Secretary Belden Issues Call for Managers to Come to Rescue with Checks for Dues; First Kansas City Meeting for Years

The annual spring meeting of the Kansas Farmers Union Managerial Association, to be held in the Baltimore Hotel, Kansas City, Tuesday and Wednesday, May 21 and 22, is expected to surpass all previous meetings of that organization, in point of attendance and interest. The program, as announced by the president, C. B. Thowe of Alma, and by the secretary, T. C. Belden of the Jobbing Association in Kansas City, is filled with high lights including a free banquet in the Baltimore Hotel on Tuesday evening, free entertainment later in the same evening, a trip of inspection through the new cooperative warehouse of the Jobbing Association, round table discussions and talks by well known cooperative leaders.

The program is scheduled to begin at one o'clock Tuesday afternoon, although a most interesting session will be held Tuesday momrning, when the store managers are being called together by Howard Cowden, president ciation. This meeting will be more or less in the nature of a conference, and all store managers are invited to

The Managerial Association meeting in Kansas City for the first time in several years. Last year, and for some years previous to that, the meeting was held in Salina.

Just what the entertainment pro gram will consist of on Tuesday evening has not been divulged by those in charge, but it is generally understood that it will be of such nature that everyone who attends will vote for it to happen again next year-or sooner. The only guarantee made is that this entertainment positively will take the minds of the audience off the subject of dust storms or any other variety of trouble. That should be worth a lot.

Speaking of troubles, Ted Belden, the secretary of the Association, has other states for pasture. This is them. Right now he is troubled over brought about by the continued has the responsibility of providing the fact that several of the managers have not paid their current dues. Any manager who may happen to read this, is requested to do his part toward relieving the financial shortage in the Association by mailing his 1935 dues to T. C. ANNOUNCE PLAN OF REFERENDUM

General Procedure of County and Community Wheat Growers' Committee-Conducted Referendum is Outlined Fully

FOURTH REFERENDUM

Similar Polls on Farmers' Views with Reference to Corn-Hog, Cotton and Tobacco Taken Previously; Proposed Future Program

The general procedure under which county and community wheat growers' committees will conduct the national wheat referendum on May 25, has been announced by the Agricultural Adjustment Administration.

The referendum will involve signers of approximately 575,000 wheat contracts in 1,763 counties in 37 states. A separate vote of non-signers will

be taken. The referendum is to be held for the purpose of indicating to the Adjustment Administration the sentiment of wheat farmers generally toward a new wheat program to follow the present one. The question upon which producers will be asked to vote

"Are you in favor of a wheat production adjustment program to follow the present one which expires with the 1935 crop year?"

The county and community wheat committees have the principal responsibility in conducting the referendum. The county allotment committee wil have charge of the referendum in each county or for several counties if they are formed into district associations. Community committees will have cooperative marketing picture. Addicharge of the actual balloting in each tion of marine facilities to the pres-6:30 p. m.-Free Banquet at Hotel community, which in most cases will be a township or similar area-

Duties of County Committees Wheat section officials have notified state, county and community workers that the balloting is to take place between 9 a. m. and 8 p. m., May

Before the referendum is taken the county allotment committee is to designate in each community the places for balloting and to give public notice of the time for voting?

In exceptional cases, where only county committee may send ballots to these farmers and the vote may be made by mail, but in each case these ballots must be returned by May 25, under tentative regulations. Provision is also made for producers to vote an absent voter's ballot if they will be unable to go to the polling places, provided arranged in advance

with the community committee. The referendum is open to all bona fide wheat farmers. The county committee will furnish to each communty committee a register of the wheat farmers who are contract signers. In addition, any bona fide wheat farmer may come to the polls on May 25 and vote, provided he satisfies the local committee that he is eligible to sign a wheat contract. There is no obligation upon farmers to agree to

> No member of a committee is to disclose how any particular person voted in the referendum, or to announce the results of the referendum in the community. The results of the community committee are to be forwarded to the county allotment committee, and the county committee in turn will send in county totals to the Extension Director in each State. The Extension Director will then inform the Agricultural Adjustment Administration of the state totals. It is expected that these states totals will be reported to the Adjustment Ad-

putes or appeals over the results of the vote. The voted ballots and community summaries are to be field under lock by the county committee subjecct to instruction from the Secre-

tary of Agriculture. Fourth AAA Referendum The vote on wheat will be the fourth referendum to be conducted by the Agricultural Adjustment Administration. Similar polls on the views of was farmers toward adjustment programs have been taken among corn-hog producers, tobacco growers, and cotton

The wheat referendum is being taken now in order that the Adjustment Aministration may have a clearcut expression of opinion of producers far enough ahead of time to allow preparation of a wheat contract to be offered to farmers before planting of

THE MILITANT VOICE OF AGRICULTURE NEW LEADERS IN April 20, 1935.

