ACADEMIC AND FINANCIAL CALENDAR

NOTE.—A late enrollment fee of \$2.50 shall be assessed and collected from each person enrolling after the regularly scheduled enrollment period. A larger late enrollment fee of \$5 shall be assessed and collected from each person enrolling, re-enrolling, or paying his fees after the first week of a school term. However, only one or the other of these fees shall be collected for each late enrollment or re-enrollment. Late enrollment fees shall not be subject to refund and payment thereof shall be considered a part of the enrollment process.

FIRST SEMESTER, 1951-1952

<i>Date, Time, Days</i>	<i>Academic Calendar</i>	<i>Financial Calendar</i>

FIRST SEMESTER, 1951-'52

SCHEDULE FOR SENIORS AND TERMINAL JUNIORS *

FRIDAY, SEPTEMBER 7, 1951

<i>Hours</i>	<i>Initial Letters</i>
8:45 to 9:30 a. m.	K, M, X, Z
9:30 to 10:15 a. m.	H, R, T
10:15 to 11:00 a. m.	B, L
12:00 to 12:45 p. m.	I, J, N, V, W, Y
12:45 to 1:30 p. m.	A, E, F, G, Q
1:30 to 2:15 p. m.	D, O, P, Sa-Se, U
2:15 to 3:00 p. m.	C, Sh-Sz

SCHEDULE FOR JUNIORS, SOPHOMORES, SECOND SEMESTER FRESHMEN,†
AND GRADUATE STUDENTS

SATURDAY, SEPTEMBER 8, 1951

<i>Hours</i>	<i>Initial Letters</i>
8:00 to 8:45 a. m.	I, K, V, Y, Mc
8:45 to 9:30 a. m.	Ma-Mz, X, Z
9:30 to 10:15 a. m.	H
10:15 to 11:00 a. m.	R, L

MONDAY, SEPTEMBER 10, 1951

8:00 to 8:45 a. m.	Ba-Bre
8:45 to 9:30 a. m.	Brf-Bz, J, N
9:30 to 10:15 a. m.	E, W
10:15 to 11:00 a. m.	A, C
12:00 to 12:45 p. m.	F, G, Q
12:45 to 1:30 p. m.	P, T
1:30 to 2:15 p. m.	Sa-Ss, U
2:15 to 3:00 p. m.	D, O, St-Sz

SCHEDULE FOR FRESHMEN ENTERING COLLEGE FOR THE FIRST TIME

TUESDAY, SEPTEMBER 11, 1951

<i>Hours</i>	<i>Initial Letters</i>
8:00 to 8:45 a. m.	K, M, X, Z
8:45 to 9:30 a. m.	H, R, T
9:30 to 10:15 a. m.	B, L
10:15 to 11:00 a. m.	I, J, N, V, W, Y
12:00 to 12:45 p. m.	A, E, F, G, Q
12:45 to 1:30 p. m.	D, O, P, Sa-Se, U
1:30 to 2:15 p. m.	C, Sh-Sz
2:15 to 3:00 p. m.	All those (including upperclassmen) who failed to report during the period provided for their group.

SCHEDULE FOR SCHOOL OF VETERINARY MEDICINE

(Veterinary Hall—Room 114)

MONDAY, SEPTEMBER 10, 1951

<i>Hours</i>	
8:00 to 11:00 a. m.	First Year Students
1:00 to 3:00 p. m.	Second Year Students

* Juniors leaving K. S. C. at end of year to enter professional schools; must have dean's permit to enroll on this day.

† Freshmen who have credit for a minimum of one summer session.

TUESDAY, SEPTEMBER 11, 1951

8:00 to 11:00 a. m.	Third Year Students
1:00 to 2:15 p. m.	Fourth Year Students
2:15 to 3:00 p. m.	Special Students and those who did not report with their class.

SECOND SEMESTER, 1951-'52

SCHEDULE FOR SENIORS AND TERMINAL JUNIORS *

MONDAY, JANUARY 28, 1952

<i>Hours</i>	<i>Initial Letters</i>
8:00 to 8:45 a. m.	C, F, G, Q
8:45 to 9:30 a. m.	A, E, O, P, T
9:30 to 10:15 a. m.	D, S
10:15 to 11:00 a. m.	I, K, M, U
12:00 to 12:45 p. m.	H, R, V, Y
12:45 to 1:30 p. m.	B, L
1:30 to 2:15 p. m.	J, N, W, X, Z

SCHEDULE FOR JUNIORS, SOPHOMORES, FRESHMEN, AND GRADUATE STUDENTS

MONDAY, JANUARY 28, 1952

<i>Hours</i>	<i>Initial Letters</i>
2:15 to 3:00 p. m.	C

TUESDAY, JANUARY 29, 1952

8:00 to 8:45 a. m.	E, G
8:45 to 9:30 a. m.	A, F, Q
9:30 to 10:15 a. m.	P, X, Z
10:15 to 11:00 a. m.	D, T
12:00 to 12:45 p. m.	O, Sa-Si
12:45 to 1:30 p. m.	Sj-Sz, U
1:30 to 2:15 p. m.	I, K, V, Y
2:15 to 3:00 p. m.	M

WEDNESDAY, JANUARY 30, 1952

8:00 to 8:45 a. m.	R
8:45 to 9:30 a. m.	H
9:30 to 10:15 a. m.	Ba-Bo
10:15 to 11:00 a. m.	Br-Bz, L
12:00 to 12:45 p. m.	W
12:45 to 1:30 p. m.	J, N
1:30 to 3:00 p. m.	All those who failed to report during the period provided.

SCHEDULE FOR SCHOOL OF VETERINARY MEDICINE

(Veterinary Hall—Room 114)

TUESDAY, JANUARY 29, 1952

<i>Hours</i>	
8:00 to 11:00 a. m.	First Year Students
1:00 to 3:00 p. m.	Second Year Students

WEDNESDAY, JANUARY 30, 1952

8:00 to 11:00 a. m.	Third Year Students
1:00 to 2:15 p. m.	Fourth Year Students
2:15 to 3:00 p. m.	Special Students and those who did not report with their class.

* Juniors leaving K. S. C. at end of year to enter professional schools; must have dean's permit to enroll on this day.

Administrative Officers of the College

President	JAMES A. MCCAIN
President Emeritus	F. D. FARRELL
Dean of the School of Agriculture and Director of the Agricultural Experiment Station	R. I. THROCKMORTON
Dean of the School of Engineering and Architecture and Director of the Engineering Experiment Station	M. A. DURLAND
Dean of the School of Arts and Sciences	R. W. BABCOCK
Dean of the School of Home Economics and Director of the Bureau of Research in Home Economics	MARGARET M. JUSTIN
Dean of the School of Veterinary Medicine	E. E. LEASURE
Dean and Director of the Division of College Ex- tension	L. C. WILLIAMS
Dean of the Graduate School	HAROLD HOWE
Dean of Administration and Director of Summer School	A. L. PUGSLEY
Dean of Students	WILLIAM G. CRAIG
Comptroller	A. R. JONES
Director of Admissions and Registrar	ERIC T. TEBOW
Dean of Women	HELEN MOORE
College Historian	C. M. CORRELL
Assistant to the President	C. O. PRICE
Director of Institute of Citizenship	CARL TJERANDSEN
Director of Public Service	MAX W. MILBOURN
Librarian	WILLIAM BAEHR
Superintendent of Maintenance	R. F. GINGRICH

The College

As a land-grant College, Kansas State provides opportunity to fuse, in a single educational program, processes which have often been wholly separate—those of technical instruction and general education. The former is necessary for vocational and professional efficiency in an age of specialization; the latter is essential to significant living and effective citizenship. Continued separation of technical training from living and citizenship responsibilities could only lead to vast social catastrophe in our time. To get the two together in actual fusion, achieving an integrity of mind and body in the individual student, is the over-all purpose of the College, making the campus a vital place, the classroom a stimulating environment, and learning an exciting experience.

The College offers technical instruction in agriculture, engineering and architecture, home economics, veterinary medicine, and the physical and biologic sciences. There is instruction in music, graphic arts, physical education, social and humane studies, business administration, and journalism as related to such fields as agriculture, home economics, engineering, and industry. The College prepares high school teachers in these fields and also laboratory technicians and specialists in institutional management.

The College also offers courses and activities designed to widen the general information, increase the living wisdom, and strengthen the moral character of students. To fit students for their social and political responsibilities and for exercise of judgment in their individual lives is a major objective of the institution as a whole. It is the hope of the College that its graduates will go forth with an understanding of democracy and an enthusiasm for it.

Instruction is combined with research. In the agricultural and engineering experiment stations, in the Bureau of Research in Home Economics, and in the laboratories of the various scientific departments, there is constant investigation of problems of importance to the people of Kansas. Such research is largely conducted by the staff, but there is opportunity for capable students to participate.

Through the Division of College Extension, adult education is carried throughout the state. Although the work is largely in agriculture and home economics, there is opportunity for all the people in the state to profit in many ways. The Department of Home Study offers numerous correspondence courses and classes in extension centers which cover various fields. This phase of college usefulness will presumably grow as needed.

Admission

All correspondence about admission should be addressed to the Director of Admissions.

High School Graduates

A graduate of any Kansas high school or academy accredited by the State Board of Education is eligible to enter the freshman class. A graduate of an accredited high school or academy in another state is eligible to enter if his principal recommends him as capable of college work.

The Director of Admissions will send every applicant an information blank which should be filled in and returned as soon as possible. On it the student must specify the curriculum in which he plans to enroll.

When the Director of Admissions gets the student's information blank properly filled in, he will ask the applicant's high school principal to send a transcript of record. If this transcript is satisfactory, the director will send the student a permit to register. Students who present such permits will not have to meet with the committee before registration.

Students without permits to register must meet with the Committee on Admissions before registering. Those without satisfactory transcripts of record may be enrolled provisionally at the option of the committee.

The committee cannot act on transcripts received later than two weeks before the date of registration.

Entrance examinations will be given to students who are deficient in high school units. See the dates on the College Calendar (page 4). Applications for such examinations must be made in advance to the Director of Admissions.

As enrollment in the curriculums in Milling and Veterinary Medicine is limited, students who wish to be admitted to those curriculums should read the statements entitled "Milling Enrollment Limited" and "Veterinary Enrollment Limited," under the schools of Agriculture and Veterinary Medicine.

There are certain fixed requirements for all curriculums. Although a high school graduate may enroll in the College if he lacks some of these, he must make up entrance deficiencies.

For the following curriculums the fixed admission requirements are 3 units* of English, 1 unit of algebra, 1 unit of plane geometry, and 1 unit of biological or physical science, with the exception of all curriculums in Home Economics. In those curriculums, 1 unit of general mathematics, or 1 unit of applied mathematics will be accepted in lieu of plane geometry.

- Agriculture
- Agriculture (2 years)
- Agricultural Administration
- Agricultural Education
- Agricultural Journalism
- Arts and Sciences
- Biological Science
- Business Administration
- Citizenship Education
- Dairy Manufacturing
- Dietetics and Institutional Management
- Floriculture and Ornamental Horticulture
- Home Economics (all curriculums)
- Landscape Design
- Music, Applied
- Music Education
- Physical Education for Men
- Physical Education for Women
- Preveterinary
- Soil Conservation
- Technical Journalism

For the following curriculums, $\frac{1}{2}$ unit of algebra is required in addition to the fixed requirements listed for the group of curriculums named above.

- Milling Administration
- Milling Chemistry

For the following curriculums, $\frac{1}{2}$ unit of algebra and $\frac{1}{2}$ unit of solid geometry are required in addition to the fixed requirements listed for the group of curriculums named first above.

- Agricultural Engineering
- Architectural Engineering
- Architecture
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Geology, Applied
- Industrial Arts
- Industrial Chemistry
- Industrial Physics
- Mechanical Engineering
- Milling Technology
- Physical Science

* A unit represents five recitation periods a week for a full school year.

A student who enters without one unit of algebra or one unit of plane geometry is not permitted to register for any engineering curriculum. He may transfer to any engineering curriculum as soon as the fixed requirements in mathematics are completed.

A student who enters without one unit of algebra or one unit of plane geometry will be enrolled as a special student if he wishes to enter the curriculums in Applied Geology, Industrial Chemistry, Industrial Physics, Landscape Design, Milling Technology, or Physical Science. As soon as the fixed requirements in mathematics are completed, he will be transferred to regular status without loss of credit.

A student who lacks one unit of algebra must complete this requirement during his first semester in College through courses offered by the Division of College Extension in resident centers on the campus.

The student who lacks one unit of plane geometry should complete this requirement in the geometry class or by correspondence during his first semester of attendance; he must have completed it or be enrolled in it at the beginning of his third semester of residence.

For information about making up deficiencies in algebra and geometry, the student should consult the Department of Home Study. See page 296. No student lacking required units in algebra and plane geometry will be advanced in classification.

A student lacking a half unit of advanced high school algebra, if he enrolls in a curriculum for which it is prerequisite, will in general be enrolled in a non-credit course in Intermediate Algebra to make up his deficiency before enrolling in college algebra.

A student lacking solid geometry will, if he enrolls in a curriculum for which it is required, be assigned to a two-hour course in solid geometry. For these hours he may be given elective credit toward graduation, except in curriculums in the School of Engineering and Architecture.

A student lacking one-half or one required unit of biological or physical science will be held for two or four hours of college science in addition to the science required in his curriculum. For these hours he may be given elective credit toward graduation, except in curriculums in the School of Engineering and Architecture.

A matriculated student, who has high school units in excess of the fifteen units required for admission, may apply for an examination in certain subjects of freshman rank on the basis of his surplus units. The application should be made to the Registrar, who will check surplus units and authorize an examination within the first thirty days of the semester or summer session. Examinations which affect the assignment of a semester or summer session, however, will be given on the first Saturday of that semester or summer session. After the expiration of the thirty-day period, the student's dean may authorize an examination. The fee is \$2 a semester hour for residents of Kansas, \$6 a semester hour for nonresidents.

High School Nongraduates

A student who is not a graduate of an accredited high school or academy may enter the freshman class if he has completed fifteen acceptable units of high school work, including the fixed requirements. One who offers fourteen such units will be admitted, but will be conditioned in one unit. The deficiency must be made up during the first year of attendance. In addition to three units of English and one unit each of algebra, plane geometry, and biological or physical science, he must offer nine units in the subjects listed below. There are eight groups of acceptable subjects shown in the following table with the number of units of each that will be accepted.

<i>Group</i>	<i>Subject</i>	<i>Number of Units Acceptable</i>
I. English	English	3 or 4
	Journalism	$\frac{1}{2}$ or 1
	Speech	$\frac{1}{2}$ or 1
II. Mathematics	General or Applied Mathematics	$\frac{1}{2}$ or 1
	Elementary Algebra	1
	Advanced Algebra	$\frac{1}{2}$ or 1
	Plane Geometry	1
	Solid Geometry	$\frac{1}{2}$
Plane Trigonometry	$\frac{1}{2}$	
III. Languages	Foreign Languages	1 to 4
IV. Science	General Science	$\frac{1}{2}$ or 1
	Biology	$\frac{1}{2}$ or 1
	Botany	$\frac{1}{2}$ or 1
	Physical Geography	$\frac{1}{2}$ or 1
	Physiology	$\frac{1}{2}$ or 1
	Chemistry	1
	Physics	1
	Zoology	$\frac{1}{2}$ or 1
V. History and Social Studies...	Modern or European History	1
	World History	1
	American History	1
	Geography	$\frac{1}{2}$
	Civics	$\frac{1}{2}$ or 1
	Government	$\frac{1}{2}$ or 1
	Constitution	$\frac{1}{2}$
	International Relations	$\frac{1}{2}$
	Vocations	$\frac{1}{2}$ or 1
	Sociology	$\frac{1}{2}$
	Economics	$\frac{1}{2}$ or 1
VI. Commercial Subjects.....	Typewriting	$\frac{1}{2}$ or 1
	Shorthand	$\frac{1}{2}$ or 1
	Bookkeeping	$\frac{1}{2}$ or 1
	Commercial Law	$\frac{1}{2}$
	Salesmanship	$\frac{1}{2}$
VII. Industrial Subjects	Agriculture	$\frac{1}{2}$ to 4
	Home Economics	$\frac{1}{2}$ to 4
	Drawing	$\frac{1}{2}$ to 1
	Aeronautics	$\frac{1}{2}$ or 1
	Forging	$\frac{1}{2}$ or 1
	Woodwork	$\frac{1}{2}$, 1, or 2
Printing	$\frac{1}{2}$, 1, or 2	
VIII. Normal Training Subjects....	Methods and Management	$\frac{1}{2}$
	Psychology	$\frac{1}{2}$
	Reviews	1
	Grammar, Geography, and Reading, 12 weeks each, <i>or</i> Two of these, 18 weeks each	
	Music	1
Art	1	

In courses consisting of laboratory work, wholly or in part, two periods of laboratory work are considered the equivalent of one recitation period.

Students from high schools not in Kansas must be recommended by their principals as capable of doing college work.

Students with Advanced Credit

Students presenting transcripts of record of work done in other accredited institutions of collegiate level are allowed hour-for-hour credit on courses in this College insofar as the credits can be accepted in the student's curriculum. A student who cannot furnish an acceptable transcript of record of work for which he has advanced credit, may be examined in subjects that he has studied under competent instructors.

On the information blank furnished by the Committee on Admissions a student with advanced credit must not only state the curriculum he plans to follow, but also list all other institutions in which he has been enrolled. He must ask these institutions to send a transcript of his record to the Director

of Admissions. If fees are charged for such transcripts, the applicant must make necessary arrangements with his former institutions.

When the transcripts have been evaluated, the committee will send the student a copy of the evaluation. Students without an approved evaluation of credits must meet with the committee before registering. If their records are not completely satisfactory, they may be enrolled provisionally at the option of the committee.

The committee cannot act on transcripts received later than two weeks before the date of registration.

NOTE: Transcripts of record must come to the Director of Admissions directly from the institutions issuing them. Others will not be accepted.

In general, no student will be admitted to the College unless he is eligible to return to the institution last attended.

Special Students

A special student is one not regularly enrolled to work for a degree. He may, however, on completing entrance requirements and with the consent of his dean, become a regular student.

A student who satisfies entrance requirements may be admitted as a special student for such work as is approved by the dean of the school in which he enrolls.

A student who satisfies requirements for entrance to the College, but lacks fixed requirements for admission to certain curriculums (see page 16) may, with the approval of the dean, be admitted as a special student to the school in which he wishes to enroll. When the fixed requirements have been completed, he may, with the consent of the dean, become a regular student without loss of credit.

Because experience and maturity often compensate for lack of scholastic attainment, the College admits as special students men and women over twenty-one years of age who cannot meet the regular entrance requirements. The age limit does not apply to special students in music.

Special students must give evidence of satisfactory preparation for the courses they wish to take, and most special students must present transcripts of record of their preliminary education. In some cases a special student may present a statement from another college in lieu of a transcript of record. This statement must certify that the student is in good standing, list the courses that the student wishes to take, and declare that the student has completed the prerequisites.

Special students are subject to regulations for regular students, payment of all fees, regular attendance at classes, maintenance of satisfactory standing, and as a rule assignment to physical education and military training.

The College will give special consideration to students who apply for admission as special students on the basis of experience gained in service in the Armed Forces. (See "Veterans of the Armed Forces," p. 22.)

Late Admission

A student is not admitted to the College later than ten days after the opening of a semester, except by special permission of his dean. A fee of \$2.50 is charged anyone enrolling late, but completing enrollment the first week. Any one enrolling after the first week must pay a late enrollment fee of \$5. (See the College Calendar.)

Aptitude Tests

Before he is permitted to enroll, every applicant for admission to the College must take aptitude tests designed to discover in what way he may most satisfactorily direct his efforts. They show in what fields he may best proceed and in what types of work his abilities and interests are strongest.

These tests are given for freshmen enrolling in Kansas State College for the first time during the Freshman Orientation period, and to other new students at a stated time before they register. Equivalent tests taken elsewhere cannot be substituted for the tests required in this College.

Mathematics Proficiency Tests

In all curriculums in which college algebra is required, students will take a proficiency test in algebra within the first two weeks of their enrollment in any course in algebra. The results of this test will be used to determine whether a student shall be required to take the course in intermediate algebra to qualify for college algebra.

In all other curriculums containing a required course in mathematics, students will take a proficiency test in mathematics. This test will be given during the orientation period before each semester and will be used to determine whether a student should take remedial work in mathematics.

All new freshmen in the School of Home Economics will be required, at the time of entrance, to take a proficiency test in mathematics. Those enrolled in the Curriculum in General Home Economics or the Curriculum in Dietetics and Institutional Management who fail the test will be required to take the three-hour course, Mathematics in Human Affairs, in their freshman year. Advanced credit in college mathematics exempts students in the School of Home Economics from the course, Mathematics in Human Affairs.

English Requirement

Each freshman entering the College for the first time will be required to take an English placement test consisting of a theme and a written examination on the mechanics of writing. Students who meet a standard set by the Department of English in the placement examination may elect to take Written Communications II and to substitute another English course for Written Communications I. They are also automatically eligible to take a special examination which, if passed satisfactorily, will permit them to receive credit in Written Communication I. Students having low scores in the placement test will be required to take Written Communications IA.

The special examination for credit in Written Communications I will be given the fourth Saturday of each semester and the second Saturday of the Summer Session. The examination will cover the content of the course as it is offered at Kansas State College. Permission to take the examination must be secured from the student's dean and the head of the Department of English. The charge for the examination is \$6 for residents of Kansas and \$18 for nonresidents.

The examination must be taken the first semester that the student is enrolled in the College.

Physical Examinations

Before he is permitted to enroll in the College, every new student must take a comprehensive physical examination given at a specified time by the Department of Student Health. New freshmen will take this examination during the induction period.

Junior Colleges

There is excellent co-operation between the junior colleges of Kansas and Kansas State College. A student who plans to begin his work in a junior college and complete it in Kansas State College may arrange his program so as to proceed without loss of time. Different curriculums require different subjects, but the College will give all possible credit for work done in junior colleges. Hour-for-hour credit is given where junior college work can be accepted to satisfy curricular requirements.

The College will gladly furnish to junior college students a list of recommendations for any curriculum, so that a student may begin his work in junior college with an assignment acceptable to this institution, and later transfer without loss of credit. A junior college student who has followed the advice of the College can usually complete his work for the bachelor's degree from Kansas State in two years.

The curriculums printed in this catalogue give full information as to courses required in each, but the College will be glad to hear from students as to specific problems.

The following Kansas junior colleges are accredited by the State Board of Education.

PUBLIC

Arkansas City Junior College, Arkansas City
Chanute Junior College, Chanute
Coffeyville College of Arts, Sciences, and Vocations, Coffeyville
Dodge City Junior College, Dodge City
El Dorado Junior College, El Dorado
Fort Scott Junior College, Fort Scott
Garden City Junior College, Garden City
Highland Junior College, Highland
Hutchinson Junior College, Hutchinson
Independence Junior College, Independence
Iola Junior College, Iola
Kansas City Junior College, Kansas City
Parsons Junior College, Parsons
Pratt Junior College, Pratt

PRIVATE

Central Academy and College, McPherson
Ursuline College of Paola, Paola
Hesston College, Hesston
Sacred Heart, Wichita
Saint John's College, Winfield
Tabor Academy and College, Hillsboro

Veterans of the Armed Forces

All men and women honorably discharged from the armed forces of the United States will be considered for admission to Kansas State College.

The College will consider the individual needs of each student whose education was interrupted by a call into the armed forces. Those who lack high school graduation or a full list of high school prerequisites will be given an opportunity to make up what they lack with General Educational Development Tests, entrance examinations, or other means. For certain technical curriculums, high school prerequisites, especially in mathematics, must be made up.

Correspondence courses taken from accredited institutions through the United States Armed Forces Institute will be accepted from veterans, subject to the regular rules covering the acceptance of advanced credit by correspondence.

Correspondence courses and others given by the United States Armed Forces Institute, in-service courses, and other courses taken by men and women while in service in the armed forces, may be accepted for entrance credit or advanced credit if validated by examinations given by the College, or in some other manner satisfactory to the student's dean. No credit is given for General Educational Development Tests, College Level.

Work done in the Army Specialized Training Program, the Navy V-12 Program, or the Army Air Forces Pre-Meteorology or Meteorology courses will in general be accepted as of collegiate grade, and used for advanced credit insofar as it applies on the student's curriculum. Work done in the Army Air Forces College Training Program and the Navy V-5 Program must usually be validated by examination.

In general the College follows the recommendations given in "A Guide to the Evaluation of Educational Experiences in the Armed Services," published by the American Council on Education.

To receive benefits under PL346 or PL16, a veteran must initiate his education or training before July 26, 1951, or before the end of 4 years after his discharge from the services, if he served past July 25, 1947. His education and training must be completed before July 26, 1956, unless he enlisted between October 6, 1945, and October 5, 1946, in which event he has 9 years from date of termination of enlistment or re-enlistment.

Services for Veterans

College-wide agencies giving special services for veterans are grouped in Anderson Hall. The Veterans Service Office and the Bureau of Counseling are operated by Kansas State College. Each veteran attending Kansas State College under the Federal educational benefits program must supply evidence of his eligibility to the College Veterans Service Office. Application for benefits under Public Law 346 may be filled out in that office. Application for vocational counseling for veterans should be made at the Federal Guidance Center.

The Office of Admissions, Housing Bureau, Business Office, and other College-wide service offices are also located in Anderson Hall. Correspondence concerning veterans' educational benefits should be addressed to the Co-ordinator of Veterans Affairs.

State Vocational Rehabilitation Training

The College co-operates with the State Board for Vocational Education in providing rehabilitation training for physically handicapped persons who need financial assistance. Correspondence should be addressed to the Vocational Rehabilitation Division of the State Board for Vocational Education, Topeka, Kansas.

General Information

The College, founded on February 16, 1863, was established under the Morrill Act, under which land grant colleges came into being. According to the law of its establishment, the object of the College is—

“Without excluding other scientific and classical studies and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in such manner as the legislatures of the states may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions in life.”

At first the College was located on the grounds of the old Bluemont Central College, chartered in 1858, but in 1875 most of the work of the College was moved to the present site. The campus is at the northwest corner of the city of Manhattan, convenient to both business and residential sections. The campus itself consists of 153 acres carefully landscaped, while beyond the campus there are about 2,800 acres of land belonging to the College, used for experimental work in agriculture.

Most of the College buildings are constructed of native limestone. They are so placed as to give maximum effect to the landscaping of the campus.

Business Directions

General information about the College is obtainable from the President.

Prospective students should communicate with the Director of Admissions.

The experiment stations and the various departments are always ready to respond to requests for information in their special fields. Those who need scientific and practical information should write to the head of the department concerned with the work under consideration.

Requests for publications of the Agricultural Experiment Station or the Engineering Experiment Station should be made to the director of the station.

Fees

Fees Subject to Change. All fees are subject to change at any time by the Board of Regents. The various customary enrollment fees are listed under the recapitulation on page 24.

Payment of Fees. The matriculation fee is paid only at the first registration in the College. The incidental fee, the student health fee, and the student union fee are paid during registration at the beginning of each semester or summer session.

All fees must be paid in full during the period of registration. Checks on out-of-town or local banks are accepted to the amount of the fees.

Refunds will not be made until sufficient time has elapsed to insure that student checks have been honored—usually 10 days after students enroll.

Tuition. There is no tuition fee. Fees are charged for individual lessons in music but not for class instruction. (See Personal Service Fees.)

Matriculation Fee. The matriculation fee is paid only once. All students who enroll for credit (including enrollees in workshops and short courses if for credit) must pay this fee when first enrolling.

Incidental Fee. The incidental fee is designed to assist in defraying costs of laboratory supplies, plant operation and maintenance, non-academic and administrative personnel, library books and personnel, student recreational activities and publications; equipment, and other non-teaching activities not particularized. The incidental fee is not tuition, nor a fee in lieu of tuition, but represents the student's contribution to the costs of non-teaching aspects of the total instructional program.

Student Health Fee. For a description of the Department of Student Health, see page 35.

Student Union Fee. In accordance with a vote of the student body and with section 4 of chapter 364 of the Kansas Session Laws of 1941, each student pays a student union fee. The fund so collected is to be used to provide a student union building.

Recapitulation. To make clear the amount of fees due at the opening of each semester of the College year, the following tabular statement is given:

FOR RESIDENTS OF KANSAS AND STAFF MEMBERS

Paid for each semester (sixteen weeks or more, if enrolled in more than six hours) except matriculation, which is paid only once.

	<i>New students</i>	<i>Old students</i>
Matriculation (paid at first enrollment only)	\$10.00	None
Incidental		
All except Veterinary Medicine Students	62.50	\$62 50
Veterinary Medicine Students	72.50	72 50
Student Health	7.50	7 50
Student Union	5.00	5 00
Totals—All except Veterinary Medicine Students,	\$85.00	\$75 00
Totals—Veterinary Medicine Students	95.00	85 00

FOR NONRESIDENTS OF KANSAS

Paid for each semester (sixteen weeks or more, if enrolled in more than six hours) except matriculation, which is paid only once.

	<i>New students</i>	<i>Old students</i>
Matriculation (paid at first enrollment only)	\$20 00	None
Incidental		
All except Veterinary Medicine Students	132.50	\$132 50
Veterinary Medicine Students	142.50	142 50
Student Health	7.50	7 50
Student Union	5 00	5 00
Totals—All except Veterinary Medicine Students,	\$165 00	\$145 00
Totals—Veterinary Medicine Students	175 00	155 00

Definition of Resident. The residence of students entering Kansas State College is determined by an act of the legislature (L. 1938, Special Session, ch. 70, sec. 1), which reads as follows:

“Persons entering the state educational institutions who if adults have not been, or if minors, whose parents have not been residents of the state of Kansas for six months prior to matriculation in the state educational institutions, are nonresident for the purpose of the payment of matriculation and incidental fees: *Provided further,* That no person shall be deemed to have gained a residence in this state for the aforesaid purpose while or during the elapse of time attending such institution as a student, nor while a student of any seminary of learning, unless, in the case of a minor, his parents shall have become actual residents in good faith of the state of Kansas during such period, or unless, in the case of a minor, he has neither lived with nor been supported by his parents or either of them for three years or more prior to enrollment and during said years has been a resident in good faith of the state of Kansas.”

Pro Rata Fees. Fees for enrollees enrolling originally in six semester hours or less for a regular semester or three semester hours or less for a summer session of more than 6 or less than 13 weeks are as follows:

	<i>Kansas residents and staff members</i>	<i>Nonresidents</i>
Matriculation (paid at first enrollment only)	\$10.00	\$20.00
Incidental (regular semester or summer session)		
All except work in School of Veterinary Medicine, a semester hour	4.00	9.00
Work in School of Veterinary Medicine, a semester hour	5.00	10.00
Student Union		
Regular semester	5 00	5 00
Summer term	2 00	2 00
Student Health (regular semester or summer session)	Not eligible	Not eligible
Recreation fee, summer session only	2.50	2.50

Special Examination. Any student granted permission to take a special examination for possible college credit (in lieu of attending classes) shall be assessed a fee of \$2 a semester hour in which examined if a Kansas resident

or a staff member; or \$6 a semester hour in which examined if a nonresident. This fee must be paid before taking the examination and is not subject to refund; this service is available only to matriculated students.

Graduate Research Work in Absentia. The fee for graduate research work *in absentia* is \$2.50 a semester hour for both residents and nonresidents. Resident staff members may not enroll *in absentia* while regular college sessions are in progress. This fee is not subject to refund.

Home Study Fees. For a complete listing of fees charged for work offered through the Department of Home Study, Division of College Extension, see page 297. Resident students taking work by correspondence are required to pay the *enrollment* fee for that work.

Refund Policy. If an enrollee withdraws and returns his identification card during a school term, the following schedule of refunds shall apply:

A. Withdrawal during first week of a school term—100 percent of fees refunded, except matriculation fee, which is not subject to refund. (See Calendar.)

B. Withdrawal after first week of school term and before one-third of the term has passed—50 percent of fees refunded, except matriculation and student health fees. (See Academic and Professional Calendar.)

C. Withdrawal after first week of school term and before one-third of the term has passed—no refund of matriculation and student health fees.

D. Withdrawal after one-third of a school term has passed—no refund of fees.

Late Enrollment, Including Re-enrollment After Withdrawal. A late enrollment fee of \$2.50 shall be assessed and collected from each person enrolling after the regularly scheduled enrollment period. A larger late enrollment fee of \$5 shall be assessed and collected from each person enrolling, re-enrolling or paying his fees after the first week of a school term. However, only one or the other of these fees shall be collected for each late enrollment or re-enrollment. Late enrollment fees shall not be subject to refund and payment thereof shall be considered a part of the enrollment process.

Laboratory Fees and Course Charges or Deposits. No laboratory fee or course charge is assessed against or collected from persons enrolled in any regular semester or summer session at Kansas State College, except for excessive usage or breakage or losses due to personal negligence on the part of the student, and then only for actual fair value of supplies so used or lost and subject to the approval of the appropriate dean or the President.

Short Courses and Workshops. Fees for short courses and workshops, to be assessed and collected as announced in official college publications, shall be based on the following schedule and shall be subject to the refund policy outlined above:

	<i>Kansas residents and staff members</i>	<i>Nonresidents</i>
Matriculation	\$10 00	\$20 00
Incidental Fee (a week)	4.00	9.00
Student Health		
First week	1.00	1.00
Each additional week50	.50
Recreation fee (summer sessions only)		
Less than 3 weeks	None	None
For first 3 weeks	1.00	1.00
Each additional week25	.25
Student Union		
For first 3 weeks	1.00	1.00
Each additional week25	.25
Consumable supplies charge, as determined in each instance.		

Personal Service Fees. Charges for private music lessons or for other individual instruction are in addition to the fees outlined above; such fees,

however, are subject to the refund policy set forth above. The schedule for private music lessons is as follows:

	<i>Students paying incidental fee *</i>	<i>Students not paying incidental fee</i>
Two lessons a week for 16 to 18 weeks.....	\$35.00	\$42.00
One lesson a week for 16 to 18 weeks.....	17.50	23.00
Two lessons a week for 8 to 10 weeks.....	17.50	23.00
One lesson a week for 8 to 10 weeks.....	8.75	11.50
Separate individual lessons, each.....	1.50	2.00

Charges for individual training in flight instruction are based upon actual costs to the College estimated as follows: Dual flying time at the rate of \$10 an hour; solo flying time at the rate of \$8 an hour; and books and supplies as required, estimated not to exceed \$5. Veteran trainees must have applied to the Veterans Administration to accelerate their eligibility to a maximum of 225 days, in addition to having sufficient eligibility to cover all other College charges, or make up the difference with a cash deposit at the time of enrollment. Veterans must also have the Veterans Administration's approval to include the course of flight instruction in their course of training or employment objective. For all other students, a deposit of \$475 is required at the time of enrollment. All unused deposits are refunded when the course is completed, any excess in cost over the \$475 deposit will be appropriately collected before the student concerned may be graduated.

Summer Sessions. In general the fees for the regular summer session are approximately one-half the fees as outlined for regular semesters, and are subject to the refund policy outlined above. The following schedule of fees will be charged for summer sessions of more than 6 and less than 13 weeks.

	<i>Kansas residents and staff members</i>	<i>Nonresidents</i>
Matriculation (paid at first enrollment only).....	\$10.00	\$20.00
Incidental		
All except Veterinary Medicine students.....	35.00	75.00
Veterinary Medicine students.....	40.00	80.00
Student Health.....	3.75	3.75
Student Union.....	2.00	2.00
<hr/>		
Totals—All except Veterinary Medicine students.....	\$40.75	\$80.75
Totals—Veterinary Medicine students.....	45.75	85.75
(If enrolling in three semester hours or less, see paragraph regarding pro rata fees.)		

Each fee for a summer session of six weeks or less shall be one-half (to the nearest dollar) the fee for a regular summer session, except that no fee shall be less than \$1, and no pro rata fees shall be assessed.

Audition Fee. An auditor who is neither an enrollee nor a staff member shall be assessed \$1 a semester hour for courses audited. Laboratory courses may not be audited. These fees shall not be subject to refund.

Commencement and Certificate Fees. Each person eligible for a degree shall be assessed \$9 for each degree to be conferred to cover cost of diploma and commencement activities. Each person eligible for a certificate of completion of a course of study shall be assessed \$5 for each such certificate to cover cost of preparing the certificate and of related commencement activities. These fees shall not be subject to refund.

Transcript Fees. Each student is entitled to receive without charge one transcript of his record. For each additional transcript requested by such student there shall be charged a fee of 50 cents. Payment of each commencement fee beyond the first entitles the recipient of a further degree to an additional transcript. For transcripts requested by any person or agency other than the student or graduate concerned, there shall be charged a fee of \$1 for each transcript. *These fees are not subject to refund.*

* There is no additional charge for equipment used by students paying incidental fees, except that the number using the organ may be limited by the music department. The term "incidental fee" as used here refers to a *full* incidental fee, not a pro-rata incidental fee.

Military Uniforms. Every student who takes military training (except veterinary) must have a uniform. For the basic courses the uniform is furnished by the Government. The money value of any missing articles will be collected when the uniform is returned. The Government makes a substantial allowance toward the cost of the uniform used in advanced courses. Failure to return or pay for missing articles of the uniform may result in withholding of credit and in extreme cases may cause the College to refuse a transcript or to graduate the student concerned.

Charges to Governmental or Private Agencies. The fees collected under federal contracts or arrangements with other governmental or private agencies follow in general the fees outlined above, and in all cases the charges are equal to or greater than the fees stated herein.

Other Expenses

Textbooks. The cost of textbooks varies considerably from semester to semester and according to the curriculum chosen. A freshman may reckon with an expenditure of about \$30 for new textbooks during his first semester, and of about \$20 during his second semester. Certain curriculums require books costing slightly more than these figures; most curriculums require books costing slightly less. For many courses secondhand books are satisfactory.

Drawing Instruments. In several curriculums, especially in architecture and engineering, drawing instruments are necessary. These range in price from \$18 to \$30 a set.

Gymnasium Suits. Every woman taking physical education must have an approved gymnasium suit costing \$3 to \$3.75. In the major course the suit costs \$5 to \$6. The gymnasium suit for a man costs about \$5. In the major course the suit costs \$10.

Housing

Boarding and rooming establishments accommodating College students are regularly inspected by the Director of Housing or the Director of Student Health. The establishments approved are issued certificates of approval by the Director of Housing under the direction of the Faculty Council on Student Affairs.

HOUSING FOR WOMEN

All undergraduate women students at Kansas State College are required to live in houses approved by the College.

Beginning with September, 1951, all freshman women will live in College operated residence halls for an entire year unless excused by the College Administration (Board of Regents Ruling). Basis for excuse shall be (1) to live at home with parents; (2) to live with close relatives in Manhattan; (3) to commute from near-by communities (It is understood that if the weather or other circumstances at any time during her freshman year make it necessary or desirable for a girl to live in Manhattan, she shall move into a hall for freshmen unless again given permission to live outside.); (4) marriage; (5) financial need (to the extent that there is not sufficient work in the residence hall with additional part time work that she can secure).

The College operates four residence halls for women: Van Zile Hall, capacity 169; Waltheim Hall, capacity 78; Northwest Hall, capacity 211; and East Stadium Hall, capacity 60. Freshman women will live in Northwest Hall and in Van Zile Hall. Sophomores, juniors, and seniors will be housed in Van Zile Hall, Waltheim Hall, East Stadium Hall, and Southeast Hall, a mirror image of Northwest Hall, which will accommodate 211 and which is expected to be ready for occupancy in September, 1952. In all College residence halls the contract is for room and board for a full semester and may be cancelled only for reasons satisfactory to the Dean of Women. The food service is under the direction of the Department of Institutional Management of the College. Rates for room and board are \$248 per semester, paid in advance, or \$254 per

semester in four equal installments of \$63.50 each. All rates are subject to change.

Women students who have previously attended College for two semesters may live in off-campus houses which have been approved by the College. There are eleven organized off-campus houses for women. Four of these offer both room and board while the others offer room only. Other women students live in unorganized off-campus houses or in private homes. The contract in all women's houses is for one full semester. Upper-class members of sororities live in houses maintained by these groups.

Women should address correspondence about room and board to the Dean of Women.

FOR MEN AND FAMILIES

All unmarried undergraduate students at Kansas State College are required to live in houses approved by the College.

The College provides accommodations in West Stadium Hall for 150 men. The rent is \$60 a semester if paid in advance, subject to no refunds, or \$62 if paid in four equal installments of \$15.50 each. All rates are subject to change. Contracts for rooms are made for one semester.

Six organized houses are privately operated off-campus for single men students. Other single men live in private homes which have been approved by the College. All off-campus rooms are contracted for one semester. Rent for single men student accommodations ranges from approximately \$10 to \$25 a month.

For married students, the College operates 336 (one bedroom, two bedroom) apartments and 31 spaces to park privately owned trailers. Two bedroom apartments rent for \$28 a month; one bedroom apartments rent for \$24 a month; trailer space rents for \$12 a month. All rates are subject to change.

Apartments in private homes or apartments off-campus provide additional housing for married students. Rent for off-campus apartments ranges from approximately \$45 to \$75 a month, depending on the size of the apartment and the location in Manhattan.

Listings of available rooms for single men and apartments for married students are kept up-to-date and may be used by those who wish to call at the Housing Office, Room 121, Anderson Hall.

Inquiries should be addressed to the Director of Housing.

Board

The College operates cafeterias serving all meals except on College holidays and during vacations. There are also numerous clubs and boarding houses offering meals.

Responsible Citizenship

Students coming to K. S. C. have an opportunity to participate in student government, hall government, independent student association, the student planning conferences, and many other groups. Through these organizations the student has a share in formulating many of the policies under which he lives and as a result learns to live in a democratic way under them. Through this kind of activity a person can become a responsible citizen of the college community.

Conduct

Students are expected to conduct themselves in a way becoming to any good citizen. Students who violate standards of good citizenship are subject to disciplinary action by the Student Council and the Faculty Council on Student Affairs.

Counseling Bureau

The Counseling Bureau offers testing and counseling service to students seeking help for personal problems and those relating to reading deficiencies or vocational or curricular choice. The Bureau serves as a reference agency

for advisers who need specialized information or assistance for advisees. It also has available for student use a file of vocational information.

Freshman Orientation Week

Freshmen enrolling for the first time come to the campus several days before registration begins. (See Calendar.) During these days they have the opportunity of becoming acquainted with the College, meeting faculty members and classmates, getting information and other help from advisers, taking aptitude, placement, and physical examinations, and attending social functions.

Each entering freshman gets a booklet that gives the complete schedule of Freshman Week Activities. Since the College handles large numbers of students, it is essential that all freshmen get here on time, follow the schedule closely, and attend all functions.

No one may register as an undergraduate unless he has taken the required physical examinations, and the required aptitude tests, which will help him in making judgments about his work in the College.

Freshman Advising Program

During Freshman Week the Counseling Bureau compiles a folder for each new freshman, containing the results of all tests taken during Freshman Week, and available to the student's adviser. Freshmen have the opportunity of meeting with their advisers at the beginning of the school year, at midsemester, and just before the end of the semester. The purpose of the first meeting is to define student goals to be reached in college, give information regarding appropriate curriculum and courses, and to discuss any problems the student may have. The next two meetings are usually devoted to a discussion of the student's progress and plans for the next semester's work. These meetings give the student a better understanding of himself in relation to his goals and college life as a whole.

Classification of Students

A student who is a high school graduate, or offers fifteen acceptable units of high school work, is classified as a freshman. He is advanced to a higher class when he has credit in hours and points to meet the requirements for advancement in the various schools as listed below:

<i>School</i>	<i>Sophomore class</i>	<i>Junior class</i>	<i>Senior class</i>
Agriculture	23	56	88
Arts and Sciences	23	55	86
Engineering and Architecture *,	25	61	97
Home Economics	23	64	81

Students enrolled in the professional curriculum in the School of Veterinary Medicine are classified as First Year, Second Year, Third Year, and Fourth Year students. The First Year students are so classified following admission and assignment to the School, after completion of the two-year Preveternary curriculum (68 hours). To advance to a higher classification, a student must complete satisfactorily the requirements as listed in the professional curriculum for the previous year or years. Exceptions are granted only in meritorious cases by the Dean of the School of Veterinary Medicine and shall not exceed nine credit hours of deficiencies. No student lacking required units in elementary algebra and plane geometry will be advanced in classification.

Assignments

A student is responsible for fulfilling all the requirements of the curriculum in which he is enrolled. His assigner and his dean will help him plan his work, but do not assume responsibility for his mistakes. A student should be familiar with the catalogue statements about assignments and curriculums, because the catalogue is the official source of information.

* Students enrolled in the five-year curriculum in Architecture are classified according to the following requirements in hours and points: Second Year, 22; Third Year, 55; Fourth Year, 87; Fifth Year, 119.

No student may be enrolled in classes or for private lessons in music or other subjects before getting an assignment. No assignment is complete until all fees and charges are paid.

Registration and assignment to courses take place on the dates shown in the Calendar, page 4. Later assignments are made during regular office hours by a student's dean or assigner, but must be checked by the Registrar as to availability of classes, which are closed when the limit as to number is reached.

A student may not enroll later than ten days after the beginning of a semester or summer session except by permission of his dean.

Penalties are provided for failure to enroll during the regularly scheduled registration periods, or failure to complete registration by payment of fees before the dates set for that purpose. See the Calendar, or the section on Fees, page 4, for these penalties.

A student who wants to take work at other than scheduled times must have the written consent of his dean, the head of the department in which the work is to be done, and the dean of the school in which the department belongs.

Every student must take a full assignment unless excused by his dean. Students whose grades averaged B or better during the preceding semester and who did not receive a deficiency of any kind during the preceding semester, may apply to their deans for permission to take excess hours, but not to exceed 21, including correspondence work. Other students may not normally take excess hours. Exceptions to this policy are reported to the President by the dean granting the exception.

An enrolled student may not carry correspondence work except by permission from his dean.

If a student makes special requests about assignments or asks permission to make up deficiencies by study under an approved tutor, his dean will decide after conferring with the heads of the departments concerned.

Changes in Assignments

Deans will not drop subjects from a student's assignment during the last two weeks of a period covered by midsemester or final scholarship deficiency reports.

No student may drop a course or change an assignment except by a formal reassignment, which can be made only by his dean.

If an instructor recommends a reassignment, a student should confer with his dean.

A student who drops out of class without a reassignment is reported absent.

Withdrawal from College

A student who withdraws from College must have an official withdrawal permit from his dean. If a student withdraws from College before midsemester, a mark of WD (withdrawn) is reported. If he withdraws after midsemester, he gets a grade for one-half semester. A student who withdraws during the eighth or ninth week or the seventeenth or eighteenth week of a semester gets a midsemester or semester grade of F for courses in which he is not doing satisfactory work.

Auditing Classes

An auditor is one who attends a class regularly without participating in class work and without getting credit. Permission to audit a class is granted by the dean of the School in which the class is offered. The fee for those not connected with the College is \$1 a semester hour. A student or employee of the College who wants to audit a class must first get the consent of his dean. Laboratory classes cannot be audited.

Grades

The College uses the following grades:

- A, for distinguished work
- B, for superior work
- C, for average work
- D, for merely passing work
- F, for failure

The equivalent percentage grade for passing is 70. For purposes of translating percentage grades into letter grades the following schedule shall be used when 70 is the minimum passing grade:

- 94-100 A
- 86- 93 B
- 78- 85 C
- 70- 77 D

The report Con, conditioned, is used for unsatisfactory work on which an examination may be taken. If the examination is passed, the Con becomes D; otherwise it becomes F. The examination must be taken at the first subsequent semester of enrollment. The report Inc, incomplete, is used when a student may have further time to complete the required work. It, too, must be removed within the first subsequent semester of attendance or the report becomes an F. The report Def (Deferred) is used for graduate courses in research only, to permit a single grade to be assigned for an extended research problem.

Report of Grades

(1) On the fifth and the ninth Saturday of each semester; (2) not later than 6 p. m. on the last day of each semester, reports of unsatisfactory work on those dates are sent to the students concerned and the deans. The dates appear in the Calendar; these reports are an imperative duty of all instructors. The first two reports are made in percentages on a scale of seventy for passing. The reports at the end of the semester are on the letter system.

Students desiring reports of grades must supply their instructors with properly filled official cards after the fifth or the ninth Saturday of the semester or with their final examination papers. Instructors will make reports so requested to the students or send them to the student organizations.

The instructor prepares for each student a semester grade based on the examination and class work, and must report this to the Registrar for record as shown in the Calendar.

If a student drops a subject before midsemester, a mark of WD (withdrawn) is reported.

If a student withdraws from College before midsemester, a mark of WD is reported for each subject, irrespective of the standing of the student in the subject; except that grades below passing of students withdrawing from College during the eighth and ninth weeks or the seventeenth and eighteenth weeks of a semester are recorded as midsemester or semester grades. Regardless of the time of withdrawal, however, a final grade shall be reported, if all the required work of the course has been completed. If a student goes through the first half of the semester, but not the second half, a half-semester grade is reported for record, and designated as such; but a subject dropped at any time after midsemester on account of failure is given a semester grade of F.

In case of absence from a final examination, no semester grade is reported until the reason for such absence has been learned; the instructor reports to the Registrar a mark of Inc. If the student's absence is inexcusable, a semester grade is reported on the basis of zero for the final examination; but if the absence is excused or excusable, a reasonable time, usually not over one month, is allowed within which the examination may be taken.

The result of an examination to remove a condition is reported in quadruplicate to the dean of the student, who transmits copies to the Registrar, the student, and the student's assigner. Special procedures are followed in reporting a grade to replace Inc and in reporting corrections of grades.

Instructors are to leave all class books on file in the proper department when semester grade cards have been made out. The head of the department is to keep all grade books as a permanent file of the department.

Points

For each semester hour of work a student gets points, according to the grades he makes, as follows: A, 3; B, 2; C, 1; D, 0; F, —1. For graduation or for advancement in classification, the requirement in points is the same as in hours.

Scholarship Deficiencies

PROBATION

If a student in either semester or summer session of his first year at Kansas State College gets F or Con in one-third of his work, he is put on probation for a semester, and his parent or guardian is informed of the fact. Any other student is put on probation for a semester if he gets F or Con in one-fourth of his work. A third such probation results in dismissal from the College.

DISMISSAL

If a student in either semester or summer session of his first year at Kansas State College gets F or Con in one-half of his work, he is dismissed from the College, and his parent or guardian is informed of the fact. Any other student is dismissed if he gets F or Con in two-fifths of his work. After two probations, one probation and one dismissal, or two dismissals, any subsequent probation involves dismissal.

REINSTATEMENT

Students dismissed at the end of the first semester are excluded until the beginning of the next summer session. Those dismissed at the end of the second semester or a summer session are excluded until the end of the next fall semester. During this period they may not habitually appear on the campus or enter any classes. Any student dismissed for scholarship deficiencies may petition in writing, on a form provided by the College, for immediate reinstatement. The Committee on Reinstatement considers such petitions, granting reinstatement in exceptional cases only.

Absence

Students are expected to attend all meetings of classes. Although students with senior standing, or juniors with higher than a 2.0 grade point average, are excepted from compulsory class attendance, they are still responsible for all work missed. Teachers report absences for all students, including those with optional attendance, to the deans' offices.

Examinations

Final examinations are held at the end of the semester, except for candidates for degrees.

A student whose semester grade in any subject is A may be excused from the final examination in that subject.

Examinations to remove conditions are held on the fourth Saturday of each semester. A student with a mark of Con may take such an examination if he makes arrangements with his instructor or department head not later than the previous Tuesday.

Permission for special examination in subjects not taken in class or to make up failures is given by the student's dean after consultation with the head of the department in which the course is given. A special examination may be given only to a matriculated student.

Entrance examinations in high school subjects are given at the beginning of each semester. (See the Calendar.) Applications for such examinations should be made to the Director of Admissions. No examination to make up deficiencies in entrance requirements will be given to students who have entered on the fourth semester of work in the College.

A matriculated student, who has high school units in excess of the fifteen units required for admission, may apply for an examination in certain subjects of freshman rank on the basis of his surplus units. The application should be made to the Registrar, who will check surplus units and authorize an examination within the first thirty days of the semester or summer session. Examinations which affect the assignment of a semester or summer session, however, will be given on the first Saturday of that semester or summer session. After the expiration of the thirty-day period, the student's dean may authorize an examination.

Required Physical Examinations

All students must take a physical examination at time of matriculation. In addition, because of the nature of the profession, students who enroll in teaching participation must pass a physical examination. All seniors in home economics and fourth year veterinary students must take a physical examination before graduation. Under no circumstances will a student be deprived of a degree because of the results of a physical examination. Such examinations are optional for all other seniors.

Honors

In each School of the College *sophomore honors* are awarded to not more than five percent of the members of the sophomore class having the highest standing. Such honors are to be reckoned only on courses completed at this institution, combining the work of the freshman and sophomore years, and will be computed at the end of the regular academic year in May.

Similarly at all commencement programs *senior honors* are awarded to not more than ten percent of the members of the senior class having the highest standing. Such honors are to be determined only on courses completed at this institution, combining the work of the junior and senior years.

Credits for Extracurricular Work

Students may earn credit toward graduation by satisfactorily participating in certain extracurricular activities. These activities, and the maximum of semester hours of credit allowed, are as follows:

<i>Subject</i>	<i>Semester</i>	<i>Total</i>
Orchestra	1	4
Band	1	4
A Cappella Choir	1	4
Men's Glee Club	1	4
Women's Glee Club	1	4
Debate	2	4
Oratorical Contest	2	4
<i>Kansas State Collegian</i> journalism	1	4
<i>Agricultural Student</i> journalism	1	4
<i>Kansas State Engineer</i> journalism	1	4
<i>K Book</i> journalism (if not paid).....	2	2

Credits may be counted as electives in the student's curriculum, or substituted for required subjects if the curriculum does not offer sufficient elective opportunity. A student may have not more than eight semester hours in these subjects, and not more than two in a semester.

A student is regularly assigned to these activities, but only on the written recommendations of the instructor in charge of the work.

Bible Study

Bible study is an elective for which no more than four semester hours of credit may be approved toward requirements for a degree. If work is completed while in residence at this college, instructors must have college approval. The Department of Education and Psychology supervises the work and certifies the credit.

Classes

By order of the Board of Regents classes for freshmen are limited to a minimum of 15. Classes for other than freshmen are limited to a minimum of 10, except that certain advanced technical and laboratory classes may have a minimum of 7.

Assemblies

About every other week students and faculty gather in the auditorium for an assembly program. Often the program is an address by a visitor who is an authority in some field of interest to the College; sometimes it is musical, given by visiting or local artists; it is sometimes of a religious and devotional nature. The programs are designed as part of the liberal education offered to students, and not as entertainment.

Course Numbers

Courses for undergraduates only are numbered from 101 to 199; those for undergraduates and graduates, from 201 to 299; those for graduates only, from 301 to 399. Each department numbers its courses independently. Courses which do not carry college credit are numbered below 100.

The College Library

The general College Library consists of all books belonging to the College, including the library of the Agricultural Experiment Station, which is incorporated with it. The Library contains 154,194 bound volumes, besides much unbound material. It receives currently about 3,360 serial publications. As a depository the Library receives the documents and other publications of the United States government, as well as publications of all state experiment stations, extension services, and state departments of agriculture.

Reading Rooms. Three reading rooms are maintained in connection with the Library: The general reference room, containing encyclopedias, dictionaries, atlases, bibliographies, and general reference books; the special reference room, containing books reserved for classes; and the periodical room, containing current magazines and the important daily and weekly Kansas newspapers.

School Libraries. School and departmental collections are deposited in certain College buildings apart from the main library. These collections are for the special convenience of the instructors and students of the department concerned.

College Publications

The Kansas Industrialist is the official alumni newspaper of the College. It is published approximately 20 times a year and is printed by the Kansas State College Press. It contains news of College developments and alumni news notes. Active members of the Alumni Association receive the *Industrialist* free. For others the subscription is \$3 a year.

The Kansas State Collegian, a newspaper published five days a week during the College year, and *The Royal Purple*, a student yearbook, are published by Student Publications, Inc.

The Kansas Agricultural Student is issued quarterly by the Agricultural Association of the School of Agriculture. *The Kansas State Engineer* is published by students in the School of Engineering and Architecture.

Student Health

The Student Health Service is supported by the student health fee fund. There are always on duty full-time physicians with an adequate medical supporting staff to care for the College students. The College Hospital has a capacity of 57 beds.

The Student Health Service is located directly west of the Library in the center of the campus, and is now housed in four barrack-type buildings. The clinic is open to students each day from 8:00 a. m. until 11:50 a. m. and from 1:00 p. m. until 5:00 p. m., with the exception of Saturday, when the clinic closes at 11:50 a. m. Students who become ill at home may be taken directly to the emergency room at any hour.

Those who are able to walk should go to the clinic unless there is a possibility that they have a contagious disease, in which event they should present themselves to the hospital at once. The physicians of the Student Health Service make no private calls to students' rooms.

Any student may be admitted to the College Hospital by a staff physician. Two days of hospitalization are provided for each student without charge in each regular semester, and one day per summer session. In the event that the period of hospitalization exceeds two days, \$3 a day extra will be charged, this rate to be in effect for only 21 days of hospitalization. All days in excess of 21 will then be charged for at current Blue Cross rates. The student-health fee fund is supplemented by small charges, made while the student is under care, for special expensive medicines, laboratory procedures, and extra periods of hospitalization. These charges are, for the most part, the actual cost price of the extra service rendered.

In the event of the necessity of major surgery, the patient will elect his own surgeons and be transported at his own expense to one of the Manhattan hospitals. After surgery and whenever advisable, the student may be returned to the College Hospital for convalescence. The two days of free hospitalization are not applicable to the Manhattan hospitals. Any services rendered by other physicians and any medicines given while there will be at the student's own expense.

The Health Service gives a physical examination to all students entering the College for the first time. Periodic health checkups are recommended by the Service, but are optional. Physical examinations such as for life insurance, C. A. A., and civil service, or any other which the student may need, will be given at any time without extra charge to the student. It is the policy of the Student Health Service to extend unlimited diagnostic and therapeutic facilities to all students regardless of the time or onset of illness.

College Post Office

The College operates a post office, which is not a part of the United States postal service, but to which students and faculty may have their mail delivered. Mail arrives from the Manhattan post office twice a day. The College post office sells stamps, but not money orders, and insures and registers mail. It also facilitates intercommunication of College departments and communications of faculty with students. All students should call for their mail at least once every two days, and preferably every day.

Self-support

Many students at Kansas State College are partially or entirely self-supporting.

Experience in helping students find work leads to the following conclusions:

1. Students should not enroll unless they have enough money for fees and assurance that they have access to enough money for expenses for one semester.
2. Unless it is absolutely necessary, students who are enrolling in college for the first time should not attempt to work the first semester but should concentrate on adjusting to their academic work.

3. Students who have to earn a large part of their expenses should not carry a full assignment.
4. Students who must earn the equivalent of room and board can best do this by accepting work in a Manhattan home where they can exchange four hours of work each day for room and board.

The College rate of pay varies from 50 to 65 cents an hour, according to the nature of the employment and the experience of the employee. Women students work on the campus in the library, offices, cafeteria, class laboratories, and the women's residence halls. Off-campus jobs in stores, offices, and private homes are available in limited number. Girls who are willing to do housework in Manhattan homes can usually find as much work as they need. Men students work on the College farm, orchards, and gardens, in the library, cafeteria, offices, shops, printing offices, and for the custodian. Many men find jobs in town at filling stations, restaurants and private homes. Most employers require a personal interview with job applicants.

Foreign Students

The College welcomes students from other countries and co-operates in every way possible with the various agencies in charge of student exchange. The Counseling Bureau is equipped to be of special service to foreign students and will assist in orienting them at the College and in Manhattan. It is suggested that the foreign student, on arriving at the College, call as soon as possible at Room 111, Anderson Hall, for any help that he may need.

The College does not have facilities to furnish banking services or management of personal finances to foreign students. In order to assist foreign governments or other foreign sponsors, however, the College will accept checks payable to the College and transfer the entire amount to the student in one lump-sum payment.

The College cannot guarantee student employment, but every effort will be made to help the deserving student who needs work to find it. The Y. M. C. A. maintains an employment bureau for men and the office of the Dean of Women maintains one for women.

College Organizations

The Student Governing Association

Every undergraduate student who has paid the activity fee is a member of the Student Governing Association, which is charged with the responsibility of student government. The association legislates in its own behalf in its meetings which are held at least once each semester.

The executive body of the association, The Student Council, consists of nine members elected each spring for the following year to represent the students of the various schools of the college. The council discharges all executive functions of the association and sits as a court in all disciplinary cases. The council is responsible to the members of the S. G. A. as a body, and to the President of the College through the Faculty Council on Student Affairs. The S. G. A., through the Student Council, regulates and co-ordinates the activities of other student organizations and co-operates with other organizations in the promotion of interest and participation in extracurricular activities. It co-operates with the Faculty Council in administering the funds from activity fees.

The Student Governing Association acts in the belief that student self-government will result in a keener sense of co-operation and responsibility among students as members of the campus community.

Religious Organizations

THE YOUNG MEN'S CHRISTIAN ASSOCIATION

All men students are welcome as members of the College Y. M. C. A. The work of the organization is carried on by a student cabinet, composed of the officers and the chairmen of the standing committees. Each year a freshman commission is organized for the benefit of the new men, especially those who have had Hi-Y experience. The Y. M. C. A. maintains an employment bureau for men students, and can supply an upperclass student counselor for any freshman who wants one. The permanent secretary is glad to correspond with prospective students and to receive them for interviews.

THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION

All women students are invited to become members of the College Y. W. C. A. The Y. W. C. A. welcomes the new students through its College Sister Program. Several upperclass women students and a town mother plus ten new students make up a College Sister Group whose purpose is to aid new students in becoming acquainted with college life. The Y. W. C. A. program, based on faith in action, includes social affairs, service projects, worship services, and joint activities with the Y. M. C. A. It offers opportunities to all women students for useful service through fun and fellowship. The staff director is glad to correspond with prospective students.

RELIGIOUS GROUPS

Each of the following organizations fosters spiritual, cultural, and social activity among its members:

Baptist Youth Fellowship and Theta Epsilon	Baptist
Newman Club	Catholic
Christian Student Foundation and Kappa Beta	Christian
Sigma Eta Chi	Congregational
Canterbury Club	Episcopal
B'nai B'rith Hillel Counselorship	Jewish
Lutheran Student Association	Lutheran
Wesley Foundation and Kappa Phi	Methodist
Phi Chi Delta	Presbyterian
Young People's Christian Union	United Presbyterian
Kansas State Christian Fellowship	Interdenominational

RELIGIOUS FEDERATION

The Religious Federation of Kansas State College is composed of representatives of the College Y. M. C. A. and Y. W. C. A., and students in all church groups that wish to co-operate. Each fall the Federation sponsors Religious Emphasis Week and during the year it sponsors Brotherhood Week and two union meetings of all the co-operative groups. It also promotes many activities of the member groups.

Honor Societies

Phi Kappa Phi. A national fraternity. Membership is open to honor students in all departments, on the basis of scholarship. The Kansas State chapter was installed in 1915.

Sigma Xi. A national fraternity. Members of the faculty and graduate students are eligible for election to active membership on the basis of achievement in original scientific investigation; seniors who have shown excellence in two departments of science are eligible for election to associate membership. The Kansas State chapter was installed in 1928.

Gamma Sigma Delta. A national fraternity. Seniors in agriculture and agricultural engineering, and fourth-year veterinarians are eligible for election by the faculty members of the local chapter on the basis of scholarship. The Kansas State chapter was installed in 1914.

Omicron Nu. A national sorority. A percentage of seniors and juniors in home economics are eligible for election to membership by the active faculty and student members of the local chapter on the basis of scholarship, leadership, and research in home economics. The Kansas State chapter was installed in 1915.

Professional Organizations

Election to membership is based on unusual achievement.

Alpha Delta Theta	Medical Technology
Alpha Zeta	Agriculture
Alpha Kappa Psi	Business Administration
Alpha Mu	Milling
Eta Kappa Nu	Electrical Engineering
K Fraternity	Athletics
Mu Phi Epsilon	Music
Phi Alpha Mu	General, Women
Phi Delta Kappa	Education
Phi Epsilon Kappa	Physical Education
Phi Lambda Upsilon	Chemistry
Pi Epsilon Delta	Dramatics
Pi Mu Epsilon	Mathematics
Pi Tau Sigma	Mechanical Engineering
Quill Club	Writing
Scabbard and Blade	Military
Sigma Delta Chi	Journalism, Men
Sigma Gamma Epsilon	Geology
Sigma Tau	Engineering
Steel Ring	Engineering
Theta Sigma Phi	Journalism, Women

Honorary Organizations

Election to membership is based on leadership in student affairs.

Blue Key	Senior Men
Mortar Board	Senior Women
Prix	Junior Women
Who's Who Among Students in American Colleges and Universities	Senior Men and Women

Sororities and Fraternities

There are twenty-three Greek letter fraternities for men at Kansas State College and nine national sororities for women. Sororities and fraternities offer excellent living accommodations and a social program to their members. Membership in all of these organizations is by invitation.

Information about sororities may be obtained from the Faculty Adviser of Sororities and about fraternities from the Faculty Adviser of Fraternities.

Independent Women's and Men's Organizations

Student Association

The Independent Student Association will aid organizations in providing programs of recreation and activities for the independent student. There are a number of independent women's and men's organized houses. There is also an organization for independent women students who live in unorganized houses.

The Graduate Students Association

All students enrolled in the Graduate School are members of the Graduate Students Association. The objectives of the association are to promote acquaintance and fellowship among those enrolled in graduate work and to have leaders elected and authorized to speak and to act for the graduate students.

Agricultural Societies

The Agricultural Association meets regularly once a month. All students enrolled in the School of Agriculture are members. The objectives of the association are to encourage and support agricultural activities, to correlate the work of various clubs and other organizations of students within the School; and, in general to have leaders elected and authorized to speak for the student body of the school at all times.

Departmental clubs of the School are the Agricultural Economics Club, Agricultural Education Club, Block and Bridle Club (animal husbandry), Dairy Club, Horticultural Club, Klod and Kernel Klub (agronomy), Milling Industry Association, Plow and Pen Club (agricultural journalism), and the Poultry Club. Membership in these clubs is open to students and faculty of the School who are specially interested in the fields represented by the respective clubs.

The object of the clubs is to expand the interest and familiarity of the students in the fields and industries most closely related to the department in which they are majoring. Meetings and social affairs further the acquaintance of faculty and students. Student officers preside at the meetings and plan the programs, many of which are presented by students, though frequently faculty members or other speakers participate. Usually a student belongs to the club representing the department in which he is majoring, while many belong to more than one.

Engineering Societies

All students enrolled in the School of Engineering and Architecture are members of the Engineering Association, which usually meets once each month. The students in agricultural, chemical, civil, electrical, and mechanical engineering are organized as student branches of the American Society of Agricultural Engineers, the American Institute of Chemical Engineers, the American Society of Civil Engineers, the American Institute of Electrical Engineers, and the American Society of Mechanical Engineers, respectively. Students in architecture and architectural engineering are organized as a student branch of the American Institute of Architects.

The purpose of these various societies is to acquaint the students with the latest developments in engineering and architecture, to give them more definite ideas as to the opportunities and the requirements for success in their professions, to promote acquaintance and fellowship among the students, and to further the interests of the School of Engineering and Architecture in the College and in the state.

Societies in the School of Arts and Sciences

The Kansas State College section of the American Chemical Society arranges during the school year for monthly meetings which are usually addressed by visiting chemists.

The Business Students Association gives the students in business administration an opportunity to get first-hand information on the problems and the opportunities in the business world by providing for speeches by specialists in business subjects and representative businessmen.

The Geology Club builds up a professional spirit among the students majoring in Geology.

The object of the Medical Technicians Club is to give the students more definite ideas as to the responsibilities and opportunities in this field.

The Popenoe Entomological Club meets twice a month. The object of the club is to promote interest in entomological work at the College. Membership is open to students and faculty members interested in insects. Entomological topics are discussed by members of the Club and outside speakers.

The Mathematics Club meets monthly to listen to talks of mathematical interest.

Home Economics Club

Membership in the Margaret Justin Home Economics Club is open to all students in the School of Home Economics. Its purpose is to promote professional interest by means of contacts and activities of many types. The Club is affiliated with the American Home Economics Association and leads to continued membership in that organization after graduation.

Veterinary Medical Association

The Junior Chapter of the American Veterinary Medical Association is a student organization in affiliation with the American Veterinary Medical Association. The object of the chapter is to promote interest and knowledge in veterinary science. The organization meets on the first and third Tuesdays of each month; students present papers, and members of the faculty and outside speakers also appear on the program.

Collegiate 4-H Club

Former 4-H Club members now in College make up the membership of the Collegiate 4-H Club, one of the largest service and social organizations at Kansas State College. The group participates actively in worth-while College activities; sponsors a radio program; publishes the *Who's Who*, Kansas 4-H Club annual; maintains a loan fund; assists at Round-up and Rural Life Conference; and has contributed to the building of State 4-H Club Camp and the Student Union.

Normal membership of more than 500 former 4-H boys and girls enables the Collegiate 4-H Club to maintain a strong and effective service program, train and develop leadership and promote the good of the 4-H boys and girls and the entire Extension program. The value of this group is not confined to the Kansas State College campus; the contacts of this active group have caused many more former club members to seek a college education.

Extension Club

Membership in the newly-organized Extension Club is primarily for those who wish to become county agents, home demonstration agents, or club agents. Any boy or girl interested in co-operative extension, however, may join. The club is not restricted to students enrolled in any particular curriculum.

The objectives of the club are to become better acquainted with Kansas Extension Service personnel, to learn extension methods and policies, and to become better acquainted with the club's members.

In addition to learning more about co-operative extension, the club helps promote the extension work through their own radio program.

The College Bands

The three College bands, the Concert Band, the Varsity Band, and the Football Band, are student organizations, membership in which is voluntary. The Football Band includes all qualified players from both Concert and Varsity Bands. The Concert and Varsity bands do not function until the end of the football season, when the Football Band is divided into the two units. The Football Band plays for all home games and rallies, and takes one trip each year for an important conference game. The Concert Band plays frequent public concerts and provides music for other formal campus ceremonies. The Varsity Band plays for home basketball games and rallies.

Membership in the bands is determined by competitive tryout. Students not majoring in the Department of Music may enroll in the Football Band, Varsity Band, or Concert Band for one semester hour of credit. Students may also participate in band work on a noncredit basis.

The Military Band is a strictly military organization, made up of R. O. T. C. members who are assigned to Military Band duties in lieu of drill.

The College Orchestra

The Orchestra is an all-College organization under the direction of a member of the music department. Membership is on a voluntary basis and is open to all musically qualified students, college staff, and others interested. The Orchestra library is adequately stocked with standard symphonic works and lighter classics, and each season's repertoire is selected to fit the capabilities of the ensemble.

The Orchestra plays one or more formal concerts each season, appears informally both on and off the campus, and accompanies the vocal ensembles in the presentation of traditional Christmas and Easter music.

The College Choral Organizations

The A Cappella Choir is an all-College organization conducted by the head of the Department of Music. Membership in this organization is voluntary and is open to faculty, graduate and undergraduate students. It meets three times a week. The best in the unaccompanied choral literature, both sacred and secular music, is sung by the choir. Several performances a year including special Christmas and Easter Vespers are given by this organization. Off-campus concerts are also planned. Credit of one hour a semester is given to students not majoring in the Department of Music.

It is advised that students who have not had considerable training in high school choral groups enroll in the Men's or Women's Glee Clubs.

The Men's and Women's Glee Clubs are all-College organizations conducted by members of the music staff. Membership is voluntary. These groups meet twice a week. Credit of one hour a semester is given to students not majoring in the Department of Music. In addition to performing at college functions throughout the year each organization presents a combined concert once a year. At various times during the college year the glee clubs and the a cappella choir are joined to present one extended choral work with orchestral accompaniment.

Kansas State Players

Membership in the Kansas State Players is open to all students, both men and women, through tryouts and participation. The object of the Players is to afford its members an opportunity to become acquainted with good drama and to take part in the various activities connected with the producing of plays. Regular meetings are held the second Tuesday of each month.

The presentation of several plays a season as part of the drama program of the Department of Speech gives the members of the Players opportunity in practical training and interesting experience in the various phases of dramatic production. When a player reaches his junior year, he is eligible to try for membership in Pi Epsilon Delta, the national dramatic honorary fraternity.

Athletics

Kansas State College is a member in good standing of the Missouri Valley Intercollegiate Athletic Association—otherwise known as the Big Seven Conference. The other members are University of Colorado, Iowa State College, University of Kansas, University of Missouri, University of Nebraska and University of Oklahoma.

Kansas State participates in all intercollegiate sports on the Conference program. Varsity competition is open to all male students and supervised by a staff of coaches who are specialists in their line.

The Department of Physical Education sponsors a broad program of intramural athletics, supplementing intercollegiate athletics. Fraternities and independent clubs play full schedules to decide the championship in the various sports. Appropriate medals, plaques, and sweater awards are presented individual and team winners.

Under the auspices of the Women's Athletic Association, the women students of the College take part in a full intramural athletic program, with competent instruction by the faculty of the Department of Physical Education.

Cosmopolitan Club

There is in the College a chapter of the Association of Cosmopolitan Clubs in Universities and Colleges of America. The active membership consists of foreign and American students, both men and women. The objective of the club is to promote international understanding through friendship among students of various nationalities.

Loan Funds

Student loan activities are co-ordinated in the office of the executive secretary of the Alumni Association of Kansas State College, Anderson Hall. A student wishing to apply for a loan from any fund listed below should address his request to Kenney L. Ford, secretary, K. S. C. Alumni Association.

The State Board of Regents has established rules governing the administration of student loan funds. These rules include the following:

1. A student loan is made only when a note is signed by the borrower and one other responsible person, preferably the borrower's parents or guardian. This endorser must be recommended by his bank as of good financial standing and otherwise satisfactory as an endorser.

2. In general, loans will be made only to juniors, seniors, and graduate students who have attended Kansas State College for at least one semester, and preferably for one year, and who have a scholarship average of at least C.

3. The maximum total amount loaned from all loan funds to one individual usually shall not exceed \$250.

The Alumni Association of Kansas State College has created a loan fund and scholarship funds, chiefly from payments for life memberships in the association. Members pay the association \$3 a year, but on payment of \$50 in one sum they are relieved from further dues. If husband and wife are both eligible for membership, they may obtain joint membership by paying \$75. The loan fund so created is administered by a committee appointed by the directors of the Alumni Association. The committee announces no specific rules governing the granting of loans, but in general gives preference to junior and senior students, and to loans of smaller amounts on short time over larger amounts which cannot be paid for several years. Interest is charged at the rate of five percent a year.

The Alumni Association administers many memorial units honoring individuals and organizations. All of these units are administered under the same rules as stated above. However, the Dr. R. R. Dykstra Student Loan Fund for students in the School of Veterinary Medicine does not require an endorser on loans made to students in Veterinary Medicine from this fund.

Other student loan funds are available which are not administered by the College. For women, some funds are provided by the American Association of University Women, the State Federation of Women's Clubs, the Women's Panhellenic, and P. E. O. Applicants for loans from these funds should address the organization from whom they wish to borrow.

For juniors and seniors, the Knights Templar Commandery has established a loan fund. Application should be made through a commandery where the applicant is known. The Order of the Eastern Star has a fund for juniors and seniors who are members or children of members. Applications should be sent to the Grand Secretary, the Order of the Eastern Star, National Reserve Building, Topeka, Kan.

Gifts, Memorials, and Bequests

The Kansas State College Endowment Association is incorporated under the laws of Kansas to accept and administer gifts and bequests to the College. Anyone wishing information about the Association may write to the Secretary of the Association, A. R. Jones, Kansas State College, who will be happy to send a booklet of information and to answer any specific questions that may be asked.

The booklet outlines some of the principal needs of the College, and explains fully how friends of the College may perpetuate their interests in Kansas State by sharing in the activities of the Association.

Scholarships

AGRICULTURE

BORDEN. The Borden Agricultural Scholarship will be awarded annually by the Borden Company, under normal conditions, and the amount of each annual award will be \$300. The scholarship will be presented to the senior in the School of Agriculture who, upon entering his senior year, has achieved the highest average grade of all similarly eligible students in all preceding college work, and who has completed two or more dairy subjects as a part of his college work. The scholarship is administered by the Head of the Department of Dairy Husbandry.

CARL RAYMOND GRAY. In honor of the late president of the Union Pacific Railroad, who initiated the award in 1921, scholarships of \$100 are awarded each year by the Union Pacific Railroad Company to one student in vocational agriculture and one member of a 4-H Club in each of the thirty-six counties in Kansas served by the railroad. Awards are made by a local committee in each county, and are based on quality and quantity of project work, records kept, character, interest, and scholastic standing. The scholarship may be used to enroll for a full-year course in agriculture, home economics, pre-veterinary medicine, or agricultural engineering.

FULTON BAG AND COTTON MILLS. Beginning with the fall of 1949, a new scholarship was made available to freshmen entering upon curriculums in the Department of Milling Industry. This award is known as the Fulton Bag and Cotton Mills Scholarship. An award of \$250 will be made to the most promising freshman entering the department. He must be a citizen of the United States. If the student continues to maintain a high scholastic rating and shows evidence of leadership ability and extracurricular interests, the scholarship will be available to him throughout his college career and he will receive awards of \$250 during each of his sophomore, junior, and senior years. A new freshman award will be made each successive fall.

KROGER. Four scholarships of \$200 each are offered annually by the Kroger Company to boys and girls who are high school graduates and who have distinguished themselves in 4-H Clubs, vocational agriculture, or home economics. Two scholarships are available to boys and two to girls who expect to earn a degree either in agriculture or in home economics at Kansas State College. Application is made through the county agent, home demonstration agent, or teacher of vocational agriculture.

SEARS, ROEBUCK. Scholarships of \$150 are the annual gift of Sears, Roebuck and Company to leading high school graduates who have distinguished themselves in 4-H Clubs or vocational agriculture, and whose attendance at college is dependent on such an award. Winners of these scholarships must enroll in the School of Agriculture. Application is made through the County Agent, and the Dean of the School of Agriculture administers the scholarship.

ECONOMICS AND SOCIOLOGY

AMERICAN BANKERS ASSOCIATION FOUNDATION FOR EDUCATION IN ECONOMICS. The American Bankers Association, in commemoration of its fiftieth anniversary, created the foundation to establish scholarships in economics and promote economic research, for the purpose of developing a sound public understanding of the business questions which underlie and vitally affect our national welfare and prosperity. The scholarships are administered by the Head of the Department of Economics and Sociology and others of the Department of Economics and Sociology.

ENGINEERING

WESTINGHOUSE ACHIEVEMENT SCHOLARSHIP IN ELECTRICAL ENGINEERING. An annual award of \$500 is given by Westinghouse to a junior student on the basis of high academic achievement and leadership. The scholarship is administered by a committee in the office of the Dean of the School of Engineering and Architecture.

HOME ECONOMICS

BORDEN. A scholarship of \$300 is awarded annually by the Borden Company to the senior student who has taken advanced courses in foods and nutrition and has maintained the highest scholastic rating. Selection is made without application by the committee on scholarships, School of Home Economics, on the records of students.

CARL RAYMOND GRAY. (See *Carl Raymond Gray* under *Agriculture*.)

KROGER. (See *Kroger* under *Agriculture*.)

SEARS, ROEBUCK. Ten scholarships of \$200 and five for \$100 are the annual gift of the Sears, Roebuck Foundation to leading high school graduates who have distinguished themselves in their high school work and in community services, and whose attendance in college is dependent on such an award. Winners of these scholarships must enroll in the School of Home Economics. Application is made to the Dean, School of Home Economics, and is to be sustained by recommendation from Home Economics teachers and Home Demonstration Agents. Application blanks may be obtained from the Dean, School of Home Economics.

TECHNICAL JOURNALISM

FAY N. SEATON. A scholarship or scholarships totaling not more than \$300 annually, are made available each year to undergraduate or graduate students in the Department of Technical Journalism, from funds presented by Fay N. Seaton, Manhattan newspaper publisher. Winners of these "working" scholarships must perform appropriate service for the department in return for the scholarships.

KANSAS CITY PRESS CLUB. An annual scholarship of \$100 will be awarded to a journalism student. To be eligible the student must be a member of the junior class, rank in the top half of his class in scholarship, be unable to continue in College through his senior year without working to augment his income, and must show promise of a successful career in newspaper or radio journalism. Nominations for the award shall be made before April 1 each year by the Head of the Department of Journalism or the chapter adviser of the undergraduate chapter of Sigma Delta Chi.

INSTITUTE OF CITIZENSHIP

CITIZENSHIP. As many as fifteen scholarships of \$200 each are made available to high school seniors on the basis of scholastic ability, participation and leadership in school and community activities, and faculty recommendation. Applicants are also asked to take a written examination, which may be taken in their own communities. Winners of the scholarships are required to enroll in the Curriculum in Citizenship Education in their freshmen year. The scholarships are administered by the Director of the Institute of Citizenship, Kansas State College.

MUSIC

KATHERINE WAREHAM MUSIC SCHOLARSHIP. A scholarship of \$250 given annually for study in music upon satisfactory scholastic and music performance. The scholarship is renewable annually up to four years, administered by the Department of Music.

PRESSER FOUNDATION MUSIC SCHOLARSHIP. A \$250 scholarship for an outstanding student enrolled in a curriculum in music. It is administered by the Department of Music.

MUSIC DEPARTMENT. Several scholarships are given annually to students who major in music. Awards are made on the basis of scholastic and musical aptitude. Applications should be made to the head of the Department of Music.

VETERINARY MEDICINE

BORDEN. A scholarship of \$300 a year is awarded by the Borden Company to a student who has completed the third year of the four-year professional Curriculum in Veterinary Medicine with the highest grades in courses of the first, second, and third years. The award is administered by the School of Veterinary Medicine.

4-H

CAPPER. Two scholarships of \$150 each are given annually by Arthur Capper to a boy and a girl standing high in leadership and general 4-H Club achievement in Kansas.

JOHN MORRELL. Two scholarships of \$250 each are awarded annually by John Morrell and Company to one outstanding 4-H Club boy and one girl outstanding in 4-H work. Conditions of the award are leadership, ability, project work, and a good club record. These scholarships are administered by the 4-H office.

SPENCER CHEMICAL COMPANY. Ten scholarships of \$200 each are awarded annually by the Spencer Chemical Company to the 4-H Club members outstanding in soil conservation work. Winners are selected on the basis of general 4-H record, plan for preventing loss of soil and soil fertility, and soil conservation practices performed.

CARL RAYMOND GRAY. (See *Carl Raymond Gray* under *Agriculture*.)

KROGER. (See *Kroger* under *Agriculture*.)

SEARS, ROEBUCK. (See *Sears, Roebuck* under *Agriculture* and *Home Economics*.)

MISCELLANEOUS

LAVERNE NOYES. About twenty scholarships annually, each covering fees, from funds from the estate of La Verne Noyes are awarded to deserving and necessitous students who served in the Army or the Navy of the United States between April 6, 1917, and September 11, 1918, or are descended by blood from some one who so served. Enlistments must have been previous to May 11, 1918, unless active overseas, prearmistice service was rendered. The student's dean must have all applications by August 1.

ORDER OF EASTERN STAR. The Grand Chapter of Kansas, Order of the Eastern Star, has made available a scholarship of \$100, to be given on merit only to a junior for use in the senior year. The winner is selected by the college and approved by the Scholarship Board of the Grand Chapter. Those eligible are Masons, members of the Order of the Eastern Star, children of Masons of Kansas, and children of members of the Order of the Eastern Star of Kansas.

AMERICAN LEGION AUXILIARY. The Kansas Department of the American Legion Auxiliary has made available a scholarship of \$300 to be given to a girl resident of Kansas for use in her senior year at Kansas State College. The winner will be selected by the College on the basis of scholarship, character and personality, and financial need, with preference being given to daughters of veterans. Applications should be submitted to the Chairman of the all-College Committee on Scholarships.

STAUFFER. Mr. and Mrs. Oscar Stauffer have made available a scholarship to be awarded each year to a Hope High School graduate who attends Kansas State College. The scholarship for the school year 1950-'51 will amount to \$200. The winner will be selected on the basis of scholarship, character and personality, need, and ability to profit from education and training at Kansas State College. Applications should be submitted to the Chairman of the all-College Committee on Scholarships not later than April 1 each year.

BERRY. This scholarship is in honor of Edward A. and Flora A. Berry who were pioneers in Marshall County. The annual award of \$100 is made to some boy from Marshall County and is based on economic need and on all-around human qualities, including background, character, leadership, personality, and scholarship. The scholarship is handled by the Chairman of the all-College Committee on Scholarships.

FINE ARTS SCHOLARSHIPS

Beginning in the fall of 1951, there will be awarded annually in the fields of drama, art, and music, seven \$100 scholarships supported from income resulting from special fine arts attractions brought to the College. Half of each scholarship is paid at the beginning of the fall semester, and half at the beginning of the spring semester. Application should be made not later than May 1.

Drama

Two of the seven Fine Arts Scholarships are available to sophomores who have made outstanding records as freshmen at Kansas State College and who will major in drama.

One of the seven Fine Arts Scholarships is available to a junior who has given exceptional performance as a drama major during the sophomore year at Kansas State College.

Application should be made to the Director of the Kansas State Players.

Art

Two of the seven Fine Arts Scholarships are for junior or senior students majoring in painting, and enrolled in the Curriculum in Humanities (Art Adaptation). The creative ability of the candidates will be considered along with potential professional development. Application should be made to the Head of the Department of Art, or the head of the work in painting in the Department of Architecture.

Music

Two of the Fine Arts Scholarships are available to students majoring in the Department of Music. The awards will be made on the basis of exceptional musical ability. Auditions will be held during the spring semester to select the recipients of the awards, and application should be made to the Head of the Department of Music.

Prizes and Medals

PRIZES

Department of Mechanical Engineering. Payment of the first year's dues, Junior Membership, in the American Society of Mechanical Engineers, for the senior mechanical engineering student of outstanding scholastic and extra-curricular attainments.

American Institute of Chemical Engineers. A certificate of merit to the sophomore in chemical engineering ranking highest in his freshman year.

American Society of Civil Engineers. Payment of the initiation fee into the American Society of Civil Engineers; to the civil engineer ranking highest during his senior year.

American Society of Mechanical Engineers. An award for outstanding leadership in the activities of the Student Branch of the Society.

Pi Tau Sigma. An award to the mechanical engineering sophomore who has done the most outstanding work in his freshman year.

American Society of Mechanical Engineers. A member of the student branch has the privilege of competing for four awards: (1) The Charles T. Main award of \$150 and a certificate made each year for the best undergraduate student paper on a topic selected by the society; (2) an annual award of \$25 and a certificate for each of two best papers, the one by an undergraduate student, the other by a graduate student; (3) one of the five \$10 to \$50 prizes offered at the annual regional student conference; and (4) an annual award by the Kansas City Section of the society.

Omicron Nu Scholarship Award. \$10; to the highest ranking freshman in the School of Home Economics.

Chi Omega. By the Kappa Alpha Chapter; \$25 to the woman ranking highest in sociology at the end of the first semester.

Klod and Kernel Klub. Cash prizes, trophies, merchandise, and subscription to farm papers; for grain judging.

Phi Beta Kappa. \$10; to the highest ranking eight-semester senior in the Curriculum in Arts and Sciences.

Journalism Memorial Fund. Each year two or more awards of \$25 each are made by the Journalism Memorial Fund Committee of the Department of Industrial Journalism and Printing. These awards are made from funds contributed as memorials to graduate and former students of the Department who were casualties in World War II.

Capper. The leading student in industrial journalism each year has his or her name engraved upon one of the several small shields surrounding a larger shield bearing the words: "Recognition for superior attainments in industrial journalism. Presented by Arthur Capper to students in the Department of Industrial Journalism and Printing, Kansas State College."

Women's Auxiliary of the American Veterinary Medical Association. An annual award of \$25 to be made to the fourth year student in veterinary medicine who has made the greatest contribution toward advancing the standing of his school on the college campus.

Kansas Veterinary Medical Association. A prize awarded to the fourth year students in veterinary medicine who have attained the highest scholastic average during the four years in the professional curriculum. First prize, \$15; second prize, \$10.

Lorentz Schmidt Prize in Architecture. An annual prize of \$25 to the student in architecture who makes the best progress during his second year.

Margaret Russel Scholarship Award. By Phi Alpha Mu; \$25 to the junior woman enrolled in the School of Arts and Sciences ranking highest at the close of the second semester of her sophomore year. To be eligible a student must have done her sophomore work in the School of Arts and Sciences in Kansas State College.

Quill Club. \$15; for the best short story in annual contest. College Poet Laureate award. Both awards open to undergraduate and graduate students.

MEDALS

Alpha Zeta. A gold medal to the agricultural student ranking highest in scholarship in his freshman year.

Alpha Kappa Psi. By the Alpha Omega Chapter; a scholarship medallion to the highest ranking senior man enrolled in the curriculum in business administration.

Alpha Mu Award. A bronze plaque to the milling student ranking highest in scholarship in his freshman year.

Alpha Rho Chi. A bronze medal to the graduating senior in the Department of Architecture selected for leadership and professional merit.

American Institute of Architects. A silver medal is awarded to a graduating senior in recognition of excellence in scholarly standing in the Department of Architecture.

Block and Bridle Club. Gold, silver, and two bronze medals; for stock judging.

Forensics. By the Missouri Valley Forensic League; cash and medal awards in its annual tournament.

By other forensic groups; awards in their national and district tournaments.

By the Native Sons and Daughters of Kansas; a trophy in the annual Senator Capper Oratorical Contest.

Poultry Club. Names of winning students engraved on junior and senior division plaques; cash prizes, merchandise, and subscriptions to farm papers for excellence in judging poultry and poultry products.

Sigma Tau Scholarship Award. Gold, silver, and bronze medals to three sophomore engineering students ranking highest in their freshman year.

Air Force Association Medal. Awarded to the outstanding first-year Advanced Course Air R. O. T. C. student.

American Legion Medal. Awarded to the outstanding second-year Advanced Course R. O. T. C. student enrolled in Infantry.

Distinguished Military Student Badge. Every year the Commandant, with the concurrence of the College president and the deans, may designate certain outstanding R. O. T. C. students, Air or Army, as Distinguished Military Students, who are awarded a Distinguished Military Student badge.

Scabbard and Blade Award. To the outstanding sophomore R. O. T. C. student in the Air unit and in the Army unit (two awards).

Signal Corps Medal. Awarded to the outstanding student enrolled in the Signal Corps unit.

Sons of American Revolution Medal. Awarded for excellence in leadership, military bearing, theoretical and practical R. O. T. C. work, Air or Army.

United States Coast Artillery Association Medal. Awarded to the outstanding student enrolled in the Artillery Course.

Student Dairy Club. Gold, silver, and bronze medals; for dairy judging.

