menotti's "The Old Maid and the Thief," a delightful and comic opera presented by K-State's Opera Theatre March 1-3, as part of "An Evening of Opera and Dance."

The opera revolves around Miss Todd, her young and beautiful housekeeper, Laetitia, and their infatuation with Bob, a wanderer who becomes a houseguest in Miss Todd's home.

After a casual conversation with the town gossip, Miss Todd discovers there is a thief on the loose, and the newspaper's description fits Bob perfectly. Miss Todd and Laetitia decide to commit a few illegal capers of their own to capture Bob's interest.

The quick-paced opening performance of "Old Maid" was light and fluid. The opera was comic throughout, and the cast's timing and interpretation were successful, as the audience's reactions ranged from chuckles to outbursts of laughter.

The cast was small; there were only four roles, and each actor presented a believable and well-defined character.

One of the most delightful characters in the show was Laetitia, played by Carolyn Thayer. She portrayed Miss Todd's curt and flirty housekeeper, not only through her pleasant and lyric soprano voice, but through her actions and facial expressions as well. She employed the non-verbal elements of her part very well, giving the audience clues about Laetitia's personality before she ever sang her first line.

Barbara Miller was also convincing in her part as Miss Todd. While Miss Todd's well-disciplined conscience was

telling her not to commit any illegal acts to capture Bob's attention, her heart was telling her it would be the best way to arouse Bob's affections. Barbara revealed Miss Todd's indecisiveness about doing right or wrong humorously, and the transition in her character from a refined spinster to a liberal lady was effectively executed. Barbara has a full alto voice, but at times it sounded strained as she pushed to project the notes at the top of her range.

The tall, handsome wanderer, Bob, played by Richard Brunner, not only infatuated Laetitia and Miss Todd, but the audience as well. His easygoing attitude, and his rich baritone voice, added charm to his intriguing character. Bob's initial ignorance of Laetitia's obvious attempts to seduce him was amusing, and his drinking scene was hilarious.

The town gossip made a point of always being in on everybody's business, and usually at the wrong time. Kim Moore added an amusing touch with her portrayal of the busy-body gossip, Miss Pinkerton, dashing about the stage in constant agitation and barely keeping track of her own head. Some of Miss Pinkerton's clumsy stunts, such as tripping on her own feet and dropping her newspaper, were done so naturally they almost seemed accidental. At times, however, Kim's lines were hard to understand, because of the rapidity of the tempo and lyrics in the music.

The set for "Old Maid" upheld the standard of excellence that has been maintained for several years in the set designs of K-State's productions.

The light, colorful setting, Menotti's well-written lyrics and music and the cast's uncomplicated and humorous interpretation, made "The Old Maid and the Thief" a thoroughly entertaining experience.

and Dance'

The dance portion of "An Evening of Opera and Dance" was a total delight from the opening, with "Czardas," to the grande finale "Divertissements."

Six dances, directed and choreographed by Ronnie Mahler and Susan Warden, were performed in styles so varied that the only thing they had in common was their excellence.

The opening dance, "Czardas," was a take-off of a folk dance, performed lightly and cheerfully — a fun dance.

"Pas de Quarre" was a total change of pace, into a romantic classical style. The dance was a reminder that grace still exists, as the dancers, dressed in gossamer pink, glided across a fairytale backdrop.

"Frog, Flies and Farries" followed, a lightly abstract dance that kept a fast pace. The costumes, tight green surrounded by green capes with orange lining, brought out the spirit of fun in dance. The dancers set the audience roaring as they melodramatically swept their capes around and raced on and off the stage.

The humorous side showed itself again in "Kowboys," where the dancers shot each other with yellow ribbon guns.

The computer-age music for "Folds" prepared the audience for the space-age abstraction of the dance. The dancers, dressed in blue, seemed to float mindlessly around each other in a cool void.

"Divertissements" was a grande finale to the evening; it offered every dance style from classical toe and tulle to the zany mood of "Frogs, Flies and Farries."

The costumes were excellent, emphasizing the dances and dancers without taking over the total effect. The sparse sets served the same purpose of lightly flavoring the simmering dance styles.

It was a delight to see K-Staters perform as well, if not better, than many smaller professional companies.

Members of the dance workshop perform "Pas de Quarre."

Phyllis Andrews dances in a ballet performance.

BAW promotes cultural unity

by Susan Schlickau

"Advancement Through Struggle and Sacrifice," the theme for the 1979 Black Awareness Week (BAW), reflected the historical achievements of the black culture.

BAW, an annual event sponsored by the Black Student Union, was held the week of Feb. 12-18. BAW began in the early '70s to promote cultural awareness to the campus and community. Although there are Black Student Union activities throughout the year, the major emphasis is concentrated into this week.

The events began in the Union Forum Hall with the presentation of two documentary films, "Black History:

Lost, Stolen or Strayed," and "A Warm December."

"The films were fairly successful, but were unfortunately interrupted by the bomb threat in the Union," Isaac Turner, Black Student Union president, said.

The Ebony Theatre Company presented "For Colored Girls Who Have Considered Suicide When the Rainbow is Enuf" in the Purple Masque Theatre. The company, which is the only black theater group in Kansas, performed Thursday, Friday and Saturday.

"With sell-out crowds, the theater was extremely successful, and highlighted the week," Turner said.

The Fisk University Jubilee Singers from Nashville, TN, presented an inspiring gospel program on Sunday evening. The internationally famous black choral group "appropriately wrapped up the week's activities," Cedric Patton, a member of K-State's United Black Voices, said.

"Our universal theme, 'Advancement Through Struggle and Sacrifice,' relates to everyone, not just blacks," Allen McCormick, assistant professor and counselor of the Educational Opportunities Center, said. "We are not alone in our struggle for advancement."

The Jubilee Singers perform a variety of spirituals and gospels.

Valerie Pope consoles three girls in love with the same man

Velina Houston (center), portrays the lady in blue.

Play depicts search for self-respect

by Sue Pfannmuller

The theater was crowded, the atmosphere intimate, as seven women poured out their souls, depicting through poetry what it's like to be black and to be a woman.

"For Colored Girls Who Have Considered Suicide When the Rainbow is Enuf" was presented in the Purple Masque Theatre in conjunction with Black Awareness Week. Written by Ntazake Shange, the play is a collection of her poetry focusing on the lives of seven women, each dressed in a different-colored costume, as they search for self respect and awareness.

Each character relates varied experiences, but a common struggle against society and the male domination binds them together.

The cast as a whole gave a convincing and moving performance, often drawing members of the audience into the play by directly delivering dialogue to them.

Many of the actresses gave superb performances. Velina Houston, as the lady in blue, gave a chilling and intensely emotional description of her abortion.

The lady in red, unforgettably por-

trayed by Linda Roberts, painted a vivid visual picture of her struggle with the father of her children — how he dangled them from the window, dropping them when she refused to marry him.

If the performance was an attempt to absorb the audience emotionally, to make them laugh, cry and leave with a better understanding of what it's like to live in this society with two handicaps, if it was meant to show that the odds can be overcome and self-respect restored, then the "For Colored Girls ..." was a resounding success.

Referendum prompts record turnout

by LeAnn Wilcox

What appeared to be another apathetic student election led to the biggest voter turnout ever at K-State.

Voters cast their ballots for student senators, members of the Board of Student Publications and the student body president. They also decided on the referendum for a new fieldhouse.

Both of the main issues in the election passed on a 3 to 1 margin — the new student body president and the arena referendum.

The referendum was an example of the old adage, "history repeats itself." Years ago students on the K-State campus protested the cramped conditions of Nichols Gymnasium. They carried posters to basketball games and dropped bloody mannaquins from the rafters.

They got the point across. Soon after, Ahearn Field House was erected to satisfy the growing number of Wildcat basketball fans.

This year, a group of students began a steady campaign to put the "inadequacies" of Ahearn to light. The "Advocates for a New Arena" used buttons, posters and newspaper advertisements to sway students to vote in favor of the referendum. The committee drew support from Sam Brownback, student body president.

Athletes, coaches, professors and students displayed buttons on their lapels reading "Arena to See the Stars" — the group's motto.

Those desiring a new arena presented several testimonies. They argued that Ahearn had sold out for the past five years, and that enrollment had reached far higher figures than when the fieldhouse was first used.

Basketball recruiting produced another concern. The new powers in Big Eight men's basketball (Nebraska,

Oklahoma and Iowa State) all had newly constructed arenas.

Ahearn had also been notorious for its bad acoustics during concerts.

"If the students are willing to pay for a new arena, we will probably get one," Brownback said.

Julie Doll, editor of the K-State Collegian, counterpointed Brownback's issues.

"K-State has more important things to worry about than the quality of its basketball teams," she contended.

Those opposing the costly referendum voiced concern about classroom improvements. Two examples of buildings needing repair this year included Seaton Hall and Farrell Library.

The "Advocates for a New Arena" were attacked for allegedly twisting financial figures.

Doll claimed the actual building cost would be higher than the price being presented.

Concerned students wrote letters to the editor of the Collegian.

"In 10 or 15 years I may be back in the area and want to go see a K-State basketball game with some friends I had in college and I would like to know I would be able to do so and see a good game — not sit in the library," Gregg Wolgast, sophomore in education, wrote.

Another group of students expressed different viewpoints.

"What do we want, better education facilities for better entertainment facilities?" they asked.

The answer was clear when the votes were counted. Three times as many students were willing to pay for better entertainment facilities. The arena referendum passed, 4,246 votes to 1,332.

In the other election runaway, Greg Musil, senior in pre-law, defeated Dana

Foster, junior in political science, for student body president.

"I didn't expect to win by this much (3,685 to 1,332). I just hope we can look back next February and see that something got done that hasn't been done in the past," Musil said.

Foster said he hoped his campaign promises and goals wouldn't be forgotten by Musil, because of the "Significant" minority of students who voted for him.

Two dominant issues caused disagreement between the candidates. Foster pushed for a testless dead week, while Musil opposed it.

Communication between the student body and Student Governing Association (SGA) was of concern to both candidates, but they differed in their solutions to the problem. Foster said he would like to see senators visit living groups weekly to inform students of available positions. Musil felt this plan would ignore many off-campus students. His solution was to put weekly advertisements in the Collegian listing the time and place of SGA committee meetings and positions open to students.

Musil did agree with Foster in the visiting of senators to living groups.

"We need to make not visiting an impeachable offense of senators," Musil said.

One of the points Musil stressed during his campaign was a proposal for an Elections Commission which would coordinate student elections and handle election law violations.

The outcome of the election overwhelmingly proved that students supported Musil's ideas and proposals, along with the fieldhouse referendum.

Greg Musil celebrates after winning the student body election.

Sam Brownback, former president, supported the referendum.

Election signs on campus reminded students to vote.

A record number of students went to the polls Feb. 14.

Collingwood begins the first Landon Lecture of the fall semester.

Lectures

by
Sallie Hofmeister

'The power of influence'

The United States is entering an era where the application of influence will be more important than power in the day to day conduct of international affairs, according to CBS news correspondent Charles Collingwood.

Addressing about 1,000 people Nov. 3 at the 43rd Landon Lecture in McCain Auditorium, Collingwood contrasted power with influence. A nation's capacity to bend other nations to its will by physical force was the concept of power he cited.

Achievement of foreign policy objectives in the future will depend more on the power of influence than on military intervention, Collingwood said. The problem with indoctrinating this strategy is that the United States is willing to use its military strength as a last resort, he said.

To obtain maximum benefits from the use of influence, however, its potential must be fully understood and measured, he said. If used incorrectly, as in the past, influence may lead to inconsistencies in foreign policy.

Collingwood cited several United States inconsistencies in using influence to deal with foreign problems. It has been used to rectify human rights violations in other countries, casting this inconsistent image on the United States. We "apply an ideal human yardstick more severely toward our antagonists than toward our friends," Collingwood said.

The United States talks a lot about human rights in the Soviet Union, but ignores the situation in Iran because the Iranians own oil the United States wants, he said.

Although power has reigned over influence throughout history, Collingwood said this has changed. The replacement of power by influence will

require re-thinking and re-evaluation of the administration's foreign strategies.

"A change of attitudes from instinctive addiction to sheer power" must follow if we are to use our influence to its best advantage, he said.

Deriving itself from moral, intellectual, economical and other persuasive forms, the result of influence is often unseen, Collingwood said. On the other hand, power, dependent upon physical strength for its success, is more visible.

Power and influence are interrelated, however, Collingwood said. In international terms, a nation's influence depends on its possession of power and its ability to use it, said the newsman of 36 years.

"In the wider world, influence can be as significant as power," Collingwood said. "Of course, in the long run power is more important than influence. But in the long run, we will all be dead."

Collingwood detailed several ways to attain influential powers. A country's military, economic and leadership strengths, as well as its religious and cultural influences, either combined or independent, are sources molding its influential magnitude. A reputation of reliability and citizen support is also needed if a country is to maintain that influence.

"It is still true that when the American economy coughs, the economies of many other countries develop symptoms of the flu," he said.

Collingwood paralleled Alf Landon's career with the theme of influence. Landon's time as governor of Kansas was not the only source of his power; Landon's influence, based upon his accomplishments, convictions and character, have afforded him recognition in this country, Collingwood said.

Lovins outlines energy strategies

The government's current "hard energy" program will create complex, centralized power plants, resulting in political and economical dissonance, according to physicist-environmentalist Amory Lovins.

Lovins, the British representative of "Friends of the Earth," spoke on the topic of "Soft Energy Paths" at an Oct. 23 All-University convocation in McCain Auditorium.

Lovins, the author of six books on energy, outlined two energy strategies. The hard energy path uses nonrenewable energy sources such as nuclear and coal, whereas the soft path uses renewables such as sun, wind and water.

A strong centralized system fabricated by the hard path, make inflation worse, utility finances unbalanced and unemployment greater, Lovins said. These unwelcomed circumstances mount because capital is sucked out of every other part of the economy and fed into the energy program, Lovins said.

Moving toward a central electric system would require enormous increases in capital investments, Lovins said.

"If we could mass produce power plants like we do cars, they would cost at least 10 times less, but they are too large," Lovins said. "As plants get bigger, the amount of time they don't work also gets bigger."

Seasoning his lecture with humor, Lovins compared a malfunctioning power plant with having "an elephant die in your drawing room."

Centralization, dictated by hard energy paths, produces side effects and social costs which infringe upon those not paying for the utility.

"The energy goes to Chicago, New York, Los Angeles, while the side effects go to Wyoming, Appalachia, Navajo country, North Slope — an arrangement considered admirable at one end and unjust at the other," he said.

Lovins summarized the advantages of the soft energy approach, saying it was diverse, renewable, and relatively simple to understand from a consumer's point of view. He pointed out that this approach did not lack technical sophistication, however.

The soft path places emphasis on the best tool for the job compared to hard energy's stress on quantity. Soft technologies mine energy at the appropriate scale and quality for our end-use needs, Lovins said.

Lovins suggested one path should be chosen so action and advancements can be made without see-sawing between the two alternatives. This would mean researching and financing could be allocated toward one purpose, without the competition and interference of the other, he said.

The soft approach, which Lovins believes should be administered at the local and state levels, would increase jobs for the unemployed, create capital for business and give relief to the environmentalists.

Using a projector to chart facts, Lovins talks about energy.

McGee praises Carter policies

President Carter has held to his commitment of spending more time on Latin American policy in his two years in office than any other president before him, said Gale McGee, 1977 ambassador and permanent representative of the United States to the Organization of American States (OAS).

McGee, former United States Senator from Wyoming, delivered a Convocation Lecture Nov. 29 on "Latin American Perspectives" to about 75 people in McCain Auditorium.

Although many United States presidents have promised to continue practicing the "Good Neighbor Policy" established during the Franklin Roosevelt administration, these promises have consistently taken a "back seat" to more pressing issues in "power politics," McGee said.

World War II interrupted Roosevelt's own intentions, he continued. John F. Kennedy, coming into office with a new commitment of universal equality, understanding and cooperation, also became engulfed in "power politics," diverting concentration to uphold the United States' image as one of the two largest world powers.

McGee claimed that Carter is the exception.

"This president came into his admin-

istration genuinely hooked on the hemisphere," McGee said. Past neglect of Latin American problems caused a loss of credibility concerning the administration's word within those countries. McGee said Carter has restored their trust in United States commitments of aid.

The emerging importance of Latin American policy is a result of Carter's attention and cooperation with the OAS, McGee said. He said headway is being made in human rights in every Latin American country except Nicaragua.

"Almost the only breakthrough the President has had in human rights has occurred in this hemisphere through the OAS," McGee said. Carter has been faithful in keeping his interest alive, unlike former presidents who appeared before the OAS only for the initial promissory speech. Carter has made four showings in his two years in office, McGee said.

The OAS, an international regional organization of 26 members, located in the State Department in Washington, originated in 1893 and is twice as old as the United Nations (UN). OAS has a greater chance for success and progress than the UN, McGee said.

The organization has the ability to

isolate problems arising in this hemisphere. OAS represents a collection of treaty, trust, institution and tradition that has pulled the hemispheres together over the past three centuries, McGee said. This cohesion should give the United States strong incentive to never neglect its neighbors, he added.

Furthermore, the Americas have common interests and origins, as well as the same concepts of constitution and charter, McGee pointed out.

"Latin American constitutions (which McGee said parallel closely to the United States constitution) are more liberal than ours," he said. "This provides at least a rhetorical common denominator."

To strengthen our international respect and power, McGee suggested the United States should continue to stabilize its relations with neighboring Latin American countries at home.

McGee illustrated the OAS operation. In a clash between Costa Rica and Nicaragua, where a Nicaraguan minister, Costa Rica requested intervention. OAS, in just one hour, had assembled 25 chiefs together, McGee sketched. Within three days OAS had checked on the matter and smoothed out the problems.

McGee lectured on "Latin American Perspectives" Nov. 29.

Baker (left) talks with Flinchbaugh and students after his lecture.

Baker stresses national defense

Russia has set out to become the number one world power, according to Sen. Howard Baker of Tennessee, and in order to maintain a strategic balance, the United States should develop a new missile system employing high-powered bombers.

The Senate minority leader, lecturing to about 1,200 people at the 44th Landon Lecture March 8 in McCain Auditorium, said he doesn't "see the need to match every machine made by the Soviet Union," but does believe the United States should maintain its national strength.

"Odds are slightly against the (SALT II) treaty right now," Baker said at a press conference held before his lecture on national defense. The Senate opposes President Carter's treaty because it immoderately yields to the Soviet Union, he added.

Baker said the Russians are militarily outbuilding the United States. Since the SALT I treaty, which Baker supported, the Soviet Union has developed four new missiles to the United States' single MX missile. Additionally, the United States has reduced its navy ship building by 50 percent. President Carter also "made a terrible mistake" when the high performance B-1 bomber, included in SALT I, was cancelled.

"I sometimes have been critical of

the President, and I no doubt will be critical again about his treatment of foreign policy," said the possible GOP 1980 presidential candidate.

"I think we treated Taiwan shabbily," Baker said at the conference. The recognition of China, which he applauds, has been "in the cards for a long time." Taiwan, the current issue before the Senate, will probably be provided with United States protection.

Addressing himself to the Iranian upheaval, Baker predicted future unrest. The threatening of the stability in Israel and the Middle East is a result of Iran's alliance with the Palestinian Liberation Organization (PLO), Baker indicated.

"The strongest force in Iran is Marxism," he said. Marxists will eventually come to power in Iran, he added, which will stir up more dust in the Middle East.

During a question and answer period, Baker advocated a constitutional amendment regulating Congressional spending. The proposal he favors, introduced by Indiana Senator Lugar, calls for a two-thirds Senate approval, plus acceptance by the President, for all intended spending. This would curtail government spending, as well as making spending more difficult.

Baker claims government has a "stultifying effect on productivity." To stim-

ulate the productivity of our free enterprise system, federal intrusiveness should be reduced and taxes cut, he said.

One challenge the capitalistic system presents is for the government to stay out of everyone's hair, Baker said.

"It is possible to de-centralize the government. And it is possible to reduce the size of the federal bureaucracy."

Each citizen should do his part in the political process, was the tone Baker instilled in his lecture. He said it's a shame the obligation and ability of self-government is not utilized by the people. The public forum in the political arena is not used, he added.

"The arbiter will be the elector."

Baker's sense of humor surfaced throughout his lecture, with stories from the candy-striped shoelaces on Arafat's army hoots to his tale of the talking parrot.

Baker challenged the college generation to participate in the public affairs of this country, saying that they hold paramount education compared with past generations, are the greatest asset to the United States and should strive to uphold the free government system.

"We ain't perfect, but we're better than anything else on the face of the earth," he said.

A year of transition and surprise

by Janet Helm

When a year's events are calculated in the mind, the high spots naturally register first.

What accomplishments did K-State see in 1978-79?

To begin with, a new fieldhouse referendum was passed by the largest student body turnout ever at an election. For some, it meant months of hard work and campaigning.

With new athletic director DeLoss Dodds and head coach Jim Dickey, K-State football got its first taste of victory in a long time.

The two inherited a weak program, hindered further by a stiff probation and the smallest athletic budget in the Big Eight.

But with a winning attitude, the 'Cats compiled a 3-4 record in the Big Eight to tie for fifth place — a large step up for K-State, who had not won a conference game in three years.

Several K-Staters experienced individual accomplishments in 1978-79. Elaine Hefty was chosen as a Rhodes Scholar, Lori Bergen won honors as Miss Kansas and became a finalist in the Miss America pageant and Greg Musil became the new student body president.

But the year also carried its share of disappointments and tragedies.

The hometown atmosphere of Manhattan was shattered with the news of a brutal murder. The body of Tracey Miller, 26, wife of Municipal Court Judge Paul Miller, was found Nov. 2 in the home she shared with her husband and 15-month-old daughter. No murder weapon was found and no suspects were arrested for the stabbing.

Other crimes shocked the community.

Marvin Farris, a K-State student, was arrested and convicted for the Oct. 28 shooting death of Floyd McSpadden, his former roommate.

Three Junction City men were convicted for the kidnapping of a 5-year-old Manhattan boy.

Two Manhattan banks were robbed during the year and drugs were stolen from Norton's Drug Store in the Blue Hills Shopping Center.

During Christmas vacation, car dealer Kenny Long was found shot to death in his office at a used car lot west of Manhattan on K-18.

There were times of sadness, with the

news of the deaths of several students.

Doug Hoppas, senior in veterinary medicine, and Mark Brace, junior in architecture, were among the students killed in car accidents. Lisa Lowrey, junior in special education, was killed while driving home on ice-covered roads for Thanksgiving vacation. And during Christmas break, a student was found in Ahearn Field House after committing suicide.

Joy Balderson, senior in interior architecture, drowned while taking a bath at the Chi Omega sorority house.

The year also had its share of controversies. Many students aired their opinions through the Collegian in the form of letters to the editor. Several controversies surfaced, such as the efficiency of the new \$40,000 bikepath on campus, the inadequacy of Farrell Library, the tiny cages and inhumane treatment of animals at Sunset Zoo and, of course, the lavish remodeling of President Duane Acker's office in Anderson Hall.

Acker was awarded the first "Golden Fleece Award — Kansas Version" in March by Topeka legislators for the money he spent on the project.

Acker deserved the award, the legislators said, because he "has brought about much notoriety to himself and his school by fixing up his office to the tune of \$100,000 of hard-earned Kansas taxpayers' money."

The year can also be remembered for the blunders of the Physical Plant with the repainting of a mural on Waters Hall, the marching protests of the Iran-

ian students and the leaky buildings on campus.

For a long time students had been fighting against destruction of Nichols gymnasium and the shutdown of small dorm food services. On April 4, both decisions were made — one would stay, the other would be destroyed, at least partially.

There were tears of happiness inside Anderson Hall as the Housing Council voted against a motion to combine the food services of Boyd, Van Zile and Putnam halls. The persistence of hundreds of Strong Complex residents — through t-shirts, buttons, petitions and advertisements — paid off.

But outside Anderson Hall, the mood shifted to one of bitterness and disillusionment. Approximately 1,000 students rallied to protest President Acker's recommendation to the Kansas Senate to demolish Nichols. The proposal called for only the front entryway and the two adjoining pylons to be retained. The rest would be landscaped, with a driveway to McCain Auditorium.

Shouts of "Go K-State, beat the red tape" met stiff opposition from Acker, who refused to change his stance.

Early the next morning, however, after more than 100 determined students traveled to the state capital, Acker rescinded his recommendation and the Senate withdrew the \$125,000 appropriation to tear Nichols down. The castle was saved — for another year, at least.

Students protest Acker's decision to raze Nichols gym, which was gutted by fire in 1968.

Two students were injured crossing the intersection on Anderson.
Research cattle were destroyed in the third campus fire of the year.

World events: violence vs. peace

by LeAnn Wilcox

Iranian students marched on campus, protesting the Shah.

The world in 1978 — it was a world of mass death, an innovative birth and many surprises for people to cope with.

Perhaps the most senseless tragedy of the year arised in a cult commune in Jonestown Guyana, led by Rev. Jim Jones.

When California Congressman Leo Ryan and a party of newsmen threatened Jones' kingdom with an investigation of the settlement, the minister saw murder as the only solution. After the shooting, Jones ordered his Peoples Temple followers to commit suicide.

More than 900 men, women and children died from drinking a lethal mixture of cyanide and Kool-Aid. Millions around the world saw colorful television reports and magazine photographs of the largest mass suicide in history.

In Chicago, John Gacy was arrested for the most terrifying mass murder ever reported. Gacy confessed to sexually assaulting and strangling 32

young boys whose bodies were found buried beneath Gacy's home and the surrounding area.

Other disasters marked the year. A collision in the sky between a Boeing 727 and a small Cessna plane over San Diego — worst in U.S. history — took 150 lives.

More than 200 tourists were killed in Spain when a truck filled with propylene crashed and exploded near a campground. And in Los Angeles, a spark from a power line ignited dry foliage and started a raging fire which destroyed more than 250 homes.

Medical science made headlines when the world welcomed Louise Joy Brown, the first test-tube baby. Even before she was born July 25 in England, the infant was the object of much fanfare and controversy.

David Rorvick kept people guessing with his book "In His Image: The Cloning of a Man." He claimed he had re-

cruited a scientific team to clone a California millionaire. He was unable, however, to produce substantial proof.

For the first time in 455 years, a non-Italian became Pope. Karol Wojtyla, from Poland, was named John Paul II, the third pope to reign in 1978. After the death of Pope Paul VI on Aug. 6, John Paul I was named his successor. However, his reign was the briefest in the 2,000- year history of the Roman Catholic Church. He died in his sleep 34 days later.

About the same time Pope John Paul II was gaining acceptance, President Jimmy Carter was rising in popularity at home. His breakthrough came at Camp David over long conversations with Egypt's President Anwar Sadat and Israel's Prime Minister Menachem Begin. Carter persuaded the two to sign a set of "framework" agreements toward peace in the Middle East.

Sadat and Begin shared the Nobel Peace Prize, and for the first time in ages, the world basked in the idea of peace as a real possibility.

Later in the year, Carter complied with China's demands, cutting ties with Taiwan, for "the advancement of peace ... at this season of peace." This controversial move changed the diplomatic balance and switched the U.S. recognition to Peking. The Taiwanese were outraged with the United States' attempts to promote stability in Asia after past Vietnam struggles.

Carter's chug-a-lugging brother, Billy, caused the President several embarrassing moments. Billy's eccentric behavior in the company of Libyans and his derogatory comments about Arabs and Jews wore hard on everyone's nerves.

In Iran, political turmoil caused the upheaval of Mohammed Reza Pahlavi, better known as the Shah. Iranians in the United States were active in their protest against the Shah. Many demonstrations and bloody riots were provoked. Exiled Ayatollah Ruhollah Khomeini was thrust in the political spotlight.

As Carter attempted to be a "superman" of sorts, the real Superman was resurrected at the theater in the world's most expensive movie. Christopher Reeve was cast in the starring role of the \$45-million epic produced by Warner Brothers. It immediately became a box-office success. Other top

movies of the year included "Saturday Night Fever," "Grease" and "Heaven Can Wait." These movies revealed a society longing for the simplicity of the past.

Following the smashing success of John Travolta's "Saturday Night Fever," discomania reached gigantic proportions. The Bee Gees knocked out the music world with hit after hit — "Stayin' Alive," "More Than a Woman" and "Too Much Heaven," among others.

The top shows on television were "Three's Company," "Laverne and Shirley," "Happy Days" and "Mork and Mindy."

In the sportsworld, Muhammad Ali regained his heavyweight boxing title for the third time in a bout with the former World Champion, Leon Spinks.

Cincinnati Reds' star Pete Rose set a new National League mark for hits in consecutive games with 38. In addition, he signed a record-high baseball salary of \$3.2 million with the Philadelphia Phillies.

The Los Angeles Dodgers and the New York Yankees battled in the World Series, with the Yanks coming out on top 4-2.

Terry Bradshaw shattered two Super Bowl passing records in leading the Pittsburgh Steelers to their third National Football League championship, with a 35-31 victory over the Dallas Cowboys.

And on Jan. 29, President Carter set

newspaper heiress Patricia Hearst free, saying she needed "no further rehabilitation" or punishment. Carter granted executive clemency to Hearst, perhaps the nation's most celebrated federal prisoner, and commuted her seven-year sentence for bank robbery. Her fiancé, former bodyguard Bernard Shaw, greeted Hearst upon her release. She showed off her green T-Shirt which read "Pardon Me."

It was also the year for landmark trials. The first rape trial between a married couple, Greta and John Rideout, resulted in a verdict of not-guilty. It was the first significant test of Oregon's newly revised rape statute, which recognizes neither marriage nor cohabitation as a defense against rape.

Another case, in a California court, involved Michelle Triola, 46, and actor Lee Marvin. She claimed Marvin owed her half of the assets he accumulated in the years they lived together — a figure her attorney estimated at \$1 million. The trial sparked much controversy and similar court actions.

During the year the world said goodbye to such renowned figures as Hubert Humphrey, Nelson Rockefeller, Golda Meir, Margaret Mead, Edgar Bergen, Will Geer and Norman Rockwell.

The year was filled with triumphs and disasters, and attempts at peace, war, death and life. It was a memorable year, leaving the world to ponder some extraordinary occurrences.

With the violence in Iran, mail correspondence was halted.

"Grease" was the word in '78.

The seven undergraduate colleges held special exercises May 20.

A new cycle begins...

by Monte Moser

"Persistence brought you to this important day, and persistence will permit you future successes," K-State President Duane Acker charged to the class of 1978.

Just days before, these graduates were like any other college students, haunting the library to finish that term paper or drinking coffee in the Union and telling friends about job offers, or the lack of them. ("Know any company that wants a \$40,000-a-year figurehead?")

"Your hours in Farrell Library, nights in your design studios, days in laboratories, weeks and years in lectures, testify to your persistence," Acker said. "Resolution and persistence are important elements of this university's climate."

The class of '78 was given special commencement exercises by each undergraduate college. For the first time in many years 3,839 graduates received actual diplomas from the deans of their colleges. In past years, their delivery was entrusted to the U.S. mail, and graduates would receive them weeks after commencement.

The graduates witnessed many structural changes on campus since they arrived as wandering freshmen, such as the

completion of Durland Hall, the Veterinary Medicine Complex and the International Student Center. The students themselves have undergone changes — streaking in the buff across campus and Aggieville has given way to jogging in \$60 sweat-suits and \$30 Nikes.

As graduates walked away from commencement to the arms of proud parents who financed this four-year sabbatical, they were once more freshmen who must patiently wait as they are thrust into the "real world."

"There is ample evidence that even Rome wasn't built in a day," Acker said. "But in a world where dinner is cooked in micro-seconds, the air distance from Los Angeles to New York is measured in minutes and life and death problems can be solved in one hour each evening on an electronic tube with time out for commercials, it is easy to believe in instant success," Acker continued.

"Impatience must not dilute your resolve or deter you from your mission.

"My charge to you is: Resolve. Persist. Prevail."

A senior contemplates President Acker's charge.

Dean William Stamey congratulates a happy senior.

FEATURES

Reflections of a century

by Carol Wright

K-State's heritage evolved from the efforts and dedication for higher education by the first groups of people who came to Manhattan and established Bluemont Central College in 1858.

At its present location, K-State, founded Feb. 16, 1863, has grown from a meager college on a small plot of land to a spacious, 315-acre university. Today there are 93 buildings on campus.

Through the years, some of the older buildings have been destroyed, such as Farm Machinery Hall — the first education building — demolished in 1963. Other buildings have been constructed at K-State and give the campus a modern appearance.

While such changes have occurred, there is one particular building which still remains and has not lost its Victorian atmosphere — Anderson Hall.

This year marks Anderson Hall's 100th birthday, and its traces of nostalgia linger.

Since 1878, Anderson Hall has been the university's main attraction, according to President Duane Acker. Hoping to retain the hall's regal quality, Acker has been buying antique furniture with his own money for his office and reception room.

While Acker is purchasing the furniture for his own enjoyment, he said he felt an obligation or duty to preserve Anderson Hall.

"I think we should take our decisions fairly seriously. Not every building can be preserved, nor should they be preserved — not by any means," he said. "But there are a few classics that I think we should consider. I think in the case of Kansas State University, Anderson Hall is it."

An antique secretary, two chairs and a study desk highlight Acker's office. They were found and purchased in Des Moines, IA, he said. His wife upholstered the two Victorian chairs,

which have engraved figures on them. The desk chair was bought at an antique shop in Kansas City.

"The fact that there were a lot of chimneys or fireplaces in the building is an interesting architectural feature," Acker said. "The chimneys remain, but they're all cased-in and no longer in use."

One of the distinctive, architectural styles which reflects Anderson Hall's character is the steeple, which gives the hall a religious, serene nature, Ellsworth Gerritz, Dean of Admissions and Records, said.

A balcony was also situated at the far end of the Admissions and Records office. The entrance to that balcony was from the second floor down.

Collectively, the cost of Anderson Hall (or College Hall, as it was referred to then) was \$79,000, Gerritz said.

Another facet of the original building included porches which were eventually removed to make way for a row of offices and abundant expansion.

"The offices that Dr. Flinchbaugh and Dr. Chalmers are in were constructed during World War II by German prisoners of war," he said.

"I've been told they laid the stone, did everything and did a very nice job of matching the original architecture and workmanship."

Today, Anderson Hall houses a variety of offices and divisions, such as University Development, the psychology department, Admissions and Records, University News, University Publications, the Data Processing Center and administrative offices.

In his book, "Kansas State University — The Quest for Identity," James C. Carey, professor of history and noted K-State historian, mentioned that Anderson Hall was once designated the "Practical Agricultural Hall."

Anderson Hall stands alone as one of the first buildings on campus in 1885.

State Agricultural College Manhattan, Kans. 1885

A 1939 aerial view illustrates the 40-year growth of K-State's campus. (photos courtesy of Special Collections, University Archives, Farrell Library)

Up until World War II, Carey emphasized that it demanded respect from faculty and students:

"Slightly to the north of Nichols, in another arresting spot, stood Anderson Hall; it commanded the respect of faculty and student males, who removed their hats while walking through and passing in front of the old portraits of President Denison, Anderson and others."

Aside from Acker's photograph collection depicting Anderson Hall's developing stages, the building conjures for him some personal and special memories.

"About a year ago, a gentleman came into my office who was a grandson of President Anderson," Acker said. "It was a very short conversation. He introduced himself, and I think he now lives in California. Meeting an ancestor was of interest to me."

"I've also read Milton Eisenhower's, 'The President is Calling.' Although very little of it is devoted to his time at K-State, he does tell about his conversations with President Jardine, who was president when Eisenhower was a student here. Just simply reading these things, I can visualize Anderson Hall as it existed."