Dear Mrs. Simpson:
The twenty books that I ordered some time ago are all sold. Please send me ten paper cov-ered books and three cloth bound books. I want to use the cloth bound to present to the school libraries in our community.
Yours very truly,
F. A. Damschroder,

Rt. 3, Gibsonburg, Ohio.
A copy should be in every school library. Your Local or County Union can place one there. John A. Simp son's messages have a place in the educational work of the Farmers' Union and should be in educational institutions. The Militant Voice of Agriculture will make friends for the Farmers' Union and bring in new

Cloth bound books are \$1.25; paper bound 75 cents. Write Mrs. John A. Simpson, Route 3, Oklahoma City,

FARMERS NAT'L **EXPANDS RIVER BARGE SERVICE**

Announcement of Barge Service between Leavenworth and St. Louis on Missouri River Paves Way for New Development

MARINE FACILITIES

Farmers National to be Ready to Use Barge Service to Move 1935 Crop; Make Possible Better Prices to Grower

The Missouri River and the Mississippi are soon to be brought into the ent terminal grain facilities at Leavenworth, Kansas, was announced by President Huff of that Corporation Corporation at Washington that regular barge service on the lower Missouri between St. Louis and Leavenworth would be in operation by mid-

Acting upon this assurance Farmers National has already put in motion plans previously developed to place its 450,000-bushel terminal grain elevator at Leavenworth in active river service, with the opening of the 1935 crop movement, for receipt of grain from the Southwestern territory by rail and its distribution from that point onward, either by barge or by rail, as rate and compe-

titive conditions warrant.

The Farmers National property includes a strip of land reaching to the iver, with sufficient frontage to give imple dock room. Deep water and a shale bank make the improvement of this frontage easy and its maintenance cost negligible. An overhead grain conveyor from the warehouse to dock, with adequate marine handing equipment will complete the needed improvements.
Fortunately, the historic old river

town of Leavenworth already is a terminal grain market, with Government inspection furnishing official weights and grades. And this fact completes the necessary set-up of transportation, storage, transfer, grading, and sales service made possible by the fortunate position and immediate action taken by Farmers service at Leaven-

worth at an early date.

The exact time when the first barges will move, is still undetermined, but the earliest movement of the Southwest's 1935 crop will find Farmers National pprepared to take full advantage of its river terminal position, and of the resulting freedom of movement, as well as the rate savings that will naturally follow-savings that will reflect themselves in ultimate bettered prices to the grower, since the grower's price is that of the terminal market less his costs of moving his grain onto that market.

More land in grass and hay crops and more attention to soil-improving crops seem to be in order for Kansas agrilculture. W. E. Grimes, agricultural economist of the Kansas State College, believes no considerable area of Kansas farm land will need to be retired from production, but that the land now in use should be used to reduce the acreage of cash crops and increase that of soil resource-conserving crops.

in most areas and the community meetings are following. In addition to the discussions of the they wish one.

The proposed future program would follow in general outlines, the present program. It would be based upon voluntary contracts with farmers and would be for four years 1936, 1937, 1938, and 1939, with optional provision for a referendum on the question of continuing it from year to year during this period. Acreage and production base periods would remain the same, thus avoiding the problem of working out new allotments, Adof course it is not as easy as a ll that. Cleaning, storage, grading, the matching of supply and demand, sometimes an eager hunt for seeds wheat program, series of meetings are being scheduled and held now in every community in which the wheat cessing taxes would be determined as in the massent program. Although the referendum is being working out new anothers, Authority of the matching of the program of the contract would be limited to a maximum of 25 per cent of the base accreage. Adjustment payments and program in the messent program. Local adminers and not within immediate reach, every community in which the wheat sometimes a search for desirable markets—these are all part of the coop, at these meetings farmers discuss discuss is tration of the pprogram would con-

PROMPT REPORTS ON ORGANIZATION

reachers Who Attended Workers Institute Making Fine Progress in Organization and Conducting Community Classes in Various Neighborhoods

DESERVE COOPERATION

Farmers Union Locals Have Oppor tunity to Help with Work, thus Increasing Interest in and Appreciation of Farmers Union

The community class leaders who attended the KERC workers Institute held recently in Topeka, Lawrence and Manhattan, and who, for the most part, were sponsored by County and Local Farmers Union units, are swinging into the work of organizing and conducting their classes in their home communities, and are meeting with success, generally speaking. This work is going on in between forty and fifty counties, and the influence of the new educational classes is already becoming a factor in community life.