Institute of Citizenship

CARL TJERANDSEN, Director

The Institute of Citizenship, established under a special grant from the William Volker Charities of Kansas City, Missouri, offers a Curriculum in Citizenship Education which has two basic objectives. One of these is to provide the general education which is basic to the development of active and responsible citizens, with special stress being laid upon community leadership. This is partly achieved through the courses offered by the Institute and partly through the comprehensive courses covering the four basic fields of knowledge which are required in the first two years of the curriculum.

The other basic objective is to provide professional preparation in several major fields. One of these is teaching in the social science area in the secondary schools. Here, the Institute is able to draw upon its experience in a project in curriculum development in the social studies which it sponsors with the State Department of Public Instruction. Those preparing to teach will take 18 semester hours of education courses to qualify for the State Teacher's Certificate. The remaining elective hours over and above curricular requirements can be used to complete their preparation in an appropriate subject matter area. Those not preparing to teach can choose other work instead of the education courses in preparation for careers for which the social sciences are an appropriate basis—in law, social service work, adult education, and government service.

For a minor in the Institute, the student must take Citizenship 110 and 111 (Freedom and Responsibility I and II) and a minimum of nine additional hours elected from the courses offered by the Institute of Citizenship.

Major work leading to the degree Master of Science is offered by the Institute of Citizenship. Prerequisite to graduate work in this field is the completion of a four-year curriculum with such basic work in social science as is necessary to prepare the student for advanced study in citizenship education.

In its courses—which are available to students in all schools of the College—the Institute attempts to develop the knowledge, skills, attitudes and habits which are necessary for effective citizenship in a democracy. To be an effective citizen of a democracy, one must understand the principles and goals of a democratic social order as these are tested and applied in the great problem areas of the day. For the freshman year the course, Freedom and Responsibility, concerns itself with the basic conditions of democratic government. This is followed, in the sophomore year, by the course, Constitutional Democracy in America, in which the fundamental ideas and institutions of democracy in the United States are analyzed. Advanced courses are offered in American democratic ideas and the problems of war and peace, government in economic affairs, law and justice, interpretation of contemporary affairs, and the nature of education in a democracy. The Institute believes that the desired understanding can best be acquired by reading and discussing basic documents—the documents in which the ideas being studied have received their most effective expression. These documents are used instead of a textbook.

Effective democratic citizenship also involves certain skills which the Institute seeks to develop. One of the important responsibilities of a citizen is to be well informed about public affairs. This involves the skill of reading with critical understanding, which the Institute attempts to develop through systematic practice in the intensive analysis and evaluation of basic documents. Another important responsibility of a citizen is to participate constructively in the formation of public opinion on the important issues of the day. This involves the skills of discussion—of speaking and of listening. In order to develop these skills, Institute classes use the teaching method of group discussion rather than the lecture or recitation.

The skills of reading and discussion help develop the capacity for clear and logical thought which is essential to effectiveness in all phases of life. By the development of these skills in relation to the fundamental documents in the great problem areas, the Institute seeks to develop and foster the basic attitudes and habits which are the essence of a rational commitment to the principles and processes of a democratic social order.

The Graduate School

HAROLD HOWE, *Dean*

JAMES EDWARD ACKERT, *Dean Emeritus*

Admission

Correspondence regarding admission to graduate study should be addressed to the Dean of the Graduate School, who will on request supply the required application blanks. Transcripts in duplicate from each institution attended must be sent direct from the institution to the Dean of the Graduate School. The application and transcript should be filed with the Graduate Office at least one month before the time the student expects to enroll.

Admission to graduate study is granted on two bases: (1) Full standing, and (2) provisional standing. Those who do not meet the standards for admission to full standing will be considered for admission to provisional standing, as set forth below:

Full Standing: For admission to graduate study in full standing the applicant must meet the following requirements:

1. Graduation from an institution whose requirements for the bachelor's degree are substantially equivalent to those of Kansas State College.
2. An undergraduate grade average of B or better in the junior and senior years.
3. Undergraduate training in the subject matter of the field in which the applicant expects to take graduate work, substantially equivalent to the requirements for undergraduate students in the same field at this College. This will be construed to mean that training in closely related or supporting subjects must also be adequate to carry on advanced study in the field of the applicant's choice.

Provisional Standing: The applicant who does not meet all the requirements for admission to full standing in the Graduate School may be admitted to provisional standing. Such admission will be based on written application, setting forth the circumstances involved. The student will be advised of any deficiencies or other conditions to be met to attain full standing.

The student admitted to provisional standing shall be admitted to full standing upon meeting the following requirements:

1. The completion of at least nine hours of work for graduate credit with a grade of B or better in three-fourths of such graduate work.
2. The removal of any course or subject-matter deficiencies which were specified at the time of his admission to provisional standing in the Graduate School.

Admission to graduate study does not imply admission to candidacy for an advanced degree. Such candidacy is determined after the student has demonstrated that he has the ability to do work of graduate rank.

Registration and Assignment

Students who have been admitted to graduate study register, obtain their assignments from the Dean of the Graduate School, and pay their fees during the regular registration periods.

Not more than sixteen credit hours, including research, may be assigned in a single semester, nor more than nine hours during a summer session. If a part of the assignment is for undergraduate credit, a student may be assigned to seventeen hours during a semester or nine hours during a summer session.

Full-time staff members may not be assigned to more than five hours in one semester, nor more than three hours in a summer session. (See section on Graduate Assistantships for limitations applying to students holding assistantships.)

These limitations apply to classes audited as well as to classes for which credit is earned.

Fees *

Graduate students are subject to the same fees as other students.

Grades †

A candidate for an advanced degree must make a grade of B or better in three-fourths of the credit hours taken for the degree. For graduate credit the grade in a course must be C or better.

Degrees

Of the advanced academic degrees, the College confers the degrees Master of Science and Doctor of Philosophy. Degrees are conferred at the end of each semester and at the end of the summer session. Candidates for advanced academic degrees are required to be present at commencement exercises in the academic gown and hood appropriate to the degree, unless permission has been granted in advance for the conferring of the degree *in absentia*. Applications for this privilege should be made to the Dean of the Graduate School.

‡ **General Requirements for the Degrees Master of Science and Doctor of Philosophy**

After choosing a field for study, the candidate's first step in work toward an advanced degree is to confer with the head of the major department for aid in selecting a major instructor.

Candidates for the degrees Master of Science and Doctor of Philosophy are expected to assume the initiative and the responsibility. It is important to recognize that graduate work does not consist in the fulfillment of routine requirements alone.

Each candidate for a degree is expected to have a broad knowledge of his subject and of related lines of work, which usually is obtained only by a wide range of reading and study outside of the immediate field covered by the formal courses to which he may be assigned.

The branch of knowledge to which the student expects to devote the larger part of his time is termed his major subject. The other fields of study selected, which necessarily are more restricted in scope, are termed minor subjects.

Approximately two-thirds of the student's time is devoted to his major subject and one-third to one or more minor subjects. (Exception may be made for master's candidates to the extent of twenty-four hours in the major subject for those planning to meet the requirement for the school administrator's certificate.) The word "subject" is used to designate a recognized field of study, and is not defined by the limits of a department. The nature and distribution of the majors and minors (program of study) are approved by the Graduate Council, upon the recommendation of the major instructor and the head of the department (M. S), or of the supervisory committee (Ph. D.).

The approved program of study is the basis of the formal assignment to courses at the beginning of each semester and the summer session.

Courses numbered in the 300's are for graduate credit only. Courses numbered in the 200's are open both to graduate and undergraduate students. For graduate credit in such courses the student shall be required to do work of graduate character. The nature and amount of such graduate work shall be determined by the instructor.

* See section headed Fees, under General Information.

† See section headed Grades, under General Information.

Requirements for the Degree Master of Science

Major work leading to the degree Master of Science is offered in the following departments or major fields:

Agricultural Economics	Government
Agricultural Education	History
Agricultural Engineering	Home Economics Education
Agronomy	Horticulture
Animal Husbandry	Household Economics
Applied Mechanics	Institute of Citizenship
Architecture	Institutional Management
Art	Machine Design
Art (Home Economics)	Mathematics
Bacteriology	Mechanical Engineering
Botany and Plant Pathology	Milling Industry
Chemical Engineering	Modern Languages
Chemistry	Music
Child Welfare and Euthenics	Parasitology
Civil Engineering	Pathology (Veterinary)
Clothing and Textiles	Physical Education (Men)
Dairy Husbandry	Physics
Economics	Physiology (Veterinary)
Education	Poultry Husbandry
Electrical Engineering	Psychology
English	Shop Practice and Industrial Arts
Entomology	Sociology
Extension Education	Speech
Foods and Nutrition	Statistics
General Home Economics	Surgery and Medicine (Veterinary)
Genetics	Technical Journalism
Geology	Zoology

Minor graduate work is offered in each of the above departments or fields and in the departments of Physical Education (Women) and Anatomy (Veterinary).

Residence and Credit Requirements. Candidates for the degree Master of Science (M. S.) are required to spend one academic year in residence, except under certain special conditions when the residence may be reduced to one and one-half semesters, or three summer schools of full graduate study.

Two plans are available for obtaining the master's degree. Subject to the approval of the major department, the candidate for the master's degree may choose either of the following plans:

Plan 1. With the master's thesis. Requirements: 30 semester hours of graduate credit including a master's thesis of six to ten semester hours; or

Plan 2. Without the master's thesis. Requirements: 32 semester hours of graduate credit including a written master's report of two semester hours of research or problem on a topic in the major field. On completion, the report in duplicate is submitted for approval to the major instructor, the head of the department, and the Graduate Council. (See Graduate Calendar for dates.)

Master's Thesis. Each candidate for the master's degree who chooses Plan 1 is required to present a thesis on a subject approved by the major instructor, the head of the department, and the Graduate Council.

The thesis ordinarily demands one-fourth of the student's time and may not exceed one-third of it. The thesis must be prepared in accordance with specifications to be obtained from the office of the Dean of the Graduate School. On completion, the thesis in triplicate is submitted for approval to the major instructor, the head of the department, and the Graduate Council. (See Graduate Calendar for dates.)

Oral Examination. A candidate for the master's degree is subject to an oral examination covering the major and minor subjects and thesis or report by a committee selected from instructors with whom the major and minor work was taken, the head of the major department, the major instructor, and a member of the Graduate Council as chairman.

Requirements for the Degree Doctor of Philosophy

Fields in Which Work Is Offered. Major work leading to the degree Doctor of Philosophy is offered in the following fields: Agronomy, Animal Nutrition, Applied Mechanics, Bacteriology, Botany, Chemistry, Entomology, Foods and Nutrition, Genetics, Milling Industry, Parasitology, and Physics. Minor work for this degree may be chosen in the departments offering major work for the degree and in supporting fields in other departments offering graduate work.

Residence and Credit Requirements. At least three years (of nine months each) of graduate study beyond the bachelor's degree, equivalent to 90 semester hours, including a thesis, are required of candidates for the degree Doctor of Philosophy. At least one year of this time must be spent in residence at this College.

Language Requirements. Each candidate for the degree Doctor of Philosophy must demonstrate to an authorized representative of the Department of Modern Languages, a reading proficiency in two foreign languages in the literature of his field of specialization. The choice of these two foreign languages must be approved by the candidate's supervisory committee and by the Graduate Council. The language requirements must be fulfilled before the preliminary examinations are taken.

Supervisory Committee. For each student who contemplates working for the degree Doctor of Philosophy, a supervisory committee is chosen by the Dean of the Graduate School. This committee, consisting of not fewer than five members representing the major and minor fields, aids the student in the preparation of the program of study, which must be approved by the Graduate Council, and has charge of all examinations except the language examinations. The chairman of the preliminary and final examinations is a member of the Graduate Council.

Majors and Minors. Approximately two-thirds of the graduate work (program of study) should be in a major field and the remainder devoted to one or two minors. In exceptional cases, all the graduate work may be chosen in one field. The work in the major field may be taken wholly within a department or it may include closely related courses and problems in other departments or schools of the College. The same principle applies to the minor or minors. (See General Requirements for the degrees Master of Science and Doctor of Philosophy.)

Program of Study and Examinations. Before preliminary examinations are arranged, the student should have on file in the graduate office a program of study signed by the supervisory committee. Ordinarily, at the close of the second year of graduate study and at least seven months before the date the student contemplates receiving the degree, the candidate must pass written preliminary examinations in both the major and minor work. When the student has passed these examinations, he is recommended by the supervisory committee to the Graduate Council for admission to candidacy for the degree Doctor of Philosophy. On completion of three years of graduate study as prescribed in the program of study and on submission of a thesis to the Dean of the Graduate School, at least one month before commencement, the candidate is given the final examination.

Doctor's Dissertation. Early in the graduate work a dissertation subject is chosen in the major field and approved by the supervisory committee. The finished thesis must constitute a contribution to knowledge, either presenting conclusions from new material, or reinterpreting previous knowledge. Three complete typewritten copies of the thesis approved by the supervisory committee shall be submitted to the Dean of the Graduate School at least one month before commencement. On the completion of all requirements for the degree, two copies shall be placed in the College library and the other filed with the head of the department in which the major work is taken.

Before the degree is conferred, all candidates for the Doctor of Philosophy degree are to place on deposit with the Comptroller's office the sum of \$100 as a guarantee that their theses will be published wholly or in part in a manner acceptable to the Dean of the Graduate School and the head of the department in which the work was done. If such publication is made within a period of three years following the granting of the degree, or its publication before the expiration of the three-year period is assured by a letter of acceptance from the editor of an appropriate publication, the deposit of \$100 is to be returned to the candidate upon the consignment of 25 copies of the published thesis paper or papers to the College library. If publication of the thesis is not completed or provided for before the expiration of the three-year period, then the College shall retain the \$100 deposit.

If publication of the thesis, entire or in part, is desired, before the degree is conferred, permission must be obtained from the Graduate Council. When the thesis is published, wholly or in part, the first page must carry as a footnote the appropriate one of the two following statements

A thesis presented as partial fulfillment of the requirements for the degree of Doctor of Philosophy in _____ at Kansas State College.

or

Portion of a thesis presented as partial fulfillment of the requirements for the degree Doctor of Philosophy in _____ at Kansas State College.

Graduate Work in Absentia

Previously matriculated graduate students may be enrolled, on an hourly basis, for a limited amount of research or problem work *in absentia* on the recommendation of the head of the department and with the approval of the Dean of the Graduate School. The fee is \$2.50 a semester hour.

Resident faculty members and students are not eligible to pursue work *in absentia* except during periods when College is not regularly in session.

One, two, or three semester hours of graduate credit in problem or research work may be earned between the close of the summer school and the beginning of the fall semester, provided permission is secured in advance from the major instructor and from the Dean of the Graduate School.

Graduate Assistantships

To facilitate research work, teaching, and the acquisition of advanced degrees, the College has established graduate assistantships in most departments. The assistantships which may be graduate assistantships, or graduate research assistantships may be on the nine-months or twelve-months per year basis. They may be of either of two types: (1) Half-time appointments which demand one-half of the time of the student for laboratory or research assistance or teaching during the employment period. The remainder of his time is given to advanced study. No half-time assistant may receive more than ten hours of credit a semester. (2) Two-fifths time appointments which demand approximately 40 percent of the student's time for laboratory, research or teaching work. No two-fifths time assistant may receive more than twelve hours of credit a semester.

The residence requirement for the master's degree may not be satisfied by any assistant in less than two semesters and one nine-week summer school.

One or more graduate assistantships paying a salary fixed each year are maintained in each of the following fields: Agricultural Economics, Agricultural Engineering, Agronomy, Animal Husbandry, Applied Mechanics, Architecture, Art (Home Economics), Bacteriology, Botany, Chemical Engineering, Chemistry, Child Welfare, Civil Engineering, Clothing and Textiles, Dairy Husbandry, Economics, Education, Electrical Engineering, English, Entomology, Foods and Nutrition, Genetics, Geology, Government, History, Horticulture, Household Economics, Institute of Citizenship, Institutional Management, Mathematics, Mechanical Engineering, Milling Industry, Music, Parasitology,

Physical Education (Men), Physics, Poultry Husbandry, Psychology, Sociology, Speech, Technical Journalism, and Zoology.

Applications for all assistantships should be made annually by April 1, for the following academic year. Students desiring such appointments may obtain application blanks from the Dean of the Graduate School.

Fellowships

A number of industrial fellowships are available each year. A fellow is permitted to carry a full-time assignment. The amounts or manner of payment of the fellowship stipend does not affect the assignment.

Graduate Loans

Graduate students may borrow from loan funds controlled by the College and also from the Alumni Loan Fund. The graduate student should not plan to borrow from these funds until he or she has had an opportunity to demonstrate ability to do satisfactory graduate work at Kansas State College. Loans are made only when a note is signed by the borrower and one other responsible person, preferably the borrower's parent or guardian. This co-signer must be recommended by his bank as of good financial standing and otherwise satisfactory as a co-signer. The maximum loaned to one student will generally not exceed \$250.

The Manhattan Branch of the American Association of University Women maintains a loan fund which is available to graduate women students enrolled in any department of the Kansas State College that offers graduate work. Application for this loan shall be made to the chairman of the Graduate Loan Fund Committee of the Manhattan Branch of the American Association of University Women.

Seniors and Graduate Study

A senior who has completed so much of his work for the bachelor's degree that his program for the year is not full, may, with the consent of his dean and of the Dean of the Graduate School, be assigned to one or more courses for graduate credit. In no case shall such combination of courses exceed seventeen hours.

Graduate Work in the Summer School

All schools of the College offer graduate work in the summer school. Only in certain departments, however, can a student complete requirements for the master's degree without spending one or two semesters in residence. For information about these cases, one should address the Dean of the Graduate School.

Full information concerning the courses offered is contained in the Summer School number of the Kansas State College *Bulletin*, which may be obtained upon application to the Director of Admissions of the College.

GRADUATE CALENDAR

(Graduate students should refer also to the Academic and Financial Calendar, page 4.)

FIRST SEMESTER, 1951-1952

- Sept. 7, 8:00 a. m., Friday—Physical examination for all graduate students enrolling for the first time at Kansas State College.
 Sept. 8-10, 8:00 a. m., Saturday-Monday—Registration.
 Sept. 12, 8:00 a. m., Wednesday—Classes begin.
 Oct. 13, Noon, Saturday—Deficiency reports due in dean's office (5th week).
 Oct. 27, Noon, Saturday—Last day for reassignment before midsemester (7th week).
 Nov. 10, Noon, Saturday—Midsemester deficiency reports due in deans' offices (9th week).
 Nov. 12, Monday—Armistice Day—Holiday.
 Nov. 20, 10:00 p. m., Tuesday—Thanksgiving vacation begins.
 Nov. 26, 8:00 a. m., Monday—Classes resume.
 Dec. 3, Noon, Monday—Tentative copy of doctors' dissertations due.
 Dec. 22, Noon, Saturday—Christmas vacation begins.
 Dec. 22, Noon, Saturday—Applications for degrees must be made on or before this date.
 Jan. 7, 8:00 a. m., Monday—Classes resume.
 Jan. 7, Noon, Monday—Final copies of doctors' dissertations due.
 Jan. 7, 4:00 p. m., Monday—Tentative copies of masters' theses and reports due.
 Jan. 11, 4:00 p. m., Friday—Last day subject may be dropped before end of semester.
 Jan. 19, Noon, Saturday—Grades to registrar for candidates for degrees.
 Jan. 19-24, Saturday-Thursday—Semester examinations.
 Jan. 22, Noon, Tuesday—Final copies of masters' theses and reports due. End of period for masters' oral examinations.
 Jan. 23, 11:00 a. m., Wednesday—General faculty meeting to approve candidacies for degrees.
 Jan. 25, 10:00 a. m., Friday—Commencement. Semester ends.

SECOND SEMESTER, 1951-1952

- Jan. 26, 8:00 a. m., Saturday—Physical examinations for all graduate students enrolling at Kansas State College for first time.
 Jan. 28-30, 2:15 p. m., Monday-Wednesday—Registration.
 Jan. 31, 8:00 a. m., Thursday—Classes begin.
 Feb. 22, Friday—Washington's birthday—Holiday.
 March 1, Noon, Saturday—Deficiency reports due in deans' offices (5th week).
 March 15, Saturday—Last day for reassignment before midsemester (7th week).
 March 29, Saturday—Midsemester deficiency reports due in deans' offices (9th week).
 April 7, Noon, Monday—Tentative copy of doctors' dissertations due.
 April 10, 10:00 p. m., Thursday—Easter vacation begins.
 April 15, 8:00 a. m., Tuesday—Classes resume.
 April 25, Noon, Friday—Final copies of doctors' dissertations due.
 April 25, 3:00 p. m., Friday—Applications for degrees must be made on or before this date.
 April 28, Noon, Monday—Tentative copies of masters' theses and reports due.
 May 14, Noon, Wednesday—Last day subject may be dropped before end of semester.
 May 19-23, Monday-Friday—Semester examinations.
 May 20, Noon, Tuesday—Grades to registrar for all candidates for degrees.
 May 20, 3:00 p. m., Tuesday—Final copies of masters' theses and reports due. End of period for masters' oral examinations.
 May 22, 11:00 a. m., Thursday—General faculty meeting to approve candidacies for degrees.
 May 24, Saturday—Alumni Day.
 May 25, 8:00 p. m., Sunday—Commencement. Semester ends.

SUMMER SCHOOL, 1952

- June 2, 8:00 a. m., Monday—Physical examinations for all graduate students enrolling for the first time at Kansas State College.
 June 2-3, 8:00 a. m., Monday-Tuesday—Registration.
 June 4, 7:00 a. m., Wednesday—Classes begin.
 June 3-4, 8:00 a. m., Tuesday-Wednesday—Registration.
 June 5, 7:00 a. m., Thursday—Classes begin.
 June 21, Noon, Saturday—Tentative copy of doctors' dissertations due.
 June 28, Noon, Saturday—Last day for reassignment before midsession.
 July 3, Noon, Thursday—Final copies of doctors' dissertations due.
 July 3, 3:00 p. m., Thursday—Applications for degrees must be made on or before this date.
 July 4, Friday—Independence Day—Holiday.
 July 5, Noon, Saturday—Deficiency reports due in deans' offices (5th week).
 July 14, Noon, Monday—Tentative copies of masters' theses and reports due.
 July 28, 5:00 p. m., Monday—Grades to registrar for all candidates for degrees.
 July 29, 3:00 p. m., Tuesday—Final copies of masters' theses and reports due. End of period for masters' oral examinations.
 July 29, 4:00 p. m., Tuesday—Last day a subject may be dropped before end of session.
 July 30, 4:00 p. m., Wednesday—General faculty meeting to approve candidacies for degrees.
 Aug. 2, 10:00 a. m., Saturday—Commencement. Session ends.

FIRST SEMESTER, 1952-1953

- Sept. 5, 8:00 a. m., Friday—Physical examination for all graduate students enrolling for the first time at Kansas State College.
 Sept. 6-8, 8:00 a. m., Saturday-Monday—Registration.
 Sept. 10, 8:00 a. m., Wednesday—Classes begin.
 Oct. 11, Noon, Saturday—Deficiency reports due in deans' offices (5th week).
 Oct. 25, Noon, Saturday—Last day for reassignment before midsemester (7th week).
 Nov. 7, Noon, Saturday—Midsemester deficiency reports due in deans' offices (9th week).
 Nov. 11, Tuesday—Armistice Day—Holiday.
 Nov. 25, 10:00 p. m., Tuesday—Thanksgiving vacation begins.
 Dec. 1, 8:00 a. m., Monday—Classes resume.
 Dec. 2, Noon, Tuesday—Tentative copy of doctors' dissertations due.
 Dec. 20, Noon, Saturday—Christmas vacation begins.
 Dec. 20, Noon, Saturday—Applications for degrees must be made on or before this date.
 Jan. 5, 8:00 a. m., Monday—Classes resume.
 Jan. 5, Noon, Monday—Final copies of doctors' dissertations due.
 Jan. 5, 4:00 p. m., Monday—Tentative copies of masters' theses and reports due.
 Jan. 9, 4:00 p. m., Friday—Last day subject may be dropped before end of semester.
 Jan. 17, Noon, Saturday—Grades to registrar for candidates for degrees.
 Jan. 17-22, Saturday-Thursday—Semester examinations.
 Jan. 20, Noon, Tuesday—Final copies of masters' theses and reports due. End of period for masters' oral examinations.
 Jan. 21, 11:00 a. m., Wednesday—General faculty meeting to approve candidacies for degrees.
 Jan. 23, 10:00 a. m., Friday—Commencement. Semester ends.

SECOND SEMESTER, 1952-1953

- Jan. 24, 8:00 a. m., Saturday—Physical examinations for all graduate students enrolling at Kansas State College for first time.
 Jan. 26-28, 2:15 p. m., Monday-Wednesday—Registration.
 Jan. 29, 8:00 a. m., Thursday—Classes begin.
 Feb. 23, Monday—Washington's birthday—Holiday.
 Feb. 28, Noon, Saturday—Deficiency reports due in deans' offices (5th week).
 March 14, Saturday—Last day for reassignment before midsemester (7th week).
 March 28, Saturday—Midsemester deficiency reports due in deans' offices (9th week).
 April 2, 10:00 p. m., Thursday—Easter vacation begins.
 April 7, 8:00 a. m., Tuesday—Classes resume.
 April 8, Noon, Wednesday—Tentative copy of doctors' dissertations due.
 April 24, Noon, Friday—Final copies of doctors' dissertations due.
 April 24, 3:00 p. m., Friday—Applications for degrees must be made on or before this date.
 April 27, Noon, Monday—Tentative copies of masters' theses and reports due.
 May 13, Noon, Wednesday—Last day subject may be dropped before end of semester.
 May 18-22, Monday-Friday—Semester examinations.
 May 19, Noon, Tuesday—Grades to registrar for all candidates for degrees.
 May 19, 3:00 p. m., Tuesday—Final copies of masters' theses and reports due. End of period for masters' oral examinations.
 May 21, 11:00 a. m., Thursday—General faculty meeting to approve candidacies for degrees.
 May 23, Saturday—Alumni Day.
 May 24, 8:00 p. m., Sunday—Commencement. Semester ends.

SUMMER SCHOOL, 1953

- June 1, 8:00 a. m., Monday—Physical examination for all graduate students enrolling for the first time at Kansas State College.
 June 1-2, 8:00 a. m., Monday-Tuesday—Registration.
 June 3, 7:00 a. m., Wednesday—Classes begin.
 June 20, Noon, Saturday—Tentative copy of doctors' dissertations due.
 June 27, Noon, Saturday—Last day for reassignment before midsession.
 July 2, 3:00 p. m., Thursday—Applications for degrees must be made on or before this date.
 July 3, Noon, Friday—Final copies of doctors' dissertations due.
 July 4, Saturday—Independence Day—Holiday.
 July 4, Noon, Saturday—Deficiency reports due in deans' offices (5th week).
 July 13, Noon, Monday—Tentative copies of masters' theses and reports due.
 July 27, 5:00 p. m., Monday—Grades to registrar for all candidates for degrees.
 July 28, 3:00 p. m., Tuesday—Final copies of masters' theses and reports due. End of period for masters' oral examinations.
 July 28, 4:00 p. m., Tuesday—Last day a subject may be dropped before end of session.
 July 29, 4:00 p. m., Wednesday—General faculty meeting to approve candidacies for degrees.
 Aug. 1, 10:00 a. m., Saturday—Commencement. Session ends.

Undergraduate Degrees

To graduate, a student must complete a prescribed curriculum. Under special conditions such substitutions are allowed as the interests of the student demand. The total requirement for four-year undergraduate curriculums ranges from 120 to 142 semester hours and points, according to the curriculum taken. (A semester hour is one hour of recitation or lecture work, or two or three hours of laboratory a week, for one semester of eighteen weeks. When no ambiguity is involved, the term "hour" is used for "semester hour" in this catalogue.)

To be considered for an undergraduate degree, a student must have completed in residence twenty of his last thirty undergraduate hours, with not fewer than thirty hours of resident undergraduate work at this institution. Resident work includes all regularly scheduled class or laboratory instruction given by the regular College faculty, exclusive of extension courses and courses completed by special examination. In special cases, candidates will be considered who have completed three full years of work in this institution and have taken their last year of work in an institution approved by the faculty. A student's dean is empowered by the faculty to lift the residence requirements for the senior year for a student who completes curricular requirements for a degree on the basis of credits transferred from an accredited school of medicine, dentistry, or law. A student who has advanced credit accepted by this College for the equivalent of three semesters or more must, in order to qualify for the above privilege, maintain a grade point average of 1.75 in the College.

Seniors meeting the graduation requirement in hours but failing to meet it in points must take additional courses designated by the dean of the school in which their major work lies, until the requirement in points is met.

Candidates for degrees must make application to the Registrar and pay the commencement fee at least thirty days before the date of graduation. The candidate is responsible for complying with all requirements.

A candidate for graduation must be present in person, unless he is excused by the faculty on recommendation of his dean, to whom he must apply for the privilege of getting his degree *in absentia*.

Degrees

The following degrees are conferred on completion of four-year curriculums:

Bachelor of Science

Bachelor of Science in Agriculture (Agriculture; Agricultural Administration; Agricultural Education; Dairy Manufacturing; Floriculture and Ornamental Horticulture; Soil Conservation)

Bachelor of Science in Agricultural Engineering

Bachelor of Science in Agricultural Journalism

Bachelor of Science in Architectural Engineering

Bachelor of Science in Architecture (four-year curriculum for graduates through 1951)

Bachelor of Science in Business Administration

Bachelor of Science in Chemical Engineering

Bachelor of Science in Civil Engineering

Bachelor of Science in Electrical Engineering

Bachelor of Science in Home Economics

Bachelor of Science in Home Economics and Journalism

Bachelor of Science in Industrial Arts

Bachelor of Science in Industrial Chemistry

Bachelor of Science in Technical Journalism

Bachelor of Science in Landscape Design

Bachelor of Science in Mechanical Engineering

Bachelor of Science in Milling Industry (Milling Administration;
Milling Chemistry; Milling Technology)

Bachelor of Music

Bachelor of Science in Music Education

Bachelor of Science in Physical Education

Doctor of Veterinary Medicine

The degree Bachelor of Architecture is conferred on those who complete the five-year Curriculum in Architecture, beginning in 1952.

The degree Bachelor of Science in Home Economics and Nursing is conferred on those who complete the five-year Curriculum in Home Economics and Nursing.

The degrees Bachelor of Science and Doctor of Veterinary Medicine are conferred on those who complete the six-year combination of the Preveterinary Curriculum and the Curriculum in Veterinary Medicine.

For a second bachelor's degree an additional year of not fewer than thirty semester hours is required. The work is in charge of the dean who administers the curriculum chosen.

The School of Agriculture

RAY IAMS THROCKMORTON, *Dean*

LELAND EVERETT CALL, *Dean Emeritus*

ARTHUR D. WEBER, *Associate Dean*

CLYDE WILLIAM MULLEN, *Assistant Dean*

The School of Agriculture prepares students for farming, for the scientific investigations of agricultural problems in state and national institutions, for agricultural extension work, for the teaching of agriculture, for service in industries closely related to agriculture, and for a variety of other public and private services of an agricultural nature.

The College owns 2,784 acres of land which are used for experimental work and instruction, and maintains large and well-equipped laboratories for soil and crop work. There is ample greenhouse space for problems and research work in crops and soil.

The College herds and flocks contain high-class representatives of the important breeds of dairy and beef cattle, poultry, hogs, horses, and sheep. The student becomes familiar with types and breeds by actual work with the stock.

Six of the four-year curriculums offered in this School lead to the degree Bachelor of Science in Agriculture. The four-year curriculums in Milling Industry lead to the degree Bachelor of Science in Milling Industry.

The four-year Curriculum in Landscape Design leads to the degree Bachelor of Science in Landscape Design.

The Curriculum in Agricultural Journalism leads to the degree Bachelor of Science in Agricultural Journalism.

The Curriculum in Soil Conservation recently has been developed to meet a growing demand on the part of state and federal agencies for men trained in this field. It leads to the degree Bachelor of Science in Agriculture.

The Curriculum in Agricultural Education meets specifically the requirements of men who expect to become teachers of vocational agriculture in Kansas high schools participating in federal funds.

The two-year Curriculum in Agriculture is intended for young men who do not wish to take the time to earn a degree in agriculture. Probably the greatest opportunity for those who pursue the two-year curriculum will be on the farms and ranches of Kansas and other Midwestern agricultural states. (See page 80.)

Curriculum in Agriculture

Students choosing the Curriculum in Agriculture need not name the department in which they will major before the second semester of the sophomore year. They have their choice of numerous electives in soils, crops, agricultural economics, animal husbandry, dairy husbandry, horticulture, and poultry husbandry.

All electives in any of the departments must be officially approved by the Dean of the School of Agriculture and the head of the department in which the student majors.

A student may major not only in any department in the School of Agriculture but also in the departments of Botany, Entomology, Zoology, Bacteriology, Chemistry, or Agricultural Engineering. Substitutions may be made to meet definite objectives. See "Substitutions to Meet Certain Objectives," following the outline of Curriculum in Agriculture.

Any candidate for a degree in agriculture must have had at least six months of farm experience approved by the Dean of the School of Agriculture. Students in agricultural journalism, dairy manufacturing, landscape design, or floriculture and ornamental horticulture may substitute practical experience in their respective industries for farm experience.

A formal statement outlining farm experience or substitutions therefor must be filed in the dean's office during the last semester of the senior year.

The student who completes the freshman and sophomore years will have had basic studies in soils, farm crops, livestock, dairying, poultry husbandry, horticulture, and agricultural economics, giving him a general knowledge of the whole range of agriculture. More than one third of his time will have been devoted to strictly agricultural courses.

During his junior and senior years, the student continues his studies of fundamental science and begins to learn to apply science to agriculture.

Curriculum in Soil Conservation

The Curriculum in Soil Conservation is planned to meet the needs of students who expect to enter soil conservation work with federal, state, or local agencies and for those men who expect to do soil conservation work with public and private lending agencies. The curriculum is sufficiently broad to enable men who major in the Curriculum in Soil Conservation to receive training for work as county agents or farmers, and in other fields in general agriculture.

Curriculum in Agricultural Education

The Curriculum in Agricultural Education is intended for those students who are interested in becoming teachers of vocational agriculture in Kansas high schools participating in federal Smith-Hughes and George-Deen funds. The curriculum as outlined on another page meets the requirements for the degree Bachelor of Science in Agriculture and at the same time meets the requirements for the state certificate for teaching vocational agriculture. This curriculum ordinarily may be completed in four years.

Curriculum in Agricultural Administration

The Curriculum in Agricultural Administration is planned to meet the needs of students preparing for industries closely related to farming, which require training in both agriculture and business principles. Among such industries and occupations are agricultural services, rural banking, development and sale of lands, processing and marketing of grains.

There is ample opportunity to elect business subjects such as accounting, business organization, credit and finance, business law, and marketing.

Any student not expecting to make journalism a career may take work in journalism and at the same time major in any of the departments of the School of Agriculture.

Curriculum in Dairy Manufacturing

The Curriculum in Dairy Manufacturing provides special training in the manufacture of dairy products. It affords the student an opportunity to specialize in dairy manufacturing and to select, by means of properly chosen electives, one of the three fields of specialization: (a) Dairy plant operator; (b) dairy plant manager; and (c) dairy products technician. Electives selected by the student must be approved in advance by the head of the Department of Dairy Husbandry and the Dean of the School of Agriculture.

Curriculum in Agricultural Journalism

This curriculum is for those who wish to obtain a broad knowledge of agriculture and the ability to disseminate that knowledge to others. Knowledge is power only as it comes into the possession of those who can use it. This curriculum gives training in the techniques of accurate and effective dissemination of information through newspapers, magazines, radio, speech, and other media of communication.

Graduates find attractive opportunities in the information service of the United States Department of Agriculture, state and federal extension services, state departments of agriculture, farm radio departments, agricultural experiment stations, farm organizations, advertising agencies, livestock publications, and many other agencies which employ information writers who know some-

thing about agriculture and who know the basic techniques of writing and editing.

By electing twelve additional hours in any department in the School of Agriculture the student can earn a major in that department.

The Curriculum in Agricultural Journalism meets the requirements of the standards of the American Association of Schools and Departments of Journalism. Students in this curriculum are eligible for professional journalistic organizations.

Pretheological Courses

In co-operation with various theological seminaries, Kansas State College offers an opportunity for students who are preparing for the rural ministry to carry elective courses in the School of Agriculture and in other schools of the College which may be accepted as pretheological courses in a seminary.

Any person desiring to enter the rural ministry should acquaint himself with the requirements of the seminary of his choice. Special attention should be given to any language requirements.

Among the suggested electives that may be taken at Kansas State College would be courses in agricultural economics, economics, English literature, history and government, logic, philosophy, psychology, rural sociology, sociology, citizenship and public speaking.

Persons desiring to prepare for the field of rural ministry will enter the Curriculum in Agricultural Administration. They should use the name of this curriculum in filling out information blanks in anticipation of enrollment in Kansas State College.

Curriculum in Landscape Design

The Curriculum in Landscape Design is planned for students who wish to be employed by professional landscape firms and various other private and public agencies. Special emphasis is given to plant materials, planting design, and the rendering of landscape plans. Those completing the curriculum are eligible to receive the degree of Bachelor of Science in Landscape Design.

Curriculum in Floriculture and Ornamental Horticulture

The Curriculum in Floriculture and Ornamental Horticulture gives training to those who wish to enter one of the several fields of floriculture. There is opportunity to become trained for the improvement of greenhouse and other floricultural plants and for the growing and selling of flowers. Emphasis is placed on the utilization of flowers in floral arrangements.

Those taking ornamental horticulture receive training in landscape design with particular reference to the production and use of landscape materials.

Curriculums in Milling Industry

The College offers three curriculums in the field of milling: (1) Curriculum in Milling Administration, (2) Curriculum in Milling Chemistry, (3) Curriculum in Milling Technology.

Students choosing the field of milling industry must so indicate at the time of assignment for the second semester of their freshman year in order to be assigned to proper chemistry courses.

Students who bring credits to this College from some other college or university and who choose one of the curriculums in milling, should indicate in which of the three curriculums in milling they expect to major.

Any candidate for a degree in milling industry must have had at least three months' experience in a wheat elevator, flour mill, bakery, or cereal chemistry laboratory, or the equivalent, before obtaining senior classification.

Milling Enrollment Limited

By authority of the State Board of Regents the number of students enrolled in milling industry is limited to 75. Students having their residence in Kansas have first preference. Out-of-state students who have had practical milling experience are given second preference. Selections from either group are further based on scholarship and other evidence of fitness.

Persons wishing to be selected for one of the curriculums in milling industry must apply several weeks before the beginning of the academic year. Applications should be made before July 1. Application blanks may be obtained from the Dean of the School of Agriculture.

State Teacher's Certificate

By selecting the proper electives in the Department of Education and Psychology, the four-year Curriculum in Agriculture may lead to the degree of Bachelor of Science in Agriculture and also qualify the graduate for the three-year Kansas state teacher's certificate, valid in any high school or other public school in the state, and renewable for life. To meet the professional requirements for the three-year Kansas state teacher's certificate and fulfill the requirements of the Curriculum in Agriculture would require time in excess of the usual four years.

State Certificates for Teachers of Vocational Agriculture

The Curriculum in Agricultural Education is designed to meet the needs of persons desiring to teach vocational agriculture in federally aided secondary schools. This curriculum leads to the degree Bachelor of Science in Agriculture and meets the requirements for teaching vocational agriculture in Kansas high schools participating in federal Smith-Hughes and George-Deen funds.

A total of twenty-one semester hours in the Department of Education and Psychology is required as follows:

Educ. 102, The Secondary Pupil	3
Educ. 184, General Psychology	3
Educ. 109, Educational Psychology	3
Educ. 241, Vocational Education	3
Educ. 139, The Prin. Sec. Educ.	3
Educ. 136, Methods of Teaching Agriculture	3
Educ. 161, Teaching Participation in Agriculture	3

A total of seventeen semester hours in the School of Engineering and Architecture is included in order to provide mechanical training necessary for the handling of farm shop problems. The mechanical courses together with semester hours follow:

Shop 166, Welding	1
Agr. Engg. 103, Farm Mechanics	2
Agr. Engg. 106, Farm Power	3
Agr. Engg. 105, Farm Machinery Repair	3
Agr. Engg. 207, Farm Building Construction	3
Agr. Engg. 208, Agricultural Engineering Applications	2
Agr. Engg. 206, Farm Mechanics Methods	3

Upon the completion of the Curriculum in Agricultural Education a person would qualify for the three-year Kansas state teacher's certificate, valid in any high school or other public school in the state. This certificate is valid for three years and may be renewed for life.

Agriculture in the Summer School

All departments in the College usually offer courses in the Summer School. Some are basic college courses, but graduate work particularly suited to high school teachers of vocational agriculture is emphasized. The Summer School number of the Kansas State College *Bulletin* may be obtained upon application to the Director of Admissions.

Home Study in Agriculture

The Department of Home Study of the Division of College Extension offers a number of college courses in agriculture which can be taken by correspondence. Such courses carry the same credit as resident college courses having the same description. These courses will be found especially advantageous to college students who desire to make up deficiencies or to gain certain credits during the summer vacation season. All courses given by correspondence are listed in the latter part of this catalogue under the title "Home Study" in the Division of College Extension.

Two-year Curriculum in Agriculture

Recognizing the desirability for many young men to obtain some college training and then return to the farm or find better employment wherever their additional training and education may lead them, the College has provided a two-year Curriculum in Agriculture. It is intended primarily for former servicemen and others who have attained an advanced age or who for other reasons do not care to take the time to go through college for a degree.

Admission and Graduation

Only students who are high school graduates may enter upon the two-year Curriculum in Agriculture.

Not all courses are of college level. Certain of these courses are offered without the usual prerequisites.

Those who complete the course will be awarded a certificate in recognition of their agricultural accomplishment.

Any student who has done satisfactory work and who at the end of two years may decide to go through for a degree in agriculture may do so by making up all back work required in the regular four-year curriculum of his choice. On this point there will be no exceptions. An outline of required courses in the curriculum may be found following the regular four-year curriculums.

Choice of Electives

The two-year Curriculum in Agriculture provides for sixteen hours of elective courses. It is required that at least six hours out of the sixteen shall be chosen from among cultural or liberalizing courses offered by any of the departments of the College.

The remaining ten hours may be selected from those fields in agriculture where the student may have a special interest. Electives may also be selected from the fields of farm mechanics, machinery repair, and gas and electric welding.

* Four meetings each semester.

† Sometime during the second semester of the sophomore year each student is required to file a written statement in the office of the Dean of the School of Agriculture, designating the department of the school in which he will major.

‡ Students who do not expect to major in animal husbandry, dairy husbandry, or poultry husbandry may take Plant Physiology I (Bot. 208) instead of Anatomy and Physiology (Physiol. 131).

§ Students expecting to take additional work in bacteriology, either for advanced work in soils or dairying, will take General Microbiology instead of Agricultural Microbiology.

Electives

The electives in the Curriculum in Agriculture are grouped as follows:

	<i>Semester Hours</i>
Major Electives	12
<p style="padding-left: 40px;">These electives may be taken in any one of the departments of the School of Agriculture. In certain cases also a science department outside of the school may be selected for a major department; <i>e. g.</i>, Chemistry, Entomology, Bacteriology.</p>	
Minor Agricultural Electives	9
<p style="padding-left: 40px;">These electives may be taken from one or more departments but must directly strengthen the student's preparation in agriculture.</p>	
General Electives	17
<p style="padding-left: 40px;">These electives should be chosen to meet individual needs and to round out the preparation provided by the rest of the student's curriculum. All students not offering one unit of high school physics for entrance must include three hours of physics in their electives.</p>	

All electives must be officially approved before assignment, by both the Dean of the School of Agriculture and the head of the department in which the student majors.

SUBSTITUTION TO MEET CERTAIN OBJECTIVES

Students desiring to prepare themselves for scientific or special work in the field of agriculture may, with the approval of the Dean of the School of Agriculture and the head of the department in which they expect to major, substitute courses in the departments of Mathematics, Physics, Chemistry, Bacteriology, Entomology, Zoology, Botany and Plant Pathology, Education, Agricultural Engineering, Modern Languages, and other approved departments, for twenty-five hours in the Curriculum in Agriculture; provided, that no student may receive a degree in agriculture who does not have at least twenty-five hours in technical agriculture in not fewer than three departments.

Agricultural Economics

Section of

Economics and Sociology

GEORGE MONTGOMERY, *Head of Department*

Instruction in agricultural economics and rural sociology is offered in the School of Agriculture. Instruction in economics, sociology, accounting, and business administration is offered in the School of Arts and Sciences.

Research in agricultural economics and rural sociology provides new and current information concerning the economic and social problems of rural life. This information and inspection trips are used to supplement textbooks and reference materials for classroom purposes. Opportunity for capable students to assist with research projects on a part time basis provides additional understanding of economic problems and relationships. Students have an opportunity to learn of the principles and economic forces involved in farm management, marketing, taxation, land utilization, agricultural finance, economic cooperation and rural life.

COURSES IN AGRICULTURAL ECONOMICS

FOR UNDERGRADUATE CREDIT

100. Farm Organization. 3 semester hours. Each semester.

Economic forces affecting the organization and operation of the farm business. Two hours of recitation and three hours of laboratory a week. Prerequisite: Econ. 101, Agron. 130, An. Husb. 152.

112. Farm Accounting. 3 semester hours. Each semester.

Systems of farm records and accounts. Analysis and utilization of cost of production data. Two hours of recitation and three hours of laboratory a week. Prerequisite: Econ. 101.

FOR GRADUATE AND UNDERGRADUATE CREDIT

202. Marketing of Farm Products. 3 semester hours. Each semester.

Marketing services and functions and price-making forces. Three hours of recitation a week. Prerequisite: Econ. 101.

203. Grain Marketing. 3 semester hours. Each semester.

Price influences and relationships, buying and selling problems, domestic and export trade; grain trade organization and regulation. Three hours of recitation a week. Prerequisite: Econ. 101.

206A. Advanced Farm Organization. 3 semester hours. Second semester.

Advanced studies of factors affecting the successful organization and operation of farms. Two hours of recitation and three hours of laboratory a week. Prerequisite: Agr. Econ. 106.

209. Agricultural Policy. 3 semester hours. Each semester.

A study dealing with the economic problems of agriculture with emphasis on the influence of private and governmental policies on such problems. Attention will be directed toward analyzing the effects of different types of private and governmental policies on the agricultural industry. Prerequisite: Econ. 101; senior standing.

211. Agricultural Industries. 2 semester hours. Second semester.

Study of geographic, economic, and social factors controlling the establishment and maintenance of the major agricultural industries. Offered in 1952-'53 and alternate years thereafter. Two hours of recitation a week. Prerequisite: Econ. 101; junior standing.

- 212. Conservation of Natural Resources.** 2 semester hours. Second semester. Offered in 1951-'52 and alternate years thereafter. Two hours of recitation a week. Prerequisite: Econ. 101; junior standing.
- 213. World Agriculture.** 3 semester hours. Second semester. World production and demand, present and potential, of agricultural commodities. World trade in agricultural products with emphasis upon factors affecting agricultural trade. Special effort will be made to supply information of value to those interested in United States foreign service or in commercial work with agencies engaged in foreign agriculture. Three hours of recitation a week. Prerequisite: Econ. 101 or Compr. 112; senior standing.
- 215. Agricultural Economics Summary.** 2 semester hours. Each semester. Summarization and correlation of courses pursued in college; problems requiring application of principles and broad understanding of the field; contemporary economic developments. Two hours of recitation a week. Prerequisite: Senior standing.
- 217. Production Economics.** 3 semester hours. First semester. The principles underlying the combination of elements of production with particular reference to agriculture. Three hours of recitation a week. Prerequisite: Econ. 101.
- 218. Land Economics.** 3 semester hours. Each semester. Relation of population to land supply; land utilization, land tenure, and land valuation. Three hours of recitation a week. Prerequisite: Econ: 101.
- 219. Economics of Land Utilization.** 3 semester hours. Second semester. An economic analysis of alternative uses and practices for farmland, economics of soil conservation, land classification and its relationship to economic productivity. Three hours of recitation and one or two field trips. Prerequisites: Econ. 101, Agron. 130; junior standing.
- Land Law.** See Hist. 276.
- 225. Agricultural Finance.** 3 semester hours. Second semester. Sources and use of credit for purchase of farm land and to finance farm operations. Three hours of recitation a week. Prerequisite: Econ. 101.
- 226. Market Prices.** 3 semester hours. Second semester. Explanation of price analysis and forces determining prices. Three hours of recitation a week. Prerequisite: Econ. 101.
- 227. Farmer Movements.** 3 semester hours. Second semester. Principles underlying successful organization of farmers. Three hours of recitation a week. Prerequisite: Econ. 101.
- 235. Livestock Marketing.** 3 semester hours. Each semester. Livestock marketing services, functions, and prices. Three hours of recitation a week. Prerequisite: Econ. 101.
- 240. Principles of Co-operation.** 3 semester hours. First semester. Principles underlying successful co-operative activities. Three hours of recitation a week. Prerequisite: Econ. 101.
- 251. Marketing of Dairy Products.** 3 semester hours. Second semester. Factors affecting prices; dairy marketing organizations. Three hours of recitation a week. Prerequisite: Econ. 101.
- 252. Egg and Poultry Marketing.** 3 semester hours. Second semester. Marketing organization and functions; analysis of factors affecting prices. Three hours of recitation a week. Prerequisites: Econ. 101, Poul. Husb. 104, 105.

270. **Agricultural Economic Problems.** Credit to be arranged. Each semester and summer.
Prerequisite: Consult instructor.
271. **Agricultural Economic Statistics.** 3 semester hours. First semester.
A study of the principles and methods involved in the collection, analysis, interpretation, and presentation of statistical materials with special reference to agricultural economic data. Prerequisite: Econ. 101.

FOR GRADUATE CREDIT

301. **Research in Agricultural Economics.** Credit to be arranged. Each semester and summer.
Individual research problems which may be used for a master's degree. Prerequisite: Consult instructor.
303. **Seminar in Economic Research.** 3 semester hours. First semester.
The scientific reasoning underlying the selection of research problems, the formulation and testing of hypotheses, and the evaluation and presentation of results. Three hours of recitation a week. Prerequisite: Consent of instructor.

COURSES IN RURAL SOCIOLOGY

FOR UNDERGRADUATE CREDIT

156. **Rural Sociology.** 3 semester hours. Each semester and summer.
Social and cultural life of rural people, principal groups, institutions and organizations and their functioning in communities.

FOR GRADUATE AND UNDERGRADUATE CREDIT

256. **Advanced Rural Sociology.** 3 semester hours. Second semester.
The development of rural sociology. Comparative rural life in the United States and other countries through the use of case studies of rural social organization and cultures. Prerequisite: Rural Soc. 156.

FOR GRADUATE CREDIT

350. **Research in Rural Sociology.** Credit to be arranged. Each semester and summer.
Prerequisites: Soc. 151, Rural Soc. 256.

Agronomy

HAROLD E. MYERS, *Head of Department*

The farm used by the Department of Agronomy comprises 320 acres of medium rolling upland soil. The general fields and experimental plots, used for the breeding and testing of farm crops and for conducting experiments in soil fertility and methods of culture, afford the student opportunities for study and investigation.

Laboratories for soil and crop work are maintained for the regular use of students. Material is provided for the study of the grain and forage crops best adapted to different purposes and most suitable for growing in the state. Greenhouse space is provided for problems and research work in crops and soils.

COURSES IN FARM CROPS

FOR UNDERGRADUATE CREDIT

- 106. Farm Crops.** 4 semester hours. Each semester and summer.
Distribution, importance, characteristics, and production of the common field crops. Study of species and types of principal field crops. Three hours of recitation and three hours of laboratory a week. Prerequisite: Bot. 102 or Compr. 112.
- 107. Farm Crops Laboratory.** 1 semester hour. Each semester.
For students who have credit in course 3-A, Farm Crops A in Home Study Department. Study of species and types of principal field crops. Three hours of laboratory a week. Prerequisite: Botany 102 or Compr. 112.
- 108. Grain Grading and Judging.** 2 semester hours. Second semester.
Application of the Federal Standards for grading farm crops and judging of grains and other crop products. Six hours of laboratory a week. Prerequisite: Agron. 106.
- 112. Seed Testing.** 2 semester hours. First semester.
Offered in 1952-'53 and alternate years thereafter. Laboratory testing of seeds, including identification, purity, and germination. Six hours of laboratory a week. Prerequisite: Bot. 102 or Compr. 112.
- 114. Advanced Grain Judging.** 2 semester hours. First semester.
Commercial grading and judging of field crops and identification of the principal types and varieties. Six hours of laboratory a week. Prerequisite: Agron. 108.
- 115. Market Grading of Cereals.** 3 semester hours. First semester.
Market grades of cereals and factors that influence them. One hour of recitation and six hours of laboratory a week. Prerequisite: Mil. Ind. 101.
- 116. General Crops.** 4 semester hours. First semester.
Importance, distribution, and production of the principal field crops and a study of the species and varietal types that occur in each. Three hours of recitation and three hours of laboratory a week. Prerequisite: Enrollment in the Two-year Curriculum in Agriculture.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Crop Improvement.** 2 semester hours. First semester.
Offered in 1951-'52 and alternate years thereafter. Methods of pure seed production and breeding of agricultural crops. Two hours of recitation a week. Prerequisite: Agron. 106.
- 203. Pasture Improvement I.** 3 semester hours. Second semester.
Establishment, management, and utilization of tame and native pastures. Three hours of recitation a week. Prerequisite: Agron. 106.
- 206. Principles of Agronomic Experimentation.** 3 semester hours. First semester.
Methods and principles of research and statistical analysis of experimental data. Two hours of recitation and three hours of laboratory a week. Prerequisite: Agron. 106, 130.
- 207. Methods of Plant Breeding.** 3 semester hours. Second semester.
The application of principles and methods of breeding field crops, including laboratory, greenhouse, and field procedures. Two hours of recitation and three hours of laboratory a week. Prerequisite: Agron. 106, An. Husb. 221, Bot. 205.
- 208. Plant Genetics.** 3 semester hours. First semester.
An advanced course dealing with genetic principles as applied to plant species. Offered in 1952-'53 and alternate years thereafter. Three hours of recitation a week. Prerequisite: An. Husb. 221.

- 210. Crop Problems.** Credit to be arranged. Each semester and summer.
Prerequisite: Agron. 106, 130.
Studies may be chosen in the fields of:
Genetics
Crop Improvement
Pasture Improvement
Ecology
Weed Control
Physiology
Production
- 211. Crop Ecology.** 2 semester hours. Second semester.
A study of environmental conditions that influence growth of crops; natural and economic factors primarily responsible for the concentration of crop production in different regions and countries. Two hours of recitation a week. Prerequisite: Agron. 106, 130.
- 214. Advanced Crops.** 3 semester hours. First semester.
Growth habits, production methods, classification and grading of forage, fiber, sugar, root, and other crops not considered in previous courses. Offered in 1951-'52 and alternate years thereafter. Two hours of recitation and three hours of laboratory a week. Prerequisite: Agron. 106.
- 217. Weed Control.** 2 semester hours. Second semester.
Identification, growth habits, and methods of control of weeds. Two hours of recitation a week. Prerequisite: Agron. 106.
- 218. Identification of Pasture Plants.** 1 semester hour. Each semester.
To be taken concurrently with or subsequent to Agron. 203. Field and laboratory study of range and pasture plants with special emphasis on grasses and their distinguishing characteristics. Three hours of laboratory a week. Prerequisite: Agron. 106, 203.
- 219. Pasture and Range Surveys.** 2 semester hours. Second semester.
Offered in 1952-'53 and alternate years thereafter. A study of the methods of range survey and the evaluation of pasture practices. One hour of recitation and three hours of laboratory a week. Prerequisite: Agron. 203, 218, Bot. 219 or 225.
- 220. Agronomy Seminar.** 1 semester hour. Each semester.
A discussion of agronomic developments. Prerequisite: Senior standing.
Genetics Seminar. See An. Husb. 227.

FOR GRADUATE CREDIT

- 301. Research in Crops.** Credit to be arranged. Each semester and summer.
Special problems which may extend through the year and furnish data for a master's thesis. Prerequisite: Consult instructor.

COURSES IN SOILS

FOR UNDERGRADUATE CREDIT

- 117. Soils and Fertilizers.** 3 semester hours. Second semester.
A general course in soils dealing with the practical management problems. Three hours of recitation a week. Prerequisite: Enrollment in the Two-year Curriculum in Agriculture.
- 130. Soils.** 4 semester hours. Each semester.
Fundamental principles underlying the formation, fertility, and management of soils. Three hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 101, Geol. 103, or Compr. 102.

130A. Soils Laboratory. 1 semester hour. Each semester.

For students transferring from Two-year Agriculture only. Field trips fertility analysis, and use of soil survey maps. Three hours of laboratory a week. Prerequisite: Chem. 101, Geol. 103, or Compr. 102.

FOR GRADUATE AND UNDERGRADUATE CREDIT

230. Soil Conservation I. 3 semester hours. Each semester.

Erosion control, nitrogen maintenance, crop rotations, and use of lime, manure, and commercial fertilizer under humid conditions. Three hours of recitation a week. Prerequisite: Agron. 106, 130.

231. Soil Conservation II. 2 semester hours. Each semester.

Principles of soil and water conservation, management and use under light rainfall conditions. Two hours of recitation a week. Prerequisite: Agron. 130.

235. Development and Classification of Soils. 3 semester hours. Second semester.

Influence of soil-forming agencies on soil characteristics and methods of classifying and mapping soils. Two hours of recitation and three hours of laboratory a week. Prerequisite: Agron. 130.

236. Soil Problems. Credit to be arranged. Each semester and summer.

Prerequisite depends on the problem assigned.

Studies may be chosen in the fields of:

Chemistry

Physics

Conservation

Fertility

Development and Classification

250. Chemical Properties of Soils. 3 semester hours. First semester.

A study of soils as a chemical and colloidal system, including their chemical and mineralogical composition and reactions occurring in them. Three hours of recitation a week. Prerequisite: Agron. 130.

251. Soil Fertility. 3 semester hours. First semester.

Fundamentals of soil fertility. Three hours of recitation a week. Prerequisite: Agron. 130, Bot. 208.

252. Soil Physics. 3 semester hours. Second semester.

A study of the physical properties of soils, including methods of physical analysis and ways of improving soil tilth. Two hours of recitation and three hours of laboratory a week. Prerequisite: Agron. 130, Math. 112, Phys. 102.

253. Soil Analysis Applications. 3 semester hours. First semester.

Theories and procedures for the chemical analysis of soils. Applications of analysis in soil fertility evaluations and in research work are discussed. One hour of recitation and six hours of laboratory a week. Prerequisites: Agron. 130, Chem. 211, 212, or 215.

FOR GRADUATE CREDIT

331. Research in Soils. Credit to be arranged. Each semester and summer.

Special problems which may extend throughout the year and furnish data for a master's thesis. Prerequisite: Consult instructor.

Animal Husbandry

RUFUS F. COX, *Head of Department*

The courses in the Department of Animal Husbandry give the student special instruction in the selection, breeding, feeding, management, and marketing of all classes of livestock.

The animal husbandry farm and pastures consist of 1,767 acres of land which are devoted to the maintenance of herds and flocks of purebred cattle, sheep, hogs, and horses, and to experimental projects with meat animals. All animals maintained by the department are used for class work.

The laboratory of the animal husbandry student is the feed lot, the judging pavilion, and the abattoir, where the animal can be studied from the standpoint of the breeder, the feeder, and the packer.

FOR UNDERGRADUATE CREDIT

126. Elements of Animal Husbandry. 2 semester hours. Each semester and summer.

A survey of the field of animal husbandry, with special emphasis on the importance of livestock as a major phase of agriculture. Two hours of recitation a week.

129. Elements of Animal Husbandry Laboratory. 1 semester hour. Each semester and summer.

Three hours of laboratory a week. A study of market types and classes of livestock.

130. Animal Husbandry A. 2 semester hours. First semester. Two hours of lecture a week.

Introduction and present status of livestock in the United States; livestock markets, breeds of livestock; purebred livestock production. Open only to students pursuing the Curriculum in Veterinary Medicine.

131. Livestock Judging A. 1 semester hour. First semester. Three hours of laboratory a week.

Open only to students pursuing the Curriculum in Veterinary Medicine.

141. Principles of Livestock Selection. 3 semester hours. First semester.

One hour of recitation and six hours of laboratory a week. Prerequisite: An. Husb. 129. Open only to juniors majoring in animal husbandry and to students pursuing the Curriculum in Agricultural Education. Origin, development, characteristics, and adaptation of different breeds of livestock, with special emphasis on the selection of breeding animals.

144. Judging Farm Animals. 2 semester hours. Second semester. Six hours of laboratory a week.

Advanced work in the judging of beef cattle, sheep, swine, and horses. Prerequisite: An. Husb. 141 or consent of instructor.

146. Form and Function in Livestock. 2 semester hours. First semester.

A detailed study of animal form and type; influence of type upon function; special training in presenting orally the relative merits of animals of all breeds. Six hours of laboratory a week. Prerequisite: An. Husb. 144.

152. Principles of Feeding. 3 semester hours. Each semester and summer.

The digestive system and processes of nutrition; origin, chemical analysis, and feeding values of different feeds; nutritive requirements for maintenance, growth, and production of farm animals. Three hours of recitation a week. Prerequisite: Chem. 125 or equivalent.

154. **Beef Cattle Production.** 3 semester hours. Second semester and summer.
Three hours of recitation a week. Prerequisite: An. Husb. 152.
157. **Swine Production.** 3 semester hours. Second semester.
Three hours of recitation a week. Prerequisite: An. Husb. 152.
160. **Sheep Production.** 3 semester hours. First semester.
Three hours of recitation a week. Prerequisite: An. Husb. 152.
165. **Horse Production.** 2 semester hours. First semester.
Three hours of recitation a week. Prerequisite: An. Husb. 152.
169. **Elements of Meat Processing.** 2 semester hours. Each semester and summer.
Meat consumption, principles of processing, curing, and freezing. Two hours of lecture and recitation per week. Prerequisite: An. Husb. 126, 129.
170. **Meat Processing.** 1 semester hour. Each semester.
Killing, dressing, cutting, curing, packaging, and freezing meat and meat products. Field trip. Three hours of laboratory a week. Prerequisite: An. Husb. 126, 129.
171. **Livestock Production.** 3 semester hours. First semester and summer.
Open only to juniors and seniors not majoring in animal husbandry. Practical insight into the production of beef cattle, horses, swine, and sheep. Three hours of recitation a week. Prerequisite: An. Husb. 152.
176. **Meats H. E.** 1 semester hour. Each semester.
For juniors and seniors in home economics. Selecting, cutting, and curing meats; grading carcasses; uses of the various cuts. At least one field trip. Three hours of laboratory a week.
188. **Animal Husbandry Practicums.** 2 semester hours. Second semester.
Open only to students majoring in animal husbandry and to students pursuing the Curriculum in Agricultural Education. Manual phases of livestock management. Six hours of laboratory a week.
190. **Livestock Feeding.** 3 semester hours. Second semester.
A resumé of digestion and nutrition dealing primarily with practical feeding. Open only to students in the Curriculum of Veterinary Medicine. Three hours of recitation a week. Prerequisite: Chem. 122, Physiol. 222.

FOR GRADUATE AND UNDERGRADUATE CREDIT

221. **Genetics.** 3 semester hours. Each semester and summer.
Variation, Mendelian inheritance, and related subjects. Three hours of recitation a week. Prerequisite: Zool. 105 or Bot. 102.
225. **Advanced Genetics.** 3 semester hours. Second semester.
Particular attention is given to the relation of chromosomes to heredity. Three hours of recitation a week. Prerequisite: An. Husb. 221.
226. **Animal Breeding.** 3 semester hours. Second semester.
Physiology of reproduction; present status of livestock improvement; function of purebred livestock; breeding systems and practices; application of principles of genetics to problems of animal breeding. Three hours of recitation a week. Prerequisite: An. Husb. 221.
227. **Genetics Seminar.** 1 semester hour. Each semester.
Study and criticism of genetic experiments with animals and plants and of the biological and mathematical methods employed. One hour of recitation a week. Prerequisite: An. Husb. 221 or Zool 216.

- 228. Advanced Genetics Laboratory.** 1 semester hour. Second semester.
Three hours of laboratory a week. Special attention given to the compilation and keeping of genetics data. To be taken concurrently with or subsequent to An. Husb. 225.
- 229. Research in Genetics.** Credit to be arranged. Each semester and summer.
Problems in which small mammals are used as the experimental animals. Prerequisite: An. Husb. 225.
- 234. Animal Nutrition.** 3 semester hours. First semester.
Science of animal nutrition with special attention to recent discoveries in this field. Three hours of recitation a week. Prerequisite: An. Husb. 152.
- 244. Animal Husbandry Seminar.** 1 semester hour. Second semester.
Open only to senior and graduate students majoring in animal husbandry. One hour of recitation a week. Prerequisite: An. Husb. 152.
- 245. Animal Husbandry Problems.** Credit to be arranged. Each semester and summer.
Prerequisite: An. Husb. 152 and other courses; consult instructor.
Work is offered in:
Animal Breeding
Animal Nutrition
Beef Cattle Production
Horse Production
Livestock Selection
Meats
Sheep Production
Swine Production
- 260. Livestock and Meat Industry.** 3 semester hours. Second semester.
The livestock and meat industry; its organization, operation, and development; relation to the public. Lectures, assigned reading and reports. Three hours of recitation a week. Prerequisite: An. Husb. 126, 152.
- 268. Principles of Animal Husbandry Experimentation.** 2 semester hours.
Second semester.
Conducting and interpreting experiments involving the use of animals. Two hours of recitation a week. Prerequisite: An. Husb. 152, 221.
- 275. Classification and Grading of Meats.** 1 semester hour. First semester.
Grading; nutritive values; factors influencing quality; dressing percentages; identification of meats from different animals. Three hours of laboratory a week. Prerequisite: An. Husb. 169, 170.
- 276. Meat Practicums.** 2 semester hours. Second semester.
Includes studies of the correlation of type, degree of finish, and other factors in the live animal, with carcass factors, particularly with reference to muscular development, skeleton, grading, and cutting and boning yields. Six hours of laboratory a week. Prerequisite: An. Husb. 169, 170.
- 290. Problems in Training Agricultural Judging Teams.** 2 semester hours.
Summer.
A seminar course in training agricultural judging teams. Ten hours of recitation a week. Prerequisite: An. Husb. 129, Agron. 111, Poult. Husb. 101, Dairy Husb. 101, and one year's teaching experience.
- 291. Wool Grading and Classification.** 1 semester hour. First semester.
Three hours of laboratory a week. A study of the factors determining the commercial classes and grades of wool and the desired fleece qualities of the various breeds of sheep. Practice in judging and scoring fleeces. Prerequisite: Concurrent with or subsequent to An. Husb. 160.

FOR GRADUATE CREDIT

- 301. Research in Animal Husbandry.** Credit to be arranged. Each semester and summer.
Special problems in genetics and in the production of all kinds of livestock except dairy cattle. Prerequisite: Consult instructor.
- 302. Problems in Beef Cattle Production.** 3 semester hours. Summer.
Eighteen hours of recitation a week. Prerequisite: Graduate standing and one year's experience in county agent work or in teaching vocational agriculture. Offered in 1952 and every third year thereafter.
- 303. Problems in Sheep Production.** 3 semester hours. Summer.
Eighteen hours of recitation a week. Prerequisite: Graduate standing and one year's experience in county agent work or in teaching vocational agriculture. Offered in 1953 and every third year thereafter.
- 304. Problems in Swine Production.** 3 semester hours. Summer.
Eighteen hours of recitation a week. Prerequisite: Graduate standing and one year's experience in county agent work or in teaching vocational agriculture. Offered in 1951 and every third year thereafter.
- 311. The Wool Industry.** 3 semester hours. Second semester.
Supply and demand; production; marketing; manufacturing. Two hours of recitation and three hours of laboratory a week. Prerequisite: An. Husb. 160.

Dairy Husbandry

F. W. ATKESON, *Head of Department*

The Department of Dairy Husbandry, with its modern dairy barn and dairy products processing plant, is well equipped to train men for key positions in the dairy industry.

A wider application of science to the problems of milk production and manufacturing of dairy products requires technically trained men. Men who have taken courses in bacteriology, chemistry, mathematics, accounting, and engineering and commercial subjects as a background for the dairy courses have a decided advantage.

The Department of Dairy Husbandry offers instruction in dairy production, which includes dairy cattle feeding, management, breeding, milk production, and judging. Instruction in the dairy products field includes the manufacture of butter, cheese, ice cream, condensed milk, and market milk.

A purebred herd of Holstein, Guernsey, Jersey, and Ayrshire cattle owned by the College provides animals for dairy judging classes and for feeding and breeding experiments. The department also operates a dairy products processing plant where students may get actual experience in the processing of dairy products.

FOR UNDERGRADUATE CREDIT

- 101. Elements of Dairying.** 3 semester hours. Each semester.
Problems of the milk producer and manufacturer; feeding, handling, breeding, and selecting of dairy cattle; composition and properties of milk; manufacture of dairy products. Two hours of recitation and three hours of laboratory a week.
- 104. Dairy Cattle Judging for Veterinary Students.** 1 semester hour. Second semester.
Three hours of laboratory a week.
- 105. Dairy Cattle Judging.** 2 semester hours. Second semester.
Six hours of laboratory a week. Prerequisite: Dairy Husb. 101.

- 107. Fundamentals of Dairy Technology.** 2 semester hours. First semester.
A thorough study of the properties of major milk constituents, methods of analysis, quality tests, standardization, and manufacturing processes. One hour of recitation and three hours of laboratory a week. Prerequisite: Dairy Husb. 101, Chem. 101, and sophomore standing.
- 108. Milk Production.** 2 semester hours. Second semester.
Handling the dairy herd, construction of dairy barns and buildings; other subjects concerning the dairy farmer. Three hours of recitation a week. Prerequisite: Dairy Husb. 101, An. Husb. 152 or 190.
- 109. Market Milk and Dairy Inspection.** 4 semester hours. Second semester.
A study of the problems of the milk-plant operator including the production, procurement, processing, selling and quality control. Inspection of farms and milk plants. Two hours of recitation and six hours of laboratory a week. Prerequisite: Dairy Husb. 107, Bact. 101.
- 110. Butter Making.** 3 semester hours. First semester.
The butter industry; cream production and care on the farm and in the plant; manufacturing, marketing, and food value of butter. Sampling and grading cream, butter analysis and tests, preparation of cream for churning, manufacturing of butter. Offered in 1949-'50 and alternate years thereafter. Two hours of recitation and three hours of laboratory a week. Prerequisite: Dairy Husb. 101, 107, Bact. 101.
- 119. Dairy Inspection for Veterinary Students.** 2 semester hours. First semester.
Composition and properties of milk; clean milk production; study of state and city ordinances affecting milk and dairy products. Testing of milk and dairy products; preparation and testing of chemical disinfectants; scoring of dairy farms and milk plants. One hour of recitation and three hours of laboratory a week.
- 120. Advanced Dairy Cattle Judging.** 1 semester hour. First semester.
Continuation of Dairy Husb. 105; visits to some of the best farms in the state. Three hours of laboratory a week. Prerequisite: Dairy Husb. 105.
- 128. Condensed and Powdered Milk.** 3 semester hours. Second semester.
History, methods, condensing machinery, and powdered milk industry. Condensing milk in the College plant. Offered in 1950-'51 and alternate years thereafter. Two hours of recitation and three hours of laboratory a week. Prerequisite: Dairy Husb. 101, 107, Bact. 101.
- 130. Ice Cream Making.** 3 semester hours. First semester.
Theory and practice in the manufacture of frozen dairy foods. Offered in 1950-'51 and alternate years thereafter. Two hours of recitation and three hours of laboratory a week. Prerequisite: Dairy Husb. 107, Bact. 101.
- 135. Cheese Making.** 3 semester hours. Second semester.
Theory and practice in the manufacture of various types of cheese. Offered in 1951-'52 and alternate years thereafter. Two hours of recitation and three hours of laboratory a week. Prerequisite: Dairy Husb. 107, Bact. 101.
- 140. Dairy Products Judging.** 1 semester hour. Second semester.
Three hours of laboratory a week. Prerequisite: Dairy Husb. 101.
- 141. Advanced Dairy Products Judging.** 1 semester hour. First semester.
Three hours of laboratory a week. Continuation of Dairy Husb. 140.
- FOR GRADUATE AND UNDERGRADUATE CREDIT
- 202. Dairy Seminar.** 1 semester hour. Second semester.
Study of dairy periodicals, bulletins, books, other dairy literature. One hour of recitation a week. Prerequisite: Dairy Husb. 101, 108.

- 204. Milk Secretion and Reproduction.** 3 semester hours. Second semester. Study of the physiology of the processes involved in milk secretion and reproduction and the related internal secretions. Managed milking studies, types of milking machines, mastitis preventive practices; breeding efficiency studies, breeding records, systems, and artificial breeding practices. Two hours of recitation and three hours of laboratory a week. Offered in 1950-'51 and alternate years thereafter. Prerequisite: Junior standing.
- 207. Feeding and Management of Dairy Cattle.** 3 semester hours. First semester. Includes fitting of animals for show and sale. Offered in 1950-'51 and alternate years thereafter. Two hours of recitation and three hours of laboratory a week. Prerequisite: Dairy Husb. 108, An. Husb. 152.
- 214. Dairy Cattle Breeding and Selection.** 3 semester hours. First semester. History of breeds and families; inheritance of milk secretion; bull indexes; selection of herd sire; systems of breeding. Herdbook studies; pedigree writing and analysis. Two hours of recitation and three hours of laboratory a week. Offered in 1951-'52 and alternate years thereafter.
- 216. Dairy Production Problems.** Credit to be arranged. Each semester and summer. Prerequisite: Dairy Husb. 101, 105, 108, An. Husb. 152.
- 221. Dairy Manufacturing Problems.** Credit to be arranged. Each semester. Prerequisite: Dairy Husb. 101, 110.
- 226. Dairy Plant Management.** 2 semester hours. First semester. Offered in 1950-'51 and alternate years thereafter. Two hours of recitation a week. Prerequisite: Dairy Husb. 107, 110.
- 230. Technical Control of Dairy Products.** 2 semester hours. Second semester. Co-ordination of the role of the dairy control laboratory in maintaining constant check in quality, purity and wholesomeness of all dairy products and ingredients most commonly used in their manufacture. Efficiency of sterilizing agents, washing powders, and related materials. Plant sanitation. Two three-hour laboratory periods a week. Required of all students pursuing the Curriculum in Dairy Manufacturing. Prerequisite: Dairy Husb. 107 and senior standing in dairy manufacturing, or graduate standing.

FOR GRADUATE CREDIT

- 301. Research in Dairy Husbandry.** Credit to be arranged. Each semester. Special investigation in dairy production or manufacturing which may be used as a basis for a master's thesis. Prerequisite: Consult instructor.
- Dairy Mechanics.* See Agr. Engg. 202.
- Dairy Bacteriology.* See Bact. 212.
- Dairy Chemistry.* See Chem. 275.
- Marketing of Dairy Products.* See Agr. Econ. 251.
- Genetics Seminar.* See An. Husb. 227.

General Agriculture

RAY IAMS THROCKMORTON, *Dean*

103. **Agricultural Seminar.** Required. Each semester.
Four meetings each semester. Programs presented by students, members of faculty, invited speakers.
104. **Freshman Assembly.** Required of freshmen. First semester.
A survey of fields of opportunity in agriculture.
109. **Agricultural Student Journalism.** 1 semester hour. Each semester.
Maximum, 4 semester hours of credit.

Horticulture

WM. F. PICKETT, *Head of Department*

Instruction offered in the Department of Horticulture includes general horticulture, landscape design, vegetable gardening, floriculture, pomology, and forestry.

Thorough preparation for those interested in professional or commercial fruit growing or vegetable growing is provided through available groups of electives in the Curriculum in Agriculture.

The four-year Curriculum in Landscape Design leads to the degree Bachelor of Science in Landscape Design, and is intended for students who wish training in design and drafting. The four-year Curriculum in Floriculture and Ornamental Horticulture is intended for those who wish to become florists or nurserymen with emphasis on the production and use of landscape materials.

The horticultural farm, the campus, the greenhouses, and the research laboratories provide plant materials and equipment for instructional and research use.

COURSES IN GENERAL HORTICULTURE

FOR UNDERGRADUATE CREDIT

101. **Plant Propagation.** 3 semester hours. First semester.
Principles and practices of propagating horticultural plants. Two hours of recitation and three hours of laboratory a week. Prerequisite: Bot. 102.
104. **Elements of Horticulture Recitation.** 2 semester hours. Each semester and summer.
Principles and practices in the several phases of horticulture. Two hours of recitation a week. Prerequisite: Bot. 102 or Compr. 111.
105. **Elements of Horticulture Laboratory.** 1 semester hour. Each semester.
Study of horticultural plants, including identification, propagation, pruning, spraying, transplanting, cover crops, fruit varieties, etc. Three hours of laboratory a week. To be taken concurrently with Hort. 104, if possible. Prerequisite: Bot. 102 or Compr. 111.
122. **Nursery Practice.** 3 semester hours. Second semester.
Tree seed; planting practice; regeneration. Two hours of recitation and three hours of laboratory a week. Prerequisite: Bot. 102.

FOR GRADUATE AND UNDERGRADUATE CREDIT

207. **Spraying.** 3 semester hours. Second semester.
Spray machinery; chemical properties; insecticides; fungicides; spray dates; fumigation. Two hours of recitation and three hours of laboratory a week. Prerequisite: Junior or senior classification.

- 208. Literature of Horticulture.** 2 semester hours. Second semester.
Books and publications are reviewed and bibliographies prepared. Open only to junior, senior, and graduate students in horticulture. Offered in 1950-'51 and alternate years thereafter. Two hours of recitation a week.
- 211. Arboriculture.** 3 semester hours. Second semester.
Principles and practices of caring for ornamental plantings; transplanting, pruning, tree surgery, fertilizing, diagnosis of pests. Two hours of recitation and three hours of laboratory a week. Prerequisite: Consult instructor.
- 235. Horticulture Seminar.** 1 semester hour. Each semester.
Critical discussion of horticultural publications and of experimental and research projects under way at this and other experiment stations. May not be taken for more than three credit hours. Open only to junior, senior, and graduate students in horticulture. One hour of recitation a week.
- 244. Horticultural Problems.** Credit to be arranged. Each semester and summer.
Investigations and reports in pomology; olericulture; floriculture; forestry; or landscape design. Prerequisite: Consult instructor.

FOR GRADUATE CREDIT

- 301. Research in Horticulture.** Credit to be arranged. Each semester and summer.
Problems in pomology, olericulture, floriculture, or landscape design. Data collected may form basis for a master's thesis. Prerequisite: Consult instructor.

COURSES IN FORESTRY

FOR UNDERGRADUATE CREDIT

- 114. Farm Forestry.** 3 semester hours. Each semester.
Management and utilization of woodlots and tree belts. Two hours of recitation and three hours of laboratory a week. Prerequisite: Bot. 102.
- 121. Forest Ecology.** 3 semester hours. First semester.
Forest regions and types. Three hours of recitation a week. Prerequisite: Bot. 102.

COURSES IN LANDSCAPE DESIGN

FOR UNDERGRADUATE CREDIT

- 102. Plant Materials I.** 3 semester hours. First semester.
Perennials and annuals for general ornamental planting; planting plans. Two hours of recitation and three hours of laboratory a week. Prerequisite: Bot. 102.
- 103. Plant Materials II.** 3 semester hours. Second semester.
Trees, shrubs, vines for ornamental planting; planting plans and reports. Two hours of recitation and three hours of laboratory a week. Prerequisite: Bot. 102.
- 125. Landscape Gardening.** 3 semester hours. First semester and summer.
An introductory course in the fundamental principles of landscape design. Three hours of recitation a week.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 223. Community Planning.** 3 semester hours. Second semester.
Growth and development of cities and towns; land subdivision. Offered in 1951-'52 and alternate years thereafter. One hour of recitation and six hours of laboratory a week. Prerequisite: Hort. 243.

- 227. Landscape Construction.** 3 semester hours. First semester.
Topographic maps; grading plans, structures, sewerage, water supply, lighting, and drainage on the private estate. Offered in 1950-'51 and alternate years thereafter. Two hours of recitation and three hours of laboratory a week.
- 228. Planting Design.** 2 semester hours. Second semester.
The use of plants in landscape composition. Perspective and elevational sketches and plans. Offered in 1950-'51 and alternate years thereafter. Six hours of laboratory a week. Prerequisite: Hort. 103.
- 239. Landscape Design I.** 4 semester hours. First semester.
Elementary designing of the home grounds; country estates; special gardens; sketch problems. Twelve hours of laboratory a week. Prerequisites: Hort. 103, 125.
- 240. Landscape Design II.** 4 semester hours. Second semester.
Advance course in designing of large parks, cemeteries, golf courses, educational groups; and high-class land subdivisions. Sketch problems. Twelve hours of laboratory a week. Prerequisites: Hort. 239, 243.
- 243. Theory of Landscape Design.** 2 semester hours. First semester.
The economic and esthetic theory of design; taste, character, historic style, and composition; natural elements in design. Two hours of recitation a week. Offered in 1951-'52 and alternate years thereafter. Prerequisite: Hort. 125.

COURSES IN POMOLOGY

FOR UNDERGRADUATE CREDIT

- 108. Small Fruits.** 2 semester hours. Second semester.
Growing, harvesting, and marketing small fruits. Two hours of recitation a week. Prerequisite: Bot. 102.
- 111. Systematic Pomology.** 3 semester hours. First semester.
Technical study of fruit varieties, varietal relationship, pomological nomenclature, variety description, artificial and natural systems of variety classification, judging. Two hours of recitation and three hours of laboratory a week. Prerequisite: Hort. 104, 105.
- 112. Preserving Food by Freezing.** 3 semester hours. First semester.
Selection and preparation of foods for freezing; managing and operating frozen food locker plants; selecting and using home-frozen food cabinets; judging of frozen foods prepared and stored by various methods. Two hours of recitation and three hours of laboratory a week.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Practical Pomology.** 3 semester hours. Second semester.
Applied orcharding; manufacturing products; finances; marketing; grading and packing fruits; identification of fruit plant varieties; advanced pruning. Two hours of recitation and three hours of laboratory a week. Prerequisite: Hort. 111.
- 205. Advanced Pomology.** 3 semester hours. First semester.
A course in the fundamentals of orcharding, advanced judging. Two hours of recitation and three hours of laboratory a week. Prerequisite: Hort. 111.

COURSES IN VEGETABLE GARDENING AND FLORICULTURE

FOR UNDERGRADUATE CREDIT

- 128. Greenhouse Construction and Management.** 3 semester hours. Second semester.
Greenhouse construction, ventilation, soils, and water. Two hours of recitation and three hours of laboratory a week.
- 133. Vegetable Gardening.** 3 semester hours. Second semester.
Principles underlying vegetable production for the home or local market, special attention given to farm gardens, varieties, planting schedules, and crop rotations. Two hours of recitation and three hours of laboratory a week.
- 134. Elements of Floriculture.** 3 semester hours. First semester.
Care of pot plants in the greenhouse and home. Two hours of recitation and three hours of laboratory a week.
- 135. Floral Arrangement I.** 2 semester hours. First semester.
Floral arrangement in the home; care and uses of cut flowers and potted plants. Consult instructor for prerequisites. One hour of recitation and three hours of laboratory a week.
- 136. Floral Arrangement II.** 2 semester hours. Second semester.
Floral merchandising, sources of supplies; floral design; the commercial flower shop. One hour of recitation and three hours of laboratory a week. Consult instructor for prerequisites.
- 140. Commercial Floriculture I.** 3 semester hours. First semester.
Principles underlying the culture of greenhouse crops. Two hours of recitation and three hours of laboratory a week.
- 141. Commercial Floriculture II.** 3 semester hours. Second semester.
Two hours of recitation and three hours of laboratory a week. Continuation of Hort. 140. Prerequisite: Hort. 140.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 210. Market Gardening.** 3 semester hours. First semester.
Competitive areas, market requirements, harvesting, grading, packing, sources of market supplies, and prices. Two hours of recitation and three hours of laboratory a week. Offered in 1950-'51 and alternate years thereafter. Prerequisite: Agron. 130, Hort. 133.
- 214. Vegetable Cash Crops.** 2 semester hours. First semester.
Vegetable crops grown in Kansas principally as cash crops; potatoes, sweet potatoes, watermelons, and cantaloupes. Two hours of recitation a week. Prerequisite: Agron. 130, Hort. 133.

Milling Industry

JOHN A. SHELLENBERGER, *Head of Department*

The Department of Milling Industry offers courses to prepare students for work in flour-milling operation, products control, or administration.

The department has a flour mill of 130 sacks daily capacity, equipped as a commercial plant and also with many features designed for research and instruction. For the study of elements of milling and special problems in milling technology, there are several units of experimental mills.

The baking laboratory has dough mixers, proofing cabinets, ovens and other apparatus needed for baking tests in elementary and advanced work. A com-

plete pilot plant bakery is available for student training and research. The chemical laboratory has the usual chemical apparatus for wheat and flour testing, and special equipment for work on advanced problems.

FOR UNDERGRADUATE CREDIT

101. **Elements of Milling.** 2 semester hours. Each semester.
Elementary milling of wheat. One hour of lecture, two hours of laboratory, and one hour of unassembled laboratory a week.
102. **Survey of Milling Industry.** 1 semester hour. First semester.
A general survey of the milling industry field. One hour of lecture a week.
103. **Flow Sheets.** 2 semester hours. Each semester.
The construction and assembling of a flow sheet. Six hours of laboratory a week. Prerequisite: Mill. Ind. 101, Mach. Des. 101.
109. **Milling Practice I.** 3 semester hours. Each semester.
A study of milling machinery and methods of checking flour mill operation. One hour of lecture and six hours of laboratory a week. Prerequisite: Mill. Ind. 103.
118. **Milling Industry Seminar.** Required. Each semester.
Discussion of problems of general interest to all students in milling industry. One lecture each in milling and in agriculture seminar a month.

FOR GRADUATE AND UNDERGRADUATE CREDIT

201. **Milling Technology I.** 2 semester hours. First semester.
Technical study of special phases of wheat conditioning and flour milling. Six hours of laboratory a week. Prerequisite: Mill. Ind. 109.
202. **Milling Technology II.** 2 semester hours. Second semester.
A study of the physical, chemical, and engineering principles used in control of flour mill operation. Six hours of laboratory a week. Prerequisite: Mill. Ind. 111.
203. **Flour Mill Construction.** 3 semester hours. Second semester.
A study of mill flows and the design of a flour mill. Eight hours laboratory and one hour of unassembled laboratory a week. Prerequisite: Mill. Ind. 111, Mach. Des. 111, 121.
205. **Wheat and Flour Testing.** 3 semester hours. First semester.
Special quantitative tests of cereals and their products; methods of analysis and interpretation of results. Nine hours of laboratory a week. Prerequisite: Chem. 122, 215.
208. **Plant Enzymes.** 2 semester hours. First semester.
Theories of enzyme action and the function of enzymes. Commercial methods of manufacture and industrial uses of enzymes with special emphasis on the application of enzymes to the cereal industry. Two hours of lecture a week. Prerequisite: Chem. 122, 240.
209. **Advanced Flow Sheets.** 2 semester hours. Each semester.
The study of flows of cereal products and the design of flows for different cereal products. Six hours of laboratory a week. Prerequisite: Mill. Ind. 103.
210. **Advanced Wheat and Flour Testing.** 3 semester hours. Each semester.
Physical and chemical methods used in testing wheat and flour. Three hours of laboratory a week for each semester credit. Prerequisite: Mill. Ind. 205.

- 211. Milling Practice II.** 3 semester hours. First semester.
A study of roll surfaces and their effect on break release, bolting surface in relation to over and under bolting, millwright work, lubrication and power requirements. One hour of lecture and six hours of laboratory a week. Prerequisite: Mill. Ind. 109.
- 212. The Qualities of Wheat and Flour.** 3 semester hours. Second semester.
The qualities of wheat and flour as affected by growth, storage, and physical, chemical, and biological factors. Three hours of lecture and recitation a week. Prerequisite: Chem. 122 or 125.
- 213. Cereal Products Sanitation.** 2 semester hours. First semester.
Technical study of sanitation problems and control methods in the field of cereal technology. One hour lecture and three hours of laboratory a week. Prerequisite: Mill. Ind. 109, Ent. 119.
- 214. Milling Industry Problems.** Credit to be arranged. Each semester and summer.
Prerequisite: Mill. Ind. 212 or such other courses as are necessary for the problem selected.
- 215. Experimental Baking I.** 3 semester hours. Each semester.
Practice in laboratory baking tests, comparison of methods, formulas and flours; interpretation of results. One hour of lecture and six hours of laboratory a week. Prerequisite: Chem. 125.
- 216. Experimental Baking II.** 3 semester hours. Second semester.
Practice in bakery methods of handling doughs for bread and pastries. One hour of lecture and six hours of laboratory a week. Prerequisite: Mill. Ind. 215.

FOR GRADUATE CREDIT

- 301. Research in Milling Industry.** Credit to be arranged. Each semester and summer.
Research may be used as basis for the graduate thesis. Prerequisite: Consult staff.
- 318. Graduate Seminar in Milling Industry.** 1 semester hour. Each semester.
Discussion of technical problems in the cereal industry. Required of all graduate students in milling industry. One hour of recitation a week.

Poultry Husbandry

LOYAL F. PAYNE, *Head of Department*

The poultry plant, occupying about thirty acres and situated just north of the northeast corner of the College campus, is devoted to the breeding, rearing, and management of the stock used for class and experimental work.

FOR UNDERGRADUATE CREDIT

- 104. Farm Poultry Production Lecture.** 2 semester hours. Each semester.
An introductory course presenting numerous phases of poultry production, processing, management, marketing. Two hours of recitation a week.
- 105. Farm Poultry Production Laboratory.** 1 semester hour. Each semester.
Practical work, identifying breeds and varieties, judging and selecting laying stock and breeding stock; study of poultry houses and equipment; market dressing. Three hours of laboratory a week.
- 109. Poultry Judging.** 3 semester hours. First semester.
Production characteristics and evolution of present breeds and types. Judging the standard breeds and varieties by comparison; judging hens for egg and meat production on the basis of certain physical characteristics. One hour of recitation and six hours of laboratory a week. Prerequisite: Poul. Husb. 104, 105.

