For 25 Cents, This paper until Jan. 1, and Dr. Foote's. Health Hints, a 25 cent book. Job Printing.

Job Printing.

In connection with this office we have a select assortment of new type and other facilities for doing all small commercial and other printing. Additional facilities will be added as fast as possible. We ask the business men of North Topeka to give us their business and we will soon build up a creditable and profitable printing house on the north side. Nothing but their patronage and economical management is necessary, and such an enterprise is needed here.

Call and see us at 431 Kansas Avenue.

We are now the longest established of any printing house on the north side.

We are grateful to the people of this side of the river, and northern Shawnee, for a veritable boom that is now upon this paper. It may now safely be

nee, for a veritable boom that is now upon this paper. It may now safely be said that it is now fairly in the lead, and we are sure that in a short time it will be recognized as the leading paper, not of this side only, but of Topeka.

How soon this may be will depend somewhat upon the citizens of the first ward. The room is here for a very extensive printing house and a firstclass daily paper. It can be made to pay. It is one of the prime necessities of the north side. We are necessities of the north side. We are now working to meet this demand. Nothing is needed to bring this about but the continued flowing of the tide that already seems to have set in our favor.

We say to the business men and citizens of the north side, "Give us your wants, and we will speedily grow into a position where we can bring into a position where we can bring in the lead, and was discussed by teachers of Study for District Schools." It was thoughtfully prepared, and was discussed by teachers Shull, Barber and Supt. MacDonald followed with a lesson in language, during which he had a class of six write down a description of what they saw in a picture hung before them. This exercise is a good one, not only to draw out one's use of language, but one's power of observation also.

Among current topics discussed were the "Parnell Land Bill." "Bulgarian Troubles" and the Carleston Earthquake. The exercise was in charge of Mr. Pemberton who occupied the chair read a paper on "A Course of Study for District Schools." It was thoughtfully prepared, and was discussed by teachers Shull, Barber and Supt. MacDonald followed with a lesson in language, during which he had a class of six write down a description of what they saw in a picture hung before them. This exercise is a good one, not only to draw out one's use of language, but one's power of observation also.

Among current topics discussed were the "Parnell Land Bill." "Bulgarian Troubles" and the Carleston Earthquake. The exercise was in charge of Mr. Pemberton and if well handled as this w

into a position where we can bring this all about." We do not feel that this is asking anything unreasonable, but let this be the united and hearty action of all those interested in the welfare of the north side and it can readily be done within a reasonable space of time.

It signifies nothing that others have failed heretofore. We have met with a steady growth from the time the Spirit of Kansas was moved from Lawrence to this city | two years ago. Before that time, it had become widely known outside of the state, and for many years it has commanded a profitable foreign advertising. Our present movement is simply one to give the paper more local importance but its old time established foreign business gives it an advantage that no styles.

Taft & Curdy have opened a splendid stock of Dress Goods in all the leading by Stephen D. Peet; Revell, Chicago, Ill.

An interesting page.

scribers ranges from seven to thirty a day with every indication that this rate will grow for some time, rather than diminish. We can say too, that this does not come from our support of the veteran local ticket, but it is mostly outside of any consideration of that kind.

It comes from the widespread opinion that but one good paper on this side is needed, and that events have shown that there is more to hope from this paper than any other, a conclusion we believe to be 'reasonable and natural under the circumstances.

You Can Get for \$1.00

County Superintendent N. MILLIKEN.
County Surveyor Ed. F. VAUGHN.

The Republican Ticket.

We this week raise the full republican state ticket. On the whole, from a very independent stand-point, no better result can be had than its election. On many very material questtions the republican party is essentially right. In some things it has clearly taken advanced steps.

Of course the only opposition lies in the democratic party. Between the two, no one who has ever been a republican can long hesitate. Even a mugwump republican might well say, "we asked for bread and ye gave us a stone," or to vary the phrase, "we asked for sunshine, and ye gave us Moonlight."

To be sure, there is a small scattered element in the state, known as the Third Party Prohibitionists. They have claimed to favor reform and to represent a high moral idea. In adhave taken up the Anti-Monopoly notion and make it equal if not paramount to the temperence question.

There are many independent citizens who had expected to find relief from the alternative of voting either the republican or democratic ticket.

As it turns out, the highest candidate on this reform ticket is shown to be, at least, a would-be land monopolist and speculator. In addition to this he is charged by his father-in-Douglas county court, including his own reply, the case certainly has a verown reply, the case certainly has a very ugly look.

No new reform party can afford to a liberal coat of whitewash.

ty is in entirely unworthy hands, and plunder, and so are not so brazen. is actuated by motives that will not bear inspection.

party is an ally of the democracy.

same.

Nothing came of this however, but tented and discouraged. it is nevertheless true, that the first result of any considerable move in favor of a third party would be to benefit the democracy.

The only compensating thought lies in the hope that a subsequent triumph of the new party would give the people something better than the old. But this hope is gone when the new party starts off with smirched leaders.

Another straw may be seen in the Columbus, carries at its head the name of Senator Colquit for Vice-President.

Mr. Colquit is not a third party prohibitionist but a partisan democrat, as A. B. Campbell of this city, is a partisan republican.

We therefore conclude that if we are to have any real reform in this state for the present, it must come, as it is coming in the Fifth Congressional district, and in this county, within the republican party with such independent non-partisan assistance as may be secured on the real merits of

the case. In Shawnee county we have the people rising to break up a local republican ring, and it is to be done without disrupting the republican party as the Tweed ring in New York, was broken without disrupting the democratic party.

The old vets are republicans. They are the republican crank that is to turn things over this year.

The colored vote is all in line.

Reports received at republican head quarters guarantee the usual majori-

Republican campaigners are now in the saddle all over the state.

Prof. Snow reports September as the warmest month in the past nineteen years.

We have no objection to a grand jury, but let it sweep clean. Suppose it investigate some of our county officers, for variety.

The Dickenson county republican convention last Saturday endorsed John A. Anderson, whereupon the Wilson men left the hall.

Charley Curtis keeps one command any how, if we may judge from his Garfield Park speech. He honors his father that his days may be long in

Gov. Martin has issued a quarantine proclamation forbidding the introduction of cattle inte Kansas from Illinois, Ohio and Canada, on account of pleuro-pneumonia existing there.

Out in Indiana when they have big thing they call it a "buster." The old vet movement in Shawnee county is a regular "buster," not only because it is a big thing, but because its purpose is to "bust" a currupt ring.

At the republican convention last Saturday to nominate a candidate for dition to the idea of prohibition they the 42nd district, a resolution to endorse the dude county ticket was introduced but owing to the opposition shown it was not voted on. Score one for the veterans.