In response to a letter of inquiry recently sent out from the office of

C. A. Ward, president of the Kansas Farmers Union, letters are pouring in telling of the progress being made. Most of the leaders have answered promptly, and most of them tell of having already completed the work of organization. Many are reporting excellent attendance and interest. A few are stating that they need more cooperation from the Farmers Union folks in their respective communi-ties, 'ut most of them tell of excellent cooperation. In a few in stances, sickness and general weather conditions, including dust storms,

have retarded the work. State officials of the Kansas Farmers Union have been doing all in their power to assist in the orrecently. This announcement followed immediately upon receipt of definite classes. They have attended many of assurance from the Inland Waterways the meetings, and have received real inspiration from the interest being taken by the new class leaders as well as by the people of the commu-

It is pointed out that these community meetings, which are usually held in places selected by organized Farmers Union Locals, and at which he very subje action form the basis of most of the discussions, should offer the Locals in those communities a golden opportunity to increase their membership. Such Locals have the opportunity to take these classes and these leaders or teachers "under their wings," and thus develop interest in the Local and increase respect for the organization

that has made them possible. It is the intention of the Kansas Union Farmer to publish a number of these teachers' reports soon. They will be interesting and enlightening to the people in the communities af-They reflect the interest or fected. lack of interest which is being taken by the people of the communities Some indicate regular attendance of nearly a hundred, while others show the attendance to be smaller. he can attend one of these classes. then take his entire family to this class as often as he can. Furthermore, he is asked to get as many as possible of his neighbors interested, for these Workers' Institute classes, or community meetings, are open to every one, regardless of membership or non-membership in any farm organization.

DOESN'T PAY FOR FEED The butter producer, despite the sharp rise in butterfat prices since March 20, is not yet in a position to pay for the feed used to produce the butterfat, declares Vance M. Rucker, Ex Vance M. Rucker, Extension Marketing specialist, Kansas State Col-

lege.
Although the farm price of butterfat last March was 33 per cent high-

onomics, Washington, D. C., was equivalent to 20 pounds of feed grains. This was the lowest for the month since 1918.

Thus, grain feeding will continue light until feed prices are lower in elation to butterfat prices. This should mean that butterfat prices probably will stay relatively high, especially with backward pastures this spring. But after harvest, with feed more plentiful and feed prices lowered, the dairyman should see a brighter prospect.

Males should be separated from the poultry flock as soon as enough eggs for incubation have been laid. The males have no effect on the number 100 PER CENT LOCALS

FORTY-EIGHT ON '100 PER CENT LIST OF LOCALS

Ellsworth, Russell and Marshall Counties each Have Four Locals Fully Paid up According to Final Figures Last Year

NOT UP TO 1934 LIST

But Certain Conditions Make It More Difficult for Locals to Get on List this Year; Members Asked to Put Locals on List

Forty-eight Farmers Union Locals n Kansas have now qualified for the 1935 "One Hundred Per Cent List." That means that these Locals have reported in and have remitted for 1935 memberships for all their members who were paid up in 1934. A number of other Locals, not listed among the forty-eight, have total membership equal to or greater than their total 1934 membership, but still have a number of names on the delinquent list. That means, of course, that some names in their 1935 mem-bership were not listed as paid up in 1934. In making up the list, allowance is usually made for one or two members having moved away or died during the year.

At this time last year, or May 1, the hundred per cent list included the names of 114 Locals. Having only forty-eight Locals on the list this year does not compare so well, at first sight, with the number last year. However, certain conditions enter the situation which make the comparison less harsh. In 1934, the hundred per cent list was based on equaling 1933 membership. With 1933 membership smaller than the 1934 roll, it was easier for Locals to reach that equality than it has been for them to build 1935 up to 1934 membership. Another condition which should be mentioned is the fact that the 1934 membership included several hundred who came in under the special arrangement in effect in the fall of 1933, whereby delinquent members could pay for 1933 and 1934 by remitting for one full year's dues, plus 25 cents which went to the Naional Farmers Union.

However, the fact remains that membership this year is some thousand members short of last year at this time. That puts it right up to the Locals and their officers as well as all members to make a special ef-fort during May to bring the total up to last year's May membership. Locals are asked to put on a May membership campaign, to this end.

The list of 100 per cent Locals is published in this issue of the Kansas Union Farmer, and will be published from time to time throughout the year. It is suggested that each mem-ber watch this list, and, if his or her Local is not represented, to see that it gets on the list.

It will be noticed that three counties in Kansas have four Locals on the list. They are Ellsworth county, Marshall county and Russell county. Two counties, Wabaunsee and Miami, have three each on the list. Others listed have either one or two.

The Farmers Union of Kansas has a most important program to carry into effect this year. It has a budget which is as small as it can be made with any assurance of being effective This budget must be balanced, and since membership is the chief source of revenue—and should be, if we maintain our reputation of being wholly self-reliant and dependent entirely on farmer support—it is up to all members to get out and work for an increase in membership. Each will have to work in his or her own is done to any great extent, the Kansas Farmers Union can come for-ward with flying colors.

