

Kansas State News.

A LITTLE boy in Leavenworth, while scuffling with a playmate last Thursday, fell and broke his left arm.

A GIRL who was carrying a baby out of doors at Subetha, when she fell and the baby's leg was broken, just above the ankle.

KNOWS NORMAN, living on the Saline, has been the recipient of a beautiful medal in honor of services rendered in the Mexican war.

MR. ELLIOTHORP, of Russell, offers the Congregational society of that place two acres of land for church and parsonage purposes.

THE asylum for the insane and disabled at Tahlequah will be opened on the 20th instant. Dr. Ed. Poe Harris has been appointed physician.

TWO tramps begging at Dodge City, unceremoniously disclosed a belt filled with twenty-dollar gold pieces. They left for Denver, overland.

TWO villains on the streets of Independence at night, seized a lady by the shoulders, but her screams brought help, when the rascals escaped.

THE dogs on Big creek, Allen county, have hydrophobia, and the neighborhood is greatly alarmed. Forty of the dogs have so far been killed.

FOURTY-NINE out of eighty-seven pupils of the deaf and dumb asylum at Olathe are just recovering from the measles. There were no fatal cases.

NINETY twenty thousand new farms have been started during the past twelve months, under the provisions of the homestead pre-emption law.

MRS. ELIZABETH JACK, of Olathe, Johnson county, made, from April 10th to Feb. 1st, eight hundred and thirty-one pounds of butter from the milk of three cows.

THE children has visited Waterville. The flouring mill proprietors there lost fifty hogs, and the amount of losses in that place, by the disease, is not short of one thousand dollars.

ZEMAS MEXO has sold his farm near Lawrence, to James M. O'Conor for fifty thousand dollars. This farm has been known as the "Andy Wilson farm," and is one of the best in the West.

A GREAT many of the woodchoppers and farmers are getting excited about hogs. They are getting tired of selling them at eighteen cents per hundred, and think it will pay better to raise hogs.

MR. MATHEWS, of Wisconsin, a prominent breeder of blooded stock, is in the city. He has recently brought into the State two car loads of blooded cattle and hogs, and is in City center for the purpose of introducing his stock.

THE average is much truth in the following from the St. Marys Times: "The average farmer's wife does about one-half more work than she is able to, taking the year round, except during harvest and threshing time, when she does three times as much as at other times."

THE Junction City Union says: "Farmers in from the country report the wheat in first-class condition. There never was a better prospect for a crop, and as the breadth sown is fully one hundred per cent. more than last year, it is reasonable to expect an enormous increase."

ALL of the Otos Indians reserve west of the Blue river, one hundred and twenty-six thousand acres, to be sold. Already settlers, land agents and beats are on hand looking for a profit to be made out of it. Three or four hundred settlers, says the Marysville News, have squatted upon these lands.

JOHN M. CHILDS, general land agent for the Kansas Pacific road, brought in a party of forty-five persons, on the Chicago & Rock Island road yesterday from Will county, Ill. Their destination is Ellsworth, Russell and Saline counties, where they have contracted for lands, on which to begin farming at once. They left on the K. P. at eleven o'clock. So says the Leavenworth Times of Friday.

THE Herald says: "On last Sunday night the family of Mrs. Glaze, six miles below Eureka on Fall river, were aroused by the burning of the house. If proper efforts had been made as soon as the flames were discovered it might have been controlled. But in their fright and confusion they failed to do anything effectively. The house was entirely consumed. Origin of the fire is unknown but looks very strongly toward being the work of an incendiary—its starting point being on the outside."

THE Troy Chief says: "We learn that the farmers on Cedar creek, between White Cloud and Iowa Point, have held a meeting and organized to fight grasshoppers. Their programme is to harrow, plow, ditch, and burn, and anything else to destroy the pests. If the farmers all over the State districts would do the same thing, and carry out the work, they would prevent much destruction of crops, although they might not entirely prevent grasshopper ravages. The grasshoppers are almost ready to open their co-operative store. We understand they have, in connection with the store, a banking department, where men may deposit security, and obtain money to buy goods with, in order to carry them through."