We give it simply as an opinion that the republican papers of this city can ill afford to make war upon the old soldier. They are all republicans who have been republicans heretofore, but it is unreasonable to suppose that abuse can be heaped upon them ly, and from papers on file in the without their resenting it, and if it is

It is a little cool, even for October, carry such a weight. If the way to for the Democrat to take paragraphs resume, as Horace Greeley said, is to original with this paper and publish resume, certainly the way to reform is them as editorial. It would not matto reform. But the state executive ter in a paper outside of this city. It committee proceeds at once to apply is a very common practice with many papers. The Commonwealth and the Nothing more would seem to be Mail have very few paragraphs not necessary to satisfy thinking men stolen and worked in as original, but that in Kansas, at least, the third par- then they go out of this city for their

RESPONSIBILITIES OF LEADER-SHIP.

Let Us Reason Together.

NO. 1.

The supporters of the so-called reg ular county ticket charge the action of veteran soldiers in bringing out their ticket as indefensible.

Let us consider the question dis passionately and patriotically.

It has for years been affirmed and we may safely say, quite generally believed and known that what is termed a currupt ring has been managing affairs in this county. Now we are old enough in politics to know that in a certain sense, and to a certain degree, political affairs are usually managed by what may be termed rings. That is, they are managed by a few who interest themselves enough in politics to keep the political machinery in motion, and it is quite important that we have persons to do this. In very many, and we may say, in most cases this is done openly, fairly, and with only patriotic and worthy intentions. And yet there will often occur, under such circumstances, instances where individuals feel aggrieved, and complain of ring rule. We call these persons soreheads.

They are dissappointed because they do not get office, and the probabilities are that it is well that they do not. Public office in this country is not a thing to be bartered, nor is it a thing that any citizen has a right to and then as bravely murched down claim, then it follows that he has no right to be offended if he does not get it.

We make a distinction between such political rings as we have mentioned, and those that we call "corrupt rings." We must recognize one fact, that the need of leaders seem to be one of nature's own requirements. A flock of wild geese will go astray with out leaders. A moving herd of wild animals must have leaders. A school of fish the same. So with bodies of men. An army without leaders is simply an inefficient mass of humanity. A church without leaders will degenerate into infidelity. Science without its leaders makes no progress. A town or community that thrives will have its leaders. So politics must have its leaders-its leaders in thought and its leaders in action. So we say that leadership is one of nature's demands, and as such is one of the features of progress.

The responsibility of leaders in creases with their intelligence, that of man exceeding that of animal. The instinct of the animal, the bird. and the fish is such that safe leaders are selected. Without this providential gift, man is more liable to fall a victim to incompetent or wicked leaders. An ambitious army leader, in a crade state of civilizatio self a dictator or a tyrant. At a later period, he might become only a king with constitutional limitations. A leader in Wall Street will become a monopolist, if successful, as they are seldom controlled by moral restraint.

A republican form of government offers a wider field for political leaders than any other. They are found all the way down from national to ward. They constitute a series or nest of rings, one within another. They may be legitimate and proper and are so just so far as their motives are pure and patriotic. If their natural abilities are used to serve the public good, they are worthy leaders and are really entitled to public gratitude. If these abilities are used to serve their personal ends, and if in this use they resort to corrupt means by which the people become debauched, then it is that their leadership should be repudiated and instead of being honored by the public, they should be held in

public contempt. This, then is the state of leadership as we find it in the republican party of Shawnee county at this time This leadership is not a legitimate, patriotic one. It is believed to be a corrupt ring. The belief is not new. If the charge had never been made before, we might presume on a degree of innocense. The conviction, however, has been growing for years. The evidence is strong and cumulative. In fact, gross abuses are not denied. On the contrary they are specifically admitted by the friends of the ring. The Mail, paper partly owned by the candidate for county attorney, admits that the people have been outraged, but would shirk responsibility. It offers no other defence.

TO BE CONTINUED.

The Kids can afford to wait ten or ifteen year yet, by which time they will be a little more mature.

The impression that the movement to commit the Republican party to an antisaloon policy has prohibition for its ultimate object is a hasty and mistaken one. In fact, it has no direct connection with or relation to that doctrine.—Globe-Democrat.

No doubt this is true of the movement as it is now but it is not true that it did not have prohibition as its prime as well as ultimate object, at the beginning. It is a very serious confession for a republican paper to make, that this movement for a whole year has been so lauded by prohibitionists, that is fathered by Albert Griffin, who claims to be even a better prohibitionist than St. John, has not prohibition even for its remote object, is in short, no prohibition movement at all. And Albert Griffin is the hero in a farce that may be call

Love's Labor Lost." There is no doubt, however, that he above concisely expresses the relation of the republican party to the question. The party is not for prohipition. It is simply opposed to saloon dictation in politics. Anti-saloon republicans will stand by the party; will try to defeat saloon rule, but if they are themselves defeated they will not sacrifice the party to prohibition.

This point was distinctly made at the Chicago Conference and was agreed to by the leaders like Griffin. Of course it was a yielding of every essential principle announced in the original calls but after nine months active canvassing it was found necessary in order not to disrupt the party, but Mr. Griffin, in imitation of the king, marched bravely up the hill

Possibly, however, there will remain some moral effect for which we should be devoutly thankful.

Some of the friends of the so-called Veterans Rights Union Ticket in Shaw-Veterans Rights Union Ticket in Shawnee county are trying to make a point in its favor by reciting the building of the new jail without submitting the question to the vote of the people. We condemn that action as much as one can, and when the proper time comes, the Commissioners who did this will be looked after. But how a vote for the Veterans' ticket can reach that question we do not see. No one of the Commissioners who voted for the iniquitous measure is a candidate for re-election. A vote for the veterans' ticket neither endorses nor condemns the action of the county board.—MAIL.

Herein is a fatal admission. A wrong has been done the people. It is not denied, but specifically admitted. A plea of guilty is entered. But we are asked to condone the offence for the present.

This is not the way to reform. Our declining contemporary does not take in the situation. The veterans' movement, which may more appropriately be termed the People's Uprising, affirms that a corrupt ring has been ruling this county for years. This is not the first attempt to smash it. Some few are very indignant that the old Soldiers should present any claims to office, "because," as they say, "the republican party has done enough for the sold-The outrage that the Mail admits to have been committed came about because of previous failures to break the ring. It is the ring that is primarily guilty and the soldiers movement is an effort to distroy this ring, ment is an effort to distroy this ring, county board.

If the people of the county are suffering from a mal-administration of its affairs, and the Mail confesses that they are, the thing to do is to apply the remedy at once, not wait for a more convenient season.

Turn the rascals out. Let no guilty man escape. Fight it out on this line if it takes all the century.

Unconditional surrender.

Riddling A Burglar.