- 116. Market Poultry and Eggs.** 4 semester hours. First semester.
Methods of handling market eggs and live and dressed poultry. Candling, grading, and preservation of eggs; killing, dressing, grading, and packing market poultry. Two hours of recitation and six hours of laboratory a week. Offered in 1951-'52 and alternate years thereafter. Prerequisite: Poul. Husb. 104, 105.
- 120. Hatchery Management.** 3 semester hours. Second semester.
Development of the chick; metabolism; survey of the literature on incubation, brooding, and hatchery management; actual care of an incubator and a brooder. Two hours of recitation and three hours of laboratory. Prerequisite: Poul. Husb. 104, 105.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 202. Nutrition of the Fowl.** 3 semester hours. Second semester.
Designed for advanced students. The nutritive requirements of the fowl are considered, together with metabolism of nutrients, respiration, digestion, and excretion. Poultry feeds, the compilation of rations, and feeding practices are discussed. The feeding and care of chicks on deficient diets for a period of several weeks provide practical application of nutrition problems. Two hours of recitation and three hours of laboratory a week. Prerequisite: Poul. Husb. 104, 105, An. Husb. 152.
- 203. Avian Metabolism.** 3 semester hours. First semester.
Special emphasis on the physiological processes in reproduction, digestion, absorption, circulation, respiration, excretion and internal secretions. Three hours of recitation a week. Offered in 1952-'53 and alternate years thereafter. Prerequisites: Poul. Husb. 104, 105; Zool. 105; Special Anatomy 203.
- 206. Poultry Problems.** 2 semester hours. Each semester.
Investigations of a practical nature which may be continued into the next semester if necessary. The area of study might include incubation, brooding, feeding, management, breeding, survey of literature, or closely related subjects. Prerequisite: Poul. Husb. 104, 105; consult instructors.
- 207. Poultry Genetics.** 2 semester hours. Second semester.
A study of inherited characteristics in poultry. Two hours of recitation a week. Prerequisite: An. Husb. 221.
- 208. Poultry Genetics Laboratory.** 1 semester hour. Second semester.
Exercises in practical poultry breeding problems. Included are analyses of records and selection of breeding stock. Three hours of laboratory a week. Prerequisite: Poul. Husb. 104, 105, An. Husb. 221.
- 216. Poultry Management.** 3 semester hours. Second semester.
A detailed study of all phases of farm and commercial flocks, including cost of production. Three hours of recitation a week. Prerequisite: Poul. Husb. 104, 105; senior or graduate standing.
- 220. Poultry Seminar.** 1 semester hour. First semester.
Required of all juniors majoring in poultry husbandry and continued into the senior year. Also required of graduate students. One hour of recitation or conference a week. Prerequisite: Poul. Husb. 104, 105.

FOR GRADUATE CREDIT

- 301. Research in Poultry Husbandry.** Credit to be arranged. Each semester.
Investigations which may form the basis of a master's or doctor's thesis. Conferences by appointment. Prerequisite: Poul. Husb. 104, 105, 109, 116, 120; consult instructors.
- Advanced (Poultry) Farm Organization.* See Agr. Econ. 206A.
Poultry Sanitation. See Bact. 218.
Special (Poultry) Anatomy. See Anat. 202.
Genetic Seminar. See An. Husb. 227.

The Agricultural Experiment Station

RAY IAMS THROCKMORTON, *Director*

LELAND EVERETT CALL, *Director Emeritus*

ARTHUR D. WEBER, *Assistant Director*

The Kansas Agricultural Experiment Station was organized under the provision of an act of congress, approved March 2, 1887, which is commonly known as the Hatch act.

Two days later, March 4, 1887, the legislature of Kansas adopted a resolution accepting the conditions of the Hatch act, and vesting the responsibility of carrying out its provisions in the Board of Regents of Kansas State College.

The Hatch act carried an annual congressional appropriation of \$15,000. No further addition to this amount was made until the passage of the Adams act, approved March 16, 1906, which provided a sum beginning with \$5,000, and increasing each year by \$2,000 over the preceding year for five years. Since this time the annual appropriation has been \$15,000. Under the Adams act, experiments entered upon must be approved by the Office of Experiment Stations of the United States Department of Agriculture.

The Purnell act, approved February 24, 1925, authorized an appropriation of \$20,000 for the fiscal year beginning July 1, 1925, with allotments increasing annually by \$10,000 until a total of \$60,000 was reached for the fiscal year beginning July 1, 1929. The Purnell act is broad in scope and provides specifically for scientific research in agricultural economics, home economics, and rural sociology, in addition to providing more liberal support for the older established work of the Agricultural Experiment Station.

A fourth act authorizing support for the agricultural experiment stations is the Bankhead-Jones act, approved June 29, 1935. This act authorizes appropriations to the land-grant colleges for research, based upon the rural population of the various states. The amount available to Kansas was approximately \$12,000 for the fiscal year, and amounts now to approximately \$57,000 annually. The Bankhead-Jones act states specifically that the research authorized shall be in addition to research provided for under existing laws, and that no allotment of funds shall be made to a state for any fiscal year in excess of the amount which the state makes available for such fiscal year out of its own funds for research.

The Research and Marketing act, approved August 14, 1946, is an amendment to the Bankhead-Jones act and places emphasis on research in the marketing of agricultural products. It provides for co-operation in research on regional and national levels. The amount of funds directly available to Kansas was approximately \$67,600 for the 1949-'50 fiscal year. In addition, some \$16,000 is received by Kansas to aid in the support of regional projects.

The station also receives support from funds provided by the Kansas Legislature from fees and from commercial organizations.

The Agricultural Experiment Station is an agency organized to conduct fundamental and applied research, in the broad field of agriculture and related sciences. It devotes its attention largely to the solution of problems related to the farm and the farm home.

Farms, livestock, laboratories, and general equipment of the College are all directly available for the use of the station.

More than 200 projects covering practically all phases of agricultural investigation are being studied by the members of the station staff. Results of this work are published in the form of scientific papers and bulletins and circulars intended primarily for the general reader.

All bulletins and other publications from the Agricultural Experiment Station are sent without charge to citizens of the state. Any person in the state may have his name placed on the permanent mailing list of the station.

Letters of inquiry and general correspondence should be addressed to agricultural Experiment Station, Manhattan, Kan.

Branch Agricultural Experiment Stations

FORT HAYS BRANCH STATION

Land occupied by this station is part of what was originally the Fort Hays military reservation. A bill was approved by congress March 28, 1900, setting aside this reservation for experimental and educational purposes. By act of the state legislature, approved February 7, 1901, the act of congress donating this land and imposing the support of these institutions was accepted. The same session of the legislature passed an act providing for the organization of a branch experiment station and appropriating a small fund for preliminary work. In the division of this land, the college received 3,560 acres.

The work of this station may be divided into two divisions: (a) Experimental projects; (b) general farm and livestock work. Investigations are confined primarily to the study of problems peculiar to the western half of the state where rainfall is limited. Facilities of the station are also being used for the growing of large quantities of pure seed of the strains and varieties which are most productive in the western part of the state.

GARDEN CITY BRANCH STATION

In 1906, the county commissioners of Finney county purchased for purposes of agricultural experimentation a tract of land amounting to 320 acres, situated four and one-half miles from Garden City. The land has been leased for a term of 99 years to the Kansas Agricultural Experiment Station as an experimental and demonstration farm. In 1937 and 1939 the state purchased 235 acres adjoining the original tract, thus making a total of 555 acres available to the station. Investigations in irrigation, dry-land farming, dairying, and lamb feeding are conducted at this station.

COLBY BRANCH STATION

The legislature of 1913 provided for the establishment of a branch experiment station near Colby. It is located on a tract of 594 acres. The original tract of land was purchased by Thomas county and deeded to the state. In 1941 the state purchased an additional 320 acres. Operations at the Colby station were begun in March, 1914. Cropping experiments are being conducted under dry-land conditions. The primary purpose of the Colby station is to determine the best methods of developing the agriculture of north-western Kansas.

TRIBUNE BRANCH STATION

At the Tribune station experimental and demonstration work is conducted for the benefit of the surrounding western territory. Special attention is paid to the problems of producing crops under conditions of limited rainfall.

The School of Arts and Sciences

RODNEY W. BABCOCK, *Dean*
CHESTER E. PETERS, *Assistant Dean*
ORVAL EBBERTS, *Assistant to the Dean*

In the land-grant colleges emphasis is placed on the sciences and professional and vocational subjects. All types of education should also include preparation for the discharge of one's duties to the state and to the community. It is the province of the departments grouped in this School of the College to give this basic scientific and cultural training.

Curriculum in Biological Science

This curriculum provides for those who wish major work in bacteriology, botany, entomology, and zoology. The college training for medical technicians can be obtained in this curriculum, varying from the minimum requirements in two years to a four-year course leading to a degree. Students who desire general work for admission to a school of dentistry or human medicine should enroll in this curriculum. By selection of courses in education, the graduate becomes eligible for a three-year renewable-for-life certificate issued by the State Board of Education, valid for teaching in any public school in Kansas.

Curriculum in Humanities

This curriculum offers opportunity for major work in English, languages, nonprofessional music, speech (including dramatics and radio), and general education. There is also opportunity for those who wish a diversified major in the natural sciences. The graduate who has selected suitable courses in education becomes eligible for a three-year renewable-for-life certificate issued by the State Board of Education valid for teaching in any secondary school in Kansas.

Curriculum in Humanities (Art Adaptation)

This curriculum offers opportunity for major work in art, training for either professional work in the field of art or for teaching. The graduate who has selected suitable courses in education becomes eligible for a three-year renewable-for-life certificate issued by the State Board of Education valid for teaching in any secondary school in Kansas.

Curriculum in Physical Science

This curriculum provides for the needs of students who wish major work in mathematics, statistics, chemistry, physics, or geology. Those who wish more specialized training in chemistry or physics should enroll in one of the industrial curriculums. By selection of courses in education, the graduate becomes eligible for a three-year renewable-for-life certificate issued by the State Board of Education, valid for teaching in any public school in Kansas.

Curriculum in Social Science

This curriculum is designed especially to provide for the needs of students who wish major work in economics, sociology, psychology, personnel management and guidance, and history and government. There is also opportunity for those who wish a diversified major in the natural sciences. Students who expect to enter a school of law should enroll in this curriculum and consult the special adviser for their work. The graduate who has selected suitable courses in education becomes eligible for a three-year renewable-for-life certificate issued by the State Board of Education valid for teaching in any secondary school in Kansas.

Curriculum in Business Administration

The Curriculum in Business Administration is designed to prepare men and women for citizenship and business. The option in accounting provides a sequence of courses which includes all the academic work necessary for the examinations for a Certified Public Accountant.

Curriculum in Citizenship Education

The purpose of the Curriculum in Citizenship Education is to develop active, responsible citizens who have a sound understanding of the basic issues in our free society. To promote this understanding, the curriculum offers a liberal education program.

The courses are designed both for students planning to teach social studies in high schools and for those wishing a sound, liberal education. Citizenship courses study the important books and documents which have influenced and shaped our thinking about freedom and responsibility, democracy in America, law, justice, political economy, and education. Work in all the major arts and science fields is included, and all four of the comprehensive courses are required. The first two years introduce the student to all fields of knowledge and provide the basis for selecting a vocational or special field for later study, if the student is undecided when he enters College. The student must take at least a specified minimum of advanced courses in history, government and economics in the last two years. Those planning to teach must select courses in education necessary to qualify for the state teachers' certificates. Other work in the field of the student's choice is substituted for those not planning to teach.

Curriculum in Applied Geology

This curriculum is designed especially for students who expect to become professional geologists in order to work for such organizations as oil companies, the United States Geological Survey, State Geological Surveys, the State Highway Commission, and other agencies which employ applied geologists.

The Curriculum in Physical Science also offers a major in geology; and students who expect to teach or to major in such fields of geology as paleontology, mineralogy, and petrology, should enroll in this curriculum.

Curriculum in Industrial Chemistry

Demand of students for a curriculum planned especially to give chemical training is such that a formulation has been made to meet the needs of those who desire to specialize in industrial chemistry. The facilities of the Department of Chemistry, reinforced by opportunities for practical work in connection with the research of the experiment stations, provide for this specialized training.

Curriculum in Industrial Physics

The fundamental importance of physics in modern technical developments is widespread. This curriculum offers professional training for the student who wishes to enter an industrial position or to continue study in a graduate school.

Curriculums in Music

A four-year Curriculum in Music Education is offered, with specialization in voice, instrument, or public school band or orchestra. Students who complete this curriculum are awarded the degree Bachelor of Science in Music Education, and are eligible to receive a special state certificate to teach music and permission to teach any nonmusic subject in which they have completed fifteen or more college hours. If sufficient extra hours are completed so that not more than forty hours in music are submitted to the State Board of Education, the student is eligible to receive the state three-year renewable-for-life certificate.

A four-year curriculum is offered in applied music, which prepares the student with a major in voice, piano, violin, organ, or other instrument, and with a minor in another of these subjects. Students who complete this curriculum are awarded the degree Bachelor of Music, and are eligible to receive a three-year special state certificate in music, renewable for three-year terms, if they have elected the required subjects in education.

Curriculums in Physical Education

The theoretical and practical instruction given in these curriculums prepares students for the teaching of physical and health education and the coaching of athletic games. The curriculums are also planned to enable the student to elect work in some other subject which may be taken in connection with physical education.

Curriculum in Technical Journalism

The curriculum presents such subjects as will enable the writer to see his work in proper perspective, to obtain authoritative knowledge of some field of technical activity, and to write acceptably. It offers fundamental studies of literary, social, and scientific character. The student selects subjects in agriculture, mechanic arts, applied science, or home economics, depending on the portion of the field of technical journalism which he desires to enter. Theory and practice of journalism are presented in courses extending through the sophomore, junior, and senior years. Students may take additional electives in journalism.

Students who plan to go into agricultural journalism should enroll in the Curriculum in Agricultural Journalism. Students who plan to go into home economics journalism should enroll in the Curriculum in Home Economics and Journalism.

Social Science option: The student must have 15 hours selected from groups 8, 9, or 10 which follow the Preveterinary Curriculum.

Technical option: The student also must have 12 hours from one of the fields indicated in groups 1 to 7.

Before graduation the student is required to have completed two months of vocational journalistic experience.

Preveterinary Curriculum

For the four professional years, see School of Veterinary Medicine.

Groups of Electives for Students in the School of Arts and Sciences

Groups 1 to 10, inclusive, are for majors in Technical Journalism. Each major is to select one of the groups 1 to 7, inclusive, from which to take 12 hours of courses for technical specialization. He also is to select one of the groups 8 to 10, inclusive, from which to take 15 hours of courses for his social science option. Courses listed in these 10 groups have been selected for their value to the journalist; however, they do not include all courses for which credit can be given.

1. Applied Science

Plant Pathology I, Bot. 205	3	Plant Materials II, Hort. 103	3
Plant Physiology I, Bot. 208	3	Elements of Hort. Rec., Hort. 104	2
Field Botany, Bot. 219	3	Elements of Hort. Lab., Hort. 105	1
General Entomology, Ent. 102	3	Landscape Gardening, Hort. 125	3
Gen. Economic Entomology, Ent. 203	3	Household Physics, Phys. 109	4
Medical Entomology, Ent. 226	3	Descriptive Astronomy, Phys. 141	3
Principles of Geography, Geog. 140	3	Introductory Meteorology, Phys. 146	3
Political Geography, Geog. 257	3	Photography, Phys. 151	2
Physiographic Geology, Geol. 110	3	Field Zoology, Zool. 205	3
Historical Geology, Geol. 203	4	Embryology, Zool. 219	4
Crystallog. and Mineralogy, Geol. 209	4	Human Physiology, Zool. 221	4
Plant Materials I, Hort. 102	3	Bird Study, Zool. 244	3

2. Home Economics

Elementary Design I, Art 150	2	Textiles, Clo. Text. 117	2
Costume Design I, Art 163	2	History of Costume, Clo. Text. 226	3
Interior Decoration I, Art 168	2	Foods I, Foods and Nutr. 102	5
Contemporary Homes, Art 172	3	Applied Nutr., Foods and Nutr. 121	2
Child Guidance I, Child Welf. 201	3	Household Equip., Hous. Econ. 105	2

Comprehensive Courses

The comprehensive courses are designed to cover the whole field of human knowledge and to integrate the subfields in specific areas of: (1) Physical Science; (2) Biological Science; (3) Social Science; and (4) the Humanities. Since these four areas, together with communications and mathematics, are by definition all inclusive, it follows that any particular field of study must lie in some one or more of these areas. At Kansas State College, curriculums which require introductory courses in one or more of the four areas are not expected to include the comprehensive course, in that area. The comprehensive courses are intended to be introductory in nature, and also terminal in the sense that the student, who is required to take a particular comprehensive course, is not required to take more courses in the same area. These courses are expected to integrate and tie together the component parts of the field covered. The following descriptions explain in more detail the content of the courses.

101. Man's Physical World I. 4 semester hours. First semester.
Prerequisite: High school mathematics as required for admission in curriculum in which student is enrolled.

102. Man's Physical World II. 4 semester hours. Second semester.
Prerequisite: Compr. 101.

These courses cover all the nonliving phases of man's total environment. They are designed to provide students with a brief working knowledge of the subject matter of the physical science fields commonly designated as astronomy, geology, physics and chemistry. They are formulated on the concept that the fundamental building units of the universe are atoms, parts of atoms and combinations of atoms. The physics and chemistry of the universe of stars and galaxies are basic to astronomy, in which we have a superlative example of the vastness of space. The physics and chemistry of the earth's rocks and minerals are basic to geology, and in geologic history we have an example of the vast expanse of past time. The ultimate objective is to give the student an integrated picture of the physical world in which man lives.

111. Biology in Relation to Man I. 4 semester hours. Each semester.

112. Biology in Relation to Man II. 4 semester hours. Each semester.
Prerequisite: Compr. 111.

Fundamental relationships between plants and animals and other environmental factors. The structure of representative plants and animals, including man, is presented in some detail so that growth, food manufacture and utilization, reproduction, digestion, assimilation, circulation, respiration, and other life processes may be understood and their importance appreciated; also the relationship of structure to heredity and behavior. Principles which govern the classification and identification of various plants and animals are studied. The economic importance, both positive and negative, of plants and animals is considered; the relation of lower plants and animals to food production, food destruction, disease in lower plants and animals, and how these ravages may be controlled; the utilization, propagation, and conservation of plants and animals useful to man; and finally, a detailed study of man himself—his anatomy, functioning, heredity, and future as a member of the community and the nation. Life is interpreted as an integrative process which results in a dynamic whole.

121. Man and the Social World I. 4 semester hours. Each semester.

122. Man and the Social World II. 4 semester hours. Each semester.
Prerequisite: Compr. 121.

These courses present an integrated study of man-in-society. Social institutions and social processes are examined with the purpose of giving the

student an opportunity to understand the fundamental characteristics of society. The evolving character of social relationships is considered by investigating social organization in its various aspects. The presentation of social problems is made with the aim of suggesting alternatives by which the student is allowed to draw his own conclusions, emphasizing that his decisions as a member of society will determine social policy. The concluding portion of the second course deals with world society with special attention being given to America's place in a world society. No attempt is made to keep the traditional disciplines of the social sciences separate and compartmentalized. Rather the conscious effort has been to examine the social influences in their totality as such influences bear upon man-in-society. The courses are intended to develop a keen sense of the responsibilities and duties of a member of society and a desire to participate actively and constructively in the affairs of society.

131. Man and the Cultural World I. 4 semester hours. Each semester.

132. Man and the Cultural World II. 4 semester hours. Each semester.
Prerequisite: Compr. 131.

An orientation to the world's cultures, approached from the standpoints of each culture's history, philosophy and religion, literature, music, art, and architecture. Emphasis is laid upon the outstanding phases of western culture and civilization from primitive times until the present day. Primary attention is directed to the following phases of culture: (1) Primitive Phase: Simple culture of the Stone Age, and complex cultures of Egyptians, Babylonians, and ancient Americans; (2) Classical Phase: Cultures of Semites, Persians, Indians, Chinese, Greeks and Romans; (3) Post-Classical or Medieval Phase: Cultures of Europeans, Byzantines, Moslems, Hindus, and Confucians; (4) Modern Phase of European Culture: Developments; Renaissance, Reformation, scientific revolution, baroque art, Age of Reason, Romantic Age, and revolutions; industrial, social, and political; (5) Recent and Contemporary Age of Culture: Industry, invention, and science; world contacts; new knowledge, doctrines, policies, philosophies; developments in literature, art, architecture, etc.; cultural interdependence. Three hours of lecture and two of recitation a week each semester.

Bacteriology

PERCY L. GAINNEY, *Head of Department*

For a minor, course 101 or equivalent, and 10 semester hours in the 200 course group.

For a major, course 102 or equivalent, and a minimum of 21 semester hours in the 200 course group.

FOR UNDERGRADUATE CREDIT

101. General Microbiology. 3 semester hours. Each semester and summer. Morphology, physiology, and biology; classification, culture, and distribution of micro-organisms; principles of applied microbiology. One hour of recitation and six hours of laboratory a week. A general survey course for students not majoring in biological science. Prerequisite: Chem. 103 or 110.

102. Bacteriology. 5 semester hours. Each semester. General characteristics and methods of cultivation and identification of bacteria and closely related organisms. Three hours of recitation and six hours of laboratory a week. Required of students majoring in biological science. Prerequisite: Chem. 103 or 110.

- 103. Veterinary Microbiology.** 3 semester hours. First semester.
Morphology, physiology, biology, and classification of micro-organisms; cultural and staining technic; microbiology in dairy sanitation and inspection. One hour of recitation and six hours of laboratory a week. For students in School of Veterinary Medicine. Prerequisite: Chem. 246.
- 105. Agricultural Microbiology.** 3 semester hours. Each semester.
For students in the School of Agriculture. Students who expect to take Bact. 202 or 212 should take Bact. 101 or equivalent. Sterilization and disinfection; microbial analyses of water, milk, and soil. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 103.
- 112. Pathogenic Bacteriology and Virology.** 4 semester hours. Second semester.
Continuation of Bact. 103. Micro-organisms and viruses which cause infectious diseases of domesticated animals. Two hours of recitation and six hours of laboratory a week. Prerequisite: Bact. 103.
- 117. Veterinary Immunology.** 3 semester hours. First semester.
Principles of immunology; preparation of antisera, antigens, and vaccines; serodiagnosis of infectious diseases. One hour of recitation and six hours of laboratory a week. Prerequisite: Bact. 112.
- 126. Water and Sewage Bacteriology.** 3 semester hours. Each semester.
Water purification, analyses of water supplies, role of micro-organisms in sewage disposal. One hour of recitation and six hours of laboratory a week. For students in engineering curriculums. Prerequisite: Chem. 108.
- FOR GRADUATE AND UNDERGRADUATE CREDIT
- 202. Soil Microbiology.** 3 semester hours. Second semester.
Microbial population of the soil and its role in soil fertility. Prerequisite: Bact. 101 or equivalent, Chem. 122.
- 204. Soil Microbiology Laboratory.** 2 semester hours. Second semester.
Laboratory experiments illustrative of theories developed in Bact. 202. Six hours of laboratory a week. Prerequisite: Bact. 202 or concurrent registration.
- 206. Bacteriology of Human Diseases.** 5 semester hours. First semester.
Pathogenic bacteria and their role in human diseases. Three hours of recitation and six hours of laboratory a week. Prerequisite: Bact. 102 or equivalent.
- 212. Dairy Bacteriology.** 3 semester hours. Second semester.
Bacteriology of milk and milk products. Prerequisite: Bact. 101 or equivalent.
- 213. Dairy Bacteriology Laboratory.** 2 semester hours. Second semester.
Laboratory experiments illustrative of theories developed in Bact. 212. Six hours of laboratory a week. Prerequisite: Bact. 212 or concurrent registration.
- 217. Poultry Diseases.** 2 semester hours. Second semester.
Anatomy of domestic fowls; poultry sanitation and hygiene; infectious and noninfectious diseases of fowls; parasites; minor surgery. Prerequisite: Bact. 112.
- 218. Poultry Sanitation.** 3 semester hours. Second semester.
Methods of control of poultry diseases. Two hours of recitation and three hours of laboratory a week. Prerequisite: Bact. 101 or equivalent.
- 222. Physiology of Micro-organisms.** 3 semester hours. First semester.
Chemistry and physics of microbial processes. Prerequisite: Bact. 102 or equivalent, Chem. 240.

- 225. Bacteriological Technic.** 3 semester hours. First semester.
Technic of laboratory manipulations; fundamental experiments and special experiments selected according to the interest of the student. Nine hours of laboratory a week. Prerequisite: Bact. 101 or equivalent.
- 229. Immunology.** 5 semester hours. Second semester.
Principles of immunology; preparation, purification and standardization of biological products employed in human and veterinary medicine. Three hours of recitation and six hours of laboratory a week. Prerequisite: Bact. 206 or equivalent.
- 240. Determinative Bacteriology.** 3 semester hours. Second semester.
Isolation and identification of unknown bacteria. One hour of recitation and six hours of laboratory a week. Prerequisite: Eight semester hours credit in bacteriology.
- 244. Microbial Fermentations.** 2 semester hours. Second semester.
Microbiology and chemistry of fermentation processes. Prerequisite: Eight semester hours credit in bacteriology and Chem. 240 or equivalent.
- 248. Food and Sanitary Bacteriology.** 5 semester hours. First semester.
Bacteriology and sanitation of foods, processing, spoilage, poisoning and fermentations; analyses of fresh processed and spoiled foods, water and beverages. Three hours of recitation and six hours of laboratory a week. Prerequisite: Bact. 101 or equivalent.
- 270. Problems in Bacteriology.** Credit to be arranged. Each semester and summer.
Work is offered in: Dairy, foods, poultry diseases, soils, physiology and sanitation. Prerequisite: Eight semester hours credit in bacteriology.
- 275. Bacteriology Seminar.** 1 semester hour. Each semester.
Prerequisite: Consent of instructor.

FOR GRADUATE CREDIT

- 301. Research in Bacteriology.** Credit to be arranged. Each semester and summer.
Work is offered in the following fields: Dairy, foods, poultry diseases, soils, determinative, immunology, sanitary, and physiology. Prerequisite: A minor or equivalent in bacteriology.

Botany and Plant Pathology

LEO E. MELCHERS, *Head of Department*

For a minor, the following courses should be completed: Nine credit hours of courses in the 200 group, in addition to 102.

For a major, in addition to the minor, the following courses should be completed: Ten or more credit hours in the 200 group, subsequent to the minor courses.

FOR UNDERGRADUATE CREDIT

- 102. General Botany.** 5 semester hours. Each semester and summer.
Plant groups and their evolutionary development. Physiology, anatomy, ecology, and identification of seed plants. Economic applications. Three hours of recitation and six hours of laboratory a week.
- 110. Nature and Development of Plants.** 3 semester hours. Each semester and summer.
Structure, life processes, identification, classification, evolutionary development, geographical distribution, and economic importance of plants. Not open to students who have credit in Bot. 102.

- 126. Medical Botany.** 2 semester hours. First semester.
Stock-poisoning plants of the range; habitat, poisonous properties, and methods of control and elimination of native poisonous plants. One hour of recitation and three hours of laboratory a week. Prerequisite: High school botany or equivalent.
- 127. Plant Diseases.** 3 semester hours. First semester.
Symptoms and control of common diseases of garden, orchard, and field crops. Two hours of recitation and three hours of laboratory a week. For students in the Two-year Curriculum in Agriculture.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 205. Plant Pathology I.** 3 semester hours. First semester and summer.
Important diseases of crops and the organisms which cause them. Two hours of recitation and three hours of laboratory a week. Prerequisite: Bot. 102.
- 206. Morphology of the Fungi.** 3 semester hours. First semester.
Structure of slime molds, moldlike bacteria, and fungi studied to determine taxonomic relationships. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 102.
- 207. Horticultural Crop Diseases.** 3 semester hours. Second semester.
Major diseases of fruit and vegetable crops and ornamental plants; their causes, symptoms, and control. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 205.
- 208. Plant Physiology I.** 3 semester hours. First semester.
The plant cell, solutions and membranes in relation to the cell, root systems, intake of water, intake of solutes, elements used, and loss of water. Prerequisite: Bot. 102, Chem. 125, or concurrent registration.
- 210. Plant Physiology II.** 3 semester hours. Second semester.
Methods used to obtain data which concern common functions of plants. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 208.
- 211. Plant Physiology III.** 3 semester hours. Second semester.
Continuation of Bot. 208, including photosynthesis, nitrogen metabolism, fat metabolism, digestion, translocation, respiration, and growth. Prerequisite: Bot. 208.
- 217. Botanical Microtechnic.** 3 semester hours. Second semester.
Preparation of plant materials for histological or cytological study. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 102.
- 219. Field Botany.** 3 semester hours. Summer.
Identification and classification of seed plants. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 102.
- 220. Botany Seminar.** 1 semester hour. Each semester.
Reports of investigational work or other matters of interest in the various branches of botany. Prerequisite: Consult head of department.
- 225. Taxonomic Botany of the Flowering Plants.** 3 semester hours. First semester.
Systems of classification; identification of plants in the field and in the laboratory; orders and families of plants. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 102.
- 229. Plant Ecology.** 3 semester hours. Second semester.
Structure and dynamics of vegetation. Field trips. Prerequisite: Bot. 102.

- 232. Problems in Botany.** Credit to be arranged. Each semester and summer. Work is offered in: Anatomy, cytogenetics, cytology, ecology, micro-technic, morphology, mycology, pathology, physiology and taxonomy. Prerequisite: Bot. 102 and consent of instructor.
- 237. Field Crop Diseases.** 3 semester hours. Second semester. Diseases of cereal and forage crops; their causes, life histories, symptoms, and control. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 205.
- 238. Disease Resistance in Plants.** 3 semester hours. Second semester. Plant pathogens in relation to host plant; the cause of resistance; varieties of cereal, forage crops, fruits, and vegetables resistant to disease; breeding disease-resistant crops. Prerequisite: Bot. 25.
- 251. Anatomy of Higher Plants.** 3 semester hours. Second semester. Structure and development of the various tissues and organs of seed plants. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 102.
- 266. Literature of Botany.** 2 semester hours. Each semester and summer. Current botanical publications, together with the classes of botanical literature; historical development of botany. Prerequisite: Bot. 205.
- 268. Plant Cytology.** 3 semester hours. First semester. Structure, development, and functions of the plant cell, with special reference to chromosome behavior and its bearing on genetic results. One hour of recitation and six hours of laboratory a week. Prerequisite: Bot. 102 or Zool. 105.
- 270. Recent Advances in Cytogenetics.** 3 semester hours. Second semester. Chromosome structure, mechanics, and behavior; their significance for problems of genetics, evolution, and the origin of species. Two hours of recitation and three hours of laboratory a week. Prerequisite: Agron. 208 or Bot. 268 or Zool. 214.
- 272. Botany for Medical Technicians.** 2 semester hours. Second semester. Plants and plant parts concerned with hay fever, allergy, dermatitis, and mycosis. One hour of recitation and three hours of laboratory a week. Prerequisite: Junior standing.
- 274. Virus Diseases of Plants.** 2 semester hours. First semester. Economic importance, nature, transmission, effect on host, and control of virus plant diseases. Prerequisite: Bot. 205.
- 276. Paleobotany.** 2 semester hours. Second semester. Fossil plants, their taxonomy and use in the recognition of geological strata. One hour of recitation and three hours of laboratory a week. Prerequisite: Geol. 203.
- FOR GRADUATE CREDIT
- 310. Research in Botany.** Credit to be arranged. Each semester and summer. Work is offered in: Anatomy, cytogenetics, cytology, ecology, micro-technic, morphology, mycology, pathology, physiology, and taxonomy. Prerequisite: At least two courses in this department and approval of major adviser or head of department.

Chemistry

RALPH E. SILKER, *Head of Department*

For a minor, the following courses should be completed: 101, 103, 104, 227, and 215A.

For a major, the student should enroll in the Curriculum in Industrial Chemistry.

FOR UNDERGRADUATE CREDIT

- 101. Chemistry I.** 5 semester hours. Each semester and summer.
Beginning of the study of general chemistry. Three hours of recitation and six hours of laboratory a week. Not open to students who have credit in Chem. 107, 108, or 110.
- 103. Chemistry II Recitation.** 3 semester hours. Each semester and summer.
Completion of the study of general chemistry. Not open to students who have credit in Chem. 108 or 110. Prerequisite: Chem. 101.
- 104. Chemistry II Laboratory.** 2 semester hours. Each semester and summer.
General principles of qualitative analysis. Six hours of laboratory a week. Not open to students who have credit in Chem. 108. Prerequisite: Chem. 103 or concurrent registration.
- 105. Qualitative Analysis.** 3 semester hours. Second semester.
One hour of recitation and six hours of laboratory a week. Prerequisite: Chem. 103 or concurrent registration.
- 107. Chemistry E-I.** 4 semester hours. Each semester and summer.
Similar content to Chem. 101, with special emphasis on applications to engineering. Three hours of recitation and three hours of laboratory a week. Not open to students who have credit in Chem. 101.
- 108. Chemistry E-II.** 4 semester hours. Each semester and summer.
Continuation of Chem. 107. Three hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 101 or 107. Not open to students who have credit in Chem. 103, 104.
- 110. General Chemistry.** 5 semester hours. Each semester and summer.
Principal laws and theories of chemistry; important metallic and non-metallic substances. Three hours of recitation and six hours of laboratory a week. Not open to students who have credit in any college courses in inorganic chemistry.
- 122. General Organic Chemistry.** 5 semester hours. Each semester and summer.
General study of some of the more important classes of organic compounds. Three hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 110.
- 125. Organic Chemistry (Agr.)** 3 semester hours. Each semester and summer.
Fundamentals of organic chemistry, particularly fats, proteins, and carbohydrates. Prerequisite: Chem. 103.
- 132. Inspection Trip.** R credit. First semester.
Manufacturing centers are visited by seniors traveling as a group under faculty supervision.
- 133. Industrial Chemistry Seminar.** R credit. Each semester.
Special topics for undergraduates in the Curriculum in Industrial Chemistry.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Chemistry of the Lipids.** 3 semester hours. Second semester.
Properties of fats and oils; distillation of fats; extraction of plant and animal tissues, including phospholipids, cholesterol, etc., chromatographing of plant extracts. Prerequisite: Chem. 122.
- 202. Inorganic Preparations.** Credit to be arranged; one credit for each three hours of laboratory. Each semester and summer.
Preparation and purification of some typical inorganic compounds, of those of more complex composition, and compounds of the rarer elements. Prerequisite: Chem. 211A, 212A.
- 207. Inorganic Chemistry.** 3 semester hours. First semester.
Facts of chemistry and their present theoretical interpretations; properties of elements as a basis for methods of classification; rarer elements and compounds. Students who elect this course are advised to take Chem. 202. Prerequisite: Chem. 104 or 105.
- 211A. Quantitative Analysis I.** 4 semester hours. First semester and summer.
General procedures of volumetric analysis. Two hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 104 or 105.
- 212A. Quantitative Analysis II.** 4 semester hours. Second semester and summer.
General procedures of gravimetric and colorimetric analyses. Two hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 104 or 105.
- 214A. Advanced Quantitative Analysis.** 3 semester hours. When scheduled or on request of a sufficient number.
Topics from current literature and journals of analytical chemistry. Latest advances in the analyses of complex inorganic and organic materials. Three hours of recitation a week. Prerequisite: Chem. 211A, 212A.
- 215A. Quantitative Analysis.** 4 semester hours. Each semester and summer.
General procedures of volumetric, gravimetric, and colorimetric analyses. Two hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 104 or 105.
- 216. Industrial Chemical Analysis.** 3 semester hours. First semester and summer.
One hour of recitation and six hours of laboratory a week. Prerequisite: Chem. 211A, 212A.
- 220. Advanced Qualitative Analysis.** 3 semester hours. Each semester.
One hour of recitation and six hours of laboratory a week. Prerequisite: Chem. 104 or 105.
- 221A. Food Analysis.** 3 semester hours. Second semester.
Quantitative methods employed in the analysis of foodstuffs; practice in testing for adulterants, preservatives, and coloring materials. One hour of recitation and six hours of laboratory a week. Prerequisite: Chem. 122 or 227, 215A.
- 222. Instrumental Methods in Chemical Analysis.** 3 semester hours. Second semester and summer.
Application of the spectograph, spectrophotometer, colorimeter, nephelometer, refractometer, X-ray equipment, and other instruments in the chemical analysis of gases, liquids, and solids. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem 260B.
- 223. Organic Chemistry I.** 5 semester hours. First semester.
Three hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 104 or 105.

- 224. Organic Chemistry II.** 5 semester hours. Second semester.
Three hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 223.
- 227. Organic Chemistry.** 5 semester hours. Each semester and summer.
Topics selected from the content of Chem. 223, 224. Three hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 104 or 105.
- 228. Qualitative Organic Analysis.** 3 semester hours. First semester.
One hour of recitation and six hours of laboratory a week. Prerequisite: Chem. 224.
- 229. Quantitative Organic Analysis.** 2 semester hours. Each semester and summer.
Combustion analysis of organic compounds for carbon, hydrogen, and nitrogen; halogen and sulfur determination by the Carius method. Six hours of laboratory a week. Prerequisite: Chem. 211A, 212A, 224.
- 230. Organic Preparations.** 1 to 5 hours. First semester.
Prerequisite: Chem. 224.
- 232A. Stereoisomeric and Tautomeric Compounds.** 3 semester hours. Second semester.
Prerequisite: Chem. 224.
- 233A. Heterocyclic Compounds.** 3 semester hours. Second semester.
Prerequisite: Chem. 224.
- 234A. Advanced Organic Chemistry.** 2 semester hours. When scheduled or on request of a sufficient number.
Lectures and assigned reading. Topics currently available. Free radicals; glycosides and alkaloids; linkages in organic compounds; organic nitrogen compounds; relation of properties of structure; starch I; and starch II. Prerequisite: Chem. 224.
- 236. Mechanisms of Organic Reactions.** 3 semester hours. First semester.
Mechanistic course of organic reactions from the viewpoint of modern theories of organic chemistry. Prerequisite: Chem. 224, 262.
- 237. Special Reactions of Organic Compounds.** 2 semester hours. First semester.
Prerequisite: Chem. 224.
- 237A. Resonance and Related Phenomena of Organic Compounds.** 3 semester hours. Second semester.
Chemical resonance and its relationship to the chemical and physical properties of organic compounds. Prerequisite: Chem. 224, 262.
- 238. Catalysis in Organic Chemistry.** 3 semester hours. Second semester.
Prerequisite: Chem. 260B, 224.
- 240. General Biochemistry.** 5 semester hours. Each semester and summer.
Basic course for students who are not in the School of Veterinary Medicine and are not chemistry majors.
Three hours of recitation and six hours of laboratory a week. Prerequisite: Chem. 122.
- 240A. Biochemistry.** 3 semester hours. First semester and when requested by a sufficient number.
Basic course particularly for senior and graduate students in chemistry. Prerequisite: Chem. 224, 260B.
- 240B. Biochemistry Laboratory.** 2 semester hours. First semester and when requested by sufficient number.
Prerequisite: 240A or concurrent registration.

241. **Principles of Animal Nutrition.** 3 semester hours. Each semester.
Prerequisite: Chem. 122 or 125 or 227.
242. **Laboratory Technic in Animal Nutrition.** 2 semester hours. Second semester.
Preparation of diet and care of experimental animals used in the study of various nutritional problems. Six hours of laboratory a week. Prerequisite: An acceptable course in nutrition or Chem. 240 or 240B or 246.
- 243A. **Chemistry of Enzymes.** 2 semester hours. Second semester.
Chemical nature of enzymes and their reactions. Prerequisite: Chem. 224, 240B.
- 243B. **Enzyme Technology.** 2 semester hours. Second semester.
Extraction, purification, and assay of enzymes. Six hours of laboratory a week. Prerequisite: Chem. 243A or concurrent registration, or consent of instructor.
244. **Vitamins.** 2 semester hours. First or second semester.
Chemistry and functions of vitamins and related compounds. Prerequisite: Chem. 240 or 240B or 246.
245. **Vitamin Analysis.** 2 semester hours. Second semester and summer.
Chemical and biological determination of vitamins. Six hours of laboratory a week. Prerequisite: Chem. 240 or 240B or 246 and 211A, 212A or 215A.
246. **Physiological Chemistry.** 5 semester hours. First semester. Three hours of recitation and six hours of laboratory a week.
For students in School of Veterinary Medicine. Prerequisite: Chem. 227.
- 246A. **Advanced Animal Nutrition.** 3 semester hours. First semester of alternate years or on demand.
Prerequisite: Chem. 241 and 240 or 240B or 246.
247. **Biochemical Preparations.** 2 to 5 hours. Second semester.
Prerequisite: Chem. 240, 240B or 246 and 224.
248. **Biochemical Analysis.** 2 semester hours. Each semester.
Six hours of laboratory a week. Prerequisite: Chem. 240 or 240B or 246 and 211A, 212A or 215A.
249. **General Plant Biochemistry.** 3 semester hours. First semester.
Occurrence and function in plants of organic compounds, such as enzymes, plant pigments, vitamins, and plant acids. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 122 or 125.
- 249A. **Plant Biochemistry.** 3 semester hours. First semester.
More advanced treatment of the material presented in Chem. 249. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 224.
250. **Pathological Chemistry.** 2 semester hours.
Prerequisite: Chem. 240 or 240B or 246.
252. **Chemistry of Proteins.** 3 semester hours. First semester.
Prerequisite: Chem. 227, 260B or concurrent registration.
- 254A. **Intermediary Metabolism.** 3 semester hours. Second semester.
Prerequisite: Chem. 240 or 240A or 246.
257. **Biochemistry of Internal Secretions.** 2 semester hours. Second semester.
Chemistry of the glands of internal secretions. Prerequisite: Chem. 240 or 240B or 246.

- 259. Food Technology.** 3 semester hours. First semester.
Chemical composition, production, consumption, statistics, and treatment of food material. Prerequisite: Chem. 122 or 125 or 227.
- 259A. Descriptive Physical Chemistry.** 3 semester hours. As scheduled or when requested by a sufficient number.
Elementary principles of physical chemistry without higher mathematical applications. Not open to students majoring in chemistry. Prerequisite: Chem. 110 and 122 or 125.
- 260A. Physical Chemistry I Recitation.** 3 semester hours. First semester.
Properties of matter in the gaseous, liquid and solid states; elementary thermodynamics, solutions, colloids, surface chemistry and thermochemistry. Prerequisite: Math. 141, Phys. 103 or 106.
- 260B. Physical Chemistry I Laboratory.** 2 semester hours. First semester.
Six hours of laboratory a week. Prerequisite: Chem. 211A and 212A or 215A, 260A, or concurrent registration.
- 261. Physical Chemistry II Recitation.** 3 semester hours. Second semester.
Homogeneous and heterogeneous equilibria, chemical kinetics, electrical conductance, electromotive force, chemical thermodynamics, photochemistry, and atomic and molecular structure. Prerequisite: Chem. 260B.
- 262. Physical Chemistry II Laboratory.** 2 semester hours. Second semester.
Six hours of laboratory a week. Prerequisite: Chem. 261 or concurrent registration.
- 264A. Advanced Physical Chemistry.** 3 semester hours. When scheduled or on request of a sufficient number.
Topics currently available: Valence, chemical kinetics, and entropy and the third law. Prerequisite: Chem. 261.
- 268A. Colloid Chemistry.** 3 semester hours. Second semester.
Properties of colloids, suspensoids, and emulsoids. Prerequisite: Chem. 260B.
- 269. Electrochemistry.** 3 semester hours. Each semester and summer.
Fundamental theories of electrochemistry and their applications to a study of the behavior of solutions and fused salts. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 262.
- 270. Chemical Thermodynamics I.** 3 semester hours. Second semester.
Thermodynamics particularly applicable to chemistry; the first and second laws of thermodynamics and their application. Prerequisite: Chem. 260B.
- 271. Chemical Thermodynamics II.** 3 semester hours. Second semester.
Prerequisite: Chem. 270.
- 272A. Advanced Inorganic Chemistry.** 2 semester hours. Each semester and summer.
Topics currently available: Crystal chemistry, liquid ammonia and other solvent systems, phosphorus and related elements, silicon chemistry, and silicones. Prerequisite: Chem. 260B.
- 273. Surface Chemistry.** 2 semester hours. Each semester.
Methods of measuring surface tension; surface energetics, relation of surface tension to adsorption; and colloidal formation. Prerequisite: Chem. 260B.
- 274. Radioactive Tracer Techniques.** 3 semester hours. When scheduled on request of a sufficient number. (See Phys. 274.)
Chemistry and physics of radioactive substances in fields of biological and physical science. Two hours recitation and three hours of laboratory a week. Taught in co-operation with the Department of Physics. Prerequisite: Consent of instructors.

- 275A. Chemistry of Milk.** 3 semester hours.
The composition of milk; methods for separating, determining and characterizing various constituents. Prerequisite: Chem. 125 and 104 or 105 or Dairy Husb. 107.
- 277. Chemistry of Soils and Fertilizers.** 2 semester hours. First semester.
Six hours of laboratory a week. Prerequisite: Chem. 211A and 212A or 215A.
- 279. Advanced Soil Chemistry.** 3 semester hours. Each semester.
Chemical phenomena of soils, ionic exchange, electro dialysis, solutions, and colloid phenomena. One hour of recitation and six hours of laboratory a week. Prerequisite: Chem. 260A, 260B, and an acceptable course in soils.
- 281. Chemistry of Crops.** 2 semester hours. Second semester.
Six hours of laboratory a week. Prerequisite: Chem. 125, 211A, and 212A or 215A.
- 285A. Chemical Microscopy.** 2 semester hours. When scheduled or on request of a sufficient number.
Use of the microscope in chemical analysis, both qualitative and quantitative, applied to inorganic substances and to vegetable and animal products. One hour of recitation and three hours of laboratory a week. Prerequisite: Chem. 122, 215A.
- 290. Corrosion.** 3 semester hours. Second semester.
Theories and various factors involved in the corrosion of iron, steel, and nonferrous metals; methods of testing for and preventing corrosion. Prerequisite: Chem. 260B or concurrent registration.
- 292. Chemical Toxicology.** 3 semester hours. Each semester and summer.
Occurrence, chemical properties and detection of the more common poisons. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 122 or 227.
- 296B. Chemistry Seminar.** Each semester. 0 or 1 semester hour.
Required of all graduate students and elective for seniors in Curriculum in Industrial Chemistry.
- 297A. History of Chemistry.** 2 semester hours. Second semester.
Prerequisite: Chem. 223 or 227.
- 298A. Chemical Literature.** 1 or 2 semester hours. Each semester.
One hour of recitation and problem work in the library. Prerequisite: Chem. 224, 262.
- 299. Problems in Chemistry.** Credit to be arranged. Each semester and summer.
Work is offered in: Agricultural chemistry, analytical chemistry, biochemistry, chemical utilization of farm products, food chemistry, industrial chemistry, inorganic chemistry, organic chemistry, and physical chemistry.
- FOR GRADUATE CREDIT
- 301. Research in Chemistry.** Credit to be arranged. Each semester and summer.
Work is offered in: Agricultural chemistry, analytical chemistry, biochemistry, chemical utilization of farm products, food chemistry, industrial chemistry, inorganic chemistry, organic chemistry, and physical chemistry. Prerequisite: Registration in the Graduate School with sufficient training in the particular field selected.
- 304. Systematic Inorganic Chemistry.** 3 semester hours. When scheduled.
A study of the elements with emphasis on the periodic table, use of modern theories to interpret the structure and properties of the elements and their compounds. Prerequisite: Chem. 262.

- 306. Systematic Analytical Chemistry.** 3 semester hours. When scheduled.
A study of fundamental theories which underlie modern analytical chemistry. Prerequisite: Chem. 262.
- 308. Systematic Organic Chemistry.** 3 semester hours. When scheduled.
A systematic study of organic compounds as functional series; interrelationships, preparation, properties and industrial applications of the compounds. Prerequisite: Chem. 224.
- 310. Systematic Physical Chemistry.** 3 semester hours. When scheduled.
Concepts and theories of Physical Chemistry. Prerequisite: Chem. 262.

Citizenship

CARL TJERANDSEN, *Head of Department*

FOR UNDERGRADUATE CREDIT

- 101. Constitutional Democracy in America I.** 3 semester hours. First semester.
An introduction to the main currents of thought relating to the origins, nature, and development of democratic institutions in America. The most significant books and documents in the evolution of the American democratic ideal will be read and discussed and emphasis will be placed on developing the arts of reading, discussion, and reasoning which are the fundamental tools of citizenship in a democratic society. Open to freshmen and sophomores only.
- 102. Constitutional Democracy in America II.** 3 semester hours. Second semester.
Continuation of Cit. 101.
- 110. Freedom and Responsibility I.** 3 semester hours. First semester.
A study of the ebb and flow in man's fight for freedom and the relation of freedom to responsibility in a democratic society. The basic ideas of freedom, equality, liberty, tolerance, and justice upon which democratic institutions stand will be examined in the writings of those who have contributed most to their development. Attention will be given to the ethical and moral basis of political responsibility, and its application in the present day.
- 111. Freedom and Responsibility II.** 3 semester hours. Second semester.
- 199. Citizenship Seminar.** R. Each semester.
Special topics for undergraduates in the Curriculum in Citizenship Education.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 205. Democracy and Education.** 3 semester hours. Each semester and summer.
A study of the major contributions to the problem of education for citizenship in a democratic society. The effect of contemporary educational trends on preparation for citizenship will be examined in the light of the ideas advanced by outstanding educational thinkers. Prerequisite: Junior standing or consent of instructor.
- 210. American Democratic Ideas.** 3 semester hours. Each semester and summer.
Origins and evolution of the democratic ideal in America. Important contributions to democratic thought will be examined, with special attention to the responsibility of the individual citizen and the organized group in the democratic process.

215. Democracy, Justice, and the Law. 3 semester hours. Each semester and summer.

A study of the evolution of the concept of justice and of the relation of the individual to the law in a free society. Prerequisite: Junior standing or consent of instructor.

220. Political Economy and the Democratic State. 3 semester hours. Each semester and summer.

An examination of the inter-relationships of the individual, the state, and economic institutions. The effect of the changing pattern of these inter-relationships upon democracy will be examined. Prerequisite: Junior standing or consent of instructor.

225. War, Peace, and the World Community. 3 semester hours. Each semester and summer.

A study of causes of war, conditions of peace, and the changing character of the world community. The possibilities and limitations of world government and world citizenship will be considered. Prerequisite: Junior standing or consent of instructor.

231. Workshop in Citizenship Education. Credit to be arranged. Summer. Prerequisite: Graduate standing or consent of the instructor.

235. Effective Citizenship. 2 semester hours.

A study of the ways in which the citizen can most effectively participate in democratic processes, including a study of the programs of typical civic and political organizations. Prerequisite: Junior standing or consent of instructor.

284. The Journalist in Free Society. 3 semester hours. Each semester and summer. (See Tech. Journ. 284.)

Concept of freedom of the press, from the standpoint of the journalist and the citizen in a free society. Meaning of freedom of the press, its importance in a democracy, and responsibilities which it imposes upon the journalist. Prerequisite: Junior standing or consent of instructor.

285. Interpretation of Contemporary Affairs. 3 semester hours. Second semester and alternate summers. (See Tech. Journ. 285.)

Critical questions regarding recent developments in state, national, and international affairs; editorials and interpretive articles which document and analyze the news; introduction to research in public affairs. Prerequisite: For students in the Curriculum of Technical Journalism, Cit. 284; for other students, consent of instructor.

295. Problems in Citizenship. Credit to be arranged. Each semester and summer.

Prerequisite: Junior standing or consent of instructor.

FOR GRADUATE CREDIT

300. Research in Citizenship. Credit to be arranged. Each semester and summer.

Prerequisite: Consent of instructor.

Economics and Sociology

GEORGE MONTGOMERY, *Head of Department*

Instruction in economics, sociology, and business administration is offered in the School of Arts and Sciences. (Instruction in agricultural economics, agricultural administration, and rural sociology is offered as Agricultural Economics in the School of Agriculture.)

In the School of Arts and Sciences the student may elect a major in economics or sociology (Curriculum in Social Science), or he may elect the Curriculum in Business Administration.

The courses in economics are designed for students who wish to prepare themselves for the teaching profession, for research in economics, or for positions with business concerns or governmental agencies.

Courses in sociology are designed to prepare the student for the professions of teaching, social work, and social science research. These courses also provide the student with greater understanding of social phenomena, thereby enabling him to participate more effectively in the community.

The Curriculum in Business Administration offers professional training in business to students who expect to enter industry and commerce upon graduation. Majors in accounting, marketing, finance, labor management, and general business are offered for students who desire specialization in these fields. The major in accounting provides a sequence of courses which includes all the academic work needed to qualify for the examination for a Certified Public Accountant. The majors in marketing, finance, labor management, and general business are designed to give the student an academic and practical background in these respective fields.

CERTIFICATE OF CERTIFIED PUBLIC ACCOUNTANT

By act of the Kansas legislature, passed March 24, 1915, provision is made for the examination for the Certificate of Certified Public Accountant. A candidate, in order to be admitted to the examination, must submit evidence satisfactory to the Committee on Accountancy of graduation from a college or university recognized by the committee, and the completion of thirty or more semester hours, or the equivalent thereof, in the study of accounting, business law, economics and finance, of which at least twenty semester hours, or the equivalent thereof, shall be in the study of accounting. If not a college graduate meeting the above requirements, he must submit evidence of three years of public accounting experience approved by the Board of Examiners, in addition to the completion of a four-year high school course or its equivalent.

The examination is given in the theory of accounting, practice of accounting, auditing, and commercial law as affecting accountancy, and is held in May and November of each year. The questions are supplied by the American Institute of Accountants.

A candidate who passes the examination and is a college graduate meeting the above requirements must furnish evidence of having had two years of public accounting experience satisfactory to the Board of Examiners before the certificate is granted. If the candidate who passes the examination is not a college graduate, he must furnish evidence of having completed two years of experience in addition to the qualifying experience.

COURSES IN ECONOMICS

(For Agricultural Economics, see School of Agriculture.)

FOR UNDERGRADUATE CREDIT

101. **Economics I.** 3 semester hours. Each semester and summer. Introductory study of the principles of economics,

- 104. Economics II.** 3 semester hours. Each semester and summer.
Application of economic principles to the solution of economic problems. Study of problems such as labor conflict, depressions, monopoly, international economic relations, taxation, public debt, inflation and deflation. Prerequisite: Econ. 101.
- 108. Personal Finance.** 2 semester hours. Each semester. Summer in odd numbered years.
Finance from the viewpoint of the individual. Principles and practices of credit buying, borrowing, saving and investing; purchase of government bonds, insurance, real estate, and annuities; problems of taxation and wills. Not open to students in Curriculum in Business Administration.
- 116. Money and Banking.** 3 semester hours. Each semester and summer.
Nature, history, and functions of money; banking in its modern and historic forms. Prerequisite: Econ. 101.
- 127. Business Management.** 3 semester hours. Each semester. Summer in even numbered years.
Analysis of management factors such as personnel, finance, accounting, production, and marketing. Not open to students in curriculum in Business Administration.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 208. Intermediate Economics.** 3 semester hours. First semester. Summer in odd numbered years.
Review of economic principles; advanced study of value and distribution theory. Prerequisite: Econ. 104.
- 210. Economic Systems.** 2 semester hours. Each semester and summer.
A survey of economic systems, Marxian socialism and modern socialism, giving attention to English socialism, communism and to the essential characteristics of the free enterprise capitalistic system. Prerequisite: Econ. 101 and junior standing.
- 214. Public Finance.** 3 semester hours. Each semester and summer.
An analysis of federal, state, and local tax structures with a consideration of the principles and problems underlying specific revenue sources. Attention is given to problems of social security, intergovernmental fiscal relations, and tax shifting. Prerequisite: Econ. 101.
- 216. Business Organization and Finance.** 3 semester hours. Each semester and summer.
Organization and classification of business enterprises, their financial structure and internal management. Prerequisite: Econ. 116, Acctg. 134 or 136.
- 220. Business Cycles.** 2 semester hours. First semester. Summer in odd numbered years.
Types of business fluctuation; measurement of business cycles; theories of the causes of business cycles; proposals for stabilizing business activity. Prerequisite: Econ. 101.
- 222. Investments.** 3 semester hours. First semester and summer.
A study of investment institutions, and principles and practices from the individual viewpoint. Corporate, civil, foreign, real estate and farm securities are compared as to risk, return and intrinsic value. Prerequisite: Econ. 216, and Acctg. 134 or 136.
- 223. Credits and Collections.** 2 semester hours. Second semester. Summer in even numbered years.
A study of the fundamental principles involved in extending credit and an analysis of present collection practices. Prerequisite: Econ. 101.

- 224. International Trade.** 2 semester hours. Second semester. Summer in even numbered years.
Economic principles underlying international trade and finance; governmental policies toward international trade; procedures in exporting and importing. Prerequisite: Econ. 101.
- 230. Principles of Transportation.** 3 semester hours. Second semester.
Rail, motor, air, water, and pipeline transportation in the U. S.—historical development and present status; major route and commodity movements; principles and practices of rate making; public regulation. Prerequisite: Econ. 101.
- 231. Small Business Operation.** 3 semester hours. Second semester.
Opportunities in business ownership; principles governing the starting of a small enterprise; importance, status, problems and management of small business. Prerequisite: Econ. 101.
- 234. Advanced Business Finance.** 2 semester hours. First semester. Summer in odd-numbered years.
Advanced principles of finance with emphasis on promotion, refinancing, and reorganization of business enterprises. Prerequisite: Econ. 216.
- 236. Business Administration Summary.** 2 semester hours. Each semester and summer.
A course summarizing all the business and economic courses pursued in the business administration curriculum. Case problems are studied which require application of the principles developed in the different courses. Prerequisite: Open only to graduating seniors in Business Administration.
- 237. Labor Economics I.** 3 semester hours. Each semester and summer.
Labor problems; industrial health and safety; how unions are organized and function; the various wage theories; the improvement of working conditions; methods of minimizing the various types of unemployment; wage and production incentives. Prerequisites: Econ. 101 or Soc. 151 and junior standing.
- 238. Labor Economics II.** 3 semester hours. Each semester and summer.
History and philosophy underlying labor legislation. Appraisal and evaluation of the economic, political, and social implications of federal and state labor legislation. Emphasis is placed on such recent federal statutes as the National Labor Relations Act and the Fair Labor Standards Act. Prerequisite: Econ. 237.
- 239. Labor Management.** 2 semester hours. Each semester and summer.
Problems of management for foremen and supervisors. Procedure in settling labor disputes and grievances; handling of employees; survey of employees' protective legislation; employee and employer relationships of several typical American industries. Prerequisite: Junior standing.
- 241. Monetary Theory and Fiscal Policy.** 3 semester hours. Second semester.
An analytical study of the influence of monetary, banking, tax, and public debt policies on the price level, on general business activity; the feasibility of utilizing such policies to maintain a stable economy. Prerequisite: Econ. 116.
- 242. Property Insurance.** 2 semester hours. First semester. Summer in odd-numbered years.
Fire, marine, automobile, title, credit insurance, and corporate bonding; also other forms of property insurance. Prerequisite: Econ. 101.
- 243. Monopoly Problems.** 3 semester hours. First semester.
Economic problems and public policies relating to the growth of large scale industry and the concentration of economic power. Prerequisite: Econ. 208.

- 244. Life Insurance.** 2 semester hours. Second semester. Summer in even-numbered years.
Nature and uses of life insurance, kinds of policies, determination of premiums, reserves, surrender values, and dividends. Prerequisite: Econ. 101.
- 246. Marketing.** 3 semester hours. Each semester and summer.
A general survey of marketing from a social-economic point of view. A study of the institutional organization of the market and the functioning of marketing agencies in the distribution of goods and services. Prerequisite: Econ. 101.
- 247. Sales Management.** 3 semester hours. Second semester. Summer in even-numbered years.
From the point of view of the manufacturer-wholesaler, a study of merchandising and merchandise policy, sales research, market analysis, distribution policies, prices and terms of sale, sales programs and sales promotion, sales organization and the management of the sales force. Prerequisite: Econ. 246.
- 248. Problems in Economics.** Credit to be arranged. Each semester and summer.
Advanced study on an individual basis is offered in banking, finance, business organization and management, general economics, international trade, insurance, investments, marketing, and public finance. Prerequisite: Senior standing.
- 249. Retailing.** 3 semester hours. First semester. Summer in odd-numbered years.
An introduction to retailing from the management point of view. Study of retail store policies and organization. The operation of the buying and selling functions, merchandise control, store systems, personnel management, retail accounting, and expense control. Prerequisite: Econ. 246.

FOR GRADUATE CREDIT

- 302. Research in Economics.** Credit to be arranged. Each semester and summer.
Research is offered in banking, finance, business organization and management, general economics, international trade, insurance, investments, marketing, and public finance. Prerequisite: At least two courses in economics.
- 306. Advanced Economics.** 3 semester hours. Second semester. Summer in even-numbered years.
Advanced study of economic theory. Prerequisite: Econ. 104.
- 310. History of Economic Thought.** 3 semester hours. First semester.
Development of economics and relation of economic doctrines to conditions existing when they were formulated. Prerequisite: Econ. 101.

COURSES IN SOCIOLOGY

(For Rural Sociology, see Agricultural Economics, School of Agriculture.)

FOR UNDERGRADUATE CREDIT

- 151. Sociology.** 3 semester hours. Each semester and summer.
A study of the development, structure, and functioning of human groups; social and cultural patterns; and the principal social processes. Prerequisite: Sophomore standing.
- 153. Introduction to Social Work.** 3 semester hours. Second semester.
Description and analysis of social work; the family under present conditions. Prerequisite: Soc. 151.

159. **Courtship and Marriage.** 2 semester hours. Each semester.
Basic principles and problems which pertain to ideal family life.

FOR GRADUATE AND UNDERGRADUATE CREDIT

252. **Cultural Anthropology.** 3 semester hours. Second semester and summer.
Human and social origins; origin, nature, and diffusion of culture; cultural backgrounds of social institutions. Prerequisite: Soc. 151.
255. **Social Systems.** 3 semester hours. First semester and summer.
Comparison of social systems in the Orient, Middle East, Europe, and the Americas. Prerequisite: Soc. 151.
258. **Social Pathology.** 3 semester hours. Each semester and summer.
Problems of personal and social disorganization; poverty, crime, delinquency, immigration, family discord, and group conflict. Prerequisite: Soc. 151.
259. **Population and Human Ecology.** 2 semester hours. First semester.
Early theories, policies, growth, composition, spatial aspects, movements, and population trends. Prerequisite: Six hours of sociology or economics or history.
261. **Family and Society.** 3 semester hours. Each semester.
Origin and development of marriage customs and systems of family organizations; the preparation for family life under present conditions. Prerequisite: Soc. 151.
262. **Social Organization of the Great Plains.** 3 semester hours. First semester.
The Great Plains as a cultural region; cultural adaptation, problems of the region, and forms of social organization. Prerequisites: Soc. 151 and three additional hours in sociology.
263. **Urban Sociology.** 3 semester hours. First semester.
Growth, development and structure of the city as determined by geographical, ecological, and social factors; relation of rural and urban communities; problems of the city and various approaches to their solution. Prerequisite: Soc. 151.
267. **Community Organization and Leadership.** 3 semester hours. Second semester and summer.
Organizations working in communities; personal qualities of leaders; principles and techniques of leadership. Prerequisite: Soc. 151 or Rural Soc. 156.
268. **Methods in Social Research.** 3 semester hours. First semester and summer.
Development, use, and interpretation of findings of the case method, social survey, and other techniques of social investigation. Prerequisite: At least two courses in sociology.
273. **Advanced Sociology.** 3 semester hours. Second semester.
The development and character of the major social institutions in contemporary American society; functions, interrelationships and trends. Prerequisite: Soc. 151.
277. **Development of Social Thought.** 3 semester hours. First semester.
Development of social thought from ancient civilization to the present. Prerequisite: Soc. 151.
278. **Seminar in Sociology.** 2 semester hours. Each semester and summer.
Summarization and integration of courses in sociology. Prerequisite: Senior standing and 9 hours of sociology.

- 279. Problems in Sociology.** Credit to be arranged. Each semester and summer.
Prerequisite: Consent of instructor, and 6 hours of sociology.

FOR GRADUATE CREDIT

- 351. Research in Sociology.** Credit to be arranged. Each semester and summer.
Prerequisite: At least two courses in sociology.

COURSES IN ACCOUNTING

(For Agricultural Economics, see School of Agriculture.)

FOR UNDERGRADUATE CREDIT

- 133. Accounting I.** 3 semester hours. Each semester and summer.
Principles and structure of accounts designed to give power to analyze commercial accounts and statements; problems used as an application of principles to practice. Six hours of recitation and laboratory a week.
- 134. Accounting II.** 3 semester hours. Each semester and summer.
Partnership and corporation accounting and problems with special emphasis on payroll records and accounting. Six hours of recitation and laboratory a week. Prerequisite: Acctg. 133.
- 136. Principles of Accounting.** 3 semester hours. Each semester and summer.
Principles of accounting; use of accounting records and statements for individual and corporate business organizations. Not open to students in Curriculum in Business Administration.
- 139. Intermediate Accounting.** 3 semester hours. Each semester and summer.
Application of accounting principles to partnerships and corporations. Working papers, compound interest functions, and basic accounting theory. Prerequisite: Acctg. 134.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 280. Valuation Accounting.** 3 semester hours. Each semester. Summer in even-numbered years.
Valuation of balance sheet accounts. Prerequisite: Acctg. 139.
- 281. Advanced Accounting.** 3 semester hours. First semester and summer.
Home office and branch accounting, consolidated statements, consolidations, mergers, and other special topics. Prerequisite: Acctg. 280 or concurrent registration.
- 286. Tax Accounting.** 3 semester hours. Second semester.
Accounting problems in federal and state income taxes, estate, gift, and other taxes. Prerequisite: Acctg. 280 or 287 or concurrent registration.
- 287. Cost Accounting.** 3 semester hours. Each semester and summer.
Allocation of production costs to determine financial results and guide the management of business enterprises. Prerequisite: Acctg. 134 or 136.
- 288. Advanced Cost Accounting.** 2 semester hours. Second semester.
Standard distribution, estimated costs, and miscellaneous items. Prerequisite: Acctg. 287.
- 289. Governmental Accounting.** 2 semester hours. First semester.
State and municipal accounts and accounts for public institutions. Prerequisite: Acctg. 280 or 287.
- 290. Accounting Systems.** 3 semester hours. Second semester.
Function, design, and installation of systems for various types of business. Prerequisite: Acctg. 281 and consent of instructor.

- 292. C. P. A. Problems.** 3 semester hours. First semester.
A study of problems given in various C. P. A. examinations. Prerequisite Acctg. 281 and consent of the instructor.
- 293. Institutional Accounting.** 2 semester hours. Each semester and summer.
Accounting principles and their application to cafeteria, lunch and tea rooms, restaurants, dormitories, clubs, and other institutions. Two two-hour recitation and laboratory periods a week. Not open to students in Curriculum in Business Administration. Prerequisite: Inst. Mgt. 109.
- 294. Specialized Accounting.** 3 semester hours. Second semester.
Specialized statements, estates and trusts, and other special topics. Prerequisite: Acctg. 280.
- 295. C. P. A. Review.** 3 semester hours. Second semester.
Review of theory of accounts, commercial law, and auditing as given in C. P. A. examinations. Prerequisite: Acctg. 281 and consent of instructor.
- 296. Auditing I.** 3 semester hours. First semester. Summer in odd-numbered years.
Theory and procedure used in simple balance sheet audits. A short audit case will be used. Prerequisite: Acctg. 280 and consent of instructor.
- 297. Auditing II.** 3 semester hours. Second semester.
Theory and procedure used in more complex balance sheet and detailed audits. A long audit practice case and current literature will be used. Prerequisite: Acctg. 296 and consent of instructor.
- 299. Problems in Accounting.** Credit to be arranged. Each semester and summer.
Prerequisite: Senior standing.

FOR GRADUATE CREDIT

- 380. Research in Accounting.** Credit to be arranged. Each semester and summer.
Prerequisite: At least three courses in accounting.

COURSES IN TYPEWRITING AND SHORTHAND

FOR UNDERGRADUATE CREDIT

- 140. Typewriting I.** 3 semester hours. Summer.
The technique of touch typewriting, care of the machine, and skill in operation. Ten hours of class and laboratory a week, with additional practice.
- 142. Typewriting II.** 3 semester hours. Summer.
Continuation of Typewriting I. Ten hours of class and laboratory per week, with additional practice. Prerequisite: Econ. 140 or equivalent.
- 145. Shorthand I.** 3 semester hours. Summer.
Introduction to Gregg shorthand. Twelve hours of class and laboratory a week, with additional practice.
- 147. Shorthand II.** 3 semester hours. Summer.
Continuation of Shorthand I. Ten hours of class and laboratory per week, with additional practice. Prerequisite: Econ. 145 or equivalent.

Education and Psychology

A. P. DAVIDSON, *Acting Head of Department*

TEACHING CERTIFICATES

The Kansas State Board of Education holds colleges responsible for recommending their students who prepare for teaching. Such recommendation will be based on the following factors: Health, both physical and mental; speech habits; general education; preparation in teaching fields; and preparation in professional education courses.

Preparation should begin not later than the sophomore year and should take into account all the above factors. In order to assist students in planning their preparation to teach, special advisers are available according to subject fields, as follows:

Agriculture. Davidson.
Art. Geiger.
Biological Science. Ameel.
Commerce. Clark.
English. Ansdell.
Home Economics. Rust.
Industrial Arts. Darby.
Mathematics. Greer.
Music. Leavengood.
Physical Education. Washburn, Lyman.
Physical Science. Oakley.
Social Science. Crawford.

Special curriculums preparing for teaching are provided in Agriculture, Home Economics, Industrial Arts, Music, and Physical Education for Men and Women. They are printed in the catalogue under the respective school sections. In the other teaching fields the student should plan a personal curriculum which will give him adequate preparation in a first and a second teaching field. In most teaching fields it is necessary to have completed at least 24 semester hours of college work. The advisers can be very helpful in choosing courses which will best meet the needs of high school teaching.

Professional preparation in education and psychology courses must total eighteen semester hours. Both the type and sequence of these courses are important. The following should be included and as nearly as possible in the sequence given:

Psychology of Childhood and Adolescence
Educational Psychology
Principles of Secondary Education
Methods of Teaching in the Secondary School
Student Participation in Teaching
Approved elective course in education

Through the Bureau of Teaching Appointments, Kansas State College students and graduates are assisted in finding suitable teaching and administrative positions. A leaflet explaining the nature and requirements of this service is available from the Bureau in Room 102, Education Hall.

COURSES IN AGRICULTURAL EDUCATION

A. P. DAVIDSON, *Special Adviser*

FOR UNDERGRADUATE CREDIT

136. Methods of Teaching Agriculture. 3 semester hours. Each semester.

Lesson plans; organization of materials and direction of class, laboratory, and field instructional work in vocational agriculture. Individual farming programs and class and group activities are studied, as well as the co-ordination of farm mechanics work. The administration, organization, and co-

ordination of the Future Farmers of America organization with the program of instruction in vocational agriculture. Prerequisite: Educ. 109.

- 161. Teaching Participation in Agriculture.** 3 semester hours. Each semester. Three weeks of observation and directed teaching in vocational agriculture classes in the Manhattan High School, and other high schools by arrangement; group study of classroom problems; lesson plans and presentation criticized by the college instructor and the vocational agriculture teacher. Prerequisite: Educ. 136.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 241. Vocational Education.** 3 semester hours. Each semester and summer. Provision for vocational education in Kansas and other states and countries; principles underlying such education; relation of vocational education to the community, county, state, and nation. Prerequisite: Educ. 109.
- 255. Technics in Agricultural Education.** 3 semester hours. Emphasis given to teaching in the field of vocational education in agriculture; the agricultural curriculum; courses of study; farming programs and supervision; laboratory and field instruction; sources, selection, preparation, and use of audio-visual instructional material. One hour of recitation and six hours of laboratory a week. Prerequisite: Educ. 241.
- 256. Teaching Part-time and Adult Classes in Agriculture.** 3 semester hours. Organization and preparation of materials, and methods used in teaching part-time and adult classes in vocational education in agriculture for young farmers and adults. Departments are visited for the purpose of evaluating programs and results. Prerequisite: Educ. 241.
- 283. Administration and Supervision of Secondary Schools.** 2 semester hours. Problems of organization, administration, and supervision, which cover the complete program of an administrative head of a school system in a small city. Designed for principals of rural high schools and superintendents of small city systems. Prerequisite: Educ. 139.
- 285. Project Method in Agricultural Education.** 2 semester hours. Intensive treatment of values, analysis, accounting, supervision, types, results, records, and reports of projects. Conducted on the problem basis. Prerequisite: Educ. 161.
- 287. Organization and Conduct of Group Activities.** 2 semester hours. Fundamentals and principles on which productive class projects should be organized; research and field work in class project study. Prerequisite: Educ. 241.
- 289. Administration and Supervision of Vocational Education.** 2 semester hours. Objectives, curriculum organization and content, administrative and supervisory problems from the viewpoint of the city superintendent; leadership needs which must be met in a school system which offers vocational education. Problem basis of treatment is used. Prerequisite: Educ. 139 or 306.
- 291. Community Problems in Vocational Agriculture.** 2 semester hours. Methods, organization, and conduct of club work, junior project work, class and community projects in general. Conducted on the problem basis and designed specifically for teachers, supervisors, and directors of agricultural work. Prerequisite: Consult instructor.
- 293. Problems in Evening School Classes.** 2 semester hours. Problems in organization, curriculum, and methods of teaching evening schools and classes sponsored by the national Vocational Education Act. Designed for teachers in service. Prerequisite: Graduate standing and one year's experience teaching vocational agriculture.

- 295. Organization Problems in Teaching Farm Mechanics.** 2 semester hours.
Analysis of the farm mechanics course of study; needs and interests of boys; learning difficulties, skills and technical knowledge required; correlation with agriculture; application of laws of learning to the teaching process; determination of objectives. Prerequisite: Educ. 161.

FOR GRADUATE CREDIT

- 339. Problems in Part-time Classes.** 2 semester hours.
Organization, curriculum, and method of teaching part-time classes sponsored by the national Vocational Education Act. Designed for teachers in service. Prerequisite: One year's experience teaching vocational agriculture.
- 340. Statistical Methods in Agricultural Education.** 2 semester hours.
Less comprehensive treatment of topics covered in Educ. 223, with emphasis on the special needs of vocational agriculture teachers. Not open to students who have credit in Math. 164, 261, or 262.
- 342. Workshop in the Teaching of Vocational Agriculture.** 2 or 3 semester hours. Summer.
Securing and organizing information and planning teaching activities which will help the beginning vocational agriculture teacher. Prerequisite: Graduation from the curriculum in Agricultural Education.
- 344. Workshop in the Vocational Agriculture Curriculum I.** 2 or 3 semester hours. Summer.
Curriculum problems; planning local programs of vocational agriculture; developing facilities and plans for meeting current and advanced problems in the teaching of vocational agriculture. Prerequisite: One year of teaching vocational agriculture.
- 346. Workshop in the Vocational Agriculture Curriculum II.** 2 or 3 semester hours. Summer.
A continuation of Educ. 344. Prerequisite: Educ. 344 or consent of instructor.

COURSES IN EDUCATION

FOR UNDERGRADUATE CREDIT

- 102. The Secondary School Pupil.** 3 semester hours.
Psychological, biological and social characteristics and development of the child and adolescent, particularly for secondary school teachers and administrators. Open only to students preparing to teach in junior or senior high school. Not available to students with credit in Psychology 250. Prerequisite: Psych. 184.
- 109. Educational Psychology.** 3 semester hours. Each semester and summer.
Growth and development through the school years; the psychology of the learning process with special emphasis on school learning. Prerequisite: Psych. 250. Both may be taken concurrently if student has junior standing.
- 110. Methods of Teaching in the Secondary School.** 3 semester hours. Each semester.
General principles of teaching applied to high school instruction; selection and organization of teaching materials, individual adaptation, organization, and management of classroom. Prerequisite: Educ. 139 and senior standing.
- 113. General Methods for Elementary Teachers.** 3 semester hours.
A course dealing with the fundamentals of teaching and classroom management in elementary schools to meet requirements for emergency and regular elementary certificates. Prerequisite: Psych. 184.
- 118. Essentials of Reading.** 3 semester hours.
For persons preparing to teach in the elementary schools of Kansas under the sixty-hour certificate. Prerequisite: Educ. 109 and sophomore standing.

- 120. Teaching Participation in Elementary Schools.** Credit to be arranged. Each semester and summer.
Observation and teaching in Manhattan elementary schools under direction of regular teachers, to meet elementary certificate requirements of those who wish to teach before finishing work for a degree from Kansas State College. Appointment must be made at the time of registration. Prerequisite: Psych. 184.
- 129. Teaching Participation in Music.** 1 to 4 semester hours. Each semester and summer.
Observation and teaching under direction in the Manhattan schools. Appointment must be made at the time of registration for the semester and general arrangements made previous to the semester. Prerequisite: Educ. 109, Mus. 145.
- 134. Methods of Teaching Industrial Arts.** 3 semester hours. First semester.
Methods of teaching, lesson planning, organization of subject matter, and class projects applied to general shop work, woodworking, sheet metal, arc and oxyacetylene welding, machine shop practice, motor mechanics, and other industrial arts subjects. Prerequisite: Educ. 139 and consent of instructor.
- 139. Principles of Secondary Education.** 3 semester hours. Each semester and summer.
A study of junior and senior high school organization and objectives, their genesis and curriculum trends, characteristics of student population, and Kansas legal status and practice. Prerequisite: Educ. 109, junior standing, and a grade point average of 1.0 or better in all course work.
- 166. Teaching Participation in the Secondary School.** Credit to be arranged. Each semester and summer.
Observation and teaching under direction of regular teachers in Manhattan junior and senior high schools, in other than vocational fields. Appointments must be arranged at time of registration and general arrangements made previous to semester. Prerequisite: Educ. 139, consent of instructor, and a grade point average of 1.5 or higher in all course work in the teaching fields.
- 168. Methods and Teaching Participation in the Secondary School.** 6 semester hours. Each semester.
A combination of Educ. 110 and 166. Prerequisite: Educ. 139, senior standing, and a grade point average of 1.5 or higher in all course work in the teaching fields.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 202. Extraclass Activities.** 3 semester hours. Each semester and summer.
Organization, sponsorship, and objectives of clubs, publications, athletics, dramatics, musical organizations, assemblies, home room, and student council in junior and senior high school. Prerequisite: Six hours of education and senior standing.
- 206. Philosophy of Education.** 3 semester hours. Second semester and summer.
Controlling and unifying philosophy of the American public school system and its European background. Prerequisite: Educ. 139 and senior standing.
- 209. Audio-Visual Aids in Instruction.** 2 or 3 semester hours. Summer.
Principles and technics in the use of visual and audio-visual materials, operation and maintenance of equipment, and sources of supply. Prerequisite: Educ. 166 or concurrent registration.

- 212. Educational Measurement.** 3 semester hours. First semester and summer.
Scientific measurement and evaluation of educational outcomes and their use as teaching tools. Prerequisite: Educ. 223 and senior standing.
- 214. Extension Organization and Policies.** 3 semester hours. Second semester.
Development and objectives of extension work; organization and administration of extension service, with special emphasis on extension service in Kansas. Prerequisite: Senior standing; juniors by consent of instructor.
- 219. Curriculum Development.** 3 semester hours. Summer.
Requirements of modern life upon schools and their objectives; examination of the entire school curriculum. Prerequisite: Twelve hours in education and senior standing.
- 221. Junior High School.** 2 or 3 semester hours. Summer.
Origin, objectives, program, and administration of the junior high school, and relations with lower and higher educational units. Prerequisite: Teaching experience.
- 223. Statistical Methods in Education and Psychology.** 3 semester hours.
Each semester and summer.
Nature of measurement in education and psychology, organization of data, computation and interpretation of basic statistics, and sampling methods and theory. Prerequisite: Sophomore standing and six hours of education or psychology. Not open to students who have credit in Math. 164, 261.
- 225. Methods in Citizenship Education.** 3 semester hours. Each semester and summer.
Aims of an educational program for the training of future citizens and methods of carrying it out; selection of material; classroom procedure; use of visual aids; planning related extracurricular activities, observation opportunities; etc. Prerequisite: Junior standing or consent of instructor.
- 228. Music Supervision.** 2 semester hours. (See Mus. 228.)
- 230. Principles and Practices of Guidance.** 3 semester hours. Each semester and summer.
Need and nature of guidance; functions; personnel, their duties and relations; programs and evaluation of results. Prerequisite: Teaching participation or concurrent registration.
- 235. Occupational and Educational Information and Guidance.** 2 or 3 semester hours. Summer.
Nature, sources, and means of providing such information to youth. Prerequisite: Educ. 230.
- 239. Educational Sociology.** 3 semester hours. Each semester and summer.
Development of the meaning of American democracy; a study of the social and classroom activities of the public schools as a means of building socialized personality traits; development of a workable plan for practicing democracy in the public schools. Prerequisite: Educ. 139 and junior standing.
- 248. Problems in Education.** Credit to be arranged. Each semester and summer.
Work is offered in: Agricultural education, educational administration, educational measurement, educational psychology, educational sociology, extension education, guidance, home economics education teaching methods, statistical methods, and vocational education. Prerequisite: Educ. 139 and approval of instructor.

FOR GRADUATE CREDIT

- 302. Problems and Procedures in Educational Research.** 2 or 3 semester hours. Second semester and summer.
A study of successful research in education and psychology designed to develop skill in the discovery and planning of research problems and in the selection of appropriate methods and techniques for their solution. Prerequisite: Nine semester hours of graduate work.
- 304. Local School Administration.** 2 or 3 semester hours. Summer.
Relations of the school administrator with the board of education, teaching staff, and community. Prerequisite: Teaching experience.
- 305. Adult Education.** 2 or 3 semester hours.
Objectives, program, facilities, procedures, and problems of adult education in a community, emphasizing the relation of school administrators and extension staff to this work. Prerequisite: Psych. 184 or one year of field experience, and approval of the instructor.
- 306. Advanced Educational Administration.** 3 semester hours. Second semester and summer.
The basic philosophy and objectives of education and their application to national, state and local organization; including problems of policy making and general administration. Intended primarily for school administrators. Prerequisite: At least one year of teaching experience.
- 307. Supervision and Improvement of Instruction.** 3 semester hours. Summer.
A professional course primarily for public school superintendents and persons planning to enter that work. Prerequisite: At least one year of teaching experience.
- 308. School Business and Finance.** 3 semester hours. Summer.
Professional preparation primarily for public school superintendents and persons planning to enter that work. Prerequisite: At least one year of teaching experience.
- 309. The School Plant.** 3 semester hours. Summer.
Determination and provision of building and other plant needs by the local public school district, including planning, financing, construction and utilization. Prerequisite: At least one year of teaching experience.
- 311. Secondary School Administration.** 3 semester hours. Summer.
Aims and functions of junior and senior high schools and junior colleges; problems in the progress of studies, extra-class activities, pupil accounting, community relations and articulation with other schools. Prerequisite: At least one year of teaching experience.
- 312. County, State, and Federal School Administration and Support.** 2 or 3 semester hours. Summer.
Problems of school population and relations of county, state, and federal government to school organization, administration and support. Prerequisite: At least one year of teaching experience.
- 325. Research in Education.** Credit to be arranged. Each semester and summer.
Work is offered in: Agricultural education, educational administration, educational measurement, educational psychology, educational sociology, guidance, home economics education, teaching methods, statistical methods, and vocational education. Prerequisite: At least two courses in this department and approval of instructor.
- 327. School-Public Relations.** 2 or 3 semester hours. Summer.
A course primarily for school administrators. Prerequisite: One year of teaching experience.

COURSES IN HOME ECONOMICS EDUCATION

LUCILE RUST, *Special Adviser*

FOR UNDERGRADUATE CREDIT

- 132. Methods of Teaching Home Economics.** 3 semester hours. Each semester and summer.
The selection, organization, and presentation of courses and lessons in home economics for high school pupils. Prerequisite: Clo. Text. 114, Fds. Nutr. 102, 107; prerequisite or concurrent registration: Educ. 109.
- 133. Methods of Teaching for Dietetic Students.** 3 semester hours. Second semester.
Principles of teaching applied to selection, organization, and development of subject matter for individuals and courses taught by dietitians. Prerequisite: Inst. Mgt. 101 or Fds. Nutr. 206, or concurrent registration.
- 159. Teaching Participation in Home Economics.** 3 to 5 semester hours. Each semester and summer.
Supervised observation and teaching carried on in the home economics classes of the Manhattan High School and other selected state high schools. Prerequisite: Completion of one home project and Educ. 132.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 216. Extension Methods for Home Economists.** 3 semester hours. Second semester.
Recommended methods for extension work; application of these methods to subjects in Home Economics. Prerequisite: Senior standing; juniors by consent of instructor.
- 233. Vocational Home Economics Curriculum.** 3 semester hours. Each semester and summer.
Philosophy and principles of vocational education as applied to home economics; characteristics of the high school vocational home economics curriculum; planning and supervising the home project program; sponsoring the F. H. A. chapter; and developing teaching guides for the various courses. Prerequisite: Educ. 132 or concurrent registration.
- 234. Methods in Adult Homemaking Classes.** 1 to 3 semester hours. Summer.
Principles of teaching applied to adult classes; a demonstration class in one or more phases of homemaking. Prerequisite: Educ. 132 or equivalent.

FOR GRADUATE CREDIT

- 313. Research in Organization and Presentation of Home Economics.** Credit to be arranged. Each semester and summer.
Individual research problems in phases of organization and administration for home economics. May be chosen as the basis for thesis for the master's degree. The nature of the problem will depend upon the student's major interest.
- 314. Organization and Presentation of Home Economics.** Credit to be arranged. Each semester and summer.
- 315. Supervision in Home Economics.** 2 semester hours. Second semester and summer.
Problems met by a supervisor or director of home economics in the public schools; standardization of work; relation of supervisor to teacher; modernization of plant and equipment; and course of study. Prerequisite: Educ. 159 and experience in teaching home economics.
- 318. Seminar in Home Economics Education.** 2 or 3 semester hours. Second semester and summer.
Recent trends in home economics education. Prerequisite: Educ. 159 and experience in teaching home economics.

COURSES IN PSYCHOLOGY

O. W. ALM, *Special Adviser to Undergraduate Majors*

ROY C. LANGFORD, *Special Adviser to Graduate Majors*

The minor in psychology is intended for students who want courses in psychology for general education or in connection with some field of specialization. It includes Psych. 184, 270, and 12 hours selected from the following courses: Psych. 250, 254, 259, 260, 265, 266, 272, 273, 274, 276, and 290.

For a major in psychology, 27 semester hours of work in psychology must be completed including the following courses: Educ. 223, Psych. 184, 250, 254, 259, 260, 261, 266, and 270. Any substitution from these courses must be approved by a member of the full-time psychology staff and the Head of the Department of Education and Psychology.

Mimeographed copies of the Curriculum in Social Science adapted for psychology majors may be obtained from the psychology staff.

FOR UNDERGRADUATE CREDIT

101. Psychological Aspects of Student Leadership. 2 semester hours. Each semester.

Limited to students holding elective student offices with acceptable background. Prerequisite: Consent of instructor.

103. Personal and Professional Orientation. 2 semester hours. Each semester.

A course designed to enable the individual student to study himself in relation to the opportunities for employment and preparation. One two-hour period and one hour by appointment. Prerequisite: Consent of instructor.

151. Psychology of Effective Study. 2 semester hours.

Diagnosis of individual difficulties and application of remedial measures. Designed to meet the problems of the individual members of the class. One hour of recitation and three hours of laboratory a week. Prerequisite: Consent of the Dean of the School of Home Economics.

184. General Psychology. 3 semester hours. Each semester and summer.

FOR GRADUATE AND UNDERGRADUATE CREDIT

230. Principles and Practices of Guidance. (See Educ. 230.)

250. Psychology of Childhood and Adolescence. 3 semester hours. Each semester and summer.

Genetic study of the trends in the development of structures, capacities, interests, and personality that facilitate understanding and control of the behavior of childhood and adolescence. Prerequisite: Psych. 184 and sophomore standing.

254. Abnormal Psychology. 3 semester hours. Each semester and summer.

Behavioral and mental disorders; psychoses, psychoneuroses, and psychopathies; and causes and methods of prevention and correction or therapy. Prerequisite: Psych. 184 and sophomore standing.

258. History and Systems of Psychology. 3 semester hours. First semester.

Primarily for the student who is working toward a master's degree in psychology, but may be taken by the undergraduate major in psychology. Critical evaluation of the principles and facts of general psychology. History, systems, leaders, and current trends in the development of psychology as a science. Prerequisite: Psych. 250, 254, 259, 260, 270.

259. Experimental Psychology. 3 semester hours. First semester.

Experimental studies of certain sensory, motor, and perceptual processes and of various forms and levels of learning, including problem solving and generalization; analysis and comparison of results in the literature on related studies. Prerequisite: Psych. 184, Educ. 223.

- 260. Group Psychological Testing.** 3 semester hours. First semester and summer.

Selection of group tests for particular purposes at various age and school levels; administration, scoring, interpretation of test results, and their preparation for use in guidance and counseling and in evaluation of educational procedures. Prerequisite: Psych. 184, Educ. 223.

- 261. Individual Psychological Testing.** 3 semester hours. Second semester and summer 1951.

Origin and development of basic concepts, principles, and techniques of individual psychological testing with analysis and interpretation of current standard individual tests including Stanford Binet, Wechsler-Bellevue, and Rorschach tests and the Multiplaisic Inventory. Intensive practice in the administration of the Revised Binet test, the Wechsler-Bellevue test and selected tests of visual and auditory efficiency. Prerequisite: Psych. 184, Educ. 223.

- 265. Psychology of Advertising and Selling.** 3 semester hours. Second semester.

Psychological principles involved in effective advertising and selling; appropriate technics for the analysis and motivation of buying behavior with special attention to recent experimental findings. Prerequisite: Psych. 184.

- 266. Psychology of Exceptional Children.** 3 semester hours. Second semester and summer.

Major forms of exceptionality such as feeble-mindedness, giftedness, subject disabilities, speech disorders, behavior problems, and delinquency. Emphasis on understanding and behavioral adjustment. Prerequisite: Psych. 184, 250.

- 269. Animal Psychology.** 3 semester hours. First semester.

Animal behavior from the standpoint of sensory capacities, perception, adaptive behavior, learning, insight, and other functions. A survey of psychological apparatus and contributions to animal psychology. Prerequisite: Psych. 184, 259, Zool. 105.

- 270. Social Psychology.** 3 semester hours. Each semester and summer.

A study of the psychology of the interrelations between the individual and groups of people. Prerequisite: Psych. 184 and sophomore standing.

- 271. Principles and Technics of Counseling.** 3 semester hours. Second semester.

The use of clinical data in the analysis, diagnosis, prognosis, and treatment of individual problems. Prerequisite: Psych. 230, 260 and senior standing.

- 272. Mental Hygiene.** 3 semester hours. First semester and summer.

An introduction to problems of mental health and mental hygiene. Particular emphasis is placed on discipline and motivation in the positive guidance of everyday living so as to promote desirable personality traits and to facilitate personal and social adjustment. Prerequisite: Psych. 184 and junior standing.

- 273. Psychology and Personnel Management.** 3 semester hours. First semester, even numbered years.

Psychological principles and procedures involved in selection, placement, training, transfer, promotion, and motivation of workers; measurement of achievement and morale. Prerequisite: Psych. 260.

- 274. Industrial Psychology.** 3 semester hours. First semester, odd numbered years.