Investing in Organization

Wednesday, May 1, on the regular daily radio program which comes right and wrong. from the offices of the Kansas Farmers Union in Salina:

Just how long legislation comes to an immediate the enemies of the bill, who are also vote. Let the representatives and generally speaking, the enemies of senators elected by the people decide farmers as a class of people, will be this matter, by a fair and open vote, able to stall off the vote remains to instead of leaving it in the hands of be found out.

The Frazier-Lemke refinancing bill of agriculture. Do we want to conhas had the undivided support of the tinue to bow to the command of the Farmers Union. The National Farm- little band of money kings who make ers Union has sponsored it and has made it one of the principal objectives of the organization for a number of years. The Kansas Farmers Union, having in mind the best interests of Kansas farmers and realizing that farmers as a class must have equal opportunities to refinance themselves as do other classes, has sponsored the legislation for a number of years and has made an effective fight for it.

Farmers Demand Its Passage We have opportunities to contact a large number of farmers in Kansas, and we do not know of a single farmer who has expressed himself against the Frazier-Lemke refinancing bill. On the other hand, thousands upon thousands of Kansas farmers, including members and non-members of the Farmers Union, have asked in no uncertain terms that the Frazier-Lemke refinancing bill become a law. Our state legisalture has memorialized Congress to enact the proposed legislation into law. Twenty-six other state legislatures have done the same thing. Some Granges and some Farm Bureau organizations have also gone on record as urging the passage of

It is noteworthy and extremely significant that during all the time the Frazier-Lemke legislation has been before Congress, not a senator, or representative has made a speech against it. Yet, the bill is being held back; and, thus far, it has been made impossible for it to come to a vote.

Unofficial polls taken in the House and in the Senate show that if the bill does come to a vote, it will pass by an overwhelming majority.

Unfair Blocking What does all this show? It shows plainly that some influence, repre-American people are concerned, is effectively blocking legislation designed for the benefit of the majority. It simply brings out the fact that a small handful of non-producers has independent citizens of the country | Last week I attended four regional year and so does Long. Mr. Robert Flory is president of the have a scrumptuous time for mighty operation as the only known defense operation as the only known defense against a dictatorship of capital, with its impending rule of terror, and

the most valuable, for starting the Junior program in your Local. You probably have children in your community who have been former members of the Junior Cooperators— a club which most of you know as the "Aunt Patience Club," of your state paper, Perhaps many of them have passed the age for membership in this Club. If you have any of these club members in your Local, they will be splendid material to start your Junior

Of course the first thing which you must do is to elect your Local Junior Leader. This person may be of any age, or either sex—most of you, as you listen to me, will think of someone person, in your Local, especially qualified for the leadership of your

Juniors. purpose of the work in your mind, and to forget all preconceived ideas. First, you must remember that the Juniors are already members of the have all automatically become Juven-Union. As soon as the child of a lies, of our new Junior department member becomes sixteen years of So enroll in your Juvenile classes age, he becomes a Junior member of the Union, simply by being received into the Local according to the ReJuniors when you're 16. I'd like to

DO NOT THINK of organizing these young people into a separate Local. They belong to the same Local as their fathers do. It would be group of those between the ages of at Salina, about anything which 25 and 30, as to organize a separate not clear to you, in connection with group of those between 16 and 21. the things I have explained today.

one hour.

1-2 cup butter,

1-4 teaspoon of ginger,

1-8 teaspoon of cinnamon

1-8 teaspoon of nutmeg

1 tablespoon of molasses

Juice of one-half lemon

Grated rind of one lemon,

When an adult pays his dues into the Local he is taken in by the reception ceremony in the Manual and given a Junior card. A fee of twenty-five cents is remitted to the State Junior Leaders Office, for each Junior membership—it is collected and sent in by the Local Junior Leader, before the Junior's card is issued by the the Junior's card is issued by the State Office. The Junior is then ready to take his part in the work of the Local, act on committees, serve as delegate, be counted for representation, and be elected to office. THE ORGANIZING OF THE JUNIORS consists of organizing them into a class for study. You do not organize a Junior Local. You organize a JUNIOR CLASS.

List the names of the Juniors who are interested in working for and learning about the Union. If they want to have class officers, that will be fine. But-see that the officers are of the class, and not of a Junior Local. Because this plan has been tried out in various states and has NOT proven successful. The states which have used it have changed their

The Junior lessons are published in the Kansas Union Farmer. They are NOT mailed out from the State Office. It is the duty of the Local Leader to get the JUVENILES or-ganized, also. They are organized into a class as well as the Juniors. Perhaps you have a Junior who would be willing to teach the Juvenile class. Lessons are published monthly in the Kansas Union Farmer.