Monday morning about 2 o'clock Coun Monday morning about 2 o'clock Councilman Frank Newland shot a burglar who had broken into his store room in Parkdale. The burglar made a hole in in the back door, through which he entered and had proceeded through the back room and had just entered the main store room when he awakened Mr. Newland, who was sleeping in a chamber directly overhead. Mr. Newland had a loaded shot gun containing an ounce and a half of No. 9 shot, and going to a small opening through the floor, he observed the light from the dark lantern which the burglar held in his left hand. Just as Mrs. Newland was soliciting her husband to shoot the man in the legs and not kill

burglar held in his left hand. Just as Mrs. Newland was soliciting her husband to shoot the man in the legs and not kill him, the report of the gun sounded through the building and the burglar fell forward with a great scream. The lantern was immediately extinguished and Mr. Newland went to the window and again fired the gun for an alarm.

On going down stairs the burglar's lantern, hat and shoes were found, but the man had escaped. The door by which he entered was covered over with his blood as was also the wagon in the stable and the stable door out of which he passed. The lantern was also shot full of holes. Almest the entire load of shot must have entered the burglar's arm and body, as but two shot holes could be found in a barrel near by.

but two shot holes could be found in a barrel near by.

In the morning they traced the burglar by the blood stains on the ground up the alley and out to Eighth street where it appeared that a wagon had backed up and taken him in. A lady who was awakened by the report of the gun, said that she saw three men carrying the burglar, two holding his body and one being at his head.

Cloaks, Wraps, Walking Jackets, etc in the greatest variety at Taft & Curdys'

Silver Lake Rally.

The meeting at Silver Lake on Thurs-lay, September 30th was a decided success. Many of the town people being in at-tendance upon the state fair, the friends tendance upon the state fair, the friends of the veterans ticket did not anticipate so large a crowd as assembled to listen to the speakers who addressed them upon county affairs.

About one hundred and fifty persons were present and the attention they gave to the speakers showed at least a desire to hear what could be said for the soldiers' ticket.

Charles Banks, an old Ohio soldier, was elected chairman of the meeting, and in

Charles Banks, an old Ohio soldier, was elected chairman of the meeting, and in a brief speech thanked the audience for the honor confered on him, and introduced as the first speaker, Col. Cloud, of the old second Kansas Regiment which so nobly did its duty at Wilson's Creek. It is impossible for me to report the Colonel's speech in full, but for one hour and fifteen minutes he held the attention of all without, any signs of waning in-

Colonel's speech in full, but for one hour and fifteen minutes he held the attention of all without any signs of waning interest, and with his facts and figures presented in his own terse and convincing manner, proved to the satisfaction of the audience that the voters of Kansas have always exercised the right of thinking for themselves and voting without regard to the crack of the party whip, and that it ill becomes some of those now supporting the fraudulent nominations of the so-called Republican ticket, to call the soldier ticket "bolters."

Col. Cloud was followed by Col. Frederick, who also as a boy volunteer had served in the 2nd Kansas. Col. Frederick made one of his best speeches and gave the "dudes" more "straight-from-the-shoulder" blows, than is ordinarily crowded into a thirty minutes talk, which seemed to meet the approval of the house.

Col. Bradley, candidate for county attorney, spoke rapidly for nearly one hour by facts and figures to prove upon the ring, who "by ways that are dark and tricks that are vain" seek to control the republican vote, the frauds that have been and are now being perpetrated upon the tax-payers of Shawnee county.

republican vote, the Trauds that have been and are now being perpetrated upon the tax-payers of Shawnee county.

Col. Bradley was not a stranger to the people of Silver Lake, his acquaintance here dating back about eighteen years. The verdict was "The right man in the right lake".

right place."
Capt. Needham presented his claims as candidate for District Clerk in a short and apt speech, directly to the point, and won the good will of all who heard him. The exercises of the evening were in-

The exercises of the evening were in-terspersed with several songs and closed with a recitation by Col. Bradley of "Up Lookout Mountain." Three cheers for the "Veterans ticket!" If this meeting is any indication of the spirit of the people, the Old Soldiers will have no cause to complain of Silver Lake on the day of election.

Politics are quite lively here. The meeting on Thursday night set the people to thinking and many who before were afraid the Veterans' Ticket was a trick in the interest of the democratic trick in the interest of the democratic party, begin to admit that a man may be a good republican and yet vote against the court house ticket. The cry of mug-wump used by men believed to work for money, has no weight with men who eek an honest administration of county

affairs.

The whippers-in of the ring party do not deny that money was used to secure the nomination of the so-called Republi-can ticket, nor do they attempt to explain he court-house and jail contracts. only resource is to cry out "mugwump, mugwump!

There were a goodly number of people in town on Saturday and the general feeling, as expressed quietly, that a change was desirable in the interest of

iers."
The irritability and ill-temper mani-

Know about the sale of whiskey, but the law is no respecter of persons and none but the guilty need to fear it, and it wont do them any good to kick. Just as well take your medicine and no squealing about it, for you don't " and a vote for this movement is a vote to condemn the action of the know about the sale of whiskey, but the do them any good to kick. Just as well take your medicine and no squealing about it, for you don't "carry Silver Lake in your pockets" in a moral sense, any more than in a political sense. In fact, the people of Silver Lake are getting weary of all rings and propose to do some independent thinking.

A we called a convention to meet in To-peka on the 1st of December, for the purpose of electing an assistant bishop. The venerable bishop is now in his seventy-affth year, and his ditties are such as to which the help which he asks for, and which the convention will doubtless him.

KNIGHTS OF LABOR.

Meeting of the Annual Convention at Richmond.

Governor Lee Makes the Address of Welcome-Response of Master Work. man Powderly-Duty of the Organization.

RICHMOND, Va., Oct. 5 .- The rapping of Master Workman T. V. Powderly's gavel at 10:15 yesterday morning gave the signal for the opening of the first session of the tenth annual convention of Knights of Labor, in the armory of the First Virginia regiment, in this city. He stood alone on a small, plain platform at the further end of the spacious room, and looked out upon the faces of the thousand delegates assembled from every part of this country, the rep esentative of 1,000,000 men and women. The session was to be an open one, and in addition to the large body of delegates, there was as many others not of the order, as could find seats or standing room. room looked like an immense banquet ball, with the tables formed of piain pine boards nearly the length of the room, in rows as close together as the possibility of noving between them would permit. either side of these tables were seated the

While the sound of the master work-man's gavel still re-echoed, General Fitz-hugh Lee, Governor of Virginia, entered, escorted by William II. Mullen, master workman of Riemmond district, and Tona O'Relliy, of the telegraphers' assembly, of New York City, and was greeted with enthusiastic cheering. Mr. Powderly in-troduced him to the delegates. When the applause that again broke forth at the mention of his name permitted him to do so, Governor Lee said: so, Governor Lee said:

'One of Virginia's greatest statesmen has said: We are told, gentlemen, the organization you represent is formed to elevate and protect the working class. Why, who are interfering with your rights? Who tramples upon your privileges as American citizens? Organized capital, do I hear? Against that is war declared? Will it be war to the knife and the knife to the hit!? Or will there be peaceful conflict? Which, n your opinion, is necessary to promote the

interests of both.

