Dear Sir

I have the honor to acknowledge the receipt of your letter of the 7th inst. in relation to the application for a patent for the improvement in the manufacture of paper which you have made known to me by your letter of the 2nd inst. and the State Department of the Interior has advised me that you may apply to the Commissioner of Patents, Washington, D.C. for a patent on the same.

I have placed the same in your hands and they are now before you for your signature, for many of the reasons mentioned at the beginning of the above page. I have also placed in your hands a copy of the application for a patent on the same which you may wish to sign and return to me.

Very respectfully,

Dear Sirs:

Your  
of the 22<sup>nd</sup> just received today.  
The general design of caption

can perfect the drawing in detail and  
propose it will be all that is  
wanted. Your price of \$100<sup>00</sup> for eight  
copies plus \$20<sup>00</sup> for "plates" is reasonable  
I think, and if accepted you will  
be sure we shall want to see the  
figure complete, beyond change.

I have just received your "book" design

for all necessary at the 1st of June

Belvidere Bldg,  
Dear Sirs:

I wish one of you  
would come up at once and look  
after several matters wanted as ones.

1. The foundations for steps; you  
men are working without knowing what  
is wanted exactly.

2. Digging between joint and removing  
material left for that purpose.

3. Building floor to top of joint in  
several places.

4. Laying piers for porch, which  
will be wanted at once; and removing  
steps and preparing wall for porch.

Your promise to be here Wednesday  
morning is not yet fulfilled.

Dear Student:

You have  
not called for the past two weeks  
without showing reason, and apparently  
you have not cared to see any one at  
all the necessary excuse.

I suppose you may have a good  
reason, perhaps, but you should tell me  
at once so that we can deal fairly  
by you. As it is, unless I hear from  
you before next Monday your name  
on our records will appear with a  
note of suspension, and we shall  
not be willing to take you back into  
College another year.

Dear Doctor:

I can say that you are suffering from sickness in the family and cannot enjoy our Commencement.

The business of the Board at the next meeting will be quite important, as providing somewhat for the work of the summer and for next year, but it need not be tedious, I hope.

We will try to put all the business into Tuesday. The diplomas will not need signatures this time, as the new plate has not come.

I have, however, referred the matter to the proper authorities, and will be glad to advise you of the result as soon as I receive their report. I am, Sir, very respectfully,

Dear Friend:

Will you be kind enough to assist us in the exercises of Commencement week by offering the opening prayer on Tuesday evening, preceding the annual address? By various combinations of accident we have failed to have your aid heretofore.

I fear, upon thought of it, that in the annual distribution of invitations to Commencement your name has been forgotten from taking the proctor's instructions of the ministers of Manhattan. If so, be assured that the oversight is purely clerical and not in the least intentional.

Yours sincerely,  
Geo. P. Fairchild.

Dear Sir,

I send you a list of books selected from your Catalogue, 1883, which we would like to purchase with a fund of \$1000 appropriated by the State for a library, but not available until July next.

I remember that you used to give a discount of 10% to me as Librarian of the Michigan Agricultural College, and ask if you cannot grant the same to this College. We shall spend upon our library not less than \$1000 a year, I trust, and may find good use for your Catalogue.

Wm. D. Wright,

 Dear Sir,

I have  
 learned incidentally, & through an  
 acquaintance of the Board of the Committee  
 that Mrs. William Kedge would accept  
 the position of Superintendent of Sewing  
 and Cooking here, if tendered it. You  
 will recall my mention of her name  
 at the Board meeting and the pleasant  
 impression she had made upon me two  
 or three weeks ago.

What do you think of the matter?  
 She graduated with honors in 1876, has been  
 both a teacher and a farmer since, and  
 withal shows a remarkable amount of  
 and methods very various in one place.  
 I am very little acquainted with her, but  
 her reputation is excellent.

Sewing and Retaining departments of  
the College, is before me.

No one has yet been selected for  
the place, though several persons have  
been spoken of. I shall in good  
season send you some indications you  
may be able to send. The duties of  
the position are somewhat difficult to  
define, as the important part will be largely  
built up by the body in charge. The nec-  
essary qualifications are easier to give. We  
want a well educated woman, able to  
give a course of lectures on Hygiene and  
Housekeeping, and skillful enough to di-  
rect in the art of dress-making and

This morning I attended a conference  
 at the office of the Board of  
 Education. The meeting was held

 members of the Board and

 subject of the meeting was  
 the proposed changes in  
 the curriculum of the  
 high schools. The Board

 members to be appointed  
 by the Board.