Public analysis and requirements, employment adjustments, safety factors, and public training efficiency. Prerequisite: Psych. 250, 254, 270 and junior standing.

- 276. Psychology of Art.** 3 semester hours. Each semester and summer.
Includes a brief introduction to the philosophy of art and a study of the facts and principles of psychology used in the production and appreciation of art. Special emphasis is placed on pictorial art. Prerequisite: Psych. 184 and sophomore standing.
- 277. Psychology of Music.** 3 semester hours. Summer.
Physical and emotional appeal of music; perceptual and musical organization of sound and rhythm; psychology of listening, performing, and composing with a review of experimental studies in these areas; measurement and diagnosis of musical abilities; musical personality. Prerequisite: Psych. 184.
- 278. Problems in Psychology.** Credit to be arranged. Each semester and summer.
Prerequisite: Consult instructor.
- 279. Guidance Practicum.** 3 semester hours. Each semester and summer.
Field practice in the collection of pertinent, objective data; the preparation of such data for use in guidance and counseling; and participation in student guidance and counseling. Prerequisite: Educ. 212, 230, Psych. 260 and senior standing.
- 280. Personnel Management Practicum.** Credit to be arranged. Each semester and summer.
Directed experience in the application of principles and procedures of personnel management. Prerequisite: Senior standing and fifteen hours in courses related to personnel management.
- 290. Psychology of Personality.** 3 semester hours. First semester.
Nature, development, integration, measurement, and theories of personality, with consideration of biological and environmental factors. Prerequisite: Psych. 250, 254, 260, 270.

FOR GRADUATE CREDIT

- 302. Problems and Procedures in Research.** (See Educ. 302.)
- 373. Psychology of Learning.** 3 semester hours. Second semester.
A critical study of the theoretical and experimental literature on learning; analysis of various forms of learning; principles, procedures, and conditions favorable to acquisition, retention, and effective functioning of knowledge, skills, attitudes, and purposes; problem-solving, generalization, and transfer. Prerequisite: Eighteen hours' credit in psychology.
- 376. Research in Psychology.** Credit to be arranged. Each semester and summer.

English

EARLE R. DAVIS, *Head of Department*

For a minor, the following courses should be completed in addition to 111 and 112: 170 and 171, or 173 and 174, plus three courses selected from 219, 220, 232, and 243.

For a major, the general requirement is 30 semester hours subsequent to Engl. 111 and Engl. 112. These courses should be selected in consultation with the head of the department.

FOR UNDERGRADUATE CREDIT

- 19. Remedial English.** No credit. Each semester and summer.
Required of juniors and seniors who have twice failed English Proficiency.

109. **Written Communications IA.** 3 semester hours. Each semester and summer.
For students whose English entrance tests are not satisfactory. Five hours of recitation a week.
111. **Written Communications I.** 3 semester hours. Each semester and summer.
Prerequisite: Satisfactory entrance test.
112. **Written Communications II.** 2 semester hours. Each semester and summer.
Prerequisite: Engl. 109 or 111.
122. **Commercial Correspondence.** 3 semester hours. Each semester and summer.
Writing of adjustment, credit, collection, and sales letters; principles of effective commercial writing. Prerequisite: Engl. 112.
123. **Written and Oral Salesmanship.** 3 semester hours. Each semester.
Writing of follow-up systems of sales letters; composition and display of circular material and catalogues; principals of advertising and psychology of selling; sales talks; actual sales practice with commercial concerns. Prerequisite: Engl. 112.
140. **Children's Literature.** 3 semester hours. Summer.
Planned to meet the needs of teachers of rural and grade schools.
169. **English Proficiency.** Each semester and summer.
An examination to test the ability of the prospective graduate to write an expository essay logical in form and acceptable in grammar and diction. Required for graduation in all Schools. Prerequisite: Junior standing.
170. **English Literature I.** 3 semester hours. Each semester and summer.
Prerequisite: Engl. 112.
171. **English Literature II.** 3 semester hours. Each semester and summer.
Prerequisite: Engl. 112.
173. **American Literature I.** 3 semester hours. Each semester and summer.
Prerequisite: Engl. 112.
174. **American Literature II.** 3 semester hours. Each semester and summer.
Prerequisite: Engl. 112.

FOR GRADUATE AND UNDERGRADUATE CREDIT

215. **Technical Reports.** 1 semester hour. Each semester.
Organization and writing of technical reports to accompany certain courses in engineering specified by heads of engineering departments. Prerequisite: Engl. 112.
219. **Advanced Composition I.** 3 semester hours. First semester.
Subjects selected from the student's particular field of work; exposition of mechanisms, processes, and general expository writing. Prerequisite: Engl. 112.
220. **Advanced Composition II.** 3 semester hours. Second semester.
Narrative writing both in its relation to the other forms of composition and as an independent form. Direction and criticism of thesis work is offered to graduate students. Prerequisite: Engl. 112.
226. **Scientific Report Writing.** 3 semester hours. Each semester.
Preparation of scientific reports in engineering, chemistry, physics, geology, and other technical fields. Letters of authorization and submittal. Adaptation of written reports for oral presentation or for publication in technical journals. Prerequisite: Junior standing in technical field.

- 232. Oral English.** 3 semester hours. Each semester and summer.
Oral composition as applied to conversation and informal discussions; correction of errors in grammar, pronunciation, and idiom in everyday speech; a brief history of English sounds. Investigations in phonology for graduate students. Prerequisite: Engl. 112.
- 235. Seventeenth Century Poetry and Prose.** 3 semester hours. First semester.
A survey of the principal non-dramatic writers, apart from Milton; 1600-1660, with emphasis on Donne and the Metaphysicals. Prerequisite: Engl. 170.
- 237. Eighteenth Century Poetry and Prose.** 3 semester hours. Second semester and summer.
Masterpieces of poetry, drama, fiction, and biography of the 18th century, including Pope, Johnson, Defoe, Swift, Addison and Steele, Fielding, Goldsmith, and Sheridan. Prerequisite: Engl. 170.
- 240. American Folklore and Folk Literature.** 3 semester hours. Each semester and summer.
Folk tales, heroes, ballads, with the literature developed from folk beginnings; Mark Twain, Bret Harte, Carl Sandburg, Stephen Vincent Benet, Mark Connally. Prerequisite: Engl. 170.
- 243. Advanced Grammar.** 3 semester hours. Each semester and summer.
English etymology, inflections, syntax, and modern English and American usage. For graduate credit, reports on problems in modern English grammar. Prerequisite: Engl. 112.
- 246. History of the English Language.** 3 semester hours. First semester.
Nature of language and its development; English language and its use in the United States. Prerequisite: For undergraduate, consent of the instructor; for graduate, Engl. 173.
- 247. Problems in English.** Credit to be arranged. Each semester and summer.
Work offered in: Chaucer and Shakespeare, classical epics, midwestern literature, modern drama and fiction, novel and short story, old and middle English, romantic revival, sketch and column writing, and scientific report writing. Prerequisite: Engl. 112.
- 252. Children's Readings.** 3 semester hours. Second semester.
Literature for children; selection of books for children; training in story telling. For students of child guidance and camp counseling. Prerequisite: Engl. 170.
- 259. Arthurian Legends in Medieval English Literature.** 3 semester hours. Second semester.
Chronicles, religious work, romances, and tales from the literature between 1066 and 1500, excluding Chaucer. Prerequisite: Engl. 170.
- 260. Chaucer.** 3 semester hours. First semester.
Prerequisite: Engl. 170.
- 262. Milton and the Puritan Revolt.** 3 semester hours. Second semester.
Prerequisite: Engl. 170.
- 268. Midwestern Literature.** 3 semester hours. First semester.
Literature of the Middle West, particularly Kansas and the surrounding territory; its background, authors, and literature since the close of the Civil War. Prerequisite: Engl. 170.
- 271. English Bible.** 3 semester hours. Each semester and summer.
Prerequisite: Engl. 170.

- 273. Shakespearean Drama I.** 3 semester hours. First semester.
Life and times of Shakespeare; five of Shakespeare's tragedies: Macbeth or Othello, Hamlet, King Lear, Romeo and Juliet, and Coriolanus. Prerequisite: Engl. 170.
- 274. Shakespearean Drama II.** 3 semester hours. Second semester.
Five of Shakespeare's comedies: The Winter's Tale, As You Like It, Twelfth Night, Cymbeline, and The Tempest; collateral reading of earlier, contemporary, and Shakespearean comedy; present-day criticism of Shakespeare. Prerequisite: Engl. 170.
- 278. Wordsworth, Shelley, and Keats.** 3 semester hours. First semester.
Prerequisite: Engl. 170.
- 280. World Classics I.** 3 semester hours. First semester.
Literary masterpieces (in translation) of early times, particularly Greek and Latin classics. Prerequisite: Engl. 170.
- 281. World Classics II.** 3 semester hours. Second semester.
Literary masterpieces (in translation) of western Europe, particularly Italian, Spanish, French, and German writings. Prerequisite: Engl. 170.
- 283. Contemporary Fiction.** 3 semester hours. First semester and summer.
The more important British and American fiction since Hardy. Prerequisite: Engl. 170.
- 284. Contemporary Drama.** 3 semester hours. Second semester.
Development of the drama since Ibsen; types of modern drama; works of important English, Irish, and American dramatists. Prerequisite: Engl. 170.
- 286. Novel I.** 3 semester hours. First semester.
Prerequisite: Engl. 170.
- 287. Novel II.** 3 semester hours. Second semester.
Prerequisite: Engl. 170.
- 288. English Survey I.** 2 semester hours. First semester.
History of English literature from Anglo-Saxon times down to the close of the Elizabethan period. Prerequisite: Engl. 173.
- 290. English Survey II.** 2 semester hours. Second semester.
Rise of Puritanism and its influence on English literature; classical movement; romanticism and its development. Prerequisite: Engl. 173.
- 293. Browning and Tennyson.** 3 semester hours. Second semester.
Prerequisite: Engl. 170.
- 295. Modern Thought in Recent Literature.** 3 semester hours. Each semester.
Trends in thought, of especial interest to women, in British and American literature since 1914. Prerequisite: Engl. 170.
- 297. Contemporary Poetry.** 3 semester hours. Second semester and summer.
Prerequisite: Engl. 170.

FOR GRADUATE CREDIT

- 305. Research in English.** Credit to be arranged. Each semester and summer.
Work offered in: Chaucer and Shakespeare, classical epics, midwestern literature, modern drama and fiction, novel and short story, old and middle English, scientific report writing, and sketch and column writing. Prerequisite: At least two courses in this department.

Entomology

ROGER C. SMITH, *Head of Department*

Entomology is the study of insects and their near relatives. Economic entomology stresses their relations to plants and animals, including man. The courses in this department fall into two groups: (1) Broad, general, cultural courses suitable for any students, such as 102, 104, 107, 208 and 221; (2) professional courses which include most of the remainder. They provide training in this field for research, resident and extension teaching, plant and animal inspection, industrial and commercial pest control, and administration in the services of colleges, experiment stations, other agencies of the states and the federal government, industry, and private practice.

For a minor, the following courses should be completed: 102, 104, or 107, and five or six additional credit hours.

For a major, in addition to the minor, professional courses and a broad, basic training in agriculture and the biological and physical sciences are needed to provide a satisfactory foundation for graduate work.

FOR UNDERGRADUATE CREDIT

- 102. General Entomology.** 3 semester hours. Each semester and summer.
A basic study of insects and related arthropods as animals, their classification, behavior, and relations to plants and animals, including man.
- 104. General Entomology Laboratory.** 1 semester hour. Each semester and summer.
Two hours of laboratory a week. Prerequisite: Ent. 102 or concurrent registration.
- 107. General Economic Entomology.** 3 semester hours. Each semester.
Elementary anatomy and physiology of insects; the life histories, habits, and control recommendations for the more important insect pests. Two hours of recitation and two hours of laboratory a week.
- 113. Farm Insects.** 3 semester hours. Second semester.
Life history, habits, and control of insects of importance to the farm. In the laboratory, the stages of insects, types of injuries, materials and appliances for insect control are examined. Two hours of recitation and two hours of laboratory a week. For students in the Two-Year Curriculum in Agriculture.
- 119. Milling Entomology.** 4 semester hours. Second semester.
Elementary structure, life histories, classification and control of insects and their near relatives; insect and rodent pests of flour mills, elevators, granaries, warehouses and bakeries, and standard methods of mill and granary sanitation. Laboratory provides opportunities for basic studies and practical experience in mill sanitation. Three hours of recitation and two hours of laboratory a week.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Horticultural Entomology.** 2 semester hours. First semester.
Injurious insects of the vegetable garden, shade trees, flowering and greenhouse plants, deciduous and citrus orchards; methods of control; insecticides. Prerequisite: Ent. 104 or 107.
- 206. Staple Crop Entomology.** 3 semester hours. Second semester.
Important economic insects of field crops, and methods of dealing with them. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ent. 102, 104, or 107.
- 208. General Bee Culture.** 3 semester hours. Second semester and summer.
Structure, life history, general behavior, activities, and products of the

- honeybee; practice beekeeping; bee diseases and their eradication and control; relation of bees to agriculture and horticulture. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ent. 102 and 104, or 107.
- 211. External Insect Morphology.** 3 semester hours. First semester.
External anatomy of representative insects belonging to a number of orders; structure of the exoskeleton; a basis for taxonomy and hexapod morphology. One hour of recitation and six hours of laboratory a week. Prerequisite: Ent. 104 or 107.
- 213. Internal Insect Morphology.** 3 semester hours. Second semester.
Internal anatomy of representative insects; plan and structure of the internal systems. One hour of recitation and six hours of laboratory a week. Prerequisite: Ent. 211.
- 216. Principles of Taxonomy.** 1 semester hour. Second semester.
Determination of major orders of insects; taxonomic literature; use of catalogues. Prerequisite: Ent. 211 and Zool. 105.
- 217. Taxonomy of Insects I.** 2 semester hours. Second semester.
Determination of major orders of insects; taxonomic literature; use of catalogues. Six hours of laboratory a week. Prerequisite: Ent. 211 and 216 or concurrent registration.
- 218. Taxonomy of Insects II.** 3 semester hours. Second semester.
Intensive study of a selected group of insects. Nine hours of laboratory a week. Prerequisite: Ent. 217.
- 219. Taxonomy of Immature Insects.** 2 semester hours. First semester.
Classification and bionomics of immature stages of insects; practice in their identification. Six hours of laboratory a week. Prerequisite: Ent. 217.
- 221. Advanced General Entomology.** 3 semester hours. Second semester.
Broad biological aspects of the subject; understanding of the relation of insects to the complex environmental factors; the various subdivisions of entomology. Prerequisite: Ent. 102, 104, or 107; Zool. 105.
- 223. Chemical Pest Control I.** 4 semester hours. First semester.
A study of the origin, chemical and physical properties, toxicology, and contemporary uses of synthetic organic miticides, insecticides, and repellents, and fumigants. The laboratory is used to demonstrate certain toxicological properties associated with some of the chemicals studied. Three hours of recitation and three hours of laboratory a week. Prerequisite: Ent. 102 and 104, or 107 and a course in organic chemistry or consent of instructor.
- 224. Chemical Pest Control II.** 4 semester hours. Second semester.
A study of the origin, chemical and physical properties, toxicology, and contemporary uses of inorganic miticides and insecticides, plant-derived insecticides, synergists, oils, and surface-active agents used in formulating pesticides. Rodenticides, agricultural chemical legislation, and a review of methods of applying chemical pesticides are included also. The laboratory is used to demonstrate certain toxicological properties associated with some of the chemicals studied. Three hours of recitation and three hours of laboratory a week. Prerequisite: Ent. 102 and 104, or 107 and a course in organic chemistry or consent of instructor.
- 226. Medical Entomology.** 3 semester hours. First semester.
Insects and other arthropods as parasites and disseminators of disease; life cycles, biology, and control of insect parasites of man and animals. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ent. 102, 104, or 107, and Zool. 105.

- 229. Advanced Bee Culture I.** 3 semester hours. First semester in alternate years.
Requeening; wintering; honey extraction and marketing. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ent. 208.
- 230. Advanced Bee Culture II.** 3 semester hours. Second semester in alternate years.
Honey plant and beekeeping regions; swarm control and colony division; queen rearing and introduction; honey production. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ent. 208.
- 231. Entomological and Zoological Literature.** 2 semester hours. First semester.
A study of bibliographies, biological journals and keys to the literature of all types in the zoological sciences; the preparation and publication of technical papers. Especial emphasis is given to the best time-saving aids and methods for all aspects of library work for thesis preparation by members of the class and students beginning to specialize in any phase of the animal sciences. Prerequisite: Ent. 102, 104, or 107; Zool. 105.
- 233. Insect Ecology.** 2 semester hours. Second semester.
Influence of light, temperature, pressure, moisture, evaporation, air movements, food relations, biotic and other conditions of soil and atmosphere. Prerequisite: Ent. 102, 104, or 107, and Zool. 105.
- 234. Insect Control by Host Plant Resistance.** 2 semester hours. First semester. Offered in 1951-'52 and alternate years thereafter.
Resistance of varieties of crop plants to insect attack and their utilization in insect control; insect habits and physiology in relation to the cause of resistance and methods of breeding resistant varieties of crops. Prerequisite: An. Husb. 221, Ent. 102, 104, or 107.
- 236. Zoology and Entomology Seminar.** 1 semester hour. Each semester.
Prerequisite: Consult seminar committee.
- 238. Problems in Entomology.** Credit to be arranged. Each semester and summer. For nonthesis studies.
Work is offered in: Apiculture, economic entomology, and taxonomy and morphology. Prerequisite: Ent. 208 or 217.
- 240. Insect Physiology.** 3 semester hours. Second semester in alternate years.
Physiology of the cell, respiration, metabolism, reproduction, muscular action, nervous responses, sense organs and senses, circulation, glandular system, metamorphosis, and effects of insecticides. Prerequisite: Ent. 213, Zool. 222.

FOR GRADUATE CREDIT

- 316. Research in Entomology.** Credit to be arranged. Each semester and summer.
Work is offered in: Apiculture, economic entomology, insect physiology, medical entomology, pest control technology, and taxonomy and morphology. Prerequisite: At least nine hours of entomology and basic work in zoology, botany, bacteriology, chemistry, and mathematics.

Geology and Geography

ARTHUR B. SPERRY, *Head of Department*

For a minor, the following courses should be completed: 103, 110, 203, and 209.

For a major, in addition to the minor, the following courses should be completed: 204, 215, 220, 224, and 230. The student should enroll in the Curriculum in Physical Science or Applied Geology.

COURSES IN GEOLOGY

FOR UNDERGRADUATE CREDIT

- 102. Engineering Geology.** 4 semester hours. Each semester.
General principles of geology and their application to engineering problems. Three hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 110 or equivalent.
- 103. General Geology.** 3 semester hours. Each semester and summer.
Structural and dynamic features of the earth; the rock-forming minerals; the rocks and their decay; a short history of the earth. Three or four field trips during the semester.
- 110. Physiographic Geology.** 3 semester hours. Second semester and summer.
Topography of the earth and forces that have produced it. Origin of the topographic features of North America. Prerequisite: Geol. 103.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 203. Historical Geology.** 4 semester hours. Each semester.
Physical and biological events through which the earth has gone. Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 103.
- 204. Aerial Phototopography.** 3 semester hours. First semester.
Interpretation and use of aerial photographs; conical perspective; oblique mapping methods; characteristics of vertical photographs; stereoscopic contouring methods; and adjustment of geologic, cultural, and topographic detail. One hour of recitation and six hours of laboratory a week. Prerequisite: Geol. 103, 110.
- 207. Economic Geology.** 4 semester hours. Second semester.
Origin and mode of occurrence of nonmetallic minerals, including coal and petroleum, and of metallic mineral deposits. Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 203, 209.
- 209. Crystallography and Mineralogy.** 4 semester hours. First semester.
The fundamentals of crystallography and its use in mineral identification; physical and chemical mineralogy. Two hours of recitation and six of laboratory a week. Prerequisite: Chem. 110.
- 210. Field Geology.** Credit to be arranged. Summer.
Opportunity is offered students to do field work in the Rocky Mountains. Students interested should consult the head of the department.
- 213. Binocular Examination of Well Cuttings.** 2 semester hours.
Description and identification of fragments of rocks and minerals using the binocular microscope; logging sample data; subsurface correlation by sample examination. Six hours of laboratory a week. Prerequisite: Geol. 203, 209 and junior standing.

- 215. Structural Geology.** 4 semester hours. Second semester.
Mechanics of the earth's crust, interrelation of structures found in the earth. Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 203, 209.
- 217. Conservation of Mineral and Water Resources.** 3 semester hours. Second semester.
Prerequisite: Geol. 103, 209.
- 219. Regional Structural Geology.** 3 semester hours. Second semester.
Major tectonic regions of the world; description, theories of origin, and geologic correlation of the structures. Prerequisite: Geol. 215.
- 220. Invertebrate Paleontology.** 4 semester hours. First semester.
Evolution and geologic history of the invertebrate animals. Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 203.
- 222. Index Fossils.** 2 semester hours. Second semester.
Identification of those fossil plants and animals of value in the age correlation of the sedimentary rocks of North America. Six hours of laboratory a week. Prerequisite: Geol. 220.
- 223. Petroleum Geology.** 4 semester hours. Second semester.
Origin, migration, and accumulation of petroleum, stratigraphy, and structure of important fields. Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 203.
- 224. Stratigraphic Geology.** 4 semester hours. First semester.
Description, classification, and correlation of stratigraphic units, with emphasis on those of Kansas. Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 203.
- 226. Geology of Subsurface Water.** 4 semester hours. Second semester.
Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 203.
- 228. Electric Well Logs.** 2 semester hours. Each semester.
Review of electrically recorded well logging methods: Interpretation, stratigraphic correlation, graphic representation, and construction of subsurface geologic maps from log data. Six hours of laboratory per week. Prerequisite: Geol. 215.
- 230. Field Methods in Geology.** 3 semester hours. First semester.
Construction of geologic maps, including a complete map of the Manhattan area; application of field methods to the problems of geology. One hour of recitation and six hours of laboratory a week. Prerequisite: Geol. 203.
- 235. Optical Mineralogy.** 4 semester hours. First semester.
Polarizing microscope used to identify crystal fragments, powders, sediments, and thin sections; optical methods of microscopic research. Two hours of recitation and six hours of laboratory a week. Prerequisite: Geol. 209.
- 236. Sedimentary Petrology.** 5 semester hours. First semester.
Mineralogy and origin of soils and other sediments, their transportation, deposition, and transformation. Three hours of recitation and six hours of laboratory a week. Prerequisite: Geol. 235.
- 238. Petrology.** 5 semester hours. First semester.
Petrology and petrography of igneous and metamorphic rocks. Three hours of recitation and six hours of laboratory a week. Prerequisite: Geol. 235.

- 241. Geologic Literature.** 3 semester hours. First semester.
Current geologic literature and history of geology. Prerequisite: Geol. 203, 209.
- 243. Minerography.** 4 semester hours. Second semester.
Study of the ore minerals chiefly by means of the reflecting microscope. Two hours of recitation and six hours of laboratory a week. Prerequisite: Geol. 207, 235.
- 245. Applied Geology.** 3 semester hours. First semester.
Geology applied to the science of engineering, particularly highway engineering. Prerequisite: Geol. 230.
- 247. Regional Stratigraphy.** 4 semester hours. Second semester.
Description, classification and correlation of the rocks of the earth's crust in the stratigraphic regions of North America. Three hours of recitation and three hours of laboratory a week. Prerequisite: Geol. 224.
- 255. Vertebrate Paleontology.** 3 semester hours. Second semester.
Evolution, geologic history, and classification of the vertebrates. Prerequisite: Geol. 203 or ten hours of zoology.
- 256. Micropaleontology.** 3 semester hours. First semester.
Preparation, identification, and use of microscopic fossils. One hour of recitation and six hours of laboratory a week. Prerequisite: Geol. 203 and junior standing.
- 260. Geologic Reports and Illustrations.** 2 semester hours. Each semester.
Collection, evaluation, and organization of materials to be presented in a geologic report and the techniques of preparing the illustrations therefor. Six hours of laboratory a week. Prerequisite: Geology majors with senior or graduate standing.
- 275. Problems in Geology.** Credit to be arranged. Each semester and summer.
Work is offered in: Mineralogy, paleontology, stratigraphy, structural geology, and sedimentary petrology. Prerequisite: Geol. 203, 209.

FOR GRADUATE CREDIT

- 301. Research in Geology.** Credit to be arranged. Each semester and summer.
Work is offered in: Mineralogy, paleontology, stratigraphy, structural geology, and sedimentary petrology. Prerequisite: at least two courses in this department.

COURSES IN GEOGRAPHY

FOR UNDERGRADUATE CREDIT

- 140. Principles of Geography.** 3 semester hours. Second semester and summer.
Introductory course in college geography; relationships between human activities and environment.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 211. Geography of the Western Hemisphere.** 3 semester hours. Second semester.
The geography of North America and South America and its European background. Prerequisite: Geog. 140.
- 212. Geography of the Eastern Hemisphere.** 3 semester hours. Second semester.
The geography of Africa, Asia, and Australia. Prerequisite: Geog. 140.
- 257. Political Geography.** 3 semester hours. First semester and summer.
Natural resources and geographic factors related to the state. Prerequisite: Geog. 140.

History, Government, and Philosophy

FRED L. PARRISH, *Head of Department*

For a minor, students who plan to teach should complete the following courses: 106, 107, 127, 128, and at least six hours of government including course 151. Students who do not plan to teach may substitute certain approved courses for the fulfillment of a minor.

For the major, in addition to the minor, twelve hours from the department's 200-course series should be completed.

Students who plan to major in history and government should enroll in the Curriculum in Social Science. They should select the elective courses in their major, their options in economics and sociology, and their courses in modern languages, with the advice of this department.

Students who expect to teach history and government will include the courses in professional education required for a state certificate by making use of the electives provided in the Curriculum in Social Science.

COURSES IN HISTORY

FOR UNDERGRADUATE CREDIT

- 105. American Industrial History.** 3 semester hours. Each semester and summer.
Development of American economic growth from colonial beginning to the present; manufacturing, commerce, finance, labor, and agriculture.
- 106. Civilization I.** 3 semester hours. Each semester and summer.
Civilizations of the world to 1650 A. D., with emphasis on Western civilization.
- 107. Civilization II.** 3 semester hours. Each semester and summer.
Civilizations of the world since 1650 A. D., with emphasis on Western civilization.
- 125. Contemporary World History.** 2 semester hours. Each semester and summer.
World developments since 1930. Concurrent registration with Hist. 126 not permitted.
- 126. Current History.** 1 semester hour. Each semester and summer.
May not be taken more than four semesters for credit.
- 127. United States Before 1865.** 3 semester hours. Each semester and summer.
Social, economic, political, and international developments of the United States of America from the founding of the Republic through the War of 1861-1865.
- 128. United States Since 1865.** 3 semester hours. Each semester and summer.
Industrial revolution, immigration, imperialism, and the changed national and international setting since the War of 1861-1865.
- 133. History of Kansas.** 2 semester hours.
Land, peoples, problems, and growth of culture in the development of Kansas.
- 201. Early Americas.** 3 semester hours. First semester.
Indians of North, South, and Central America before 1492; impact of Europeans upon aboriginal cultures; rise and development of European institutions in the American environment. Prerequisite: Three hours of American history or junior standing.

- 203. New American Nation.** 3 semester hours. Each semester and summer. Recent and contemporary history. Problems of the new nation from the Spanish-American War to the present. Prerequisite: Three hours of American history or junior standing.
- 207. Representative Americans.** 2 semester hours. Lives of outstanding Americans. Prerequisite: Hist. 127 or 128 or junior standing.
- 208. Latin American Nations.** 3 semester hours. Second semester and summer. Economic, social, and political progress of the Latin American nations from the time of independence down to contemporary developments. Prerequisite: Three hours of American history or junior standing.
- 209. World Cultures I.** 3 semester hours. First semester. Cultures and historical traditions of early and contemporary primitive peoples; the birth, growth, and influence of the classical cultures of the Hebrew, Greek, Iranian, Indian, and Chinese people. Prerequisite: Hist. 106 or Compr. 131, or junior standing.
- 210. World Cultures II.** 3 semester hours. Second semester. History of the major cultural traditions from the time of the maturity of classical cultures to the culture of modern times; the rise and spread of western culture. Prerequisite: Hist. 106, 107, or Compr. 131, 132, or junior standing.
- 211. Modern England.** 3 semester hours. First semester. Political, economic, and cultural history of modern and contemporary Britain. Prerequisite: Three hours of European history or junior standing.
- 212. Europe Since 1870.** 3 semester hours. Second semester and summer. History of the political, social, economic, and international developments. Prerequisite: Three hours of European history or junior standing.
- 213. Russia and the Soviet Union.** 3 semester hours. Each semester and summer. Imperial Russia and the new regime since the Revolution of 1917. Prerequisite: Three hours of European history or junior standing.
- 223. Renaissance and Enlightenment.** 3 semester hours. Second semester. Rise of humanism, religious revolt, the Enlightenment, growth of nationalism and European empires from 1600 to 1800. Prerequisite: Hist. 107 or junior standing.
- 225. History of Marriage and the Family.** 3 semester hours. First semester. History of marriage and the family from primitive times to the present; marriage customs, position of women, child training; the modern home, recent changes and tendencies. Prerequisite: Three hours of history or junior standing.
- 226. British Empire.** 2 semester hours. British maritime expansion movement; founding of colonies overseas; growth of self-governing dominions and the British Commonwealth of Nations. Prerequisite: Three hours of European history or junior standing.
- 227. American Diplomatic History.** 3 semester hours. Second semester and summer. Development of the foreign policy of the United States from 1763 to the present. Prerequisite: Three hours of American history or junior standing.
- 230. Trans-Mississippi West.** 3 semester hours. Each semester and summer. Environmental factors, peoples, settlements, and institutions of the United States west of the Mississippi River. Prerequisite: Hist. 127 or 128 or junior standing.

- 232. History of Religions.** 3 semester hours. Second semester and alternate summers.
Development of the world's living religions; the relation of each religion to its natural and cultural environment; dominant concepts, leaders, and historic growth which characterize each. Prerequisite: Hist. 106 or Compr. 131 or junior standing.
- 233. Advanced Economic History of the United States.** 2 semester hours. Second semester.
Analysis of the agricultural and industrial developments in the United States. Prerequisite: Hist. 105 or 128 or junior standing.
- 235. Revolutionary Europe.** 3 semester hours. First semester.
Industrialism, imperialism, French Revolution, reaction, reform, liberalism, and political unification; covers period 1789 to 1870. Prerequisite: Hist. 107 or junior standing.
- 236. Far East.** 3 semester hours. First semester and alternate summers.
Modern and contemporary Chinese, Japanese, and other peoples of Eastern Asia and the western Pacific areas. Historical and cultural background; modern problems and internal developments; international relations since the first peace treaties with Western powers. Prerequisite: Hist. 106 or Compr. 131 or junior standing.
- 237. Medieval and Elizabethan England.** 3 semester hours. Alternate years. First semester.
Celtic, Roman, and Teutonic Britain; early monarchies, feudal age, rise of the modern state. Prerequisite: Hist. 106 or junior standing.
- 238. Sectionalism, War, and Reconstruction.** 2 semester hours.
Development of sectionalism in the United States from 1830 to 1890. Prerequisite: Three hours of American history or junior standing.
- 240. Medieval Europe.** 3 semester hours. Alternate years. First semester and summer.
Cultural and historical developments in Europe and the Near East from the decline of the Roman Empire to the Renaissance in Western Europe. Prerequisite: Hist. 106 or Compr. 131 or junior standing.
- 249. American Thought and Institutions.** 3 semester hours. Second semester.
Cultural traditions, traits, and patterns in the life of Americans of the colonial and republican periods. Prerequisite: Six hours of American history or junior standing.
- 250. Seminar in History and Government.** 2 to 5 semester hours. Second semester.
Prerequisite: Consent of instructor and five hours of credit basic to the field involved.
- 270. Problems in History and Government.** Credit to be arranged. Each semester and summer.
Work is offered in American history, European history, Asiatic history, government, law, and philosophy. Prerequisite: Consent of instructor and five hours of credit basic to the field involved.
- 290. Historical Method and Bibliography.** 2 semester hours. First semester.
Survey of historical works; methods in writing history, historical articles or theses. Required of graduate majors in history. Prerequisite: Consent of instructor and Hist. 106, 107, 127, 128.

FOR GRADUATE CREDIT

- 301. Research in History.** Credit to be arranged. Each semester and summer.
Work is offered in: American history, Asiatic history, European history and government and law. Prerequisite: Hist. 290 or concurrent registration, and at least two courses in the department.

COURSES IN PHILOSOPHY

FOR UNDERGRADUATE CREDIT

140. **Elementary Logic.** 3 semester hours. First semester and summer.
A study of correct thinking, its principles and conditions, in relation to observation, biases, prejudice, scientific induction, systematic deductive inference, sophistry, fallacies, and propaganda.
142. **Philosophy of Science I.** 3 semester hours. Second semester.
A survey of methods, attitudes, and institutions identified with science, together with their implications for a working philosophy of life.

FOR GRADUATE AND UNDERGRADUATE CREDIT

214. **Contemporary World-Views.** 3 semester hours. First semester, alternate years.
Study of representative idealist and naturalist philosophies and examination of their corresponding conflicts in practical affairs. Prerequisite: Junior standing.
216. **Early Western Philosophy.** 3 semester hours. First semester.
History of and readings in western philosophy from Thales to Thomas Aquinas. Prerequisite: Junior standing.
218. **Modern Western Philosophy.** 3 semester hours. Second semester.
History of and readings in western philosophy from Francis Bacon to Hegel. Prerequisite: Junior standing.
220. **Ethics.** 2 semester hours. Second semester and summer.
Theories of conduct; ideas of right and wrong; what makes an act good or bad; the good life. Prerequisite: Junior standing.
221. **Contemporary Social Philosophies.** 3 semester hours. Second semester and summer; alternate years.
A comparative study of the principles and practices associated with contemporary economic and social systems. Prerequisite: Junior standing.
222. **Recent Political Philosophies.** 2 semester hours. Second semester and summer; alternate years.
Comparative study of the basic philosophical concepts and arguments underlying the political systems of democratic states in relation to the systems of soviet and fascist states. Prerequisite: Junior standing.

COURSES IN GOVERNMENT

FOR UNDERGRADUATE CREDIT

151. **American Government.** 3 semester hours. Each semester and summer.
State and national government, with emphasis on constitutional principles and on functional activity.
154. **Contemporary Governments.** 3 semester hours. Each semester and summer.
Description of the political institutions of selected states. Designed as an introductory course for students planning a major or minor in government.
163. **Business Law I.** 3 semester hours. Each semester and summer.
Contracts, agency, and sales.
164. **Business Law II.** 3 semester hours. Each semester and summer.
Negotiable instruments, partnerships, and corporations.
167. **Law for Engineers.** 2 semester hours. Second semester.
Case study of such rules of law as will prove most useful to engineers and architects; law of contracts.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 206. American Political Parties.** 2 semester hours. First semester; alternate years.
Origin, development, leaders, and functions of political parties in America; issues and results of presidential elections; growth of nationality and development of self-government with special reference to present tendencies. Prerequisite: Govt. 151 or junior standing.
- 252. Comparative Government.** 2 semester hours. Second semester and summer.
Analysis of the central concept of political power and its evolution in modern complex states. Prerequisite: Govt. 154 or permission of instructor.
- 253. City Government.** 3 semester hours. First semester and summer.
Government and administration of American cities. Prerequisite: Govt. 151 or junior standing.
- 256. International Law.** 2 semester hours. First semester; alternate years.
Nature and scope of international law; factors which contribute to its growth; tendencies in the development of the law today. Prerequisite: Govt. 151 or junior standing.
- 258. International Relations.** 2 semester hours. First semester; alternate years.
Recent and contemporary international problems; work of international organizations. Prerequisite: Govt. 151 or junior standing.
- 260. Government and Business.** 2 semester hours. First semester; alternate years.
Constitutional limitations upon the powers of government; laws which affect economic interests such as trade regulations, taxation, labor legislation, legislation for the benefit of debtors, and emergency legislation. Prerequisite: junior standing.
- 262. Constitutional Law.** 3 semester hours. Second semester.
Development of the government of the United States through judicial interpretation of the Constitution. Case method used. Prerequisite: Compr. 122 or Govt. 151.
- 263. Federal Politics and Administration.** 2 semester hours. First semester and summer.
A study of political and administrative processes at the national level with particular attention to the underlying pressures and organizational problems influencing those processes. Prerequisite: Junior standing or consent of instructor.
- 265. State and Local Politics and Administration.** 2 semester hours. Second semester.
A study of political and administrative processes at the state and local levels with particular attention to the problems, attitudes, and pressures affecting those processes. Prerequisite: Junior standing or consent of instructor.
- 276. Land Law.** 2 semester hours. Second semester.
Interests and rights in land; methods by which such interests and rights are acquired and protected; relation of landlord and tenant and that of mortgagor and mortgagee, developed by study of Kansas cases.

FOR GRADUATE CREDIT

- 351. Research in Government.** Credit to be arranged. Each semester and summer.
Work is offered in: Government and law. Prerequisite: At least two courses in government or law.

Library Economics

WILLIAM BAEHR, *Head of Department*

FOR UNDERGRADUATE CREDIT

104. **Introduction to Bibliography.** 1 semester hour. First semester.
Principles and content of general and special bibliography. Prerequisite:
Junior standing.
-

Mathematics

RALPH G. SANGER, *Head of Department*

The regulations concerning proficiency tests in mathematics are as follows:

I. In all curriculums in which college algebra is required, students take a proficiency test in algebra within the first two weeks of their enrollment in any course in algebra. Results of this test determine whether a student shall be required to take intermediate algebra to qualify for college algebra.

II. In all other curriculums which contain a required course in mathematics, students take a proficiency test in mathematics. Results of this test determine whether a student may be required to take remedial work in mathematics. The test is given during the first two weeks of each semester and taken at the first opportunity after the student has satisfied entrance requirements in mathematics and is in residence.

For a minor in mathematics, the following courses should be completed: 101, 112, 120, 140, 164, 168, 261, or 101, 112, 131, 132, 164, 168, 261.

For a major in mathematics, in addition to the minor, the following courses should be completed: 102 (if equivalent work was not taken in high school), 201, and three additional courses (not statistics) from the 200 group, normally chosen from 210, 213, 241, 254, 256. For a major in statistics: 141 or 133, 164, 168, 201, 210, 268, and 6 semester hours from among the 200-courses in statistics.

FOR UNDERGRADUATE CREDIT

1. **Elementary Algebra.** 1 entrance unit credit. Each semester. Four hours of recitation a week.
3. **Plane Geometry.** 1 entrance unit credit. Each semester. Four hours of recitation a week.
20. **Intermediate Algebra.** No credit. Each semester and summer.
Review of elementary algebra; topics preparatory to Math. 112. Three hours of recitation a week.
101. **Plane Trigonometry.** 3 semester hours. Each semester and summer.
Prerequisite: Plane geometry and one and one-half units of high school algebra.
102. **Solid Geometry.** 2 semester hours. Each semester.
Prerequisite: Plane geometry and one unit of high school algebra.
103. **Mathematics in Human Affairs.** 3 semester hours. Each semester.
105. **Mathematics in Agriculture.** 3 semester hours. Each semester.
A course designed for students in the School of Agriculture.
112. **College Algebra.** 3 semester hours. Each semester and summer.
Prerequisite: Plane geometry and satisfactory placement test score in algebra. Students with one and one-half entrance units of algebra should normally be eligible for this course.

- 120. Plane Analytic Geometry.** 4 semester hours. Each semester and summer.
Prerequisite: Math. 101, 112.
- 131. Analytic Geometry and Calculus I.** 4 semester hours. Second semester.
Analytic geometry, differential and integral calculus of polynomials. Prerequisite: Math. 101, 112.
- 132. Analytic Geometry and Calculus II.** 4 semester hours. First semester.
Continuation of Math. 131, to include transcendental functions. Prerequisite: Math. 131.
- 133. Analytic Geometry and Calculus III.** 4 semester hours. Each semester.
Continuation of Math. 132, to include functions of more than one variable; series. Prerequisite: Math. 132.
- 140. Calculus I.** 4 semester hours. Each semester and summer.
Prerequisite: Math. 120.
- 141. Calculus II.** 4 semester hours. Each semester and summer.
Prerequisite: Math. 140.
- 151. General Algebra.** 5 semester hours. Each semester.
Prerequisite: Plane geometry and one unit of high school algebra. Not open to students with credit in Math. 112. For students in the Curriculums in Business Administration.
- 162. Mathematics of Finance.** 3 semester hours. Second semester.
Prerequisite: Acct. 133, Math. 151.
- 164. Elements of Statistics.** 3 semester hours. Each semester.
A basic course in probability and statistics for students of economics, biology, and science. Not open to students who have credit in Educ. 223. Prerequisite: Math. 151.
- 168. Applied Elementary Statistics.** 2 semester hours. Second semester.
Continuation of Math. 164 with introduction to sampling techniques and theory; introductory multiple and curvilinear correlation, and applications in biology, psychology, economics and engineering. Prerequisite: Math. 164.
- 170. Differential Equations for Engineers.** 2 semester hours. Each semester and summer.
Prerequisite: Math. 133 or 141.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Differential Equations.** 3 semester hours. Each semester and summer.
Prerequisite: Math. 133 or 141.
- 210. Advanced Calculus I.** 3 semester hours. Each semester.
Partial differentiation with applications to the geometry of three dimensions, envelopes, maxima and minima of functions of several variables. Line integrals and allied topics with their relations to multiple integrals. Prerequisite: Math. 133 or 141.
- 213. Advanced Calculus II.** 3 semester hours. Each semester.
Improper integrals, beta and gamma functions; integrals dependent on a parameter, elliptic integrals, uniform convergence of series and integrals. Prerequisite: Math. 133 or 141 and preferably Math. 170 or 201.
- 233. Fourier's Series.** 3 semester hours. Second semester; alternate years.
Prerequisite: Math. 170 or 201.
- 234. Vector Analysis.** 3 semester hours. Second semester; alternate years.
Methods of vector algebra and geometry, with applications, and the elements of tensors. Prerequisite: Math. 170 or 201.

238. **Elementary Partial Differential Equations.** 3 semester hours. First semester; alternate years.
Solution of partial differential equations; applications to problems of physics and engineering. Prerequisite: Math. 170 or 201.
239. **Differential Equations of Mathematical Physics.** 3 semester hours. Second semester; alternate years.
Solution of Legendre's, Bessel's and other differential equations including the properties and uses of the solutions. Prerequisite: Math. 170 or 201.
241. **Theory of Equations.** 3 semester hours. First semester.
Prerequisite: Math. 131 or 140.
242. **Introduction to Theory of Matrices.** 3 semester hours. First semester; alternate years.
Prerequisite: Math. 201 and 241.
243. **Theory of Numbers.** 3 semester hours. Second semester; alternate years.
Prerequisite: Math. 132 or 141.
245. **Abstract Algebra I.** 3 semester hours. First semester; alternate years.
Properties of fields, real numbers, polynomials, elements of group theory, theory of matrices. Prerequisite: Math. 201, 241.
246. **Abstract Algebra II.** 3 semester hours. Second semester; alternate years.
Continuation of Math. 245. Prerequisite: Math. 245.
247. **Structure of Abstract Algebras.** 3 semester hours. Second semester; alternate years.
An introduction to linear algebras over various fields. The algebra of classes. Prerequisite: Math. 242 or 245.
253. **Solid Analytic Geometry.** 3 semester hours. When scheduled or on request of a sufficient number.
Prerequisite: Math. 132 or 141.
254. **College Geometry.** 3 semester hours. Second semester.
Properties of a triangle and its circles, harmonic ranges and pencils, inversion, poles and polars. Prerequisite: Math. 120 or 131.
255. **Analytic Projective Geometry.** 3 semester hours. Second semester; alternate years.
Linear dependence, homogeneous co-ordinates, cross ratio, properties of conics, elements of projective geometry. Prerequisite: Math. 241.
256. **Synthetic Projective Geometry.** 3 semester hours. First semester; alternate years.
Prerequisite: Math. 132 or 140.
257. **Metric Differential Geometry.** 3 semester hours. First semester; alternate years.
A study of the properties of curves and surfaces in the neighborhood of a point. Prerequisite: Math. 201.
258. **Probability.** 3 semester hours. First semester; alternate years.
Basic laws and concepts; mathematical expectation; distribution functions for normal, binomial, and Poisson populations; and applications. Prerequisite: Math. 133 or 141.
259. **Finite Differences.** 3 semester hours. First semester; alternate years.
Application of the calculus of finite differences to problems in interpolation and mechanical quadrature. Construction of some important mathematical tables will be discussed. Prerequisite: Math. 133 or 141.

- 261. Statistical Methods I.** 3 semester hours. First semester.
Development of proficiency in statistical technics appropriate to sampling studies; the chi-square test, confidence intervals, t-test linear regression, and analysis of variance. Prerequisite: Junior standing.
- 262. Statistical Methods II.** 3 semester hours. Second semester.
Further study of analysis of variance; technic and applications of covariance, multiple and curvilinear regression and introduction to designing of experiments. Prerequisite: Math. 261 or consent of the instructor.
- 264. Sampling Methods.** 3 semester hours. Second semester; alternate years.
Design, mechanics, and analysis of sampling investigations in the fields of economics and biology; stratification; estimation of population values; accuracy of sampling estimates. Prerequisite: Math. 261.
- 267. Designing Experiments.** 3 semester hours. Second semester.
The planning of experiments in the fields of biological science so they will be efficient and will yield data which can be analyzed statistically. Randomized blocks, Latin squares, split-plots, and lattices. Prerequisite: Math. 261.
- 268. Mathematical Statistics I.** 3 semester hours. First semester.
Mathematical discussion of statistical methods, frequency distributions; mean values; moments; normal, binomial, and Poisson distributions. Topics in large sample theory, two variable frequency distributions, linear correlation and regression. Prerequisite: Math. 133 or 141.
- 269. Mathematical Statistics II.** 3 semester hours. Second semester.
Curvilinear and multiple correlation; small sample theory; chi-squared, t, and F distributions; testing statistical hypotheses. Prerequisite: Math. 268.
- 270. Statistical Quality Control.** 3 semester hours. Second semester; alternate years.
Elementary treatment of practical methods of analysis of data to estimate uniformity or nonuniformity of the quality of a manufactured product. Discussion of control charts and sampling acceptance plans. Prerequisite: A course in statistics or consent of the instructor.
- 271. Theory of Functions of a Complex Variable I.** 3 semester hours. First semester; alternate years.
Prerequisite: Math. 170 or 201 and 210 or 213.
- 272. Theory of Functions of a Complex Variable II.** 3 semester hours. Second semester; alternate years.
Prerequisite: Math. 271.
- 275. Advanced Differential Equations I.** 3 semester hours. First semester.
Special topics such as the equations of Legendre, Bessel, and Ricatti, with applications. Prerequisite: Math. 170 or 201 and 210 or 213.
- 276. Advanced Differential Equations II.** 3 semester hours. Second semester; alternate years.
Boundary value problems associated with differential equations; their relations to integral equations. Prerequisite: Math. 275.
- 278. Calculus of Variations.** 3 semester hours. When scheduled or on request of a sufficient number of students.
Necessary and sufficient conditions for an extreme value; applications to geometry and mechanics. Prerequisite: Math. 201, 213.
- 282. Tensor Analysis.** 3 semester hours. When scheduled or on request of a sufficient number of students.
Introduction to theory of tensors with applications to geometry, relativity, and applied mathematics. Prerequisite: Math. 201, 210, 234.

- 283. Operational Methods.** 3 semester hours. First semester; alternate years. Selected topics from Heaviside's operational calculus, Laplace transforms. Prerequisite: Math. 170 or 201, and preferably Math. 210.
- 284. Numerical Methods in Mathematics.** 3 semester hours. Second semester; alternate years. Numerical integration, solution of algebraic and transcendental equations. Solution of differential equations by methods of successive approximations. Prerequisite: Math. 170 or 201 and one of Math. 210, 213, 233, 238, 239, 283.
- 290. Foundations of Mathematics.** 3 semester hours. When scheduled or on request of a sufficient number of students. Postulates used in development of geometry and algebra. Prerequisite: Math. 133 or 141.
- 298. History of Mathematics.** 3 semester hours. When scheduled or on request of a sufficient number of students. Prerequisite: Math. 120 or 131.
- 299. Topic in Mathematics.** Credit to be arranged. Each semester and summer. Prerequisite: Math. 133 or 141 and consent of the instructor.

FOR GRADUATE CREDIT

- 331. Research in Mathematics.** Credit to be arranged. Each semester and summer. Prerequisite: At least two courses in this department subsequent to Math. 201 and consent of the instructor.

Military Science and Tactics

COLONEL MARK G. BRISLAWN, *Commandant and Professor of Military Science and Tactics*

LT. COL. DEAN H. ESHELMAN, *Professor of Air Science and Tactics*

Kansas state law, Section 76-436, Session Laws, 1945, stipulates that in land-grant colleges of this state all regularly enrolled male students who are physically qualified shall take military training during the freshman and sophomore years. This required Basic Course is offered by units of the Reserve Officers' Training Corps (Army ROTC and Air Force ROTC) established at Kansas State College. The status of men who present evidence of previous military service or training in the armed forces or at another college will be evaluated by the dean of the school concerned. Their records may be accepted in lieu of all or part of the required two years of basic training. Nonveteran men who matriculate with 25 semester hours of advanced academic credits are excused from the second year of military training; those with 59 hours are excused from both years, using other subjects to replace the hours involved. The President of the College takes final action on all other requests for exemption from military training or its postponement. Any exemption from the Basic Course may bar the students from enrollment in the voluntary Advanced Course ROTC, normally offered to selected juniors and seniors.

All students enrolled in the Basic Course, except those in the Veterinary unit, are furnished free of charge complete uniform, texts, and other necessary equipment. These articles are the property of the United States and must be returned at the end of each school year or upon withdrawal from College. The value of any article not returned is chargeable to the student.

Kansas State College at present has an Air Force ROTC offering a program in Aircraft Maintenance and Engineering, and one in Air Administration and Logistics; and an Army ROTC offering programs in Antiaircraft Artillery, In-

fantry, Signal Corps, and Veterinary. The first two years constitute the Basic Course, and successful completion of this work meets the requirements of Kansas state law. The third and fourth years constitute the Advanced Course in which enrollment is selective and voluntary. The student should consult the Department of Military Science and Tactics for conditions which govern selection for the Advanced ROTC in any of its programs.

Students enrolled in the Advanced Course, Air or Army, may sign a Deferment Agreement which serves to exempt them from selective service induction in return for a promise to accept a reserve commission, if tendered upon completion of the course of instruction, and to serve on active duty for a period of two years, upon call by the Secretary of the Air Force or Army.

Under present regulations, a student enrolled in the second-year Basic ROTC, Army or Air Force, may also sign the Deferment Agreement and accept conditional enrollment in Advanced ROTC which will serve, within established quotas, to exempt him from selective service induction so long as he continues in college and satisfactorily pursues his academic work.

Under present regulations, freshmen in the first-year Basic ROTC, Army or Air Force, are subject to screening by a board of officers after conclusion of the first semester with a view to selection for Deferment Agreement within established quotas. Those who give best promise as potential officer material may be enrolled subsequently in the Advanced Course, if College attendance in good standing is continued through the sophomore year.

In the Advanced ROTC, except in the School of Veterinary Medicine, all courses are three semester hours each. In the School of Veterinary Medicine all courses are one semester hour each. These hours are accepted as electives for degrees except where curricular limitations prevent their full use, in which case the remaining hours appear as electives in excess of requirements for graduation. The hours which may be used are as follows:

School of Agriculture, Curriculum in Agricultural Education, none; other curriculums, 12 semester hours.

School of Arts and Sciences, 12 semester hours.

School of Engineering and Architecture, Curriculum in Architecture, 12 semester hours; other curriculums, 8 semester hours.

School of Veterinary Medicine, 2 or 3 semester hours.

FOR UNDERGRADUATE CREDIT

SENIOR DIVISION ROTC AND AF ROTC

BASIC COURSES

105. Military or Air Science IA. 1 semester hour.

First aid and hygiene; evolution of warfare; military psychology and personnel management; military policy of the United States; military problems of the United States; individual weapons and marksmanship; maps and aerial photographs; leadership, drill and exercise of command. Two hours of recitation and one hour of practical work a week.

106. Military or Air Science IB. 1 semester hour.

Maps and aerial photographs; individual weapons and marksmanship; military policy of the United States; evolution of warfare; military problems of the United States; military mobilization and demobilization; leadership, drill and exercise of command. Two hours of recitation and one hour of practical work a week. Prerequisite: Mil. Sc. 105.

121. Air Science IIA. 1 semester hour.

Orientation; aerodynamics and propulsion; meteorology; leadership, drill and exercise of command. Two hours of recitation and one hour of practical work a week. Prerequisite: Mil. Sc. 106.

122. Air Science IIB. 1 semester hour.

Aerial navigation; applied air power; leadership, drill, and exercise of command. Two hours of recitation and one hour of practical work a week. Prerequisite: Mil. Sc. 121.

129. Antiaircraft Artillery IIA. 1 semester hour.

Introduction to antiaircraft artillery weapons; characteristics, capabilities, and limitations of antiaircraft artillery automatic weapons; service of the piece—automatic weapons fire unit; leadership, drill, and exercise of command. Two hours of recitation and one hour of practical work a week. Prerequisite: Mil. Sc. 106.

130. Antiaircraft Artillery IIB. 1 semester hour.

Introduction to antiaircraft artillery guns; characteristics, capabilities, and limitations of 90-mm antiaircraft artillery guns; service of the piece—90 mm antiaircraft artillery guns; leadership, drill, and exercise of command. Two hours of recitation and one hour of practical work a week. Prerequisite: Mil. Sc. 129.

131. Infantry IIA. 1 semester hour.

Organization and equipment of the infantry division, regiment, battalion and company; weapons study covering description, characteristics, limitations of automatic rifles, machine guns, carbines, rocket launchers; leadership, drill, and exercise of command, including the functions, duties and responsibilities of junior noncommissioned officers. Two hours of recitation and one hour of practical work a week. Prerequisite: Mil. Sc. 106.

132. Infantry IIB. 1 semester hour.

Principles of marksmanship of M-1 Rifle and range firing with caliber .22 rifle; technique of fire of rifle squad to include landscape target firing with caliber .22 rifle; scouting and patrolling, day and night; combat formations in squad combat and the tactical handling and control of small units in battle; employment of rifle squad in attack, defense, and security; leadership, drill, and exercise of command including the functions, duties, and responsibilities of junior noncommissioned officers. Two hours of recitation and one hour of practical work a week. Prerequisite: Mil. Sc. 131.

137. Signal IIA. 1 semester hour.

Introduction to signal communications; leadership, drill, and exercise of command. Two hours of recitation and one hour of practical work per week. Prerequisite: Mil. Sc. 106 and enrollment in a curriculum in engineering, electronics, or physics.

138. Signal IIB. 1 semester hour.

Organization and mission of the Signal Corps; organization and signal communication practices of infantry, armored and airborne divisions; leadership, drill, and exercise of command. Two hours of recitation and one hour of practical work per week. Prerequisite: Mil. Sc. 137.

181. Veterinary IA. 1 semester hour.

World situation, national defense, and ROTC; maps and aerial photographs; military training methods; military law; organization of the Army and Air Force. One hour of recitation a week. Prerequisite: Enrollment in School of Veterinary Medicine.

182. Veterinary IB. 1 semester hour.

Military administration; organization of the Army and Air Force Medical Service; veterinary units; veterinary military history; duties of veterinarians. One hour of recitation a week. Prerequisite: Mil. Sc. 181.

183. Veterinary IIA. 1 semester hour.

Army and Air Force Veterinary Service, zone of interior and theatre of operations; veterinary administration. One hour of recitation a week. Prerequisite: Mil. Sc. 182.

184. Veterinary IIB. 1 semester hour.

Military public health, medical service supply; animal management; general consideration of Army and Air Force Veterinary Service. One hour of recitation a week. Prerequisite: Mil. Sc. 183.

ADVANCED COURSES

- 142. Air Administration IIIA.** 3 semester hours.
Orientation; air operations; logistics; motor and commercial transportation, leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 122.
- 143. Air Administration IIIB.** 3 semester hours.
Supply; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 142.
- 144. Air Administration IVA.** 3 semester hours.
Orientation; military teaching methods; military management; career development; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 143.
- 145. Air Administration IVB.** 3 semester hours.
The Inspector General; military law and boards; air administration and logistics. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 144.
- 147. Air Maintenance IIIA.** 3 semester hours.
Orientation; air operations; logistics; aircraft maintenance and engineering; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 122 and enrollment in the School of Engineering or an equivalent technical curriculum.
- 148. Air Maintenance IIIB.** 3 semester hours.
Aircraft maintenance and engineering; inspection procedures; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 147.
- 149. Air Maintenance IVA.** 3 semester hours.
Orientation; military teaching methods; military management; Air Force administration; organizational maintenance; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 148.
- 150. Air Maintenance IVB.** 3 semester hours.
The Inspector General; military law and boards; aircraft maintenance. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 149.
- 162. Antiaircraft Artillery IIIA.** 3 semester hours.
Organization of antiaircraft artillery gun, automatic weapons and self-propelled batteries and battalions; antiaircraft artillery tactics; motors and transportation; individual weapons and marksmanship; communications; troop movements; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 130.
- 163. Antiaircraft Artillery IIIB.** 3 semester hours.
Basic gunnery (automatic weapons); basic gunnery (antiaircraft guns); leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 162.
- 164. Antiaircraft Artillery IVA.** 3 semester hours.
Command and staff; new developments; psychological warfare; combat intelligence; military teaching methods; supply and evacuation; military administration and personnel management; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 163.
- 165. Antiaircraft Artillery IVB.** 3 semester hours.
Antiaircraft artillery materiel; gunnery (advanced); military team; antiaircraft artillery tactics (advanced); field artillery capabilities and employ-

ment; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 164.

167. Infantry IIIA. 3 semester hours.

Review organization of the infantry division; weapons study covering description, characteristics, nomenclature of machine guns, mortars, rocket launchers, recoilless rifles and land mines; gunnery, to include technique of fire of the rifle platoon and crew served weapons; leadership, drill, and exercise of command, to include the functions, duties, and responsibilities of senior noncommissioned officers. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 132.

168. Infantry IIIB. 3 semester hours.

Combat intelligence; signal communication within the infantry battalion and with supporting units; estimate of the situation and combat orders; tactical employment of infantry rifle and heavy weapons platoons on normal offensive, defensive, and security missions; hasty field fortifications; leadership, drill, and exercise of command as in Mil. Sc. 167. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 167.

169. Infantry IVA. 3 semester hours.

Military administration; command and staff, using the division staff as a model; military teaching methods, to include educational, psychological, and instructional technique; psychological warfare; military law and boards; organization, covering the equipment, and duties of personnel of division and regiment; continuation of communication from Mil. Sc. 168; leadership, drill, and exercise of command, including the functions, duties, and responsibilities of commissioned officers. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 168.

170. Infantry IVB. 3 semester hours.

Motors and transportation with respect to vehicle nomenclature, characteristics, and tactical use; supply and evacuation to include duties of the battalion and regimental S-4's; administrative and tactical troop movements and bivouacs; new developments in tactics and weapons; the military team from the size of a patrol to a regimental combat team; tactics of the infantry battalion in attack and defense; geographical foundations of national power; leadership, drill, and exercise of command as in Mil. Sc. 169. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 169.

172. Signal IIIA. 3 semester hours.

Communication security; field wire communication fundamentals; message center and communications center procedure; weapons and marksmanship; career guidance; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 138.

173. Signal IIIB. 3 semester hours.

Signal orders; field radio communication fundamentals; applied signal communication; signal supply and repair; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 172.

174. Signal IVA. 3 semester hours.

Military administration and personnel management; command and staff; post signal operations and administrative procedure; darkroom technique and photographic practices; wire communication materiel; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 173.

175. Signal IVB. 3 semester hours.

Military teaching methods; psychological warfare; combat intelligence; career guidance; radio communication materiel; higher echelon signal communication equipment; leadership, drill, and exercise of command. Five hours of recitation and practical work a week. Prerequisite: Mil. Sc. 174.

185. **Veterinary IIIA.** 1 semester hour.
Personnel management; subsistence procurement; veterinary food inspection service. One hour of recitation a week. Prerequisite: Mil. Sc. 184.
186. **Veterinary IIIB.** 1 semester hour.
Veterinary research and development; physical examination of animals; transportation of animals. One hour of recitation a week. Prerequisite: Mil. Sc. 185.
187. **Veterinary IVA.** 1 semester hour.
Food products inspection; veterinary preventive medicine; mobilization. One hour of recitation a week. Prerequisite: Mil. Sc. 186.
188. **Veterinary IVB.** 1 semester hour.
Veterinary aspects of atomic warfare; veterinary aspects of chemical warfare; organized reserve corps. One hour of recitation a week. Prerequisite: Mil. Sc. 187.

Modern Languages

FRITZ MOORE, *Head of Department*

For a minor, 15 hours in a single language should be completed.

For a major, 30 hours in a single language should be completed, or 27 hours in one language and six in a second language.

Students who have had German, French, or Spanish in high school may not duplicate that work for college credit. One year of a language in high school is, as a rule, equivalent to one semester in college. In doubtful cases, the head of the department should be consulted.

FOR UNDERGRADUATE CREDIT

101. **German I.** 3 semester hours. Each semester and summer.
102. **German II.** 3 semester hours. Each semester and summer.
Prerequisite: Mod. Lang. 101 or equivalent.
111. **German III.** 3 semester hours. Each semester and summer.
Prerequisite: Mod. Lang. 102 or equivalent.
112. **German IV.** 3 semester hours. Each semester and summer
Prerequisite: Mod. Lang. 111 or equivalent.
113. **German V.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 112 or equivalent.
115. **Technical German I.** 3 semester hours. Each semester.
117. **Technical German II.** 3 semester hours. Each semester.
Prerequisite: Mod. Lang. 115 or equivalent.
120. **Technical German III.** 3 semester hours. Each semester.
Prerequisite: Mod. Lang. 102 or 117 or equivalent.
140. **Russian I.** 3 semester hours. First semester.
Prerequisite: Six hours of some other foreign language.
141. **Russian II.** 3 semester hours. Second semester.
Prerequisite: Mod. Lang. 140.
151. **French I.** 3 semester hours. Each semester and summer.
152. **French II.** 3 semester hours. Each semester and summer.
Prerequisite: Mod. Lang. 151 or equivalent.

161. **French III.** 3 semester hours. Each semester and summer.
Prerequisite: Mod. Lang. 152 or equivalent.
162. **French IV.** 3 semester hours. Each semester.
Prerequisite: Mod. Lang. 161 or equivalent.
163. **French Composition and Conversation.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 162.
164. **Advanced French Composition and Conversation.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 163 or equivalent.
166. **French V.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 162 or equivalent.
170. **Italian I.** 3 semester hours. First semester.
171. **Italian II.** 3 semester hours. Second semester.
Prerequisite: Mod. Lang. 170 or equivalent.
176. **Spanish I.** 3 semester hours. Each semester and summer.
177. **Spanish II.** 3 semester hours. Each semester and summer.
Prerequisite: Mod. Lang. 176 or equivalent.
180. **Spanish III.** 3 semester hours. Each semester and summer.
Prerequisite: Mod. Lang. 177 or equivalent.
181. **Spanish IV.** 3 semester hours. Each semester.
Prerequisite: Mod. Lang. 180 or equivalent.
182. **Spanish V.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 181 or equivalent.
194. **Spanish Composition and Conversation.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 181 or equivalent.
195. **Advanced Spanish Composition and Conversation.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 194 or equivalent.

FOR GRADUATE AND UNDERGRADUATE CREDIT

209. **Schiller.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 113 or equivalent
213. **Goethe.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 113 or equivalent
216. **German Drama I.** 3 semester hours. First or second semester.
Prerequisite: Twenty-four hours of college German or equivalent.
217. **German Drama II.** 3 semester hours. First or second semester.
Prerequisite: Twenty-four hours of college German or equivalent.
219. **Survey of German Literature I.** 3 semester hours. First or second semester.
Prerequisite: Thirty-four hours of college German or equivalent.
220. **Survey of German Literature II.** 3 semester hours. First or second semester.
Prerequisite: Thirty hours of college German or equivalent.

253. **French Novel.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 166 or equivalent.
255. **French Drama.** 3 semester hours. First or second semester.
Prerequisite: Mod. Lang. 166 or equivalent.
259. **Moliere.** 3 semester hours. First or second semester.
Prerequisite: Thirty hours of college French or equivalent.
260. **Contemporary French Literature.** 3 semester hours. First or second semester.
Prerequisite: Thirty hours of college French or equivalent.
277. **Spanish Novel.** 3 semester hours. First or second semester.
Prerequisite: Fifteen hours of college Spanish or equivalent.
279. **Spanish Drama.** 3 semester hours. First or second semester.
Prerequisite: Fifteen hours of college Spanish or equivalent.
282. **Spanish-American Literature I.** 3 semester hours. First or second semester.
Prerequisite: Eighteen hours of college Spanish or equivalent.
284. **Spanish-American Literature II.** 3 semester hours. First or second semester.
Prerequisite: Eighteen hours of college Spanish or equivalent.
286. **Cervantes.** 3 semester hours. First or second semester.
Prerequisite: Thirty hours of college Spanish or equivalent.
288. **Contemporary Spanish Literature.** 3 semester hours. First or second semester.
Prerequisite: Thirty hours of college Spanish or equivalent.
295. **Introduction to Philology.** 2 semester hours. First or second semester.
Prerequisite: Thirty hours in modern languages or equivalent.
299. **Problems in Modern Languages.** Credit to be arranged. Each semester and summer.
- FOR GRADUATE CREDIT
301. **Research in Modern Languages.** Credit to be arranged.
Prerequisite: Thirty hours in one modern language or equivalent.

Music

LUTHER O. LEAVENGOOD, *Head of Department*

For a minor, the following courses are required: Mus. 118, 125, 126, 134, 146, 148, 147, 150, 153, or 156 (4 hours), 161 (4 hours), and 176 (2 semesters).

For the thirty-hour major in the Curriculum in Humanities, the following courses are required: Instrument, or Voice, six hours; Mus. 125, 126, 127, 128, twelve hours; 130, 131, four hours; electives, eight hours. This major is intended to prepare students to teach music in the public schools of Kansas.

Students who intend to be certified to teach music in the public schools of Kansas as a secondary teaching subject only must take in addition to the courses required for a minor in music the following courses: For grade supervisors and choral directors, Mus. 142, 145, 152, and two years in a choral organization; for band and orchestra directors, Mus. 123, 124, 152, and two years in band or orchestra.

Prerequisites for students taking a thirty-hour major in music in the Curriculum in Humanities are the same as for candidates for the Bachelor of Science in Music Education.

Courses in music are available to any student enrolled in the College, subject to the prerequisites listed under course descriptions. Courses in applied music do not require prerequisites for the nonmusic major, but such students should have some knowledge of notation and fundamentals of music. This elective credit in applied music, however, can not be used later toward a music degree unless it meets the requirements of that course. (See course requirements.) No more than two credits a semester will be granted for applied music as an elective.

Requirements for Entrance and Graduation

Students planning to major in the curriculums in music education or applied music must take an examination for musical aptitude.

Preliminary examinations in piano must be taken by all students majoring in music regardless of what curriculum is selected.

The above examinations are compulsory before any enrollment is made. For dates of examinations, consult the Calendar.

General Information

Regular attendance at student and faculty recitals, choral and orchestral concerts, and the artist series is required of all music majors. Recital cards are kept, and seventy-five percent attendance is required for graduation.

All students enrolled in music must have the consent of their instructor in order to perform in public or on the radio.

Practice room privileges are covered by the fees for private lessons for students who are regularly enrolled in College. All others must pay the fee stated following Mus. 303.

The various courses in Voice or Instrument are divided into grades. Students majoring in either the Curriculum in Applied Music or the Curriculum in Music Education must satisfy the following requirements for entrance in order to receive credit for the work and complete the grade indicated under each major before graduation.

Curriculum in Applied Music

Piano Majors: Students majoring in piano must pass grade 6 upon entrance and complete grade 10 by the end of the senior year.

Voice Majors: Students majoring in voice must pass grade 2 of the voice curriculum and grade 2 of the piano curriculum upon entrance and complete grade 6 in voice and grade 4 in piano by the end of the senior year.

Organ Majors: Students majoring in organ must pass grade 6 of the piano curriculum upon entrance and complete grade 4 of the organ curriculum by the end of the senior year.

String Majors: Students majoring in stringed instruments must pass grade 6 upon entrance and complete grade 10 by the end of the senior year.

Woodwind and Brass Majors: Students majoring in woodwind or brass instruments must pass grade 4 upon their major instrument upon entrance and complete grade 8 by the end of the senior year. In addition, all instrumental majors must pass grade 1 in piano for entrance and complete grade 3 by the end of the senior year.

Curriculum in Music Education

Piano Majors: Students majoring in piano must pass grade 3 in the piano upon entrance and complete grade 7 by the end of the senior year.

Voice Majors: No specific entrance requirement. However, a student should possess the ability to sing in time and in tune. Students majoring in

voice must pass grade 2 in piano. For graduation voice majors must complete grade 4 of the voice curriculum and grade 4 of the piano curriculum.

Organ Majors: Students majoring in organ must pass grade 6 of the piano curriculum upon entrance and complete grade 2 of the organ curriculum by the end of the senior year.

String Majors: Students majoring in stringed instruments must pass grade 3 upon their major instrument and grade 1 of the piano curriculum upon entrance. They must complete grade 7 of the major instrument and grade 3 of the piano curriculum by the end of the senior year.

Woodwind and Brass Majors: Students majoring in woodwind or brass instruments must pass grade 1 upon their major instrument and grade 1 of the piano curriculum upon entrance. They must complete grade 5 of the major instrument and grade 3 of the piano curriculum by the end of the senior year.

Outlines of each of the curriculums in music may be secured upon request from the head of the Department of Music. In each case, the major instrument should be specified.

COURSES IN THE THEORY OF MUSIC

FOR UNDERGRADUATE CREDIT

112. **History of Music I.** 2 semester hours. First semester and summer.
Chronological study of significant musical trends; the influence of cultural forces upon musical developments; the contributions of individual composers.
113. **History of Music II.** 2 semester hours. Second semester and summer.
Continuation of Mus. 112. Prerequisite: Mus. 112.
114. **Music Literature I.** 2 semester hours. First semester and summer.
Style characteristics of music as revealed through a careful analysis of the music of different periods.
115. **Music Literature II.** 2 semester hours. Second semester and summer.
Continuation of Mus. 114. Prerequisite: Mus. 114.
117. **Appreciation of Music.** 2 semester hours. Each semester and summer.
A study of musical materials, forms, and styles that will enable the listener to enjoy more fully the music which he may hear at concerts, in broadcasts, and on records. Not open to music majors. For students in Curriculum in Humanities.
118. **Music Fundamentals.** 2 semester hours. First semester and summer.
Elementary instruction in the theory of music. Three hours of recitation a week. Not open to students in music curriculums.
119. **Broadcast Musical Programs.** 2 semester hours. Each semester and summer.
Planning and arranging broadcasts of musical programs; copyright law as applied to musical broadcasts; theme, transitional, background, and incidental music; microphone technic applied to music. Three hours of recitation a week. Prerequisite: Sp. 163 or equivalent.
120. **Methods and Materials in School Music for Elementary Teachers.** 3 semester hours. Second semester and summer.
Methods of teaching music through the primary and intermediate grades, in rural and two- and three-room schools; elementary sight-singing, music appreciation using materials from various texts of state adoption. Prerequisite: Mus. 118.
123. **Instrumental Methods I.** 2 semester hours. First semester and summer.
Organization and maintenance of the band; relationship and responsibilities of the school music program to the community; literature for junior and senior high school bands.

124. **Instrumental Methods II.** 2 semester hours. Second semester and summer.
Organization of beginning string classes in the grades; relationship of the ensemble program to junior and senior high school orchestra.
125. **Theory of Music I.** 3 semester hours. First semester and summer.
Harmony, ear training, and sight singing. Six hours of recitation a week.
126. **Theory of Music II.** 3 semester hours. Second semester and summer.
Continuation of Mus. 125. Six hours of recitation a week. Prerequisite: Mus. 125.
127. **Theory of Music III.** 3 semester hours. First semester and summer.
Continuation of Mus. 126. Six hours of recitation a week. Prerequisite: Mus. 126.
128. **Theory of Music IV.** 3 semester hours. Second semester and summer.
Continuation of Mus. 127. Six hours of recitation a week. Prerequisite: Mus. 127.
132. **Choral Conducting.** 2 semester hours. Second semester and summer.
Prerequisite: Mus. 118 or equivalent.
135. **Instrumental Conducting.** 2 semester hours. First semester and summer.
Prerequisite: Mus. 128, 132.
136. **Instrumentation and Orchestration.** 3 semester hours. Second semester and summer.
Instruments of the band and orchestra studied with relation to tone, color, range, and function; simple and familiar compositions scored for ensemble, including full orchestra. Prerequisite: Mus. 128.
137. **Counterpoint I.** 2 semester hours. First semester and summer.
Devices of counterpoint and imitation leading to the writing of short contrapuntal compositions in two voices. Analysis of choral preludes and inventions. Prerequisite: Mus. 128.
138. **Counterpoint II.** 2 semester hours. Second semester and summer.
A continuation of Mus. 137. Contrapuntal composition in three or four voices. Analysis of the fugue. Prerequisite: Mus. 137.
141. **Musical Form and Analysis.** 2 semester hours. Each semester and summer.
Forms used in composition; the music of Bach, Haydn, Mozart, Beethoven, Schumann, Chopin, Brahms, Wagner, and others. Prerequisite: Mus. 140.
142. **School Music I.** 2 semester hours. First semester and summer.
Methods and materials for teaching music in kindergarten and primary grades. Adaptation is made in summer school to meet the needs of rural and small city schools. Prerequisite: Mus. 126 or consent of instructor.
143. **Composition I.** 2 semester hours. First semester and summer.
Composition in the small forms for piano, voice and instruments. Development of style conception. Prerequisite: Mus. 138 and concurrent enrollment in Mus. 141.
144. **Composition II.** 2 semester hours. Second semester and summer.
Continuation of Mus. 143 with emphasis on more complex treatment of the small forms and compound forms. Prerequisite: Mus. 143.
145. **School Music II.** 2 semester hours. Second semester and summer.
Methods and materials for intermediate grades. Prerequisite: Mus. 142.

146. **Orchestral Instruments I.** 1 semester hour. Each semester and summer. Methods of tone production of instruments of the orchestra. Two hours of recitation and one hour of laboratory a week.
147. **Orchestral Instruments II.** 1 semester hour. Each semester and summer. Continuation of Mus. 146. Two hours of recitation and one hour of laboratory a week.
148. **Orchestral Instruments III.** 1 semester hour. Each semester and summer. Continuation of Mus. 147. Two hours of recitation and one hour of laboratory a week.
150. **Orchestral Instruments IV.** 1 semester hour. Each semester and summer. Continuation of Mus. 148. Two hours of recitation and one hour of laboratory a week.
152. **School Music III.** 2 semester hours. Each semester and summer. Methods and teaching materials suitable for junior and senior high school. Prerequisite: Mus. 145 or consent of instructor.

COURSES IN APPLIED MUSIC

154. **Piano.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
157. **Organ.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
159. **Voice.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
162. **Instrument.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
165. **Violin.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
168. **Viola.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
169. **Violoncello.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
173. **Double Bass.** 0 to 4 semester hours; maximum of 32 hours allowed. Each semester and summer. For fees, see table following Mus. 303.
175. **Vocal Ensemble.** 1 semester hour. Each semester and summer. Two hours of laboratory a week. Elective for students of superior vocal talent.
176. **Piano Ensemble.** R credit. Each semester. One hour of recitation a week. Required of students enrolled in the music curriculums.
178. **Instrumental Ensemble.** 1 semester hour. Each semester and summer. Three hours of laboratory a week. Elective for selected students.
181. **Recital Attendance.** R credit. Each semester.

- 182. Junior Recital.** 1 semester hour. Second semester.
A joint solo recital appearance. For students in the Curriculum in Applied Music.
- 184. Senior Recital.** 2 semester hours. Second semester.
An individual solo recital appearance. For students in the Curriculum in Applied Music.
- 185. Practice Teaching in Applied Music.** 1 semester hour. Second semester.
Practice teaching in private classes for students in the Curriculum in Applied Music.
- 188. A Cappella Choir.** R in curriculums in music; 1 semester hour in other curriculums. Each semester.
Membership by tryouts open to all students.
- 193. College Chorus.** R in curriculums in music; 1 semester hour in other curriculums. Each semester and summer.
Preparation and performance of oratorio and octavo music. Prerequisite: Voice of good quality, ability to read musical notation.
- 196. Orchestra.** R in curriculums in music; 1 semester hour in other curriculums. Each semester.
Membership by tryouts open to all students.
- 197. Band.** R in curriculums in music; 1 semester hour in other curriculums. Each semester.
Membership by tryouts open to all students.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 203. Organ Registration.** 2 semester hours. First semester.
Study of organ specifications and construction as they apply to the practice of the combination of tone. Four hours of recitation a week. Prerequisite: Two semesters of organ or equivalent playing ability.
- 204. Service Playing.** 2 semester hours. Second semester.
Problems in playing services in the various liturgical and nonliturgical churches. Four hours of recitation a week. Prerequisite: Two semesters of organ or equivalent playing ability.
- 208. The Opera.** 2 semester hours. First semester.
Survey of the history of opera from 1600 to the present, with a detailed study of a number of the most important operas. Prerequisite: Mus. 131 or Compr. 132 or equivalent.
- 209. Baroque Music: Bach and Handel.** 2 semester hours. Second semester.
Study of the music of the Baroque period, c. 1600-1750, with emphasis on the music of Bach and Handel. Prerequisite: Mus. 131 or Compr. 132 or equivalent.
- 211. Choral Problems.** Credit to be arranged. Summer.
Sight reading, octavo, cantata, and operetta literature for junior and senior high school; problems concerned with the production and staging of choral programs and operettas. Prerequisite: Senior standing.
- 215. Introduction to Musicology.** 3 semester hours. Second semester.
A survey of the various musical fields in which scientific investigations have been carried on; designed to assist the student in broadening his horizons and developing a well-rounded philosophy of music. Prerequisite: Junior standing, Mus. 130, 131, Compr. 131, 132 or Hist. 106, 107.
- 228. Music Supervision.** 2 semester hours. (See Educ. 228.)
Second semester and summer.
Organization, administration, and supervision of music in public schools;

materials, methods, organizations, public performances, and festivals. Prerequisite: Mus. 152.

- 233. Advanced Instrumental Methods.** 2 semester hours. Second semester and summer.
Methods, repertoire, conducting, contest, interpretation, individual instruction, and ensembles. Prerequisite: Mus. 123, 124, and 134.
- 243. The Symphony.** 2 semester hours. Summer.
Music which serves as a background and culminates in contemporary musical art; madrigal, art song, cantata, oratorios, opera, symphony, concerts, and the symphonic poem. Prerequisite: Senior standing.
- 246. Music in History.** 3 semester hours. First semester and summer.
Historical developments of music; its relationship to architecture, painting, sculpture, fine arts; its relationship to political, economic, social, and religious life. Prerequisite: Senior standing.
- 258. Ensemble.** 1 semester hour. Each semester and summer.
A graduate course in ensemble techniques and materials. Prerequisite: Consent of instructor.
- 261. Techniques of the Marching Band.** 2 semester hours. First semester.
Band instrumentation; problems of the band on the field, the drum major. Prerequisite: Mus. 123, 124.
- 263. Seminar in Music Education.** 3 semester hours. First semester.
Special phases of music education adapted to needs of the student enrolled. Prerequisite: Mus. 152.
- 265. Methods and Materials for the Studio.** 1 semester hour. Each semester.
Methods of teaching fundamentals technic; selection of teaching materials, and outlining of courses of study. For students in the Curriculum in Music, Applied; taught in separate divisions for voice, piano, organ, and violin. Two hours of recitation a week.
- 275. Advanced Theory I.** 3 semester hours. First semester.
Combination of harmony, counterpoint, and form as used in compositions in their historical setting. Prerequisite: Mus. 140, 141.
- 276. Advanced Theory II.** 3 semester hours. Second semester.
Modern chord structures, atonality, polytonality, form used in contemporary compositions. Prerequisite: Mus. 140, 141.
- 277. Psychology of Music.** 3 semester hours. (See Psych. 277.)
- 299. Problems in Music.** Credit to be arranged. Each semester and summer.
Prerequisite: Senior standing and consent of instructor.

FOR GRADUATE CREDIT

- 301. Research in Music.** Credit to be arranged. Each semester and summer.
Prerequisite: Graduate standing and consent of instructor.
- 303. Applied Music.** Credit to be arranged. Each semester and summer.
Prerequisite: Junior standing and consent of instructor.

FEES IN MUSIC

Enrolled College Students

Voice, Piano, Organ, Violin, Violoncello, and other instruments:

Two 30-minute lessons each week for a semester including two hours practice room daily—\$35.

One 30-minute lesson each week for a semester including one hour practice room daily—\$17.50.

Single lesson rate—\$1.50.

Persons Not College Students

Voice, Piano, Organ, Violin, Violoncello, and all other instruments:

Two 30-minute lessons each week for a semester—\$42.

One 30-minute lesson each week for a semester—\$23.

Single lesson rate—\$2.

Practice room, one hour daily for a semester—\$3.

Practice room, two hours daily for a semester—\$5.

Practice room, per additional hour daily for a semester—\$2.50.

Organ rent, one hour daily for a semester—\$10.

Lessons scheduled on legal holidays which are observed by the College will not be made up.

Lessons which fall on school holidays will be made up at the convenience of the teacher.

Instructors are not required to arrange to make up lessons missed by students. In cases of illness or other physical disabilities, however, the instructor may arrange for the make up of lessons.

Lessons missed because of the instructor's absence will be made up.

Physical Education and Athletics

LAURENCE W. MULLINS, *Director of Intercollegiate Athletics*

THOMAS M. EVANS, *Head of Department of Physical Education*

Each student receives a physical examination before enrollment in courses in the Department of Physical Education and Athletics. Students should take courses 103 for men and 151 for women to satisfy the physical education requirement. Transfer students who enter this College with 15, 25, 44, or 59 hours of credit are excused from one, two, three, or four semesters, respectively, of Phys. Ed. 103 or 151.

For a major, a student should enroll in one of the curriculums in Physical Education.

COURSES IN PHYSICAL EDUCATION FOR MEN

FOR UNDERGRADUATE CREDIT

- 103. Physical Education M.** No credit. Each semester and summer.
Activities offered: Athletic sports, apparatus work, boxing, calisthenics, individual physical education, swimming, tumbling, and wrestling.
- 107. Introduction to Physical Education.** 1 semester hour. First semester.
Introductory survey of the field and study of the principles of health and physical education.
- 113. Athletic Injuries and First Aid.** 3 semester hours. Second semester and summer.
Standard and advanced Red Cross First Aid certificates given for successful completion of work. Principles and practice of massage, taping, and care of minor athletic injuries. Prerequisite: Zool. 123.
- 118. Community Health.** 1 semester hour. Summer.
The control of communicable disease; food, water, waste, and other sanitary problems; ventilation, heating, and lighting; public health procedures.
- 119. Personal Hygiene.** 2 semester hours. First semester and summer.
- 120. Swimming M.** 1 semester hour. Second semester and summer.
Theory and practice of various swimming strokes, diving, treading water, and floating. Methods of teaching swimming. Three hours of laboratory a week. Prerequisite: One semester of swimming or passing Red Cross intermediate swimmer's test.

- 124. Health Examinations.** 3 semester hours. First semester.
Methods of giving health examinations; postural deviations; corrective exercise. Prerequisite: Phys. Ed. 132.
- 126. Technics of Football.** 2 semester hours. Second semester.
Study of rules, theory, and practice; methods of coaching.
- 127. Technics of Basketball.** 2 semester hours. First semester.
Study of rules, theory, and practice; methods of coaching.
- 128. Technics of Baseball.** 2 semester hours. First semester.
Study of rules, theory, and practice; methods of coaching.
- 129. Technics of Track and Field.** 2 semester hours. Second semester.
Study of rules, theory, and practice; methods of coaching.
- 131. Tennis and Golf.** 1 semester hour. Second semester.
Study of rules, theory, and practice; methods of coaching.
- 132. Kinesiology M.** 2 semester hours. Second semester.
Body movements analyzed; principles involved applied to teaching of physical education. Prerequisite: Zool. 123.
- 134. Practice Teaching in Physical Education.** 2 semester hours. Second semester.
Supervised students assist in physical education classes and officiate in intramural games. Six hours of laboratory a week.
- 135. Physical Education Activities I.** 2 semester hours. First semester.
Practice and teaching methods of soccer, volleyball, gymnasium games; boxing and wrestling. Six hours of laboratory a week.
- 138. Physical Education Activities II.** 2 semester hours. Second semester.
Theory and practice of calisthenics, the gymnastic lesson, and tumbling. Six hours of laboratory a week.
- 139. Physical Education Activities III.** 2 semester hours. First semester.
Graded exercises on gymnasium apparatus, rhythms, and pyramids. Six hours of laboratory a week.
- 142. Public School Program in Physical Education.** 2 semester hours. Second semester.
Educational, health, and recreative significance and content of the school program; types of activities to be used in grades and high school. Prerequisite: Senior standing.
- 143. History of Physical Education.** 2 semester hours. First semester.
Prerequisite: Phys. Ed. 107.
- 145. Nature and Function of Play.** 2 semester hours. First semester.
Theoretical explanations of play; age and sex characteristics which influence play; values of play to individual and community. Prerequisite: Psych. 184.
- 146. Administration of Health and Physical Education.** 3 semester hours.
First semester.
Prerequisite: Junior standing.
- 147. Community Hygiene.** 2 semester hours. Second semester.
Production, improvement, maintenance, and defense of public health. Prerequisite: Phys. Ed. 119.

148. **Sports Officiating.** 1 semester hour. First semester.
Principles and practices of officiating athletic games.
149. **Teaching Health.** 2 semester hours. Second semester.
Materials and methods of teaching health at the junior and senior high school level. Prerequisites: Phys. Ed. 147, Zool. 123, 221.

FOR GRADUATE AND UNDERGRADUATE CREDIT

203. **Community Recreation.** 2 semester hours. Second semester and summer.
A study of the organization and activities of club work for youth, camping, playgrounds, and indoor recreation centers. Prerequisite: Phys. Ed. 145, Psych. 184.
205. **Tests and Measurements in Physical Education.** 3 semester hours. First semester and summer.
A study of capacity, achievement, knowledge, and skill tests, for purposes of classification and measurement of school progress. Prerequisite: Educ. 223.
207. **Physiology of Exercise.** 2 semester hours. First semester and summer.
Effects of exercise on the tissues, systems, and organs of the body. Prerequisite: Zool. 221.
211. **Advanced Methods of Teaching Physical Education.** 2 semester hours. Second semester and summer.
Prerequisite: Phys. Ed. 142 or equivalent.
213. **Administration of Physical Education in Colleges and Universities.** 2 semester hours. First semester and summer.
217. **Curriculum Construction in Physical Education.** 2 semester hours. Second semester and summer.
A study of materials, problems, and guiding principles involved in curriculum construction. Prerequisite: Phys. Ed. 142 or equivalent.
240. **Seminar in Physical Education.** Credit to be arranged.
Recent trends and problems in physical education. Prerequisite: Senior standing and consent of instructor.
245. **Seminar in Health Education.** Credit to be arranged.
Recent trends and problems in health education. Prerequisite: Phys. Ed. 146 and consent of instructor.

FOR GRADUATE CREDIT

302. **Research in Physical Education.** Credit to be arranged.
Prerequisite: Variable, depending on problem chosen.
305. **Supervision of Physical Education.** 2 semester hours. Second semester and summer.
A study of the objectives, organization, and methods of supervision for elementary and secondary schools. Prerequisite: Phys. Ed. 146, Educ. 163.
307. **Administration of School Health Education Program.** 2 semester hours. First semester and summer.
A study of the organization and administration of health service, health instruction, and health environment for primary and secondary schools; health councils. Prerequisite: Phys. Ed. 149.

COURSES IN PHYSICAL EDUCATION FOR WOMEN

Recreational swimming is offered on Tuesdays and Thursdays at 5 o'clock for women registered in College.

FOR UNDERGRADUATE CREDIT

- 151. Physical Education W.** No credit. Required. Each semester and summer.
Activities offered: Archery, basketball, bowling, folk and tap dancing, golf, hockey, individual and Danish gymnastics, modern dance; recreational sports, rifle, soccer, softball, social dancing, swimming, and tennis.
- 152. Physical Education W Lectures.** Required credit. Each semester.
Required of women enrolled in the Curriculum in Physical Education for Women. Orientation and general survey of the field, health, physical education, and recreation.
- 154. Fundamental Rhythms.** 2 semester hours. First semester.
Body rhythm, fundamentals of music, and percussion accompaniment for rhythmic activities. One hour of recitation and three hours of laboratory a week.
- 158A. Self-testing Activities.** 2 semester hours. First semester.
The practice of self-testing activities, motor ability tests, and the administration of related knowledge tests for the purpose of determining student exemption from service courses in soccer, softball, volleyball, basketball, swimming, tennis and rhythms. One hour of recitation and three hours of laboratory a week.
- 158B. Tumbling and Recreational Sports.** 2 semester hours. Second semester.
Theory and practice of tumbling and recreational sports. One hour of recitation and three hours of laboratory a week.
- 158C. Team Sports I.** 2 semester hours. First semester.
Methods of teaching softball, hockey, and volleyball. One hour of recitation and three hours of laboratory a week. Prerequisite: Ability to play softball, volleyball, and hockey.
- 158D. Team Sports II.** 2 semester hours. First semester.
Methods of teaching soccer, speedball, and basketball. One hour of recitation and three hours of laboratory a week. Prerequisite: Ability to play soccer or speedball and basketball.
- 158E. Individual Activities.** 2 semester hours. Second semester.
Methods of teaching tennis, badminton, and body conditioning exercises. One hour of recitation and three hours of laboratory a week. Prerequisite: Ability to play tennis.
- 158F. Folk, Tap, and Social Dance.** 2 semester hours. Second semester.
Methods of teaching folk, tap, and social dance to all age levels. Six hours of laboratory a week. Prerequisite: Phys. Ed. 154 and one semester of Phys. Ed. 151 in folk, tap, and social dance.
- 158G. Modern Dance.** 2 semester hours. First semester.
History of the dance, methods of teaching modern dance. One hour of recitation and three hours of laboratory a week. Prerequisite: Semester each of beginning and intermediate modern dance.
- 158H. Swimming and Archery.** 2 semester hours. Second semester.
Methods of teaching swimming and archery. One hour of recitation and three hours of laboratory a week. Prerequisite: Semester each of beginning and intermediate swimming and archery.