Anderson will be remodeled and eventually renovated within the next five to eight years.

"Psychology will be moving out into their new classroom office building in a couple of years. When we renovate, it (Anderson Hall) will probably be almost exclusively for administrative purposes," he said.

Renovation of Acker's suite of offices cost almost \$100,000, according to figures released by Gene Cross, associate vice president for University Facilities.

Last fall, Acker came under fire from State Sen. John Crofoot (R-Cedar Point) for spending too much money on the office.

Acker defended the expenditure by saying, "We decided if you want to do it you might as well do it right."

Anderson Hall is the "trademark" of K-State, according to Acker.

"It has for so many — everyone, really, who's been associated with Kansas State — some deep, personal meanings," he said.

How do you spell relief? A-g-g-i-e

by Cecilia Kasl

After a hard week of classes, labs and exams, many K-Staters head down to the haven of rest and relaxation. Whether it's Mother's Worry, Brother's, Aggie Lounge or any of the other bars, students wait in line to become part of the crowd, confusion and chaos known as Aggieville.

Each bar has its own kind of style, its own kind of class and its own kind of people . . . cowboys go to Rockin' K's, Greeks are often seen in Kite's.

"Each place is given a totally different image because individual's likes and dislikes vary in the type of bars and entertainment they want," Mrs. Terry Ray, director of marketing for Kite's, Mr. K's, Aggie Station and Rockin' K's, said.

Each bar's atmosphere develops from its decor and entertainment.

Kite's is seen as a traditional college tavern because it's the oldest and most well-known in Kansas, Ray said.

Kite Thomas, K-State basketball and baseball standout who later played professional baseball, opened Kite's in 1954. His baseball bats and other athletes' pictures hang on the wall.

"We change as few things as possible because people like the traditional atmosphere," she said.

Kite's has been a traditional Greek spot because it was the

only bar that strict Greek policies allowed members to go to.

"The type of people who go to Kite's today don't want the dancing, music and lights that particular night that other bars offer," she said.

"If I want to drink and meet friends and talk, I go to Kite's, Dark Horse or Brother's," Rich Koester, senior in electrical engineering, said. "If I want to dance, I go to Mother's or K's."

Mr. K's became Aggieville's first discotheque in 1974 when students became more interested in dancing. Within a short time, Mother's Worry also opened with a dance floor.

Disco is not the only type of music heard in the streets of Aggieville.

"The atmosphere at Brother's is real good — it's kind of earthy. There's no blaring lights — just good music, especially when they have a band," Shelley Pottorf, junior in sociology, said. Brother's plays country rock.

Rockin' K's offers country and western music for those who like to swing dance.

"We cater to groups who like country and western, such as Block and Bridle, Rodeo Club and agriculture groups," Ray said. "We work directly with them in planning parties for their organizations."

LEFT: K-Staters engage in the latest disco daze at Mother's Worry. ABOVE: Students who enjoy playing pool go to Brother's Tavern.

Rockin' K caps and posters, reading "What is a Cowboy?" can be purchased at the bar because so many customers request them, Ray said.

Other specials and promotions influence students to get away from books and go out for a beer.

After purchasing six pitchers on Tuesday night at Kite's, a student is given a free Kite's t-shirt. For wearing the t-shirt, students also get a reduced rate on pitchers on Tuesday. After purchasing a big draw cup any night at Kite's, the student keeps the cup.

Almost every bar has a special for women, commonly referred to as "ladies night."

"I go to Mother's on Thursday, if I'm not working, because it's free beer and free admission for ladies until 8:30," Janis Shannon, junior in fashion marketing, said. "It's just a get down, crazy time."

"Ladies night" is Tuesday at Brother's and Wednesday at Dark Horse and Mr. K's.

Another popular special among college students is "one plus one" or "two fer" nights. Held at Kite's on Monday and at Mother's on Tuesday, a student can buy two of anything for the price of one.

Other specials at Brother's include "cup night" on Wednesday when a 16-ounce cup costs 65 cents and a "hat night" on

Thursday when anyone wearing a hat receives a free stein. Brother's also has a "guys night out" during the semester.

Dark Horse is famous for its "progressive pitchers" which means a pitcher of beer costs \$1.25 from 7:00 to 8:00, \$1.50 from 8:00 to 9:00 and \$1.75 from 9:00 to 12:00 p.m. They also sponsor an "all you can drink" night for a minimal price.

These specials and promotions lure some K-Staters to Aggieville, but most students go just to have a good time.

"I usually go to Aggie Lounge because you can drink and get rowdy and they don't care . . . well, as long as you pay for what you break," Gary Housholder, junior in agriculture mechanization, said.

Sandy Keltz, junior in secondary art education, likes the challenge of going to a "21" club

"I go to Gily's to see how many times I can get in while I'm still under age," she said.

A different kind of atmosphere, geared to those between the ages 21 and 30, is found at Aggie Station, another "21" club.

"We want to have the right age group at the Station — not only because it's the law, but because people of the same age group have the same likes and dislikes," Ray said.

Whatever the reasons — or whatever the bar — K-Staters flock to Aggieville to relax and escape the college routine.

Dee Gale (left), Shane Garrett, Karla Hefty and Doris Pryor celebrate Friday afternoon by "tgif-ing" at Mr. K's.

Sharyn and Jim Robyak relax after dinner and drinks at Gily's Landing.

Welcome to our world Mom & Dad

On Sept. 16, students had a chance to share a little of college life with their parents.

Parent's Day activities began Friday afternoon with a "Dancing in the Streets" festival featuring the Pott County Pork and Bean Band. The 1200 block of Moro was closed to traffic as hundreds of students danced in the streets of Aggieville. It ended with a pep rally for the K-State football team later that night.

The 'Cats lost to Auburn Saturday afternoon 45-32, but spirit, pride and determination were evident. During halftime the winners of the Parent's Day letter-writing scholarship, sponsored by Chimes junior honorary, were announced. Kim Moore and Ron Wilson received \$75 for their letters describing life at K-State.

All day Saturday, campus buildings were open for parents to tour.

In the evening, comedian Jerry Lewis was the featured performer at a concert in Ahearn Field House. The show opened with appearances by singer Jeree Palmer and the K-State Jazz Band. Lewis delivered 60 minutes of comedy and song for a disappointingly small Parent's Day crowd of about 7,000. The heat in Ahearn was unbearable and the insects were overwhelming. At one point in the show Lewis interrupted a joke by commenting to his pianist, "I never saw so many damn bugs in one place in my life."

John Westerhaus twirls his partner, Debbie Drake, during Friday afternoon's street dancing.

In honor of themselves, parents attend the K-State football game.

"It's really cool in here. I've had a rash since last Dec.," Lewis jokes.
Quarterback Dan Manucci takes a cool breather during Parent's Day action.

*... it takes more
than dress to make
a true cowboy ...*

A popular spot for cowboys to talk to friends is Rockin' K.

The cowboy: A living legend

by Diana Putnam

He stands at the bar, with a mug of beer in hand. His boots are covered with dust, and an old leather belt holds up his faded jeans. His shirt is tucked in neatly, and his hat is tipped to the back of his head.

He's not a guy on the set of a western movie; rather, he is one of the many who frequent Weber Hall and are labeled "ag majors."

What is it about these belted, booted, hatted creatures one calls a cowboy? He is supposedly from a generation gone by, out-dated by technology in a mechanized world. Yet today's cowboy or cowgirl has a definite role in making this ole' world go 'round.

While most K-State students go through the fad of painters pants and rugby shirts, the cowboy and cowgirl maintain the classic dress of the western world.

All a cowboy really needs is a pair of name-brand, boot-cut jeans — not flares — so they don't get in the way during work. To hold them up is a carved belt with the cowboy's name centered on the back. A big silver buckle won at some rodeo flashes in the sunlight as he walks around campus.

The cowgirl wears fitted tops which show off and flatter every curve. Her pants, which fit just so, aren't basic blue jeans. The colors match those of a rainbow, and she will have hats and ribbons to go with each pair.

But it takes more than dress to make a true cowboy or cowgirl. Behind the boots and belts are years of long days and

hard work. There are the long hours of hauling hay, working cattle and fixing equipment to get the job done. His job is not from 9 to 5, for a good working day usually lasts from 5 to 9.

When Saturday night rolls around there won't be too many cowboys at Mother's Worry. However, the Rockin' K will be filled to the brim of a cowboy's hat, with girls and guys just there to unwind and party. Instead of the boogie-down disco, there is a spin and swing to the sound of the Oakridge Boys or Dolly Parton. The whirling and twirling of bodies on the dance floor give the impression of a spinning rope as it passes over a running calf's head.

The conversation is simple and covers everything from last week's game to the war in the Middle East. The cowboy and cowgirl will talk about last week's rodeo, and will re-ride the saddle bronc or re-run the barrel pattern with such detail that anyone listening will feel he was right there with them. The talk heads down the road to next week's rodeo and, with a pat on the back, they wish each other good luck.

The K-State cowboy is really no different from anyone else. He is here to get an education, one that will help him preserve a way of life that is slipping away. He may never make a million bucks; he just wants enough to keep him going till the next rodeo.

A cowboy merely wants what is basic in life — a few acres of land for grazing cattle and horses, and the time to enjoy it.

Fighting the battle of the bulge

by Beccy Tanner

Penny Nichols eats an ice cream cone at a street dance in Aggieville.

Not long ago, I was spending a quiet evening at home . . . alone. There I was, watching "The Waltons," lying on my couch. The phone rang.

"Is this Becky Tanner?"

"Yes."

"I don't like obese people."

"Oh. I'm sorry to hear that."

"Yes, and I am planning to get rid of them. I'll load them in cattle trucks and ship them to St. John, KS. Would you like to cover the story?"

"Well, gee, I am kind of busy. Don't you think you could postpone this until 'The Waltons' is over with?"

"No, I'm sorry. I just have to do this. I'm tired of little chubby fingers and rotund friends. This is my mission in life. You believe people have missions, don't you?"

"Well . . ."

"Good. It's settled. I know where you live; I've been watching you for a long time. I'll come by to pick you up."

Fifteen minutes later, there was a knock at my door. "The pizza man," I thought.

"Ah ha," this strange, skinny person shouted. "Remember me?"

"I gather you are not the pizza man," I said. "But do you know where I could get a nice strong anchovy?"

This singular fish cried out, "Pizza! pizza! PIZZA! That's just my point. This whole world is nothing but one Mamma Patty's Pasta House after another. Doesn't anyone care about intelligence, the nuclear wars we might have or rabies?"

"Now hang in there, chump," I said. (It was crude of me to call names, but really, this guy was starting to get the best of me.)

Knock, knock. At last, the pizza man. I quickly paid him \$4.95, grabbed the pizza and slammed the door in his face.

"See? SEE! That's exactly what I mean. Look at you, little chubby Tanner. Can't you see a pizza is exactly what you don't need?"

I tried to tell my toothpickish friend I had ordered the pizza as a get-well gesture for my prayer plant. It had been feeling a little under the weather lately, and I thought a good dose of anchovy and green pepper would bring it around.

"No, I won't believe it," he cried. "You can't do this to me. You just can't. I believed in you, I read your articles so faithfully — and now you're trying to tell me you don't care! Nothing is sacred anymore."

He started whimpering. So, what could I do? Well, what would you do?

I was the host. And a host, above all, must be nice to his pests. So, I tried to smile. I tried to look sweet. And I went right on looking for junk to eat.

My friend had a suggestion. Would I mind touring all the hotspots in Manhattan and taking a poll to see just how much food K-Staters consume?

We went on a "Vista run." I was just getting ready to order a hot fudge brownie ala mode and a medium sized Lime-Dr. Pepper when my friend jabbed me in my ribs (he called it my flab), glared at me and told me to start questioning massive food consumers.

"So, I bopped up to two students who were immersed in their Vistaburger baskets and chocolate chip shakes.

"Excuse me," I said. "I'm from the Collegian and am taking a small survey. Would you mind answering a few of my questions?"

"I am already a Christian," the girl said while clutching a french fry dipped in blue-cheese dressing.

"No, no," I said, "not that type of survey. I mean, it's about food. It's about what people eat, and if Americans eat because they are bored." (I thought that sounded scientific.)

"First question: What all have you eaten today?"

"Let's see, I had an Egg McMuffin, an apple danish and hot chocolate at McDonalds for breakfast. Then for a snack I went to Dillons and bought a bag of Nacho cheese-flavored Doritos.

"After that my friend and I went to Valentino's for lunch. I had baked lasagne, garlic rolls, a salad with creamy, blue cheese dressing and a pitcher of beer," the girl said.

"For dessert we went to Baskin-Robbins for a triple-decker cone. I had blueberry cheesecake, rocky road and peanut butter and jelly. Made my stomach perk up and say 'Howdy.' Anyway, after that, we came to Vista and here we are," she continued, "Oh, by the way, do you know that Becky Tanner? Boy, I hear she's really strange!"

"Uh —, yes, I've heard of her. Well, thank you for your cooperation. Have a nice evening. Are you planning on doing anything else this evening?"

"Yeah, we thought we'd go driving around, maybe go to a movie and get some hot-buttered popcorn and then to the Sonic for a cherry-lime slush."

"Well," I said, "thanks a lot."

I found my old friend who by this time was looking slightly pale. I could tell he was getting ready for another rampage.

"See. SEE. SEESEEEEEEE . . . They are all like this. There is no one, no one, I tell you, who is normal. Do you think they ever consider any of the starving children in Asia when they chow-down on a Double-Whopper with cheese? They don't care a flying donut.

"That's why it's so important," he said. "I've just got to round them up and ship them off tonight. Before it's too late. Before everything is lost."

"Aren't you being a little harsh?" I said. "Think of all the contributions fat people have made in the world.

"Can you honestly tell me you don't like Mama Cass, Henry VIII or Benjamin Franklin?" I asked my friend. "So, let's call off this round-up and go home. My pizza is getting cold."

He glared at me again.

"My prayer plant is a persnickety eater," I said.

Swanson's doughnuts are a favorite late-night snack for many students.

Revolt on campus

Squirrels take revenge

by Susan Burden

Whizzing along Manhattan Avenue, the squirrel lightly dodged speeding rush-hour traffic. After a near miss with a red Volkswagen he skittered up the tree I was sitting under.

"Psst. Psst!" I heard a voice whisper. I look around slowly . . . nothing.

"Hey dumbbo! Up here!" the voice shouted.

I looked up through the branches and spotted only a squirrel peering down at me. Just who was trying to get my attention?

"Hey you! I'm trying to talk to you!" The squirrel seemed to be motioning at me.

"Uh, did . . . did you say something to me?" I asked, looking around to see if anyone was watching.

"Course I did," the squirrel retorted. "Didja think it was this tree jawin' with ya?"

"Uh, well. . . ." I edged slowly away.

"Hey don't leave! I wanna talk to ya. What's your name anyway?"

"Uh, uh, . . it's . . . uh . . well . . um . . . Susan," I stut-tered.

"Well my name is Brutus . . ."

(Brutus? A squirrel named Brutus?)

" . . . and we had an ACORNS meeting yesterday and I was elected to present myself to a student and explain our situation," Brutus said.

"ACORNS?"

Brutus swished his tail annoyingly.

"The American Campus Organization for Reforming Neg-ligent Students!"

"Oh," I shrugged, "of course. How could I be so dumb?"

"I want you to inform Kansas State University how we squirrels are dealing with your discrimination and extermination tactics." Brutus whisked his tail indignantly.

This seemed like a heavy job. Anyway, who would believe me?

"To start with," Brutus began, "we squirrels were here even before K-State came along, so I think we have a right to express our views. We are not the pests you think we are and we're tired of your methods to obliterate us. After all, we do keep the pigeons from becoming permanent fixtures on Fair-child's window sills," Brutus grinned.

"Students walk off the sidewalks onto our territory and scare the peewads out of us. K-Staters think it's great fun to chase us or see how many squirrels they can hit with their cars in a one-mile stretch. This has gotta stop! In fact, the U.S. Army has sent troops in to help combat the students," Brutus declared.

"Now hold on a minute," I cried. "Did you say the U.S. Army?"

"Course. The United Squirrel Army is already helping diminish our problem with the students."

Naturally.

"Do you think those leaves an' berries an' nuts just fall out

of trees? 'Course not! Our torpedo men are situated all across campus aiming their guns at any unwary student who trespass-es onto our territory," Brutus cried.

"You mean . . .?" I was aghast.

"You bet. Our army has divided themselves into two teams, East and West. They have a point scoring system for direct hits. Two points for every student they hit, three for a profes-sor, four for an administrator and five points for every time they hit a student below the belt. Whichever team has the least points at the end of the semester will have to throw a beer and nuts party for the other side."

"Good grief! You surely can't mean all this . . .," I said.

"I sure do. In fact, the East team has already accumulated 4,022 points this semester!" Brutus declared proudly.

"What else do you do?" I asked, praying there was nothing.

"Well, many of the civilians are in training right now. Most students think we're just plain stupid running across busy highways or skimming across electric wires, but we're in basic training."

"Training?" (I was afraid to ask.)

Brutus frowned and stared at me as if I was an imbecile. Maybe I was because I was beginning to see his point.

"Don't you read the papers? All civilians belong to NUTS."

"Uh, . . NUTS???"

"N-U-T-S. You know, the National Union for Training Squirrels. We practice crossing into enemy territory by scamp-ering across intersections. Keeps us in shape."

"But what if you don't make it across the street? What if a squirrel is electrocuted on one of those wires? How does that help your cause?" I asked, confused.

"Well, naturally we're sorry to see our fellow friends go, but they serve a purpose by grossing out the driver and all of his passengers. Every single student who walks or drives by our fallen warriors should feel sorrow and guilt. We are just prey-ing on the minds of you K-Staters. Heh, heh.

"I want you to let K-State know that they're being invaded and warn them of the consequences of trying to exterminate us. We will conquer!" Brutus began marching up and down a branch showing his good form.

I slowly digested all Brutus had told me and decided that his talk didn't jive with my experiences with squirrels.

"You know Brutus, I think you're just putting me on. I have never been hit by an acorn or anything. Everything you've told me is just a bunch of baloney. I say 'nuts to you.'" I stood up and started to walk away.

A small voice floated above the chimes of Anderson Hall.

"You wanna bet?"

Suddenly a volley of acorns bounced around me. POW!! Right between the eyes (two points) and OUCH!! Right below the belt (five points).

The East team now has 4,029 points.

Snowstorms brought campus construction to a halt this winter.

Campus growth increases efficiency

by Susan Schlickau

On the other side of portable fences and temporarily restricted areas, architectural crews have been changing and expanding the K-State campus.

"There are many purposes for construction," Jim Shepard, architect for University Facilities, said. "It makes the campus more pleasing and conveniently organized, and of course more efficient."

"The bottom line in construction is to make it more efficient."

Erection of a six-story limestone structure began last fall. According to program plans, this general classroom building, located west of Justin Hall, will house 120 offices and more than 70 research laboratories.

"We currently have a deficiency in classroom space; therefore we are making construction plans to catch up in this area," Gene Cross, associate vice president for University Facilities, said.

January groundbreaking ceremonies marked the start of construction of the student recreation complex. The \$3.5 mil-

lion structure is to be completed before the fall of 1980.

"In construction, student fees are only used for the student Union and the student recreation building; all the rest comes out of the state or from federal participation," Shepard said.

The plant science building, to be located north of Ackert Hall, is another construction sight for which funds have been allocated. Construction went underway during March, and plans for estimated completion are set for July 1981. The building will be named after the late Ray I. Throckmorton, former dean of the College of Agriculture.

These sights were only a few of the various projects to go underway this year. Many other proposals for renovation and new construction were written. Durland, Burt, Dickens, Holton and Willard Halls were put on lists for future changes; but numerous steps, procedures and approvals must be acquired before these buildings will bear "under construction" signs.

"It takes time to complete a program," Cross said. "You deal in years when dealing in construction."

Bikeway sparks controversy

by Debbie Rhein

The appearance of a bikeway on campus gave voice to the silent war among pedestrians, motorists and bikers when school began last fall.

Before the bikeway, bikers simply found their way in the "no-man's land" of pedestrians and cars, on campus streets and sidewalks.

Bikers braved the streets, dodging cars, but pedestrians often narrowly escaped being knocked over by speeding bikers on the walkways.

The bikeway changed all that — to the pleasure of some and the chagrin of many.

With it came rules requiring bikers to stay on the bikeway, making sidewalks off-limits to the bikers.

"Now that they have it (the bikeway), they are going to have to stay on it," said Paul Nelson, director of Security and Traffic.

While pedestrians applauded the move, bikers complained that it made biking less convenient than walking, because many buildings were hard to reach.

In a Collegian column, Craig Jagger, graduate in agricultural economics, said:

"Until the advent of this new plan, I could ride a bike to the front door of any building on campus while enjoying the sights along the way. Somehow, I managed to avoid hitting anyone. Now I find the campus sidewalks are denied to me. I must ride on the sides of the streets or walk my bike (which defeats the whole purpose of bike-riding.) The University has traded me two lines on the side of the street for all the sidewalks on campus. This is supposed to encourage bike-riding?"

Although motorists showed relief at not having to risk involuntary manslaughter by dodging the bicyclists, they had to get used to driving one way on formerly two-way streets.

Portions of Mid-Campus Drive, Petticoat Lane, 17th Street and Vattier were changed to one-way traffic to make room for the bikeway.

The bikeway was a combined effort spread among the Civil Engineering class at K-State, which supplied the basic work and arranged for a federal grant; the city of Manhattan, which completed the work and kicked in \$8,000 and the federal government, which supplied \$32,000 for the work.

The campus portion of the bikeway is being maintained and regulated by the University, although no funds came from K-State for the original work.

Nelson said this was an added expense to Security and Traffic.

Many of the streets used for the bikeway will have to be repaired in the future. The bikeway lines will have to be repainted then, he said.

In order to provide funds for bikeway maintenance, Nelson said bicyclists may be required to pay fees and register their bikes.

Despite complaints from all sides, the bikeway has become a well-used and recognized part of K-State's campus.

The new bikeway requires bikers to stay on the designated path, making the sidewalk off-limits to them.

Current styles reflect past trends

Melinda Leslie wears a popular top.

Tweed slacks and front-pleated pants with side pockets, were popular.

Crew neck sweaters with shirt collars worn inside were the trend in men's clothing.

Blazers and vests were frequently seen on campus.

Fashion has always been as changeable as the weather, shifting with the mood of the times from one decade to the next and sometimes back again.

This year proved to be no exception, and many K-Staters were wearing different fashions than they did the year before.

"It's still a casual type of dress we're seeing most, but it's more fashion-oriented," Rhonda Patton, manager of Carousel clothing store for women, said.

"Rather than just Levis and sweaters, students are showing more interest in looking fashionable while dressing comfortable," she said.

"Painter's pants are still going to be big, but not just plain old blue denim and dirty white colors. They're going to be in the bright, bold colors which are very popular right now," she said.

Much of the look that was seen on campus was layered, using cowlneck sweaters and blouses under sweater-shirts and jumpers.

Popular slacks for women were the front-pleated trouser or the tightfitting straight-legged slacks. Pants were shorter than the year before and were worn with high heeled shoes.

Jeans were still a common attire, but were "dressier." The most popular were labeled with designers' names such as Calvin Klein.

Clothing styles for K-State women saw other changes. The overall trend is toward a softer, feminine look with lots of scarves made of soft fabrics, Patton said. Mid-calf length dresses made of Qiana replaced the floor-length formal, small dainty purses and clutch bags replaced the big "suitcase" of

the past.

Another trend Patton saw as here to stay is the 1940's vintage look. This includes padded shoulders, blouses with full sleeves drawn in by a narrow cuff and slim, straight skirts, often slit up the side.

Along the lines of men's fashions, jeans were still predominant for the K-Stater when it came to pant sales, Mac Stevenson, owner and manager of Stevenson's clothing store, said.

"Most of what we sell is made of fabric other than just plain blue denim," he said.

Dark blue jeans have given way to khaki, light blue or other neutral colors.

Three-piece suits appeared in pin-stripes, plaids and various other patterns. Polyester remained a popular fabric choice for suits, but in the woven form, Stevenson said. It is lighter and snags less easily, as opposed to the bulky double knit so popular in the era of leisure suits.

Color trends in casual and dress clothes for K-State men ran along the lines of greys, blues and camel and brown tones, with greens being the weakest sellers, Stevenson said.

The look of men's shirts moved away from bright colors, florals and the "disco" shirts made of silky, glossy fabric. According to Stevenson, these shirts were considered too feminine looking.

Crew and v-neck sweaters with button down collar shirts were a popular look on campus.

The days of faded blue jeans and tie-dyed t-shirts are gone. Now students are dressing up and buying the more expensive tweeds and wools.

Madcap comedy hits campus

by Janet Helm

ABOVE: James Ernstmann, Pat Hentzen and Ted Lewis share crazy moments.
BELOW: John Belushi is the lovable glutton from "Animal House."

Steve Martin receives the Entertainer of the Year award.

Robin Williams is the spaceman from Ork in "Mork and Mindy."

"Saturday Night" star Dan Aykroyd plays President Carter.

The comedy craze of the '70s has made its mark on K-State.

Throughout the campus students were grooving and swaying with their impressions of Steve Martin. His cries of "I'm a wild and cr-a-a-a-zy guy" and "well ex-cuuuuu-se meeee!" became the most common phrases of the year.

One of the biggest movie hits of 1978 was National Lampoon's "Animal House." John Belushi — the grunting, belching Jello-snarling "Bluto" — became the nation's favorite slob and the idol of college students everywhere. Toga parties and food fights were just a part of the aftershock of the movie.

Television brought another campus favorite, "Mork and Mindy." Within weeks of the new TV season students were greeting each other with divided fingers and saying "nano, nano."

Robin Williams is Mork — the interplanetary visitor from Ork who arrives on Earth via an egg-shaped spacecraft. His earthling connection is Mindy, played by Pam Dawber. The fast-paced show includes many of Williams' unpredictable voices and rubber-faced expressions he used as a stand-up comedian. His routines include talking to his spacesuit and drinking water through his finger.

But the favorite of many college students is still "Saturday Night Live."

This, of course, is the show that introduced the family of invaders from outerspace — the Coneheads, and the gum-chomping newswoman, Roseanne Roseannadanna.

In its early days, "Saturday Night" was dominated by Chevy Chase, who has since departed. Now the glory is shared by the distinctive personalities of its cast.

The show's humor involves satire of news events and parodies of well-known personalities, with Dan Aykroyd as a bluejeaned Jimmy Carter and Gilda Radner as Baba Wawa (Barbara Walters).

Belushi is also a regular on "Saturday Night Live" and wins the same affectionate laughs he did in "Animal House." His "Saturday Night" characters include the samurai swordsman, who communicates only in streams of gibberish and frightening slices with his sword, and the Greek restaurant owner who reduces every order to "cheeseburger, chips, Pepsi."

Today's humor is often offensive, antagonistic and sometimes infantile — but it is good old college humor and students are thriving on it.

Facing a non-entity crisis

by David Greusel

Kansas State University puts a great deal of emphasis on sameness.

Everyone stands in the same lines to register, regardless of race, grade point average or letters won in football. Residence hall eaters are served grilled steaks manufactured to be the same weight within one one-thousandth of an ounce. Students in every major are subjected to at least three courses of stupefying sameness: Oral Comm. I, English Comp. I, and Concepts of P.E., whether or not they have any interest or disinterest in speaking, writing or jogging.

It is little wonder, then, that this story can attempt to distill the personalities of 17,000 K-Staters down to portraits of two "typical" students. The University has already done most of the work.

What are the identifying characteristics of the typical K-State student? What choices must an individual make to attain the pinnacle of sameness, the extreme of the mean and the maximum of the medium?

First, examine a fictitious female — the all-around average K-State coed.

She is a freshman. She is currently majoring in general, which is a waste of time because she plans to enroll in the College of Education next semester. She is (this, unfortunately, almost goes without saying) white, and her Social Security number begins with 512. She lives in Ford Hall, is kind of short (especially in comparison with the beanpole proportions of the average K-State male), and constantly fighting a weight problem that appears to be concentrated in her sitting muscles.

This semester she is taking Oral Comm. I (she failed the quiz-out), Theater Appreciation, General Psychology and Econ. I; the last was on the advice of her adviser — she hasn't the slightest interest in the GNP.

She was born in 1960 in Hutchinson, and has lived there all her life. (Well, not actually in Hutch, but on a farm near there. Well, it's really nearer to Halstead, but nobody knows where Halstead is.)

Her first name is probably Debbie, because Debbie Reynolds was so popular in 1960, and her last name is probably Brown, for no reason at all.

Debbie loves pizza, popcorn and "All My Children," and she truly believes Barry Manilow is a gifted musician. She dislikes classes, reading assignments and anyone from Marlatt Hall.

She drinks beer because everyone else does, goes to Aggieville with her friends in packs of six or seven and, even though she always dresses up for it, she has never accepted a beer or dance or been offered a ride home from any guy she has met at Mr. K's. She's hoping her luck will change.

Every Sunday, with Mr. K's green ink still on the back of her hand, she goes to 10:00 a.m. Mass at St. Isadore's. She's not Catholic, but that's where all the girls on her floor go.

She will earn her degree in elementary education in five years due to too many dropped classes and too many courses that are not part of her core curriculum. She will marry a man she met here, but who, curiously, is also from the Hutchinson area. Her biggest regret will be never being mentioned in a Collegian personal.

Debbie's male counterpart, the typical K-State man, is David Brown. He and Debbie are distant cousins, and seem even more distant now that they both live in the same town.

But they do run into one another every now and then, usually near Cardwell 101, where she has a 9:30 and he has a 10:30. He's taking Man's P World I, not because he really cares about the physical world, but because he needs to get a science elective out of the way. He's also taking College Algebra, Music Listening Lab and Fundamentals of Accounting. He, like his cousin, is majoring in general, but since he is a second-semester sophomore and still undecided, his adviser is beginning to put the pressure on him to decide. Unfortunately, David doesn't have the slightest idea what he wants to do with his life.

For the time being, though, he's perfectly happy. He parties all weekend every weekend, except when he goes home to Salina to visit his girlfriend, who's still going to Central High. (What she doesn't know about the blonde in his accounting class won't hurt her, he reasons.) He knows he can always get a job at Penney's when he graduates, although he hopes to do better than that.

But don't judge David too harshly. It's hard to look to the future when you have a test or term paper due every day. It's hard to sit down and sort out a workable plan for your life when there's always a car pulling out for Tuttle with one empty seat left. And it's especially hard to look at a lifetime of being stuck with mousy brown hair in Salina when the blonde in Accounting seems so . . . well, it's hard — take David's word for it.

When he's not partying or studying, he smokes some grass in his apartment and listens to Nitty Gritty Dirt Band. He knows both sides of Steve Martin's latest album by heart, and is all too eager to quote from the same. He doesn't eat well in his apartment, so he goes to Hardee's at least twice a week to get some "good" food in his system.

He camps out for tickets of any kind, not because he's a basketball or rock fanatic, but because camping out is the only real break in the weekly grind of living and playing college. One time he was even interviewed and photographed camping out, but they didn't use his quote or his story.

Thus has it ever been for David Brown, typical K-Stater. Constantly striving for notice, forever being shuffled back into the pack. His independent intramural basketball team won his division, but lost in the semi-finals. The one time he got a 98 on a test the curve was so high that 89 was a C. He's always maintained that he could have played football at K-State (he lettered in four sports at Central), but when the team announced a tryout for walk-ons, he got cold feet.

David Brown won't graduate. In that sense, he is not a typical K-Stater, because most do. But in the sense that he has gotten a real college education, that of living four or more years in a town with a shortage of parents, a surfeit of places and people to take your money and an abundance of real people living real lives, he is the typical K-State student. He has even learned something that many who graduate on schedule have not: the speaker at his high school commencement was right — you only get out of an education what you put into it.

Two can live as cheaply as one plus one

by Debbie Hagenmaier

I was a perfectly normal K-State student for almost three years. I took 15 hours each semester (plus some summer school), lived in an apartment one block from campus, worked to pay my expenses and became involved in "important" college activities.

Yes, I was your typical, everyday "college student" — until about a year ago, when I did something that changed my life. Oh, nothing as drastic as becoming a missionary or a Democrat: I just got married.

I guess it isn't me who's changed so much — it's my lifestyle. I have evolved into a person of little free time, little socializing and little money.

Free time has indeed become a scarce resource. I awake at 6:00 a.m. every morning, and after eight hours of classes and work I come home to an evening of fixing supper and washing dishes.

Then maybe, if I'm lucky, I get around to studying by nine o'clock. Usually, however, I'm so exhausted I fall asleep somewhere in the first paragraph of an Economics chapter. Many a study night has been wasted because I couldn't keep my eyes open. Needless to say, my G.P.A. has suffered.

It's kind of embarrassing. I can barely stay awake for the 10:00 p.m. news, weather and sports.

Take it from an expert, weekends don't mean rest and relaxation for the married student. There's always cleaning and laundry to be done. You would be aghast if you knew how many socks two people can go through in one week.

Sometimes, if I'm not too tired, I study during the weekend. But I honestly think there is nothing more depressing than studying a Saturday night away.

By the way, we don't go out much on weekends anymore. If we're not too exhausted, we're usually too broke.

Which brings me to my next point: married students do not have a lot of money. After all, a part-time job does not a wealthy person make — or something like that. Since marrying, I have put an age-old philosophy to rest: two **cannot** live as cheaply as one. Two people mean twice as much toothpaste, twice as much deodorant and twice as many sack lunches.

And maybe I'm finicky, but the thought of macaroni and cheese or Hamburger Helper every night is more than I can bear. I guess I'm a meat and potatoes girl at heart.

My husband and I don't wear the latest styles. Not because we're innately slow to catch on to new trends. Clothes are too expensive to buy, and we can't afford a sewing machine. Besides, who has the time to sew? But don't worry. We're doing okay, because we had sense enough to stock up on these items before we got married. There is usually no question about what to get each other for birthdays and Christmas — clothes.

Face it: there aren't many surprises in life after you marry.

Now, I consider myself a reasonably intelligent person. Nothing outstanding, mind you, just a person with common sense. But one thing I'll never understand is how we could afford to go out so often before we got married.

Looking back, I guess it was more a matter of impressing each other. We used to go out for a movie and pizza two, sometimes three times a week. Gosh, we haven't been to a movie since — well, it's been a while. Sometimes we would even go out for steak. My how times have changed.

It's hard enough just paying the bills. There's the grocery bill, the rent, the telephone bill . . . not to mention automobile insurance (for two cars, not one), health insurance and note payments — on and on.

The place for K-State married students to live is Jardine. It's not Park Avenue, but hey, what can you expect for a mere \$100 a month, utilities included? Anyway, married people supposedly like small, cozy places.

Struggles aside, being a married student is actually kind of nice. We married folks at K-State look to the future as a step up financially. In the meantime, it's nice having someone to talk to at the end of the day, even if only for a little while. And at 3:00 a.m., it's nice when someone gives you an understanding glance from across the room while you study.

The married student is just like any other K-Stater. You can't spot one in a crowd. If there is a difference, maybe it's that he's a little busier, a little more tired and a little happier than other students.

Julie and Bob Heimke were recently married and live at Campus East apartments.

After studying with Bob, Julie vacuums.

John and Dianne Franken, seniors, relax in their Jardine apartment.

Adjusting to campus barriers

by LeAnn Wilcox

"No otherwise qualified handicapped individual . . . shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance."

This statement is Section 504 of the Rehabilitation Act of 1973. How does K-State stand in regard to these regulations? According to several handicapped students, there is room for much improvement.