"The helm of the ship of this Republic is constructed by men of different and apparently irreconcilable views, and the constitution was only framed by a con promise of all the conflicting opinions. A compromise then gave us our constitution. sembled here to grapple with. The battle, we are told, is one of labor against capital, but what class of capitalists are oppressing you, whose course is injurious to the lines marked out by the founders of the Republic.

"I divide capitalists into two kinds, I will go with you and give the command, 'Forward' and fight by your side against one of these classes. Make war against inand had recently been discharged. This so discouraged him that he took the poison.

Stop fighting when the war is over.'"

Bennett, of the Richmond district, moved Bennett, of the Richmond district, moved a vote of thanks to Governor Lee, and after this was heartly and manimously given, it was followed by a burst of rousing cheers for Virginia's Governor. All but the delegates then left the hall, and the convention then settled down to the practical work that had called them together, and in which they bid fair to be engaged for the next two weeks or more. weeks or more.

RICHMOND, Va., Oct. 6.—General Worthy Foreman Griffith called the session of the Knights of Labor convention to order at nine o'clock yesterday morning in the absence of Mr. Powderly, who was detained by business. It was then reported that the committee on credentials would not be ready to report until two o'clock in the afternoon and the convention adjourned

until that hour.

Before the delegates left the hall, Mr.
Powderly, who had arrived in the meantime, strongly urged them to avoid the use
of strong drink while in Richmond. As individuals he had no right to dictate as to what they should do, but they were not here as individuals, but as representatives of a vast constituency. The eyes of the world were upon them and they would be

judged by their conduct.

The convention went into session again in the afternoon at two o'clock. The report of the committee on credentials was then ready. It was very long and Secretary Turner said it would take four hours to read it, and it was thought doubtful whether consideration of the report could be com-pleted and action on it taken that afternoon.

Until 5:30 o'clock the time was occupied in reading the long roll of over 800 names. The committee had reached a decision on The committee had reached a decision on all but eight or ten names, and these were referred to the convention itself. The report presented the unanimous protests made on behalf of the delegates excluded by the decision of the committee. Arguments were made for and against the acceptance of the report, and if the statement of delegates. report, and if the statements of delegates who left the hall during the debate may be believed the feeling shown on both sides in several instances was very strong. At length the report was accepted and it was length the report was accepted and it was decided that those whose names had been read from the roll prepared by the committee on credentials were entitled to seats. When this result was reached the others were requested to leave and quietly retired from the hall. The work of assigning seats to the remaining delegates then began, and was completed at 7:30 when adjournment was taken to nine o'clock to-day. Before adjourning it was decided that the sessions of the convention should be from nine to twelve and two to six p. m. daily until final adjournment.

During the afternoon session Mr. Powderly received a telegram from Terre

derly received a telegram from Terre Haute, Ind., signed by D. P. Sargent, saying that the Brotherhood of Locomotive Firemen sent congratulations and best wishes and wished the order every success. The telegram was read and a committee appointed to send a suitable response.

WOMAN SUFFRACISTS.

They Meet in Leavenworth-Addresses by LEAVENWORTH, Kan., Oct. 5 .- The

Woman's Suffrage convention opened in this city last night at the Congregational Church, which was filled with an audience composed principally of women. The platform was occupied by the speakers of the form was occupied by the speakers of the evening—Miss Susan B. Anthony and Mrs. Clara B. Colby, editor of the Woman's Tribune of Beatrice, Neb., with Dr. Ruth W. Wood, of this city, presiding. A banner bearing the inscription, "No distinction of sex in the right to vote," hung against the wall.

Miss Anthony was the first speaker, and opened her discourse by comparing the dif-ferences between the girls of this day and those of forty years ago. The girls of to-day enjoyed far greater freedom, and in-dustries and professions were open to them. Nineteen years ago the Kansas Legislature debated the question whether the word male should be stricken from the constitua right to engage with other employers to fix the rate for them to pay or compel all to remain idle; but they have a right to exercise their just judgment as to what fair dealing and justice demand, and what they would be willing to give for work they want and afterwards, if sustaining the loss, to say they would not be able to give so much.

The sustaining the loss, to say they would not be able to give so much. "Nor can it be admitted on your side at you have the right, by combination or therwise, to prevent others working upon terms and conditions you have rejected if any desire to do so. The people of this legical process. The speaker cited many examination. ples to prove that women would be equally benefitted by the ballot, which meant self-respect, man's respect and an equality of rights in the laws. When the constitution should be so amended as to admit this the result would instite the laboratory. result would justify the labors and trials of years. Miss Anthony closed amid great ap-

Mrs. Colby next took the stand, her subpet being "Lessons from History." Among other salient points she requested the women present to ponder the fact that the only disfranchised classes were felous, idiots, paupers, Indians, Chinese, children and women, and exhorted them to labor to throw off this yoke of moral slavery. Abraham Lincoln had said that no man was good enough to govern another without his consent; so no man should be considered good enough to govern woman without hers. Woman suffrage meant the dawn of a new day and equality before the law. Her remarks were heartly applauded and the session closed with music. The next meeting will take place this afterno evening, the principal speaker being Eliza-beth Lysie Saxton, of New Orleans.

Removals and Appointments.

WASHINGTON, Oct. 5.-The President has appointed the following named postmasters: Conrad Dukes, Franklin Grove, masters: Conrad Dukes, Franklin Grove, Ill., vice T. W. Scott, resigned; Samuel L. Harvey, Centerville, Ia., vice E. C. Hayes, suspended; John Hornstein, at Boone, Ia., vice N. W. Simmons, suspended; George E. Rodman, Washington, Ia., vice William M. Bell, suspended. The President has directed the suspension of Berthold Greenbaum, United States Consul at Apia, Samona and will probably appoint bis sup-

Percentage of Revenue

Department has published a statement showing that with a population of 58,420,000 the net revenue was \$336,439,727, being a per capita of \$5.76, or .6 greater than the fiscal year of 1885, while the expenditures were \$242,483,138, a per capita of \$4.1b, or .42 less than that of the previous year.

KANSAS QUARANTINES.

Hovernor Martin Issues an Order Quaran-tining Against Pleuro-Pneumonia, Topeka, Kan., Oct. 1.—Late last evening Governor John A. Martin issued the fol-

Governor John A. Martin issued the following proclamation:

STATE OF KANSAS, EXECUTIVE DEPARTMENT, TOPEKA, Sept. 30.—Whereas reliable information has reached the Live-Stock Santary Commission of the State of Kansas that contagious pleuro-pneumonia of cattle has made its appearance in a large number of animals within the States of Illinois and Ohio, and the Dominion of Canada, and Whereas, The cattle interests of State of Kansas are greatly endangered by the prevalence of this plague at points situated on the principal avenues of the live stock traffic of the country, thereby making it possible for the disease to become widespread; and Whereas, An outbreak of this disease in the State of Kansas would seriously depreciate the value of our cattle, and close the markets of the world against our beef; now, therefore,

I, John A. Martin, Governor of Kansas, do hereby, by virtue of the authority vested in me by law, and in accordance with the recommendation of the Live-Stock Sanitary Commission, declare and establish a quarantine against the introduction into this State of all animals of the bovine species coming from the Dominion of Canada, unless all such cattle are quarantined at the point of entry for a period of ninety days, and retained there until they shall receive a certificate of health signed by the State Veterinarian.

