OCTOBER IN KANSAS

The air is invigorant; fragrant from the harvest, spiced with wood smoke, tracing from the first frosts, scintillant with the glorious sunshine that fills the shortening autumn days with splendor and makes thin and luminous the attending shadows. "Bob White" shrills of "more wet, more wet," his Quakerish little wife, with half grown brood, timely speeds across the roadway into the ripening corn, or with musical "Whit-r-r" rises, to dive into the distant sea of undulating brown.

Prairie larks trill and carol on the rusty wire, or perched on the infrequent posts that hold the cattle from the ripened field. Hawks fly low; frightened sparrows flutter into trees and hedge row; rabbits scurry from bare pastures to grassy covert, or sit erect and watch with distended eye, quivering nostril and rigid ear, the impending danger.

The murmur of voices, the morning cock crow, the lowing of cattle are as distant music, carried softly to the ear by the voluptuous air.

Corn shocks dot the field - tents of an army that stands nearby in whispering ranks. A multitude of peace and plenty; no arms; no equipment but a haversack of golden grain on hip or shoulder. Save a weary few, they stand expectant, awaiting to deliver their garnered wealth, be mustered out and with empty pockets, light hearts and fluttering banners retrace their steps via the moldering way to the place whence they came, and rest. In rusty velvet fields, big dusty haystacks stand in herds or gather in about the barn, Shouldering one another in ponderous good humor.

From the inspiration of the caressing air, the peaceful plenteous view, satisfied achievement of a summer's work, of goodly store from nature's plenty, we look with brightened eye, bounding blood and defiant head, to the north, undaunted by the icy breath that tells of coming snow.

--By W. E. Blackburn, late editor of the Herington Sun.

ORGANIZING NEW F.F.A. CHAPTERS

Acquaint your students with the F.F.A. through the Manual, Newsletter, and information furnished by the instructor. Elect a group of temporary officers from your upper class group. Write the executive secretary for a program of their activities. Return petition blank, program of work, together with 20 cents dues for each member. The Executive Committee will waive the constitutional requirement, stating that all officers shall be chosen from ranks higher than the Green Hand degree. When this is done and your chapter meets the requirements stipulated, it will be chartered and a charter will be mailed you.

CASE WITH ORDERS

Due to the fact that charge accounts would more than double the book work, the Kansas Association of F.F.A. does not carry charge accounts. For this reason we must insist that cash accompany all orders sent this office. All F.F.A. materials handled through this office are handled without any profit whatsoever, so we cannot send out F.F.A. supplies and "send the bill later", as this requires too much time and expense.

In sending money for supplies we ask that you DO NOT SEND STAMPS.

The price of all F.F.A. supplies handled through this office is listed in the September 15, 1940, issue of the Kansas Future Farmer. Check these prices before sending for supplies.

Chapter activity programs are due November 1. Don't forget that only chapters submitting activity programs by November 1 will be eligible for achievement ranking at the time of the annual meeting.

Chapters failing to submit programs of work by November 1 will not be eligible for State Farmer or American Farmer candidates for that year; will not be permitted to participate in the State F.F.A. public speaking contest.

DELEGATES TO NATIONAL CONVENTION

State president, Raymond Kaup of the Smith Center chapter will be delegate No. 1 to represent the Kansas Association of Future Farmers of America at the National Convention this year. James Cunningham of the El Dorado chapter has been selected from the recommended list of candidates for the American Farmer degree to serve as delegate No. 2. It is a distinct honor to be selected as a delegate to the National Convention and the delegate is faced with heavy responsibilities. Official meetings of the delegates begin Monday morning and run continuously, morning and afternoon until Thursday noon. Committee assignments often make it necessary to work during the evening. We have every confidence in the two delegates selected to serve Kansas and they go to the convention un instructed.

John McCall of the Lebanon chapter and Grant Pool of the Manhattan chapter have been named as alternates.

EXEMPT FROM TAX

It is held that the Future Farmers of America qualifies as an educational organization under provisions of section 1701 of the Internal Revenue Code. Admissions, all of the proceeds of which inure to the benefit of any chapter or any State branch of the Future Farmers of America, are exempt from the tax imposed by section 1700 of the Code.

In accordance with the action taken at the 12th National Convention of F.F.A., a quartet arrangement of "Foil the F.F.A." has been prepared and is now on sale at 25¢ by the French-Bry Printing Company, Candler Building, Baltimore, Maryland. The quartet arrangement can be obtained through the state office.

F.F.A. OFFICER TRAINING SCHOOLS

The F.F.A. Officer Training Schools are being held at the same time this issue of the Newsletter is being prepared, so it will not be possible to present a resume of the district meetings. However, it might be desirable to record a few observations with the hope that objectives might be clarified and techniques improved.

