

DEVELOPMENT OF A NETWORK ALGORITHM AND ITS
APPLICATION TO COMBINATORIAL PROBLEMS

by *RG*

ROBERT GARY PARKER

B. S., Kansas State University, 1968

A MASTER'S THESIS

submitted in partial fulfillment of the

requirements for the degree

MASTER OF SCIENCE

Department of Industrial Engineering

KANSAS STATE UNIVERSITY
Manhattan, Kansas

1970

Approved by:

Major Professor

ACKNOWLEDGEMENT

I would like to express a sincere debt of gratitude to my Major Professor, Dr. Said Ashour, for his guidance in the preparation of this work. It was he who not only suggested this piece of research but, more importantly, instigated the writer's great interest in scheduling theory.

Also, I would like to thank Dr. Frank A. Tillman, Head of the Department of Industrial Engineering; Dr. L. E. Grosh, Department of Industrial Engineering; and Dr. N. D. Eckhoff, Department of Nuclear Engineering, for their assistance.

Finally, I want to express thanks to Mrs. F. Rod Harris for her invaluable assistance in typing this thesis.

TABLE OF CONTENTS

	page
ACKNOWLEDGEMENT	i
LIST OF TABLES	ii
LIST OF FIGURES	iii
CHAPTER I. INTRODUCTION	1
1.1 The Combinatorial Problem	2
1.2 Historical Background	4
1.3 Proposed Research	6
CHAPTER II. DEVELOPMENT OF A NETWORK APPROACH	8
2.1 Basic Concepts	8
2.2 Sample Problem	18
2.3 A Network Algorithm	26
CHAPTER III. APPLICATIONS TO COMBINATORIAL PROBLEMS	29
3.1 The Traveling Salesman Problem	29
3.2 The Project Scheduling Problem	40
3.3 The Explosion Problem	50
CHAPTER IV. COMPUTATIONAL EXPERIMENTS	55
4.1 Job Shop Problems	55
4.2 Traveling Salesman Problems	65
CHAPTER V. SUMMARY AND CONCLUSIONS	74
BIBLIOGRAPHY	78
APPENDIX A: SCHEDULE ALGEBRA OPERATORS	80
APPENDIX B: A SCHEDULE ALGEBRA ALGORITHM	99
APPENDIX C: A BOUNDING PROCEDURE	121
APPENDIX D: COMPUTER PROGRAM	132