In testimony whereof I have nercento subscribed my name and caused to be affixed the great seai of the State. Done at the city of Topeka, on the day and year first above written.

By the Governor: John A. Martin, E. R. Alken, Secretary of State. lowing proclamation:

RUSSIA—Illustrated

History of, from the Earliest Times to 1877. By A. RAMBAUD. Translated by L. B. LANG. In two large 12mo volumes, Long Primer type, with numerous fine illustrations and maps. Fine cloth, gilt tops, Library style. Price reduced from \$18.00 to \$1.75.

Rioner Press, St. Paul, Minn.

Russian history is full of cruelty, oppression, tyranny, and all sorts of crime, with few peaceful passages to note the advance of civilization. This very fact makes it dramatic and full of stirring incidents, and those who crave this kind of reading, or who desire to know the history of Russia for its own sake, will find M. Rambaud's volumes well suited to their need. He has taken well suited to their needs.

its own sake, will find M. Rambaud's volumes well suited to their needs. He has taken vast pains to make his history both full and accurate; his style is nervous and forcible, and he gives a graphic picture of the bloody centuries through which the Russian Empire rose. His book lifts to a great extent the veil of mystery that hangs over the origin and growth of Russia.—Inquirer, Philadelphia.

No Student of history and no observer of public

events can afford to be ignorant of Russia—that Polar Bear which stretches one huge paw toward Constantinople and the other toward India—that "muffled destiny" of whose future no one knows save that it is to be great and

must affect to a remarkable extent the condition

of well-nigh the entire human race. No more

Rambaud's is doubtless the best history of Rassia in any language. Russian history begins almost in myth, proceeds into a wilderness of conflicting traditions, and emerges into a clear light only in comparatively recent times. It is studied with imposing personalities and it pathos; the unrest of the present hour and the uncertain outlook for to \$1.75 terms. M. Rambaud puts the reader's mind fully in train to consider the situation of the lown.—Literary World, Boston.

ur.-Literary World, Boston The Period covered is from the earliest times to 187. It is more interesting as told by M. Rambaud than any romance. It is a cloth of gold studded with diamonds, not of moral brilliance but of intellectual vigor and fascinating personality. Ivan the Terrible, Peter the Great, Mazeppa. Catherine, Nicholas, and other monarchs of iron will and broad ambition relieve the monot my of war, and the Mazeppa of Byron comes in as a charming episode. The high civili-zation obtained without the adoption of a civil-

ized form of government, leaves no room for surprise at the strength of Nihilism.—Inter-Ocean, Chicago, Ill. The History of Russia now published is the most satisfactory history of that country ever brought before English readers. The history of the rise of this wonderful nation is remarked bie. Its power of absorption and diffusion is phenominal. "The World," said Napoleon once, "will one day be ruled by the Slav and Teuton races." The prophecy is under fulfilment. How the Russian Slavs expanded from

of well-nigh the entire human race. No more weighty matter of debate exists among the nations than that which constitutes the "Eastern Question," and of this question the White Czar, representing territorially the greatest nation on earth and one of the strongest, most ambitious, shrewdest, far-seeing, and persistent, is the central figure. What is the best History of Russia in the English language? Undoubtedly that of M. Alfred Rambaud,—Morning Star, Boston. A Serious Steamboat Disaster-Difficulty Veterinarians—Beef Discriminations -Low Figures for Wheat-Other Matters.

ST. Louis, Oct. 6 .- Shortly after noon yesterday the steamer La Mascotte, bound from Grand Tower, Ills., to Cape Girardeau. Mo, exploded her boilers opposite Nelcy's landing, burned to the water's edge and floated a mile below Willard's landing, where she lodged on the shore. Reports of the accident are very meager, and a full list of the killed and wounded can not be obtained. The towboat Eagle was in sight of La Mascotte when the explosion took place, and rendered valuable assistance, rescuing all who were alive. The Eagle took thirty-five persons to Cape Girardeau. No list of passengers could be obtained, as the register is lost, and the excitement is so intense among the survivors of the Mo., exploded her boilers opposite Nelcy's so intense among the survivors of the officers, that no one would tell who on board. Among the lost are known to be Judge Hager and wife; Miss Kneigher, daughter of Christ Kneigher; Miss Kneigher, daughter of Christ Kneigher; William P. Wheeler and two children; Fritz Lird, all of Cape Girardeau; Charles Ansel, colored; two chambermaids; an unknown lady with two children. The bodies of the last three and one of the chambermaids were recovered and taken to Cape Girardeau on the Eagle. J. R. Perkins, first clerk; Miss Julia Rach, of Cape Girardeau, and the first engineer, Porter, are supposed to be lost. Out of the crew of twenty-four fourteen are saved, and the total loss of life is placed at between eighteen and twenty-two. Those known to be badly injured are: Lena Buchman, daughter of George Buchman, of Cape Girardeau; Lon Adams, the first mate. Among the saved are Captain J. B. Thompson, Henry Leonry, steward; James V. Donohue, pilot; J. J. Harlan, second clerk, and D. C. Martz, second engineer. La Mascotte was a new boat, having been built by Evansville, Ind., partles during the past summer at a cost of about \$23,000. and especially designed for Miss Kneigher, daughter of Christ Kneigher: boat, having been built by Evansville, Ind., parties during the past summer at a cost of about \$33,000, and especially designed for the packet trade between St. Louis and Cape Girardeau. The patronage received was more than satisfactory, the steamer making two weekly trips with heavy loads of passengers and freight. Captain Thompson considered her remarkably fast. She left St. Louis at four o'clock on Monday afternoon.

afternoon.