"I would characterize myself as being well-adapted," Donna Gore, graduate in speech pathology, said. "I have cerebral palsy, which is limited to my lower extremities. It's not a degenerate disease. It's damage to the motor area of the brain. The message just doesn't get to my legs."

Donna said her main problem concerning accessibility is with handrails. She needs them because of her distinct limp.

"Basically, I would say I have a hard time if there aren't railings, like in Anderson and Eisenhower. If I'm walking with someone I know, I ask them if I can use their arm, but you can't ask everyone," Donna said. "It prevents me from getting in places I need to get to."

Parking is also a problem. There are only 12 handicapped stalls on campus.

Donna is proud of her adjustment here from her home in Connecticut.

"I've made my own lifestyle here. I decided I had to get involved," she said. Donna is the president of a newly formed organization, Students for Handicapped Concerns. The purpose of the group is to make people more aware of a handicapped person's needs.

"We want to do tangible things on campus," she said. So far plans include the sponsoring of outdoor wheelchair races; holding a public awareness rally; a recognition banquet; films and field trips.

An inner-campus shuttle vehicle has been made available to handicapped students during the severe weather months, November through March. The Union has also agreed to buy a

wheelchair for use in that building only.

The national deadline for completion of all structural modifications is June 3, 1980. Jane Rowlett directs handicapped services at K-State. She said there are 148 handicapped students at K-State and 60 percent are veterans.

She said the University is working on compliance with Section 504 now, instead of waiting until 1980. The new accessible restrooms and ramps in Holtz Hall are examples of action being taken.

But only two buildings on campus, the Union and Farrell Library, are accessible to wheelchairs. Even Holtz Hall, the offices for handicapped students, has no bathroom for wheelchairs.

"It's risky to leave home and be in the middle of campus and know there's no restroom," Jane said.

But the constant physical barriers don't stop handicapped students at K-State.

"Every handicapped person makes all kinds of compensations just to survive daily," Donna said.

"There are periods when all of us feel sorry for ourselves, but I always think of how there are so many people who are worse off than myself."

Les Esry also thinks of those with more serious handicaps than himself. But Les doesn't consider himself handicapped. Les is a 38-year-old freshman majoring in general. He was in the army for 12 years, and during his stay in Vietnam, Les lost his leg below the knee and the hearing in his right ear. He now uses a wooden leg.

Since he is considered at least 50 percent disabled, the Veteran's Administration is funding his college education.

"College is difficult to get into after you haven't cracked a book for 22 years." But he can't envision himself quitting. "I don't give up," he said.

Les leads an active life including, among other things, tennis, bowling and bicycle riding.

"My wife and I went dancing the second day I had my wooden leg."

Donna Gore (left) seeks advice from Jan Rowlett.

Snow hinders campus accessibility.

His wife, Linda, said Les considers himself disabled only when it is to his disadvantage. "Like when I beat him in tennis."

He said he really can't remember what it's like not to have an artificial leg.

"If you were blind all your life you wouldn't know what light is, so you don't miss it," he said.

Janelle Edwards is a student who's been blind all her life. She said she doesn't dwell on it, but she can't help wishing she wasn't.

"I don't think you ever get totally over that. I mean, to learn to accept something is totally different than wishing it was never there."

Janelle is a sophomore and hopes to go into social work. She was valedictorian of her high school class of 2,000 in Wichita.

Some things are difficult, but nothing is really inaccessible to her, she said.

"Construction is a problem. I don't know which path to take. It gets hazardous. Snow will be a problem, too. The sidewalks will be buried."

Janelle has a Braille writer, which uses a system of six dots to form symbols for the letters of the alphabet.

Janelle said she thinks she may have been more outgoing if she hadn't been blind.

"Like, for instance, I never speak first, because I don't know if the person is there — it's the little things like that."

Janelle is a member of the Alpha Delta Pi sorority, so she leads a sociable life.

"We have functions, service projects, parties with other sororities and we raise money for philanthropies. There is a lot of emphasis on 'together.' I like the atmosphere. You get a lot closer to people and meet quite a few."

How have handicapped students been so successful at adapting to a sometimes restrictive environment? Perhaps the ability to laugh at oneself is a factor.

Jane recalled a conversation with a student with only one leg. She commented on a meeting they were attending, saying, "Now we are getting on our feet."

The student replied with a smile, "Foot, you mean."

Les has an appropriate philosophy of life.

"Walk softly and carry a big stick," he said. "Everybody should have the opportunity to live the way they want to live, as long as they don't hurt other people in the process."

Janelle Edwards, a blind student, uses a braille phone book.

Stairways are one of the barriers on campus.

'The joy of the Lord is my strength'

by LeAnn Wilcox

I walked into the crowded room of nearly 150 people. There was a friendly atmosphere. Everyone was singing and clapping as they tried to catch a smile about the room. A song popped into my head; the words went something like: "There's a sweet, sweet spirit in this place, and I know it's the Lord; there's a sweet expression on each face, and it's because of the presence of the Lord."

There are several organizations on the K-State campus for the development of faith. The list includes Baptist Student Union, Fellowship of Christian Athletes, Navigators, Campus High Life, Chi Alpha, Campus Crusade for Christ and many more Bible studies.

The Baptist Student Union at K-State is usually filled with students each Thursday night for a session of Bible study. The objective of the organization is "to exchange our lives to obey Christ in helping to win the lost and build quality disciples."

All who attend the meetings seem to have the same word on their lips — sharing. Each in some way needs to be soothed, to forget the frustrations, worries and insecurities many students encounter. They take each other in, some more openly than others, but all feel the warmth that has entered the room — the warmth of sharing.

A young woman stands in the front of the room. She strums her guitar and starts to sing. The gentle music dispels a quietening effect upon the group. Each applies his own meanings to the words.

Tami Johnson, senior in business administration, regularly attends the meetings.

"It serves several purposes for me," she said. "It allows me to meet other students with the same beliefs, which is fellowship. You can feel the love. And also the speakers are an instrument to my faith. I want to learn more about God. It always gives me a lift when I go.

"It gets me away from the hassles of studies."

Larry Hartman, director of Chi Alpha, is affiliated with the First Assembly of God church in Manhattan, where he is also director of Christian Education.

His group began last August and "is open to all people," he said.

"We have grown. It's been a good response." He said with the large student population, there is a strong need for such groups.

There are four basic ministries in Chi Alpha. "Number one, we worship God and praise his name," Hartman said. "Two, we teach. We train people in the way to live, which is discipleship. Three, fellowship. We get together and have interaction. We develop close bonds of love with each other. And the fourth is witnessing — trying to reach out to the non-Christian."

Allen Rogers, senior in architecture, is a member of Chi Alpha.

"It helps me in a lot of ways. You don't have the worries, as far as tests go. I'll go ahead and go to meetings even if I have a test the next day or a lot of homework. It always works out for the good. Time seems to stand still when I'm at the meetings."

Campus High Life meets frequently throughout the year. It is a relatively new group, forming in October of 1978.

Craig Wheeler, senior in agricultural economics, is student president. He said the purpose of the group is to have a Bible study without injecting religious beliefs.

"Religion and spiritual talk with the Lord don't interact. Religion seems to bind you with doctrines. We want to get away from that," Wheeler said. "We want to walk with the Lord spiritually, financially, socially and emotionally."

Wheeler said the group believes in all the gifts of the Holy Spirit: love, joy, peace, patience, kindness, goodness, and self-control.

About 40 people regularly attend the discussions. They sing and study the Bible in an attitude of worship and of receiving from the Lord. Wheeler said many people question the validity of the Bible, saying it contradicts itself. He said his group reads and studies the Bible; it's when it is taken for face value that splits are caused, he said.

There are also several off-campus groups who meet regularly in Bible study.

Kathy Holt, senior in restaurant management, belongs to one. She said they meet frequently throughout the week for study and prayer.

"It's the only way I've survived. It's helped me socially, getting to know people in a good environment (different from Aggieville)," she said.

Why should a person become involved in these groups?

"I'm with this group because it's where I'm happiest and most productive — spiritually and scholastically," Holt said.

What lured you

Why did you come to K-State?

Was it because you cherished the thought of waiting in mile-long lines to register in Ahearn "sweatbox" Field House? Or did K-State's winning football tradition draw you to Manhattan, U.S.A.? Maybe it was that insatiable craving for the Derby cuisine that brought you here.

Or did "Silo Tech" merely sound less offensive than "Snob Hill"?

Just why **are** you here?

— "It was a family tradition," Jack Reichenberger, a senior in engineering technology, said.

— "My great-grandparents came to K-State and met each other and got married. My grandparents came to K-State and met each other and got married. My parents came to K-State and met each other and got married. And I came to K-State, and I'm running out of time," Diane Nace, a senior in business, said. "I had to come to K-State —

it's a tradition."

Some students came to K-State for just the opposite reasons.

— William Hammond, a sophomore in pre-medicine from Kansas City, decided K-State was the place to attend college because it was farther away from home than KU.

— "I wanted to be away from home but close enough so I could go home if I needed," was Tami Farr's reason for choosing K-State.

Students also said their decisions stemmed directly from their knowledge of K-State's various colleges.

— "There are several good agricultural schools in the U.S.," Bruce Schlickau said. "I think KSU has the best undergraduate animal science program in the country. I feel they have outstanding teachers and a very good intercollegiate livestock and meats judging program."

— Jim DeGeer chose K-State be-

here, student?

cause he "felt it had the best college of agriculture in the country."

— "K-State is one of the best architecture schools in the region," Mikael Powell, a student in architecture, said.

And then there are the students who come to K-State for personal reasons.

— Frank Seegraber, a graduate in animal science, came from Boston, MA. "I always wanted to go to a school that was surrounded by silos," he said.

— "Playboy magazine once voted K-State as having the best-looking girls in the Big-Eight," Brad McDonald, a junior in finance, commented.

— Kelly Kuehl chose K-State because "I didn't want to go out of state and I didn't want to go to KU."

— John Murry, a senior from Manhattan, said he decided to stay close to home. "K-State has the most unsurpassed quality education in the midwest — and it's cheaper than hell."

Some people are attending K-State

because of it's small-townish atmosphere.

— "Personally, I came to K-State because of the friendly people that are here. You can always expect a smile. KSU also has a good academic and social atmosphere," Sam Brownback, student governing association president, said.

— Donna Towers came to K-State from North Carolina. "Kansas is a place of great opportunities," she said. "It has the diversity of the big cities and the friendliness of rural towns. Manhattan is the kind of place where people feel 'at home' no matter where they are from."

Did you come to K-State to be with your friends? To catch a man (or woman)? To get an education? Or just to "find" yourself?

What really matters, when it comes down to it, is not **why** you're here — just that you **are** here.

K-State runner Greg Barron encounters a waterpit, one of the obstacles in the steeplechase race.

K-Stater Jeff Rosenow leads and Tom Vernon follows.

K-State's Joe Ryan strains to beat KU's Anthony Coleman during a surprising '78 men's track season.

Track team finishes third

Despite a young, inexperienced team and untimely injuries, K-State men's track team came up with a surprise finish in the 1978 season.

The Wildcats finished third in the Big 8, after being previously picked to place fifth or sixth, according to coach Mike Ross. The most crucial injury just prior to the Big 8 Outdoor was to Ray Hanf, who was "probably the best quarter-miler on the team at that time," Ross said. Hanf was expected to run the open 440-yard dash and compete on the mile and quarter-mile relay teams.

"In that meet, the field events probably saved us," he added. "We scored 78 points, and 59 of those points came in the field events."

Ross pointed to the javelin and triple jump as the two key events in the 'Cats effort.

In the javelin, Frank Perbeck was the Big 8 champion and had a best of 263'2", the fifth-best throw in the nation. Freshman Joe Bramlage took second in the javelin, and Perbeck's younger brother, Mark, took fifth.

K-State went 1-3-4 in the triple jump, with sophomore Vince Parrette taking first by jumping a school record 53'1". Keith Linck took third and Kevin Sloan took fourth.

"Those two events combined added up to around 40 points," Ross said.

In the other field events, Sloan took second in the long jump and Ray Bradley finished third in the shot put.

K-State's highest running event finish in the Big 8 Outdoor was Ed DeLashmutt's second-place, 3:46.4 1500-meter run.

Although most of the meets were disappointing for the young team, an early highlight was the Sooner Indoor Invita-

tional, in which both the men's and women's teams performed well. The men finished second to the University of Kansas in the meet, which brought together four Big 8 teams and four Southwestern Conference teams.

"In that meet, we had a surprise from the sprinters," Ross said. "We had a very young sprint crew, and at the time they were healthy and did very well for us."

K-State's score in the OU meet was 122, only 15 points behind the Jayhawks.

Sloan set a meet record of 24'6½" in winning the long jump, DeLashmutt won the mile, Doug Knauss and Ron Nofsinger went 1-2 in the pole vault, Parrette and Linck went 1-2 in the triple jump, Willie Major took second in the 300-yard dash and Bradley took second in the shot put to key the 'Cats effort.

Oklahoma was apparently good luck for K-State, because the Wildcats beat the Sooners again in a dual meet in Manhattan two weeks later.

This time, surprise performances from distance runners brought K-State to victory. However, the outcome was uncertain until the last race, the mile relay. K-State nipped Oklahoma at the tape to secure the win.

The Big 8 Indoor brought only one pleasant surprise — when freshman Bill Tanner took second in the 440 by one one-hundredth of a second behind Dele Udo, a Nigerian Olympian running for Missouri who had posted the second-fastest time in the world. K-State finished fifth in the meet.

During the outdoor relays circuit, in which the Texas, Kansas and Drake Relays draw many of the world's best

athletes, K-State displayed some outstanding performances.

Parrette was the Kansas Relays champion in the triple jump, and the mile relay team took fourth at the Kansas Relays and third at the Texas Relays.

However, the Wildcats were not strong as a team between the two successful indoor meets and the last meet, the Big 8 Outdoor. The 'Cats lost outdoor duals to Missouri and KU, and finished last in a quadrangular meet held in Austin, TX, with Texas University, Texas Tech and Louisiana State University.

Three Wildcat track team members picked up experience last summer as the result of their excellent spring performances. Bramlage went on a Russian tour with the U. S. Olympic team and competed during the summer, which will "help him quite a bit," Ross said.

The U. S. Olympic Committee sponsored Olympic training camps in which the top 12 national prospects in each event met for competition. Perbeck and Bramlage were among those invited to the throwing camp in Houston, TX. The meeting for the jumping events, which Parrette attended, was held in Colorado Springs, CO.

With a young sprint crew and some nationally-recognized athletes like Parrette and Perbeck in the field events, K-State's prospects for next year look hopeful. Parrette's 1978 performance, which erased several triple jump records, may improve to the 55-foot mark, which is considered world-class, Ross said.

Janice Stucky winds up to release the discus.

Injuries biggest opponent

The 1978 women's track season was supposed to be characterized by a young group of speedy sprinters who would add strength to a team which traditionally has powerful middle and long-distance runners.

However, key injuries reversed the picture.

"Most of our problems were due to injuries," coach Barry Anderson said. "Jan Smith, Freda Hancock, Renee Urish and Cindy Worcester were all national-caliber performers but were either lost for the season or slowed at one time or another. It was generally a disappointing season."

Most of the women who were injured at some time later in the spring were healthy for the Air Force Invitational.

Smith, Hancock and Wanda Trent swept the 60-yard dash, finishing 1-2-3, respectively. Trent and Smith also teamed up in the 300-yard dash, with Trent winning and Smith taking second. Hancock, a freshman from Pueblo, CO, won the 440 and showed her home state why she won All-American honors in high school.

Other first-place finishers were the mile relay team and Linda Long in the shot put.

The final team scores showed K-State way out in front, 120 to 60 over

second-place Colorado.

Another success for the women's team was the first meet of the year, the Sooner Relays, in which the Wildcats out-distanced second-place Oklahoma University by 49 points.

Winners in that meet were Patty Bundy in the high jump, Lorraine Davidson in the long jump, Hancock in the 440, Janis Rupe in the 880 and the mile relay team of Trent, Davidson, Worcester and Hancock.

Victories aside, the rest of the year featured some strong individual — but not team — performances, according to Anderson.

In the Big 8 Indoor, K-State finished a disappointing fifth place. A brilliant individual performance was turned in by Hancock, however, as she won the 440 and set a new Big 8 record of 56.7 seconds.

Other individual highlights were Diane Moeller's winning performance in the Big 8 Outdoor high jump and Renee Urish's performance as the Kansas Relays 1500-meter champion.

"It was one of the few races she (Urish) was able to run all year, so we were happy with that," Anderson said.

The sprint medley teams also ran well, placing seventh in the AIAW national outdoor meet. The mile relay

team set a school record in the prestigious Texas Relays.

In the Big 8 Outdoor, injuries prevented good individual and team performances.

"We had a very good first day, and we were in a position where we could have easily finished second, but Jan Smith got hurt (hamstring pull) in the first event in the finals and that cost us a lot of points," Anderson said.

The future looks optimistic for the women's track team because of the quality young sprinters who performed well in the spring.

Anderson praised Hancock, who broke school records in the 200- and 100-meter dashes and ran the ninth-fastest time ever for an American woman in the 100-meter dash; Davidson, a freshman who ran consistently in the 200-meter dash and Wanda Trent, a sophomore, who ran well all season in dashes from 60 to 440 yards.

Urish, who finished tenth in the national 1500-meter run with little training because of injuries, will also return next year.

Anderson said Smith will be difficult to replace because of her experience in the sprints, especially in a situation like the '78 season, in which the 'Cats youth and inexperience "showed up a lot."

Alice Wheat leads early in the 5,000-meter run last spring, but didn't place in the top five.

Throwing with all her might, Melony Beneke finishes third in the shot put last April.

Candie Gwinn concentrates on her backhand swing.

Netters gain ground

K-State tennis hadn't yet "arrived" in 1977-78, but coach Steve Snodgrass said both the men's and women's teams progressed.

"I think we've got to compare last year to 1976, when we were under .500 in dual matches and finished last in the Big 8," Snodgrass said about the men's team.

"Last year, we picked that up to 12-11 on the season and sixth place in the Big 8.

"You may think that sixth place is not very good, but you have to remember that we're working with the same players and they improved over the year," he said.

Two of the players who led the Wildcats in their "step up" were Jeff Hall and Matt Westfall, the most improved players, according to Snodgrass.

"Jeff Hall turned out to be a very mature and improved player," he said.

Pam Boggs reaches for a return hit.

"Westfall played the guy who eventually won the Big 8 at the number five position and almost beat him."

In team play, Snodgrass said he was especially pleased with K-State's comeback in beating Iowa State and Nebraska in the Big 8 tournament after losing to them in duals during the season.

Other improved players who were a vital part of K-State's success were Greg Last, who played number two singles and went 10-13 overall; Doug Reinhardt, who played number three singles and went 5-10; John Cope, who was 10-13 at number four singles and Dave Krizman, who went 12-9 at number six singles.

Snodgrass said the scheduling philosophy, which included matches against small schools and Big 8-size schools, was designed to build confidence through winning but still match up against quality competition.

The team won impressively over several small schools, including Central State, Southwestern College, Washburn and the Universities of Texas at Dallas and Arlington.

The women's team also improved by much the same principle. Most small colleges play their heaviest schedules in the fall, so the K-State team was able to rack up an impressive 9-5 mark in fall competition.

Their start was especially promising, as the Wildcats beat Wichita State 6-3, then crushed Bethany, Emporia State and Washburn 9-0 during the next two weeks.

However, K-State's women weren't able to fare as well against Big 8 competition in the spring. They finished last in the final Big 8 standings.

Snodgrass, who coached both women's and men's teams last year, said the women had some individuals who were forced to play against more skilled and experienced players, and therefore had losing records.

"Pam Boggs and Mary Lou Kultgen did all right, but didn't really score well at all in the Big 8. Those top two girls probably would have been real good playing (positions) three and four, but playing one and two, they just weren't strong enough to compete with the other schools' number one and two players, Snodgrass said.

Kultgen and Boggs were the only two women players to graduate, so the team should continue to improve, according to Snodgrass. The other, younger players also picked up some valuable experience and will continue to learn, he said.

Emily Cohn, Nancy Duffin, Laurie Friesenborg, Candie Gwin, Janice Stanton and Ellen Sterner all improved from the fall to the spring season, Snodgrass said.

The men are also returning most of last year's team, with Hall being the only graduate. Snodgrass said both teams will be better off because of a new coaching system.

The 1978-79 season saw Snodgrass coaching only the men's team, with David Hacker heading the women's team.

"Now when the women get back from a match, they have someone to help them correct their mistakes and go over the match," Snodgrass said.

"Before, when I was coaching both, I would get back from a match with the women and have to immediately begin preparing the men for their next match."

Anyone can play

“Participate in intramural sports in your spare time for fun, friends and fitness,” could be the motto for the K-State intramural program.

“I think it’s a good way to get involved and meet people,” Elaine Granberg said.

“I wanted something to do — a way to get involved in some kind of activity,” LaSonja Hook said. “It’s good for the experience you get with others and the exercise you get.”

Organized living groups and independents are eligible to participate in the K-State intramural program. Competition takes the form of men’s, women’s and co-rec teams. Students, faculty and staff participate in team activities and individual events.

Organized groups battle for an all points trophy which travels among division winners. Points are compiled for each event; winning teams receive 21 points, losers get 7 points. One point is even awarded for showing up. Extra

points are awarded to division champions and runners-up. Points can be lost, too; a team who forfeits a game loses 25 points.

In 1978, Gamma Phi Beta won the women’s division. The American Veterinary Medicine Association (AVMA) won the trophy for the independents and Marlatt 2 captured the residence hall division title. For the 12th straight year, Beta Theta Pi won the fraternity division.

The winner of each sport receives a t-shirt proclaiming him “intramural champion.”

Some find competing in team sports a way to get to know members of their organizations or living groups.

“You get to know your fellow residents. You meet new people and you get closer to the ones you do know,” Becky Gutierrez said.

As Glenna Hildebrand said, “It’s just plain fun!”

Polly Green whirls the horseshoe at its target.

LEFT: Marcia Dryden grimaces during a kickball game. ABOVE: Patty Bambick scrambles to throw the football.

Crew gets little glory

K-State crew members receive no scholarships and little glory. There are no huge crowds of screaming fans to keep them going near the end of a race.

The only real satisfaction they get is from being winners and getting into better shape than most other athletes.

They train every day during the fall and spring — weather permitting — at Tuttle Creek Reservoir. Even when ice covers the lake, crew members are working out, running and lifting weights in order to prepare for the grueling spring season.

The only K-State team that lost was the men's lightweight four, which lost by only one length.

Winners were the women's varsity four — Barbara Kocour, Barbara Stansfield, Sherri Voss and Jan Rickey; the men's varsity eight — Kevin Hankins, Blair Richter, Dane Jacobson, Pete Skoog, Ron Kelpé, Clay Story, Bill Blaschke, Jack Zimmerman and Janet Lisson, coxswain. K-State also won the novice men's eight, women's varsity four, women's novice eight and the men's open singles, with Cliff Elliott taking first.

The Wildcats performed well at the Midwest Regional Sprints in Madison, WI, but faced stiff competition against 22 teams.

The best 'Cat performances were

turned in by the men's novice four, who finished fourth, the men's novice eight, who took second in the consolation bracket and Jerry Arnold and Elliott who took fourth and fifth, respectively, in singles.

The Big 8 Championships at Manhattan were marred by the weather, but K-State managed to tie for first with the University of Nebraska.

Heavy rains made it impossible to run three of the races, but K-State won enough points for first by winning the men's varsity eight in 6:50 and the men's lightweight varsity four in 7:56.

The women's varsity eight and the men's novice eight took second, and the men's novice four took third in the Big Eight.

The team's last regatta of the year was the Intercollegiate Rowing Association National Championships at Syracuse, NY. Last year, K-State had its first medalists in six years, but they were unable to match that accomplishment in 1978.

The men's team had an unusual leader during the season, Janet Lisson, who served as coxswain for the men's varsity eight. The coxswain is responsible for the rhythm and steering of the 65-foot-long, 350-pound boat which reaches a speed of 15 miles per hour.

The K-State Crew carry their shell to water.

The K-State Crew stroke at Tuttle Creek Lake in preparation for the Oklahoma regatta, April 1, 1978.

DeLoss Dodds has come home, and with his return he brings a new image of the K-State Athletic Department.

The search for a new athletic director began last May, after K-State president Duane Acker asked John "Jersey" Jermier to resign. Acker cited management problems related to ticket sales, housing of athletes, student-athlete health services and fund-raising as the key issues behind Jermier's dismissal. Dodds accepted the position in mid-July.

K-State athletics have been plagued with continual problems in the past few years, the most recent being an NCAA probation slapped on the Wildcat football team last spring and controversy over Title IX concerning women's athletic funding.

"K-State must gain the confidence of the public and establish integrity," Dodds said. He plans to accomplish this by running a fair and open athletic department.

Dodds' first association with the university was as a student. A native of Riley county, he originally came to K-State on a football scholarship, but his sophomore year he received a track scholarship. At the Big 8 track meet in 1958 Dodds won the 440-yard dash and anchored two mile-relay teams to victory. He graduated from K-State in 1959.

Dodds took the job of head track coach in 1963, where he remained for 14 years. During his tenure, K-State had two indoor track and four cross country championship teams. When former athletic director Ernie Barrett

was dismissed in 1976, Dodds took the reins as acting athletic director.

Dodds left K-State to become associate commissioner for the Big 8 Conference office in Kansas City. There he supervised tournaments and various athletic events, and served as a communicator between the coaches of Big 8 schools and conference headquarters.

"Working in the Big 8 office, you had to be for everyone, and I like being for just one team (K-State)."

The spirit and enthusiasm of K-State fans took a change for the better this year. Dodds attributed this in part to the new football coach Jim Dickey and his "Fill 'er up with Wildcats" philosophy.

"You can't help but like him," Dodds said.

The financial situation of the athletic department has also improved. A greater emphasis is being placed on ticket sales and other fund-raising activities.

Dodds recognizes the need for a new fieldhouse, and foresees its approved construction in the near future. K-State is one of two Big 8 schools who does not have a new fieldhouse, the other being KU. Dodds sees this as a definite disadvantage.

"Everyone who wants a basketball ticket isn't getting it," he said. "Several students and alums have to be turned away each year because of the shortage of seating space in the fieldhouse."

A new system was devised for the distribution of basketball tickets this year. Tickets went on sale at three different locations for three different types

of tickets — individual reserved, individual non-reserved and group tickets.

"The most important thing about this new system is it was devised and planned by the students," Dodds said. The Intercollegiate Athletic Council (IAC) and Dodds approved the student plan for ticket sales.

As athletic director, Dodds is in charge of scheduling all activities and events of intercollegiate athletic teams and handles the hiring and firing of K-State officials. Dodds used this authority early last fall when he fired assistant athletic director Bones Nay. Dodds decided to divide fund-raising activities across Kansas between two people; before, Nay had sole responsibility for fund-raising.

One pressing problem for Dodds has been the Title IX suit filed against K-State athletics.

"First of all, no coach feels as if their team is getting enough (funding)," Dodds said. "My goal is to promote and support all athletic programs so they can successfully compete in the conference and in the nation."

DeLoss Dodds is a friendly, easy-going man, who is deeply concerned with and committed to K-State athletics. Dodds understands K-State people, and K-State people admire Dodds.

He takes a minute from his busy schedule, sits back in his easy chair with pipe in hand and reflects: "K-State has by far the best fans in the world ... they're great and they can win the games for us."

DeLoss Dodds plots K-State's athletic future.

Dodds is back home

Sweet sound of success

K-State Band Day, held Sept. 30, saw the Wildcats display a persistent defense and an offense that racked up 450 yards for five touchdowns in defeating Air Force 34-21.

The sunny day treated 30,300 fans to an exciting game, with 6,700 musicians performing at halftime and the first K-State win in KSU Stadium since 1976.

The fans were discouraged at the start, however, as Air Force scored first on a 49-yard field goal. But the 'Cats marched back to lead for the first time in the season after a perfect Dan Manucci pass hit Charlie Green for a 56-yard touchdown.

A few minutes later, the K-State passing attack treated the fans to more excitement on a 63-yard touchdown strike to Eugene Goodlow.

Even when the 'Cats didn't score, they provided thrills. Goodlow ran the kickoff after an Air Force touchdown to the Falcon 26-yard line. A shoestring tackle as the clock ran out saved the

touchdown for Air Force.

The Falcons wouldn't give up in the second half, even after K-State went ahead 27-9. They scratched back to 27-21, and were threatening to mount a long drive in the closing minutes when the K-State defense showed some character.

Air Force was at K-State's 44 on a third down and three. K-State stopped the cadets short of the first down, but had to come up with another big play as Air Force went for the fourth and one. The quarterback roll-out, with Dave Ziebart having the option to run or pass, had burned the 'Cats all day, but this time the K-State defense sacked Ziebart for a loss.

Manucci needed only eight plays to engineer a 58-yard drive, scoring on a one-yard run that put the game out of reach.

K-State had won its first game in 11 attempts, and sent home a satisfied Band Day crowd.

Coach Dickey concentrates on the game strategy.

Protection is a key as Manucci attempts a pass.

Teammates greet Roosevelt Duncan after he scores the first touchdown against Auburn.

A new team—a fresh start

K-State football started off its 1978 season with a new look — not one of a dynasty-building powerhouse, but that of a wide-open, never-say-die team.

One of the reasons for this new look was new head coach Jim Dickey. He brought with him a winning attitude, and an ability to motivate players while maintaining a relaxed atmosphere through his special brand of humor.

K-Staters knew they would be welcoming a witty man at the outset when K-State President Duane Acker told the coach the school hadn't won a football championship in 43 years. Dickey replied, "I promise if I don't win one in that length of time, I'll resign."

However, humor and rapport with players didn't immediately add up to a winning formula. The Wildcats opened their season against Arizona and lost

31-0.

The 'Cats were unable to mount any substantial running attack in the game — only 27 yards. One bright spot for K-State in the game, as well as throughout the season, was the play of quarterback Dan Manucci. He connected on 14 of 21 passes for 110 yards, and Sheldon Paris, who played most of the fourth quarter, completed 7 out of 10 for 71 yards.

However, Arizona's attack crushed the young K-State defense from the start. Arizona scored on its first possession, mainly racking up yards on the ground via the option play by quarterback Jim Krohn.

"We just got beat by a better team," Dickey pointed out. The Arizona Wildcats rolled up 300 rushing yards and 72 passing yards.

The home opener against Auburn Sept. 16 gave K-State Parent's Day fans something to yell about for the first time in a long while. The first half looked like a repeat of the Arizona slaughter, as Auburn led 35-12, making the Wildcat defense look porous while on the way to 449 yards of offense.

Auburn took advantage of K-State errors several times in the first half. Wildcat fullback Roosevelt Duncan fumbled on K-State's second offensive play of the game and Auburn recovered. Six plays later they had points on the board. Then a Manucci pass was intercepted and Auburn scored in two plays.

A defensive error in the first half also cost the Wildcats. Two defenders collided in the end zone, allowing Auburn receiver Rusty Byrd to catch the de-

Cheers from the K-State coaches spur the team on.

Coach Dickey and the team give thanks after beating Air Force 34-21.

flected ball for a touchdown.

However, K-State came out looking like a different team in the second half. The defense held on several occasions, and the offense, which had sputtered and shown little excitement in the first half, came alive.

The 'Cats scored three touchdowns in the second half while holding Auburn to only 10 points, which brought the final score to 45-32.

Manucci played a superb game, completing 19 of 37 passes for 343 yards. Charlie Green had five catches for 121 yards and a touchdown and Eugene Goodlow had three receptions for 92 yards and a touchdown. The running attack showed some promise, as tailback Mack Green ran for 88 yards. The team had 507 yards of offense, the seventh best in the school's history.

Expectations of a rout at Tulsa were floating around Manhattan after the 'Cats good performance. Many thought K-State could easily handle Tulsa, who was undefeated, but not feared because the Missouri Conference was considered much less powerful than the Big 8.

However, it didn't take long to see that K-State wasn't going to repeat the previous week's offensive or defensive performance. Tulsa won 24-14.

Another quarterback looked strong against the Wildcats. Tulsa's Dave Rader put the Golden Hurricane on top in the first half with a 39-yard pass to Jerry Taylor, and later set up another touchdown on a 24-yard pass to Taylor to make it 14-0 at the half.

But the 'Cats didn't come out of the locker room and storm back this time. Instead, Tulsa continued to dominate

and went ahead 21-0 on a one-yard run by second-string quarterback Bill Blankenship.

K-State scored first in the third quarter after a Rader fumble. The one-yard touchdown was run by Tony Brown.

Tulsa then kicked a 36-yard field goal, and K-State didn't score until the game was out of reach. Goodlow's punt return to the Tulsa 37 set up the scoring drive which was capped by a one-yard touchdown run by Duncan.

Manucci had another good day, but not good enough, as Tulsa rolled up 180 rushing yards and 195 passing yards.

The part of that game which hurt the most was lack of effort, according to Dickey.

"I thought we looked very bad in losing. We had no pride," he said.

'Cats display strong offense

But the offensive show which started with the Auburn game came to life once again Sept. 30 against Air Force. The Wildcats rolled up 450 yards of offense against the Cadets and won 34-21.

"Air Force is a very intelligent team and they don't make many mistakes," Dickey said. "But it was definitely one of our better games. We didn't make many mistakes, either."

Air Force drew the first blood with a 49-yard field goal by Jim Sturch, but the 'Cats came back and struck quickly with a 56-yard touchdown pass from Manucci to Green and a 63-yard touchdown pass from Manucci to Goodlow.

K-State came out of the locker room for the second half and immediately put together a 77-yard drive which was capped by Manucci's one-yard touchdown run. The game appeared out of reach when Manucci scored again on a 32-yard run in the third quarter to make the score 27-9.

Air Force again fought back, however, as 30,000 Band Day fans anxiously watched the gap close to 27-21.

But K-State's offense never quit,

scoring once again on a Manucci one-yard plunge after a 58-yard drive.

Dickey praised the K-State running game and receivers Green and Goodlow.

"Our offense is getting better each week," he said.

Green led the K-State running attack with 123 yards and Manucci completed 10 out of 12 passes for 221 yards.

An even sweeter victory for the Wildcats came the next week, when they defeated Oklahoma State 18-7. Not since the Vince Gibson days in 1974 had K-State beaten a Big Eight opponent (Colorado); this time it was the defense rising to the occasion to play the key role.

"I can't say enough about our defense," Dickey said. "It was a super effort by a lot of people. I can't single out anybody."

The Cowboys were held to only 68 first-half yards and 156 for the entire game, while K-State racked up 327 yards.

K-State's opponent again scored first, on a quick 5-play drive following a

Wildcat fumble on their own 19-yard line.

The 'Cats' first score came on a 73-yard drive in the first quarter, with Mack Green going in from the two-yard line.

A confusing call by the officials nullified an apparent ten-yard score by Green in the second quarter. One referee blew his whistle too early, apparently thinking Green had scored when he had actually crossed only the five-yard line. Although Green spilled on into the end zone, the play was called back. The 'Cats made up for it, but only after exchanging fumbles with Oklahoma State. Green ended up scoring on a ten-yard run after all.

The defense, led by tackle Chester Jeffrey and safety Sam Owen, rose in the second half and repeatedly held Oklahoma State.

The Wildcats' last score came on one of Manucci's patented bombs to Goodlow, this time a 50-yarder.

"It was a Big Eight game and meant a lot more than Air Force last week," Manucci said.

Jim Miller grimaces after missing a catch in the Air Force game.

ABOVE: A defender caught this one, but Eugene Goodlow had 20 for the year.
BELOW: Miller is up ended after a reception.