- 159. First Aid.** 2 semester hours. Each semester and summer.
Prevention of accidents and the treatment of injuries in an emergency. Upon satisfactory completion of this course, a certificate is awarded by the American Red Cross and the holder is in line for consideration as an instructor in first aid. Not open to students in the curriculums in Physical Education.
- 160. Dance Composition.** 1 semester hour. Each semester.
Advanced modern dance technique, composition and accompaniment. Participation in one studio production. Three hours of laboratory a week. Prerequisite: Phys. Ed. 151, one semester of modern dance, or consent of instructor. May not be taken more than four semesters for credit.
- 161. Personal Hygiene W.** 2 semester hours. First semester.
Not open to students who have credit in Ch. Welf. 101.
- 162. Principles and Philosophy of Physical Education.** 3 semester hours. First semester.
Aims and objectives of physical education, historical development, relation to general education, analysis of programs and methods. Prerequisite: Sophomore standing.
- 168. Games for Grades and High School.** 2 semester hours. Summer.
Methods of teaching games in public schools suitable for recess, noon and after-school periods. Two hours of recitation and six hours of laboratory a week.
- 174. Health Examinations and First Aid.** 3 semester hours. First semester.
Methods of giving health examinations, analysis of normal body mechanics, postural deviations; first aid emergency treatment. Two hours of recitation and three hours of laboratory a week. Prerequisite: Phys. Ed. 184, Zool. 123, 221.
- 175. Therapeutics and Massage.** 3 semester hours. Second semester.
Postural defects studied and exercises given for correction of each; general and local massage practiced for cases which can be treated by the Department of Physical Education. Two hours of recitation and three of laboratory a week. Prerequisite: Phys. Ed. 174, 184, Zool. 123.
- 176. Organization and Administration of Physical Education W.** 2 semester hours. Second semester.
Administrative policies of departments of physical education; the staff, activities, basic principles; construction, equipment and care of plant. Prerequisite: Phys. Ed. 157A to 157G, 179, 188.
- 177. Playground Management and Games.** 3 semester hours. First semester.
Organization and administration of playground activities and equipment; history of the playground movement; types of games suitable for different age periods; practice teaching in elementary schools. Two hours of recitation and three hours of laboratory a week.
- 179. Health Teaching in High School.** 3 semester hours. First semester.
Subject matter and methods of presentation of health education; integration with general courses. Prerequisite: Child Welf. 101.
- 181. Health and Safety Education W.** 2 semester hours. Summer.
Organization of material pertaining to health and hygiene, safety, and accident prevention, as recommended for the schools of Kansas.
- 184. Kinesiology W.** 2 semester hours. Second semester.
Mechanics of movement; body movements analyzed and principles involved applied to the teaching of physical education. Prerequisite: Zool. 123.

188. **Teaching and Adaptation of Physical Education.** 3 semester hours. First semester.
 Organization of physical education material for a progressive program in elementary schools, and junior and senior high schools; teaching methods to achieve desired aims of education. Prerequisite: Phys. Ed. 157A to 157F, 177.
191. **Recreational Leadership W.** 2 semester hours. Second semester.
 Principles and methods of organizing communities for leisure activities.

COURSES FOR MEN AND WOMEN

FOR GRADUATE AND UNDERGRADUATE CREDIT

298. **Problems in Physical Education.** Credit to be arranged.
 Prerequisite: Variable, depending on problem chosen.

Physics

ALVIN B. CARDWELL, *Head of Department*

For a minor, the following courses should be completed: Phys. 102, 103 (or 105, 106), 243, 244, 251, and 255.

For a major, the student should enroll in the Curriculum in Industrial Physics, and prospective teachers should enroll in the Curriculum in Physical Science.

FOR UNDERGRADUATE CREDIT

102. **General Physics I.** 4 semester hours. Each semester and summer.
 Mechanics, heat, and sound. Three hours of recitation and three hours of laboratory a week. Prerequisite: Math. 101.
103. **General Physics II.** 4 semester hours. Each semester and summer.
 Magnetism, electricity, and light. Three hours of recitation and three hours of laboratory a week. Prerequisite: Phys. 102.
105. **Engineering Physics I.** 5 semester hours. Each semester and summer.
 Mechanics, heat, and sound for technical students. Four hours of recitation and three hours of laboratory a week. Prerequisite: Math. 101.
106. **Engineering Physics II.** 5 semester hours. Each semester and summer.
 Magnetism, electricity, and light for technical students. Four hours of recitation and three hours of laboratory a week. Prerequisite: Physics 105.
109. **Household Physics.** 4 semester hours. Each semester and summer.
 Physical laws and principles involved in household appliances. Three hours of recitation and three hours of laboratory a week.
119. **Physics for Musicians.** 2 semester hours. Each semester.
 Selected topics applied to the physics of music and musical instruments.
124. **Descriptive Physics.** 3 semester hours. Each semester.
 Two hours of recitation and three hours of laboratory a week. For students in the School of Veterinary Medicine.
137. **Agricultural Physics.** 3 semester hours. Each semester and summer.
 Fundamental principles as related to agriculture. Required of students in agriculture who enter without high school physics. Two hours of recitation and three hours of laboratory a week.
141. **Descriptive Astronomy.** 3 semester hours. Each semester.

146. **Introductory Meteorology.** 3 semester hours. Each semester.
Weather phenomena and principles of forecasting; climatic factors; relation of weather studies to agriculture, general science, and physiography.
151. **Photography.** 2 semester hours. Each semester and summer.
Chemical and physical principles involved in photography; practice in making good negatives and prints. One hour of recitation and three hours of laboratory a week.
153. **Laboratory Technic.** 1 semester hour. Each semester.
Glass blowing and special shop work, primarily for major students in physics. Three hours of laboratory a week.
156. **Intermediate Physics.** 3 semester hours. First semester.
Prerequisite: Phys. 103 or 106, Math. 141.

FOR GRADUATE AND UNDERGRADUATE CREDIT

209. **X-Ray and Crystal Physics.** 4 semester hours.
Three hours of recitation and three hours of laboratory a week. Prerequisite: Phys. 103 or 106.
217. **Geophysics.** 3 semester hours.
Theory of the field work in gravitational, magnetic, electrical, seismic, radioactive, and temperature surveys. Prerequisite: Phys. 103 or 106.
220. **Applied Spectroscopy.** 3 semester hours. Second semester.
Spectrographic methods for detecting, qualitatively and quantitatively, chemical constituents of minerals, metals, and biological specimens. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 104 or 110 and Phys. 103 or 106.
227. **Mechanics.** 3 semester hours. Second semester.
Theoretical mechanics by methods of the calculus with an introduction to generalized co-ordinates. Prerequisite: Phys. 156.
238. **Heat and Thermodynamics.** 3 semester hours. Second semester and alternate summers.
Prerequisite: Math. 141, Phys. 103 or 106.
239. **Heat Laboratory.** 1 semester hour.
Prerequisite: Phys. 238 or concurrent registration.
240. **Sound.** 3 semester hours.
Prerequisite: Math. 141, Phys. 103 or 106.
243. **Light.** 3 semester hours. First semester.
Prerequisite: Math. 141, Phys. 103 or 106.
244. **Light Laboratory.** 1 semester hour.
Prerequisite: Phys. 243 or concurrent registration.
251. **Electricity and Magnetism.** 3 semester hours. Second semester.
Electricity and magnetism by methods of the calculus. Prerequisite: Phys. 156 or consent of instructor.
255. **Electricity and Magnetism Laboratory.** 1 semester hour.
Prerequisite: Phys. 251 or concurrent registration.
270. **Atomic Physics.** 3 semester hours. First semester.
Contemporary theories and problems. Prerequisite: Math. 141, Phys. 103 or 106.
271. **Modern Physics Laboratory.** 1 semester hour.
Prerequisite: Phys. 270 or concurrent registration.

273. **Nuclear Physics.** 3 semester hours. Second semester.
Modern theories of nuclear physics. Prerequisite: Phys. 270 or consent of instructor.
274. **Radioactive Tracer Techniques.** 3 semester hours. When scheduled or on request of a sufficient number. (See Chem. 274.)
Physics and chemistry of radioactive substances in fields of biological and physical science. Two hours recitation and three hours of laboratory a week. Taught in co-operation with the Department of Chemistry. Prerequisite: Consent of instructors.
288. **Electronic Physics I.** 4 semester hours. First semester.
Three hours of recitation and three hours of laboratory a week. Prerequisite: Math. 141, Phys. 251, 255.
293. **Electronic Physics II.** 3 semester hours.
Prerequisite: Phys. 288.
294. **Advanced Electronic Physics Laboratory.** 1 semester hour.
Prerequisite: Phys. 288.
297. **Topics in Physics.** Credit to be arranged.
Work is offered in: Electricity, electronics, heat, light, mechanics, nuclear physics, sound and vibrations, spectroscopy, and X-ray. Prerequisite: Phys. 103 or 106.
299. **Colloquium in Physics.** R.
Required of graduate majors and undergraduate majors.

FOR GRADUATE CREDIT

302. **Introduction to Theoretical Physics I.** 3 semester hours. First semester.
Prerequisite: Math. 201, 210 or concurrent registration.
303. **Introduction to Theoretical Physics II.** 3 semester hours. Second semester.
Prerequisite: Phys. 302, Math. 213 or concurrent registration.
305. **Quantum and Wave Mechanics I.** 3 semester hours. First semester.
Prerequisite: Phys. 302 or concurrent registration.
306. **Quantum and Wave Mechanics II.** 3 semester hours. Second semester.
Prerequisite: Phys. 305.
307. **Quantum and Wave Mechanics III.** 3 semester hours.
Prerequisite: Phys. 306, 326.
313. **Kinetic Theory and Statistical Physics.** 3 semester hours.
Prerequisite: Math. 201, 213, Phys. 238.
317. **X Ray.** 3 semester hours.
Prerequisite: Math. 201, Phys. 209.
319. **Atomic Spectra.** 3 semester hours. First semester.
Prerequisite: Math. 201, Phys. 270 or consent of instructor.
321. **Molecular Spectra.** 3 semester hours. Second semester.
Prerequisite: Phys. 319 or consent of instructor.
324. **Advanced Nuclear Physics.** 3 semester hours.
Prerequisite: Math. 213, Phys. 273, 305.
326. **Advanced Dynamics.** 3 semester hours.
Prerequisite: Phys. 303.
328. **Electrodynamics.** 3 semester hours.
Prerequisite: Phys. 303.

330. **Theory of the Solid State.** 3 semester hours.
Prerequisite: Phys. 303.
332. **Thermodynamics.** 3 semester hours.
Prerequisite: Phys. 238.
334. **Advanced Molecular Spectra.** 3 semester hours.
Prerequisite: Phys. 321.
390. **Research in Physics.** Credit to be arranged.
Work is offered in: Electricity, electronics, light, nuclear physics, sound, spectroscopy, thermodynamics, theoretical physics, and X ray. Prerequisite: At least two courses in this department.

Speech

HOWARD T. HILL, *Head of Department*

For a minor in any field of the department: 15 hours selected on consultation with the department.

For a major in general speech, the following courses should be completed: Sp. 103, 108, 110, 113, 117, 121, 126, 137, 145 or 147, 163, 168, 207, 222, 225, 226, and 217 or 236.

For a major in radio, the following courses should be completed: Sp. 103, 113, 163, 165, 167, 171, 175, 176, 179, 230, 240, 243, plus 3 hours of electives in speech. Women majors will take 247 instead of 175 and will have 2 hours of electives in speech.

For a major in dramatics, the following courses should be completed: Sp. 103, 110, 113, 137, 145, 147, 207, 208, 209, 211, 212, 213, 215, 250.

COURSES IN SPEECH

FOR UNDERGRADUATE CREDIT

103. **Oral Communication I.** 2 semester hours. Each semester and summer.
Selection and outlining of material with special emphasis on logic and with oral presentation practice. Co-ordinated with Written Comm. I and II.
108. **Oral Communication II.** 2 semester hours. Each semester and summer.
Sp. 103 continued, with special attention to illustrative material. Prerequisite: Sp. 103.
110. **Elements of Phonetics.** 2 semester hours. Each semester.
Sounds which make up human speech and consideration of how these sounds vary, physically, physiologically, and phonetically. The student will become familiar with the international phonetic alphabet and transcribe from spontaneous and tape recorded speech.
113. **Voice and Diction.** 2 semester hours. Each semester and summer.
Improvement of the voice by study of the speech mechanism, tone quality, and enunciation by means of oral drill. Prerequisite or concurrent: Sp. 103.
117. **Oral Interpretation.** 2 semester hours. Each semester and summer.
Attainment of some proficiency in the art of reading aloud. Prerequisite: Sp. 113.
121. **Argumentation and Debate.** 2 semester hours. Second semester.
Basic theories of argumentation with emphasis on their application in debate. Prerequisite: Sp. 103.
123. **Intercollegiate Debate I.** 2 semester hours. Each semester.
Open only to members of the intercollegiate debate squads. Prerequisite: Sp. 121.

124. **Intercollegiate Debate II.** 2 semester hours. Each semester.
Open only to members of the intercollegiate debate squads. Prerequisite: Sp. 123.
126. **Parliamentary Law.** 1 semester hour. Second semester.
Study and practical application of the rules of parliamentary procedure. Prerequisite: Sp. 103.
137. **Speech for Teachers.** 1 to 3 semester hours. Second semester and summer.
142. **Oratorical Contest.** 2 semester hours. Each semester.
144. **Dramatic Participation.** 1 or 2 semester hours. Each semester and summer.
Prerequisite: Junior standing.
145. **Acting and Rehearsal I.** 2 semester hours. First semester and summer.
Fundamentals of acting, using Kansas State Players productions as laboratory. One hour of recitation and three hours of laboratory a week.
147. **Elementary Stagecraft and Lighting.** 2 semester hours. First semester and summer.
Function and operation of scenery; study and applications of stage lighting.

FOR GRADUATE AND UNDERGRADUATE CREDIT

207. **Dramatic Production I.** 2 semester hours. Each semester and summer.
Theory of and practice in fundamentals of acting and direction. One hour of recitation and three hours of laboratory a week. Prerequisite: Sp. 103.
208. **Dramatic Production II.** 2 semester hours. Each semester and summer.
Projects in direction and stagecraft. Six hours of laboratory a week. Prerequisite: Sp. 207.
209. **Acting and Rehearsal II.** 2 semester hours. Second semester and summer.
Characterization, interpretation, voice, pantomime, and ensemble. One hour of recitation and three hours of laboratory a week. Prerequisite: Sp. 145.
211. **Scenic Design.** 2 semester hours. Each semester.
Application of principles of design of stage settings; scenic design for plays utilizing sketches, diagrams, plates, and models; work in productions of the Kansas State Players. Prerequisite: Sp. 147.
212. **Stage Lighting.** 2 semester hours.
History, problems of application, design of lighting for various types of plays and styles of production. One hour of recitation and three hours of laboratory a week. Prerequisite: Sp. 147.
213. **Development of the Theater I.** 2 semester hours. First semester.
The theater to the end of the nineteenth century.
215. **Development of the Theater II.** 2 semester hours. Second semester.
The modern and the contemporary theater.
217. **Speech Correction for the Classroom Teacher.** 3 semester hours. Summer.
Types and etiology of speech problems and methods which the classroom teacher can employ. Prerequisite: Sp. 113 or consent of instructor.
222. **Advanced Debate.** 2 semester hours. Second semester.
Advanced study of and participation in the methods of persuasion in public discussion. Prerequisite: Sp. 121.

- 225. Public Program.** 2 semester hours. Second semester and summer.
Planning, building, and presenting nonradio public programs. Pre-
requisite: Sp. 103.
- 226. Public Discussion.** 2 semester hours. Each semester.
Symposiums, forums, roundtables, panel discussions of political, social,
and economic trends. Prerequisite: Sp. 103.
- 227. Dramatic Reading.** 2 semester hours. Second semester.
Advanced study and application of the principles of oral interpretation
to platform reading. Prerequisite: Sp. 117.
- 228. Speech Recital.** Credit to be arranged. Second semester.
Special work for qualified students. Prerequisite: Sp. 227.
- 236. Introduction to Speech Pathology.** 3 semester hours. First semester.
Types of speech problems and consideration of etiology in relation to
these types. Prerequisite: Sp. 110, 113.
- 290. Problems in Speech.** Credit to be arranged. Each semester and summer.
Work is offered in: Debate, oratory, phonetics, radio, and theater. Pre-
requisite: Sp. 108 or 167.

FOR GRADUATE CREDIT

- 303. Research in Speech.** Credit to be arranged. Each semester and summer.
Work is offered in: Debate, oratory, phonetics, radio, and theater. Pre-
requisite: Graduate standing and consent of instructor.

COURSES IN RADIO

FOR UNDERGRADUATE CREDIT

- 163. Survey of Broadcasting.** 2 semester hours. Each semester.
Survey of radio industry; social importance of broadcasting.
- 165. Radio Speech I.** 2 semester hours. Each semester.
Training in voice and diction for broadcasting. One hour of recitation
and three hours of laboratory a week. For radio majors and minors only.
Prerequisite: Sp. 113.
- 167. Radio Continuity.** 3 semester hours. Each semester.
Preparation of introductions to musical shows, talks, programs, and news
rewriting. Prerequisite: Sp. 163.
- 168. Radio Program Participation.** 1 semester hour. Each semester and sum-
mer.
Three hours of laboratory a week. Prerequisite: Sp. 165 or consent of
instructor. May not be taken for more than four semesters for credit.
- 170. Radio Dramatics.** 2 semester hours. Each semester.
Use of dramatic principles on the radio. Four hours of recitation and
laboratory a week. Prerequisite: Sp. 103.
- 171. Introduction to Television.** 2 semester hours. First semester.
Growth and expansion of television; its impact on society and its rela-
tion to other media of communications; economic and sociological implica-
tions. Prerequisite: Sp. 170.
- 172. Radio Talk.** 2 semester hours. Each semester.
Training in writing informative and persuasive material; practical de-
livery of radio talks. Four hours of recitation and laboratory a week. Pre-
requisite: Sp. 103.
site: Sp. 165.
- 174. Sports Broadcasting I.** 2 semester hours. First semester.
Appropriate techniques, types of material, writing and editing copy, prac-
tice in delivery. Four hours of recitation and laboratory a week. Prerequi-

175. **Station Production and Announcing.** 2 semester hours. Each semester and summer.
Practical experience as announcers, control operators, and other positions in radio stations. Prerequisite: Admission after satisfactory audition.
176. **Station Traffic, Music, and Continuity.** 2 semester hours. Each semester.
Practical experience in writing commercial continuity, servicing accounts, handling radio traffic, and operation of a music library. Six hours of laboratory a week. Prerequisite: Sp. 167 or 175.
177. **Sports Broadcasting II.** 2 semester hours. Second semester.
Ad lib experience, following the play, sports knowledge, wire, tape and live experience in ad lib broadcasting. Four hours of recitation and laboratory a week. Prerequisite: Sp. 174.
178. **Radio Production I.** 2 semester hours. First semester and summer.
Basic program production. One hour of recitation and three hours of laboratory. Prerequisite: Sp. 163, 167, 175.

FOR GRADUATE AND UNDERGRADUATE CREDIT

230. **Radio Advertising.** 3 semester hours. Second semester.
Principles and practice in radio advertising. Prerequisite: For students in Curriculum in Technical Journalism, Tech. Journ. 177; for other students, Sp. 167.
233. **Radio Production II.** 2 semester hours. Second semester.
Continuation of Sp. 178. Prerequisite: Sp. 178 and consent of instructor.
234. **Radio Speech II.** 2 semester hours. Each semester.
Advanced commercial announcing; development of individual style; supervised experience in various techniques of delivery. Recommended to the radio major as a senior level course. Radio majors and minors only. Prerequisite: Sp. 165 and consent of instructor.
240. **Radio Programming.** 2 semester hours. First semester.
Planning and development of radio programs and schedules. Prerequisite: Sp. 167.
243. **Radio Writing I.** 3 semester hours. First semester.
Preparation of dramatized programs. Prerequisite: Sp. 167.
244. **Radio Writing II.** 3 semester hours. Second semester; alternate years.
Continuation of Sp. 243. Prerequisite: Sp. 243 and consent of instructor.
247. **Broadcasting of Women's Programs.** 3 semester hours. Second semester.
Writing, production and criticism of radio programs presented by women and primarily intended for an audience of women and/or children. Two hours of recitation and four hours laboratory a week. Prerequisite: Sp. 167, 175, 240, or consent of instructor.
248. **Television Programming.** 2 semester hours. Second semester.
History of television programming; analysis of existing types of programs; study of audience measurements to determine program trends; problems and developments of programming at a station. Four hours recitation and laboratory a week. Prerequisite: Sp. 171, 240.
250. **Television Acting.** 2 semester hours. Each semester.
Limitations of the medium; projection; make-up, colors, and rehearsal schedules and performance. Four hours of recitation and laboratory a week. Prerequisite: Sp. 170, 234.
254. **Station Sales and Management.** 3 semester hours. Each semester.
Supervised experience in executive positions of a radio station, including sales manager, program director, promotion director, and continuity chief.

One hour of recitation and six hours of laboratory a week. Prerequisite: 176, 178, 240.

290. **Problems in Speech (Radio).** Credit to be arranged. Each semester and summer.
Prerequisite: Sp. 108 or 167.

Student Health

BENJAMIN W. LAFENE, *Head of Department*

FOR UNDERGRADUATE CREDIT

101. **Preventive Medicine and Public Health.** 2 semester hours. Each semester.
Communicable diseases and their control; factors involved in healthful living. Prerequisite: Sophomore standing.

Technical Journalism

RALPH R. LASHBROOK, *Head of Department*

For a major, the student should enroll in the Curriculum in Technical Journalism.

To be classified as "professionals," students in the Curriculum in Technical Journalism must complete two months of vocational journalistic experience before graduation, and must meet other requirements established by the department faculty.

COURSES IN TECHNICAL JOURNALISM

FOR UNDERGRADUATE CREDIT

146. **Reporting I.** 3 semester hours. Each semester and summer.
Introduction to the field of journalism; intensive study of the daily newspaper; news gathering and writing. Prerequisite: Sophomore standing and ability to type 30 words a minute.
147. **Reporting II.** 3 semester hours. Each semester.
Two hours of recitation and six hours of reportorial work on the Kansas State Collegian a week. Prerequisite: Tech. Journ. 146.
149. **News Photography.** 2 semester hours. Each semester and summer.
Planning and taking news and feature pictures; writing and editing captions. Open to students in curriculums in Agricultural Journalism and Technical Journalism. Prerequisite: Tech. Journ. 147.
151. **News Photography I.** 2 semester hours. Each semester.
Intensive practice in taking news and feature pictures, editing pictures for publication. One hour of lecture and three hours of laboratory (by Department of Physics) a week. Prerequisite: Phys. 151.
153. **Kansas State Collegian Journalism.** 1 semester hour. Each semester and summer.
Gathering and writing of news, or advertising practice, on student publications, under the supervision of an instructor. Three hours of laboratory a week. Prerequisite: Consent of instructor.
159. **Agricultural Journalism.** 3 semester hours. Each semester.
Survey of agricultural information techniques, with emphasis on principles of news and feature writing.

162. **Radio News.** 2 semester hours. Each semester and summer.
Processing and broadcasting of radio news. Prerequisite: Tech. Journ. 146. For nonjournalism students, Sp. 167.
166. **Editing.** 2 semester hours. Each semester and summer.
Six hours of laboratory a week. Prerequisite: Tech. Journ. 147.
177. **Principles of Advertising.** 3 semester hours. Each semester.
Study of goods to be advertised, analysis of the market, psychology of advertising, preparation of advertising copy. Prerequisite: Junior standing.
180. **Broadcasting Station Practice.** 1 semester hour. Each semester and summer.
News gathering, writing, and broadcasting, over radio station KSAC. Three hours of laboratory a week. Prerequisite: Tech. Journ. 162.
181. **Rural Press.** 2 semester hours. Second semester.
Community newspapers; emphasis on presentation of agriculture and rural life. Prerequisite: Tech. Journ. 146.
183. **Public Information Methods.** 2 semester hours. First semester.
Prerequisite: Tech. Journ. 147.
199. **Technical Journalism Lecture.** Required each semester.
Addresses by practicing newspaper workers and members of the department. Required of all students in the Curriculum in Technical Journalism.

FOR GRADUATE AND UNDERGRADUATE CREDIT

226. **Yearbook Editing and Management.** 2 semester hours. Each semester.
Planning, editing, layout, financing, and management of a yearbook, with special emphasis on the problems of *The Royal Purple*. One hour of lecture and three hours of laboratory a week. Prerequisite: Tech. Journ. 147 and junior standing.
227. **Workshop in School Publications.** 2 or 3 semester hours. Summer.
Supervision of high school yearbooks and newspapers. Offered as a 2-hour yearbook workshop and a 3-hour newspaper workshop. The workshops are offered in succession, and students may take either or both for credit. Prerequisite: Graduate standing or consent of instructor.
230. **Formation of Public Opinion.** 3 semester hours. Second semester and summer.
Role of the press and communication agencies in formation of public opinion, work of propagandists and pressure groups. Prerequisite: Junior standing and consent of instructor; for graduate credit, eight hours of social science.
232. **Advertising Salesmanship.** 2 semester hours. Each semester and summer.
Application of principles of space selling and layout to specific lines of business by work with advertising clients of a daily newspaper. Prerequisite: Junior standing and consent of instructor.
234. **Reporting III.** 3 semester hours. Second semester.
Reporting news of local, state, and national affairs. Two hours of recitation and three hours of laboratory a week. Prerequisite: Tech. Journ. 147, Govt. 253, or consent of instructor.
236. **Advanced Editing.** 2 semester hours. Each semester.
Six hours of laboratory a week. Prerequisite: Tech. Jour. 166.
238. **Press Law.** 2 semester hours. Second semester.
Introduction to those parts of law directly concerned with the press, such as libel, copyright, and laws regulating advertising. Prerequisite: Junior standing and consent of instructor.

- 240. Technical Publications.** 3 semester hours. Second semester.
Layout, preparation of copy, and illustrations for house organs, trade magazines, catalogs, pamphlets, and similar publications. One hour of lecture and six hours of laboratory a week. Prerequisite: Consent of instructor.
- 267. The Woman's Page.** 3 semester hours. Each semester and summer.
Writing and editing materials for a woman's page in a local newspaper; supervision of photography for that page. Prerequisite: For students in Curriculum in Technical Journalism, Tech. Journ. 166; for other students, Tech. Journ. 146 and consent of instructor.
- 269. Magazine Article Writing.** 2 semester hours. Each semester and summer.
Study of technical, trade, and general publications; writing for general magazines, agricultural and business publications, and women's departments. Prerequisite: For students in curriculum in Technical Journalism, senior standing or consent of instructor; for students in curriculum in Home Economics and Journalism, Tech. Journ. 267; for other students, consent of instructor.
- 270. Advanced Magazine Writing and Editing.** 2 semester hours. Each semester and summer.
Content of the course varied to suit the needs and desires of the students. Prerequisite: Tech. Journ. 269.
- 272. History of Journalism.** 3 semester hours. Second semester.
Prerequisite: Junior standing and Hist. 127, 128, or consent of instructor.
- 281. Critical Writing.** 2 semester hours. Second semester.
Prerequisite: Engl. 112.
- 284. The Journalist in Free Society.** 3 semester hours. Each semester and summer. (See Cit. 284.)
- 285. Interpretation of Contemporary Affairs.** 3 semester hours. Second semester and alternate summers.
Critical questions regarding recent developments in state, national, and international affairs; editorials and interpretive articles which document and analyze the news; introduction to research in public affairs. Prerequisite: For students in curriculum in Technical Journalism, Tech. Jour. 284; for other students, consent of instructor.
- 289. Newspaper Management.** 2 semester hours. First semester.
Relations of departments of a newspaper to one another; costs, statistics, advertising news, and business methods in publishing. Prerequisite: Tech. Jour. 177.
- 293. Readings in Journalism.** 2 semester hours. Each semester.
Investigation of the literature of journalism. Prerequisite: Junior standing and consent of instructor.
- 295. Problems in Technical Journalism.** Credit to be arranged. Each semester and summer.
Work is offered in: Advertising, agriculture, current newspapers and periodicals, high school journalism, history and ethics, home economics, news photography, radio and science. Prerequisite: Consent of instructor.

FOR GRADUATE CREDIT

- 351. Research in Technical Journalism.** Credit to be arranged. Each semester and summer.
Work is offered in: Advertising, agriculture, current newspapers and peri-

odicals, high school journalism, history and ethics, home economics, news photography, and radio. Prerequisite: At least two courses in this department.

COURSES IN PRINTING

- 103. Graphic Arts Survey.** 2 semester hours. Each semester.
History and art of printing; typography of advertisements and headline display; principles of effective makeup. Prerequisite: Sophomore standing and concurrent registration in Prtg. 104.
- 104. Typography Laboratory.** 1 semester hour. Each semester.
Typesetting, proofreading, correction of forms as a background for journalism. Three hours of laboratory a week. Prerequisite: Sophomore standing and concurrent registration in Prtg. 103.
- 108. Ad Typography I.** 2 semester hours. Each semester.
Principles of display and design as applied to advertisements. Six hours of laboratory a week. Prerequisite: Prtg. 104.
- 111. Ad Typography II.** 2 semester hours. Each semester.
Continuation of Prtg. 108. Six hours of laboratory a week. Prerequisite: Prtg. 108.
- 112. Ad Typography III.** 2 semester hours. Each semester.
Continuation of Prtg. 111. Six hours of laboratory a week. Prerequisite: Prtg. 111.
- 114. Job Composition I.** 2 semester hours. Each semester.
Differences in requirements for job composition and ad composition. Six hours of laboratory a week. Prerequisite: Prtg. 104.
- 118. Job Composition II.** 2 semester hours. Each semester.
Color work, tabular forms, and other job work. Six hours of laboratory a week. Prerequisite: Prtg. 114.
- 120. Job Composition III.** 2 semester hours. Each semester.
Continuation of Prtg. 118. Six hours of laboratory a week. Prerequisite: Prtg. 118.
- 122. Presswork I.** 2 semester hours. Each semester.
Practical platen presswork under printing-office conditions. Six hours of laboratory a week. Prerequisite: Prtg. 108 or 114.
- 126. Presswork II.** 2 semester hours. Each semester.
Continuation of Prtg. 122; mixing inks; color work. Six hours of laboratory a week. Prerequisite: Prtg. 122.

Zoology

DONALD J. AMEEL, *Head of Department*

The courses in zoology, which give fundamental knowledge of the structures, functions, development, and relations of animals to man, afford training that is basic for professional workers in agriculture, home economics, veterinary medicine, and the arts and sciences and their applied fields.

For a major, the student should complete at least nineteen credit hours chosen from the 200 group.

For a minor, the student should take Zool. 105 and nine credit hours chosen from the 200 group.

FOR UNDERGRADUATE CREDIT

- 105. General Zoology.** 5 semester hours. Each semester and summer.
Three hours of recitation and six hours of laboratory a week.

- 123. Human Anatomy.** 5 semester hours. First semester.
General anatomy studied by means of dissectable models, skeletons, and charts. Three hours of recitation and four hours of laboratory a week. Prerequisite: Zool. 105.
- 128. Human Anatomy and Physiology.** 5 semester hours. First semester.
For students in home economics and nursing. Three hours of recitation and six hours of laboratory a week. Prerequisite: Zool. 105.
- FOR GRADUATE AND UNDERGRADUATE CREDIT
- 203. Problems in Zoology.** Credit to be arranged. Each semester and summer school.
Work is offered in: Bird study, cytology and embryology, ecology, endocrinology, heredity, histology, parasitology, physiology, protozoology, wild life conservation, and zoological technic.
- 205. Field Zoology.** 2 or 3 semester hours. Second semester and summer.
Habitat, distribution, and relationship of animals. One hour of recitation and three hours of laboratory a week or one hour of recitation and six hours of laboratory a week. Prerequisite: Zool. 105 or equivalent.
- 206. Zoological Technic.** 1 or 2 semester hours. Each semester and summer school.
Methods and processes in preparation of microscopical slides; principles of photomicrography. Prerequisite: Zool. 105.
- 208. Animal Parasitology.** 3 semester hours. First semester.
Biology, pathology, and prophylaxis of the principal external and internal parasites of the domestic animals. Two hours of recitation and three hours of laboratory a week. Prerequisite: Zool. 105.
- 210. Invertebrate Zoology.** 3 semester hours. First semester and summer.
Essentials of structure, function, classification, and phylogeny of the invertebrates. One hour of recitation and six hours of laboratory a week. Prerequisite: Zool. 105.
- 214. Cytology.** 4 semester hours. First semester.
Cells, chromosomes, and heredity. Two hours of recitation and six hours of laboratory a week. Prerequisite: Zool. 105.
- 216. Heredity and Eugenics.** 2 semester hours. Each semester.
Human inheritance and the interactions of nature and heredity. Prerequisite: Zool. 105 or equivalent.
- 219. Embryology.** 4 semester hours. Each semester and summer.
Physiology of reproduction and developmental anatomy of mammals, with special reference to man. Three hours of recitation and three hours of laboratory a week. Prerequisite: Zool. 105.
- 220. Advanced Embryology.** 4 semester hours. Second semester and summer.
Two hours of recitation and six hours of laboratory a week. Prerequisite: Zool. 219.
- 221. Human Physiology.** 4 semester hours. Each semester and summer.
Functions of various organ systems of the body. Three hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 101 or 110 and Zool. 105 or equivalent.
- 222. General Physiology.** 3 semester hours. First semester and summer.
A study of the nature and mechanism of living matter. Two hours of recitation and three hours of laboratory a week. Prerequisite: Chem. 122, Zool. 105.

- 223. Protozoology.** 3 semester hours. Second semester.
Taxonomy, morphology, and biology of the free-living and parasitic protozoa. Two hours of recitation and three hours of laboratory a week. Prerequisite: Zool. 105.
- 225. Zoology and Entomology Seminar.** 1 semester hour. Each semester.
Prerequisite: Zool. 105.
- 228. Human Parasitology Recitation.** 3 semester hours. Second semester.
Prerequisite: Zool. 105 or equivalent.
- 229. Human Parasitology Laboratory.** 1 semester hour. Second semester.
Three hours of laboratory a week. Prerequisite: Zool. 228.
- 240. Taxonomy of Parasites.** 2 semester hours. Second semester and summer.
One hour of recitation and three hours of laboratory a week. Prerequisite: Zool. 208 or 229.
- 244. Bird Study.** 3 semester hours. Second semester, or 2 semester hours, summer.
Lecture, laboratory, and field studies in identification and adaptations of birds. Two hours of recitation and three hours of laboratory a week the second semester or one hour of recitation and three hours of laboratory a week in summer school. Prerequisite: Zool. 105 or equivalent.
- 246. Comparative Anatomy of Vertebrates.** 4 semester hours. Second semester.
Two hours of recitation and six hours of laboratory a week. Prerequisite: Zool. 105.
- 247. Endocrinology.** 3 semester hours. First semester and summer.
Prerequisite: Zool. 105 and consent of instructor.
- 249. Wild-life Conservation.** 3 semester hours. First semester and summer.
Methods and techniques in the management and propagation of wild life. Prerequisite: Zool. 105 or equivalent.
- 250. Social Behavior in Vertebrates.** 2 semester hours. Second semester or summer.
Animal behavior from the viewpoint of social dominance and group organization; contributions of social behavior in the classes of vertebrates. Prerequisite: Zool. 105 or equivalent and junior standing.
- 251. Invertebrate Ecology.** 3 semester hours. Second semester and summer.
Environment factors in relation to the establishment of invertebrate animal populations. Prerequisite: Zool. 105 and consent of instructor.

FOR GRADUATE CREDIT

- 301. Research in Zoology.** Credit to be arranged. Each semester and summer.
Work is offered in: Bird study, cytology and embryology, ecology, endocrinology, heredity, histology, parasitology, physiology, protozoology, and wild-life conservation. Prerequisite: At least two courses in this department.

(For Genetics Seminar, see An. Husb. 227.)

The School of Engineering and Architecture

MERRILL AUGUSTUS DURLAND, *Dean*

ROY ANDREW SEATON, *Dean Emeritus*

RICHARD CARTER POTTER, *Assistant Dean*

The School of Engineering and Architecture offers four-year curriculums in Agricultural Engineering, Architectural Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Industrial Arts, and Mechanical Engineering, each leading to the degree Bachelor of Science in the particular branch of the profession selected, and, in addition, offers a five-year Curriculum in Architecture, leading to the degree Bachelor of Architecture.

The curriculums as tabulated give fundamental preparation for entering upon work in the several branches of the professions, with some opportunity for specialization through options and electives. To a limited extent substitutions may be made for certain of the courses listed as required when there appears to be a good reason for them, but each substitution must have the approval of the head of the department in which the curriculum is administered, the head of the department giving the course which is displaced, and the dean of the school. In no case will the substitution of an additional amount of technical work for any of the cultural work be permitted.

Curriculum in Agricultural Engineering

The field of the agricultural engineer includes research, sales, or advertising in the farm-machinery and farm-motor industry; farm structure design, or promotional work with the building materials industry; soil erosion prevention with the federal and state agencies; rural electric service with electric power companies; management of farms where drainage, irrigation, or power-farming methods are of major importance; and engineering in agricultural development.

The curriculum includes all basic courses which are common to the other engineering curriculums, such as mathematics, physics, and mechanics. Courses in agriculture are also included in order to familiarize the student with the modern methods of agriculture. Training along engineering lines includes farm machinery, farm power, farm structures, drainage, irrigation, soil-erosion control; and modern farm and home equipment.

Curriculum in Architectural Engineering

The Curriculum in Architectural Engineering emphasizes the structural and mechanical phases of architecture. The field of the architectural engineer comprises the superintending of building construction, general contracting, structural design, estimating construction costs and specification writing.

Students should get practical experience during the summer vacations in the building industry, either on construction projects or in the office of an architect, construction engineer, or contractor.

Curriculum in Architecture

The Curriculum in Architecture, while stressing architectural design, includes also training in building construction, properties and uses of building materials, professional practice, and other phases important to the architectural profession. The aim is to train students for efficient service as draftsmen and designers in an architectural organization and provide them with the necessary foundation for future independent practice.

Students should get practical experience during the summer vacations in the building industry, either on construction projects or in the office of an architect.

Curriculum in Chemical Engineering

The aim of the Curriculum in Chemical Engineering is to prepare the student for work in the design, construction, and operation of chemical plants. The scope of chemical engineering includes the strictly chemical industries, such as those manufacturing acids, alkalis, lacquer solvents, dyes, explosives, metals, and like materials, and also the process industries; for instance, those processing petroleum, rubber, foods, leather, and those manufacturing cement, glass, soap, paints and varnishes, pulp and paper.

Curriculum in Civil Engineering

The first and second years are devoted largely to general cultural studies and the sciences, including mathematics. An introduction to the technical work is given in these years through courses in drawing, surveying, and the elementary phases of engineering.

The last two years are devoted largely to technical work. Provision is made for class and laboratory work in mechanical and electrical engineering. Because of the growing importance of municipal problems, such as paving, sewerage, and water supply, the curriculum includes required courses in these subjects.

Advanced elective courses in railway, highway, and irrigation and drainage engineering are offered in the second semester of the senior year.

Curriculum in Electrical Engineering

The graduate from the Curriculum in Electrical Engineering may enter either the power or the communication field of electrical engineering, and he may engage in such lines as research, design, application, business management, or plant operation.

The student must have a thorough grounding in mathematics and the sciences; practice and theoretical training in drawing, surveying, and shop practice; and a liberal training in the cultural subjects, English, history, and Economics. Technical training begins with a course in the second year, and is completed by several courses extending through the junior and senior years. The curriculum provides, in addition, elective work, giving the student opportunity for the selection of extra work along cultural, economic, or technical lines.

Special laboratories are provided for research in television and other electrical engineering fields.

Curriculum in Industrial Arts

The Curriculum in Industrial Arts is designed to prepare students for positions as supervisors and directors of training schools in industry, or as teachers in colleges, high schools, and trade schools; also to give some technical training and experience in shop work and drafting, preparatory to entering industrial shops.

By the selection of proper electives, the four-year Curriculum in Industrial Arts may lead to the degree of Bachelor of Science in Industrial Arts and also qualify the graduate for the three-year Kansas state teachers' certificate, valid in any high school or other public school in the state, and renewable for life. The curriculum has the necessary amount of chemistry and physics to meet the same requirements for teaching physical science. Five additional hours of mathematics will qualify for Class A high schools in Kansas.

Curriculum in Mechanical Engineering

The Curriculum in Mechanical Engineering is designed to prepare students for research, design, production, operation, and sales positions in industries that produce or use power and machinery. The field of mechanical engineering is necessarily very broad, including practically every industry. To permit

specialization by students in particular phases of mechanical engineering, the curriculum provides optional and elective courses in the junior and senior years, covering industrial engineering, power production, air conditioning, petroleum production, aeronautical engineering, and machine design.

Students should spend at least two summers in some shop or commercial plant.

Engineering and Architecture in the Summer School

The school offers summer courses in freehand and mechanical drawing, water-color and oil painting, manual training and shop practice for high school and grade school teachers, as well as various courses required in the several curriculums. Therefore teachers who wish to take an engineering or architectural curriculum can get a considerable start on the work during their summer vacations, and College students who are irregular may make up courses.

Full information concerning the courses offered is contained in the Summer School number of the Kansas State College *Bulletin*, which may be obtained upon application to the Director of Admissions of the College.

Total..... 18 Total..... 18

Number of hours required for graduation, 142.

Suggested Electives

Students who elect either the power option or the communication and electronics option are free to choose electives from college courses in business administration, language, physics, mathematics, geology, music, advanced R. O. T. C. (eight credits only to apply toward degree), communication and electronics subjects, electric power subjects, mechanical engineering subjects, or combinations from such groups, provided the selection meets the approval of the head of department and the dean.

Students interested in electric power should select technical electives from the following:

Elec. Engg. 272	Illuminating Engineering Recitation.....	3
Elec. Engg. 280	Transmission and Distribution of Electrical Energy.....	3
Elec. Engg. 284	Transient Electrical Phenomena.....	3
Elec. Engg. 226	Industrial Electronics and Control Recitation.....	2
Elec. Engg. 225	Industrial Electronics Laboratory.....	1

Electrical Engineering and Business Administration

Students may secure the two degrees, B. S. in Electrical Engineering and B. S. in Business Administration, by taking the electrical engineering curriculum or the communication and electronics option plus the following courses:*

Econ. 101	Economics I.....	3	Econ. 104	Economics II.....	3
Econ. 116	Money and Banking.....	3	Econ. 134	Accounting II.....	3
Econ. 214	Public Finance.....	3	Econ. 216	Bus. Org. and Finance..	3
Econ. 246	Marketing.....	3	Hist. 164	Business Law II.....	3
Educ. 184	General Psychology....	3	Econ. 236	Bus. Admin. Summary...	2
Econ. 133	Accounting I.....	3	Engl. 122	Commercial Corres....	3
Hist. 163	Business Law I.....	3		Business Elective†	4

* Some of these additional courses may be substituted for the electives in the Curriculum in Electrical Engineering. A minimum of 30 additional semester hours of credit is required for the second bachelor's degree.

† Electives are to be chosen with the advice and approval of the head of the department and the dean.

Agricultural Engineering

FREDERICK C. FENTON, *Head of Department*

FOR UNDERGRADUATE CREDIT

- 101. Farm Buildings.** 3 semester hours. Second semester and summer in alternate years.
Requirements, details of arrangements, and materials of construction for farm buildings; preparation of plans, bills of material, and estimates of costs; water supply, sewage disposal, lighting, and other modern equipment for the farmstead. Two hours of recitation and three hours of laboratory a week.
- 102. Elements of Agricultural Engineering.** 3 semester hours. First semester.
Survey of the field of agricultural engineering, power in agriculture, power transmission, belts, gears, mechanisms, bearings, gages and measurements, shop skills. One hour of recitation and six hours of laboratory a week.
- 103. Farm Mechanics.** 2 semester hours. First semester.
Shop skills for teachers of vocational agriculture including pipe fitting, plumbing repairs, taps and dies, drilling, soldering, babbiting, use of hand tools and sharpening. Special lathe work and welding with direct application to the repair of farm machinery. Six hours of laboratory a week. For students in the Curriculum in Agricultural Education. Prerequisite: Shop 167.
- 105. Farm Machinery Repair.** 3 semester hours. Second semester.
Construction, repair, operation, adjustment, calibration, and maintenance of farm machinery and equipment. One hour of recitation and six hours of laboratory a week. For students in the Curriculum in Agricultural Education. Prerequisite: Agr. Engg. 103.
- 106. Farm Power.** 3 semester hours. Second semester.
Selection, operation, and maintenance of engines, tractors, and electric motors; principles of valve timing, ignition, carburetion, cooling, lubrication, and fuels; with special emphasis on repair and reconditioning. One hour of recitation and six hours of laboratory a week. For students in the Curriculum in Agricultural Education.
- 108. Farm Machinery.** 3 semester hours. Each semester and summer.
Construction, operation, adjustment, power requirements, use, service, and repair of farm machinery. Two hours of recitation and three hours of laboratory a week. For agricultural students.
- 111. Field and Power Machinery.** 4 semester hours. First semester.
A comprehensive study of the development, design, construction, economics, power requirements, use and servicing of farm machinery. Two hours of recitation and six hours of laboratory a week. Prerequisite Phys. 106.
- 130. Gas Engines and Tractors.** 3 semester hours. Each semester and summer.
Principles of the internal combustion engine; carburetion, valve timing, ignition, cooling, lubrication, and fuels; the servicing and repair of farm engines and the selection of power for agriculture. Two hours of recitation and three hours of laboratory a week. For agricultural students.
- 140. Inspection Trip.** Required; no credit. First semester.
A trip of three to five days for the purpose of studying farm machinery production and other projects of special interest to agricultural engineers. Cost of trip, \$25 to \$50. Prerequisite: Senior classification.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Power and Machinery in Agriculture.** 2 semester hours. First semester.
History and development of machinery in agriculture; the application, selection, management, and cost of machines; future development; a survey course dealing with the mechanization of agriculture. Open to all students who have not taken Agr. Engg. 108 or 130. Two hours of recitation a week. Prerequisite: Junior or senior classification.
- 202. Dairy Mechanics.** 3 semester hours. Second semester.
Installation, adjustment and operation of dairy plant equipment; boilers, engines, motors, pumps, refrigeration machinery; water supply, waste disposal. Two hours of recitation and three hours of laboratory a week.
- 203. Farm Structures.** 4 semester hours. First semester.
Design of farm structures, details and materials of construction; specifications and estimates. Two hours of recitation and six hours of laboratory a week. Prerequisite: Ap. Mech. 212.
- 204. Agricultural Hydrology.** 3 semester hours. First semester.
The hydrologic cycle, rainfall, runoff, soil and water relationships affecting crop production, drainage, irrigation, and erosion. Watershed surveys. Two hours of recitation and three hours of laboratory a week. Prerequisite: Civ. Engg. 102.
- 205. Agricultural Engineering Problems.** Credit to be arranged. Each semester and summer.
Problems in the design, construction, or application of machinery or power in agriculture, structures, modern conveniences, rural electrification. Prerequisite: Permission of instructors.
- 206. Farm Mechanics Methods.** 3 semester hours. Second semester.
Methods of teaching farm mechanics in vocational agriculture, including the organization and equipment of the farm shop; preparation and use of job sheets and instruction sheets; practice in the demonstration of shop skills and in the construction of farm mechanics projects. For students in the Curriculum in Agricultural Education. One hour of recitation and six hours of laboratory a week. Prerequisite: Agr. Engg. 103, 106.
- 207. Farm Building Construction.** 3 semester hours. First semester.
Planning and construction of buildings and equipment for the farm; concrete and masonry, farm carpentry, painting, new building materials; blueprint reading, bills of materials, and cost estimates. For students in the Curriculum in Agricultural Education. One hour of recitation and six hours of laboratory a week. Prerequisite: Agr. Engg. 103.
- 208. Agricultural Engineering Applications.** 2 semester hours. First semester.
Practical laboratory exercises, surveying, terracing, contouring, drainage, irrigation, fencing, electric wiring, farm water supply, sewage disposal, heating, lighting, refrigeration, etc. For students in the Curriculum in Agricultural Education. Six hours of laboratory a week. Prerequisite: Junior standing.
- 211. Rural Electrification.** 4 semester hours. Second semester.
Water supply, sewage disposal, lighting, heating, and ventilation of farm buildings; refrigeration; rural electrification. Two hours of recitation and six hours of laboratory a week. Prerequisite: Ap. Mech. 228, Mech. Engg. 208.
- 215. Tractor Research.** Credit to be arranged. First semester.
Research studies relating to tractor construction and operation. Prerequisite: Agr. Engg. 225 or equivalent.

- 225. Farm Motors.** 4 semester hours. Second semester.
Theory, design, operation, and adjustment of the internal combustion engine, and a comprehensive study of power and its application to agriculture. Two hours of recitation and six hours of laboratory a week. Prerequisite: Phys. 106, Mech. Engg. 208.
- 240. Drainage, Erosion Control, and Irrigation.** 3 semester hours. Second semester.
Principles and practices of land improvement by terracing and other methods of erosion control; drainage, irrigation, and land clearing. Two hours of recitation and three hours of laboratory a week. For agricultural students. Prerequisite: Agron. 130, and junior or senior classification.
- 245. Soil and Water Conservation.** 4 semester hours. Second semester.
Principles and methods of land drainage, soil and water conservation, and irrigation. Two hours of recitation and six hours of laboratory a week. Prerequisite: Ap. Mech. 228, Agr. Engg. 204, Agron. 130.

FOR GRADUATE CREDIT

- 301. Research in Agricultural Engineering.** Credit to be arranged. Each semester and summer.
The laboratories of the College are available for research in the design, use, and application of machinery and equipment in the development of agriculture. The results of such investigation, if suitable, may be incorporated in bulletins of the Engineering Experiment Station or furnish material for the master's thesis. Prerequisite: Agron. 130, Phys. 106 or equivalent.

Applied Mechanics

CHARLES H. SCHOLER, *Head of Department*

FOR UNDERGRADUATE CREDIT

- 102. Applied Mechanics A.** 3 semester hours. Each semester.
A study of statics, with applications to stress in structure; center of gravity; moment of inertia. Three hours of recitation a week. Prerequisite: Math. 101, Phys. 102.
- 116. Strength of Materials A Recitation.** 3 semester hours. Each semester.
Behavior of materials subjected to tension, compression, shear, and bending; designs of beams of wood, steel, and reinforced concrete; design and investigation of columns; practice in the use of a handbook. Three hours of recitation a week. Prerequisite: Ap. Mech. 102.
- 121. Strength of Materials A Laboratory.** 1 semester hour. Each semester.
A study of various testing machines; tension, compression, shear, and bending tests on iron, steel, wood, and concrete; tests on cement and on the fine and coarse aggregates for concrete. Three hours of laboratory a week. Prerequisite or concurrent: Ap. Mech. 116.
- 135. Foundation Materials.** 3 semester hours. Second semester.
The properties and testing of natural materials, including soils, commonly used for foundations. Three hours of recitation a week. Prerequisite: Geol. 215.
- 150. Thesis.** Credit to be arranged. Each semester and summer.
Subject of investigation to be selected in consultation with the head of the department at the beginning of the senior year.

- 202. Applied Mechanics.** 4 semester hours. Each semester and summer.
Composition, resolution, and conditions of equilibrium of concurrent and nonconcurrent forces; center of gravity; friction; laws of rectilinear and curvilinear motion of material points; moment of inertia; relations between forces acting on rigid bodies and the resulting motions; work, energy, and power. Four hours of recitation a week. Prerequisite: Math. 141, Phys. 105.
- 212. Mechanics of Materials I Recitation.** 4 semester hours. Each semester and summer.
Behavior of materials subject to tension, compression, and shear; riveted joints; torsion; shafts and the transmission of power; strength and stiffness of simple and continuous beams; bending and shear in beams; design of beams; stresses in columns and hooks. Four hours of recitation a week. Prerequisite: Ap. Mech. 202.
- 213. Mechanics of Materials II Recitation.** 2 semester hours. Second semester.
An extension of Ap. Mech. 212 with special reference to the needs of students in mechanical engineering. Two hours of recitation a week. Prerequisite: Ap. Mech. 212.
- 220. Mechanics of Materials Laboratory.** 1 semester hour. Each semester and summer.
Tension, compression, shear, and bending tests on specimens of iron, steel, wood, and concrete; torsion tests on steel shafting; standard tests on fine and coarse aggregates for concrete. Three hours of laboratory a week. Prerequisite or concurrent: Ap. Mech. 212.
- 221. Experimental Stress Analysis.** 1 semester hour. First semester.
A study of methods and apparatus for experimental determination of stresses, including photoelasticity, brittle models, brittle coatings, electric strain gages, and strain rosettes. Three hours of laboratory a week. Prerequisite: Ap. Mech. 220; prerequisite or concurrent: Ap. Mech. 213.
- 228. Fluid Mechanics A.** 4 semester hours. Each semester and summer.
Fluid pressures, center of pressure, immersion and flotation; Bernoulli's Theorem for compressible and incompressible fluids; the principle of similarity, the Reynold's and Froude numbers; flow of fluids through orifices, nozzles, pipes; flow of water over weirs and in open channels; elements of water power, impulse wheels, reaction turbines, and centrifugal pumps. Four hours of recitation a week. Prerequisite: Ap. Mech. 202.
- 231. Fluid Mechanics B.** 3 semester hours. Second semester.
An optional course for mechanical engineering students, in which both gaseous and liquid fluids are treated. Three hours of recitation a week. Not open to students with credit in Ap. Mech. 228. Prerequisite: Ap. Mech. 202, Mech. Engg. 208.
- 235. Hydraulics Laboratory.** 1 semester hour. Each semester.
Tests to determine the coefficients of weirs and orifices, loss of head in pipes, water wheels, water turbines, rams and pumps. Three hours of laboratory a week. Prerequisite or concurrent: Ap. Mech. 228 or 231.
- 250. Highway and Airport Materials Laboratory.** 1 semester hour. Each semester.
A comprehensive course in the examination and testing of materials used in the construction of highways and airports. Three hours of laboratory a week. Prerequisite: Ap. Mech. 220.
- 268. Elastic Energy Theory.** 3 semester hours. First semester.
The elastic energy theory applied to trusses, frames, beams, and curved beams. Three hours of recitation a week. Prerequisite: Ap. Mech. 212.

- 270. Hydraulic Machinery.** 2 semester hours. First semester.
Characteristics and applications of water wheels, turbines, pumps, and other hydraulic machinery. Two hours of recitation a week. Prerequisite: Ap. Mech. 228.
- 275. Advanced Highway and Airport Materials.** 2 semester hours. Second semester.
An advanced course in the properties and testing of the various materials used in the construction of highways and airports. One hour of recitation and three hours of laboratory a week. Prerequisite: Ap. Mech. 250.
- 276. Design of Concrete Mixtures.** 3 semester hours. Second semester.
Practical applications of the fundamental principles of concrete making, using various kinds of cement and placing special emphasis on the proper designing, mixing, and placing of concrete mixtures to meet certain strength and durability requirements. One hour of recitation and six hours of laboratory a week. Prerequisite: Ap. Mech. 220.
- 280. Elastic Stability.** 3 semester hours. First semester.
Bending of prismatic bars under simultaneous action of axial and lateral loads; buckling of centrally compressed bars; buckling of compressed rings and curved bars; lateral buckling of beams. Three hours of recitation a week. Prerequisite: Ap. Mech. 212.
- 282. Mathematical Methods in Engineering Research.** 3 semester hours. First semester.
The application of the methods of Euler, Lagrange, Ritz, Southwell, Timoshenko, Runge, Heaviside and Kron to problems in various fields in engineering. Three hours of recitation a week. Prerequisite: Math. 210 or equivalent.
- 284. Advanced Dynamics.** 3 semester hours. Second semester.
Principles of momentum and energy with applications; theory of rotation about a fixed point with special reference to the gyroscope and its applications. Three hours of recitation a week. Prerequisites: Ap. Mech. 202, Math. 170 or equivalent.
- 286. Airplane Stress Analysis I.** 4 semester hours. First semester.
Analysis of stress and stability problems in the structural elements of airplanes. Three hours of recitation and three hours of laboratory a week. Prerequisite: Math. 170, Ap. Mech. 212.
- 287. Airplane Stress Analysis II.** 2 semester hours. Second semester.
A continuation of Airplane Stress Analysis I. Two hours of recitation a week. Prerequisite: Ap. Mech. 286.
- 291. Soil Mechanics I.** 2 semester hours. Each semester.
The identification and classification of soil types; the physical properties of soil that govern its use as a material of construction and as a support for engineering structures. One hour of recitation and three hours of laboratory a week. Prerequisite: Ap. Mech. 212.
- 292. Soil Mechanics II.** 3 semester hours. First semester.
Subsurface investigations; permeability, seepage, and capillarity; consolidation and settlement; stress distribution in soils and shearing strength. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ap. Mech. 291.
- 293. Soil Mechanics III.** 3 semester hours. Second semester.
Stability of slopes; lateral pressure and stability of retaining walls; compaction; earth dams; bearing power of soils; behavior of soils under various types of foundations. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ap. Mech. 291.

- 295. Cement and Concrete Technology.** 2 semester hours. First semester.
History of calcareous cements; a survey of raw materials and processes; cement components, constitution and cementing value; special cements and their concrete-making properties; resistance of concrete to natural destructive agencies. Prerequisite: Ap. Mech. 220.

FOR GRADUATE CREDIT

- 303. Research in Applied Mechanics.** Credit to be arranged. Each semester and summer.
Experimental and/or analytical work in the fields of materials of construction, mechanics of materials, fluid mechanics, soil mechanics and dynamics. The one material concrete provides a variety of attractive problems in regard to its design, mixing, placing, strength, plasticity, permeability, shrinkage, absorptivity, durability and its performance as a structural element or pavement slab. The results of such investigation may furnish material for the master's thesis or report. Prerequisite: Consult instructors.
- 304. Problems in Mechanics.** Credit to be arranged. Each semester and summer.
Special problems in the fields of Applied Mechanics. Prerequisite: Consult instructors.
- 308. Theory of Elasticity I.** 2 semester hours. Second semester.
Equations of elasticity in two and three dimensions; two-dimensional problems in rectangular and in polar co-ordinates; torsion of shafts of non-circular section. Prerequisite: Ap. Mech. 213, Math. 210 or equivalent.
- 309. Theory of Elasticity II.** 2 semester hours. First semester, alternate years, scheduled for 1951-'52.
Bending of prismatic bars and circular plates; stresses around cavities; stresses within soils; thermal stresses. Prerequisite: Ap. Mech. 308.
- 311. Theory of Plates and Slabs.** 3 semester hours. Second semester, alternate years, scheduled for 1951-'52.
Equations for bending of thin plates; symmetrical bending of circular plates; simply supported rectangular plates. Rectangular plates or slabs with various edge conditions. Plates or slabs of various shapes. Three hours of recitation a week. Prerequisite: Ap. Mech. 213, Math. 210 or equivalent.
- 312. Vibration of Elastic Bodies.** 3 semester hours. First semester.
Longitudinal, torsional, and lateral vibration of bars; testing of samples of material by dynamic methods; the Ritz method; vibration of membranes and plates; waves in isotropic elastic mediums; vibrations of pavement slabs. Three hours of recitation a week. Prerequisite or concurrent: Ap. Mech. 308, Mach. Design 215.
- 315. Rheology I.** 2 semester hours. First semester, alternate years; scheduled for 1952-'53.
Torsion, bending, and buckling of metal bars beyond the elastic limit; creep; plastic flow in two dimensions; elastic and viscous elements in series and in parallel. Prerequisite: Ap. Mech. 213, Math. 210 or equivalent.
- 316. Rheology II.** 3 semester hours. Second semester, alternate years, scheduled for 1952-'53.
Cohesion, adhesion; flocculation; dispersion; structural viscosity; use and theory of capillary, efflux, immersion, Couette and Pochettino viscometers for non-newtonian fluids; rheological properties of two-phase systems. Prerequisite: Ap. Mech. 315.
- 320. Advanced Fluid Mechanics.** 3 semester hours. First semester.
Principles of flow, irrotational motion, conformal mapping, viscous flow,

fluid turbulence, boundary layers, lift and drag, transportation of sediment. Three hours of recitation a week. Prerequisite: Ap. Mech. 231, Math. 210 or equivalent, and preferably Ap. Mech. 308.

Architecture and Allied Arts

PAUL WEIGEL, *Head of Department*

All drawings or designs made by the student during the course become the property of the department, to be used or returned at the discretion of the faculty.

FOR UNDERGRADUATE CREDIT

- 103. Shades and Shadows.** 1 semester hour. Each semester and summer.
A fundamental course in shades and shadows. Three hours of laboratory a week. Prerequisite: Mach. Des. 101 or equivalent.
- 104. Perspective Drawing.** 1 semester hour. Each semester and summer.
The principles of perspective drawing. Three hours of laboratory a week. Prerequisite: Mach. Des. 101 or equivalent.
- 112. Freehand Drawing I.** 2 semester hours. Each semester and summer.
A basic course in the fundamentals of freehand drawing. Six hours of laboratory a week.
- 113. Freehand Drawing II.** 2 semester hours. Each semester and summer.
A continuation of Arch. 112. Six hours of laboratory a week. Prerequisite: Arch. 112.
- 116. Pencil Sketching.** 2 semester hours. Each semester and summer.
Six hours of laboratory a week. Prerequisite: Arch. 112.
- 117. Still-life Drawing.** 2 semester hours. First semester and summer.
Sketches in various media of still-life groups in the studio and out-of-doors. Six hours of laboratory a week. Prerequisite: Arch. 112.
- 118. Water Color I.** 2 semester hours. Each semester and summer.
Rudiments of water-color painting; translation and theory of color. Sketching of simple objects and groups of objects; includes both studio and outdoor sketching. Six hours of laboratory a week. Prerequisite: Arch. 116 or approval of instructor.
- 119. Water Color II.** 2 semester hours. Each semester and summer.
Advanced study in the technique of the medium. Includes both studio work and outdoor sketching. Six hours of laboratory a week. Prerequisite: Arch. 118.
- 120. Interior Design.** 2 semester hours. First semester and summer.
A study of the principle of interior architecture. Six hours of laboratory a week. Prerequisite: Arch. 118, 125, 145.
- 121. Life Drawing I.** 2 semester hours. Each semester and summer.
Six hours of laboratory a week. Prerequisite: Arch. 118.
- 123. Life Drawing II.** 2 semester hours. Each semester and summer.
A continuation of Arch. 121. Six hours of laboratory a week. Prerequisite: Arch. 121.
- 124. Domestic Architecture.** 2 semester hours. Second semester.
A study of the design and planning problems of the small home. Two hours of recitation a week. An elective course intended for students not enrolled in the Department of Architecture.

- 125. Appreciation of Architecture.** 3 semester hours. Second semester.
A survey of the history of architecture. Three hours of recitation a week. An elective course intended for students not enrolled in the Department of Architecture.
- 127. Elements of Architecture I.** 4 semester hours. Each semester and summer.
A study of the fundamentals of architectural design by their application in the original solution and presentation of simple architectural problems. Twelve hours of laboratory a week.
- 129. Elements of Architecture II.** 4 semester hours. Each semester and summer.
A continuation of Arch. 127. Twelve hours of laboratory a week. Prerequisite: Arch. 127.
- 130. Pictorial Composition I.** 2 semester hours. Each semester and summer.
Individuality of expression is encouraged and the student is stimulated to express his ideas and emotions graphically in various media. Further understanding of the creative impulse and activity is gained through discussions, reports, and readings. Six hours of laboratory a week. An elective course intended for students not enrolled in the Department of Architecture.
- 132. Pictorial Composition II.** 2 semester hours. Each semester and summer.
Continuation of Arch. 130. Six hours of laboratory a week. An elective course intended for students not enrolled in the Department of Architecture. Prerequisite: Arch. 130.
- 133. Clay Modeling.** 2 semester hours. First semester and summer.
The making of clay models, plaster casts of simple decorative fragments and anatomical forms; construction of relief maps. Six hours of laboratory a week. Prerequisite: Arch. 117.
- 134. Pen and Ink Drawing.** 2 semester hours. Each semester and summer.
Six hours of laboratory a week. Prerequisite: Approval of instructor.
- 137. Block Prints.** 2 semester hours. First semester and summer.
The carving of original compositions in linoleum and wood blocks. Six hours of laboratory a week. Prerequisite: Arch. 113 or approval of instructor.
- 139. Architectural Design I.** 5 semester hours. Each semester.
A continuation of Arch. 129. Fifteen hours of laboratory a week. Prerequisite: Arch. 129.
- 141. Architectural Design II.** 5 semester hours. Each semester.
A continuation of Arch. 139. Fifteen hours of laboratory a week. Prerequisite: Arch. 139.
- 145. Architectural Design III.** 5 semester hours. Each semester.
Continuation of Arch. 141; time problems and rapid design sketches required at frequent intervals. Fifteen hours of laboratory a week. Prerequisite: Arch. 141.
- 147. Architectural Design IV.** 5 semester hours. Each semester.
Continuation of Arch. 145. Fifteen hours of laboratory a week. Prerequisite: Arch. 145.
- 154A. History of Architecture I.** 2 semester hours. First semester.
Preclassical and classical architecture. Two hours of recitation a week.
- 157A. History of Architecture II.** 2 semester hours. Second semester.
Medieval architecture. Two hours of recitation a week. Prerequisite: Arch. 154A.

- 158A. History of Architecture III.** 2 semester hours. First semester.
Italian and French Renaissance architecture. Two hours of recitation a week. Prerequisite: Arch. 157A.
- 160A. History of Architecture IV.** 2 semester hours. Second semester.
Continuation of Arch. 158A through modern architecture. Two hours of recitation a week. Prerequisite: Arch. 158A.
- 165. Commercial Illustration I.** 2 semester hours. Each semester and summer.
The principles of advertising arrangements; making various types of advertising design, such as newspaper advertisements, lettering, and posters; making cover designs for magazines, books, and trade catalogues; for headings, tail pieces, and decorative page arrangements; drawings carried out in black and white and in one or more colors. Six hours of laboratory a week.
- 170. Commercial Illustration II.** 2 semester hours. Each semester and summer.
Continuation of Arch. 165. Six hours of laboratory a week. Prerequisite: Arch. 165.
- 172. Commercial Illustration III.** 3 semester hours. Each semester and summer.
Continuation of Arch. 170 with particular emphasis upon the perfecting of professional techniques employed in advertising work. Nine hours of laboratory a week. Prerequisite: Arch. 170.
- 174. Commercial Illustration IV.** 3 semester hours. Each semester and summer.
Continuation of Arch. 172. Nine hours of laboratory a week. Prerequisite: Arch. 172.
- 179. History of Painting and Sculpture.** 3 semester hours. First semester.
The appreciation and development of painting and sculpture. Three hours of recitation a week. A required course for students in architecture and a recommended elective for other students.
- 181. Oil Painting I.** 2 semester hours. Each semester and summer.
Principles of oil painting with emphasis on technical aspects of the medium; theory of color and composition; both studio and outdoor work. Six hours of laboratory a week. Prerequisite: Arch. 112 or approval of instructor.
- 183. Oil Painting II.** 2 semester hours. Each semester and summer.
A continuation of Arch. 181. Six hours of laboratory a week. Prerequisite: Arch. 181 or approval of instructor.
- 187A. Building Materials and Construction.** 3 semester hours. First semester.
An introduction to the properties and uses of the materials of construction; construction methods; occasional visits to buildings under construction. Three hours of recitation a week.
- 188. Building Equipment.** 2 semester hours. Second semester.
A study of plumbing, sanitation systems, and mechanical equipment of buildings. Two hours of recitation a week. Prerequisite: Arch. 187A.
- 191. Working Drawings.** 3 semester hours. Second semester.
Preparing working drawings for a residence. Nine hours of laboratory a week. Prerequisite: Arch. 139, 187A.
- 192. Theory of Structures I.** 4 semester hours. Second semester.
Mathematical and graphical solutions of stresses in framed structures under static loading; practical problems in the design of wood, steel, and masonry construction; occasional inspection trips to buildings under con-

struction. Two hours of recitation and six hours of laboratory a week. Prerequisite: Ap. Mech. 116, 121.

- 194A. Theory of Structures II.** 5 semester hours. First semester.
A continuation of Arch. 192. Three hours of recitation and six hours of laboratory a week. Prerequisite: Arch. 192.
- 195. Professional Practice.** 2 semester hours. Second semester.
The preparation of building documents; interpretation of building codes and analysis of documents of American Institute of Architects; office organization; client and contractor relationships. Six hours of laboratory a week. Prerequisite: Arch. 191, and senior classification.
- 196. Theory of Structures III.** 4 semester hours. Second semester.
A continuation of Arch. 194A, including design of reinforced concrete building frames; footings, columns, and floor systems, attention being given to costs and economical design. Two hours of recitation and six hours of laboratory a week. Prerequisite: Arch. 194A.
- 199. Inspection Trip.** Required; no credit. First semester.
An inspection trip is made to one of the larger cities of the Middle West, usually Chicago, by the senior students in architectural engineering and the fourth year students in architecture. The inspection party is under the charge of one or more faculty members of the Department of Architecture. Time allotted to the trip is from three days to one week. Prerequisite: Senior classification. Approximate cost of trip, \$50.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Advanced Freehand Drawing.** Credit to be arranged. Each semester and summer.
Prerequisite: Arch. 117, 118, and approval of instructor.
- 218. Etching.** Credit to be arranged. Each semester and summer.
Technical principles and practice of etching on copper and zinc plate. Prerequisite: Arch. 121 or approval by instructor.
- 221. Problems in Architectural Development.** Credit to be arranged. Each semester and summer.
Under direct supervision of some member of the departmental staff, study of specific architectural problems. Prerequisite: Approval of instructor.
- 231. Oil Painting III.** 2 semester hours. Each semester and summer.
Work in the various methods and historical technics of painting. Six hours of laboratory a week. Prerequisite: Arch. 183 or approval of instructor.
- 233. Oil Painting IV.** 2 semester hours. Each semester and summer.
A continuation of Arch. 231 with a selected study and practice of mural painting. Six hours of laboratory a week. Prerequisite: Arch. 231 or approval of instructor.
- 236. Portraiture I.** 2 semester hours. Each semester and summer.
Principles and elements of portrait drawing. Various media may be employed. Six hours of laboratory a week. Prerequisite: Arch. 123 or approval of instructor.
- 238. Portraiture II.** 2 semester hours. Each semester and summer.
A continuation of Arch. 236. Six hours of laboratory a week. Prerequisite: Arch. 236 or approval of instructor.
- 242. Lithography.** Credit to be arranged. Each semester and summer.
Technical principles and practice of lithography on stone and metal plate and their application in creative work. Prerequisite: Arch. 121 or approval by instructor.

249. City Planning. 3 semester hours. Second semester.

A study of city planning, including transportation and street systems, parks and recreation facilities, public buildings and civic centers, subdivisions of land, restrictions and zoning. Nine hours of laboratory a week. Prerequisite: Arch. 147.

254. Architectural Design V. 7 semester hours. Each semester.

A continuation of Arch. 147. Twenty-one hours of laboratory a week. Prerequisite: Arch. 147.

257. Architectural Design VI. 7 semester hours. Each semester.

A continuation of Arch. 254. Twenty-one hours of laboratory a week. Prerequisite: Arch. 254.

FOR GRADUATE CREDIT

301. Advanced Architectural Design I. Credit to be arranged. Each semester and summer.

A study of the planning of important buildings and groups of buildings. Prerequisite: Arch. 257.

304. Advanced Architectural Design II. Credit to be arranged. Each semester and summer.

A continuation of Arch. 301; may furnish material for the master's thesis. Prerequisite: Arch. 301.

307. Research in Architecture. Credit to be arranged. Each semester and summer.

Original investigation or advanced study in architectural design, planning, industrial design and related fields. Prerequisite: Approval of instructor.

310. Research in Painting and Sculpture. Credit to be arranged. Each semester and summer.

Original investigation or advanced study in painting, sculpture and related fields. Prerequisite: Approval of instructor.

Chemical Engineering

HENRY T. WARD, *Head of Department*

The instruction in the Department of Chemical Engineering deals primarily with those unit physical operations and unit chemical processes which, when co-ordinated and in their proper sequence, constitute a physical or chemical process as conducted on an industrial scale. Chemistry, physics, and mathematics are the underlying sciences of chemical engineering, and economics its guide in practice.

FOR UNDERGRADUATE CREDIT

150. Inspection Trip. Required; no credit. First semester.

Inspections are made of chemical industries in Kansas by visits to plants making chemicals such as ammonia, methanol, soap, glass, cement, petroleum products, fertilizers, etc. Approximate cost to student, \$30.

FOR GRADUATE AND UNDERGRADUATE CREDIT

201. Chemical Engineering Materials. 2 semester hours. Each semester.

Manufacture, use, and properties of metallic and nonmetallic materials of construction. Two hours of recitation a week. Prerequisite or concurrent: Chem. 103, 104.

206. Industrial Stoichiometry. 3 semester hours. Each semester and summer.

Calculation of material and energy balances in industrial chemical reactions. Three hours of recitation a week. Prerequisite: Chem. 215A.

- 221. Unit Operations I Recitation.** 3 semester hours. Each semester.
Class and problem work on fluid flow, heat transfer, and evaporation. Three hours of recitation a week. Prerequisite: Chem. Engg. 206, Math. 141; prerequisite or concurrent: Chem. 260A, 260B.
- 223. Unit Operations I Laboratory.** 1 semester hour. Each semester.
Laboratory work in fluid flow and heat transfer. Three hours laboratory a week. Prerequisite or concurrent: Chem. Engg. 221.
- 226. Unit Operations II Recitation.** 3 semester hours. Each semester.
Class and problem work on humidification, drying, absorption, distillation, crystallization, and filtration. Three hours of recitation a week. Prerequisite: Chem. Engg. 221.
- 228. Unit Operations II Laboratory.** 1 semester hour. Each semester.
Laboratory work in evaporation, humidification, drying, and distillation. Three hours laboratory a week. Prerequisite: Chem. Engg. 223; prerequisite or concurrent: Chem. Engg. 226.
- 229. Chemical Engineering Thermodynamics.** 4 semester hours. Each semester and summer.
Thermodynamics in chemical engineering. Four hours of recitation a week. Prerequisite: Chem. Engg. 226.
- 232. Advanced Chemical Engineering Thermodynamics.** 3 semester hours. Second semester.
The application of thermodynamic principles to solutions and to complex physical and chemical equilibria. Three hours of recitation a week. Prerequisite: Chem. Engg. 229.
- 235. Unit Operations III Laboratory.** 1 semester hour. Each semester.
Continuation of courses I and II with studies of extraction, absorption, filtration, crystallization and crushing and grinding. Three hours of laboratory a week. Prerequisite: Chem. Engg. 223, 226.
- 237. Inorganic Technology.** 2 semester hours. Each semester and summer.
Study of applications of physical chemistry, unit operations, and economics to the inorganic chemical process industries. Two hours of recitation a week. Prerequisite: Chem. 224, 260A.
- 240. Unit Process Laboratory.** 2 semester hours. Each semester and summer.
Investigation of important unit processes. Six hours of laboratory a week. Prerequisite or concurrent: Chem. Engg. 226, 237.
- 246. Chemical Engineering Plant Design.** 4 semester hours. Second semester.
A study of the practical aspects and economics of designing a chemical process. Three hours of recitation and three hours of laboratory a week. Prerequisite: Chem. Engg. 226, 229, 237, 240.
- 250. Problems in Chemical Engineering.** Credit to be arranged. Each semester.
An introduction to chemical engineering research.
- 255. Chemical Engineering Analysis.** 3 semester hours. First or second semester.
Graphical methods and dimensional analysis applied to chemical engineering problems. Three hours of recitation a week. Prerequisite: Chem. 261, Chem. Engg. 229.
- 257. Organic Technology.** 3 semester hours. Each semester.
A study of industrial organic processes and of the heavy organic chemical industries. Three hours recitation a week. Prerequisite: Chem. 224.

- 265. Distillation.** 3 semester hours. First or second semester.
Advanced study of distillation. Three hours of recitation a week. Prerequisite: Chem. Engg. 229.
- 268. Filtration and Mechanical Separation.** 3 semester hours. First or second semester.
Theory and practice of filtration, screening, flotation, air separation, centrifugation, and sedimentation. Three hours of recitation per week. Prerequisite: Chem. Engg. 226, 229.
- 270. Absorption and Extraction.** 3 semester hours. First or second semester.
Advanced study of absorption and extraction. Three hours of recitation a week. Prerequisite: Chem. Engg. 229.
- 275. Ceramic Engineering.** 3 semester hours. Second semester.
A study of the utilization of clays and siliceous materials in the manufacture of glass, refractories, building materials and other ceramic products. Three hours of recitation a week. Prerequisite: Chem. Engg. 226, 237.
- 277. Plastics Technology.** 3 semester hours. First or second semester.
Reactions in the formation of high polymers. Manufacturing processes and physical and chemical properties of various types of plastics, resins, and elastomers. Three hours of recitation a week. Prerequisite: Chem. 224, Chem. Engg. 257.
- 280. Petroleum Refining Engineering I.** 3 semester hours. First semester.
Properties of hydrocarbon mixtures; separation by distillation and extraction; cracking, polymerization, hydrogenation, and alkylation. Three hours of recitation a week. Prerequisite or concurrent: Chem. Engg. 226; senior standing.
- 285. Petroleum Refining Engineering II.** 3 semester hours. Second semester.
Methods for the design and analysis of equipment and processes for the production and utilization of petroleum hydrocarbons. Prerequisite: Chem. Engg. 229, 280.
- FOR GRADUATE CREDIT
- 301. Research in Chemical Engineering.** Credit to be arranged. Each semester and summer.
Original investigations in the fields of unit operations, unit processes, petroleum refining, and industrial utilization of Kansas raw materials. Work is usually correlated with the research projects of the engineering or agricultural experiment stations. Satisfactory results may be used for the master's thesis. Prerequisite: Consent of head of department.
- 306. Industrial Reaction Rates and Catalysis.** 3 semester hours. First or second semester.
Theory of kinetics and catalysis with applications to design of industrial chemical processes and equipment. Three hours of recitation per week. Prerequisite: Chem. Engg. 226, 229.
- 308. Drying.** 3 semester hours. First or second semester.
Development of drying theory and an analysis of industrial drying systems. Three hours of recitation a week. Prerequisite: Chem. Engg. 226, 229.
- 309. Evaporation.** 3 semester hours. First or second semester.
Theory of evaporation and design of evaporators. Three hours of recitation a week. Prerequisite: Chem. Engg. 226, 229.

Civil Engineering

REED F. MORSE, *Head of Department*

FOR UNDERGRADUATE CREDIT

- 102. Surveying I.** 2 semester hours. Each semester and summer.
Care and use of engineer's surveying instruments. Six hours of laboratory a week. Prerequisite or concurrent: Math. 101.
- 103. Topographic Surveying.** 3 semester hours. Second semester every other year.
Topographic surveying with transit and plane table; grading plans for walks, roads, and areas; staking out buildings. One hour of recitation and six hours of laboratory. Prerequisite: Civ. Engg. 102. (For students taking the Curriculum in Landscape Design.)
- 114. Surveying II.** 5 semester hours. First semester and summer.
Land and topographic surveying, curves and earthwork; mine, city and hydrographic surveying. Two hours of recitation and nine hours of laboratory a week. Prerequisite: Civ. Engg. 102.
- 125. Civil Engineering Drawing.** 2 semester hours. Second semester.
Stereotomy, shades and shadows, isometric and perspective, and the conventional methods of making drawings of structures. Six hours of laboratory a week. Prerequisite or concurrent: Mach. Des. 111.
- 135. Highway Plans.** 5 semester hours. First semester; alternate years.
Preparation of highway plans based on field surveys to be made by the class. Three hours of recitation and six hours of laboratory a week. Prerequisite: Civ. Engg. 102, 114 or Geol. 230. (For students enrolled in geology.)
- 170. Thesis.** Credit to be arranged. Each semester.
- 180. Inspection Trip.** Required; no credit. First semester.
A trip of four to six days to one or more industrial centers. Approximate cost to student, \$60. Prerequisite: Senior classification.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 202. Stress Analysis I Recitation.** 4 semester hours. Each semester and summer.
Stresses in simple beams and framed structures with an introduction to deflections and redundants. Four hours of recitation a week. Prerequisite: Ap. Mech. 212.
- 205. Stress Analysis I Laboratory.** 2 semester hours. Each semester and summer.
Graphical determination of stresses and deflections. Six hours of laboratory a week. Prerequisite or concurrent: Civ. Engg. 202.
- 208. Stress Analysis II.** 3 semester hours. Second semester and summer.
Theory of statically indeterminate structures, secondary stresses, and stressed-skin structures; stresses in continuous, movable, cantilever, suspension and steel-arch bridges, rigid and space frames. Three hours of recitation a week. Prerequisite: Civ. Engg. 202, 205.
- 217. Astronomy and Geodesy.** 3 semester hours. Second semester.
The elements of astronomy; precise methods of surveying and leveling. Two hours of recitation and three hours of laboratory a week. Prerequisite: Civ. Engg. 219.
- 219. Photogrammetry.** 4 semester hours. First semester and summer.
Construction of mosaics and contour maps from aerial photographs. Two

hours of recitation and six hours of laboratory a week. Prerequisite: Civ. Engg. 114.

- 222. Sanitary Engineering.** 4 semester hours. First semester and summer.
Design, construction, and operation of water supply and sewage systems. Three hours of recitation and three hours of laboratory a week. Prerequisite: Ap. Mech. 228, Bact. 126.
- 228. Sanitary Engineering Design.** 2 semester hours. Second semester and summer.
A continuation of Civ. Engg. 222 with emphasis on cost, estimates and methods of financing. Six hours of laboratory a week. Prerequisite: Civ. Engg. 222.
- 233. Transportation Engineering.** 5 semester hours. First semester and summer.
The design, construction, and maintenance of railroads, highways, and airports. Three hours of recitation and six hours of laboratory a week. Prerequisite: Civ. Engg. 114, Ap. Mech. 291.
- 236. Applied Hydrology.** 3 semester hours. Second semester and summer. *
A study of the sources of supply, amount and movement of underground and surface waters; their collection, control and utilization. Three hours of recitation a week. Prerequisite: Ap. Mech. 228.
- 246. Design of Framed Structures.** 3 semester hours. Second semester and summer.
Designs and general drawings of highway and railroad truss and girder bridges. Nine hours of laboratory a week. Prerequisite: Civ. Engg. 202.
- 248. Economics of Design and Construction.** 3 semester hours. First semester.
A study of methods, construction equipment, and economic factors affecting engineering projects. Three hours of recitation a week. Prerequisite: Senior or graduate classification.
- 249. Foundations.** 2 semester hours. Each semester and summer.
Design and construction of foundations for pavements, bridges and buildings. Two hours of recitation a week. Prerequisite: Ap. Mech. 291.
- 256. Reinforced Concrete Arches.** 3 semester hours. Second semester and summer.
The elastic theory applied to the design of reinforced concrete arches for bridges, buildings, and dams. Three hours of recitation a week. Prerequisite: Civ. Engg. 208.
- 257. Reinforced Concrete Design Recitation.** 2 semester hours. Second semester and summer.
A study of the characteristics of concrete as a building material and the design of reinforced concrete structures. Two hours of recitation a week. Prerequisite: Civ. Engg. 202.
- 258. Reinforced Concrete Design Laboratory.** 2 semester hours. Second semester and summer.
Design drawings of reinforced concrete structures. Six hours of laboratory a week. Prerequisite or concurrent: Civ. Engg. 257.
- 267. Airport Design.** 3 semester hours. First semester.
An advanced study of the problems encountered in the design, construction, and maintenance of large airports. Two hours of recitation and three hours of laboratory a week. Prerequisite: Civ. Engg. 233.
- 274. Highway Design.** 3 semester hours. Second semester.
Survey and preparation of highway plans based on economic studies. Two hours of recitation and three hours of laboratory a week. Prerequisite: Civ. Engg. 233.

- 275. Advanced Structural Design A.** 3 semester hours. First semester and summer.
The design of statically indeterminate reinforced concrete structures. Three hours of recitation a week. Prerequisite: Civ. Engg. 208, 257, 258.
- 276. Advanced Structural Design B.** 3 semester hours. Second semester and summer.
The design of statically indeterminate steel structures. Three hours of recitation a week. Prerequisite: Civ. Engg. 208, 246.

FOR GRADUATE CREDIT

- 304. Research in Civil Engineering.** Credit to be arranged. Each semester and summer.
Original investigation or advanced study in some field related to the practice of civil engineering. Prerequisite: Consult instructors.

Electrical Engineering

ROYCE G. KLOEFFLER, *Head of Department*

FOR UNDERGRADUATE CREDIT

- 102. Electrical Engineering C Recitation.** 2 semester hours. Each semester and summer.
The fundamental principles of direct-current and alternating-current circuits and machinery. For nonelectrical students. Two hours of recitation a week. Prerequisite: Phys. 106.
- 106. Electrical Engineering C Laboratory.** 1 semester hour. Each semester and summer.
Experiments covering characteristics and applications of direct-current and alternating-current machinery. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 102.
- 116. Illumination A.** 2 semester hours. First semester.
Systems, calculations, and specifications of interior wiring; principles of illumination. Two hours of recitation a week. Prerequisite: Phys. 103 or 106.
- 190. Inspection Trip.** Required; no credit. First semester.
A trip of two to six days to St. Louis, Chicago, and other cities for the purpose of making inspections of power plants and various industries illustrating the application of electrical engineering principles. Approximate cost of trip, \$50. Prerequisite: Senior classification.
- 195. Thesis.** Credit to be arranged. Each semester.
A subject for thesis work is selected in consultation with the department head at the beginning of the senior year. Every opportunity is given to work out original ideas as to design and operation of electrical apparatus and machinery.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 202. Basic Electrical Engineering.** 4 semester hours. Each semester and summer.
Fundamentals of electric, magnetic, and electrostatic circuits. Four hours of recitation a week. Prerequisite or concurrent: Phys. 106, Math. 141.
- 203. Direct-current Machinery Recitation.** 4 semester hours. Each semester and summer.
Principles of operation and the characteristics of direct-current generators and motors. Four hours of recitation a week. Prerequisite or concurrent: Elec. Engg. 202; prerequisite: Phys. 106.

- 204. Direct-current Machinery Laboratory I.** 1 semester hour. Each semester and summer.
Characteristics of direct-current machines. Three hours of laboratory. Prerequisite or concurrent: Elec. Engg. 203.
- 205. Direct-current Machinery Laboratory II.** 1 semester hour. Each semester and summer.
Characteristics of direct-current machines. Three hours of laboratory a week. Prerequisite: Elec. Engg. 204.
- 209. Alternating-current Circuits.** 4 semester hours. Each semester and summer.
A mathematical treatment of alternating-current phenomena in single and polyphase circuits. Four hours of recitation a week. Prerequisite: Elec. Engg. 202; prerequisite or concurrent: Math. 170.
- 210. Alternating-current Machinery I Recitation.** 3 semester hours. Each semester and summer.
Principles of design, construction, and operation of transformers, alternating-current generators, and polyphase induction motors. Three hours of recitation a week. Prerequisite: Elec. Engg. 209.
- 211. Alternating-current Machinery I Laboratory.** 2 semester hours. Each semester and summer.
Experiments illustrating the characteristics of alternating-current circuits and transformers. Six hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 210.
- 212. Alternating-current Machinery II Recitation.** 3 semester hours. Each semester and summer.
Continuation of Elec. Engg. 210, including synchronous motors, parallel operation of alternators, converters, induction and commutator alternating-current motors, rectifiers, and accessory apparatus. Three hours of recitation a week. Prerequisite: Elec. Engg. 210, 211.
- 213. Alternating-current Machinery II Laboratory.** 2 semester hours. Each semester and summer.
Continuation of Elec. Engg. 211 with experiments on machines listed in Elec. Engg. 212. Six hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 212.
- 216. Alternating-current Machinery E Laboratory.** 2 semester hours. Second semester.
Experiments illustrating the characteristics of alternating-current circuits and machines. For electrical engineering students in the communication or electronics' option. Six hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 242.
- 220. Electronics I.** 2 semester hours. Each semester.
The fundamental principles of electron tubes. Two hours of recitation a week. Prerequisite: Phys. 106, Elec. Engg. 202.
- 222. Electronics II Recitation.** 4 semester hours. Each semester.
A study of basic electronic circuits, amplifiers and oscillators. Four hours of recitation a week. Prerequisite: Elec. Engg. 209, 220.
- 223. Electronics II Laboratory.** 2 semester hours. Each semester.
Basic electronic circuits and characteristics. Six hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 222.
- 224. Industrial Electronics Recitation.** 3 semester hours. Second semester.
Fundamental principles of electron tubes and circuits and applications in industry. Three hours of recitation a week. Prerequisite: Elec. Engg. 102, or 209, or 242.

- 225. Industrial Electronics Laboratory.** 1 semester hour. Second semester. Industrial electronic equipment. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 224 or 226.
- 226. Industrial Electronics and Control Recitation.** 2 semester hours. Second semester. Applications and circuits of electronics in industry. Servomechanisms and other control devices. Two hours of recitation a week. Prerequisite: Elec. Engg. 222.
- 227. Electrical Measurements Recitation.** 2 semester hours. Each semester. Methods for electric and magnetic measurements; resistance, quantity, current, electromotive force, capacity inductance. Two hours of recitation a week. Prerequisite or concurrent: Elec. Engg. 209.
- 230. Electrical Measurements Laboratory.** 1 semester hour. Each semester. Measurements of resistance, current, electromotive force, capacity, inductance, watts, energy. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 227.
- 237. Electrical Engineering M-I Recitation.** 4 semester hours. Each semester and summer. Theory of direct-current circuits and machines, magnetic circuits, and alternating-current circuits. Four hours of recitation a week. Prerequisite: Phys. 106; prerequisite or concurrent: Math. 141.
- 238. Electrical Engineering M-I Laboratory.** 1 semester hour. Each semester and summer. Experiments on measurement of resistance and study of direct-current machine characteristics. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 237.
- 242. Electrical Engineering M-II Recitation.** 3 semester hours. Each semester. Theory of alternating-current machinery. Three hours of recitation a week. Prerequisite: Elec. Engg. 237, 238; or 203, 204.
- 243. Electrical Engineering M-II Laboratory.** 1 semester hour. Each semester. Experiments on alternating-current circuits and alternating-current machinery characteristics. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 242.
- 244. Wire Communication.** 3 semester hours. Each semester. Principles of wire communication; telephone and telegraph switching systems, line loading, repeaters, and carrier currents. Three hours of recitation a week. Prerequisite: Elec. Engg. 209.
- 254. Radio Communication Recitation.** 3 semester hours. First semester. Radio-frequency amplifiers and oscillators, modulation; application to transmitter circuits; antennae and wave propagation. Three hours of recitation a week. Prerequisite: Elec. Engg. 222, 223.
- 256. Radio Communication Laboratory.** 1 semester hour. First semester. Experiments on modulation, demodulation; fundamental design of receivers and transmitters; and antennae measurements. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 254.
- 257. Electromagnetic Waves Recitation.** 3 semester hours. Second semester. Principle of guided and free electromagnetic wave propagation, including generation, radiation and reception. Three hours of recitation a week. Prerequisite: Elec. Engg. 263.

