The Howling Wolf, by John H. E. Evans

Yes, the Before was better. But the world is not so. Now, we are not to understand that the same amount has been in the various aspects. I mentioned the recent times when all, as it was said, was are not so. Now, we are not to understand that the same amount has been in the various aspects. I mentioned the recent times when all, as it was said, was not so. Now, we are not to understand that the same amount has been in the various aspects.

**THE SPIRIT OF KANSAS**

**BY JAY V. WILSON**

**LAWRENCE, TUESDAY, June 2, 1874.**

City and Vicinity.

Quite a number of our citizens have departed for Chicago and the east, and many are on their way.

Two messengers sent from this office before six, to bee present at the Bee, and the Spirit's representative is on the line with the attending fall. Today's number of the Spirit is sent on its way.

The number of the papers has declined, and the spirit of the Bee and the Spirit is well known and best.

**Bank D. C. W. D.**

A new spirit in the town.

Mrs. W. D. B. TRACY, of Atchison, Kan., made a call yesterday.

**THE JOURNAL COMPANY.**

**LAWRENCE, KS.**

T. W. FORREST, CINCINNATI, O. Superintendent of Engraving in this paper.
In looking over the catalog of a well-known fruit grower of the State, some of the varieties of apples offered by him have been noticed with interest. Some of them are new and others are old, but all are interesting to the orchardist and grower of apples. The following is a list of some of the most curious and interesting varieties of apples offered by Mr. G. M. Hill, of Webster, Mass., who has been engaged in the apple culture for many years and has done much to improve the apple culture of the State.

- Greenfield
- Silver Bald
- Green Gage
- Golden Delicious
- Red Delicious
- Baldwin
- Macoun
- Chief
- Keene's Gold
- and many more.

These varieties are offered because of their excellence in flavor, size, and keeping quality.

The apple industry in Kansas is growing rapidly, and growers are always on the lookout for new and improved varieties. The climate of Kansas is well suited for apple culture, and the state has a large variety of soil types and water resources that can accommodate different apple varieties.

In conclusion, the apple industry in Kansas is a thriving and growing sector of the state's economy, and the variety of apple types offered by growers like Mr. G. M. Hill demonstrates the diversity and potential for further growth in this field.
Farm and stock.

Mr. W. B. Downer, of Illinois, has the following remarkable remarks on the subject:

"The cow is a so-called 'egg-laying' animal. This term is applied to her because she lays an egg in the shape of milk. The egg-laying cow is a crazy, unhealthy, and often a sickly, creature. The cow is a 'stock-laying' animal. The egg-laying cow is not fit for stock-laying. The stock-laying cow is the only kind of cow that is efficient in the stock-laying business."

Sanitary News.

"The diabetes is a disease of the pancreas. The pancreas is a gland situated in the abdomen, just above the stomach. The disease is caused by the failure of the pancreas to secrete the necessary hormones. The symptoms of the disease are weakness, loss of appetite, and weight loss."

The State of Kansas.

"The State of Kansas is situated in the central part of the United States. It is a land of rolling prairies and beautiful lakes. The climate is mild and the soil is fertile. The state is rich in natural resources and is a leader in agriculture and mining."

For Sale.

"For sale, a fine dairy cow, aged six years, milked by a master of the profession. The cow is in perfect health and is very productive. The milk is of the highest quality, with a rich and pleasant flavor. The cow is located in a beautiful pasture, with abundant grass and fresh water."

Jockey.

"Jockey, of Stradbrooke, New York, is a fine thoroughbred racehorse. He is known for his speed and agility, and has won many prestigious races. Jockey is currently training for the upcoming season and is expected to perform well in the upcoming races."

Patrons Scale.

"Patron's Scale is a leading brand of household products. The company is known for its high-quality products and customer service. Patron's Scale offers a wide range of products, including cleaning supplies, gardening tools, and kitchenware."

Seeking.

"Seeking a best friend for a new addition to our family. We are looking for a loyal and affectionate dog to join our household. We are open to any breed, but prefer a medium-sized dog with a friendly personality. We offer a loving home and plenty of playtime."

The Climax.

"The Climax is a fine tobacco brand that has been enjoyed for generations. It is known for its rich flavor and smooth smoke. The Climax is made from high-quality tobacco leaves and is crafted with meticulous care."

Mower & Reaper, Reap & Reap.

"Mower & Reaper, Reap & Reap is a leading manufacturer of agricultural equipment. The company is known for its innovative designs and high-quality products. Mower & Reaper, Reap & Reap offers a wide range of products, including mowers, reapers, and harvesters."

The Story of Liniment.

"The story of Liniment is one of tradition and craftsmanship. Liniment is a product that has been passed down through generations, and is still being produced using the same methods today. The Liniment is made from natural ingredients and is known for its healing properties."

California Grown.

"California Grown is a brand of food products that sources its ingredients from California. The company is known for its commitment to sustainability and quality. California Grown offers a wide range of products, including fruits, vegetables, and grains."
