National Safety Demands Return
Of Prosperity To Farmers

Too Much Speculation and Gambling at Expense of Farmer. Delinquencies in Payment of Wages, Debts, and Interest.农民s Union.

When the United States became a country, farmers were treated with respect and honor. They were given the best possible equipment, and the most modern methods of farming. Today, the farmer is considered a second-class citizen.

The Farmers Union has taken up this cause and is working hard to see that farmers are treated fairly. They are demanding that the government take steps to make the prices of wages, debts, and interest fair to farmers.

NOT POLITICAL BUREAUCRACY

The farm bureau system is a big joke at the polls of today. One wonders how it is that women should assume all the burdens of the state and yet be so well contented with the result. Women are looking to their husbands for their salvation and they believe that if they will vote they will secure a better attitude toward the women.

The first step in this direction will be to give a vote to women. Women should be entitled to vote in the same manner as men and should be allowed to do so in order to be considered equal. Women have the right to vote and should be given the same opportunity as men.