- 158. Electromagnetic Waves Laboratory.** 1 semester hour. Second semester. Experiments on the generation, propagation, radiation, and reception of electromagnetic waves. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 257.
- 263. Communication Networks Recitation.** 3 semester hours. First semester. Network theorems, infinite line, wave filters, equalizers, impedance matching. Three hours of recitation a week. Prerequisite: Elec. Engg. 209.
- 264. Communication Networks Laboratory.** 1 semester hour. First semester. Communication circuits and equipment. Three hours of laboratory a week. Concurrent: Elec. Engg. 263.
- 266. Television Recitation.** 3 semester hours. Second semester. Theory of scanning, television, cathode-ray tubes, pulse generators, video amplifiers and circuits, television transmitters and receivers. Three hours of recitation a week. Prerequisite or concurrent: Elec. Engg. 257, 263.
- 267. Television Laboratory.** 1 semester hour. Second semester. Television circuits and equipment. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 266.
- 269. Airplane Electrical Equipment Laboratory.** 1 semester hour. Second semester. Study of electrical equipment for airplanes. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 271.
- 271. Airplane Electrical Equipment Recitation.** 2 semester hours. Second semester. Electric control equipment and instruments for airplanes. Two hours of recitation a week. Either Elec. Engg. 102, or 209, or 242.
- 272. Illuminating Engineering Recitation.** 3 semester hours. Second semester. Photometry, light standards, principles of illumination and illumination design. Three hours of recitation a week. Prerequisite: Math. 141, Phys. 106.
- 280. Transmission and Distribution of Electrical Energy.** 3 semester hours. Second semester. Transmission line design, economic and technical features; and properties of cables and insulators. Three hours of recitation a week. Prerequisite: Elec. Engg. 210.
- 284. Transient Electrical Phenomena.** 3 semester hours. Second semester. Two phases of electrical phenomena: (a) Transients in time, and (b) transients in space. Three hours of recitation a week. Prerequisite: Elec. Engg. 209, Math. 170.

FOR GRADUATE CREDIT

- 301. Advanced Electric Circuits I.** 3 semester hours. First semester. Short-circuit currents in networks; equivalent impedance of multi-circuit transformers; analysis of unbalanced polyphase circuits and analysis of induction motor performance on unbalanced voltages; short transmission lines in steady state. Three hours of recitation a week. Prerequisite: Elec. Engg. 212.
- 304. Advanced Electric Circuits II.** 3 semester hours. Second semester. Long transmission lines in steady state with various terminal conditions; transmission charts; harmonics in circuits; general circuit constants; charts and transmission problems involving synchronous machines. Three hours of recitation a week. Prerequisite: Elec. Engg. 301.

- 307. Operational Circuit Analysis.** 3 semester hours. Second semester.
Unit function, transforms, and other methods of Heaviside and Bromwich applied to electric circuits. Three hours of recitation a week. Prerequisite: Elec. Engg. 209.
- 313. High-frequency Measurements Recitation.** 2 semester hours. Second semester.
Theory of measurement at radio frequencies of current, voltage, frequency, modulation; antenna and transmission line characteristics. Two hours of recitation a week. Prerequisite: Elec. Engg. 209, 254.
- 314. High-frequency Measurements Laboratory.** 1 semester hour. Second semester.
Application of high-frequency measurements. Three hours of laboratory a week. Prerequisite or concurrent: Elec. Engg. 313.
- 316. Advanced Electrical Theory.** Credit to be arranged. Each semester.
Prerequisite: Elec. Engg. 222.
- 318. Advanced Radio Communication.** 3 semester hours. Second semester.
An advanced course in radio communication covering high-frequency and transit-time effects, noise, antennas, communication systems, and acoustics. Three hours of recitation a week. Prerequisite: Elec. Engg. 254.
- 320. Advanced Electromagnetic Waves.** 3 semester hours. Second semester.
Mathematical development of electromagnetic wave theory. Three hours of recitation a week. Prerequisite: Elec. Engg. 258.
- 322. Vacuum Tubes.** 3 semester hours. First semester.
Principles of vacuum-tube design. Development, description, and utilization of the physical laws involved. Three hours of recitation a week. Prerequisite: Elec. Engg. 222.
- 325. Servomechanisms.** 3 semester hours. First semester.
Theory of closed servo loops including a study of dynamics and stability using the Laplace transform. Three hours of recitation a week. Prerequisites: Math. 201, Elec. Engg. 223.
- 336. Research in Electrical Engineering.** Credit to be arranged. Each semester and summer.
Special investigations adapted to the needs of individual students. The laboratory work is correlated with the work of the Engineering Experiment Station and may be used as the basis of a master's thesis. Prerequisite: Elec. Engg. 222.

General Engineering

MERRILL AUGUSTUS DURLAND, *Dean*

- 101. Engineering Lectures.** Required; no credit. Each semester.
Designed to acquaint freshman engineers and architects with fundamental principles of their profession and to give a general survey of the field. One hour of lecture a week, entire freshman year. Dean Durland, other members of the engineering faculty, and visiting practicing engineers.
- 105. Engineering Assembly.** Required; no credit. Each semester.
Presentation by students of abstracts and reviews of articles in the journals of their respective societies or in the technical press of their profession, and reports of engineering projects, industrial experiences, and original investigations; as far as possible conducted by the student branches of the professional engineering societies. Occasionally two or more of these indi-

vidual groups unite for lectures by practicing engineers and by members of the engineering and college faculties. One hour of lecture a week, sophomore, junior, and senior years. Members of the engineering faculty.

Machine Design

CLINTON E. PEARCE, *Head of Department*

The courses in drawing deal principally with the training of the freshman and sophomore students in visualization, and the application of graphical language to engineering problems, with particular reference to commercial drafting-room methods.

The courses in machine design deal with mechanical transmission of power, analysis of the action of machine parts, design of machine elements and of complete machines, aerodynamic forces, and airplane structures. Additional courses in actual flight are offered, with the flight instruction handled under contract by a recognized flight school.

FOR UNDERGRADUATE CREDIT

- 101. Engineering Drawing.** 2 semester hours. Each semester and summer.
The selection and use of drawing instruments; construction of geometrical figures; lettering; orthographic projections and sections; pictorial methods of representation. Six hours of laboratory a week.
- 106. Descriptive Geometry.** 2 semester hours. Each semester and summer.
Problems involving the point, line, and plane; the intersection and development of the surfaces of geometric solids; practical applications of the principles involved; emphasis on developing the student's ability to visualize drawings in the third angle. Six hours of laboratory a week. Prerequisite: Mach. Des. 101, Math. 102 or equivalent.
- 111. Machine Drawing I.** 2 semester hours. Each semester and summer.
Conventional representation; working drawings; dimensioning; the reproduction of drawings; checking for errors; arrangement of title and notes; sheet and metal drafting; simple perspective. Six hours of laboratory a week. Prerequisite: Mach. Des. 101.
- 118. Machine Drawing II.** 2 semester hours. Each semester and summer.
Machine sketching from parts of actual machines; complete working and assembly drawings; tracing and blueprinting. Six hours of laboratory a week. Prerequisite: Mach. Des. 111, 121.
- 121. Mechanism.** 3 semester hours. Each semester and summer.
A careful study of the fundamental elements of machinery with reference to the transmission of motion and force, and to their forms and arrangements in actual machines. Three hours of recitation a week. Prerequisite: Math. 101, Mach. Des. 106.
- 122. Aviation Ground Instruction I.** 3 semester hours. Each semester and summer.
Civil air regulations, simple avigation, simple meteorology, and general service of aircraft. Three hours of recitation a week. Prerequisite: Math. 101 or approval of head of department.
- 124. Aviation Ground Instruction II.** 4 semester hours. Each semester and summer.
Advanced avigation, aeronautical meteorology, aircraft engines, aerodynamics, and aircraft construction. Four hours of recitation a week. Prerequisite: Mach. Des. 122 or private pilot certificate.

- 127. Flight Instruction I.** 2 semester hours. Each semester and summer.
Actual flight instruction of 35 to 50 hours, dual and solo, as required for the private pilot certificate, taught under contract by a flight school; and 25 hours of ground-school instruction as required for a private pilot's certificate.

The College furnishes the medical examination without extra charge but a special charge is made to cover student insurance and flight instruction.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 204. Machine Design I Recitation.** 3 semester hours. Each semester.
The straining actions in machine elements; friction and lubrication; problems arising in the transmission of power and in the design of high-speed machinery; fastenings. Three hours of recitation a week. Prerequisite: Ap. Mech. 212, Mach. Des. 111, 121.
- 205. Machine Design I Laboratory.** 2 semester hours. Each semester.
Calculations for a number of simple machines and machine parts, paralleling the recitation class assignments. Six hours of laboratory a week. Prerequisite or concurrent: Mach. Des. 204, 121.
- 206. Aerodynamics I Recitation.** 3 semester hours. Second semester.
A general introduction to aerodynamics. Three hours of recitation a week. Prerequisite: Ap. Mech. 202.
- 207. Aerodynamics I Laboratory.** 1 semester hour. Second semester.
Operation of wind tunnel. Three hours of laboratory a week. Prerequisite or concurrent: Mach. Des. 206.
- 210. Machine Design II.** 2 semester hours. Second semester.
Complete design of a small power shear with a graphical analysis of the shaft; the rotative diagram and balancing of an engine. Six hours of laboratory a week. Prerequisite: Mach. Des. 204, 205.
- 215. Machine Vibration I.** 3 semester hours. Second semester.
A general consideration of free and forced vibration in machines for various degrees of freedom; critical speed; vibration isolation. Three hours of recitation a week. Prerequisite: Ap. Mech. 202, Math. 170.
- 216. Aerodynamics II Recitation.** 3 semester hours. First semester.
A continuation of Aerodynamics I. Three hours of recitation a week. Prerequisite: Mach. Des. 206, Ap. Mech. 231.
- 217. Aerodynamics II Laboratory.** 1 semester hour. First semester.
Determination of performance curves and stability of an airplane. Prerequisite or concurrent: Mach. Des. 216.
- 218. Propeller Theory and Design.** 2 semester hours. First semester.
Theory of air screw, effect of propeller characteristics on airplane performance, and calculation of stresses. Prerequisite: Ap. Mech. 231, Mach. Des. 206.
- 220. Kinematics and Kinetics.** 2 semester hours. Second semester.
A study of the velocities and accelerations in mechanisms and machines, and of the forces resulting therefrom. Two hours of recitation a week. Prerequisite: Mach. Des. 121, Ap. Mech. 202.
- 221. Airplane Design I.** 3 semester hours. First semester.
A study of the general principles of airplane design. One hour of recitation and six hours of laboratory a week. Prerequisite: Ap. Mech. 212 and Mach. Des. 206, 207.
- 222. Airplane Design II.** 3 semester hours. Second semester.
The design of an airplane, including performance calculations. One hour of recitation and six hours of laboratory a week. Prerequisite: Mach. Des. 221.

- 225. Graphics of Engineering Formulas.** 2 semester hours. Second semester. Simple empirical equations; diagramming of formulas; monographic or alignment charts; special slide rules. Two hours of recitation a week. Prerequisite: Math. 120.
- 227. Machine Vibration II.** 3 semester hours. First semester. More advanced consideration of free and forced vibration having several degrees of freedom, with particular reference to rotating systems; absorbers and dampers; dynamic engine suspension; wing flutter; nonlinear forms. Three hours of recitation a week. Prerequisite: Mach. Des. 215.
- 228. Engine Dynamics.** 2 semester hours. First semester. Study of velocity, acceleration, and dynamic forces in various types of reciprocating engines, including articulated, rotating and oscillating forms; flywheels; engine balance; harmonic torque analysis. Two hours of recitation a week. Prerequisite: Mach. Des. 220.
- 230. Patents and Inventions.** 2 semester hours. Each semester. A brief consideration of the fundamental principles of United States patents and their relationship to the engineer; the inception and development of inventions. Two hours of recitation a week. Prerequisite: Junior or senior standing.
- 260. Airplane Design and Construction.** 3 semester hours. Second semester. The structure and rigging of aircraft, the design directive of a small plane, the general layout and weight analysis. One hour of recitation and six hours of laboratory a week. Prerequisite: Mach. Des. 206, Ap. Mech. 212.

FOR GRADUATE CREDIT

- 301. Advanced Machine Design.** Credit to be arranged. Each semester. At the option of the student this course may include a study of some advanced subject related to courses in this department. Prerequisite: Consult instructors.
- 310. Research in Design.** Credit to be arranged. Each semester and summer. Original investigation in some advanced subject related to courses in this department. This work may furnish material for the master's thesis. Prerequisite: Consult instructors.

Mechanical Engineering

LINN HELANDER, *Head of Department*

The instruction in the Department of Mechanical Engineering covers courses in thermodynamics, heat transfer, heat power engineering, air conditioning, refrigeration, and petroleum production. Additional courses closely allied to and a part of mechanical engineering are given in the departments of Machine Design and Shop Practice.

In addition to the equipment installed especially for experimental purposes, all the heating, power, ventilating, and pumping equipment of the College subserves the further purposes of experimental work.

FOR UNDERGRADUATE CREDIT

- 120. Steam and Gas Engineering C.** 2 semester hours. Each semester. Steam boilers, steam engines, steam turbines, internal combustion engines and auxiliaries. Two hours of recitation a week. Prerequisite: Phys. 102 or 105.
- 135. Air Conditioning A.** 3 semester hours. Second semester. Principles of heating, cooling, and ventilating; heat transmission; equipment used for heating, cooling, and ventilating. Three hours of recitation a

week. Primarily for students who have not had engineering thermodynamics. Prerequisite: Phys. 102 or 105.

140. Greenhouse Heating. 3 semester hours. First semester.

Air conditioning equipment and systems; fuels; heat transmission; problems applied to greenhouses. Two hours of recitation and three hours of laboratory a week. Prerequisite: Junior classification.

180. Inspection Trip. Required; no credit. First semester.

A trip of three to six days to industrial centers for the purpose of inspecting industrial plants of special interest to mechanical engineering students. Prerequisite: Senior classification.

196. Professional Development. 1 semester hour. First semester.

The social and professional aspects of engineering. One hour of recitation a week. Prerequisite: Senior classification.

FOR GRADUATE AND UNDERGRADUATE CREDIT

204. Heat-power Engineering A. 3 semester hours. Each semester.

Power-plant equipment, fuels, and combustion. Three hours of recitation a week. Prerequisite: Mech. Engg. 208 or Chem. Engg. 229.

206. Heat-power Laboratory. 1 semester hour. Each semester.

Laboratory course in heat-power equipment for nonmechanical engineering students. Three hours of laboratory a week. Prerequisite: Mech. Engg. 120, or 204, or 208; or concurrent: Mech. Engg. 204.

208. Engineering Thermodynamics. 4 semester hours. Each semester.

Laws of the conversion of heat energy into mechanical energy; properties of fluids; gases, vapors, and gas vapor mixtures; flow and nonflow processes; power generating cycles; air compression; refrigeration. Four hours of recitation a week. Prerequisite: Math. 141, Phys. 105.

220. Power-plant Design. 3 semester hours. Second semester.

Economic and thermodynamic factors in the design and selection of equipment. One hour of recitation and six hours of laboratory a week. Prerequisite: Mech. Engg. 204.

221. Refrigeration. 2 semester hours. First semester.

Thermodynamics of refrigeration; systems of refrigeration and their operation; application of refrigeration to ice making, cold storage, and the cooling of gases, liquids, and solids. Two hours of recitation a week. Prerequisite: Mech. Engg. 208.

228. Air Conditioning. 3 semester hours. Each semester.

Psychrometry; heat transmission; air-conditioning equipment and systems; design problems. Two hours of recitation and three hours of laboratory a week. Prerequisite: Mech. Engg. 208.

231. Internal Combustion Engines. 3 semester hours. Second semester.

Three hours of recitation a week. Prerequisite: Mech. Engg. 208.

232. Advanced Thermodynamics I. 3 semester hours. First semester.

Three hours of recitation a week. Prerequisite: Mech. Engg. 208.

236. Advanced Thermodynamics II. 3 semester hours. Second semester.

Continuation of Advanced Thermodynamics I. Three hours of recitation a week. Prerequisite: Mech. Engg. 232.

242. Mechanical Engineering Laboratory I. 2 semester hours. Each semester.

Laboratory course in heat-power equipment for mechanical engineering students. Six hours of laboratory a week. Prerequisite or concurrent: Mech. Engg. 204.

- 243. Mechanical Engineering Laboratory II.** 2 semester hours. Each semester.
Power-generating equipment, fans, air-conditioning equipment, internal combustion engines, steam engines, turbines, and auxiliaries. Six hours of laboratory a week. Prerequisite: Mech. Engg. 242.
- 245. Airplane Instruments.** 2 semester hours. Second semester.
Instruments and controls for the airplane. Two hours of recitation a week. Prerequisite: Elec. Engg. 102 and Mach. Des. 206.
- 246. Aeronautical Engineering Laboratory.** 2 semester hours. Second semester.
Aircraft engines, propellers, engine accessories, and instruments. Six hours of laboratory a week. Prerequisite: Mech. Engg. 206 or 242.
- 248. Aircraft Power Plants.** 2 semester hours. Second semester.
Design and performance characteristics of airplane power plants. Two hours of recitation a week. Prerequisite: Mech. Engg. 231.
- 251. Heat Transfer and Fluid Flow.** 4 semester hours. Second semester.
Particular reference to heat exchanges, air preheaters, economizers, boilers, condensers, evaporators, and similar equipment. Two hours of recitation and three hours of laboratory a week. Prerequisite: Mech. Engg. 208.
- 260. Advanced Power-plant Engineering.** Credit to be arranged. Second semester.
An advanced course in the economic problems met with in the design of power plants and in the generation of power. Selection of equipment, choice of station heat balances, generation of by-product power in industries, and interconnections between utilities and industrial plants for the economical interchange of power. Prerequisite: Mech. Engg. 220.
- 270. Petroleum Production I.** 3 semester hours. First semester.
Properties of petroleum; exploration methods, field developments; drilling; oil field hydrology; casing and well completion; and fishing tools and methods. Three hours of recitation a week. Prerequisite: Senior standing in Department of Mechanical Engineering or permission of head of department.
- 271. Petroleum Production II.** 3 semester hours. Second semester.
Principles of drainage; production methods; methods of flowing and pumping wells; secondary methods of recovery. Two hours of recitation and three hours of laboratory a week. Prerequisite: Mech. Engg. 270.
- 280. Instruments and Controls.** 2 semester hours. Second semester.
Principles of instrumentation and controls in mechanical engineering fields. Two hours of recitation a week. Prerequisite: Elec. Engg. 242, 243, Mech. Engg. 204.
- 290. Problems in Mechanical Engineering.** Credit to be arranged. Each semester.
- 295. Gas Dynamics I.** 3 semester hours. Second semester.
Properties of compressible fluids, subsonic and supersonic flow, steady and non-steady motion with emphasis on one dimensional flow. Prerequisite: Math. 170 or 201, Mech. Engg. 208, Ap. Mech. 228 or 231.

FOR GRADUATE CREDIT

- 303. Advanced Air Conditioning.** 2 semester hours. First semester.
Similar to Air Conditioning, Mech. Engg. 228, but at an advanced level. Two hours of recitation a week. Prerequisite: Mech. Engg. 228, 251.

- 305. Research in Mechanical Engineering.** Credit to be arranged. Each semester and summer.

The laboratory work is correlated with the work of the Engineering Experiment Station. Research in any field pertinent to subjects taught in the Department of Mechanical Engineering. Prerequisite: Consult instructors.

- 308. Gas Dynamics II.** 3 semester hours. Summer.

An extension of Gas Dynamics I with emphasis on two- and three-dimensional problems, shock waves, special problems in connection with combustion engines. Prerequisite: Mech. Engg. 295 and Math. 210 or the equivalent.

Shop Practice

GABE A. SELLERS, *Head of Department*

The work in the Department of Shop Practice is planned to meet the needs of two classes of students: (1) Those who are preparing for the teaching field and need a general knowledge of the principles of industrial arts work in metal and wood, of the materials and equipment used, including their control and arrangement, and of methods of handling work and students in the laboratory, together with sufficient skill in the performance of the various tool operations to be able to instruct others; and (2) those in the courses in engineering who need to secure a general knowledge of machine operations and methods used in job shops and mass-production factories, and of the economical selection and control of the materials, machinery, buildings, and personnel used in the manufacturing industries.

FOR UNDERGRADUATE CREDIT

- 102. Shop A.** 2 semester hours. Each semester and summer.
An introductory course in forging and heat treating, foundry practice and machine shop work. Six hours of laboratory a week.
- 104. Auto Mechanics I.** 4 semester hours. First semester.
A study of the automobile, its construction and maintenance. Two hours of recitation and six hours of laboratory a week.
- 110. Aero Mechanics I.** 4 semester hours. Second semester.*
A study of the airplane and its maintenance. Two hours of recitation and six hours of laboratory a week.
- 111. Refrigeration Servicing.** 4 semester hours. Second semester.
A study of the basic principles of servicing, operation, and repair of household and small commercial refrigeration units, with supplemental laboratory exercises to illustrate these principles. Two hours of recitation and six hours of laboratory a week.
- 118. Shop for Elementary Teachers.** 2 semester hours. Second semester.
Exercises and projects suitable for pupils from the primary to eighth grade. Special instruction in methods of teaching, materials, and equipment. Six hours of laboratory a week.
- 121. Woodwork I.** 2 semester hours. First semester and summer
Elementary woodwork. Six hours of laboratory a week.
- 122. Finishing I.** 2 semester hours. Second semester and summer.
A study of materials, processes, methods of applications of finishes for both wood and metal. Brush and spray equipment used. Six hours of laboratory a week. Prerequisite or concurrent: Shop 126.

* If demand exists and facilities are available.

- 126. Woodwork II.** 2 semester hours. Second semester and summer.
Continuation of Shop 121. Six hours of laboratory a week. Prerequisite: Shop 121.
- 131. Woodwork III.** 2 semester hours. First semester and summer.*
Advanced woodwork and cabinetmaking. Six hours of laboratory a week. Prerequisite: Shop 126.
- 134. Methods of Teaching Industrial Arts.** 3 semester hours. Each semester.
(See Department of Education, School of Arts and Sciences.) One hour of recitation and six hours of laboratory a week. Prerequisite or concurrent: Educ. 139 and approval of instructor.
- 135. Wood Turning.** 2 semester hours. Each semester and summer.
Practice in handling the lathe and turning tools. Six hours of laboratory a week. Prerequisite: Shop 121.
- 139. Woodwork IV.** 2 semester hours. Second semester and summer.*
An opportunity to specialize in wood finishing, carpentry work, cabinet work, or some other work of special interest to the student. Six hours of laboratory a week. Prerequisite: Shop 131.
- 147. Carpentry.** 3 semester hours. Second semester.
Rafters cutting and erection, studding and siding work, making window and door frames, hanging doors, and similar operations on full-size construction work; making out bill of material; care and upkeep of tools. One hour of recitation and six hours of laboratory a week. Prerequisite: Shop 121.
- 150. Forging and Heat Treating.** 1 semester hour. Each semester.*
(a) Forging of iron and steel; (b) production equipment as used in the commercial forge shop; (c) operation of gas, oil, and electric furnaces, and the heat treatment of steel. Two hours of laboratory and one hour of outside preparation a week. Prerequisite: Shop 102.
- 152. Heat Treating I.** 2 semester hours. Second semester.*
A continuation of the heat treating phase of Shop A with special emphasis upon the heat treatment of auto and aeroplane parts. Laboratory exercises in the heat treating of certain ferrous and nonferrous construction materials. Six hours of laboratory a week. Prerequisite: Shop 102.
- 161. Foundry I.** 1 semester hour. Each semester and summer.
(a) Bench, floor and pit molding, use of molding and core machines, operating nonferrous furnaces and cupola; (b) study of commercial foundry equipment and the operation and control of the foundry. Three hours of laboratory a week. Prerequisite: Shop 102.
- 165. Metals and Alloys.** 2 semester hours. Each semester.
The manufacture and use of iron, steel, copper, aluminum, and their alloys. Two hours of recitation a week. Prerequisite or concurrent: Chem. 108.
- 166. Welding.** 1 semester hour. Each semester and summer.
The theory and practice of fusion welding, covering gas and electric welding. Three hours of laboratory a week.
- 167. Electric Welding.** 1 semester hour. Each semester and summer.
The theory and practice of electric welding, including inspection methods. Three hours of laboratory a week. Prerequisite: Shop 166.
- 168. Gas Welding.** 1 semester hour. Each semester and summer.
The theory and practice of gas welding, including inspection methods. Three hours of laboratory a week. Prerequisite: Shop 166.

* If demand exists and facilities are available.

- 170. Machine Tool I.** 2 semester hours. Each semester and summer.
A continuation of the machine shop phase of Shop 102. Six hours of laboratory a week. Prerequisite: Shop 102.
- 173. Sheet Metal I.** 2 semester hours. First semester and summer.
Covers developments, the use of templates, practice in soldering, folding, wiring, flanging, seaming, rolling, and the more common operations on sheet metal. Six hours of laboratory a week. Prerequisite: Mach. Des. 101 or equivalent.
- 174. Safety.** 2 semester hours. Second semester.
Fundamentals of accident analysis and prevention. One hour of recitation and three hours of laboratory a week.
- 176. Sheet Metal II.** 2 semester hours. Second semester.*
A continuation of Shop 173, with welding of sheet metal. Six hours of laboratory a week. Prerequisite: Shop 167, 168.
- 180. Gaging.** 1 semester hour. Each semester.
Systems of measurements and the uses of various types of gages and devices for checking industrial products. Three hours of laboratory a week. Prerequisite: Shop 102.
- 181. Inspection.** 2 semester hours. Second semester.*
Tools, instruments, and equipment used in the inspection of materials commonly used in production plants and in maintenance of equipment. Specifications and related information. Six hours of laboratory a week.
- 191. Pattern Making.** 2 semester hours. First semester.*
A series of exercises embodying the principles and practice of plain and split pattern, including core prints and core boxes. A limited number of actual patterns are also made. Six hours of laboratory a week.
- 192. Machine Tool II.** 2 semester hours. Each semester and summer.
Progressive problems in turning, boring, reaming, taper turning, threading on the lathe, in chucking, use of forming tools, gearing cutting; study of cutting edges and tool adjustment best suited to the different metals, cutting speeds and feeds. Six hours of laboratory a week. Prerequisite: Shop 170.
- 193. Machine Tool III.** 1 semester hour. Each semester and summer.*
Work on the turret lathe, boring mill, hand and automatic screw machines and grinders; practical work with jigs and fixtures and a study of rapid production of duplicate parts. Three hours of laboratory a week. Prerequisite: Shop 192.
- 194. Inspection Trip.** Required; no credit. First semester.
A trip of three to six days to industrial centers for inspection of establishments of special interest to industrial art students. Prerequisite: Senior classification.
- 195. Thesis.** Credit to be arranged. Each semester.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 246. Industrial Management.** 3 semester hours. First semester.
Problems of the industrial executive, such as plant location, selection and arrangement of buildings and equipment, production, planning and control, simplification and standardization, time and motion study, job and methods of standardization, control of inventory and costs. Three hours of recitation a week. Prerequisite: Shop 102 and junior standing.

* If demand exists and facilities are available.

- 248. Production Control.** 2 semester hours. First semester.
The organization for industrial control, control planning, control systems, work routing, scheduling, dispatching, materials control, and related topics. Two hours of recitation a week. Prerequisite: Shop 246.
- 250. Time and Motion.** 2 semester hours. Second semester.
The principles and practice of time and micro-motion analysis of work in the shop for the purpose of setting standards of performance and of improving methods of production. One hour of recitation and three hours of laboratory a week. Prerequisite or concurrent: Shop 170 and junior standing in engineering or industrial arts.
- 252. Product Cost Estimating.** 3 semester hours. Second semester.
Estimating techniques for tool and equipment costs, production rates, production costs, cost ratios, establishment of basic time charts, and related topics. Three hours of recitation a week. Prerequisite: Shop 246.
- 255. Factory Design.** 2 semester hours. Second semester.
Knowledge gained in shops and laboratories and in Shop 246 is used in the design of a factory. Six hours of laboratory a week. Prerequisite: Shop 246.
- 261. Advanced Shop Practice.** Credit to be arranged. Each semester and summer.
Opportunity is offered to specialize to a limited degree along certain lines such as heat treatment of steel, oxyacetylene and arc welding, jig fixtures and die work, metallography, pattern making, and any shop work that may be of special interest to the student. All assignments must be approved by the Head of the Department of Shop Practice. Prerequisite: Consult instructor.
- 262. Metallography I.** 1 semester hour. Each semester.
The microscopic constituents of the different grades of iron and steel; changes in the structure and properties as produced by heat treatment, mechanical working and composition. Three hours of laboratory a week. Prerequisite or concurrent: Shop 165.
- 263. Physical Metallurgy.** 2 semester hours. Second semester and summer.
An advanced study of the structure, properties, and uses of the more common metals and alloys involving heat and mechanical treatment and casting. Two hours of recitation a week. Prerequisite: Shop 262.
- 264. Aircraft Materials and Fabrication.** 3 semester hours. First semester.
Materials and methods employed in fabricating airplanes. One hour of recitation and six hours of laboratory a week. Prerequisite or concurrent: Ap. Mech. 202, Shop 165, 262.
- 265. Metallography II.** 2 semester hours. Each semester and summer.
A continuation of Shop 262, nonferrous metals, with special attention to photomicrographic analysis. Six hours of laboratory a week. Prerequisite: Shop 262.
- 274. General Shop Organization.** 3 semester hours. Second semester and summer.*
A course covering the organization, methods of teaching, and equipment for the general shop. One hour of recitation and six hours of laboratory a week. Prerequisite: Shop 102, 147, 157, 166, 173.
- 286. Shop Practice Teaching.** Credit to be arranged. Each semester and summer.
Actual laboratory teaching experience under the supervision of an instructor. Work covers the outlining, preparation, and presentation of as-

* If demand exists and facilities are available.

signments and the supervision of the work; procurement of materials and equipment, shop layouts and upkeep, and general consideration. Insofar as possible the course is adapted to the particular needs of the student. All assignments must be approved by the Head of the Department of Shop Practice. Prerequisite: Consult instructor.

FOR GRADUATE CREDIT

301. Research in Shop Practice. Credit to be arranged. Each semester and summer.

Investigations of interest to the individual student. May be used as the basis of the master's thesis, and is usually correlated with the work of the Engineering Experiment Station. Prerequisite: Consult instructors.

The Engineering Experiment Station

MERRILL AUGUSTUS DURLAND, *Director*

LELAND S. HOBSON, *Assistant Director and Industrial Engineer*

The Engineering Experiment Station was established March 24, 1910, by the Board of Regents for the purpose of carrying on tests and research work of engineering and manufacturing value to the state of Kansas, and of collecting, preparing, and presenting technical information in a form readily available for the use of the industries and the people of the state. All the work of the Experiment Station is intended to be of direct importance to Kansas.

All the equipment of the engineering and scientific laboratories and shops are available for the work, while the personnel of the station consists of members of the teaching staff from the departments of the School of Engineering and Architecture and from other scientific departments whose work is directly related to the work of this school, and other persons employed especially for the work of the station.

The Engineering Experiment Station conducts projects in both fundamental and applied research. Many of the researches on specific problems are supported in whole or in part by funds from industrial or commercial organizations, or by various agencies of the federal and state government. Companies interested in utilizing the services and facilities of the Engineering Experiment Station are invited to communicate with the director.

Among the investigations now being carried on are: Study of Portland cements; stabilization of soil particles in asphalts; Kansas airport problems; deterioration of concrete; farm refrigeration; agricultural machinery design; early Kansas church architecture; irrigation engineering practice in Kansas; equipment for weed control; the farm shop; visual aids for instruction in drawing; starch production from sorghum grains; electrolytic polishing and etching of metals; television broadcasting; radiant heating and cooling; projection of heated and cooled air streams; condition of highway concrete pavements as affected by component materials; a study of causes of surface tension and swelling pressure as a means of improvement of concrete; processing of magnesium base alloys; production of mashed potato powder; concrete materials for Missouri River Basin dams; design of rigid airport pavements; stresses in continuous span bridges under moving loads; utilization of liquefied gases; and heat-pump studies; physical-chemical studies on the stabilization of highway materials; radio-active salts in studying the migration of salts in Portland cement; and fundamental studies in flash drying.

As an additional service to Kansas industries, two consultants in the field of industrial management have been employed by the Engineering Experiment Station. Their services are available to all industries of the state.

The testing laboratories of this station have been made available by law for the use of the State Highway Commission and the state highway engineer, and the road materials for use in state road construction are tested in these laboratories.

Some of the results of the investigations are published as bulletins of the Engineering Experiment Station, which are sent free to any citizen of the state upon request. Sixty-four such bulletins have been published. Besides issuing these bulletins, the station answers yearly many hundreds of requests for information upon matters coming within its field.

Requests for bulletins and general correspondence should be addressed to Engineering Experiment Station, Manhattan, Kan. Requests for information in specific matters should be addressed, as far as possible, to the heads of departments in whose fields the particular matters lie.

The School of Home Economics

MARGARET M. JUSTIN, *Dean*

MARTHA M. KRAMER, *Assistant Dean*

MARGARET E. RAFFINGTON, *Assistant to the Dean*

The program in home economics is directed toward two major objectives. The first of these is that of making a worthy and significant contribution to the general education of the student through a sequence of courses required of all and sometimes designated as "the core curriculum" or "the curriculum provisions for common learnings." These courses have for their goal helping the student become a well-adjusted person, who understands and employs health practices that provide maximum physical and mental fitness for herself and for others, and who has a philosophy for personal, family, and community living that is both sound and satisfying. They are further directed toward helping her develop sane and creative attitudes toward social problems, to use personal, family and community resources effectively, and to appreciate the aesthetic in daily living. With such a background, with guidance, the student is helped to choose a vocation in home economics for which she is suited and in which she is interested. The second major objective, then, is that of providing effective preparation for the student to enter and advance in one of the various professions in home economics with assurance and competence.

The curriculums as outlined below are flexible enough to meet the needs of those who plan to enter their own home, those who wish to teach, engage in social welfare, enter some aspect of the business field, engage in dietetics or institutional management, become nurses or technicians, and those who wish to prepare for graduate study in phases of home economics. Three curriculums in this School lead to the degree Bachelor of Science in Home Economics, the fourth leads to the degree Bachelor of Science in Home Economics and Journalism, and the five-year curriculum leads to the degree Bachelor of Science in Home Economics and Nursing.

Many students who feel sure their interest is in home economics are at a loss on entering college to know which curriculum to choose. Hence, guidance plans are included in the home economics program to help the student determine the special phase in which her individual interests and abilities may best function. In order that vocational choices may be made without loss, the courses for the first two years have been so selected that transfer from one curriculum to another, within the School of Home Economics, may be managed with a minimum of inconvenience. However, it is well to note that for those considering dietetics, nursing, or research and technical work in foods, nutrition, medicine, and textiles as possible vocational choices, the freshman science should be chemistry, and the sophomore science should usually include zoology and physiology.

Curriculum in Home Economics

This curriculum is to be followed by those who wish to have a broad, well-grounded program in home economics, those who plan to teach or to enter the home demonstration service, and those who have not yet determined the special fields in which they wish to major. There is opportunity for inclusion of the courses required for a teacher's certificate or for preparation for other phases of work through the elective hours available in the junior and senior years. Groups of electives are chosen during the first semester, sophomore year, in conference with staff members.

Curriculum in Home Economics, with Provision for Specialization

This curriculum is offered for students wishing specialization in one or another of the newer areas of interest in home economics. The student selects groups of courses as indicated by her own aptitudes and inclinations. She may thus plan for specialization in art, child development and guidance, clothing, household management, and the like. She may prepare for home economics in business or for technical work and research in equipment, textiles, foods, nutrition, or medicine.

Curriculum in Dietetics and Institutional Management

This curriculum is designed to meet the needs of students who wish to become dietitians or directors of food services in college residence halls, school lunch rooms, cafeterias, tea rooms, restaurants, or hotels. After graduation, students usually accept appointments to internships accredited by the American Dietetic Association to which satisfactory completion of the year's training makes them eligible for membership. A similar plan for internships is available through the American Restaurant Association.

Curriculum in Home Economics and Journalism

This curriculum is much like that with Provision for Specialization, but includes courses in the Department of Technical Journalism, sufficient to make a major sequence. The student acquires insight into the whole field of home economics, and in the sophomore year chooses electives in some one area. This means that she comes to understand journalism as related to home economics, and in addition is thoroughly prepared to handle material in her chosen area, such as foods, child guidance, interior decoration and housing, or costume and design.

Curriculum in Home Economics and Nursing

The five-year curriculum is offered in affiliation with the University of Kansas Medical Center. The first two and one-half years are spent at Kansas State College. The remaining two and one-half years, including a summer term between the sophomore and junior years, are spent at the University of Kansas Medical Center School of Nursing where theoretical instruction and clinical experience in nursing are given. Upon completion of the work at the hospitals, the student presents her application for graduation to the registrar at Kansas State College.

Home Economics in the Summer School

In addition to the regular instruction in home economics, the School offers numerous courses in the Summer School. These courses apply directly on the curriculums in Home Economics, or on graduate credit.

Full information concerning the courses offered is contained in the Summer School Catalogue of the Kansas State College *Bulletin*, which may be obtained upon application to the Director of Admissions of the College.

All new students at the freshman level in the School of Home Economics are required at the time of entrance to take a proficiency test in mathematics. Those enrolled in the Curriculum in Home Economics or the Curriculum in Dietetics and Institutional Management who fail the test, will be required to take the three-hour course, Mathematics in Human Affairs, in freshman year. Advanced credit in college mathematics exempts students from the course, Mathematics in Human Affairs.

† Or substitute, such as Zoology, Physiology.

‡ One comprehensive may be deferred to junior year.

Graduate nurses, who are graduates of schools of nursing recommended by the Director of Nursing Education, Kansas State College, may be allowed thirty hours of credit toward the degree Bachelor of Science in Home Economics (with specialization in nursing). In the ninety hours of work remaining for the degree, at Kansas State College, candidates must include those courses listed in the Curriculum in Home Economics with Provision for Specialization.

An Example of Specialization for Interior Decoration

An example of an application of the Curriculum in Home Economics with Provision for Specialization in a given area is shown by this presentation of the courses to be taken.

Number of semester hours required for graduation, 77, plus two and one-half years of acceptable work at the University of Kansas Medical Center, which includes a summer term (8 weeks) on the conclusion of the sophomore year at Kansas State College. The program at the University of Kansas Medical Center includes study in the following fields:

THEORETICAL WORK

- Professional Adjustments I and II
- Nursing Arts I and II
- History of Nursing
- Pathology
- Medical and Surgical Nursing
- Diet Therapy
- Obstetrical Nursing
- Pediatric Nursing
- Public Health Nursing
- Psychiatric Nursing
- Medical Specialties
- Surgical Specialties
- Ward Admn. Teaching
- Principles of Teaching

CLINICAL PRACTICE

- Medicine
- Surgery (including operating room)
- Pediatrics
- Nursery
- Obstetrics
- Dispensary
- Tuberculosis
- Public Health
- Psychiatry

(For graduation in 1953 or thereafter.)

Groups of Electives Suggested for Students, School of Home Economics

Lists of courses suggested below have been compiled with the idea of providing for professional competence in areas where home economics functions. Other combinations may be worked out to meet the needs of the individual. Choice of electives is made in conference with a faculty adviser, and is subject to approval by the Dean of the School of Home Economics.

EDUCATIONAL WORK

1. Teaching Home Economics in High Schools

The student who wishes to obtain the degree Bachelor of Science and to prepare for the teaching of home economics in Kansas high schools, should choose the Curriculum in Home Economics. Electives are selected with the advice of a professor in Home Economics Education and the approval of the Dean of the School of Home Economics. Electives must include courses considered essential in preparing for teaching high school home economics, as follows:

COURSES IN EDUCATION AND PSYCHOLOGY	COURSES IN HOME ECONOMICS
General Psychology, Psych. 184 3	Design in Crafts I, Art 183 2
Educational Psychology, Educ. 109 3	Child Guidance I, Ch. Welf. 201 3
Psych. of Childhood and Adol., Psych. 250 3	Home Management, Hhld. Econ. 240 . . . 3
Principles of Sec. Educ., Educ. 139 3	Advanced Dress Design, Clo. Text. 211, 3
Methods of Teaching Home Econ., Educ. 132 3	<i>or</i>
Tchg. Partic. in Home Econ., Educ. 159, †3	Principles of Tailoring, Clo. Text. 214 . . 3
Vocational Home Econ. Cur., Educ. 233, 3	School Food Service, Inst. Mgmt. 221 . . 3

Completion of the requirements of the Curriculum in Home Economics, including courses listed above, entitles the individual to the renewable three-year certificate issued by the State Board of Education, and to approval for teaching in a reimbursed high school home economics department, often called a vocational homemaking department.

2. Teaching Art in High Schools

The student who desires to obtain the degree of Bachelor of Science with a major in art and desires to qualify for the renewable three-year Kansas state teacher's certificate which is valid for three years in any high school in the state, should enroll in the Curriculum in Home Economics with Provision for Specialization, and elect certain courses in the Department of Education and Psychology and certain courses in the Department of Art. These are:

COURSES IN EDUCATION AND PSYCHOLOGY	COURSES IN ART
General Psychology, Psych. 184 3	Elem. Design II, Art 152 2
Educational Psychology, Educ. 109 3	Intermeditae Design, Art 154 2
Methods of Teaching Home Econ., Educ. 132 3	Advanced Design, Art 205 2
Vocational Home Econ. Curriculum, Educ. 233 3	Lettering, Art 156 2
Tchg. Partic. in Home Econ., Educ. 159 or Tchg. Partic. in High School, Educ. 163 3	Drawing I, Art 178 2
And two other 3-sem. hour courses in Education	Drawing II, Art 180 2
	Drawing III, Art 215 2
	Design in Crafts I, Art 183 2
	Design in Crafts II, Art 185 2
	Metal Crafts, Art 193 2
	Puppetry, Art 195 3
	Weaving I, Art 189 2
	Pottery Design, Art 187 2
	Principles of Art I, Art 201 3
	Principles of Art II, Art 202 3
	Problems in Tchg. Art, Art 230 2

† Each student completes a home project previous to taking this course. The project adviser, who has assisted with the planning of the project, must report a project grade before credit for this course can be sent to the College Registrar for the permanent records.

3. Child Welfare and Nursery School Teaching

The following courses of study are suggested for students interested in professional and vocational work in child development and family relationships. A fifth year of specialization is usually necessary for professional placement.

Child Guidance II, Ch. Welf. 203.....	3	Puppetry, Art 195.....	3
Development and Guidance of Youth, Ch. Welf. 204.....	3	Children's Readings, Engl. 252.....	3
Seminar in Child Development, Ch. Welf. 245.....	2	Problems in Ch. Welf. and Euth., Ch. Welf. 221.....	1 to 3
Family Relationships, Ch. Welf. 218...	2	Nutrition of Develop., Fds. Nutr. 216...	2
The Family, Ch. Welf. 220.....	3	Home Management, Hhld. Econ. 240...	3
Seminar in the Family, Ch. Welf. 246..	2	Mental Hygiene and Personality Adjustment, Psych. 272.....	3
Parent Education, Ch. Welf. 303.....	2	Prin. and Technics of Counseling, Psych. 271.....	3
Nursery School Procedures, Ch. Welf. 205.....	3	Psych. of Childhood and Adoles., Psych. 250.....	3
Nursery School Administration, Ch. Welf. 305.....	2	Psych. of Exceptional Children, Psych. 266.....	3
Literature and Music for the Pre- school Child, Ch. Welf. 207.....	3	Abnormal Psychology, Psych. 254.....	3
Play Act. and Materials, Ch. Welf. 208,	3	Social Psychology, Psych. 270.....	3

4. Child Welfare with Community Services

Child Guidance I, Ch. Welf. 201.....	3	Mental Hygiene, Psych. 272.....	3
Child Guidance II, Ch. Welf. 203.....	3	Sociology, Soc. 151.....	3
Family Relationships, Ch. Welf. 218...	2	Social Pathology, Soc. 258.....	3
The Family, Ch. Welf. 220.....	3	Com. Org. and Leadership, Soc. 267...	3
Family Health, Ch. Welf. 211.....	3	Democracy and Education, Cit. 205...	3
Seminar in Child Develop., Ch. Welf. 245.....	2	General Psychology, Psych. 184.....	3
Seminar in the Family, Ch. Welf. 246,	2	Psych. of Childhood and Adoles., Psych. 250.....	3
Parent Education, Ch. Welf. 303.....	2	Abnormal Psychology, Psych. 254.....	3
Home Management, Hhld. Econ. 240...	3	Social Psychology, Psych. 270.....	3
Economic Problems of the Family, Hhld. Econ. 265.....	2	Psych. of Exceptional Children, Psych. 266.....	3
Prin. and Technics of Counseling, Psych. 271.....	3		

5. Home Demonstration Work

Students interested in becoming home demonstration agents should enroll in the Curriculum in Home Economics. They should plan for summer experience as junior assistants before the beginning of senior year, to observe and gain experience under supervision in the home economics extension program. After graduation, apprenticeship for at least two months as an assistant home demonstration agent may precede appointment to a county position. Electives are selected with the advice of the State Home Demonstration Leader and the approval of the Dean of the School of Home Economics. Electives should include courses from the following list:

Ext. Orgn. and Policies, Educ. 214....	3	Vegetable Gardening, Hort. 133.....	3
Ext. Methods for Home Economists, Educ. 216.....	3	Gen. Econ. Entomology, Ent. 107.....	3
Home Management, Hhld. Econ. 240..	3	Radio Speech I, Radio 165.....	2
Prin. in Tailoring, Clo. Text. 214.....	3	Reporting I, Tech. Journ. 146.....	3
General Psychology, Psych. 184.....	3	Recreational Leadership W, Phys. Educ. 191.....	2
Child Guidance I, Ch. Welf. 201.....	3	Rural Sociology, Ag. Econ. 156.....	3
Consumers and the Market, Hhld. Econ. 272.....	3	Freedom & Responsibility I, Cit. 110..	3
Household Equipment, Hhld. Econ. 105,	2	Freedom & Responsibility II, Cit. 111..	3
Meats, H. E., An. Husb. 176.....	1	Children's Readings, Engl. 252.....	3
Design in the Crafts I, Art 183.....	2	Cultural Reading, Engl. 255.....	3
Landscape Gardening, Hort. 125.....	3	Home Furnishing, Art. 173.....	2

RESEARCH AND TECHNICAL WORK

Students desiring to major in food or nutrition research should choose the Curriculum in Home Economics, with Provision for Specialization, selecting the alternates for Man's Physical World I and II. Chemistry I, 5 hours, should be substituted for General Chemistry, 5 hours, and Organic Chemistry I, 5 hours, for General Organic Chemistry, 5 hours. Electives should be selected from the courses listed below:

1. Food

Foods II, Fds. Nutr. 107	3	Meats, H. E., An. Husb. 176	1
Chemistry II, Chem. 103, 104	5	Dietetics, Fds. Nutr. 150	3
Organic Chemistry II, Chem. 224	5	Experimental Cookery, Fds. Nutr. 217	3
Quant. Analysis, Chem. 215A	4	Problems in Foods, Fds. Nutr. 257	2
Gen. Biochemistry, Chem. 240	5	Food Technology, Chem. 259	3
College Algebra, Math. 112	3	Food Analysis, Chem. 221A	3
Elements of Statistics, Math. 164	3	Experimental Baking I, Mill. Ind. 215	3
Plane Trigonometry, Math. 101	3	Seminar in Foods, Fds. Nutr. 253	2
Household Physics, Phys. 109	4	Adv. Foods I, Fds. Nutr. 270	3
Philosophy of Science I, Hist. 142	3	Human Nutrition, Fds. Nutr. 212	3

2. Nutrition

Foods II, Fds. Nutr. 107	3	Advanced Nutrition, Fds. Nutr. 261	3
Chemistry II, Chem. 103, 104	5	Nutr. of Development, Fds. Nutr. 216	2
Organic Chemistry II, Chem. 224	5	Field Work in Nutr., Fds. Nutr. 215	3
Gen. Biochemistry, Chem. 240	5	College Algebra, Math. 112	3
Biochemistry Analysis, Chem. 248	2	Plane Trigonometry, Math. 101	3
Quant. Analysis, Chem. 215A	4	Elements of Statistics, Math. 164	3
General Zoology, Zool. 105	5	General Microbiology, Bact. 101	3
Human Physiology, Zool. 221	4	Bacteriological Technic, Bact. 225	3
Dietetics, Fds. Nutr. 150	3	General Physics I, Phys. 102	4
Human Nutr., Fds. Nutr. 212	3	General Physics II, Phys. 103	4
Problems in Nutrition, Fds. Nutr. 258	2	Philosophy of Science I, Hist. 142	3
Seminar in Nutrition, Fds. Nutr. 254	2		

3. Medical Technology

Students desiring to become medical technicians should choose the Curriculum in Home Economics with Provision for Specialization, selecting the alternates for Man's Physical World I and II and omitting Biology in Relation to Man I and II. Chemistry I, 5 hours, should be substituted for General Chemistry. Electives should include the courses listed below which are approved by the Registry of Medical Technologists:

Foods II, Fds. Nutr. 107	3	Human Nutr., Fds. Nutr. 212	3
General Zoology, Zool. 105	5	General Physics I, Phys. 102	4
Human Physiology, Zool. 221	4	General Physics II, Phys. 103	4
Chemistry II, Chem. 103, 104	5	General Microbiology, Bact. 101	3
Gen. Biochemistry, Chem. 240	5	Bact. of Human Diseases, Bact. 206	5
Quant. Analysis, Chem. 215A	4	Immunology, Bact. 229	5
College Algebra, Math. 112	3	Bacteriological Technic, Bact. 225	3
Plane Trigonometry, Math. 101	3	Zoological Technic, Zool. 206	2
Dietetics, Fds. Nutr. 150	3		

4. Textile

General Chemistry, Chem. 110	5	Marketing, Econ. 246	3
General Organic Chemistry, Chem. 122	5	Plane Trigonometry, Math. 101	3
Chemistry II, Rec., Chem. 103	3	College Algebra, Math. 112	3
Chemistry II, Lab., Chem. 104	2	Plane Analytic Geometry, Math. 120	4
Quantitative Analysis, Chem. 215A	4	Calculus I, Math. 140	4
Physical Chemistry I, Chem. 260A	3	Calculus II, Math. 141	4
and B	5	Elementary Statistics, Math. 164	3
Colloid Chemistry, Chem. 268A	3	General Microbiology, Bact. 101	3
Chemical Microscopy, Chem. 285A	2	Statistical Methods I, Math. 261	3
Clothing Economics, Clo. Text. 201	3	Statistical Methods II, Math. 262	3
Advanced Textiles, Clo. Text. 205	3	General Physics I, Phys. 102	4
Experimental Textiles, Clo. Text. 255	2	General Physics II, Phys. 103	4

HOME ECONOMICS IN BUSINESS

1. Clothing Retailing

Mathematics in Human Affairs, Math. 103	3	Psychology of Adv. and Selling, Psych. 265	3
Interior Decoration II, Art 171	2	Social Psychology, Psych. 270	3
Costume Design II, Art 167	3	Commercial Correspondence, Engl. 122, 3	3
Drawing I, Art 178	2	Advanced Grammar, Engl. 243	3
Historic Textile Design, Art 234	3	Oral English, Engl. 232	3
Clothing Economics, Clo. Text. 201	3	World Cultures I, Hist. 209	3
Intermediate Textiles, Clo. Text. 204	2	Reporting I, Tech. Jour. 146	3

3. Food Demonstrating

Students desiring to become food demonstrators in the commercial field should choose the Curriculum in Home Economics, with Provision for Specialization, selecting the alternates for Man's Physical World I and II. Electives should be selected from the courses listed below:

Mathematics in Human Affairs, Math. 103	3	Problems in Foods, Fds. Nutr. 257	1
General Psychology, Psych. 184	3	Quantity Food Preparation I, Inst. Mgmt. 107	2
Household Physics, Phys. 109	4	Home Management, Hhld. Econ. 240	3
Household Equipment, Hhld. Econ. 105, 2	2	Oral Communications II, Sp. 108	2
Adv. Household Equipment, Hhld. Econ. 274	3	Reporting I, Tech. Jour. 146	3
Foods II, Fds. Nutr. 107	3	Reporting II, Tech. Journ. 147	3
Dietetics, Fds. Nutr. 150	3	The Woman's Page, Tech. Jour. 267	3
Human Nutr., Fds. Nutr. 212	3	Radio Speech, Radio 165	2
Food Demonstration Techniques, Fds. Nutr. 185	2	Radio Writing, Radio 167	3
Experimental Cookery, Fds. Nutr. 217, 3	3	Radio Program Partic., Radio 168	1
Field Work in Nutrition, Fds. Nutr. 215, 3	3	Floral Arrangement I, Hort. 135	2
Seminar in Foods, Fds. Nutr. 253	2	Methods of Teaching Home Economics, Educ. 132	3
		Meats, H. E., An. Husb. 176	1

4. Art and Costume Designing

Lettering, Art 156	2	Problems in Costume Design, Art 235	2

Pottery Design, Art 187	2	Photography, Phys. 151	2
Home Furnishing, Art 173	2		

6. Household Economics: Home, Equipment, or Budget Adviser

Students interested in this area should choose the Curriculum in Home Economics, with Provision for Specialization. Students interested in becoming home or equipment advisers should substitute Chemistry I and Household Physics for Man's Physical World I and II. Students interested in becoming budget advisers should substitute Economics I, Sociology, and one other course for Man and the Social World I and II.

Twenty to twenty-five semester hours, which approximates 50 percent of the elective hours, should be chosen from the courses listed below:

Household Equipment, Hhld. Econ. 105	2	Family Health, Ch. Welf. 211*	3
Advanced Household Equipment, Hhld. Econ. 274	3	Family Relationships, Ch. Welf. 218*	2
Home Management, Hhld. Econ. 240	3	Child Guidance I, Ch. Welf. 201	3
Consumer and the Market, Hhld. Econ. 272	3	Methods of Teaching Home Economics, Educ. 132	3
Economic Problems of the Family, Hhld. Econ. 265	2	Reporting I, Tech. Jour. 146	3
Problems in Household Economics, Hhld. Econ. 243	2 to 4	The Woman's Page, Tech. Jour. 267	3
Experimental Cookery, Fds. Nutr. 217	3	Radio Speech, Radio 165	2
Fundamentals of Demonstration, Fds. Nutr. 185	2	Radio Continuity, Radio 167	3
		Building Materials and Construction, Arch. 187a	3
		Landscape Gardening, Hort. 125	3

GENERAL

1. Homemaking

Child Guidance I, Ch. Welf. 201	3	Meats, H. E., An. Husb. 176	1
Com. Org. and Lead., Soc. 267	3	Psychology of Childhood and Adolescence, Psych. 250	3
Problems in Foods, Fds. Nutr. 257	1	Economic Problems of the Family, Hhld. Econ. 265	2
Home Management, Hhld. Econ. 240	3	Food and Sanitary Bacteriology, Bact. 248	5
Nutr. of Development, Fds. Nutr. 216	2	Advanced Dress Design, Clo. Text. 211	3
Consumers and the Market, Hhld. Econ. 272	3		
Child Guidance II, Ch. Welf. 203	3		
Principles of Art I, Art 201	3		

2. Citizenship and Public Service

Women are becoming increasingly active in civic affairs and public life, and many of the vocational opportunities for home economics graduates are found in public agencies. This option is designed for students who wish to prepare themselves for a more active and intelligent role in the affairs of their community, and for students who may enter public service. Citizenship 110 and 111, Freedom and Responsibility, should be taken first in all cases and in the freshman year if possible. Both Citizenship 110 and 111 and Citizenship 101 and 102, Constitutional Democracy in America, are required. An additional 9 or 10 hours will be elected from the courses in the following list:

Democracy and Education, Cit. 205	3	War, Peace, and the World Community, Cit. 225	3
Democracy, Justice, and the Law, Cit. 215	3	Effective Citizenship, Cit. 235	2
Political Economy and the Democratic State, Cit. 220	3		

* Whichever was not taken in the basic curriculum.

Art

DOROTHY BARFOOT, *Head of Department*

Specialization in art is designed to provide a background for homemaking or other professional work. Depending upon their interests, the undergraduate students may specialize in design, interior decoration, costume design, or teaching of art. Major work leading to the degree Master of Science is offered in costume design and interior decoration and related phases of the department's work.

FOR UNDERGRADUATE CREDIT

- 150. Elementary Design I.** 2 semester hours. Each semester and summer.
An introduction to the arts and application of their principles to daily living. One hour of recitation and three hours of laboratory a week.
- 152. Elementary Design II.** 2 semester hours. Each semester and summer.
Theory of design and color continued and a practical application of it made to functional items in the home. Prerequisite: Art 150.
- 154. Intermediate Design.** 2 semester hours. First semester.
Theory of color and design. Special emphasis on abstractions and non-subjective motifs and their influence in modern design. Prerequisite: Art 152.
- 156. Lettering.** 2 semester hours. First semester.
Creative design in the field of lettering in relation to historic and modern forms. Prerequisite: Art 150.
- 159. Elementary School Art.** 2 semester hours. Summer.
A course in color and form with methods and materials for teaching art at different grade levels in the elementary schools. This course is not to be substituted for Elementary Design I. Staff.
- 161. Crafts for Elementary School Teachers.** 2 semester hours. Summer.
A course in crafts emphasizing design with methods and materials for different grade levels in the elementary schools. This course is not to be substituted for Design in the Crafts I or II. Prerequisite: Art 159.
- 163. Costume Design I.** 2 semester hours. Each semester and summer.
Line, form, color, texture in costume design and selection as related to the requirements of the individual. This course is a design basis for garment selection and construction. One hour of recitation and three hours of laboratory a week. Prerequisite: Art 150.
- 167. Costume Design II.** 3 semester hours. First semester.
Creative designing for the fashion figure. Nine hours of laboratory a week. Prerequisite: Art 163, 178.
- 168. Interior Decoration I.** 2 semester hours. Each semester and summer.
The design and furnishing of the modern interior. One hour of recitation and three hours of laboratory. Prerequisite: Art 150.
- 171. Interior Decoration II.** 2 semester hours. First semester.
Interior design in its relation to house types, period furniture and fabrics. Prerequisite: Art 168, 178 or consent of instructor.
- 172. Contemporary Homes.** 3 semester hours. Each semester and/or summer.
The design of the contemporary home as an art expression of the family in relation to everyday living. 3 recitation periods a week. Prerequisite: Art 150 or equivalent.
- 173. Home Furnishing.** 2 semester hours. Each semester or summer.
Refinishing and restyling furniture; designing and executing draperies, slip-covers, and lamp shades. Prerequisite: Art 168.

- 175. Window Display.** 3 semester hours. Each semester or summer.
Three dimensional designing. Experiments in a variety of materials such as paper sculpture, wire mesh, papier-maché, and plastics. Practical experience is gained through the co-operation of local stores. Prerequisite: Art 205, 180, and senior standing.
- 178. Drawing I.** 2 semester hours. Each semester or summer.
Representative and creative sketching in which a variety of media and techniques is employed. Prerequisite: Art 150.
- 180. Drawing II.** 2 semester hours. First or second semester.
Creative work in oils, water colors, pen and ink, and lithograph crayon. The student works both in the studio and outdoors. Prerequisite: Art 178 and junior standing.
- 183. Design in the Crafts I.** 2 semester hours. Each semester and summer.
Basic craft experiences with various methods and techniques such as leatherwork, wood carving, decorative stitchery, cord knotting, glass etching, batik, and tie-dye. Prerequisite: Art 150 or consent of instructor.
- 185. Design in the Crafts II.** 2 semester hours. Second semester or summer.
Further experience in the basic principles and techniques of crafts with special emphasis on plastics, bookbinding, and new materials. Prerequisite: Art 150 and junior standing.
- 187. Pottery Design.** 2 semester hours. Each semester or summer.
Creative design in the production of pottery, its formation, firing, and decoration. Prerequisite: Art 150 or permission of instructor.
- 189. Weaving I.** 2 semester hours. Each semester or summer.
A study of the principles of design, color and texture applied to textile construction. Prerequisite: Art 150 or consent of instructor.
- 191. Weaving II.** 2 semester hours. Each semester and summer.
Experimentation with emphasis on original woven designs. Prerequisite: Art 189.
- 193. Metal Crafts.** 2 semester hours. Second semester or summer.
Basic principles and techniques of metal work and jewelry. Prerequisite: Art 183.
- 195. Puppetry.** 3 semester hours. Each semester or summer.
Creating both hand puppets and marionettes. Puppet shows are produced at the end of the course. Prerequisite: Art 150.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Principles of Art I.** 3 semester hours. First semester or summer.
The culture of various peoples and their homes as shown by their use of color, line, and form in architecture and sculpture. Prerequisite: Art 150.
- 202. Principles of Art II.** 3 semester hours. Second semester or summer.
The culture of various peoples as expressed in historic painting. Prerequisite: Art 201.
- 205. Advanced Design.** 2 semester hours. Second semester or summer.
Special emphasis on art structure. Designs for textiles using modern commercial repeats. Prerequisite: Art 154.
- 210. Costume Design III.** 2 semester hours. Second semester.
Design and drawing of the costumed figure with reference to historic and modern dress styles. Prerequisite: Art 167, 180.
- 212. Costume Illustration.** 2 semester hours. Second semester or summer.
Costume figures for fashion illustration rendered in various media suitable for reproduction. Prerequisite: Art 210.

- 215. Drawing III.** 2 semester hours. Each semester and summer.
Creative work in water color, silk screen printing, oil and lithograph crayon. Prerequisite: Art 180.
- 217. Problems in Design.** Credit to be arranged. Each semester or summer.
Problems in design planned to meet the particular needs of the student. Prerequisite: Ten credit hours in art or consent of instructor and senior standing.
- 230. Problems in Teaching Art.** Credit to be arranged. Each semester or summer.
For the high school teacher who is correlating art with home economics, particularly for the teacher of art connected with the vocational home economics program. Lectures and class discussions of methods, consideration of suitable laboratory equipment, use of illustrative material, and preparation of course of study. Prerequisite: Art 152, Educ. 132 or equivalent; twelve credit hours in Art.
- 231. Interior Decoration III.** 2 semester hours. Second semester.
Originality, functionalism, and beauty in the styling of interiors is stressed. Prerequisite: Art 171.
- 232. Problems in Interior Decoration.** Credit to be arranged. Each semester or summer.
Problems planned with the students to meet their particular needs. Prerequisite: Art 231 or consent of instructor.
- 234. Historic Textile Design.** 3 semester hours. Each semester or summer.
Design employed in fabrics in each of the great art periods. Prerequisite: Art 150, Clo. Text. 117.
- 235. Problems in Costume Design.** Credit to be arranged. First semester or summer.
Problems planned with the students to meet their particular needs. Prerequisite: Art 210 or consent of instructor.
- 243. Arts of Mexico.** 3 semester hours. Each semester or summer.
A survey of the arts of pre-Spanish, colonial, and modern Mexico, their origins and developments. Prerequisite: Art 150.
- 245. Art of Primitive People.** 3 semester hours. Second semester.
A study of the local art styles of various groups of primitive people, stressing their skills in designing for everyday living. Prerequisite: Art 150.
- 248. Historic Furniture Design.** 3 semester hours. Each semester or summer.
Design expressed in furniture in each of the great art periods. Prerequisite: Art 150.

FOR GRADUATE CREDIT

- 302. Advanced Costume Design.** Credit to be arranged. Each semester and summer.
Individual research problems which may form the basis for the master's thesis. Prerequisite: Consult instructor.
- 304. Advanced Interior Decoration.** Credit to be arranged. Each semester and summer.
Individual research problems which may form the basis for the master's thesis. Prerequisite: Consult instructor.
- 306. Problems in Advanced Design.** Credit to be arranged. Each semester and summer.
Individual research problems dealing with the various phases of design may be chosen by the student (with the aid of the instructor) to form the basis of a master's thesis. Prerequisite: Consult instructor.

Child Welfare and Euthenics

LOIS R. SCHULZ, *Head of Department*

The Department of Child Welfare and Euthenics offers opportunities for study of the child and his family with a nursery school as a laboratory of human development. For the student interested in homemaking, the courses are planned to create an awareness of the child as a developing personality and to promote an understanding of the dynamics of family relationships. Many of the courses will be of value to prospective teachers, nurses, dietitians, extension workers, and others, in helping them understand human needs and relationships. For the student interested in professional opportunities such as nursery school teaching, child guidance clinics, family life programs in the public schools, college teaching, child welfare with community agencies, or research in child development and family life, the department offers work toward the degree master of science.

The curriculum for students in Home Economics and Nursing is under the supervision of the Director of Nursing Education, who is a member of the Department of Child Welfare and Euthenics.

FOR UNDERGRADUATE CREDIT

101. Personal Health. 2 semester hours. Each semester.

Orientation to college living through study of social, mental, and physical health. Open to freshmen only.

103. Family Living. 2 semester hours. Each semester.

An introduction to the study of the family and its relation to the health and growth of the individual at different age levels. Includes planned experiences with children.

FOR GRADUATE AND UNDERGRADUATE CREDIT

201. Child Guidance I. 3 semester hours. Each semester and summer.

Study of the developmental characteristics of young children, adaptation of the environment to meet their needs, and principles involved in the guidance of children at the preschool age. Two hours of recitation and three hours of laboratory a week. Prerequisite: Junior standing or consent of head of department. Additional charge for luncheon.

203. Child Guidance II. 3 semester hours. First semester and summer.

Study of the growth sequence in relation to behavior and to the young child's process of adjustment. Two hours of recitation and three hours of laboratory a week. Prerequisite: Ch. Welf. 201, 211, or concurrent; and consent of head of department.

204. Development and Guidance of Youth. 3 semester hours. Second semester and summer.

Study of the developmental characteristics of later childhood as a basis for guidance. Field work arranged. Prerequisite: Ch. Welf. 201.

205. Nursery School Procedures. 3 semester hours. Second semester.

Supervised participation in the nursery school with opportunity for planning and directing the program. Six hours of laboratory and one hour of conference. Prerequisite: Ch. Welf. 203.

207. Literature and Music for the Preschool Child. 3 semester hours. Second semester and alternate summers (Summer, 1951).

Children's creative experiences with stories, songs, records and dramatized play. Two hours of recitation and three hours of laboratory. Prerequisite: Ch. Welf. 201.

- 208. Play Activities and Materials.** 3 semester hours. First semester and alternate summers (Summer, 1952).
The young child's use of space and equipment, toys, plastic and graphic materials, with emphasis upon play experiences which will contribute to the needs of individual children. Two hours of recitation and three hours of laboratory. Prerequisite: Ch. Welf. 201.
- 211. Family Health.** 3 semester hours. Each semester and summer.
Factors conducive to family and community health; physical development from prenatal period through infancy; care of the well and ill child. Simple first aid and home nursing procedures. Prerequisite: Junior standing.
- 218. Family Relationships.** 2 semester hours. Each semester and summer.
Effects of family interaction upon individual development; consideration of premarital, marital, and parent-child relationships. Prerequisite: Junior standing.
- 220. The Family.** 3 semester hours. Each semester and alternate summers (Summer, 1951).
Contemporary social conditions affecting family functions; the culture and individual development; application of democratic philosophy to family relationships. Prerequisite: Ch. Welf. 218.
- 221. Problems in Child Welfare and Euthenics.** Credit to be arranged. Each semester and summer.
Students writing a master's report enroll in this course. Prerequisite: Consult head of department.
- 245. Seminar in Child Development.** 2 semester hours. Second semester and alternate summers (Summer, 1952).
Interpretation and evaluation of research relating to the field of child development. Intended primarily for graduate students but open to others with consent of head of department. Prerequisite: Ch. Welf. 203.
- 246. Seminar in the Family.** 2 semester hours. First semester and alternate summers (Summer, 1951).
Interpretation and evaluation of research relating to interaction of family members. Intended primarily for graduate students but open to others with consent of head of department. Prerequisite: Ch. Welf. 220.
- FOR GRADUATE CREDIT
- 301. Research in Child Welfare and Euthenics.** Credit to be arranged. Each semester and summer.
Individual research problems which may form the basis for the master's thesis. Consult head of department.
- 303. Parent Education.** 2 semester hours. Second semester and alternate summers (Summer, 1951).
Summary of principles in child development and family relationships; application of these principles to group and individual work with parents; organization of materials in a resource unit. Prerequisite: Ch. Welf. 203, 220.
- 305. Nursery School Administration.** 2 semester hours. First semester and alternate summers (Summer, 1952).
Survey of development of the nursery school; consideration of administrative problems, such as physical plant, equipment, records, standards and personnel in relation to the objectives of the nursery school. Prerequisite: Ch. Welf. 203 or concurrent.

Clothing and Textiles

ALPHA C. LATZKE, *Head of Department*

The Department of Clothing and Textiles offers courses designed to furnish essential knowledge concerning consumer problems in clothing and textiles. Instruction is provided for students who wish to prepare for vocational, professional, and business positions, such as teachers, extension workers, research workers, textile chemists, clothing consultants, and purchasing agents for institutions and department stores.

FOR UNDERGRADUATE CREDIT

- 104. Fundamentals of Clothing.** 2 semester hours. Each semester.
A study of commercial patterns and principles of garment construction. Six hours of laboratory a week.
- 107. Selection of Clothing.** 2 semester hours. Each semester.
Selection of clothing with personal analysis as the basis; wardrobe planning and buying procedures.
- 114. Applied Dress Design.** 3 semester hours. Each semester and summer.
Application of design principles to dress. Development of foundation pattern; flat pattern designing; construction of a dress. Nine hours of recitation and laboratory a week. Prerequisite: Clo. Text. 104 or 107, Art 163.
- 117. Textiles.** 2 semester hours. Each semester and summer.
Fundamentals of textiles as related to the problems of the consumer. One hour of recitation and three hours of laboratory a week. Prerequisite: Chem. 122 or Compr. 102.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 201. Clothing Economics.** 3 semester hours. Second semester and summer.
The organization of textile industries and markets; consumer problems in relation to market conditions. Prerequisite: Compr. 122 or equivalent.
- 204. Intermediate Textiles.** 2 semester hours. Second semester and alternate summers.
Nontechnical study of current developments in textiles. Prerequisite: Clo. Text. 117.
- 205. Advanced Textiles.** 3 semester hours. First semester and summer.
Physical chemical and optical testing of textiles, emphasis placed on research techniques. One hour of recitation and six hours of laboratory a week. Prerequisite: Clo. Text. 117, Chem. 122.
- 211. Advanced Dress Design.** 3 semester hours. Each semester and summer.
Social significance of fashion; application of design to dress. Designs draped in cotton and then completed in suitable material. Nine hours of recitation and laboratory a week. Prerequisite: Clo. Text. 114.
- 214. Principles of Tailoring.** 3 semester hours. Each semester and summer.
Design as related to the coat or suit; techniques of tailoring; construction of coat or suit. Nine hours of recitation and laboratory a week. Prerequisite: Clo. Text. 211 or consent of instructor.
- 215. Problems in Clothing and Textiles.** 1 to 5 semester hours. Each semester and summer.
Consult instructor. Prerequisite: Senior or graduate standing.
Work is offered in: Garment designing; construction techniques, textiles, history of costume, clothing economics.
- 226. History of Costume.** 3 semester hours. Each semester and alternate summers.
Aspects of the culture of various countries and periods of history as reflected in costume. Prerequisite: Compr. 131, Hist. 106 or equivalent.

- 250. Clothing and Textiles Summary.** 2 semester hours. Second semester and alternate summers.

Summarization and correlation of information from courses in Clothing and Textiles and their application to the family's clothing needs. One hour of recitation and three hours of laboratory a week. Prerequisite: Clo. Text. 117, 211 or consult instructor.

- 255. Experimental Textiles.** 2 to 5 semester hours. Each semester and summer.

Prerequisite: Clo. Text. 205.

FOR GRADUATE CREDIT

- 301. Research in Clothing and Textiles.** 1 to 6 semester hours. Each semester and summer.

Research in clothing or in textiles which may form the basis for the master's thesis. Consult instructor for time of meeting. Prerequisite: Graduate standing.

- 304. Clothing and Textiles Seminar.** 1 semester hour. Second semester and alternate summers.

Discussion of current developments in the field. Prerequisite: Graduate standing.

Foods and Nutrition

GLADYS E. VAIL, *Head of Department*

The Department of Foods and Nutrition provides specialized instruction for homemakers, teachers of foods and nutrition, and dietitians, and for commercial, extension, and research workers. It also gives courses designed for those whose major interest is outside the field of home economics.

FOR UNDERGRADUATE CREDIT

- 102. Foods I.** 5 semester hours. Each semester and summer.

Principles of food preparation and food economics. Experience in food preparation and meal service. Three hours of recitation and six hours of laboratory a week.

- 103. Meal Planning, Preparation, and Service.** 3 semester hours. Spring semester.

Consideration given to problems involved in the selection of foods and the planning, preparation and serving of meals. Emphasis on organization, management of time, money and energy. Not open to students having credit in Foods and Nutrition 102. Two hours of recitation and three hours of laboratory a week. Prerequisite: Three hours credit in food preparation.

- 107. Foods II.** 3 semester hours. Each semester and summer sessions in odd numbered years.

Chemical and physical properties of food related to preparation and preservation. One hour of recitation and six hours of laboratory a week. Prerequisite: Chem. 122 or 223 or Compr. 102 and Fds. Nutr. 102 or 103.

- 121. Applied Nutrition.** 2 semester hours. Each semester and summer.

Introduction to nutrition with emphasis on food requirements, food selection, and food habits. For beginning students in home economics; open to men and women students not majoring in home economics.

- 150. Dietetics.** 3 semester hours. Each semester and summer sessions in odd numbered years.

Principles of normal nutrition and practice in planning, adjusting, and preparing dietaries for specific individuals. Energy, protein, mineral, and

vitamin computation. Two hours of recitation and three hours of laboratory a week. Prerequisites: Fds. Nutr. 121, Chem. 122 or 223, or Compr. 102.

176. **Meats H. E.** 1 semester hour. Each semester.

See An. Husb. 176, Department of Animal Husbandry, School of Agriculture.

185. **Food Demonstration Techniques.** 2 semester hours. Second semester.

Objectives and techniques of demonstrations in foods as presented by the classroom teacher and commercial demonstrator. Six hours of laboratory a week. Prerequisites: Fds. Nutr. 107, Educ. 132 or 133 or 216, and senior standing.

FOR GRADUATE AND UNDERGRADUATE CREDIT

212. **Human Nutrition.** 3 semester hours. Each semester and summer sessions in even numbered years.

Chemistry of foods and nutrition; emphasizing food nutrients, digestion and metabolism. Prerequisites: Chem. 240, Zool. 219 or 221, or Compr. 112, and for home economics majors, Fds. Nutr. 150.

214. **Dietetics for Abnormal Conditions.** 2 semester hours. Each semester and summer sessions in even numbered years.

Food requirements in pathological conditions. Special diets, preparation of trays, computation of dietaries, consideration of costs. One hour of recitation and three hours of laboratory a week. Prerequisite: Fds. Nutr. 212.

215. **Field Work in Nutrition.** 3 semester hours. Second semester.

Survey of field of child nutrition, field work with school children, special work with individual children. Two hours of recitation and three hours of laboratory a week. Prerequisite: Fds. Nutr. 212.

216. **Nutrition of Development.** 2 semester hours. Second semester and summer sessions in odd numbered years.

Nutrition in pregnancy and lactation. Food requirements of fetus, infant, preschool and school child through adolescence. Prerequisite: Fds. Nutr. 212.

217. **Experimental Cookery.** 3 semester hours. Each semester and summer sessions in odd numbered years.

Food preparation from the experimental standpoint. One hour of recitation and six hours of laboratory a week. Prerequisite: Fds. Nutr. 107, Chem. 122 or 223, and at least second semester junior standing.

253. **Seminar in Foods.** 2 semester hours. Each semester and summer sessions in even numbered years.

Individual reports and discussions of topics in fields of food, food economics, and food research. Prerequisite or concurrent: Fds. Nutr. 217.

254. **Seminar in Nutrition.** 2 semester hours. Each semester and summer sessions in odd numbered years.

Individual report and discussion of topics in field of nutrition. Prerequisite: Fds. Nutr. 212.

257. **Problems in Foods.** Credit to be arranged. Each semester and summer.

Problems dealing with preparation and preservation of food. Three hours of laboratory a week for each hour of credit. Prerequisite: Chem. 122 or 223; for home economics majors, Fds. Nutr. 217.

258. **Problems in Nutrition.** Credit to be arranged. Each semester and summer.

Problems dealing with the nutritive value of foods, animal experimentation, dietary studies, practice in methods commonly used in simple experiments in nutrition. Three hours of laboratory a week for each hour of credit. Prerequisite: Fds. Nutr. 212.

- 261. Advanced Nutrition.** 3 semester hours. First semester and summer sessions in even numbered years.
A study of the more complex phases of the metabolism of food within the body. Prerequisite: Fds. Nutr. 212.
- 270. Advanced Foods I.** 3 semester hours. First semester.
Fundamental principles and practices of food preparation approached through applied organic and colloidal chemistry. Egg cookery, emulsions, freezing, batters and doughs will be considered. Two hours of recitation and 3 hours of laboratory a week. Prerequisite: Fds. Nutr. 107, Chem. 224 or 240.
- FOR GRADUATE CREDIT
- 305. Research in Foods and Nutrition.** Credit to be arranged. Each semester and summer.
Three hours a week for each hour of credit. Prerequisite: Consult instructor.
- 307. Advanced Foods II.** 3 semester hours. Second semester.
A continuation of Advanced Foods I. Starches, protein cookery, fats, and oils will be considered. Two hours of recitation and 3 hours of laboratory a week. Prerequisite: Fds. Nutr. 270.
- 308. Research Technics in Nutrition.** 3 semester hours. First semester.
Fundamental technics relating to energy, protein, mineral, and vitamin metabolism. One hour of recitation and 6 hours of laboratory a week. Prerequisite: Fds. Nutr. 261.
- 309. Graduate Seminar in Foods and Nutrition.** 1 semester hour. Each semester.
Discussion of investigations and other matters of interest in foods and nutrition. Required of all graduate students in foods and nutrition. May be taken for four semesters for credit.

Courses in Home Economics Education *

LUCILE O. RUST, *Professor of Home Economics Education
and Special Adviser*

FOR UNDERGRADUATE CREDIT

- 132. Methods of Teaching Home Economics.** 3 semester hours. Each semester and summer.
Prerequisite: Clo. Text. 114, Fds. Nutr. 102, 107; prerequisite or concurrent: Educ. 109.
- 133. Methods of Teaching for Dietetic Students.** 3 semester hours. Each semester.
Prerequisite: Inst. Mgmt. 101 or Fds. Nutr. 206 or concurrent registration.
- 159. Teaching Participation in Home Economics.** 3 to 5 semester hours. Each semester and summer.
Prerequisite: Completion of one home project and Educ. 132.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 233. The Vocational Home Economics Curriculum.** 3 semester hours. Each semester and summer.
Prerequisite: Educ. 132 or concurrent registration.

* The ten courses named here are given by the Department of Education and Psychology for the School of Home Economics. The staff is appointed co-operatively by that department and the School of Home Economics.

234. **Methods in Adult Homemaking Classes.** 1 to 3 semester hours. Summer. Prerequisite: Educ. 132 or equivalent.
248. **Problems in Education.** Credit to be arranged. Each semester and summer. Prerequisite: Educ. 139 and approval of instructor. Work is offered in Home Economics Education.

FOR GRADUATE CREDIT

313. **Research in Organization and Presentation of Home Economics.** Credit to be arranged. Each semester and summer.
314. **Organization and Presentation of Home Economics.** Credit to be arranged. Each semester and summer.
315. **Supervision in Home Economics.** 2 semester hours. Second semester and summer. Prerequisite: Educ. 159 and experience in teaching home economics.
318. **Seminar in Home Economics Education.** 2 or 3 semester hours. Summer. Prerequisite: Educ. 159 and experience in teaching home economics.

General Home Economics

MARGARET M. JUSTIN, *Head of Department*

FOR UNDERGRADUATE CREDIT

122. **Home Economics Lectures.** R (meetings by appointment). Required each semester of students enrolled for ten or more credit hours. Students meet for orientation, for vocational guidance, for consideration of professional opportunities and responsibilities, and for special interest programs, in groups arranged according to classification and curriculum.
135. **Guidance of Freshmen.** 1 semester hour. First semester. Instruction in counseling techniques employed in freshman orientation in the School of Home Economics. Prerequisite: Junior or senior standing and special permission from the dean. Application for enrollment in this class must be made in the preceding spring semester.

Household Economics

FLORENCE E. MCKINNEY, *Head of Department*

Through the courses in the Department of Household Economics an opportunity is offered to study the management of family resources—personal qualities, time, energy, money, house furnishings, equipment, and others—in the attainment of family goals, and to consider the effect of social and economic forces on the home and its management. Graduate students preparing to become advisers in home management houses, home management specialists in extension, teachers and research workers in these fields, and homemakers find suitable courses in this department.

FOR UNDERGRADUATE CREDIT

102. **Family Finance.** 2 semester hours. Each semester and alternate summers (1951). Financial problems involved in the effective management of the family's resources.

105. Household Equipment. 2 semester hours. Each semester and alternate summers (1952).

Selection, use, and care of certain furniture and equipment used in the home. Four hours of recitation and laboratory a week. Prerequisite: Fds. Nutr. 102.

115. The House. 3 semester hours. Each semester and alternate summers (1952).

A consideration of dwellings, their environment, plans, and space requirements, which promote effective utilization of family resources. Six hours of recitation and laboratory a week. Prerequisite: Sophomore standing.

FOR GRADUATE AND UNDERGRADUATE CREDIT

240. Home Management. 3 semester hours. Each semester and summer.

The application of principles related to satisfying home life. Opportunity is provided for experience in group living and for management in houses operating on two different income levels. The period of residence in home management houses is one-half of a semester, the equivalent of one hour of recitation and six hours of laboratory a week for one semester. Arrangements must be made in advance for living in the house. Prerequisite: Senior standing, or consult instructor.

243. Problems in Household Economics. Credit to be arranged. Each semester and summer.

Individual investigation in standards of living and family expenditures; housing and household equipment; time and motion study; and use of family resources. Prerequisite: Consult instructor.

257. Time and Motion in Household Tasks. 2 semester hours. Second semester and alternate summers.

The application of the principles of motion economy in the performance of certain household tasks to promote the more effective use of time and energy. One hour of recitation and two hours of laboratory a week. Prerequisite: Junior standing.

265. Economic Problems of the Family. 2 semester hours. First semester and alternate summers.

Study of incomes, investments, and debts, factors determining cost of living; economic problems requiring social action; criteria for appraising plans for improvement of levels of living. Prerequisite or parallel: Compr. 122 or consult instructor.

272. Consumers and the Market. 3 semester hours. First semester and alternate summers (1951).

Problems of the consumer in the present market, market practices, aids toward intelligent buying of commodities, and the types of protection, including legislation. Field trip out of town. Prerequisite or parallel: Compr. 122 and junior standing.

273. Housing Requirements of Families. 2 semester hours. First semester and alternate summers.

Housing requirements of families as influenced by their interests, activities, and socio-economic status; effective ways of meeting these requirements in homes in this area. Six hours of recitation and laboratory a week. Field trips. Prerequisite: Hhld. Econ. 105, 115; senior or graduate standing.

274. Advanced Household Equipment. 3 semester hours. Second semester and alternate summers.

Fundamental principles underlying the operation and construction of certain household equipment; demonstrations of the practical use of equipment. Six hours of recitation and laboratory a week. Prerequisite: Hhld. Econ. 105, Phys. 109; senior or graduate standing.

- 281. Seminar in Household Economics.** 1 to 3 semester hours. Each semester and alternate summers (1952).

A review of research literature; trends in the field of household economics; the contribution of the area to the family and community. Prerequisite: Senior or graduate standing.

FOR GRADUATE CREDIT

- 310. Research in Household Economics.** Credit to be arranged. Each semester and summer.

Individual research problems which may form the basis for the master's thesis. Prerequisite: Consult instructor.

Institutional Management

BESSIE B. WEST, *Head of Department*

The Department of Institutional Management provides instruction for those preparing to become school lunchroom managers, or to become dietitians in hospitals, college residence halls, or college, school, commercial, or industrial food service units.

FOR UNDERGRADUATE CREDIT

- 107. Quantity Food Preparation I.** 2 semester hours. Second semester and summer.

Introduction into various areas of institutional management. Food problems of institutions including preparation and serving foods in large quantity. The campus food units will be used as laboratories for this course. One hour of recitation and four hours of laboratory a week. Prerequisite: Fds. Nutr. 107.

- 109. Quantity Food Preparation II.** 3 semester hours. First semester and summer.

Food problems of institutions including preparation and serving foods in large quantity, menu planning, and food costs. The campus food units will be used as laboratories for this course. One hour of recitation and six hours of laboratory a week. Prerequisite: Inst. Mgmt. 107.

- 111. Institutional Purchasing I.** 3 semester hours. First semester and summer.

Selection, arrangement, installation, and care of various types of equipment for institutional food service departments. Selection and methods of purchasing foods in large quantities. Prerequisite or concurrent: Inst. Mgmt. 109.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 203. Organization and Management of Institutions.** 3 semester hours. Each semester.

Problems involved in the organization and management of food service units. Women's residence hall or equivalent facilities are used for observation and study. Residence in the hall concurrent with this course is required unless a satisfactory substitute can be arranged with the Committee on Dietetic Education. Prerequisite (or concurrent for graduate students): Inst. Mgmt. 109.

- 204. Organization and Management of Institutions Laboratory.** 2 semester hours. Each semester.

Women's residence hall to be used as laboratory. Six hours of laboratory a week. Prerequisite (or concurrent for graduate students): Inst. Mgmt. 109.

- 210. Problems in Institutional Management.** Credit to be arranged. Each semester and summer.
Individual investigation of problems in institutional management. Conferences and reports at appointed hours. Prerequisite or concurrent: Inst. Mgmt. 203, 204. Consult instructor.
- 214. Institutional Purchasing II.** 3 semester hours. Alternating semesters and summer school.
Advanced studies of the principles of purchasing equipment and food for institutions. Two hours of recitation and three hours of laboratory a week. Prerequisite: Inst. Mgmt. 111 or 221.
- 221. School Food Service.** 3 semester hours. Each semester and summer.
Consideration given to problems of the school lunch and special meals, including the organization, administration, purchase of food and equipment, food costs, and menu planning. Two hours of recitation and three hours of laboratory a week. Not open to students with credit in Institutional Management 107 or 109. Prerequisite: Fds. Nutr. 107.
- 226. Tea Room Management Recitation.** 1 semester hour. First or second semester.
Problems involved in organization and management of tea room food service. One hour of recitation each week. Prerequisite or concurrent: Inst. Mgmt. 203, 204.
- 227. Tea Room Management Laboratory.** 2 semester hours. First or second semester.
Practical experience in preparing and serving food to the public. The College Tea Room serves as a laboratory for this course. Six hours of laboratory a week. Prerequisite or concurrent: Inst. Mgmt. 203, 204.
- 250. Seminar in Institutional Management.** 2 semester hours. Alternating semesters and summer school.
A review of literature and trends in institutional management as applied to various types of institutions. Prerequisite: Senior or graduate standing.

FOR GRADUATE CREDIT

- 301. Research in Institutional Management.** Credit to be arranged. Each semester and summer.
Prerequisite: Consult instructor.

Bureau of Research in Home Economics

The Bureau of Research in Home Economics conducts investigations in the scientific, economic, and social problems of the home. The purpose of this research is to discover new facts and new methods in the application of scientific knowledge bearing upon the welfare of the members of the family and the conditions under which they live.

The fields of research included in the bureau are child welfare, clothing and textiles, foods, food economics, household administration, institutional management, human nutrition, dietetics, and public health.

The laboratories of the School of Home Economics include equipment suitable for work on certain of the problems. Opportunities for surveys and investigations of conditions in the state are found through the co-operation of various educational and social agencies.

The results of all investigations are published from time to time and are available on request to all citizens of the state.

The personnel of the bureau staff includes members of the teaching faculty in home economics. Several of the departments in other schools of the College advise or collaborate with officers of the bureau on problems of related interest.

Among the investigations in progress are the following:

- †The Utilization of Dried and Frozen Egg Products in Foods.
- *Factors Affecting the Quality and Nutritive Value of Fruits and Vegetables Preserved by Freezing.
- †The Effect of Freezing and Refrigerated Storage on the Quality of Precooked Foods. I. Pork Stews. II. Swiss Steaks.
- *Vitamin Content of Foods in Relation to Human Nutrition.
- *An Investigation of the Effect upon the Animal Body of Varying the Amount of Vitamin in the Diet.
- *The Influence of Electromagnetic Radiation on the Ascorbic Acid Content of Plants.
- *Nutritional Status and Dietary Needs of Population Groups in North Central Region: Subproject. Nutritional Status of School Children as Influenced by the School Lunch Program.
- *Factors Influencing the Keeping Quality and Nutritional Value of Frozen Meat: Subproject I. Methods of Handling Pork Prior to Storage. Subproject II. The Relation of Packaging Material to the Keeping Quality of Frozen Pork.
- †The Utilization of Turkey and Turkey Products as Food.
- †The Nutritional Significance of the Use of Enriched Flour and Cereals.
- †The Nutritive Value of Defatted Wheat Germ.
- *Beef: Household Cooking Methods for Grass-fed Cows and Other Beef of Low Grades.
- †Effect of Salt and Other Seasonings Upon the Development of Rancidity in Frozen Sausage.
- *Relationship of Activity of Enzyme System Present in Poultry Meat to the Changes Affecting the Acceptability of the Product.
- *Some Factors Affecting Basal Metabolism of Kansas Women.
- *Meat Investigations. I. Chemical and Physical Properties of Meat and their Relationship to Palatability Factors. II. Studies Related to the Storage of Meat in Frozen Condition.
- *Fat Rancidity in Eviscerated Poultry.
- *The Serviceability of a Cotton Fabric Used for Utility Garments as Affected by Laundering with Certain Detergents.
- *Effect on the Service Qualities of Cloth of Insecticides Recommended for Protection Against Clothing Pests or Insects and Mites That Attack People.
- *Service Qualities of Household Fabrics.
- Studies on Group Relationships.
- Family Patterns in Relation to Personality Development.
- Aspects of Social Development of Children.
- *A Study of Housing Requirements of Kansas Farm Families with Children.
- *Studies of Income and Living Costs of Certain Kansas Families.

* Projects supported by funds from the Agricultural Experiment Station.

† Projects supported by either commercial or industrial funds.

