TO

- 1) The patience and tolerance of my committee members,
- 2) The enjoyment of research and hopefully the death  
of my procrastination,
- 3) And to a Friend.

### ACKNOWLEDGMENTS

The author would like to thank Sandia Laboratories, Albuquerque, N.M. for providing financial support and the K.S.U. Electrical Engineering Department for the computing facilities used in connection with this report.

The author would also like to acknowledge the privilege of being taught by and working with Dr. D.H. Lenhert, Dr. M.S.P. Lucas and Dr. N. Ahmed as well as other faculty members of the K.S.U. Electrical Engineering Department. Thanks is also extended to persons who have served as committee members, my major professor Dr. N. Ahmed, Dr. D.H.Lenhert, Dr. D.W. Curtis, and Dr. D. Hummels.