Dickey promised to bring "fun" back to Wildcat football.

'Cats struggle in mid-season...

With two consecutive wins under their belts, the Wildcats went into their Oct. 14 game at Nebraska with an optimistic attitude and hopes of a good showing or even an upset. Unfortunately, it was to be the beginning of a four-week slump which saw the 'Cats outscored by Nebraska, Missouri, Oklahoma and Iowa State 183-47.

The 'Cats showed they still had a long way to go before they could challenge the "big boys" in the top half of the Big Eight standings.

The 183 points given up by the 'Cat defense was probably particularly painful to Dickey, whose 1977 North Carolina team gave up only 81 points all year.

Against Nebraska, K-State trailed just 14-7 at the half, but the Cornhuskers, whom Dickey called "much more physical than we are," rolled up most of their 606 yards of total offense and buried K-State in the second half, winning 48-14.

Nebraska's defense also dominated the game, holding K-State to seven yards on the ground.

Manucci continued to play well, however, hitting 11 of 25 passes for 244 yards. Charlie Green nabbed two passes for 64 yards and Goodlow had four catches for 156 yards, including an 87-yard touchdown throw.

Expectations of a close game with Missouri vanished on Oct. 21 as 24,500 disappointed Homecoming fans saw the Tigers demolish the Wildcats, 56-14.

The first half was close, with Missouri leading only 21-7 at half-time, in a shoot-out between the two offenses.

Mistakes plagued the 'Cats and allowed Missouri to easily score twice after K-State put the first seven points on the board. The first Tiger score came on a 37-yard drive after an interception of a Manucci pass. A Wildcat trick play backfired and allowed Missouri to go ahead 14-7 in the second quarter. On fourth down, punter Don Birdsey attempted a pass to Darryl Black. The pass was too short, and Black had to run back toward Birdsey to catch it and was trapped for a loss.

Missouri quickly marched 23 yards for a touchdown.

"The game's not over yet" could have been the thought echoed as the Wildcats scored on their first possession of the second half. However, Missouri's offense, which out-performed K-State's 474 yards to 281 yards, proved to be too powerful for the Wildcat defense.

Running backs Earl Gant and James Wilder repeatedly punched holes in the Wildcat line. Gant finished with 103 yards on only seven carries and quarterback Phil Bradley rushed for 67 yards and passed for 148.

The Oklahoma Sooners, rated number one in college polls at the time, justified their ranking against K-State

on Oct. 28, winning 56-19.

Oklahoma halfback and 1978 Heisman Trophy winner Bill Sims ran through, over and around the K-State defense for 202 yards on 25 carries as the Sooners accumulated 520 yards of total offense, 465 rushing.

The only bright point was the Wildcat rushing attack, which netted 269 yards. Manucci was shut down, gaining only 64 yards passing and throwing four interceptions.

After the game Dickey was asked to compare Nebraska and Oklahoma: "It's like the Atlantic and Pacific — both will drown you."

Sheldon Paris meets Iowa State defenders as he fades back to pass.

football

...but finish big

The south stands were scant during the CU game.

Fans cheer the 'Cats to their whipping of KU.

Manucci finds a hole in the 36-20 win over KU.

Injuries to the Wildcat offensive line and quarterback Manucci hurt the 'Cats badly in the 23-0 loss to Iowa State. Ernie Navarro and Malo Entuni, offensive guards, were hurt for the rest of the season, and the Cyclones totally dominated the makeshift offensive line which the 'Cats fielded.

"I want to believe we're better than we are," Dickey said after the game. "Maybe we're just not very good."

Dickey was not convinced otherwise in the Iowa State game, as the Cyclones had 21 first downs to K-State's 10, 269 rushing yards to K-State's 97 and 170 passing yards to K-State's 55.

The combination of poor recent Wildcat performances, expectations of a strong performance from a Colorado team which beat Missouri and cold, rainy weather brought out only 13,000 fans to the Nov. 11 game with Colorado.

But the loyal fans who did attend were in for a pleasant surprise, as both the Wildcat offense and defense played

superbly in beating the heavily favored Buffaloes 20-10.

The game started out in the expected fashion, with Colorado leading 10-0 at halftime. In the second half, however, the Wildcat defense turned in its best performance of the season, shutting out Colorado while allowing them to penetrate into K-State territory only once.

The Wildcat offense was led by L.J. Brown with 138 yards on 19 carries and four catches for 64 yards.

The revamped offensive line, with tight end Miller moved to guard, controlled the Buffaloes all afternoon. The 'Cats had their way from the beginning, marching 85 yards in 19 plays and eating up ten minutes from the clock on their first possession. That drive came up empty, but the Wildcat offense received the needed spark in the third quarter when Charlie Green scampered 73 yards for a touchdown on a punt return.

"That punt return by Charlie really turned the ball game around," Dickey

said.

Soon after, K-State recovered a fumbled Don Birdsey punt; Roosevelt Duncan scored two plays later to put the 'Cats ahead 13-10. Brown scored from 30 yards in the fourth quarter to ice the second K-State conference win of the season.

But the big game came a week later. The University of Kansas had five wins in a row against K-State, but were struggling through a one-win season when they came to Manhattan Nov. 18.

The 'Cats wasted no time in getting revenge as they stormed to a 30-0 lead on their way to a 36-20 victory over their arch-rivals, which probably would have made the season seem successful even without the other Wildcat wins.

Tony Brown scored two touchdowns, Jim Ginther hit a 24-yard field goal (the only Wildcat field goal all season) and Manucci hit Green on a 45-yard pass to build the 30-0 lead.

A black and white photograph capturing a dynamic moment during a football game. In the center, a player wearing a light-colored uniform and a helmet with 'KSU' on it is being tackled by a player in a dark jersey. The player in the light uniform is holding a football. To the right, another player in a light uniform with a helmet featuring 'CU' is also visible. The background is filled with a blurred crowd of spectators, suggesting a large stadium setting. The image has a high-contrast, grainy quality typical of older newspaper prints.

Dickey proved himself to be on the way to greater success, as the 'Cats compiled a 4-7 record overall and 3-4 in the Big Eight to tie for fifth place. Dickey's record was the best first-year mark for a K-State football coach since Bus Mertes's 4-6 record in 1955.

Early road schedule tough

Kim Price and Gayla Williams hustle for the ball against Long Beach.

Kim Price guards a Nebraska player. The 'Cats won the game 77-71.

Tami Johnson tried to dribble past a Nebraska defender on Dec. 5.

Laurie Miller disrupts a lay-up attempt.
Gayla Williams leaps to block a Long Beach pass.

K-State's women's basketball team opened its 1978-79 season impressively, but then struggled through a tough early road schedule.

In the 'Cats opening tournament at New Mexico, K-State won 101-96 over Brigham Young in "an explosive offensive game," according to head coach Judy Akers.

Forward Eileen Feeney led scoring with 29 points, while Tami Johnson and Kim Price each hit 21.

In the finals of the tournament, K-State led at halftime but lost to New Mexico, 77-68.

"We didn't play well enough over the 40 minutes to win," Akers said.

Gayla Williams led the 'Cats scoring with 18 points.

K-State's "lack of killer instinct" plagued them again in their first home game against Long Beach State, Akers said.

The 'Cats controlled the game in the

first half, forging to a 23-10 lead, but Long Beach came out in the second half with an aggressive attack to win 70-62.

"We tend to get ahead and then just coast," Akers said. The most damaging lapse by the 'Cats occurred with 10 minutes left in the game, as Long Beach outscored them 12-4 over a 2½-minute stretch.

K-State relieved its "coasting" problem in the next game against Texas Tech. The Wildcats held a slim 36-35 lead at halftime, and the game was tied 55-55 with 12 minutes left. However, K-State outscored Texas Tech 20-6 over the next six minutes to secure the win.

Against nationally-ranked Wayland Baptist, the 'Cats were able to lead 41-39 at the half and 55-45 with 11:24 left in the game. However, K-State hit a cold spell and was outscored 12-4 in the next few minutes. Wayland retained its lead and won, 76-71.

basketball

'Cats defeat Big-8 teams

LeAnn Wilcox led K-State scoring with 18 points. Wilcox continued leading the 'Cats in scoring in the next two road games with Nebraska and Iowa State.

Although the team "got off to a slow start" against Nebraska, according to Akers, Feeney kept K-State in the game and the 'Cats won 77-71.

Feeney scored eight of the team's first 14 points and went on to score 14 for the game. Wilcox had 16 points.

The Wildcats gave Akers a birthday present Dec. 6 by beating Iowa State 89-64 in their fourth straight road game.

"I thought we played outstanding ball," Akers said.

The slow start which plagued the 'Cats against Nebraska disappeared, as they led 49-35 at halftime.

Wilcox led the team with 14 points while Feeney scored 13, shooting six-for-six from the field and one-for-one from the free throw line.

The 'Cats came off their impressive win over Iowa State and faded Missouri, a team which gave them fits all season.

This time, freshman Jennie Skimbo scored 30 points to lead the Tigers to a 71-60 victory.

"Skimbo had a great game, scoring off-balance," Akers said. "But we beat ourselves. When you play unorganized, with a lack of trust and a failure to execute, you're going to get beat."

A key factor was Missouri's 46-25 advantage on the boards. "Our rebounding was embarrassing," Akers said.

The 'Cats then traveled to the North Carolina Invitational tournament at Chapel Hill, Dec. 21-23. K-State played some of its best basketball, beating High Point 86-81, Pfeiffer 89-77 and Clemson 73-70.

In the second-round game against Pfeiffer, Wilcox exploded for 38 points. Against Clemson, Williams had a career-high 26 points.

The offensive explosion continued Jan. 5 against Minnesota. The Wildcats beat the Gophers 100-62, although Minnesota had a respected program and beat the 'Cats later in Manhattan.

Akers pointed out that her team caught the Gophers "down" and everything went right for K-State.

In their last game during the Christmas break, K-State continued to score well and beat Iowa 93-80 in Manhattan.

The Big 8 Tournament was next for K-State, and the 'Cats won convincingly in the first round, then lost their next two games to take fourth place.

In the opening round game against Oklahoma State, the Wildcats ran off a 14-0 streak in the first half on their way to an 86-64 victory.

"Our guards dominated and the (the Cowgirls) weren't able to get their running offense going," Akers said.

Williams had 24 points for K-State and Feeney had 14.

Akers said the Cowgirls were "minus their inside punch offensively" because of the loss of Mary Redeau, who transferred at semester break to New Mexico.

A K-State player stands on the sidelines and cheers her team on.

Laurie Miller defends a Long Beach State player. The 'Cats lost 70-62.

Fans encourage the 'Cats to make a comeback in the loss to Long Beach State.

Akers sees her team fall behind in the final minutes.

'Cats play strong ball at home

In the semifinals, Missouri again had K-State's number. The 'Cats led 49-41 in the second half, but the Tigers reeled off an 18-2 spurt which buried K-State.

"When we get ahead, we let down," Akers said. "Then we begin to make mistakes."

Missouri's Sharon Farrah had 22 points and was "instrumental in Missouri's second half comeback," according to Akers.

Nebraska, after losing to Kansas in the semifinals, took on the 'Cats in the consolation game. The 'Huskers won 68-65: KU went on to beat Missouri by one point and take first place in the tournament.

Wilcox was named to the all-tournament team. Tournament play continued Jan. 26-27 as the Wildcats hosted the K-State classic, an invitational tournament which allows area fans to see both KU and K-State, although they don't play each other.

Margo Jones jumps against Texas Tech.
Beth Boggs goes for a rebound against Long Beach.

Gayla Williams and LeAnn Wilcox cover a guard.
Laurie Miller blocks a Nebraska shot.

On the first night of the tourney, K-State beat Texas Women's University 66-62 and KU beat Minnesota 79-73.

The 'Cats trailed 41-40 at halftime, but slowed the pace in the second half. Freshman Price had Wilcox, who was named to be second all-tournament team in two weeks, led the 'Cats with 18 points apiece.

On the second night of the tourney, the Minnesota Gophers avenged their earlier loss to K-State and beat the Wildcats 68-66. Johnson and Beth Boggs each had 16 points for the 'Cats.

The Classic also set up an important meeting with KU the following Tuesday, Jan. 30. The Lady Jayhawks, ranked 18th in the nation coming into the game, were ambushed 73-65 by the hot-shooting 'Cats.

With 15 minutes remaining, KU went up 46-41 and appeared to be taking control. However, the Wildcats quickly broke out of their slump and took a 53-52 lead with 9:47 remaining.

KU's Pat Mason hit a jumper which gave KU the lead again, but the 'Cats ran off 10 unanswered points which gave them a lead they never relinquished.

The win was especially important, because it made K-State 2-0 in the conference, which consists of KU, K-State and Wichita State.

Later the same week, K-State had to play 14th-ranked UCLA Bruins, the defending AIAW national champions.

Although both teams played "tight" according to Akers, the 'Cats fell victim to bad shooting, and lost 64-60. K-State shot 34 percent while UCLA shot 50 percent.

The Bruins were led by 6-1 forward Denise Curry, who shot 11 of 15 from the field and had 25 points, although she wasn't particularly pleased with her team's performance.

After crushing Wichita State 81-63 in Wichita to go 3-0 in the league, the Wildcats avenged two earlier losses to

Missouri and beat the Tigers 64-62.

Price hit a 15-footer with two seconds remaining to lift the 'Cats to victory.

The victory was especially sweet because it was Akers' 200th. Laurie Miller and Tami Romstad led the Wildcat scoring with 14 apiece.

The 'Cats continued their winning streak by making a strong three-game home stand, defeating Nebraska 75-61, Central Missouri State 81-74, and Wichita State 90-51.

The Wildcats ended their regular season in incredible fashion, beating 17th-ranked Kansas 91-90 in double overtime in Lawrence.

The game was a classic, with the Wildcats trailing all the way until tying it up on Wilcox's jump shot with seconds left in regulation time.

Wilcox probably played her best game, hitting 29 points against the talented Jayhawks. Freshman Tammie Romstad had 22 points and 14 rebounds.

Margo Jones goes for two.

basketball

'Cats win despite youth

K-State men's basketball opened its 1978-79 season with a new act. Gone were guards Mike Evans and Scott Langton and would-be junior forward Curtis Redding. The only returning starters for Jack Hartman's Wildcats were Steve Soldner and Rolando Blackman.

Two junior college transfers and a freshman rounded out the starting five. Hartman was understandably "apprehensive with a new team" before the opener with Northern Iowa.

However, the 'Cats showed "good concentration" and balanced scoring in winning the game, 82-77, Hartman said.

Five of the top six players hit double figures. Transfer guard Glenn Marshall had 14, transfer forward Jari Wills and freshman forward Tyrone Adams scored 13 each, Blackman had 12 and Soldner had 11.

All of the opening game jitters and unfamiliarity with Ahearn Field House disappeared in the 'Cats 85-53 demolishing of South Dakota in their second home game Nov. 27.

Blackman, who moved from the forward position last year to guard this season, scored 19 points. Freshman Ed Nealy had 16 — 10 in the first half.

The 'Cat defense held the Coyotes to only 20 first-half points. K-State also outrebounded South Dakota 32-11 for the game.

The game broke open in the second half as K-State reeled off 15 straight points after South Dakota's Jeff Nannen was whistled for a technical foul for hanging on the rim while trying to block a shot.

But inexperience showed in the Wildcat's first road game, as they were only able to shoot 26.6 percent in losing to Oral Roberts, 61-55.

The Titans shot a blistering 65 percent while building a 30-19 halftime lead. K-State was able to control the tempo in the second half and closed to 59-55, but ORU held onto the ball and scored the last basket.

Adams led the 'Cat scorers with 18 points. Soldner was only able to score one point, after having 26 against the Titans last year in Ahearn.

Forward Ed Nealy fights for the ball in the Northern Iowa game.

basketball

Fans 'rock the barn'

The Wildcats redeemed themselves three days later in beating Southern Methodist University 86-83 in Dallas, TX.

Nealy led the 'Cat scoring with 26 points, hitting 11 of 16 from the field and forcing SMU out of its zone defense with jump shots.

K-State led 56-41 midway through the second half, but hit a cold spell. The Mustangs came back to make it 77-76 with 3:49 remaining.

But the Wildcats' 64.9 percent shooting held off the rally to ice the game.

Marshall scored 15 points, Blackman had 14 and Soldner had 13.

As Hartman put it, K-Staters really "rocked the ole' barn" in the 'Cats return to the friendly confines of Ahearn to play Minnesota. After being outplayed in the first half, K-State came back to beat the Golden Gophers 72-62.

Nealy again led the attack with 19 points and eight rebounds. Blackman hit 17 points, mostly 15-foot jumpers from the baseline over the Minnesota zone.

Minnesota's starting lineup included players who were 6'11", 6'10" and 6'8". They pressed their advantage in the first half, leading 33-24 and winning the rebounding battle 23-11. K-State trailed by as many as 13 points in the first half.

Wills hit eight points in the final two minutes to ice the game for the 'Cats. His resounding slam-dunk at the buzzer brought the 11,000 fans to their feet as the Wildcats won their fourth game of the young season.

'Cats win away, lose at home

Although it appeared that the 'Cats would be picking on some smaller schools in their next three games, they only won two of the three.

Blackman led the way with 18 points in K-State's 87-71 thrashing of Cal Poly-Pomona, and Soldner hit 22 in the Wildcats' 91-66 defeat of Southern Illinois-Edwardsville.

The win over SIU-Edwardsville may have been costly, however. Guard Fred Barton, who is from Edwardsville, aggravated a back injury he suffered during the summer. He was put in a body cast and missed the remainder of the season.

The Montana Grizzlies then traveled to Ahearn Field House and pulled off a 61-60 upset over K-State. Marshall, the 'Cats leading scorer with 16 points, couldn't get a last-second 15-footer to

go in, and 11,100 fans left Ahearn in a daze.

The Wildcats then went west to take on former K-State coach Tex Winter and his Long Beach State team. Winter didn't give the 'Cats a friendly greeting, however, handing them a 75-69 defeat.

The annual Big 8 Holiday tournament, in its last year, was next for the 'Cats. K-State didn't do much to give it a grand send-off, as they took seventh.

The Kansas Jayhawks destroyed all three of their opponents to win the tournament and leave everyone wondering if the conference should be called the "Big One and Little Seven."

The Wildcats lost two heartbreakers before defeating Missouri in the seventh place game. Iowa State and Oklahoma both beat K-State by the same score, 62-61.

The only bright spot was the play of Blackman, who had 26 points against Oklahoma and 24 against Missouri.

The Big 8 conference season opened with an encouraging K-State victory over Colorado, who took second in the pre-season tournament and was supposed to be in the thick of the Big 8 race.

In a rugged battle, Soldner led the 'Cats with 13 points on the way to a 58-56 win.

In front of one of the smallest Ahearn crowds in recent years (5,280) K-State played a poor game and was smashed by Iowa State 79-66.

K-State then played a close game against Nebraska Jan. 17, which was to be characteristic of its road games.

Cinderella team surprises Big 8

In the regular Big 8 season, the 'Cats played well on the road, losing only three, and winning close ones at Iowa State, Colorado, Oklahoma State and Kansas.

However, the Ahearn Field House tradition deserted K-State as the 'Cats lost three Big 8 games at home.

In the Nebraska game, the Wildcats were shut down by the Cornhusker defense in the first half and only scored 14 points.

They scratched back furiously, however, and had a chance to tie, but Soldner's last-second tip try missed.

K-State's inexperience added to their inconsistency throughout the season, but the 'Cats exploded against KU Jan. 20.

It was a "sweet" victory, according to Soldner, who was instrumental in the 96-69 dismantling of the pre-season favorites.

He had 28 points and Blackman had 27 to lead K-State.

At Oklahoma State Jan. 24, K-State battled the Cowboys in a rough, see-saw game.

The 'Cats almost let the game slip away when Mark Tucker hit a floating

20-footer from the corner at the buzzer to tie the game and send it into overtime. The Wildcats had led by four points with one minute to play.

However, the young 'Cats showed their poise and won by four, 77-73.

At that point, all eight teams were tied for the conference lead. However, K-State dropped off the pace by losing its next two games.

The Missouri guard duo of Steve Wallace and Larry Drew blew away the 'Cats from long range in Columbia and the Tigers won 83-79. Next, the 'Cats lost to Oklahoma in Ahearn for the first time in 27 years.

Al Beal dominated the Wildcats inside and John McCullough hit from outside to lead the Sooners to a 70-62 victory.

"Oklahoma played extremely well and deserves to be credited," Hartman said about the eventual Big 8 champs.

Against Iowa State, Jari Wills hit a 20-footer from the corner at the last second to give K-State a 62-60 win in Ames. The 'Cats played the ball in-bounds with three seconds left, after Blackman had missed his chance to be the hero.

Defense was the key for the 'Cats in their next few games, and they alternated between a 2-1-2 and a 3-2 zone and began to shut down opponents.

Nebraska was the first victim. The Wildcat defense held the 'Huskers to only 46 points and K-State won 58-46.

Next, K-State beat Colorado 59-57 in the final game in Colorado's Balch Fieldhouse. Nealy had 13 rebounds in the Nebraska game and the Colorado game.

After defeating Oklahoma State 59-50, the 'Cats ventured into Allen Fieldhouse at KU. Although everyone picked the Jayhawks to get revenge, Nealy hit two free throws with one second left to give K-State a 58-56 win.

Things then fell apart for K-State, who was eyeing a conference championship. First, they lost to Missouri in Ahearn, then went to Oklahoma with a chance to tie the Sooners for the title.

But, it was not to be. The Sooners shot well and played good defense to crush the 'Cats 65-52.

K-State ended the regular season with an 8-6 conference record, good enough to tie for second with KU and Missouri.

basketball

Nealy is caught off balance by Oklahoma.

Brad Meyer urges the 'Cats on during a tough spot with Nebraska.

'We gave it a heck of an effort'

After suffering a humiliating defeat at Oklahoma, K-State regrouped to prepare for the Big 8 post-season tournament.

The Wildcats appeared to be taking advantage of their chance to go to the NCAA tournament, as they survived a first-round double-overtime battle with Nebraska, 61-60.

Although the 'Cats tied for second in the Big 8, they had to play number five-rated Nebraska in the first round. By the luck of the draw, Missouri played No. 7 Oklahoma State and Kansas played No. 6 Iowa State.

Rolando Blackman played the hero's role in the Nebraska game by sending it into its first overtime with a 17-foot jumper from the key. He then hit two free throws at the end of the second overtime to win the game for K-State.

"After two ballgames we'd played

with a lot of hesistancy, we did a good job of coming back and playing hard," coach Jack Hartman said.

The Nebraska victory earned the 'Cats a trip to the Big 8 post-season tournament in Kansas City.

That was the good news.

The bad news was that K-State had to play Oklahoma for the fourth time in the season. Although Hartman denied that any past games would affect the tournament game, the Sooners prevailed again, beating K-State 72-68.

"We gave it a heck of an effort," Hartman said.

Oklahoma center Al Beal, the tournament's Most Valuable Player, hit 17 points to lead the Sooners. He continually worked for good shots inside the K-State zone, and broke free for five slam dunks.

K-State led 66-65 with 3:37 left, but

the poised Sooners out-scored the 'Cats 7-2 in the remainder of the game.

The 'Cats ended their season 16-12. It was K-State's 31st winning season in the past 33 years.

The 1978-79 version of men's basketball changed K-State's record book several times.

Steve Soldner set a record for career field goal percentage with 58.8 percent. The team also set a field goal percentage record for a single game (70 percent against Kansas), and a season shooting percentage record (48.2 percent).

Ed Nealy set a freshman rebounding record by pulling down 230.

In addition, Blackman was named an all Big 8 player and Nealy was Big 8 Newcomer of the Year, becoming the sixth K-Stater to win that honor in the last 10 seasons.

'Cats face 'big time'

The K-State women's basketball team won its ninth straight league title by beating Kansas for the second time in 1978-79, earning the 'Cats a berth in the AIAW Regional in Minneapolis MN.

However, KU was given an at-large berth in the tourney, and the Wildcats and Jayhawks were headed for an eventual third meeting in the finals.

K-State defeated Minnesota on the Gophers' home court in the first round, 84-80. Eileen Feeney scored 16 points for K-State and LeAnn Wilcox had 14.

After beating Drake (which had been in and out of the top 20 all season), 79-70, the 'Cats faced the Jayhawks and Lynette Woodard again.

This time the 'Hawks were hot, and they pounded the 'Cats 75-59 to win the Region VI championship.

All was not lost for K-State, however, because both the first- and second-place teams advanced to sectional competition.

The Wildcats had to play in Cookeville, TN, against the nation's number one-ranked team, Old Dominion.

After the loss to KU, coach Judy Akers told her team to "forget this game and look forward to Tennessee," and that "we're in the big time now."

But, the "big time" was a little too much for K-State, and Old Dominion won handily, 96-75. The 'Cats fell behind 40-18, and were only able to pull to within 15 points at anytime during the second half.

The Wildcats' last game of the season was an 83-80 loss in the consolation game to 12th-ranked Valdosta State.

The Blazers led K-State 74-58 near the beginning of the second half and held off a Wildcat rally to win by three points.

The 1978-79 season was the eleventh in the history of K-State women's basketball. Akers has coached the 'Cats to 206 wins and 94 losses, a winning percentage of .687.

The 'Cats will return their three top scorers: Wilcox, with a 15.5 scoring average; Feeney, averaging 13.5 points per game, and Gayla Williams, with a 10.0 average.

Seniors on the 1978-79 team were Beth Boggs, the team's leading rebounder; Tami Johnson, who scored 7.4 points a game and hit 22 against Iowa, and Laurie Miller, who ended her career tied with Susie Norton as the number five scorer in K-State's history with 1,063 points.

'Cats fall short of expectations

Kathy Teahan spikes the ball during tourney action.

The K-State volleyball team faced a difficult task as it began its 1978 season — “anything short of going back to nationals was going to be a disappointment,” according to coach Mary Phyl Dwight.

The 1977 edition of K-State volleyball was a fairly young, inexperienced team which surprised everyone by going to the AIAW national tournament.

But in 1978, everyone expected K-State to be good, so the opponents were all gunning for the Wildcats.

“The gut feeling has to be one of disappointment, looking back,” Dwight said. “But, we had a 39-16 record and I can’t really say I’m too disappointed with that kind of a season.”

“There were maybe some games, especially in the regional, in which we didn’t play up to our potential, but when you do as well as we did the year before, there’s a lot of pressure to repeat that,” Dwight said.

The Wildcats jumped to a 19-6-2 record early in the season, but they were playing poorer competition than they faced in the later part, according to Dwight.

Although the team lost no one to graduation, ankle injuries claimed two important players. Tracy Carlson had a severely sprained ankle and Carol Mettenbrink broke hers.

Two freshmen, Beets Kolarik and Susan Drews, stepped in to replace the starters and did well, but “still have a lot to learn,” Dwight said.

“(The injuries) didn’t allow us to pick up where we left off,” she said.

Compounding the inexperience problem was the tough middle-blocking roles the freshmen had to play.

“That’s the most complicated spot on the court,” Dwight said. “You have to think more and be quicker.”

The ‘Cats played some of their best — and worst — volleyball of the season in the Big 8 Tournament in October.

“We played probably our best game and probably our worst game there,” Dwight said.

K-State went 3-3 in the tourney, losing to Nebraska, Iowa State and Missouri and beating Oklahoma State, Oklahoma and Kansas.

The 3-3 record kind of describes it,” Dwight said. “We were really up and down.”

The Wildcats, curiously, played extremely well in the first games of the Big 8 tourney matches, but then either struggled to win, or lost.

“We haven’t yet done what we want to do in the Big 8,” she said.

The Region VI Tournament in Lincoln, NB, was also a disappointment for the ‘Cats. They went 2-4, beating Mis-

souri and Nebraska-Omaha and losing to Minnesota, Northern Iowa, Central Missouri State and Southwest Missouri State.

The loss to Central Missouri was particularly crushing because a Wildcat win would have given K-State an easier opponent in its next match. Instead, K-State met powerful Southwest Missouri State, which eliminated any hopes of a K-State return to the nationals.

Dwight said the highlight of the season was probably a key win over KU. The ‘Cats lost to the Jayhawks in a late-season match, so the teams tied in the conference race. Since the best record among K-State, KU and Wichita State decided who would go to the regionals the ‘Cats had to play KU again to determine who qualified.

“Whether you play basketball, volleyball or pinochle, it’s a big game,” Dwight said.

K-State beat the Jayhawks 15-5, 6-15, 15-10, 14-16, and 15-7 to earn the regional berth.

Probably the key individual for the Wildcats was Kathy Teahan, according to Dwight.

“She’s just an all-around player,” she said. “When she’s at her best, she’s almost unstoppable.”

Elizabeth Kolarik returns opponent's serve.

Debbie Chunk, left, and Julie Blasi, right, listen to coach Dwight

Rough, rugged, rugby

The 1978 K-State men's rugby team was characterized by streaks of highs and lows, as it struggled to rebuild a once strong team.

The team competed in both the spring and fall, and had to play against some of the best teams in the Midwest.

"In 1972, K-State had one of the best teams in the area and continued the trend for four years," according to Fred Lechner, president of the K-State rugby club.

"Then the major clubs from non-college towns started picking up on some of our players who had more experience. It's hard for a college team to play on the same level with the city clubs."

In the spring, K-State played 12 matches, winning seven.

The 'Cats opened their season in April in the Big 8 tournament in Norman, OK. After defeating the Oklahoma University 'B' team, they faced a tough Missouri team and came out on the short end in sudden-death. In the third-place game, K-State beat Kansas to get revenge after losing the Governor's Trophy in the fall.

Feeling a tough layoff after St. Benedict's team forfeited, K-State lost a squeaker to Johnson County 7-6 when they scored a four-point goal near the end of the game.

The following week K-State defeated Topeka 28-6, in one of its best games of the spring season, Lechner said.

K-State followed up their strong performance with a poor showing at the

All-Kansas tournament in Emporia. They beat Ol' Yellers from Wichita and were edged out by both Kansas and Wichita.

In the team's last action of the spring, K-State regrouped for its best showing of the season in the fifth annual Sunflower tournament, held at Tuttle Creek in continuous rain.

For the third time in six years, K-State finished in second place. To qualify for the championship game, the 'Cats defeated Pittsburg State, Topeka and Tulsa.

The Kansas City Blues won the tournament 3-0 on a penalty kick.

"I was impressed with our scrum (the same as linemen in football), but the Blues backs were impressive considering the downpour we had to play in, Lechner said.

The fall season started off where the spring season ended: rain, rain and more rain. K-State's youth and inexperience showed early, as the 'Cats dropped their first four games.

K-State lost its fall opener to Lincoln City of Nebraska 12-10.

Due to the lack of experience, K-State then dropped all three games in the Round-Robin Kaw Valley tournament in Topeka.

"Our team in the fall consisted of a lot of new players, as we lost about one-third of our squad from the spring," Lechner said.

K-State split its next two games on the road, beating Emporia 27-0 and losing to Johnson County 6-3.

In the Heart of America tournament in Kansas City, K-State lost its first game to Nebraska 8-6, then won two of its next three games in the consolation bracket. The 'Cats defeated Pittsburg State and Wichita's City Club, while they were upended by the St. Louis, MO, Hornets.

"We played our most complete team game of the fall season against Wichita in the Heart of America Tournament," Lechner said.

K-State continued tournament play, placing sixth out of 32 teams in the Houston tournament. K-State beat the Houston rugby club 3-0, Texas A&M's 'B' team 9-3 and the San Antonio, TX, rugby club 6-0. The 'Cats lost to an Austin team 15-13 and Texas A&M 9-6.

In K-State's next to the last game of the season, they trounced the Ol' Yellers in Manhattan 19-4.

In the fall finale, K-State battled Kansas for the Governor's Trophy in Manhattan and lost 6-3.

"Our fall season was a rebuilding one, as we had six new starters by the end of the year," Lechner said.

The most valuable players for the spring and fall seasons were Ed Bischoff and Gregg Barnes, he said.

"Starting next season our only conference games will be against University teams, in addition to playing non-conference games against the top clubs in the area."

Marc Thompson and Dean Watson fight for the ball during the WSU game.

Amy Snider fights for the ball during a rugby match.

'Cats face tough competition

by John Dodderidge

Injuries and tough competition added up to only a fair season for the K-State women's rugby team.

The 'Cats completed their fall 1978 season with a 6-5 record.

The highlight of the year was their trip to Chicago, where they played three teams in two days last November.

"Even though we lost all three games, it was a great trip for our team to go on," Marla Jones, president of the women's rugby team, said.

In K-State's only tournament action, they split two games at the Heart of America tournament in Kansas City. In the first game, K-State defeated the University of Arkansas 20-2, but were knocked out of the tournament after losing to Emporia 4-0.

At home, the women fared well com-

piling a 5-0 record.

The 'Cats shut out Topeka 8-0, Emporia 4-0 and the University of Nebraska 8-0. They also defeated the University of Missouri 8-4 and beat Topeka again, 8-4.

"Our best game of the season was against Missouri, as both our scrum and line played real well," Jones said.

Four awards were given out at the end of the season. The best line play was awarded to Peggy Rice, Janice Mueller was best scrum, the best rookie award went to Peggy Owen and the most inspirational was Marla Jones.

"We had a high turnover rate this year," Jones said. "A lot of new players came in during the fall season, so we had a lot of inexperience on the field.

During the spring season of 1978, the

women ruggers competed in three tournaments and were unable to play in another.

At a 12-team tournament in Austin, TX, K-State placed fifth. The 'Cats fared better at the All-Kansas tournament, finishing second to Wichita.

Due to injuries that depleted the squad, K-State was unable to compete in the Rocky Mountain Spring Classic in Denver, CO.

To finish the season, the women played in the Sunflower tournament held at Tuttle Creek Pond. Only three teams showed up for the tournament, which was played in pouring rain. Colorado State, Emporia and K-State all played each other in a round-robin affair, with K-State taking second place.

A Colorado player rejoices after scoring a goal against K-State.

It's not whether you win or lose...

by Cindy Friesen

When the 1978-79 K-State soccer club chanted the "big O" before each game, the opposing team probably hoped that would be the Wildcat's score at the end of the 90-minute contest.

But to the 35 members of the club, the "Big O" meant much more than the game score — it meant organization.

Although the team chanted the same slogan for more than eight years, Greg Middleton, club president and player-coach, said the team finally achieved its goal.

"There was a time when people really didn't care, but now people are proud to be on the team," Middleton said. "We are pretty well on the road."

To the soccer club, "well on the road" not only meant a winning 1978-79 season, but also wearing new uniforms.

"When you don't look good, you don't play as well as you could, espe-

cially when the team you play has brightly colored uniforms, like Colorado does," Middleton said. Colorado is the defending Big 8 champion.

The uniform problem was solved when Campbell's Budweiser distributor agreed to sponsor the club.

The team competed against the soccer clubs from the other Big 8 schools as well as independent teams.

"It takes a lot of work synchronizing the schedules, but we usually try to play the other Big 8 teams the same weekend the football teams play," Middleton said.

This year the tournament was held at the University of Colorado, April 14-15.

"We've probably got a good chance to win the Big 8. In fact, probably the best chance we've had since the last time we won," Middleton said before the tournament.

Besides playing more than 20 games during the year-round season, the club holds soccer clinics to raise funds.

"The clinics have been a big success. We've had as many as 100 kids and they pay \$3 for the whole day, so it really helps," he said.

Although the team enjoyed winning, having a good time was the most important thing, he said.

In preparation for the games, the team practiced up to four times a week.

Although no women were on the '78-79 team, Middleton said anyone interested could join.