It is usually found best for the class meetings to be held separately from the Local meetings. Often the mothers are willing to give their homes once a month for the meetings. Havt it understood that the meeting is for recitation and not for fun. Recreation for half an hour after the time for class is up, is all right, and is advised. But the class meeting is of primary importance. Try to have some part of the Jun-

ior class work used at each meeting of the Local in order that the adults do not lose sight of what you are doing. The Junior Manual contains the reception ceremony and the entire description of the Junior work, its aims-purposes and achievements. Study this Manual and the Kansas Junior Outline, and you will understand the work thoroughly. The Junior lessons will be found in the Kan-

each Junior Leader should write to your State Leader, who will send material for the organization of the our time and effort.

Since my time is limited today—I am going to give you a brief outline of the method which we suggest as study topic, "Power and the Machine study topic, "Power and the Machine study topic," includes the outline of our 1935 study topic, "Power and the Machine Age," and our 1934 topic, "Money, Banking and Credit." These books cost 25 and 30 cents, respectively.

Now, since there is no more time this morning, I will continue my subject next week. During my next talk with you, I want to tell you about the set up of our department-our state and national projects-and our achievement awards. But I couldn't close without taking

the time to say "Hello" to all of our Junior Cooperators. I feel that I know you all so well—you have been so faithful about writing to me about studyng the Club lessons-and entering the various essay contests which we've had from time to time You know that the Junior Cooperators of the Aunt Patience Club-and the Juveniles of our new Junior pro-The first thing to do, is to get the gram, which I've been describingare one and the same people. So we've not lost any Junior Cooperaception Ceremony in the Junior Man- hear from the Junior Cooperators who have been listening to me this

just as sensible to organize a separate | program again-please write to me

RED CHERRY TURNOVERS:

Drain syrup from a No. 2 can pited red cherries into a sauce pan, add the cherries cut in quarters and seven-eighths cup sugar. Boil gently until very thick, add a little grated orange peel and cool. Roll pastry thin cut in 5-inch rounds and put a large spoonful of cherry mixture on half of each round. Moisten edges with cold water, fold over and pinch edges firm-ly together. Bake twenty to twenty-five minutes in a hot oven. This makes eight turnovers.

MEAT LOAF WITH RAISINS

Mix two pounds of ground beef with a moderate oven (350 degrees F.) for salt and pepper. Moisten two cups of bread or cracker crumbs with one cup of milk. Add two slightly beaten eggs with one cup of seedless raisins to the meat. Mix crumbs with meat and shape into a loaf. Bake in a moderate oven for about an hour.

SUMPTUOUS FOR SALADS

Corn Salad: Marinate the contents of three 12-ounce cans whole kernel corn and one and a half cups grated or finely-chopped raw carrots in one cup French dressing for an hour or so in refrigerator. Add one cup shred-Add chili sauce, chives, catsup, peppers and vinegar to mayonnaise. Yield ded ripe olives, and serve in a nest of lettuce. Serves twenty-four.

Cooperative Songs

(The following songs have been used in the cooperative schools of the Consumers' Cooperative Company. Mr. Ralph Chapman of Lawrence, who is well known in Kansas cooperative circles gave us these songs as excellent ones for Local use.) We receive many requests for cooperative songs, and we hope these will be clipped and saved for use in your Local.)

> PEP The more we get together, together, together, The more we get togethr, the happier we'll be; For your friends are my friends, And my friends are your friends The more we get together, the happier we'll be.

HOW DO YOU DO? How do you do all you (Students) (Teachers)

How do you do?

Is there any thing that we can do for you? We know you'll feel first rate If you'll just cooperate, How do you do all you (Students) (Teachers) How do you do?

THE BATTLE HYMN OF COOPERATION (Tune: Battle Hymn of the Republic)
Oh we are a mighty army though we bear no sword or gun,
We're enlisted till the struggle for Cooperation's won,
And beneath our banner blazoned "One for all and all for one," Consumers marching on!

Come and let us work together Come and let us work together Come and let us work together Consumers marching on!

Oh the world today is suffering with poverty and pain, And the day has come for freedom from the curse of private gain, For all may live in comfort, 'neath cooperation's reign.

Oh we know our scheme is righteous and we know our cause is just, For upon the brotherhood of man we firmly base our trust: Let us strive to win the victory, for win we can and must. Consumers marching on!

(Tune: Auld Lang Syne) Come, let us raise our voice in song of happy days to be, When all men shall cooperate and all men shall be free.

We are the many, they the few, come let us drop the chains, Which they have forged for you and me, come let us use our brains.