DIFFICULTIES OF VETERINARIANS.
CHICAGO, Oct. 6.—Three things have stood in the way of disposing of the distillery cattle supposed to be infected with pleuro pneumonia; first, the owners of the herds opposed the commission; second, the State had not money enough to pay for the sounds cattle under quarantine; third, the packing interests demanded protection from the sale of the slaughtered herds. But the persons who were most anxious for a quarantine have had enough of it, and the scare which has gone abroad is almost as bad on the stock interests as the actual sale of the meat would have been, and a proposition has been formally made by the State commission to divide all the cattle under quarantine into divide all the cattle under quarantine into three classes, as follows: Sick and con-demned cattle, which shall be totally de-stroyed at their owner's loss; those which are not actually diseased and yet not fit for market, which shall be disposed of at the market, which shall be disposed of at the expense of the State; those which pass muster as being perfectly sound and healthy after careful examinations before and after slaughter by the veterinarian, which shall then be turned over to the owner to be disposed of by him without any expense to the State except that of the slaughter. It is thought that this proposition will be accorately to all conof the slaughter. It is thought that this proposition will be acceptable to all concerned as the best way out of the existing condition of affairs. State Veterinarian Caswell will go to New York on other matters, and Dr. Salmon is going to Canada for a few days, and until the above proposition is generally accepted so the slaughter can begin, every thing will remain as it is under strict quarantine. A steer which died at the Empire distillery last night was puried the Empire distillery last night was burned this morning before the officers examined

DRESSED BEEF DISCRIMINATION CHICAGO, Oct. 6.—The Illinois Board of Railroad and Warehouse Commissioners were in session yesterday on the matter of were in session yesterday on the matter of railroad discrimination regarding dressed beef rates. There appeared before the commissioners G. M. Swift, E. C. Swift, D. E. Hartwell, H. C. Gardner, C. Culver, E. P. Ripley, of the Chicago, Burlington & Quincy railroad; C. H. Chappell, of the Chicago & Alton, and William Sage, of the Rock Island, all of whom gave their testimony in the matter of discrimination in rates against dressed beef in favor of those on live stock. According to the of those on live stock. According to the decision of Judge Cooley the difference between rates on dressed beet and live was as 70 to 40 or 75 per cent, increase for the dressed beef, but the railroads are now making an increase of nearly 200 per cent. on dressed beef as against live cattle, and the State board are asked to make a rule in the matter. The hearing will be continued today. tinued to-day.

agement to murder were given, and if murder the der were done in pursuance thereof, then those who gave such advice and encouragement were guilty of murder. Mr. Foster dwelt upon the impossibility of securing a fair and impartial trial with a jury who acknowledged themselves prejudiced. He said there was in such a case no need having a State attorney or of hiring men from the outside to assist him. Too much praise for his maniagement of the case had been given to Mr. Grinnell. The case would just as well and just as successfully have tried itself.

LYNCHED.

The Murderer of the Logan Family Finally Lynched.

St. Louis, Oct. 5.-Wallace, the murderer of the Logan family of five persons, father, mother and three children, was taken from the jail at Steeleville last night by a mob and lynched. He had been taken to Steeleville from Cuba, Mo., where the horrible crime was perpetrated, for safe-keeping, for fear that he would be summarily dealt with by the enraged citizens of Cuba. Friday morning, Oct. 1, a mob gained entrance to the jail, seized Wallace, and dragged him from the jail and hung him up. He was cut down after being allowed to hang out the prisoner, while others were detailed to guard the roads leading to the scene. Wallace was awakened from sleep and dragged out to the infuriated mob. He was asked if he had anything to say. He responded by strongly protesting his innocence, still adhering to the story that it was the negro Vaughn who was guilty. This angered the mob more than ever, and with a shout they produced a rope, one end of which they produced a rope, one end of which they placed around the murderer's neck. The other end was thrown over a limb of a tree which stood near the jail. The prisoner still protested his innocence and appealed for mercy, but without avail mercy, but without avail.

HENRY GEORGE.

He is a Very Popular Candidate for Mayo of New York.

New York, Oct. 5.—At Henry George's

neadquarters to-day a huge pile of letters were opened and read. Many of them conained donations in the shape of \$5 or \$10 bills from business men who have become interested in the George campaign. The preparation of campaign literature is propreparation of campaign literature is progressing slowly. Two pamphlets are now being prepared. One is the story of Robinson Crusoe and his man Friday, paraphrased by Mr. George in his book on protection and free trade. It contains an ingenious statement in simple language of the tariff question from a free trader's stand point. Another is a story made up from the social problems of Captain Kidd. These pamphlets will be sold at two cents each for the benefit of the campaign fund, They will be ready by Tuesday night. A novel design for a George badge has been

They will be ready by Tuesday night. A novel design for a George badge has been made. It is to be a mechanic's crank and will be worn in answer to the slurs cast upon the George movement. Mr. George's speech at Cooper Union to-morow night is looked for by his followers with great eagerness. It will be a master effort and will doubtless become a text for future organizations. Mr. George makes careful preparations for his speeches usually distributed. tions for his speeches, usually dictating them beforehand and then by having them re-read to him, fixing them in his memory. When he reaches the platform he follows this dictation with religious care, less some carelessly used word should give a wrong

ANOTHER APACHE OUTBREAK. The Half-Brother of Geronimo on th War Path.

CHICAGO, Oct. 6.-A special dispatch from El Paso, Tex., says: "News has been received here which confirms what has been feared for several weeks-that the hostile Apaches are still out, and the capture of Geronimo did not end the Apache war. Lieutenant Britton Davis, recently of the United States army, now manager of Cerroletto's ranch in the State of Chihua-hua, says eight hostile Apaches raided the ranch during his absence and drove away twenty mules. He started in pursuit, and after following the thieves for several days, came up with them only sixty miles from this city, in the State of Chiliuahua. He was amazed to find that they were Apaches, ten in number. A sharp battle ensued, but none of the Lieutenant's party were seriously hurt. Lieutenant Davis says Old Mangus vas the leader of the thieves. Mangus has been for twenty years the terror of the border. He is regarded as a far abler tactician than Geronino, and is imbued with a deeper hatred of the whites. Mangus and Geronino are half-brothers. Lieutenant Davis says he has pursued Mangus and his band to within twenty-five miles of El Paso, where he abandoned the trail. Davis thinks the hostiles are by this time in New Mexico, and that they intend to make a raid through New Mexico and Arizona, thence into Sonora."

DEAD IN THE BRUSH. The Body of a Well-to-Do Stranger Found
Dead Near Wyandotte, Kan.
KANSAS CITY, Mo., Oct. 6.—Two ladies
walking through a hazel brush thicket on the State board are asked to make a rule in the matter. The hearing will be continued to-day.

LOW FIGURES FOR WHEAT.

CHICAGO, Oct. 6.—Yesterday wheat sold at the lowest figure of the year—73% cents for November—and, as a scalper remarked:

"Not a pound of wheat is owned by anybody in the world that does not show a loss." The deal was scemingly fired as large in the near future. Cables came in weak, and private foreign advices declared that the breadstaffs trade was a pathetic in the extreme, and that Liverpool markets were oppressed, with heavy offerings of American fiour at lower prices than had ever ruled before. Some traders explained this on the theory that New England capital, which was largely invested in flour consignments, was being drawn in as rapidly as possible, public confidence having been badly shaken by recent definications. Seaboard advices were not nearly starved through the with the wind late to the morth of the winter—coming out "by the skin of their teeth," they were in a thrifty and growing condition. I should, perhaps to the late the ladder of a man haps, add here that my horses and a large portion of my cattle had the use a rapidly as possible. The horizon dear the horizon dear the hour at lower the comment of a warm stable, which should account for something in solving the feed problem of warm of a warm stable, which should account for young the history to the corner of warm the lander of warm the long that the body. The body itself was a possible, public confidence having been badly shaken by recent definitions. Seaboard advices were not as a frestly successively and growing condition. I should, perhaps and show the were walking a long solving the feed problem of a man had been public to the stream of the property and promised to be a particle of the stream of the property of a man. The warm of the property of a man. The warm of the property of a man. The warm of the pr Patrick Bradishe's farm, five miles west of

rever which is unprecedented. It is estimated that there are at this time over one thousand cases under treatment. The disease, while of a painful add prostrating character, is by no means malignant or dangerous, there having been over 1,500 cases without one of them terminating fatally.