"Our team players are all at different stages of development. Some are really good, while others are just starting," he said.

"Sure, we like to win, but we're mainly out for a good time."

Women's team best ever

In 1978, K-State fielded what was probably its best women's cross country team ever, according to coach Barry Anderson, and proceeded to live up to Anderson's expectations by finishing 13th in the nation.

"At the beginning of the season, I thought we might do even better than that," Anderson said. The 1977 women's cross country team took ninth in the nation.

However, injuries to Cindy Worcester and Connie Prince hurt the 'Cats' chances. Worcester was red-shirted in 1978 after competing as K-State's number one runner in 1977.

The team was a mixture of experienced and young runners who came back from summer "in a lot better shape than before," Anderson said.

Seniors Renee Urish, Cindy Anderson, Alice Wheat and Janice Rupe "showed a lot of leadership," according to Anderson, while the younger runners showed promise for the future, especially at the K-State Invitational in Manhattan.

Urish and Wheat didn't run in the meet, so Anderson could get a good look at some of the younger runners.

K-State won the meet over Nebraska and Dodge City Community College.

Manhattan freshman Janel LeValley place third, the highest Wildcat finish. Rochelle Rand took fourth, Anderson took sixth and Dana Schaulis finished seventh.

"Janel's time (18:18) would have won most meets of this distance on most courses," Anderson said. "But this is an extremely hilly, difficult course," Anderson called LeValley "outstanding" and said Schaulis, another freshman, was the "most surprising" runner on the team. She was a walk-on Anderson had known and talked to, but he said he wasn't expecting much from her.

Urish and Wheat came back for an invitational the following week in Lincoln, NB. This was the team's final preparation before the Big 8 meet.

The 'Cats won easily, scoring only 27 points, while second-place KU had 50 and Nebraska had 51. Urish won the meet with a time of 18:33; LeValley was third, Rand was sixth, Prince took seventh and Wheat finished tenth.

The Nebraska success carried over into the conference meet Oct. 21.

"We ran real well in the Big 8," Anderson said. The Wildcats took third behind Iowa State and Colorado, missing second place by only one point. The 'Cats were running with heavy competi-

tion, as Iowa State ended up winning the Association of Intercollegiate Athletics for Women (AIAW) National meet while Colorado took fourth.

K-State's next meet was the Region VI AIAW at Ames, IA. Urish finished third, as did the Wildcat team, behind Iowa State and KU, with 109 points.

The AIAW Nationals were a disappointment for the 'Cats' highest finisher, Urish.

She took 24th, and found it "kind of depressing finishing my collegiate career."

The meet was run in Denver and "the altitude really bothered me," Urish said. "I felt I could have run faster but I couldn't."

"I think the altitude affected Renee the most," Anderson said. "She showed a lot of courage. She passed 11 runners after the two-mile mark."

Urish will undoubtedly be greatly missed next year.

"We've had a good tradition of distance-running at K-State," Anderson said. "And, Renee is the most outstanding all-around distance runner we've ever had. She'll be impossible to replace, and she's shown a lot of leadership, I just can't say enough about her."

The Cross Country team gets in shape for the upcoming season.

Doug Weber and Mike Clem run a cross country course.

'A young team rebuilding'

The character of K-State's 1978 cross country team was typified in the Big 8 meet when the Wildcats' number one runner, Tim Davis, withdrew at the two-mile mark with a sprained ankle.

"Everyone saw Tim go down," coach Jerome Howe said. "They could have given up, but they didn't."

The 'Cats finished only fifth in the meet but Howe said it was one of the team's finest efforts in the absence of Davis and Steve Connor, who had also run well all year.

Howe's pre-season evaluation of the team's prospects indicated he may have been pleased with a fifth-place Big 8 finish by his inexperienced runners.

"With no upperclassmen having run major college cross country and the fact that young people usually don't look too good, it may not be a great year for K-State and it may not even be a very good year," Howe commented before the season began. "We will look like a

young team rebuilding."

However, the surprises came early, and the 'Cats took second in the Wichita Shocker Classic. Fourteen teams, including four Big 8 teams, competed in that meet. Davis took fourth at Wichita while freshmen Mike Clem and Rick McKean took fifth and sixth, respectively.

After winning its own invitational, the K-State team went to a dual with Missouri and ran its "best meet of the year from the standpoint of competing as hard as we can," Howe said.

"We were beaten, but we ran with a very fine team of seasoned veterans," he said.

McKean was especially surprising, finishing second only behind Missouri senior Steve Fisher. Connor took fourth and Davis placed sixth in the meet.

The other two meets prior to the Big 8 meet were a triangular at Norman, OK, with the University of Kansas and

Oklahoma University, and a dual with Nebraska. K-State took second at Norman with 40 points. KU won the meet with 34 points and Oklahoma finished third with 53 points.

After the strong, but disappointing performance in the Big 8, the 'Cats went to the tough NCAA Regionals. No K-State runner qualified for the national meet, in what Howe called "a very average performance for us. It would have taken an exceptional meet for us to do anything."

The short-range future looks promising for K-State cross country, as virtually all of the team returns. Howe cited junior Davis and freshmen Clem and McKean as the most pleasant surprises during the 1978 season.

"I hadn't even counted on Davis making the team, and he became my number one man," Howe said.

"That shows how I can pick 'em."

Season disappointing for 'Cats

A combination of tough Big 8 competition and a "down" year led to a 20-29 record in 1978 for K-State baseball.

"From top to bottom, the Big 8 had more quality than in past years," coach Dave Baker said.

The tougher competition made matters worse for first-year coach Baker, who found little good news when he arrived at K-State in August.

"We had a number of seniors who had not played regularly," he said. "We were just short in some areas."

One of those areas was pitching, which he said was "probably our biggest problem."

The Wildcat pitchers gave up an average of five runs per game, and the K-State bats just didn't have the firepower to keep up.

In addition to the tough Big 8 schools, which dealt the 'Cats a 2-10 record, K-State opened its season against Oral Roberts, one of the most respected teams in the Midwest.

ORU started its climb to the NCAA finals with a 10-0 victory over K-State. ORU also beat the 'Cats 8-5 and 9-6 on the same trip.

Another traditional power is Oklahoma, but K-State fared well against the Sooners, according to Baker.

"We played very well against OU, but very poorly against our intra-state rival, KU," Baker said.

Although the Sooners man-handled K-State 11-1 in one game, the 'Cats later lost by close scores of 2-1 and 3-2.

Kansas beat the Wildcats six times, and the closest score was 4-1.

The leading players for K-State were Greg Korbe and Tim Pepper, Baker said.

Korbe was the club's second-leading hitter with a .345 average and 32 runs batted in (RBI's).

"Greg is an exceptional hitter and an excellent out-fielder," Baker said.

Korbe proved his value by turning down a pro offer after his junior year to

play another year for K-State. He signed with the New York Mets organization after his senior year.

Tim Pepper, an All-Big 8 catcher, is a "big, strapping young man with exceptional talent," Baker said.

Pepper had a .367 average, tops for the 'Cats, along with seven home runs and 45 RBI's.

K-State had most of its success against the smaller Kansas schools, such as Washburn, Baker, Marymount and Emporia State. The 'Cats split with Wichita State, winning two and losing two.

K-State is facing a rebuilding year, with many new players on the squad, according to Baker.

The 'Cats will miss Korbe, who set career records in most runs, hits, RBI's, doubles and home runs. He ended his K-State career with the third-highest batting average ever, .344.

Jeff Sheer misses the tag against Johnson County.

Tourney play weakens 'Cats

The crack of a bat hitting a ball usually came when K-State was in the field, not at bat, during the 1978 softball season.

The Wildcats went 9-30 on the season, which wasn't a severe drop from 1977's 16-12 record, according to coach Mary Phyl Dwight.

"The type of schedule we had made a lot of difference," she said. "We had a significant increase in quality of competition and number of games." The team was also hampered by a change in the format of its schedule. In 1978, K-State started playing in more tournaments, instead of single games.

"Our record doesn't reflect our performance from the year before," Dwight said. "We lost several key people, particularly in the pitching department."

Both the lack of pitchers and the schedule changes worked against K-State to make the season disappointing.

Playing four or five games in a weekend tourney taxed the 'Cats' few pitchers even more. K-State often played well in its opening games, but poorly in later games.

"A tournament-type schedule shows your weaknesses even more when you have weak pitching," Dwight said.

The highlight of the season was probably the Big 8 tournament. The 'Cats opened with a 2-1 win over Oklahoma State, when the Cowgirls were "heavily favored," Dwight said.

K-State's inconsistency surfaced in the second game, however, as Iowa State crushed the Wildcats 11-1. K-State went on to lose to Kansas and split two games with Nebraska.

But the low point of K-State's softball season was yet to come.

The 'Cats traveled to Texas and were beaten 21-6 by Stephen F. Austin.

"That's probably a record," Dwight said. "It's one we won't try too hard to

break."

However, outside circumstances contributed to the Wildcat loss. The team had just played in 18-degree wind chill factor weather in Manhattan. In Austin they played in 80-degree weather for six hours straight, and Stephen F. Austin was the 'Cats' last opponent. "It was all our people could do to just stand up in the heat," Dwight said.

Although the team was young, Dwight said it had one outstanding player, Janelle Poppe.

"She came around and showed the kind of player she really is," Dwight said. Poppe led the team with a .324 batting average.

Margo Jones, who played only 29 games because she also played basketball, led the team in home runs scored.

"Hopefully, the experience of young people will help us out in the years to come," Dwight said.

Fans.

Whether they're waiting in sub-zero weather for a basketball seat or melting in the scorching sun at a football game, they're always there, backing the team through triumphs, disappointments and surprises, good or bad.

Some disguise their dedication to the team by sitting quietly in the stands; others flaunt it proudly, by becoming a cheerleader, pridetite, band member, twirler, flagster or mascot.

They are separate, yet one, all yelling for a common goal: that winning basket or that go-ahead touchdown in the final minutes to show who the best team really is.

In a purple sea, the fans sit, some in a drunken stupor, some in ecstasy. Purple flags flutter in the wind as the 'Cats go over that goal-line defense for a score.

Even in the middle of the week, the enthusiasm carries on. Students parade the campus wearing purple garbs with "KSU" plastered on the sleeves, front and back.

It's been said countless times that the fans can win games for the 'Cats, and it's been proven over and over again.

The cheers from K-State supporters are electrifying. The cheerleaders put one in a trance. Harmony and unison ring through in each song or chant. The steady beat and the increasing speed of the claps and stomps can rock Ahearn's rafters, until one feels sure to be caught in an avalanche.

The band plays the ever-popular "Wabash Cannonball," and again the fans go wild as Willie sheds his clothes to the sound of "The Stripper."

There are seldom quiet moments, but when they come, they are impressive. The fieldhouse walls echo silence as the 'Cats shoot that game-winning freethrow or when the Alma Mater is played. There is also silence when the fans file out of the fieldhouse or stadium after losing a close game.

Waving goodbye to KU players and fans, and chanting at the referees for a bad call, are parts of a fan's ritual. On game days, all K-State fans are drawn together, alumni and students alike.

For such a short word, "fan" carries a lot of meaning and emotion. It signifies pride. Purple pride.

ORGANIZATIONS

Agriculture

Promoting friendship and fellowship between students and faculty in the college of Agriculture are the main purposes of its clubs and honoraries.

To attain this goal, many of the clubs sponsor activities throughout the year. The Dairy Science Club co-sponsors the Little American Royal, the Block

and Bridle Club has livestock, meat and wool judging contests and the Forestry Club sponsors a tree identification program.

Agricultural Mechanization Club

TOP ROW: Allen E. Olson, Martin E. Herbers, Mark R. Bierly, Clifton R. Heiniger, Timothy A. Beim, Brad W. Walter. SECOND ROW: Fred W. Gantz, George L. Lauppe, James S. Davis, Ronald D. Harms, James M. Harden, David D. Rock. BOTTOM ROW: David L. Morton, Kent G. Blakeslee, Rod B. Bigham, Gregg A. Denholm, Ralph I. Lipper.

Agricultural Student Council

TOP ROW: Larry Erpelding, Fran Nelson, Belinda J. Mason, Connie Jo Wells, Debbie J. Clubine, Sherri Richardson, Becky Vining, Georgenne Eggleston, Nancy Chapma, Laurie L. Mills, David D. Rock, Richard A. McKee. SECOND ROW: John Baumchen, Larry Garten, Phil Olson. THIRD ROW: Alan Sobba, Gary Vaupel, Keith Bartley, Rodney Bohn, Jim Harden. FOURTH ROW: Michael Quart, Jeff Zillinger, Tom Karst, Keith Roesler, Bill Pfeffer, Tom Baxa, Melvin Hunt. FIFTH ROW: Jay Selanders, Paul Bony, Rick Knight, Daryl Patton, Bill Graves, Ron Ditmars, Cathy Boles. BOTTOM ROW: Douglas B. Thiessen, Mary A. Bradford, Timothy G. Bearnes.

Agricultural Education Honorary: Alpha Tau Alpha

TOP ROW: Mel D. Waite, Bob S. Keller, Joe J. Zimmerman, Jerry W. Schmidt, Allen D. McColm, Deanna L. Raab, Kevin L. Gleason, Kevin D. Nelson. SECOND ROW: James J. Albracht, Duane M. Dunn, Jeff L. Stuhlsatz, Larry G. Garten, Roger D. Page, Dent E. Worrell, Mike A. Jones. THIRD ROW: Kenneth A. Powell, Brian M. Harris, Jeffrey J. Zillinger, Jay N. Selanders, Wayne A. Black, Casey D. Garten. BOTTOM ROW: Von D. Hunn, Ronald J. Wilson, William S. Hargis, Chuck D. Schmidt, Paul E. Drummond, Ron D. Rickstrew.

Alpha Zeta: Agricultural Honorary

TOP ROW: Mary E. Wood, Holly L. Vanderlip, Elizabeth L. Phelan, Susan K. Durham, Patty J. Hoffsommer, William M. Pfeffer, Debra A. Hemken, Malia J. Weide, Randall J. Anderes. SECOND ROW: Edwin E. Nilson, David D. Rock, Mike Grogan, David M. Drake, Roger D. Page, Jeffrey A. Gwartz, Keith R. Roesler, Mark E. Westhusin, Stanton J. Janssen. THIRD ROW: Rick J. Lewandowski, Rodney P. Bohn, Rhonda R. Janke, Kathryn L. Strecker, Jane M. MacDonald, Kendal K. Pulliam, Tom D. Sauerwein, John G. Anderson. BOTTOM ROW: Albert W. Adams, Frank S. Hurtig, Kirk M. O'Donnell, Allan E. Sents, Jay Selanders, Rolla W. Goodyear, Kent D. Schroeder, Aaron R. Markley, David M. Ylander.

TOP ROW: Janet L. Edwards, Cynthia J. Bailey, Marcee L. Buchner, Jennifer L. Brown, Belinda J. Mason, Frances A. Nelson, Janet L. Herriott, Gayle L. Davis, Michael S. Kuhlmann. SECOND ROW: Susan J. Hummels, Elizabeth C. Stevens, Melanie J. Sills, Gary M. Deal, Micaela Bulba, Steve Liebl, Charlotte Clack, Brad J. Waggoner. THIRD ROW: N. C. Loupe, Gary D. Anderson, Thomas L. Pruitt, Gregory W. McClure, Larry K. Boldt, David T. Walker, Larry G. Hadachek, Royston H. Patterson, Steve J. Handke. BOTTOM ROW: Kevin C. Ericson, Randy D. Tosh, John R. Greathouse, Stephen R. Stephens, Robert G. Haynes, Daniel W. Hermes, Doyle R. Slavik, Robert R. Hinten.

Bakery Science and Management Club

TOP ROW: Don Kindstrand, Gary Garten, Steve Woerner, Paul Bony, Greg Kobs. BOTTOM ROW: Cyndi Hughes, Connie J. Wells, Leslie Black.

Block and Bridle

TOP ROW: Gregory R. Kimzey, Tom J. Fangman, Richard L. Houser, Robert J. Danler, David H. Mackintosh, Connie D. Pelton, Michael E. Smith, B. Todd Pringle, Lori R. Willhite, Melinda E. Larson. SECOND ROW: Brad D. Wilson, Randal G. Lang, James H. Blaauw, Micheal L. Wiltse, Alan A. Nuffle, Amy C. Wilson, Diane M. Spade, Ken K. Kelly. THIRD ROW: Jack D. Sweany, Douglas L. Teter, Dee W. James, Jeffrey J. Zillinger, Lyle D. Shipley, Elaine P. Mayo, Bruce L. Brock, Connie M. Eilert. BOTTOM ROW: Quentin J. Ens, Virgil E. Miles, James E. DeGeer, Jay N. Selanders, Alan C. Sobba, Randall S. Prather, Jeff DeWerff, Lewis A. Worcester.

TOP ROW: Gary D. Merritt, Ellen Wasserman, Deb Williams, Mark R. Ingle, Scott E. Frake, Michael Dikeman, Patty L. Webber, Carol S. Horting, Teresa B. Donnelly, Nennette Luginsland, Beck Williams. SECOND ROW: Deb Osborne, Debra Mueller, Karen Erpelding, Ray Lemon, Dennis Wells, Gary Brockhoff, Rosie Eilert, Cathy Langton, Belinda J. Mason, Lisa Wulfschuh. THIRD ROW: Mark W. Reinhardt, Glenn D. Norberg, David L. Lauber, Dan J. McNett, Gregory W. McClure, Clinton P. Rusk, Bruce A. Milburn, Rebecca F. Suitt, Mona L. Lightbody, Danni L. Wolf, Cathy A. Sterns. BOTTOM ROW: Kevin R. Beyer, Gerald A. Kipp, Rodney L. Schaub, Brian K. Pelton, Ron A. Knight, Allan E. Sents, Lance J. Markley, Mary J. Hanson, Deanna L. Raab, Debbie J. Clubine.

TOP ROW: Patricia A. Kaiser, Cindy L. Hildebrand, Stuart G. Johnson, David M. Drake, Jon D. Carlson, Vern W. George, Beth G. Pringle, Barbara J. Pringle, Karen L. Chrisler, Toni E. Timmis, Debora J. Beck. SECOND ROW: Tamar K. Barstow, Valerie P. Skidmore, Brad W. Walter, Dave F. Zeller, Madeleine E. Miller, Serena L. Stum, Lisa M. Skoch, Andrea R. Hamilton, Kim A. Slater, Susan M. Schlickau. THIRD ROW: Mark S. Fink, Terri L. Peterson, Dean E. Anderson, J. Chris Baker, Frances A. Nelson, Terri S. Reinhardt, Richard A. McKee, Cynthia R. Siemens, Dorothy J. Naffziger, D. Rachelle Mengarelli. BOTTOM ROW: Gareth A. Rowell, Steven L. Pottorff, Curtis A. Russell, Chris A. Strait, Dennis E. Renfro, Joe R. Mushrush, Allan J. Grothusen, Greg J. Savage, Richard L. Cook.

Collegiate FFA

TOP ROW: Sandra L. Hundley, Daryl L. Patton, Ronald S. Ditmars, Mel Waite, Danni Wolf, Cathy Sterns, Brenda Hundley. SECOND ROW: Dale Unruh, Kenneth Powell, Tim Stucky, Greg Walker, Steve Blackwood. BOTTOM ROW: Paul N. Stevenson, Jeff Zillinger, Jay Selanders, John Greathouse, James Pringle.

Crop Protection Club

TOP ROW: Michael A. Idibia, Paul Trader, David D. Juby, Susan Montgomery, Marvin E. Pipes, Lee Bloomcamp. SECOND ROW: Ronald E. Schulze, Jeffrey R. Wiens, Max H. Parks, Mark A. Epler, Wayne L. Hoener, Deward E. Robinson. BOTTOM ROW: Fred Poston, Steve Nolting, Perry Smith, Chester L. Wiswell, Terrell E. Pritts.

Dairy Science Club

TOP ROW: David Andres, Rick Teaford, Steve Anderson, Tom Pruitt, Greg Savage. SECOND ROW: Douglas Strickler, William Leavitt, Dwight Flaming, Terry Henry, Bob Yowkers, Nancy Nutter, James Morrill. THIRD ROW: Eileen M. Eggleston, Georgenne Eggleston, Keith Heikes, Tom Baxa, Cindy Siemens, Ken Horton, Pamela Van Horn, Joni Becker. BOTTOM ROW: C. L. Norton, Mick Morrell, Elizabeth Stevens, Harlan Holste, Wayne DeWerff, Randy Wrick, Darryl Miller.

FTD: Florists' Transworld Delivery

TOP ROW: Richard Wootton, Steve Miller, Alice Unruh. SECOND ROW: Lynn Toburen, Evelyn Bergkamp, Donna Becker, Sandy Herndon, Noreen Birmingham. THIRD ROW: Sondra Larcom, Elsie Kramer, Penny Rach, Cindy Scripter. FOURTH ROW: Carla Blickenstaff, Peggy M. L. Kesi, Denise Dickson. BOTTOM ROW: Penny Morgan, Kay Metzinger, Patsy L. Zillinger, Mary S. Holm.

Food Service Club

TOP ROW: Stephanie B. Klahr, Mark J. Curry, Sandra S. Clark, Mary E. Pottorff. SECOND ROW: Vic L. Doperalski, Darrel Suderman, Philip R. Atkins. BOTTOM ROW: William R. Hartman, Curtis L. Kastner, Matthew R. Wohlgemuth, Joseph K. Snyder.

Forestry Club

TOP ROW: Douglas Ressel, Alan Zuk, Joe Brummer, Charles Knouft, Mike Hope, Stanley Turner, Randall Just, Thomas Warner. SECOND ROW: Bill Fitzpatrick, Lucia Smith, Steve Loos, Beth Rowlands. BOTTOM ROW: Patty Cloughley, Glenda Hefty, Hannah Hogue, John Baumchen.

Grain Science Club

TOP ROW: Mark Heinrich, David Kidwell, Kirk O'Donnell, David Neff, Greg Nolting, Roger Gelsinger. SECOND ROW: Dayn Cederstrom, Dan Walker, John Bish, H. Andre Wanzcnried, Paul S. Bony, Patrick B. Aydt, Jeri Neal, Brian Doyle, Samuel J. Cox. THIRD ROW: Connie J. Wells, Carlos F. Tejada, Marc L. Smith, Dale Eustace, Bob Bartlett, Heather Hopper, David Freed, Mike Kuhlmann. BOTTOM ROW: Stan Haddock, Kevin Bardsley, Diane S. Putman, Richard D. Wullschleger, Mary Hepperly, Theresa S. Cogswell.

Horticulture Club

TOP ROW: Carol A. Romig, Rene D. Methe, Kristine L. Lawrence, Andrew G. Maisel, Ginny E. Crites, Chris C. Brake, Diana Greenough, Kathy D. Botts, Linda K. Ubel, Linda Kaff, Jennifer L. Moore. SECOND ROW: Melanie J. Sills, Gwen C. Scott, Wendy J. Selves, Kevin M. Patterson, Kris A. Abrahamson, Gayle L. Lowery, Venessa K. Leach, Connie S. Butin, Joyce E. Hess, Rebecca Munger, Cynthia K. Henricks. THIRD ROW: Rick Knight, Bob Neier, Rick Lewandowski, Mike Erickson, Chris M. Heidrick, Paula M. Santschi, Kimberly K. Kyle, Peggy M. L. Kesi, Karen S. Cook, Susan K. Durham, Pamela L. Felts. BOTTOM ROW: Kirk C. Bierly, Steven W. Baker, Carol S. Heying, Susan J. Finger, Carol A. Haunschild, Michelle R. Reyes, Daniel Ronnebaum, Michael L. Agnew, Loren R. Breedlove, Arlan D. Klocke, Patrick F. Brady, Rick A. Headrick.

National Resource Management Club

TOP ROW: Dan Rockers, Kent Herren, Bill Konicek, Lynn Thurlow, Dan Ronnebaum, Merry Johnson, Bill Pooler, Jeff Sheets, Bill McGowan, Chuck Markley, Tim Shinogle. SECOND ROW: Randy Johnson, Kim Lindburg, Cindy Ott, Lynn Barnes, Robin Taggart, Glenda Hutchinson, Rob Ladner, Nancy Olsen, Baron Shively, Steven Gordon. BOTTOM ROW: Patty Graybeal, Liz Welch, Diane Spade, Lisa Garvin, Barbara Knieling, Sherri Richardson, James Bille.

Poultry Science

TOP ROW: Paul E. Sanford, Fran Nelson, Albert W. Adams, Katherine D. Millerskow, Emmanuel A. Laseinde, Yen-Pai Lee. BOTTOM ROW: Greg J. Savage, Amos J. Kahrs, Robert E. Wilkins, David M. Ylander, Michael D. Ouart.

Rodeo Club

TOP ROW: Jackie Baker, Marla F. Hughes, Melinda E. Larson, Jackey M. Jeffery, Karen B. Frankamp, Connie D. Elsea, Diana C. Putnam. SECOND ROW: Rosie E. Eilert, Mona L. Lightbody, Serena L. Stum, Connie M. Eilert, Cindy G. Breech, Marcilee Geisler. THIRD ROW: Neil Worrell, Mark C. Brunner, Denny M. Hormel, Mary J. Hanson, Jeff F. Van Petten, Lance J. Markley, Dennis W. Garr. BOTTOM ROW: Von D. Hunn, Chris A. Strait, Bob C. Welch, Jim R. Williams, Steven B. Deck, Randall R. Shore.

TOP ROW: Kelly A. Jackson, Madelyn D. Green, Chan E. Gates, Brad W. Walter, Karol K. Leggett, Craig D. Rump, Bret L. Norquist. SECOND ROW: Cindy R. Olberding, Valerie P. Skidmore, Mark W. Reasoner, Bruce L. Brock, Scott C. Van Pelt. THIRD ROW: Rudy Hermes, Micheal L. Wiltse, Joe R. Mushrush, Mike Christiansen, Douglas L. Teter. BOTTOM ROW: Bob Clore, Rocke, S. Foster, Pat K. Regier, Fred R. Dysart, Barry C. Beurskens, James P. Swiler.

Wheat State Agronomy Club

TOP ROW: Mark A. Olney, Daniel S. Croker, Kenneth L. Carlson, Doug W. Irvin, Randall W. Loucks, Steven W. Zimmerman, Terry L. Fruechting, Beth R. Gilmartin, Russell B. Smith. SECOND ROW: Debra A. Hemken, Warren R. Farr, Tim L. Miller, Katherina A. Kotoyantz, Ann E. Bunck, Steven R. Wehrman, Lisa M. Auen, Mike L. Pottorff. THIRD ROW: Larry G. Hadachek, Dean O. Mitchell, Bradley V. Brown, Craig W. Mentzer, Mark H. Shields, Richard W. Arpein, Janice E. Marsteller, Kathryn L. Strecker. BOTTOM ROW: Randall S. Currie, Greg Morrical, Keith R. Roesler, Dean Anderson, Douglas B. Thiessen, Alan C. Sobba, Richard W. Stumpf, Mark Pottorff, Steve Thien.

Architecture and Design

Organizations in the College of Architecture are formed for the purpose of furthering their common interests in specific areas. The Design Council co-

ordinates activities of all the organizations and sponsors an open house. OZ is a 48-page magazine put out each semester by a group of architecture stu-

dents who are interested in journalism. SCLSA sponsored the National Landscape Architecture conference at K-State.

Association of Pre-Design Students

TOP ROW: Inga Fenijn, Barbara G. Anderson, Lonna D. Hildreth, Lisa Lassman. SECOND ROW: Randall W. Thomas, Clark E. Kampfe, Rita A. Henze, Teresa L. Hageberg, Jana L. Busse. THIRD ROW: Lois E. Herbers, Chuck Stratman, Michael A. Frisse. BOTTOM ROW: Hervey W. Wright, Ken Graham, Matthew Connolly.

Design Council

TOP ROW: Floann E. Chapman, Vicky A. Gobberdiel, Thomas S. Hollinberger, Suzanne M. Bardgett, Patricia J. McGowan, Julie A. Brand, Gregory L. Stock. SECOND ROW: David G. Brown, Ruthann Russell, Michael A. Karpowicz, Mikael A. Powell, Greg A. Lorie, Elisabeth M. Peterson. BOTTOM ROW: Brian R. Ball, Steven A. Johnson, Stanley R. Andrews, William G. Young, Leonard M. Gardner, Robert Brugge-

Interior Architecture Association

TOP ROW: Douglas Jones, Kendall Merinbaum, Cindi J. DeVicbiss, Dennis Kirkpatrick, Brad Duke, Mark Dayvault, Alex Poorman, Mal Rooks, Russ Bogue, Denise Hoelcher, Mikael Powell. SECOND ROW: Francis Scicchitano, Reginald A. Van Pelt, Pam Ziegenfuss, Julie Brand, Suzanne M. Bardgett, Rosie McCarty, Gayle Dunivent. BOTTOM ROW: Darlene Thompson, Ruthann Russell, Floann Chapman, Jana Hendrickson, Vicky Gobberdiel.

TOP ROW: John R. Wilhelm, Ray Brecheisen, Joy Swallow, Mikael Powell, Julie Brand, Lance Braht. BOTTOM ROW: Mike Grandy, Ray Streeter, Dixie Roberts, Brian R. Ball, Alex Poorman.

Building Construction Honorary: Sigma Lambda Chi

TOP ROW: Carl A. Eisenhauer, Kenneth M. Hageman, Roger D. Commer, Terry L. Ellis, Stephen M. McCandless, Mike Meinke, Linda Barnett, Raymond E. Keith, P. T. Burke. SECOND ROW: Michael L. Elmore, Dale F. Lueckenhoff, Kent McConaughy, Ernest J. Straub, David W. Wagner, Merle F. Jantz, Norman R. Brasher. THIRD ROW: Terry L. Woolard, Warren G. Oblinger, John P. Pigiel, Don M. Foster, Steven R. deFlon, Edward H. Hall, Marc A. Thompson, Casey Halsey. BOTTOM ROW: Joseph S. Graney, Allen D. Rogers, Matthew A. Koehn, Michael R. McGivern, J. F. Goddard.

Student Planning Association

TOP ROW: Prajim Krairussamee, Richard A. McClanathan, William W. Sun, John Pine, John Keller, Owen Wrigley, William Gilmore, Michael S. Mullen. SECOND ROW: Tom Burdett, Jeff Labahn, Roger C. Luce, Rich Shearer. THIRD ROW: Frances Kiernan, Janet A. Pelletier. BOTTOM ROW: Kathy L. Flemons, Connie A. Mangan, John W. Stapleton, Cindi K. Mertz, Dave C. Goodwin.

Tau Sigma Delta: Architecture Honorary

TOP ROW: Rick Howell, Don Pope, Dave T. Chael, John Anderson, David Altenhofen, Tim D. Johnson, John Hartman, Sue Corrigan, Larry Shankweiler, Brian Gridley. SECOND ROW: Perry Lewis, Randy Thorne, David Birdsong, Allen Roberts, Reginald A. Van Pelt, Douglas A. Selby, Joe Berlekamp, Jim Petro. THIRD ROW: Joseph S. Graney, Scott A. Bohning, Steve F. Klepacki, Lance Braht, William H. Westerman, Wyatt Hoch, Frank Scicchitano, Joy Swallow. FOURTH ROW: David W. Foster, Dennis J. Toll, Gregory D. Last, Michael B. Terry, Timothy E. Whiteside, N. Reed Graves, Gayle L. Stout, Barbara L. Hoffman. FIFTH ROW: Patricia J. McGowan, Mark S. Dayvault, Doug W. Reed, Mark A. Taussig, Cheri S. Spener, Bob Brauch, Terri Cermak, Glenn S. Yeakel, Jana Hendrickson. BOTTOM ROW: J. Cranston Heintzelman, Patti K. Pastrick, Lynn A. Moore, Lisa K. Aldrich, Carol A. White, Pennie L. Nichols, Gregory L. Stock, Charles D. Kinworthy, Mary R. Neff, Ray A. Streeter.

Arts and Sciences

Clubs in the College of Arts and Sciences offer a wide variety for all tastes. There are wildlife and geology societies,

theater groups and numerous honoraries. Speech Unlimited is a competitive group which gives speeches and has

won several awards this year. K-State Players is a theater group which performs on campus throughout the year.

Alpha Chi Sigma: Chemistry Fraternity

TOP ROW: W.S. Ruliffson, Monty J. McCoy, Stephen D. Glacy, Harry C. Stenvall, Bill Marks, Dana Mathes. SECOND ROW: Max A. Jones, Fred M. Triebe, Michael P. Sharon, Ann D. Kottwitz, Micaela Bulba. BOTTOM ROW: Donna C. Triebe, Tim J. Cleary, Kathy R. Gromer, Chris D. Jones, Bill A. Debold, Paula Ravnikar.

Arts and Sciences Council

TOP ROW: Anne R. Shearer, Lori A. Bergen, Beth A. Hartenstein, Annette J. Conners, Rex A. Degner. SECOND ROW: Cynthia R. Doss, Mary T. Bichelmeyer, Teresa D. Switzer, Gregg D. Dodderidge, Jeffrey K. Reh. BOTTOM ROW: Doug M. Cook, David E. Foster, James D. Griffin, Patrick H. Miller.

Arts and Sciences Honorary

TOP ROW: Jocelyn K. Sheets, Susan A. Paul, Janice K. Langholz, Lisa Beam, Elaine C. Hefty, Donna Francis. SECOND ROW: Karla A. Hefty, Lori L. Thomas, Stephen L. Gregg, Janet K. Riedel, Curtis A. Krizek. BOTTOM ROW: Susan M. Hanson, Stacy L. Cope, Robert P. Burns, Michael D. Lange.

Ebony Theatre Company

TOP ROW: Anthony Seals, Sherri Chapell, Gwen Macon, Patricia Lucas, Rachelle Thomas, Valerie Pope, Deborah Sharps, Nita Cobbins. BOTTOM ROW: Velina Houston, Tami Farr, Meddren Jones, Edith Hinrich, Randy Carter.

Geography Honorary: Gamma Theta Upsilon

TOP ROW: Chris A. St.Clair, Mark D. Gebhart, Barton D. Mullins, Sharon G. Parks. SECOND ROW: S.L. Stover, Thomas R. Mansfield, Kent Foerster, Sy Seyler. BOTTOM ROW: Joel S. Eckelman, Dean R. Andrew, Allen J. Brown.

K-State Players

TOP ROW: Sally Shutler, Colleen F. Jones, Katie U. DeBo, Janet E. Sunderland, Patty Wirtz. SECOND ROW: Anne K. Lacy, Holly C. Sistrunk, Robert A. Rice, Janet K. Riedel. BOTTOM ROW: Rod A. Russell, Robert A. Chaulender, Richard D. Brunner, Mark A. Pennington, Reginald A. Van Pelt.

Microbiology Club

TOP ROW: Paul Bunce, David Wheaton, Gary Albers, James Urban, Joel Baines, Thanh Truong, Chardell Myers. BOTTOM ROW: Diana Kroeker, Jennifer Owens, Kathy R. Gromer, Tina Shrimplin.

Psi Chi: Psychology Honorary

TOP ROW: Marie E. Self, Cynthia R. Redburn, Mary C. Geesling, Sue A. Riley, Rebecca K. Nilson. SECOND ROW: Elaine M. Melton, Valerie E. Tesche, Kim A. Cunningham, Susan A. Carpenter. THIRD ROW: Camilla R. Meyer, Gayle L. Waller, Elizabeth J. Kolling, Kathryn D. Byrd. BOTTOM ROW: Darlene M. Hattrup, Rene P. Bollier, Steven B. Yee, Brian W. Judd.