Dear Sir

Very much

the pleasure of receiving a letter from you  
has been a great satisfaction to me. I have  
been very busy lately and have not had  
time to write you more fully. I am  
very much interested in your work.

I am sure you will find a great deal of  
interest in the work of the  
committee on the subject of  
the proposed changes in the  
curriculum of the college.

Very truly yours

Dear Sir

Yours of

the 27<sup>th</sup> is before me.

I think your Standard No 8 desk will suit me exactly, if the panels on the back are in keeping with the front and ends.

The desk is to occupy the center of the Jewelry room, so that all sides will be equally noticeable.

The extra seems to me a little too ornate for our surroundings.

Please send by your own way on terms designated \$59.<sup>50</sup> charges paid to Manhattan.

Yours Truly  
 Geo. J. Fairchild

Prof. E. A. Popenoe,

Dear Friend:

Jan 30, 89

I am greatly worried about you. It seems from all reports that you were not at the meeting of State Horticultural Society; as you intended to be, and no one has had a word from you since you left.

It does not seem to me proper to leave so important a department as yours without some definite knowledge of the whereabouts of its head. So far as I can learn, there is none here, nor any means of knowing when you expect to return.

I hope you are not sick, and that I shall hear from you very soon. I wrote last week about accounts and reports of grades.

Yours truly

Geo. D. Parshell.

Dear Sir:

Yours of the 28<sup>th</sup> not received, as also the machine in good order. The bill will be paid promptly, but may be delayed a few days on account of it being at close of our financial year when all bills must be here for auditing.

We cannot now see the way to accept your offer of two No 1 type-writers for \$49.00 each; and as we shall have no classes until September 14<sup>th</sup>, we cannot prove our need of them till after the sixty days are passed.

Yours truly,

 it. The Architects will be here to-

Now I fear it will not bear in-

 bad indeed. Will you be here to look  
 after the matter.

Dear Sir:

Your letter was received on Friday, on my return from the long journey, and though I was sorry to have the meeting put off after consulting with Regent Elliot, & telegraphed all the members, except Regent Redden, to whom I have written the substance of what I sent you. On receiving your telegram yesterday, I did not think it then as then necessary.

It is best to await your meeting & propose to decide upon the time to which the postponement is made?

I have had a fine journey through twelve States and find Kansas in best condition of them all.

Yours sincerely,

to hear from you.

I am well and hope  
these few lines find you  
the same. I have not  
heard from you for some

how you were getting on.

I wrote you from

you to express your

In putting to-

following:

1 doz. seat irons for left seals

3 doz. screws for coupling seats.

6 doz. such screws used in top

Please forward these at once,

Dear Sir:

Yours with enclosure received yesterday has been submitted to our Chemist; who pronounces the pebbles small crystals of quartz worn smooth by washing. They are therefore of no particular value.

This is of course a judgment founded upon experience in outward appearance. To actually prove this chemically would require such a use of the specimen as the owner might object to.

I return the crystals as requested, sorry that the report must be disappointing.

Dear Sir:

I fear that I have seemed to neglect your application of July 23<sup>rd</sup>. This seeming comes from its having been put at once into the pigeon-hole for Board-meeting which was to have been on the 31<sup>st</sup>. That meeting failed, and hence oversight of your letter.

I will lay your application before the Board with others at our meeting this week. The committee have, however, already expressed preference for a young man whose special work here shall grow out of our particular needs.

Dear Sir:

Your application for a position as instructor in this College is at hand. It will be filed with others for future consideration, and will be laid before our Board at its next meeting. There is not likely, however, to be any vacancy for you this year, as a young man has already been selected for instruction in English and History, who will be recommended by the Committee at this meeting.

Your recommendations are good, but your own good work will have to make your way. This advice goes,

Yours truly,

If you are able to take up Algebra as a subject, we can provide for you a good course of study, Algebra, Chemistry, and General History. If not, we can hardly do well by you the first two terms, unless you wish drawing for one study.

The irons sent to replace missing ones are not what we need. I see by reference to my letter of the 1st inst. that my description might be imperfect.