Cooperate, cooperate shall hence our slogan be; Come, let us all cooperate, from want and care be free. For ags we have worked and bled while idlers rolled in pelf

We've changed our mind, we'll work instead and keep it for ourselves.

When all good things of life are made for use and not for trade Then shall we all enjoy this life, of hard times not afraid.

Let's all stand up and counted be, true soldiers for the fray To make the Co-op commonwealth a fact in our own day. IT'S A SHORT LIFE (Tune: Long, Long Trail) It's a short, short life we live here, So let us laugh while we may. With a song for every moment Of the whole, bright day. What's the use of feeling gloomy Or what's the use of our tears? When we know a mummy's had no fun

> LET US COOPERATE (Tune: That's Where the Tall Corn Grows) Let us Cooperate, Cooperate, Hear our earnest call. Let us Cooperate, Cooperate, You need us, we need you.

For the last three thousand years.

LET'S WORK Then we'll sing at Cooperation Then we'll sing it some more, And We'll join as one together, bringing service to the fore, Good-bye competition, Goodbye things unfair, So let's work, work, work for our Co-op For our heart's right there.

PULL OFF YOUR COAT AND COLLAR (Tune: Put on Your Old Gray Bonnet) Pull off your coat and collar Get to work and push and holler And we'll put cooperation at the top; Every booster boosting, Not a rooster roosting. We will never, never stop.

WHEN YOU DROVE A BUICK (Tune: When You Wore a Tulip) When you drove a Buick, a big yellow Buick And I drove a little red Ford, When you went around me, you tried to guy me, But your insults I ignored, Then you struck a mudhole, A nice slippery mudhole, Your engine raced and roared Then I pulled out your Buick Your big yellow Buick At the tail of my little red Ford.

HE WEARS A CO-OP BUTTON (Tune: Round Her Neck She Wore a Yellow Ribbon) On his coat he wears a Co-Op button, He wears it in the winter and the summer, so they say, And if you ask him why the decoration, He says, "I'm in the CO-OP and I'm in to stay— In to stay, in to stay! And he wears it milking cows or mowing hay, Round the town he wears a Co-Op button, He says, "I'm in the Co-Op and I'm in to stay."

THOUGHT FOR THE WEEK

The essence of mental hygiene is contained in the following advice by Edward Everett Hale:

"We should never attempt to bear more than one kind of trouble at once. Some people bear three kinds-all they have had, all they have now, and all they expect to

An eminent physician has said that if we could only keep these words before us constantly, our days would be more serene, our nights more restful and our production would reach its fullest extent with happiness and efficiency.

BUTTER AND EGG munity. In the case o fa price war the burden falls very heavily on the MARKET LETTER cooperative creameries, for the loss on the other half of the business is By P. L. Betts Dairy and Poultry Cooperatives

Week Ending May 1, 1935 CHICAGO BUTTER MARKET

Extras opened the week at 31 1-4 cents and the market moved continually downward during the week closing at 28 1-4 cents. Standards opened at 31 1-4 cents closing at 28 3-4 cents. 89 score cars opened at 30 1-2 pense to be sure to meet such competition, but a publicity and educationcents and closed at 27 1-2 cents. 88 al campaign, we are sure, is much score cars opened at 30 cents closing safer and will bring about much more at 26 1-2 cents.

NEW YORK BUTTER MARKET ened at 33 cents and sold down to careful consideration before authoriz-29 1-4 cents at the close. Fresh Firsts opened at 31 1-2 cents and closed at 29 cents.

Dairy and Poultry Cooperatives Inc. ed at 29 cents.

The butter market has continued to show a marked weakness through the week under review both at Chicago and New York. Receipts of butter have picked up slightly and no doubt the results of good rains and favora-ble conditions for growth of pastures ble conditions for growth of pastures have been prime factors in easing the markets. Foreign butter has also continued to be a decided factor and especially the offerings of reasonable large quentities of butter from so. It is true in a social, legislative bly large quantities of butter from Holland at extremely low prices. Durholland at extremely low prices. Durholland at extremely low prices. Durholland purchasing. We have to have bargainpurchasing. We have to have bargainpurchasing. We have to have bargainpurchasing. ing the last days of the week Holland butter was offered as low as 12 cents per pound C. I. F. at New York with a duty of 14 cents added, this is a price of only 26 cents. Naturally with that kind of competition buyers were inclined to hold off, thus forcing our

domestic markets lower. It is to be hoped, however, that the present drop in the market will result in getting us down to somewhere near our summer basis and that the wide fluctuations that have been causing all of our creameries so much trouble will not be in effect.