Geology Honorary: Sigma Gamma Epsilon

TOP ROW: Louis Riseman, Paul Heuermann, Joseph Smalley, Jacque T. Doody, Loretta L. Pecchioni, Allen O. Oertel, Jody L. Zimmerman. SECOND ROW: Mark H. Ziegler, Henry V. Beck, Jane E. Shaw, Deborah L. Prather, Nancy E. Nutter, Claude W. Shenkel. BOTTOM ROW: Joseph J. Massoth, Warren W. Fore, James R. Underwood, Gregory B. Young, Mark A. Carl, Page C. Twiss.

Social Work Club

TOP ROW: Terry L. Templeton, Sandra S. Stangle, Mary R. Vaupel, Shelley Pottorf, Kathleen Berry, Deb Denton, Tammy L. Howser, Jennifer L. Steiner, Milloy C. Greenwood, Sondra D. Smith. SECOND ROW: Kerry D. Honeycutt, Missy Altenbernd, Betty J. Ryan, Jane A. Rackers, Cecilia C. Hass, Diane L. Gillespie, Micki L. Steele, Jackie L. Herner, R. Susan Harrington. THIRD ROW: Deborah S. Koch, Regena M. VanLeewen, Charlotte A. Johnson, Susan A. Davis, Susan B. Blackman, Peggy S. Lingard, Jean A. Stallbaumer, Sue Walek, Nancy G. Owsley, Judy A. Hollinger. FOURTH ROW: Marvin A. Kaiser, Robert J. McGaughey, Tom B. Moore, Mary J. Farrell, Cynthia A. Nordin, Kathryn A. Owen, Deborah A. Snider, Sheryl K. Hurd, Diana L. Hicks. BOTTOM ROW: Cathy L. Sheahan, Valerie A. Lindquist, Julie A. Ketzner, Nancy L. Spannenberg.

Speech Unlimited

TOP ROW: Lynne Ross, Darla Beisner, Tom Downing, David E. Proctor, Todd Sherlock, Craig Brown, Eric Rosenblad, Mary Larabee, Pat Kilgore, Debbie Neff, Harold Nichols. SECOND ROW: Penny Rach, Linda Treiber, Evelyn Northum, Natalie Haag, Grace Williams, Bob Holcomb, Diane Plunkett, Tim McIntyre. BOTTOM ROW: Diane K. Johnston, Loretta Johnson, Wendy Schiappa, Joanna Page.

Student Auditorium Board

TOP ROW: Terri K. Monahan, Elizabeth L. Phelan, M. Annette Norris, Yvonne M. Patterson, Vicki N. Wischropp, Jane A. Peters, Helen L. Holm. SECOND ROW: Helen A. White, Luann M. Huelskamp, Thad E. Knowles, Brenda G. Roth, Sue A. Ritter, Annette J. Conners. THIRD ROW: Cindy L. Parks, Rodrick Q. Smithso, Frederick H. Kamla, David D. Dunlap, Dale K. Dickson. BOTTOM ROW: William J. Schmitz, Gerald K. Findley, David J. Albracht, Robert A. Rice, Kirby A. Shineman, Mark H. Ollington.

Wildlife Society

TOP ROW: Galen L. Critchfield, Linda H. Holzrichter, Gary L. Skrdlant, Daryl D. Fisher, Grant S. Allison. SECOND ROW: Leila L. Case, Thomas J. Snodgrass, Annette Norris, Randy L. Whiteaker, Richard P. Gillen, Ginger L. Adami. THIRD ROW: Robert J. Robel, William A. Bergh, Susan J. Kenny, Rob Unruh, Barbara S. Vanderveen, Linda R. Schaffner. BOTTOM ROW: Gary A. Radke, Harvard C. Townsend, Tim F. Ahrens, Paul A. Toll, Linda D. DeForest.

Williston Geology Club

TOP ROW: Jody L. Zimmerman, Jane E. Shaw, Mark Young, Andy Howell, Kim Eccles, Jacque T. Doody. SECOND ROW: Allen O. Oertel, Pat Crutchfield, Paul Heuermann, Mark H. Ziegler, Malia Spaid-Reitz. THIRD ROW: Michael J. Greene, Joe Massoth, Steve Thompson, Warren Fore, Brad Burkett, George Clark. BOTTOM ROW: Gregory B. Young, Greg A. Riepl, Gregory B. Andersen, Mark A. Carl, Kathy L. Carl, Bruce Reitz.

Business

Business organizations try to provide students with insight into the actual practice of their chosen field. The Busi-

ness Administration Council publishes a newsletter to create more interest in the College. Beta Alpha Psi conducts

field trips to accounting and business firms, and helps tutor beginning accounting students.

Professional Business Organization: Alpha Kappa Psi

TOP ROW: David E. Wild, Alan E. Hintz, Brian K. Stack, Mark J. Kohlrus, Mark T. Lair, Craig E. Cole, John A. Kober, Arnold E. Vaughn, Suzanna Eby. SECOND ROW: Randall R. Carlson, Daniel C. Melgren, Ray Z. Letourneau, Kerry I. Hall, Kyle L. Wendt, Rick L. Stejskal, Grant D. White, Jennifer L. Goldsmith, Elaine Dechant, Tammy Abrahamson. THIRD ROW: Bill Everett, Michael J. Sanders, Gregory M. Henne, Mark T. Zillinger, William G. Sullivan, Lavern F. Kinderknecht, Dianne Franken, Susan M. Waechter, Meg Kelley, Teri Wingert. BOTTOM ROW: Patrick J. Doran, Thomas J. Doran, Carla J. Cole, David C. Didde, Bill Copher, Bill Manning, Mary E. Johnson, Paul J. Robben, Robert D. Davis

Accounting Fraternity: Beta Alpha Psi

TOP ROW: JoAnn Hopkins, Cynthia A. Pusch, Sheila Heylin, Sherri J. Bloesser, Jim A. Mowder, Deb Osborne, Patricia Pulliam, Julie Albright, Barbara Sachen, Dianne Franken, Vern Herbel. SECOND ROW: Tim P. O'Neil, Greg S. Beers, Deborah L. Hunt, Douglas C. Ladd, Janice E. Knopp, Julie E. Kohman, John A. Kober, Missy A. Rausch, Brad D. Ives. BOTTOM ROW: Thomas R. Manwarren, Kathy S. Knox, June C. Hartline, James C. Nelson, Brian T. Howes, Barbara A. Barrick, Brian G. Wurst, Gary B. Bauer.

TOP ROW: Marilyn K. Rodger, Karen A. Wallerius, Denise E. Hinson, Janet M. Straub, Sara Schaefer, Cathy Ensign. SECOND ROW: Janiece M. Reinert, Victoria C. Dunn, Terri R. Small, Carol A. Haunschild, Carol A. Kohr. THIRD ROW: Rene J. Laman, Daniel A. Thomas, Roger E. Hastings, Wayne B. Turner, Robert J. Hajovsky, Richard J. Tatman. BOTTOM ROW: Daniel J. Norton, David P. Silhan, Terry L. Coltrain, Phillip K. Osborn, Maurice E. Stark.

Business Administration Council

Duane Webber, Lynn Eagleton, Barry Robinson, Polly Green, Mark A. Zimmerman, Richard M. Macha, Cheryl L. Nutter, Gary McGuire, Bill Manning, Phil Osborn, Kenneth L. Fox, Judy Weltsch, Sonni Donley, Patrick T. Burke, Brian L. Rasette, Susan E. Coulter, Patrick C. Sargent, James C. Nelson, Brian C. Hueben, Steven D. Anderson, Alan R. Stetson.

Financial Management Association

TOP ROW: Brad Skipton, Kendal K. Pulliam, Brice LaHue, Robert N. Rousey, Randolph A. Pohlman, Robert D. Hollinger, David S. Toot, Stephen Ford, Greg Bond, Kent Adams, David L. Lee, William W. Scroggin. SECOND ROW: David Holmes, Terry Mius, Daniel Pancitz, Monte Minard, Randy Williams, Steve Salter, Douglas C. Ladd, Brian Howes, Gary Plumberg, Ed Bauer, Tim Ruffin. BOTTOM ROW: Polly Green, Judy Reitz, Verlyn Richards, Susan Coulter, Nancy Swartwout.

Phi Chi Theta: Business Organization

TOP ROW: Shelley D. Bessier, Pat A. Llamas, Ivey L. Whitmore, Rosa I. Huaman, Marilyn Mitchell, Janet D. Dam, Rhonda K. Miller, Claudia S. Blockcolsky, Ginny Williams, Beth A. Boast. SECOND ROW: Linda P. Sheaffer, Marilyn B. Antweiler, Brenda K. Wright, Corrine K. Fehr, Reva E. King, Sonni R. Donley, Marcia K. Dryden, Kiki Comeau, Janice D. Hull. THIRD ROW: Maria K. Wunder, Carol A. Porter, Tina C. Dahl, Elizabeth A. Burgin, Lynn D. Eagleton, Helen Bajich, Kathy A. Varndell, Mary A. Sebring, Diane M. Brown, Nicky S. Master. FOURTH ROW: Chris E. Wiseman, Diane M. Nace, Jane C. Dyer, Judith M. Erickson, Brenda K. Buss, Kris L. Larson, Rose Ivanov, Nancy J. Swartwout. BOTTOM ROW: Andrea A. Foutch, Mary A. Davis, Carol E. Irvine, Susan A. Walterscheid, Wendy L. Phillips, Denise E. Hinson, Michele K. Kissing, Debbie L. Dawson.

Society for the Advancement of Management

TOP ROW: Debbie L. Dawson, Deborah J. Anderson, Trudy J. Hawkins, Ivey L. Whitmore, Cindy G. Sommer, Martha L. Wilson, Tammy Abrahamson, Sandra S. Clark, Mary J. Carinder, Mary B. Knipper, Becky A. Jeschke. SECOND ROW: Keith A. Love, Laurie A. Carr, Nicky S. Master, Kiki Comeau, Barbara E. Gooley, Donna J. Nicholson, Jane A. Peters, Leo P. Matzeder, Terry J. Adamson, Suzanna Eby, Marie A. Froom. THIRD ROW: Robert P. Christiansen, Terrence R. Kraft, Leon L. Atwell, James P. Shaheen, Randall D. Jordan, Douglas E. Knauss, Nancy J. Swartwout, Michael M. Morton, Ann Ferguson, Doris Delzeit. BOTTOM ROW: Craig F. Perkins, Richard Duncan, Stephen R. Gowdy, Galen A. Schwertfeger, Lee A. Levenson, David C. Didde, Mark Jorns, Randy L. Campbell, Mike Mallory, Rick L. Haxton, Sue Grissinger.

TOP ROW: David C. Orr, Gregg J. DuPree, Gordon C. McWilliams, Dwight R. Palmer, Brent L. Heidebrecht, David A. Shepherd, Page Puckett, Debbie Higgs, Jean Steele. SECOND ROW: Myron D. Flickner, Robin D. Drumm, Sandy Degi, Jay A. Hathaway, Catherine A. Sabatka, Trudy D. Rempel, William D. Henning, Patrick P. Parke, Frank K. O'Toole. THIRD ROW: Greg Degi, Anker A. Lerret, Wayne R. Wild, Susan Galyardt, Dennis W. Anderson, Albert J. Tharnish, Stevin H. Gehrke, Carl L. Shore, Kevin E. Williams, Donald J. Hinson. BOTTOM ROW: Larry M. Strecker, Brian W. Middlekamp, Michael W. Berry, Robert C. Robinson, Brian K. Harms, Thomas B. Reed, Kenneth G. Meitl, Brian J. Doerksen, Frank A. Tillman.

Communications

Radio and television, newspapers, magazines, advertising and public relations are all part of the communications field. Organizations in these categories

try to provide students with knowledge and experience in their areas of interest. Women in Communications, Inc., tries to set up contacts in the professional

world for its members. Sigma Delta Chi sponsors Editor's Day on campus, which brings in editors from all over the state to meet students.

Advertising Club

TOP ROW: Mary L. Spicer, Mike R. Utech, Peggy D. Patchen, Bill Lippold, Mary S. Hill. SECOND ROW: Andrea Owens, Mary Jacobson, Sarah Cosgrove, Roxanne Smith, Andrea Carver, Stan Higgason. BOTTOM ROW: Harold C. Shaver, Sheri L. Sneed, Lynn A. Wylie, Rita Walsh, Phil Achten, Ann Wylie.

Alpha Epsilon Rho: Radio and Television Honorary

Jim Jones, Diane Gonzolas, Theresa Montgomery, Mitchell Holthus, MaryJane Schust, Sally Sageser, Malia Baumgardner, Janet Burgdorfer, MaryAnne Murray, Ann Morgan, Julie Deppish.

Public Relations Student Society of America

TOP ROW: Karla K. Engle, Andrea Owens, Mary Jacobson, Mary T. Bichelmeyer, Janice Lenoir, Carol Oukrop. BOTTOM ROW: Harold C. Shaver, Denise L. Hayden, Ronn Smith, Melissa Mauck, Cindy Stearns.

Sigma Delta Chi: Society of Professional Journalists

TOP ROW: Peryn Cominsky, Debbie Hagenmaier, Lisa Sandmeyer, Jett Anderson, Velina Houston, Michelle Miller, Bruce Buchanan, Julie Doll, Doug Daniel. BOTTOM ROW: Dave Hughes, Mary J. Prochazka, Robert Daly, Mary L. Ridder, Cindy Friesen.

Women in Communications, Inc.

TOP ROW: Jocelyn K. Sheets, Kim L. Moore, Susan L. Spencer, Debbie G. Hagenmaier. SECOND ROW: Kathy L. Davison. BOTTOM ROW: Cecilia M. Kasl, Mary A. Murray.

Cultural

The cultural organizations on campus try to help the student body become aware of cultures, languages and social functions. The Black Student Union

aids the University in the recruitment of black faculty and students. They also sponsor a Black Homecoming and Black Awareness Week. The African

Student Association unites African students with such activities as an African Night featuring native costumes, dance and food.

Black Student Union

TOP ROW: Allen C. McCormick, Tami E. Farr, Melanie L. Brockington, Sharon A. Davenport, Reginald Washington. SECOND ROW: Calvin M. Ransom, Isaac D. Turner, Moira M. Jack, Cynthia J. Grider, Ernest B. Carter. THIRD ROW: Kimlianne T. Washington, Philip R. Atkins, Harold A. Carter, Deborah J. Anderson, Sabrina A. Boyd, Greg L. Musil. BOTTOM ROW: Juan H. Montier, Camillia A. Pace, Cedric T. Patton, Gwen S. Macon, Joe A.H. Jones.

B'nai B'rith Hillel Foundation

TOP ROW: Steven Galitzer, Allan J. Kleinman, Ruth Cubberley, Eric Rosen. BOTTOM ROW: Rita Grover, Jan Galitzer, Jill Levy, Ivri K. Mesinger.

Mecha

TOP ROW: M. A. Garibay, Christopher E. Rodriguez, Danny Lopez, Jeannie Sandoval, Connie Ochoa. SECOND ROW: Enrique S. Garibay, Leticia Tapia, Toni A. Jasso, Teresa M. Guillen. BOTTOM ROW: Jesse M. Amayo, Debbie J. Wilson, Anna Amayo.

Native American Indian Student Body

TOP ROW: Allen C. McCormick, Toni A. Jasso, Joanna I. Smith, Jeannie I. Sandoval. SECOND ROW: Rita M. Schwermann, Larry B. Decker, Gregory B. Michael, Bob McKinney. BOTTOM ROW: Al Wilson, Roger C. Luce, Jess M. Amayo, Gilberto R. Chabarría.

Nigerian Student Union

TOP ROW: Emmanuel A. Laseinde, Umaru I. Dogondaji, Raymond D. Lagan, Isaiah A. Bajah, Eyagi Yakubu. SECOND ROW: Enoch A. Salako, Theophilus L. Adeyemo, Abdullahi Jibrin, Leje I. Mohammed, Reuben A. Mannok. BOTTOM ROW: Saidu B. Ahmed, Mohammed G. Umar, Muhammad U. Arikya, Kehinde O. Aina, Jimoh O. Yusuf, Attahiru A. Aliero.

Education

Organizations in the field of education mainly strive to further their com-

mon interests and meet professional people in areas of interest. Some groups

take field trips and have guest speakers.

Student National Education Association

TOP ROW: Robert J. Seitz, Pamela S. Levin, Libby Allen, Paula Palmer, Lynn Thomas. SECOND ROW: Kathryn K. Byrd, Mary J. Roberson, Karen L. Christiansen, Sheri L. Bareiss, Marcia K. Pfannenstiel. BOTTOM ROW: Ronnie Rouse, Jim R. Teeter, Holly C. Sistrunk, Cynthia L. Bishop, Doug T. Ensley.

Engineering

These organizations tend to focus on meeting professional people in the engineering field. The Society of Women

Engineers has women speak about how they are treated on-the-job. The American Institute of Industrial Engineers

has speakers give them exposure from an engineer's point of view.

Industrial Engineering Honorary: Alpha Pi Mu

TOP ROW: Ray Magill, Dave McKee, J. J. Smaltz, Jeff Finley, Mark Zeorlin, Craig Summers, Frank Hwang, Carl Ice. BOTTOM ROW: Brad Kramer, Peggy Ou, Deb Nicklaus, Matthew Taylor, Susan Galyardt, Cathy Sabatka, J. John Kolman.

American Institute of Chemical Engineering

TOP ROW: Debra A. Royse, Cynthia L. Schaller, Debra S. Higgs, Helen L. Holm, Chad A. Strait, Ann D. Kottwitz, Margaret M. Hein, Marla K. Doyen, Mark Rinehart. SECOND ROW: Terry D. Tucker, Richard R. Adams, Robert J. Simon, Scott A. Brumbaugh, Scott D. Love, Mark R. Ramsdale, Robert S. Herrick, Leland M. Shepard. THIRD ROW: Brent A. Burdge, Ralph W. Romig, Don S. Janezic, Greg A. Trebilcock, Spencer L. Tholstrup, David C. Law, Lynn T. Holle. BOTTOM ROW: Walter P. Walawender, Dana L. Mathes, Monty J. McCoy, Brad K. Blackman, William D. Henning, Bruce R. Hazeltine, Steven J. Tyler, Thomas L. Cox.

American Institute of Industrial Engineering

TOP ROW: Frank P. Hwang, Steven F. Ripper, Dan J. Panter, Matthew M. Taylor, Catherine A. Sabatka, J. John Kolman, Jeff Finley. SECOND ROW: David K. Dohrmann, Kenton D. Lippert, Terry P. Dockum, Mark A. Zeorlin, Bernard L. Smith, Kenneth E. Anderson, Nadalie S. Bosse, Craig J. Lowell, Dave McKee, Ray Magill. THIRD ROW: Donald E. Skipton, Randell G. Wagner, Ronald D. Frazee, Jeffrey P. Albright, Anthony P. Kia, Rodney E. Nally, Mohammed G. Umar, Peggy J. Ou, Amy L. Armstrong, Mitsushi Mori. BOTTOM ROW: Frank A. Tillman, Brad A. Kramer, Larry M. Strecker, Joseph B. Talley, Phillip G. Miller, M. Lisa Baumgarten, Scott M. McCulley, John R. Annis, Terron E. Jones, Carl R. Ice, Susan Galyardt.

American Nuclear Society

TOP ROW: Teresa A. Wise, Joan E. Gregory, Richard A. Roenigk, Debora A. Zimmerman, B. Ellen Johnson. SECOND ROW: Charles H. Mathews, Trudy D. Rempel, Steven A. Craft, Kent J. Wietharn. THIRD ROW: Robert M. Ostmeyer, Gary D. Rodvelt, Lawrence P. Nelson, David M. Rencher, Rick L. Legleiter. BOTTOM ROW: Hermann J. Donnert, Gary L. Bultman, Dennis W. Anderson, Brent L. Heidebrecht.

American Society of Agricultural Engineering

TOP ROW: Mark Boguski, Dwight D. Chipperfield, Randy S. Rosine, Brady Bauer. SECOND ROW: Wilmer J. Bartel, Emery F. Wiens, Edward A. Smalley. THIRD ROW: Steven L. Blume, Kenneth G. Meitl. BOTTOM ROW: Terry W. Misak, Ronald D. Shinogle, Russ LaForce.

American Society of Mechanical Engineering

TOP ROW: Virginia A. Unruh, Page Puckett, Brett A. Stanley, Joe R. Gray, Robert J. Smith, Kendall W. White, Scott E. Elsasser, Daniel J. Green, Michael D. Snyder. SECOND ROW: Roger L. Becker, Kent E. Ketterman, Dale K. Dickson, Brook J. Beaston, David W. Long, Philip B. Wiltz, Mark R. Hutchison, Dick J. Goering, Steve P. Kirchhoff. THIRD ROW: Dennis A. Wienck, William S. Dodge, Robin D. Drumm, Mark K. Hughes, Brian J. Doerksen, David B. Dumler, William R. Litton, Glenn C. Wood. BOTTOM ROW: Robert A. Johnston, Paul J. Schmitz, Randy W. Ireland, James D. Langner, Brian L. Gerhardt, John C. Lindholm, Frank K. O'Toole, Michael L. Stewart, David S. Douglass.

Association of General Contractors

TOP ROW: Don A. Shaver, Bill F. Gensky, Dale F. Lueckenhoff, Rick A. Heitmann, Chris L. Niemann, Bill Meeker, Dana LeSher, Jay D. Brichacek, Doug Grove. SECOND ROW: Roy L. Meinhardt, Ron A. Cheney, David F. Steele, David W. Wagner, Stephen L. Kaaz, Mike Weimer, Kenn Lee, Bruce Anderson, Ray Keith. THIRD ROW: Stan C. Kiser, Charles L. Schlesinger, Glenn F. Miller, Bert J. Esfeld, Don M. Foster, Roger A. Seymour, Terrance J. Shinogle, Linda Barnett. BOTTOM ROW: Steve P. Bennett, Alan K. Felsted, Jane D. Yarbrough, Darrel W. Meyer, Robert B. Curry, Scott B. Brewer, Roger D. Meade.

TOP ROW: Roger D. Commer, Grcg B. Zuercher, James D. Calvert, Peter M. Hamma, Patrick T. Burke, Steve J. Goetz, Eugene Thorson. SECOND ROW: Terry L. Woolard, Joseph S. Graney, Rick L. Bauer, W. Gregg Oblinger, Casey S. Halsey, Ernest J. Straub, Steve Weisinger, Robert Dahl. THIRD ROW: Peter H. Diedrich, Marc A. Thompson, Mark A. Brace, Randy A. Smith, Erik S. Anderson, John J. Westerhaus, Jim Fleming, J. F. Goddard. BOTTOM ROW: Kevin J. Reilly, Gregg A. Moser, David L. Disney, Matthew A. Koehn, Allen D. Rogers, Tim W. Wagner, Trent D. Peterson, Merrill Blackman.

Civil Engineering Honorary: Chi Epsilon

TOP ROW: Joseph Eng, Elizabeth Huning, Randy Blackwood, Kathy Perkins, Randy H. West, Richard W. Scoggan. SECOND ROW: Danial J. Stecklein, Wayne A. Helms, Ron H. Kuhn, Christopher G. Glatt, Douglas D. Grauer. THIRD ROW: Randy J. Gasswint, Jay A. Hathaway, John M. Cater, Stephen D. Webb, Albert J. Tharnish. BOTTOM ROW: Jay N. Hutchison, Kim N. Pearsc, Robert C. Robinson, Michael W. Berry.

Engineering Student Council

TOP ROW: Teresa A. Wise, Mary T. Lee, Pam J. Nicklaus, Nadalie S. Bosse, Debra A. Royse, Richard A. Roenigk, Page Puckett, Steven R. Goble, Kristin J. Fionda. SECOND ROW: Laura J. Kruse, Michael D. Hicks, Ernest J. Straub, Leon L. Atwell, Gene K. Atkinson, C. David McKee, Susan P. Barsamian, Trudy D. Rempel. THIRD ROW: Michael J. Scully, Kevin F. Kandt, Bryan W. Reinecke, Phil A. Hrenchir, Denny Anderson, Casey S. Halse, Roger A. Seymour, David B. Rogers, Russell B. Bauek. BOTTOM ROW: Hermann J. Donnert, Dana L. Mathes, Marc E. Elkins, Patrick P. Parke, Bruce R. Hazeltine, Brian A. Carmichael, David R. Masters, John P. Dollar.

Engineering Technologists

TOP ROW: Brian T. Brown, Robert K. Cooley, Brian H. Terry, Tammy J. Olson, Christi L. Graves. SECOND ROW: Dale L. Meskimen, Max E. Wietharn, Dave T. Rimmel, Rick D. Sayler, Tara S. Cupps. THIRD ROW: Byron B. Kauffman, Gregory S. Hoglund, Bill W. Daly, Doug M. Crume. BOTTOM ROW: Leon L. Atwell, Tom E. Eberth, Rodney K. Rowland, Art Vaughan.

Eta Kappa Nu: Electrical Engineering Honorary

TOP ROW: Joe E. Ward, John L. Benefiel, Karen S. Chandler, Dwight R. Palmer, Clay G. Jones, Myron D. Flickner, David W. Lowther, James K. Albright, Timothy C. Henness, Robert Williams. SECOND ROW: Akbar Hariri-Marand, Gordon W. Thayer, Kenneth L. Sowles, David B. Sargent, Glenn R. Engel, Rick E. Flott, Judith A. Nutter, David B. Rogers, Scott W. Marshall, William G. Bahr. THIRD ROW: Mary L. Sanders, Curtis D. Harris, Scott R. Shepard, Jennie E. Benson, William N. Dowling, Lanette S. Winters, Gordon C. McWilliams, Carl L. Shore, Alan C. Svoboda, Kent M. Willis. BOTTOM ROW: Daniel B. Schowengerdt, Greg Degi, Robert J. Koets, Thomas B. Reed, Stefan R. Komarer, Pat R. Tatum, Ronnie L. Rodvelt, Joseph W. Sage, Mark E. Flin, Earl E. Creel.

Institute of Electronic and Electrical Engineers

TOP ROW: Clay G. Jones, Karen S. Chandler, Randall A. Smischny, Judy Nutter, Mel E. Schwan, John L. Benefiel, Michael D. Hicks, David R. Kautz, Doug D. Frederking, Dwight R. Palmer, Myron D. Flickner. SECOND ROW: Akbar Hariri-Marand, Gordon W. Thayer, David W. Lowther, Rick Flott, Glenn R. Engel, Donald P. Danielsen, Curtis D. Harris, Clarence D. Suppes, David B. Sargent, Delbert G. Riebe. THIRD ROW: Mary L. Sanders, Jennie E. Benson, Lanette S. Winters, Mac A. Cody, William N. Dowling, Kenneth L. Sowles, Dewey W. Wymer, James K. Albright, Carl L. Shore, Gary R. Hazeltine, Scott W. Marshall. BOTTOM ROW: Marvin E. VanBebber, Greg Degi, David B. Rogers, Thomas B. Reed, Robert J. Koets, Neal L. Woods, Pat R. Tatum, Ronnie L. Rodvelt, Joseph W. Sage, Mark E. Flin.

Chemical Engineering Honorary: Omega Chi Epsilon

TOP ROW: Walter P. Walawender, Larry A. Glasgow, Debra S. Higgs, Helen L. Holm, Brady A. Compton, Stevin H. Gehrke, Janet E. Atterbury. SECOND ROW: L.T. Fan, Richard R. Adams, Joel A. Yocom, Mike D. Brown, Rick R. Tague, Marc R. Ramsdale. THIRD ROW: Terry L. Unruh, Monty J. McCoy, Scott A. Brumbaugh, Don S. Janezic, Thomas L. Cox, William D. Henning, Leland M. Shepard. BOTTOM ROW: Dana L. Mathes, Brent A. Burdge, Michael L. McGeough, Warren M. Ewert, Joel A. Davenport, Robert J. Simon.

Society of Women Engineers

TOP ROW: Sandy S. Yang, Cheryl A. Schneck, Polly S. Robinson, Allecia L. Remington, Marsha A. Meili, Jane E. Knoche, Debra S. Higgs, Terry L. Davis, Susan A. Attig, Karen J. Hummel. SECOND ROW: Joan E. Gregory, Deborah L. Barber, Rhona L. Walton, Sandra S. Callahan, Susan M. Stemmler, Catherine A. Sabatka, Tadhil L. Silsby, Terrie K. Sallman, Sherri L. Yarber. THIRD ROW: Mary B. Dix, Kris J. Fionda, B. Ellen Johnson, Debora A. Zimmerman, Diane M. Dalton, Marla K. Doyen, Michelle A. Hoferer, Page Puckett. BOTTOM ROW: Lynne E. Brockhoff, Peggy L. Crews, Barbara G. Lindholm, Lanette S. Winters, Susan P. Barsamian, Jacqueline K. Thomas, Lisa B. Hoffmaster, John C. Lindholm.

Steelring: Senior Engineering Honorary

TOP ROW: Stephen D. Webb, Jay N. Hutchison, Denny Anderson, Pat Johnston, Margaret Yaeger, Patrick Parke, Marc Elkins, Ray Hightower. BOTTOM ROW: Frank O'Toole, Matthew Taylor, William N. Dowling, Steve Pinick, Debbie Higgs, Stephen McCandless, Deb Nicklaus.

Tau Beta Pi: Engineering Honorary

TOP ROW: Spencer T. White, Jim D. Clark, Kendall W. White, Pam J. Nicklaus, John L. Benefiel, David J. Tatum, Ann D. Kottwitz, Meg A. Yaeger, Scott A. Brumbaugh, Mark Hoffman, Linus A. Drouhard. SECOND ROW: Scott W. Marshall, William G. Bahr, David W. Lowther, Curtis D. Harris, Brent A. Burdge, Marty Trayer, Daniel J. Green, Glenn R. Engel, Judith A. Nutter, Darryl D. Drayer. THIRD ROW: Wayne A. Helms, Lanette S. Winters, Michael L. McGeough, Brett A. Stanley, Roger L. Becker, Randy L. Blackwood, Rick R. Tague, Gloria J. Wiens, Matthew M. Taylor. BOTTOM ROW: Steven L. Blume, Giles C. Tuckfield, Philip J. Neff, Robert J. Koets, Charles E. Herrmann, Carl R. Ice, Kent A. Martens, Ray R. Magill, J. John Kolman.

Governing Boards

Governing boards try to help coordinate activities of different organizations. Student Senate discusses and

makes proposals for the students about policies, procedures and issues of interest. Panhellenic and Interfraternity

Councils organize the activities and policies of the sororities and fraternities at K-State.

Association of Residence Halls

TOP ROW: DeAnn M. Leshovksy, Cathy A. Zook, Sandra D. Sheel, Sheila M. Sauer, Debra A. Royse, Lee F. Ukele, Jan L. Winter, Daniel K. McAnarney, Howard K. Jones, Ronda McCullick. SECOND ROW: Lisa E. Connor, Cindy A. Castelli, Annette M. Galluzzi, Stewart M. Bowersox, Virginia K. Potter, Shirley J. Fouse, Cindy A. Buse, Steven G. Pfannenstiel, Velva C. Hale, Jeffrey L. Stafford. THIRD ROW: Michele R. Cochran, Dawn M. Schauer, Belinda C. Stump, Mark K. Rauth, Margaret A. Young, Randall A. Smischny, Judy A. Nott, Annette C. Hachinsky, Sharon C. Rodina. BOTTOM ROW: Jerri A. Sparke, Randy D. Spicher, Michael A. Pezza, Bryan A. Megee, Patrick F. McKernan, Larry W. Durant, James A. Duke, Judy A. Spiegel, Althea Rempe.

Assoc. Residence Hall Exec. Comm.

TOP ROW: Cindy A. Castelli, Mark K. Rauth, Annette M. Galluzzi, Randall A. Smischny, Althea Rempe, Jeffrey L. Stafford. BOTTOM ROW: Sharon C. Rodina, Michele R. Cochran, Ronda McCullick, Jerri A. Sparke.

Black Greek Council

TOP ROW: Sandra McGee, Tami Farr, Patricia Lucas, Dale Blanchard. BOTTOM ROW: Isaac Turner, Faith Pearson, Gwen Macon, Deborah Anderson, Roberta Hanks, Reginald Washington.

Fine Arts Council

TOP ROW: Betty R. McGraw, Elaine Mayo, Jerrold Maddox, Wes Babcock, Valerie Pope, R. Z. Melnick, Michael Boucher. BOTTOM ROW: Ronnie Mahler, John Chalmers, Allen C. McCormick, R. A. Steinbauer.

Interfraternity Council

TOP ROW: Jerry A. Lilly, Bill Mecker, Joe Frasier, Brian C. Hueben, Grant K. Graham, Thomas F. Baldwin, Steven J. Gordon, Troy E. Horinc, Mark R. Hutchison, Don M. Foster. SECOND ROW: Mitchell G. Holthus, Ralph S. Crumrine, Patrick C. Sargent, Timothy H. Heffel, Mark A. Anderson, Keith A. Heikes, Dan W. Wolf, Dan M. Bennett, Randall R. Carlson, Brent R. Thompson, Michael L. Gonzalez. BOTTOM ROW: Thomas V. Fisher, Steve G. West, Stephen J. Hollander, Drew S. Thompson, Rich A. Lundstrom, Mike Stables, Patrick H. Miller, Greg D. Nelson, Gary D. Olds.

Panhellenic Council

TOP ROW: Debbie K. Steiner, Peggy D. Patchen, Lillian M. Arnold, Joel A. Lusk, Suzanne Schulz, Patti J. Cook, Sandra L. Maggio, Stephanie L. Davis. SECOND ROW: Collette Carr, Suzanne L. Lynton, Colleen L. Burnett, Shawn E. Swaim, Nancy J. Schust, Beth Weidenheimer, Vivian A. Bogner. THIRD ROW: Kim A. Schulte, Lisa J. Perez, Carol A. Carr, Karen L. Fowler, Barbi L. Berner, Susan L. Wahle. BOTTOM ROW: Jannie D. Hull, Monica K. Woodford, Lori J. Harris, Janet L. Guilfoyle, Joy A. Balderson, Barbara K. Robel.

Student Governing Association

TOP ROW: Mick Morrell, Doug Cook, Max Wietharn, Sam Brownback, Marc Elkins, Kevin Burnett, Randy Tosh, Allen Roberts, Ron Wilson, Lisa Baumgarten, Dee James, Rex Matlack, Diana Greenough, Kirk Johnson. BOTTOM ROW: Nita Cobbins, Theresa Montgomery, Lisa Scherer, Elaine Hefty, Karma Overmiller.

SGA Executive Board

TOP ROW: Sam Brownback, Jay Selanders, Dave McKee, Emily Compton, Mike Morrell. BOTTOM ROW: Lori Bergen, Brian Rasette, Mary K. Faubian, Lisa Zahn, Greg Musil.

Student Senate

TOP ROW: Sam Brownback, Dennis Shehi, Pam Nicklaus, Kitty King, Ted Knopp, Pete Kruse, Scott Pfizenmaier, Peter Criss, Tim Strobel, Rich Macha, Jenny Johnston, Helen Burtis, Clarence Waters, Mick Morrell. SECOND ROW: Dent Wilcoxon, Marilyn Trotter, Camillia Pace, Patrick Miller, Curtis Krizek, Tim Phares, Tim Bearnese, Steve Anderson, Jeff Zillinger, Alan Sobba, Candi Caplinger. THIRD ROW: Bill Manning, Stacy Cope, Dana Foster, Roger Seymour, Emily Compton, Inga Fenijn, Wes Babcock, Nancy VanMeter. BOTTOM ROW: Mark Kinnaman, Lisa Zahn, Lori Bergen, Brian Rasette, Mary K. Faubian, Jay Selanders, Greg Musil, Dave McKee.