KANSAS CITY, Mo., Oct. 5 .- The journeymen plumbers, after a strike of two weeks returned to work this morning upon the terms submitted by them last Friday. All but one firm conceded the demand.

HYGIENIC KNOWLEDGE.

Why Everybody Should Study the Unalterable Laws of Nature. There are about two hundred and fifty diseases recognized by medical science among the ills that affect humanity, of which about one hundred figure as direct causes of death in the bills of mortality. The general grouping of diseases has been the same from the beginning of medicine, though the advance made in medical science adds to the number of recognized minor types, through a more careful analysis of symptoms, and a more thorough knowledge of causes.

While it is true that certain groups of symptoms are recognized as indicating the presence of certain diseases, yet it is also true that there are hardly any two cases of the same disease that present exactly the same phenomena. Symptoms that are prominent in one case may be entirely absent in the other. Hence it is that a course of other. Hence it is that a course of medicine that would act promptly and efficiently in one case may be only par-tially successful in another, or even, perhaps, fail entirely to accomplish a

The advances made of late years in medical research have led to a less en-tire dependence upon dosing, and to the paying of much more attention to hygiene. For a very large class of ail-ments, the beginnings must be sought for in a neglect of the laws of health on the part of the sufferer. Impure water, bad ventilation, lack of personal cleanliness, errors in diet, the drinking habit, and other similar health-destroying habits, are responsible for a very large share of the physical of humanity. Medicine may give aid when the system is suffering from an attack of disease invited by improper habits of life, but if the same causes are still operative it is only a question of time when a second attack will super-

Hence a knowledge of hygienic laws is a necessity to all who would pre-serve their health and keep their bodily and mental powers at the highest de gree of activity. It is true a person may often defy nature's laws in more than one particular for years, without any apparent harm; but there is no doubt but that the duration of life is finally shortened thereby. In point of fact the violation of laws of health is universal. And while the violator may not be conscious of the evil he is doing to himself the view of the series of th may not be conscious of the evil he is doing to himself, the mischief is going on; the springs of life are slowly but steadily being sapped, the constitution is gradually being undermined, and when disease comes the patient either succumbs entirely, or sadly realizes the fact, when it is too lets that steady fact, when it is too late, that good health is gone forever, and life, for him, must be passed in a state of semiinvalidism.

There is an error widely prevalent There is an error widely prevalent that there is something in the way of medicine that will cure every disease. It is an utter fallacy. There is no specific known to medical science for any one disease. That is, there is no medical science with the second of the second secon icine that will cure that disease every time. Quinine, for example, is of the greatest value in malarial disease, yet greatest value in malarial disease, yet every physician has met with cases in which it failed utterly. The cure itself depends upon the recuperative powers of the system. Medicine may aid this in various ways: but if the constitution hashes down and those recuperative. is broken down, and those recuperative powers exhausted, medicine can do no

Hence it follows that the wisest plan is to conserve the natural powers of the body by scrupulously observing hy-gienic law, and thus prevent disease from obtaining a hold upon the sys-tem. "An ounce of prevention is worth a pound of cure;" and it is easier to prevent sickness than to cure it t has once attacked us. - Tolcdo Blade.

FEEDING SORGHUM.

The Successful Experiment Made by a Kan-I feed sorghum fodder to my stock

(horses, cattle and sheep) freely, once, twice or three times a day, depending upon its abundance relative to other eed. Last winter sorghum composed the bulk of my rough feed, as I only had some ten tons of hay, four tons of millet and a little wheat straw in addition to my sorghum; there were over eighty tons of that. With this feed and a small amount of grain I carried through the winter eleven head of horses, seventy-two head of cattle and forty-two Cotswold sheep. These animals were not nearly starved through the winter—coming out "by the skin of their teeth;" they were in a thrifty

DRESS MATERIALS.

seen, are lovely. Serges of all qualities will prevail. They are the rage in London, and our merchants have seen to it that we are not to be behind our reider vinegar in it and oat meal water.

French and English sisters in having —Rural New Yorker. the very choicest patterns to select from. Indeed, superb and superior goods have been manufactured expressly for this market, leading houses having exclusive designs for their customers, many of whom select from pressly for this market, leading houses having exclusive designs for their customers, many of whom select from sample cards, and sometimes can arrange matters so that no other dress like their own will be seen in the city.

An exquisite wisee of fine silk and wind barbed wire around them close

An exquisite piece of fine silk and wool dress material shows a stripe of heavy Ottoman cord, alternating with a stripe of various fancies in velvet. About an inch and a half space in the next stripe is a body of silk plush. This is followed by an inch of narrow This is followed by an inch of narrow velvet and Ottoman bands, and then comes a space filled in with pile after pile of silk loops, which are cut open, forming a narrow fringe, which is full enough to set out almost straight. This combination is repeated in this stripe, which alternates with the stripe of plain Ottoman, each one being an inch and a half wide. This fabric is in one color. Dark blue, garnet, brown one color. Dark blue, garnet, brown and black are the only colors yet —In order to guard aga

Such rich, showy materials, in large stripes and plaids, will be much used for dress skirts, made entirely plain, for dress skirts, made entirely plain, without even a foot plaiting, with bodice and draperies of the prevailing ground tint, the bodice cut in the jaunty riding habit style. Buttons will be a large item in the fall dresses and are shown in metal and mixed and are shown in metal and mixed styles, bronze effects being particularly admired. Oxydized buttons will also be favored, and buttons with pearl ornaments set on metal. The new round ball rosary buttons come in

Some of the serges closely resemble the suitings worn by gentlemen, in color and combinations, but of course not as heavy in quality. A very pretty piece of goods has a tiny stripe of a bright color on brown, blue, red and green, and other patterns show a heavy cord outlining a small check, and these are in one color. There is Some of the serges closely resemble and these are in one color. There is also a very neat and stylish class of goods in lovely quality of fine wool, in dark grounds, with an odd sprinkling of bright colors in subdued form. This will make very stylish shopping dresses and suits for general wear.