THE Commonwealth says: "Swift justice, or at least the preliminaries to it, followed the thieves, who on Sunday night stole the horses of Messrs. Blodell and Fleming on the north side of the river. The tracks of the horses going north, were the first clue, and four men with little more to guide, followed directly after the thieves. The rascals, two brothers, named Gage, were followed to their father's house in or near Caplan, Nemaha county. A party of the citizens of that region, who had become aroused by the loss of their own neighborhood, aided in surrounding the house. The thieves were loading their guns when taken in in the act. One of them confessed

to having stolen a team and driven it down here from Nemaha county. One of the men was wanted for a robbery in Nemaha county, and was kept there. The other thief and the stolen horses were brought here yesterday and the thief lodged in jail."

According to previous notice, an enthusiastic narrow gauge railroad meeting was held in Leavenworth day before yesterday. Delegates were present from Jefferson, Wabunsee, Morris, Marion, Blue and Barton counties. The design of those interested is, we believe, to build a narrow gauge railroad from Leavenworth (using the present road to Easton) to Oskaloosa, Topeka, through Wabunsee, Marion, Morris and other counties, to Great Bend.

A committee to draft resolutions was appointed consisting of Hon. A. Caldwell, Col. D. R. Anthony, H. T. Green, H. M. Allen and J. L. Weaver, and they are to report at a citizens meeting in Leavenworth to-night. The people of Shawnee county are interested in this road and will take a hand in it when the proper time arrives. Commonwealth of 23d ult.

SAYS the Leavenworth Times of Friday: "A man named Ellis Helm from Russell City arrived here yesterday afternoon and stopped at the Continental. He has experienced the sad realities of the wicked things designing women can accomplish. He states that on the 25th of last month he left his home in Russell and went to attend to some business at a claim near the town and was gone some days, when he returned home he found everything topsy-turvy and a bleak void, in place of the wife he had vowed to remain with him as long as life should last. No cause he says had been given for the procedure and although some little difficulties had sprung up which he thought settled, everything was going on so smoothly as one could wish for. She is described as being a handsome woman of very small stature and one whom would be least taken for a deceptive character. The husband following on her track has traced her to this city where he thinks she is at present. The unusual part of the affair is that she left a young child at home to be cared for by any one who might look after it until the return of the head of the family. Mr. Helm seems to be a quiet, well-disposed man, and the last one who would mistreat a woman."

POETRY BY MISS MARY ANN PULSIFER. DR. C. McLANE'S Celebrated, American WORM SPECIFIC VERMIFUGE.

THE countenance is pale and leaden, or colored with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure, semicircular runs along the lower eyelids; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming, or throbbing of the ears; an unusual secretion of saliva; slimy or hurried tongue; breath very foul, particularly in the morning; appetite variable; sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; floating pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times constive; stools slimy; not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccup; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, DR. C. McLANE'S VERMIFUGE will certainly effect a cure. IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, not capable of doing the slightest injury to the most tender infant.

The genuine DR. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper.

DR. C. McLANE'S LIVER PILLS. These Pills are not recommended as a remedy for "all the ills that flesh is heir to," but in affections of the Liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER. No better cathartic can be used preparatory to, or after taking Quinine. As a simple purgative they are unequalled.

BEWARE OF IMITATIONS. The genuine are never sugar coated. Each box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS. Beware of all respectable druggists and chemists. Beware of cheap imitations.

CENTAUR LINIMENTS.

One kind for the Human Family. The other for Horses and Animals.

These Liniments are simply the wonder of the world. Their effects are little less than marvelous. The White Liniment is for the human family. It will drive Rheumatism, Sciatica and Neuralgia from the systems; cures Lumbago, Chills, Lock-Jaw, Palmy, Itch, and most Cutaneous Eruptions; it extracts frost from frozen hands and feet, and the poison of bites and stings of venomous reptiles; it subdues swellings, and alleviates pain of every kind. When sprains or bruises occur, it is the most potent remedy ever discovered to heal the injured part. The Centaur Liniment is used with great efficacy for Sore Throat, Toothache, Caked Eyeballs, Earache, and Weak Back. The following is but a sample of numerous testimonials:

"INDIAN'S HOME, Pawnee Co., Ind., May 28, 1874. I think it my duty to inform you that I have suffered much with swollen feet and shingles. A few bottles of Centaur Liniment has done the work for me. I have not been free from these swellings in eight years. Now I am perfectly well. The Liniment ought to be applied warm."

