

STUDY OF THE OPTICAL ABSORPTION AND DICHROISM
OF COLOR CENTERS IN GAMMA-IRRADIATED LiF:Mg

by

Luke Chen-Yuan Jen

B. S., Fu Jen Catholic University, 1969

M.S., Kansas State College of Pittsburg, 1974

A MASTER'S THESIS

submitted in partial fulfillment of the
requirements for the degree

MASTER OF SCIENCE

TABLE OF CONTENTS

320

	Page
LIST OF FIGURES	iii
ACKNOWLEDGEMENTS	v
I. INTRODUCTION	1
II. THEORY	3
2.1 Color Centers in LiF	3
2.2 Models of Z Centers	6
2.3 Color Centers in LiF:Mg	10
III. EXPERIMENTAL PROCEDURE	12
3.1 Experimental Samples	12
3.2 Thermal Treatment	12
3.3 Gamma Irradiation	13
3.4 Optical Absorption Measurements	13
3.5 Optical Bleaching	18
IV. RESULT AND DISCUSSION	21
4.1 Optical Absorption of Gamma-Irradiated TLD-100	21
4.2 Optical Bleaching of TLD-100 with Unpolarized Light at 254 nm	25
4.3 Optical Bleaching of TLD-100 with Unpolarized Light at 313 nm and 280 nm	33
4.4 Study of Dichroism of the Z_2 Center in TLD-100	42
4.4.1. Optical Bleaches with Polarized Light at 313 nm and with Unpolarized Light at 254 nm	42
4.4.2. Optical Bleaches at 313 nm with Light Polarized in [010] and in [001] Directions	55
V. SUMMARY AND CONCLUSIONS	65
VI. REFERENCES	68
VII. APPENDICES	71
Appendix A Relation between the Absorbance and the Absorption Coefficient	71
Appendix B Neutron Activation Analysis of TLD-100 Samples	72

**THIS BOOK
CONTAINS
NUMEROUS PAGES
WITH THE ORIGINAL
PRINTING BEING
SKEWED
DIFFERENTLY FROM
THE TOP OF THE
PAGE TO THE
BOTTOM.**

LIST OF FIGURES

Figure	Page
1 Models for the Z_2 centers proposed by Pick, Seitz, Kojima, Ohkura and Adlhart et al.	8
2 Glass dewar sample holder for optical absorption measurements	15
3 Crystallographic representation of the direction of propagation and the direction of the polarization of the incident light	17
4 Experimental arrangement used to optically bleach LiFi:Mg	20
5 Optical absorption spectra of gamma-irradiated TLD-100 measured with unpolarized light at 90 °K and 300 °K	23
6 Optical absorption spectra of irradiated TLD-100 measured with unpolarized light at 300 °K before and after an optical bleach with unpolarized light at 254 nm at 300 °K	27
7 Optical absorption spectra of irradiated TLD-100 measured with [011] polarized light at 300 °K before and after an optical bleach with unpolarized light at 254 nm at 300 °K	29
8 Optical absorption spectra of irradiated TLD-100 measured with [0 $\bar{1}$ 1] polarized light at 300 °K before and after an optical bleach with unpolarized light at 254 nm at 90 °K	31
9 Optical absorption spectra of irradiated TLD-100 measured with unpolarized light at 90 °K before and after an optical bleach with unpolarized light at 313 nm at 90 °K	35
10 Optical absorption spectra of irradiated TLD-100 measured with unpolarized light at 90 °K before and after optical bleaches with unpolarized light at 313 nm and with unpolarized light at 280 nm at 90 °K	39
11 Optical absorption spectrum of unirradiated TLD-100 measured with unpolarized light at 300 °K after 400 °C anneal for 16 hours	41
12 Optical absorption spectra of irradiated TLD-100 measured with unpolarized light at 90 °K before and after an optical bleach with unpolarized light at 280 nm at 90 °K	44
13 Optical absorption spectra of irradiated TLD-100 measured with unpolarized light at 90 °K before and after optical bleaches with [0 $\bar{1}$ 1] polarized light at 313 nm and with unpolarized light at 254 nm at 90 °K	46

Figure	Page
14 Optical absorption spectra of irradiated TLD-100 measured with [011] polarized light and with [0 $\bar{1}$ 1] polarized light at 90 °K before the bleach	49
15 Optical absorption spectra of irradiated TLD-100 measured with [011] polarized light and with [0 $\bar{1}$ 1] polarized light at 90 °K after an optical bleach with [0 $\bar{1}$ 1] polarized light at 313 nm at 90 °K	51
16 Optical absorption spectra of irradiated TLD-100 measured with [011] polarized light and with [0 $\bar{1}$ 1] polarized light at 90 °K after an optical bleach with unpolarized light at 254 nm at 90 °K following the bleach which [0 $\bar{1}$ 1] polarized light at 313 nm at 90 °K	54
17 Optical absorption spectra of irradiated TLD-100 measured with unpolarized light at 90 °K before and after bleaches with [010] polarized light at 313 nm and with [001] polarized light at 313 nm at 90 °K	57
18 Optical absorption spectra of irradiated TLD-100 measured with [010] polarized light at 90 °K before and after optical bleaches with [010] polarized light at 313 nm and with [001] polarized light at 313 nm at 90 °K	59
19 Optical absorption spectra of irradiated TLD-100 measured with [001] polarized light at 90 °K before and after optical bleaches with [010] polarized light at 313 nm and with [001] polarized light at 313 nm at 90 °K	61

ACKNOWLEDGEMENTS

The author dedicates this work to his wife, Julie, for her love, patience and invaluable assistance throughout this work.

The author wishes to express his sincere gratitude to Dr. Joseph F. Merklin for his assistance and guidance in completing this work. Sincere thanks are due to Michael J. McEwan, Hector Ocampo, Blaine Lemmons and Steve Howe for their help in the performance of Neutron Activation Analysis, to Patrick Gardner for his help in drawing the figures and Brenda Carney for typing this thesis. The financial assistance given by the Department of Nuclear Engineering is greatly appreciated.
