F.F.A. PILGRIMAGE TO MONTICELLO

June 12,13,14, 1933

An event of National importance will take place June 12-14, 1933, when the National Organization of Future Farmers of America cooperating with State Associations of F.F.A. will dedicate a room in the Thomas Jefferson home at Monticello. The following letter from Vernon Howell, National President of the Future Farmers of America will be of interest to all F.F.A. members:

"Guymon, Oklahoma
March 24, 1933

Mr. Waldo Cox
State President, F.F.A.
Mound City, Kansas

Dear Waldo:

At the Fifth National Convention of F.F.A. held in Kansas City last November, the delegates present from 38 states voted to accept the offer of the Thomas Jefferson Memorial Foundation to dedicate a room in Monticello, Jefferson's home, to the ideals of the Future Farmers of America.

It was left to the National Board of Trustees to determine just when and how this dedication was to be made. After months of study, the Board of Trustees have come to the conclusion that the most appropriate manner for discharging this responsibility will be by means of an "F.F.A. Pilgrimage" to the National Capitol and Monticello, thus providing an opportunity for every member of the F.F.A. to pay tribute to one of the "Patron Saints" of our organization.

June 12, 13, and 14 have therefore been set aside as the time for this pilgrimage and dedication. Briefly, the plan is to have every State send at least one representative who will carry with him credentials from the State organization, a commission from the Governor, and also some high quality field or orchard product representative of the State. States along the Atlantic seaboard are expected to make an effort to have as large a delegation in Washington by June 12 as possible.

Boys, here is a chance to see your National Capitol; see, hear, and meet the President of the United States; and visit the homes of three great men: George Washington, Thomas Jefferson, and James Monroe, all of whom were farmers. A wonderful opportunity! Here you will learn more of the spirit upon which the F.F.A. was organized, participate in the dedicatory exercises, develop friendships with other Future Farmers and at the same time have a wonderful educational trip in the most historic spot of the Nation. A real treat from the day you leave home until you return!

I realize that the financial conditions are not the best now, but I'm writing you far in advance of the date of the pilgrimage. Please get this information to your chapters immediately so they can make their plans to attend. Never before, and perhaps never again, in history will such an opportunity be presented to the farm boys in America. Detailed information regarding program, railroad rates etc., will be sent out later.

Yours very truly,

VERNON HOWELL
National President
Future Farmers of America".