BENJAMIN BROWN, of New York, January 1874. Every owner of horses should give the Centaur Liniment a trial. We consider it the best article ever used in our stables.

THE BEST PATRONS of this Liniment are Farriers and Veterinary Surgeons, who are continually using some Liniment. It heals Galls, Wounds and Poll-evil, removes swellings, and is worth millions of dollars annually to Farmers, Liverymen, Stock-growers, Sheep-raisers, and those having horses or cattle.

What a Farrier cannot do for \$20 the Centaur Liniment will do at a trifling cost. These Liniments are sold by all dealers throughout the country. They are warranted by the proprietors, and a bottle will be given to any Farrier of Physician who desires to test their merits.

Laboratory of J. B. Rose & Co., 103 N. 4th St., New York.

THE SPIRIT OF KANSAS.

LAWRENCE, THURSDAY, MARCH 1, 1877.

GOOD STOCK.

Just now the agricultural and stock journals of the country are devoting large space to the discussion of the live stock question. Many able articles have been written on this subject, in which the farmer and breeder is urged to be careful in the selection of animals for breeding purposes.

The citizens of our national capital are making extensive preparations for festive exercises when the new president is inaugurated.

We republish in this week's issue of the Spirit the constitution and by-laws of the Kansas State Co-operative Association.

Very little has been said during the past fortnight concerning our common enemy—the grasshopper.

STATE LECTURE'S APPOINTMENTS. I will be in Franklin county Monday, March 5th, and will remain during the week.

Ex-Gov. Johnson of Virginia is dead. He was ninety-two years old.

FROM STATE MASTERS.

EDITOR SPIRIT:—The plan of co-operation recommended by the National, adopted by the State, and suggested to the county and subordinate granges is briefly as follows, to wit: Cash system of business; sell for a fair marginal profit; pay a fixed rate of interest on share capital; require quarterly settlements and divide profits among purchasers; members to have but one vote each, without regard to the number of shares he may own.

It is proposed to establish co-operative stores—State and National—by members of the order, under the auspices of the National and State granges in all the more important trade centers of the country.

In view of the fact that some delay will necessarily occur, before the above general plan of co-operation can be perfected, and in consideration of the very earnest and reasonable demand of the membership that the business interests of our order receive that immediate and prompt attention which its importance demands, it has been directed by those in charge of our business relations, that the channels of trade heretofore provided through State, county and other local agencies be continued.

A FIRE broke out at about nine o'clock Monday evening, at Fort Scott, in a storage building, on West Hickory street, in which were stored one hundred and eighty barrels of flour belonging to Donald & Bacon.

THE Charleston, S. C., News and Courier has an interview with Gov. Hampton, who says, concerning the proper course for the Democrats in Congress: He thinks it is not advisable to throw obstacles in the way of the decision of the electoral commission.

A DISPATCH from Deadwood, D. T., of the 26th ult., says: "A courier from Miles' camp, forty miles north of this city, to-day reported Lieut. Cummings, with company C, attacked a small Indian camp on the 23d. The Indians fled through the ravines, leaving seven ponies and all their property.

A FEBRUARY 21st dispatch, from Washington to the Cincinnati Enquirer says: "A prominent New York Democrat has just informed your correspondent that Mr. Tilden, though very guarded in his expressions, is averse to the policy of delay, and believes that the appeal of the Democratic party from the tribunal to the country should be taken in another form.

THE full bench of the court. This appeal will involve a construction by the court of the electoral bill, and will raise the question whether the decision to exclude evidence was in proper construction of the bill itself and of the constitution.

litia to engage in the warfare against the savage foe. In response to the governor's appeal the assembly appropriated \$10,000 for the equipment and maintenance of the militia companies, which are now being organized.

THE clog in the electoral wheel at Oregon, was soon removed by the counting of that State for Hayes and Wheeler. Pennsylvania and Rhode Island caused a short delay, but were soon disposed of.

In response to the inquiry as to who appeared as objectors, Representative Hurd announced that Representative Cochran and himself would appear for objectors to certificate number one.

In response to another inquiry as to who would appear as counsel, Mr. Hurd said he was not prepared to state at this time, but would announce the counsel to the commission to-morrow morning.