Union Programming Council

TOP ROW: Kathy Najuch, Carol Peckman, Kevin Kneisley, David Colburn, Ken Spangler, Bill Muret, Linda Thompson, Suzanne Fee, Peggy Patchen. BOTTOM ROW: Myron Molzen, Rob Cieslicki, Larry Najuch, Margaret Smith.

Health

Organizations in the area of health are formed to meet professionals and set up contacts with them. The Kansas

Association of Nursing Students meets nurses from all over the state. Groups such as Pre-Physical Therapy and

Medical Technology are also set up to contact professionals in their fields.

Pre-Medical Honorary: Alpha Epsilon Delta

TOP ROW: Gary Breipohl, Eve Hohly, David Gantenbein, Chris Southwick, Doug Breising, Clark Ruttinger, Herb Moser. BOTTOM ROW: Janice Langholz, Sandy Riggs, Elaine Hefty, Ana Huaman, Ken Voss, Susan Mosier, Glenn Boyd, Teresa Krenger.

Kansas Association of Nursing Students

TOP ROW: Sandra A. Burtis, Kathleen A. Kinnaman, Janine L. Kohman, Shari L. Wenger, Jean M. Clarke. SECOND ROW: Linda L. Dobratz, Denise L. Degner, Libby Johnson, Rebecca J. Stiles, Myong-Hyi Taylor. BOTTOM ROW: Kenneth R. Stigen, Beth E. Blume, Denise D. Clowe, Lori J. Blomquist, Cynthia A. Whitehair.

Medical Technology Club

TOP ROW: Kathy Gooley, Mark Kendrick, Chardell Myers. SECOND ROW: Hector Vega, Tammi Barstow, Terri Peterson, Sally Nelson, Karen Erpelding, Belinda Foster, Linda Maxwell. BOTTOM ROW: Connie K. Maben, Christine Gardner, Rebecca Roach, Loree Brownell, Linda Norton.

Pre-Physical Therapy Club

TOP ROW: Amy Walters, Shayla Elder, Tamara S. Murphy, Mary M. Garten. SECOND ROW: Glenna Hildebrand, Margaret Gollada, Kim B. Wilson. BOTTOM ROW: Denise M. Rechner, Greg A. Bachman, Jerry L. Pomeroy, Mary C. Poell.

Pre-Veterinary Medicine Club

TOP ROW: Jeannie I. Sandoval, Mayra Hernandez, Gaye E. Slifer, Stephanie L. Bush, Karen L. Altenbernd, Patricia Y. Kyner, Gayle L. Davis, LaReta M. Tabor, Michael F. Yamamoto, Karin K. Seltman, Leanne J. Landau. SECOND ROW: Ralph F. Fuellbier, Tammy J. Fleenor, Loree A. Brownell, Pam L. Elmer, Danni L. Wolf, Teresa A. Novotny, Eva M. Stumpff, Janet M. Sweeney, William I. Wiatt, Joe E. Beuerlein. THIRD ROW: Jon D. Carlson, Randy J. Zorn, Tate D. Posey, Rick L. Marrinson, Vicente E. Rodriguez, Debbie J. Clubine, Bill A. Debold, John D. McWhirter, Tom J. Fangman. BOTTOM ROW: Brent L. Kuehny, Doug A. Albrecht, Keith B. Penner, Robert D. Johnson, Michael D. Patrick, Brian R. Huseman, Eduard E. Meyer, Stephen D. Glacy, David J. Drolte, John R. Bolton.

Pre-Veterinary Medicine Club

TOP ROW: Eva I. Dudek, Ivey L. Whitmore, Sue C. Aitchison, Joy L. Rexroat, Teresa K. Hagedorn, Rebecca K. Nilson, Elaine J. Besthorn, Louise A. Brigham, Carita G. Swader, Linda S. Gainer. SECOND ROW: James L. Harrington, Debra L. Mueller, Frances A. Nelson, Sean B. Dow, Susan Steinlage, Paul A. Bunce, Randall W. Hinde, Sue M. Bennett, Kevin E. DuPree. THIRD ROW: Leslie B. Wegele, Darwin M. Deets, Michael B. Kaufman, Mark N. Skeels, Allen K. Sample, Susan M. Hanson, Randi R. Anderson, Kurt D. Fredrickson, Gary D. Schulteis. BOTTOM ROW: Lynn D. Stucky, Mitchell S. Farrell, Dane M. Jacobson, Steve D. Davidson, Neil E. Willard, Buck A. VanTrease, Terry N. Terhune, Roland W. May, William J. Howard.

Student Dietetics Association

TOP ROW: Nancy S. Mah, Ellen M. Simoni, Barbara L. Bolon, Jean E. Ellis, Cheryl L. Reames, Lucinda J. Frazier, Paulette M. Healy, Cathryn L. Wiltfong. SECOND ROW: Marsha K. Healy, Joan M. Soukup, Julie A. Barber, Mary T. Langford, Barbara L. Depew, Debbie L. Bassford, Mary M. Strunk, Jane E. Adams. THIRD ROW: Barb J. Smith, Vanda J. Heck, Connie J. Stone, Joni Good, Denise H. Bayer, Linda K. Young, Sharon K. Peacock, Nancy D. Dodgion. BOTTOM ROW: Sheryl L. Ghean, Karen E. Rodefelf, Nancy K. VanMeter, Deborah A. Mavrofrides, Wes D. Babcock, Carol E. Isenberg, Kay E. Sparks, Karen M. Kristek.

Home Economics

Clubs in the College of Home Economics try to inform students of all aspects of the College. Hospitality Day

committees and steering groups spend a great deal of time trying to coordinate events for Home Ec's Hospitality Day.

There are several interest groups which further students' careers in a particular field.

Am. Assoc. of Textile Chemists and Colorists

TOP ROW: Emily J. Blakeslee, Denise K. Bretz, Faye J. Carlson, Nadine J. Streit. BOTTOM ROW: Debra S. Donelson, Lisa A. Telthorst, Theresa M. Quigley.

American Society of Interior Designers

TOP ROW: Lillian M. Arnold, Jeannette E. Hill, Linda C. Griffin, Mary A. Kramer, Candy J. Duffy, Nancy E. Mathis, Debra A. Greenwood, A. Michelle Teate. SECOND ROW: Valerie J. Mills, Marianne Reed, Claudia L. Effland, Pat McAnany, Debora K. Mock, Deidre D. Claxton, Susan M. Karlin. THIRD ROW: Linnette V. McCall, Luann M. Huelskamp, Zanteen M. Cram, Debora A. Nordhus, Dianne M. Mick, Barbara A. Lutz. BOTTOM ROW: Eva K. Schmidt, Judy E. Jordan, Charles V. Adams, Kathy A. Rudrow, Susan M. Willson, Glenda L. Sklenicka.

Clothing Retailing Interest Group

TOP ROW: Jill L. Breckenridge, Kitty Donnelly, Julie A. Howell, Lori D. Haefner, Anne K. Schmitz, Jan R. Bohn, Debra D. Brown, Kathryn A. Walker, Doris A. Delzeit. SECOND ROW: Teresa J. Hart, Debra J. Albright, Barbara S. Millard, Marian S. Lutz, Vickie J. Steele, Carolyn D. Birkman, Kiki Comeau, Vanetta J. Blevins. THIRD ROW: Karen A. Bradley, Elaine S. Beckman, Teresa D. Simmelink, Susan M. Blush, Barbara L. Pihl, Nancy K. Shelley, Vicky L. Kruckeberg. BOTTOM ROW: Lisa J. Perez, Cherie A. McCracken, Linda L. Schneweis, Kim K. Effland, Lynn A. Wiseman, Cindy J. Keller, Barb A. Eoff, Christy Rode.

Family and Child Development Club

TOP ROW: Norene Sylvester, Cynthia Stewart, Jane Luthi, Kathie Owen, Roxanne Frankenberg, Patty Allison, Pollyann Berry, Laura T. Carlton, Judy Bahr, Karen Scheunemann, Connie Hayden, Ann Masoner, Beth Ytell. SECOND ROW: Michele McColm, Janet Reynolds, Sharon Pearce, Colleen Burnett, Linda Ballou, Deborah Kutnink, Debra Blume, Margaret Weishaar, Ann Kohake, Jalene Dorsey. BOTTOM ROW: Tina Brewer, Diane Rassette, Cheryl Metcalf, Rita Bolz, Jan Beckwith.

Family Economics and Interest Group

TOP ROW: Susan F. Rardin, Valerie L. Waetzig, DeAnn R. Shideler, Penny L. Campbell. SECOND ROW: M. Diane Tompkins, Jill K. Rhine, Kathy J. Gay, Lori B. Fulton, Carol S. Hamm. BOTTOM ROW: Albie Rasmussen, Paula J. Bennett, Cheryl M. Ruff.

Foods and Nutrition Club

TOP ROW: Cathy A. Schuele, Kathleen A. Kinnaman, Cheryl A. Sales, Linda K. Richter. SECOND ROW: Bonnie Clarkson, Diane L. Peck, Sandra V. Sloop, Jan M. Conrardy. BOTTOM ROW: Lee A. Schwartzkopf, Donna L. Towers, Martha B. Stone.

Home Economics Council

TOP ROW: Susan A. Roesner, Peggy A. Seirer, Melinda K. Harbison, Jean M. Loop, Cheryl A. Sales, Lynda S. Bass, Yvonne K. Visser, Barbara L. Bolon. SECOND ROW: Michele K. McColm, Debra J. Albright, Kathy L. Kraft, Susan L. Wells, Vivian B. Bliss, Suzanne M. Frolik. THIRD ROW: Emily J. Blakeslee, Venette Davis, Susan M. Donnelly, Barbara A. Eoff, Nancy K. Van Meter, Julie A. Howell. BOTTOM ROW: Karen S. Closson, Juanelle Pederson, Charlotte J. Apel, Kitty King, Wes Babcock, Wanda Blenden, Cheryl Ruff.

Home Economics Education Interest Group

TOP ROW: Mary T. Ice, Susan A. May, Sharon M. Bairow, Janice L. Gillogly, Julie A. Reust, Jeanne L. Carlson, Lori A. Scheuerman, Susan Herbers. SECOND ROW: Berny J. Pachta, Nancy C. Miller, Monica M. Klenda, Teresa M. Mayer, Cheryl L. Cook, Jeanne G. Miles, Rhonda J. Jones. THIRD ROW: Carol J. Stoss, Kay A. Von Soosten, Susan M. Donnelly, Mary B. Strathman, Julie A. Dugan, Susan E. Wenrich. BOTTOM ROW: Karen S. Closson, Janel D. Waisner, Judy A. Spiegel, Mary K. Voet, Rosie E. Eilert, Susan D. Zimmerman, Patricia A. Dillon.

Home Economics Extension Interest Group

TOP ROW: Susan A. Roesner, Marilyn J. Dommann, Jane E. Wall, Ethel M. Durler. SECOND ROW: Kathleen M. May, Kathy L. Kraft, Lisa A. Sexton, Lynda S. Bass, Berny J. Pachta. BOTTOM ROW: Sonia R. Dyck, Julie A. Dugan, Linda K. Ventsam, Karen S. Kalivoda.

Hospitality Day Committee

TOP ROW: Martha Stone, Nancy Knopp, Marsha Adams, Grace Lang, Lavonna Morrison, Dolores Gade, Karen Pence, Pat Crews, LuAnn Hoover. SECOND ROW: Lisa L. Moore, Lisa C. Polson, Nancy K. Vanmeter, Patricia A. Dillon, Karen M. Kristek, Ethel M. Durler. BOTTOM ROW: Joan Dillon, Debra J. Albright, Faye J. Carlson, Denise L. Hayden, Jane M. Otte, Brenda E. Nelly.

Home Economics Honorary: Omicron Nu

TOP ROW: Patti E. Jamison, Sandra S. Stangle, Nadine J. Streit, Emily J. Blakeslee, Saundra E. Gould, Mary S. Hill, Ann K. Jorns, Patty A. Ellis, Lisa L. Moore, Diana M. Floyd. SECOND ROW: Linda K. Richter, Lisa A. Sexton, Patricia A. Dillon, Kim L. Moore, Barbara S. Millard, Marilee Thornburg, Barbara J. Pringle, Jan R. Bohn, Karen S. Closson. THIRD ROW: Pocha U. Lakshmi, Linda C. Griffin, Jane A. Bradley, Missy Altenbernd, Michele K. McCollm, Marsha K. Healy, Venette Davis, Debra S. Blume, Wanda K. Blenden, Joan M. Dillon. BOTTOM ROW: Lois J. Gitchell, Jan C. Schweers, Irene K. Parsons, Faye J. Carlson, Myra J. Randell, Rosic E. Eilert, Sara A. Snyder, Cecilia M. Kasl.

Home Economics Honorary: Phi Upsilon Omicron

TOP ROW: Pocha U. Lakshmi, Sandra S. Stangle, Terri K. Monahan, Carolyn A. Cherny, Jean Ellis, Kathy G. Lord, Toni M. Thompson, Melissa A. Deffenbaugh, Debra A. Greenwood, Lisa M. Flynn, Vicki J. Waetzig. SECOND ROW: Marilyn E. Lacey, Joel A. Lusk, Angela D. Dlabal, Diana M. Floyd, Colleen L. Burnett, Susan Herbers, Jane Funderburg, Patricia A. Dillon, Annette M. Toll, Sara A. Snyder. THIRD ROW: Jan R. Bohn, Joan M. Dillon, Kathy L. Kraft, Cathy E. Naanes, Myra J. Randell, Mendy S. Jacobs, Cynthia M. Stewart, Wanda K. Blenden, Venette Davis, Debra S. Blume. BOTTOM ROW: Chris Beethe, Leigh A. Kaiser, Gwen L. Havener, Faye J. Carlson, Kathy R. Parcel, Luann M. Huelskamp, Patty A. Ellis, Jan C. Schweers, Donna L. Towers, Eileen M. Doherty.

TOP ROW: Susan A. Roesner, Susan F. Rardin, Patti E. Jamison, Lori D. Haefner, Melinda K. Harbison, Mary A. Kramer, Ann L. Bossler, Lisa C. Annis, Jean M. Loop, Cheryl A. Sales, Yvonne K. Visser. SECOND ROW: Carol L. Huneycutt, Lisa L. Moore, Marsha K. Healy, Hai K. Huynh, Janet Reynolds, Debora K. Mock, Jo E. Moody, Dana D. Andrews, Patricia A. McAnany, Connie J. Stone. THIRD ROW: Lisa A. Sexton, Linda K. Richter, Lois J. Gitchell, Debra J. Albright, R. Susan Harrington, Patty S. Rader, M. Dianc Tompkins, Susan M. Donnelly, Kathleen E. Burton. BOTTOM ROW: Jane M. Otte, Kim L. Moore, Denise L. Hayden, Debra K. Becker, Linda A. Lassen, Ramona L. Steadman, Karma J. Overmiller, Holly M. Dean, Cheri L. Fiscus, Dianc M. Smith.

Restaurant Management Club

TOP ROW: Salli Allen, Tom S. Schweder, Ron Ariaz, George Miller, Oscar Horn, Dave Breiby, Don Breiby, Maura Gelpi, Doug Peterson, Dave Van Camp, Larry O'Donnell. BOTTOM ROW: Ken Komisar, Scott Malouche, Todd Babington, Brent F. Akright.

Honoraries

To belong to an honorary a student must meet certain critieria, such as grade point average, leaderhip and in-

volvement. Certain honoraries sponsor some of the main events on campus. Blue Key sponsors Homecoming,

Chimes sponsors Parent's Day and Spurs sponsors the Bloodmobile at K-State.

Alpha Lambda Delta: Freshman Honorary

TOP ROW: Mary Garten, Karla Hefty, Judy Spiegel, Kris Fionda, Lori Scheuerman, Maureen Basgall, Judy Hollinger, Gail Honer, Teri White, Jan Smith, Geryl Buss, Katherina Kotoyantz, Lisa Spiegel, Carol Kamps, Jeanne Keim, Pat Crews. SECOND ROW: Lori L. Thomas, Kathy Cott, Eileen Eggleston, Jennifer Goldsmith, Kathleen L. Heimerman. BOTTOM ROW: Debora K. Herman, Michelle A. Klaumann, Shirley J. Fouse, Tracey Deines, Cindy Rolph, Karen Sedlacek, Deborah Snider.

Blue Key: Senior Honorary

TOP ROW: Sue Livingston, Velina Houston, Bill Oswald, Fred Ford, Helen Burtis, Shari Hildebrand, Sam Brownback, Mark Hoffman, Steve Peters, Hank Spencer. BOTTOM ROW: Melodi Dooling, Deb Nicklaus, Kevin Burnett, Pat Sargent, Tom Hollinberger, Ted Knopp.

Junior Honorary: Chimes

TOP ROW: Elaine Melton, Miriam Travis, Alan Stetson, Alan Sobba, Jay Selanders. SECOND ROW: Pam Nicklaus, Susan Eder, Patty Ellis, Peggy Patchen, Brent Thompson, Kathy Meade. BOTTOM ROW: Lisa L. Moore, Carol Huneycutt, Cheryl Sales, Richard A. McKee, Bill Pfeffer, Beth Ripple.

Senior Honorary: Mortar Board

TOP ROW: Tami Johnson, Donna Francis, Sally Nelson, Amy Snider. SECOND ROW: Judy Weltsch, Patty Field, Kevin Ericson, Kim Moore, Linda Richter. BOTTOM ROW: Mary J. Schust, Lisa Sexton, Irene K. Parsons, Karla Engle, Mitch Holthus, Holly Dean, Marcee Buchner, Donna Towers, Rex Matlack.

Phi Beta Kappa

TOP ROW: Mark Fanty, Gabrielle Bailey, Linden Willis, Leila Case, Steve Gregg, June Hartline, Patrick C. Sargent, Laura Burnett, Harold E. Mahan, Stephen C. Peters, Susan Bennett, Denise Pretzer. BOTTOM ROW: Eve Hohly, Donna Francis, Michelle Miller, Hope Gafney, Nancy Nutter.

Phi Eta Sigma: Freshman Honorary

TOP ROW: Gregory N. Hamilton, Todd W. Smith, Patrick L. Clark, Charles O. Hatch, Curtis A. Krizek, A. Clark Ruttinger, E. Vance Lawson, Kevin E. DuPree, Mark D. Wetzel. SECOND ROW: Bruce M. Thomson, Paul J. Robben, Carl T. Lira, William D. Buck, Richard J. McKittrick, James A. Coen, Phillip R. Lile, Gregg A. Wolgast. THIRD ROW: Cabot L. Sweeney, Douglas R. Gunn, Michael D. Lange, Jeffrey R. Wilbur, Eric D. Johnson, Bradley D. Brunkow, Kurt D. Fredrickson, Jeffrey K. Reh. BOTTOM ROW: Mike L. Hildebrand, David P. Hawkins, Tim K. Beougher, Robert K. Thomen, Peter A. Brady, Phillip G. Miller, Warren D. Miller, Alan C. Sobba.

Spurs: Sophomore Honorary

TOP ROW: B.J. Arehart, Kathleen M. Cott, Leslie M. Oborny, Elaine M. Bertels, Becky A. Vining, Gena E. Courter, Beverly A. Zimmerman. SECOND ROW: Dee W. James, Kevin E. DuPree, Ron S. Ditmars, Paula J. Flynn, Jo L. Whetzel, Brenda L. Brown, Bart L. Lamberg, Keith C. Dorton. THIRD ROW: Charlotte J. Appl, Patrick L. Clark, Susan K. Fletcher, Debora K. Herman, Nancy K. Shelley, Lisa J. Zink, Glenna Hildebrand, Justin Clark, Barbara A. Lutz. BOTTOM ROW: Lynn D. Rundle, Carol A. Kamps, Jennifer L. Beardsley, Susan D. Zimmerman, Mike L. Hildebrand, Phillip R. Lile, Rebecca E. Knopp, Kathy L. Heimerman, Bruce M. Thomson.

Little Sisters

Little Sisters are groups of women who dedicate time to a particular fraternity. They help coordinate service

and social activities for their fraternities. Recently, a Little Brothers group was formed and they perform the same

functions for a sorority as Little Sisters do for a fraternity.

Crescents: Lambda Chi Alpha

TOP ROW: Emily S. Hunt, Stacey L. Vincent, Mary K. Konz, Jan R. Smith, Karen K. Kresic, Mary J. Winterman, Starr Lee, Lori S. Carnahan, Cathi E. Brown, Wendy R. Pickell. SECOND ROW: Kimberly K. Wright, Patty L. Perdaris, Debi L. Fockele, Barbara K. Brown, Cheryl L. Hart, Julie A. Semple, Barbara A. Campbell, Leslie M. Oborny. THIRD ROW: Sheri D. Reeb, Tracy Beardmore, Diane M. Rombeck, Michelle M. Moerbe, Gail S. Cavinee, Kitty Donnelly, Julia K. Reynolds, Laurie L. O'Brien. BOTTOM ROW: Nancy K. Moore, Lori J. Semple, Christy M. Ellis, Terry R. Marsh, Diane E. Pierce, Christina I. Clarke, Debbie L. Myhre, Kathe M. Rusnak.

Tau Kappa Epsilon: Daughters of Diana

TOP ROW: Judy Kent, Karen Hoenl, Tina Daniels, Nancy Sinovic, Jane Higgins, Patty Ellis, Becky Skeels, Jane Mangold, Mary Richardson, Leigh Arnold, Patti Tulp, Leah Miller, Ja Lue Woodbury, Pam Rogers, Sue Yoakum. SECOND ROW: Deb Johnson, Betty Harback, Jean Kessler, Jan Evans, Julie Gies, Sandy Bernhardt, Dee Letherer, Lynn Neutzler, Kelly Yeargin, Shari Evans, Donetta Boaz, Kim Myles. BOTTOM ROW: Teresa Strong, Kolleen Kelley, Becky Hoots, Tina De Grant, Allicia Remington, Cheryl Neufeld, Karen Baransik, Susie Infen, Debbie Holloway.

Delta Tau Delta: Delt Darlings

TOP ROW: Teresa L. Dreher, Sue A. Dawson, Wendy L. Phillips, Maggie L. Ring, Patricia S. Karlin, Karen D. Dutcher. SECOND ROW: Nancy Schust, Mary Matthew, Lynda Wagnon, Michele Moeller, Erin Shelley, Lynn Roosa. THIRD ROW: Dana Shipley, Mary Sassenick, Jana Conway, Tammy Housholder, Lori Hammer. BOTTOM ROW: Susie Miller, Connie Graber, Margaret Miller, Brenda Keith, Connie Siebert, Sara Gerlach.

Sigma Chi: Little Sigmas

TOP ROW: Janet L. Scott, Suzanne L. Lynton, Susanne Arnold, Martha Serrano, Holly L. Vanderlip, Vickie Howard, Jan Jordan, Paula Winter, Charene Charles, Julie Elias, Kim Schulte, Sandra Maggio. SECOND ROW: Cathy Freeding, Kathy Ulses, Kerri Koch, Susan Frost, Ann Brinkmeyer, Paula Carr, Lorri Newth, Judy Bauman, Nancy Cooke, Stacy Crawford, Connie Fagan. BOTTOM ROW: Judy Garfoot, Gail Pennybacker, Mary Jacobson, Kathy Teahan, Susan Knop, Barbara McGuire, Karen Gatz.

Little Sisters of Athena: Alpha Kappa Lambda

TOP ROW: Catharine L. Magnus, Kay M. Metzinger, Abigail L. Glatt, Tammy L. Howser, Pamela G. Kohler, Julie A. Cornett, Toni E. Timmis, Cheryl A. Breitenbach. SECOND ROW: Cherie L. Antin, Sandra E. Gould, Caprice D. Phelps, Sharon K. Andrew, Karen D. Bladel, Mary A. Sebring, Becky A. Fleenor. THIRD ROW: Ginny A. Fortmeyer, Carol L. Johnson, Susan M. Carson, Karen S. Fisk, Tammy J. Fleenor, Serena L. Stum. BOTTOM ROW: Brenda S. Dutton, Deborah K. McDowell, Sylvia L. Meyer, Linda I. Will, Evelyn L. Bosarge, Karan J. Law.

Little Sisters of the Golden Heart: Sigma Phi Epsilon

TOP ROW: Beth A. Ripple, Shana R. Nickell, Susan K. Barth, Jane M. Harmless, Kelli S. Stromgren, Margaret L. Lobmeyer, Sheila D. Hecht, Kelli J. McDonald. SECOND ROW: Beth Haner, Susan K. Haas, Vicki L. Allen, Marcia K. Dryden, Rita J. Kelley, Anne F. Williams, Nina E. Spence, Kim A. Sparks. THIRD ROW: Karen L. Fowler, Caren A. Coe, Sonja D. Barnow, Taralyn R. Lapo, Kimberly S. Dierks, Rebecca L. Browne, Susie Volker. BOTTOM ROW: Sharon M. Bohn, Jill R. Swain, Jan L. Williams, Janice L. Swarner, Susan E. Stigall, Tessy K. Korb, Cindy J. Bullock.

Little Sisters of the Golden Rose: Beta Sigma Psi

TOP ROW: Dana L. Neal, Karen K. Cooper, Tammy J. Burkman, Cindy K. Scriptor, Barbara L. Bolon, Susan M. Peil, Sharon S. Allen, Georgenne L. Eggleston, Linda S. Mugler, Pamela S. Levin. SECOND ROW: Virginia K. Becker, Donna M. Douglas, Cheryl A. Rowley, Shari A. Ryker, Kathy L. Kraft, Kelly Lally, Debra J. Albright, Julie A. Lyon, Jolene K. Brown. THIRD ROW: Brenda K. Gregory, Kathy R. Bobbitt, Audrey J. Kuhlman, Carla J. Blickenstaff, Kathi L. Janne, Marie Kolich, Anne E. Bengston, Patty J. Allison, Carol A. Mugler, Linda J. Bertrand. BOTTOM ROW: Cynthia L. Bishop, Terry L. Gebhart, Wilma L. Masters, Cinda M. Lindholm, Debra D. Fischer, Janice E. Knopp, Deborah L. Hunt, Dawn E. Cummins, Alana R. Fabrizio.

Alpha Tau Omega: Little Sisters of the Maltese Cross

TOP ROW: Kari Ballard, Lisa Zahn, Sherry L. Lamoreux, Jane Mollett, Debbie Allan, Diane Myers, Susan Harrington, Rita Walsh, Debbi Hastings, Brenda Raile, Laura Drybread, Linda Oddo, Cyndi Peterson, Sharon Lincoln, Judy Pike, Lisa Beam, Becca Kaufmann, Carol Hahn. SECOND ROW: Brenda Henson, Libby Allen, Eileen Kingston, Robin Peppers, Pam Kogler, Leslie Brockman, Leslie Killman, Jackie Baumgart, Julie Moss, Carol Bowen, Decta Meridith, Susan Meridith, Cindy Smith, Tami Murphy, Jan Larsen. THIRD ROW: Barb Millard, Kim Horner, Dixie Kuklinski, Suzie Miller, Kim Deutsch, Dawn Skupa, Marcy Imel, Becky Johnson, Jill Breckenridge, Kathy Arnold, Cynthia Garber, Ann McNutt. BOTTOM ROW: Julie B. Deberry, Mary Boppart, Heidi Holiday, Sue Flemming, Mary Stucky, Jean Henige, Valerie Palmer.

Sigma Alpha Epsilon: Little Sisters of Minerva

TOP ROW: Dawn Haverfield, Laura Stuber, Terri R. Spear, Carolyn S. Dobratz, Denise L. Kolman, Stephanie L. Davis, Ann E. Dayvault, Teresa A. Redlingshafer, Patricia J. Hodson, Mary E. Despard, Jenny A. Jones. SECOND ROW: Lauri A. Meier, Linda L. Tredway, Sheryl L. Miller, Patty M. Vedros, Lauren A. Reed, Sondra K. Herman, Molly E. Meade, MaryAnn Bornheimer, Theresa A. Nass. THIRD ROW: Nancy R. Olsen, Chris M. Heidrick, Shari D. Fulhage, Cheri S. Spener, Nancy J. Stetson, Chris D. Jones, Ann A. Jackson, Karen S. Hutton. BOTTOM ROW: Nancy J. Bornheimer, Christi L. Dutton, Lori A. Rebstock, Dena K. Taylor, Liz A. Drees, Mary D. Milner, Susan K. Mosier, Kerry L. Oberg.

Farmhouse: Little Sisters of the Pearls and Rubies

TOP ROW: Beverly A. Zimmerman, Lisa J. Schlender, Kathleen M. Cott, Cynthia J. Bailey, Connie S. Laughridge, Lisa L. Moore. SECOND ROW: Kim L. Moore, Brenda E. Neclly, Sarah E. Dalbom, Pennie E. Parcel, Margaret A. Heller. THIRD ROW: Shari A. Hildebrand, Susan K. Gartrell, Rita A. Weaver, Anita K. Mayer, M. Angela Scanlan, Suzanne E. Schlender. BOTTOM ROW: Julia S. Dalbom, Lori A. Bauer, Ellen L. Garten, Kathy R. Parcel, Kathleen L. Edwards.

Little Sisters of the Shield: Phi Kappa Tau

TOP ROW: Carolyn Cherny, Leann Mansfield, Patti Riordan, Ellie Jabben, Evelyn Dissel, Cynthia Fjelstul. BOTTOM ROW: Joan Qualls, Lisa McClure, Tina Foust, Janni Scharp, Barb Pihl.

Little Sisters of the Sphinx: Delta Sigma Phi

TOP ROW: A. J. Wagner, Mill Hare, Lois Herbers, Dianc Lewis, Claudia Effland, Kim Effland, Sheri Sneed. SECOND ROW: Polly Robinson, Stephanie Elmore, Pamela Clary, Heidi Newton, Kathy Kircher, Michelle Klaumann, Janey Leeburg. BOTTOM ROW: Arlene Stottmann, Laurie Gregg, Cheryl Schneck, Tadhi Silsby, Lisa Wulfschuhle, Julie Sutton, Denise Converse, Judy Jones.

Little Sisters of the Star and Lamp: Pi Kappa Phi

TOP ROW: Jacque E. Hoke, Kathryn A. Walker, Mary Beth Rowlands, Jennifer L. Steincr, Lisa I. Harkins, Debra D. Brown, Nancy E. Cassing. SECOND ROW: Cindy D. Evenson, Diane M. Steffen, Deborah E. Olsen, Bobbi Cochran, Karen S. Franken, Karen A. Swinney. BOTTOM ROW: Polly L. Steward, Nancy L. Unruh, Linn D. Sayler, Patty S. Rader, Cindy G. Irby, Debra A. Greenwood.

Theta Xi: Little Sisters of the Unicorn

TOP ROW: Roxie L. Stilwell, Danise L. Bailey, Pam J. Nicklaus, Marcia J. Elkins, Anne O. Hoge, Debra M. Foster, Nancy K. Kongs. SECOND ROW: Theresa L. Montgomery, Janet L. Herriott, Diane S. Breipohl, Erin A. Kelly, Sandra K. Blomquist, Cheri L. Fiscus, Deb L. Nicklaus. THIRD ROW: Cheri L. Rolph, Rebecca F. Suitt, Tammy D. Sweetman, Cindy Rolph, Julie A. Dugan, Kathy L. Heimerman. BOTTOM ROW: Stephanie A. Robinson, Tammy D. Spray, Sue Kimbrough, Elaine C. Hefty, Terri A. Noble, Stephanie J. Gill.

Sigma Nu: Little Sisters of the White Rose

TOP ROW: Cathy A. Schuele, Cindy D. Walton, Vickie L. Rock, Janet S. Bartels, Sharon T. Graham, Bethany Brewster, Kimberly K. Gatz. SECOND ROW: Denise A. Gatzoulis, Marcia L. Barnes, Cathy A. Siebert, Michelle L. McDonell, Bobbie K. Jennings, Karen L. Stutterheim. THIRD ROW: Suzanne R. Berning, Marla E. Rivard, Kimberli K. Brown, Kris J. Fionda, Linda K. Ventsam, Linda A. Urick, Cindy L. Nutter. BOTTOM ROW: Cathy S. Nutter, Terri L. Ford, Lynn D. Eagleton, Marjorie R. Nation, Susan P. Barsamian, Cynthia J. Wickstrom, Cheryl L. Nutter.

Phi Gamma Delta: Phi Gammas

TOP ROW: Karen S. Wright, Marcia J. Rector, Inga Fenijn, Susan M. Albright, Lynda M. Grace, Theresa Miller. SECOND ROW: Janice S. Sutton, Sue Anderson, Rhonda K. Hoppes, Vicki L. Berkley, Lisa A. Scheufler, Diane Sorensen. BOTTOM ROW: Norma M. Lawrence, Cynthia M. Nietfeld, Julie M. Thompson, Kimberly N. Ekum, Elaine A. Kaufmann, Marcia K. Pfannenstiel.

Phi Kaptives: Phi Kappa Theta

TOP ROW: Sheila M. Heier, Sally J. Wilson, Rebecca A. Gutierrez, Becky S. Wilson, Lisa M. Skoch, Marsha K. Healy, Paulette M. Healy. SECOND ROW: Karen J. Upson, Leslie J. Mendenhall, Linda L. Beets, Kim M. Knott, Nancy J. Gensing, Leanne A. Ziegler. THIRD ROW: Cindy K. Goetz, Barbara J. Smith, Haddie M. Burrow, Ruth M. Lucky, Sharon A. Windisch, Deborah J. Franklin, Connie L. Wood. BOTTOM ROW: Lori S. Anderson, Linda F. Scott, Susan J. Steinlage, Liz T. Roether, JoAnne D. Wheeler, Christina M. Neff, Mary J. Farrell, Bernadette M. Jilka.

Rho-Mates: Alpha Gamma Rho

TOP ROW: Debbie Steiner, Ann Masoner, Carol Sobba, Ann Morgan, Sally Nelson, Diana Turner. SECOND ROW: Patty Webber, Rebecca Sorrick, Teri Sellers, Carita Swader, Cheryl Yeakley, Diane Tompkins, Kay Sparks, Susan Schlickau, Lane Chase, Cheryl Dauber, Cheryl Gigstad. THIRD ROW: Elaine Mayo, Susan Melson, Beth Pringle, Susan Kraisinger, Norma J. Meridith, Terri S. Reinhardt, Suze Brink, Kristi Steeples, Sharon Hine. BOTTOM ROW: Merry Lu Pasley, Amy Pritchett, Connie Pelton.

She DU's: Delta Upsilon

TOP ROW: Kellene R. Ponte, Sally C. Hobble, Denise L. Degner, Linda J. Gottsch, Diana J. Neal, Sherry L. Strobel, Lori A. Scheuerman, Jeana L. Cobler, Janice K. Mead, Kelli A. Ross. SECOND ROW: Julie A. Stever, Cindy L. Pixley, Karen D. Smith, Tina C. Dahl, Patty A. Shaver, Christy S. Frizell, Lisa M. Southworth, Julie A. Kutina, Lynda J. Heckelmann. THIRD ROW: Lydia G. Batchelor, Lonni G. Pflasterer, Shelle R. Steele, Kay A. Sargent, Judy M. Palen, Deanne M. Rechner, Heidi L. Beeson, Suzanne M. Bauer, Sami L. DeBacker. BOTTOM ROW: Mary T. Bichelmeyer, Christy M. Andra, Jan S. Schweers, Sally A. Fitzpatrick, Erin L.E. Pattee, Vickie J. Hopkins, Carol A. Orth, Jennifer L. Roberts, Sigrid L. Simonsen.