The egg market has been just the er classes sack to take advantes as to butter and there has been a slight further advance in the quotations throughout the week. On the Chicago Market Extra Firsts opened at 24 1-2 cents, advanced to 25 1-2 cents, closing, however, a little easier at 24 3-4 cents or a total of 1-2 cent gain for the week. Fresh Firsts opened at 24 cents, advanced to 24 want an organization which was es-3-4 cents and closed at 24 41-2 cents. tablished by our own people—by ac-Current Receipts opened at 23 1-4 cents, advanced to 23 3-4 cents, closed at 23 1-2 cents. Dirties opened 22 cents and closed at 22 1-4 cents, and Checks opened at 21 1-2 and closed at

The egg market in New York closed 1-4 cent lower than at the opening. New York Stnadards opened at 26-1-4 cents and closed at 26 cents. Firsts, however, remained unchanged the quotation being 25 1-2 cents both at the oppening and the close. Fancy grades of hennery quality eggs grad-ed for color were steady throughout the week selling from 26 cents to ers, professional men and women,

31 cents per dozen. This writer has just completed a trip among creameries in two states ses of people, and others, so do we having spent a good deal of the time expect these people to feel a brotherthe last month out on the territory. We find the creameries generally complaining about a new wave of unfair and discriminatory competition on the part of certain competitors. Almost and flimsy excuse was sufficient for putting in of high prices in coop-

erative territory. The writer was considerably con-cerned to find there was a disposition on the part of a number of our local creameries to meet this unfair competition on a price basis. My twenty years experience in the cooperative field leads me to make the statement that in my judgment an attempt to meet unfair competition in a straight wine. in a straight price war can result in nothing but disaster for the cooper-

ative creameries.

In a great many localities the coop-

Charley Wadsack as manager. The literary pact of the evening was composed of music, songs, readings and a dialogue, "An Economic Boomerang." After the program the entertaining and serving committee invited us to the basement to a variety of cookies and coffee. drowned out in the general hub-

The committee members were as follows: Mr. and Mrs. Will Hopkins, Mr. and Mrs. Rev. Handley,

Mr. and Mrs. James Henry, Mr. George Irwin and mother. J. C. Rosacker, Cor. Secy. LIBERTY LOCAL

Here's another line from Liberty Local 782, Marshall Co. We had a very interesting meeting, with a full house, on Friday evening, April 19. The meeting was called to order by President Tommer, then the audience sang "America." The minutes of the last meeting were read and approved. There was some explaining of th Junior School Work, followed by the

usual routine of business. We enjoyed a splendid program onsisting of songs, readings, music, recitations, and a negro comedy. Some plans were made for our quarterly er classes seek to take advantage of meeting, which will be held in Water

ville the first Tuesday in June. Pineapple rolls, doughnuts, and coffee were served after the meetdo this is through organization. Furing.

The first Junior meeting was to be held at the Star school house April 30. Here's hoping everyone who can will take advantage of these meet-

The next Local meeting at Star chool house is May 3; at the Liberty school house May 17. All neighboring locals are cordially invited to visour own class. Not that we look with it Liberty Local any time.

Do not forget the next meeting people, for we certainly feel a brotherhood to all the common folks of the a member. Visitors are always wel-

Mrs. J. Tommer, Reporter. SPRING HILL MEETING

The Spring Hill Local in Ottawa county, met Friday, April 26. In the absence of President Allen, ex-President Blades had charge of the meeting. The usual order of business was taken care of. The Local made plans to havve a picnic May 19.

Miss Melzer will conduct a Farmo expect their good will.

The financial support of the Farmers Union must necessarily come
Spring Hill school house, and the following week she will be at the Center school house. Every one is invitvoluntary dues. Total dues amount to \$2.75 per year. Of this amount, 80c remains with the Local organization.

The committee served sand cookies, doughnuts and coffee The committee served sandwiches

cookies, doughnuts and coffee.
Mrs. C. E. Blades, Corr. Sec

PIE SUPPER AND PROGRAM

The pie supper and program put or by Stone Local 792 at the Zurich school house April 29 was attended by a fair sized crowd, but only 12 pies were brought. Those pies brought fair prices as the lowest sold for 25c and the highest brought 70c. The program rendered was as fol-

lows: Singing two songs from the Farmers Union hymnal, by all. Reading: "Better Times Are Com-

ing," by Lorene Sutor.

Song, "Round-up Days Are Over,"
by Dorothy and Bobbie McClellan.

Dialogue: "The New Hired Hand."

Song, by Dorothy and Bobbie Mc-Music by Lawrence and Ludger Bur-

Song by "Two Old Maids." Reading by Winifred Sutor. Dialogue "Dr. Scruge." Music by Mr. and Mrs. Lee McClel-

Talk by George Ondresek. Music by Lawrence and Ludger

program were not present, and that cut it short.
Johanna Balthazor was voted

most popular young lady and Mr. T. W. Palmberg the laziest man. The next closed meeting and the first of the agricultural school was to have met at the C. O. Thomas home April 30, but on account of the dust

storm there was no one present. .