The following points are on the credit side of the ledger:

1. A definite program is outlined with copies available for all officers in attendance.
2. Contest features were carefully planned.
3. Boy participation given proper consideration.
4. Guide sheets for discussion by chapter representatives at the officer sectional meetings.
5. Good song leader available.
6. Adult and boy group leaders designated in advance, and said leaders reporting with a carefully planned program.
7. Luncheon cost held to a low figure.
8. Meeting executed on schedule.
9. Important contributions summarized for entire group.
10. State officer present and actively participating in program.

The following points will have to be listed on the debit side of the Ledger:

1. Program outlines not available.
2. Contest features not carefully planned.
3. Adult leaders reporting for duty without a definite plan of procedure.
4. Boy leaders not instructed as to purpose or plan.
5. Lack of F.F.A. information on the part of both officer group and advisor group.
6. Group singing not given proper attention.
7. Luncheon reservations and cancellations of such nature as to be unfair to host chapter.
8. Meetings started late and closed early, which is evidence of inadequate preparation.
Officers Training Schools (Continued)

9. Behavior approaching rowdism at the banquet, accompanied by lack of interest on the part of officers in all meetings.

10. Quality of performance on the part of those to whom responsibility was delegated not sufficiently high.

High points of the training schools visited to date of "going to press": Group singing at Clay Center, led by Professor Peters; exemplification of the Green Hand degree by the Onaga chapter; and exemplification of the Future Farmer degree by the Havensville chapter; and the Opening Ritual as presented by the Haven chapter.

New features that should be studied and if deemed advisable, included in next year's program were: Reporters' contest, Radio Skit contest, and Askit-Basket contest based on F.F.A. information.

It is generally conceded that if the local chapter is to have a successful year, capable leadership on the part of the officer group must be supplied. The local advisor can not escape his part in shouldering the responsibility developing objectives and techniques that will result in capable leadership. Three things stand out as essential in providing sound chapter leadership. They are: (1) acquaintance with the purpose and history of the F.F.A., (2) high standards and quality performance, and (3) a challenging program of work.

The following list of questions based on the F.F.A. Manual, the May 15, 1940, and the September 15, 1940, issues of the Kansas Future Farmer newsletters, was used in one of the Askit-Basket contests. Try them out on your officers, on the chapter membership, or better still, on your advisor.

1. Who is president of the Kansas Association, and what chapter does he come from?
2. Name the president of the Kansas Association for 1939-40, and his home chapter.

4. How many chartered chapters did we have at the close of the past year in Kansas? How many were active chapters?
5. How many State Farmer degrees were granted in Kansas last year?
6. How many American Farmer degrees were granted to Kansas F.F.A. members in 1939-40?
7. When and where was the Future Farmers of America organized?

9. What are the colors of the F.F.A.?
10. How many Purposes does the F.F.A. Organization have?

21. What chapter represented Kansas in the 1939 National Better Chapter Contest, and what chapter is representing Kansas in this contest for 1940?
22. What was the active membership of the Kansas Association of F.F.A. in 1939-40?
23. What are the eight divisions of the national score card for scoring the Better Chapter contest?
24. Which division of the national score card used in the scoring of the Better Chapter contest carries the most weight? How many points does this division carry?

LAUGHTER

"Whosoever hath lost the joy of laughter is bound by chains of bitterness to the cold rocks of pessimism. No more for him the pleasant paths of human companionship, for none seek him in his self-imposed isolation except those who wish to be stung by his sarcasm or stabbed by his malice. For without laughter is life cruelty itself.....Laughter is the saving emotion of the human race, when genuine, for from its presence the cynic flees, the pessimist retreats, the misanthrope is driven to cover. Under its influence the sun shines in dark places, the birds bring again their choicest songs, the flowers lift their smiling faces, and the world becomes once more a worth-while place in which to live." Charles E. Whelan.

--FFA--

A "Who's Who in the F.F.A." is being proposed by the national F.F.A. office. It is an effort to set up a file on outstanding records of F.F.A. members, regardless of degrees held, accomplishments made in school, or length of time out of school. Information desired would include member's chapter, present age, address, and present occupation, along with a brief account of the steps in their advancement indicating honors, and distinctions gained beyond the local high school.

GOOD ADVICE TO EVERYBODY

"If wisdom's ways you wisely seek,
 Five things observe with care--
 Of whom you speak - to whom you speak,
 And how - and when - and where."

--FFA--

It is said of Henry Ward Beecher that, walking the street one winter's night, a poor ragged newsboy asked him to buy a paper. Mr. Beecher spoke kindly to the lad and bought his remaining newspapers. Then, asking the little fellow if he didn't feel cold, Mr. Beecher received this reply:
"It was cold, sir, until you came along."