The School of Veterinary Medicine

ELDEN E. LEASURE, *Dean*

RALPH R. DYKSTRA, *Dean Emeritus*

MAXINE CALEY, *Assistant to the Dean*

VETERINARY ENROLLMENT LIMITED

By authority of the State Board of Regents, enrollment in the Curriculum in Veterinary Medicine is limited to a total of 200 students. Persons wishing to enter this curriculum should apply for admission to the Dean of the School of Veterinary Medicine previous to June 1. Admission to each of the four years is based on the applicant's scholarship record and other evidence of his fitness. When all other factors are equal, first preference is given to applicants who are residents of Kansas, and second preference to applicants who are residents of those states having no standard college of veterinary medicine. In general, no requests for admission will be approved after June 15. Application blanks may be obtained from the Dean of the School of Veterinary Medicine after February 15.

The College is authorized to require each nonresident of Kansas filing an application for selection as a student in the School of Veterinary Medicine to deposit the amount of the nonresident matriculation fee, which at present is \$20. If the application for selection is approved by the Committee on the Selection of Veterinary Students, the deposit is to be applied when the student enrolls as payment of the usual matriculation fee required of nonresidents, or in the case of those nonresidents who have been previously enrolled in the College—though not as students of Veterinary Medicine—is to be applied on other fees. If the applicant is not approved by the Committee on the Selection of Veterinary Students, the deposit is to be returned to him in full. If an approved nonresident applicant does not present himself for registration within ten days after the opening of the next semester following the date of the receipt of the application, 50 percent of the deposit will be forfeited to the College.

Applicants must offer: (1) The high school units required for admission to the preveterinary adaptation of the freshman year of the Curriculum in Arts and Sciences; (2) sixty-seven hours of college work as prescribed in or equivalent to the two preveterinary years in the School of Arts and Sciences. This work may be done here or in any approved junior college, college, or university, although it is preferred that the second preveterinary year be completed at this College.

VETERINARY READING ROOM

As a result of generous contributions from alumni and friends of the School of Veterinary Medicine, the veterinary school has a well-equipped reading room consisting of approximately 4,500 volumes which deal with all phases of veterinary medical literature and many allied fields. Veterinary students are permitted admission to the reading room at any hour during the day, and from 7:00 to 10:00 p. m., Tuesday and Thursday evenings.

FEES

	<i>Kansas residents and staff members</i>	<i>Nonresidents</i>
1. <i>Assessments:</i>		
A. Matriculation	\$10.00	\$20.00
B. A Semester:		
Student Health	7.50	7.50
Student Union	5.00	5.00
Summer Session, Recreation Fee	2.00	2.00
C. Incidental Fee:		
Veterinary Medicine Students	60.00	110.00
2. <i>Refund Policy:</i>		
See General Statement, p. 25.		
3. <i>Other Fees:</i>		
See General Statement, pp. 25-26.		

CURRICULUM IN VETERINARY MEDICINE

The Curriculum in Veterinary Medicine in Kansas State College was established to give the young men of this state an opportunity to pursue these studies in an agricultural environment, where the facilities offered by other branches of the College would be at their command. Better to fit the veterinarian to deal wisely with the livestock problems which he has to meet, he is required to take the work in livestock feeding, breeding, judging, poultry, in milk and dairy inspection, chemistry, bacteriology, parasitology, and zoology, in addition to his purely professional work.

Work must be taken as prescribed, except that certain courses may be selected from the list of extracurricular electives if the student has the prerequisites.

While not required, third-year students are encouraged to accept summer internships with practicing veterinarians, federal and state regulatory forces.

Curriculum in Veterinary Medicine

Effective for graduation in 1951 and 1952 only.

VETERINARY R. O. T. C.

Students in Veterinary Medicine may elect to take the Veterinary R. O. T. C. program consisting of four hours' basic credit and four hours' advanced credit. Those students electing the advanced courses will be compensated by the U. S. Government at the rate of 90 cents per day for the period beginning with the third year and ending at graduation. Each student will also receive a daily allowance of \$2.50 for the required attendance at a six weeks' summer camp. All expenses incident to attendance at the camp including travel, board, and lodging will be defrayed by the Army. Upon satisfactory completion of the advanced courses, at graduation each student will be commissioned an officer in the U. S. Army Veterinary Corps Reserve. See Department of Military Science and Tactics, p. 177.

Anatomy

WILLIAM M. McLEOD, *Head of Department*

The classroom instruction consists of lectures, quizzes, recitations, and special dissection of the part under discussion; also a study of dissected specimens, various models, and the Azoux model of the horse. The anatomical museum contains hundreds of anatomical specimens for student use, and various skeleton models and bones for individual study. In addition to the conventional embalming the anatomical specimens are stored under controlled refrigeration. This equipment makes it possible to use fresh anatomical specimens. The horse is taken as a type, and the other domestic animals are compared with the horse. As often as necessary parts of other animals are dissected to show the differences.

FOR UNDERGRADUATE CREDIT

- *109. Anatomy I.** 7 semester hours. First semester.
A brief study of descriptive terms and osteology of the domestic animals. Dissection of either the thoracic limb and thorax or the pelvic limb and abdomen of the horse. Three hours of recitation and twelve hours of laboratory a week.
- 113. Anatomy I.** 6 semester hours. First semester.
A brief study of descriptive terms and osteology of the domestic animals. Dissection of either the thoracic limb and thorax or the pelvic limb and abdomen of the horse. Three hours of recitation and nine hours of laboratory a week.
- 114. Anatomy II.** 6 semester hours. Second semester.
Dissection of either the thoracic limb and thorax or the pelvic limb and abdomen and head and neck of the horse. Dissection and demonstration of

* Course 109 replaces course 113 for 1953 and later graduation.

the body cavities and certain superficial regions of other domestic animals. Two hours of recitation and twelve hours of laboratory a week. Prerequisite: Anat. 109.

115. Topographic Anatomy. 1 semester hour. Second semester.

Dissection and demonstration of regions of diagnostic and surgical importance of the domestic animals. Three hours of laboratory a week. Prerequisite: Junior standing in Veterinary Medicine. Staff.

FOR GRADUATE AND UNDERGRADUATE CREDIT

203. Special Anatomy. Credit to be arranged. Each semester and summer.

The study of any part of the horse (as the digestive or reproductive system), ox, sheep, pig, dog, cat, or poultry. Prerequisite: Anat. 109, 114, Physiol. 131 or equivalent. Staff. Adapted to the work in which the student is specializing.

206. Applied Anatomy. 1 semester hour. First semester.

Dissection of certain areas embraced in performing the various surgical operations, and the study of all the structures in each area and their relation to one another as they would present themselves during an operation. Three hours of laboratory a week. Prerequisite: Anat. 114.

Physiology

GRAVERS K. L. UNDERBERG, *Head of Department*

The Department of Physiology presents courses in comparative physiology, problems in physiology, urine analysis, pharmacodynamics, and anatomy and physiology. Instruction is by lectures, recitation, laboratory work, and demonstrations. The department is especially well equipped for resident instruction and research.

FOR UNDERGRADUATE CREDIT

131. Anatomy and Physiology. 3 semester hours. First semester.

Physiology of the domestic animals, with special emphasis on digestion, absorption, metabolism, and excretion; sufficient anatomy to give a thorough understanding of the correlation between the two subjects and of the physiologic relations existing among the various organs of the body. Two hours of recitation and three hours of laboratory a week. Adapted to students majoring in Animal Husbandry.

FOR GRADUATE AND UNDERGRADUATE CREDIT

***201. Special Physiology.** 2 semester hours. Second semester.

The study of special phases of the physiology of domestic animals, especially reproduction, endocrine function, nutrition and senses. Prerequisite: Physiol. 227.

215. Problems in Physiology. Credit to be arranged. Each semester.

Individual investigational problems in the physiology of digestion, reproduction, endocrine glands, etc. Prerequisite: Physiol. 131 or 222 or 227.

222. Comparative Physiology I. 4 semester hours. Second semester.

Physiology of the domestic animal; the blood, heart, and blood vessels, the ductless glands and internal secretions, respiration, digestion and absorption. The laboratory exercises consist of a practical application of the knowledge derived in the classroom. Laboratory directions furnished the student. Three hours of recitation and three hours of laboratory a week. Prerequisite: For veterinary students, Anat. 109, Chem. 122, 246; for others, an approved course in organic chemistry.

* For 1953 and later graduation.

- 227. Comparative Physiology II.** 4 semester hours. First semester.
The urine and urinary system, nutrition, animal heat, muscular and nervous systems, locomotion, generation and development, growth and decay, and selected physiological experiments. Three hours of recitation and three hours of laboratory a week. Prerequisite: Same as for Physiol. 222.
- 229. Physiologic Constituents of Body Fluids.** 2 semester hours. Each semester and summer.
Analysis of body fluids with application to specific and fundamental problems in veterinary medicine. One hour of recitation and three hours of laboratory a week. Prerequisite: Physiol. 227 and consent of staff.
- 230. Pharmacodynamics.** 3 semester hours. Second semester.
The study of the physiological and therapeutic action of substances other than foodstuffs in the living structures. Substances to be studied will include drugs, poisons, and hormones used in the practice of veterinary medicine. One hour of recitation and six hours of laboratory a week. Prerequisite: Physiol. 227.
- 303. Seminar.** 1 semester hour. Each semester and summer.
Designed primarily for graduate and senior students enrolled for graduate credit in physiology. Each student is required to give a report on some subject related to physiology. The course is intended to stimulate interest in research and evaluate data. One hour a week. Prerequisite: Consent of staff.
- 307. Research in Physiology.** Credit to be arranged. Each semester and summer.
For graduate students working toward the M. S. and Ph. D. degrees. Prerequisite: Consent of staff.

Pathology

LEE M. RODERICK, *Head of Department*

The Department of Pathology presents courses in histology, pathology, and meat inspection, histopathological technic, and research in pathology. Instruction is by lecture, recitation, laboratory work, and demonstrations with visual aid equipment. Practical autopsy experience is gained each afternoon of the week in the autopsy laboratory. Instruction in clinical pathology is required of fourth-year students each afternoon of the week. Students obtain various specimens from clinical patients for blood, blood chemistry, urine and pathological examinations as well as tissue sectioning.

COURSES IN HISTOLOGY

FOR UNDERGRADUATE CREDIT

- 104. Histology I.** 3 semester hours. First semester.
Origin, development, structure, and appearance of the various cells and tissues of the animal body. Particular attention is paid to the relationships between structure and function and to the fundamental similarities and differences of cells and tissues. One hour of recitation and six hours of laboratory a week.
- 106. Histology II.** 3 semester hours. Second semester.
Origin, development, structure, and microscopic appearance of the various organs and systems of the animal body. Particular emphasis is laid on the correlation of tissue distribution and regional function. One hour of recitation and six hours of laboratory a week. Prerequisite: Path. 104.

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 252. Special Histology.** 3 semester hours. Each semester.
Fundamental histological technics studied by means of problems. Nine hours of laboratory a week. Prerequisite: Path. 106.

COURSES IN PATHOLOGY

FOR GRADUATE AND UNDERGRADUATE CREDIT

- 203. Pathology I.** 5 semester hours. First semester.
General pathology deals with the etiology, course and termination of disease. Three hours of recitation and six hours of laboratory a week. Prerequisite: Physiol. 222, Path. 106, Chem. 246.
- 208. Pathology II.** 4 semester hours. Second semester.
Special pathology, study of specific pathological processes occurring in the various organs of the body. Three hours of recitation and three hours of laboratory a week. Prerequisite: Path. 203.
- 211. Pathology III.** 3 semester hours. Second semester.
Special pathology continued. The pathology of infectious diseases. Two hours of recitation and three hours of laboratory a week. Prerequisite: Path. 208.
- 215. Pathology IV.** 3 semester hours. First semester.
The epidemiology and differential diagnosis of infectious diseases. Three hours of recitation and demonstration a week. Prerequisite: Path. 211.
- 218. Food Hygiene and Public Health.** 5 semester hours. Second semester.
A study of the procedures and regulations covering the ante-mortem and post-mortem inspection of food animals, sanitation, and the inspection of food products of animal origin. The place and work of a veterinarian in a public health organization. Five hours of recitation a week. Prerequisite: Path. 215.
- 222, 223. Pathological Technic and Diagnosis I and II.** 2 to 5 semester hours each. Each semester.
Pathological technic, collecting, fixing, embedding in paraffin, and sectioning of tissues, methods of preserving gross specimens, practice in post-mortem and laboratory diagnosis. Prerequisite: For I, Path. 203; for II, Path. 211, 222.
- 225, 226. Clinical Pathology I and II.** Credit in Clinics III and IV. Each semester.
The unification and practical application of the various laboratory test procedures to clinical diagnosis. Pathological examinations will include autopsies, biopsies, and hematological, bacteriological, seriological, chemical, pathological, and parasitological diagnosis. Prerequisite: Surg. 139, 142. Open only to senior students in veterinary medicine and graduate students.
- 235. Applied Veterinary Parasitology.** 3 semester hours. First semester.
The identification of parasites and the diagnosis of parasitosis. A consideration of the important parasitic diseases of livestock. Two hours of recitation and three hours of laboratory a week. Prerequisite: Zool. 208. Limited to veterinary students.

FOR GRADUATE CREDIT

- 302. Research in Pathology.** Credit to be arranged. Each semester.
Individual research in the pathology of an animal disease problem. Prerequisite: Path. 215, 222. This work may form the basis for the master's thesis.

Surgery and Medicine

EDWIN J. FRICK, *Head of Department*

The veterinary hospital is equipped with every modern appliance for surgical operations and treatment of animal diseases. The hospital has a capacity for more than fifty horses or cattle, and in addition it can accommodate 100 small animals, such as sheep, swine, cats, dogs, etc. Members of the clinical staff, accompanied by students, operate five ambulatory cars, and make trips at all times of the day and night into the surrounding country to diagnose and treat animal patients for all diseases affecting livestock and poultry.

In this way the student comes into contact daily with the diseases of animals and their treatment. More than 25,000 clinical cases a year are treated. Third- and fourth-year students are assigned regularly to in-patients and out-patients each afternoon of the week and are responsible for arriving at diagnosis, treatment and the keeping of accurate clinical data all under the supervision of a staff member. During clinical hours knowledge is also gained in the restraint of animals, in the pathology observed in autopsies and in the clinical pathological laboratory tests and examinations required.

Fourth-year students are required to serve a two-weeks' internship in the veterinary hospital during which time they are responsible for the treatment of all in-patients and out-patients, and the proper conduct of managing a modern hospital. All third- and fourth-year students are regularly assigned in rotation during the year to various specialists of the clinical staff.

COURSES IN SURGERY

FOR UNDERGRADUATE CREDIT

108. Surgery I. 4 semester hours. First semester.

Lectures, recitations, and demonstration on the fundamental principles of surgery, methods of restraint, asepsis, and antisepsis, anesthesia, division of tissues, union of tissues, control of hemorrhage, neoplasms, and animal dentistry. Four hours of recitation a week. Prerequisite: Junior standing in veterinary medicine.

109. Surgery II. 4 semester hours. Second semester.

Lectures, recitations, and demonstration on the surgical diseases of domestic animals; horseshoeing is included. Four hours of recitation and demonstration a week. Prerequisite: Surg. 108.

112. Surgical Exercises. 1 semester hour. First semester.

Surgery on anesthetized animals, and on cadavers; fractures, dressings, X-ray technics. Three hours of laboratory a week. Prerequisite: Surg. 109.

114. Small Animal Surgery. 2 semester hours. First semester.

Description and application of practical surgery on small animals; including anesthesia. Two hours of recitation a week. Prerequisite: Junior or senior standing in veterinary medicine.

FOR GRADUATE CREDIT

301. Research in Surgery. Credit to be arranged. Each semester.

The purpose of this course is to attempt to solve many of the surgical problems confronting the average veterinary practitioner. Prerequisite: Anat. 109, 114, 115, Surg. 108, 109, 163. Offered especially for graduates in veterinary medicine.

COURSES IN OBSTETRICS

FOR UNDERGRADUATE CREDIT

- 130. Obstetrics and Breeding Diseases.** 5 semester hours. Second semester. Physiology of reproduction, principles of normal and abnormal parturition, special attention given to handling of reduced fertility. Five hours of recitation a week. Prerequisite: Junior standing in veterinary medicine.
- ***132. Gynecology.** Required. Each semester one-half of class. Practical exercises in diagnosing and treating sterility, abortion, and dystocia, and the insemination of large animals. Three hours of laboratory a week. Prerequisite: Senior standing in veterinary medicine.

COURSES IN CLINIC

FOR UNDERGRADUATE CREDIT

- 139, 142. Clinics I and II.** 1 semester hour each. First and second semesters, respectively. All species of domestic animals are treated at clinic. Students assist in the restraint of animals, in bandaging, in compounding prescriptions, and in preparing antiseptics and other medicinal agents. Six hours of laboratory a week. Prerequisite: Junior or senior standing in veterinary medicine.
- 144, 147. Clinics III and IV.** 4 semester hours each. First and second semesters, respectively. Diagnosis and treatment of hospital patients, including keeping clinical records, administering medicines, changing dressings on surgical wounds, X-ray technic, etc.; assisting clinicians in out-clinic work. Twelve hours of laboratory a week. Prerequisite: Junior or senior standing in veterinary medicine.
- 150. Extra Clinics.** 1 semester hour. Each semester and summer. A course in clinics intended for those undergraduate students desiring clinical training in addition to that offered in the curriculum in veterinary medicine. Three hours of laboratory a week. Prerequisite: Surg. 142 or 147.

COURSES IN MATERIA MEDICA

FOR UNDERGRADUATE CREDIT

- 158. Materia Medica.** 4 semester hours. Second semester. A detailed study of important drugs; their origin, properties, and classification; their physiological actions, clinical administration, and dosage; metrology, prescription writing, pharmaceutical processes, and pharmaceutical preparations; compounding of prescriptions. Three hours of recitation and three hours of laboratory a week. Prerequisite: Sophomore standing in veterinary medicine.
- 163. Therapeutics.** 3 semester hours. First semester. History of therapeutics; healing methods; types of therapy, including mechanical, chemical, electrical, biological, dietetic, and thermal; toxicology as encountered in veterinary practice. Three hours of recitation a week. Prerequisite: Surg. 158.

* Not required for 1953 and later graduation.

COURSES IN MEDICINE**FOR UNDERGRADUATE CREDIT**

- 110. Diagnosis.** 2 semester hours. First semester.
Differential diagnostic methods employed for the detection of disease. Two hours of recitation a week. Prerequisite: Junior standing in veterinary medicine.
- 111, 113. Diseases of Large Animals I and II.** 4 semester hours each. Second semester and first semester, respectively.
I. Noninfectious diseases of the digestive, circulatory, and respiratory organs of the larger animals.
II. Noninfectious diseases of the urinary organs, diseases of metabolism, of the nervous system, the organs and locomotion, the skin, and the eye.
Four hours of recitation a week each semester. Prerequisite: Surg. 158; junior or senior standing in veterinary medicine.
- 181. Infectious Diseases of Large Animals.** 5 semester hours. Second semester.
Five hours of recitation a week. Prerequisite: Surg. 113; senior standing in veterinary medicine.
- 186. Diseases of Small Animals.** 2 semester hours. First semester.
Infectious and noninfectious canine and feline diseases; breeds of dogs, cats, and fur-bearing animals; erection of kennels; the breeding and care of puppies; care and feeding of dogs in general, and the hygienic measures pertaining thereto. Two hours of recitation a week. Prerequisite: Surg. 158, 163; senior standing in veterinary medicine.
- 191. Medical Economics and Law.** 2 semester hours. Second semester.
The veterinarian's legal responsibilities; national and state livestock laws; quarantine regulations; principles of business law. Two hours of recitation a week. Prerequisite: Senior standing in veterinary medicine.

FOR GRADUATE CREDIT

- 310. Research in Medicine.** Credit to be arranged. Each semester and summer.
An attempted solution of some of the medical and parasitological problems confronting the practitioner of veterinary medicine. Prerequisite: Surg. 111, 113, 158, 181. Offered especially for graduates in veterinary medicine.

General Veterinary Medicine

- V. M. 101, 102, 103, 104. Junior-Senior Conference.** Required. Each semester.
A faculty-junior-senior conference for the purpose of reviewing all factors concerned in the diagnosis of animal ailments. One hour a week. Prerequisite: Junior or senior standing in veterinary medicine.

The Division of College Extension

L. C. WILLIAMS, *Dean and Director*

H. J. C. UMBERGER, *Dean Emeritus*

PAUL W. GRIFFITH, *Associate Dean and Director*

The Division of College Extension offers the benefits of the College to Kansas farm and urban people. It is active in every county. By means of demonstrations, institutes, training schools, publications, correspondence courses, and radio programs, information on agriculture, home economics, and engineering extension is made readily available to all. 4-H club work is a major phase of the extension service program.

In the beginning, this work was informal. Members of the College staff answered inquiries by mail and occasionally met with small groups at various places in the state. The exchange of information thus made possible proved valuable both to the citizens of the state and to research programs conducted by the College. In 1914, with the passage of the Smith-Lever Act, this type of work became a co-operative undertaking of the federal and state governments, through the United States Department of Agriculture and the land-grant colleges.

There now are nine major departments in the Division, each with its own head and staff. Co-operatively employed extension agents are located in 103 counties. The extension organization, which reaches an increased number of Kansas people each year, still serves its original function of a two-way communication system between the College and the general public. Extension workers take to the people of the state information developed by the experiment stations, by the United States Department of Agriculture, and by the experience of the best farmers and homemakers. They bring to the state and federal research workers information concerning problems that are of immediate general interest. Their goal is to assist in making agriculture more prosperous and rural living more satisfying.

Extension Information

LISLE L. LONGSDORF, *Head of Department*

It is the objective of this department to acquaint the peoples of Kansas with the research findings of this land-grant College, its branch experiment stations, and the United States Department of Agriculture, through the mediums of communication. It also has the responsibility of reporting the progress being made, especially by rural people, in the adoption of recommended scientific methods of farming and homemaking for an improved agricultural industry. All means of communication are utilized in the dissemination of information for the benefit of both rural and towns people.

Scientific information, as written in popular version by the departmental staff, is channelled through all practical means of communication, including newspapers, printed publications, circulars and posters, printed annual reports, exhibits, motion pictures, 2 x 2 slides, and radio.

Each week some 400 weekly newspapers of the state, the farm press, and daily newspaper outlets are provided with news stories on research work of the Kansas Agricultural Experiment Station and the extension service.

County agents are provided a weekly press service and are given special training throughout the year in utilizing to the maximum a balanced information program. The department co-operates with all agents in the 103 organized extension service counties, as well as central office staff workers, in planning and executing information programs that will acquaint people of Kansas with the projects being carried.

Each year nearly one million timely, popular extension service and U. S. D. A. publications are printed and distributed.

A limited library of motion pictures and 2 x 2 slides for visual instruction is maintained for use by county agents, field workers, vocational education instructors, and personnel of co-operating agencies of government. Providing exhibits and other visual aids materials represent an important phase of work in the department.

Radio is divided into two phases: (a) Broadcasting of programs over KSAC, an institution-owned, noncommercial, educational station, and (b) broadcasting script and recorded services and live programs over more than fifty co-operating commercial radio stations in Kansas and on our borders.

Station KSAC, the College-owned radio station, is used exclusively for the dissemination of information from this institution. Engineering data would indicate that there is a potential audience of approximately five million listeners when the station is on the air. Three and one-half hours a day is devoted to the broadcasting of programs originating from within all schools of the College and the Division of College Extension. Approximately fifty percent of the broadcast time is devoted to all-College programs, while fifty percent is devoted to programs originating from within the extension service. The College radio station is also used as a "proving ground" for students enrolled in radio courses.

Daily scripts are mailed to co-operating commercial radio stations, and county agents are given assistance in planning local radio programs. Numerous live programs are arranged for extension service and College staff members to broadcast over these stations when the personnel are in the field.

Agricultural Specialists

PAUL W. GRIFFITH, *Head of Department*

This department includes those members of the extension staff who conduct and supervise programs in agricultural education throughout the state. The programs are developed in co-operation with the county extension agents and the residents of the counties through their designated leaders. The department has charge of the program and arrangements for Farm and Home Week, annual state-wide farmers' meetings, and the scheduling of judges for county and local fairs.

EXTENSION PROJECTS

The agricultural specialists of the Division work in extension schools and institutes during the winter months, and a portion of this time is devoted to co-operative demonstration work in agriculture and home economics. During the remainder of the year, they conduct special extension programs in soil management and crop production, plant pathology, horticulture, animal husbandry, dairying, veterinary medicine, poultry husbandry, entomology, farm management, marketing, agricultural planning, and farm forestry. This phase of the work of the extension specialists is supplemented by co-operative demonstration work. In much of the co-operative work, each specialist has from 10 to 100, or more, co-operators in each county. These men and women work under the direction of the specialist and the county agent. They keep records of the work, and demonstration meetings are held at their farms.

The extension specialist takes to the farm and the farm home the results of research work of the Agricultural Experiment Station and the United States Department of Agriculture in a practical, effective, and usable form. He brings back reports of the progress of demonstration work in the field. He seldom makes a trip without coming in contact with agricultural problems requiring the attention of research workers.

EXTENSION SCHOOLS

Extension schools are meetings, of one- or two-day duration, conducted for the purpose of giving practical instruction in agriculture, engineering, and home economics. Most of these schools are organized on a project basis, and they are an important feature in the yearly program of work conducted by each specialist. Results of demonstrations and experiments are given at these meetings, and suggestions are made for their practical application under local conditions.

Extension schools are classified according to the subject matter presented. Each year schools are held in horticulture, animal husbandry, veterinary medicine, entomology, poultry husbandry, dairying, agronomy, engineering, marketing, farm management, plant pathology, and farm forestry. In addition to these specialized meetings, schools of a more general character are held, designed to present the extension program best suited to the communities of the county. Home economics and 4-H Club work have an important place on the program of the schools.

EXTENSION TOURS AND FIELD DAYS

During the year, particularly in the spring and fall, the agricultural specialists assist county extension agents in holding farm and home tours and field days. These tours or field days are held on farms or in homes where a farmer or farm family is conducting a co-operative demonstration on some phase of agricultural production or home making. The many new discoveries made by the Agricultural Experiment Station are tried out in the co-operative demonstrations and then shown to the general public attending the tours and field days.

COUNTY AND LOCAL FAIRS

The agricultural specialists devote some time each year to judging livestock and agricultural products at state, county, and local fairs. An excellent opportunity for lectures and demonstration work is furnished, and each specialist endeavors to make his judging work as instructive as possible.

FARM AND HOME WEEK

The purpose of Farm and Home Week is to interest the farmers of the state in methods of production and management that will increase farm profits, to demonstrate to farm women methods of home management that will add to the comfort and enjoyment of farm life, and to encourage farm folks in social organization that will enrich the social life of the rural community.

All meetings, lectures, and demonstrations during Farm and Home Week are free of charge. The United States Department of Agriculture, the Agricultural Experiment Station, the extension service agricultural specialists, and leading farmers bring to those in attendance the latest results of investigations in agriculture, home economics, and engineering extension. Problems concerning crops and soils, dairying, beef cattle, horses, hogs, sheep, poultry, horticulture, community service, beekeeping, and diseases of animals are discussed by some of the leading agricultural authorities in America. In addition to these lectures and demonstrations, there are other interesting features.

FARM AND HOME INSTITUTES

A farm and home institute is an association of farmers and farm homemakers with regular officers, constitution, and bylaws. Some organizations hold six or more meetings during the year, and no institute can obtain state aid unless, in addition to the annual meeting at which representatives of the College must be present, it also holds at least three local meetings. It is the plan of the College to send two specialists, one in agriculture and one in home economics, to the annual meetings to present certain well-defined lessons and to give the results of demonstration work for the county or locality. The specialists and their subjects are chosen because of known need or interest of a particular community, or because of a plan to start or encourage certain definite lines of work.

County Agent Work

HARRY C. BAIRD, *District Agent—Northwest*

FRANK BLECHA, *District Agent—Eastern*

E. H. TEAGARDEN, *District Agent—Southwest*

County agent work is an organized activity of Kansas State College to develop and carry out the extension program as stated in national and state legislation. The Smith-Lever Act passed by Congress in 1914 defines extension work as follows:

"The co-operative agricultural extension work shall consist of the giving of instruction and practical demonstrations in agriculture and home economics to persons not attending or resident in State Colleges in the several communities and imparting to such persons information on said subjects through field demonstrations, publications, and otherwise; and this work shall be carried on in such manner as may be mutually agreed upon by the Secretary of Agriculture and the State Agricultural College or colleges receiving the benefits of this Act."

Under the Smith-Lever Act the funds appropriated therein must be matched by the state expecting to obtain any part of the federal funds. To that end the legislature of the state of Kansas, in 1915, enacted a law authorizing county appropriations to county farm bureaus "having a membership of 25 percent of the bona fide farmers of the county, or as many as 250 farmers, and having for its purpose the giving of instruction in agriculture and home economics to the people of said county through practical demonstrations and otherwise, and the employment of a county agricultural agent or agents to prosecute this work"

On October 1, 1950, 103 out of 105 counties in Kansas employed county extension agents.

On May 1, 1950, the counties with farm bureau organizations had a total men's membership of 56,308. The county commissioners in these counties appropriated \$981,343 for carrying out the Extension program. This amount was approximately fifty percent of all funds appropriated for co-operative extension work in Kansas.

Home Economics

GEORGIANA H. SMURTHWAITE, *Head of Department*

Extension work in home economics is carried on in counties through organized study groups and press and radio. Definite programs are pursued throughout the year by the home demonstration units, 4-H clubs, and special interest groups. Material furnished by the specialists and by home demonstration agents is used by local leaders in their respective communities.

Home demonstration work was made possible in August, 1917, when congress provided funds for the employment of emergency home demonstration agents. The work was instituted under the auspices of city or county organizations, but after a short time the placing of home demonstration agents was deferred until the counties were properly organized for this specific purpose. Since July 1, 1921, a county desiring a home demonstration agent has had to provide a well-equipped office with adequate stenographic help, transportation facilities, and a county appropriation toward the salaries and expenses of the agents.

The program of work for the various study groups in the county is based on the local situation in the communities in the county. It is evolved through community and committee meetings and includes the development of activities pertaining not only to the home and to the community but also to international problems. On January 1, 1951, 98 counties had appropriations for home demonstration work, and in addition four counties have appropriations for associate home demonstration agents.

Engineering Extension

JOHN M. FERGUSON, *Head of Department*

The function of the Department of Engineering Extension is to carry on an educational program throughout the state dealing with the application of engineering principles to various phases of agriculture. The work of this department is carried to every county in the state by means of demonstrations, institutes, training schools, publications, news releases, radio programs, and personal contacts.

When the department was first started in 1910, it dealt chiefly with drainage and irrigation. Other subjects have been added, including the control of soil erosion, water conservation, farm structures, farm machinery, conveniences for the farm home, and farm electrification. Much of the work is conducted in co-operation with the county agricultural agent's office in each county. Some work is done in co-operation with various government agencies, some with commercial farm equipment companies, some with structural supply and appliance companies, some with REA co-operatives, and some with public utilities.

All counties in the state are co-operating with the department in demonstration work involving drainage, irrigation, water conservation, and the control of erosion. Standardized plans for hundreds of farm buildings are furnished to farm operators each year. Advice and suggestions for remodeling farm buildings is furnished upon request to several hundred farm families each year. Recommendations are made for the selection, installation, and operation of practical and efficient systems of water supply, sewage disposal, wiring, lighting, insulation, air conditioning, and heating for the rural home. A program on the selection, use, adjustment, and cost of operation of farm machinery is conducted each year for the rural people. A planned program of 4-H Club work is conducted on many of the engineering phases of agriculture.

Farm safety and the prevention of farm fires is a definite part of the overall engineering extension program.

Boys' and Girls' Club Work

J. HAROLD JOHNSON, *Head of Department*

4-H Club work is conducted by the College in co-operation with the county farm bureaus and the United States Department of Agriculture. Community 4-H clubs are open to all young people between the ages of 10 and 20 years, inclusive. They work under the direction of the county extension agents with the help of local volunteer 4-H Club leaders. County 4-H councils assist the county agents in the supervision and promotion of the 4-H program. 4-H Club members receive valuable help from their county agents and from their local leaders; subject matter material is prepared by specialists and sent out by the state club leader to give members definite information and suggestions on farm and home practices recommended by the College.

The origin of 4-H Club work is obscure. Shortly after 1900, farmers' institutes, farm leaders, and educators, in various parts of the country, made efforts to bring about a more definite connection between real life and school life. They assisted boys and girls to conduct, at home, various educational demonstrations or contests centered around improved agricultural practices.

It became evident that the educational development of boys and girls was of greater importance than the spread of improved farm and home practices; hence, the 4-H Club program was broadened to include not only projects of a farm and home nature, but many activities such as health, music, conservation of wild life and natural resources, recreation, parliamentary practices, and art. The present 4-H Club program is designed to develop citizenship and leadership among rural young people and to provide opportunity for them to partici-

pate with their parents and friends in the adoption of better farm and home practices. Co-operation with the group is promoted, leadership is encouraged, exhibitions and contests are conducted, accurate records and reports are required, and achievements are suitably recognized. Wholesome recreation is promoted, and county and state-wide round-ups, camps, and conferences are arranged.

An educational program for older youth above 4-H Club age is carried on through the Kansas Rural Life Associations. These groups meet regularly for discussions and talks on topics of current interest relating to public policy, homemaking, and agriculture. Community service projects and social activities are important features in the programs of work.

Home Study

JESSE M. SCHALL, *Head of Department*

The Department of Home Study is a member of the National University Extension Association, comprising 51 leading universities in America with whom extension credits are interchangeable. The members of the department devote their entire time to work of teaching by correspondence. They advise with the various departments of the College, and all credit courses that are offered by correspondence must first meet the requirements of the regular College departments handling the courses in residence.

There are many people in Kansas and elsewhere who cannot attend classes on the College campus, but who can use the facilities of the College to advantage. The Department of Home Study is designed through correspondence courses to enable the College to go to those who cannot come to it. The gross time required to complete correspondence courses is practically the same as is necessary for the same courses in residence.

FOR WHOM INTENDED

Though credit courses offered by the Department of Home Study are limited, it is the purpose of the department to add courses whenever a demand for them becomes evident. The following groups in particular should profit by the courses offered:

1. Those who have completed a common-school course but who are unable to attend high school.
2. High school graduates who are unable to attend college.
3. Students who have fallen behind in their work and wish to use their spare time catching up.
4. Students whose attendance at high school or college has been interrupted.
5. Aggressive students who do not wish to have their progress retarded by vacations and other interruptions.
6. High school and grade-school classes in practical courses that need supplementing and enrichment.
7. Teachers who wish further training or who need help in planning and conducting their work.
8. Professional and businessmen who wish to keep growing along some line of interest, industrial or avocational.
9. Clubs and other organizations that wish to make systematic studies.
10. Men and women who wish effective help in meeting the demands of their vocations for technical and scientific knowledge and training.

HOW THE WORK IS CONDUCTED

In correspondence courses, the work usually takes the form of assigned readings, studies, problems, and investigations, together with a list of questions and directions for a written report. The correspondence lesson is usually much

longer than the common lesson in resident class work, eight such lessons being the equivalent of one semester hour of college credit. When necessary, the lessons are supplemented by lectures prepared by the instructor. These lectures contain outlines and explanations, additional subject matter, and such special directions as seem desirable.

As soon as an enrollment card and fee are received at the Department of Home Study, the first assignments are sent out. As reports are received, additional assignments are mailed. The plan keeps work always at hand for the student, making it possible for the instructor to study the student's progress and to offer suggestions to guide the student in his work. The student should make careful study of the corrections, comments, and suggestions upon receiving a returned paper before going further with succeeding lessons.

The progress made by the student depends entirely upon his ability, preparedness, and application. In general, an hour a day spent in systematic study should enable the average student to complete an assignment a week. Students may work more rapidly if their opportunities permit. Lessons will be received as rapidly as is consistent with good work, provided not more than eight assignments are sent in one week. Under no circumstances will hastily prepared manuscripts showing superficial knowledge be accepted.

The questions accompanying each assignment are intended to help the student to a better understanding of the subject. After careful study of the assignment, the student is required to write his manuscript, answering the questions carefully and concisely. The manuscript is then mailed to the Department of Home Study, where all lesson papers are read carefully, criticized, marked, and returned to the student with such comments, suggestions, advice, and additional references as may be deemed necessary. Each student is invited to ask questions, relate his personal experience, and in every way possible seek the advice of his instructors.

The department spares no effort to bring about the nearest possible approach to personal acquaintanceship between each instructor and his students. To this end the student is required to fill out and mail to the department, with his first lesson, a personal acquaintance blank giving full information about himself, his aims, ambitions, and previous experience and education, as well as the conditions of his daily work that necessarily affect his responses to the lessons. This information enables the instructor to enter at once into cordial, sympathetic, and helpful relations with the student.

EXAMINATIONS

At the close of each course, before a grade is issued, a final examination is necessary. The final examination may be taken in the office of the Department of Home Study at the College, or other arrangements may be made by the student to take it locally under the city or county superintendent of schools or the principal of the local first-class high school. In the latter case the examination questions and instructions for conducting the examination are mailed from the department to the examiner, and the student's paper is sent in by him.

FEEES

(Subject to change)

	<i>Kansas residents and staff members</i>	<i>Nonresidents</i>
A. <i>College-level Courses:</i>		
Registration	\$2.50	\$5.00
(Paid only once, and not subject to refund, and not required of students who have previously been enrolled in Home Study or matriculated for residence work at Kansas State College.)		
Enrollment, each semester hour, 8 assignments . . .	6.00	8.00
Study Center classes, each semester hour	6.00	8.00
B. <i>High School-level Courses:</i>		
Registration (paid only once and not subject to refund)	2.00	4.00
Enrollment, each one-half unit, high school credit,	6.00	8.00

REFUND POLICY

Registration fees shall not be subject to refund. Enrollment fees are refundable as follows:

- a. If application for withdrawal and refund is received by the College within two weeks after the date of enrollment and prior to the grading of any assignments, the enrollment fees shall be refunded.
- b. If application for withdrawal and refund is received by the College within one year from date of enrollment and prior to issuance of one-third of the assignments, a 50 percent refund shall be made.
- c. If application for withdrawal and refund is received by the College after one-third or more of the assignments have been issued by the Home Study Department, or after one year has passed from date of enrollment, then no refund is due.
- d. Students now enrolled in residence at the College, or who have previously been enrolled, are not required to pay the registration fee; the enrollment fee, however, is collected to cover cost of grading papers and individual instruction. The refund policy as stated above is applicable.

Each student pays the postage on his lessons, manuscripts, and communications sent to the department. The department pays the postage for the return of all such papers to students.

REGULATIONS

1. Enrollments for correspondence study will be received at any time during the year, and students may continue their work throughout the entire year.
2. Correspondence students are expected to complete any course for which they are enrolled within 12 months from date of enrollment.
3. Not more than two courses are advised at any one time. It is recommended that a student carry but one subject at a time, particularly where only part of the time is given to the work.
4. Each subject listed under the various departments constitutes what is known as a correspondence "course."
5. Students enrolling for correspondence courses must meet the prerequisites the same as if undertaking the work in residence.
6. A student may not be enrolled for correspondence work while in attendance at any institution of learning without special permission from the dean or proper authorities in the institution of which he is a student.
7. No correspondence student will be permitted to complete a three-hour course in less than three weeks, a two-hour course in less than two weeks, or a one-hour course in less than one week.
8. The student is urged to use every source available for securing information, such as outside texts, family discussions, and discussions with other students taking the course or who have previously taken the course, but copying of papers is not accepted. Lending of papers to be copied is also forbidden. Any student found guilty of either discrepancy will have this fact placed upon his record at Kansas State College.
9. The final grade for credit is determined by the quality of the lesson papers and the examination.

STUDY-CENTER EXTENSION CLASSES

Study-center classes conducted by regular instructors from the College may be organized if the demand is sufficient. Regulations concerning such classes are obtainable from the Department of Home Study.

HIGH SCHOOL COURSES

(College Entrance Credit Work)

In offering the following work for high school credit, there is no intention of competing with high schools of the state. It is not the purpose of those who have planned the work to present a full four-year high school course. Students who can attend high school should do so, for in such attendance they

will have the benefits to be derived from association with fellow students, as well as many other advantages that will be helpful to immature students of high school age.

These courses are offered as an aid to those who may be temporarily out of high school, who may not find the work that they desire offered locally, or who wish to work for high school credit during vacation periods. It is not to be expected that a student can progress as rapidly by correspondence study methods as he can by devoting his full time to his work when attending high school. Any student who completes a half year of high school work in a year by correspondence may feel that he has done exceedingly well.

The high school courses will be especially advantageous to prospective college students who have entrance deficiencies and to school teachers who may not have had the opportunity to do this type of work. No effort has been spared to make the work as nearly as possible parallel with the course offered by the accredited high schools of the state. The same textbooks have been used wherever feasible, and the credits issued by this department are recognized by the colleges and State Board of Education.

COLLEGE COURSES

Numerous college courses paralleling resident courses and carrying the same credit are offered through the Department of Home Study. These will be found especially advantageous for college students who desire to make up deficiencies or to gain credits during the vacation season, for teachers who

wish to further their professional training, and for men and women who wish to promote their culture, technical, or vocational interests. The prerequisites are the same as for corresponding courses in resident instruction.

The following course is available through resident enrollment for graduate and undergraduate credit. Graduates may be enrolled for from one to six hours of research or problem work *in absentia*, on the recommendation of a member of the graduate faculty and with the approval of the Dean of the Graduate School.

Educ. 249. Problems in Extension Education. Credit to be arranged.

Problems in extension met by director, supervisor, county agricultural agent, county home demonstration agent, 4-H Club leader, or specialist.

Prerequisite: Econ. 151 or CS 3, and Educ. 184 or CP 8.

Officers of Administration, Instruction, and Research**ADMINISTRATIVE AND SERVICE OFFICES**

WILLIAM FREDERICK BAEHR, Professor and College Librarian (1943).*
B. S. in L. S., M. A., University of Illinois.

MABEL G. BAXTER, Instructor and Continuations Assistant, College Library
(1916, 1947).

MILDRED CAMP, Assistant Professor and Head of Circulation Department, Col-
lege Library (1927).
A. B., Eureka College; B. L. S., University of Illinois.

ALICE LOUISE COLLIER, Reference Assistant, College Library (1949).
B. A., Capital University; B. S. in L. S., Western Reserve University.

ELIZABETH HAMILTON DAVIS, Associate Professor and Head of Reference De-
partment, College Library (1920, 1947).
A. B., MacMurray College for Women; B. L. S., University of Illinois.

IRENE LENORE DAVIS, Instructor and Catalogue Assistant, College Library
(1947, 1948).
A. B., Colorado State College of Education; B. S. in L. S., University of Denver.

GRACE EMILY DERBY, Professor and Associate Librarian, College Library (1911,
1947).
A. B., Western College.

AUBREY THORNTON EDWARDS, Director of Housing, and Associate Professor of
Psychology (1946, 1947).
B. S., M. S., Kansas State College.

JOE EISENBACH, JR., Assistant to the Director of Housing, and Instructor in
Education and Psychology (1948).
B. S., A. B., Kansas State Teachers College (Emporia).

MILDRED M. ESHNAUR, Instructor and General Assistant, College Library (1947,
1948).
B. S., Kansas State Teachers College (Emporia).

RANDOLPH FORNEY GINGRICH, Superintendent of Physical Plant Department
(1923, 1945).
B. S., University of Nebraska; M. S., Kansas State College.

CHARLES JEROME GLOTZBACH, Counselor and Instructor, Counseling Bureau
(1947).
B. S., Kansas State College.

DOROTHY MAY HAMER, Assistant Dean of Women (1941, 1946).
A. B., University of Illinois; M. A., Columbia University.

FERN O. HATHAWAY, Instructor and Loan Assistant, College Library (1948,
1949).
A. B., Denver University.

HAROLD HOWE, Dean of Graduate School; Professor of Agricultural Economics;
Agricultural Economist, Agricultural Experiment Station (1925, 1945).
B. S., Kansas State College; M. S., University of Maryland; Ph. D., University of Wis-
consin.

ARNOLD R. JONES, Comptroller and Professor of Accounting (1929, 1945).
B. S., University of Kansas; C. P. A., University of Kansas.

* One date standing after the title shows when the office was assumed. In the case of two dates separated by a comma, the first date indicates when services with the College began, the second when present office was assumed.

- WENDELL R. KERR, Instructor; Veterans Service Officer (1947).
B. S., Kansas State College.
- MARY KIMBALL, Assistant Registrar (1918, 1946).
B. S., Kansas State College.
- GERALD C. KOLSKY, Assistant Director of Admissions and Assistant Registrar (1946, 1950).
B. S., Kansas State College.
- BENJAMIN W. LAFENE, College Physician and Director of the Student Health Service (1946, 1948).
B. S., Michigan State College; M. D., Western Reserve University.
- JAMES A. MCCAIN, President of the College, (1950).
B. A., Wofford College; M. A., Duke University; Ed. D., Stanford University.
- MAX WESLEY MILBOURN, Director of Public Service (1949).
A. B., University of Wichita.
- DOROTHY P. MITCHELL, Counselor and Instructor, Counseling Bureau (1949).
B. S., University of Maryland; M. S., University of Oklahoma.
- HELEN MOORE, Dean of Women (1940).
A. B., University of Kansas; A. M., Columbia University.
- CAROL OWSLEY, Instructor and Class Reserves Assistant, College Library (1939, 1947).
B. S., M. S., Kansas State College.
- BERNICE H. PATON, Assistant Professor and Head of Catalogue Department, College Library (1947).
A. B., University of Oklahoma; B. S. in L. S., Columbia University; M. A. in L. S., University of Michigan.
- RALPH HAMILTON PERRY, Assistant to the Comptroller (1946, 1947).
B. S., Kansas State College.
- CLARENCE OSBORN PRICE, Assistant to the President (1920).
- ALBERT L. PUGSLEY, Dean of Administration and Director of Summer School (1943, 1946).
B. S., South Dakota State College; M. Arch., Harvard University.
- EDITH M. RIDGEWAY, Instructor and Assistant Reference Librarian, College Library (1943).
A. B., College of Emporia; B. S. in L. S., University of Illinois.
- MARY EILLEN ROBERTS, Assistant Professor and Head of Documents Department, College Library (1938, 1947).
B. S. Kansas State College; B. S. in L. S., University of Illinois; M. A., University of Michigan.
- ANNABEL LUCILE SMITH, Instructor and Assistant Documents Librarian, College Library (1946).
B. S., Kansas State Teachers College (Emporia); B. S. in L. S., M. A., University of Illinois.
- ARTHUR BOURNE SMITH, Professor and College Librarian, Emeritus (1911).
B. L. S., University of Illinois; Ph. B., Wesleyan University.
- ERIC T. TEBOW, Director of Admissions and Registrar (1947, 1948).
B. S., Kansas State College; A. M., Columbia University.
- CAROLYN WHITMORE, Y. W. C. A. Executive Director (1949).
B. S., University of Massachusetts.
- MARY LOUISE ZULAUF, Catalogue Assistant, College Library (1949).
B. S., Kansas State Teachers College (Emporia).

SCHOOL OF AGRICULTURE

- DONALD CLAYTON ABBOTT, Research Assistant in Milling Industry (1949, 1950).
B. S., Kansas State College.
- ERWIN ABMEYER, Assistant Professor of Horticulture; Assistant Pomologist, Northeast Kansas Experiment Fields (1934, 1935).
B. S., Kansas State College.
- LOUISE CORNELIUS AICHER, Superintendent, Fort Hays Branch Agricultural Experiment Station (1921).
B. S., Kansas State College.
- KLING LEROY ANDERSON, Professor of Agronomy; Agronomist, Agricultural Experiment Station (1936, 1946).
B. S., University of California; M. S., Kansas State College.
- FLOYD WARNICH ATKESON, Professor and Head of Department of Dairy Husbandry; Dairy Husbandman, in charge, Agricultural Experiment Station (1918, 1935).
B. S., University of Missouri; M. S., Kansas State College.
- C. HARRY ATKINSON, Associate Professor of Agronomy; Soil Scientist, Soil Conservation Service, U. S. D. A., Agricultural Experiment Station (1949).
B. S., M. S., Pennsylvania State College.
- CLIFF ERRETT AUBEL, Professor of Animal Husbandry; Animal Husbandman, Agricultural Experiment Station (1919, 1938).
B. S., M. S., Kansas State College; Ph. D., University of Minnesota.
- THOMAS B. AVERY, Professor of Poultry Husbandry; Poultry Husbandman, Agricultural Experiment Station (1945, 1950).
B. S., M. S., Kansas State College.
- MILBURNE CLINTON AXELTON, Assistant in Agronomy; Southwest Kansas Experiment Fields (1929, 1946).
B. S., Kansas State College.
- ROBERT JOHN BARNETT, Professor of Horticulture, Emeritus; Chairman, Editorial Committee, Agricultural Experiment Station (1907, 1944).
B. S., M. S., Kansas State College.
- ERLE EDWIN BARTLEY, Assistant Professor of Dairy Husbandry; Assistant Dairy Husbandman, Agricultural Experiment Station (1949).
B. S., Allahabad Agricultural Institute (India); M. S., Ph. D., Iowa State College.
- WILLIAM M. BAXTER, Assistant to the Superintendent, Fort Hays Branch Agricultural Experiment Station (1949).
B. S., Kansas State College.
- GLENN HANS BECK, Professor of Dairy Husbandry; Dairy Husbandman, Agricultural Experiment Station (1936, 1950).
B. S., University of Idaho; M. S., Kansas State College; Ph. D., Cornell University.
- FLOYD WAYNE BELL, Professor of Animal Husbandry; Animal Husbandman, Agricultural Experiment Station (1918, 1921).
B. S., Cornell University.
- THOMAS DONALD BELL, Professor of Animal Husbandry; Animal Husbandman, Agricultural Experiment Station (1950).
B. S., M. S., University of Idaho; Ph. D., University of Wisconsin.
- ORVILLE WILLARD BIDWELL, Assistant Professor of Agronomy; Assistant Agronomist, Agricultural Experiment Station (1950).
B. S., M. S., Ph. D., Ohio State University.

- ROBERT ARTHUR BOHANNON, Graduate Assistant in Agronomy (1949).
B. S., Michigan State College.
- CHARLES FREDERICK BORTFELD, Associate Professor of Agricultural Economics; Associate Agricultural Economist, Agricultural Experiment Station (1948).
B. S., M. S., University of Nebraska.
- BERNARD JOSEPH BOWLEN, Graduate Assistant in Agricultural Economics (1950).
B. S., University of Alberta (Canada).
- DONALD JAMES BRAY, Graduate Assistant in Poultry Husbandry (1950).
B. S., Iowa State College.
- PAUL L. BROWN, Soil Scientist, Bureau of P. I. S. A. E., U. S. D. A., Fort Hays Branch Agricultural Experiment Station (1946, 1948).
B. S., M. S., Kansas State College.
- LELAND EVERETT CALL, Dean, and Director, Emeritus; Professor of Rural Investigations (1907, 1946).
B. S., M. S., Ohio State University.
- RONALD WAYNE CAMPBELL, Associate Professor of Horticulture; Associate Pomologist, Agricultural Experiment Station (1946, 1949).
B. S., M. S., Kansas State College.
- CARL WILBURN CARLSON, Assistant Agronomist, Garden City Branch Agricultural Experiment Station (1949).
B. S., M. S., Kansas State College.
- ALFRED JACKSON CASADY, Assistant Agronomist, Fort Hays Branch Agricultural Experiment Station (1948, 1949).
B. S., M. S., Kansas State College.
- EMERY NEAL CASTLE, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1948, 1949).
B. S., M. S., Kansas State College.
- RALPH BOYD CATHCART, Associate Professor of Animal Husbandry; Animal Husbandman, Agricultural Experiment Station (1935, 1948).
B. S., Kansas State College; M. S., University of Nebraska.
- WILLIAM S. CHEPIL, Professor of Soils; Agronomist, Agricultural Experiment Station (1948).
B. S., M. S., University of Saskatchewan (Canada); Ph. D., University of Minnesota.
- WILLIAM H. CHILSON, Associate Professor of Dairy Husbandry; Associate Dairy Husbandman, Agricultural Experiment Station (1947). On leave.
B. S., Kansas State College; M. S., Cornell University.
- ALFRED LESTER CLAPP, Professor of Agronomy; Agronomist, Agricultural Experiment Station (1915, 1939).
B. S., M. S., Kansas State College.
- ALBERT JAMES CLAWSON, Graduate Assistant in Animal Husbandry (1949).
B. S., University of Nebraska.
- THOMAS J. CLAYDON, Associate Professor of Dairy Husbandry; Associate Dairy Husbandman, Agricultural Experiment Station (1946).
B. S., University of Saskatchewan (Canada); M. S., Ph. D., Iowa State College.
- EMBERT HARVEY COLES, Superintendent, Colby Branch Agricultural Experiment Station (1922, 1929).
B. S., Kansas State College.

- LAURENCE LARUE COMPTON, Professor of Agronomy; Secretary, Kansas Crop Improvement Association, Agricultural Experiment Station (1930, 1946).
B. S., M. S., Kansas State College.
- JOHN SHERMAN CORYELL, Assistant Professor of Horticulture; Assistant Floriculturist, Agricultural Experiment Station (1949).
B. S., Michigan State College.
- RUFUS FRANCIS COX, Professor and Head of Department of Animal Husbandry; Animal Husbandman, in charge, Agricultural Experiment Station (1930, 1950).
B. S., Oklahoma Agricultural and Mechanical College; M. S., Iowa State College; Ph. D., Cornell University.
- BYRD C. CURTIS, Graduate Research Assistant in Agronomy (1950).
B. S., Oklahoma Agricultural and Mechanical College.
- FLOYD EWING DAVIDSON, Superintendent, Mound Valley Branch Agricultural Experiment Station (1934, 1949).
B. S., M. S., Kansas State College.
- CHARLES DEFOREST DAVIS, Professor of Agronomy, Emeritus (1921, 1949).
B. S., M. S., Kansas State College.
- CARROLL CHRIS DOLL, Graduate Assistant in Horticulture (1950).
B. S., University of Illinois.
- RAYMOND J. DOLL, Professor of Agricultural Economics; Agricultural Economist, Agricultural Experiment Station (1936, 1949).
B. S., M. S., Kansas State College; Ph. D., University of Minnesota.
- HOWARD RISSELL DORSETT, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1950).
B. S., Oklahoma Agricultural and Mechanical College.
- WILBERT WILLIAM DUTSMAN, Assistant Superintendent, Fort Hays Branch Agricultural Experiment Station (1941, 1950).
B. S., Kansas State College.
- BERTHA MAY DURFEE, Research Assistant in Horticulture (1950).
B. S., Cornell University.
- FRANKLIN ELMER ELDREDGE, Associate Professor of Dairy Husbandry; Associate Dairy Husbandman, Agricultural Experiment Station (1948).
B. S., University of Idaho; M. S., Kansas State College; Ph. D., Cornell University.
- ROSCOE ELLIS, JR., Instructor in Agronomy; Assistant Agronomist, Agricultural Experiment Station (1948, 1949).
B. S., M. S., Kansas State College.
- CARL L. ENGLEHORN, Soil Scientist, Soil Conservation Service, U. S. D. A., Agricultural Experiment Station (1949).
B. S., South Dakota State College; M. S., University of Nebraska.
- ANDREW BRYAN ERHART, Superintendent, Garden City Branch Agricultural Experiment Station (1936, 1948).
B. S., Kansas State College.
- EARL LEROY FARMER, Assistant Professor of Dairy Husbandry; Assistant Dairy Husbandman, Agricultural Experiment Station (1949).
B. S., University of Missouri.
- EUGENE PATRICK FARRELL, Milling Technologist, Agricultural Experiment Station (1949).
B. S., Kansas State College.

FRANCIS DAVID FARRELL, President, Emeritus; Professor of Rural Institutions (1918, 1943).

B. S., Utah State College; Agr. D., University of Nebraska; LL. D., Washburn University.

GEORGE ALBERT FILINGER, Professor of Horticulture; Pomologist, Agricultural Experiment Station (1931, 1946).

B. S., M. S., Kansas State College; Ph. D., Ohio State University.

KARL FREDERICK FINNEY, Professor of Milling Industry; Chemist, Bureau of P. I. S. A. E., U. S. D. A., Agricultural Experiment Station (1938, 1948).

A. B., Kansas Wesleyan University; B. S., M. S., Kansas State College.

ALMON SUTPHEN FISH, JR., Assistant Professor of Horticulture; Assistant Horticulturist, Agricultural Experiment Station (1948, 1950).

A. B., Bates College; M. S., Kansas State College.

DONALD EDWIN FLEMING, Instructor in Milling Industry; Milling Technologist, Agricultural Experiment Station, in co-operation with U. S. D. A. (1941, 1949).

B. S., Kansas State College.

CLAUDE LEE FLY, Soil Scientist, U. S. D. A., Agricultural Experiment Station (1947).

B. S., M. S., Oklahoma Agricultural and Mechanical College; Ph. D., Iowa State College.

FORREST CHARLES FOUNTAINE, Professor of Dairy Husbandry; Dairy Husbandman, Agricultural Experiment Station (1947).

B. S., University of Wisconsin; M. S., Ph. D., University of Minnesota.

ROY D. GEAR, Instructor in Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1949, 1950).

B. S., Kansas State College.

JOE RAY GINGRICH, Graduate Research Assistant in Agronomy (1950).

B. S., Kansas State College.

CHARLES WILLIAM GLENN, Instructor in Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1950).

B. S., Kansas State College.

DON LADDOYT GOOD, Assistant Professor of Animal Husbandry; Assistant Animal Husbandman, Agricultural Experiment Station (1947, 1949).

B. S., Ohio State University.

JOHN ALAN GOODING, Instructor in Agronomy; Assistant Agronomist, Agricultural Experiment Station (1948).

B. S., University of Nebraska; M. S., Kansas State College.

CLARENCE OWEN GRANDFIELD, Agronomist, Bureau of P. I. S. A. E., U. S. D. A., Agricultural Experiment Station (1927, 1948).

B. S., M. S., Kansas State College.

MICHAEL GRAZNAK, Graduate Research Assistant in Agronomy (1950).

B. S., University of Missouri.

BEN LEO GROVER, Assistant Agronomist, Garden City Branch Agricultural Experiment Station (1950).

B. S., M. S., Utah State Agricultural College.

HOWARD LAIRD HALL, Research Assistant in Agricultural Economics (1949).

B. S., M. S., Kansas State College.

ALICE GEORGIA HARTLEY, Instructor in Agronomy; Director, State Seed Laboratory (1948, 1949).

FRANKLIN JOSEPH HEIM, Graduate Assistant in Dairy Husbandry (1950).

B. S., Pennsylvania State College.

- ELMER G. HEYNE, Professor of Agronomy; Agronomist, Agricultural Experiment Station (1936, 1947).
B. S., University of Nebraska; M. S., Kansas State College.
- ELLIOTT LEE HIX, Assistant in Animal Husbandry (1949, 1950).
B. S., University of Georgia; M. S., Kansas State College.
- JAMES ARTHUR HOBBS, Assistant Professor of Agronomy; Assistant Agronomist, Agricultural Experiment Station (1950).
B. S., M. S., University of Manitoba (Canada); Ph. D., Purdue University.
- JULIAN ADAIR HODGES, Professor of Agricultural Economics; Agricultural Economist, Agricultural Experiment Station (1923, 1941).
B. S., M. S., University of Kentucky; M. A., Ph. D., Harvard University.
- LEO M. HOOVER, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1947, 1949). On leave.
B. S., Kansas State College; M. S., Iowa State College.
- HEMAN L. IBSEN, Professor of Animal Husbandry; Animal Geneticist, Agricultural Experiment Station (1919, 1924).
B. S., M. S., Ph. D., University of Wisconsin.
- JOHN ALEXANDER JOHNSON, Associate Professor of Milling Industry; Associate in Milling and Baking Research, Agricultural Experiment Station (1940, 1947).
B. S., North Dakota Agricultural College; M. S., Kansas State College.
- LLOYD CHARLES JONES, Assistant Agronomist, Mound Valley Branch Agricultural Experiment Station (1949, 1950).
B. S., Kansas State College.
- RAY ALBERT KEEN, Assistant Professor in Horticulture; Assistant Ornamental Horticulturist, Agricultural Experiment Station (1947).
B. S., Kansas State College; M. S., Ohio State University.
- PAUL LEO KELLEY, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1946, 1947).
B. S., M. S., Kansas State College.
- FRANK B. KESSLER, Animal Husbandman, Fort Hays Branch Agricultural Experiment Station (1946).
B. S., Kansas State College.
- DALE ALPHEUS KNIGHT, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1948).
B. S., Kansas State College; M. S., Cornell University; M. A., University of Chicago.
- JAMES ELWOOD KNOX, Assistant Dairy Husbandman, Mound Valley Branch Agricultural Experiment Station (1949, 1950).
B. S., Mississippi State College.
- HARVEY R. KOPPER, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1946, 1948).
B. S., M. S., Kansas State College.
- JOE WENDELL KOUDELE, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1947, 1949).
B. S., University of Nebraska; M. S., University of Minnesota.
- ROBERT PAUL LARSEN, Graduate Assistant in Horticulture (1950).
B. S., Utah State College.

HILMER HENRY LAUDE, Professor of Agronomy; Agronomist, Agricultural Experiment Station (1920, 1930).

B. S., Kansas State College; M. S., Texas Agricultural and Mechanical College; Ph. D., University of Chicago.

WALTER JOHN LELAND, Instructor in Dairy Husbandry; Plant Superintendent, Agricultural Experiment Station (1949, 1950).

B. S., Kansas State College; M. S., Ohio State University.

ALVIN ERNEST LOWE, Associate Agronomist, Garden City Branch Agricultural Experiment Station (1937).

B. S., M. S., Kansas State College.

MARVIN CARL LUNDQUIST, Research Assistant in Agronomy, Bureau of P. I. S. A. E., U. S. D. A. (1950).

B. S., Kansas State College.

GEORGE LELAND McCALL, Weed Control Specialist, Agricultural Experiment Station, in co-operation with DuPont Company (1946).

B. S., University of California; M. S., Ph. D., Ohio State University.

CHARLES WILBUR McCAMPBELL, Professor of Animal Husbandry; Animal Husbandman, Agricultural Experiment Station (1910, 1944).

B. S., B. S. A., D. V. M., Kansas State College.

JOHN F. McCARTHY, Graduate Assistant in Animal Husbandry (1950).

B. S., Montana State College.

JOHN HENRY MCCOY, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1940, 1948).

B. S., M. S., Kansas State College.

DAVID L. MACKINTOSH, Professor of Animal Husbandry; Animal Husbandman, Agricultural Experiment Station (1921, 1947).

B. S., University of Minnesota; M. S., Kansas State College.

ELBERT BONEBRAKE MACY, Assistant Professor of Technical Journalism; Station Editor, Agricultural Experiment Station (1943, 1946).

B. S., M. S., Kansas State College.

ERNEST LEE MADER, Associate Professor of Agronomy; Associate Agronomist, Agricultural Experiment Station (1948).

B. S., M. S., Oklahoma Agricultural and Mechanical College.

MILTON LLOYD MANUEL, Associate Professor of Agricultural Economics; Associate Agricultural Economist, Agricultural Experiment Station (1945, 1949).

B. S., M. S., Kansas State College.

EDWIN P. MARGERUM, JR., Assistant Professor of Animal Husbandry; Assistant Animal Husbandman, Agricultural Experiment Station (1949).

B. S., Pennsylvania State College; M. S., Michigan State College.

WILLARD HUNGATE MARTIN, Professor of Dairy Husbandry; Dairy Husbandman, Agricultural Experiment Station (1925, 1927).

B. S., Purdue University; M. S., Pennsylvania State College.

RUTHFORD BURT MAXCY, Assistant Professor of Dairy Husbandry; Assistant Dairy Husbandman, Agricultural Experiment Station (1950).

B. S., Mississippi State College; M. S., Ph. D., University of Wisconsin.

FRIEDRICH EDWARD MEENEN, Forage Crops Specialist, Fort Hays Branch Agricultural Experiment Station (1941, 1945).

B. S., M. S., Kansas State College.

- JOHN WILBUR MEYER, Cereal Technologist, Bureau of P. I. S. A. E., U. S. D. A., Agricultural Experiment Station (1950).
B. S., Kansas State College.
- WALTER RICHARD MEYER, Irrigation Engineer, Soil Conservation Service, U. S. D. A., Garden City Branch Agricultural Experiment Station (1947, 1948).
B. S., Kansas State College.
- BYRON SLOANE MILLER, Associate Professor of Milling Industry; Associate Chemist, Bureau of P. I. S. A. E., U. S. D. A., Agricultural Experiment Station (1946, 1948).
B. S., University of Nebraska; M. S., Purdue University; Ph. D., Kansas State College.
- GERALD DALE MILLER, Assistant Professor of Milling Industry; Cereal Chemist, Agricultural Experiment Station, in co-operation with U. S. D. A. (1946, 1948).
B. S., University of Nebraska.
- MAX MILNER, Professor of Milling Industry; Cereal Chemist, Agricultural Experiment Station (1947).
B. S., University of Saskatchewan (Canada); M. S., Ph. D., University of Minnesota.
- ARNOLD NORMAN MOELLER, Assistant Professor of Dairy Husbandry; Assistant Dairy Husbandman, Agricultural Experiment Station (1950).
B. S., M. S., University of Illinois.
- WALTER ASHTON MOORE, Assistant in Agronomy, South Central Kansas Experiment Fields (1943, 1944).
B. S., Kansas State College.
- FRED MOULTRIE, Graduate Research Assistant in Poultry Husbandry (1950).
B. S., M. S., Alabama Polytechnic Institute.
- HARRY WALTER MUDGE, JR., Instructor in Dairy Husbandry; Assistant Dairy Husbandman, Agricultural Experiment Station (1950).
B. S., Kansas State College.
- CLYDE DEWEY MUELLER, Professor of Poultry Husbandry; Poultry Geneticist, Agricultural Experiment Station (1948).
B. S., Kansas State College; M. S., Ph. D., Cornell University.
- CLYDE WILLIAM MULLEN, Associate Professor of Agronomy; Assistant Dean; Assistant to the Director, Agricultural Experiment Station (1937).
B. S., Oklahoma Agricultural and Mechanical College; M. S., Kansas State College.
- HAROLD EDWIN MYERS, Professor and Head of Department of Agronomy; Agronomist, in charge, Agricultural Experiment Station (1929, 1946).
B. S., Kansas State College; M. S., University of Illinois; Ph. D., University of Missouri.
- R. SHANNON NICKELSON, Instructor in Agronomy; Assistant Secretary, Kansas Crop Improvement Association, Agricultural Experiment Station (1948, 1949).
B. S., M. S., Kansas State College.
- LEWIS BERTIE OLMSTEAD, Professor of Agronomy; Physicist, Bureau of P. I. S. A. E., U. S. D. A., Agricultural Experiment Station (1949).
B. S., M. A., University of Nebraska; Ph. D., American University.
- RAYMOND V. OLSON, Professor of Agronomy; Agronomist, Agricultural Experiment Station (1947, 1950).
B. S., North Dakota State College; M. S., Ph. D., University of Wisconsin.
- KARL HALVOR OSTLUND, Research Assistant in Agricultural Economics (1950).
B. S., Kansas State College.

- MERTON LOUIS OTTO, Associate Professor of Agricultural Economics; Associate Agricultural Economist, Agricultural Experiment Station (1939, 1947).
B. S., M. S., Kansas State College.
- CARL B. OVERLEY, Instructor of Agronomy; Secretary, Kansas Hybrids Association, Agricultural Experiment Station (1946, 1947).
B. S., Kansas State College.
- RICHARD ROYCE PATTERSON, Research Assistant in Agricultural Economics (1950).
B. S., Kansas State College.
- LOYAL FREDERICK PAYNE, Professor and Head of Department of Poultry Husbandry; Poultry Husbandman, in charge, Agricultural Experiment Station (1921, 1923).
B. S., Oklahoma Agricultural and Mechanical College; M. S., Kansas State College.
- ERNEST ALBERT PENCE, Graduate Assistant in Milling Industry (1950).
B. S., Kansas State College.
- ROYCE OWEN PENCE, SR., Associate Professor of Milling Industry (1927, 1939).
B. S., M. S., Kansas State College.
- VERLIN H. PETERSON, Assistant in Agronomy, Southeast Kansas Experimental Fields (1948, 1949).
B. S., Kansas State College.
- WILLIAM MAURICE PHILLIPS, Assistant Agronomist, Bureau of P. I. S. A. E., U. S. D. A., Fort Hays Branch Agricultural Experiment Station (1947, 1948).
B. S., M. S., Kansas State College.
- ROBERT COOPER PICKETT, Assistant Professor of Agronomy; Assistant Agronomist, Agricultural Experiment Station (1949).
B. S., Kansas State College; Ph. D., University of Wisconsin.
- WILLIAM FRANCIS PICKETT, Professor and Head of Department of Horticulture; Horticulturist, in charge, Agricultural Experiment Station (1917, 1936).
B. S., M. S., Kansas State College; Ph. D., Michigan State College.
- WILFRED HAROLD PINE, Professor of Agricultural Economics; Agricultural Economist, Agricultural Experiment Station (1934, 1949). On leave.
B. S., M. S., Kansas State College; Ph. D., University of Minnesota.
- PHILLIP EDMOND PLUMART, Graduate Assistant in Poultry Husbandry (1950).
B. S., University of Illinois.
- GEORGE CHRISTIAN POTTER, Research Assistant in Milling Industry (1948, 1950).
B. S., M. S., Kansas State College.
- HAROLD ANDREW PRYOR, Research Assistant in Agricultural Economics (1950).
B. S., Kansas State College.
- LEON REED QUINLAN, Professor of Horticulture; Ornamental Horticulturist, Agricultural Experiment Station (1927, 1931).
B. S., Colorado Agricultural and Mechanical College; M. L. A., Harvard University.
- FLETCHER E. RIGGS, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1940, 1951).
B. S., M. S., Kansas State College.
- HAROLD MARVIN RILEY, Assistant Professor of Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1947, 1949).
B. S., M. S., Kansas State College.

- WILLIAM LOWELL ROCK, Soil Scientist, Bureau of P. I. S. A. E., U. S. D. A., Garden City Branch Agricultural Experiment Station (1948).
B. S., Kansas State College.
- OLIVER GEORGE RUSS, Graduate Assistant in Agronomy (1949, 1950).
B. S., Kansas State College.
- PAUL EVERETT SANFORD, Associate Professor of Poultry Husbandry; Poultry Nutritionist, Agricultural Experiment Station (1949).
B. S., Kansas State College; M. S., Ph. D., Iowa State College.
- LEONARD WILLIAM SCHRUBEN, Associate Professor of Agricultural Economics; Associate Agricultural Economist, Agricultural Experiment Station (1949).
B. S., Kansas State College; M. S., University of Illinois; M. P. A., M. A., Ph. D., Harvard University.
- ORLIN JAMES SCOVILLE, Agricultural Economist, Bureau of Agricultural Economics, U. S. D. A., Agricultural Experiment Station (1948).
B. S., M. S., Colorado State College; Ph. D., Harvard University.
- ROBERT PAUL SEIFERT, Graduate Research Assistant, Bureau of P. I. S. A. E., U. S. D. A. (1950).
B. S., Kansas State College.
- JOSEPH LYMAN SHAWCROFT, Graduate Assistant in Dairy Husbandry (1950).
B. S., Brigham Young University.
- JOHN ALFRED SHELLENBERGER, Professor and Head of Department of Milling Industry; Cereal Chemist, in charge, Agricultural Experiment Station, in co-operation with U. S. D. A. (1944, 1945).
B. S., University of Washington; M. S., Kansas State College; Ph. D., University of Minnesota.
- CLYDE CECIL SINGLETARY, Assistant Professor of Horticulture; Assistant Olericulturist, Agricultural Experiment Station (1950).
B. S., M. S., Louisiana State University; Ph. D., Purdue University.
- JOHN BERNARD SJO, Instructor in Agricultural Economics; Assistant Agricultural Economist, Agricultural Experiment Station (1948, 1950).
B. S., Kansas State College.
- ROBERT FRED SLOAN, Assistant in Agronomy, North Central Kansas Experiment Fields (1938, 1942).
B. S., M. S., Kansas State College.
- EDGAR FITZHUGH SMITH, Assistant Professor of Animal Husbandry; Assistant Animal Husbandman, Agricultural Experiment Station (1947, 1948).
B. S., Texas Agricultural and Mechanical College; M. S., Kansas State College.
- FLOYD WILLIAM SMITH, Professor of Agronomy; Agronomist, Agricultural Experiment Station (1946, 1950).
B. S., Kansas State College; M. S., Ph. D., Michigan State College.
- HERMAN D. SMITH, Research Assistant in Poultry Husbandry (1946).
B. S., University of Illinois.
- LOREN BROOKS SMITH, Research Assistant in Milling Industry (1950).
Graduate, American Institute of Baking.
- WALTER HENRY SMITH, Assistant Professor of Animal Husbandry; Assistant Animal Husbandman, Agricultural Experiment Station (1949, 1950).
B. S., M. S., Kansas State College.
- WILLIAM D. STALL, Graduate Assistant in Animal Husbandry (1950).
B. S., Texas Technological College.

- THOMAS BRUCE STINSON, Superintendent, Tribune Branch Agricultural Experiment Station (1924, 1950).
B. S., Kansas State College.
- ARTHUR FRITHIOF SWANSON, Agronomist, Bureau of P. I. S. A. E., U. S. D. A., Fort Hays Branch Agricultural Experiment Station (1919, 1944).
B. S., Kansas State College; M. S., University of Minnesota.
- LOYD ALLEN TATUM, Associate Professor of Agronomy; Agronomist, Bureau of P. I. S. A. E., U. S. D. A., Agricultural Experiment Station (1950).
B. S., University of Arizona; M. S., Ph. D., Iowa State College.
- CHESTER GORDON THOMPSON, State Supervisor of Dairy Herds (1949).
B. S., Kansas State College.
- RAY IAMS THROCKMORTON, Dean; Director, Agricultural Experiment Station (1911, 1946).
B. S., Pennsylvania State College; M. S., Kansas State College.
- CHARLEY EUGENE TOWNSEND, Graduate Research Assistant in Agronomy, Bureau of P. I. S. A. E., U. S. D. A. (1950).
B. S., Kansas State College.
- THOMAS CURTIS TUCKER, Graduate Assistant in Agronomy (1949).
B. S., University of Kentucky.
- ARLIN BRUCE WARD, Assistant Professor of Milling Industry; Assistant Milling Technologist, Agricultural Experiment Station (1946, 1948).
B. S., Kansas State College.
- ARTHUR D. WEBER, Associate Dean; Associate Director, Agricultural Experiment Station (1931, 1950).
B. S., M. S., Kansas State College; Ph. D., Purdue University.
- DALE ELDON WEIBEL, Assistant Agronomist, Bureau of P. I. S. A. E., U. S. D. A., Agricultural Experiment Station (1947).
B. S., M. S., University of Nebraska.
- ARCHER CARL WILCOX, Research Assistant in Milling Industry (1950).
B. S., M. S., University of Kansas.
- BOYCE COCHRAN WILLIAMS, Graduate Research Assistant in Agronomy (1950).
B. S., New Mexico College of Agriculture and Mechanic Arts.
- WILLIAM WAYNE WILLIS, Assistant Professor of Horticulture; Assistant Floriculturist, Agricultural Experiment Station (1944, 1946).
A. B., College of Emporia.
- CHARLES PEAIRS WILSON, Associate Professor of Agricultural Economics; Associate Agricultural Economist, Agricultural Experiment Station (1938, 1947).
B. S., M. S., Kansas State College.
- VERNON WINFIELD WOESTEMEYER, Assistant in Agronomy, Bindweed Experiment Field (1947).
B. S., Kansas State College.
- NEIL PARKER WOODRUFF, Agricultural Engineer, Soil Conservation Service, U. S. D. A., Agricultural Experiment Station (1949).
B. S., Kansas State College.
- JAMES WALTER ZAHNLEY, Professor of Agronomy; Agronomist, Agricultural Experiment Station (1915, 1947).
B. S., M. S., Kansas State College.
- AUSTIN WESLEY ZINGG, Agricultural Engineer, Soil Conservation, U. S. D. A., Agricultural Experiment Station (1947).
B. S., Iowa State College.

WALTER EUGENE ZURFLUH, Graduate Assistant in Agricultural Economics (1950).
B. S., Kansas State College.

SCHOOL OF ARTS AND SCIENCES

NELLIE ABERLE, Professor of English (1921, 1948).
B. S., M. S., Kansas State College

JAMES EDWARD ACKERT, Dean of the Graduate School, Emeritus; Professor of Zoology, Emeritus (1913, 1950).
A. B., A. M., Ph. D., University of Illinois.

FRANKLIN LEROY ADAMS, Graduate Assistant in Physics (1950).
B. S., University of Delaware.

WILBUR C. ADDISON, Instructor in English (1947).
A. B., Emory and Henry College.

OSCAR W. ALM, Professor of Psychology (1929, 1933).
A. B., University of Nebraska; A. M., Columbia University; Ph. D., University of Minnesota.

INEZ ALSOP, Associate Professor of History (1923, 1941).
B. S., Kansas State Teachers College (Emporia); M. S., University of Kansas.

MALCOLM L. ALSOP, Assistant in Physics (1947, 1949).
B. S., M. S., Kansas State College

DONALD JULES AMEEL, Professor and Head of Department of Zoology; Curator of Natural History Museum (1937, 1945).
A. B., Wayne University; M. A., Sc. D., University of Michigan.

EDGAR MCCALL AMOS, Associate Professor of Technical Journalism, Emeritus (1920, 1936).
B. S., Kansas State College.

ROBERT A. ANDERSON, Instructor in Economics (1949).
B. S., Kansas State College.

ARTHUR CLINTON ANDREWS, Associate Professor of Chemistry (1926, 1947).
B. S., Ph. D., University of Wisconsin; M. S., Kansas State College.

JOYE ANSDELL, Instructor in English (1946).
B. S., Kansas State College; M. A., University of Michigan; B. L. S., University of Chicago.

GEORGE LYMAN ARMS, JR., Associate Professor of Speech (1948).
B. S., M. A., Ohio State University.

PHIL H. ARNOLD, Graduate Assistant in Mathematics (1950).
A. B., Nebraska Wesleyan University.

ROBERT GEORGE ARNOLD, Assistant Professor of Speech (1947, 1949).
A. B., College of Wooster.

MADALYN AVERY, Associate Professor of Physics (1924, 1946).
B. S., M. S., Kansas State College

RODNEY WHITTEMORE BABCOCK, Dean (1930).
A. B., University of Missouri; A. M., Ph. D., University of Wisconsin.

RUTH BACHELDER, Assistant Professor of English (1947).
B. S., Kansas State College; M. S., Northwestern University.

EDGAR SIDNEY BAGLEY, Professor of Economics (1940, 1950).
A. B., A. M., University of California at Los Angeles; Ph. D., University of Iowa.

- GEORGE H. BAIN, Graduate Assistant in Chemistry (1950).
B. S., Park College; M. S., University of Oregon.
- HARRY LEIGH BAKER, Professor and Head of Department of Education and Psychology (1946).
A. B., Baker University; B. S., Kansas State College; A. M., University of Chicago; Ph. D., Yale University.
- HAROLD NATHAN BARHAM, Professor of Chemistry (1929, 1943).
A. B., Bethany College; M. S., Ohio State University; Ph. D., University of Kansas.
- JAMES C. BATES, Temporary Assistant Professor of Botany and Plant Pathology (1935, 1950).
A. B., M. S., Ph. D., University of Kansas.
- LAURA FALKENRICH BAXTER, Associate Professor of Home Economics Education (1927, 1941).
B. S., M. S., Kansas State College
- RUSSELL J. BEERS, Assistant Professor of Chemistry (1935, 1948).
B. S., M. S., University of Nebraska.
- ELLSWORTH B. BEETCH, Graduate Assistant in Chemistry (1949).
B. S., Mankato State Teachers College.
- ISABEL GORDON BENTLEY, Graduate Assistant in Music (1950).
B. M., Miami University.
- ROBERT H. BERKLEY, Instructor in Education (1949).
B. S., University of Missouri.
- NORMAN WILLIAM BIEGLER, Graduate Assistant in Geology (1950).
B. S., Kansas State College.
- ETCYL HOWELL BLAIR, Graduate Research Assistant in Chemistry (1948).
A. B., Southwestern College; M. S., Kansas State College.
- PHILIP FREDERIC BONHAG, Assistant Professor of Entomology (1948).
B. S., Long Island University; M. S., Pennsylvania State College; Ph. D., Cornell University.
- WILLIAM SANFORD BONIECE, Instructor in Bacteriology (1950).
B. S., Ph. D., Michigan State College.
- WILLIAM RAYMOND BRACKETT, Associate Professor of Physics (1919, 1923).
A. B., University of Colorado.
- DOROTHY MARY BRADLEY, Instructor in Economics (1947).
B. S., Northwestern University; M. S., Kansas State College.
- E. LOWELL BRANDNER, Assistant Professor of Technical Journalism (1947).
A. B., B. S., Kansas State Teachers College (Emporia).
- AUGUSTIN WILBER BREEDEN, Associate Professor of English, Emeritus (1926, 1949).
B. Ph., M. A., University of Chicago.
- EMMETT N. BREEN, Instructor in Physical Education (1948).
B. S., Kansas State College.
- HOWARD W. BRUBAKER, Professor of Chemistry, Emeritus (1913, 1922).
B. S., Carleton College; Ph. D., University of Pennsylvania.
- HARRY R. BRYSON, Associate Professor of Entomology; Associate Entomologist, Agricultural Experiment Station (1924, 1941).
B. S., M. S., Kansas State College.

- KENNETH BURKHARD, Instructor in Chemistry (1950).
A. B., Arizona State College; Ph. D., Northwestern University.
- COBURN MAURICE BURNS, Graduate Assistant in Bacteriology (1950).
A. B., Marion College; M. S., University of Alabama.
- LELAND DAVID BUSHNELL, Professor of Bacteriology (1908, 1912).
B. S., Michigan State College; M. S., University of Kansas; Ph. D., Harvard University.
- MILDRED BUZENBERG, Graduate Assistant in Economics (1949).
A. B., Michigan State College.
- FRANK EDWARD BYRNE, Professor of Geology (1930, 1946).
B. S., Ph. D., University of Chicago.
- JAMES PHILLIP CALLAHAN, Professor of English (1924, 1946).
B. S., Fort Hays State College; A. M., University of Kansas.
- ALVIN BOYD CARDWELL, Professor and Head of Department of Physics (1936, 1937).
B. S., University of Chattanooga; M. S., Ph. D., University of Wisconsin.
- JAMES C. CAREY, Associate Professor of History (1948, 1950).
A. B., Nebraska State Teachers College; M. A., Ph. D., University of Colorado.
- FRANK ROBERT CARPENTER, Assistant Instructor in Education (1949).
B. S., Kansas State College.
- JOHN HOLDEN CARR, Graduate Assistant in Bacteriology (1950).
Kansas State Teachers College (Emporia).
- ERNEST KNIGHT CHAPIN, Associate Professor of Physics (1923, 1932).
A. B., M. S., University of Michigan.
- WILLIAM CHARLES, Associate Professor of Music (1950).
B. S., University of Nebraska; M. M., Chicago Musical College.
- JOSEPH R. CHELIKOWSKY, Professor of Geology (1937, 1947).
A. B., A. M., Ph. D., Cornell University.
- MERRETH EUGENE CHRISTOPHERSON, Graduate Assistant in Physical Education (1950).
B. S., South Dakota State College.
- WILLIAM JAMES CLARK, Associate Professor of Accounting (1948).
B. S., Kansas State Teachers College (Pittsburg); M. A., State University of Iowa.
- ROBERT EDWARD CLEGG, Associate Professor of Chemistry (1948).
B. S., Rhode Island State College; B. S., North Carolina State College; Ph. D., Iowa State College.
- RUTH E. CLIFTON, Instructor in Sociology (1947, 1948).
B. S., Kansas State College.
- CHARLES WILLIAM COLVER, Professor of Chemistry (1919, 1925).
B. S., M. S., University of Idaho; Ph. D., University of Illinois.
- ROBERT WARREN CONOVER, Professor of English (1915, 1920).
A. B., M. A., Wesleyan University.
- ELIZABETH L. CONRAD, Instructor in Chemistry (1942).
A. B., Carleton College; M. A., Smith College; Ph. D., State University of Iowa.
- CHARLES MECLAIN CORRELL, Professor of History, Emeritus; College Historian (1922, 1950).
B. S., Kansas State College; Ph. B., Ph. M., University of Chicago.

- RONALD F. COTTS, Temporary Graduate Research Assistant in Chemistry (1950).
B. A., M. A., University of Kansas City.
- GOLDA M. CRAWFORD, Assistant Professor of History (1946, 1949).
B. S., M. S., Kansas State College.
- PAUL A. DAHM, Associate Professor of Entomology (1947, 1950).
B. A., M. A., Ph. D., University of Illinois.
- RALPH EUGENE DAKIN, Assistant Professor of Sociology (1948).
B. F. A., M. A., University of Colorado.
- ROBERT DODDS DAUGHERTY, Assistant Professor of Mathematics, Emeritus (1930, 1948).
Ph. B., Iowa Wesleyan College; M. S., State University of Iowa.
- ALLAN PARK DAVIDSON, Professor of Vocation Education (1919, 1930).
B. S., M. S., Kansas State College.
- EARLE R. DAVIS, Professor and Head of Department of English (1949, 1950).
A. B., B. Mus., Monmouth College; M. A., University of Illinois; Ph. D., Princeton University.
- HALLAM WALKER DAVIS, Professor of English (1913, 1921).
A. B., Indiana University; A. M., Columbia University.
- MICHAEL EDWARD DAVIS, Graduate Assistant in Geology (1950).
B. S., Kansas State College.
- GEORGE ADAM DEAN, Professor of Entomology, Emeritus (1902, 1943).
B. S., M. S., Kansas State College; Sc. D., Southwestern College.
- DONALD FRANK DECOU, Associate Professor of Economics and Sociology (1947).
B. S., Kansas State Teachers College (Pittsburg); M. B. A., Northwestern University.
- JOHN WESLEY DEMAND, Assistant Professor of Psychology (1940, 1946).
A. B., University of Kansas; M. S., Kansas State College.
- JOHN E. DEVRIES, Associate Professor of Chemistry (1946, 1948).
A. B., Hope College; Ph. D., University of Illinois.
- LEONARD W. DEWHIRST, Graduate Assistant in Zoology (1949).
B. S., Kansas State College.
- THEODORE O. DODGE, Assistant Professor of Accounting (1946).
B. S., Kansas State College.
- ESTHER D. DOMINICK, Instructor in English (1948).
A. B., Kansas Wesleyan University; M. S., Kansas State College.
- CARL A. DORF, Assistant Professor of Chemistry (1931, 1948).
A. B., Bethany College; M. S., Kansas State College.
- LOUIS H. DOUGLAS, Professor of Government (1949).
A. B., Hastings College; M. A., Ph. D., University of Nebraska.
- ROBERT LEWIS DOYLE, Graduate Assistant in Chemistry (1950).
B. S., Kansas State College.
- RUSSELL DEAN DRAGSDORF, Assistant Professor of Physics (1948).
B. S., Ph. D., Massachusetts Institute of Technology.
- EDWARD A. DUDDY, Professor of Economics (1950).
A. B., Bowdoin College; A. M., Harvard University.
- GORDON W. DUEKER, Graduate Assistant in Physics (1950).
B. S., Kansas State College.

- MARILYNN S. DUEKER, Assistant Professor of Mathematics (1947, 1949).
A. B., Hunter College; A. M., University of California.
- VERLIN ROBERT EASTERLING, Assistant Professor of History (1946).
A. B., Northwestern State Teachers College; M. A., University of Colorado.
- GEORGE ORVAL EBBERTS, Assistant Professor; Assistant to Dean (1946, 1949).
B. S., Kansas State College.
- JOHN R. EGERTON, Graduate Research Assistant in Zoology (1950).
B. S., Colorado Agricultural and Mechanical College.
- HELEN ELIZABETH ELCOCK, Professor of English (1920, 1948).
A. B., College of Emporia; A. M., University of Chicago.
- BYRON ELBRIDGE ELLIS, Professor of Technical Journalism (1949, 1950).
A. B., Pacific Union College; A. M., University of Southern California.
- LOUIS D. ELLSWORTH, Associate Professor of Physics (1946).
B. S., Case Institute of Technology; M. S., Ph. D., Ohio State University.
- OTTO HERMAN ELMER, Associate Professor of Botany; Associate Plant Pathologist, Agricultural Experiment Station (1927, 1937).
B. S., M. S., Oregon Agricultural College; Ph. D., Iowa State College.
- PHILIP GERALD ENGSTROM, Graduate Assistant in Mathematics (1950).
A. B., Bethany College.
- GLENN KENNETH EPP, Graduate Assistant in Mathematics (1950).
B. A., Bethel College.
- CONRAD J. K. ERIKSEN, Associate Professor of Economics (1946, 1947).
A. B., University of Kansas; M. B. A., Harvard University.
- LESTER EDGAR ERWIN, Associate Professor of Bacteriology (1946, 1950).
B. S., Kansas State College; M. S., Ph. D., Iowa State College.
- ELBERT L. ESHBAUGH, Instructor in Entomology, Agricultural Experiment Station (1945, 1947).
B. S., Kansas State College.
- CHARLES CLIFFORD EUSTACE, Assistant Professor of Agricultural Education (1946).
B. S., Kansas State College.
- HOWARD ENSIGN EVANS, Assistant Professor of Entomology (1949).
B. A., University of Connecticut; M. S., Ph. D., Cornell University.
- THOMAS M. EVANS, Assistant Professor of Physical Education (1942, 1948).
B. S., Kansas State College; M. S., University of Michigan.
- WILLIAM P. FAIRCHILD, Graduate Assistant in Chemistry (1949).
B. A., University of Kansas City.
- JACOB OLIN FAULKNER, Professor of English (1922, 1927).
A. B., Washington and Lee University; M. A., Pennsylvania State College.
- JAMES EARL FAULKNER, Graduate Assistant in Mathematics (1950).
B. S., Utah State Agricultural College.
- GEORGE ROBERT FELL, Instructor in Speech (1950).
B. A., University of South Dakota.
- GLENN LEROY FICKEL, Instructor in English (1947).
A. B., Adrian College; S. T. B., Westminster Theological Seminary; M. S., Kansas State College.
- DONALD HAROLD FIRL, Graduate Assistant in Mathematics (1950).
B. A., Gustavus Adolphus College.