Every Tuesday evening this month will be school at the West Sand Creek school house, and every one who is interested in the betterment of agriculture be sure and attend. It doesn't matter whether you are a Farmers Union member or not. Corresponding Secretary.

ASHLAND LOCAL MEETING

The regular social meeting of Ashland Local 1660 was held at Ashland school house Friday evening, May 3, with Mr. and Mrs. Harry Johnson and Mr. and Mrs. Harry Puett in charge of the program, which con-sisted of the following:

Music by the Hunter's Island Quar-

Reading by little Miss Lake. Dialogue—Eunice Erichsen, Oral Parker, Emmett Williams, Mrs. Cora Parker, Mrs. Marjorie Shibler, and Mrs. Sadie Williams. Solo by Mr. John Frey.

Pantomime by a group of young people from the Strong community.

Duet—Betty Scott and Marjorie

read by Mrs. Dempsy. This was an especially good program and we appreciate the help from our neighbor communities. Mr. Chas. L. K. Dow and Jesse May had charge of the refreshments and served ice cream, pie, sandwiches and coffee at the close of the evening. Leona S. Dobson, Secy.

TRIBUTE TO FRANKLIN BEILING

I am deeply grieved and shocked at the news which reached me last night. Franklin Beiling who represented Geary conty at the Workers Institute died May 2, two weeks ago last night .Frank attended the banquet at Topeka with the rest of us. His death was directly attributed, to inflamation resulting from the dust FROST-PROOF CABBAGE, - each

storms. During our work together the members of our group became well ac-quainted and we found Frank to be a merry, likable boy, loyal to our organization. I had hoped to attend some of his meetings since his home is but a few miles from mine—those meetings which, now, can never be

FEEDING HOGS FOR FUTURE MARKETS PROFITABLE

By W. F. O'Neal With new tops being established regularly on the fat cattle market and the price of hogs still more than double what it was a year ago, alhough the hog market has suffered a setback from the year's high point, a hog feeder with his spring pig crop on hand, is undoubtedly wondering what the future holds for him.

In trying to answer this inquiry we believe there are two factors to be considered. First: The future supply of hogs for market. Second:

Consumer demand, or, the ability of hogs through competitive channels at the consumer to pay a certain price. Hog receipts at all markets at the

present time show a drastic reduction as compared with a year ago and all surveys indicate that receipts will get a survey had and he would be receipted with a year ago and all letters answered. get a square deal and be repaid for continue to show a reduction for some time to come. We can well remember the latter part of last summer when the hog feeders, owing to the his efforts .- The Co-Operator. drouth and crop failure, were forced to market pigs at give-away prices and in a large percentage of cases their entire breeding stock. Due to these same conditions very few of these returned to the country. Pack-ers took numerous droves of pigs and thin stock just to clear the yards. There has been some effort on the part of the producer and feeder to get back into the hog business this spring, but because of the scarcity we do not believe it will be possible. we do not believe it will be possible to bring the hog crop to anywhere near normal for at least another year. This leads us to believe that those fortunate enough to raise and feed hogs for fall and winter marketing will find it a profitable venture.

At the time of this year's high point in the hog market pork products advanced sharply with a consequent slowing up of demand in con-suming channels. Pork moved very slowly and smaller packers who lack adequate storage facilities forced to sharply reduce their killing requirements, a number of them tem-porarily shutting down entirely. This lack of support from the smaller Cederberg.

Demps cause for the recent break in hog Music by Hunter's Island Quartette | prices.. However, it is our opinion This was an especially good pro- that the hog supply will be so very light during the summer months that the market will re-act and show a nice advance.

With outside conditions showing a etter tone which will probably continue, now is the time for the hog eeder to take advantage of the opportunity at hand and demand what is coming to him. Quit shipping direct to the packers as this method of marketing gives them complete con-

Hold To Centralized Competition In Selling Live Stock

If You Do Not the Foundation for Rising Prices is Destroyed!

For more than fifty years live stock producers have been building an efficient, effective and convenient system of marketing through public stock yards. The capstone in the main arch of this structure is open centralized competition, whereby, many buyers place bids and the highest bidder makes the purchase. It is the only fair way to establish values and the only way that rising prices can prevail.

Any system that tends to weaken this competition at the public stock yards not only lowers prices on stock actually offered for sale, but reduces values of live stock on farms, because farm prices are based on public market prices.

Every live stock producer should strengthen that system of marketing which was created for his service and for the purpose of producing maximum prices,—as well as for the convenience of the buying side.

No Advance in Live Stock Prices Ever **Originated Outside the Public** Stock Yards Market