Astrakan bourette suitings in bright

cardinal promise to be a leading nov-elty. They are shown in two rich square blocks of fine chevron weave, square blocks of fine chevron weave, framed by soft, silky rings of Astrakan. The alternate block has the chevron running in an opposite direction with the same framing of curls. This gives a very striking and stylish effect. The a very striking and stylish effect. The same goods also appear in black and white. There are also gray and white bourettes that are very attractive. A few brocaded and figured woolens are

Striped velvets and plushes are leading feature in elegant novelties. They come in solid colors and in various tints and shades, showing a number of tones in one stripe of about an inch wide. Both cut and uncut pile is formed into stripes or alternate blocks and the effect of arranging tints and colors in these goods is surpassingly colors in these goods is surpassingly beautiful. The brocaded velvets are beautiful. The brocaded velvets are gorgeous. Long pile goods with plain and cashmere centers show large and showy patterns. There are brocaded plushes in new designs that are very rich looking and the prices are comparatively moderate. All shades and colors are represented in plain velvets, which promise a rage for the entire season. Rich silk and welvet costumes are being imported and velvet and are being imported, and velvet and lace combinations will find favor. Velvet will also be used for dinner dresses, and many of the handsome to secure the barn and let the house plain wools will be combined with veltake care of itself. We confess that vet.—N. Y. Graphic.

PRESERVED FRUITS.

How They May be Kept in Good Condition

"extremely insinuating," and it will penetrate even by microscopic openings, and thus injure the product of labor performed in the torrid summer days in a kitchen with a temperature considerably over one hundred degrees. The top of every jar with a screw or rubber fastening should be sealed with bottle wax. Jelly glasses should be secured with bladders, or with paper dipped in white of egg and pressed about the glass without a wrinkle. Many persons take the frecaution to wrap every glass jar or tumbler in paper, and then pack each of them in saw per, and then pack each of them in saw affected by light nor by atmospheric changes. The closet in which preserves are kept should not be damp, nor should it be in close proximity to the kitchen. In winter the temperature must be a degree or two above freezing point. It is always well to keep preserves in a closet by themselves, so that it need only be opened when necessary to store each new addition of It is, of course, understood that in sections of the wind and cold must be kept out, or the cracks must be battened with feed; and the wind and cold must be kept out, or the cracks must be be ten or the cracks must be battened with feed; that is to say, the exposed animals must have more feed to keep up the necessary heat. There is one way of making a cheap barn or stable warmer which costs but little. It is to line it with building paper. Still another way is to board up on the inside and fill with chaff. Both these plans will insure a good deal of warmth and save feed. must be a degree or two above freezing point. It is always well to keep preserves in a closet by themselves, so that it need only be opened when necessary to store each new addition of jars. Thus the atmospheric changes are reduced to a minimum and the fruit will remain in good condition.—

from the effects of Paris green. He mixed it and applied it in his fields with his hands, using flour for the purpose. Breathing the compound introduced the poison into his system.

—In order to guard against flies the stable should be thoroughly cleaned often. A sprinkling of the floors with a mixture of a teaspoonful of carbolic acid and two gallons of water will disinfect the stalls, while the manure heap will also receive an application with advantage.—Western Rural.

with advantage.—Western Kurat.

—A good way to keep string beans, writes one farmer's wife, is to salt them down. Wash the beans, pack a layer in a keg, then place a layer of salt over them with a little pulverized alum added; continue in this packing as closely as possible. When wanted for use, soak the beans over night before cooking. fore cooking.

-Farmers as a rule do not like to feed grain in summer to the cows, says the New Yorker, yet the practice pays well where there is any market for the butter and milk. Although grass may be a valuable food for cows, yet there are different varieties, and many of them are not readily eaten by the cows in the pasture.

-Never use coarse litter, as it pays to cut it with a cutter, and the animals will enjoy it better, while its fine quality will render it more capable of ab-sorbing the liquids. All bedding should be used as much for its absorbent quality as for bedding purposes, and the labor of passing it through the cutter will more than be repaid when it comes to the time that the manure is to be hauled, as it will then be fine and easily handled.—Prairie Farmer.

THE FARM BARN.

Why It Should be as Near Perfect and as Comfortable as Possible. When there is nothing in the way of having a first class barn the farmer should build one. Some times money is lacking, and in such case we must put up with what we can get. It is only in exceptional cases that a mortgage should be placed on a farm for the purpose of making improvements. A mortgage is an uncomfortable thing at best. It is always at work, as the poet expresses it. But the necessity and profitableness of a good barn ought to be recognized by all. There is not only a great deal of comfort to be derived from caring for stock in a commodious building, but it costs less to keep stock through the winter in a well built and well operated barn than it does in one that is a mere apology for a barn. It is sometimes said that a farmer, if he can not have both a good house and a good barn, ought to consider it a duty to secure the barn and let the house there is a very strong argument to sus-tain the proposition, though we should hardly care to adopt it. One thing is certain; if he has a good barn he will How They May be Kept in Good Condition for an Indefinite Time.

In order to keep preserved fruit in condition it is necessary that the jars be air-tight, and that they be kept in a cool, dark place. Atmospheric air is 'extremely insinuating,' and it will penetrate even by migroscopic and the state of the farm, and it should not be ensured from any cause, which it is if the house is seriously defective. Pennsylvania is noted for its elegant barns, and very ordinary house. But the health of the farm, and it should not be ensured from any cause, which it is if the house is seriously defective. Pennsylvania is noted for its elegant barns, and very ordinary house.

counteract its binding tendency.

In the dairy, sorglum is a most excellent food, and in connection with more concentrated food, as millstuff, corn or oatmeal, it will develop the best possible results your cow is capable of reaching. In conclusion, I will say that this wonderful forage plant for Kansas is as well or better adapted for horses and sheep as it is for eather, and, if it is properly cured, they will eat it clean and thrive upon it.—W. A.

Ensign, in Kansas Farmer.

—Tomato soup: To one quart of boiling water add one quart of boiling water add one quart of tomatoes; boil again and put in one teaspoonful of soda; and as soon as it has ceased foaming, add one pint of milk, four rolled crackers, butter, pepper and salt and serve very hot.—The Household.

—A deposit of blood agate has been discovered near Cisco, Utah. It covers a territory three miles square.

The dairy, sorglum is a most extended to a minimum and the fruit will remain in good condition.

Thus the atmospheric changes on the atmospheric changes of the atmospheric changes. Thus the atmospheric changes on the atmospheric changes. Thus the atmospheric changes of the atmospheric changes. Thus the atmospheric changes of the atmospheric changes on the in obthing that we have said do we mean nothing that we have said do we mean nothing that we have said do we mean that stock shall be pampered. It is nothing that we have said do we mean that stock shall be pampered. It is prossible for seven we possible to, keep stock too warm. We ought to have good shelter provided by the time winter comes, if we can provide such shelter. But suppose the preferable for us to build barns and well constructed sheds? We can do this for our sheep in the vast majority of instances. We can shelter at all. There is not a particle of doubt that it is altogether proferable to permit animals to tok shall be pampered. It is fruit will remain in good condition.