Kappa Sigma: Stardusters

TOP ROW: Shelley Pottorf, Alys A. Brockway, Cris Uebelhart, Karee Flannely, SECOND ROW: Sheri L. Bareiss, Cindy L. Kissinger, Sandra V. Sloop, Jane A. Reed. THIRD ROW: Susan C. Garrigues, Mary E. Winkler, Inge M. Bergmann, Ruth A. Frey. BOTTOM ROW: Kathryn L. Johnson, Joan M. Pottorf, Katy G. Rizza, Joy A. Balderson.

Pi Kappa Alpha: Sweethearts of the Shield and Diamond

TOP ROW: Kimberly S. Williams, Ellen M. Simoni, Suzanne Schulz, Rhonda K. Miller, Sally J. Goodwin, Jane A. Lytle, Carol A. Carr, Elaine O'Neal, Susan L. Shepherd, Janine E. Trempy, LeAnn Braden. SECOND ROW: Mary P. Smith, Deanna K. Denning, Lisa K. Lawler, Barbara J. Costello, Sherry K. Classen, Aimce L. Luetgert, Lisa L. Mattson, Teresa M. Costello, Peggy L. McGhehey, Lisa Bigler. THIRD ROW: Andrea L. Carver, Susan J. Johnson, Susan L. Wahle, Carla K. Bruemmer, Wendy J. Selves, Muffet E. Clem, Sharon G. Cloud, Ann M. Galiano, Carol I. Fischer, Catherine A. Peterson, Angela L. Katzer. BOTTOM ROW: Jolene A. Riley, Mary B. Dove, Sherrill R. Wischropp, Melinda M. Dunston, Cindy K. Davis, Holly B. Brewer, Catherine L. Weger, Carolyn S. Thronton, Kathy A. Sopcich, Debbie S. Hamilton, Virginia L. Crane.

Triangle: Tri Angels

TOP ROW: Ann Durns, Susan Roberts, Cynthia Polli, Nancy Swartwout. SECOND ROW: Pam Real, Bev Hughey, Nancy Anderson, Dianne Franken. BOTTOM ROW: Sandy Koelsch, Sandy Steelc, Karen Kohler.

Brothers of the Hermes: Alpha Chi Omega

TOP ROW: Brad Dunagan, Alan Stetson, Jeff Blattner, Doug Moore, Ed Holtgraves, Jeff Nelson. SECOND ROW: Marc Smith, Brooke Meyers, Tom Voegelé, Herb Meeks, Craig Frieze. THIRD ROW: Edward Cox, John Hansford, Ed Reese, Paul Lacy, Mike Bradley, Mike Erickson. BOTTOM ROW: Paul Robben, Randy Garvert, Hugh Meade, Aaron Markley, Pat Burton, Craig Summers.

Military

Angel Flight is not actually a military organization but a community service club which works with the Arnold Air

Society. Together they helped clean the football stadium after the games, organized a Putt-A-Thon for United Way

and helped with the Bloodmobile on campus.

Angel Flight: Air Force ROTC Auxiliary

TOP ROW: Ann Peterson, Kathy Johnson, Capt. Tom Dameron. SECOND ROW: Col. Paul Barber, Karen Moldrup, Cheryl Metcalf, Claire Ludwig, Ann Brinkmeyer, Debra Peterson, Susan Lacy, Susan Andrews, Janet Prebyl, Judy Thompson. BOTTOM ROW: Steve MacLaird, Jennifer Steiner, Anne Shearer, Mary Hepperly, Lisa Baumgarten, Kris Larson, Susan Fletcher, Kim Rehm, Lori Armagost.

Military Honorary: Pershing Rifles

TOP ROW: Rett C. Tiedtke, Kris P. Thompson, Teresa A. Wise, Elizabeth M. Caruso, Cynthia R. Redburn, Barb G. Cailteux. SECOND ROW: James M. Cline, Steven L. Boeh, Lex Chang, Jennie E. Benson, Ted C. Cranford, Jeffrey B. Carra, Evan J. McNeill. BOTTOM ROW: Donald W. Lee, Gregory P. Chapman, Curt Hammill, John Karpiseak, Mikel R. Carter, Terry A. Schmidt, Kevin D. Hackl.

Air Force

TOP ROW: Teresa A. Wise, Pat A. Domitrovic, Deanna L. Printz, Naney R. Olsen, William L. Metcalf, Steven W. McConnell, Scott D. Weber. SECOND ROW: Daniel A. Strawn, Gloria M. Spain, Kirby A. Shineman, Bret Stevens, Mark E. Seean, Theodore E. Lucas, Brian E. Winter, Stephen A. Brodheeker, Tracy Caine. THIRD ROW: Rick S. Huhn, Samuel B. Shamburger, Susan L. Fairchild, Larry E. Leterher, Charles E. Peterson, Phillip E. Bingman, Douglas L. Huford, Larry K. Rhodes, Cynthia M. Bostiek. BOTTOM ROW: Col. Paul A. Barber, Ronald W. Root, Michael G. Flouer, Joseph B. Connell, Floyd A. Badsky, Richard W. Stumpf, Daniel C. Gnagey, Robert D. Dubek, Jonathan P. Staniforth, Maj. Leon E. Grenier.

TOP ROW: Michael S. Curry, Paul E. Baeani, Cristiana A. Cappelletti, Cheryl R. Glasker, David M. Clarke, Dean F. Guilmett, James L. Lutz, Paige R. Colquette. SECOND ROW: Harvey D. Ammel, William L. Liebeno, Bruce E. Viets, Scott H. Steele, Scott E. Hern, Stephen W. Quelch, Dean R. Blanken. THIRD ROW: Kerwin G. Ross, Patricia A. Miller, Margaret A. Young, Joyce R. Jenkins, Mark S. Davis, James A. Dice, Jimmy G. Rodman. BOTTOM ROW: Col. Paul A. Barber, Stewart W. Mayott, Marc E. Morris, Phil J. Lesneski, Joseph R. Nckuda, Robert K. West, Daniel W. Fairbank, Maj. Leon E. Grenier.

ROTC Rifle Team

TOP ROW: Frank Voyk, Phillip Perritt, Michael Yamamoto, Michael Robinson, Sarah J. Potter.
BOTTOM ROW: Bill A. Adams, Tim F. Ahrens, Catherine A. McNerney.

Music

The KSU Marching Band is a spirited organization which promotes sportsmanship and pride. It functions as a representative of the University. The marching band was invited to perform in London, England for the 1980 international soccer championships. They

also performed for the Dallas Cowboys for three consecutive years and this year they made their tenth performance for the Kansas City Chiefs. Tau Beta Sigma and Kappa Kappa Psi are both service organizations which promote togetherness between the band programs

at different universities. They host guest bands and help with money-making projects. K-State Singers is also a representative of the University and travels widely.

Kappa Kappa Psi: Music Honorary

TOP ROW: Michael E. Johnston, Rodney M. Funk, Rolf O. Chappell, Ray D. Lemon, John E. Strickler. SECOND ROW: Kirk D. Scarbrough, Phillip G. Rarick, Nedrick J. Price, Donald D. Martin, Daniel M. Davis. BOTTOM ROW: Mark E. Vittetoe, Scott L. Jorgenson, Scott K. Brown, Dirrie Conerly.

Mu Phi Epsilon

TOP ROW: Karen Sedlacek, Sharee Jorgensen, Shannon Hall, Janet Riedel, Sheree Smith, Connie Nutter, Mark Miller, Rich Brunner, Lisa

Willhite, Susan Treiber, Susan Haynes, Connie Laughridge, Laurel Baker. SECOND ROW: Nancy Criss, Rene Parish, Laury Murray, Linnea

Wallace, Becky Schubert. BOTTOM ROW: Christina Whittle, Carolyn Thayer, R. Harrell Bosarge, Joe Graber.

Symphonic Orchestra

TOP ROW: Rene Boatman, Robert Wisecup, Laddi Oliphant. SECOND ROW: Leslie Kidd, Harold Bosarge, Charles Bey, Marianne Lignitz, Rob Slemmons, Chris Biegler, Susan Treiber, Sara Borst, Kally Oman, Deb Fromme, Tracy Schuman, Rob Schmidt, Tony Walker. THIRD ROW: Mike Leonard, Karla Steinberg, Susan Cooper, Lisa Southworth, Lisa Tharp, Laury Murray, Marita Martin, Judy Roberts, Mike

Gaches, Eric Sutton, Tom Bontrager, Rebecca Horner. FOURTH ROW: Marilyn Cunningham, Katharine Cunningham, Kent Wertran, Greg Jurrens, Becky Johnson, Malia Weide, Jan Riedel, Dorothy Miller, Wayne Guenther, Jim Seeber, Christopher Banner. FIFTH ROW: Ed Hawkins, Florence Schwab, Abigail Siddall, Polly Robinson, Ty White, Becky Gutierrez, Rene Parish, Richard Brunner, Becky Sawyer, Jim Ell-

ington. SIXTH ROW: Jenny Burkes, Becky Schubert, Marsha Curtis, Rachel Severanec, Sue Barsamian, Susan Linder, Connie Dokken, Randy Wilkens. BOTTOM ROW: Jeanne Hansen, Louis Pigno, Tom Gutierrez, Doris Powers, Mischa Semanitzky, Peter Criss, Linda Murphy, Jeff Wright, Linda Schaffner.

Tau Beta Sigma: National Band Sorority

TOP ROW: Marilyn R. Barry, Diane C. Scott, Shernise A. Spearman, Karen L. Altenbernd, Deb L. Barner, Terri L. Shea. SECOND ROW: Debra J. Hopkins, Sandra K. Harper, Pamela S.

Brown, Sheryl L. Neblock, LewJene Schneider, Dawnlee D. Weber, Janice C. Shadday. THIRD ROW: Merrie Martin, Shannon K. Hall, Sharee K. Jorgensen, Laura R. Londeen, Sara J. Borst,

Laurie A. Williams. BOTTOM ROW: Karen Nations, Michelle M. Weber, Cathy Sterns, Carol K. Bartels, Debby A. Kuster, Nancy R. Pihl, Shelli L. Darrow.

United Black Voices

TOP ROW: Meddren Jones, Virgil Thomas, Errol V. Cade. SECOND ROW: Rena Cunningham, Dirrie Conerly, Cedric T. Patton, Jeff Wright, Bertrand Grigsby, Andrea Duckett, Del-

phia Neal. THIRD ROW: Sheryl L. McMillian, Faith D. Pearson, Sabrina A. Boyd, Gwendolyn M. Duhon, Willie Johnson, Yolonda Rush, Janice Lenoir, Charyl McAfee, Karen Franklin. BOT-

TOM ROW: Patrick H. Miller, Patricia L. Lucas, Sharon A. Davenport, Glendolyn Dahon, Tami E. Farr, Pat Pace, Rlonda Knight, Janice Murry, Ernest Downs, Rene Lewallen.

Marching Band

FLUTES: Shirley Bruey, Lori Carnahan, Emily Coble, Gene Courter, Diane Dalton, Shelli Darrow, Kristi Davis, Kristi Fruits, Diane Haig, Shannon Hall, Sandy Harper, Judy Hecht, Kelly Higgason, Kathryn King, Julie Krasne, Mellisa Mauck, Karen Nations, Julie Nease, Kally Oman, Lisa Packard, Wenda Pickell, Diane Scott, Shernise Spearman, Karla Steinberg, Cindy Stearns, Cathy Sterns, Lisa Tharp, Jennifer Wagner, Dawnlee Weber, Laurie Williams. **CLARINETS:** Debra Barner, Suzanne Bartlett, Kathleen Bergkamp, Mary Blattner, Craig Collins, Stephen Cortner, Elaine Curry, Karla Dunn, Malinda Fox, Michelle Hacker, Linda James, Sharee Jorgenson, Karen Kalivoda, Tamara Koci, Missy McCulloch, Ellert Niemeyer, Nancy Pihl, Deb Pinkston, Patsy Poe, James Rahtjen, Robyn Sanders, Rusty Selby, Teresa Shea, Susan Treiber, Richard Walker, Shelly White. **TENOR SAXOPHONES:** Scott Clark, Dale Fox, Vern Hoobler, Robert McKinnon, Debbie Kester, Laurinda Ogborn, Ron Phillips, Alex Quiles, Pat Schlagel, Phil Shippers, Kirk Shippers, Sherri Treese, Russ Rieling. **BARITONE SAXOPHONES:** Timothy Brecheisen, Stan Harstine, Warren Tobaben. **ALTO SAXOPHONES:** Cheryl Blake, Pamela Brown, Sandra Clark, Nancy Criss, Tamra Eppinger, Jay Frey, Roberta Garrett, Joseph Graber, Rob Harding, Sondra Herman, Debra Hopkins, Jerry King, Julie Koupal, Cedric Patton, Kirk Scarbrough, Janice Shadday, Mark Vittetoe, Greg Vermillion, Mark

Ward, Michael Warren, Michelle Weber, Susan Wells, Martin Wilde. **TRUMPETS:** Janie Allen, Sandra Anthony, Steve Cooper, John Crawford, John Degrande, Gayle Dembski, Ken Edmonds, Randa Gallion, John Greathouse, Debbie Gutschenritter, Pete Hagstrand, Mary Hegarty, Will Hewett, Cassandra Higgins, Keith Hoch, Timothy Janzen, Jeff Koci, David Lewman, Don Martin, Richard McKittrick, Wayne Michaels, Donna Moore, John Nottingham, Janet Olson, Mark Reinhardt, Sue Schmitt, LewJene Schneider, Mark Seaman, Craig Shadday, Jocelyn Sheets, Robert Shideler, Krista Smith, Ken Stevenson, Kevin Symes, Pam VanHorn, Yvonne Visser, James Witte, Terry York. **MELLOPHONES:** Jon Herrin, Synthia Latta, Susan Manning, Doug Parks, Steven Ripper. **MANAGERS:** Ronnie Gage, Monica Haley, Charlie Herrmann, Darrell Herrmann, Sue Herrmann. **BARITONES:** Jeff Johnston, Roger Lind, Merrie Martin, Mary Meyer, Connor Morris, Kari Paxton, Dale Richardson, Steven Roof, Keith Stiles, Bruce Thomson. **TROMBONES:** Stephen Allie, Scott Brown, Lyle Cain, Steve Cater, David Deckert, Randy Dickerhoof, Sean Dow, Rod Funk, Susan Hargadine, Wyatt Hock, Karen Horton, Robert Hughes, Ray Lemon, Pat McKaig, Timothy Mitchell, Sheryl Neblock, Bryan Ragsdale, Robert Schmitt, Lex Shaw, Carla Shoemaker, Roy Shuster, Mary Verschelden. **TUBAS:** Cindy Ades, Rolf Chappell, John Culley, Lorinda Duch, Jack Gregg, Larry Hinkin, Brian Janke, Kelly

Mack, Ron Metzinger, Richard Neth, Luis Quiles, Bob Rinne, Tim Schlicker, Al Stanley, Kevin Swann, Sylvester Washington. **PERCUSSION:** Arthur Allen, David Altenbernd, Kristi Baker, Randy Bosarge, Sonja Brown, David Chapman, Dean Cook, Joe Fisher, Luanna Franz, David Frieson, Mike Johnston, Scott Jorgensen, Lezlie Kidd, Linda Nelson, Neb Price, Brad Roth, Errik Smith, John Strickler, Mike Sweigert, Duane Weber. **FLAGS:** Patty Cooper, Kyla Faubion, Mary Gilliland, Laura Londeen, Nina Luce, Rebecca Massey, Gaylene McPherson, Carrie Nealy, Terri Noble, Claudia O'Blak, Loretta Pacey, Sally Sharp, Val Thomas, Wendy Tubach, Cheryl Yeakley. **K-STEPPERS:** Daryl Connerly, Cindy Fangman, Janine House, Rhonda McCurdy, Nancy Moore, Julia Reynolds, Mary Schmidt, Carita Swader. **PRIDETTES:** Sue Adams, Mary A. Bornheimer, Cynthia Bostick, Janet Busenbark, Ruth Downey, Cynthia Evenson, Andrea Foutch, Debbie Hamilton, Becky Horner, Becky Johnson, Moreen Katten, Brenda Keith, Kari Knamiller, Kathryn Kraft, Taralyn Lapo, Lisa Mays, Susan Miller, Denise Mogge, Debbie Moylan, Maggie Ring, Michelle Roether, Cathy Rohleder, Kelli Ross, Lisa Scherer, Mary Stucky, Sara Stuewe, Rebecca Swain, Amy Walters, Karen Wedel. **DRUM MAJORS:** Teresa Faubion, Ky Johnson, Cheri Koci, Phil Rarick. **DIRECTORS:** Phillip Hewett, Gyl Bates, Barbara Kruger, Randy Dietrick, Frosty Lawson.

Service

Service organizations are groups which try to benefit the community. Collegiate 4-H helps with landscape projects on campus. Alpha Phi

Omega takes care of our Wildcat mascot and is active in the Big Brother and Big Sister program. The Handicapped Student Council tries to create aware-

ness of the needs of the handicapped and the barriers they face. Delta Sigma Theta is a service group which works on projects to benefit K-State.

Alpha Kappa Alpha: Service Sorority

TOP ROW: Velina A. Houston, Allison C. Erkelens, Roberta A. Hanks, Deborah J. Anderson. SECOND ROW: Yolonda B. Rush, Sharon M. Ashley, Faith D. Pearson. BOTTOM ROW: Elora K. Stennis, Pamela L. White, Patricia L. Lucas, Georgaleen Thomas.

Alpha Phi Omega: Service Organization

TOP ROW: John E. Brettell, James R. Hardy, Kerry Relihan, Thomas Reed, Brian Hettrick, Terry Kisner, Larry Wareham. BOTTOM ROW: Kim Myles, Daniel Speed, Sherry Harber, Paul Briggs, Jane Wall, Byron Noll.

Circle K

TOP ROW: Lisa A. Spiegel, Sheryl K. Hurd, William P. Janner, Michael A. Pezza, Daniel K. McAnarney. SECOND ROW: Janelle R. Edwards, Thomas M. Baxa, David J. Albracht, Roger L. Messner. THIRD ROW: David B. Post, Arlan J. Suderman, Donnie S. Andersen. BOTTOM ROW: Edward P. Call, John K. Lippman, Sterling B. Borthwick, Jeff R. Jelinck.

Collegiate 4-H

TOP ROW: Mclinda K. Harbison, Karen K. Cooper, DeAnn M. Hiss, Becky A. Vining, Katharina A. Kotoyantz, Bronwen L. Rees, Beverly D. Wheeler. SECOND ROW: Debbie E. Chambers, Kelly A. Shineman, Karla A. Hefty, Denise R. Wingert, Vicki Y. Nelson, Kimberly M. Bailey. THIRD ROW: Debra A. Hemken, Nadine N. Weller, Andrea R. Hamilton, Keith P. VanSlike, Kay A. Von Soosten, Mary M. Garten, Susan K. Gartrell. BOTTOM ROW: Deborah J. Clubine, Mary K. Voet, Ray L. Withers, Larry G. Garten, David E. Lehman, Lyle D. Shipley.

TOP ROW: Debbie S. Robson, Toni E. Timmis, Rebecca A. Wagner, Lisa A. Sexton, Karen B. Frankamp, Berny J. Pacht, Patty M. Sloan, Barbara J. Pringle. SECOND ROW: Bruce V. Clark, Steven C. Olson, Cecilia M. Kasl, Susan K. Tousignant, Duane M. Dunn, Marcene L. Bellar, David F. Zeller. THIRD ROW: Ellen L. Garten, Martha M. Paschal, Myra G. Weyer, Gregory W. McClure, Joseph S. Blake, Brady G. Bauer, Dean L. Hiebert. BOTTOM ROW: Casey D. Garten, Mark D. Pottorff, Kathryn L. Strecker, Gary L. Baehler, Brad A. Johnson, David L. Goetsch, Steven D. Fisher.

Delta Sigma Theta: Service Sorority

Melanie Brockington, Cynthia Grider, Gwen Macion, Denise Davis, Valerie Pope, Cynthia Doss, Tressia A. Brown, Sandra McGee, Jackie Martin, Tami E. Farr, Nita L. Cobbins.

Handicapped Student Council

TOP ROW: Renata Doss, Greg Bachman, Jerry Pomeroy, Joyce Miller, Deborah Poe, Linda Hays, Larry Lankratz, Jill Korbek. BOTTOM ROW: Jane Rowlett, Bob Matthews, Donna Gore, Greg Musil, David Busken.

Social

Organizations which fall in the social category are groups where the members get together because they share a com-

mon interest. K-Laires is a square dancing club which tries to create an interest in square dancing in all K-State stu-

dents. They sponsor a dance every Sunday night and give lessons to the new members.

K-Laires: Square Dance Club

TOP ROW: Barbara A. Schluemer, Cindy R. Siemens, Mercedes S. Leis, Rebecca A. Wagner, Sheila D. MacKenzie, Robin L. McNaughton, Monica R. Autrey, Debbie J. Keefer, Lori J. Davis, Mary E. Pottorff, Tom N. Kolins. SECOND ROW: Julie A. Cornett, Lesa J. Schwanke, Larry E. Wagner, Elizabeth I. Evans, Shelly Sixta, Janet L. Strathe, Richard L. Cook, Duane M. Dunn, Terri L. Peterson, Debbie J. Clubine. THIRD ROW: Debbie L. Arthur, Jeffrey D. Wara, Rene J. Laman, Daryl D. Fisher, Kevin M. Patterson, Margaret Dysinger, Steven M. Bowser, Keith A. Love, David M. Rogers. FOURTH ROW: Earl E. Baugher, Dave J. Fischer, Harry C. Stenvall, Curtis A. Russell, Ray D. Lemon, David L. Butel, Stephen L. Pottorff, Carolyn A. Burnett, Sara A. Hickert, Pat K. Regier. BOTTOM ROW: Sharon K. Lobb, Deborah E. Clark, Georgia E. Ammel, Barb K. Eccles, Ginny E. Crites, Martha A. Orpin, Carol B. Fisher.

Square Dance Club: K-Laires

TOP ROW: Sally L. Boulanger, Debora A. Zimmerman, Ethel M. Durler, Debra S. Higgs, Sandra S. Clark, Debbie E. Chambers, Nancy K. Foust, Sandy S. Blackwood, Maryse F. Schultz, Veva E. Adams, Jane E. Knoche, Debra M. Foster, Lonna D. Hildreth. SECOND ROW: Tom J. Goering, Mary Jo Lill, Margaret M. Hein, Susan K. Linder, Colleen M. Devane, Terry Fruchting, Donna M. Pittman, Diane Million, Donna M. Queen, Shari K. Evans, James L. Dempster, Mary A. Redler. THIRD ROW: Terrie F. Low, Karen S. Closson, Janet L. Frank, Therese L. Schamle, Charlotte J. Appl, Patty M. Sloan, Judy K. Haskins, JoAnn E. Cipriano, Cindy N. Smith, Barb L. Dempster, Martha L. Gilbert. BOTTOM ROW: Steven D. Anderson, Rick L. Legleiter, Keith R. Roesler, Ted Lucas, Byron B. Kauffman, Richard W. Stumpf, Philip A. Wood, Leonard J. Queen, Gregg A. Denholm, Barry D. Evans, Frances A. Nelson.

Sports

Sports covers a broad category of organizations. These range from individual sports competition to spirit clubs. Orienteering is a relatively new sport on

campus. It involves reading a typographical map and a compass to find various points on the map. The men's and women's bowling teams travel to

Nebraska, KU and Wichita State to compete. The high level of spirit at the KSU games is achieved through our cheerleaders.

Cheerleaders

TOP ROW: Scott Case, Kevin Karst, Kim Walker. SECOND ROW: Lamont Ross, Paula Nuegent, Drew Halsey. THIRD ROW: Kevin McNorton, MaryBeth Le Cluyse, Debbie Hastings, Randy Hagen. BOTTOM ROW: Wendy Phillips, Janon Cupit, Teri Myzer, Ross Vines, Susie Volker, Cindy Cox, Shirley Moore.

Delta Psi Kappa: Women's Athletic Honorary

TOP ROW: Crystal R. Sutton, Janet L. Scott, Kari L. Knamiller, Terri L. Myzer, Debbie Johnson, Karen S. Beatty, Sylvia R. Ludwig, Leesa M. Wallace, LuAnn D. Sewing, Kristy K. Fruits, Marlys J. Schoneweis. SECOND ROW: Susan L. Wahle, Miriam P. Poole, Ruth A. Miller, Cindy M. Smith, Felene E. Frink, Janice M. Mueller, Kim J. Bender, Margo A. Jones, Dee A. Jones. BOTTOM ROW: Nancy L. Smith, Dixie Kuklinski, Cynthia J. Wickstrom, Diane K. Moeller, Reatha L. Bruner, Verneda D. Edwards, Karla K. Stoddard, Amy L. Thrutchley.

Judo Club

TOP ROW: Daasie D. E. Ward, Wade A. Leitner, Debbie S. Rhein, Daniel W. Gibson, Dale R. Feagan, Mike W. Shelton. SECOND ROW: Kenn F. Lee, Pollyann Beery, Rhonda K. Snodgrass, Kenneth R. Stuchlik, Kevin L. Klotzenbucher. BOTTOM ROW: William H. Johnson, Leroy F. Jones, Mark E. Ward, Clarence D. Suppes, Bradie F. Jones, Isaac Wakabayashi.

KSU Men's Bowling Team

TOP ROW: Bob Sultzer, Bill Woodward, Mark Sultzer, Greg Hennes. SECOND ROW: Doug Daugherty. BOTTOM ROW: Kenny Daugherty, Rob Jones, Alan Usher.

KSU Women's Bowling Team

TOP ROW: Lanette Winters, Joanna Page, Miava Binkley, Claudia Holm. SECOND ROW: Teresa Hagedorn, Connie Miller, Debbie Ash. BOTTOM ROW: Janelle Poppe, Sherry Stipich, Alice Sky.

Orienteering Club

TOP ROW: Mike A. Vovk, Yvonne M. Patterson, Kay L. Phillips, Susan M. Bell. SECOND ROW: J. John Kolman, Linda M. Rudeen, Steve C. Hill. BOTTOM ROW: Frank Vovk, Kirk J. Krueger, Dan J. Walker.

Pep Coordinating Council

TOP ROW: John W. Martin, Alan Stetson, George Steele, Jeff McDade. BOTTOM ROW: Lamont Ross, Janon Cupit, Tim Schlieker, Barb Kruger.

Phi Epsilon Kappa: Men's Physical Education Honorary

TOP ROW: Scott W. Hills, J. J. O'Connor, Craig L. McVey, Kirby A. Shineman, Tom E. Schwartz, Edwin C. Rippe. SECOND ROW: Marlo D. Klassen, Richard L. Jensen, Michael R. Hill, Vernon J. Henricks, Charles W. Packard. THIRD ROW: Robert V. Shipp, Jeffrey C. Hill, Larry W. Pankratz, Joseph F. Ryan, Daniel T. Cosgrove. BOTTOM ROW: Harvey E. Marken, Richard H. Cox, Scott L. Osborn, Donald H. Busse, Larry Noble.

Recreation Club

TOP ROW: Leticia Tapia, Susan M. Bell, Robert G. Kennedy, Terry A. Smith, Patricia L. Bambick, Debbie S. Johnson, Terry L. McCormick. SECOND ROW: Annette M. Boller, Carol A. Mugler, Carrie A. Cochennet, Lydia G. Batchelor, Janice M. Mueller, Kimberly K. Winston, Barbara A. Loader, Melissa Melhus. BOTTOM ROW: Don D. Lindley, Laura J. Boller, Jim L. Tracy, Betty K. Zeka, James J. O'Connor, Larry W. Pankratz, Michael A. Blazey.

Gaylene McPherson and Wendy Tubach share a giggle during practice.

Student Social Service

The main function of the Consumer Relations Board is to handle complaints from the students, ranging from landlord-tenant problems and car repairs to where to find the cheapest six-pack in town. It is the complaint handling arm

of the Student Governing Association. The board also writes the Consumer Sleuth articles that appear in the Collegian and gives lectures on various campuses and to community organizations. It also carries out several research pro-

jects, including a market basket study, conducted at various grocery stores. The students involved with the board come from different majors. The only requirement is an interest in consumer problems.

Consumer Relations Board

TOP ROW: Vivian Bliss, Barbara Buell, Susan Rardin, Melinda Harbison, Ann Ferguson, Carol Ciaschini. BOTTOM ROW: Joyce Morgan, Melanie Stockdell, Rich Hoskins, Cheryl Ruff.

Student Publications

Student publications is a separate entity from the University, encompassing the Kansas State Collegian and the Royal Purple yearbook. The Collegian gives students on-the-job experience and insight into how a daily newspaper operates. The Royal Purple gives stu-

dents a chance to practice layout and design skills as well as writing and editing copy. The publications are funded through student fees each semester as well as money made through the advertising. The Board of Student Publications has many responsibilities, includ-

ing the selection of the Collegian and Royal Purple editors and the advertising manager. The board consists of three faculty members and three students elected by the student body.

Board of Student Publications

TOP ROW: Jack Carpenter, Walter Bunge, Tom Tuckwood, Ifan Payne. BOTTOM ROW: Cindy Friesen, Deb Williams.

Fall Collegian Ad Staff

TOP ROW: Randy Dunn, Kelly Meek. SEC-
OND ROW: Rose Ivanov, Andrea Carver, Karla
Engel, John Dodderidge, Todd Nelson. BOT-
TOM ROW: Suzy Hill, Peggy Patchen, Terry
Brungardt, Judy Jones.

Spring Collegian Ad Staff

TOP ROW: Mike Bodelson, Scott Darby, Terry
Brungardt, Randy Dunn. BOTTOM ROW: Judy
Jones, Karla Engel, Andrea Owens, Suzy Hill,
Debbie Wasser.

Fall Collegian Staff

TOP ROW: Janet Davison, Kent Gaston, Mike Hurd, Lisa Sandmeyer, Jett Anderson, Scott Farrina. SECOND ROW: Harvey Perritt, Debbie Rhein, Diane Gonzolas, Beecy Tanner, Paul Rhodes. THIRD ROW: Dave Hughes, Pete Souza, Cindy Friesen, Grant Sanborn, Scott Stuckey. BOTTOM ROW: Carol Holstead, Julie Doll, Jim Gibbons, Karen Vining, Peryn Cominsky.

Spring Collegian Staff

TOP ROW: Luke Brown, Harvey Perritt, Debbie Rhein, Susan Brink, Carol Holstead, Janet Davison, Mike Ream, Lisa Sandmeyer, Julie Doll, Grant Sanborn. BOTTOM ROW: Mike Hurd, Randy Shuck, Scott Stuckey, Cindy Friesen, Jolene Hoss, Mary Jo Prochazka, Sharon Buckner.

Royal Purple Editorial Staff

Janet L. Helm, Susan J. Burden, Debbie G. Hagenmaier, Nancy E. Reese.

Royal Purple Staff

TOP ROW: Sally A. Heimke. SECOND ROW: Randa Gallion, Susan M. Schlickau. BOTTOM ROW: Kent H. Gaston, LeAnn P. Wilcox, David B. Greusel.

Photographers

TOP ROW: Dave Kaup, Nancy Zogleman, Bo Rader. BOTTOM ROW: John Bock, Sue Pfannmuller, Craig Chandler, Pete Souza.

Bo Rader's attention is diverted by a cat.

Bill Brown: Director, Student Publications

Mary Sparks: Royal Purple Adviser

We want YOU

UPC sponsors a rappelling class in the early fall.

Parent's Day is conducted by Chimes and includes many special events.
David Andres gives blood at Spurs bloodmobile.

A rodeo club member awaits students at the Activities Carnival.

Dear Diary,

It's only 10:15 a.m. and I'm already exhausted. Let's see, I went to a Spurs breakfast at 6:30 this morning, then met with my Hospitality Day crew, checked on the bloodmobile and picked up an application for Omicron Nu. (Am I forgetting anything?) I even attended my 8:30 class.

Join, join, join. Get involved and participate. Stretch your horizons and improve yourself. This is my motto at K-State and, as a good student, I naturally like to become involved. But am I the type who will just join a club and attend the meetings when I feel like it? No, I must dedicate my whole existence to it and run for office or offer my services whenever I can.

My whole life seems to revolve around the eight organizations I belong to. Sure, I go to school, in my spare time. Study? Well, maybe I can read those 14 chapters tonight before my exam in the morning — of course, it will be have to be after my 7:30 p.m. meeting with my judo club (I'm chairman).

Maybe I'm too involved with different organizations. I even participate in other groups' activities. Last fall, I went rappelling down a West Stadium wall when it was offered by UPC. I attended the spring horse show sponsored by Block and Bridle. I even bought stationery from a business group (I can't remember the name) to help them earn money. I don't want to limit myself to my own organizations; I must be involved in all of them.

Good grief! It's after 10:30 a.m. and I'm late for a Women in Communications meeting. Then I have to check on the bloodmobile again and donate blood for Spurs, then I have to collect money for our end-of-the-semester banquet for Williston Geology club, then

That's it for now, Diary. Catch you later!

Your ever exhausted,
Susan

It's finally over.

This 480-page extravaganza is the result of the nine months we spent together.

To say that it was a labor of love would be sheer exaggeration. For the most part, however, this endeavor has been an enjoyable one, at least for me. But it couldn't have been without your minds, souls and bodies.

Susan, Janet and Nancy — what can I say? You were my cohorts, correspondents and confidants. This yearbook belongs to you. Thanks for your endless hours and tears. We can all get some sleep now. Maybe we can even become students again.

Mary and Mr. Brown, thanks for listening — to the bad as well as the good. The Royal Purple could not have been produced without your expertise and guidance.

Dave, you were great. There is nothing more to say. You helped us out of more tough spots than I care to remember. You know your stuff.

Kent, thanks for coming through when we needed you. Your promptness was appreciated. And to the assistants, writers and pub practitioners, your talents were many. Thanks for your help.

I can't forget the photogs (though at times I would like to have). Now that it's all over, I'm glad we're still friends. We are, aren't we?

We were few, yet strong, and each contributed some piece of himself to the 1979 Royal Purple. To the K-State student body: thanks for letting us share this year with you. It's been quite an experience.

Debbie Hagenmaier
1979 Royal Purple Editor

Students battled the freezing winds to get to class.

Another cycle has been completed.

If 1978-79 can be typified by one word, it is change. K-State football gained respectability, although not without toil and tears. Students coalesced to fight for a new fieldhouse, and won. And after summit meetings and negotiations, the world finally witnessed peace in the Middle east.

But what about the individual student? Perhaps the most important was forgotten in a maze of occurrences. The student persisted in silent battles of his own.

For some, there was the struggle to pass the credit/no-credit course, or the fight to attend class in 40-degree below zero windchill weather. The battle may have been simple, but nevertheless required stamina to overcome.

Hopefully, the personal victories outweighed any failures.

Ben Ornelas performs during a Nooner.

**In the mountains of truth,
you never climb in vain.
Either you already reach a
higher point today, or you
exercise your strength in
order to be able to climb
higher tomorrow.**

Friedrich Nietzsche

Ramona Myers and Roy Lashbrook share a moment.

As one cycle concludes, another begins. Some students will remain, others will bid K-State adieu. The looking-glass to the future is hazy.

But one thing is certain. K-State is not a climax to our lives — only a beginning. The future must inevitably be met face to face.

No doubt, most of us will spend our lives striving toward goals. We're conditioned that way. And although our mark on the world may be small, it's the persisting in our ambitions that counts.

Graduates smile as they are charged with their futures.

High water levels don't stop David Beckwith, left, and David Brown from enjoying a nice day.