- ROLAND L. FISCHER, Instructor in Entomology (1948, 1950).
B. S., University of Michigan; M. S., Michigan State College.
- CLETUS GRAYDON FISHER, Instructor in Speech (1950).
B. S., Kent State University; M. A., State University of Iowa.
- WINSTON M. FLORENCE, Graduate Research Assistant in Chemistry (1949).
B. S., North Texas State Teachers College.
- EUSTACE V. FLOYD, Professor of Physics, Emeritus (1911, 1948).
B. S., Earlham College.
- VERNON DANIEL FOLTZ, Professor of Bacteriology (1929, 1946).
B. S., M. S., Kansas State College.
- GERALD LAWRENCE FOSTER, Graduate Research Assistant in Chemistry (1950).
B. S., Ottawa University.
- CLARENCE M. FOWLER, Assistant Professor of Physics (1949).
B. S., University of Illinois; M. S., Ph. D., University of Michigan.
- ABRAHAM FRANCK, Assistant Professor of Mathematics (1950).
B. A., M. A., University of New Mexico; Ph. D., University of Minnesota.
- WOODROW WILSON FRANKLIN, Assistant Professor of Entomology (1948, 1950).
B. S., McPherson College; Ph. D., Kansas State College.
- JOHN CARROLL FRAZIER, Professor of Botany and Plant Pathology; Plant Physiologist, Agricultural Experiment Station (1926, 1947).
A. B., DePauw University; M. A., University of Nebraska; Ph. D., University of Chicago.
- HOLLY CLAIRE FRYER, Professor of Mathematics; Statistician, Agricultural Experiment Station (1940, 1945).
B. S., University of Oregon; M. S., Oregon State College; Ph. D., Iowa State College.
- ALBERT FURMAN, Assistant Professor of Mathematics (1947).
A. B., M. S., University of New Hampshire.
- PERCY LEIGH GAINNEY, Professor and Head of Department of Bacteriology; Bacteriologist, Agricultural Experiment Station (1914, 1946).
B. S., M. S., North Carolina State College; A. M., Ph. D., Washington University.
- JAMES HAMLIN GARDNER, Professor of Physical Education (1939, 1948).
B. S., M. S., University of Southern California.
- FRANK CALEB GATES, Professor of Botany and Plant Pathology (1919, 1928).
A. B., University of Illinois; Ph. D., University of Michigan.
- DAVID F. GEPPERT, Assistant Professor of Music (1946, 1948).
B. M., M. M., Northwestern University.
- KATHERINE GEYER, Professor and Head of Department of Physical Education for Women (1927, 1945).
B. S., Ohio State University; M. A., Columbia University.
- HERSCHEL THOMAS GIER, Associate Professor of Zoology (1947).
A. B., Kansas State Teachers College (Pittsburg); Ph. D., Indiana University.
- KINGSLEY WALTON GIVEN, Professor of Speech (1930, 1950).
B. A., Park College; M. A., University of Iowa.
- BLAINE L. GLENDENING, Instructor in Chemistry (1947).
A. B., M. A., Kansas State Teachers College (Pittsburg).
- OSCAR NOBLE GOLDEN, Graduate Assistant in Mathematics (1950).
B. S., Ouachita College.

- ARTHUR LEONARD GOODRICH, Professor of Zoology (1929, 1947).
B. S., College of Idaho; M. S., University of Idaho; Ph. D., Cornell University.
- RALPH MELVIN GRAHAM, Professor of Physical Education (1948).
B. S., Kansas State College; M. S., Indiana University.
- FINIS MCGRADY GREEN, Associate Professor of Education (1948).
B. S., Kansas State Teachers College (Pittsburg); M. S., University of Kansas; Ed. D., University of Colorado.
- FLORENCE NADINE GREEN, Graduate Assistant in Sociology (1949).
B. S., Kansas State College.
- EDISON GREER, Associate Professor of Mathematics (1936, 1946).
B. S., Kansas State Teachers College (Emporia); M. S., Kansas State College; Ph. D., University of Kansas.
- WILLIAM J. GRIEBSTEIN, Graduate Assistant in Chemistry (1949).
B. S., M. S., North Dakota Agricultural College.
- EDWIN GRIFFITH, Assistant Chemist (1950).
B. S., Kansas State College.
- HILDA R. GROSSMANN, Assistant Professor of Music (1927, 1933).
B. M., Chicago Music College; B. S., Kansas State College; M. A., Stanford University.
- DOROTHY BELLE GUDGELL, Instructor in Economics and Accounting (1943, 1946).
B. S., M. S., Kansas State College.
- RALPH E. GUERRANT, Assistant Professor of Chemistry (1946).
A. B., Westminster College; M. S., Ph. D., University of Missouri.
- MERLE EDWIN GUGLER, Assistant Professor of Accounting (1947, 1948).
B. S., Kansas State Teachers College (Emporia); M. S., Kansas State College.
- ALPHAEUS MATTHEW GUHL, Associate Professor of Zoology (1943, 1947).
B. A., North Central College; M. S., Ph. D., University of Chicago.
- VIOLET GRACE HACHMEISTER, Assistant Professor of Mathematics (1950).
B. Ed., Illinois State Normal University; A. M., University of Illinois; Ph. D., University of Wisconsin.
- JOSEPH LOWE HALL, Associate Professor of Chemistry; Physical Chemical Investigation in Meat, Agricultural Experiment Station (1922, 1949).
B. S., M. S., Ph. D., University of Illinois.
- LAWRENCE F. HALL, Associate Professor of Vocational Education (1926, 1941).
B. S., M. S., Kansas State College.
- MERLE FREDERICK HANSEN, Assistant Professor of Zoology; Parasitologist, Agricultural Experiment Station (1950).
B. A., M. A., University of Minnesota; Ph. D., University of Nebraska.
- EARL DAHL HANSING, Professor of Botany and Plant Pathology; Plant Pathologist, Agricultural Experiment Station (1940, 1947).
B. S., University of Minnesota; M. S., Kansas State College; Ph. D., Cornell University.
- MURVILLE JENNINGS HARBAUGH, Professor of Zoology; Chairman, Biology in Relation to Man (1929, 1945).
A. B., A. M., University of Montana; Ph. D., University of Nebraska.
- VIRGINIA HARDEN, Graduate Assistant in Bacteriology (1949).
B. S., Central State College (Oklahoma); M. S., Oklahoma University.
- MARY THERESA HARMAN, Professor of Zoology, Emeritus (1912, 1947).
B. S., M. S., Ph. D., Indiana University.

- JOHN ORVILLE HARRIS, Associate Professor of Bacteriology (1942, 1949).
B. S., Ph. D., Kansas State College; M. S., University of Hawaii.
- STELLA MAUDE HARRISS, Assistant Professor of Chemistry (1916, 1927).
B. S., M. S., Kansas State College.
- RUTH F. HARTMAN, Assistant Professor of Music (1924).
B. S., Columbia University.
- JOHN DONALD HARVEY, Graduate Research Assistant in Chemistry (1950).
B. S. A., Ontario Agricultural College; M. S., University of Toronto.
- TOMMY LARKIN HARVEY, Research Assistant in Entomology (1950).
B. S., Kansas State College.
- L. CLINTON HAWES, Instructor in History (1949).
M. A., University of Kansas.
- WARD HILLMAN HAYLETT, Associate Professor of Physical Education (1928, 1939).
A. B., Doane College.
- HERBERT HENLEY HAYMAKER, Professor of Botany and Plant Pathology (1917, 1927).
B. S., Kansas State College; M. S., Ph. D., University of Wisconsin.
- ROBERT WILSON HAYS, Assistant Professor of Music (1946).
A. B., B. M., Carroll College; M. Sac. Mus., Union Theological Seminary.
- HARRY JEAN HEDLUND, Assistant Professor of Music (1946, 1948).
B. M., M. M., State University of Iowa.
- RICHARD E. HEIN, Assistant Professor of Chemistry (1950).
B. S., University of Iowa; Ph. D., Iowa State College.
- NORVA JEANNE HENRICH, Graduate Assistant in Chemistry (1949).
- EARL HOWARD HERRICK, Professor of Zoology; Mammalogist, Agricultural Experiment Station (1935, 1941).
B. S., M. S., Kansas State College; Ph. D., Harvard University.
- FRED HALL HIGGINSON, Instructor in English (1950).
B. A., M. S., University of Wichita.
- HOWARD TEMPLETON HILL, Professor and Head of Department of Speech (1920, 1921).
B. S., Iowa State College; J. D., University of Chicago.
- RANDALL CONRAD HILL, Professor of Sociology (1929, 1935).
B. S., M. S., Kansas State College; Ph. D., University of Missouri.
- LINWOOD L. HODGDON, Assistant Professor of Economics (1949).
B. A., American International College; M. A., Michigan State College.
- INA EMMA HOLROYD, Assistant Professor of Mathematics, Emeritus (1899, 1948).
B. S., Kansas State College; B. S., Kansas State Teachers College (Emporia); A. M., Columbia University.
- ADRIAN A. HOLTZ, Professor of Economics and Sociology (1919, 1942).
A. B., Colgate University; Ph. M., B. D., Ph. D., University of Chicago.
- JOHN LESTER HOOPER, Assistant in Chemistry (1943, 1950).
B. S., Kansas State College.

EARL G. HOOVER, Professor of Speech (1943, 1947).

A. B., Illinois College; A. M., State University of Iowa.

HENRY J. HORNER, Graduate Assistant in Chemistry (1949).

B. S., Franklin and Marshall College.

HELEN PANSY HOSTETTER, Professor of Technical Journalism and Director of Home Economics Journalism (1926, 1946).

A. B., University of Nebraska; B. S., Kansas State College; M. S., Northwestern University.

DONALD M. HOUSER, Graduate Assistant in Mathematics (1949).

B. S., Ottawa University.

F. VIRGINIA HOWE, Assistant Professor of Speech (1947).

A. B., Elmira College; M. S., Boston University.

JOSIAH SIMPSON HUGHES, Professor of Chemistry; in charge of Animal Nutrition, Agricultural Experiment Station (1910, 1920).

B. S., M. S., Ohio Wesleyan University; M. A., Ph. D., Ohio State University.

DONALD GEORGE HUMMEL, Graduate Research Assistant in Chemistry (1950).

B. S., St. Louis University; M. S., Boston College.

WILLIAM CASTLE HUMMEL, Professor of English (1950).

A. B., Allegheny College; A. M., Ph. D., University of Pittsburgh.

EMMA S. HYDE, Associate Professor of Mathematics (1920, 1926).

A. B., University of Kansas; A. M., University of Chicago.

ERNEST A. IKENBERRY, Graduate Assistant in Chemistry (1948).

A. B., McPherson College.

IVOR VICTOR ILES, Professor of Government, Emeritus (1911, 1949).

A. B., A. M., University of Kansas.

WILLIAM CHARLES JANES, Associate Professor of Mathematics (1922, 1946).

B. S., Northwestern University; M. A., University of Nebraska.

HAROLD ALLEN JETT, Assistant Chemist (1949, 1950).

B. S., M. S., Kansas State College.

HARLAN B. JOHNSON, Graduate Assistant in Chemistry (1950).

B. S., Purdue University; M. S., Iowa State College.

WILFRED H. JOHNSON, Assistant Chemist in Chemistry (1949).

B. S., Pennsylvania State Teachers College; M. S., Denver University.

JACK F. JOHNSTON, Assistant Chemist (1949, 1950).

B. S., Kansas State College.

DALE V. JONES, Assistant Professor of English (1946, 1948).

B. S., M. S., Kansas State College.

NORMAN ANDERSON JONES, Graduate Assistant in History (1950).

B. S., Kansas State College.

CLYDE JUSSILA, Graduate Assistant in Music (1949).

B. M., University of Washington.

ROBERT KATZ, Assistant Professor of Physics (1949).

B. A., Brooklyn College; M. A., Columbia University; Ph. D., University of Illinois.

JACK CUTLER KEIR, Assistant Professor in Economics (1948, 1949).

A. B., Middlebury College; M. A., Tufts College.

- JOSEPH STEVEN KENTON, Instructor in Government (1950).
B. S. P. A., Washington University; M. A., University of Kansas City.
- JOHN GILBERT KENYON, Assistant Professor of Economics and Sociology (1948).
A. B., M. A., State University of Iowa.
- DAVID STUART KILGORE, Instructor in Speech (1950).
B. A., Wayne University.
- MARION GIBBONNEY KIRKPATRICK, Instructor in English (1946).
B. S., M. S., Kansas State College.
- FRITZ G. KNORR, Assistant Professor of Physical Education (1942, 1948).
B. S., M. S., Kansas State College.
- WILLIAM E. KOCH, Assistant Professor of English (1946, 1948).
B. A., North Dakota State Teachers College; M. S., Kansas State College.
- PAUL ERIC KOEFOD, Assistant Professor of Economics (1950).
B. Ed., Bemidji State Teachers College; M. A., University of Minnesota; Dr. Sci. Pol., University of Geneva.
- JAMES BURTON KRING, Instructor in Entomology (1948, 1950).
B. S., Rockhurst College; M. S., Kansas State College.
- HERALD WESLEY KRUSE, Graduate Assistant in Physics (1950).
B. A., Doane College.
- DONALD G. KUNDIGER, Assistant Professor of Chemistry (1948).
B. S., Ph. D., University of Wisconsin.
- RUSSELL LAMAN, Assistant Professor of English (1936).
B. S., Kansas State College; M. A., State University of Iowa.
- JACK L. LAMBERT, Instructor in Chemistry (1950).
A. B., M. S., Kansas State Teachers College (Pittsburg); Ph. D., Oklahoma Agricultural and Mechanical College.
- ROY CLINTON LANGFORD, Professor of Psychology (1926, 1941).
B. S., M. S., Kansas State College; Ph. D., Stanford University.
- ARTHUR L. LANGVARDT, Assistant Professor of English (1947).
A. B., B. S., Kansas State Teachers College (Emporia); M. A., University of Colorado.
- FRANCIS C. LANNING, Assistant Professor of Chemistry (1942, 1946).
B. S., M. S., University of Denver; Ph. D., University of Minnesota.
- SARA C. LARSON, Instructor in Geography (1946).
A. B., Knox College; B. E., Illinois Normal College; M. S., University of Chicago.
- MENDEL E. LASH, Professor of Chemistry (1922, 1947).
A. B., M. A., Ph. D., Ohio State University.
- RALPH RICHARD LASHBROOK, Professor and Head of Department of Technical Journalism (1934, 1943).
B. S., Kansas State College; M. S., University of Wisconsin.
- BORIS LEAF, Associate Professor of Physics (1946).
B. S., University of Washington; Ph. D., University of Illinois.
- LUTHER LEAVENGOOD, Professor and Head of Department of Music (1945).
B. M., University of Kansas; M. M., University of Michigan.
- MILFORD RAY LEE, Graduate Assistant in Physics (1949).
B. S., Kansas State College.
- GEORGE LEEDHAM, Assistant Professor of Music (1949).
B. M., Eastman School of Music.

- GERARD PAUL LEIBMAN, Graduate Assistant in Technical Journalism (1950).
A. B., Centre College.
- GUY WILLIAM LEONARD, JR., Assistant Professor of Chemistry (1949).
B. S., M. S., Indiana University; Ph. D., Massachusetts Institute of Technology.
- CLARENCE FLAVIUS LEWIS, Associate Professor of Mathematics (1920, 1926).
A. B., University of Denver; M. S., Kansas State College.
- LOUIS H. LIMPER, Professor of Modern Languages, Emeritus (1914, 1944).
A. B., Baldwin-Wallace College; A. M., University of Wisconsin; Ph. D., State University of Iowa.
- WILLIAM LINDQUIST, Professor of Music (1921, 1927).
B. M., Cosmopolitan School of Music.
- CHARLES HOWARD LOCKHART, Assistant Professor of Zoology (1940, 1947).
B. S., M. S., Kansas State College.
- MARGUERITE E. LOFINK, Assistant Professor of Education (1944, 1946).
B. S., M. S., University of Nebraska.
- GLENN WESLEY LONG, Assistant Professor of Sociology (1938, 1945).
A. B., Baker University; M. S., Kansas State College.
- THOMAS HENRY LORD, Associate Professor of Bacteriology (1941, 1946, 1949).
B. S., Massachusetts State College; M. S., Ph. D., University of Illinois.
- RALPH A. LOYD, Instructor in English (1946, 1947).
B. S., Fort Hays Kansas State College.
- EVA CAROLINE LYMAN, Associate Professor of Physical Education for Women (1943, 1946).
B. S., Battle Creek College; M. A., University of Iowa.
- ERIC ROSS LYON, Associate Professor of Physics (1921, 1928).
A. B., M. S., Phillips University.
- GEORGE AARON McCASKILL, Assistant Chemist (1948, 1950).
B. S., M. S., Kansas State College.
- ELIZABETH UNGER McCracken, Associate Professor of Botany (1938, 1950).
B. A., M. A., Wellesley College; Ph. D., University of California.
- THURLO E. McCrady, Professor of Athletics and Physical Education; Director of Athletics (1947).
A. B., Hastings College; M. S., University of Southern California.
- MAYNARD LEE McDOWELL, Assistant Professor of Chemistry (1926, 1945).
A. B., Central College; M. A., University of Missouri; Ph. D., State University of Iowa.
- ROBERT H. McFarland, Associate Professor of Physics (1946, 1947).
A. B., B. S., Kansas State Teachers College (Emporia); Ph. M., Ph. D., University of Wisconsin.
- VERNON RAY McGUIRE, Assistant Professor of Speech (1947).
B. A., University of Wichita; M. S., Kansas State College.
- PHILIP E. McINTYRE, Graduate Research Assistant in Chemistry (1950).
B. S., Kansas State College.
- RHODA McINTYRE, Research Assistant in Chemistry (1949, 1950).
B. S., Monmouth College.
- RUSSELL THEODORE McINTYRE, Graduate Research Assistant in Chemistry (1950).
B. S., Monmouth College; M. S., Kansas State College.

- KATHERYN ANN MCKINNEY, Assistant Professor of Physical Education for Women (1946).
B. S., Kansas State College; M. A., George Peabody College for Teachers.
- KENNETH J. MCMAHON, Instructor in Bacteriology (1949).
B. S., South Dakota State College; M. S., Oklahoma Agricultural and Mechanical College.
- JOHN WILSON McREYNOLDS, Associate Professor of Technical Journalism (1950).
B. A., Centenary College of Louisiana; M. A., University of North Carolina.
- LEONA I. MAAS, Instructor in English (1947).
B. M., B. S., M. S., Kansas State College.
- ELBERT BONEBRAKE MACY, Assistant Professor of Technical Journalism and Editor, Agricultural Experiment Station (1943).
B. S., M. S., Kansas State College.
- SCHWAB S. MAJOR, JR., Graduate Assistant in Physics (1950).
A. B., University of Wichita.
- ELDON JOHN MARAK, Graduate Assistant in Physics (1949).
B. S., Kansas State College.
- MAX RULE MARTIN, Assistant in Music (1929, 1950).
- CHARLES WALTON MATTHEWS, Professor of English (1920, 1925).
B. S., Kansas State Teachers College (Pittsburg); M. A., University of Chicago.
- GEORGE WILLARD MAXWELL, Assistant Professor of Physics (1928, 1929).
A. B., M. S., University of Michigan.
- ELIZABETH RUTH MEAD, Graduate Research Assistant in Zoology (1950).
B. A., Southwestern College.
- CALVIN J. MEDLIN, Professor of Technical Journalism; Graduate Manager of Student Publication (1934, 1949).
B. S., M. S., Kansas State College.
- LEO EDWARD MELCHERS, Professor and Head of Department of Botany and Plant Pathology; Plant Pathologist, Agricultural Experiment Station (1913, 1919).
B. S., M. S., Ohio State University.
- GEORGE PEARSON MELLOR, Graduate Assistant in Physics (1950).
B. A., Colorado College.
- JOSEPH F. MERRILL, Assistant Chemist (1921).
B. S., University of Maine.
- HAROLD L. METZ, Instructor in Geology (1949).
B. S., Kansas State College.
- BLANCHARD LEROY MICKEL, Graduate Assistant in Chemistry (1949).
B. S., Washburn Municipal University.
- ALLEN DAVID MILLER, Associate Professor of Government (1946).
A. B., University of Kansas; M. A., University of Texas.
- CECIL H. MILLER, Associate Professor of Philosophy (1945).
A. B., University of Kansas; A. M., University of California.
- CHARLES L. MILLER, Graduate Assistant in Zoology (1949).
A. B., Sioux Falls College.
- JORDON YALE MILLER, Instructor in English (1950).
B. A., Yale University.

- WILLIAM ARTHUR MILLER, Assistant Professor of Bacteriology (1947).
B. S., Ph. D., University of Illinois; M. S., University of Pennsylvania.
- HOWARD L. MITCHELL, Assistant Professor of Chemistry; Assistant Chemist, Agricultural Experiment Station (1946, 1948).
B. S., Oklahoma Agricultural and Mechanical College; Ph. D., Purdue University.
- MAURICE CHARLES MOGGIE, Professor of Education (1930, 1945).
B. S., M. S., Kansas State College; Ph. D., Ohio State University.
- GEORGE MONTGOMERY, Professor and Head of Department of Economics and Sociology; Agricultural Economist, Agricultural Experiment Station (1925, 1941).
B. S., M. S., Kansas State College.
- EDWARD CARP MOODY, Graduate Assistant in Economics (1950).
B. S., Kansas State College.
- FRITZ MOORE, Professor and Head of Department of Modern Languages (1934).
A. B., University of Akron; A. M., Ph. D., University of Illinois.
- A. DWIGHT MOORHEAD, Graduate Assistant in Physics (1950).
B. S., Kansas State College.
- WILLIAM ROBERT MOSES, Assistant Professor of English (1950).
B. A., M. A., Ph. D., Vanderbilt University.
- THIRZA ADALINE MOSSMAN, Associate Professor of Mathematics (1922, 1946).
A. B., University of Nebraska; A. M., University of Chicago.
- ALVIN EDGAR MULANAX, Instructor in Economics (1947).
B. S., Kansas State College.
- DONALD F. MUNRO, Associate Professor of Modern Languages (1940).
B. S., M. A., Acadia University; Ph. D., University of Illinois.
- FRANK L. MYERS, Assistant Professor of Physical Education (1926, 1947).
B. M., Kansas State College.
- ROBERT KIRKLAND NABOURS, Professor of Zoology, Emeritus; Geneticist, Agricultural Experiment Station (1910, 1945).
B. Ed., Ph. D., University of Chicago.
- BETTY MAE NAVRATIL, Graduate Assistant in Chemistry (1950).
B. A., Coe College.
- JOHN D. NEFF, Graduate Assistant in Mathematics (1949).
B. S., Marquette University; B. A., Coe College.
- MARGARET M. NELSON, Graduate Assistant in Music (1950).
B. M. E., University of Kansas.
- PATRICIA M. NELSON, Graduate Assistant in History (1949).
B. S., Kansas State College.
- WALLACE B. NELSON, Assistant Professor of Economics (1950).
B. S., Southern Illinois University; M. A., Ph. D., State University of Iowa.
- MARAGRET ALICE NEWCOMB, Associate Professor of Botany (1925, 1941).
B. S., M. S., Kansas State College.
- DAPHNE MARY NICHOLSON, Instructor in Speech (1950).
B. A., University of London.
- JOHN PATRICK NOONAN, Instructor in English (1947, 1948).
B. S., Rockhurst College; M. S., Kansas State College.

- MARK GILBERT NORRIS, JR., Graduate Assistant in Zoology (1950).
B. S., New Mexico College of Agriculture and Mechanic Arts.
- JACK IRWIN NORTHAM, Assistant Professor of Mathematics (1947).
A. B., New York University; M. A., Michigan State College.
- SHIRLEY HILL NORTHROP, Graduate Assistant in English (1950).
B. S., Kansas State College.
- CARROLL FRANK OAKLEY, Associate Professor of Physics (1948).
A. B., Milton College; M. A., University of Michigan.
- THOMAS JOSEPH O'BOYLE, Instructor in Physical Education (1949).
B. E., Tulane University.
- OWEN KENNETH O'FALLON, Associate Professor of Education (1950).
A. B., A. M., Western State College of Colorado.
- GEORGE ARTHUR OLSON, Associate Professor Education (1949).
A. M., University of Kansas.
- ROSEMARY JANE OWENS, Instructor in Speech (1947).
B. S., University of Nebraska; M. A., University of Denver.
- CLARICE M. PAINTER, Assistant Professor of Music (1924).
Diploma, Hardin College; Diploma, New England Conservatory of Music.
- REGINALD H. PAINTER, Professor of Entomology; Entomologist, Agricultural Experiment Station (1926, 1941).
A. B., A. M., University of Texas; Ph. D., Ohio State University.
- JOE E. PANKASKIE, Graduate Research Assistant in Entomology (1949, 1950).
B. S., Kansas State College.
- RALPH LANGLEY PARKER, Professor of Apiculture and Entomology; State Apiculturist; Apiculturist and Entomologist, Agricultural Experiment Station (1925, 1930).
B. S., Rhode Island State College; Sc. M., Brown University; Ph. D., Cornell University; M. S., Iowa State College.
- S. THOMAS PARKER, Associate Professor of Mathematics (1947, 1948).
B. A., M. A., University of British Columbia; Ph. D., University of Cincinnati.
- FRED M. PARRIS, Assistant Professor of Technical Journalism (1944, 1949).
B. S., Kansas State College.
- DONALD B. PARRISH, Assistant Professor of Chemistry (1943, 1949).
B. S., M. S., Ph. D., Kansas State College.
- FRED LOUIS PARRISH, Professor and Head of Department of History, Government, and Philosophy (1927, 1942).
A. B., M. A., Northwestern University; B. D., Garrett Institute; Ph. D., Yale University.
- CAROLINE FRANCES PEINE, Graduate Assistant in English (1948).
A. B., Carleton College.
- MARION HERFORT PELTON, Assistant Professor of Music (1928, 1931).
B. M., University of Wisconsin; B. S., Kansas State College.
- ALFRED T. PERKINS, Professor of Chemistry (1925, 1938).
B. S., Pennsylvania State; M. S., Ph. D., Rutgers University.
- CHESTER EVAN PETERS, Assistant Professor; Assistant Dean (1947, 1948).
B. S., M. S., Kansas State College.
- HELEN I. PETERSON, Instructor in Physics (1947).
B. S., M. S., Kansas State College.

JOHN CHRISTIAN PETERSON, Professor of Psychology (1917, 1920).

A. B., University of Utah; Ph. D., University of Chicago.

LEO HENRY PETRI, Instructor; Technician in Zoology (1941).

A. B., Peru State Teachers College (Nebraska); M. A., University of Nebraska.

DOROTHY BRADFORD PETTIS, Associate Professor of Modern Languages (1927, 1937).

A. B., A. M., University of Nebraska; Diploma, Sorbonne, Paris; Diploma, Institut de Phonetique, Paris.

HUEY PLEDGER, JR., Graduate Research Assistant in Chemistry (1950).

B. S., Kansas State College.

WINIFRED ANN PRIDDLE, Research Assistant in Statistics (1950).

CHARLES T. PUMPELLY, Graduate Assistant in Chemistry (1949, 1950).

A. B., Southwestern College; M. S., Kansas State College.

ROBERT EMMETT PYLE, Assistant Professor of Modern Languages (1947).

A. B., A. M., University of Kansas.

MANUEL D. RAMIREZ, Assistant Professor of Modern Languages (1946).

B. A., M. A., University of Florida.

LEON MERLE REYNARD, Instructor in Physical Education (1948).

B. S., Kansas State College.

ADA RICE, Professor of English, Emeritus (1899, 1927).

B. S., M. S., Kansas State College.

EUGENE E. RICHARDSON, Graduate Research Assistant in Chemistry (1949, 1950).

B. S., M. S., North Texas State College.

HAZEL M. RIGGS, Assistant Professor of History (1945).

A. B., A. M., University of Kansas.

LOUIS RISEMAN, Assistant Professor of Geology (1946, 1947).

B. S., M. S., Tufts College.

DUANE ALLAN RITTIS, Assistant in Physics (1949).

NOBLE WARREN ROCKEY, Professor of English, Emeritus (1921).

A. B., A. M., Ohio State University.

RICHARD DEAN ROGERS, Instructor in Government (1948).

B. S., Kansas State College; LL. B., University of Kansas.

SAMUEL NICHOLAS ROGERS, JR., Assistant Chemist (1947).

B. S., Kansas State College.

CLARK THOMAS ROGERSON, Assistant Professor of Botany and Plant Pathology; Mycologist, Agricultural Experiment Station (1950).

B. S., Utah State Agricultural College; Ph. D., Cornell University.

DEMOSTENE ROMANUCCI, Graduate Assistant in Zoology (1950).

B. S., Ohio University.

LUCILE OSBORNE RUST, Professor of Home Economics Education (1924, 1929).

B. S., Kansas State Teachers College (Pittsburg); M. S., Kansas State College.

HARLEY DEAN RUTLEDGE, Graduate Assistant in Mathematics (1950).

B. A., Tarkio College.

ADELBERT BOWER SAGESER, Professor of History (1938, 1941).

A. B., Nebraska State Teachers College (Wayne); M. A., Ph. D., University of Nebraska.

- FLOYD EUGENE SAGESER, Instructor in Technical Journalism (1950).
B. S., Kansas State College.
- ROBERT M. SAINT JOHN, Graduate Assistant in Physics (1950).
B. S., Kansas State College.
- MERRILL ERNEST SAMUELSON, Instructor in Technical Journalism (1950).
B. S., Oklahoma City University.
- RALPH GRAFTON SANGER, Professor and Head of Department of Mathematics (1946).
B. S., M. S., Ph. D., University of Chicago.
- JOHN SANIK, JR., Graduate Research Assistant in Chemistry (1949).
B. S., M. S., Rhode Island State College.
- LEWIS ALLEN SCHAFER, Assistant Professor of Botany (1947, 1948).
B. S., M. S., Kansas State College.
- WILLIAM M. SCHILLING, Instructor in Chemistry (1950).
B. S., Rutgers University; Ph. D., University of Rochester.
- EVA JO SCHMIDT, Instructor in Music (1950).
B. M., MacMurray College for Women.
- WILLIAM GEORGE SCHRENK, Associate Professor of Chemistry (1938, 1947).
A. B., Western Union College; M. S., Ph. D., Kansas State College.
- MYRA EDNA SCOTT, Assistant Professor of English (1928, 1937).
B. S., Kansas State College; A. M., Stanford University.
- HUBER SELF, Instructor in Geography (1947).
B. S., Central State College; M. S., Oklahoma Agricultural and Mechanical College.
- DEXTER B. SHARP, Associate Professor of Chemistry (1947, 1949).
A. B., Carleton College; M. A., Ph. D., University of Nebraska.
- CLAUDE W. SHENKEL, JR., Instructor in Geology (1949).
B. S., Kansas State College; M. S., Colorado University.
- DONALD F. SHOWALTER, Associate Professor of Psychology (1928, 1947, 1949).
A. B., M. A., University of Nebraska; Ph. D., University of Kansas.
- RALPH E. SILKER, Professor and Head of Department of Chemistry; Chemist, Agricultural and Engineering Experiment Station (1941, 1948).
B. A., University of Dubuque; M. S., Ph. D., State University of Iowa.
- GILES MERTEN SINCLAIR, Instructor in English (1949, 1950).
A. B., Western Michigan College of Education; A. M., Duke University.
- WENDELL H. SLABAUGH, Assistant Professor of Chemistry (1950).
B. A., North Central College; M. S., North Dakota State College; Ph. D., Washington State College.
- CHARLES MERVYN SLAGG, Assistant Professor of Botany (1946).
B. S., M. S., University of Wisconsin.
- FLOYD B. SLOAT, Assistant Professor of Mathematics (1946, 1947).
A. B., Ouachita College; M. A., University of Arkansas.
- MARGARET HARRISON SMITH, Instructor in Geography (1946).
A. B., Randolph-Macon College; M. A., University of North Carolina; M. S., University of Chicago.
- ROGER CLETUS SMITH, Professor and Head of Department of Entomology; Entomologist, Agricultural Experiment Station (1920, 1943).
A. B., Miami University; A. M., Ohio State University; Ph. D., Cornell University.

- BENJAMIN L. SMITS, Assistant Professor of Chemistry; Associate Food Chemist, Agricultural Experiment Station (1926, 1948).
B. S., M. S., Ph. D., Michigan State College.
- THELMA SNEED, Instructor in Bacteriology (1949).
B. A., M. A., B. S., Ph. D., University of Minnesota.
- HOMER EDWARD SOCOLOFSKY, Instructor in History (1946).
B. S., M. S., Kansas State College.
- ARTHUR BRADLEY SPERRY, Professor and Head of Department of Geology and Geography; Chairman, Man and the Physical World (1921, 1946).
B. S., University of Chicago.
- KARL STACEY, Associate Professor of Geography (1943, 1948).
B. A., M. A., University of Colorado.
- WILLIAM GORDON STANLEY, Graduate Research Assistant in Chemistry (1949).
A. B., Southwestern College; M. S., Kansas State College.
- FLORENCE MARGARET STEBBINS, Assistant Zoologist (1931).
B. S., M. S., Kansas State College.
- THOMAS B. STEUNENBERG, Professor of Music Theory; Director, Graduate Study in Music (1947).
B. S., Northwestern University; M. S., University of Michigan.
- HARRY MARTIN STEWART, C. P. A., Professor of Accounting (1926, 1941).
A. B., M. B. A., University of Kansas.
- EDWARD S. STICKLEY, Assistant Chemist (1941, 1943).
B. S., Washburn Municipal University; M. S., Ph. D., Kansas State College.
- CALEB MAX STOUT, Graduate Research Assistant in Chemistry (1950).
A. B., Southwestern College.
- CHARLES WILLIAM STRATTON, Professor of Music (1927, 1948).
B. S., M. S., Kansas State College.
- WILLIAM TIMOTHY STRATTON, Professor of Mathematics (1910, 1923).
A. B., A. M., Indiana University; Ph. D., University of Washington.
- VIVIAN LEWIS STRICKLAND, Professor of Education, Emeritus (1917, 1949).
A. B., A. M., Ph. D., University of Nebraska.
- ANNA MARIE STURMER, Professor of English, Emeritus (1920, 1949).
A. B., M. A., University of Nebraska.
- VERNE S. SWEEDLUN, Professor of History; Chairman, Man and the Social World (1941, 1947).
A. B., Bethany College; A. M., University of Kansas; Ph. D., University of Nebraska.
- MAURICE K. TESTERMAN, Instructor in Chemistry (1950).
B. S., M. S., Ph. D., Virginia Polytechnic Institute.
- WAYNE EDWARD TESTERMAN, Assistant Professor of Sociology (1947, 1949).
A. B., A. M., B. D., Phillips University.
- BENNY L. THOMPSON, Graduate Assistant in Physics (1950).
B. S., Kansas State College.
- FRANK J. THOMPSON, Assistant Professor of Physical Education and Athletics (1937, 1949).
B. Ed., Minnesota State Teachers College; M. Ed., M. Ph. D., Springfield College.
- LOUIS C. THOMPSON, Graduate Assistant in History (1949).
B. S., Kansas State College.

- OTTO WILLIAM TIEMEIER, Assistant Professor of Zoology (1947, 1949).
A. B., M. A., University of Kansas; Ph. D., University of Illinois.
- FREDA L. TUBACH, Graduate Assistant in Economics (1950).
B. S., Kansas State College.
- LOIS B. TURNER, Instructor in History (1946).
B. S., M. S., Kansas State College.
- HENRY UNRUH, JR., Graduate Assistant in Physics (1950).
A. B., University of Wichita.
- JACQUELINE VAN GAASBEEK, Instructor in Physical Education for Women (1949).
B. S., Mary Washington College; M. S., University of West Virginia.
- LAWRENCE W. VAN MEIR, Assistant Professor in Economics (1949, 1950).
B. S., University of Illinois; M. S., Kansas State College.
- W. A. VAN WINKLE, Associate Professor of Chemistry (1922, 1932).
B. S., University of Michigan; B. S., M. S., Ph. D., University of Illinois.
- ROBERT J. VIDENSEK, Graduate Assistant in Mathematics (1950).
B. S., John Carroll University.
- HANS IRVING WALKER, Graduate Assistant in Physics (1950).
B. A., St. Olaf College.
- KENNETH E. WALKER, Graduate Assistant in Economics (1950).
B. S., Kansas State College.
- PAUL K. WALKER, Instructor in Physical Education (1947, 1948).
A. B., Wichita University.
- WARREN VINCENT WALKER, Instructor in Music (1948).
B. A., University of Washington; M. M., Cincinnati Conservatory of Music.
- CHARLES PHILIP WALTERS, Assistant Professor of Geology (1948).
B. S., M. S., Kansas State College.
- MATTHEW LAWRENCE WALTERS, Graduate Assistant in Bacteriology (1950).
B. S., Kansas State College.
- KENNETH M. WARREN, Instructor in Physical Education (1948).
B. S., Kansas State College.
- LOUIS P. WASHBURN, Professor of Physical Education (1926, 1930).
B. S., Carleton College; B. P. E., M. P. E., Springfield College.
- ELAINE H. WATT, Instructor in Speech (1946).
A. B., Park College.
- RAYMOND A. WAUTHIER, Assistant Professor of Physical Education for Men (1949).
B. S., Albion College; M. S., Drake University.
- W. BERT WAYT, Graduate Assistant in History (1949).
B. A., Nebraska State Teachers College.
- ALICE J. WEI, Graduate Research Assistant in Chemistry (1949).
B. S., Catholic University (Peiping, China).
- LING WEI, Graduate Research Assistant in Chemistry (1949).
B. S., M. S., Catholic University (Peiping, China); M. S., University of Kansas.
- JOHN D. WELLS, Instructor in Geology (1949).
B. S., Kansas State College.

- DONALD DEAN WHEELER, Graduate Research Assistant in Chemistry (1950).
B. S., University of Wisconsin.
- LOREN E. WHIPPS, In-Service Teacher Trainer for Agricultural Education (1947).
B. S., Kansas State College.
- STUART E. WHITCOMB, Professor of Physics (1941, 1947).
B. S., Antioch College; M. S., Syracuse University; Ph. D., Ohio State University.
- ALFRED EVERETT WHITE, Professor of Mathematics, Emeritus (1909, 1950).
B. S., M. S., Purdue University.
- MARY FRANCES WHITE, Instructor in English (1947).
B. S., M. S., Kansas State College.
- ROBERT JOSEPH WHITE, Instructor in Physical Education (1950).
B. S., Indiana University.
- CARROLL H. WHITNAH, Associate Professor of Chemistry; Dairy Chemist, Agricultural Experiment Station (1929, 1949).
A. B., Ph. D., University of Nebraska; M. S., University of Chicago.
- JAMES R. WICK, Graduate Assistant in Entomology (1948, 1950).
B. S., Iowa Wesleyan College; M. S., Kansas State College.
- DONALD ALDEN WILBUR, Professor of Entomology; Associate Entomologist, Agricultural Experiment Station (1928, 1949).
B. S., Oregon State College; A. M., Ohio State University.
- GEORGE DENT WILCOXON, JR., Professor of History; Chairman, Man and the Cultural World (1946, 1948).
A. B., M. A., Ph. D., University of California.
- DWIGHT WILLIAMS, Professor of Government (1926, 1939).
A. B., LL. B., M. A., University of Minnesota.
- BARBARA JANE WILSON, Graduate Assistant in Zoology (1950).
B. S., Kansas State Teachers College (Emporia).
- EDWARD JOSEPH WIMMER, Professor of Zoology (1928, 1941).
A. B., A. M., Ph. D., University of Wisconsin.
- HUDSON SUMNER WINN, Assistant Professor of Zoology (1950).
A. B., Illinois College; Ph. D., Northwestern University.
- MORICE FREDRICK WINTER, Instructor in Physical Education (1947).
B. S., University of Southern California.
- WILLIAM KENNETH WINTER, Graduate Assistant in Physics (1950).
B. A., University of Wisconsin.
- JOHN A. WRONKA, Graduate Research Assistant in Chemistry (1950).
B. S., St. Louis University.
- HELEN IAMS WROTEN, Assistant Professor of English (1949).
B. S., M. S., Kansas State College; Ph. D., University of Illinois.
- PAUL McCLURE YOUNG, Associate Professor of Mathematics (1947).
A. B., Miami University; M. A., Ph. D., Ohio State University.

SCHOOL OF ENGINEERING AND ARCHITECTURE

- BEN E. AMSLER, Graduate Assistant in Electrical Engineering (1949).
B. S., Kansas State College.

LUTHER ADOLPH ARMSTRONG, Graduate Assistant in Mechanical Engineering (1949).

B. S., Tulane University.

CARL ANTON ARNBAL, Instructor in Mechanical Engineering (1948).

B. S., University of Minnesota.

CHARLES PIPKIN BALLARD, Instructor in Shop Practice (1946).

DON METHVEN BEARDSLEY, Instructor in Architecture (1948).

B. F. A., Rhode Island School of Design.

MORRIS HENRY BECKMAN, Assistant Professor of Architecture (1948).

B. S., Armour Institute of Technology.

IRWIN ARTHUR BENJAMIN, Instructor in Civil Engineering (1947).

B. S., Illinois Institute of Technology; M. S., Kansas State College.

KENNETH HENRY BISCHER, Instructor in Chemical Engineering (1948).

B. S., South Dakota School of Mines and Technology.

CARL RAY BOWMAN, Graduate Assistant in Architecture (1949).

B. S., Kansas State College.

DEAN EUGENE BRADEN, Assistant Professor of Chemical Engineering (1947).

B. S., M. S., Kansas State College.

BOYD BERTRAND BRAINARD, Professor of Mechanical Engineering (1923, 1938).

B. S., University of Colorado; M. S., Massachusetts Institute of Technology.

TODOR DIMITROW BRATANOW, Graduate Research Assistant in Applied Mechanics (1949).

D. I., Technical University of Karlsruhe (Germany).

RICHARD HAROLD BRECKENRIDGE, Instructor in Industrial Engineering (1948, 1949).

B. S., Kansas State College.

FREDERICK SIMMONS BURRELL, Instructor in Applied Mechanics (1947).

B. S., Kansas State College.

EARLE CONRAD BYERS, Instructor in Shop Practice (1946).

A. B., Greenville College.

NORMAN RODMAN BYERS, Instructor in Machine Design (1947).

B. S., Kansas State College.

WALTER WILLIAM CARLSON, Professor of Shop Practice (1910, 1917).

B. S., M. E., Kansas State College.

DALE RINGWALT CARVER, Instructor in Applied Mechanics (1947).

B. S., M. S., Kansas State College.

THEODORE AVERY CHADWICK, Professor of Architecture (1927, 1947).

B. S., North Dakota State College.

EDWIN RICHARD CHUBBUCK, Instructor in Agricultural Engineering (1948).

B. S., Kansas State College.

JOHN GRAFTON CHUBBUCK, Instructor in Electrical Engineering (1948).

B. S., University of Oklahoma.

JOHN PAUL CLIFTON, Assistant Professor of Shop Practice (1947).

B. S., University of Kansas.

HOWELL EDWARD COBB, Assistant Professor of Architecture (1946).

B. S., B. Arch., Georgia Institute of Technology.

- JEAN WASHBURN COBB, Assistant Professor of Architecture (1944, 1947).
B. S., Kansas State College; M. Arch., Syracuse University.
- LOWELL EDWIN CONRAD, Professor of Civil Engineering, Emeritus (1908, 1949).
B. S., C. E., Cornell College; M. S., Lehigh University.
- EUGENE HILL COPELAND, Instructor in Mechanical Engineering (1949).
B. S., Texas Agricultural and Mechanical College; M. S., University of Texas.
- PHILIP ALAN CORKILL, Graduate Assistant in Civil Engineering (1949).
B. S., Kansas State College.
- ARTHUR CLEMENT COTTS, Graduate Assistant in Electrical Engineering (1948, 1949).
B. S., Kansas State College.
- ALAN NEIL COWLES, Assistant Instructor in Electrical Engineering (1947).
- ROBERT EUGENE CRANK, Instructor in Mechanical Engineering (1947).
B. S., Kansas State College.
- JAMES FRED CRARY, Instructor in Applied Mechanics (1947).
B. S., Kansas State College.
- WILLIAM WESLEY CRAWFORD, Associate Professor of Civil Engineering, Emeritus (1923, 1949).
B. Di., M. Di., Iowa State Teachers College; A. B., State University of Iowa; B. S., Iowa State College.
- HAROLD E. CRUMRINE, Instructor in Architecture (1949).
B. S., University of Illinois.
- SPENCER HANSEN DAINES, Graduate Assistant in Agricultural Engineering (1949).
B. S., Utah State Agricultural College.
- DORWARD CLAIR DANIELSON, Instructor in Chemical Engineering (1947, 1948).
B. S., Kansas State College.
- EARL GILBERT DARBY, Associate Professor of Shop Practice (1941, 1949).
B. S., M. S., Kansas State College.
- ROBERT COURTLAND DENNISON, Instructor in Electrical Engineering (1947, 1948).
B. S., M. S., Kansas State College.
- HARVEY FREDERICK DIETRICH, Instructor in Shop Practice (1948).
- MERLE RILEY DODGE, Instructor in Shop Practice (1943).
B. S. in Arch., B. S. in Arch. E., Kansas State College.
- WILLIAM WOODROW DODGE, Graduate Assistant in Applied Mechanics (1949).
B. S., Oklahoma Agricultural and Mechanical College; M. S., Kansas State College.
- WALTER DROBOT, Graduate Research Assistant in Chemical Engineering (1949).
B. S., Drexel Institute of Technology.
- ALLEY HUGH DUNCAN, Associate Professor of Mechanical Engineering (1943, 1949).
B. S., M. S., Kansas State College.
- MERRILL AUGUSTUS DURLAND, Dean; Professor of Machine Design; Director, Engineering Experiment Station (1919, 1949).
B. S., M. S., M. E., Kansas State College.

HAROLD LESTER ERSKINE, JR., Graduate Research Assistant in Chemical Engineering (1949).

B. S., Northeastern University.

GUSTAVE EDMUND FAIRBANKS, Assistant Professor of Agricultural Engineering (1941, 1947).

B. S., Kansas State College.

FREDERICK CHARLES FENTON, Professor and Head of Department of Agricultural Engineering; Agricultural Engineer, Engineering Experiment Station; Agricultural Engineer, Agricultural Experiment Station (1928).

B. S., M. S., Iowa State College.

ARTHUR ORAN FLINNER, Professor of Mechanical Engineering (1929, 1948).

B. S., M. S., Kansas State College; S. M., Massachusetts Institute of Technology.

WILLIAM ROY FORD, Instructor in Electrical Engineering (1947, 1948).

B. S., M. S., Kansas State College.

FORREST FAYE FRAZIER, Professor of Civil Engineering (1911, 1922).

C. E., Ohio State University.

KENNETH EUGENE FULTZ, Instructor in Electrical Engineering (1949).

B. S., Kansas State College.

JOHN WILLIAM FUNK, Instructor in Agricultural Engineering (1947, 1948).

B. S., Kansas State College.

PAUL SANDERS GIOVAGNOLI, Instructor in Mechanical Engineering (1948).

B. S., Kansas State College.

FRANK PALMER GRAHAM, Instructor in Architecture (1949).

B. S., Pennsylvania State College.

ALFRED GRIEF, Instructor in Architecture (1947).

B. S., Vanderbilt University.

MARILYN MOORE GROFF, Library Assistant in Architecture (1949).

B. S., Kansas State College.

CHARLES LOUIS HAUFERMEHL, Instructor in Drawing and Painting (1947).

B. F. A., Bethany College.

WILLIAM ARTHUR HANEY, Graduate Research Assistant in Chemical Engineering (1949).

B. S., University of Colorado.

LESTER ORNAN HECKETHORN, Instructor in Machine Design (1947).

B. S., Kansas State Teachers College (Pittsburg).

JOHN CRANSTON HEINTZELMAN, Associate Professor of Architecture (1947, 1948).

B. Arch., Massachusetts Institute of Technology; M. Arch., Columbia University.

LINN HELANDER, Professor and Head of Department of Mechanical Engineering; Mechanical Engineer, Engineering Experiment Station (1935).

B. S., University of Illinois.

JOHN FREDERICK HELM, JR., Professor of Drawing and Painting (1924, 1938).

B. D., Syracuse University.

KENNETH DEAN HEWSON, Assistant Professor of Electrical Engineering (1945, 1949).

B. S., M. S., Kansas State College.

JEROME CHAUNCEY HILL, Instructor in Electrical Engineering (1947, 1948).

B. S., Purdue University; M. S., Kansas State College.

- LELAND STANFORD HOBSON, Professor of Industrial Engineering; Assistant Director, Engineering Experiment Station (1946, 1947).
B. S., Kansas State College.
- HARRY RICHARD HOLMES, Instructor in Mechanical Engineering (1948).
B. S., Kansas State College.
- WILLIAM HENRY HONSTEAD, Associate Professor of Chemical Engineering (1943, 1947).
B. S., M. S., Kansas State College.
- ABRAM ELDRED HOSTETTER, Associate Professor of Shop Practice (1934, 1945).
B. S., McPherson College; M. S., Ph. D., Kansas State College.
- HARRY EARL HOUSE, JR., Instructor in Mechanical Engineering (1948, 1949).
B. S., University of Wyoming.
- KENNETH ALFRED HUB, Graduate Research Assistant in Chemical Engineering (1949).
B. S., University of Wisconsin.
- EUGENE BEUTLER HUNT, Graduate Assistant in Electrical Engineering (1949).
B. S., South Dakota State College.
- ORVILLE DON HUNT, Professor of Electrical Engineering (1923, 1947).
B. S., State College of Washington; M. S., Kansas State College.
- DONALD JAMES JACKS, Instructor in Mechanical Engineering (1949).
B. S., University of Oklahoma.
- CLINTON OTTO JACOBS, Instructor in Agricultural Engineering (1949).
B. S., Kansas State College.
- FRANK EDGAR JAMES, Graduate Assistant in Chemical Engineering (1949).
B. S., Carnegie Institute of Technology.
- LOUIS MARK JORGENSEN, Associate Professor of Electrical Engineering (1925, 1935).
B. S., M. S., Kansas State College.
- RUSSELL MARION KERCHNER, Professor of Electrical Engineering (1922, 1934).
B. S., University of Illinois; M. S., Kansas State College.
- WILLIAM ROBERT KIMEL, Assistant Professor of Machine Design (1946, 1947).
B. S., M. S., Kansas State College.
- ROYCE GERALD KLOEFFLER, Professor and Head of Department of Electrical Engineering; Electrical Engineer, Engineering Experiment Station (1916, 1927).
B. S., University of Michigan; S. M., Massachusetts Institute of Technology.
- FREDERICK LEE KRAMER, Instructor in Civil Engineering (1948, 1949).
B. S., Kansas State College.
- GLEN ALDEN KRIDER, Assistant Professor of Architecture (1949).
B. S., Kansas State College.
- HAROLD LEROY KUGLER, Associate Professor of Agricultural Engineering (1946).
B. S., M. S., Kansas State College.
- FRANK KURZYSKE, JR., Graduate Assistant in Civil Engineering (1949).
B. S., Tennessee Polytechnic Institute.
- GEORGE HERBERT LARSON, Associate Professor of Agricultural Engineering (1939, 1946).
B. S., M. S., Kansas State College.

- EARL DRAIS LAYMAN, Assistant Professor of Architecture (1947, 1949).
B. S., B. Arch., University of Oregon.
- SHANG WU LIN, Graduate Research Assistant in Applied Mechanics (1949).
B. S., National Fu-Ton University (Shanghai, China).
- EDWIN CURCUS LINDLY, Instructor in Applied Mechanics (1949).
B. S., Oklahoma Agricultural and Mechanical College; M. S., Purdue University.
- RALPH IDEN LIPPER, Assistant Professor of Agricultural Engineering (1946).
B. S., Kansas State College.
- PAUL LAWRENCE LYMAN, Instructor in Agricultural Engineering (1949).
B. S., Kansas State College.
- DANIEL EMMETT LYNCH, Assistant Professor of Shop Practice; Foreman of
Blacksmith Shop (1914, 1947). Retired.
- WILLIAM JOHN McCLURE, Instructor in Shop Practice (1946).
- JEROME EDGAR McCONNELL, Graduate Assistant in Applied Mechanics (1949).
B. S., Kansas State College.
- FRANK JAMES McCORMICK, Professor of Applied Mechanics (1939, 1948).
B. S., M. S., Iowa State College.
- JOHN GERALD McENTYRE, Assistant Professor of Civil Engineering (1946,
1949).
B. S., M. S., Kansas State College.
- MELVILLE JONES MARNIX, JR., Assistant Instructor in Chemical Engineering
(1949).
B. S., Kansas State College.
- LOUIS GLASER MARTSOLF, Instructor in Drawing and Paining (1947).
B. F. A., A. M., Cornell University.
- GEORGE ATHOLSTONE MELLARD, Instructor in Machine Design (1947).
B. S. in M. E., B. S. in E. E., Kansas State College.
- ENRICO P. MERCANTI, Graduate Research Assistant in Mechanical Engineering
(1949).
B. S., New York University.
- ALVA DONALD MESSENHEIMER, Instructor of Machine Design (1947).
B. S., Kansas State College.
- ALVA ERNEST MESSENHEIMER, Assistant Professor of Machine Design (1942,
1946).
B. S., Kansas State College.
- WARD McCLELLAN MILLER, Instructor in Applied Mechanics (1947).
B. S., Kansas State College.
- REED FRANKLIN MORSE, Professor and Head of Department of Civil Engineer-
ing; Civil Engineer, Engineering Experiment Station (1929, 1947).
B. A., Cornell College; B. S., Iowa State College; M. S., Kansas State College; Ph. D.,
Cornell University.
- DONALD GEORGE MOSS, Instructor in Electrical Engineering (1947, 1948).
B. S. in E. E., B. S. in Bus. Admin., M. S., Kansas State College.
- HAROLD HAWLEY MUNGER, Assistant Professor of Applied Mechanics (1939,
1947).
B. S., M. S., Kansas State College.

- KERMIT BEARD MYERS, Instructor in Mechanical Engineering (1947).
B. S., Wisconsin State Teachers College; B. S. in M. E., Kansas State College.
- CLARENCE LESLIE NELSON, Instructor in Shop Practice (1943).
- DWIGHT ALVIN NESMITH, Instructor in Mechanical Engineering (1948).
B. S., Northwestern University.
- RALPH GRIFFITH NEVINS, JR., Instructor in Mechanical Engineering (1948).
B. S. in Naval Tech., B. S. in M. E., M. S., University of Minnesota.
- HUO-HSI PAN, Graduate Assistant in Mechanical Engineering (1949).
B. S., National Southwest Associated University (China); M. S., Texas Agricultural and Mechanical College.
- ROSS IRWIN PAULI, Instructor in Machine Design (1947).
A. B., Western Union College; M. S., Kansas State Teachers College (Pittsburg).
- CLINTON ELLICOTT PEARCE, Professor and Head of Department of Machine Design (1917, 1923).
B. S., Massachusetts Institute of Technology; M. S., Cornell University.
- GERALD PICKETT, Professor of Applied Mechanics (1929, 1945).
B. S., Oklahoma Agricultural and Mechanical College; M. S., Kansas State College; Ph. D., University of Michigan.
- RICHARD CARTER POTTER, Assistant Dean; Associate Professor of Mechanical Engineering (1949).
B. S., M. S., Ph. D., Purdue University.
- WILLIAM VANCE RAMMEL, Instructor in Architecture (1949).
B. A., University of Notre Dame.
- MILTON EDWARD RAVILLE, Instructor in Applied Mechanics (1947).
B. S., Norwich University; M. S., Kansas State College.
- MARVIN EMOR REINECKE, Instructor in Machine Design (1946, 1947).
B. S., Kansas State College.
- OLIVER VIRGIL RILEY, Assistant Professor of Electrical Engineering (1947).
B. S., Kansas State College.
- JULES HENRY ROBERT, Professor of Applied Mechanics (1916, 1925).
B. S., University of Illinois.
- WALTER FREDERICK ROBOHN, Instructor in Civil Engineering (1949).
B. S., Kansas State College.
- MERVYN F. H. ROE, Assistant Professor in Architecture (1948).
A. A. Diploma, Associated Royal Institute of British Architects (London).
- JERZY WAWTZYNIC ROMAN, Assistant Professor of Electrical Engineering (1948).
M. S., Technical University of Warsaw (Poland).
- HARVE DEWEY ROSE, Assistant Instructor in Mechanical Engineering (1947).
- LEON WASHINGTON SCHINDLER, Assistant Professor of Mechanical Engineering (1947, 1949).
B. S., Kansas State College; M. S., Iowa State College.
- RICHARD AUGUST SCHLEUSENER, Instructor in Agricultural Engineering (1949).
B. S., University of Nebraska.
- CHARLES HENRY SCHOLER, Professor and Head of Department of Applied Mechanics; Materials Testing Engineer, Engineering Experiment Station (1919, 1923).
B. S., Kansas State College.

HARRY WILLIAM SCHULTZ, JR., Research Assistant in Electrical Engineering (1948).

B. S., Kansas State College.

LESLIE ASHTON SCOTT, Instructor in Shop Practice (1947).

ROY ANDREW SEATON, Dean and Director, Emeritus (1904, 1949).

B. S., M. S., Kansas State College; S. B., Massachusetts Institute of Technology; Sc. D., Northeastern University.

GABE ALFRED SELLERS, Professor and Head of Department of Shop Practice; Industrial Engineer, Engineering Experiment Station (1919, 1946).

B. S., M. S., Kansas State College.

GORDON GEORGE SETTERLUND, Instructor in Applied Mechanics (1949).

B. S., University of North Dakota.

JACK PEARSON SHEDD, Instructor in Civil Engineering (1947).

B. S., M. S., University of Wyoming.

WAYNE DELBERT SIEH, Instructor in Machine Design (1946).

EARL LEROY SITZ, Professor of Electrical Engineering (1927, 1948).

B. S., Iowa State College; M. S., Kansas State College.

CHARLES JAMES SLAWSON, Instructor in Electrical Engineering (1948).

B. S., Kansas State College.

JACOB JAY SMALTZ, Associate Professor of Shop Practice (1940, 1949).

B. S., Bradley Polytechnic Institute; M. S., Kansas State College.

HOWARD DEWIGHT SMETHERS, Instructor in Shop Practice (1947).

B. S., Kansas State Teachers College (Emporia); M. S., Kansas State College.

BOBBY LEE SMITH, Instructor in Civil Engineering (1947, 1949).

B. S., Kansas State College.

EDWARD M. SMITH, Graduate Research Assistant in Agricultural Engineering (1949).

B. S., University of Georgia.

GERALD MAX SMITH, Instructor in Applied Mechanics (1947, 1948).

B. S., Kansas State College.

FLOYD ALONZO SMUTZ, Professor of Machine Design (1918, 1934).

B. S., Kansas State College.

HARVEY GEORGE SPENCER, Graduate Assistant in Chemical Engineering (1948).

B. S., Kansas State College.

JOE CANNON STAFF, Instructor in Agricultural Engineering (1946).

WALDO EDMUND STARR, JR., Instructor in Mechanical Engineering (1948, 1949).

B. S. in M. E., B. S. in E. E., University of New Mexico.

HERBERT S. SUER, Instructor in Civil Engineering (1949).

B. S., Drexel Institute of Technology.

WAYNE BRADLEY SWIFT, Graduate Assistant in Electrical Engineering (1949).

B. S., University of Nebraska.

ROLLIN GEORGE TAECKER, Associate Professor of Chemical Engineering (1947).

B. S., South Dakota School of Mines and Technology; M. S., Ph. D., University of Wisconsin.

HAROLD TAPAY, Instructor in Mechanical Engineering (1949).

B. S., University of British Columbia; M. S., University of Washington.

- DELOS CLIFTON TAYLOR, Associate Professor of Applied Mechanics (1931, 1947).
B. S., M. S., Kansas State College.
- INGOLF EUGENE THORSON, Assistant Professor of Architecture (1948).
B. S., University of Washington.
- GEORGE GRAYDON TIMMONS, Instructor in Shop Practice (1946).
- ROBERT JAMES TIMMS, Graduate Assistant in Applied Mechanics (1949).
B. S., University of Maryland.
- ELMER JOHN TOMASCH, Instructor in Drawing and Painting (1947).
B. S., Western Reserve University.
- WARREN C. TRENT, Associate Agricultural Engineer, Department of Agricultural Engineering, U. S. D. A. (1948).
B. S., Oklahoma Agricultural and Mechanical College; M. S., Purdue University.
- WILSON TRIPP, Professor of Mechanical Engineering (1936, 1947).
B. S., M. S., University of California.
- JOHN H. VONGUNTEN, Instructor in Architecture (1949).
B. A., University of Pennsylvania.
- JOSEPH EVANS WARD, JR., Associate Professor of Electrical Engineering (1940, 1947).
B. S., University of Texas; M. S., University of Illinois.
- HENRY TIBBELS WARD, Professor and Head of Department of Chemical Engineering; Chemical Engineer, Engineering Experiment Station; Chemical Engineer, Agricultural Experiment Station (1948).
B. S., Ph. D., University of Michigan; M. S., University of Wyoming.
- REES CONWAY WARREN, Instructor in Shop Practice (1946).
B. S., Kansas State College.
- PAUL WEIGEL, Professor and Head of Department of Architecture and Allied Arts; Architect, Engineering Experiment Station (1921, 1924).
B. Arch., Cornell University.
- JOHN ELWOOD WHERRY, Instructor in Applied Mechanics (1946).
B. S., Colorado State College; M. S., Kansas State College.
- LEON VINCENT WHITE, Professor of Civil Engineering (1918, 1942).
B. S., M. S., C. E., Kansas State College.
- RONALD WHITELEY, Assistant Professor of Architecture (1947). On leave.
B. Arch., University of Manitoba.
- KEITH GORDON WIKLE, Assistant Professor of Shop Practice (1947).
B. S., South Dakota School of Mines and Technology; M. S., University of Minnesota.
- LEO ANDREW WIRTZ, Instructor in Electrical Engineering (1947).
B. S., Kansas State College.
- RONALD CAMERON WISHART, Instructor in Shop Practice (1948).
- J. EDMOND WOLFE, Associate Professor of Electrical Engineering (1946, 1947).
B. S., M. S., Kansas State College.
- JOE NATE WOOD, Professor of Machine Design (1936, 1947).
B. S., State University of Iowa.
- LEONARD EUGENE WOOD, Instructor in Applied Mechanics (1948, 1949).
B. S., M. S., Kansas State College.

CLAUDE L. WOODARD, Instructor in Shop Practice (1949).
B. S., M. S., Kansas State College.

PHINEAS SKINNER WOODS, Assistant Professor of Mechanical Engineering (1949).
B. S., M. S., Stanford University.

ALLEN ROY YOWELL, Instructor in Shop Practice (1947).

ROBERT JAMES TIMMS, Graduate Assistant in Applied Mechanics (1949).
B. S., University of Maryland.

SCHOOL OF HOME ECONOMICS

ANNA TESSIE AGAN, Associate Professor of Household Economics; Associate Household Economist, Agricultural Experiment Station (1930, 1944).
B. S., University of Nebraska; M. S., Kansas State College.

CORAL KERR ALDOUS, Associate Professor of Child Welfare and Euthenics (1940, 1947).
B. S., Utah State College; M. S., Columbia University.

JESS MCFADDEN ALEXANDER, Assistant Professor of Art (1946).
A. B., Winthrop College; M. A., Columbia University.

ELINOR MURPHY ANDERSON, Graduate Assistant in Household Economics (1948).
B. S., Kansas State College.

LEAH ASCHAM, Professor of Foods and Nutrition; Food Economist, Agricultural Experiment Station (1927, 1943).
A. B., Ohio Northern University; B. S., Ohio State University; Ph. D., Yale University.

DOROTHY BARFOOT, Professor and Head of Department of Art (1930, 1935).
B. A., State University of Iowa; M. A., Columbia University.

JANE WILSON BARNES, Assistant Professor of Household Economics; Assistant Household Economist, Agricultural Experiment Station (1939, 1945).
B. S., M. S., Kansas State College.

GLADYS IRENE BELLINGER, Associate Professor of Child Welfare and Euthenics (1950).
B. S., Kansas State Teachers College (Emporia); M. S., Ph. D., Cornell University.

NINA M. BROWNING, Associate Professor of Foods and Nutrition (1930, 1939).
B. S., M. S., Kansas State College.

KATHERINE MCCAULEY CALDER, Graduate Research Assistant in Foods and Nutrition, Agricultural Experiment Station (1950).
B. Sc., University of Manitoba.

ESTHER E. CHRISTENSEN, Instructor in Institutional Management (1946).
B. S., Kansas State College.

HELEN EDITH CLARK, Assistant Professor of Foods and Nutrition (1950).
B. H. Sc., University of Saskatchewan; M. S., Iowa State College; Ph. D., Iowa State College.

ESTHER MARGARET CORMANY, Associate Professor of Clothing and Textiles; Associate Textile Economist, Agricultural Experiment Station (1936, 1941).
B. S., M. S., Kansas State College.

MYRTLE GUNSELMAN CORRELL, Associate Professor of Household Economics; Associate Household Economist, Agricultural Experiment Station (1926, 1937).
B. S., Kansas State College; A. M., University of Chicago.

- INA FOOTE COWLES, Associate Professor of Clothing and Textiles, Emeritus (1920, 1944).
B. S., Kansas State College; M. S., University of Wisconsin.
- ANNIE GARDNER CUNNINGHAM, Instructor in Institutional Management (1948).
B. S., Kansas State College.
- BARBARA EDITH DENSMORE, Instructor of Clothing and Textiles; Assistant Textile Economist, Agricultural Experiment Station (1950).
B. S., Michigan State College; M. S., Iowa State College.
- NINA EDELBLUTE, Assistant Professor of Institutional Management (1940, 1950).
B. S., M. S., Kansas State College.
- LEOTA SHIELDS EVANS, Instructor in Art (1943).
B. S., M. S., Kansas State College.
- JANE HELEN FERRELL, Instructor in Child Welfare and Euthenics (1950).
B. S., University of Kansas; M. S., University of Wisconsin.
- RUTH ELIZABETH FRANZEN, Agent, U. S. D. A., Bureau of Human Nutrition and Home Economics (1950).
B. S., Bethel College; M. S., Kansas State College.
- ELVA C. FRAZIER, Instructor in Institutional Management (1947).
B. S., Fort Hays Kansas State College.
- ALICE LOUISE GEIGER, Assistant Professor of Art (1945).
A. B., B. F. A., University of Kansas; A. M., Colorado State College.
- GRAYCE GOERTZ, Graduate Research Assistant in Foods and Nutrition, Agricultural Experiment Station (1946, 1950).
B. S., M. S., Kansas State College.
- MINA G. HALL, Agent, U. S. D. A., Bureau of Human Nutrition and Home Economics (1950).
B. S., University of Nebraska; M. S., Ph. D., University of Iowa.
- ANN PATRICIA HARRINGTON, Graduate Research Assistant in Foods and Nutrition, Agricultural Experiment Station (1950).
B. S., Queens College (C. C. N. Y.).
- VIDA A. HARRIS, Associate Professor of Art (1923, 1941).
B. S., Kansas State College; A. M., University of Chicago.
- DOROTHY LUCILE HARRISON, Associate Professor of Foods and Nutrition; Associate Food Economist, Agricultural Experiment Station (1947, 1949).
B. S., Dakota Wesleyan University; M. S., Ph. D., Iowa State College.
- MARJORIE MCCALL HEMPHILL, Instructor in Institutional Management (1947, 1950).
B. S., M. S., Kansas State College.
- KATHARINE PADDOCK HESS, Associate Professor in Clothing and Textile Investigation, Emeritus, Agricultural Experiment Station (1925, 1931).
B. S., M. S., Kansas State College.
- OPAL BROWN HILL, Instructor in Art (1944, 1945).
B. S., M. S., Kansas State College.
- HAZEL DELL HOWE, Associate Professor of Clothing and Textiles (1936, 1947).
B. S., M. S., Kansas State College.
- KATHARINE G. JOHNSTON, Research Assistant in Nutrition, Agricultural Experiment Station (1950).
B. S., M. S., Kansas State College.

- MARGARET M. JUSTIN, Dean; Professor of Home Economics, Agricultural Experiment Station (1923).
B. S., Kansas State College; B. S., Columbia University; Ph. D., Yale University.
- ROSAMOND H. KEDZIE, Associate Professor of Art (1938, 1946).
B. S., Michigan State College; M. A., University of California.
- LEONE BOWER KELL, Professor of Child Welfare and Euthenics (1927, 1927).
B. S., M. S., Kansas State College.
- MARTHA MORRISON KRAMER, Professor; Assistant Dean (1922, 1925).
B. S., University of Chicago; M. S., Ph. D., Columbia University.
- SUSAN SPEARIE LARSON, Instructor in Clothing and Textiles (1950).
B. A., University of Iowa; M. S., University of Wisconsin.
- ALPHA CORINNE LATZKE, Professor and Head of Department of Clothing and Textiles; Textile Economist, Agricultural Experiment Station (1929, 1935).
B. S., M. S., Kansas State College.
- GERTRUDE ELISE M. LIENKAEMPER, Associate Professor of Clothing and Textiles (1941, 1948).
B. S., Oregon State College; A. M., University of Washington.
- LELA LILLIAN LONES, Assistant Professor of Clothing and Textiles (1950).
B. S., University of Iowa; M. S., Cornell University.
- BESSIE L. LOOSE, Field Agent, Department of Household Economics, Agricultural Experiment Station (1950).
B. S., Kansas State College.
- IVALEE HEDGE McCORD, Graduate Assistant in Child Welfare and Euthenics (1949).
B. S., Kansas State College.
- BLYNN CONWAY McGRATH, Field Agent, U. S. D. A., Bureau of Human Nutrition and Home Economics (1950).
B. S., Southwestern University.
- FLORENCE ELIZABETH MCKINNEY, Professor and Head of Department of Household Economics; Household Economist, Agricultural Experiment Station (1937, 1949).
B. S., Kansas State College; M. S., Iowa State College; Ph. D., Ohio State University.
- EVA MYRTLE McMILLAN, Associate Professor of Foods and Nutrition (1930, 1939).
Ph. B., M. S., University of Chicago.
- FLORENCE ELIZABETH MARKEE, Agent, U. S. D. A., Bureau of Human Nutrition and Home Economics (1950).
B. S., Framingham State Teachers College (Massachusetts).
- ABBY L. MARLATT, Associate Professor of Foods and Nutrition; Associate Food Economist, Agricultural Experiment Station (1945).
B. S., Kansas State College; Ph. D., University of California.
- NEOLA SPRINGER MATSON, Temporary Research Assistant in Foods and Nutrition, Agricultural Experiment Station (1950).
B. S., Kansas State College.
- ELSIE LEE MILLER, Assistant Professor of Foods and Nutrition (1942, 1947).
B. S., M. S., Kansas State College.
- HAZEL MARGARET MOLZEN, Instructor in Household Economics (1948).
B. S., Bethel College; M. S., Kansas State College.
- MARIA MORRIS, Associate Professor of Art (1925, 1941).
B. S., M. S., Kansas State College.

- CYNTHIA MORRISH, Research Assistant in Clothing and Textiles, Agricultural Experiment Station (1950).
- IVA MANILLA MULLEN, Assistant Professor of Foods and Nutrition (1936, 1947).
B. S., Kansas State College; M. S., Iowa State College.
- MARGARET ELIZABETH RAFFINGTON, Assistant Professor of Child Welfare and Euthenics; Assistant to the Dean (1938).
B. S., M. S., Kansas State College.
- ADA MAY RIDGWAY, Instructor in Foods and Nutrition; Assistant Food Economist, Agricultural Experiment Station (1948).
B. S., M. S., University of Arizona.
- LOIS R. SCHULTZ, Professor and Head of Department of Child Welfare and Euthenics (1947).
Ph. B., University of Chicago; M. A., University of Michigan; Ed. D., University of California.
- ELVA HORTON SMITH, Graduate Assistant in Child Welfare and Euthenics (1950).
B. S., Oklahoma Agricultural and Mechanical College.
- MARY L. SMULL, Professor of Institutional Management (1939, 1946).
B. S., M. S., University of Southern California.
- MARY IRENE SORENSON, Field Agent, U. S. D. A., Bureau of Human Nutrition and Home Economics (1950).
B. S., Kansas State College.
- DOROTHY SIMMONS SWEARINGEN, Instructor in Institutional Management (1950).
B. S., Kansas State College.
- GWENDOLYN LAVERNE TINKLIN, Assistant Professor of Foods and Nutrition; Assistant Food Economist; Agricultural Experiment Station (1943, 1949).
B. S., M. S., Kansas State College.
- GLADYS ELLEN VAIL, Professor and Head of Department of Foods and Nutrition; in charge of Home Economics Research; Food Economist, Agricultural Experiment Station (1927, 1950).
A. B., Southwestern College; M. S., University of Chicago; Ph. D., University of Minnesota.
- DORA AROCHA VARAKIAN, Research Assistant in Nutrition, Agricultural Experiment Station (1950).
B. S., Central College of Oklahoma.
- FRANCES A. WARD, Instructor in Art (1949).
B. S., M. S., Iowa State College.
- BESSIE BROOKS WEST, Professor and Head of Department of Institutional Management (1928).
A. B., M. A., University of California.
- BEULAH D. WESTERMAN, Professor of Foods and Nutrition; Food Economist, Agricultural Experiment Station (1941, 1946).
B. S., University of Missouri; M. S., University of Chicago; Ph. D., University of Illinois.
- JENNIE WILLIAMS, R. N., Professor of Child Welfare and Euthenics (1932, 1947).
B. S., M. S., Kansas State College; Graduate of University of Michigan School of Nursing.
- MARIE CLARA WILMETH, Field Agent, U. S. D. A., Bureau of Human Nutrition and Home Economics (1950).
B. S., Texas State College for Women; M. S., Kansas State College.

RUTH PEDDICORD WISE, Assistant Instructor in Art (1947).

B. S., Kansas State College.

MERNA MILLER ZEIGLER, Associate Professor of Institutional Management (1939, 1947).

B. S., M. S., Kansas State College.

INSTITUTE OF CITIZENSHIP

EARL E. EDGAR, Professor of Philosophy (1946).

A. B., DePauw University; A. M., University of Nebraska; Ph. D., University of Cincinnati.

ALBERT COOLIDGE ELDRIDGE, Assistant Professor of Government (1948).

A. B., University of Massachusetts; A. M., University of Chicago.

CAROL B. STENSLAND, (Temporary) Assistant in Education (1948).

A. B., Fresno State College.

PER GUSTAF STENSLAND, Associate Professor of Education (1948).

M. A., University of Stockholm.

CARL TJERANDSEN, Director; Professor of Economics (1945, 1948).

A. B., State College of Washington; M. B. A., University of Washington.

ELDON G. WHEELER, Assistant Professor of Education (1948).

A. B., Wooster College; A. M., University of Chicago.

SCHOOL OF VETERINARY MEDICINE

AUGUST RUSSELL BORGMANN, Assistant Professor of Pathology (1947, 1949).

B. S., Colorado State College; M. S., D. V. M., Kansas State College.

JAMES H. BURT, Professor of Veterinary Medicine and Anatomy, Emeritus (1909, 1946).

V. S., Ontario Veterinary College; D. V. M., Ohio State University.

MAXINE Z. CALEY, Assistant to the Dean (1946).

B. S., Kansas State College.

RALPH R. DYKSTRA, Dean, Emeritus; Professor of Surgery (1911, 1948).

D. V. M., Iowa State College.

EDWARD R. FRANK, Professor of Surgery (1926, 1935).

B. S., D. V. M., M. S., Kansas State College.

EDWIN JACOB FRICK, Professor and Head of Department of Surgery and Medicine (1919, 1926).

D. V. M., Cornell University.

ARCHIE LEROY GOOD, Assistant Professor of Physiology (1946).

D. V. M., University of Pennsylvania.

RICHARD HENRY GOODALE, Instructor of Anatomy (1950).

B. S., D. V. M., Michigan State College.

ROSS LYMAN JEWELL, Assistant Professor of Pathology (1944, 1947).

D. V. M., Kansas State College; M. S., Ohio State University.

ALICE D. KIMBALL, Instructor in Pathology (1935, 1948).

B. S., Kansas State College.

CHARLES HOWARD KITSELMAN, Professor of Pathology; Pathologist, Agricultural Experiment Station (1919, 1932).

D. V. M., University of Pennsylvania; M. S., Kansas State College.

ELDEN E. LEASURE, Dean; Professor of Physiology; Veterinarian, Agricultural Experiment Station (1926, 1948).
M. S., D. V. M., Kansas State College.

JOHN WALLACE LUMB, Associate Professor of Anatomy (1924, 1947).
D. V. M., M. S., Kansas State College.

WILLIAM M. MCLEOD, Professor and Head of Department of Anatomy (1919, 1944.).
D. V. M., Iowa State College.

JACOB EUGENE MOSIER, Associate Professor of Surgery and Medicine (1945, 1950).
D. V. M., M. S., Kansas State College.

FRANK A. MURRY, Instructor of Surgery and Medicine (1950).
D. V. M., Kansas State College.

FAYNE HIGGINS OBERST, Associate Professor of Surgery and Medicine (1943, 1948).
D. V. M., Kansas State College.

EDWARD A. RHODE, JR., Instructor in Surgery and Medicine (1948).
D. V. M., Cornell University.

LEE MILES RODERICK, Professor and Head of Department of Pathology; Pathologist, Agricultural Experiment Station (1938).
B. S., M. S., North Dakota State College; Ph. D., University of Chicago; D. V. M., Ohio State University.

EARL J. SPLITTER, Assistant Professor of Pathology (1946).
D. V. M., Kansas State College.

MELVIN JOHN SWENSON, Assistant Professor of Physiology; Physiologist, Agricultural Experiment Station (1950).
D. V. M., Kansas State College; M. S., Ph. D., Iowa State College.

MARVIN JOHN TWIEHAUS, Assistant Professor of Pathology; Pathologist, Agricultural Experiment Station (1949).
D. V. M., Kansas State College.

GRAVERS K. L. UNDERBJERG, Professor and Head of Department of Physiology (1948).
B. S., Royal Veterinary and Agricultural College; D. V. M., Ph. D., Iowa State College.

RONALD FREDERICK VETTER, Assistant Professor of Surgery and Medicine (1950).
D. V. M., Cornell University.

DIVISION OF COLLEGE EXTENSION

ROBERT E. ACRE, JR., County Club Agent, Labette County (1950). Altamont.
B. S., Kansas State College.

HENRY JOSEPH ADAMS, Agricultural Agent, Republic County (1934). Belleville.
B. S., Kansas State College.

OSCAR WAYNE ALBRECHT, Agricultural Agent, Cheyenne County (1949). St. Francis.
B. S., Kansas State College.

GERTRUDE EDNA ALLEN, Professor of Foods and Nutrition (1929, 1946).
B. S., University of Minnesota; M. S., Kansas State College.

WILLIAM G. AMSTEIN, Professor of Horticulture (1927, 1944).
B. S., Massachusetts Agricultural College; M. S., Kansas State College.

- BETTY ANGELLE, Home Demonstration Agent, Clark County (1950). Ashland.
B. S., Texas State College for Women.
- KATE C. ARCHER, Instructor in Home Furnishings (1948).
B. S., Kansas State College.
- MAHALA M. ARGANBRIGHT, Home Demonstration Agent, Smith County (1949).
B. S., Kansas State College.
- CHARLES H. AUFDENGARTEN, Agricultural Agent, Greenwood County (1950).
Eureka.
B. S., Kansas State College.
- FLOYD A. BACON, County Club Agent, Butler County (1946). El Dorado.
B. S., Kansas State College.
- HARRY CHARLES BAIRD, Associate Professor and District Agent (1919, 1947).
B. S., Kansas State College.
- EVANS EUGENE BANBURY, Agricultural Agent, Sherman County (1940).
Goodland.
B. S., Kansas State College.
- W. H. BARKER, County Club Agent, Cherokee County (1950). Columbus.
B. S., Oklahoma Agricultural and Mechanical College.
- HELEN L. BARNES, Home Demonstration Agent, Linn County (1949). Mound
City.
B. S., University of Missouri.
- ELLEN M. BATCHELOR, Assistant in Home Economics (1917, 1942).
B. S., Kansas State College.
- CLIFFORD BECKWITH, County Club Agent, Leavenworth County (1948). Leavenworth.
- FRANK GEARHART BIEBERLY, Associate Professor of Agronomy (1941, 1949).
B. S., M. S., Kansas State College.
- ADA GRACE BILLINGS, Professor of History and Government (1921, 1946).
B. S., M. S., Kansas State College.
- JUANITA IRENE BILLINGTON, Home Demonstration Agent, Crawford County
(1948). Girard.
B. S., Kansas State College.
- JULIUS FLOYD BINDER, Agricultural Agent, Rush County (1948). La Crosse.
B. S., Kansas State College.
- BENNIE BIRD, Agricultural Agent, Clark County (1950). Ashland.
B. S., Kansas State College.
- RUTH HELEN BISHOP, Home Demonstration Agent, Nemaha County (1947).
Seneca.
B. S., Kansas State College.
- CORA A. BLACKWILL, Home Demonstration Agent, Kearny County (1948,
1950). Lakin.
B. S., Fort Hays State College.
- BEULAH C. BLAHA, Home Demonstration Agent, Edwards County (1949).
Kinsley.
B. S., Kansas State College.
- FRANK OTTO BLECHA, Professor of Agricultural Extension; District Agricultural
Agent (1917, 1947).
B. S., M. S., Kansas State College.

- WILLIS LEE BLUME, Agricultural Agent, Haskell County (1948). Sublette.
B. S., Texas Agricultural and Mechanical College.
- EDWIN RALPH BONEWITZ, Assistant Professor of Dairy Husbandry (1949).
B. S., Kansas State College.
- MARY ELSIE BORDER, Associate Professor of Junior Extension; Assistant State Club Leader (1927, 1944).
B. S., Ohio State University; M. A., Columbia University.
- ETHEL P. BRENNER, Home Demonstration Agent, Leavenworth County (1949, 1950). Leavenworth.
B. S., University of Missouri.
- LEE JUSTIN BREWER, Agricultural Agent, Riley County (1936). Manhattan.
B. S., Kansas State College.
- VIVIAN B. BRIGGS, Instructor in Family Life; Specialist (1946).
B. S., University of Nebraska.
- MARTHA ESTHER BRILL, Assistant Professor of Home, Health, and Sanitation; Specialist (1946, 1948).
B. S., Kansas State College.
- BLANCHE BROOKS, Home Demonstration Agent, Pratt County (1941, 1942). Pratt.
B. S., Kansas State College.
- ARLO ALLEN BROWN, Agricultural Agent, Stafford County (1942). St. John.
B. S., Kansas State College.
- DONALD ALBERT BROWN, County Club Agent, Crawford County (1950). Girard.
B. S., Kansas State College.
- ROBERT W. BRUSH, County Club Agent, McPherson County (1948). McPherson.
B. S., Kansas State College.
- HERBERT WILLIAM BULK, Agricultural Agent, Leavenworth County (1949). Leavenworth.
B. S., Kansas State College.
- MARGARET KIRBY BURTIS, Associate Professor, District Home Demonstration Agent (1943, 1947).
B. S., M. S., Kansas State College.
- GLENN M. BUSSET, Assistant Professor of Junior Extension; Assistant State Club Leader (1941, 1948).
B. S., Kansas State College.
- ELGIN R. BUTTON, Agricultural Agent, McPherson County (1943, 1950). McPherson.
B. S., Kansas State College.
- WALTER W. CAMPBELL, Agricultural Agent, Osage County (1942). Lyndon.
B. S., Colorado Agricultural College.
- FREDERICK WAINWRIGHT CAREY, Agricultural Agent, Wallace County (1944). Sharon Springs.
- MARY SUSAN CARL, Home Demonstration Agent, Gray County (1947, 1950). Cimarron.
B. S., Kansas State College.
- GLEN R. CARTE, Agricultural Agent, Stanton County (1950). Johnson.
B. S., Kansas State College.

- ANNA GRACE CAUGHORN, Home Demonstration Agent, Chautauqua and Woodson Counties (1944, 1950). Sedan.
B. S., Kansas State College.
- JACOB WAYNE CHAMBERS, County Club Agent, Ford County (1949). Dodge City.
B. S., Kansas State College.
- JAMES R. CHILDERS, County Club Agent, Sedgwick County (1944). Wichita.
B. S., Oklahoma Agricultural and Mechanical College.
- JOSEPH BURBANK CHILEN, Agricultural Agent, Grant County (1947, 1948). Ulysses.
B. S., Kansas State College.
- MONTE C. CLARK, Agricultural Agent, Kiowa County (1950). Greensburg.
B. S., Kansas State College.
- EUGENE ARTHUR CLEAVINGER, Professor of Agronomy (1931, 1946).
B. S., Kansas State College.
- ROGER K. COLBY, Agricultural Agent, Jefferson County (1949, 1950). Oskaloosa.
B. S., Kansas State College.
- PAUL E. COLLINS, Assistant Professor of Farm Forestry (1949).
B. S., M. S., Oklahoma Agricultural and Mechanical College.
- MARY E. COOK, Home Demonstration Agent, Stevens County (1949). Hugoton.
Kansas State College.
- HELEN E. COOL, Home Demonstration Agent, Geary County (1950). Junction City.
B. S., Kansas State College.
- JOHN H. COOLIDGE, Professor of Agricultural Economics (1926, 1949).
B. S., M. S., Kansas State College.
- LOUIS WILTON COOPER, Agricultural Agent, Ottawa County (1945, 1947). Minneapolis.
- MABEL COVERDILL, Home Demonstration Agent, Washington County (1947). Washington.

- MILTON N. THOMAS, Agricultural Agent, Comanche County (1949). Coldwater.
B. S., Kansas State College.
- WILTON BRADLEY THOMAS, Agricultural Agent, Cloud County (1946). Concordia.
B. S., Kansas State College.
- ALONZO FRANKLIN TURNER, Professor, Emeritus; Field Agent (1917, 1947).
B. S., Kansas State College.
- HARRY JOHN CHARLES UMBERGER, Dean, Emeritus (1911, 1947).
B. S., Kansas State College.
- MARY RUTH VANSKIKE, Home Demonstration Agent, Allen County (1943, 1947). Iola.
B. S., Kansas State College.
- CLARENCE WILLIAM VETTER, Agricultural Agent, Atchison County (1918). Effingham.
B. S., Iowa State College.
- FAYE E. VICE, Home Demonstration Agent, Labette County (1946, 1947). Altamont.
B. S., Kansas State College.
- LEROY L. VINEYARD, Agricultural Agent, Decatur County (1948, 1950). Oberlin.
B. S., Kansas State College.
- EUGENE D. WARNER, Associate Professor of Technical Journalism and Associate Extension Editor (1935, 1946).
B. S., Kansas State College.
- MARION WALTERS, Home Demonstration Agent, Morton and Stanton Counties (1950). Elkhart.
B. S., University of Kansas.
- LEO T. WENDLING, Assistant Professor of Engineering Extension (1947, 1949).
B. S., Kansas State College.
- WILLIS RAYMOND WENRICH, Agricultural Agent, Barber County (1939). Medicine Lodge.
B. S., Kansas State College.

- HERMAN W. WESTMEYER, Agricultural Agent, Ford County (1936, 1937).
Dodge City.
B. S., University of Missouri.
- WILBUR WALDO WHITE, Agricultural Agent, Morton County (1942, 1943).
Elkhart.
A. B., Southwestern College; B. S., Kansas State College.
- NORMAN VINCENT WHITEHAIR, Assistant Professor of Agricultural Economics
(1946).
B. S., Kansas State College.
- LOWELL D. WICHAM, County Club Agent, Allen County (1950). Iola.
B. S., Oklahoma Agricultural and Mechanical College.
- M. CHRISTINE WIGGINS, Associate Professor of Clothing and Textiles (1930,
1946).
B. S., Kansas State College; M. S., Columbia University.
- LOUIS COLEMAN WILLIAMS, Dean and Director (1915, 1947).
B. S., Kansas State College.
- JACK H. WILSON, Agricultural Agent, Wichita County (1946, 1950). Leoti.
B. S., Kansas State College.
- LUTHER EARL WILLOUGHBY, Professor of Agronomy (1917, 1942).
B. S., Kansas State College.
- EVELYN WILSON, Home Demonstration Agent, Johnson County (1942). Olathe.
B. S., Kansas State College.
- PAUL HENRY WILSON, Agricultural Agent, Barton County (1946, 1947). Great
Bend.
B. S., Kansas State College.
- RICHARD W. WINGER, County Club Agent, Saline County (1949). Salina.
B. S., Kansas State College.
- JACK D. WISE, Agricultural Agent, Rawlins County (1948, 1950). Atwood.
B. S., Kansas State College.
- LLOYD LESLIE WISEMAN, County Club Agent, Marion County (1949, 1950).
Marion.
B. S., Kansas State College.
- RALPH WITTMAYER, County Club Agent, Wyandotte County (1947). Kansas
City.
B. S., Missouri University.
- ELIZABETH WONER, Home Demonstration Agent, Harper County (1948, 1950).
Anthony.
A. B., Southwestern College.
- MARY D. ZIEGLER, Home Demonstration Agent, Shawnee County (1928).
Topeka.
B. S., Kansas State College.

Statistical Summary for 1949-1950

Students by States, Foreign Countries, and Kansas Counties

States

Alabama	4	Nevada	1
Arkansas	14	New Jersey	56
California	27	New Mexico	9
Colorado	20	New York	127
Connecticut	8	North Carolina	1
District of Columbia	4	Ohio	9
Florida	8	Oklahoma	32
Georgia	4	Oregon	5
Illinois	51	Pennsylvania	31
Indiana	19	Rhode Island	1
Iowa	18	South Carolina	3
Kansas	6,786	South Dakota	8

DEGREES CONFERRED IN THE YEAR 1950

SCHOOL	Men	Women	Total
School of Agriculture (B. S.)	375	2	377
Agriculture	317	1	318
Agricultural Journalism	9	9
Landscape Design	7	1	8
Milling Industry	42	42
School of Arts and Sciences (B. S.)	554	146	700
General Curriculum	260	111	371
Business Administration	213	13	226
Industrial Chemistry	21	2	23
Industrial Journalism	26	7	33
Bachelor of Music	1	1	2
Music Education	4	4	8
Physical Education	29	8	37
School of Engineering and Architecture (B. S.)	632	632
Agricultural Engineering	30	30
Architecture	69	69
Architectural Engineering	43	43
Chemical Engineering	53	53
Civil Engineering	84	84
Electrical Engineering	160	160
Industrial Arts	47	47
Mechanical Engineering	146	146
School of Home Economics (B. S.)	1	121	122
Home Economics	1	112	113
Home Economics and Journalism	8	8
Home Economics and Nursing	1	1
School of Veterinary Medicine (D. V. M.)	71	71
Veterinary Medicine	71	71
Total undergraduate degrees	1,633	269	1,902
Graduate School (M. S.)	163	41	204
Agricultural Economics	1	1
Agricultural Engineering	7	7
Agronomy	12	12
Animal Husbandry	1	1
Animal Husbandry and Bacteriology	1	1
Applied Mechanics	3	3
Architecture	1	1
Art	2	2
Bacteriology	7	1	8
Botany and Plant Pathology	3	6
Chemical Engineering	6	6
Chemistry	14	3	17
Child Welfare and Euthenics	4	4
Civil Engineering	3	3
Clothing and Textiles	3	3
Dairy Husbandry	1	1
Economics and Sociology	6	1	7
Education and Psychology	23	9	32