The commission met again at 10 o'clock on Tuesday, when Hurd stated that no counsel will appear for the objectors to certificate No. 1, the Republican certificate, and then submitted the reasons why the commission should reject that certificate.

When Mr. Hurd had finished Cochran stated that Judge Black and Mr. Blair would appear as counsel for the objectors to certificate No. 1. They were uncertain whether they could attend but were now here.

Cochran then submitted certain profers of proof, which he proposed to make good and admitted by the commission as follows: 1. That there has been a failure of the registration as provided by the State constitution, and through such failure over 30,000 fraudulent votes for Hayes and Wheeler had been cast.

2. That in August, 1876, large numbers of soldiers had been sent into the State under Gen. Ruger, who telegraphed that all was quiet and no more troops were needed, and that if more were needed he would call for them; that notwithstanding this, on the next day, October 17th, the president issued his proclamation, and a large number of additional troops were sent into the State; that during 1876 there was no time when the State authorities could not preserve peace.

3. That troops were sent into the State without the request of the Legislature, which could have readily been convened.

4. That troops were sent to quell the insurrection and preserve peace, but to overawe the voters and influence the election, and that they were present at the polls and did intimidate and influence the voters.

5. That the presence of the troops emboldened the more desperate negroes, and that in Beaufort and Charleston they inaugurated a system of riot and violence, in which they were protected by the State officers; that the police of Charleston, composed mainly of desperate negroes, employed its time in shooting down inoffensive white citizens; that negroes at the polls were armed and prevented colored men who would have voted the Democratic ticket from doing so; that the State militia consisting of the worst class of negroes were at the polls and assisted in preventing colored men from voting the Democratic ticket; that one of the electors who was sheriff of Charleston, C. C. Bowen, appointed hundreds of deputies, who went about arresting citizens at their pleasure unwarranted, and interfering with the election, and that the United States marshals in large numbers were at the polls, interfering with the free vote by the people of the State.

Lawrence began the argument for Hayes objectors, showing that the want of registration did not affect the election. The constitution of the United States gave power to the State Legislature, and the State should put no restraint on this constitutional government and legislation.

On Wednesday, South Carolina was counted for Hayes and Wheeler, and the count proceeded as far as Vermont, where another obstruction was met. There are only four more States to dispose of.

Table with 2 columns: Commodity and Price. Includes Live Stock Markets. St. Louis, Feb. 28, 1877. Cattle, \$ 3.25 @ 5.25; Hogs, 4.50 @ 5.50.

In St. Louis and Chicago, wheat of all grades declined about five cents from last week's quotations. In Kansas City the prices asked were higher than the bids—yet there was a perceptible decline in prices.

The Chicago Tribune censures the "bulls" for keeping up the price of wheat when it was morally certain that the market would have to fall. Many dealers have lost heavily by the late decline.

Corn is dull, and a fraction lower, in most markets. It has fallen in Baltimore to 51¢ per bushel. Oats, rye and barley do not vary much from previous quotations. Sample lots of barley from Kansas are quoted at 70 cents in St. Louis.

The hog market has been dull during the past week, but fluctuated a little. The following is the number of hogs batched and packed in the seven leading points, up to last Saturday, for the past packing season: Chicago, 1,535,723; Cincinnati, 450,000; St. Louis, 405,000; Milwaukee, 225,000; Louisville, 215,000; Indianapolis, 222,000; Kansas City, 118,000.

ALSO HANDLE GRAIN AND ALL KINDS OF PRODUCE.

THE BEST IS THE CHEAPEST.

MONROE ROTARY HARROW!

It being a Self-Cleaner Obviates the Necessity of Lifting to Clean.

It is better than a Stalk Cutter.

THE BEST FARM IMPLEMENT EVER INVENTED

For Pulverizing, Mixing and Leveling the Soil.

It is the only implement that perfectly covers and equalizes grains and seeds in newly plowed sod, among cornstalks or on stubble—

BETTER THAN ANY WHEAT DRILL.

It is, in fact, the only Machine or Implement that thoroughly pulverizes newly broken sod. It will accomplish as much in going over the ground three times as any drag harrow will in twelve times.

By the thorough mixing of soils and fineness of tilth a much larger yield of crops is secured. The cost may be saved by its use in a single season on an ordinary sized farm.

J. B. HICKS & CO., Manufacturers, Kansas City, Missouri.
